Presented appropriate knowledge and skills to become health literate. Explore ways to teach health skills and knowledge and use assessment strategies for health education.

When Offered (Offered fall semester)

Prerequisite: Grade C or better in KIN 3015 or certified K-12 teacher.

HLED4130 - Management of Coordinated School Health Programs

Credits: 3

Reviews the coordinated school health program (CSHP) model and identifies research that supports the eight components of the model. Prepares students to advocate for CSHP and to develop the school infrastructure necessary to carry out such a program. Also prepares individuals to work with school from job settings outside the school.

Dual Listed HLED 5130.

When Offered (Offered fall semester)

Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

PSYC2210 - Drugs and Behavior

Credits: 3

Surveys drugs which affect behavior, emphasizing both psychotherapeutic agents and drugs with abuse potential. Includes brief introduction to the chemistry of the brain and how drugs may have their effects. Behavioral, social, historical and medical aspects of each major class of psychoactive drugs are discussed.

Prerequisite: A grade of C or better in PSYC 1000.

OR

HLED4030 - Teaching About Alcohol and Substance Abuse

Credits: 3

Introduces students to the issues of societal and personal attitudes towards alcohol and substance use, misuse and abuse. Prepares an educator to teach about alcohol and substance abuse in the classroom and out of the school setting.

Prerequisite: Sophomore standing; minimum 2.750 GPA; or permission of instructor.

School Health Education K-12 Endorsement (For Physical Education Teacher Education Majors)

In addition to completing the Bachelor of Science degree in physical education teacher education from the University of Wyoming, students can qualify for K-12 endorsements in adapted physical education and/or health education by completing the following course requirements:

Course Requirements

HLED4025 - Teaching Sensitive Issues In Human Sexuality

Credits: 3

Prepares educators and other helping professionals whose work involves promoting healthy sexuality in children, young people, and adults. It also provides detailed investigation into important aspects of teaching sensitive issues related to human sexuality. Students practice, critique, develop, and evaluate sexuality education processes and resources.

Dual Listed HLED 5025.

Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

HLED4110 - Teaching Health in Schools K-12

Credits: 3

Presented appropriate knowledge and skills to become health literate. Explore ways to teach health skills and knowledge and use assessment strategies for health education.

When Offered (Offered fall semester)

Prerequisite: Grade C or better in KIN 3015 or certified K-12 teacher.

HLED4120 - Assessment in Health

Credits: 3

Provide students with an understanding of components of a balanced assessment system in school health education. Students review the basics of standards-based health education and explore innovations in assessment that provide teachers and students with a more complete and authentic picture of student learning.

Prerequisite: Minimum 2.500 GPA; concurrent enrollment in KIN 4099 or certified K-12 teacher.

HLED4130 - Management of Coordinated School Health Programs

Credits: 3

Reviews the coordinated school health program (CSHP) model and identifies research that supports the eight components of the model. Prepares students to advocate for CSHP and to develop the school infrastructure necessary to carry out such a program. Also prepares individuals to work with school from job settings outside the school.

Dual Listed HLED 5130.

When Offered (Offered fall semester)

Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

PSYC2210 - Drugs and Behavior

Credits: 3

Surveys drugs which affect behavior, emphasizing both psychotherapeutic agents and drugs with abuse potential. Includes brief introduction to the chemistry of the brain and how drugs may have their effects. Behavioral, social, historical and medical aspects of each major class of psychoactive drugs are discussed.

Prerequisite: A grade of C or better in PSYC 1000.

OR

HLED4030 - Teaching About Alcohol and Substance Abuse

Credits: 3

Introduces students to the issues of societal and personal attitudes towards alcohol and substance use, misuse and abuse. Prepares an educator to teach about alcohol and substance abuse in the classroom and out of the school setting.

Prerequisite: Sophomore standing; minimum 2.750 GPA; or permission of instructor.

Division of Medical Education

Family Medicine Residency Programs

Designated Institutional Officer: Beth Robitaille
(307) 234-6161

Casper: Brian Veauthier, Director
(307) 234-6161

Cheyenne: Evan Norby, Director
(307) 777-7911

Professors:

JAIME HORNECKER, B.S. Texas Tech University 1999; PharmD University of Wyoming 2003; Clinical Professor of Pharmacy Practice, School of Pharmacy, Family Medicine, Casper.

MICHAEL MILLER, B.A. Wheaton College 1992; D.O. Kirksville College of Osteopathic Medicine 2000, Clinical Professor of Family Medicine, Cheyenne.

BETH ROBITAILLE, B.A. University of Notre Dame 1991; M.D. Creighton University School of Medicine 1995; Clinical Professor of Family Medicine, Casper.

BRIAN M. VEAUTHIER, B.S. University of Notre Dame 1996; M.D. Georgetown University School of Medicine 2001; Clinical Professor of Family Medicine, Casper.

Associate Professors:

ZACH DEISS, B.A. University of Wyoming 1979; M.D. Creighton University School of Medicine 1987; Clinical Associate Professor of Family Medicine, Casper.

RONALD L. MALM, B.S. University of Wyoming 1988; D.O. The University of Health Sciences, College of Osteopathic Medicine 1992; Clinical Associate Professor of Family Medicine, Cheyenne.

LEENA MYRAN, B.S. University of Wyoming 2012; PharmD. University of Wyoming School of Pharmacy 2012; Clinical Associate Professor of Pharmacy Practice, Family Medicine, Casper.

SHARON KARNES, B.S. University of Washington School of Medicine 1997; M.D. University of Washington School of Medicine 2001; Clinical Associate Professor of Family Medicine, Casper.

CAROLINE KIRSCH, B.S. University of Wyoming 1993, 2002; M.S. University of Wyoming 1996; D.O. New York College of Osteopathic Medicine 2007; Clinical Associate Professor of Family Medicine, Casper.

DOUGLAS S. PARKS, B.S. Baker University 1978; M.D. University of Kansas 1984; Associate Professor of Family Medicine, Cheyenne.

CYNTHIA WORKS, B.A. Creighton University 1981; M.D. University of Arizona College of Medicine 1985; Clinical Associate Professor of Family Medicine, Casper

Assistant Professors:

RACHELLE BOND, B.S. University of Arizona 2005; D.O. A.T. Still University School of Osteopathic Medicine 2012; Clinical Assistant Professor of Family Medicine, Cheyenne.

GENOMARY KRIGBAUM-PE'REZ, B.A. Carroll College 2003; M.A. Arizona School of Professional Psychology 2007; PsyD. Arizona School of Professional Psychology 2009; Clinical Assistant Professor of Family Medicine, Casper.

BLAINE LEVY, B.S. Midwestern University 2008; D.O. Arizona College of Osteopathic Medicine of Midwestern University 2012; Clinical Assistant Professor of Family Medicine, Casper.

EVAN NORBY, B.S. Brigham Young University 2007; D.O. Arizona College of Osteopathic Medicine 2012; Clinical Assistant Professor of Family Medicine, Cheyenne.

TABITHA THRASHER, B.S. University of Central Missouri 2001; D.O. Rocky Vista College of Osteopathic Medicine 2012; Clinical Assistant Professor of Family Medicine, Cheyenne.

Lecturers

LAURA CAPASSO, B.A. University of Wyoming 2012; M.S. University of Wyoming 2014; Ph.D. University of Northern Colorado, 2019; Assistant Lecturer, Family Medicine, Cheyenne.

PAMELA OILER, B.S.W. University of Wyoming 1999; M.S.W. Colorado State University 2005; Associate Lecturer, Family Medicine, Cheyenne.

To address the need for broadly trained primary care physicians in Wyoming, the Wyoming Legislature established two residency programs in the specialty of family medicine. These two accredited, university-administered, community-hospital based family medicine residency programs are located in Casper and Cheyenne. They enroll up to 42 residents (14 in each of three years). The two family medicine centers maintain a 1:4 faculty to resident ratio. The program at Casper began in 1976 and is affiliated with Wyoming Medical Center. The program utilized the services and facilities provided by the Educational Health Center of Wyoming. The Rural Training Track Program is a partnership with the Casper core program and Hot Springs County Memorial Hospital that provides a unique, hands-on experience for rural practice by training in the rural community of Thermopolis, Wyoming. It enrolls up to 3 residents (1 in each of three years). Casper's Geriatric fellowship is Wyoming's only post-graduate medical education training program. The fellowship provides training specialized in geriatrics to produce Board-certified geriatricians to care for the state's aging population. The Cheyenne program became active in 1980 and is affiliated with Cheyenne Regional Medical Center. The program utilizes the services and facilities provided by the Educational Health Center of Wyoming and has a close working relationship with the Veterans Administration Hospital. Both centers include spacious examining rooms; treatment and casting rooms; x-ray facilities; offices for faculty, residents and staff; complete laboratories; multiphasic research areas; conference rooms; business offices and roomy waiting rooms with play areas in the clinical component. In the educational component, both include large auditoriums; learning resource centers and administrative offices. Particular emphasis in both centers is placed on preparing physicians for rural practice and other facets of medical practice that are unique to Wyoming.

WWAMI Medical Education Program

Laramie: Brant Schumaker, Director
(307) 766-2497
John Willford, Assistant Director

Associate Professors

BRANT SCHUMAKER, B.S. University of California, Davis 2001; D.V.M. University of California, Davis 2005; Master of Preventative Veterinary Medicine University of California, Davis 2006; Ph.D. University of California, Davis 2010; Associate Professor, Division of Kinesiology & Health, WWAMI.

CAMERON WALKER, B.S. Iowa State University of Science and Technology 1996; M.A. Iowa State University of Science and Technology 2000; Ph.D. University of Oregon 2006; Clinical Associate Professor, WWAMI.

JOHN WILLFORD, B.S. University of Wyoming 2005; Ph.D. University of Wyoming 2008; Clinical Associate Professor, WWAMI.

Assistant Professors

ANA CLARA BOBADILLA, B.S. Pierre and Madam Curie University 2006; M.S. Pierre and Madam Curie University 2008; Ph.D. Pierre and Madam Curie University 2014; Assistant Professor, School of Pharmacy, WWAMI.

DANIELLE BRUNS, B.S. Linfield College 2008; M.S. Colorado State University 2010; Ph.D. Colorado State University 2013; Assistant Professor Kinesiology & Health, WWAMI.

JULIE CARLSON, B.S. University of Wyoming 1985; M.D. Creighton University 1989; Clinical Assistant Professor, WWAMI.

ESTHER GILMAN-KEHRER, B.S. University of Wyoming 1986; M.S. University of Wyoming 1998; Post-Master's F.N.P. University of Colorado 2000; Post-Master's Nurse Midwifery 2002; D.N.P. University of Colorado 2012; Clinical Assistant Professor, Fay W. Whitney School of Nursing, WWAMI.

DANA GOVAERTS, B.S. University of Nebraska 1988; M.D. University of Nebraska Medical Center 1992; Clinical Assistant Professor, WWAMI.

TRACEY HAAS, B.S. Southwest Texas State University 1996; D.O. University of North Texas Health Sciences Center 2001; M.P.H. University of Texas Health Sciences Center 2012; Clinical Assistant Professor, WWAMI.

EMILY SCHMITT, B.S. Elon University 2007; M.S. University of North Carolina-Charlotte 2009; Ph.D. Texas A&M University 2015; Assistant Professor Kinesiology & Health, WWAMI.

The University of Wyoming medical contract program enhances medical education opportunities for Wyoming residents. In March 1996, the University of Wyoming became a partner in the WWAMI (Washington, Wyoming, Alaska, Montana, Idaho) Program. The WWAMI program is Wyoming's medical school and the program delivers the first two years of the University of Washington School of Medicine (UWSOM) medical school curriculum on the University of Wyoming campus. The remaining two years of the curriculum are spent in clinical rotations throughout the five-state WWAMI region. Twenty Wyoming residents are accepted into the WWAMI program each year and receive their M.D. degree from the UWSOM. For further information, contact the Wyoming WWAMI Office, College of Health Sciences, Laramie, Wyoming 82071, (307) 766-2496.

Graduate

WWAMI Medical Education

The WWAMI Medical Education Program is Wyoming's medical school. Our students are admitted into the University of Washington School of Medicine, complete their foundation phase in Laramie at UW, and finish their medical education in the WWAMI region.

Required Courses

HM6710 - Fund. Medical Sci. & Research

Credits: 1
Max Credit 9

Comprehensive introduction to foundational basic science and research concepts in medicine. Topics covered include molecular and cell biology; human physiology, genetics and biochemistry; community health and disease; clinical epidemiology, research study design and data analysis. Incorporates fundamental principles of anatomy, pathology, and pharmacology, and medicine in society.

Restricted Restricted to WWAMI medical students

HM6603 - Clinical Studies

Credits: 2

Instruction in communication skills, interviewing techniques, physical examination, documentation and clinical reasoning. The course will include hospital based patient encounters and developing comfort and introduction to the physical role.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6720 - Infection & Immunity

Credits: 1

Max Credit 7

Comprehensive introduction to the fundamentals of the immune system; microbiology; infectious diseases; inflammation and repair. Topics covered include the pathogenesis and immunity of infectious disease, immunodeficiencies, hypersensitivity, autoimmunity, and the basis of immunologic diagnostics. Integrates relevant principles of anatomy, pathology, and pharmacology and medicine in society.

Restricted Restricted to WWAMI medical students

HM6730 - Cancer, Hormones & Blood1

Credits: 1

Max Credit 7

Comprehensive introduction to the fundamentals of endocrinology, hematology, and oncology. Topics covered include endocrine regulation of metabolism; normal physiology and pathophysiologic mechanisms responsible for clinically important endocrine disorders; disturbances in red cell, white cell and platelet production; abnormalities of hemostasis; and malignant neoplasia. Integrates relevant principles of anatomy, pathology and pharmacology, and medicine in society.

Restricted Restricted to WWAMI medical students

(7 credits required)

HM6602 - Introductory Primary and Continuity Care Clerkship

Credits: 2

Introduces medical students to continuity of care by working with practicing physicians. The course demonstrates how to work with an individual to help them achieve optimal health, and includes topics in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health and pain management.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

- HM 6740 (5 credits required)

HM6750 - Cardiovascular System

Credits: 5
Max Credit 5

Provides an interdisciplinary approach to cardiovascular medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Topics include thoracic anatomy, cardiac electrophysiology, cardiac muscle mechanics, myocardial infarction, and cardiac repair.

Restricted Restricted to WWAMI medical students.

HM6755 - Medicine, Health, & Society 1

Credits: 1
Max Credit 1

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

Restricted WWAMI medical students only.

HM6760 - Respiration and Regulation

Credits: 6
Max Credit 6

Provides an interdisciplinary approach to respiratory and renal-urinary medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Topics include ventilatory mechanics, gas exchange, renal function, and common renal & pulmonary-vascular diseases.

Restricted Restricted to WWAMI medical students.

HM6770 - Head, Neck, & Gut

Credits: 5
Max Credit 5

Integrates discussions of head/neck anatomy, metabolism, and gastrointestinal/liver physiology including physiology and pathophysiology of digestion and hepatic function. Relevant anatomy, pathology, and pharmacology of the gastrointestinal systems will be covered.

Restricted Restricted to WWAMI medical students.

HM6775 - Medicine, Health, & Society 2

Credits: 3
Max Credit 3

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing

healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

Restricted WWAMI medical students only.

HM6800 - Mind, Brain, Behavior

Credits: 9

Explains the foundational principles of the organization and function of the head, neck, and central nervous system with a focus on clinical application of this knowledge to systematically approach the differential diagnosis and management of major neurologic, psychiatric, and behavioral disorders. Covers current therapeutic approaches to disease including pharmacological, behavioral, surgical, and other therapies.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6900 - Life Cycles and Reproduction

Credits: 5

Covers normal and abnormal human development reproductive functions including formation and maturation of ova and sperm, menstruation, normal pregnancy, and labor and delivery. Provides information concerning infertility, family planning techniques, urinary disorders, and reproductive aging and demography of human population. Includes relevant fundamental scientific principles in pelvic anatomy, pathology, histology, imaging, and pharmacology.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

Emeriti:

Pamela D. Larsen, Mary E. Burman, Beverly McDermott, Holly Miller, Mary Anne Purtzer, Kimberly Raksa-Miller, Susan H. Steiner, Beverly Taheri-Kennedy, Fay W. Whitney, Norma Wilkerson

The Fay W. Whitney School of Nursing (FWWSON) has well established B.S.N, M.S., and D.N.P. programs based upon national nursing education standards.

Mission

The FWWSN educates, conducts research and provides service and practice to improve, protect and promote health.

Accreditation and Membership

The baccalaureate and graduate programs are accredited by the Commission on Collegiate Nursing Education (CCNE).

The baccalaureate program (Basic BSN, BRAND) is approved by the Wyoming State Board of Nursing (WSBN). Graduates of the Basic BSN and BRAND options are qualified to apply to take national licensing examination: NCLEX. Graduates of the DNP Program are eligible to take the national certification exams as a nurse practitioner.

Technical Standards for Admission

All nursing students must be able to perform the essential functions of a nurse, including observation/sensory motor; communication; psychomotor; intellectual-conceptual, integrative and quantitative; and behavioral and social attributes. Please refer to the "Technical Standards for Admission", including information on reasonable accommodations, on the school's website: <http://www.uwyo.edu/nursing/programs/technical-standards-for-admission.html>.

Background Checks Requirement

Students enrolled in clinical training programs within the College of Health Sciences are placed in educational and clinical settings where highly vulnerable clients such as minor children, individuals with disabilities, and/or the elderly, are routinely served. These clinical/ practice training sites (including schools, hospitals, pharmacies, and other university sites) routinely require criminal background checks for all students who engage in clinical activities. Therefore, background checks shall be required on all applicants to programs in the College of Health Sciences prior to admission into their prospective program.

Students applying for admission into the nursing major component of the BSN Program, the MS Program, and the DNP Program will be notified by the FWWSN at the time of any admission offer the process for completing the required background check. Previous background checks (e.g. CNA Certification, LPN or RN Licensure) are not acceptable to fulfill this expectation. The results of the background check may determine final admittance to the program.

Students may also be required to update the criminal background check. Each clinical training site will be informed that students have passed a background check prior to placement at that site; some sites may require a more current background check. Clinical agencies may bar a student access to their facility for clinical experiences based on the results of the background check. If faculty and staff are not able to place the student in an alternative setting, the student will not be able to complete the program. In addition, students seeking readmission into the program are required to complete a new background check. Students are responsible for the costs associated with the admission background check and any other background checks that may be required.

Drug Screening Requirement

Drug screening may be required by some clinical training sites. Students will be notified by the FWWSO should this be an expectation of them. Students may incur charges for this screening and will be notified of such at that time. Drug and/or alcohol testing for any student can be requested by the FWWSO.

The Fay W. Whitney School of Nursing provides a curriculum based on the solid foundation of a general studies program. University students are individuals who come with learning preferences, different experiences, varied goals, and therefore, have unique learning needs. The primary responsibility of faculty is to empower students to become self-directed learners. Active learning is a teaching/learning partnership.

Health Insurance Requirement

Health insurance coverage is a requirement of the Fay W. Whitney School of Nursing for participation in any clinical rotation. It is the responsibility of the student to obtain and maintain coverage for **ALL** clinical rotations. Students will be notified by the FWWSO should this be an expectation for them as well as timing for completion of the FWWSO Student Verification of Health Insurance Form.

Undergraduate Study

Bachelor of Science in Nursing (BSN) Program

The Fay W. Whitney School of Nursing provides a curriculum based on the solid foundation of a general studies program. University students are individuals who come with learning preferences, different experiences, varied goals, and therefore, have unique learning needs. The primary responsibility of faculty is to empower students to become self-directed learners. Active learning is a teaching/learning partnership.

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.

5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Bachelor of Science in Nursing (BSN) Program Options

The Fay W. Whitney School of Nursing offers a baccalaureate program with three options to obtain the BSN degree:

1. Basic BSN - a four-year, on-campus BSN option for the student who wishes to become a registered nurse at the baccalaureate level.
2. BRAND (Bachelors Reach for Accelerated Nursing Degree) - an accelerated BSN outreach option for the student who has already achieved a previous non-nursing baccalaureate degree and who wishes to become a registered nurse at the baccalaureate level.
3. BSN Completion - two online BSN options (ReNEW and RN-BSN):
 - ReNEW (Revolutionizing Nursing Education in Wyoming) - an online BSN option for the student or graduate of a Wyoming community college ReNEW nursing program who wishes to become a baccalaureate-prepared nurse.
 - RN-BSN - an online BSN option for the graduate of a non-ReNEW associate degree or diploma nursing program who wishes to become a baccalaureate-prepared nurse.

Please refer to the appropriate BSN program option section that follows below.

Graduate Study

The Fay W. Whitney School of Nursing offers two graduate programs leading to: 1) a Master of Science (M.S.) degree and 2) a Doctor of Nursing Practice (D.N.P.) degree.

Master of Science (MS) Program

The MS program of study is for nurses who desire to become nurse educators or nurse leaders in any academic or health-related setting. The program mission is to prepare transformational learners and leaders to advance nursing education and practice, thus, addressing the complexities in the 21st century healthcare system. Core curricular concepts woven through the curriculum include transformation, communication, interconnected global perspective, outcomes orientation, and rural population health.

Expected Student Learning Outcomes

MS graduates are prepared to ensure better care, better health, and lower costs through their knowledge, skills, and abilities to:

- Demonstrate competence and caring in the advanced professional nurse role to serve Wyoming, the region, and the world in urban, rural, and frontier health care settings as a provider, leader, and/or educator in the health care system.
- Transform rural health through leadership, service, and clinical scholarship that reflects an interconnected and comprehensive global health perspective.
- Demonstrate an advanced understanding of nursing and other sciences and humanities and integrates this knowledge to manage and improve health care across settings
- Synthesize broad organizational, financial, economic, client-centered, and culturally appropriate concepts from nursing and other sciences to address population health.
- Engage in scholarly inquiry and evidence-based practice to lead change for quality outcomes and implement safe health care to diverse populations in a variety of settings.

Core Concepts:

- **Transformation:**
Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.
- **Rurality/Frontier:**
Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.
- **Service:**
Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.
- **Comprehensive Global Healthcare System Perspective:**
An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.
- **Clinical Scholarship:**
Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Master of Science (MS) Program Concentrations

The Fay W. Whitney School of Nursing offers a masters program with two concentrations to obtain the MS degree:

1. Nurse Educator - a two and a half-year, online MS concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) who desire to become nurse educators.

2. Nurse Leader - a two and a half-year, online MS concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) who desire to become nurse leaders.

Please refer to the MS program section that follows below.

Doctor of Nursing Practice (DNP) Program

The Doctor of Nursing Practice (DNP) degree is the new standard for advanced practice nursing education. The DNP program is open to registered nurses with a minimum of a baccalaureate degree in nursing from a program nationally accredited by an approved nursing education accrediting body.

Expected Student Learning Outcomes

DNP graduates will:

1. engage in evidence-based practice to optimize health outcomes;
2. engage in leadership activities to promote excellence in rural health care.

Doctor of Nursing Practice (DNP) Program Concentrations

The Fay W. Whitney School of Nursing offers a doctoral program with two concentrations to obtain the DNP degree:

1. Family Nurse Practitioner (FMY) - a three-year, DNP concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) that prepares students for careers in rural primary care.
2. Psychiatric Mental Health Nurse Practitioner (PSH) - a three-year, DNP concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) that prepares students for careers in rural psychiatric mental health care.

Please refer to the appropriate DNP program concentration section that follows below.

Major

Nursing, B.S.N., Basic BSN Option

"Basic BSN" is an on-campus BSN option for students who want to become a registered nurse and earn the Bachelor of Science in Nursing degree. Learning facilities include state-of-the-art classrooms and Clinical Simulation Center.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

H- - Human Culture (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken within the student's major department.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Pre-Clinical Component

ENGL1010 - College Composition and Rhetoric

Credits: 3

A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA

USP 2015 Code U5C1

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

CHEM1000 - Introductory Chemistry

Credits: 4

Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.

OR

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

MICR2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.

Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

OR

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

OR

MICR2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors, introduces students to microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical

significance; also covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MOLB 2240.

Prerequisite: LIFE 1010.

OR

MOLB2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.

When Offered Spring

Prerequisite: LIFE 1010.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces

statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

Clinical Component

(Note: Course requirements/expectations are subject to change. Maintain contact with FWWSON for current expectations.)

NURS2340 - Developmental Influences on Health

Credits: 3

Explores interaction between development and health. Discusses human development of physiological, psychological, cognitive, sociocultural, and spiritual systems across the lifespan. Identifies selected theories associated with development over the lifespan and implications for healthcare.

Prerequisite: Completion or concurrent enrollment in NURS 3445 or NURS 3745, NURS 3665 or NURS 3730 and NURS 3790, and PHCY 3450.

NURS3445 - Fundamentals and Health Assessment in Professional Nursing Practice

Credits: 4

This course introduces the concepts of nursing care, safety, and assessment. Students learn to assess and document normal variations and potential alterations of physiological, psychological, sociocultural, spiritual, and developmental dimensions of individuals across the lifespan.

Prerequisite: Completion or concurrent enrollment in NURS 2340, NURS 3665, and PHCY 3450.

NURS3490 - Health Promotion in Professional Nursing Practice

Credits: 4

Students will learn and apply concepts of health promotion across the lifespan. Emphasis is on cultural diversity, health risks, behavior change and healthy practices for individuals, families, and populations. Students will incorporate

evidence in designing interventions to promote health and prevent illness for self and clients.

A&S College Core 2015 **Course changes effective Fall 2022** - Credits: 3 credits; Prerequisite: *NURS 3445, PHCY 4470, and completion or concurrent enrollment in NURS 3690, NURS 3695, and NURS 4125.*

Prerequisite: Progression or admission to the clinical component of the program and completion or concurrent enrollment with NURS 2340, NURS 3435, and PHCY 3450 or PHCY 4450.

NURS3665 - Foundations of Professional Nursing Roles

Credits: 3

This course introduces the student to professionalism, leadership, safety, and patient-centeredness. The concepts emphasized provide the foundation for professional nursing practice.

Prerequisite: Fall 2021: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3635, NURS 3690, and NURS 3695. **Effective Spring 2022**: Completion or concurrent enrollment in NURS 2340, NURS 3445, and PHCY 3450.

NURS3690 - Professional Nursing Acute/Chronic Illness

Credits: 3

Students will examine concepts of nursing practice in the care of adults with acute and chronic illness. Emphasis is on utilizing the nursing process to develop clinical judgement.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: *NURS 3445, PHCY 4470, and completion or concurrent enrollment in NURS 3490, NURS 3695, and NURS 4125.*

Prerequisite: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3635, NURS 3665, and NURS 3695.

NURS3695 - Professional Nursing Acute/Chronic Illness Practicum

Credits: 4

Students provide nursing care using the nursing process in a clinical setting with adult clients experiencing acute and chronic illness. Emphasis is on demonstration of clinical judgement.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: *NURS 3445, PHCY 4470, and completion or concurrent enrollment in NURS 3490, NURS 3690, and NURS 4125.*

Prerequisite: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3635, NURS 3665, and NURS 3690.

NURS3890 - Professional Nursing Care in Complex Illness

Credits: 3

Students will examine concepts of nursing practice in the care of adults with complex illness. Emphasis is on utilizing the nursing process to develop clinical judgment.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: *NURS 3695 and completion or*

concurrent enrollment in NURS 3891, NURS 3892, and NURS 3895.

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3891, 3892, 3895, 4125.

NURS3891 - Professional Nursing Care of Older Adults

Credits: 3

Students will examine concepts of nursing practice in the care of older adults. Emphasis is on utilizing the nursing process to develop clinical judgment.

A&S College Core 2015 **Course changes effective Spring 2023 - Prerequisite:** *NURS 3695 and completion or concurrent enrollment in NURS 3890, NURS 3892, and NURS 3895.*

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3890, NURS 3892, NURS 3895, NURS 4125.

NURS3892 - Professional Nursing Care in Mental Health and Illness

Credits: 3

This course explores mental health and illness concepts. Emphasis is on the role of the professional nurse in caring for clients with alterations in mental health.

A&S College Core 2015 **Course changes effective Spring 2023 - Prerequisite:** *NURS 3695 and completion or concurrent enrollment in NURS 3890, NURS 3891, and NURS 3895.*

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3890, NURS 3891, NURS 3895, NURS 4125.

NURS3895 - Professional Nursing Care in Complex Illness Practicum

Credits: 4

Students provide patient-centered care using the nursing process in clinical setting with adult and older adult clients experiencing complex illness and alterations in mental health. Emphasis is on demonstration of clinical judgment.

A&S College Core 2015 **Course changes effective Spring 2023 - Prerequisite:** *NURS 3695 and completion or concurrent enrollment in NURS 3890, NURS 3891, and NURS 3892.*

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3890, NURS 3892, NURS 3891, NURS 3892, NURS 4125.

NURS4125 - Evidence-Based Nursing

Credits: 3

Prepares students to engage in evidence-based nursing, specifically how to ask meaningful clinical questions, find relevant evidence, critically appraise evidence, and integrate best evidence with clinical expertise and patient/community values.

USP 2003-2014 Code U3L, U3WC

USP 2015 Code U5C3

Prerequisite: WA and WB or COM1 and COM2; STAT 2050 or STAT 2070 or equivalent; admission into the nursing major component of the program.

NURS4665 - Healthcare Informatics in Professional Nursing Practice

Credits: 3

Utilizing a conceptual framework, students will examine nursing informatics within healthcare systems. Emphasis is placed on examining the role of clinical information systems in improving patient outcomes across practice, education, administrative, research, and interdisciplinary applications. Ethical and legal considerations of data management are examined.

A&S College Core 2015 **Course changes effective Fall 2023** - Prerequisite: *NURS 3895 and completion or concurrent enrollment in NURS 4690, NURS 4691, and NURS 4695.*

Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4690, 4691, 4695.

NURS4690 - Professional Nursing Care of Populations

Credits: 4

Introduces the student to population-focused nursing and applies the nursing process to the community as client. Addresses core functions and essential services of public health. Focuses on vulnerable populations; epidemiology; community assessment, planning, and implementation; analysis of the healthcare system; emergency preparedness; and ethical/legal aspects of public health.

A&S College Core 2015 **Course changes effective Fall 2023** - Description: *Introduces the student to population-focused nursing and applies the nursing process to the community as client. Addresses core functions and essential services of public health. Focuses on vulnerable populations; epidemiology; community assessment, and analysis of the healthcare system. Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4665, NURS 4691, and NURS 4695.*

Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4665, NURS 4691, NURS 4695.

NURS4691 - Professional Nursing Care of Children and Families

Credits: 3

This course encompasses the care of women, children, and their families across physiological, psychological, spiritual, developmental, and socio-cultural dimensions. The focus of this class is on women's health, obstetrical, and pediatric nursing care including health promotion and wellness specific to maternal and pediatric health.

A&S College Core 2015 **Course changes effective Fall 2022** - Credits: *4 credits; Course changes effective Fall 2023* - Description: *This course encompasses the care of women, children, and their families across physiological, psychological, spiritual, developmental, and sociocultural dimensions. The focus is on women's health, obstetrical, and pediatric nursing care including health promotion and wellness specific to maternal and pediatric health. Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4665, NURS 4690, and NURS 4695.*

Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4665, NURS 4690, NURS 4695.

NURS4695 - Professional Nursing Care of Populations Practicum

Credits: 4

Students will apply the nursing process to childbearing families, children, and communities. The focus is on physiological, psychological, spiritual, developmental, and socio-cultural dimensions of individuals, families, and populations. Students will incorporate professional nursing roles into population-based care.

A&S College Core 2015 **Course changes effective Fall 2023** - Description: *The focus is on the application of professional nursing roles to the physiological, psychological, spiritual, developmental, and sociocultural dimensions of individuals, families, communities, and populations.* Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4665, NURS 4690, and NURS 4691.

Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4665, NURS 4690, NURS 4691.

NURS4865 - Professional Nursing Leadership

Credits: 3

The role of the nurse leader in nursing practice is developed through integration of leadership, management, and organizational theories. Emphasis is on interprofessional care management, planned change, advocacy, activism, and professional development.

A&S College Core 2015 **Course changes effective Spring 2024** - Description: *The role of the nurse leader is developed through integration of leadership, management, and organizational theories. Emphasis is on interprofessional care, planned change, advocacy, activism, and professional development.* Prerequisite: NURS 4695 and completion or concurrent enrollment in NURS 4895.

Prerequisite: NURS 4695 and completion or concurrent enrollment with NURS 4895.

NURS4895 - Professional Nursing Capstone Practicum

Credits: 9-12

Students utilize and synthesize basic concepts of professional nursing practice. The course socializes students into a healthcare system. Learning experiences allow students to gain confidence in managing patient care, practicing critical thinking, developing leadership and advocacy skills, and exploring ethical decision-making in clinical situations.

A&S College Core 2015 **Course changes effective Spring 2024** - Description: *Students synthesize concepts of professional nursing practice. The course socializes students into a healthcare system. Learning experiences allow students to manage patient care, apply critical judgment, develop leadership and explore ethical decision-making in healthcare settings.* Prerequisite: NURS 4695 and completion or concurrent enrollment in NURS 4865 .

Prerequisite: NURS 4695 and completion or concurrent enrollment with NURS 4865.

With approval from FWWSON, ARMY 3050 may be applied to this requirement and NURS 4895 taken for 9 credits.

PHCY3450 - Foundational Pathophysiology

Credits: 4

Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies.

This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)

Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY4470 - Fundamentals of Pharmacology

Credits: 4

Studies pharmaceutical agents used for treatment, diagnosis or prevention of disease with particular emphasis on mechanisms of action, therapeutic and adverse effects.

When Offered (Normally offered fall semester)

Former Course Number [3510]

Prerequisite: PHCY 3450.

Additional Requirements

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.

10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Admission

Basic BSN has two different admission entries: 1) Freshman Admission to the Nursing major and 2) Non-Freshman Admission to the Nursing major. Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, Basic BSN, Freshman Admission or Non-Freshman Admission under Admission to Basic BSN*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for Basic BSN. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, Basic BSN, Basic BSN Student Handbook - section 6 Scholastic Requirements*).

Curriculum

The minimum requirement to graduate with a BSN is 120 semester hours of credit. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450] and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability.

Nursing courses are offered fall and spring semesters of the university academic calendar. Students are required to have transportation to all clinical sites. A number of clinical sites are located in Cheyenne. The capstone practicum experience during spring of the senior year requires students to live in locations away from campus.

Program of Study

A detailed, semester sequenced Basic BSN Program of Study can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, Basic BSN, Basic BSN Program of Study*). All required courses identified under Pre-Clinical Component and Clinical Component must be passed with a C or better (or S) except for CHEM 1000, which requires a B or better. .

Applicable for: Freshman/Non-Freshman Admission to the Nursing Major

Nursing, B.S.N., BRAND Option

"Bachelors Reach for Accelerated Nursing Degree": an accelerated Bachelor of Science (BSN) option for students with a previous non-nursing baccalaureate degree who desire to become a registered nurse. This option is a 'summer to summer' format with a full-time schedule of courses.

University Studies Program Requirements

The University Studies Program 2015

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Prerequisite Courses

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

MICR2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.

Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

OR

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

OR

MICR2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors, introduces students to microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance; also covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MOLB 2240.

Prerequisite: LIFE 1010.

OR

MOLB2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.

When Offered Spring

Prerequisite: LIFE 1010.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

PHCY3450 - Foundational Pathophysiology

Credits: 4

Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)

Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY4470 - Fundamentals of Pharmacology

Credits: 4

Studies pharmaceutical agents used for treatment, diagnosis or prevention of disease with particular emphasis on mechanisms of action, therapeutic and adverse effects.

When Offered (Normally offered fall semester)

Former Course Number [3510]

Prerequisite: PHCY 3450.

Nursing Courses

(Note: Course requirements/expectations are subject to change. Maintain contact with FWWSO for current expectations.)

NURS2340 - Developmental Influences on Health

Credits: 3

Explores interaction between development and health. Discusses human development of physiological, psychological, cognitive, sociocultural, and spiritual systems across the lifespan. Identifies selected theories associated with development over the lifespan and implications for healthcare.

Prerequisite: Completion or concurrent enrollment in NURS 3445 or NURS 3745, NURS 3665 or NURS 3730 and NURS 3790, and PHCY 3450.

NURS3730 - Introduction to Professional Nursing

Credits: 2

Introduces students to the core concepts of professional nursing practice. Nursing process, domains of nursing practice, health policy, evidence-based practice, legal and professional standards will be introduced.

Prerequisite: Completion or concurrent enrollment in NURS 2340, NURS 3745, NURS 3790, and PHCY 3450.

NURS3745 - Nursing Fundamentals and Health Assessment

Credits: 4

Includes concepts of basic care/comfort, technical skills, medical equipment, asepsis, medication administration, nurse/client safety, and client rights. Students learn to assess and document normal variations and potential alterations of physiological, sociocultural, spiritual, and developmental dimensions of individuals across the lifespan.

Prerequisite: Completion or concurrent enrollment in NURS 2340, NURS 3730, NURS 3790, and PHCY 3450.

NURS3790 - Health Promotion of Individuals, Families, and Populations

Credits: 3

Components of the nursing process and evidence-based nursing practice are used to protect the health of clients through health promotion, risk reduction, and disease prevention.

Prerequisite: Completion or concurrent enrollment in NURS 2340, NURS 3730, NURS 3745, and PHCY 3450.

NURS3770 - Nursing Care in Acute and Chronic Illness

Credits: 8

Discern critical elements of professional nursing medical-surgical concepts for adults experiencing acute/chronic health alterations progressing to complex health alterations. Focuses on patient safety principles; quality initiatives; evidence-based nursing; information technology; interprofessional collaboration, communication; health promotion strategies; and critical thinking in the planning of client centered nursing care for the adult.

Prerequisite: NURS 3745 and completion or concurrent in NURS 3771, NURS 3780, and NURS 4765

NURS3771 - Nursing Care in Acute and Chronic Illness Practicum

Credits: 6

Application of critical elements of professional nursing practice with adults experiencing acute and chronic health alterations. Focus is on incorporation of patient safety principles; quality initiatives; evidence-based nursing practice; information technology; interprofessional collaboration and communication; health promotion strategies; and critical thinking and clinical reasoning in the provision of nursing care.

A&S College Core 2015 **Course changes effective Fall 2022** - Name: *Nursing Care in Acute, Chronic, and Complex Illness Practicum*; Credits: 4 credits; Prerequisite: NURS 3745 and completion or concurrent enrollment in NURS 3770, NURS 3780, and NURS 4765.

Prerequisite: NURS 3710, NURS 3750, NURS 3730, NURS 3780.

NURS3780 - Evidence-Based Practice in Nursing

Credits: 4

Prepares nursing students to engage in evidence-based practice in nursing, specifically how to search the literature and databases, ask meaningful clinical questions, find relevant evidence, critically appraise evidence, integrate best evidence with clinical expertise and patient/community values.

A&S College Core 2015 **Course changes effective Fall 2022** - Credits: 3 credits; Prerequisite: STAT 2050 or STAT 2070 or equivalent; NURS 3745 and completion or concurrent enrollment in NURS 3770, NURS 3771, and NURS 4765.

Prerequisite: admission to the BRAND program, concurrent enrollment in NURS 3770.

NURS4765 - Healthcare Informatics in Nursing

Credits: 3

Students will describe information and technology utilized to communicate, manage knowledge, support clinical decision-making, and effectively optimize patient outcomes while adhering to ethical and legal considerations of data management.

Prerequisite: NURS 3745 and completion or concurrent enrollment in NURS 3770, NURS 3771, and NURS 3780.

NURS4710 - Population Health

Credits: 4

Introduces the student to population-focused nursing and applied the nursing process to the community as client. Addresses core functions and essential services of public health. Focuses on vulnerable populations; epidemiology; community assessment, planning and implementation; analysis of the health care system; emergency preparedness; and legal aspects of public health.

A&S College Core 2015 **Course changes effective Spring 2023** - Name: *Nursing Care for Population Health;*
Description: *Introduces the student to population-focused and public health nursing through the application of the nursing process with the community as client. Focuses on vulnerable populations; epidemiology; community assessment, and analysis of the healthcare system.* Prerequisite: *NURS 3771 and completion or concurrent enrollment in NURS 4735, NURS 4740, and NURS 4771.*

Prerequisite: NURS 3770, NURS 3771; concurrent enrollment in NURS 4740, NURS 4741, NURS 4735, NURS 4736.

NURS4735 - Vulnerable Populations and Mental Health

Credits: 3

This course introduces students to nursing principles and concepts of mental health psychopathology, physiology, psychology, and spirituality, along with developmental and socio-cultural considerations while incorporating treatment modalities related to the nursing of the middle-aged and aging adult.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: *NURS 3771 and completion or concurrent enrollment in NURS 4710, NURS 4740, and NURS 4771.*

Prerequisite: NURS 3770 and NURS 3780; concurrent enrollment in NURS 4736.

NURS4740 - Nursing Care of the Young Family

Credits: 6

Utilizes nursing process to assess, promote, and protect the health of young families as client. Focus is human sexuality and reproduction, family planning, pregnancy stages, neonatal, pediatrics. Growth and development, health promotion, disease prevention, family dynamics are included. Evidence-based nursing guides practice to promote a healthy family and family system.

A&S College Core 2015 **Course changes effective Spring 2023** - Description: *Utilizes nursing process to assess, promote, and protect the health of young families as client. Focus is human sexuality and reproduction, family planning, pregnancy stages, and pediatrics to promote*

a healthy family and family system. Credits: 4 credits; Prerequisite: NURS 3771 and completion or concurrent enrollment in NURS 4710, NURS 4735, and NURS 4771.

Prerequisite: NURS 3770; NURS 3771, and concurrent enrollment in NURS 4741.

NURS4771 - Nursing Care of Young Families and Vulnerable Populations Practicum

Credits: 4

Applies and synthesizes clinical judgment related to nursing care of clients with a focus on the young family and vulnerable populations across the lifespan. Concepts address human sexuality, reproduction, mental health, and core functions of public health.

Prerequisite: NURS 3771 and completion or concurrent enrollment in NURS 4710, NURS 4735, and NURS 4740.

NURS4775 - Nursing Senior Capstone

Credits: 10

Provides opportunities to utilize and synthesize core concepts of professional nursing. Intensive clinical experience allowing students to become socialized into health care delivery system; gain in autonomy/confidence in performing skills; practice critical thinking and clinical reasoning in making ethical clinical decisions; develop leadership in providing and coordinating evidence-based nursing care.

A&S College Core 2015 **Course changes effective Summer 2023 - Description:** *Provides opportunities to synthesize core concepts of professional nursing through intensive clinical experiences. Focuses on students' socialization into the healthcare system through application of clinical judgment in making safe and ethical decisions while coordinating evidence-based nursing care. Prerequisite: NURS 4771 and completion or concurrent enrollment in NURS 4785.*

Prerequisite: NURS 4710; NURS 4735; NURS 4736; and concurrent enrollment in NURS 4785.

NURS4785 - Nursing Integration

Credits: 2

Focuses on the continuing integration of previously learned concepts. The student further develops the role of consumer of research and incorporates leadership and management skills as a member of the profession.

A&S College Core 2015 **Course changes effective Summer 2023 - Name:** *Integration of Leadership in Nursing; Description: Focuses on the continuing integration of previously learned concepts of leadership, management, and professional development. The student further develops their role as a consumer of research and as a leader of an interprofessional healthcare team. Prerequisite: NURS 4771 and completion or concurrent enrollment in NURS 4775.*

Prerequisite: NURS 4735; NURS 4736; NURS 4710; and concurrent enrollment in NURS 4775.

Additional Requirements

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Admission

Students who meet university requirements are admitted to the university in the pre-nursing component of BRAND (*declared PNBR major*). The number of students admitted to BRAND is limited, and admission is a competitive process. Applicants meeting minimum requirements are not guaranteed admission.

Criteria for admission to BRAND as well as application instructions and deadlines can be found on the nursing website, www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BRAND, Admission Criteria/Application*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for BRAND. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BRAND, BRAND Student Handbook - section 6, Scholastic Requirements*).

Curriculum

The minimum requirement for the second bachelor's (SB) degree candidate to graduate with a BSN is 50 semester hours of credit. This curriculum option totals 55 credit hours.

The minimum requirement for an SB degree is 30 additional semester hours earned from UW, 12 of which must be in upper division level courses. If prior baccalaureate degree was earned through UW, the 30 credit minimum is in addition to the credits earned for previous degree. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450] and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability. PHCY 3450 and PHCY 4470 must be completed within three years **before** the May start date.

Program of Study

A detailed, semester sequenced BRAND Program of Study can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BRAND, BRAND Program of Study*). All required courses identified under Prerequisite Courses and Nursing Courses must be passed with a C or better (or S).

Nursing, B.S.N., BSN Completion - ReNEW Option

The BSN Completion - ReNEW (Revolutionizing Nursing Education in Wyoming) option is Wyoming's shared BSN nursing curriculum. Entry into the ReNEW option begins at a participating Wyoming community college ADN nursing program.

University Studies Program Requirements

The University Studies Program 2015

V - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Related Coursework

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring,

theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

CHEM1000 - Introductory Chemistry

Credits: 4

Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.

OR

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

MICR2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.

Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

OR

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

OR

MICR2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors, introduces students to microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance; also covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MOLB 2240.

Prerequisite: LIFE 1010.

OR

MOLB2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.

When Offered Spring

Prerequisite: LIFE 1010.

PHCY3450 - Foundational Pathophysiology

Credits: 4

Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)

Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY4470 - Fundamentals of Pharmacology

Credits: 4

Studies pharmaceutical agents used for treatment, diagnosis or prevention of disease with particular emphasis on mechanisms of action, therapeutic and adverse effects.

When Offered (Normally offered fall semester)

Former Course Number [3510]

Prerequisite: PHCY 3450.

- Humanities Elective course Credits: 3 (*not PSYC 1000*)

Nursing Courses

NURS3005 - ReNEW Distance Foundations

Credits: 1

Prepares learners for ReNEW BSN Completion in a distance delivery format. The course includes concept-based delivery in the UW learning system, APA formatting, writing scholarly papers, and library resources and skills.

Prerequisite: Enrolled in or graduate of Wyoming ReNEW Nursing Program.

NURS4055 - Application of Evidence in Nursing Practice

Credits: 3

Prepares RN students to engage in evidence-based nursing, specifically how to ask meaningful clinical questions, find relevant evidence, critically appraise evidence, and integrate best evidence with clinical expertise and patient/community values.

USP 2003-2014 Code U3L

USP 2015 Code U5C3

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; STAT 2050 or STAT 2070 or equivalent; COM1 and COM2.

NURS4630 - Public/Community Health

Credits: 2

Learners examine public/community health nursing roles and apply the nursing process to community as client. Focuses on improving community health, levels of prevention, and addresses multiple determinants of health. Core functions, essential services, community assessment and planning, emergency preparedness, and analysis of the public healthcare system will be studied.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4635 - Community as Client

Credits: 2

Learners will understand relationships among health, disease, and the environment, with emphasis on the role of community health agencies and programs for communities in need of health care support, regionally, nationally, and globally. In this course, an assessment and planning framework guides students in assessing the health of a community.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4640 - Health Equity

Credits: 2

Learners will examine population-focused concepts to assess vulnerable and oppressed populations. The magnitude of health disparities both in the United States and globally will be discussed. Focuses on a multi-level and multi-cultural view of population health challenges, alleviating health disparities, and a commitment to health equity.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4645 - Population Health

Credits: 2

Focuses on analysis of local, regional, national, and international data that are indicators of population health. Disease outbreaks are analyzed. Learners study development of innovative, collaborative, multi-disciplinary interventions and policies to improve public health. This course provides opportunities for learners to improve population health through application of theory and evidence.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4660 - Healthcare Informatics

Credits: 3

Students will develop knowledge and skills to utilize and evaluate information technologies to improve patient outcomes across diverse populations. Includes the use of Clinical Information Systems to plan and document the nursing process. Ethical and legal considerations of data management and interdisciplinary use of healthcare informatics are presented.

Prerequisite: ReNEW Progression or Current RN license.

NURS4830 - Leadership in Healthcare Today

Credits: 2

Focuses on the role of nurse leader and manager through integration of leadership, management, and organizational concepts, models, and theories. Emphasis in on leadership, followership, management, advocacy, professional development and activism, and managing resources.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4835 - Leading Nursing Practice

Credits: 2

Focuses on nurse leaders making a difference using evidence-based nursing practice. Learners utilize and synthesize basic concepts of professional nursing practice. This course creates the opportunity for learners to lead nursing practice in a variety of settings.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4840 - Healthcare Systems and Policy

Credits: 2

Learners examine healthcare quality and the regulation of professional nursing practice in various settings. The focus is on ethical and legal issues and policy development for healthcare delivery.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4845 - Innovation in Nursing Practice

Credits: 2

Focus in on use and synthesis of concepts in professional nursing practice. This course provides an opportunity to employ critical thinking, to apply ethical decision-making, to use evidence, and to demonstrate the ability to lead planned change.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4855 - Contemporary Nursing Practice

Credits: 2

Focus in on practice as critically effective members and leaders of the healthcare team. Learners analyze a variety of societal, economic, political, and professional issues that influence contemporary nursing. This course provides an opportunity to be creative in examining trends in nursing and healthcare.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

Additional Requirements

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Admission

Students who apply to UW and meet university requirements are admitted to the university in the pre-nursing component of ReNEW BSN (*declared PNRN*). Criteria for UW admission can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BSN Completion, Wyoming's ReNEW*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for BSN Completion. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BSN Completion, Wyoming's ReNEW or RN-BSN, BSN Completion Student Handbook - section 6, Scholastic Requirements*).

Curriculum

The minimum UW requirement to graduate with a BSN in 120 semester hours of credit. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450], and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability.

Program of Study

A detailed Program of Study for ReNEW ADN Entry can be found on the nursing website: www.uwyo.edu/nursing (click on *Nursing Programs, BSN, BSN Completion, Wyoming's ReNEW, Program of Study for ReNEW ADN Entry*). All required courses identified under Related Coursework and Nursing Courses must be passed with a C or better (or S).

Nursing, B.S.N., BSN Completion - RN-BSN Option

The BSN Completion - RN-BSN option is for non-ReNEW associate degree or diploma-educated registered nurses. This option is delivered nationwide with no on-campus time required.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

H- - Human Culture (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken within the student's major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Related Coursework

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA
USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.
OR

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in

overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

CHEM1000 - Introductory Chemistry

Credits: 4

Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.

OR

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

MICR2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.

Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

OR

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

OR

MICR2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors, introduces students to microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance; also covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MOLB 2240.

Prerequisite: LIFE 1010.

OR

MOLB2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.

When Offered Spring

Prerequisite: LIFE 1010.

PHCY3450 - Foundational Pathophysiology

Credits: 4

Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)

Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY4470 - Fundamentals of Pharmacology

Credits: 4

Studies pharmaceutical agents used for treatment, diagnosis or prevention of disease with particular emphasis on mechanisms of action, therapeutic and adverse effects.

When Offered (Normally offered fall semester)

Former Course Number [3510]

Prerequisite: PHCY 3450.

- An approved Human Anatomy course Credits: 4
- An approved Human Physiology course Credits: 4

Nursing Courses

NURS3425 - Bridging Nursing Paradigms

Credits: 3

This course prepares incoming ADN- or Diploma-educated Registered Nurses for completion of the Fay W. Whitney School of Nursing (FWWSON) BSN degree. Nursing knowledge, skills, and abilities in selected content areas will be evaluated and augmented in preparation for BSN Completion coursework.

Prerequisite: Current RN license.

NURS4055 - Application of Evidence in Nursing Practice

Credits: 3

Prepares RN students to engage in evidence-based nursing, specifically how to ask meaningful clinical questions, find relevant evidence, critically appraise evidence, and integrate best evidence with clinical expertise and patient/community values.

USP 2003-2014 Code U3L

USP 2015 Code U5C3

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; STAT 2050 or STAT 2070 or equivalent; COM1 and COM2.

NURS4630 - Public/Community Health

Credits: 2

Learners examine public/community health nursing roles and apply the nursing process to community as client. Focuses on improving community health, levels of prevention, and addresses multiple determinants of health. Core functions, essential services, community assessment and planning, emergency preparedness, and analysis of the public healthcare system will be studied.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4635 - Community as Client

Credits: 2

Learners will understand relationships among health, disease, and the environment, with emphasis on the role of community health agencies and programs for communities in need of health care support, regionally, nationally, and globally. In this course, an assessment and planning framework guides students in assessing the health of a community.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4640 - Health Equity

Credits: 2

Learners will examine population-focused concepts to assess vulnerable and oppressed populations. The magnitude of health disparities both in the United States and globally will be discussed. Focuses on a multi-level and multi-cultural view of population health challenges, alleviating health disparities, and a commitment to health equity.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4645 - Population Health

Credits: 2

Focuses on analysis of local, regional, national, and international data that are indicators of population health. Disease outbreaks are analyzed. Learners study development of innovative, collaborative, multi-disciplinary interventions and policies to improve public health. This course provides opportunities for learners to improve population health through application of theory and evidence.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4660 - Healthcare Informatics

Credits: 3

Students will develop knowledge and skills to utilize and evaluate information technologies to improve patient outcomes across diverse populations. Includes the use of Clinical Information Systems to plan and document the nursing process. Ethical and legal considerations of data management and interdisciplinary use of healthcare informatics are presented.

Prerequisite: ReNEW Progression or Current RN license.

NURS4830 - Leadership in Healthcare Today

Credits: 2

Focuses on the role of nurse leader and manager through integration of leadership, management, and organizational concepts, models, and theories. Emphasis in on leadership, followership, management, advocacy, professional development and activism, and managing resources.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4835 - Leading Nursing Practice

Credits: 2

Focuses on nurse leaders making a difference using evidence-based nursing practice. Learners utilize and synthesize basic concepts of professional nursing practice. This course creates the opportunity for learners to lead nursing practice in a variety of settings.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4840 - Healthcare Systems and Policy

Credits: 2

Learners examine healthcare quality and the regulation of professional nursing practice in various settings. The focus is on ethical and legal issues and policy development for healthcare delivery.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4845 - Innovation in Nursing Practice

Credits: 2

Focus in on use and synthesis of concepts in professional nursing practice. This course provides an opportunity to employ critical thinking, to apply ethical decision-making, to use evidence, and to demonstrate the ability to lead planned change.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4855 - Contemporary Nursing Practice

Credits: 2

Focus in on practice as critically effective members and leaders of the healthcare team. Learners analyze a variety of societal, economic, political, and professional issues that influence contemporary nursing. This course provides an opportunity to be creative in examining trends in nursing and healthcare.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

Escrow Courses

(Credits are automatically posted to the student's UW transcript during the semester of NURS 4855 enrollment. These credits represent credit for nursing content learned in the associate degree or diploma in nursing program.)

(Note: Course requirements/expectations are subject to change. Maintain contact with FWWSO for current expectations.)

NURS3665 - Foundations of Professional Nursing Roles

Credits: 3

This course introduces the student to professionalism, leadership, safety, and patient-centeredness. The concepts emphasized provide the foundation for professional nursing practice.

Prerequisite: Fall 2021: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3635, NURS 3690, and NURS 3695. **Effective Spring 2022:** Completion or concurrent enrollment in NURS 2340, NURS 3445, and PHCY 3450.

NURS3890 - Professional Nursing Care in Complex Illness

Credits: 3

Students will examine concepts of nursing practice in the care of adults with complex illness. Emphasis is on utilizing the nursing process to develop clinical judgment.

A&S College Core 2015 **Course changes effective Spring 2023 - Prerequisite:** *NURS 3695 and completion or concurrent enrollment in NURS 3891, NURS 3892, and NURS 3895.*

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3891, 3892, 3895, 4125.

NURS3895 - Professional Nursing Care in Complex Illness Practicum

Credits: 4

Students provide patient-centered care using the nursing process in clinical setting with adult and older adult clients experiencing complex illness and alterations in mental health. Emphasis is on demonstration of clinical judgment.

A&S College Core 2015 **Course changes effective Spring 2023 - Prerequisite:** *NURS 3695 and completion or concurrent enrollment in NURS 3890, NURS 3891, and NURS 3892.*

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3890, NURS 3892, NURS 3891, NURS 3892, NURS 4125.

Additional Requirements

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Admission

Students who apply to UW and meet university requirements are admitted to the university in the pre-nursing component of RN-BSN (*declared PNBS*). Criteria for admission as well as application instructions can be found on the

nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BSN Completion, RN-BSN, Admission Criteria/ Application*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for BSN Completion. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BSN Completion, Wyoming's ReNEW or RN-BSN, BSN Completion Student Handbook - section 6, Scholastic Requirements*).

Curriculum

The minimum UW requirement to graduate with a BSN in 120 semester hours of credit. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450], and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability.

Program of Study

A detailed Program of Study for RN-BSN Entry can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BSN Completion, RN-BSN, Program of Study for RN-BSN Entry*). All required courses identified under Related Coursework and Nursing Courses must be passed with a C or better (or S).

Graduate

Nursing, D.N.P., Family Nurse Practitioner Concentration

The Family Nurse Practitioner (FMY) concentration prepares advanced practice nurses to provide primary health care to diverse individuals and their families in a variety of outpatient settings, especially rural settings.

DNP Core Courses

NURS5140 - Pharmacotherapy for Primary Care

Credits: 4

Prepares primary care practitioners in drug therapy management for a variety of client populations with an emphasis on rural practice.

Prerequisite: NURS 5601, NURS 5602, NURS 5603, NURS 5604, NURS 5605, and NURS 5830.

NURS5165 - DNP: Adv Pathophysiology

Credits: 2

A system-based approach is used to explore selected pathophysiological states encountered across the lifespan in primary care. The developmental physiology, etiology, pathogenesis, clinical manifestations, and physiological responses to illness and treatment regimens are examined, providing a basis for the foundation of clinical decisions.

Prerequisite: NURS 5603 , NURS 5604 , NURS 5605 , and NURS 5830

NURS5601 - Theoretical Foundations Advanced Practice Nursing

Credits: 3

An introduction to the discipline of nursing for graduate nursing students

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5602 - Advanced Nursing Leadership

Credits: 3

Focus on developing advanced nursing leadership skills and attributes for interprofessional collaboration to create viability of the profession and health-related practice environments

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5603 - Evidence-Based Practice for Advanced Nursing

Credits: 3

Focuses on the use of EBP to solve clinical, educational, and administrative problems in advanced nursing practice.

Prerequisite: Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5604 - Population and Health Policies

Credits: 3

Emphasis on population health, epidemiology, and health policy related to rural and global health issues.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.

NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice

Credits: 3

Emphasis on theoretical and scientific foundations for quality improvement, safety, and informatics in health care.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.

NURS5820 - Health Behavior Change I: Primary Prevention and Wellness

Credits: 3

This course will cover the application of theories and techniques of health behavior change and principles of epidemiology to health issues from the individual to the community level.

Prerequisite: Admission to the DNP program.

NURS5824 - Advanced Health Assessment and Clinical Decision-Making for Nurse Practitioners

Credits: 2

Builds upon basic nursing assessment skills; includes a human cadaver lab experience to enhance learners' understanding of anatomy, physiology, and pathophysiology, progressing to didactic, hands-on practice, and check-offs of student ability to perform client interviewing and advanced physical assessment techniques. Prepares learners for the clinical decision-making required of nurse practitioners.

A&S College Core 2015 **Course changes effective Fall 2022 - Credits: 3 credits; Description:** *Advanced health assessment and diagnostic decision-making for nurse practitioners. Builds on previous nursing assessment skills. Emphasizes person-centered communication skills and a systematic diagnostic-reasoning approach that leads to accurate clinical decision-making. Clinical correlation amongst anatomy, physiology, pathophysiology, and physical examination. Prerequisite: NURS 5140 and NURS 5165.*

Prerequisite: NURS 5165, NURS 5800, NURS 5805, NURS 5810, and NURS 5865

NURS5830 - Health Behavior Change II: Behavioral Skills for Secondary and Tertiary Prevention

Credits: 3

This course will cover the application of health behavior change skills in advanced nursing practice, including theories/models and techniques, with a focus on chronic illness.

Prerequisite: NURS 5820 and NURS 5865.

NURS5865 - DNP Seminar

Credits: 1

Max Credit (Max. 6)

Instructor and student-led discussions designed to facilitate role transition of the doctorally-prepared nurse practitioner. Seminars include topics related to integration and application of nursing and other health-related theories and models in rural nurse practitioner-delivered care.

Prerequisite: Admission to the DNP program.

NURS5866 - DNP Seminar II

Credits: 1

Instructor and students lead discussions designed to facilitate role transition of the doctorally prepared nurse practitioner. Seminars include topics related to transitioning from nurse practitioner students into practicing nurse practitioners.

A&S College Core 2015 **Course changes effective Fall 2023** - Prerequisite: NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891.

Prerequisite: NURS 5891, NURS 5862 and NURS 5883 OR NURS 5891, NURS 5875 and NURS 5876.

NURS5891 - DNP Project I

Credits: 3

In collaboration with a facility, learners will examine clinically relevant data to target a practice and/or patient outcome for improvement. Learners will collect and critically appraise related evidence and develop an intervention, including an outcome evaluation plan.

A&S College Core 2015 **Course changes effective Summer 2023** - Credits: 1 credit; Description: In collaboration with a health-related organization, learners will identify a problem, concern, or question that can be addressed through a rapid cycle quality improvement project for a Doctor of Nursing Practice project. Prerequisite: NURS 5873, NURS 5877 and NURS 5827 or NURS 5882, NURS 5883 and NURS 5828.

Prerequisite: NURS 5850.

NURS5892 - DNP Project II

Credits: 3

Continuation of NURS 5891, DNP Project I. In collaboration with facility, learners will implement the proposed clinical intervention, evaluate the outcome, and professionally disseminate the results.

A&S College Core 2015 **Course changes effective Fall 2023** - Description: Continuation of NURS 5891, DNP Project I. In collaboration with a health-related organization, learners will plan and begin to implement a quality improvement project. Prerequisite: NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891.

Prerequisite: NURS 5891 AND NURS 5875, NURS 5876 OR NURS 5862, NURS 5883.

NURS5893 - DNP Project III

Credits: 1

Continuation of NURS 5892, DNP Project II. In collaboration with a health-related organization, learners will continue to implement their scholarly quality improvement project.

Prerequisite: NURS 5874, NURS 5892 and NURS 5866 or NURS 5863, NURS 5892, NURS 5866.

NURS5894 - DNP Project IV

Credits: 2

Continuation of NURS 5893, DNP Project III. In collaboration with a health-related organization, learners will finalize their scholarly quality improvement project and disseminate the findings.

Prerequisite: NURS 5893.

Family Nurse Practitioner Specialty Courses

NURS5825 - Advanced Health Assessment and Clinical Decision-Making for Family Nurse Practitioners

Credits: 4

Advanced health assessment and diagnostic decision-making for family nurse practitioners. Builds on previous assessment skills and covers specialty exams used in primary care. Emphasizes a systematic diagnostic reasoning approach that leads to accurate clinical decision-making. Additionally, course focuses on sociocultural influences, growth and development, and gender concepts.

A&S College Core 2015 **Course changes effective Fall 2022** - Name: *Advanced Health Assessment for Family NPs*; Credits: *2 credits*; Description: *Advanced primary care assessment skills for family nurse practitioners. Focusing on specialty examination techniques for all body system.* Prerequisite: NURS 5140 and NURS 5165.

Prerequisite: NURS 5166, NURS 5815, NURS 5820, and NURS 5824.

NURS5827 - Skills for Family NP

Credits: 3

Developing skills for advanced practice nursing and practice management for the family nurse practitioner.

Prerequisite: NURS 5824, NURS 5825, NURS 5871, and NURS 5875.

NURS5871 - Wellness for Adults in Primary Care

Credits: 3

Provision of wellness primary care for adults across the lifespan, including primary and secondary prevention.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: *NURS 5165 and NURS 5140.*

Prerequisite: NURS 5140 and NURS 5825.

NURS5872 - Practicum for Wellness in Primary Care

Credits: 3

Clinical practicum for NURS 5871, Wellness for Adults in Primary Care.

A&S College Core 2015 **Course changes effective Summer 2023** - Name: *Practicum: Diagnosis and Management of the Primary Care Client for the FNP I*; Credits: *5 credits*; Description: *Clinical practicum focused on beginning level diagnostic and clinical management competencies for the FNP.* Prerequisite: *NURS 5873, NURS 5877, and NURS 5827.*

Prerequisite: NURS 5140 and NURS 5825.

NURS5873 - Primary Care for Children, Adolescents, and Families

Credits: 3

Provision of primary care for children, adolescents, and families across the lifespan, including primary and secondary prevention.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: *NURS 5871, NURS 5875, NURS 5824, and NURS 5825.*

Prerequisite: NURS 5440, NURS 5830, NURS 5871 and NURS 5872.

NURS5874 - Practicum for Primary Care for Children, Adolescents, and Families

Credits: 3

Clinical practicum for NURS 5873, Primary Care for Children, Adolescents, and Families.

A&S College Core 2015 **Course changes effective Fall 2023** - Name: *Diagnosis and Management of the Primary Care Client for the FNP II;* Credits: *5 credits;* Description: *Clinical practicum that allows students to continue to practice and refine competencies in the FNP role.* Prerequisite: *NURS 5872 and NURS 5891.*

Prerequisite: NURS 5440, NURS 5830, NURS 5871 and NURS 5872.

NURS5875 - Primary Care for Acute & Chronically Ill Adults

Credits: 3

Diagnosis and management of select acute and chronic illnesses experienced by adults across the lifespan. Primary focus is on those physical and behavioral illnesses with high prevalence in rural primary care.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: *NURS 5165 and NURS 5140.*

Prerequisite: NURS 5850.

NURS5876 - Practicum for Primary Care for Acute & Chronically Ill Adults

Credits: 3

Clinical practicum for NURS 5875, Primary Care for Acute & Chronically Ill Adults I.

A&S College Core 2015 **Course changes effective Fall 2023** - Name: *Final FNP Practicum;* Credits: *6 credits;* Description: *This final clinical experience provides learners with the opportunity to integrate previous learning from the FNP program in the provision of evidence-based health care.* Prerequisite: *NURS 5866, NURS 5874, NURS 5892, and NURS 5893.*

Prerequisite: NURS 5850.

NURS5877 - Primary Care for Acute & Chronically Ill Adults II

Credits: 3

Continuation of NURS 5875. Diagnosis and management of select acute and chronic illnesses experienced by adults across the lifespan. Primary focus is on those physical and behavioral illnesses with high prevalence in rural primary care.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: *NURS 5871, NURS 5875, NURS 5824,*

and NURS 5825.

Prerequisite: NURS 5875, NURS 5876 and NURS 5891.

Additional Requirements

Expected Student Learning Outcomes

Graduates will:

1. engage in evidence-based practice to optimize health outcomes; and
2. engage in leadership activities to promote excellence in rural health care.

Core Concepts:

- Transformation:

Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.

- Rurality/Frontier

Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.

- Service

Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.

- Comprehensive Global healthcare system perspective

An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.

- Clinical Scholarship

Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Admission

The University of Wyoming must receive complete application materials for the DNP Program by the application deadline to be considered for fall admission (*the entire DNP application process is completed online*). The applicant is responsible to make certain that UW is in receipt of all application materials/ fees. The number of students admitted is limited. Admission is a competitive process and applicants meeting minimum requirements are not guaranteed admission to the program. Admission to the university does not guarantee admission to the DNP program in the School of Nursing.

Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, DNP, Admission Criteria & Application*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for the DNP Program. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, DNP, DNP Program Student Handbook - section 6 Scholastic Requirements*).

Curriculum

All DNP students, regardless of concentration will take a set of core courses. In addition to the core courses a group of specialty courses are required for each NP concentration. Students earning the DNP degree will complete a final scholarly project which is integrated into the FMY and PSH curricula.

The DNP core and clinical courses will be delivered using a combination of online courses; synchronous video web-conferencing, and hybrid courses with periodic intensive on-campus experiences. Clinical placements will be arranged at health care facilities in Wyoming, north central Colorado, or southern Montana.

Program of Study

A detailed, semester sequenced DNP-FMY Program of Study can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, DNP, DNP-FMY Program of Study*).

Nursing, D.N.P., Psychiatric Mental Health Nurse Practitioner Concentration

The Psychiatric Mental Health Nurse Practitioner (PSH) concentration prepares advanced practice nurses to provide a full range of psychiatric care. Graduates are prepared to assess, diagnose, and manage, to include prescribing psychotropic medications, for people with chronic and acute psychiatric disorders.

DNP Core Courses

NURS5140 - Pharmacotherapy for Primary Care

Credits: 4

Prepares primary care practitioners in drug therapy management for a variety of client populations with an emphasis on rural practice.

Prerequisite: NURS 5601, NURS 5602, NURS 5603, NURS 5604, NURS 5605, and NURS 5830.

NURS5165 - DNP: Adv Pathophysiology

Credits: 2

A system-based approach is used to explore selected pathophysiological states encountered across the lifespan in primary care. The developmental physiology, etiology, pathogenesis, clinical manifestations, and physiological responses to illness and treatment regimens are examined, providing a basis for the foundation of clinical decisions.

Prerequisite: NURS 5603 , NURS 5604 , NURS 5605 , and NURS 5830

NURS5601 - Theoretical Foundations Advanced Practice Nursing

Credits: 3

An introduction to the discipline of nursing for graduate nursing students

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5602 - Advanced Nursing Leadership

Credits: 3

Focus on developing advanced nursing leadership skills and attributes for interprofessional collaboration to create viability of the profession and health-related practice environments

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5603 - Evidence-Based Practice for Advanced Nursing

Credits: 3

Focuses on the use of EBP to solve clinical, educational, and administrative problems in advanced nursing practice.

Prerequisite: Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5604 - Population and Health Policies

Credits: 3

Emphasis on population health, epidemiology, and health policy related to rural and global health issues.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.

NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice

Credits: 3

Emphasis on theoretical and scientific foundations for quality improvement, safety, and informatics in health care.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.

NURS5820 - Health Behavior Change I: Primary Prevention and Wellness

Credits: 3

This course will cover the application of theories and techniques of health behavior change and principles of epidemiology to health issues from the individual to the community level.

Prerequisite: Admission to the DNP program.

NURS5824 - Advanced Health Assessment and Clinical Decision-Making for Nurse Practitioners

Credits: 2

Builds upon basic nursing assessment skills; includes a human cadaver lab experience to enhance learners' understanding of anatomy, physiology, and pathophysiology, progressing to didactic, hands-on practice, and check-offs of student ability to perform client interviewing and advanced physical assessment techniques. Prepares learners for the clinical decision-making required of nurse practitioners.

A&S College Core 2015 **Course changes effective Fall 2022** - **Credits:** 3 credits; **Description:** *Advanced health assessment and diagnostic decision-making for nurse practitioners. Builds on previous nursing assessment skills. Emphasizes person-centered communication skills and a systematic diagnostic-reasoning approach that leads to accurate clinical decision-making. Clinical correlation amongst anatomy, physiology, pathophysiology, and physical examination.* **Prerequisite:** NURS 5140 and NURS 5165.

Prerequisite: NURS 5165, NURS 5800, NURS 5805, NURS 5810, and NURS 5865

NURS5830 - Health Behavior Change II: Behavioral Skills for Secondary and Tertiary Prevention

Credits: 3

This course will cover the application of health behavior change skills in advanced nursing practice, including theories/models and techniques, with a focus on chronic illness.

Prerequisite: NURS 5820 and NURS 5865.

NURS5865 - DNP Seminar

Credits: 1

Max Credit (Max. 6)

Instructor and student-led discussions designed to facilitate role transition of the doctorally-prepared nurse practitioner. Seminars include topics related to integration and application of nursing and other health-related theories and models in rural nurse practitioner-delivered care.

Prerequisite: Admission to the DNP program.

NURS5866 - DNP Seminar II

Credits: 1

Instructor and students lead discussions designed to facilitate role transition of the doctorally prepared nurse practitioner. Seminars include topics related to transitioning from nurse practitioner students into practicing nurse practitioners.

A&S College Core 2015 **Course changes effective Fall 2023** - Prerequisite: NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891.

Prerequisite: NURS 5891, NURS 5862 and NURS 5883 OR NURS 5891, NURS 5875 and NURS 5876.

NURS5891 - DNP Project I

Credits: 3

In collaboration with a facility, learners will examine clinically relevant data to target a practice and/or patient outcome for improvement. Learners will collect and critically appraise related evidence and develop an intervention, including an outcome evaluation plan.

A&S College Core 2015 **Course changes effective Summer 2023** - Credits: 1 credit; Description: In collaboration with a health-related organization, learners will identify a problem, concern, or question that can be addressed through a rapid cycle quality improvement project for a Doctor of Nursing Practice project. Prerequisite: NURS 5873, NURS 5877 and NURS 5827 or NURS 5882, NURS 5883 and NURS 5828.

Prerequisite: NURS 5850.

NURS5892 - DNP Project II

Credits: 3

Continuation of NURS 5891, DNP Project I. In collaboration with facility, learners will implement the proposed clinical intervention, evaluate the outcome, and professionally disseminate the results.

A&S College Core 2015 **Course changes effective Fall 2023** - Description: Continuation of NURS 5891, DNP Project I. In collaboration with a health-related organization, learners will plan and begin to implement a quality improvement project. Prerequisite: NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891.

Prerequisite: NURS 5891 AND NURS 5875, NURS 5876 OR NURS 5862, NURS 5883.

NURS5893 - DNP Project III

Credits: 1

Continuation of NURS 5892, DNP Project II. In collaboration with a health-related organization, learners will continue to implement their scholarly quality improvement project.

Prerequisite: NURS 5874, NURS 5892 and NURS 5866 or NURS 5863, NURS 5892, NURS 5866.

NURS5894 - DNP Project IV

Credits: 2

Continuation of NURS 5893, DNP Project III. In collaboration with a health-related organization, learners will finalize their scholarly quality improvement project and disseminate the findings.

Prerequisite: NURS 5893.

Psychiatric Mental Health Nurse Practitioner Specialty Courses

NURS5826 - Advanced Health Assessment for Psych NPs

Credits: 2

Advanced assessment skills for psychiatric mental health nurse practitioners. Focusing on specialty examination techniques in the mental health setting.

Prerequisite: NURS 5165 and NURS 5140.

NURS5828 - Skills for Psych NP

Credits: 2

Developing skills for advanced practice nursing and practice management for the psychiatric mental health nurse practitioner.

Prerequisite: NURS 5824, NURS 5826, NURS 5880, and NURS 5881.

NURS5862 - Practicum: Diagnosis and Management of the Psychiatric Client for the PMHNP I

Credits: 5

Clinical practicum that allows students to continue to practice and refine competencies in the PMHNP role with multiple and complex psychiatric populations.

A&S College Core 2015 **Course changes effective Summer 2023** - Prerequisite: *NURS 5828, NURS 5882, and NURS 5883.*

Prerequisite: NURS 5850.

NURS5863 - Practicum: Diagnosis and Management of the Psychiatric Client for the PMHNP II

Credits: 5

Clinical practicum that allows students to continue to practice and refine competencies in the PMHNP role with multiple and complex psychiatric populations.

A&S College Core 2015 **Course changes effective Fall 2023** - Prerequisite: *NURS 5862 and NURS 5891.*

Prerequisite: NURS 5862, NURS 5883 and NURS 5891.

NURS5864 - Final PSH Practicum

Credits: 6

This final clinical experience provides learners with the opportunity to integrate previous learning from the PMHNP program in the provision of evidence-based health care.

Prerequisite: NURS 5863, NURS 5866, NURS 5892, and NURS 5893.

NURS5880 - Neurobiology & Psychopharm

Credits: 3

The advanced study of neurobiology and psychopharmacology in the treatment of psychiatric disorders across the lifespan. In depth exploration of how the advanced practice psychiatric nurse can utilize pharmacodynamics and pharmacogenetics to inform the clinical decision making in the treatment complex mental illnesses and addiction.

A&S College Core 2015 **Course changes effective Fall 2022** - Name: *Neurobiology and Psychopharmacology*;
Credits: 4 credits; Prerequisite: *NURS 5140 and NURS 5165*.
Prerequisite: NURS 5140.

NURS5881 - Psychotherapy Models and Theories for Advanced Practice Mental Health Nursing

Credits: 3

Utilization of psychotherapy frameworks in the care of individuals, families, and groups. Emphasizing the counseling role and skill development of the advanced practice mental health nurse in the assessment, intervention and evaluation of diverse populations across the lifespan. Issues of ethics, rural practice, and diversity are addressed throughout the course.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: *NURS 5140 and NURS 5165*.
Prerequisite: NURS 5140.

NURS5882 - Advanced Psychiatric Mental Health Nursing Diagnosis and Management for the Adult, Older Adult, and Vulnerable Populations

Credits: 4

Advanced knowledge of evidence based assessment, diagnosis, treatment, management, and health promotion of adults and aging adults with mental illness. Explore culturally sensitive care among vulnerable populations. Examine the professional, ethical, policy, and practice issues influencing the role of the advanced practice psychiatric nurse.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: *NURS 5824, NURS 5826, NURS 5880, and NURS 5881*.
Prerequisite: NURS 5440, NURS 5830, NURS 5880 and NURS 5881.

NURS5883 - Advanced Psychiatric Mental Health Nursing Diagnosis and Management for the Child and Adolescent

Credits: 4

Evidenced based assessment, diagnosis, treatment and management of mental health disorders in children and adolescence at the individual, family and community level. Theories of family development including behavioral patterns will be assessed using a culturally sensitive lens. Review of psychotherapy, psychopharmacology, psychoeducation, and health promotion as is developmentally appropriate.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: *NURS 5824, NURS 5826, NURS 5880, and NURS 5881*.
Prerequisite: NURS 5850.

Additional Requirements

Expected Student Learning Outcomes

Graduates will:

1. engage in evidence-based practice to optimize health outcomes;
2. engage in leadership activities to promote excellence in rural health care.

Core Concepts:

- Transformation:

Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.

- Rurality/Frontier

Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.

- Service

Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.

- Comprehensive Global healthcare system perspective

An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.

- Clinical Scholarship

Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Admission

The University of Wyoming must receive complete application materials for the DNP Program by the application deadline to be considered for fall admission (*the entire DNP application process is completed online*). The applicant is responsible to make certain that UW is in receipt of all application materials/ fees. The number of students admitted is limited. Admission is a competitive process and applicants meeting minimum requirements are not guaranteed admission to the program. Admission to the university does not guarantee admission to the DNP program in the School of Nursing.

Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, DNP, Admission Criteria & Application*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for the DNP Program. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, DNP, DNP Program Student Handbook - section 6 Scholastic Requirements*).

Curriculum

All DNP students, regardless of concentration will take a set of core courses. In addition to the core courses a group of specialty courses are required for each NP concentration. Students earning the DNP degree will complete a final scholarly project which is integrated into the FMY and PSH curricula.

The DNP core and clinical courses will be delivered using a combination of online courses; synchronous video web-conferencing, and hybrid courses with periodic intensive on-campus experiences. Clinical placements will be arranged at health care facilities in Wyoming, north central Colorado, or southern Montana.

Program of Study

A detailed, semester sequenced DNP-PSH Program of Study can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, DNP, DNP-PSH Program of Study*).

Nursing, M.S., Nurse Educator/Nurse Leader Concentrations

The MS program is a part-time, online degree open to registered nurses with a minimum of a baccalaureate degree in nursing from a program nationally accredited by CCNE or NLNAC. The MS program has two concentrations: 1) Nurse Educator (NE) and 2) Nurse Leader (NL).

MS Core Courses

NURS5472 - Integrated Advanced Pathophysiology, Pharmacology, and Assessment

Credits: 3

Emphasis on the integration of advanced pathophysiology, pharmacology, and assessment in relation to chronic conditions.

Prerequisite: Admission to UW's MS Nursing Program; NURS 5602 , NURS 5604 ; Co-requisite NURS 5605

NURS5473 - Advancing Healthcare Transform

Credits: 2

Max Credit 2

Emphasis on academic/practice partnerships as avenues for addressing population health and related workforce development.

Prerequisite: Admission to the NURS MS program, NURS 5405, NURS 5410

NURS5483 - Practicum: Rural Healthcare Leadership

Credits: 3

Emphasis on the integration of learning through a practicum experience in educational or healthcare leadership.

Prerequisite: Completion of all required MS courses, corequisite NURS 5473.

NURS5601 - Theoretical Foundations Advanced Practice Nursing

Credits: 3

An introduction to the discipline of nursing for graduate nursing students

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5602 - Advanced Nursing Leadership

Credits: 3

Focus on developing advanced nursing leadership skills and attributes for interprofessional collaboration to create viability of the profession and health-related practice environments

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5603 - Evidence-Based Practice for Advanced Nursing

Credits: 3

Focuses on the use of EBP to solve clinical, educational, and administrative problems in advanced nursing practice.

Prerequisite: Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5604 - Population and Health Policies

Credits: 3

Emphasis on population health, epidemiology, and health policy related to rural and global health issues.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.

NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice

Credits: 3

Emphasis on theoretical and scientific foundations for quality improvement, safety, and informatics in health care.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.

Nurse Educator Specialty Courses

NURS5452 - Curriculum Development

Credits: 3

Emphasis on the process of developing curricula in nursing educational or healthcare setting to include evaluation of program outcomes.

Prerequisite: Admission to UW's MS Nursing Program; NURS 5605 , NURS 5472 ; Co-requisite of NURS 5462.

NURS5462 - Teaching Methodologies and Evaluation

Credits: 3

Emphasis on evidence-based teaching methodologies, development of course materials, and evaluation of students learning outcomes.

Prerequisite: Admission to MS; NURS 5405; NURS 5410.

Nurse Leader Specialty Courses

NURS5420 - Leadership Within Health Care Systems

Credits: 3

Emphasis on strategic use of systems and outcomes as a foundation for professional leadership development.

Prerequisite: Admission to UW's MS Nursing Program; NURS 5606, NURS 5472.

NURS5461 - Business of Healthcare

Credits: 3

Emphasis on leading and managing entrepreneurial healthcare opportunities.

Prerequisite: Admission to UW's MS Nursing Program; NURS 5605 , NURS 5472

Additional Requirements

Expected Student Learning Outcomes

M.S. Graduate are prepared to ensure better care, better health, and lower costs through their knowledge, skills, and abilities to:

- Demonstrate competence and caring in the advanced professional nurse role to serve Wyoming, the region, and the world in urban, rural, and frontier health care settings as a provider, leader, and/or educator in the health care system.
- Transform rural health through leadership, service, and clinical scholarship that reflects an interconnected and comprehensive global health perspective.
- Demonstrate an advanced understanding of nursing and other sciences and humanities and integrates this knowledge to manage and improve health care across settings

- Synthesize broad organizational, financial, economic, client-centered, and culturally appropriate concepts from nursing and other sciences to address population health.
- Engage in scholarly inquiry and evidence-based practice to lead change for quality outcomes and implement safe health care to diverse populations in a variety of settings.

Core Concepts:

- Transformation:

Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.

- Rurality/Frontier

Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.

- Service

Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.

- Comprehensive Global healthcare system perspective

An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.

- Clinical Scholarship

Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Admission

The University of Wyoming must receive complete application materials for the MS Program by the application deadline to be considered for fall admission (*the entire MS application process is completed online*). The applicant is responsible to make certain that UW is in receipt of all application materials/fees.

Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, MS, Admission Criteria/Application*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for the MS Program. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, MS, MS Program Student Handbook - section 6 Scholastic Requirements*).

Curriculum

All MS students, regardless of concentration will take a set of core courses. In addition to the core courses, a group of specialty courses are required for each MS concentration.

Program of Study

A detailed, semester sequenced MS Program of Study can be found on the nursing website: www.uwyo.edu/nursing (click on *Nursing Programs, MS, MS Program of Study*).

School of Pharmacy

292 Health Sciences, (307) 766-6120

FAX: (307) 766-2953

Web site: www.uwyo.edu/Pharmacy

Dean: Kem Krueger

Associate Dean of Students: Tonja Woods

Professor:

SREEJAYAN NAIR, B.S. College of Pharmaceutical Sciences, Manipal, India 1989; M.S. 1991; Ph.D. 1996; Professor of Pharmacology 2014, 2002.

Associate Professors:

JARED S. BUSHMAN, B.A. University of Utah 2003; M.S. University of Rochester 2006; Ph.D. 2008; Assistant Professor of Pharmaceutical Science 2020.

E. KURT DOLENCE, B.S. University of Wyoming 1983; Ph.D. University of Kentucky 1987; Associate Professor of Medicinal Chemistry 2005, 1999.

GUANGLONG HE, B.S. Anhui Normal University 1986; M.S. Chinese Academy of Sciences 1994; Ph.D. 1997; Associate Professor of Medicinal Chemistry 2019, 2013.

KEM P. KRUEGER, Pharm.D. University of Missouri-Kansas City; Ph.D. University of Arizona 1998; Associate Professor of Social and Administrative Pharmacy 2011, 2005.

TRACY D. MAHVAN, B.S. University of Colorado 1995; Pharm.D. 1998; Associate Professor of Pharmacy Practice 2006, 2000.

RESHMI L. SINGH, B.S. Bombay University 1999; M.S. University of Toledo 2001; Ph.D. University of Minnesota 2005; Associate Professor of Social and Administrative Pharmacy 2019, 2013.

Assistant Professors:

MICHELLE BLAKELY, B.A. University of South Alabama 2005; M.Ed. Auburn University 2008; Ph.D. 2011; Assistant Professor of Social and Administrative Pharmacy 2018.

ANNA CLARA BOBADILLA, B.S. Pierre & Marie Curie University 2008; M.S. 2010; Ph.D. 2014; Assistant Professor of Pharmaceutical Sciences 2020.

NERVANA ELKHADRAGY, B.S. Cairo University 2004; Pharm.D. Purdue University 2008; M.S. 2018; Ph.D. 2020. Assistant Professor of Social and Administrative Pharmacy 2020.

KAREN MRUK, B.A. Drew University 2003; Ph.D. University of Massachusetts Medical School 2012; Assistant Professor of Pharmaceutical Science 2018.

Clinical Professor:

MICHELLE L. HILAIRE, Pharm.D. Duquesne University 2002; Clinical Professor of Pharmacy Practice 2016, 2010, 2004.

JAMIE R. HORNECKER, B.S. Texas Tech University 1999; Pharm.D. University of Wyoming 2003; Clinical Professor of Pharmacy Practice 2012, 2005.

Clinical Associate Professors:

LAUREN BIEHLE, Pharm.D. University of Georgia 2010; Clinical Associate Professor 2020.

BECKY S. LINN, B.A. University of Wyoming 1997; Pharm.D. 2002; Clinical Associate Professor 2020.

JANELLE L. KRUEGER, B.S. University of Wyoming 1992; M.S. University of Kansas 1997; Clinical Associate Professor of Pharmacy Practice 2013, 2005.

ALLISON M. MANN, B.S. University of Colorado Boulder 2004; Pharm.D. University of Colorado Denver 2009; Clinical Associate Professor of Pharmacy Practice 2020.

LEENA D. MYRAN, B.S. University of Wyoming 2000; Pharm.D. 2012; Clinical Associate Professor of Pharmacy Practice 2020.

ALIVN OUNG, Pharm.D. MCPHS University 2014; Clinical Associate Professor 2022.

JEREMY VANDIVER, B.A. University of Colorado 2006; Pharm.D. University of Colorado 2010; Clinical Associate Professor 2020.

TONJA M. WOODS, Pharm.D. University of Wyoming 2002; Clinical Associate Professor of Pharmacy Practice 2009, 2003.

Clinical Assistant Professors:

JED DOXTATER, B.S. University of Montana 2006; M.S. University of North Dakota 2013; Clinical Assistant Professor 2015.

JESSICA PAPKE, PharmD, University of Wyoming 2017; Clinical Assistant Professor 2020.

Assistant Lecturers:

ANTOINETTE K. BROWN, B.S. University of Wyoming 1992; Assistant Lecturer 2013.

DAVID C. BRUCH, B.S. University of Wyoming 1998; Pharm.D. 2010; Assistant Lecturer 2012.

CHARLIE P. CRUZ, B.S. Lorma Colleges 1998; M.A. Don Mariano Marcos Memorial State University 2003; M.S. Lyceum of the Philippines University Batangas 2016; Ph.D. Saint Louis College 2014; Assistant Lecturer of Medical Laboratory Science 2016.

Drug Information Director:

MELISSA L. HUNTER, B.S. University of Wyoming 2000; Pharm.D. 2004; Associate Research Scientist 2013, 2007.

Professors Emeriti:

Emery Brunett, Ph.D.
Bruce W. Culver, Ph.D.
Linda Gore Martin, Pharm.D.
Kenneth F. Nelson, Ph.D.
Robert B. Nelson, Ph.D.
Robert D. Scalley, Pharm.D.
Beverly, Sullivan, Pharm.D.
M. Glauca Teixeira, Ph.D.
Weeranuj Yamreudeewong, Pharm.D.

Deans Emeriti:

John H. Vandel, B.S. Pharmacy
Linda Gore Martin, Pharm.D.

Vision, Mission and Values

Vision

The University of Wyoming School of Pharmacy (UWSOP) is nationally recognized for its distinguished and collaborative teaching, research, pharmacy practice, and its entrepreneurial spirit.

Our graduates are highly skilled health professionals and leaders. Our graduates thrive and innovate in diverse and dynamic environments.

Mission

The University of Wyoming School of Pharmacy (UWSOP) advances the holistic development of our learners, preparing them to embrace change and positively impact the health and well-being of the communities that they serve. We engage in interdisciplinary teaching, research, practice, and service that results in meaningful innovations in healthcare, and improves the health and wellness of Wyoming, national, and global communities.

Statement of Values

The University of Wyoming School of Pharmacy community is committed to supporting and promoting individual and collective excellence in teaching, research, service, and pharmacy practice.

We value learning, collaboration, responsibility, compassion, respect, integrity, diversity, equity, and inclusion in all endeavors.

Graduate Expectations

Our graduates will be recognized and respected for:

- Leading positive change in the communities, organizations, industries, and professions that they serve
- Engaging in collaborative opportunities across disciplines and professions
- Providing evidence-based, empathetic, patient-centered care
- Thinking critically, creatively, ethically, and pragmatically
- Thriving and innovating in dynamic, diverse, and digital environments
- Ability to adapt in an ever-changing environment
- Dedication to excellence and integrity
- Communicating effectively across a wide range of audiences
- Embracing an entrepreneurial spirit

Learning Outcomes

The University of Wyoming adheres to the American Association of Colleges of Pharmacy Center for Advancement of Pharmaceutical Education (CAPE) educational outcomes 2013. This multipage document (and its supplements) can be accessed at www.aacp.org. The school has outlined student/curriculum learning outcomes; these are available on the school website.

Student/Faculty Relations

The faculty and staff at the School of Pharmacy treat students as adults and expect appropriate behavior as beginning professionals. The School of Pharmacy recognizes that the profession of pharmacy demands of its members the utmost degree of professional competence, ethical behavior, and integrity. Upon enrolling at the University of Wyoming SOP and at the start of each academic year, all students will sign a pledge acknowledging that they have received and read the current Honor Code and that they have made a personal commitment to uphold the code and abide by its principles. Similarly, the School of Pharmacy Professionalism Policy for faculty and staff is built on the foundation of respect for others, personal responsibility, the creation and maintenance of trust, and honesty and truthfulness. The administration, faculty, staff, students, and alumni of the School of Pharmacy at the University of Wyoming should strive to set an example of ethical leadership and professional behavior as those traits are essential for good social and business interactions.

Accreditation and Membership

In Wyoming, as in most other states, one requirement for examination and registration as a pharmacist is graduation from an accredited entry-level professional program at a school or college of pharmacy. The Accreditation Council for Pharmacy Education (ACPE), the national accrediting agency for pharmacy, accredits pharmacy degree programs.

The Doctor of Pharmacy program at UW was most recently accredited in 2020 following an on-site evaluation by the ACPE in October 2020. Verification of current accreditation status may be made by: a) contacting the Dean's Office, School of Pharmacy; b) connecting to www.uwyo.edu/pharmacy/; c) contacting the Accreditation Council for

Pharmacy Education (190 South LaSalle Street, suite 2850 Chicago IL 60603, (312) 664-3575; cinfo@acpe-accredit.org) or d) by checking the latest Annual Directory of Accredited Professional Programs published by ACPE.

The school is a member of the American Association of Colleges of Pharmacy and adheres to its educational standards.

Preprofessional Program and Requirements

Applicants for the professional program in pharmacy must complete preprofessional requirements before they can be admitted. Usually, two academic years totaling 72 credit hours (which may include summer and J-Term semesters) is required to complete preprofessional requirements.

All preprofessional coursework must be completed by the end of the spring semester prior to matriculation in the professional program.

Graduates of fully accredited high schools may be admitted to the preprofessional program with a math placement score of 3 or an ACT math score of 23.

Early Assurance Program: Students are accepted to the EAP program based on their high school GPA and ACT/SAT scores. High School students can apply to the professional program as they are applying for admission to the University of Wyoming as first-year students.

Preprofessional Pharmacy Program (PPCY)

Students will not receive a degree in prepharmacy. The prepharmacy curriculum guides students as they fulfill requirements for admission to the professional pharmacy degree program.

Required Curriculum

- CHEM1020 - General Chemistry I Credits: 4
- CHEM1030 - General Chemistry II Credits: 4
- LIFE1010 - General Biology Credits: 4
- LIFE2022 - Animal Biology Credits: 4
- MATH2200 - Calculus I Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- CHEM2420 - Organic Chemistry I Credits: 4
- CHEM2440 - Organic Chemistry II Credits: 4
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- MOLB2021 - General Microbiology Credits: 4
- MOLB3610 - Principles of Biochemistry Credits: 4
- ZOO3115 - Human Systems Physiology Credits: 4
- General Electives (6 credits total)

USP Requirement

The USP-COM 3 requirement is fulfilled in the professional doctoral program.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Professional Doctoral Program

Admission

Admission to the professional program leading to the entry-level Pharm. D. degree is limited to 52 students per year and is highly competitive. Admission is granted by the School of Pharmacy Dean upon the advice of the School of Pharmacy Admissions Committee. Students can apply to the professional program as freshman via the Pharmacy Early Assurance program. All students applying to the UW School of Pharmacy must use the PharmCAS application (www.pharmcas.org) process. All materials (PCAT scores, and Letters of Recommendation) are submitted to UW using this service. The School of Pharmacy requires no supplemental application. Students granted admission to the professional program will have to pay a one-time, non-refundable, seat fee to guarantee their placement into the entering class. In addition students will be required to complete any immunizations necessary for experiential rotations. As part of a College of Health Sciences requirement students are also expected to complete and pass a background check prior to final admission to the professional program.

Students must meet, with or without accommodation, specified requirements. The School of Pharmacy's Technical Standards can be found at http://www.uwyo.edu/pharmacy/_files/documents/admin/uwsop-technical-stds-3-2013.pdf.

The School of Pharmacy provides opportunities to ensure that our students have co-curricular experiences in both our didactic and experiential program. Providing options for students that are co-curricular allows students to choose activities that interest them and will allow them to grow as future health professionals. A portion of co-curricular activities throughout the degree program will be required and assessed.

Students at the University of Wyoming SOP are immersed in interprofessional education opportunities during all years of the professional program. Interprofessional education provides experiences for Pharm.D. students to collaborate and share knowledge with learners in other health sciences disciplines, which fosters readiness for working in team-based care environments in their future careers.

Program of Study

Requirements for Graduation

The degree of Doctor of Pharmacy (Pharm.D.) is granted upon satisfactory completion of 146 hours in the professional curriculum in accordance to the school's academic standards and the fulfillment of the general university requirements. Transfer students who have previous professional pharmacy credits accepted as partial completion of residence work may not earn a degree from this university for less than 30 semester hours of resident credit in the professional program of this School of Pharmacy over a minimum of two resident semesters.

Graduation with Honors

The University of Wyoming School of Pharmacy is authorized to grant honors for academic excellence. A Doctor of Pharmacy with honors designation is awarded by the University of Wyoming to students who graduate with exceptional scholarship in Pharmacy.

Exceptional scholarship in pharmacy is defined as a student who is on track to graduate with their class from the University of Wyoming School of Pharmacy and is in the top 5% of their class based on their pharmacy GPA (as assessed at the end of the fall semester of the P4 year). The Pharmacy GPA is calculated on the basis of required professional pharmacy curriculum coursework and excludes required or selected elective hours. The honors distinction must be approved by a School of Pharmacy faculty vote.

Academic Honesty and Professional Conduct

Students admitted to the professional program are required to participate and sign the University of Wyoming School of Pharmacy Honor Code. Failure to sign the honor code will result in a withdrawal of admission offer or termination from the professional program.

Academic Standards for Progression and Graduation

The course of study in the School of Pharmacy (SOP) is four academic years leading to a Doctor of Pharmacy degree (PharmD). The required professional coursework is organized in a prescribed, non-negotiable, sequential manner. All students have a P-designation identifying their year in the program (P1, P2, P3, P4). Required professional courses (PHCY courses) from any national or international pharmacy programs will not be applied to the UW PharmD degree. The student may petition that coursework to be applied to the program but must replace those credit hours with additional elective courses. Courses taken as S/U, including electives, are usually considered unacceptable in fulfilling program requirements. Auditing courses for the PharmD degree is not allowed.

The academic standards herein described are expected to be followed by all students admitted to the professional program. Any violation will constitute grounds for probation or termination from the professional program and will delay progression towards advanced coursework. Probation is a period of time in which the student is allowed to continue in the program under supervision. Students that do not meet academic standards and are placed on probation will have to submit a petition that includes an individualized plan of study for the next semester. This plan must be developed by the student in agreement with and signed by the academic advisor. The petition will be reviewed by the Student Affairs Committee (SAC), which will send a recommendation to the Dean for approval or denial. A leave of absence may be necessary in cases where poor academic performance is due to a medical or personal hardship. The student may appeal sanctions related to violations of the academic standards and decisions that result in probation and termination in the program. Appeals start at the School level, followed by College and University levels, according to policy.

Academic Standards

1. A grade of D or lower, or course withdrawal, in any required course of the professional program constitutes failure to progress toward the PharmD degree and result in probation.
2. A grade of D or lower, in any elective course of the professional program constitutes failure to progress toward the PharmD degree and result in probation.
3. Students must earn a GPA of 2.000 or better in both University coursework and professional program courses each semester and cumulatively.
4. Students must be considered full time with coursework applicable to the pharmacy degree during each semester while in good standing.
5. Incomplete coursework must be completed prior to progression into the next academic semester and will halt progression in experiential coursework.
6. Students who earn a D or lower in any experiential coursework will have their rotation sequence halted.
7. A course taken in the professional pharmacy program course can be repeated only once.
8. A maximum of three required courses are allowed to be repeated during the degree program.
9. Failure to meet any academic standards for two semesters (not necessarily consecutive) in didactic and/or experiential coursework results in automatic termination from the professional program.
10. Failure of two experiential courses, not necessarily consecutive, results in termination from the professional program.

Elective Credits Policy

The purpose of electives at the School of Pharmacy (SOP) is to complement the pharmacy curriculum, expand knowledge within a specific pharmacy discipline and to ensure completion of the general liberal arts education of the University of Wyoming. Therefore, the following policies have been approved by the faculty for the Doctor of Pharmacy professional program (hereafter, Program).

As published in the University Catalog and SOP students are required to complete a minimum number of electives, specific for the student's year of matriculation into the Program. This number may vary and may be modified as adjustments are made to the professional curriculum to comply with accreditation standards. Students will be made aware of this number during initial orientation into the Program and kept informed of any changes during their stay in the academic program.

Students must take elective courses to satisfy first the requirements of the University Studies Program (hereafter, USP) and then complete the remaining required elective credits as general elective coursework (Program-approved required number of elective hours).

- Students are required to complete all USP requirements even if they exceed the minimum number of elective hours initially defined in their Program in order to graduate from UW.
- Transfer or online courses from other accredited institutions may be honored as elective credits toward the Program. Students are solely responsible to have all transcripts from other schools sent to the University and make sure that the Director of Student Services and advisors are aware of any transfer work in the professional program.
- All required hours (including electives) must be completed by students before progressing into the P4 rotation year. Students will not be allowed to progress toward the 4th year rotations if university studies requirements were not fulfilled.
- Students shall not take electives as Satisfactory/ Unsatisfactory (S/U) credit.
- All courses taken in the preprofessional program or to fulfill requirements in a previous degree cannot be retaken to count as elective hours in the Program. In addition, students cannot use previously taken credit (prior to the professional program) as elective credit in the professional program.
- Credit by exam through the Foreign Languages Dept. will not be accepted as fulfillment of elective requirements in the Program. However, it is a student's right to earn credit by exam for Wyoming History and Government, while receiving elective credits toward the Program and fulfilling USP requirements.

- For procedures and handling of all exceptions to these policies, the students should consult the student handbook, the pharmacy student Share Point site, the SOP website, or check with the Director of Pharmacy Student Services or the Associate Dean of Students.

Curriculum

Pharmacy, Pharm.D.

The School of Pharmacy offers only the four-year curriculum leading to the Doctor of Pharmacy (Pharm.D.) degree. Students admitted to the professional pharmacy program follow a four year program of study leading to the Doctor of Pharmacy Degree. Students complete a total of 146 hours.

In order to keep abreast with changes in pharmaceutical education, the following curriculum is subject to change or modification as required by the accrediting agency. Students should be aware that changes must be expected and they will be included in their academic program. The School of Pharmacy does not plan to change graduation requirements inadvertently, but does reserve the right to change any provisions or requirement deemed necessary at any time within the student's term of residence.

Required Curriculum

- ZOO4125 - Integrative Physiology Credits: 5
- PHCY6100 - Dose Form Design Credits: 4
- PHCY6106 - Pharmaceutical Calculations Credits: 2
- PHCY6110 - Medicinal and Natural Products Chemistry I Credits: 3
- PHCY6140 - Introduction to Social Administrative Pharmacy Credits: 2
- PHCY6160 - Pharmacist Skills I Credits: 1
- PHCY6102 - Biopharmaceutics and Pharmacokinetics Credits: 4
- PHCY6111 - Medicinal and Natural Products Chemistry II Credits: 3
- PHCY6120 - Advanced Pathophysiology Credits: 3
- PHCY6151 - Pharmacy Practice Credits: 2
- PHCY6152 - Therapeutics I Credits: 3
- PHCY6161 - Pharmacist Skills II Credits: 1
- PHCY6170 - Introductory Pharmacy Practice Experience-IPPE1 Credits: 1
- PHCY6480 - Introduction to Community Pharmacy Practice Credits: 4
- PHCY6482 - Introduction to Hospital Pharmacy Practice Credits: 4
- PHCY6215 - Medicinal and Natural Products Chemistry III Credits: 3
- PHCY6230 - Pharmacology I Credits: 4
- PHCY 6230 - Pharmacology I Discussion Credits: 0
- PHCY6240 - Research and Evaluation Methods in Pharmacy Credits: 3
- PHCY6245 - Patient/Professional Interactions Credits: 3
- PHCY6260 - Pharmacist Skills III Credits: 1
- PHCY6231 - Pharmacology II Credits: 4
- PHCY 6231 - Pharmacology II Discussion Credits: 0
- PHCY6246 - Pharmacy Management, Marketing and Finance Credits: 3

- PHCY6251 - Therapeutics II Credits: 3
- PHCY6261 - Pharmacist Skills IV Credits: 2
- PHCY6270 - Intermediate Pharmacy Practice Experience-IPPE2 Credits: 1
- PHCY6312 - Clinical Toxicology Credits: 3
- PHCY6341 - Pharmacy Practice Law Credits: 3
- PHCY6344 - Pharmacy Ethics Credits: 1
- PHCY6350 - Therapeutics III Credits: 4
- PHCY6357 - Clinical Pharmacokinetics Credits: 2
- PHCY6360 - Pharmacist Skills V Credits: 1
- PHCY6300 - Sterile Products Credits: 2
- PHCY6301 - Sterile Products Laboratory Credits: 1
- PHCY6340 - Health Care Policy and Advocacy Credits: 2
- PHCY6351 - Therapeutics IV Credits: 4
- PHCY6353 - Drug Literature Application Credits: 2
- PHCY6361 - Pharmacist Skills VI Credits: 2
- PHCY6370 - Advanced Pharmacy Practice Experience-IPPE3 Credits: 2
- PHCY6485 - Reflective Learning in Pharmacy Credits: 1
- Students complete 3 sections of PHCY 6485, 1 credit each.

- PHCY6470 - Internal Medicine I Credits: 4
- PHCY6473 - Ambulatory Pharmaceutical Care Credits: 4
- (Students complete a second semester of either Internal Medicine or Ambulatory Care)

- PHCY6471 - Internal Medicine II Credits: 4
- PHCY6474 - Ambulatory Pharmacy Care II Credits: 4
- PHCY6481 - Advanced Community Pharmacy Credits: 4
- PHCY6483 - Advanced Institutional Pharmacy Credits: 4
- PHCY6465 - Elective Rotation In: Credits: 4
- Students complete 4 sections of PHCY 6465, 4 credits each.

- Students complete 7 hours of electives during the P1-P3 year.

Total Hours 146

Fourth Year [PH4]:

Consists of nine experiential rotations of four credit hours each and three reflective learning weeks. Rotations are considered full-time. Students may not enroll in any other coursework concurrent with rotations. Consequently, all other coursework (107 credits) must be satisfactorily completed before enrollment in P4 coursework. Note: Students will be required to live in locations other than Laramie when enrolled in experiential rotations. Responsibility for living cost and travel arrangements associated with experimental rotations rests with the student. Students participating in all experimental activities will be required to have a vehicle or an acceptable approved alternative.

Students must complete the following Core or Required Experiential Rotations (subject to change):

- PHCY6470 - Internal Medicine I Credits: 4
- PHCY6473 - Ambulatory Pharmaceutical Care Credits: 4
- PHCY6471 - Internal Medicine II Credits: 4

- or
- PHCY6474 - Ambulatory Pharmacy Care II Credits: 4
- PHCY6481 - Advanced Community Pharmacy Credits: 4
- PHCY6483 - Advanced Institutional Pharmacy Credits: 4
- Plus 4 Elective Rotations (PHCY 6465)

Graduate Study

The School of Pharmacy offers the Master of Science in Health Services Administration and the Master of Business Administration/Doctor of Pharmacy (M.B.A./Pharm.D.) dual degree.

Health Services Administration, M.S.

The School of Pharmacy offers a Master of Science online degree in health services administration (MSHSA).

Specialty Tracks

All students select one specialty track.

Biopharmaceutical Regulatory Compliance Group Specialty Listings

Specialty Tracks through the Biopharmaceutical Regulatory Compliance Group

- o Biopharmaceutical Regulatory Compliance
- o Healthcare Risk Management
- o Forensic Pharmacy
- o Healthcare Policy Analysis
- o Biopharmaceutical Product Representation
- o Clinical Research Administration
- o Patient Safety Systems
- o Healthcare Security Systems
- o Healthcare Ethics & Equity

- o Health Information Technology
- o Healthcare Writing and Reporting

Biopharmaceutical Regulatory Compliance Group

MS-HSA Curriculum

The following table provides a list of the core courses required for all tracks.

- PHCY5040 - The Evolution of American Health Credits: 2
- PHCY5042 - Statistics for Health Services Credits: 3
- PHCY5043 - Empirical Analysis for Health Services Administration Credits: 3
- PHCY5045 - Health Services Administration Applied Research Credits: 1-4
- PHCY5046 - Health Services Administration Seminar1 Credits: 1
- PHCY5041 - Health Services Administration Research Methods Credits: 2
- Sub-Total Program Required Coursework: 15 credit hours

Biopharmaceutical Regulation & Compliance Track

The following tables provides a list of required courses for the track listed

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5242 - The Food and Drug Administration Credits: 2
- PHCY5243 - The Drug Enforcement Administration Credits: 2
- PHCY5244 - State Regulations of Health Professions Credits: 2
- Specialty Track Electives (choose 6 hours)

Healthcare Risk Management Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5342 - Healthcare Risk and Quality Credits: 3
- PHCY5670 - Medication Malpractice Credits: 2
- PHCY5240 - Pharmaceutical Homicide Credits: 2
- Specialty Track Electives (Choose 6 hours)

Forensic Pharmacy Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5240 - Pharmaceutical Homicide Credits: 2
- PHCY 5XXX The Chemistry of Poisonings 2 Credits

PHCY 5XXX Thr Process of Forensic Science 2 Credits

Specialty Track Electives (choose 6 hours)

Healthcare Policy Analysis Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5047 - Pandemic Preparedness Policy Credits: 2
- PHCY5148 - Health Economics and Policy Credits: 2
- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5246 - Prescription Drug Costs Credits: 2
-

Biopharmaceutical Product Representation Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY5541 - Introduction to Biopharmaceutical Marketing and Production Credits: 3
- Specialty Track Electives (choose 6 hours)

Clinical Research Administration Track

Specialty Track Required Coursework (10 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5242 - The Food and Drug Administration Credits: 2
- PHCY 5XXX Biomedical Ethics 3 Credits

PHCY 5XXX Clinical Research Regulation 2 Credits

Specialty Track Electives (choose 5 hours from list)

Patient Safety Systems Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5341 - Principles of Healthcare Quality Credits: 3

- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 6 hours)

Healthcare Security Systems Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY 5XXX Cybersecurity 2 Credits

PHCY 5XXX HIPPA Compliance 2 Credits

PHCY 5XXX Disaster Management 2 Credits

Specialty Track Electives (choose 6 hours)

Healthcare Ethics & Equity Track

Specialty Track Required Coursework (10 Credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY 5XXX Biomedical Ethics 3 Credits

PHCY 5XXX HIPAA Compliance 2 Credits

PHCY 5XXX Clinical Research Regulation 2 Credits

Specialty Track Electives (choose 5 hours)

Health Institution Leadership Group

MS-HSA Curriculum

The following table provides a list of the core courses required for all tracks

- PHCY5040 - The Evolution of American Health Credits: 2
- PHCY5041 - Health Services Administration Research Methods Credits: 2
- PHCY5042 - Statistics for Health Services Credits: 3
- PHCY5043 - Empirical Analysis for Health Services Administration Credits: 3
- PHCY5045 - Health Services Administration Applied Research Credits: 1-4
- PHCY5046 - Health Services Administration Seminar1 Credits: 1
- Sub-Total Program Required Coursework: 15 Hours

Health Institution Leadership Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY5442 - Healthcare Financial Planning Credits: 2
- PHCY5443 - Healthcare Human Capital Plan Credits: 2
- PHCY5444 - Healthcare Strategic Innovation Credits: 2
- Specialty Track Electives (choose 6 hours)

Health Economics and Outcomes

Specialty Track Required Coursework (10 credit hours)

- PHCY5141 - Principles of Health Econ and Outcomes Credits: 3
- PHCY5142 - Health Economic Decision Analysis Credits: 2
- PHCY5143 - Comparative Effectiveness Research Credits: 2
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (Choose 5 hours)

Healthcare Quality & Outcomes Track

Specialty Track Required Coursework (8 credit hours)

- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5342 - Healthcare Risk and Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 7 hours)

Rural Healthcare Coordination Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5141 - Principles of Health Econ and Outcomes Credits: 3

- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 6 hours)

Geriatric Care Systems Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 6 hours)

Healthcare Entrepreneurism Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5541 - Introduction to Biopharmaceutical Marketing and Production Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 6 hours)

Healthcare Financing Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5141 - Principles of Health Econ and Outcomes Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY5541 - Introduction to Biopharmaceutical Marketing and Production Credits: 3
- Specialty Track Electives (choose 6 hours)

Health Information Technology Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY 5XXX Information Design and Analysis 2 Credits

PHCY 5XXX Healthcare Information Systems 2 Credits

PHCY 5XXX Information Management 2 Credits

Specialty Track Electives (choose 6 hours from list)

Healthcare Writing & Reporting Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY 5XXX Professional Writing in Healthcare 2 Credits

PHCY 5XXX Health Data in Figures, Tables & Graphs 2 Credits

PHCY 5XXX The Healthcare Message 2 Credits

Specialty Track Electives (choose 6 hours)

Additional Notes

NOTE: Specialty track electives can be any course provided in the MSHSA program.

Please consult with the program director if you have questions on the electives to choose for a specific track.

Those course numbers with PHCYXXXX are currently being built or waiting on approval from the University. Please contact the MS HSA program for questions.

Additional Requirements

This degree is geared toward new and mid-career practitioners including pharmacists, nurses, physicians, social workers, and other health care professionals who want to become department directors, patient safety coordinators and/or directors, regulatory compliance officers, clinical research associates, health outcomes researchers or take on leadership roles as advanced practice practitioners.

The program also benefits health care workers in fields such as management positions, pharmaceutical sales representatives, medical science liaisons, and pharmacy technician educators as well as new clinical faculty at newly established pharmacy colleges.

Available nationwide the master's program is delivered via a mix of online self-study and online project-based coursework.

The program can be completed in two years of part-time study. Students are requested to travel to the UW Laramie campus for two weekend seminars during the two-year program (based on travel restrictions during the pandemic this course was held online). Graduates will be expected to complete 30 credit hours of coursework and pass a comprehensive final exam. Coursework will be completed over five consecutive semesters however students can take up to 6 years to complete the program.

A prospective student should have earned at least a bachelor's degree from a regionally accredited institution. To find out more about the application process please see the following website www.uwyo.edu/pharmacy/online-ms-program or contact the Student Services Office.

Medical Laboratory Science

Aley Hall, UW-Casper, (307) 268-2753

FAX: (307) 268-2416

Web site: www.uwyo.edu/pharmacy/mls-program/index.html

Director: Jed M. Doxtater, MS MLS (ASCP)^{CM}

Assistant Clinical Faculty:

JED M. DOXTATER, B.S. University of Montana 2007; M.S. University of North Dakota 2013; Assistant Clinical Faculty of Medical Laboratory Science 2015.

Assistant Lecturer

CHARLIE P. CRUZ, B.S. Lorma Colleges 1998; M.A. Don Mariano Marcos Memorial State University 2003; M.S. Lyceum of the Philippines University Batangas 2016; Ph.D. Saint Louis College 2014; Assistant Lecturer of Medical Laboratory Science 2016.

Mission and Goals

The mission of the Bachelor of Science in Medical Laboratory Science program at the University of Wyoming-Casper is to educate, train, and produce highly competent, ethical professionals who are committed to lifelong learning. Curriculum is designed to prepare students to meet current and future workplace challenges and technological advancements in the profession.

Program Goals

1. Provide education in accordance with the National Accrediting Agency for clinical Laboratory Sciences (NAACLS) standards for Medical Laboratory Science programs.
2. Provide students with adequate knowledge and background experience to successfully complete the national certification examination appropriate to their level of training.
3. Provide opportunity for students to develop skills in effective communication sufficient to serve the needs of patients, public, and other healthcare professionals.
4. Graduate well qualified Medical Laboratory Scientists who can function at a career entry level, and are prepared to meet the workforce needs of the state of Wyoming and the nation.
5. Provide students with professional role models so that they may develop and practice professional behaviors, attitudes and ethics necessary to work in, and promote the field of Medical Laboratory Science.
6. Periodically undergo program review to meet the diverse educational needs of students, accreditation standards and industry demands for qualified, skilled entry level practitioners.
7. Establish an advisory board of professionals, community partners and stakeholders for program development, evaluation and improvement.
8. Promote membership and active participation in professional societies.

Outcomes

Description of Entry Level Competencies of the Medical Laboratory Scientist

At entry level, the medical laboratory scientist will possess the entry level competencies necessary to perform the full range of clinical laboratory tests in areas such as Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology/Transfusion medicine, Microbiology, Urine and Body Fluid Analysis and Laboratory Operations, and other emerging diagnostics, and will play a role in the development and evaluation of test systems and interpretive algorithms.

The medical laboratory scientist will have diverse responsibilities in areas of analysis and clinical decision making, regulatory compliance with applicable regulations, education, and quality assurance/performance improvement wherever laboratory testing is researched, developed or performed.

At entry level, the medical laboratory scientist will have the following basic knowledge and skills in:

- Application of safety and governmental regulations and standards as applied to clinical laboratory science;
- Principles and practices of professional conduct and the significance of continuing professional development;
- Communications sufficient to serve the needs of patients, the public and members of the health care team;
- Principles and practices of administration and supervision as applied to clinical laboratory science;
- Educational methodologies and terminology sufficient to train/educate users and providers of laboratory services;
- Principles and practices of clinical study design, implementation and dissemination of results;
- Theoretical knowledge and technical skills of concepts relating to all content areas required by NAACLS, including Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology, Microbiology, Urine and Body Fluid Analysis, Laboratory Operations and biohazard and safety.

Accreditation

The Medical Laboratory Science Program at the University of Wyoming is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Accreditation is a process of external peer review in which an agency grants public recognition to a program of study or an institution that meets established qualification and educational standards. Participation in the accreditation process is voluntary since there is not a legal requirement for specialized programs and institutions to participate. However, when students complete a NAACLS accredited program they become eligible to sit for national certification examinations for the profession.

The National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) is a nonprofit organization that independently accredits medical technologist (MLS), clinical laboratory technician/medical laboratory technician (CLT/MLT), histotechnologist (HTL), histologic technician (HT), pathologists' assistant (Path Asst), diagnostic molecular scientist (DMS) and cytogenetic technology (CT), Phlebotomist (PBT), and clinical assistant (CA) educational programs.

Contract information:

National Accrediting Agency for Clinical Laboratory Sciences, 5600 North River Road, Suite 720, Rosemont, IL 60018-5119

<http://www.nacls.org>

Prerequisites for Admission to the MLS Professional Program

Students must meet the following minimum criteria to be considered for Admitted Major status:

- Completion of the Casper College A.S. degree in MLT within 5 years or B.S. degree in a related science.
- Minimum grade point average (GPA) of 2.000 on all course work transferred into the University of Wyoming at Casper from other academic institutions.
- Successful completion of the Medical Laboratory Technician BOC exam is preferred. Students that have not completed the BOC may be admitted with MLS program directors approval.
- Students admitted to the program that do not hold an A.S. in MLT or a B.S. in a related science may be required to complete the University of Wyoming University Studies program in addition to the basic requirements for the Bachelor of Science in Medical Laboratory Science degree. See the current requirements at <http://www.uwyo.edu/unst/>

Applying for Admission to MLS Professional Program

Students may enter the MLS professional program in the fall or spring semester of their junior year. Application for the program must be submitted to the MLS program director before finals week of the first semester the student has declared the MLS major and is enrolled in a MLS course.

Prior to participating in the enrichment experiences, students will be subject to that agency's requirements for a background check, drug testing and/or drug abuse prevention policies. Students are then subject to the random drug testing policy of that agency. These background checks are routinely required by schools, hospitals, and other agencies that participate in on-site training. Background check should be obtained from Viewpoint screening (<https://www.viewpointscreening.com/uwyo>). The Casper College MLT background check is a valid substitute if final semester of MLS program falls within 1 year of check.

After completion and submission of the program application, the student must schedule an interview with the program director for an evaluation for acceptance to the MLS program. Interviews must be completed before the student enrolls in the succeeding semester of coursework. It is the students' responsibility to complete and submit applications, and to schedule an interview with the MLS program director by the due dates.

Students are required to complete an observational enrichment experience during the final MLS semester. This observational experience is designed to demonstrate advanced concepts and topics presented in the MLS curriculum, in a practical setting.

The MLS program will provide documentation requirements, as each site may have different requirements for participation (e.g. vaccination records, HIPPA training, safety training, background check/drug screen etc.). If a student finds an appropriate observational enrichment experience outside of the opportunities available through the MLS program, the student must communicate the site to the MLS program director for approval. It will be the responsibility of the student to arrange the experience with the appropriate site personnel/HR, and program director to ensure all required documentation is provided.

Liability insurance will be required for students entering their senior year coursework. Liability insurance is provided through the University of Wyoming at a cost of \$13.00/year to the student.

Health Requirements: The student must provide proof of health insurance and Hepatitis B vaccination (or declination) to participate in on-campus student laboratory sessions. Hepatitis B vaccinations are available on the UW-C campus at student health, or at the county health department for a small fee. Other health records may be required to participate in enrichment activities including MMR, Tetanus, drug screen, and background check/drug screen.

Essential Functions

Applicants must meet certain essential functions as defined by NAACLS. If you feel that you do not meet these essential functions, careful consideration should be made and advisement received before entering the MLS Program. Essential functions are the abilities and essential functions that a student must be able to perform to be successful in the learning experiences and completion of the program.

Observational Requirements

The MLS student must be able to:

- Observe laboratory demonstrations in which biologicals are tested for their biochemical, hematological, immunological, microbiological, and histochemical components.
- Characterize the color, odor, clarity, and viscosity of biologicals, reagents or chemical reaction products.
- Employ a clinical grade binocular microscope to discriminate among the structural and color (hue, shading, and intensity) differences of microscopic specimens.
- Read and comprehend text, numbers, and graphs displayed in print and on a video monitor.

Movement Requirements

The MLS student must be able to:

- Move freely and safely about a laboratory.
- Reach laboratory bench-tops and shelves, patients lying in hospital beds or patients seated in specimen collection furniture.
- Travel to numerous clinical laboratory sites for practical experience.
- Perform moderately taxing continuous physical work, often requiring prolonged sitting, over several hours.
- Maneuver phlebotomy and culture acquisition equipment to safely collect valid laboratory specimens from patients.
- Control laboratory equipment (i.e., pipettes, inoculating loops, test tubes) and adjust instruments to perform laboratory procedures.
- Use an electronic keyboard to operate laboratory instruments and to calculate, record, evaluate, and transmit laboratory information.
- Perform fine hand manipulations with dexterity.

Communication Requirements

The MLS student must be able to:

- Read and comprehend technical and professional materials.
- Follow verbal and written instructions in order to correctly and independently perform laboratory test procedures.
- Clearly instruct patients prior to specimen collection.
- Effectively, confidentially and sensitively converse with patients regarding laboratory tests.
- Communicate with faculty members, fellow students, staff, and other health care professionals verbally and in a recorded format.
- Independently prepare papers, prepare laboratory reports, and take paper, computer, and laboratory practical examinations.

Behavioral Requirements

The MLS student must:

- Be able to manage the use of time and be able to systematize actions in order to complete professional and technical tasks within realistic constraints.
- Possess the emotional health necessary to effectively employ intellect and exercise appropriate judgment.
- Be able to provide professional and technical services while experiencing the stresses of task-related uncertainty and a distracting environment.
- Be flexible and creative and adapt to professional and technical change.
- Recognize potentially hazardous materials, equipment, and situation and proceed safely in order to minimize risk of injury to patients, self, and nearby individuals.
- Adapt to working with unpleasant biologicals.
- Support and promote the activities of fellow students and of health care professionals.
- Realize that the promotion of peers helps furnish a team approach to learning, task completion, problem solving and patient care.
- Be honest, compassionate, ethical and responsible.

Request for Accommodation

All students are held to the same academic and technical standards. Applicants/students with disabilities seeking accommodation must discuss their disability and accommodation needs with the University Disability Support Services (udss@uwyo.edu or (307) 766-6189; TTY: (307) 766-3073). If appropriate and upon request and registration of the applicant, a reasonable accommodation will be made consistent with University of Wyoming guidelines.

Medical Laboratory Science, B.S.

A degree in Medical Laboratory Science prepares healthcare professionals to perform clinical diagnostic testing in the areas of microbiology, hematology, chemistry, immunohematology, urinalysis, serology, and molecular biology.

USP - University Studies Program Requirements

Completion of all University Studies Program requirements is necessary to obtain a bachelors degree from the University of Wyoming. These requirements may be covered by the Medical Laboratory Technician Associates degree at Casper College. Please work with your advisor to ensure these requirements are fulfilled.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3

Casper College Requirements

MLTK and PEAC courses are available through an articulation agreement with Casper College **and can be taken only through Casper College**. Students are responsible for fulfilling all University Studies requirements. The articulation agreement, with a proposed semester-by-semester sequence, is available at:

<http://www.uwyo.edu/TRANSFER/articulation/agreements/medical-laboratory-science.html>

- MATH1400 - College Algebra Credits: 3 (Meets Quantitative USP requirement) 4 credits at Casper College
- MICR2021 - General Microbiology Credits: 4
- **OR** MOLB 2021 General Microbiology (Casper College equivalent: MOLB 2210)
- SOC1000 - Sociological Principles Credits: 3 OR ANTH 1200 Introduction to Cultural Anthropology
- ENGL1010 - College Composition and Rhetoric Credits: 3 (Meets Communication I USP requirement)
- LIFE1010 - General Biology Credits: 4 (Meets Physical and Natural World USP requirement; Casper College equivalent: BIOL 1010)
- ENGL2005 - Writing in Technology and the Sciences Credits: 3 (Meets Communication II USP requirement)
- POLS1000 - American and Wyoming Government Credits: 3 (Meets U.S. and Wyoming Constitution USP requirement)
- CHEM1020 - General Chemistry I Credits: 4 (Meets Physical and Natural World USP requirement; Casper College equivalent: CHEM 1025 & CHEM 1028)
- PEAC xxxx: Online Activity Credits: 1
- CMAP 1505 Introduction to Computers Credits: 1
- Elective Credits: 3
- MLTK 1500 - Hematology Credits: 3
- MLTK 1600 - Clinical Immunohematology Credits: 3
- MLTK 1700 - Microscopy: UA Body Fluids Credits: 2
- MLTK 2600 - Clinical Microbiology I Credits: 2
- MLTK 2500 - Clinical Chemistry Credits: 3
- MLTK 2650 - Clinical Microbiology II Credits: 2
- MLTK 2700 - Immunology Credits: 4
- MLTK 2971 - Clinical Practicum: Hematology Credits: 2
- MLTK 2972 - Clinical Practicum: Chemistry Credits: 2
- MLTK 2973 - Clinical Practicum: Immunohematology Credits: 2
- MLTK 2974 - Clinical Practicum: Microbiology Credits: 2
- MLTK 2976 - Clinical Practicum: Serology Credits: 1
- MLTK 2977 - Clinical Practicum: UA / Body Fluids Credits: 1
- MLTK 2978 - MLT Professionalism Credits: 1
- MLTK 2800 - Clinical Pathophysiology Credits: 4

- MLTK 1800 - Principles of Phlebotomy Credits: 3

University of Wyoming Requirements

Upper-division courses required to complete the Bachelor of Science in Medical Laboratory Science (**All MLSK courses are only available through UW-Casper.**):

- CHEM1030 - General Chemistry II Credits: 4
- CHEM2300 - Introductory Organic Chemistry Credits: 4
- LIFE3050 - Genetics Credits: 4
- LIFE3600 - Cell Biology Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- MOLB3000 - Introduction to Molecular Biology Credits: 3
- MOLB3610 - Principles of Biochemistry Credits: 4
- MLSK4840 - Laboratory Education Methodology Credits: 1
- MLSK4850 - Clinical Research Design Credits: 2
- MLSK4860 - Laboratory Management Credits: 3 (Meets Communication III USP requirement)
- MLSK4870 - Advanced Clinical Chemistry Credits: 4
- MLSK4880 - Advanced Hematology: Erythrocytes Credits: 2
- MLSK4981 - Advanced Clinical Practicum-Hematology Credits: 3
- MLSK4982 - Advanced Clinical Practicum-Molecular Credits: 3
- MLSK4983 - Advanced Clinical Practicum-Immunohematology Credits: 3
- MLSK4984 - Advanced Clinical Practicum- Microbiology Credits: 3
- MLSK4890 - Professional Career Paths and Review Credits: 2
- Upper-division elective credits: 1 (see below, consult your academic advisor)

Upper Division Elective Credit Hours

One upper division elective credit hour must be completed in the student's junior or senior year to meet the total 42 required upper division credits to graduate. Students may take a three credit class to meet this requirement.

These credits must be 3000 and above, and achieved through online outreach or on campus courses. A list of courses that are acceptable to fulfil this requirement can be made available to the student. If a course is in question, it is highly suggested to the student to contact the UW-C advising department or the MLS program director for requirement fulfillment confirmation.

Enrichment Rotations and Laboratory Sessions

The final semester of the student's senior year is comprised of didactic material being delivered in an online hybrid manner, supplemented with on campus lab sessions at the UW-Casper campus. These lab sessions will be accompanied by an observational enrichment rotation at a clinical site. This enrichment rotation will allow for the observation of advanced methodologies in a practical environment. It will be the students' responsibility for all travel and housing costs associated with the advanced clinical practicum courses.

Probation

Students who do not meet the minimum grade requirements stated above for MLSK course work will be placed on probation. In this period of time, students will be allowed to continue in the program under supervision, but will submit a petition which is an individualized plan of study for the next semester that is developed by the student in agreement with and signed by an academic advisor. All completed MLSK courses that fail to meet minimum grade requirements (C or 2.000 or better) must be repeated by the student. Students shall not be allowed to progress to the final semester until all courses in the previous semesters are successfully completed and a GPA of 2.000 is obtained.

Additional Requirements

The program requires 124 credit hours total, with 54 credit hours obtained in the junior/senior years to graduate. Students must complete a minimum of 42 upper division hours, 30 of which must be earned from the University of Wyoming.

Prerequisite for admission to the Medical Laboratory Sciences degree is completion of the Medical Laboratory Technician program at Casper College, or another accredited MLT program. Students interested in the MLS degree who already hold a bachelors degree should contact program director Jed Doxtater at jdoxtate@uwyo.edu.

Major

Medical Laboratory Science, B.S.

A degree in Medical Laboratory Science prepares healthcare professionals to perform clinical diagnostic testing in the areas of microbiology, hematology, chemistry, immunohematology, urinalysis, serology, and molecular biology.

USP - University Studies Program Requirements

Completion of all University Studies Program requirements is necessary to obtain a bachelors degree from the University of Wyoming. These requirements may be covered by the Medical Laboratory Technician Associates degree at Casper College. Please work with your advisor to ensure these requirements are fulfilled.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

Casper College Requirements

MLTK and PEAC courses are available through an articulation agreement with Casper College **and can be taken only through Casper College**. Students are responsible for fulfilling all University Studies requirements. The articulation agreement, with a proposed semester-by-semester sequence, is available at:

<http://www.uwyo.edu/TRANSFER/articulation/agreements/medical-laboratory-science.html>

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MICR2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.

Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

OR MOLB 2021 General Microbiology (Casper College equivalent: MOLB 2210)

SOC1000 - Sociological Principles

Credits: 3

Provides a survey of the discipline and foundation for other sociology courses. Explores major areas of interest - ranging from small groups and families to bureaucracies and social movements. Introduces significant concepts and theories, along with tools of social research. Gives attention to contemporary American society, as well as comparative and historical material.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

ENGL1010 - College Composition and Rhetoric

Credits: 3

A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a

range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA

USP 2015 Code U5C1

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

ENGL2005 - Writing in Technology and the Sciences

Credits: 3

Develops writing styles specifically suited to technological and scientific fields of study. Includes focus on disciplinary conventions and styles as well as audience/readership considerations. Introduces techniques for data interpretation and visualization, and helps students analyze, understand, and adapt common field genres and formats.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: successful completion of WA/COM1.

POLS1000 - American and Wyoming Government

Credits: 3

Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

When Offered (Offered each semester)

USP 2003-2014 Code U3V

USP 2015 Code U5V

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

- PEAC xxxx: Online Activity Credits: 1
- CMAP 1505 Introduction to Computers Credits: 1
- Elective Credits: 3
- MLTK 1500 - Hematology Credits: 3
- MLTK 1600 - Clinical Immunohematology Credits: 3
- MLTK 1700 - Microscopy: UA Body Fluids Credits: 2
- MLTK 2600 - Clinical Microbiology I Credits: 2
- MLTK 2500 - Clinical Chemistry Credits: 3
- MLTK 2650 - Clinical Microbiology II Credits: 2
- MLTK 2700 - Immunology Credits: 4
- MLTK 2971 - Clinical Practicum: Hematology Credits: 2
- MLTK 2972 - Clinical Practicum: Chemistry Credits: 2
- MLTK 2973 - Clinical Practicum: Immunohematology Credits: 2
- MLTK 2974 - Clinical Practicum: Microbiology Credits: 2
- MLTK 2976 - Clinical Practicum: Serology Credits: 1
- MLTK 2977 - Clinical Practicum: UA / Body Fluids Credits: 1
- MLTK 2978 - MLT Professionalism Credits: 1
- MLTK 2800 - Clinical Pathophysiology Credits: 4
- MLTK 1800 - Principles of Phlebotomy Credits: 3

University of Wyoming Requirements

Upper-division courses required to complete the Bachelor of Science in Medical Laboratory Science (**All MLSK courses are only available through UW-Casper.**):

CHEM1030 - General Chemistry II

Credits: 4

Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: CHEM 1020.

CHEM2300 - Introductory Organic Chemistry

Credits: 4

Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.

When Offered (Normally offered spring semester)

Prerequisite: CHEM 1020, CHEM 1050, CHEM 1000 or equivalent.

LIFE3050 - Genetics

Credits: 4

Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3600 - Cell Biology

Credits: 4

Focuses on cell structure, cell function and the regulation of cell processes. Examines many levels of organization, ranging from single molecules and individual cells to multi-cellular systems and the whole organism. Discussion section is required.

Former Course Number [BIOL 3600/ BIOL 4600]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

MOLB3000 - Introduction to Molecular Biology

Credits: 3

An introduction to molecular biological processes governing cellular events is presented in the context of the structure of genomes, genes and chromosomes, DNA replication, gene expression, signal transduction pathways and the

regulation of cellular processes in disease and development. Experimental methods and technologies will also be discussed.

Prerequisite: LIFE 1010 and CHEM 1030; MOLB 2021 or MICR 2021 recommended.

MOLB3610 - Principles of Biochemistry

Credits: 4

One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

MLSK4840 - Laboratory Education Methodology

Credits: 1

This course provides an overview of education methodology and issues related to roles as educators in the clinical laboratory profession. Course topics and assignments include pedagogy, curriculum design, assessment and accreditation. Major educational responsibilities for clinical laboratory professionals relating to continuing education, competency assurance, certification and licensure will be addressed.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4850 - Clinical Research Design

Credits: 2

A course in research design methods commonly used in clinical research. Emphasis is on research design, process, measurement, regulatory issues, and ethics, as used by investigators. The focus is to equip students with knowledge and skills necessary to critically examine professional literature, methodology and ethical considerations that influence research design.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4860 - Laboratory Management

Credits: 3

This course introduces students to laboratory management systems, testing, reimbursement, accrediting/regulatory issues, finances, information systems, QA/QC improvement and supervisory roles in the clinical laboratory. Emphasis is on management and communication skills needed to work successfully as entry-level professionals in a health care setting.

USP 2015 Code U5C3

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4870 - Advanced Clinical Chemistry

Credits: 4

This course is designed to introduce students to advanced topics in clinical chemistry in relation to instrumentation, diagnostic testing and its correlation to disease states, and method correlation and validation. Students will demonstrate the ability to describe principles and applications required for the entry level laboratory scientist.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an AS degree in MLT within the past 5 years.

MLSK4880 - Advanced Hematology: Erythrocytes

Credits: 2

Advanced hematology principles and techniques prepare students for practice in the clinical laboratory. This course will focus on advanced topics of hematology, focusing on normal and abnormal erythrocytes in relation to assessment, and disease correlation.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an AS degree in MLT within the past 5 years.

MLSK4981 - Advanced Clinical Practicum-Hematology

Credits: 3

Advanced hematology principles and techniques prepare students for practice in the clinical laboratory. Topics include leukopoiesis, leukemias, lymphomas, hemostasis, coagulopathies, urinalysis and body fluids. Laboratory will focus on abnormal smears, normal and leukemic bone marrow evaluations, and coagulation mixing studies, factor assays and body fluids related to clinical disease states.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4982 - Advanced Clinical Practicum-Molecular

Credits: 3

Principles of molecular technology used in clinical laboratories. Laboratory experiences include cytogenetics, nucleic acid extraction, hybridization, detection, amplification, sequencing, microarrays, and in-situ hybridization. Emphasis is on the areas of the clinical laboratory that use molecular techniques related to genetics, oncology, infectious disease, and identity testing for forensic and transplant purposes.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4983 - Advanced Clinical Practicum-Immunohematology

Credits: 3

Principles of immunology theory, blood group systems, genetics, and immunohematology techniques. Procedures including evaluation of blood samples, pretransfusion compatibility testing, and transfusion reactions are studied.

Serologic testing and problem-solving in antibody identification and complex procedures are stressed. Laboratory emphasizes modern practices, resolution of compatibility problems and advanced antibody identification methods.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4984 - Advanced Clinical Practicum- Microbiology

Credits: 3

Focus is on underlying mechanisms of microbial pathogenesis, host responses to infectious disease and clinical diagnosis procedures. Emphasis is on detailed mechanisms of infection, pathogenesis, and major discoveries and technologies in medical microbiology. Current issues in public and global health, epidemiology, bioterrorism, biotechnology and vaccination programs will be studied.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4890 - Professional Career Paths and Review

Credits: 2

This Medical Laboratory Sciences program prepares students for a variety of graduate degrees and careers in laboratory medicine. This course is designed to help students investigate career and education opportunities after becoming a certified Medical Laboratory Scientist and also provides students with a cumulative review to ensure mastery of content.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an AS degree in MLT within the past 5 years.

- Upper-division elective credits: 1 (see below, consult your academic advisor)

Upper Division Elective Credit Hours

One upper division elective credit hour must be completed in the student's junior or senior year to meet the total 42 required upper division credits to graduate. Students may take a three credit class to meet this requirement.

These credits must be 3000 and above, and achieved through online outreach or on campus courses. A list of courses that are acceptable to fulfil this requirement can be made available to the student. If a course is in question, it is highly suggested to the student to contact the UW-C advising department or the MLS program director for requirement fulfillment confirmation.

Enrichment Rotations and Laboratory Sessions

The final semester of the student's senior year is comprised of didactic material being delivered in an online hybrid manner, supplemented with on campus lab sessions at the UW-Casper campus. These lab sessions will be accompanied by an observational enrichment rotation at a clinical site. This enrichment rotation will allow for the observation of advanced methodologies in a practical environment. It will be the students' responsibility for all travel and housing costs associated with the advanced clinical practicum courses.

Probation

Students who do not meet the minimum grade requirements stated above for MLSK course work will be placed on probation. In this period of time, students will be allowed to continue in the program under supervision, but will submit a petition which is an individualized plan of study for the next semester that is developed by the student in agreement with and signed by an academic advisor. All completed MLSK courses that fail to meet minimum grade requirements (C or 2.000 or better) must be repeated by the student. Students shall not be allowed to progress to the final semester until all courses in the previous semesters are successfully completed and a GPA of 2.000 is obtained.

Additional Requirements

The program requires 124 credit hours total, with 54 credit hours obtained in the junior/senior years to graduate. Students must complete a minimum of 42 upper division hours, 30 of which must be earned from the University of Wyoming.

Prerequisite for admission to the Medical Laboratory Sciences degree is completion of the Medical Laboratory Technician program at Casper College, or another accredited MLT program. Students interested in the MLS degree who already hold a bachelors degree should contact program director Jed Doxtater at jdoxtate@uwyo.edu.

Graduate

Doctor of Pharmacy, MBA/PharmD Dual Degree

This dual degree program provides students with a complementary business degree to start their own business or to advance into management positions in their careers. Students acquire decision-making skills that allow them to excel in their field of practice.

Additional Requirements

The School of Pharmacy offers an MBA/Pharm.D. dual degree program that is geared toward students who have already obtained a Bachelor's degree. A dual M.B.A./Pharm.D. degree allows a student to diversify their skill set and enhance their value proposition to prospective employers.

The Doctor of Pharmacy/Master of Business Administration dual degree takes five years to complete - four years of Pharmacy studies and one year of MBA core courses. Students spend their first year (Fall, Spring, and Summer semesters) in the MBA program taking core courses and completing other program requirements. The next four years will encompass the traditional Pharm.D. curriculum. Students completing this program will earn a Doctor of Pharmacy degree and a Master of Business Administration degree. Please review the program specific information for each program:

- Business Administration, M.B.A.
- Pharmacy, Pharm.D.

MBAM5101 - MBA Foundations

Credits: 1

The purpose of this course is to prepare students for the academic rigors of the MBA program.

Restricted Enrollment in MBAM or MBAF degree program.

Prerequisite: Admission to full-time MBA program.

MBAM5102 - Operations Management

Credits: 3

Production and operations management. Topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, and scheduling.

Prerequisite: Admission to the MBAM program.

MBAM5104 - Organization Behavior and Human Resource Management

Credits: 3

Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5107 - Decision Making I

Credits: 1

This course develops a systematic process for making decisions in complex business situations, by integrating six dimensions of business risk: competitive, financial, organizational, legal, social, and ethical. The process combines analytical and ethical reasoning methods that compensate for the flawed decision making common in business organizations.

Prerequisite: Admission to the MBAM program.

MBAM5202 - Data and Decision Modeling

Credits: 3

This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Prerequisite: Admission to the MBAM program.

MBAM5204 - Financial Management

Credits: 3

Students taking this course should expect to learn the fundamentals principles of environmental influences on corporate

financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

Prerequisite: Admission to the MBAM program.

MBAM5207 - Marketing Management

Credits: 3

Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5208 - Managerial Accounting

Credits: 3

This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions.

Prerequisite: Admission to the MBAM program.

MBAM5209 - Decision Making II

Credits: 1

An experiential learning course that builds on MBAM 5107. Students apply systematic business decision making process to real-world business situations. Student teams work directly with owners and managers of Wyoming companies to address their strategic, competitive, operational, financial, and/or administrative challenges in real time.

Prerequisite: MBAM 5107.

MBAM5305 - Strategic Management

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

Prerequisite: Admission to the MBAM program. #304.

MBAM5330 - Global Business Environment

Credits: 3

Max Credit 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

Restricted Admission to the MBA, MBAE, or MBAF program.

Prerequisite: Admission to the MBA program, or permission from the MBA Program Director.

MBA-MBA students, including dual degree students, must take an additional nine (9) credit hours of 4000 or 5000 level College of Business courses. Three (3) of these credit hours can be taken outside of the College of Business. Dual degree students (JD/PharmD/MS) may take three (3) credit hours outside the College of Business following dual degree agreement guidelines. Please contact your advisor for additional information.

Health Services Administration, M.S.

The School of Pharmacy offers a Master of Science online degree in health services administration (MSHSA).

Specialty Tracks

All students select one specialty track.

Biopharmaceutical Regulatory Compliance Group Specialty Listings

Specialty Tracks through the Biopharmaceutical Regulatory Compliance Group

- o Biopharmaceutical Regulatory Compliance
- o Healthcare Risk Management
- o Forensic Pharmacy
- o Healthcare Policy Analysis
- o Biopharmaceutical Product Representation
- o Clinical Research Administration
- o Patient Safety Systems
- o Healthcare Security Systems
- o Healthcare Ethics & Equity

Health Institution Leadership Group Specialty Listings

Specialty Tracks through the Health Institution Leadership Group

- o Health Institution Leadership
- o Health Economics & Outcomes
- o Healthcare Quality & Improvement

- o Rural Healthcare Coordination
- o Geriatric Care Systems
- o Healthcare Entrepreneurism
- o Healthcare Financing
- o Health Information Technology
- o Healthcare Writing and Reporting

Biopharmaceutical Regulatory Compliance Group

MS-HSA Curriculum

The following table provides a list of the core courses required for all tracks.

PHCY5040 - The Evolution of American Health

Credits: 2

This course explores the evolution of the healthcare system in response to various needs and crises over the years. The professionalization of health care; the development of the modern hospital; the implications of computerized health information; and the empowerment of patients will be covered.

Prerequisite: Admission into the Health Services Administration MS program.

PHCY5042 - Statistics for Health Services

Credits: 3

This course will introduce students to correlation analysis, regression, analysis of variance and selected non-parametric tests, focusing on appropriate use of each and how to interpret the output of a statistical test to answer a research question.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5043 - Empirical Analysis for Health Services Administration

Credits: 3

This course will equip students with an understanding of research and policy debates related to economic, political, and administrative aspects of health services by providing an overview of how research can be used by health service researchers to draw conclusions about health services and their administration.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5045 - Health Services Administration Applied Research

Credits: 1-4

This course provides the opportunity for students to apply knowledge and skills obtained in the HSA program while gaining practical experience with real-world projects.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5046 - Health Services Administration Seminar1

Credits: 1

Max Credit (Max. 2)

An in-depth investigation of a timely issue in health services, including the regulatory, economic, patient-safety, marketing, leadership, and ethical aspects of that issue. Students will participate in separate group analysis of a presented problem, and in their presentations of their group's assessment of the problem.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5041 - Health Services Administration Research Methods

Credits: 2

This course will cover the basic research designs used in health services research. Focus will be given on framing the research questions, selecting the appropriate study design and threats to the internal validity of the study designs.

Prerequisite: Must be enrolled in the HSA program.

Sub-Total Program Required Coursework: 15 credit hours

Biopharmaceutical Regulation & Compliance Track

The following tables provides a list of required courses for the track listed

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5242 - The Food and Drug Administration

Credits: 2

This course examines the regulatory climate for FDA-regulated drug and biological products. Regulatory standards are reviewed (including discovery of new therapeutic modalities, their approval, manufacturing, promotion, and distribution), and the enforcement authority of the FDA is examined (focusing on methods that promote safe and effective drug use).

Prerequisite: PHCY 5241.

PHCY5243 - The Drug Enforcement Administration

Credits: 2

This course examines the balance of health professionals and institutions working with regulators to develop programs that reflect both the best interests of individual patients and of society. Focusing on challenges of treating chronic pain, prescription drug abuse, and actions that have led to conflict between regulators and health practitioners.

Prerequisite: PHCY 5241.

PHCY5244 - State Regulations of Health Professions

Credits: 2

This course examines how state regulatory agencies assure the initial competence of practitioners, as well as their continuing competence in the years following the completion of academic training. The course also examines the factors that are applied to the regulation of health care settings, using the structure-process-outcomes typology of Donabedian.

Prerequisite: PHCY 5241.

Specialty Track Electives (choose 6 hours)

Healthcare Risk Management Track

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5342 - Healthcare Risk and Quality

Credits: 3

This course surveys the importance and processes of quality and risk in health care institutions. Students will be assigned to lead topics. Current events/topics will be utilized to inform the class.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5670 - Medication Malpractice

Credits: 2

Using a case-study approach, potential legal liability issues are studied, within a health care context that primarily focuses on legal liability related to the use of medications. Strategies for reduction of legal liability are explored. The

implementation and oversight of legal risk management programs is addressed.

Dual Listed Dual listed with: PHCY 4670.

Prerequisite: Enrollment in graduate or professional program or department permission.

PHCY5240 - Pharmaceutical Homicide

Credits: 2

Legal pharmaceutical products are sometimes used by healthcare professional criminals to kill people. This course focuses on identifying the zone of risk for people who could be harmed by pharmaceuticals, and the development of best practices to protect patients and other from the harm.

Dual Listed PHCY 4240.

Prerequisite: Enrollment in graduate or professional program or department permission.

Specialty Track Electives (Choose 6 hours)

Forensic Pharmacy Track

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5240 - Pharmaceutical Homicide

Credits: 2

Legal pharmaceutical products are sometimes used by healthcare professional criminals to kill people. This course focuses on identifying the zone of risk for people who could be harmed by pharmaceuticals, and the development of best practices to protect patients and other from the harm.

Dual Listed PHCY 4240.

Prerequisite: Enrollment in graduate or professional program or department permission.

PHCY 5XXX The Chemistry of Poisonings 2 Credits

PHCY 5XXX Thr Process of Forensic Science 2 Credits

Specialty Track Electives (choose 6 hours)

Healthcare Policy Analysis Track

Specialty Track Required Coursework (9 credit hours)

PHCY5047 - Pandemic Preparedness Policy

Credits: 2

Analysis of regulatory measures undertaken to protect the public from adverse effects of a global pandemic. Evaluation of alternative means of preparing for a pandemic and for management of pandemic response. Considers balancing of individual interests and community interests.

PHCY5148 - Health Economics and Policy

Credits: 2

This course explores the financing and structure of the U. S. healthcare system with the purpose of understanding how these systems impact patient care, health policy, and economics. Topics include organization of healthcare systems, insurance programs, legislation, healthcare labor markets and drug costs.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5246 - Prescription Drug Costs

Credits: 2

Max Credit 2

Overview of prescription drug prices and the consequences for patients and society of the high cost of pharmaceutical products. Causes of escalating pharmaceutical prices are reviewed. Legal and economic factors that contribute to high drug prices are considered. Potential solutions are identified.

Restricted Professional and Graduate students only.

Biopharmaceutical Product Representation Track

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5541 - Introduction to Biopharmaceutical Marketing and Production

Credits: 3

This course will review empirical evidence in various topic areas within the fields of biopharmaceutical marketing, sales promotion, communication, and selling effectiveness focusing on the history and structure of the biopharmaceutical product representative function and theoretical domains associated with the associated activities.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.
Specialty Track Electives (choose 6 hours)

Clinical Research Administration Track

Specialty Track Required Coursework (10 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5242 - The Food and Drug Administration

Credits: 2

This course examines the regulatory climate for FDA-regulated drug and biological products. Regulatory standards are reviewed (including discovery of new therapeutic modalities, their approval, manufacturing, promotion, and distribution), and the enforcement authority of the FDA is examined (focusing on methods that promote safe and effective drug use).

Prerequisite: PHCY 5241.

PHCY 5XXX Biomedical Ethics 3 Credits
PHCY 5XXX Clinical Research Regulation 2 Credits
Specialty Track Electives (choose 5 hours from list)

Patient Safety Systems Track

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5341 - Principles of Healthcare Quality

Credits: 3

Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.
Specialty Track Electives (choose 6 hours)

Healthcare Security Systems Track

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.
PHCY 5XXX Cybersecurity 2 Credits

PHCY 5XXX HIPAA Compliance 2 Credits
PHCY 5XXX Disaster Management 2 Credits
Specialty Track Electives (choose 6 hours)

Healthcare Ethics & Equity Track

Specialty Track Required Coursework (10 Credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY 5XXX Biomedical Ethics 3 Credits
PHCY 5XXX HIPAA Compliance 2 Credits
PHCY 5XXX Clinical Research Regulation 2 Credits
Specialty Track Electives (choose 5 hours)

Health Institution Leadership Group

MS-HSA Curriculum

The following table provides a list of the core courses required for all tracks

PHCY5040 - The Evolution of American Health

Credits: 2

This course explores the evolution of the healthcare system in response to various needs and crises over the years. The professionalization of health care; the development of the modern hospital; the implications of computerized health information; and the empowerment of patients will be covered.

Prerequisite: Admission into the Health Services Administration MS program.

PHCY5041 - Health Services Administration Research Methods

Credits: 2

This course will cover the basic research designs used in health services research. Focus will be given on framing the research questions, selecting the appropriate study design and threats to the internal validity of the study designs.

Prerequisite: Must be enrolled in the HSA program.

PHCY5042 - Statistics for Health Services

Credits: 3

This course will introduce students to correlation analysis, regression, analysis of variance and selected non-parametric tests, focusing on appropriate use of each and how to interpret the output of a statistical test to answer a research question.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5043 - Empirical Analysis for Health Services Administration

Credits: 3

This course will equip students with an understanding of research and policy debates related to economic, political, and administrative aspects of health services by providing an overview of how research can be used by health service researchers to draw conclusions about health services and their administration.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5045 - Health Services Administration Applied Research

Credits: 1-4

This course provides the opportunity for students to apply knowledge and skills obtained in the HSA program while gaining practical experience with real-world projects.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5046 - Health Services Administration Seminar1

Credits: 1

Max Credit (Max. 2)

An in-depth investigation of a timely issue in health services, including the regulatory, economic, patient-safety, marketing, leadership, and ethical aspects of that issue. Students will participate in separate group analysis of a presented problem, and in their presentations of their group's assessment of the problem.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

Sub-Total Program Required Coursework: 15 Hours

Health Institution Leadership Track

Specialty Track Required Coursework (9 credit hours)

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5442 - Healthcare Financial Planning

Credits: 2

This course explores financial principles incorporating the unique environment of the health institution. The mix of services (inpatient, outpatient, nursing facilities, urgent/emergency care and components) will be studied through extensive use of case studies and models to develop the health institution leader's financial skills.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5443 - Healthcare Human Capital Plan

Credits: 2

This course will provide skills for developing and managing human capital by the health institution leader through exploration of best practices for human capital selection and development to optimize the performance of the workforce while complying with legal, regulatory, and contractual requirements through extensive use of case studies and models.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5444 - Healthcare Strategic Innovation

Credits: 2

This course develops strategic skills by the health institution leader through exploration of principles incorporating the unique environment of the health institution. The strategic skills will be applied to the concept of innovation through extensive use of case studies and models.

Prerequisite: Must be enrolled in the HSA program, or by permission.
Specialty Track Electives (choose 6 hours)

Health Economics and Outcomes

Specialty Track Required Coursework (10 credit hours)

PHCY5141 - Principles of Health Econ and Outcomes

Credits: 3

This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5142 - Health Economic Decision Analysis

Credits: 2

This class is designed to provide the student with the methods of comparative effectiveness research with special focus on how various decision makers use comparative effectiveness data to assist in decision-making.

Prerequisite: PHCY 5141.

PHCY5143 - Comparative Effectiveness Research

Credits: 2

This class is designed to provide the student with the methods of comparative effectiveness research with special focus on how various decision makers use comparative effectiveness data to assist in decision-making.

Prerequisite: PHCY 5141.

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.
Specialty Track Electives (Choose 5 hours)

Healthcare Quality & Outcomes Track

Specialty Track Required Coursework (8 credit hours)

PHCY5341 - Principles of Healthcare Quality

Credits: 3

Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5342 - Healthcare Risk and Quality

Credits: 3

This course surveys the importance and processes of quality and risk in health care institutions. Students will be assigned to lead topics. Current events/topics will be utilized to inform the class.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.
Specialty Track Electives (choose 7 hours)

Rural Healthcare Coordination Track

Specialty Track Required Coursework (9 credit hours)

PHCY5141 - Principles of Health Econ and Outcomes

Credits: 3

This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5341 - Principles of Healthcare Quality

Credits: 3

Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.
Specialty Track Electives (choose 6 hours)

Geriatric Care Systems Track

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5341 - Principles of Healthcare Quality

Credits: 3

Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.
Specialty Track Electives (choose 6 hours)

Healthcare Entrepreneurism Track

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5541 - Introduction to Biopharmaceutical Marketing and Production

Credits: 3

This course will review empirical evidence in various topic areas within the fields of biopharmaceutical marketing,

sales promotion, communication, and selling effectiveness focusing on the history and structure of the biopharmaceutical product representative function and theoretical domains associated with the associated activities.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.
Specialty Track Electives (choose 6 hours)

Healthcare Financing Track

Specialty Track Required Coursework (9 credit hours)

PHCY5141 - Principles of Health Econ and Outcomes

Credits: 3

This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5541 - Introduction to Biopharmaceutical Marketing and Production

Credits: 3

This course will review empirical evidence in various topic areas within the fields of biopharmaceutical marketing, sales promotion, communication, and selling effectiveness focusing on the history and structure of the biopharmaceutical product representative function and theoretical domains associated with the associated activities.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.
Specialty Track Electives (choose 6 hours)

Health Information Technology Track

Specialty Track Required Coursework (9 credit hours)

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY 5XXX Information Design and Analysis 2 Credits

PHCY 5XXX Healthcare Information Systems 2 Credits

PHCY 5XXX Information Management 2 Credits

Specialty Track Electives (choose 6 hours from list)

Healthcare Writing & Reporting Track

Specialty Track Required Coursework (9 credit hours)

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY 5XXX Professional Writing in Healthcare 2 Credits

PHCY 5XXX Health Data in Figures, Tables & Graphs 2 Credits

PHCY 5XXX The Healthcare Message 2 Credits

Specialty Track Electives (choose 6 hours)

Additional Notes

NOTE: Specialty track electives can be any course provided in the MSHSA program.

Please consult with the program director if you have questions on the electives to choose for a specific track.

Those course numbers with PHCYXXXX are currently being built or waiting on approval from the University. Please contact the MS HSA program for questions.

Additional Requirements

This degree is geared toward new and mid-career practitioners including pharmacists, nurses, physicians, social workers, and other health care professionals who want to become department directors, patient safety

coordinators and/or directors, regulatory compliance officers, clinical research associates, health outcomes researchers or take on leadership roles as advanced practice practitioners.

The program also benefits health care workers in fields such as management positions, pharmaceutical sales representatives, medical science liaisons, and pharmacy technician educators as well as new clinical faculty at newly established pharmacy colleges.

Available nationwide the master's program is delivered via a mix of online self-study and online project-based coursework.

The program can be completed in two years of part-time study. Students are requested to travel to the UW Laramie campus for two weekend seminars during the two-year program (based on travel restrictions during the pandemic this course was held online). Graduates will be expected to complete 30 credit hours of coursework and pass a comprehensive final exam. Coursework will be completed over five consecutive semesters however students can take up to 6 years to complete the program.

A prospective student should have earned at least a bachelor's degree from a regionally accredited institution. To find out more about the application process please see the following website www.uwyo.edu/pharmacy/online-ms-program or contact the Student Services Office.

Pharmacy, Pharm.D.

The School of Pharmacy offers only the four-year curriculum leading to the Doctor of Pharmacy (Pharm.D.) degree. Students admitted to the professional pharmacy program follow a four year program of study leading to the Doctor of Pharmacy Degree. Students complete a total of 146 hours.

In order to keep abreast with changes in pharmaceutical education, the following curriculum is subject to change or modification as required by the accrediting agency. Students should be aware that changes must be expected and they will be included in their academic program. The School of Pharmacy does not plan to change graduation requirements inadvertently, but does reserve the right to change any provisions or requirement deemed necessary at any time within the student's term of residence.

Required Curriculum

ZOO4125 - Integrative Physiology

Credits: 5

Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

Prerequisite: grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

PHCY6100 - Dose Form Design

Credits: 4

Extensively introduces various types of dosage forms, discusses advantages and disadvantages of each. Pharmaceutical calculations are a major component of the course, as well as physicochemical principles involved in dose form stability.

Prerequisite: CHEM 2420 and CHEM 2440.

PHCY6106 - Pharmaceutical Calculations

Credits: 2

Application of basic mathematics and quantitative reasoning to pharmaceutical calculations, emphasizing calculations of doses, dosage requirements, compounding of formulations and parenterals.

Former Course Number [6105]

Prerequisite: MATH 1000 or MATH 1400.

PHCY6110 - Medicinal and Natural Products Chemistry I

Credits: 3

Three-semester series that studies the physicochemical, biochemical and pharmacological properties of substances of natural and synthetic origin that are used as medicinal agents.

Prerequisite: CHEM 2440 and MOLB 3610.

PHCY6140 - Introduction to Social Administrative Pharmacy

Credits: 2

Provides an introduction to socio-cultural, behavioral and administrative principles of pharmacy with a focus on pharmacist roles and their historical evolution, health disparities, health behavior theory and practice philosophy, and a survey of the U. S. health care system.

Prerequisite: Enrollment in the professional program or consent of instructor.

PHCY6160 - Pharmacist Skills I

Credits: 1

Preparation and evaluation of dosage forms is main thrust of course. Laboratory emphasizes manipulative and mathematical skills, prescription formats, packaging and storage as they apply to pharmaceuticals.

Former Course Number [6101]

Prerequisite: concurrent enrollment in PHCY 6100; MATH 2100.

PHCY6102 - Biopharmaceutics and Pharmacokinetics

Credits: 4

Discusses biopharmaceutic and pharmacokinetic aspects of dosage form design. Basic pharmacokinetics and

biopharmaceutics are interrelated to clinical applications. Also covers classical kinetics and dissolution.

USP 2015 Code U5C3

Prerequisite: MATH 2200 and PHCY 6100.

PHCY6111 - Medicinal and Natural Products Chemistry II

Credits: 3

Continuation of Medicinal and Natural Products Chemistry I.

Former Course Number [6210]

Prerequisite: Ph1 status in PharmD program or consent of instructor.

PHCY6120 - Advanced Pathophysiology

Credits: 3

Advanced course covering the molecular, cellular, genetic and clinical principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for Doctor of Pharmacy students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 3450 for interprofessional education revolving around student-led case study presentations.

Former Course Number [6220]

Prerequisite: LIFE 1010, LIFE 1020, CHEM 1020, CHEM 1030, CHEM 2420, CHEM 2440, MOLB 2240, MOLB 3610, ZOO 3115, ZOO 4125.

PHCY6151 - Pharmacy Practice

Credits: 2

Provides didactic content that enables students to accurately prepare and dispense prescription medications.

Former Course Number [6354]

Prerequisite: enrollment in the doctor of pharmacy professional program.

PHCY6152 - Therapeutics I

Credits: 3

Emphasizes the role of the pharmacist in pharmaceutical self care, appropriate triage and referral involving prescription, non-prescription pharmaceuticals, complimentary, alternative therapies and devices in community dwelling patients with both acute and chronic self-care conditions.

Former Course Number [6352]

Prerequisite: enrollment in the doctor of pharmacy professional program.

PHCY6161 - Pharmacist Skills II

Credits: 1

Provides laboratory and other related experiences that enable students to accurately prepare and dispense prescription medications.

Prerequisite: P1 status in PharmD program or consent of instructor.

PHCY6170 - Introductory Pharmacy Practice Experience-IPPE1

Credits: 1

Provides an early curricular exposure to the roles and functions of pharmacists in their work environment through a shadow experience.

Prerequisite: satisfactory completion of PHCY 6185.

PHCY6480 - Introduction to Community Pharmacy Practice

Credits: 4

Four-week rotation in community pharmacy practice completed under the guidance of a licensed pharmacist. Patient care activities will include, but not be limited to, basic patient and drug therapy assessment, performing medication histories and prospective drug utilization reviews, basic patient counseling and active participation in the medication distribution process.

Prerequisite: grade of C or higher in PHCY 6352 and 6354 and satisfactory completion of all courses within the P1 curriculum (i. e. P2 standing).

PHCY6482 - Introduction to Hospital Pharmacy Practice

Credits: 4

Four-week rotation in hospital pharmacy practice completed under the guidance of a licensed pharmacist. Patient-care activities will include basic drug therapy and patient assessment, prospective drug utilization reviews, participating in the hospital's medication distribution process, performing calculations, compounding preparations and understanding pharmacy's role within the health-system through interdisciplinary interactions.

Prerequisite: grade of C or higher in PHCY 6352 and 6354 and satisfactory completion of all courses within the P1 curriculum (i. e. P2 standing).

PHCY6215 - Medicinal and Natural Products Chemistry III

Credits: 3

Continuation of Medicinal and Natural Products Chemistry II.

Former Course Number [6211]

Prerequisite: PHCY 6111.

PHCY6230 - Pharmacology I

Credits: 4

First semester of a one-year series. Studies action of chemical agents on living systems to include pharmacodynamics, toxicology, and clinical therapeutics. Concepts are emphasized through case presentations and discussion.

Prerequisite: PHCY 4450.

- PHCY 6230 - Pharmacology I Discussion Credits: 0

PHCY6240 - Research and Evaluation Methods in Pharmacy

Credits: 3

The course focuses on research design and statistical analyses, as well as pharmaco-economic, pharmaco-epidemiology and public health concepts and methods for evidence-based practice applications and health care policy development.

Prerequisite: MATH 2200 and PharmD program P2 status.

PHCY6245 - Patient/Professional Interactions

Credits: 3

Focuses on psychosocial and communication concepts pertaining to human interactions, with application to professional practice environments and clinical counseling situations.

USP 2015 Code U5C3

Prerequisite: enrollment in the doctor of pharmacy professional program.

PHCY6260 - Pharmacist Skills III

Credits: 1

This course is the third in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in the different subdisciplines represented in the SOP curriculum.

Prerequisite: P2 status in PharmD program or consent of instructor.

PHCY6231 - Pharmacology II

Credits: 4

Second semester of a one-year series. Continuation of PHCY 6230. Lecture with separately scheduled discussion section.

Prerequisite: PHCY 6230.

- PHCY 6231 - Pharmacology II Discussion Credits: 0

PHCY6246 - Pharmacy Management, Marketing and Finance

Credits: 3

Examines management functions and leadership in various types of contemporary pharmacy practice including pharmacy services, drug distribution, technology, human resources, marketing, finance and accounting.

Prerequisite: P2 status.

PHCY6251 - Therapeutics II

Credits: 3

Introduces pharmacotherapeutic principles employed in the patient care process for managing select disease states and specific patient populations. The course emphasizes the role of evidence-based medicine in developing pharmaceutical care plans (e. g. recommending therapy, evaluating and monitoring the efficacy and safety of medications).

Prerequisite: PHCY 6120, PHCY 6230.

PHCY6261 - Pharmacist Skills IV

Credits: 2

This course is the fourth in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in different subdisciplines represented in the SOP curriculum.

Prerequisite: P2 status in PharmD program or consent of instructor.

PHCY6270 - Intermediate Pharmacy Practice Experience-IPPE2

Credits: 1

An advanced exposure to the practice of pharmacy in health care environments.

USP 2015 Code U5C3

Prerequisite: satisfactory completion of PHCY 6170.

PHCY6312 - Clinical Toxicology

Credits: 3

Focuses on biological and pharmacological effects of environmental, chemicals, OTC and prescription drug poisoning cases. Emphasis will be placed on the use of historical, laboratory and clinical data to diagnose and develop clinical management approaches for both acute and chronic poisoning cases.

Prerequisite: PHCY 6230, MOLB 3610.

PHCY6341 - Pharmacy Practice Law

Credits: 3

Coverage of state, federal and local laws and regulations which relate directly to the practice of pharmacy. The Wyoming Pharmacy Act serves as a model for analogous laws in other states. Case law at the federal and state levels affecting pharmacy practice is analyzed and discussed.

Prerequisite: PH3 or consent of instructor.

PHCY6344 - Pharmacy Ethics

Credits: 1

Focuses on ethical issues confronting pharmacists in practice, pharmacy as a profession, the health care delivery system and society.

Former Course Number [6280, 6385]

Prerequisite: enrollment in the doctor of pharmacy professional program.

PHCY6350 - Therapeutics III

Credits: 4

Provides an overview of the treatment of selected disease states. Students will develop skills in providing patient-centered care as a medication expert, interpreting evidence, and formulating, monitoring, and adjusting care plans. Course will build upon skills learned in PHCY 6251.

Prerequisite: grade of C or higher in PHCY 6251.

PHCY6357 - Clinical Pharmacokinetics

Credits: 2

Course will provide the student with an overview of the clinical application of pharmacokinetic concepts as used in providing quality patient care. Principles of pharmacokinetics may be applied to the therapeutic use of all medications, including those inherently discussed during this course.

Prerequisite: PHCY 6102.

PHCY6360 - Pharmacist Skills V

Credits: 1

This course is the fifth in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in different subdisciplines represented in the SOP curriculum.

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6300 - Sterile Products

Credits: 2

An introduction to the preparation and clinical application of sterile dosage forms in accordance with USP 797 and other related standards. Emphasizes basic principles related to preparation, dispensing and administration of parenteral medications in health care settings.

Former Course Number [6103]

Prerequisite: PHCY 6100, PHCY 6160, PHCY 6106, and concurrent enrollment in PHCY 6301.

PHCY6301 - Sterile Products Laboratory

Credits: 1

A hands-on training in techniques used to prepare, dispense and administer parenteral admixtures, parenteral nutrition, chemotherapy and ophthalmics forms in accordance with USP 797 and other related standards.

Former Course Number [6104]

Prerequisite: PHCY 6100, PHCY 6160, PHCY 6106 and concurrent enrollment in PHCY 6300.

PHCY6340 - Health Care Policy and Advocacy

Credits: 2

Prepares the future pharmacist leader to analyze and engage in professional advocacy and the healthcare policy process at the local, state and national level. Content will include details of the U. S. healthcare system, health policy, the policy-making process, key stakeholders' roles, sociocultural influences and current issues.

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6351 - Therapeutics IV

Credits: 4

Provides the student with an overview of the treatment of complex disease states. Students will build on their patient-centered skills from PHCY 6350 by interpreting evidence, prioritizing patient needs, and formulating and monitoring evidence-based care plans. These skills will be essential as students begin advanced pharmacy practice experiences.

Prerequisite: grade of C or higher in PHCY 6350.

PHCY6353 - Drug Literature Application

Credits: 2

This course is designed to provide students with the fundamental knowledge and skills to practice evidence-based pharmacotherapy. Topics include: evaluation of drug information requests, informatics, understanding drug information resources, development and execution of search strategies, primary literature and research design analysis, and writing

and presentation skills.

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6361 - Pharmacist Skills VI

Credits: 2

This course is the sixth and final course in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in different subdisciplines represented in the SOP curriculum.

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6370 - Advanced Pharmacy Practice Experience-IPPE3

Credits: 2

Designed to prepare the student for 4th year advanced pharmacy practice experience (APPE) activities by discussion of logistics, professionalism, regulatory issues, portfolio requirements and assessment tools. In addition, students will continue building their clinical skills through a patient care practice experience.

USP 2015 Code U5C3

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6485 - Reflective Learning in Pharmacy

Credits: 1

Max Credit (Max. 4)

Designed to help prepare P4 pharmacy students to be knowledgeable and well-rounded practitioners. Provides an opportunity to reflect on rotation experiences, give professional level presentations, and exposure to content not covered elsewhere in curriculum. Course includes guest speakers, Pharm. D. seminars, assessment activities, job/residency fairs, P4 portfolio, and reflective writing.

USP 2003-2014 Code [COM3]

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.
Students complete 3 sections of PHCY 6485, 1 credit each.

PHCY6470 - Internal Medicine I

Credits: 4

An advanced practice experience to develop skills as a medication expert within an inpatient internal medicine or family medicine experiential setting. Students will coordinate, collaborate, and communicate among themselves, their preceptor, and other members of the interprofessional healthcare team to provide patient-centered care.

USP 2003-2014 Code [COM3]

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6473 - Ambulatory Pharmaceutical Care

Credits: 4

An experiential course focusing on the pharmacist as the drug expert in a multidisciplinary health care team. Students will provide direct patient care to patients in an outpatient setting.

USP 2015 Code U5C3

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

(Students complete a second semester of either Internal Medicine or Ambulatory Care)

PHCY6471 - Internal Medicine II

Credits: 4

Course is a continuation of PHCY 6470 in which students take on increasing responsibility and/or more complex patient cases to develop skills as a medication expert in the acute care setting. Students will continue providing patient-centered care by collaborating with their preceptor and other members of the interprofessional healthcare team.

USP 2015 Code U5C3

Prerequisite: PHCY 6470.

PHCY6474 - Ambulatory Pharmacy Care II

Credits: 4

Course is a continuation of PHCY 6473 in which students will take on increasing responsibilities, develop an expanded understanding for systems management, and further advance their clinical skills as medication experts in the outpatient setting.

USP 2003-2014 Code [COM3]

Prerequisite: PHCY 6473.

PHCY6481 - Advanced Community Pharmacy

Credits: 4

An advanced practice experience in community pharmacy designed to build upon introductory experiences and promote active participation in caring for patients in this practice setting. Students will spend 25-30 of their time in non-dispensing activities (e. g. screenings, in-depth counseling, MTM, immunizations, self-care treatment, community presentations, etc.).

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6483 - Advanced Institutional Pharmacy

Credits: 4

An advanced practice experience in institutional/hospital pharmacy designed to build upon introductory experiences and promote active participation within the health-system through interdisciplinary interactions, projects, presentations, and patient care activities. Students will devote at least 50 of their time to nondispensing activities (e. g. monitoring meds, consults, discharge counseling, medication reconciliation, inservices).

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6465 - Elective Rotation In:

Credits: 4

Max Credit (Max. 16)

Elective advanced pharmacy practice experience that is available in a variety of practice environments (e. g. direct patient care settings, management, research, and other pharmacy-related locations). Rotation requires active participation and application of knowledge, skills, values, and attitudes.

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

Students complete 4 sections of PHCY 6465, 4 credits each.

- Students complete 7 hours of electives during the P1-P3 year.

Total Hours 146

Fourth Year [PH4]:

Consists of nine experiential rotations of four credit hours each and three reflective learning weeks. Rotations are considered full-time. Students may not enroll in any other coursework concurrent with rotations. Consequently, all other coursework (107 credits) must be satisfactorily completed before enrollment in P4 coursework. Note: Students will be required to live in locations other than Laramie when enrolled in experiential rotations. Responsibility for living cost and travel arrangements associated with experimental rotations rests with the student. Students participating in all experimental activities will be required to have a vehicle or an acceptable approved alternative.

Students must complete the following Core or Required Experiential Rotations (subject to change):

PHCY6470 - Internal Medicine I

Credits: 4

An advanced practice experience to develop skills as a medication expert within an inpatient internal medicine or family medicine experiential setting. Students will coordinate, collaborate, and communicate among themselves, their preceptor, and other members of the interprofessional healthcare team to provide patient-centered care.

USP 2003-2014 Code [COM3]

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6473 - Ambulatory Pharmaceutical Care

Credits: 4

An experiential course focusing on the pharmacist as the drug expert in a multidisciplinary health care team. Students will provide direct patient care to patients in an outpatient setting.

USP 2015 Code U5C3

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6471 - Internal Medicine II

Credits: 4

Course is a continuation of PHCY 6470 in which students take on increasing responsibility and/or more complex patient cases to develop skills as a medication expert in the acute care setting. Students will continue providing patient-centered care by collaborating with their preceptor and other members of the interprofessional healthcare team.

USP 2015 Code U5C3

Prerequisite: PHCY 6470.

or

PHCY6474 - Ambulatory Pharmacy Care II

Credits: 4

Course is a continuation of PHCY 6473 in which students will take on increasing responsibilities, develop an expanded understanding for systems management, and further advance their clinical skills as medication experts in the outpatient setting.

USP 2003-2014 Code [COM3]

Prerequisite: PHCY 6473.

PHCY6481 - Advanced Community Pharmacy

Credits: 4

An advanced practice experience in community pharmacy designed to build upon introductory experiences and promote active participation in caring for patients in this practice setting. Students will spend 25-30 of their time in non-dispensing activities (e. g. screenings, in-depth counseling, MTM, immunizations, self-care treatment, community presentations, etc.).

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6483 - Advanced Institutional Pharmacy

Credits: 4

An advanced practice experience in institutional/hospital pharmacy designed to build upon introductory experiences and promote active participation within the health-system through interdisciplinary interactions, projects, presentations, and patient care activities. Students will devote at least 50 of their time to nondispensing activities (e. g. monitoring meds, consults, discharge counseling, medication reconciliation, inservices).

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

- Plus 4 Elective Rotations (PHCY 6465)

Preprofessional Program

Preprofessional Pharmacy Program (PPCY)

Students will not receive a degree in prepharmacy. The prepharmacy curriculum guides students as they fulfill requirements for admission to the professional pharmacy degree program.

Required Curriculum

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1030 - General Chemistry II

Credits: 4

Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: CHEM 1020.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

LIFE2022 - Animal Biology

Credits: 4

An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered spring semester)

Former Course Number [BIOL 2022]

Prerequisite: LIFE 1010 with a grade of C or better.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

CHEM2420 - Organic Chemistry I

Credits: 4

First semester of a one-year sequence in organic chemistry. Approached from the viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week. No credit allowed in CHEM 2420 if credit earned in CHEM 2300.

When Offered (Normally offered fall)

Prerequisite: CHEM 1030 or CHEM 1060.

CHEM2440 - Organic Chemistry II

Credits: 4

Second semester of a one-year sequence in organic chemistry. Approached from viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week.

When Offered (Normally offered spring semester)

A&S College Core 2015 Note: CHEM 2300 is not an acceptable prerequisite for CHEM 2440.

Prerequisite: CHEM 1030 or CHEM 1060 and CHEM 2420.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

MOLB3610 - Principles of Biochemistry

Credits: 4

One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

- General Electives (6 credits total)

USP Requirement

The USP-COM 3 requirement is fulfilled in the professional doctoral program.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Division of Social Work

Health Sciences Building, (307) 766-6112

FAX: (307) 766-6839

Web site: www.uwyo.edu/socialwork

Director: Eleanor Pepi Downey, M.S.W., Ph.D

Associate Professors:

ELEANOR PEPI DOWNEY, B.A. Queens College (NC) 1966; M.S.W. Rutgers University 1971; Ph.D. University of Denver 1998; Associate Professor of Social Work 2019.

DIANE A. KEMPSON, B.A. Columbia College 1968; M.S.W. Florida State University 1970; Ph.D. University of South Carolina 1998; Associate Professor of Social Work 2010.

NEELY MAHAPATRA, B.Sc. Utkal University, India 1991; M.Sc. 1993; M.S.S.W. University of Texas-Austin 2003; Ph.D. 2008; Associate Professor of Social Work 2016.

VALERIE THOMPSON-EBANKS, B.Sc. University of the West Indies 2002; M.S.W. 2007; Ph.D. Colorado State University 2012; Associate Professor of Social Work 2018.

Assistant Professors:

SANDY LEOTTI, B.A. Prescott College 2002; M.S.W. University of Montana 2006; Ph.D. Portland State University 2019; Assistant Professor of Social Work 2019.

SUKYUNG YOON, B.A. Chung-Ang University 2002; M.S.W. Yonsei University 2008; Ph.D. University of Tennessee 2019; Assistant Professor of Social Work 2019.

Assistant Lecturers:

BILLIE CHAPMAN, B.A. University of Wyoming 2005; M.S.W. 2008; Assistant Lecturer of Social Work 2018.

KYM CODALLOS, B.A. California State University, Sacramento 1999; M.S.W. California State University, Stanislaus 2006; M.A. 2011; Assistant Lecturer of Social Work 2018.

SARAH S. GREEN, B.A. University of Wyoming, 2015; M.S.W. 2019; Assistant Lecturer 2021.

GRETA MAXFIELD, B.S. University of Wyoming 1994; M.S.W. Washington University 1999; Assistant Lecturer of Social Work 2019.

Social workers are uniquely qualified to help people in their own environments by looking at different aspects of their lives and cultures. We work to ensure the client's personal well-being, prevent crises, counsel individuals, support families, and strengthen communities. We make sure people get the help they need, with the best resources available.

For more than 100 years, social workers have cared for people in every stage of life. Social workers help others overcome life's most difficult challenges and manage the troubles of everyday living, including the troubles that exist due to poverty, stress, addiction, abuse, unemployment, mental illness, family change, and social violence. Social workers advocate for social justice.

Undergraduate Study

The Division of Social Work prepares students for entry-level generalist social work practice. Two locations offer the social work program: the Laramie campus and the University of Wyoming-Casper campus. Graduates receive a Bachelor of Social Work (BSW) and are prepared to work as generalist social work practitioners with individuals, groups, families, organizations, communities, and institutions to achieve more effective and efficient social functioning.

Our program is accredited by the Council on Social Work Education. The curriculum is designed to help students acquire important knowledge and skills in the areas of values and ethics, diversity, social and economic justice, human behavior and the social environment, social welfare policy and services, social work practice, and research. A competency-based curriculum prepares students to meet an "initial level" of competence in nine core areas (CSWE,

2015). Students also select elective courses in areas such as aging, child and adolescent services, health and mental health, and disability services. The program culminates in a 450-hour supervised field practicum, which allows students to work as social workers in one of Wyoming's many human service agencies.

Social Work Major

Social work is a professional degree program. Prior to admission to the professional degree program, students who are working to complete program prerequisites and most University Studies courses are "Social Work-Pre-Admit" majors. Students must be accepted into the BSW program as an admitted "Social Work" major in order to proceed in the program and enroll in professional degree courses beginning in the fall semester (usually of the junior year). Application for Admitted Major status are due in the middle of the Spring semester or in the middle of the Fall semester. Students should apply during the semester they are completing all social work prerequisite courses. Acceptance to Admitted Major (professional degree program) is competitive and requires an application. Please see application requirements on the Division of Social Work website. Students accepted into the professional degree program are expected to complete their degree in a timely manner. Students who have not completed social work classes for one year or more must reapply for Admitted Major and submit a plan for readiness to continue in the social work degree program. A plan may include, but is not limited to, repeating or auditing a course taken at an earlier point in the student's academic experience, completing an independent study that may provide updated social work content for the student, demonstrating knowledge or practice skills. Readmission is not guaranteed.

Criteria for Admission as an Admitted Major

The admissions process is competitive. Students must meet the following minimum criteria to be considered for Admitted Major status.

1. Students must earn a minimum grade point average (GPA) of 2.500 on all UW course work as well as all course work transferred into the University of Wyoming from other academic institutions.
2. Complete the following prerequisites: a. SOC 1000 b. PSYC 1000 c. POLS 1000 d. SOWK 2000 e. Human Biology (KIN/ZOO 2040 or PSYC 2080) f. STAT 2070 g. ECON 1010
3. Students must earn a grade of C or higher in all SOWK prerequisite classes.
4. Students must adhere to the UW Student Code of Conduct and the NASW Code of Ethics.
5. Students cannot exhibit behavior that will impinge on the student's present or future ability to fulfill professional responsibilities as a social work professional.
6. All students seeking admission to programs in the College of Health Sciences are required to undergo a background check as specified by college policy. Criminal convictions may result in rejection of the candidate for admission to Admitted Major.
7. Students must submit an application and an application fee. (See UW Fee Book)
8. Applicants to the social work program cannot receive credit for life experience.

Requirements for Admitted Majors

Once admitted, social work students must:

1. Achieve a C or better in all social work courses, including six hours of required social work electives.

2. Social work classes are offered and must be completed in sequential order.
3. Maintain a 2.500 or above GPA overall every semester after admittance to Admitted Major.
4. Maintain a 2.500 or above GPA overall in all social work course work every semester after admittance to Admitted Major.
5. Registration is restricted and students must meet with their advisor each semester for enrollment.
6. Complete SOWK 4990 with a satisfactory grade.
7. Students must adhere to the UW Student Code of Conduct and the NASW Code of Ethics.

Individuals failing to meet any of the above requirements will be reviewed by faculty and one of the following actions may be taken: remediation, probation, sanction, and/or dismissal from the program. Because many social work courses have prerequisite requirements, receiving a grade lower than a C in a social work course may prevent the individual from moving forward in the social work program.

BSW Field Practicum

All students complete a 450-hour (10 credit hours) field practicum experience in a community-based social agency or social program. Field practicum sites exist throughout the state of Wyoming and students may be placed outside Laramie. Students apply for this program the semester before their actual placement. Students must complete a Field Placement Application and meet with the Field Coordinator prior to determining a practicum site (please review Field Practicum Manual). Background checks and drug screenings may be required by some agencies even though the College of Health Sciences has received a background check during admission to the major.

For the practicum, a grade of U is interpreted as performing below expectations and will not be considered satisfactory completion of the practicum, hence of the BSW program. Based on input from the student, the field instructor, and the faculty liaison during the field evaluation, the field coordinator will determine what remediation would be required. The plan will clarify course objectives and professional skills upon which the student needs to improve. A student wishing to continue in the program would need to reapply for a field placement. Upon the field committee's approval of the request for placement, the student may then repeat the practicum experience. Consistent with University policy, the most recent grade would be the grade calculated into the GPA. The grade of U is interpreted as not meeting minimal requirements of the course; failure to complete the minimum clock hours in the field placement; failure to complete written assignments in a satisfactory manner; violation of one or more of the tenets of the NASW Code of Ethics (see Appendix B and Termination of Practicum section in the practicum manual); and/or failure to withdraw formally or to terminate the course. A student receiving a U in the practicum will be automatically dismissed from the BSW program with no opportunity to reapply or re-enter. Grades and dismissals may be appealed. (See most current BSW Student Handbook for appeal procedures.)

Requirements for Graduation

The program requires 120 credit hours to graduate. Students must have completed all social work requirements, 42 upper-division hours, maintain a 2.500 GPA overall, a 2.500 GPA in social work coursework, and have achieved a grade of C or better in all social work courses. Courses must be taken for a letter grade unless offered for S/U only. USP H and PN courses must be taken outside the major subject but can be cross listed with the major.

BSW Curriculum

Social Work B.S.W. degree plan

Graduate Study

The Master of Social Work (MSW) prepares professional social workers for advanced level social work practice and leadership positions in frontier and rural human service environments. The Advanced Generalist MSW program is accredited by the Council on Social Work Education. The MSW program graduates advanced integrated practitioners who work within and negotiate complex multi-dimensional problem settings for both clients and practitioners while embracing the profession's values of service, social justice, dignity and worth of the person, importance of human relationships, integrity, competence, human rights, and scientific inquiry. The MSW is a full time, campus-based hybrid program that utilizes different course delivery methods to accommodate its widespread student population.

Wyoming School Social Work Certification

The Division offers the necessary requirements to obtain Wyoming School Social Work certification. Students in the last year of the MSW Program need to successfully complete SOWK 5810 Working with Children and Families in the Schools and complete their field placement within an approved school setting. Upon graduation, students must apply to the Wyoming Department of Education to obtain formal certification. For the most current certification information go to the PTSB website <http://wyomingptsb.com/>

Graduate Admissions Requirements

The Division of Social Work's Graduate Admissions Committee bases recommendations on review of all application materials (applicant's grades, personal statement, academic essay, professional references, and any related social service experience) as they reflect the applicant's commitment to social work, social and economic justice, values and ethics of the social work profession, and applicant's potential as a graduate student, social work practitioner, colleague and leader in the social work field. The Committee also looks for the intangible qualities that an applicant brings to the classroom and campus environment and to professional social work.

Once the committee recommends admission of an applicant, the Office of Admissions in Academic Affairs makes the final decision of admission.

Requirements for the Standard MSW Program

- A baccalaureate degree from an accredited college or university that reflects a broad liberal arts preparation. This consists of having completed at least 21 credit hours in social and behavioral sciences and 6 credit hours each in natural sciences, humanities, visual and performing arts, and quantitative reasoning;
- A human biology course (beyond introductory biology), receiving a grade of C or better;
- A statistics course, receiving a grade of C or better;
- An undergraduate cumulative grade point average (GPA) of 3.000 or above on a 4-point scale.

Requirements for the Advanced Standing MSW Program

- A bachelor's degree in Social Work from a Council on Social Work Education accredited social work program;
- An undergraduate social work GPA of 3.250 or above;
- An overall undergraduate GPA of 3.000 or above;

- Received a B or better and/or a Satisfactory grade in BSW Field Education Practicum.

*International students have special requirements for admission to UW. All are encouraged to contact the International Students and Scholars Office for details before applying.

All Applicants

All applicants will be evaluated on:

- a. Intellectual and personal qualities essential to successful practice of social work, such as sensitivity and responsiveness in relationships, concern for the needs of others, adaptability, good judgment, creativity and integrity;
- b. Commitment to social justice and equality;
- c. Written and verbal communication skills;
- d. Professional references; and
- e. Compatibility of career goals with the MSW program's advanced generalist perspective.

All applicants meeting minimum criteria will be considered for admission. Admitted applicants will be required to complete a criminal background check through College of Health Sciences.

Program Specific Degree Requirements

All incoming students enter the MSW program in the summer semester of their first year, completing introductory and/or bridge courses as needed for their specific program phase. The MSW program is divided into two levels: generalist and advanced generalist. The generalist year of the MSW program prepares students without a BSW degree for the advanced generalist curriculum in the second year. Students who have already obtained the BSW degree may apply for Advanced Generalist in the MSW program. These students complete only the second-year courses.

Master of Social Work Field Practicum

All students, regardless of status, participate in a field practicum experience, starting in their first fall semester. New students submit an initial application for placement upon acceptance into the program.

Foundation students will complete 900 hours in practicum over the course of their two years of study, 400 and 500 hours respectively. Advanced Standing students will complete 500 hours in their one year of study. All students in practicum will take a corresponding field seminar class each semester.

Grading is done as Satisfactory/Unsatisfactory. Receiving a grade of U is considered a failing grade and can result in termination from the practicum. If the practicum is terminated, the student may be offered a remediation plan to retake the required hours. This opportunity is only offered one time. The student may also be referred to the DOSW faculty for review according to the Student Academic and Professional Performance policy.

Specific information and procedures relating to all aspects of the field practicum experience can be found in the Field Practicum Manual located on the Division of Social Work's website.

Master of Social Work requirements

- Students complete all SOWK required courses.

- Students complete either the SOWK 5755 Capstone course or the optional SOWK 5960 - Thesis Research.

For students who complete the Capstone course:

- Complete SOWK 5755. The SOWK 5755 portfolio project requires a minimum of 2 credit hours, usually taken as 1 credit in the fall semester and 1 credit in the spring of the advanced year.
- A final written paper with oral defense is required.
- Thesis is NOT required.

For students who choose the optional thesis:

- Complete SOWK 5960 - Thesis Research. SOWK 5960 requires a minimum of 4 credit hours, usually take as 2 in the fall semester and 2 in the spring semester.
- Students who choose to produce a thesis are required to carry out original research.
- Thesis proposal defense, thesis implementation, and final defense are required per university regulations for a thesis project.

Major

Social Work, B.S.W.

Want to make a difference in the world? Turn your passion into action. Our BSW program combines classroom and field experience to provide you with knowledge and skills to help improve the quality of life of individual clients and impact communities.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate and are not covered by the Social Work major.

First Year Seminar (3 credits)

Communications I (3 credits)

ENGL 1010 College Composition and Rhetoric

Communications II (3 credits)

Quantitative Reasoning (3 credits)

MATH 1000 Problem Solving

Physical and Natural World (minimum 6 credits)

LIFE 1003 Current Issues in Biology (4 credits) strongly recommended (LIFE 1010 General Biology also acceptable)

Any other USP Physical & Natural World course (3-4 credits)

Prerequisites for Admission

Prerequisites for admission into the BSW program includes a C or higher in the following courses:

SOC1000 - Sociological Principles

Credits: 3

Provides a survey of the discipline and foundation for other sociology courses. Explores major areas of interest - ranging from small groups and families to bureaucracies and social movements. Introduces significant concepts and theories, along with tools of social research. Gives attention to contemporary American society, as well as comparative and historical material.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

POLS1000 - American and Wyoming Government

Credits: 3

Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

When Offered (Offered each semester)

USP 2003-2014 Code U3V

USP 2015 Code U5V

SOWK2000 - Introduction to Social Work

Credits: 3

Introduces social work and social welfare through an overview of the history, philosophy, ethics, values, methods, and fields of practice to generalist social work.

Former Course Number [3000]

Prerequisite: Sophomore standing or higher and completion of USP-C2 with a grade of C or higher.

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGECE 1010.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

- Human Biology. Credits: 3. (PSYC 2080: Biological Psychology or KIN 2040: Human Anatomy)*
*This requires a prerequisite general biology course, usually LIFE 1003: Current Issues in Biology.

Required courses after admission into the Social Work program

NOTE: Once admitted, social work students must achieve a C or better in all social work courses and maintain a 2.500 or above UW and SOWK GPA every semester after admittance to Admitted Major. Please view full requirements and expectations for admitted majors on the Division of Social Work catalog page.

SOWK3530 - Human Behavior and the Social Environment I

Credits: 3

Covers theories and knowledge of human bio-psycho-social-spiritual development and social interactions within a systems framework. Introduces theories of individuals and families and their development. Paradigms of culture, marginalization and oppression are examined.

USP 2003-2014 Code U3CS

Prerequisite: admitted social work major status.

SOWK3630 - Generalist Social Work Practice I, Individual and Families

Credits: 3

Introduces generalist social work practice at all systems' levels, with focus on individuals and families. It covers the nature of social work practice, theoretical perspectives, ethics and values, engagement, assessment, intervention and evaluation processes and skills.

Prerequisite: admitted social work major status.

SOWK3645 - Ethical Social Work Practice

Credits: 3

Focuses on the ethical principles that undergird the practice of social work, addresses how to practice ethically, and explores the process of ethical decision-making. Social work practice with various client systems will be considered, as well as practice in varied settings.

SOWK4060 - Diversity and Difference in Social Work Practice

Credits: 3

Practice class examines social workers' roles and issues related to human diversity. Social work values and ethics and social and economic justice are explored throughout.

USP 2003-2014 Code U3D

Prerequisite: admitted social work major status.

SOWK3540 - Human Behavior and Social Environment II

Credits: 3

Covers theories and knowledge of human bio-psycho-social-spiritual development and social interactions within a systems framework, with a focus on groups, communities, organizations and institutions.

USP 2003-2014 Code U3CS

Prerequisite: SOWK 3530 with a C or better and admitted social work major status.

SOWK3640 - Generalist Social Work Practice II, Groups

Credits: 3

Focuses on group work within the generalist social work perspective, covering theoretical perspectives, ethics and values, and problem-solving skills applied to task and treatment groups.

Prerequisite: SOWK 3630 and SOWK 3530 with a C or better and admitted major status.

SOWK3650 - Generalist Social Work Practice III; Communities and Organizations

Credits: 3

Teaches engagement, assessment, intervention and evaluation with organizations, communities and institutions within the generalist social work perspective.

Prerequisite: SOWK 3630 with a C or better; SOWK 3540 pre or concurrent; admitted social work major status.

SOWK4850 - Human Rights, Social Justice and Social Policy

Credits: 3

Examines human rights, social welfare policy, and social, political and economic justice, as well as systems that oppress and create injustice, both in the US and internationally. A focus of the course will be the analysis of social welfare policy as it affects social justice issues.

Restricted Include: BSW-SOWK major, Exclude: Freshman & Sophomore class standings

Prerequisite: SOWK 4060 and admitted social work major status

SOWK4560 - Social Work Research

Credits: 3

Max Credit 3

Introduces social work research and practice evaluation. Prepares students to use research in practice.

Restricted Include: SOWK students (= admitted majors), Exclude: Freshman & Sophomore class standing

Prerequisite: Admitted social work major status.

SOWK4990 - Social Work Practicum

Credits: 5-10

Max Credit (Max. 10)

Represents the culmination of preparation for entry level generalist social work practice. Supervised practice in the knowledge, values and skills learned in the classroom.

Prerequisite: SOWK 3640, SOWK 3650 and application to the field program.

SOWK4991 - BSW Field Seminar I

Credits: 2

Develops and supports student integration of classroom and field practicum experiences in a final demonstration of competencies for the beginning practitioner. This course is taken in Fall, concurrent with SOWK 4990, Field Practicum.

Prerequisite: concurrent enrollment in SOWK 4990.

SOWK4570 - Research-Informed Practice

Credits: 3

Learn about and engage in methods of research applicable to their social work practice. Competence in methods such as single system design and program evaluation will be assessed in this course.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: SOWK 4560 with a C or better and admitted social work major status.

SOWK4992 - BSW Field Seminar II

Credits: 2

Develops and supports student integration of classroom and field practicum experiences in a final demonstration of competencies for the beginning practitioner.

Prerequisite: taken concurrently with SOWK 4990, Field Practicum.

- Social Work electives Credits: 6 (selected with advisor consultation)

Electives

General Electives (28-29 credits)

Degree must include 120 credits total, at least 42 of which must be upper-division credits. Total number of general elective credit needed may vary per student. Consult with your academic advisor to determine the best electives for your particular interests or needs. It may be worthwhile to add a minor to your degree.

Suggested lower-division electives:

Below are suggested lower-division electives that can be taken before admission into the BSW program. Consult with your academic advisor to determine the best electives for your particular interests or needs. It may be worthwhile to add a minor to your degree.

- SPAN1010 - First Year Spanish I Credits: 4
- SPAN1020 - First Year Spanish II Credits: 4
- RELI1000 - Introduction to Religion Credits: 3
- WIND2100 - Introduction to Disability Studies Credits: 3
- SOC2350 - Race and Ethnic Relations Credits: 3

Suggested upper-division electives:

- FCSC 3110 Personal Finance Credits: 3
- FCSC 4112 Family Decision-Making and Resource Management Credits: 3

Additional Requirements

Social work is a professional degree program. Prior to admission to the professional degree program, students who are working to complete program prerequisites and most University Studies courses are "Social Work-Pre-Admit" majors. Students must be accepted into the BSW program as an admitted "Social Work" major in order to proceed in the program and enroll in professional degree courses beginning in the fall semester (usually of the junior year). Acceptance to Admitted Major (professional degree program) is competitive and requires an application. See the Division of Social Work catalog page for full admission requirements.

The program requires 120 credit hours to graduate. Students must have completed all social work requirements, 42 upper-division hours, maintain a 2.500 GPA overall, a 2.500 GPA in social work coursework, and have achieved a grade of C or better in all social work courses. Courses must be taken for a letter grade unless offered for S/U only.

Social Work, M.S.W.

Want to make a difference in the world? Join our MSW program and accelerate into bold thinking and professional leadership via multiple paths in human services. Our MSW's advocate for change for a better world! Join us.

Admission Requirements for the Standard MSW Program

- A baccalaureate degree from a nationally accredited college or university that reflects a broad liberal arts preparation. This consists of having completed at least 21 credit hours in social and behavioral sciences and 6 credit hours each in natural sciences, humanities, visual and performing arts, and quantitative reasoning;
- A human biology course (beyond introductory biology), receiving a grade of C or better;
- A statistics course, receiving a grade of C or better;
- An undergraduate cumulative grade point average (GPA) of 3.000 or above on a 4-point scale.

Admission Requirements for the Advanced Standing MSW Program

- A bachelor's degree in Social Work from a Council on Social Work Education accredited social work program;
- An undergraduate social work GPA of 3.250 or above;
- An overall undergraduate GPA of 3.000 or above;
- Received a B or better and/or a satisfactory grade in BSW Field Education Practicum.

*International students have special requirements for admission to UW. All are encouraged to contact the International Students and Scholars Office for details before applying.

All Applicants

All applicants will be evaluated on:

- a. Intellectual and personal qualities essential to the successful practice of social work, such as sensitivity and responsiveness in relationships, concern for the needs of others, adaptability, good judgment, creativity and integrity;
- b. Commitment to social justice and equality;
- c. Written and verbal communication skills;
- d. Professional references; and
- e. Compatibility of career goals with the MSW program's advanced generalist perspective.

All applicants meeting minimum criteria will be considered for admission. Admitted applicants will be required to complete a criminal background check through the College of Health Sciences.

Program Specific Degree Requirements

All incoming students enter the MSW program in the summer semester of their first year, completing introductory and/or bridge courses as needed for their specific program phase. The MSW program is divided into two levels: generalist and advanced generalist. The generalist year of the MSW program prepares students without a BSW degree

for the advanced generalist curriculum in the second year. Students who have already obtained their BSW degree may apply for Advanced Generalist in the MSW program. These students complete only the second-year courses.

Master of Social Work Field Practicum

All students, regardless of status, participate in a field practicum experience, starting in their first fall semester. New students submit an initial application upon formal admission to the program.

Foundation students will complete 900 hours in practicum over the course of their two years of study, 400 and 500 hours respectively. Advanced Standing students will complete 500 hours in their one year of study. All students in practicum will take a corresponding field seminar class each semester.

Grading is done as Satisfactory/Unsatisfactory. Receiving a grade of U is considered a failing grade and can result in termination from the practicum. If the practicum is terminated, the student may be offered a remediation plan to retake the required hours. This opportunity is only offered one time. The student may also be referred to the DOSW faculty for review according to the Student Academic and Professional Performance policy.

Specific information and procedures relating to all aspects of the field practicum experience can be found in the Field Practicum Manual located on the Division of Social Work's website.

Master of Social Work

- Students complete all SOWK required courses.
- Students complete either the SOWK 5755 Capstone course or the optional SOWK 5960 - Thesis Research.

For students who complete the Capstone course:

- Complete SOWK 5755. The SOWK 5755 portfolio project requires a minimum of 2 credit hours, usually taken as 1 credit in the fall semester and 1 credit in the spring of the advanced year.
- A final written paper with oral defense is required.
- Thesis is NOT required.

For students who choose the optional thesis:

- Complete SOWK 5960 - Thesis Research. SOWK 5960 requires a minimum of 4 credit hours, usually take as 2 in the fall semester and 2 in the spring semester.
- Students who choose to produce a thesis are required to carry out original research.
- Thesis proposal defense, thesis implementation, and final defense are required per university regulations for a thesis project.

Assistant Lecturers:

TERRI WOFFORD, B.S. University of Central Florida 1994; M.S. East Tennessee State University 1998; Assistant Lecturer 2017.

The Wyoming Institute for Disabilities (WIND) is part of a national network of University Centers of Excellence in Developmental Disabilities Education, Research and Service (UCEDD). These centers provide a broad array of interdisciplinary academic, clinical, and research experiences of people with disabilities-particularly developmental disabilities. A wide variety of disciplines contribute to the study of disabilities.

WIND offers a Disability Studies Minor which investigates broad questions about the nature, meanings, and consequences of disability from interrelated social, historical, cultural, and political perspectives. The undergraduate minor in disability studies examines disability issues from multiple lenses, and draws specifically from social sciences, humanities, and health sciences.

Disability studies has an ethical commitment to place the interests and voices of people with disabilities at the center of our curricula and training activities. The minor balances theoretical exploration with practical application, and provides students with a vibrant understanding of disability history, cultural representation, policy concerns, and current debates. Ultimately, students in the minor will work closely with people with disabilities, and gain the skills and perspectives to participate in unique disability research and advocacy.

Minor

Disability Studies Minor

A diverse interdisciplinary field that investigates the nature, meanings, and consequences of dis/ability from social, cultural, and policy perspectives.

Program Goals:

Disability studies views disability as a political construction, cultural identity, and valued lived experience, not simply as a medical condition. The minor curriculum embeds these overarching goals:

1. Promoting full civic integration of people with disabilities;
2. Positioning disability as an integral aspect of human diversity; and
3. Addressing disability rights, equity, and justice in personal, relational, community, and structural contexts.

Requirements:

All students in the minor are required to complete 18 credit hours consisting of three WIND core courses, one WIND elective, and two additional WIND or external electives related to disability studies. External electives should be selected in consultation with a disability studies faculty advisor.

Required Core Courses: 9 Credits

WIND2100 - Introduction to Disability Studies

Credits: 3

Provides students with an overview of the disability studies field. Students gain introductory knowledge about the disability studies perspective by examining the work of scholars from many academic backgrounds, which will facilitate students' understanding of the interdisciplinary nature of disability studies.

USP 2003-2014 Code U3CH,U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

WIND4020 - Disability Studies Theory and Practice

Credits: 3

Explores the interdisciplinary nature of disability studies theory and scholarship, including investigation of embodied knowledge, cultural meanings, and socio-political practices related to disability. Students will develop in-depth critical disability research papers and deliver accessible, professional presentations.

Cross Listed SOWK 4020.

Dual Listed WIND 5020.

USP 2003-2014 Code U3CS

USP 2015 Code U5C3

Prerequisite: WIND 2100 or WB or COM2.

WIND4500 - Practicum

Credits: 3

Provides students practical experience in the field of Disability. Typically taken during a student's final semester in the

Disability Studies Minor.

Prerequisite: completion of WIND 2100, and WIND elective, WIND 4020 (or concurrent enrollment).

WIND Electives: 3-9 Credits

At least 3 credits, and up to 9 credits, selected from WIND electives:

WIND2500 - Special Topics

Credits: 1-3

Max Credit (Max. 6)

Provides undergraduate students with the opportunity to gain introductory knowledge of critical topics and new areas of inquiry in the field of disability studies.

WIND2700 - Gender and Disability

Credits: 3

Disability studies draws upon critical theory to investigate disability as a discursive construction. Investigates how intersecting conceptions of disability and gender have shaped cultural meanings and the social positioning of specific groups, especially women with disabilities. Topics include non-normative embodiment, issues of representation and subjectivity, and the politics of health, sexuality, and care.

Cross Listed GWST 2700.

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

WIND3150 - Literature and Medicine

Credits: 3

This course explores how literature and memoirs have grappled with illness, disease, and disability, paying particular attention to the perspectives of doctors, nurses, patients, families, and communities in shaping meanings of diagnoses, health, and access to care.

Prerequisite: Completion of COM1.

WIND4050 - Independent Study

Credits: 1-3

Max Credit (Max. 6)

Offers the advanced student the opportunity to pursue a topic of interest with the direction of an instructor in disability studies.

Dual Listed WIND 5050.

Prerequisite: WB and consent of instructor.

WIND4100 - Global Disability Studies

Credits: 3

The course investigates global approaches to disability, including the UN Convention on the Rights of Persons with Disabilities (CRPD), and crucial disability issues such as education, employment, poverty and social integration. Students will carry out research projects and present on their work.

USP 2003-2014 Code [none] >COM3]

Prerequisite: COM2

WIND4200 - Diverse Minds

Credits: 3

Through investigations of novels, memoirs, films, and media representations of intellectual disability, autism/neurodiversity, and psychiatric disability, students critically analyze figurations of "unstable," "unruly," or what we will conceptualize as "diverse" minds.

Dual Listed WIND 5200.

USP 2003-2014 Code [none] >COM3]

Prerequisite: COM2

WIND4600 - Special Topics

Credits: 3

Provides upper division undergraduate students with the opportunity for in-depth examination of critical topics and new areas of inquiry in the field of disability studies.

Prerequisite: WIND 2100 , Junior standing and consent of instructor.

External Electives: 0-6 Credits

The following UW courses are accepted as external electives:

SPPA2110 - American Sign Language I

Credits: 4

Basic comprehension and expression of American Sign Language (ASL), the language used by the Deaf community in the United States. ASL vocabulary, grammar, and pragmatics are taught through lecture, conversation, and storytelling. The direct experience method (using ASL with no voice) is utilized to enhance the learning process.

USP 2015 Code U5H

Former Course Number [4100]

SPPA2120 - American Sign Language II

Credits: 4

Second level of ASL comprehension and expression. ASL vocabulary, grammar, and pragmatics, along with increased fluency, are taught through lecture, conversation, and storytelling. Translation from English to ASL is addressed.

USP 2015 Code U5H

Former Course Number [4120]

Prerequisite: SPPA 2110.

EDEX2484 - Introduction to Special Education

Credits: 3

Designed to meet the needs of education majors for a required course in special education. Students will explore the history of, understanding of and services for individuals with low/high incidence disabilities.

Prerequisite: EDST 2450 completed with a C or better and an institutional GPA of 2.50.

SPPA4070 - Deaf Studies

Credits: 3

Studies deaf culture and deaf history in the United States. Culture topics will include deaf community dynamics, humor, behavior, emotional and social interaction, besides issues involving deaf children as a linguistic minority. History will be discussed from the 1700s to the present in the U. S.

USP 2003-2014 Code U3CS,U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: SPPA 2110.

FCSC4124 - Families of Young Children With Special Needs

Credits: 3

Deals with importance of including family in the process of early intervention with the preschool child with special needs.

Prerequisite: FCSC 2121 or PSYC 2300; junior standing.

PSYC4320 - Intellectual Disability

Credits: 3

Acquaints students with all aspects of intellectual disability including assessment, diagnosis and classification, etiology, and associated health and mental health difficulties. Prevention, educational and psychological intervention, family adaptation, and community involvement are also addressed.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 4300 or FCSC 2121 or EDST 2450.

- Note: many courses in GWST, AMST, and other units in the School of Culture, Gender, and Social Justice would also be acceptable external electives.

More Information:

As an interdisciplinary minor, this program complements majors across the university. For more information, visit the website: www.uwyo.edu/wind/disabilitystudies/index.html, contact program director, Michelle Jarman at mjarman@uwyo.edu or by phone at 766-5060, or visit the WIND office located in the Health Sciences Building, room 147.

18 Credit Hours Total

Medical Laboratory Science

Aley Hall, UW-Casper, (307) 268-2753

FAX: (307) 268-2416

Web site: www.uwyo.edu/pharmacy/mlsprogram/index.html

Director: Jed M. Doxtater, MS MLS (ASCP)

Assistant Clinical Faculty:

JED M. DOXTATER, B.S. University of Montana 2007; M.S. University of North Dakota 2013; Assistant Clinical Faculty of Medical Laboratory Science 2015.

Assistant Lecturer:

CHARLIE P. CRUZ, B.S. Lorma Colleges 1998; M.A. Don Mariano Marcos Memorial State University 2003; M.S. Lyceum of the Philippines University Batangas 2016; Ph.D. Saint Louis College 2014; Assistant Lecturer of Medical Laboratory Science 2016.

Mission and Goals

The mission of the Bachelor of Science in Medical Laboratory Science program at the University of Wyoming-Casper is to educate, train, and produce highly competent, ethical professionals who are committed to lifelong learning. Curriculum is designed to prepare students to meet current and future workplace challenges and technological advancements in the profession.

Program Goals

1. Provide education in accordance with the National Accrediting Agency for clinical Laboratory Sciences (NAACLS) standards for Medical Laboratory Science programs.
2. Provide students with adequate knowledge and background experience to successfully complete the national certification examination appropriate to their level of training.
3. Provide opportunity for students to develop skills in effective communication sufficient to serve the needs of patients, public, and other healthcare professionals.

4. Graduate well qualified Medical Laboratory Scientists who can function at a career entry level, and are prepared to meet the workforce needs of the state of Wyoming and the nation.
5. Provide students with professional role models so that they may develop and practice professional behaviors, attitudes and ethics necessary to work in, and promote the field of Medical Laboratory Science.
6. Periodically undergo program review to meet the diverse educational needs of students, accreditation standards and industry demands for qualified, skilled entry level practitioners.
7. Establish an advisory board of professionals, community partners and stakeholders for program development, evaluation and improvement.
8. Promote membership and active participation in professional societies.

Outcomes

Description of Entry Level Competencies of the Medical Laboratory Scientist

At entry level, the medical laboratory scientist will possess the entry level competencies necessary to perform the full range of clinical laboratory tests in areas such as Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology/Transfusion medicine, Microbiology, Urine and Body Fluid Analysis and Laboratory Operations, and other emerging diagnostics, and will play a role in the development and evaluation of test systems and interpretive algorithms.

The medical laboratory scientist will have diverse responsibilities in areas of analysis and clinical decision making, regulatory compliance with applicable regulations, education, and quality assurance/performance improvement wherever laboratory testing is researched, developed or performed.

At entry level, the medical laboratory scientist will have the following basic knowledge and skills in:

- Application of safety and governmental regulations and standards as applied to clinical laboratory science;
- Principles and practices of professional conduct and the significance of continuing professional development;
- Communications sufficient to serve the needs of patients, the public and members of the health care team;
- Principles and practices of administration and supervision as applied to clinical laboratory science;
- Educational methodologies and terminology sufficient to train/ educate users and providers of laboratory services;
- Principles and practices of clinical study design, implementation and dissemination of results;
- Theoretical knowledge and technical skills of concepts relating to all content areas required by NAACLS, including Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology, Microbiology, Urine and Body Fluid Analysis, Laboratory Operations and

biohazard and safety

Accreditation

The Medical Laboratory Science Program at the University of Wyoming is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Accreditation is a process of external peer review in which an agency grants public recognition to a program of study or an institution that meets established qualification and educational standards. Participation in the accreditation process is voluntary since there is not a legal requirement for

specialized programs and institutions to participate. However, when students complete a NAACLS accredited program they become eligible to sit for national certification examinations for the profession. The National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) is a nonprofit organization that independently accredits medical technologist (MLS), clinical laboratory technician/medical laboratory technician (CLT/MLT), histotechnologist (HTL), histologic technician (HT), pathologists' assistant (Path Asst), diagnostic molecular scientist (DMS) and cytogenetic technology (CT), Phlebotomist (PBT), and clinical assistant (CA) educational programs. *Contract information:* National Accrediting Agency for Clinical Laboratory Sciences, 5600 North River Road, Suite 720, Rosemont, IL 60018-5119 <http://www.naacls.org>

Prerequisites for Admission to the MLS Professional Program

Students must meet the following minimum criteria to be considered for Admitted Major status:

- Completion of the Casper College A.S. degree in MLT within 5 years or B.S. degree in a related science.
- Minimum grade point average (GPA) of 2.000 on all course work transferred into the University of Wyoming at Casper from other academic institutions.
- Successful completion of the Medical Laboratory Technician BOC exam is preferred. Students that have not completed the BOC may be admitted with MLS program directors approval.
- Students admitted to the program that do not hold an A.S. in MLT or a B.S. in a related science may be required to complete the University of Wyoming University Studies program in addition to the basic requirements for the Bachelor of Science in Medical Laboratory

Science degree.

See the current requirements at <http://www.uwyo.edu/unst/>

Applying for Admission to MLS Professional Program

Upon completion of the prerequisite requirements of the program, students may apply to the professional program in the fall semester of their senior year. Applications for the program must be submitted to the MLS program director before finals week of the fall semester prior to entering the professional program Advanced Clinical Practicum (ACP) coursework. It is the students' responsibility to complete and submit applications by the defined due date.

Students are required to complete an observational enrichment experience during the final MLS semester. This observational experience is designed to demonstrate advanced concepts and topics presented in the MLS curriculum, in a practical setting.

Prior to participating in the enrichment experience, students may be subjected to that agency's requirements for HIPAA training, a background check, drug testing and/or drug abuse prevention policies. Students may be subject to the random drug testing policy of that agency. These background checks are routinely required by schools, hospitals, and other agencies that participate in on-site training. Background checks should be obtained from Viewpoint screening (<https://www.viewpointscreening.com/uwyo>).

Students must meet the vaccination and health insurance requirements of the university. Vaccinations are available through the county health department or through student health on the UW-C campus, and liability health insurance is available through the University of Wyoming. Current enrichment site affiliates do not require a background check, drug screen or proof of vaccination, as the university vaccination requirements exceed that of the facility. If a student finds an appropriate observational enrichment experience outside of the opportunities available through the MLS program, the student must communicate the site to the MLS program director for approval. This notification should occur well in advance to entering the professional program. It will be the responsibility of the student to arrange the experience with the appropriate site personnel/HR and program director, to ensure all required documentation is

provided. The student must provide proof of health insurance and Hepatitis B vaccination (or declination) to participate in on-campus student laboratory sessions. Hepatitis B vaccinations are available on the UW-C campus at student health, or at the county health department for a small fee.

Essential Functions

Applicants must meet certain essential functions as defined by NAACLS. If you feel that you do not meet these essential functions, careful consideration should be made and advisement received before entering the MLS Program. Essential functions are the abilities and essential functions that a student must be able to perform to be successful in the learning experiences and completion of the program.

Observational Requirements

The MLS student must be able to:

- Observe laboratory demonstrations in which biologicals are tested for their biochemical, hematological, immunological, microbiological, and histochemical components.
- Characterize the color, odor, clarity, and viscosity of biologicals, reagents or chemical reaction products.
- Employ a clinical grade binocular microscope to discriminate among the structural and color (hue, shading, and intensity) differences of microscopic specimens.
- Read and comprehend text, numbers, and graphs displayed in print and on a video monitor.

Movement Requirements

The MLS student must be able to:

- Move freely and safely about a laboratory.
- Reach laboratory bench-tops and shelves, patients lying in hospital beds or patients seated in specimen collection furniture.
- Travel to numerous clinical laboratory sites for practical experience. • Perform moderately taxing continuous physical work, often requiring prolonged sitting, over several hours.
- Maneuver phlebotomy and culture acquisition equipment to safely collect valid laboratory specimens from patients.
- Control laboratory equipment (i.e., pipettes, inoculating loops, test tubes) and adjust instruments to perform laboratory procedures.
- Use an electronic keyboard to operate laboratory instruments and to calculate, record, evaluate, and transmit laboratory information.
- Perform fine hand manipulations with dexterity.

Communication Requirements

The MLS student must be able to:

- Read and comprehend technical and professional materials.
- Follow verbal and written instructions in order to correctly and independently perform laboratory test procedures.
- Clearly instruct patients prior to specimen collection.
- Effectively, confidentially and sensitively converse with patients regarding laboratory tests.
- Communicate with faculty members, fellow students, staff, and other health care professionals verbally and in a recorded format.
- Independently prepare papers, prepare laboratory reports, and take paper, computer, and laboratory practical examinations.

Behavioral Requirements

The MLS student must:

- Be able to manage the use of time and be able to systematize actions in order to complete professional and technical tasks within realistic constraints.
- Possess the emotional health necessary to effectively employ intellect and exercise appropriate judgment.
- Be able to provide professional and technical services while experiencing the stresses of task-related uncertainty and a distracting environment.
- Be flexible and creative and adapt to professional and technical change.
- Recognize potentially hazardous materials, equipment, and situation and proceed safely in order to minimize risk of injury to patients, self, and nearby individuals.
- Adapt to working with unpleasant biologicals.
- Support and promote the activities of fellow students and of health care professionals.
- Realize that the promotion of peers helps furnish a team approach to learning, task completion, problem solving and patient care.
- Be honest, compassionate, ethical and responsible.

Request for Accommodation

All students are held to the same academic and technical standards. Applicants/students with disabilities seeking accommodation must discuss their disability and accommodation needs with the University Disability Support Services (udss@uwyo.edu or (307) 766-6189; TTY: (307) 766-3073). If appropriate and upon request and registration of the applicant, a reasonable accommodation will be made consistent with University of Wyoming guidelines.

Requirements for the Bachelor of Science in Medical Laboratory Science

Medical Laboratory Science, B.S. degree plan

Dental Hygiene

Health Sciences Advising Office

Craig Vaske, Manager

Phone: (307) 766-3878

Email: hsadvise@uwyo.edu

Web site: <http://www.uwyo.edu/hs/divisions-and-programs/dental-hygiene-program.html>

The University of Wyoming and Sheridan College offer a cooperative program of dental hygiene education which, when completed, results in two degrees. An Associate of Applied Science degree in dental hygiene is awarded by Sheridan College following completion of the prerequisites and dental hygiene prescribed study. An optional Bachelor of Science in Dental Hygiene (BSDH) degree is awarded by the University of Wyoming following completion of the Associate of Applied Science in dental hygiene, the University Studies Program, and other requirements of the University of Wyoming, for a total of 120 credit hours including 42 upper level hours, 30 of which must be from the University of Wyoming. See www.uwyo.edu/hs/divisions-and-programs/dental-hygiene-program.html.

The American Dental Association has awarded full accreditation to the Associate of Applied Science degree in dental hygiene at Sheridan College. Graduates are eligible to take the National Board of Dental Hygiene exam, as well as regional and state exams for licensure, as registered dental hygienists.

Applicants should visit www.sheridan.edu/academics/programs-a-z/dental-hygiene for specific prerequisites and application materials. Applications are due to Sheridan College prior to February 15 of the year they wish to enter the program. Class sizes are limited. Admission is contingent upon successful completion of a background check.

All prerequisite coursework must be completed with a cumulative grade point of 2.750 (on a 4.000 point scale). Courses in anatomy, physiology, and microbiology must be current within five years at the time of application to the Dental Hygiene professional program. Students must also complete a minimum of 20 hours of dental hygiene observation prior to application. Completion of the prerequisite courses and observation does not guarantee admission to the professional program. If admitted, students complete their coursework in Sheridan, Wyoming.

Prospective applicants can take prerequisite courses at any higher education institution. To view a list of prerequisites, see the degree program page in this catalog. Students who are completing prerequisite courses at the University of Wyoming are advised by the Health Sciences Advising Office (hsadvise@uwyo.edu). These students apply to UW as "Pre-Dental Hygiene" students.

NOTE: This major is not appropriate for students preparing to apply to dental school.

Learning Outcomes

The primary objective of the program is to assure that graduates have knowledge and abilities necessary to successfully practice dental hygiene.

Major

B.S. in Dental Hygiene (BSDH)

Dental hygienists play an important role in promoting health by helping patients understand the connection between good oral health and an overall healthy body. They provide patient education and individualized therapeutic services to help patients reach their oral health goals.

Program Prerequisites

Students interested in the bachelor's degree in dental hygiene should contact the Health Sciences Advising Office at Health Sciences 110, phone (307)766-3878, e-mail: hsadvise@uwyo.edu.

Prerequisite courses for admission into the Dental Hygiene program at Sheridan College includes a cumulative GPA of 2.750 or better in the courses listed below. These may be taken at any institution, but if taken at the University of Wyoming, the course numbering will be as follows:

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

ENGL1010 - College Composition and Rhetoric

Credits: 3

A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA
USP 2015 Code U5C1

ENGL2005 - Writing in Technology and the Sciences

Credits: 3

Develops writing styles specifically suited to technological and scientific fields of study. Includes focus on disciplinary conventions and styles as well as audience/readership considerations. Introduces techniques for data interpretation and visualization, and helps students analyze, understand, and adapt common field genres and formats.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2

Prerequisite: successful completion of WA/COM1.

COMM2010 - Public Speaking

Credits: 3

Beginning public speaking course. Students will develop foundational oral, digital and written communication skills. Emphasizes message construction, performance and critique in public communication settings. Includes speech preparation, listening, audience analysis, writing strategies, digital communication, critical thinking, language/nonverbal behavior and various speaking formats. (Offered fall, spring and summer).

USP 2003-2014 Code U3O
USP 2015 Code U5C2

Former Course Number COJO 2010

Corequisite: Prerequisite: Successful completion of a COM1 course.

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

ANTH1200 - Introduction to Cultural Anthropology

Credits: 3

Introduction to foreign, especially non-western, cultures through anthropological concepts, films and ethnographies.

USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

CHEM1000 - Introductory Chemistry

Credits: 4

Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.
OR CHEM 1020 General Chemistry I

MICR2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.

Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

OR MOLB 2021 General Microbiology

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

UW Requirements for the BSDH Degree

In order to receive a BSDH through the University of Wyoming, students must also take the following courses:

1. Program prerequisites
2. A.A.S. in Dental Hygiene from Sheridan College (competitive application required)
3. Completion of all USP requirements, including the US and Wyoming Constitutions (USP-V) and Communication III (USP-COM3) requirements
4. STAT 2050 or STAT 2070
5. At least 120 credits hours, 42 of which are upper-division credits. This usually requires the completion of additional upper-division elective credits. Note: talk to an advisor to know whether you need to fulfill any additional credits toward your BSDH (hsadvise@uwyo.edu).

Required Courses

Required courses after admission to the Dental Hygiene program at Sheridan College (NWCC-D):

Sheridan College Courses

Sheridan College courses, taught ONLY at Sheridan College in Sheridan, WY.

- DHYG 2100 - Dental Health Education Credits: 3
- DHYG 2300 - Preclinical Dental Hygiene Credits: 3
- DHYG 2305 - Clinical Dental Technology Credits: 1
- DHYG 2405 - Dental Anatomy Credits: 2
- DHYG 2450 - Oral Radiology Credits: 3
- DHYG 2451 - Oral Radiology Lab Credits: 1
- DHYG 2470 - Orientation to Dental Hygiene Credits: 3
- DHYG 2200 - Pharmacology Credits: 2

- DHYG 2210 - Dental Embryology & Histology Credits: 2
- DHYG 2350 - Clinical Dental Hygiene I Credits: 3
- DHYG 2400 - Head, Neck, and Oral Anatomy & Physiology Credits: 2
- DHYG 2420 - Clinical Seminar I Credits: 2
- DHYG 2455 - Dental Materials Credits: 2
- DHYG 2456 - Dental Materials Lab Credits: 1

University of Wyoming Courses

University of Wyoming courses (details below), taught ONLY at Sheridan College in Sheridan, WY.

DHYG3230 - Clinical Seminar II

Credits: 2

This course is a continuation of the Clinical Seminar Series. Course content will focus on the review and enhancement of instrumentation skills; the essentials of instrument selection; the role of root planing in dental hygiene; the development and refinement of skills needed for treatment of more advanced periodontal cases, which includes the initiation of a periodontal case study; and the introduction and preparation for the use of state-of-the-art clinical technologies.

Prerequisite: DHYG 2420.

DHYG3300 - Clinical Dental Hygiene II

Credits: 5

This course provides students the opportunity to gain further practical experience in dental hygiene procedures by providing comprehensive patient care in clinical settings. A flexible format allows students to meet requirements in procedures for patient record-keeping, patient education, dental prophylaxis, dental radiography and routine clinical procedures.

Prerequisite: DHYG 2350.

DHYG3400 - General and Oral Pathology

Credits: 3

This course is designed to teach students the concepts underlying general and oral manifestations of human disease states, manifestations of specific diseases, relationships to body defense mechanisms, and potential implications for medical and dental hygiene treatment. To the extent possible, applications to clinical situations in dental hygiene practice will be made.

Prerequisite: one year pre-dental hygiene (including general pathology); MOLB 2021 or equivalent.

DHYG3600 - Ethics and Law in Dental Hygiene

Credits: 2

This course provides an introduction to basic concepts in the analysis of ethical theories, principles, values, the professional code of ethics, and legal aspects associated with the dental hygiene healthcare profession. Contemporary

issues are examined in dentistry and medicine as a strategy to explore and apply ethical principles in diverse cultures and situations.

Prerequisite: successfully complete all first-year dental hygiene courses.

DHYG3750 - Periodontology

Credits: 3

This course reviews the anatomy and histology of periodontal structures and dental accretions followed by a study of the classifications and etiology of periodontal diseases including both local and systemic factors. A thorough exploration of the hygienist's role in disease recognition, prevention, therapeutic procedures and maintenance is also included.

DHYG3770 - Pain Management

Credits: 2

This course provides clinical experience with local anesthesia and inhalation sedation techniques. It includes the detection of anatomic landmarks in the mouth pertaining to specific injection sites, preparation of the armamentarium, maintenance of asepsis, simulated and real injection of anesthetic agents at predetermined sites and administration of nitrous oxide/oxygen.

Prerequisite: successful enrollment in dental hygiene major or consent of instructor.

DHYG3775 - Pain Management Lab

Credits: 1

This course provides clinical experience with local anesthesia and inhalation sedation techniques. It includes the detection of anatomic landmarks in the mouth pertaining to specific injection sites, preparation of the armamentarium, maintenance of asepsis, simulated and real injection of anesthetic agents at predetermined sites and administration of nitrous oxide/ oxygen.

Prerequisite: successful completion of sophomore year course work in dental hygiene, current certifications in CPR, and curriculum enrollment in dental hygiene major or consent of instructor.

DHYG3250 - Clinical Seminar III

Credits: 2

This course prepares the dental hygiene student to make the transition from an educational setting to private practice. Focus is on applying, synthesizing, and transferring clinical and didactic knowledge to clinical and ethical decision-making. Students will be engaged in problem-based case studies, application of motivational theories, and analysis of evidence-based research.

Prerequisite: DHYG 3230, DHYG 3300 and DHYG 3350 or concurrent enrollment.

DHYG3350 - Clinical Dental Hygiene III

Credits: 5

This course assists students in gaining practical experience in clinical procedures requiring greater skill and knowledge than procedures previously undertaken. This course prepares students for the transition to private office practice.

Prerequisite: DHYG 3300.

DHYG3550 - Community Dental Health

Credits: 3

This course provides the dental hygiene student with an introduction to basic skills needed to evaluate the dental health community, including research methodology and basic statistical analysis. It provides the student with a basic understanding of the significant social, political, psychological and economic factors influencing the American Health System.

Prerequisite: DHYG 2100.

DHYG3720 - Office Practice

Credits: 2

This course is designed to provide the dental hygiene student with both current information and experience in office practice and management. Also included are discussions of professionalism, decision-making and leadership roles, including legal and ethical responsibilities, team responsibilities in the dental office and discussion of selecting, securing and maintaining employment.

Prerequisite: DHYG 2300, 2350, DHYG 3300 and a communications course.

DHYG3800 - Board Review

Credits: 1

This course is designed to assist dental hygiene students in preparing for the National Board Dental Hygiene Exam, the western and central regional clinical and anesthesia board exams, and state jurisprudence exams. These exams are required for licensure to practice dental hygiene in the United States. This course includes discussion of the distinction between various agencies in the education, healthcare and legal system which have jurisdiction over the licensure process, and the impact of cheating during any portion of the process on the public welfare.

Prerequisite: DHYG 3300.

College of Law

College of Law

Professors Emeritus

Debra L. Donahue, Harvey Gelb, Timothy Kearley, Jerry R. Parkinson, Dee Pridgen, Joel Selig, Elaine A. Welle

The College of Law was founded in 1920. The goal of the college is to provide a sound and thorough education in the law that will prepare the student to practice law in accordance with the highest standards of professional competence and responsibility. The emphasis in instruction is on analysis and understanding of legal principles and the development of skills necessary to the practice of the profession. The course of study will prepare a graduate to practice in any jurisdiction which has adopted the Anglo-American system of law.

The curriculum of the College of Law consists of three years of study within the college. Required courses necessary to basic legal knowledge make up the first two semesters of study, while courses in the final four semesters are largely elective. Students become eligible to receive the Juris Doctor (J.D.) degree upon successful completion of 90 semester credit hours of law courses with a grade point average of at least 2.000.

The college acts as a law center for Wyoming. It serves lawyers, judges, and government by a program of continuing legal education for attorneys and others interested in significant legal developments, by research projects aimed at improving state law, and by publishing the Wyoming Law Review.

Accreditation

The college is approved by the American Bar Association and its graduates are eligible for admission to the bar in every state. A student planning to practice in a particular state should check its rules for admission to the bar.

The college is also a member of the Association of American Law Schools. Membership is conditioned upon the maintenance of an adequate teaching staff and library, the offering of a sound educational program and adherence to prescribed standards for the admission and graduation of students.

Prelegal Curriculum

There is no prescribed or required set of courses for prelegal work. A student must usually have a B.A. or B.S. degree before beginning the professional study of law. There are no restrictions on the field in which the degree is earned.

The objective of prelegal study should be to acquire knowledge and skills useful in the study and practice of law. College study should prepare the student for law school by developing language comprehension and use, understanding

of political, economic, social and cultural institutions, and the ability to think logically and creatively. Courses promoting these objectives are included in the basic requirements for most undergraduate degrees. The choice of a major should be determined by the student's academic interest and professional objective in law.

Valuable background may be acquired through the study of English, history, philosophy, economics, political science, psychology, sociology, business administration, mathematics and the natural sciences.

For additional information, see the College of Law web site, (www.uwyo.edu/law).

Admission Requirements and Procedures

Admission to the professional curriculum in law is granted by the admissions committee of the College of Law. The College of Law restricts the number of entering students to a class size consistent with its facilities and its educational objectives. In evaluating an application, the committee considers the applicant's undergraduate college scholastic record and score on the Law School Admission Test (LSAT).

Other criteria relevant to the probability of success in the study and practice of law will also be considered.

1. Prior to beginning work in the College of Law, applicants must have a bachelor's degree from an accredited college or university, unless they have requested and been granted following exception:
 - a. An applicant who needs not more than 6 semester hours of college credit to qualify for a bachelor's degree may be admitted in exceptional cases to law school if the committee determines that the applicant has sufficient education and preparation for the study of law; has an outstanding undergraduate scholastic record; and has an approved program signed by the appropriate undergraduate official indicating that the remaining requirements for the bachelor's degree may be met by summer school attendance or by other means that will not interfere with the study of law.
2. Every applicant must take the Law School Admission Test. A packet giving information about the test, the dates on which it is given, and centers at which it can be taken, sample questions and an application form, may be obtained from Law School Admission Council, Box 2000, Newtown, PA 18940, by phone at (215) 968-1001, online at www.lsac.org.
3. Every applicant must register with the Law School Admission Council Credential Assembly Service, CAS. Registration may be done through the LSAC website (www.lsac.org). The CAS will prepare a report that is transferred to the college.
4. Every applicant must complete the electronic University of Wyoming College of Law Application through LSAC between October 15 and April 30. Applications received by December 15 will be considered for early admission.
5. If admitted, official transcripts sent directly to the College of Law from each college attended must be on file in the Admissions Office at least 30 days before the student's registration date.

Application Deadline

An initial entering class will be selected from completed applications on file on April 30. Students who submit an application by December 15 will be considered for early admission. An application is complete only when the college has received the LSAT score, the CAS report, applications, and all supporting documents.

Admission With Advanced Standing

Transfer students are admitted only when the College of Law facilities and curriculum permit. A transfer student may transfer up to the number of credits the student could have earned had the student completed his or her first year at the University of Wyoming College of Law. Transfer credit will be given only for courses in which the student earned a grade of C or higher. Applicants admitted must satisfy the requirements for graduation established by the College of

Law, including such other requirements as may be imposed as a condition of admission. Students interested in transferring should contact the College of Law for information concerning application procedures.

Academic Regulations

The Juris Doctor (J.D.) degree is awarded by the College of Law faculty to candidates who meet the following requirements:

Curriculum is subject to change at the College of Law Faculty's discretion, which may cause the annually updated university catalog to be out of date. For students matriculating in or after the fall 2013 semester, each student must successfully complete (grade of "D-" or better for courses taken at this school, grade of "C" or better for courses taken elsewhere) 90 credit hours (required for graduation) of law coursework in accordance with the official curriculum as adopted by the College of Law faculty. At least 59 of these credits must be completed at the University of Wyoming College of Law. Courses taken for S/U grades count toward the hours required for the J.D. degree only if the course is offered for the S/U grade only. Regardless of the matriculation date, students must complete at least 76 credit hours through graded (A-F) courses.

The course of study must be completed no earlier than 24 months (2 years) and not later than 84 months (7 years) after a student has commenced law study. No student shall be permitted to enroll at any time in coursework that, if successfully completed, would exceed 20 percent (18 hours) of the total coursework required for graduation.

Second and third year students may take up to six of 90 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students must receive a letter grade of B or better for these non-law courses to count toward graduation requirements. Additionally, these courses will transfer in with a satisfactory grade of 'S' and will not impact their law school GPA. Students who wish to enroll in a non-law course on this basis must secure the prior approval of the course professor and the Associate Dean of Academic Affairs at the College of Law. Approval will be based on the student's submission of a Non-Law Grad Course Request form with a brief written statement explaining how the proposed coursework relates to and enhances the student's legal education. Students should be aware that non-law courses completed on this basis will not count toward the 76 hours that students must complete in graded courses as a requirement for graduation. The non-law coursework will instead be counted as credits the law students are permitted to take on an S/U basis.

The College of Law automatically approves up to 9 hours of any joint degree core courses with the corresponding prefix to their joint degree (i.e. MBAM, POLS, ENR) that meet the grade requirement to transfer in toward their law degree. If additional courses are needed outside of these respective prefixes, these will be approved on a case by case basis. Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students in a joint degree program who use 9 non-law credit hours toward their J.D. degree may reduce their required number of graded credits from 76 to 73 so that they can participate in other S/U offerings at the College of Law. To receive law school credit for the non-law course, a student will be required to earn a grade of B or better in the non-law course. The grade will not count, however, toward the student's law school GPA. The course will be counted as a "satisfactory" grade for purposes of the student's law school GPA. Joint degree students should be aware that non-law courses completed on this basis will not count toward the 73 hours that joint degree students must complete in graded courses as a requirement for graduation. The non-law coursework will instead be counted as credits the law students are permitted to take on an S/U basis.

To graduate, all students must earn a cumulative grade point average of 2.000 for all courses taken at the College of Law. If a course is repeated, both grades shall be included in computing the average. The student, except in exceptional circumstances, must have a baccalaureate degree. Candidates who meet these requirements are eligible for graduation at the end of any semester.

Academic Standing

The following requirements apply to any coursework at the College of Law. Courses that law students may complete outside of the College of Law do not count in calculation of the required College of Law grade point average (GPA).

In the first year, a student who fails to make a 1.800 GPA after the first semester, or fails to make a 1.900 cumulative GPA overall in the first year's work, shall be excluded from the College of Law. A student who at any time fails to make a passing grade in two of the courses for which the student is registered in any semester shall be excluded from the College of Law.

A student who enters the second year with a GPA lower than 2.000 but at 1.900 or above, or who fails to maintain a 2.000 cumulative GPA after the first year, shall be placed on academic probation. A student on academic probation who does not attain an overall grade point average of 2.000 within one semester shall be excluded.

A student excluded from the College of Law may petition the faculty for readmission. The faculty may, in its discretion, readmit the student upon receipt of satisfactory evidence of extenuating circumstances or marked improvement in grades and study habits. Readmission may be subject to conditions, including, but not limited to, the repeating of any or all courses, as the faculty may decide. If a student's petition for reinstatement is denied, the student must wait nine months before petitioning again for readmission. Also, all students are limited to two petitions for readmission. The entire faculty will automatically hear and consider a student's initial petition. In the event of a second petition for readmission, a committee selected by the Dean will hear and consider the petition. The committee will present a report and recommendation to the faculty for adoption. Denial of a second petition is final.

Advanced Writing Requirement

As a condition of graduation, all students must complete an upper-level writing requirement consisting of a research paper of a minimum length of 5,000 words, exclusive of footnotes. All students must follow a designated standard citation form. Students must submit a detailed outline of the paper to the supervising professor, then must rewrite the paper at least once after the professor reviews the first draft. With the professor's approval, the student can meet the advanced writing requirement in any law school elective course, including a seminar, as long as the above requirements are met. The supervising professor must certify that the writing requirement has been fulfilled.

All student articles written for law review, whether published or unpublished, must have a supervising faculty member and otherwise meet all other provisions of the College of Law Advanced Writing Requirement. A student may also fulfill the requirement through an independent study or by writing a case note or comment for the law review, under the supervision of a professor. It cannot be satisfied through participation in a clinic.

Attendance Requirement

Students must attend at least 75 percent of regularly scheduled classes in each required course. A professor in a required course may impose an attendance requirement of greater than 75 percent if the policy is announced in writing on the first day the class meets.

In elective courses, students must attend at least 75 percent of regularly scheduled classes unless the professor announces a different policy in writing on the first day the class meets. Any alternative policy must comply with the American Bar Association (ABA) requirement of regular and punctual attendance.

A student who fails to meet the minimum class attendance requirement in any class will be dropped from the course and receive a grade of F, unless extenuating circumstances are present, in which case the student shall receive a grade of W. A professor may impose sanctions for students who have met the minimum class attendance requirement but in other respects have violated specified attendance guidelines, if the professor announces the guidelines and possible sanctions in writing on the first day the class meets.

The following table indicates the number of classes a student must attend under the 75 percent rule in a two hour or three hour course, depending on the number of class meetings. Students must verify with the professor the number of classes required in a one or four hour course.

The ABA requires attendance at 75 percent of all scheduled class times.

3-Credit Course (meeting three times a week for 55 minutes each):

<u>Class Meetings</u>	<u>Must Attend</u>
40	30
41	31
42	32

2-Credit Course (meeting twice a week for 55 minutes each) or a 3-Credit Course (meeting twice a week for 80 minutes each):

<u>Class Meetings</u>	<u>Must Attend</u>
26	20
27	20
28	21

Class Rank

Students are ranked by class at the end of each of the fall and spring semesters once the faculty have submitted all grades. Class rankings will be available in the Front Office. Students can choose to have their spring class ranking letter mailed to them if they provide the Front Office with a self-addressed, stamped envelope. Transfer students to the College of Law shall not be ranked with other UW students until they have completed two full-time semesters at UW (or a minimum of 24 UW credits). Students who visit out at other ABA accredited law schools or who graduate early are ranked based on their ranking at the end of their last semester at UW.

Experiential Learning Requirement

As a condition of graduation, each student must successfully complete no fewer than 6.0 credit hours in experiential learning courses. Experiential learning courses include a simulation course, a law clinic, or an externship field placement. Simulation courses provide substantial experience not involving legal representation of an actual client, that (1) is reasonably similar to the experience of a lawyer advising or representing a client or engaging in other lawyering tasks in a set of facts and circumstances devised or adopted by a faculty member; and (2) includes: direct supervision of the student's performance by the faculty member; opportunities for performance, feedback from a faculty member, and self-evaluation; and a classroom instructional component (ABA Standard 303).

Typically students may fulfill the experiential learning requirement by successfully completing 6.0 credit hours in any of the following upper- class elective courses:

- Advanced Appellate Advocacy (LAW 6520)
- Advanced Legal Research (LAW 6990)

Advanced Oil & Gas Law (LAW 6992)
 Advanced Persuasive Writing (LAW 6925)
 Alternative Dispute Resolution (LAW 6915)
 Business Planning (LAW 6560)
 Civil Pretrial Practice (LAW 6565)
 Clinic: Civil Legal Services (LAW 6930 or LAW 6931)
 Clinic: Defender Aid (LAW 6932 or LAW 6930)
 Clinic: Energy, Environ. & Natural Resources (LAW 6933 or LAW 6930)
 Clinic: Family & Child Advocacy (LAW 6930 or LAW 6934)
 Clinic: International Human Rights (LAW 6930)
 Clinic: Prosecution Assistance (LAW 6930 or LAW 6936)
 Contract Drafting (LAW 6935)
 Estate Planning (LAW 6670)
 Estate Planning Practicum (LAW 6937 or LAW 6930 or LAW 6915)
 Externships (LAW 6960)
 Interviewing, Counseling & Negotiation (LAW 6166 or LAW 6915)
 Summer Trial Institute (LAW 6850)
 Trial Practice (LAW 6850)

Note: classes may be removed from and/or added to this list each semester.

Grading

Grades are assigned on a plus/minus system. Grades of incomplete (I), and withdrawal (W), are disregarded. A required course in which a grade of F or W or U is received must be repeated. A course cannot otherwise be repeated without the consent of the faculty. If a course is repeated, both grades are included in computing the student's grade point average.

A4.00	B +3.333	C+2.333	D+1.333	F0.000
A-3.667	B3.000	C2.000	D1.000	WF0.000
	B-2.667	C-1.667	D-0.667	

Satisfactory (S) or unsatisfactory (U) grading applies only if the course is offered on an S/U basis or a student takes a non-law graduate-level course as explained above. Students from other colleges who are permitted to take professional courses in the College of Law must take them for S/U credit. The grading scale is at discretion of the instructor for each course.

Bar Exam Passage Rate Improvement Program

Students matriculating after August 2021, a student whose first-year GPA is in the bottom one-third of the class will be required to pass four of the following courses as a requirement of graduation: Business Organizations (or one of either Agency and Partnership or Corporations); Secured Transactions; Trusts and Estates; Criminal Procedure; Criminal Adjudication; Family Law; Constitutional Law II; or Real Estate Finance. During the fall and spring semesters after the 1L year it is required to take at least one of these courses as a minimum each semester, until the requirement has been satisfied.

In order to graduate, a student whose first-year GPA is in the bottom one-third of the class will also be required to take and pass a law school-offered bar examination course as a 3L (typically in their final spring semester), unless for unanticipated reasons the College of Law does not offer that course in a particular year.

Curriculum

Required Courses: First (1L) Year Students (*Additional courses cannot be taken the first year without special permission from a dean*).

Fall Semester

Civil Procedure I (6240) - 3

Contracts I (6110) - 3

Legal Research (6165) - 1

Legal Writing I (6160) - 3

Property I (6120) - 3

Torts I (6130) - 4

Spring Semester

Civil Procedure II (6340) - 2

Constitutional Law I (6250) - 3

Contracts II (6210) - 2

Criminal Law (6140) - 3

Legal Writing II (6260) - 2

Property II (6220) - 2

Required Courses: Second (2L) Year Students (offered once per year)

Evidence (6410) - 3

Professional Responsibility (6420) - 3

Elective Courses: Second (2L) & Third (3L) Year Students (* subject to availability)

See Law Courses section

Graduation with Honors

The degree of Juris Doctor is awarded with honors if the student achieves a grade point average of 3.400 or better on all resident credit in the College of Law.

Honor Roll

Students enrolled in a minimum of 12.0 semester hours of law courses carrying A-F grades, and who have no semester grades of incomplete (I), are eligible for the President's Honor Roll and the Dean's Honor Roll. Students with a semester average of 4.000 will be named to the President's Honor Roll. First-year students with a semester average of 3.250 or better and second-year and third-year students with a semester average of 3.400 or better will be named to the Dean's Honor Roll.

Minimum Hours

The College of Law does not permit students to attend on a part-time basis. Students are required to take the full load of required courses during their first two semesters and to carry at least 9 credit hours in each of the remaining semesters of law study. Notwithstanding, if a student has less than 9 credits remaining in their final semester of study, then said student may register for only the number of remaining credits (e.g. if a student only has 4 credits left to graduate, that student will only be required to register for 4 credits). First year students will be allowed to take less than the full load of required courses only if they present exceptional circumstances, as determined by the Dean or his/her delegate.

Transfer Credits

The College of Law admits transfer students only in the fall of their second year. A student granted transfer admission may transfer credits earned in courses taken at another ABA-accredited law school toward a degree from the UW College of Law up to the number of credits that a traditional UW student would have earned during the student's first year at the University of Wyoming (32 credits as of the 2020-21 academic year). In addition, University of Wyoming law students who visit out for a semester or full year may also transfer credits from other ABA approved law schools, as long as 59 credits are completed at the University of Wyoming. The College of Law will also accept up to 15 hours of transfer credit from another ABA accredited school for an international student previously enrolled in an LL.M. or other post-J.D. program. To receive transfer credit from a course, a grade must be a "C" or better. Transfer credits are recorded on the JD transcript as an "S" (Satisfactory), instead of graded credits. All transfer credits must be approved by the Associate Dean of Academic Affairs in advance.

Withdrawing from a Course &/or the University

Failure to attend class or failure to pay tuition does not constitute withdrawal from a class or from the University. Students who pre-register for classes on WyoWeb will be assessed tuition and fees. Students who drop or withdraw from their last or only class for a given term after the end of the drop/add time period must also meet with the Assistant Dean of the College of Law and complete the official withdraw forms required by the Office of Registrar. Financial aid recipients who withdraw from courses or reduce credit hours must consult with a financial aid counselor regarding repayment of financial aid funds if applicable. For more complete details regarding deadlines, refunds, and cancellations, see the University's Accounts Receivable web page <http://www.uwyo.edu/fsbo/accounts-receivable/>

Exam Procedures and Policies

1. Review the Honor Code before beginning the exam period. It applies to all examinations. If you have any questions about the materials allowed by a professor, please see the professor in advance of the exam.

2. A copy of the final exam schedule will be posted on the web, please check dates and times carefully.
3. We use exam numbers, rather than students' names, so that professors cannot identify the students' exams they are grading. Exam numbers will be available in ExamSoft one to two weeks before the exam period. You must write this number on all of your exams and blue books, or as your identification number for typed exams. **DO NOT** write your name on your exam. Midterm exams and final exams have unique numbers. Save these numbers, as you will use the same number for all of your midterm and final exams respectively. New numbers are assigned each semester.
4. All examinations must be: (A) written in ink in 8 1/2 x 11 size "blue books," OR (B) typed on the student's laptop using the ExamSoft software. Students provide their own blue books, pens or laptops. The law school will supply answer sheets and pencils for any multiple choice exams.
5. If you are using a laptop:
 - Examplify (SofTest) is operable for PC's and Mac's. Please reference this site for the most up to date Minimum System Requirements, Examplify: Minimum System Requirements - ExamSoft
 - You must download the exam software (free for students) well in advance of the exam day.
 - Have your laptop set up and the software running in the designated room before the time to begin the exam.
 - Instructions for using the ExamSoft Examplify (SofTest) software are available at the Examsoft website (use Chrome or Firefox ONLY).
 - If you experience any problems with your computer during the exam, come to the front office immediately and someone will assist you.
 - Once you complete the exam, and have turned in your exam questions, be sure you receive the "upload successful" message to assure that your exam answers have been transmitted.
6. All exam reschedules must be approved by COL Assistant Dean, Lindsay Hoyt or the Registrar. You must meet the criteria published within the exam schedule to reschedule an exam, i.e., two exams on one day, three exams in three days, or four exams in five days. Fill out the exam reschedule request form and turn it into COL Registrar, Dave Bluemel. Please note, that if possible, an elective will be rescheduled rather than a large required class, and rescheduled to a later, rather than an earlier date.
7. Students who are handwriting their exams must return the exam questions and blue books to a staff member in the lobby outside the Dean's office at or before the time indicated on the exam. Laptop users should exit the exam software and turn in the exam questions to a staff member at or before the time indicated. It is your responsibility to determine the precise time the exam is to be returned and to ensure that you meet the deadline. Use the clock in the exam room for reference, not the clock that may appear on your computer or the time on your wristwatch.
8. During the exam, turn off (or leave outside the room) all cell phones, smart watches, pagers, and PDA's. Do not leave them on vibrate, as this may be disturbing to other students.
9. When you finish your exam, please be courteous/quiet as you gather your belongings and leave the exam room. You MAY NOT return to the room to gather your belongings after you have turned in your exam, unless it is after the collection time indicated on the exam. Be aware that students are taking exams in both the morning and the afternoon and are taking exams that have differing ending times -- so please curb your talking in the classroom areas and halls during the administration of exams.
10. If you cannot take the exam at the set time due to illness, or other emergency, you must notify Assistant Dean Lindsay Hoyt, as soon as possible, prior to the exam and be prepared to supply appropriate documentation.
11. Final grades will be available on WyoWeb. No grades will be given over the telephone.

Final Exam Reschedule Policy

No student is required to take exams in the following circumstances as long as they submit a reschedule form two weeks prior to the first day of exams:

- two exams on one day
- Three exams in three consecutive days
- four exams in five consecutive days

Students who have six final exams cannot be provided relief due to the limited number of exam days. Efforts will be made, however, to distribute the six exams so as to avoid three in a row. A student who meets the above criteria must see Assistant Dean Lindsay Hoyt to reschedule. Exams are not normally rescheduled outside of the regular exam period.

Disability Assistance

The University of Wyoming College of Law is committed to making its programs accessible to individuals with disabilities and ensuring a robust academic experience for all students. The College of Law works closely with the Disability Support Services office on the University's main campus to coordinate a variety of services for students with disabilities. The Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973 guarantee equal access to programs and services to those with disabilities. In order to be a qualified individual subject to the protections of these Acts, a person must demonstrate that he or she has a disability that substantially limits a major life activity (e.g., seeing, hearing, walking, breathing, performing manual tasks, learning, caring for oneself, and working) and, as such, requires a reasonable accommodation in order to have equal access. This section of the College of Law's policies explains a student's rights and responsibilities in seeking to receive accommodations from the College of Law because of a disability. The process and procedures outlined here apply to law school classroom accommodations, exam accommodations, and accommodations related to accessing the University's facilities.

I. Rights and Responsibilities in Requesting Reasonable Accommodations

A. Accommodation Request Deadlines

1. The deadlines for students requesting accommodations is 2 weeks before the start of the academic year or semester for classroom and exam accommodations.
2. Extensions to these deadlines may be granted to students who were unable to meet the deadline due to extenuating circumstances. Accommodations are prospective; retroactive accommodations are not available. For this reason, it is important that the student timely submit requests for accommodations.

B. Accommodation Process and Procedure for Classroom and Exam Accommodations

1. A student who believes that he or she has a qualifying disability warranting accommodation for academic programs, exams or access to the University's facilities should submit their requests for accommodations through the University of Wyoming's Disability Support Services (DSS), by contacting udss@uwyo.edu or 307 766-3073 or applying through the website found here: <https://www.uwyo.edu/udss/>.
2. The DSS application process is required and separate from any communication with College of Law staff. Students *should not* go directly to any faculty in an effort to arrange accommodations for disabilities.
3. Once the student submits the completed application and supporting medical documentation, DSS will review the documentation to verify the existence of a qualifying and make a decision regarding the student's eligibility for services. DSS also may request additional documentation at any time or may request that the student's physician or other licensed health professional speak directly to the DSS staff.
4. Following the determination that the student has a qualified disability, DSS and the Assistant Dean of the College of Law, as the designated liaison for the College and its faculty, will consult together to

make a determination regarding the student's requested accommodations related to the student's courses, exams, and access to university facilities.

5. A reasonable accommodation is an accommodation that does not impose an undue financial or administrative burden on the College of Law and does not fundamentally alter the nature of the educational service, program, or activity at the College of Law.
6. DSS is responsible for making determinations about reasonable accommodations after consulting with the Assistant Dean of the College of Law and will then notify the student by email of the decision to deny, grant, or partially grant or provide a reasonable alternative to the requested accommodations. This email is required prior to any accommodations being made.
7. Information regarding a student's disability and any accommodations provided shall be disclosed only when necessary in furtherance of the student's education or to individuals who have a need to know the information as determined by the University. As a general rule, when feasible, student anonymity will be maintained.
8. For any exam condition accommodations, DSS will notify the Assistant Dean of the College of Law who will oversee the implementation of the accommodation. DSS will also notify any other law school staff designated by the Assistant Dean of the College of Law who are needed to implement the accommodation (e.g. the designated testing coordinator, faculty etc.). Students will be provided notice of the time and place of their accommodated testing by DSS.
9. For classroom accommodations, the Assistant Dean of the College of Law will oversee implementation of the accommodations and notify the faculty of the particular course if the accommodations provided affect the conduct of the class.
10. If a student is denied eligibility for DSS or requested reasonable accommodations, the student may request a review of these determinations by the Vice President for Student Affairs consistent with the process mentioned here <https://www.uwyo.edu/udss/laws-and-complaint-processes/if-and-when-you-disagree.html> Students who have questions about the review process may contact DSS for more information. The Vice President for Student Affairs may consult with the Dean of the College of Law prior to making a final determination.

II. Rights and Responsibilities of the Student after Receiving Classroom and Exam Accommodations

- A. A student must renew his or her request for accommodations each semester by meeting with DSS in order to determine whether new and different accommodations are necessary for the student's disability to be accommodated. Requests for classroom and exam accommodations must be made two weeks prior to the beginning of the semester. At these meetings, DSS may request that the student submit updated documentation verifying the nature and extent of the student's disability.
- B. If a student's condition changes at any time, thereby affecting the nature and extent of his or her disability, the student must notify the DSS immediately and DSS will consult with the Assistant Dean of the College of Law, as the designated liaison for the College to engage in the interactive process set forth in section I(B)(4).
- C. If there is a problem with any accommodations that a student receives, whether it is related to a course, an exam, or access to a facility, the student must promptly notify DSS who will coordinate with the Assistant Dean of the College of Law so that steps may be taken, to the extent practicable, to resolve the problem.
- D. Communication via accommodations (including exam schedules and room assignments) will be made using the student's email account. A student is responsible for checking email on a timely basis to determine the status of any issue relating to the accommodation that has been put in place for a particular disability. If the student's disability prevents physical access to email, an alternative

method of communication will be determined in consultation with DSS, the College of Law, and the student.

III. Requests for Accommodations Related to the College of Law Facilities

Any requests for disability accommodations related to the College of Law buildings or University grounds may be initiated by contacting DSS or the Assistant Dean of the College. DSS and/or the College of Law will work collaboratively regarding any requests and may involve other campus units, including but not limited to the UW Operations, in order to process and/or implement reasonable accommodations related to the College of Law facilities.

Joint Degree Programs

JD/MA in ENR Program

A joint Juris Doctor/Master of Arts of Environment and Natural Resources degree is available to all admitted law students upon application. Students in this joint degree program must take 18 credits outside the law school in ENR courses, and must take 12 law school credits from a menu of ENR related law courses to qualify for this joint degree. Students in the joint degree program must also complete a supervised research project. Additionally, nine (9) credits of approved MA coursework (see Academic Regulations) will be applied to the Juris Doctor degree.

Current core courses: ENR 5000, ENR 5900, ENR 5890.

JD/MBA Program

A joint Juris Doctor/Master of Business Administration program is available in the College of Law and the College of Business. This program will take approximately four years to complete. Students spend three years on-campus engaged in law studies. In either their second or third year, students will be enrolled full-time in the MBA Program, taking core Fall and Spring business courses followed by participation in an MBA Summer Project. The MBA Capstone course will be completed during the student's third year for a total of 38 MBA Program credits. Nine (9) credit hours of approved Law coursework will be transferred as elective hours to the MBA Program for a total of 47 credit hours. Additionally, nine (9) credits of approved MBA coursework (see Academic Regulations) will be applied to the Juris Doctor degree. Students successfully completing this lock-step program will earn dual Juris Doctor and Masters of Business Administration degrees.

Current core courses: MBAM 5102, MBAM 5104, MBAM 5107, MBAM 5202, MBAM 5204, MBAM 5207, MBAM 5208, MBAM 5209, MBAM 5305, MBAM 5330.

JD/MPA Program

A student in the joint Juris Doctor/Master of Public Administration program must be admitted to both the College of Law and College of Arts and Sciences. The degrees are awarded concurrently by each college upon successful completion of the combined degree program requirements. In fulfillment of the J.D. degree, the College of Law will accept up to nine hours of MPA credits in courses approved by the law faculty (see Academic Regulations). In fulfillment of the MPA degree, the College of Arts and Sciences will accept up to 12 hours of credits earned in specified courses in the J.D. program. For additional information regarding these joint degree programs, contact the College of Law or the joint program of interest.

Current core courses: POLS 5000, POLS 5400, POLS 5410, POLS 5440, POLS 5684, POLS 5510, POLS 5690, POLS 5080, POLS 5060, POLS 5450, POLS 5460, POLS 5480

Nonprofessional Degree Students

Graduate students from other colleges of the University of Wyoming may be permitted to take one or more law courses on an S/U basis for non-law credit when the following conditions are met: the law course taken is acceptable for their degree program and the prior written approval of the professor assigned to the course and the Associate Dean or Assistant Dean has been obtained. In order to obtain audit or visitor privileges, students must obtain prior written approval of the professor assigned to the course and the Associate Dean or Assistant Dean. For further information and requirements contact the Associate Dean of Academic Affairs, College of Law, Dept. 3035, 1000 E. University Ave., Laramie, WY 82071.

Course descriptions may be obtained online at www.uwyo.edu/law.

Graduate

Juris Doctor

The goal of the College of Law is to provide a sound and thorough education in the law that will prepare the student to practice law in accordance with the highest standards of professional competence and responsibility.

Curriculum

Overall Hours

For students matriculating in or after the fall 2013 semester, each student must successfully complete (grade of "D-" or better for courses taken at this school, grade of "C" or better for courses taken elsewhere) 90 credit hours (required for graduation) in accordance with the official curriculum as adopted by the College of Law faculty. At least 59 of these credits must be completed at the University of Wyoming College of Law.

The College of Law automatically approves up to 9 hours of any joint degree core courses with the corresponding prefix to their joint degree (i.e. MBAM, POLS, ENR) that meet the grade requirement, of a letter grade of B or better, to transfer in toward their law degree. If additional courses are needed outside of these respective prefixes, these will be approved on a case by case basis. Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree.

Law A-F hours

Regardless of the matriculation date, students must complete at least 76 credit hours through graded (A-F) courses.

Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students in a joint degree program who use 9 non-law credit hours toward their J.D. degree may reduce their required number of graded credits from 76 to 73 so that they can participate in other S/U offerings at the College of Law.

Required Courses: First (1L) Year Students

(Additional courses cannot be taken the first year without special permission from a dean).

Fall Semester

LAW6240 - Civil Procedure I

Credits: 3
Max Credit (Max. 3)

A study of modern practice in civil cases under Rules of Civil Procedure and other sources of procedural law. Civil Procedure I and its continuation, Civil Procedure II, cover all aspects of jurisdiction and other issues bearing on what court(s) may hear a case; choice of state or federal law; pleading; joinder of claims and parties; class actions; discovery and other pre-trial procedures; summary judgment; non-jury and jury trials; appeals; and claim and issue preclusion.

LAW6110 - Contract I

Credits: 3
Max Credit (Max. 3)

A study of the elements of simple contracts, including offer and acceptance, consideration, conditions, defenses, and damages. The impact of the Uniform Commercial Code on contracts is considered.

LAW6165 - Legal Research

Credits: 1
Max Credit (Max. 1)

Introduction to paper and electronic resources that cover primary & secondary legal materials, including case law, statutes, agency regulations for federal and state jurisdictions, & treatises, journals, restatements, and other secondary sources. Discusses research plans and develops brief research strategies for hypothetical situations.

LAW6160 - Legal Writing I

Credits: 3
Max Credit (Max. 3)

In this course students are introduced to the fundamentals of legal reasoning and analysis and the basics of legal writing.

LAW6120 - Property I

Credits: 3
Max Credit (Max. 4)

Covers two general areas. The first area is the rights that define property ownership, in relation to neighbors, the world, and others with interests in the property. Subjects include rights to use the land and its products, estates, concurrent ownership, and landlord-tenant law. The second area is private limitations on those rights, in the form of covenants and easements.

LAW6130 - Torts I

Credits: 4
Max Credit (Max. 4)

Study of the methods and policies for allocating risks of harm; intentionally inflicted harms; negligence in its general aspects and its application to products liability, landowners, and automobile traffic; emotional harms; defamation; and fraud. Principal areas of coverage typically include wrongful death, defenses, vicarious liability, strict liability, nuisance, products liability and defamation. If time permits we will also cover privacy, misrepresentation and other topics.

Spring Semester

LAW6340 - Civil Procedure II

Credits: 2
Max Credit (Max. 2)

A study of modern practice in civil cases under Rules of Civil Procedure and other sources of procedural law. Civil Procedure I and its continuation, Civil Procedure II, cover all aspects of jurisdiction and other issues bearing on what court(s) may hear a case; choice of state or federal law; pleading; joinder of claims and parties; class actions; discovery and other pre-trial procedures; summary judgment; non-jury and jury trials; appeals; and claim and issue preclusion.

LAW6250 - Constitutional Law I

Credits: 3
Max Credit (Max. 3)

Constitutional Law I is divided into two parts. Part I focuses on governmental structures. Part II begins our coverage of individual rights and liberties. Part I's coverage includes the power of judicial review, separation of powers, federalism, and congressional powers. Part II focuses on equal protection.

LAW6210 - Contracts II

Credits: 2
Max Credit (Max. 2)

A study of the elements of simple contracts, including offer and acceptance, consideration, conditions, defenses, and damages. The impact of the Uniform Commercial Code on contracts is considered.

LAW6140 - Criminal Law

Credits: 3
Max Credit (Max. 3)

The sources of criminal law and the purposes of criminal punishment, the constituent parts of criminal conduct, including act (or omission), culpable mental state, result, and causation. These general principles are brought to bear on homicide and sexual assault. Also considers common defenses to criminal charges, including self-defense, necessity, duress, insanity, and intoxication. Students are required to consider the constitutional limits of the criminal law and the relationship of substantive principles to practice.

LAW6260 - Legal Writing II

Credits: 2
Max Credit (Max. 2)

This course builds on the first semester Legal Writing course by introducing students to: (1) more sophisticated aspects of legal reasoning, analysis and legal research; (2) the basics of persuasive legal writing; (3) the basics of appellate procedure and an appellate brief; and (4) the basics of oral advocacy.

LAW6220 - Property II

Credits: 2
Max Credit (Max. 2)

First covers some private and public limitations on owners' property rights, primarily easements and zoning. The rest of the semester deals with acquiring ownership rights, possession and transfers, including the law relating to deeds and titles.

Required Courses: Second (2L) Year Students

(offered once per year)

LAW6410 - Evidence

Credits: 3
Max Credit (Max. 3)

A study of the means by which any alleged fact is established or disproved, including competency of witnesses; direct examination; cross-examination and impeachment; privileges; basic and special issues of relevancy; the hearsay rule and its exceptions; real, demonstrative, and documentary evidence; opinion and scientific evidence; judicial notice; and the responsibility of proof.

LAW6420 - Professional Responsibility

Credits: 3
Max Credit (Max. 3)

A study of the duties of attorneys to their clients and the public under the Model Rules of Professional Conduct and case law.

Experiential Hours

Each student must successfully complete no fewer than 6.0 credit hours in experiential learning courses:

LAW6166 - Interview, Counseling and Negotiation

Credits: 3
Introduction to the basic lawyering skills of interviewing, fact investigation, counseling, and negotiation. Employs simulation exercises, self-critiques, and feedback from the faculty member as well as other students. In addition to the exercises, exposure to the theoretical underpinnings of the skills and examine some of the ethical issues involved in creating and maintaining professional relationships with clients and opposing parties and counsel.

LAW6560 - Business Planning

Credits: 3

Max Credit (Max. 3)

Focus is primarily on a problem involving several persons who are organizing a business entity. Consideration will be given to the characteristics of several kinds of business organizations and to making a judgment as to which organization should be used to house the business being set up. Considers tax and non-tax aspects with respect to business organizations.

LAW6565 - Civil Pretrial Practice

Credits: 3

Max Credit (Max. 3)

Includes the civil litigation process from the filing of a complaint and decisions related to the complaint, to discovery including written discovery and depositions, to pre-trial motions such as motions to change venue, to exclude evidence, and for summary judgment, to preparation for pre-trial conferences and trial. Sample cases provide the basis for the drafting of various discovery documents and motions. There will be no exam.

LAW6670 - Estate Planning

Credits: 2

Max Credit (Max. 2)

Applies estate and gift tax principles in a survey of estate planning principles and techniques. Traditional estate planning tools including wills, trusts, and durable powers of attorney are discussed as well as post-mortem planning, administration issues, and planning for special situations, such as owners of closely held businesses, entrepreneurs, and the disabled.

LAW6850 - Trial Practice

Credits: 3

Max Credit (Max. 3)

Trial Practice is a rigorous learn-by-doing course designed to build courtroom skills. Through a combination of exercises, lectures, demonstrations, drills and complete trials, students are prepared to advocate before judges and juries. The first half of the course focuses on basic examination and exhibit skills, including direct, cross, redirect, making and responding to objections, and the introduction and use of real and demonstrative evidence. In the sixth week, students conduct bench trials. The second half of the course builds on the basic skills and covers advanced ones, including examination of expert witnesses, opening statement, closing argument and voir dire. Jury trials are conducted in the final two weeks.

LAW6930 - Legal Clinic

Credits: 2-3

Max Credit (Max. 6)

Supervised clinical training in law office and court procedures. Clinical programs available are the Defender Aid Program, Legal Services Program, and the Prosecution Assistance Program.

Prerequisite: Students must have completed first year of law school.

LAW6931 - Clinic: Civil Legal Services

Credits: 3

Max Credit (Max. 12)

The Civil Legal Services Clinic has provided legal assistance to Wyoming citizens for over 20 years. Students represent low-income and marginalized individuals across the state who could not otherwise afford legal representation. The CLSC's mission is to provide legal services in a broad range of general civil legal matters.

LAW6932 - Clinic: Defender Aid

Credits: 3

Max Credit (Max. 12)

Provides representation to indigent persons in Wyoming state and federal courts. We represent clients pending trial, on direct appeal from their convictions, and handle post-conviction matters in state and federal court.

LAW6933 - Clinic: Energy, Environment and Natural Resources

Credits: 3

Max Credit (Max. 12)

Fall: Classroom component of the Clinic will provide a practitioner's view of key aspects of federal court litigation practice in cases involving natural resources issues. Spring: Clinic will provide an overview of the Wyoming Administrative Procedure Act and the Wyoming statutes that govern the regulation of energy production, environmental protection, and natural resources management in Wyoming.

LAW6934 - Clinic: Family and Child Advocacy

Credits: 3

Max Credit (Max. 12)

Handle a wide array of cases including divorce, child custody, domestic violence protection orders, stalking orders, guardian ad litem appointments in juvenile and domestic relations cases, and other family law matters. In addition, law students represent children or their parents in child abuse and neglect cases, termination of parental rights, children in need of supervision and delinquency actions.

LAW6935 - Contract Drafting

Credits: 3

Max Credit (Max. 3)

Covers fact investigation and the role of the lawyer in a transaction proposed by the client, including possible negotiations with other parties; drafting a contract in Plain English; and the ethical obligations of a transactional lawyer, through simulations and problem-solving exercises.

Prerequisite: LAW 6110.

LAW6936 - Clinic: Prosecution Assistance

Credits: 3
Max Credit (Max. 12)

The program is heavily involved with the Wyoming Attorney General's office, usually in representing the state in criminal appeals before the Wyoming Supreme Court. In handling these appeals, students are responsible for the entire preparation of appellate briefs and the presentation of oral argument to the Supreme Court.

LAW6937 - Estate Planning Practicum

Credits: 3
Max Credit (Max. 12)

Provides students the opportunity to work with low-income clients around the State of Wyoming in a transactional law setting. Prepare wills, powers of attorney, advance health care directives, deeds, affidavits of distribution and other probate documents for small estates and will learn how to plan an estate for beneficiaries who are minors or who have special needs.

LAW6960 - Legal Externships

Credits: 1-3
Max Credit (Max. 6)

The externship program provides second and third year students with an opportunity to learn through practice by working directly with attorneys or judges for academic credit. Externship placements are limited to judges, government agencies and nonprofit organizations, and must be pre-approved by the College of Law faculty.

LAW6925 - Advanced Persuasive Writing

Credits: 3
Max Credit (Max. 3)

Art and science of written legal persuasion. Specifically, course explores the nature of legal persuasion from the standpoints of numerous disciplines, including classical rhetoric, psychology, literary theory, and morality theory, and based on these principles, covers specific strategies lawyers can use to make their writing more persuasive.

Prerequisite: LAW 6160 and LAW 6260, and completion of first year of law school.

LAW6992 - Advanced Oil and Gas Law

Credits: 3
Simulate the work of an oil and gas attorney. Explore oil and gas financing arrangements including the farmout, JOA, and productions sharing agreements, drilling and service agreements, downstream marketing and purchase agreements, conveyances of oil and gas real property interests, the purchase and sale of petroleum properties, oil and gas development on federal lands, and title examination.

Prerequisite: C or better in LAW 6790.

Advanced Writing

As a condition of graduation, all students must complete an upper-level writing requirement.

Elective Courses:

Second (2L) & Third (3L) Year Students (* subject to availability);

See **Law Courses** section

Juris Doctor/Master of Arts in Environment and Natural Resources

Students working toward the J.D./M.A. in ENR consult a Haub School advisor to design a program of study tailored to meet their educational goals.

Academic Regulations

A joint Juris Doctor/Master of Arts of Environment and Natural Resources degree is available to all admitted law students upon application. Students in this joint degree program must take 18 credits outside the law school in ENR courses, and must take 12 law school credits from a menu of ENR-related law courses to qualify for this joint degree. Students in the joint degree program must also complete a supervised research project. Additionally, nine (9) credits of approved MA coursework (see Academic Regulations) will be applied to the Juris Doctor degree. Current core courses: ENR 5100, ENR 5900, ENR 5890, ENR 5750.

Juris Doctor

The Juris Doctor requirements are found here: [Juris Doctor](#)

Environmental & Natural Resources, J.D./M.A.

Here is where you will find the requirements for the Environment & Natural Resources, J.D./M.A.

Juris Doctor/Master of Business Administration

The Juris Doctor/MBA program offered with the UW Colleges of Law and Business provides students with a high ROI. Optimize time and money spent by pursuing this dual program and tapping into quality education, networking, and career possibilities.

Academic Regulations

A dual Juris Doctor/Master of Business Administration program is available in the College of Law and the College of Business. This program will take approximately four years to complete. Students spend three years on-campus engaged in law studies. In their second year, students will be enrolled full-time in the MBA Program taking required core business courses during the Fall, Spring, and Summer as well as participating in additional required program activities (orientation, Experiential Leadership Program, Jackson Leadership Summit, MBA Executive Speaker Series,

Professional Development activities, etc.). The MBA Capstone course will be the final course completed in the summer term for a total of up to 36 MBA program credits. Nine (9) credit hours of approved coursework will be transferred as elective hours to the Juris Doctor degree and up to six (6) credit hours of approved coursework will be transferred as elective hours to the MBA degree. Students successfully completing this dual program will earn dual Juris Doctor and Masters of Business Administration degrees.

Current Core Courses:

MBAM5101 - MBA Foundations

Credits: 1

The purpose of this course is to prepare students for the academic rigors of the MBA program.

Restricted Enrollment in MBAM or MBAF degree program.

Prerequisite: Admission to full-time MBA program.

MBAM5102 - Operations Management

Credits: 3

Production and operations management. Topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, and scheduling.

Prerequisite: Admission to the MBAM program.

MBAM5104 - Organization Behavior and Human Resource Management

Credits: 3

Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5107 - Decision Making I

Credits: 1

This course develops a systematic process for making decisions in complex business situations, by integrating six dimensions of business risk: competitive, financial, organizational, legal, social, and ethical. The process combines analytical and ethical reasoning methods that compensate for the flawed decision making common in business organizations.

Prerequisite: Admission to the MBAM program.

MBAM5202 - Data and Decision Modeling

Credits: 3

This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Prerequisite: Admission to the MBAM program.

MBAM5204 - Financial Management

Credits: 3

Students taking this course should expect to learn the fundamentals principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

Prerequisite: Admission to the MBAM program.

MBAM5207 - Marketing Management

Credits: 3

Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5208 - Managerial Accounting

Credits: 3

This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions.

Prerequisite: Admission to the MBAM program.

MBAM5209 - Decision Making II

Credits: 1

An experiential learning course that builds on MBAM 5107. Students apply systematic business decision making process to real-world business situations. Student teams work directly with owners and managers of Wyoming companies to address their strategic, competitive, operational, financial, and/or administrative challenges in real time.

Prerequisite: MBAM 5107.

MBAM5305 - Strategic Management

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

Prerequisite: Admission to the MBAM program. #304.

MBAM5330 - Global Business Environment

Credits: 3

Max Credit 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

Restricted Admission to the MBA, MBAE, or MBAF program.

Prerequisite: Admission to the MBA program, or permission from the MBA Program Director.

Juris Doctor

The Juris Doctor requirements are found here: [Juris Doctor](#)

MBA

Here is where you will find informatin on the Business Administration, M.B.A.

Juris Doctor/Master of Public Administration

The Master's in Public Administration degree offered at the University of Wyoming is considered an ethics based program where complicated issues of administrative decision making are the hallmarks of professional life.

Academic Regulations

A student in the joint Juris Doctor/Master of Public Administration program must be admitted to both the College of Law and College of Arts and Sciences. The degrees are awarded concurrently by each college upon successful completion of the combined degree program requirements. In fulfillment of the J.D. degree, the College of Law will accept up to nine hours of MPA credits in courses approved by the law faculty (see Academic Regulations). In

fulfillment of the MPA degree, the College of Arts and Sciences will accept up to 12 hours of credits earned in specified courses in the J.D. program. For additional information regarding these joint degree programs, contact the College of Law or the joint program of interest.

Juris Doctor

The Juris Doctor requirements are found here: [Juris Doctor](#)

MPA/JD

Here you will find information on the Public Administration (MPA/JD)

Geospatial Information Science and Technology

Geospatial Information Science and Technology

Wyoming Geographic Information Science Center
337 Agriculture C Building

Ramesh Sivanpillai, Program Director
(307)766-2532
Web site: www.uwyo.edu/WyGISC

The Wyoming Geographic Information Science Center (WyGISC) offers undergraduate and graduate courses, degrees, and certificates in Geospatial Information Science and Technology under the GIST prefix. These provide fundamental geospatial science education to undergraduate and graduate students from across disciplines at UW and are appropriate for science and non-science majors. They cover core and advanced geospatial concepts and subdisciplines including Geographic Information Systems (GIS), remote sensing, spatial data analysis, spatial visualization, spatial databases, cartography, programming, and other topics.

Faculty:

SHANNON E. ALBEKE, B.A. University of Colorado, Boulder 1997; Ph.D. University of Georgia 2010. Associate Research Scientist 2019, 2010.

KENNETH L. DRIESE, B.S. University of Virginia 1981; M.S. University of Wyoming 1992; Ph.D. 2004; Senior Lecturer in Geospatial Information Science and Technology 2019, 2002.

JEFFREY D. HAMERLINCK, B.S. University of North Dakota 1988; M.P. University of Wyoming 1992; Ph.D. University of Colorado - Boulder 2011; Senior Research Scientist 2004.

PADDINGTON HODZA, BSC, University of Zimbabwe, 1994; MSC, University of Zimbabwe, 1998; Ph.D. West Virginia University, 2007; Associate Research Scientist 2016, 2013.

AUSTIN MADSON, B.A. University of California, Los Angeles 2012; M.A. 2015; Ph.D. 2020; Assistant Professor of Geospatial Information Science and Technology 2021.

RAMESH SIVANPILLAI, B.Sc. Bharathiar University 1987; M.Sc. Cochin University of Science and Technology 1990; M.Phil. Bharathiar University 1992; M.S. University of Wisconsin, Green Bay 1995; Ph.D. Texas A&M University 2002; Senior Research Scientist 2012.

CHEN XU, B.S. Sichuan University, China 1999; M.S. Sam Houston State University 2005; Ph.D. Texas A&M University 2010; Associate Professor of Geospatial Information Science and Technology 2019.

DI YANG, B.S. Liaoning University of Petroleum and Chemical Technology 2011; M.S. Texas A&M 2013; Ph.D. University of Florida 2019; Assistant Professor of Geospatial Information Science and Technology 2020.

Geographic Information Science and Technology Degrees and Certificates

GIST degrees and certificates include a Bachelor of Science Degree in GIST (to launch Fall 2022 contingent on demonstration of student demand), undergraduate certificates in GIST and Remote Sensing, each of which can contribute to the B.S. degree; a Research Master's Degree (with thesis), an online Professional Master's Degree (no thesis), and three online graduate certificates, in GIST, Remote Sensing, and Unmanned Aerial Systems (UAS, a.k.a. drones).

Drawing on expertise from geography, computer science, mathematics, statistics, psychology, design, and others, geospatial information science refers to the multi-disciplinary research enterprise that addresses the nature of geospatial information and the application of geospatial technologies to scientific questions. Geospatial information technology is a specialized set of information and communication technologies that support the acquisition, management, analysis, and visualization of geo-referenced data. Examples include: geographic information systems; global navigation satellite systems; and satellite, airborne, drone-based, shipboard and ground-based remote sensing and image processing systems.

Successful students in Geospatial Information Science and Technology (GIST) combine proficiency in spatial thinking and geospatial data science analysis with fluency in geographic information systems, remote sensing, data analytics, and visualization. As professionals, graduates apply their knowledge and skills in a wide range of fields, from environmental management and public health, to civil engineering and urban planning, to economic analysis and marketing.

Any courses listed in degree plans that are not described in the GIST course list are under development and will be added in future catalogs as they are approved.

Undergraduate Certificates

Undergraduate certificates in GIS and Remote Sensing provide a means of adding credentials to your degree that reflect expertise in geospatial science.

Graduate Certificates

Graduate certificates provide a means for students and professionals to earn marketable credentials over the course of 1-2 semesters. These certificates require a combination of core and elective courses as outlined below and will be delivered primarily online.

Graduate

Geospatial Information Science with Thesis, Research M.S.

The Research Master of Science degree (with thesis) is delivered mainly on the UW campus but with many online courses. Students work with a graduate advisor who will guide their thesis research and chair their graduate committee. This degree requires a combination of core and elective courses that can be completed in 2 years.

Program Specific Admission Requirements

In addition to University of Wyoming graduate admission requirements, prospective students for the Research Master of Science Degree are required to submit a statement of purpose describing their background and interest in the degree, a CV or resume, and two letters of recommendation addressing their potential for success in this master's program. Students are encouraged to initiate correspondence with a faculty member who shares their research interests before applying.

Semester 1

GIST5150 - Advanced Programming in Spatial Sciences

Credits: 3

Introduces GIS programming to motivated students with little or no prior experience in programming; students develop programming skills used to understand geospatial data and to model geographical changes. Programming skills for handling emerging data types are emphasized.

GIST5200 - Geographic Visualization

Credits: 3

This online lecture and lab course emphasizes advanced theory and hands-on practice for creating applying interactive, dynamic, and multidimensional graphical representations of geographic data. Students will be introduced to web programming to allow them to develop mobile and online visualization tools.

GIST5050 - Basics of Spatial Data Science

Credits: 3

Centers on the role of information technology in support of scientific research. Through integration of multiple software packages (e.g. Relational databases, ProgramR and ArcGIS), proven database designs, and SQL scripting, increased efficiency and utility will occur during data analyses. These information science principles are demonstrated using project-based examples.

Former Course Number GEOG 5050] **Restricted** Grad students only

Semester 2

- GIST Elective Credits 6

GIST5220 - Spatial Modeling & Data Analysis

Credits: 3

Using raster modeling, hybrid vector/raster approaches, and geo-computational techniques, this course will explore a variety of modeling concepts and related issues. This course will examine a variety of both practical and theoretical issues, with special emphasis on understanding spatial questions that are not readily addressed by basic GIS. We will also consider issues related to error, resolution, scale, and a variety of other factors.

Former Course Number GEOG 5220

Semester 3

- GIST Electives Credits: 9

Semester 4

GIST5002 - Geospatial Forum

Credits: 1

Students attend a geospatial sciences speaker series and contribute by presenting their proposed or completed research to faculty and other students in a professional manner analogous to presenting scientific research at professional meetings.

- GIST 5960 - Thesis Research Credits: 4-12

Geospatial Information Science without Thesis, Professional M.S.

The Professional Master of Science Degree (no thesis) is delivered online. It provides a pathway for traditional students and professionals to earn a graduate credential in 2 years, but students may choose to take longer depending on their professional or personal time constraints.

Program Specific Admission Requirements

In addition to University of Wyoming graduate admission requirements, prospective students for the Professional Master of Science Degree are required to submit a statement of purpose describing their background and interest in the degree and a CV or resume.

Course Sequence

Semester 1

GIST5050 - Basics of Spatial Data Science

Credits: 3

Centers on the role of information technology in support of scientific research. Through integration of multiple software packages (e.g. Relational databases, ProgramR and ArcGIS), proven database designs, and SQL scripting, increased efficiency and utility will occur during data analyses. These information science principles are

demonstrated using project-based examples.

Former Course Number GEOG 5050] **Restricted** Grad students only

GIST5150 - Advanced Programming in Spatial Sciences

Credits: 3

Introduces GIS programming to motivated students with little or no prior experience in programming; students develop programming skills used to understand geospatial data and to model geographical changes. Programming skills for handling emerging data types are emphasized.

GIST5200 - Geographic Visualization

Credits: 3

This online lecture and lab course emphasizes advanced theory and hands-on practice for creating applying interactive, dynamic, and multidimensional graphical representations of geographic data. Students will be introduced to web programming to allow them to develop mobile and online visualization tools.

GIST5280 - Navigating GIST Professions

Credits: 1

An introduction to work in the geospatial profession for online GIST master's program students. Focus is on workplace, management and occupation-specific competencies across and within specific domain application areas. Topics include evaluation and appropriate use of technology and data, developing career pathway options, the role of professional certification, and the value of continuing education and professional network connections.

Semester 2

- GIST Electives Credits: 6

GIST5220 - Spatial Modeling & Data Analysis

Credits: 3

Using raster modeling, hybrid vector/raster approaches, and geo-computational techniques, this course will explore a variety of modeling concepts and related issues. This course will examine a variety of both practical and theoretical issues, with special emphasis on understanding spatial questions that are not readily addressed by basic GIS. We will also consider issues related to error, resolution, scale, and a variety of other factors.

Former Course Number GEOG 5220

Semester 3

- GIST Electives Credits: 3

GIST5300 - Web Mapping and Internet GIS

Credits: 3

With a combination of lecture-based information and hands-on lab exercises, students learn to design, develop, and implement web- and internet-based GIS and mapping applications. Commonly used web and internet GIS tools are used, and students learn to assess the quality, utility, and legal aspects of web GIS products.

GIST5350 - Enterprise GIS

Credits: 3

This course provides a comprehensive overview of the design, development, and management of enterprise GIS platforms. In addition to learning about enterprise architecture, students set up cloud services for managing, sharing, and processing spatial data using proprietary and open source tools.

GIST5002 - Geospatial Forum

Credits: 1

Students attend a geospatial sciences speaker series and contribute by presenting their proposed or completed research to faculty and other students in a professional manner analogous to presenting scientific research at professional meetings.

Semester 4

- GIST 5780 Credits: 3

GIST5002 - Geospatial Forum

Credits: 1

Students attend a geospatial sciences speaker series and contribute by presenting their proposed or completed research to faculty and other students in a professional manner analogous to presenting scientific research at professional meetings.

Certificate

Geospatial Information Science and Technology Graduate Certificate

This 15-credit graduate certificate gives you a rigorous academic credential in GIS that includes exposure to fundamental and advanced concepts and the chance to pursue your own interests with generous elective opportunities.

Core (9 Credits)

GIST5050 - Basics of Spatial Data Science

Credits: 3

Centers on the role of information technology in support of scientific research. Through integration of multiple software packages (e.g. Relational databases, ProgramR and ArcGIS), proven database designs, and SQL scripting, increased efficiency and utility will occur during data analyses. These information science principles are demonstrated using project-based examples.

Former Course Number GEOG 5050]Restricted Grad students only

GIST5150 - Advanced Programming in Spatial Sciences

Credits: 3

Introduces GIS programming to motivated students with little or no prior experience in programming; students develop programming skills used to understand geospatial data and to model geographical changes. Programming skills for handling emerging data types are emphasized.

GIST5220 - Spatial Modeling & Data Analysis

Credits: 3

Using raster modeling, hybrid vector/raster approaches, and geo-computational techniques, this course will explore a variety of modeling concepts and related issues. This course will examine a variety of both practical and theoretical issues, with special emphasis on understanding spatial questions that are not readily addressed by basic GIS. We will also consider issues related to error, resolution, scale, and a variety of other factors.

Former Course Number GEOG 5220

Electives (6 Credits)

- Choose from other GIST courses (see M.S. courses) or interdisciplinary courses

Total: 15 Credits

Remote Sensing Graduate Certificate

Remote sensing scientists use data collected by satellites, aircraft, and Unmanned Aerial Systems (drones) to address questions important for agriculture, natural resource and wildlife management, global change science, energy development and other applications. From Google Earth to complex spectral analysis, remote sensing is playing an increasingly important role in many fields. This 15-credit online graduate certificate teaches you the fundamentals of remote sensing and digital image processing, and the freedom to use elective courses to pursue your own interests in related topics.

Core (6 Credits)

- BOT 5111 - Introduction to Remote Sensing of the Environment Credits: 3
OR

GIST5111 - Introduction to Remote Sensing

Credits: 3

Combined online lecture and laboratory course introduces students to fundamental principles and techniques of remote sensing and the application of digital satellite and aerial imagery to the study of the earth's surface. Includes hands-on application of digital imaging processing techniques discussed in lecture.

Former Course Number [BOT 5111; GEOG 5111]

GIST5120 - Integration of RS and GIS Data

Credits: 3

Many geospatial analyses involve combining remotely sensed (RS) data and products with other geospatial data stored in GIS. This 3-credit online course will overview the topics pertaining to the integration of RS data in raster format with GIS data stored in vector format.

Prerequisite: graduate standing.

Electives (9 Credits)

- Choose from other remote sensing and UAS courses or interdisciplinary RS courses

Total: 15 Credits

Undergraduate Certificate in GIS

Undergraduate certificate in GIS provides a means of adding credentials to your degree that reflect expertise in geospatial science.

Core (10 credits)

GIST2310 - Intro to Geographic Information Systems

Credits: 4

Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number GIST 2100

GIST2200 - Spatial Data Visualization

Credits: 3

Covers fundamental principles, concepts, and applications of spatial data visualization. Students will learn to find, understand, and act on spatial patterns, associations and trends, and to use and critique powerful graphical representations of spatial data including 3D maps, web maps, interactive graphics, and animations.

GIST2190 - Intro to Programming

Credits: 3

Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

Former Course Number GIST 2150

Undergraduate Certificate in Remote Sensing

Undergraduate certificate in Remote Sensing provides a means of adding credentials to your degree that reflect expertise in geospatial science.

Undergraduate Certificate in Remote Sensing Core (3 credits)

GIST3140 - Introduction to Remote Sensing

Credits: 3

This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth's surface with an emphasis on vegetation, and the hands-on application of remote sensing principles using digital image processing.

USP 2003-2014 Code Q

Former Course Number GIST 3111

Electives (6 credits)

Select any remote sensing or UAS courses (6 credits)

Total: (9 credits)

Unmanned Aerial Systems Graduate Certificate

In this certificate program, you will learn to safely use Unmanned Aerial Systems (drones) and to collect and process geospatial data acquired by them. Demand for professionals trained to operate drones and process drone imagery is growing rapidly in agriculture, natural resource management, construction, energy, transportation, business, and many other fields. A significant aspect of this 11-credit online graduate certificate (with a 2-credit, field-based flight school) is to prepare you to become an FAA certified pilot and to use industry-standard image processing techniques.

Core (8 Credits)

GIST5410 - UAS Sensors and Platforms

Credits: 1

This 1-credit online course taught over 8 weeks provides a detailed overview of the types of drones used for modern remote sensing and of the sensors that can be used with these different drone platforms to collect data, including RGB and multi-spectral cameras, thermal sensors, and lidar.

Dual Listed GIST 4410.

GIST5420 - UAS Mission Planning

Credits: 1

This 1-credit online course provides a detailed overview of mission planning for UAS (drone) data collection. Students learn to evaluate mission requirements for a variety of UAS applications, to choose appropriate hardware to accomplish these requirements, and to use mission planning software to translate requirements into flight plans and data collection strategies.

Dual Listed GIST 4420.

GIST5430 - UAS Regulations and Safety

Credits: 1

This 1-credit online course taught over 8 weeks provides students with a detailed overview of federal, state, and local regulations pertaining to UAS flights and data collection. Students also learn about how to operate drones safely in both personal and professional applications. Course content helps prepare students for FAA remote pilot certification.

Dual Listed GIST 4430.

GIST5440 - UAS Ground School and Operations

Credits: 2

This field course provides students with the practical experience to operate UAS (drones) safely, legally, and effectively for collecting data to be used in a variety of applications. Students learn about pertinent safety and regulations, and then spend much of the course time flying drones in the field and collecting data.

Dual Listed GIST 4440.

GIST5450 - UAS Photogrammetry and Imagery Process

Credits: 3

This 3-credit online course provides overviews of the photogrammetric principles related to imagery data acquired by unmanned aerial vehicles or drones, and the image processing techniques used for extracting information from the drone images. Students will gain experience in processing drone imagery collected with RGB cameras and multi-spectral sensors.

Dual Listed GIST 4450.

Prerequisite: graduate standing or approval from the instructor.

Electives (3 Credits)

(may be optional for some graduate students, depending on their program of study)

- Choose from remote sensing courses or interdisciplinary UAS applications courses

Total: 8-11 Credits

Information Literacy

Information Literacy

Coe Library 304

Phone: (307) 766-5313

The University Libraries offer research assistance and information literacy instruction to students and faculty. Librarians provide customized class orientations to information sources in every discipline, as well as individual research consultations. Students needing research help may call, text, email, instant message, or visit any library branch.

The University of Wyoming addresses information competencies utilizing the [Framework for Information Literacy for Higher Education](#) as approved by the Association of College & Research Libraries (ACRL) and endorsed by the American Association for Higher Education. Librarians collaborate with teaching faculty in addressing these information competencies in course assignments or lectures. Information literacy is the ability to recognize and define the need for information, then locate, evaluate, and use that information effectively and ethically.

Information literacy learning outcomes are included in University Studies First Year Seminar (FYS) and Communication (COM) courses and are similar to the critical thinking learning outcomes in the H, PN, and V courses.

The Libraries also offer credit courses to help students improve research skills and to meet the Communications 2 requirement of the University Studies Program.

Learning Outcomes

We expect that students completing LBRY courses will become knowledgeable consumers of information through learning how to:

1. Recognize and define the need for information;
2. Efficiently locate information in the library or on the Internet;
3. Evaluate the quality of information;
4. Utilize information effectively, ethically, and legally.

Interdisciplinary Programs

Interdisciplinary Programs

Biomedical Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website <http://www.uwyo.edu/biomedphd/>
Email: bms@uwyo.edu

Program Director: Sreejayan Nair, Ph.D.

Degree Offered

Ph.D. in Biomedical Sciences

Biomedical sciences is the study of human biological processes; the complex interactions between physiological, genetic and environmental factors that influence disease and health. It spans the spectrum from fundamental discovery to innovation and application.

Areas of focus may include but not limited to cardiac health, nutrition, reproductive biology, toxicology, diagnostic & imaging and medical engineering.

The PhD program in biomedical sciences is designed to position graduates for long-term competitive success in the rapidly changing and multifaceted health-related arena in the 21st century. It is a comprehensive, interdisciplinary

program, making connections between various disciplines to gain new insights, discover and apply new knowledge, and promote self-directed, life-long learning.

Biomedical Sciences is a research & discovery focused program balancing depth and breadth of content knowledge with "enabling" skills including problem solving, innovation, entrepreneurship, communication and leadership.

Program Specific Admission Requirements

1. Minimum requirements. Applicants who do not meet the minimum requirements may be conditionally accepted at the discretion of the BMS Admission Committee. Please submit the application packet comprising the following documents for pre-admission screening:

a. Faculty sponsor. Contact potential biomedical sciences graduate program faculty sponsor in your area of interest prior to submitting an application. NOTE: a letter indicating the sponsorship by a faculty is strongly recommended as the program does not have sufficient number of graduate assistantships to support all students.

b. Official academic transcripts. Successful completion of a bachelor's degree from an accredited institution with one or more semesters of biology, physics, anatomy, physiology, chemistry, biochemistry/molecular biology, math are recommended. All applicants should have at least a 3.0 cumulative GPA (scale of 4.0). While a master's degree is not required for admissions into the biomedical sciences Ph.D. program, a master's degree with a strong background in the research area of focus is a plus.

c. TOEFL/IELTS/Duolingo: The minimum acceptable scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/ cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency, until further notice.

d. GRE: A composite minimum score of 291 on the verbal and quantitative sections of the GRE is recommended. The GRE may be waived at the discretion of the admission committee if the applicant already possesses a master's degree, and/or documented research accomplishment in the chosen discipline.

e. Three letters of recommendation.

f. Statement of research interests and career objectives. A letter stating research & career interests and goals, prior research experience and outcomes, reasons for interest in BMS program. Include your contact information in the letter.

g. Current professional resume

2. Application Process. The BMS admissions committee reviews the completed application.

a. Contact faculty in your area of interest and obtain their endorsement. Faculty may choose to interview the candidate on-campus or via zoom.

b. Submit your application materials (pdf files of cover letter/statement of purpose, letter of sponsorship from the faculty, three letters of reference, transcripts, TOEFL/GRE scores to the admissions office via the University's admission portal.

c. To ensure full application review for fall semester admission, applications should be received by **February 15**.

- d. Review by BMS Admissions Committee.
- e. Forward application packet with BMS recommendation to the faculty and host department.
- f. Notification of decision to applicant by **May 1**.

Program of Study

Rationale: The program of study is designed according to student learning goals and research opportunities. It blends depth and breadth of preparation by providing broad core requirements with electives promoting specialization in a "parent" discipline. This is recognized on program documentation by a Doctorate in Biomedical Sciences/"specialization" area. For example, Doctorate in Biomedical Sciences/Reproductive Biology.

Student Learning Outcomes: The BMS program provides unique array of formal courses and informal discovery experiences focused on ensuring aptitudes, behaviors, and skills necessary for leadership and competitive success in the biomedical science arena.

Although the foundation enabling innovative, independent thinking and knowledge discovery is deep discipline knowledge, the BMS program is also designed to promote student competency in information assessment, synthesis and integration, communication and translation to the broader community, teamwork, leadership, and project management.

The BMS program trains graduates to be competent, skilled experimentalists, problem solvers, critical and independent thinkers, expert in their field, with both depth and breadth of knowledge.

In addition, the program aims to instill characteristics that are essential to long-term professional success, preparing scientists who are effective and dedicated mentors and teachers, organized administrators, exemplars of high ethical standards, and effective collaborators.

Upon completion of the program, graduates will demonstrate:

- Independent, critical thinking skills
- Ability to identify appropriate biographical resources
- Knowledge of recent advances in discipline and related areas
- Understanding of a broad spectrum of research methodologies and their applications
- Ability to critically analyze research findings
- Ability to design and independently execute research
- Ability to use appropriate information technology to record, manage, and disseminate information
- Understanding of issues related to researcher and subject rights
- Motivation and aptitude needed to acquire knowledge
- Communication skills that are appropriate for a range of audiences and purposes
- Ability to construct and articulate arguments to a wide range of audiences
- Ability to effectively support the acquisition of knowledge by others when teaching or mentoring students
- Willingness to assume responsibility for their work
- Ability to design and teach undergraduate or graduate courses
- Ability to publish single/first authored papers in peer-reviewed journals.

Program in Ecology, Ph.D. Program

Office of Graduate Education
Old Main 310

Phone: (307) 766-4128
Website: <http://www.uwyo.edu/pie/>
Email: ecology@uwyo.edu

Program Director: Melanie Murphy, Ph.D.

Degree Offered

Ph.D. in Ecology

The Program in Ecology prepares doctoral students to lead the discipline of ecology during the coming decades. The program is grounded in the natural history of organisms in their environment, but incorporates tools and perspectives from across the biological, physical, mathematical, computational, and earth sciences. Students develop conceptual, historical, and philosophical perspectives spanning the entire range of subdisciplines in ecology, while receiving advanced training in the subdiscipline of their individual interest.

The program fosters long-term career development by exploring the linkages of ecology with other disciplines, and by scanning the ecological horizon for emerging questions, concepts, and approaches that will shape the field in years to come.

Faculty members from 11 departments and 3 colleges participate in the Program in Ecology. Their interests span the full range of topics covered in the field of ecology, and students in the program reflect this diversity.

Program Specific Admission Requirements

The Program in Ecology (PiE) is an interdisciplinary graduate program leading to the Doctor of Philosophy degree in Ecology. Students and faculty from multiple departments and colleges at the University of Wyoming participate in the Program. Graduate students admitted to the Program will have a home department, which will typically be the home department of the respective committee chair or co-chair. Those interested in graduate study in this program, are encouraged to contact individual faculty members in the potential student's area of interest (http://www.uwyo.edu/pie/who_we_are/faculty.html) and the Program in Ecology (307-766-4128; ecology@uwyo.edu) for more information and guidance regarding applying.

In order to apply: 1) **Contact:** Identify a faculty advisor (all PiE students **must** be sponsored by a faculty advisor (http://www.uwyo.edu/pie/who_we_are/faculty.html)). These contacts are generally made in the fall the year before submission, but successful contacts may be made later. 2) **Admission to home department:** Apply to the University of Wyoming via the online application system (<http://www.uwyo.edu/admissions/apply.html>): letter of intent, CV, transcripts, and three letters of recommendation. For department, please select the department of the potential advisor. A minimum of three letters of recommendation are required and up to two additional letters may be submitted. A suggested deadline for application is January 31 to be considered for fall admission, but applications will be continued to be considered. A minimum of a 3.0 undergraduate cumulative GPA is required for admission or MS degree. International applicants, who are not native English-speakers, must submit TOEFL (recommended minimum 525) or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements. 3) **Admission to PiE:** Submit a letter of interest to the Program in Ecology (ecology@uwyo.edu), stating explicitly why you would wish to be considered for PiE and identifying the faculty advisor immediately after completing your online application. Admission to PiE requires admission is predicated on admission to home department. All applications to the Program will be reviewed by the Graduate Affairs Committee, which has authority on admissions. Students applying to the Program who lack a Master's degree must show exceptional promise and commitment (e.g., through undergraduate or post-graduate research experiences, peer-reviewed publications, and/or success in competing for

research fellowships). Such students are encouraged to consult with their prospective advisor on whether to apply directly to PiE or to Master's programs in individual home departments of PiE faculty.

Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the Program. Students who wish to transfer into the Program from department-based doctoral programs must submit a formal application and must satisfy all the admission requirements specified above. Such application will consist of copies of all the application materials originally submitted to the program in which the student is currently enrolled, as well as a letter of recommendation from their prospective PiE advisor. In addition, they must submit a letter stating their reasons for seeking this transfer. All applications will be reviewed by the Graduate Affairs Committee. In addition, the following apply to transfer students:

- Students enrolled in departmental programs who have not yet taken their preliminary examinations may pursue the PhD in Ecology provided they (a) appoint an Advisory Committee under Program rules before they take their preliminary examinations, and (b) fulfill the curricular requirements.
- Students who have been admitted to departmental programs, and who have already taken their preliminary examinations, may pursue the PhD in Ecology provided they (a) appoint an Advisory Committee under Program rules within one month of admission to the Program, and (b) fulfill the curricular requirements. The student's Advisory Committee has the option of requiring a new preliminary examination.

Program Specific Degree Requirements

Advisory Committee

Before the end of the second semester of study, the student should nominate a (minimum) five-member advisory committee to the Office of the Registrar. At least three members of the committee, including the committee chair (usually the student's adviser), will be members of the PiE faculty. One other member, who will serve as Graduate Faculty representative, must be from outside the home department of the major adviser, although (s)he can be a faculty member in a department that participates in the program and/or a faculty member of PiE. The committee will advise the student on his/her program of graduate study, execute and evaluate the student's preliminary examination, evaluate the student's dissertation proposal and dissertation, and conduct the student's dissertation defense.

Program of Study

All students are required to take ECOL 5100 or equivalent. This course should be taken during the first year of residency. Exceptions or substitutions of these requirements are subject to approval by the graduate affairs committee.

The program of study must include at least 6 credit hours aimed at developing a tool skill, which except for rare cases shall be in the quantitative/analytical domain (e.g., statistics, modeling, GIS, remote sensing, bioinformatics). Courses relating to research tools should be taken early in the student's residency to ensure that they can be used in thesis research and advanced studies. Specific coursework and tool-skill development for the student's program of study will be developed in consultation with and subject to approval by the student's advisory committee.

Admission to Candidacy

Admission to candidacy for the Ph.D. requires two steps: 1) providing evidence that the student is prepared to identify a research question, design an approach for investigating that question, and a plan for executing the approach, all in the format of an NSF-style research proposal, and 2) illustrating adequate proficiency in the subject matter of ecology through a process involving both written and oral exams.

Proposal

Students must submit a NSF-style proposal to their committee outlining their project, typically by the end of the fourth semester. Each committee member will provide feedback to the student on the proposed research and indicate approval of the proposal or request revision. The proposal must be approved by all committee members prior to starting the preliminary exams.

While this proposal should be a plan for actual dissertation research, unforeseen circumstances may require altering the student's dissertation work after the proposal has been approved by the committee. In the case of a major alteration, the student should reformulate a research plan and submit it to the committee in writing for committee approval.

Preliminary Exam

Passing the preliminary exam is the official admission to candidacy.

Written Portion of the Preliminary Exam. The student will take the written exam portion of the preliminary exam no fewer than two weeks following approval of the research proposal. The goal of this exam is to test breadth of knowledge in ecology. The design of this exam will be coordinated by the graduate committee under the leadership of the adviser. Each written exam will cover the following topics:

Ecological topics ranging from organismal/evolutionary to ecosystem-level perspectives, integrating concepts and perspectives from across the discipline, over a wide range of spatial and temporal scales.

The philosophical and historical development of ecology.

The conceptual background of the student's area of specialization.

The exam will consist of four to six questions developed collectively by the committee and organized by the student's major professor. The exam will be open book; however, the answers will be solely the work of the student. Answers should be fully cited and collectively should be no longer than 30 pages double-spaced exclusive of references cited. Students will have one full week (seven days) to complete the exam. Committee members will indicate pass/fail within one week following completion of written exams. Four of five passing votes are required.

Oral Portion of the Preliminary Exam. No sooner than two weeks after successfully passing the written exam, the student may proceed to an oral exam administered by his/her graduate committee. Oral exams center around three goals from which questions will be derived:

To verify that the student is prepared, conceptually and methodologically, to carry out successful dissertation research.

To evaluate the student's ability to conceptualize specific questions in a broad, integrative context.

To evaluate the student's ability to think spontaneously and creatively and to articulate responses about unexpected or novel questions.

The advisory committee will discuss and organize specific questions based on these goals in a short session at the beginning of the exam period before admitting the student to the examination room and starting the exam. Following the exam each committee member will provide non-binding paper votes of pass/ fail for each of the three goals of the oral exam. Following discussion of the student's performance, committee members will each assign a grade of pass/fail for the overall exam. Four of five committee members must vote for passing the overall oral exam.

Students whose performance is unsatisfactory will be given one opportunity for retaking the oral examination. This retake will occur no later than the academic-year semester following the first examination.

Public Seminars

Students are required to give two oral presentations on their research. The purposes of these presentations are to provide the student with practice in oral presentations and to keep the PiE community informed of the student's progress. The first will describe the student's dissertation research proposal. This presentation will be given before the student submits his/her thesis proposal. The second presentation will summarize the student's completed dissertation research, and will normally be given the same semester as the student's dissertation defense. Under extraordinary circumstances (subject to approval by the Graduate Affairs Committee), this presentation may be given at an earlier time. These presentations must be open to the public, and may comprise part of a departmental or Program in Ecology seminar or brown-bag series.

Hydrologic Sciences (WRESE), Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/wrese>
E-mail: wrese@uwyo.edu

Program Director: Andrew D. Parsekian, Ph.D.

Degree Offered

Ph.D. in Hydrologic Sciences

The Water Resources/Environmental Science and Engineering (WRESE) program facilitates Ph.D. level course offerings in water-related disciplines, and coordinates offerings of these courses. Furthermore, the WRESE program serves as a focal-point for water-related graduate research and education at the University of Wyoming.

This interdisciplinary degree program encourages cross-department and inter-college coordination for research and education in hydrology and water resources.

The WRESE Program grants a PhD in Hydrological Sciences.

Program Specific Admission Requirements

Ph.D. in Hydrologic Sciences

The WRESE Program only admits students seeking a doctoral degree.

Those interested in graduate study in this program, are encouraged to contact the WRESE program (wrese@uwyo.edu) for more information and guidance regarding applying. In order to apply, please submit an application to the program via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>). Prospective students applying to the WRESE program must satisfy the minimum criteria for admission of their advisor's home department (i.e., number of reference letters required; minimum GRE scores, if requested; other supporting documents, if requested; etc.). Similarly, applicants should adhere to the submission deadline indicated by their advisor's home department.

Minimum criteria for admission to the WRESE Program are:

- Minimum undergraduate GPA of 3.000
- Agreement by a faculty member affiliated with the WRESE program to sponsor the student

- Admission to a home department at the University of Wyoming

Typically, students admitted into the program will have previously obtained a Masters-level degree. Under certain circumstance, students may be admitted directly after an undergraduate degree if they show exceptional promise and commitment. Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the WRESE program.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Program Specific Degree Requirements

Students in the WRESE Program are expected to create their graduate committee within the first year of study. The committee should be composed of three faculty members within the PhD program in Hydrology and 2 should be from the student's departmental home. A committee shall be composed of no fewer than 5 members, of which only one may be from outside the University. Additional committee members may be added to support the student's learning and objectives on the discretion of the committee and WRESE Program chair.

Program of Study

Students enrolled in the Program should complete their Program of Study within the first 3 semesters. The student shall work with his/her research advisor and committee to determine the appropriate course of study relative to the student's research agenda. Students are expected to complete a rigorous course of study in quantitative hydrological sciences. Minimum requirements for the PhD include:

- Coursework credits: 42 hours (26 can be from an MS)
- Total credits: 72 hours
- Math expectations: students are encouraged to pursue a high level of math proficiency, with typical students progressing through differential equations. Individual math expectations will be determined by the committee and program chair.

A dissertation proposal should be approved by the end of the 4th semester. Students shall submit their proposal to their committee for review two weeks prior to a holding a committee meeting where the student (a) presents their proposal in a public presentation and (b) defends the proposal to the committee in a closed meeting. After the meeting, the student shall amend the proposal as required by the committee within a timely manner.

Admission to Candidacy / Preliminary Examination

Advance to candidacy is attained by passing preliminary exams within 3 years of initiating a degree program. Students should complete their preliminary exams as close to the end of their primary coursework as possible. Preliminary exams consist of two parts. The first part is a written examination wherein committee members shall submit written questions to the student. Once the student has passed their written exams, they will be administered an oral examination.

The written exam shall be administered by the student's research adviser, who will coordinate the questions so as to obtain a comprehensive review of the student's knowledge of the materials the student has learned in the classroom and needs to complete his/her research topic. Written questions should cover both conceptual and theoretical underpinnings in hydrological sciences and technical questions related to the student's research area.

The written exam will consist of a series of questions as decided upon by the committee and should take no more than two weeks to complete.

Each committee member shall grade their portion of the exam as pass/fail. The student shall be viewed as passing the written exam if no more than one person grades their portion of the exam as failing.

The oral examination will be held no sooner than two weeks after the written exams, and only after the student has passed their written examinations. The oral exam should be no less than 90 minutes long and no longer than 3 hours.

Following the exam, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

Dissertation

The student will prepare a dissertation and make the document available to the committee at least two weeks in advance of an oral defense of the document. The oral defense must be at least 15 weeks after the student has been advanced to candidacy. Students shall present a public defense to the university community that is expected to be approximately 45 minutes long, with a public question-and-answer period after the presentation. If the committee determines that the student has presented a suitable oral presentation of his/her research findings, a closed session meeting will be held in which the student defends their research to the committee. At the conclusion of the defense, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

Other information:

Students in the WRESE Program may participate from any college, with the expectation that their program of study and dissertation will focus on quantitative issues of hydrology and water resources. The Program welcomes academic diversity, and students in WRESE have entered into the Program from a wide range of academic backgrounds and have hailed from numerous home departments, including Ecosystem Science and Management, Civil and Architectural Engineering, Botany, Zoology and Physiology, and Geology and Geophysics.

Molecular and Cellular Life Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/mcls/>
Email: mcls@uwyo.edu

Program Director: Daniel Levy, Ph.D.

Degree Offered

Ph.D. in Molecular and Cellular Life Sciences

This interdisciplinary program with more than 30 faculty participants spans a wide range of research topics, such as:

Biotechnology-bioengineering, biomaterials, pharmacology, cell biology and signaling, genetics and development, genomics, proteomics, computational biology, microbiology and infectious disease, structural biology, and biophysics.

Coursework focuses on core courses in biochemistry and molecular biology, with electives that include such diverse courses as:

Topics in Genomics, Biophysics, Microbial Physiology and Metabolism, Cell and Developmental Genetics, Mass Spectrometry and Analytical Chemistry, Biomedical Engineering, Mammalian Endocrinology, Cell Culture and Virology, Introduction to Bioinformatics, Protein Structure and Function, Microbial Genetics, Computational Biology, and Quantitative Microscopy.

Program Specific Admission Requirements

1. Applicants should apply through the online graduate application link. This process requires uploading a statement of purpose, a CV, academic transcripts, and test scores. The statement of purpose should include a brief narrative that describes the applicant's motivation to pursue graduate studies in the life sciences, relevant experiences, and specific reasons for applying to the MCLS program at the University of Wyoming. The program does not adhere to strict test score minimums, however, for international applicants minimum suggested scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS, respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries will be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores of 110 or higher as proof of English proficiency until further notice. More information for international applicants can be found on the University of Wyoming graduate admissions website. The application also requests that three reference letters be submitted in support of the candidate's application. Completed applications are due on January 1.

2. The MCLS admissions committee reviews completed applications starting in early January of each application cycle. Promising applications are selected based on research experience, grades, test scores, and reference letters. The most compelling statements of purpose convincingly describe why the applicant is interested in pursuing graduate studies in the life sciences, detailing relevant past research experience and how it has prepared the student for PhD studies. Reference letters that include specific details and anecdotes about the applicant are most useful. The committee generally looks for grades of B or better in life science and chemistry courses, although lower grades can be balanced by a sufficiently strong research background. Successful applicants will be notified of admission decisions by May 1 at the latest, although the majority of decisions will be made by March 15.

3. Following the initial reviews, selected applicants are invited for a Zoom interview. Applicants will be provided with a primary research paper that they should read in preparation for the interview.

4. Zoom interviews are conducted with at least two members of the admissions committee. Applicants are asked a variety of questions, including why they are interested in the MCLS program, how their previous research experience has prepared them for PhD studies, their perceived strengths and weaknesses as a scientist, and future career goals. The interviewers also ask questions about the research paper and more general molecular biology questions to determine if the applicants have a sufficiently strong background to succeed in the MCLS program.

5. Shortly after the interview sessions, the MCLS admissions committee discusses the results of the Zoom interviews and ranks applicants for offers of admission, conditional upon approval by the Office of Admissions.

Program Specific Degree Requirements

MCLS doctoral students must fulfill the minimum requirements outlined by the university. In addition, students must obtain a high level of proficiency in the core foundations of the molecular and cellular life sciences through required courses in biochemistry/ molecular biology, scientific literature analysis proficiency, and the MCLS cornerstone course. Because of the broad range of research interests pursued by MCLS faculty and students, considerable flexibility will be exercised regarding the specific nature of the graduate level elective courses that students may take. Students must successfully complete four eight-week rotations in MCLS laboratories of their choice during the first year. Additionally, students must pass a comprehensive assessment exam at the end of the first year. Near the end of

their second year in the program, students will undertake a qualifying examination in order to be formally admitted to graduate degree candidacy. This exam will have both written and oral components and will cover areas of science that are relevant to the students' proposed research. Annual meetings with a research-specific dissertation committee will facilitate and evaluate the research progress of MCLS students beginning in the second year. Students must also attend weekly outside seminars on topics in the molecular life sciences for the durations of their studies. For more information, please see the program's Website at: <http://www.uwyo.edu/MCLS/>.

Neuroscience, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/neuroscience/>
Email: neuroscience@uwyo.edu

Program Director: Kara Pratt, Ph.D.

Degree Offered

Ph.D. in Neuroscience

The Graduate Neuroscience Program offers training leading to the Ph.D. degree in Neuroscience. The Neuroscience Program emphasizes systems and integrative approaches, and our goal is to provide the students with the necessary background to be broadly trained research neuroscientists and to carry out independent research in neuroscience. The Neuroscience Program emphasizes continuing interaction with faculty from several departments and we have a low student to faculty ratio. Advisors spend considerable time supervising and training each doctoral student. The educational philosophy of the Neuroscience Program is to encourage a problem-oriented rather than a strict discipline-bound approach to research. You will emerge from this program with the scientific and experimental training needed to comprehensively address a very wide range of research questions using a variety of techniques and analytic tools.

The Graduate Neuroscience Program is designed to enable graduate students to acquire competence in the various disciplines necessary for research and teaching careers in neuroscience. The current interests of the Neuroscience faculty include sensory neurophysiology, behavioral neuropharmacology, neurodevelopment, neurodegeneration, and synaptic plasticity.

Students and faculty have access to outstanding resources established by NIH Neuroscience and Sensory Biology Core grants. The Microscopy Core houses both light (Zeiss laser scanning, fluorescent) and electron (Transmission and Scanning) microscopes. Resources needed to conduct research ranging from molecular, cellular circuit level to behavior are readily available within the Neuroscience Center.

Program Specific Admission Requirements

[Steps for applying to the Program in Neuroscience:](#)

Step 1: Contact faculty whose research is of interest.

Although not mandatory, applicants are encouraged to read through the faculty research summaries to identify faculty that they are interested in training with. It is strongly recommended that prospective students contact individual faculty for more information regarding their research programs and openings in their laboratories before submitting an application. This initial step is recommended because, due to the limited availability of Graduate Assistantships (GA's), graduate students are oftentimes recruited directly into a laboratory and supported straight away by the advisor's NIH or NSF funding.

Step 2: Submit the online application packet via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>).

For full consideration for fall and spring admissions, applications should be submitted by January 1 and June 30, respectively. The application packet is comprised of the following items:

- **Application form**
- **Official academic transcripts:** Applicants should have at least a 3.0 cumulative GPA (scale of 4.0), and a bachelor's degree in a discipline that is related to neuroscience such as biology, psychology, physiology, chemistry, physics, or chemical or bioengineering. We encourage motivated applicants from degrees in diverse areas that are interested in transitioning to neuroscience. Students with an MS degree in neuroscience or related fields are also encouraged to apply.
- **GRE scores:** Accepted but not required
- **Three letters of recommendation**
- **TOEFL/IELTS:** For international students whose native language is not English. The minimum acceptable scores are 550 (79 iBT) and 6.5 for TOEFL and IELTS, respectively. (The University of Wyoming's school code for TOEFL = 4855.)
- **Personal statement:** A 1-3 page personal statement describing the student's motivation for pursuing a PhD in the field of neuroscience. Please describe areas of interest and any specific research topics or techniques with which you have experience. If your interests are still broad, indicate your general interests and graduate training goals.
- We are also interested in learning about your long-term career goals. What do you aspire to do after graduation? What are you specifically interested in the University of Wyoming? Finally, if you have established a potential faculty advisor (step 1), this should be clearly stated here in the personal statement.

Step 3: The interview

The graduate advisory committee reviews submitted application packets. Only complete packets are reviewed. Applicants deemed strong by the committee will be invited to participate in either an in-person or virtual (via zoom or phone) interview. The interview allows for the committee to learn more about the applicant, and, likewise, for the applicant to interview the committee.

Step 4: Verification of admittance by UW Admissions Office. Applicants that are chosen for admission to the Program in Neuroscience will then be requested to complete the application process through the University of Wyoming Admissions Department. Eligibility for enrollment will be verified by the UW Admissions Office, including the receipt of official transcripts and documents.

Program Specific Degree Requirements

Doctoral Program

All doctoral Neuroscience students are required to complete a program of core classwork that includes the following required courses: Introduction to Neuroscience, Structure and Function of the Nervous System and Neurophysiology. Students are required to take one course in Statistics (e.g. STAT 5050, STAT 5210) and the course that meets this requirement will be arranged with the student's committee. The statistics requirement must be met by the end of the second year. The Neuroscience Program is a research-oriented program and students are expected to take a minimum of 2 to 3 credit hours of research per semester. Students are also expected to enroll in an on-going Seminar in

Neuroscience. The Neuroscience Seminar, which meets weekly and is attended by students and faculty members, provides an opportunity for intellectual and social exchange, as well as for the development of professional skills in critical thinking. The topic for seminar and the faculty member directing the seminar changes each semester. The remainder of the coursework for the doctor of philosophy degree is selected from designated courses in Neuroscience, physiology, pharmacology, and molecular biology. A grade of B or better is required for all Neuroscience courses.

A student is expected to have a graduate adviser at all times. The faculty adviser must be a participating member of the Neuroscience faculty. The adviser is responsible for directing the student's research and academic coursework. During the second year, the student will have an advisory committee. The advisory committee will consist of at least three neuroscience faculty members and an outside member. Normally, the student's adviser will chair the committee and help identify members of the committee who best match the student's area of interest. The role of the advisory committee is to oversee all aspects of the student's education after the first year.

In the student's second or third year, the advisory committee will set and evaluate the student's qualifying examination. After successful completion of the preliminary examination the student will profess to Ph.D. candidate status.

The dissertation is the single most important component of the graduate program. It reports the results and significance of the student's research. In addition to the written dissertation, the doctoral candidate will deliver a formal seminar based on their research. The seminar will be followed by an examination by the student's advisory committee.

Science and Mathematics Teaching Center Master's Degrees

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/smtc/>
Email: smtc@uwyo.edu

Program Director: Sylvia Parker

The Science and Mathematics Teaching Center (SMTC) was established in 1970 and is committed to excellence in science, mathematics, technology and STEM education. As part of the Office of Graduate Education in Academic Affairs, the SMTC, in cooperation with the Wyoming Department of Education (WDE) and the Professional Teaching Standards Board (PTSB), serves as a resource and professional development center for the state. The SMTC offers transdisciplinary graduate degree programs with multiple degree concentrations, certification options, and endorsement options. All of the programs emphasize both strong content knowledge and instructional practices. The affiliate faculty for the SMTC includes faculty from the Colleges of Agriculture and Natural Resources, Arts and Science, Education, and Engineering and Applied Science, and the Haub School of Environment and Natural Sciences.

The SMTC provides extensive off-campus professional development that serves teachers, students, administrators, school districts and communities throughout Wyoming and the region. SMTC in-service and extension courses, workshops, institutes, and conferences are designed collaboratively to improve science and mathematics teaching in Wyoming.

The SMTC administers and supports five master's degree programs:

- (1) the Master of Science degrees in Natural Science with concentrations in Middle Level Math (MMA) and

(2) Middle Level Science (MSC); these programs are designed for Wyoming's in-service elementary, middle, and high school teachers. They focus on general science and mathematics content with an emphasis on teaching middle school level learners. The course work leads to middle level endorsement provided by the Wyoming PTSB. Teachers must have two years of teaching experience to participate in these programs.

(3) Master of Science in Teaching - Natural Science (MST - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School as well as other colleges. The program is developed individually with the guidance of a graduate committee based on the interests of the graduate student. This program may be used by teachers to take the 18 graduate-level credits often needed to teach Advanced Placement and community college courses.

(4) Master of Science - Natural Science (MS - Natural Science). This is a self-directed master's degree program working with the SMTC, the College of Arts and Sciences, SER, and the Haub School and other colleges. The program is developed individually based on the interests of the graduate student and may emphasize formal or informal learning settings. Interdisciplinary study is encouraged.

(5) Master of Science in Natural Science with a concentration in Natural Science Education (NED). This Master's degree program is designed for students pursuing careers as environmental and natural science educators in non-public school or non-formal education settings. These students spend one year at the Teton Science Schools (TSS) in Jackson. A long-standing MOU between the SMTC and TSS allows students to use 15 graduate credit hours earned at TSS towards a master's degree if they are accepted into the second year at UW within the SMTC.

SMTC Student Learner Outcomes

Upon successful completion of the MS degree program in Natural Science, a student will be able to:

- Engage in teacher research to transform STEM instruction:
 - Design and implement a research project that asks and answers a question using appropriate materials, concepts and methods, and ethical practices, and
 - Effectively communicate all aspects of the research project in both oral and written forms.
- Use professional and academic standards to ensure high-quality interdisciplinary instruction (i.e., place-based, culturally relevant, and/or social justice pedagogy) to maximize learning for all students.
- Engage in mathematical and/or scientific discourse and scientific thinking as active participants in communities of practice.
- Use emerging technology and science investigations as tools to engage students.

Program Specific Admission Requirements

For the MSC, MMA, MST and MS-Natural Science Master's Degrees:

Two years of teaching experience and a valid teaching license (required for MSC and MMA; may be waived for MST and MS-Natural Science)

Application Fee, unless a UW Graduate

Official Transcripts from all Institutions attended and Bachelor Degree conferring institution

3.0 undergraduate grade point average; provisional admission with a lesser GPA only with consent from Academic Affairs

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence (These items are not required of applicants who hold a prior master's degree)

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from the teacher's principal and two other colleagues.

The NED Degree - First Year Application:

Official Transcripts from all institutions attended and Bachelor Degree conferring institution Application Fee, unless a UW Graduate

Acceptance and admission by the Graduate Program at the Teton Science Schools in Jackson, WY

The NED Degree - Second Year Application:

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from a TSS Graduate Program Faculty Member, one from another TSS employee such as a Classroom Instructor or Field Instructor, and one from the first year application

Applicants complete a UW graduate application and upload all of the information on the Admissions Office website (<http://www.uwyo.edu/admissions/apply.html>). Application packets are reviewed by SMTC Admissions Committees and recommendations for admissions are submitted to the University of Wyoming Admissions Office. Any of the above requirements plus the university's minimum 3.00 grade point average may be waived if proper documentation and reasoning are given by the SMTC and approved by the Associate Vice Provost of Graduate Education.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) for more information.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Application Due Dates for Master of Science - Natural Science with Concentrations in the following areas:

Middle-level Science (MSC): applications are accepted on an ongoing basis; new students may begin only in summer each year; final due date for admission in summer is April 1.

Middle-level Mathematics (MMA): applications are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Natural Science Education (NED): applications deadlines for Year 1 are established by Teton Science Schools (<https://www.tetonscience.org/programs/graduate-program/admissions/>); due date for admission to begin Year 2 in the fall at UW is February 1.

MST and the MS- Natural Science Masters Degree: applications for these self-designed programs are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Graduate Assistantships and Scholarships

The SMTC often has scholarships and graduate assistantships available for graduates accepted for the above Master's degree programs. More information upon admission and acceptance.

Graduate

Biomedical Sciences, Ph.D.

The Biomedical Sciences graduate program seeks to provide the students with a unique research training environment to integrate a variety of scientific approaches to address complex health-related challenges.

Additional Information

Biomedical Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website <http://www.uwyo.edu/biomedphd/>
Email: bms@uwyo.edu

Program Director: Sreejayan Nair, Ph.D.

Degree Offered

Ph.D. in Biomedical Sciences

Biomedical sciences is the study of human biological processes; the complex interactions between physiological, genetic and environmental factors that influence disease and health. It spans the spectrum from fundamental discovery to innovation and application.

Areas of focus may include but not limited to cardiac health, nutrition, reproductive biology, toxicology, diagnostic & imaging and medical engineering.

The PhD program in biomedical sciences is designed to position graduates for long-term competitive success in the rapidly changing and multifaceted health-related arena in the 21st century. It is a comprehensive, interdisciplinary program, making connections between various disciplines to gain new insights, discover and apply new knowledge, and promote self-directed, life-long learning.

Biomedical Sciences is a research & discovery focused program balancing depth and breadth of content knowledge with "enabling" skills including problem solving, innovation, entrepreneurship, communication and leadership.

Admission to the Biomedical Sciences PhD Program

1. Minimum requirements. Applicants who do not meet the minimum requirements may be conditionally accepted at the discretion of the BMS Admission Committee. Please submit the application packet comprising the following documents for pre-admission screening:

a. Faculty sponsor. Contact potential biomedical sciences graduate program faculty sponsor in your area of interest prior to submitting an application. NOTE: a letter indicating the sponsorship by a faculty is strongly recommended as the program does not have sufficient number of graduate assistantships to support all students.

b. Official academic transcripts. Successful completion of a bachelor's degree from an accredited institution with one or more semesters of biology, physics, anatomy, physiology, chemistry, biochemistry/molecular biology, math are recommended. All applicants should have at least a 3.0 cumulative GPA (scale of 4.0). While a master's degree is not required for admissions into the biomedical sciences Ph.D. program, a master's degree with a strong background in the research area of focus is a plus.

c. TOEFL/IELTS/Duoling: The minimum acceptable scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia, Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores of 110 or higher as proof of English proficiency, until further notice.

d. GRE: A composite minimum score of 291 on the verbal and quantitative sections of the GRE is recommended. The GRE may be waived at the discretion of the admission committee if the applicant already possesses a master's degree, and/or documented research accomplishment in the chosen discipline.

e. Three letters of recommendation.

f. Statement of research interests and career objectives. A letter stating research & career interests and goals, prior research experience and outcomes, reasons for interest in BMS program. Include your contact information in the letter.

g. Current professional resume

2. Application Process. The BMS admissions committee reviews the completed application.

a. Contact faculty in your area of interest and obtain their endorsement. Faculty may choose to interview the candidate on-campus or via zoom.

b. Submit your application materials (pdf files of cover letter/statement of purpose, letter of sponsorship from the faculty, three letters of reference, transcripts, TOEFL/GRE scores to the admissions office via the University's admission portal.

c. To ensure full application review for fall semester admission, applications should be received by **February 15**.

d. Review by BMS Admissions Committee.

- e. Forward application packet with BMS recommendation to the faculty and host department.
- f. Notification of decision to applicant by **May 1**.

Program of Study

Rationale: The program of study is designed according to student learning goals and research opportunities. It blends depth and breadth of preparation by providing broad core requirements with electives promoting specialization in a "parent" discipline. This is recognized on program documentation by a Doctorate in Biomedical Sciences/"specialization" area. For example, Doctorate in Biomedical Sciences/Reproductive Biology.

Student Learning Outcomes: The BMS program provides unique array of formal courses and informal discovery experiences focused on ensuring aptitudes, behaviors and skills necessary for leadership and competitive success in the biomedical science arena.

Although the foundation enabling innovative, independent thinking and knowledge discovery is deep discipline knowledge, the BMS program is also designed to promote student competency in information assessment, synthesis and integration, communication and translation to the broader community, teamwork, leadership and project management.

The BMS program trains graduates to be competent, skilled experimentalists, problem solvers, critical and independent thinkers, expert in their field, with both depth and breadth of knowledge.

In addition, the program aims to instill characteristics that are essential to long-term professional success, preparing scientists who are effective and dedicated mentors and teachers, organized administrators, exemplars of high ethical standards, and effective collaborators. Upon completion of the program, graduates will demonstrate:

- Independent, critical thinking skills
- Ability to identify appropriate biographical resources
- Knowledge of recent advances in discipline and related areas
- Understanding of a broad spectrum of research methodologies and their applications
- Ability to critically analyze research findings
- Ability to design and independently execute research
- Ability to use appropriate information technology to record, manage, and disseminate information
- Understanding of issues related to researcher and subject rights
- Motivation and aptitude needed to acquire knowledge
- Communication skills that are appropriate for a range of audiences and purposes
- Ability to construct and articulate arguments to a wide range of audiences
- Ability to effectively support the acquisition of knowledge by others when teaching or mentoring students
- Willingness to assume responsibility for their work
- Ability to design and teach undergraduate or graduate courses
- Ability to publish single/first authored papers in peer-reviewed journals

Additional Course Information:

The BMS Ph.D. program requires a minimum of 72 hours of credit from UW or another approved university. At least 42 hours of the 72 hours minimum must be earned in formal classroom courses. Twelve hours of credit at 4000-level coursework are permitted towards this. This 72-hour requirement may include graduate credits earned while working toward the M.S. degree in the same area but in that case, at least 42 hours of the 72 must be earned through formal course work. Additional credits toward the 72-hour requirement will comprise mainly or entirely of Dissertation

Research (BMS 5980) credits. As indicated above, to be considered a full-time graduate student at the University of Wyoming students must be signed up for 9 credit hours each semester.

Required course work (12 credits):

Biomedical Sciences Research ethics (2 credits)

Graduate-level Physiology course (3 credits)

Epidemiology (3 credits)

Interdisciplinary Seminar in Biomedical Science (1 credit)

Beyond the Bench: Fundamental Skill Sets for Biomed. Researchers (3 Credits)

Three courses from the following list (9 credits):

STAT 5050 (or other statistics course; 3 credits)

MOLB 5600, General Biochemistry (3 credits)

BIOL 4600, Cell Biology (4 credits)

MOLB 5670, Develop. & Molecular Cell Biology (3 credits)

PHCY 6230, Pharmacology I (4 credits)

Recommended Program Electives (9 Credits)

KIN 5025, Exercise Physiology (3 credits)

KIN 5047, Research Biomechanics (3 credits)

FCSC 5145 Advanced Nutrition (4 credits)

FCSC 5147 Nutrition and Weight Control (3 credits)

KIN 5062, Applied Concepts in Human Aging (3 credits)

CHE 5100, Biomedical Engineering (3 credits)

PATB 5510, Introduction to Virology (3 credits)

HLSC 4700, Health Informatics (3 credits)

HLSC/MOLB 4520, Public Health Issues in Developing Countries (3 credits)

HLSC/MOLB 4530 Global Experience in Public Health (2 credits)

HLSC/MOLB 4310 Foundations of Scholarship and Discovery (1 credit)

Concentration Area (12 credits)

Research/Dissertation (remaining): Students are expected to conduct research leading to a publishable dissertation. While publication expectations are determined largely by the major advisor, it is required that one manuscript be submitted to a peer-reviewed journal prior to the defense. Students will need to demonstrate lead authorship on articles published in their dissertation.

Courses

BMS5880 - Biomedical Sciences Research Ethics

Credits: 2

Introduction to the field of bioethics, including major ethical theories and principles, with an emphasis on understanding the ethical issues that may arise while conducting biomedical research and potential strategies for properly addressing these ethical issues.

BMS5920 - Continuing Registration: On Campus,

Credits: 1-12

Max Credit (Max. 24)

Prerequisite: graduate standing.

BMS5940 - Continuing Registration: Off Campus,

Credits: 1-24

Max Credit (Max. 24)

Prerequisite: graduate standing.

BMS5980 - Dissertation Research,

Credits: 1-24

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

BMS5985 - Seminar

Credits: 1

Max Credit (Max. 3)

A series of weekly seminars presented by faculty from other universities, private or public sector health industries or by Biomedical Science Program faculty and students. Examines current topics and research in biomedical sciences through oral presentations and discussion.

Prerequisite: graduate standing and consent of instructor.

Ecology, Ph.D.

The Program in Ecology (PiE) provides you with long-term career development by exploring the linkages of ecology and evolution with other disciplines, and by reaching for emerging questions, concepts, and approaches that will shape the future of the field.

Additional Information

Program in Ecology, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/pie/>
Email: ecology@uwyo.edu

Program Director: Melanie Murphy, Ph.D.

Degree Offered

Ph.D. in Ecology

The Program in Ecology prepares doctoral students to lead the discipline of ecology during the coming decades. The program is grounded in the natural history of organisms in their environment, but incorporates tools and perspectives from across the biological, physical, mathematical, computational, and earth sciences. Students develop conceptual, historical, and philosophical perspectives spanning the entire range of subdisciplines in ecology, while receiving advanced training in the subdiscipline of their individual interest.

The program fosters long-term career development by exploring the linkages of ecology with other disciplines, and by scanning the ecological horizon for emerging questions, concepts, and approaches that will shape the field in years to come.

Faculty members from several departments and colleges participate in the Program in Ecology. Their interests span the full range of topics covered in the field of ecology, and students in the program reflect this diversity.

Program Specific Admission Requirements

Only students seeking a doctoral degree will be admitted into the program. Minimum criteria for admission to the Program in Ecology are:

- Minimum undergraduate GPA of 3.000
- Agreement by a member of the PiE faculty to sponsor the student, or to co-sponsor the student together with a PiE affiliate
- Admission to a home department at the University of Wyoming

All applications to the program will be reviewed by the Graduate Affairs Committee, which has authority on admissions. Students applying to the program who lack a master's degree must show exceptional promise and

commitment (e.g., through undergraduate or post-graduate research experiences, peer-reviewed publications, and/or success in competing for research fellowships). Such students are encouraged to consult with their prospective adviser on whether to apply directly to PiE or to master's programs in individual home departments of PiE faculty.

Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the program. Transfer is not pro forma. Transfer applications are subject to the same criteria as for entering students, and admission to the program for transfer students must be approved by the Graduate Affairs Committee.

Program Specific Degree Requirements

Advisory Committee

Before the end of the second semester of study, the student should nominate a five-member advisory committee to the Office of the Registrar. At least three members of the committee, including the committee chair (usually the student's adviser), will be members of the PiE faculty. One other member, who will serve as Graduate Faculty representative, must be from outside the home department of the major adviser, although (s)he can be a faculty member in a department that participates in the program. The committee will advise the student on his/her program of graduate study, execute and evaluate the student's preliminary examination, evaluate the student's dissertation proposal and dissertation, and conduct the student's dissertation defense.

Program of Study

All students are required to take ECOL 5100 or equivalent. This course should be taken during the first year of residency. Exceptions or substitutions of these requirements are subject to approval by the graduate affairs committee.

The program of study must include at least 6 credit hours aimed at developing a tool skill, which except for rare cases shall be in the quantitative/analytical domain (e.g., statistics, modeling, GIS, remote sensing, bioinformatics). Courses relating to research tools should be taken early in the student's residency to ensure that they can be used in thesis research and advanced studies. Specific coursework and tool-skill development for the student's program of study will be developed in consultation with and subject to approval by the student's advisory committee.

Admission to Candidacy

Admission to candidacy for the Ph.D. requires two steps: 1) providing evidence that the student is prepared to identify a research question, design an approach for investigating that question, and a plan for executing the approach, all in the format of an NSF-style research proposal, and 2) illustrating adequate proficiency in the subject matter of ecology through a process involving both written and oral exams.

Proposal

Students must submit a NSF-style proposal to their committee outlining their project, typically by the end of the fourth semester. Each committee member will provide feedback to the student on the proposed research and indicate approval of the proposal or request revision. The proposal must be approved by all committee members prior to starting the preliminary exams.

While this proposal should be a plan for actual dissertation research, unforeseen circumstances may require altering the student's dissertation work after the proposal has been approved by the committee. In the case of a major alteration, the student should reformulate a research plan and submit it to the committee in writing for committee approval.

Preliminary Exam

Passing the preliminary exam is the official admission to candidacy.

Written portion of the preliminary exam. The student will take the written exam portion of the preliminary exam no fewer than two weeks following approval of the research proposal. The goal of this exam is to test breadth of

knowledge in ecology. The design of this exam will be coordinated by the graduate committee under the leadership of the adviser. Each written exam will cover the following topics:

- Ecological topics ranging from organismal/evolutionary to ecosystem-level perspectives, integrating concepts and perspectives from across the discipline, over a wide range of spatial and temporal scales.
- The philosophical and historical development of ecology.
- The conceptual background of the student's area of specialization.

The exam will consist of four to six questions developed collectively by the committee and organized by the student's major professor. The exam will be open book; however, the answers will be solely the work of the student. Answers should be fully cited and collectively should be no longer than 30 pages double-spaced exclusive of references cited. Students will have one full week (seven days) to complete the exam. Committee members will indicate pass/fail within one week following completion of written exams. Four of five passing votes are required.

Oral Portion of the Preliminary Exam. No sooner than two weeks after successfully passing the written exam, the student may proceed to an oral exam administered by his/her graduate committee. Oral exams center around three goals from which questions will be derived:

- To verify that the student is prepared, conceptually and methodologically, to carry out successful dissertation research.
- To evaluate the student's ability to conceptualize specific questions in a broad, integrative context.
- To evaluate the student's ability to think spontaneously and creatively and to articulate responses about unexpected or novel questions.

The advisory committee will discuss and organize specific questions based on these goals in a short session at the beginning of the exam period before admitting the student to the examination room and starting the exam. Following the exam each committee member will provide non-binding paper votes of pass/ fail for each of the three goals of the oral exam. Following discussion of the student's performance, committee members will each assign a grade of pass/fail for the overall exam. Four of five committee members must vote for passing the overall oral exam.

Students whose performance is unsatisfactory will be given one opportunity for retaking the oral examination. This retake will occur no later than the academic-year semester following the first examination.

Public Seminars

Students are required to give two oral presentations on their research. The purposes of these presentations are to provide the student with practice in oral presentations and to keep the PiE community informed of the student's progress. The first will describe the student's dissertation research proposal. This presentation will be given before the student submits his/her thesis proposal. The second presentation will summarize the student's completed dissertation research, and will normally be given the same semester as the student's dissertation defense. Under extraordinary circumstances (subject to approval by the Graduate Affairs Committee), this presentation may be given at an earlier time. These presentations must be open to the public, and may comprise part of a departmental or Program in Ecology seminar or brown-bag series.

Courses

ECOL5050 - Techniques in Environmental Data Management

Credits: 4

Centers on the role of information technology in support of scientific research. Through integration of multiple software packages (e. g. Relational databases, ProgramR and ArcGIS), proven database designs, and SQL scripting, increased efficiency and utility will occur during data analyses. These information science principles are demonstrated using project-based examples.

Cross Listed ENR 5050/GEOG 5050.

Prerequisite: graduate standing.

ECOL5060 - Advanced Concepts in Evolution

Credits: 3

Explores fundamental concepts in evolutionary biology including evolutionary ecology, population genetics, and speciation with an emphasis on both theoretical frameworks and practical applications. Discussion included.

Cross Listed BOT 5060/ZOO 5060.

When Offered (Offered every other year)

Prerequisite: graduate student in good standing.

ECOL5100 - Ecology as a Discipline

Credits: 3

Covers the range of ecological questions, processes, scales, and research approaches, in context of the history and philosophy of science in general and of ecology in particular. Aimed at first-year students in the doctoral program in Ecology, although students in other graduate programs are welcome.

Prerequisite: graduate standing.

ECOL5400 - Community Ecology

Credits: 3

Community ecology is the study of interactions within and among groups of species. This course focuses on (1) the major classical concepts and theories in community ecology, (2) the ways in which population dynamics can impact communities and how community dynamics can impact ecosystem processes and functioning, and (3) implementation of quantitative methods for conducting research that includes community ecology.

Cross Listed REWM 5400.

Prerequisite: LIFE 3410 or equivalent.

ECOL5500 - Quantitative Analyses of Field Data

Credits: 4

A practical guide to the analysis of messy field data, including data exploration, generalized linear and additive models, mixed models, autocorrelation, and model selection using Program R. Students will have bootcamp to learn methods and spend the rest of the semester analyzing their own data.

Prerequisite: graduate standing.

ECOL5520 - Habitat Selection

Credits: 2

In this course we will cover theory and behavioral/evolutionary concepts related to the process of habitat selection, the contexts under which habitat choices are adaptive or maladaptive, and different types of anthropogenic habitat change

and the consequences for animals in the wild. Prerequisite: Graduate students in good standing.

Cross Listed ZOO 5520

Prerequisite: Graduate students in good standing.

ECOL5540 - Microbial Diversity and Ecology

Credits: 4

Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design.

Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MOLB 4540/MICR 4540/SOIL 4540.

Dual Listed MOLB 5540/SOIL 5540.

Prerequisite: MOLB 2210.

ECOL5550 - Ecology as a Scientific Profession

Credits: 2

A capstone that prepares doctoral students for success and leadership in their careers as professional ecologists.

Intended for students enrolled in the doctoral Program in Ecology in their final year.

Prerequisite: graduate standing.

ECOL5580 - Rangeland Restoration Ecology

Credits: 3

Detailed analysis of various ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic factors. Application of ecological principles to rehabilitate vegetation and restore ecosystem function. Strong emphasis on current research to formulate restoration strategies.

Cross Listed REWM 5580.

ECOL5610 - Quantitative Modeling in Landscape Ecology

Credits: 3

Emphasis on quantitative, spatial analysis of landscapes and application of these quantitative tools to making sound management decisions. Work with real data, acquire high-level quantitative skills, develop problem-solving skills, and discuss management application of model results. Analysis will encompass abiotic, biotic (plant and animal), and human use of ecological systems in a spatial context.

Cross Listed REWM 5610.

When Offered (Offered during even-year fall semesters)

Prerequisite: upper division stats course (e. g. , STAT 4015 or STAT 4025) and graduate standing.

ECOL5620 - Advanced Topics in Ecology

Credits: 1-4
Max Credit (Max. 12)

Provides advanced treatment of specific topics in ecology that are not covered in regular courses.

Prerequisite: graduate standing and consent of instructor.

ECOL5650 - Tropical Field Ecology Ecuador

Credits: 4
Course comprises 10 days in Ecuador in January (before spring semester), followed by one lecture per week during spring semester. Focus will be ecology, biodiversity and conservation of tropical forests and behavioral ecology of birds and mammals. Field site is at 1100m on west slope of the Andes.

Cross Listed ECOL 5650.

Prerequisite: graduate standing.

ECOL5680 - Landscape Genetics

Credits: 3-4
Provides a unique opportunity for interdisciplinary training and international collaboration uniting some of the most active landscape genetics groups in North America and Europe. A key objective of landscape genetics is to study how landscape modification and habitat fragmentation affect organism dispersal and gene flow across the landscape. Meeting this and other landscape genetic objectives requires highly interdisciplinary specialized skills making intensive use of technical population genetic skills and spatial analysis tools (spatial statistics, GIS tools and remote sensing). To bring these diverse topics and skills together effectively, we are using a distributed model of teaching. Population genetics, spatial analysis/ statistics, and previous experience in Rare all extremely useful but not required.

Cross Listed Cross listed with: REWM 5680.

ECOL5775 - Forest Ecology

Credits: 4
Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed RNEW 5775 and BOT 5775.

When Offered (Offered during even-year fall semesters)

Prerequisite: LIFE 3400.

ECOL5780 - Research in Ecology

Credits: 1-6
Max Credit (Max. 12)

Designed for doctoral students pursuing exploratory research before they have determined a dissertation project, and for students to pursue independent research that will not comprise part of their dissertation. Research must be conducted under supervision of an Ecology Faculty member or Affiliate.

Prerequisite: admission to doctoral Program in Ecology.

ECOL5920 - Continuing Registration: On Campus,

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: graduate standing.

ECOL5940 - Continuing Registration: Off Campus,

Credits: 1-12
Max Credit (Max. 16)

Prerequisite: graduate standing.

ECOL5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Hydrologic Sciences, Ph.D. (WRESE)

The Water Resources/Environmental Science and Engineering (WRESE) program facilitates Ph.D.-level course offerings in water-related disciplines, and coordinates offerings of these courses. Furthermore, the WRESE program serves as a focal-point for water-related graduate research and education at the University of Wyoming.

This interdisciplinary degree program encourages cross-department and inter-college coordination for research and education in hydrology and water resources.

Additional Requirements

Program Specific Admission Requirements

The WRESE Program only admits students seeking a doctoral degree.

Minimum criteria for admission to the Program are:

- Minimum undergraduate GPA of 3.000
- Agreement by a faculty member affiliated with the WRESE program to sponsor the student
- Admission to a home department at the University of Wyoming

Typically, students admitted into the program will have previously obtained a Masters-level degree. Under exceptional circumstance, students may be admitted directly after an undergraduate degree if they show exceptional promise and commitment. Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the program.

Program Specific Degree Requirements

Students in the WRESE Program are expected to create their graduate committee within the first year of study. The committee should be composed of three faculty members within the PhD program in Hydrology and 2 should be from the student's departmental home. A committee shall be composed of no fewer than 5 members, of which only one may be from outside the University. Additional committee members may be added to support the student's learning and objectives on the discretion of the committee and WRESE Program chair.

Program of Study

Students enrolled in the Program should complete their Program of Study within the first 3 semesters. The student shall work with his/her research advisor and committee to determine the appropriate course of study relative to the student's research agenda. Students are expected to complete a rigorous course of study in quantitative hydrological sciences. Minimum requirements for the PhD include:

- Coursework credits: 42 hours (26 can be from an MS)
- Total credits: 72 hours
- Math expectations: students are encouraged to pursue a high level of math proficiency, with typical students progressing through differential equations. Individual math expectations will be determined by the committee and program chair.

A dissertation proposal should be approved by the end of the 4th semester. Students shall submit their proposal to their committee for review two weeks prior to a holding a committee meeting where the student (a) presents their proposal in a public presentation and (b) defends the proposal to the committee in a closed meeting. After the meeting, the student shall amend the proposal as required by the committee within a timely manner.

Admission to Candidacy / Preliminary Examination

Advance to candidacy is attained by passing preliminary exams within 3 years of initiating a degree program. Students should complete their preliminary exams as close to the end of their primary coursework as possible. Preliminary exams consist of two parts. The first part is a written examination wherein committee members shall submit written questions to the student. Once the student has passed their written exams, they will be administered an oral examination.

The written exam shall be administered by the student's research adviser, who will coordinate the questions so as to obtain a comprehensive review of the student's knowledge of the materials the student has learned in the classroom and needs to complete his/her research topic. Written questions should cover both conceptual and theoretical underpinnings in hydrological sciences and technical questions related to the student's research area.

Molecular and Cellular Life Sciences, Ph.D.

The Molecular and Cellular Life Sciences (MCLS) program serves as an inclusive and integrative graduate program for students being trained in basic biological and biomedical research at the molecular and cellular levels.

Additional Information

Molecular and Cellular Life Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/mcls/>
Email: mcls@uwyo.edu

Program Director: Daniel Levy, Ph.D.

Degree Offered

Ph.D. in Molecular and Cellular Life Sciences

This interdisciplinary program with more than 30 faculty participants spans a wide range of research topics, such as: Biotechnology, bioengineering, biomaterials, and pharmacology, Cell biology and signaling, Genetics and development, Genomics, proteomics, and computational biology, Microbiology and infectious disease, and Structural biology and biophysics.

Coursework focuses on core courses in biochemistry and molecular biology, with electives that include such diverse courses as: Topics in Genomics, Biophysics, Microbial Physiology and Metabolism, Cell and Developmental Genetics, Mass Spectrometry and Analytical Chemistry, Biomedical Engineering, Mammalian Endocrinology, Cell Culture and Virology, Introduction to Bioinformatics, Protein Structure and Function, Microbial Genetics, Computational Biology, and Quantitative Microscopy.

Program Specific Admission Requirements

Admission to MCLS is a two-step process. The first level of evaluation is carried out by the MCLS admissions committee. This step does not require any fee but does require that all requested materials be submitted as described on our website. After an initial review of all complete applications, a subset of qualified applicants will be selected for video conference interviews with members of the MCLS admissions committee. Applicants who are chosen for admission to the MCLS program will then complete the final application step through the University of Wyoming Admissions office. This latter step requires the completion of several additional forms. Students are then officially notified by the university of their acceptance into the MCLS program.

We encourage students to submit their completed applications at the very latest by January 15 of each calendar year. However, because our review of applications will begin in the late fall, early submissions are encouraged and may stand a greater likelihood of success. Also note that we will continue to review new applications received after January 15 in the event that additional slots are available.

Program Specific Degree Requirements

MCLS doctoral students must fulfill the minimum requirements outlined by the university. In addition, students must obtain a high level of proficiency in the core foundations of the molecular and cellular life sciences through required courses in biochemistry/ molecular biology, scientific literature analysis proficiency, and the MCLS cornerstone

course. Because of the broad range of research interests pursued by MCLS faculty and students, considerable flexibility will be exercised regarding the specific nature of the graduate-level elective courses that students may take.

Students must successfully complete four eight-week rotations in MCLS laboratories of their choice during the first year.

Students must pass a comprehensive assessment exam at the end of the first year. Towards the end of the second year, students will undertake a qualifying examination in order to be formally admitted to graduate degree candidacy. This exam will have both written and oral components and will cover areas of science that are relevant to the students' research.

The research and coursework progress of MCLS students will also be monitored and evaluated every year by the MCLS curriculum committee. In addition, an annual meeting with a research-specific dissertation committee will facilitate and evaluate the research progress of MCLS students beginning in the second year.

Students must attend weekly outside seminars on topics in the molecular life sciences for the durations of their studies.

For more information, please see the program's Web site at: www.uwyo.edu/MCLS/.

Neuroscience, Ph.D.

The Graduate Program in Neuroscience is interdisciplinary. Students receive broad and integrative training in neuroscience with emphasis on core concepts, skills, and methodologies.

Additional Information

Neuroscience, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/neuroscience/>
Email: neuroscience@uwyo.edu

Program Director: Kara Pratt, Ph.D.

Degree Offered

Ph.D. in Neuroscience

The Graduate Neuroscience Program offers training leading to the Ph.D. degree in Neuroscience. The Neuroscience Program emphasizes systems and integrative approaches, and our goal is to provide the students with the necessary background to be broadly trained research neuroscientists and to carry out independent research in neuroscience. The Neuroscience Program emphasizes continuing interaction with faculty from several departments and we have a low student to faculty ratio. Advisors spend considerable time supervising and training each doctoral student. The educational philosophy of the Neuroscience Program is to encourage a problem-oriented rather than a strict discipline-bound approach to research. You will emerge from this program with the scientific and experimental training needed to comprehensively address a very wide range of research questions using a variety of techniques and analytic tools.

The Graduate Neuroscience Program is designed to enable graduate students to acquire competence in the various disciplines necessary for research and teaching careers in neuroscience. The current interests of the Neuroscience faculty include sensory neurophysiology, behavioral neuropharmacology, neurodevelopment, neurodegeneration, and synaptic plasticity.

Students and faculty have access to outstanding resources established by NIH Neuroscience and Sensory Biology Core grants. The Microscopy Core houses both light (Zeiss laser scanning, fluorescent) and electron (Transmission and Scanning) microscopes. Resources needed to conduct research ranging from molecular, cellular circuit level to behavior are readily available within the Neuroscience Center.

Doctoral Program Admission Minimum Requirements

- GRE: Accepted but not required;
- GPA: 3.000 (4.000 scale);
- Three favorable letters of recommendation;
- Bachelor's degree in a biological science from an accredited institution;
- Statement of research interests and career objectives. We recommend that students study the Neuroscience faculty web sites and contact faculty regarding openings and shared research interests.

You will be best prepared for our program if you have successfully completed courses in neuroscience, chemistry, biology, physiology, and cell/molecular biology. Students may be admitted with deficiencies in some of the areas if they are strong in many or all others. If so, the student's advisory committee will determine what additional work is necessary during the first year to correct any deficiency.

Program Specific Degree Requirements

All doctoral Neuroscience students are required to complete a program of core classwork that includes the following required courses: Introduction to Neuroscience, Structure and Function of the Nervous System and Neurophysiology. Students are required to take one course in Statistics (e.g. STAT 5050, STAT 5210) and the course that meets this requirement will be arranged with the student's committee. The statistics requirement must be met by the end of the second year. The Neuroscience Program is a research-oriented program and students are expected to take a minimum of 2 to 3 credit hours of research per semester. Students are also expected to enroll in an on-going Seminar in Neuroscience. The Neuroscience Seminar, which meets weekly and is attended by students and faculty members, provides an opportunity for intellectual and social exchange, as well as for the development of professional skills in critical thinking. The topic for seminar and the faculty member directing the seminar changes each semester. The remainder of the coursework for the doctor of philosophy degree is selected from designated courses in Neuroscience, physiology, pharmacology, and molecular biology. A grade of B or better is required for all Neuroscience courses.

A student is expected to have a graduate adviser at all times. The faculty adviser must be a participating member of the Neuroscience faculty. The adviser is responsible for directing the student's research and academic coursework. During the second year, the student will have an advisory committee. The advisory committee will consist of at least three neuroscience faculty members and an outside member. Normally, the student's adviser will chair the committee and help identify members of the committee who best match the student's area of interest. The role of the advisory committee is to oversee all aspects of the student's education after the first year.

In the student's second or third year, the advisory committee will set and evaluate the student's qualifying examination. After successful completion of the preliminary examination the student will profess to Ph.D. candidate status.

The dissertation is the single most important component of the graduate program. It reports the results and significance of the student's research. In addition to the written dissertation, the doctoral candidate will deliver a formal seminar based on their research. The seminar will be followed by an examination by the student's advisory committee.

Courses

NEUR4295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (*Xenopus* tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and *Drosophila*).

Cross Listed ZOO 4295.

Dual Listed NEUR 5295.

Prerequisite: ZOO 4280.

NEUR4720 - Neuroscience Speaker Seminar

Credits: 2

Max Credit (Max. 6)

The purpose of this course is to use the Neuroscience/sensory biology visiting speaker series to build student knowledge in neuroscience, as well as skills in critical evaluation of the research literature, and oral/ written communication. This will maximize student learning from the speaker series. The course may be taken up to three times.

Dual Listed NEUR 5720.

Prerequisite: Graduate level standing in neuroscience, biomedical sciences, zoology/physiology, or other life science programs. Undergraduates: concurrent or prior ZOO 4280.

NEUR5100 - Structure and Function of the Nervous System

Credits: 4

Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed ZOO 5100.

Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

NEUR5280 - Introduction to Neuroscience

Credits: 3

Examines the basic properties of neurons and from there identifies determinants of brain development and how neuronal circuits are formed. How neuronal circuits underlie processing sensory information, coordinated movement, complex functions (e. g. sleep, learning) and homeostasis are discussed.

Cross Listed ZOO 5280.

Prerequisite: ZOO 3115 or equivalent.

NEUR5295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

Cross Listed ZOO 5295.

Dual Listed NEUR 4295.

NEUR5685 - Neurophysiology

Credits: 3

Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms will be covered in addition to the basic neurophysiology of nerve cells.

Cross Listed ZOO 5685.

Prerequisite: one course in physiology, chemistry, physics.

NEUR5715 - Seminar in Neuroscience

Credits: 1-2

Max Credit (Max. 20)

A continuing seminar. All students in the graduate neuroscience program are expected to register for this seminar each semester. The interdisciplinary approach to the nervous system is used employing work from physiology, neuroanatomy and neurochemistry, psychology, pharmacology and biochemistry.

Cross Listed ZOO 5715.

Prerequisite: admission to the graduate neuroscience program or graduate standing.

NEUR5720 - Neuroscience Speaker Seminar

Credits: 2

Max Credit (Max. 6)

The purpose of this course is to use the Neuroscience/sensory biology visiting speaker series to build student knowledge in neuroscience, as well as skills in critical evaluation of the research literature, and oral/ written communication. This will maximize student learning from the speaker series. The course maybe taken up to three times.

Dual Listed NEUR 4720.

Prerequisite: Graduate level standing in neuroscience, biomedical sciences, zoology/physiology, or other life science programs. Undergraduates: concurrent or prior ZOO 4280.

NEUR5800 - Research in Neuroscience

Credits: 1-16
Max Credit (Max. 16)

The research must be conducted under the supervision of one of the neuroscience program faculty. Laboratory opportunities for research include neuroendocrinology, behavioral neuroscience, sensory neurophysiology, neuroanatomy, neuropharmacology, neurotoxicology, neural cell biology, and neurochemistry.

Prerequisite: admission to the graduate neuroscience program or graduate standing.

NEUR5887 - Molecular Neuropharmacology

Credits: 3
Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

Prerequisite: PharmD current standing and instructor's permission or NEUR 5280.

NEUR5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NEUR5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NEUR5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

First-Year Seminar.

Prerequisite: advanced degree candidacy.

Science & Mathematics Teaching Center Master's Degrees

30 graduate-level semester hours, B or better grades in all required courses and overall GPA of 3.0 required for majors. Required courses taken 6 or more years ago must be petitioned and approved to be used to satisfy degree requirements.

Additional Information

Science and Mathematics Teaching Center

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/smtc/>
Email: smtc@uwyo.edu

Program Director: Sylvia Parker

The Science and Mathematics Teaching Center (SMTC) was established in 1970 and is committed to excellence in science, mathematics, technology and STEM education. As part of the Office of Graduate Education in Academic Affairs, the SMTC, in cooperation with the Wyoming Department of Education (WDE) and the Professional Teaching Standards Board (PTSB), serves as a resource and professional development center for the state. The SMTC offers transdisciplinary graduate degree programs with multiple degree concentrations, certification options, and endorsement options. All of the programs emphasize both strong content knowledge and instructional practices. Faculty from throughout the university collaborate with the SMTC by teaching classes, reviewing applications, serving on committees, advising students, and working on externally funded research projects.

The SMTC provides extensive off-campus professional development that serves teachers, students, administrators, school districts and communities throughout Wyoming and the region. SMTC in-service and extension courses, workshops, institutes, and conferences are designed collaboratively to improve science and mathematics teaching in Wyoming.

The SMTC administers and supports five master's degree programs:

- (1) the Master of Science degrees in Natural Science with concentrations in Middle Level Math (MMA) and
- (2) Middle Level Science (MSC); these programs are designed for Wyoming's in-service elementary, middle, and high school teachers. They focus on general science and mathematics content with an emphasis on teaching middle school level learners. The course work leads to middle level endorsements provided by the Wyoming PTSB. Teachers must have two years of teaching experience to participate in these programs.
- (3) Master of Science in Teaching - Natural Science (MST - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School as well as other colleges. The program is developed individually with the guidance of a graduate committee based on the interests of the graduate student. This program is primarily intended for individuals teaching at the secondary level and may be used take the 18 graduate-level credits in a specific teaching area often needed to teach Advanced Placement and community college courses.
- (4) Master of Science - Natural Science (MS - Natural Science). This is a self-directed master's degree program working with the SMTC, the College of Arts and Sciences, SER, and the Haub School and other colleges. The program is developed individually based on the interests of the graduate student and may emphasize formal or informal learning settings. Interdisciplinary study is encouraged.

(5) Master of Science in Natural Science with a concentration in Natural Science Education (NED). This Master's degree program is designed for students pursuing careers as environmental and natural science educators in non-public school or non-formal education settings. These students spend one year at the Teton Science Schools (TSS) in Jackson. A long-standing MOU between the SMTC and TSS allows students to use 15 graduate credit hours earned at TSS towards a master's degree if they are accepted into the second year at UW within the SMTC.

SMTC Student Learner Outcomes

Upon successful completion of the MS degree program in Natural Science, a student will be able to:

- Engage in teacher research to transform STEM instruction:
 - Design and implement a research project that asks and answers a question using appropriate materials, concepts and methods, and ethical practices, and
 - Effectively communicate all aspects of the research project in both oral and written forms.
- Use professional and academic standards to ensure high-quality interdisciplinary instruction (i.e., place-based, culturally relevant, and/or social justice pedagogy) to maximize learning for all students.
- Engage in mathematical and/or scientific discourse and scientific thinking as active participants in communities of practice.
- Use emerging technology and science investigations as tools to engage students.

Program Specific Admission Requirements

For the MS-Natural Science Master's Degrees (with concentrations in MSC and MMA) and the MST:

Two years of teaching experience and a valid teaching license (required for MSC and MMA; may be waived for MST and MS-Natural Science)

Application Fee

Official Transcripts from all Institutions attended and Bachelor Degree conferring institution

3.0 undergraduate grade point average; provisional admission with a lesser GPA only with consent from Academic Affairs

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence (These items are not required of applicants who hold a prior master's degree)

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from the teacher's principal or an employers and two other colleagues.

For the MS-Natural Science Master's Degrees (with concentration in NED) - First Year Application:

Official Transcripts from all institutions attended and Bachelor Degree conferring institution Application Fee

Acceptance and admission by the Graduate Program at the Teton Science Schools in Jackson, WY

For the MS-Natural Science Master's Degrees (with concentration in NED) - Second Year Application:

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from a TSS Graduate Program Faculty Member, one from another TSS employee such as a Classroom Instructor or Field Instructor, and one from the first year application

Applicants complete a UW graduate application and upload all of the information on the Admissions Office website (<http://www.uwyo.edu/admissions/apply.html>). Application packets are reviewed by SMTC Admissions Committees and recommendations for admissions are submitted to the University of Wyoming Admissions Office. Any of the above requirements plus the university's minimum 3.00 grade point average may be waived if proper documentation and reasoning are given by the SMTC and approved by the Associate Vice Provost of Graduate Education.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) for more information.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Application Due Dates for Master of Science - Natural Science with Concentrations in the following areas:

Middle-level Science (MSC): applications are accepted on an ongoing basis; new students may begin only in summer each year; final due date for admission in summer is April 1.

Middle-level Mathematics (MMA): applications are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Natural Science Education (NED): applications deadlines for Year 1 are established by Teton Science Schools (<https://www.tetonscience.org/programs/graduate-program/admissions/>); due date for admission to begin Year 2 in the fall at UW is February 1.

MST and the MS- Natural Science Masters Degree: applications for these self-designed programs are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Graduate Assistantships and Scholarships

The SMTC often has scholarships and graduate assistantships available for graduates accepted for the above Master's degree programs. More information upon admission and acceptance.

For the Master of Science in Natural Science Master's Degrees

Plan B (non-thesis)

- 30 Credit Hours of graduate-level coursework is required in all of the programs. This includes 24 credit hours in required coursework depending on the program plus 6 credit hours of additional coursework that may include a research class, Plan B independent research and an elective.
- The Middle Level Science (MSC) concentration is a 3-year program, for the required coursework, in the summers only on UW's main campus. Courses are offered on a 3-year rotation cycle; students may enter the program in any year.
- The Middle Level Math (MMA) concentration is a 2-year program with classes offered virtually in the fall and spring and in-person on the main campus in the summer, for the required courses. Students may enter the program in any semester.
- The Natural Science Education (NED) concentration is a 2-year program with classes offered in the graduate program at the Teton Science Schools in Jackson, WY, in year 1, and additional classes offered at the UW main campus in year 2.
- The MST (Master's of Science in Teaching) and the MS- Natural Science Master's Degrees are Main campus degrees. They are self-directed master's degree programs designed individually based on the student's interests and needs.
- All students must complete and defend a Plan B research project.
- A Plan A (thesis) may be completed with an extra year of research.

NOTE: Middle-Level Science & Middle-Level Mathematics; 24 credit hours in the core courses are required for institutional recommendation for WY middle-level endorsement from the Professional Teaching Standards Board, PTSB.

NOTE: *NASC 5810 Middle-Level Science and Mathematics 3 credit hour course Practica (required course for teachers without previous coursework or experience teaching middle-level students. Offered spring semester in even years only).

Other Degrees and their Requirements

The MST in Natural Science and the MS - Natural Science programs are self-directed master's degree programs designed individually based on the student's interests and needs. The programs require 30 graduate level credits plus a Plan B research project that is defended publicly. Requirements are based on the university minimum requirements.

For the NED Concentration - Year 1 (at Teton Science Schools)

These students spend their first year at the Teton Science Schools in Jackson, Wyoming. Students earn 15 credits that may be used towards the master's degree at the University of Wyoming in Year 2.

For the NED Concentration - Year 2 (at the University of Wyoming)

Plan B (non-thesis)

- This is a one-year program on the main campus.
- 30 credit hours of coursework is required for the master's degree, of which 15 credit hours of agreed upon courses are earned at TSS in year 1. The other 15 credit hours include two required courses: NASC 5650 (3 credits) and a graduate level research class (minimum 3 credits). Additional courses in environmental science and science pedagogy classes are chosen by the graduate student and their advisor.
- A concurrent major in Environmental and Natural Resources is an option with this Master's program.
- Students must complete and defend a Plan B research project.
- A Plan A (thesis) may be completed with an extra year of research.

Middle-Level Science Concentration and Master's Degree

Life Science Summer Core (2023, 2026, 2029, etc...)

BOT5790 - Special Topics in Ecology

Credits: 1-3
Max Credit (Max. 6)

Designed to acquaint advanced students with various topics not covered in other courses. Emphasis is placed on recent developments appearing in the journal literature.

Dual Listed BOT 4790.

Prerequisite: two courses in ecology.

ENTO5601 - Insects for Teachers: Collection and Identification of Insects

Credits: 1

Designed for school teachers K-12. Basic concepts such as insect classification, insect habitats, insect metamorphosis, and destructive and beneficial insects are discussed with emphasis on the presentation of these concepts in the school classroom. Half of the class is devoted to field trips, laboratories, workshop activities, and films. Each student will make an insect collection, and learn how to preserve, mount, and identify specimens to order level. Course may be taken independently of ENTO 5602. Identical to NASC 4790.

Prerequisite: junior standing. Offered summer term only.

NASC4790 - Topics in Natural Science

Credits: 1-6

Presents selected science topics to acquaint teachers or prospective teachers with new concepts, materials or techniques, as introduced in various new school curricula. Topics may include earth science for the middle school, computer learning and/or elementary school environmental science. Includes laboratory.

Prerequisite: junior standing.

NASC5130 - Life Science in Global Context, MSC

Credits: 3

One in a series of three courses investigating earth as a system. Investigates ecosystem composition and processes, and biological responses to changes in ecosystem parameters. Examines terrestrial and aquatic communities, photosynthesis, energy flow, biogeochemical cycles, global climate change, climate warming, deforestation, population ecology, DNA/ RNA structure, function, genetic engineering and forensic applications.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science education.

NASC5660 - Standards, Pedagogy and Research

Credits: 2

This course is designed to provide Master of Science in Natural Science students with background in three areas:

current science standards, pedagogical practices, and the understanding of various types of educational research as well as some of the practices related to conducting their own research projects.

Prerequisite: Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

Physical Science Summer Core (2021, 2024, 2027, etc...)

EE4800 - Problems in _____

Credits: 1-6
Max Credit (Max. 6)

Section 1 is individual study. Other sections are group study by seminar or class format. Features topics not included in regularly offered courses.

Prerequisite: consent of instructor.

NASC5110 - Physical Science in Global Context, MSC

Credits: 3
One in a series of three courses investigating earth as a system. Examines the global dynamics of energy, hydrocarbon combustion, and the physics and chemistry of water. Investigates relationships between energy transformations and pollutants. Considers environmental limitations of fresh water availability and the buffering effect of sea and fresh water.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in Elementary, middle school or general science education.

NASC5510 - Integrated Instructional Strategies, MSC

Credits: 2
Appropriate instructional strategies are discussed and modeled for aligning standards, expectations, and experiences in an integrated science environment. Attention is given to unique characteristics of each strategy, including a review of research on the effectiveness of each strategy on student achievement and attitudes.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

NASC5600 - Mathematics and Statistics in Science Teaching, MSC

Credits: 2
Provides science teachers with the knowledge and experience necessary to help students use statistics in the scientific process. Activities emphasize a hands-on inductive approach closely related to the school science curriculum. Important statistical ideas and methods are studied as they arise naturally in the biological, physical, and earth sciences.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

Earth Science Summer Core (2022, 2025, 2028, etc...)

ASTR4000 - Astronomy for Teachers

Credits: 1-5

Specifically designed for elementary school teachers. Presents basic concepts (time, seasons, light and its properties); planetary systems of the sun; the sun and stars; the Milky Way and galaxies; and cosmology and relativity. Emphasizes presenting these concepts to elementary school children. Half the class is devoted to laboratory and workshop activities to develop techniques for presenting these concepts through visual aides, demonstrations and films. Students may receive a maximum of 5 credits in a combination of ASTR 4000 and ASTR 4100.

When Offered (Offered summer session)

Prerequisite: 6 hours of physical or biological science, junior standing in education.

NASC5120 - Earth Science in Global Context, MSC

Credits: 3

One in a series of three courses investigating earth as a system. Emphasizes the lithosphere and atmosphere and their interactions with the hydrosphere and biosphere. Examines the interplay between tectonic processes, earth's radiation balance, ocean processes, ozone depletion and the greenhouse effect. Includes evaluation of methods of measuring and monitoring these phenomena.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teach certification in elementary, middle school or general science education.

NASC5300 - Classroom Assessment in Middle-level Science, MSC

Credits: 2

Deals with the design, construction, and testing of curriculum materials to bring the spirit of scientific inquiry to elementary school pupils. Research to be conducted in the Science and Mathematics Teaching Center.

NASC5400 - Spatial Data Instructional Technology

Credits: 1

Teaching strategies appropriate for elementary/middle school students' conceptual level of development. Positive attitudes toward teaching children about the Earth, its physical environment and human/environment relationships will be promoted. The course content will be supported by the use of geospatial technologies, such as GPS and GIS.

Prerequisite: graduate standing.

Middle-Level Mathematics Concentration and Master's Degree (courses in this program are cross listed with other departments)

MMA Even Years (2022, 2024, 2026...)

NASC5140 - Numbers, Operations, and Patterns for the Middle-Level Learner, MMA

Credits: 3

Provides working middle-level mathematics teachers opportunities to understand and discuss numbers, their representations, and operations on them, from an abstract perspective that includes elegant proof. Also emphasized is the role of language and purpose in composing definitions.

Cross Listed MATH 5140.

Prerequisite: admission to a UW graduate program, either degree or non-degree seeking status, and acceptance into the Middle-level mathematics program.

NASC5160 - Social and Historical Issues in Mathematics and the Middle-Level Learner, MMA

Credits: 3

Empowers teachers of middle-level mathematics to design engaging experiences. Emphasizes the historical context for the development of mathematics, especially its symbols, tools, personalities, and classic problems.

Cross Listed MATH 5160.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5185 - Analysis of Data in the Media for the Middle-Level Learner, MMA

Credits: 3

Focuses on data collection, analysis, interpretation, and communication, using contexts relevant to everyday situations. Topics chosen integrate well with the concerns of middle-level teachers and connect with such curriculum areas as health, science, and social studies. This is not a research methods course.

Cross Listed STAT 5185

Prerequisite: Admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5215 - Using Technology for Middle-Level Mathematics

Credits: 3

Covers the use of technology appropriate to middle-level mathematics teaching, such as microworlds, geographic information systems, spreadsheets, and other content appropriate technologies. Cross Listed with EDCI 5215.

Prerequisite: admission to the SMTC Program.

Cross Listed EDCI 5215

Prerequisite: Admission to the SMTC Program.

MMA Odd Years (2021, 2023, 2025...)

NASC5170 - Connecting Geometry with Problem- Solving for the Middle-Level Learner, MMA

Credits: 3

Showcases two aspects of 2D and 3D geometry: measurement and transformation. Emphasis reflects current State and National standards for middle-level mathematics classroom and teacher preparation, especially appropriate uses of technology, geometric tools, mathematical language, and problem-solving strategies.

Cross Listed MATH 5170.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, acceptance into the Middle-level mathematics program.

NASC5190 - Mathematics of Change and the Middle-Level Learner, MMA

Credits: 3

Students gain a solid understanding of data and functions in the service of calculus. Hands-on, project-driven, and focuses on the essential concepts of functions and calculus and their role in middle-level mathematics. Emphasis is on writing and technology (calculators and probeware).

Cross Listed MATH 5190.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5205 - Methods of Teaching Middle-Level Mathematics, MMA

Credits: 3

Research-based pedagogy and pedagogical content knowledge for teaching middle-level mathematics. Designed for practicing teachers of middle-grades mathematics.

Cross Listed EDCI 5205.

Prerequisite: admission to the SMTC Program.

NASC5225 - Assessment for Middle-Level Mathematics, MMA

Credits: 3

Middle-level Mathematics Initiative teacher participants examine, analyze, and implement a variety of assessments that are aligned with standards and instruction appropriate to the middle level math learner.

Cross Listed EDCI 5225.

Prerequisite: admission to the SMTC Program.

Natural Science Education (NED)

Teton Science Schools Graduate Program - Year 1

EDCI5790 - Learning Theories and Instructional Principles

Credits: 3

This course focuses on making connections between theoretical perspectives on teaching and learning, empirical work, and the actual practice of teaching. As a result, learners should expect to examine multiple learning theories, read research based on those theories, explore pedagogy that grows out of these theories, and integrate theory into practice in their own classrooms.

Prerequisite: graduate standing.

NASC5610 - Field Studies in Environmental Education, NED

Credits: 4

Expands student's knowledge of ecological and physiological animal and plant adaptations to environmental conditions, the use of teaching methods and tools of naturalists, the range of resources available for designing and evaluating curriculum, and promotes an appreciation and understanding of the diversity of environments. Contains 4 modules.

Prerequisite: graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

NASC5620 - Advanced Elements of Field Ecology Course Design, NED

Credits: 5

Max Credit (Max. 6)

Addresses designing field ecology courses that include research, outdoor leadership, and natural history components. Opportunities are provided to gain deeper understanding of key natural history and ecology concepts of the bioregion; practical strategies for teaching these concepts in field programs; and to formally present student work.

Prerequisite: graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

NASC5625 - Place-Based Education-Teton Science School

Credits: 3

Introduces graduate students at Teton Science Schools to the theory and practice of place-based education. The design of the course exposes students to the historical, political, and eco-social underpinnings of place-based education while supporting students in developing thoughtful place-based pedagogies.

Prerequisite: graduate student status.

NASC5630 - Teaching Practicum-Teton Science School

Credits: 2-4
Max Credit (Max. 6)

To improve teaching methods and techniques and expand professional skills. Integrates the foundation of Teton Science Schools, applies coursework content understanding and develops leadership. The course is intended to challenge previously held instructional beliefs and nurture an evolving set of skills and instructional identity. Not equivalent to EDSE 4500 or EDCI 5990 or EDEL 4500.

Prerequisite: current enrollment at Teton Science School.

NASC5640 - Introduction to Field Science Teaching

Credits: 3
Designed to introduce graduate students at Teton Science Schools' to the field of environmental education and instructional concepts for teaching environmental science in the outdoors. Learn field science content, principals of connecting to place, teaching techniques, and learning theories related to environmental education and field science teaching.

Prerequisite: current enrollment at Teton Science School.

ZOO5405 - Winter Ecology of the Yellowstone Ecosystem

Credits: 2
Winter Ecology emphasizes the effects of winter abiotic conditions on organisms and organismal adaptations. Energy flux, snowpack physics, organismal adaptations, avalanche awareness, and the influence of winter on wildlife management are emphasized through lectures and field laboratories. Students will develop an independent research project and present their results.

Prerequisite: graduate standing.

ZOO5420 - Ecological Inquiry

Credits: 3
Addresses basic ecological concepts and natural resource management issues in the Greater Yellowstone Ecosystem (GYE). Emphasis will be placed on developing critical thinking skills and exploring the effects of resource management policy and actions. Course direction will involve moving from a known facts way of thinking in to realm of evaluating effects of human management of the GYE.

Prerequisite: LIFE 2022, LIFE 3400, and graduate standing.

ZOO5430 - Ecology of the Greater Yellowstone Ecosystem

Credits: 3
Covers plant and animal community ecology from both a qualitative and quantitative perspective. Topics include: community interaction of plants and animals; community dynamics, succession, and disturbance; basic data collection

and statistical analysis of habitat association data; and the effect of abiotic factors on community structure.

Prerequisite: LIFE 2022, LIFE 3400, and graduate standing.

Natural Science Education (NED) - Year 2

NASC5650 - Place-Based Learning

Credits: 3

Place-based learning is explored and related to cognitive development, assessment, and education for a democracy. The focus is on science and mathematics and how to use "place" to provide meaningful learning experiences for students while making contributions to the community. Students develop a local place-based project.

Other Courses offered by SMTC available to Graduate Students in SMTC programs:

NASC5670 - Research Methodology

Credits: 4

This course provides foundational information on asking appropriate questions, researching (including IRB), writing, formatting, and defending a Plan B project. At the end of the semester students will have a committee, a preliminary draft, and present their research. Spring semester will be used to complete projects with committee members.

Prerequisite: Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

NASC5700 - Seminar in Science for Secondary School Teachers

Credits: 1-6

Max Credit (Max. 6)

A course to give graduate students in education, or in-service teachers, an in-depth view of the new materials for teaching science in secondary schools.

Prerequisite: consent of instructor.

NASC5770 - Investigation in Natural Science for Secondary Teachers

Credits: 1-5

Max Credit (Max. 10)

Deals with the design, construction, and testing of curricula materials to bring the spirit of scientific inquiry to secondary school students. Research to be conducted in the Science and Mathematics Teaching Center.

Prerequisite: consent of instructor.

NASC5890 - Directed Professional Study

Credits: 1-6
Max Credit (Max. 6)

Primarily for upper-division students who can benefit from independent study with minimal supervision. Given to allow interested students to pursue specific aspects of curriculum and instruction.

Prerequisite: consent of instructor and graduate standing.

NASC5900 - Practicum in College Teaching

Credits: 1-3
Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

NASC5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

NASC5961 - Plan B Project

Credits: 1-4
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly activities in support of their Plan B project.

Prerequisite: must be enrolled in Plan B program and have program approval.

NASC5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

NASC5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

Prerequisite: graduate standing.

Courses

NASC4790 - Topics in Natural Science

Credits: 1-6

Presents selected science topics to acquaint teachers or prospective teachers with new concepts, materials or techniques, as introduced in various new school curricula. Topics may include earth science for the middle school, computer learning and/or elementary school environmental science. Includes laboratory.

Prerequisite: junior standing.

NASC4800 - Field Studies in Natural Science

Credits: 1-6

Explores topics best studied in the field, on location, or otherwise outside the traditional classroom. Topics may include grassland ecosystem, geology field trips for elementary children and/or schoolyard study areas. Includes laboratory.

Prerequisite: junior standing.

NASC5110 - Physical Science in Global Context, MSC

Credits: 3

One in a series of three courses investigating earth as a system. Examines the global dynamics of energy, hydrocarbon combustion, and the physics and chemistry of water. Investigates relationships between energy transformations and pollutants. Considers environmental limitations of fresh water availability and the buffering effect of sea and fresh water.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in Elementary, middle school or general science education.

NASC5120 - Earth Science in Global Context, MSC

Credits: 3

One in a series of three courses investigating earth as a system. Emphasizes the lithosphere and atmosphere and their interactions with the hydrosphere and biosphere. Examines the interplay between tectonic processes, earth's radiation balance, ocean processes, ozone depletion and the greenhouse effect. Includes evaluation of methods of measuring and monitoring these phenomena.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teach certification in elementary, middle school or general science education.

NASC5130 - Life Science in Global Context, MSC

Credits: 3

One in a series of three courses investigating earth as a system. Investigates ecosystem composition and processes, and biological responses to changes in ecosystem parameters. Examines terrestrial and aquatic communities, photosynthesis, energy flow, biogeochemical cycles, global climate change, climate warning, deforestation, population ecology, DNA/ RNA structure, function, genetic engineering and forensic applications.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science education.

NASC5140 - Numbers, Operations, and Patterns for the Middle-Level Learner, MMA

Credits: 3

Provides working middle-level mathematics teachers opportunities to understand and discuss numbers, their representations, and operations on them, from an abstract perspective that includes elegant proof. Also emphasized is the role of language and purpose in composing definitions.

Cross Listed MATH 5140.

Prerequisite: admission to a UW graduate program, either degree or non-degree seeking status, and acceptance into the Middle-level mathematics program.

NASC5160 - Social and Historical Issues in Mathematics and the Middle-Level Learner, MMA

Credits: 3

Empowers teachers of middle-level mathematics to design engaging experiences. Emphasizes the historical context for the development of mathematics, especially its symbols, tools, personalities, and classic problems.

Cross Listed MATH 5160.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5170 - Connecting Geometry with Problem- Solving for the Middle-Level Learner, MMA

Credits: 3

Showcases two aspects of 2D and 3D geometry: measurement and transformation. Emphasis reflects current State and National standards for middle-level mathematics classroom and teacher preparation, especially appropriate uses of technology, geometric tools, mathematical language, and problem-solving strategies.

Cross Listed MATH 5170.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, acceptance into the Middle-level mathematics program.

NASC5185 - Analysis of Data in the Media for the Middle-Level Learner, MMA

Credits: 3

Focuses on data collection, analysis, interpretation, and communication, using contexts relevant to everyday situations. Topics chosen integrate well with the concerns of middle-level teachers and connect with such curriculum areas as health, science, and social studies. This is not a research methods course.

Cross Listed STAT 5185

Prerequisite: Admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5190 - Mathematics of Change and the Middle-Level Learner, MMA

Credits: 3

Students gain a solid understanding of data and functions in the service of calculus. Hands-on, project-driven, and focuses on the essential concepts of functions and calculus and their role in middle-level mathematics. Emphasis is on writing and technology (calculators and probeware).

Cross Listed MATH 5190.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5205 - Methods of Teaching Middle-Level Mathematics, MMA

Credits: 3

Research-based pedagogy and pedagogical content knowledge for teaching middle-level mathematics. Designed for practicing teachers of middle-grades mathematics.

Cross Listed EDCI 5205.

Prerequisite: admission to the SMTC Program.

NASC5215 - Using Technology for Middle-Level Mathematics

Credits: 3

Covers the use of technology appropriate to middle-level mathematics teaching, such as microworlds, geographic information systems, spreadsheets, and other content appropriate technologies. Cross Listed with EDCI 5215. Prerequisite: admission to the SMTC Program.

Cross Listed EDCI 5215

Prerequisite: Admission to the SMTC Program.

NASC5225 - Assessment for Middle-Level Mathematics, MMA

Credits: 3

Middle-level Mathematics Initiative teacher participants examine, analyze, and implement a variety of assessments that are aligned with standards and instruction appropriate to the middle level math learner.

Cross Listed EDCI 5225.

Prerequisite: admission to the SMTC Program.

NASC5300 - Classroom Assessment in Middle-level Science, MSC

Credits: 2

Deals with the design, construction, and testing of curriculum materials to bring the spirit of scientific inquiry to elementary school pupils. Research to be conducted in the Science and Mathematics Teaching Center.

NASC5400 - Spatial Data Instructional Technology

Credits: 1

Teaching strategies appropriate for elementary/middle school students' conceptual level of development. Positive attitudes toward teaching children about the Earth, its physical environment and human/environment relationships will be promoted. The course content will be supported by the use of geospatial technologies, such as GPS and GIS.

Prerequisite: graduate standing.

NASC5510 - Integrated Instructional Strategies, MSC

Credits: 2

Appropriate instructional strategies are discussed and modeled for aligning standards, expectations, and experiences in an integrated science environment. Attention is given to unique characteristics of each strategy, including a review of research on the effectiveness of each strategy on student achievement and attitudes.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

NASC5600 - Mathematics and Statistics in Science Teaching, MSC

Credits: 2

Provides science teachers with the knowledge and experience necessary to help students use statistics in the scientific process. Activities emphasize a hands-on inductive approach closely related to the school science curriculum. Important statistical ideas and methods are studied as they arise naturally in the biological, physical, and earth sciences.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

NASC5610 - Field Studies in Environmental Education, NED

Credits: 4

Expands student's knowledge of ecological and physiological animal and plant adaptations to environmental conditions, the use of teaching methods and tools of naturalists, the range of resources available for designing and evaluating curriculum, and promotes an appreciation and understanding of the diversity of environments. Contains 4 modules.

Prerequisite: graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

NASC5620 - Advanced Elements of Field Ecology Course Design, NED

Credits: 5

Max Credit (Max. 6)

Addresses designing field ecology courses that include research, outdoor leadership, and natural history components. Opportunities are provided to gain deeper understanding of key natural history and ecology concepts of the bioregion; practical strategies for teaching these concepts in field programs; and to formally present student work.

Prerequisite: graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

NASC5625 - Place-Based Education-Teton Science School

Credits: 3

Introduces graduate students at Teton Science Schools to the theory and practice of place-based education. The design of the course exposes students to the historical, political, and eco-social underpinnings of place-based education while supporting students in developing thoughtful place-based pedagogies.

Prerequisite: graduate student status.

NASC5630 - Teaching Practicum-Teton Science School

Credits: 2-4

Max Credit (Max. 6)

To improve teaching methods and techniques and expand professional skills. Integrates the foundation of Teton Science Schools, applies coursework content understanding and develops leadership. The course is intended to challenge previously held instructional beliefs and nurture an evolving set of skills and instructional identity. Not equivalent to EDSE 4500 or EDCI 5990 or EDEL 4500.

Prerequisite: current enrollment at Teton Science School.

NASC5640 - Introduction to Field Science Teaching

Credits: 3

Designed to introduce graduate students at Teton Science Schools' to the field of environmental education and instructional concepts for teaching environmental science in the outdoors. Learn field science content, principals of connecting to place, teaching techniques, and learning theories related to environmental education and field science

teaching.

Prerequisite: current enrollment at Teton Science School.

NASC5650 - Place-Based Learning

Credits: 3

Place-based learning is explored and related to cognitive development, assessment, and education for a democracy. The focus is on science and mathematics and how to use "place" to provide meaningful learning experiences for students while making contributions to the community. Students develop a local place-based project.

NASC5660 - Standards, Pedagogy and Research

Credits: 2

This course is designed to provide Master of Science in Natural Science students with background in three areas: current science standards, pedagogical practices, and the understanding of various types of educational research as well as some of the practices related to conducting their own research projects.

Prerequisite: Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

NASC5670 - Research Methodology

Credits: 4

This course provides foundational information on asking appropriate questions, researching (including IRB), writing, formatting, and defending a Plan B project. At the end of the semester students will have a committee, a preliminary draft, and present their research. Spring semester will be used to complete projects with committee members.

Prerequisite: Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

NASC5700 - Seminar in Science for Secondary School Teachers

Credits: 1-6

Max Credit (Max. 6)

A course to give graduate students in education, or in-service teachers, an in-depth view of the new materials for teaching science in secondary schools.

Prerequisite: consent of instructor.

NASC5770 - Investigation in Natural Science for Secondary Teachers

Credits: 1-5

Max Credit (Max. 10)

Deals with the design, construction, and testing of curricula materials to bring the spirit of scientific inquiry to

secondary school students. Research to be conducted in the Science and Mathematics Teaching Center.

Prerequisite: consent of instructor.

NASC5810 - ML Science & Math Practicum

Credits: 3

Practica for graduate students in the MS-Natural Science MSC and MMA programs in Middle and Junior High schools. Mathematics and science classrooms will serve as sites for assignments. Students complete assignments for the content area of certification as well as appropriate discussions.

Prerequisite: Graduate students in department who have passed at least four departmental courses or consent of the instructor.

NASC5890 - Directed Professional Study

Credits: 1-6

Max Credit (Max. 6)

Primarily for upper-division students who can benefit from independent study with minimal supervision. Given to allow interested students to pursue specific aspects of curriculum and instruction.

Prerequisite: consent of instructor and graduate standing.

NASC5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

NASC5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NASC5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NASC5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

Prerequisite: graduate standing.

NASC5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

NASC5961 - Plan B Project

Credits: 1-4
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly activities in support of their Plan B project.

Prerequisite: must be enrolled in Plan B program and have program approval.

NASC5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

School of Energy Resources

School of Energy Resources

301 Energy Innovation Center
Phone: (307)766-6879 FAX (307)766-6701

Holly Krutka, Executive Director

Website: www.uwyo.edu/ser

The School of Energy Resources facilitates interdisciplinary academic and research programs in engineering and science, economics, and environment and natural resources policy to address critical energy-related issues faced by our society.

Our mission is to leverage and add to the already significant energy-related talent and resources in the University of Wyoming colleges to develop human resources, know-how, and technical solutions to ensure a secure and sustainable energy future for the state, region, and nation.

The University of Wyoming (UW) School of Energy Resources (SER) was created in 2006 by the Wyoming Legislature through State Statute 21-17-117. Our goal is to enhance the university's energy-related education, research, and engagement. SER directs and funds cutting-edge energy research and technology development, which integrates with the formulation and conduct of academic programs at UW and bridges academics and industry through targeted engagement efforts. The bridges formed between academics and industry ensure programs are relevant, current, and deliver impact and high value to stakeholders and the state. Since its inception in 2006, SER has maintained flexibility in its focus and structure to meet the changing needs of Wyoming's energy industries and the state's economy which is now more critical than ever.

Professors:

TIMOTHY J. CONSIDINE, B.A. Loyola University 1975; M.S. Purdue University 1977; Ph.D. Cornell University 1981; SER Professor of Energy Economics 2008.

CRAIG C. DOUGLAS, A.B. Chicago University 1977; M.S. Yale University 1978; M.Phil. 1980; Ph.D. 1982; SER Professor of Mathematics 2008.

MAOHONG FAN, B.S. Wuhan University of Science and Engineering, 1984; M.S. Beijing University of Science and Technology, 1992; Ph.D. Chinese Academy of Sciences, 1997; Ph.D. Iowa State University, 2000; Ph.D. Osaka University 2003; SER Professor of Chemical Engineering 2015, 2008.

JOHN P. KASZUBA, B.S. Beloit College, 1982; M.S. Virginia Polytechnic Institute & State University 1986; Ph.D. Colorado School of Mines, 1997; SER Professor Geology & Geophysics, 2019, 2008.

SUBHASHIS MALLICK, B.Sc. Indian Institute of Technology 1976; M.Sc. 1978; Ph.D. University of Hawaii 1987; SER Professor of Geology & Geophysics 2008.

BRUCE A. PARKINSON, B.S. Iowa State University 1972; Ph.D. California Institute of Technology 1977; SER Professor of Chemistry 2008.

TARA RIGHETTI, B.A. University of Colorado Boulder 2005; J.D. 2007; SER Professor of Law 2020, 2017, 2014.

Associate Professors:

PO CHEN, B.S. Beijing University 2000; Ph.D. University of Southern California 2005; SER Associate Professor of Geology and Geophysics 2014, 2008.

DARIO GRANA, B.S. University of Pavia, 2003; M.S. 2005; M.S. University of Milano Bicocca, 2006; Ph.D. Stanford University, 2013; SER Associate Professor of Geology and Geophysics 2019, 2013.

Academic Professional:

KRISTOPHER KOSKI, B.S. Colorado School of Mines, 2005; J.D. University of Wyoming, 2008; Associate Lecturer 2017.

Accreditation

All programs at the University of Wyoming are accredited by The Higher Learning Commission, a commission of the North Central Association of Colleges and Schools Commission on Institutions of Higher Education. In addition, the Professional Land Management Concentration is one of only a few programs accredited nationally by the American Association of Professional Landmen.

Graduates from the PLM program are afforded the opportunity to sit for the Registered Landman exam. Individuals with certification can increase their salary by 20% on average. Visit landman.org to learn more.

SER Vision Statement

SER pursues the creation, sharing, and implementation of technology and knowledge for sustainable economic production of Wyoming's natural resources to generate additional employment and revenue opportunities for the state that include supply of clean energy and materials and products.

SER Mission Statement

The School of Energy Resources' academic mission is to ensure students within its interdisciplinary academic programs can illustrate a foundational understanding of fundamentals relative to energy companies and systems. In order to prepare students to meet the demands of the modern-day workforce, students will utilize critical thinking skills, negotiation techniques, and problem-solving methods applicable to a diverse array of energy projects.

Program Admission

Undergraduate students will apply for admission to the University of Wyoming and then declare a major or minor within SER at any point during their course of study. To declare a major, students must meet with the SER academic advisor. Any student can add the SER minor without meeting with an SER advisor.

One of the most important challenges of the 21st century will be to develop and manage energy resources in a sustainable manner. Projections show energy consumption worldwide will increase nearly 50 percent by 2035. And half of the leadership in the energy industries is expected to retire in the next five to ten years.

The future of energy will be characterized by increasing knowledge, relentless change, and technological innovation. As global energy industry increases in complexity, demand will dramatically grow for professionals with a multidisciplinary, entrepreneurial skillset. Future leaders must understand complex technology within the context of business, legal, social, and public policy in order to create comprehensive and sustainable solutions.

The Energy Resource Management and Development (ERMD) B.S. program is designed to fill this need through a combination of rigorous courses, real-world internships, and undergraduate research experiences. The curriculum balances depth of learning with the breadth of understanding to train graduates for sustained competitive success in the energy workforce at the frontiers of knowledge and for self-directed, life-long learning. Students learn to focus on continuous improvement, constant assessment, and the importance of a sense of urgency and consideration of profit motive in the energy industry

Our program emphasizes career planning and provides constant one-on-one guidance and assistance to ensure optimal workforce placement. Students are strongly encouraged to complete an industry internship (the minimum GPA requirement is typically 3.000). Opportunities are also available for undergraduate research, a study abroad experience, or a summer field trip. Multiple events during the year connect students to energy industry professionals.

General Policies

- A minimum 2.00 UW GPA is required to apply for the minor.
- It is the student's responsibility to monitor requirements for the minor, along with their advisor.
- Additional courses may be required to meet individual course prerequisites.
- All classes in the minor must be passed with a grade of "C" or better.

Student Learning Outcomes

The School of Energy Resources was created in 2006 to enhance the University of Wyoming's energy-related education, research, and outreach. The Energy Resource Management and Development Program is designed to meet the demands of the energy workforce and enhance social literacy related to complex energy issues. Competency-based learning that integrates problem-solving, critical analysis of uncertain and complex issues, and constant improvement in performance are overarching components of our undergraduate program.

Energy Resource Management and Development B.S. Program Learning Outcomes:

- Identify or describe fundamental concepts of energy systems.
- Illustrate a foundational understanding of business fundamentals relative to energy companies, including organizational structure, management, entrepreneurship, and international commerce.
- Make use of critical thinking and problem-solving methods within a written group energy project.

Energy and Environmental Systems Concentration Learning Outcomes:

- Outline the skills in environmental monitoring and compliance.
- Explain energy regulation and management.
- Demonstrate the necessary skills related to the physical and social science dimensions of sustainability.

Professional Land Management Concentration Learning Outcomes:

- Apply concepts and skills to real-world problems to gain practical understanding and experience.
- Identify and navigate a valid real property transaction from contract to transfer of title.
- Define and navigate the legal and regulatory hurdles for energy development on federal, state, and fee lands.

Energy Resource Management Minor Learning Outcomes:

- Gain appreciation and understanding of fundamental concepts of energy systems.
- Acquire a foundational understanding of the commercial aspects of energy industries.
- Exhibit critical thinking and problem solving related to energy and environmental problems.
- Apply knowledge of energy technology to societal problems requiring economic and policy analysis while working in a multidisciplinary environment.

Minor

Students looking to create a focus for their coursework can add minors to the ERMD program. Courses applying towards the minor must be completed with a grade of "C" or better.

Students not already majoring in BS-Energy Resource Management and Development may add the SER minor to their program of study. More information can be found on the SER website: <http://www.uwyo.edu/ser/academic-programs/minor-erm.html>

Major

Energy Resource Management and Development, Energy & Environmental Systems Concentration, B.S.

ERMD EES Concentration

EES majors can become environmental scientists who collect samples of air, soil, & water to identify environmental impacts, resolve environmental threats, & provide guidance on quality regulation and manage natural resources.

University Studies Program Requirements

The University Studies Program 2015 develops a student's foundational knowledge to prepare them for the Bachelor of Science degree program. Some of the categories of USP will be completed by completing the degree requirements as outlined below. Students should review their degree audits carefully to ensure that USP requirements are completed. Students transferring with a qualifying associate degree will have most of the lower division portion of the USP requirement waived. For more information about qualifying earned associate degree, see the "Articulation: Earned Associate Degrees" information in this catalog.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

EES Curriculum

Students must earn a letter grade of C or better in each course and a cumulative GPA of 2.000 or better.
Students will complete 120 credit hours for the BS in Energy Resources Management and Development.

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

AGEC1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed ECON 1020.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

DSCI4260 - Project Management

Credits: 3

Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

ECON1300 - Oil: Business, Culture, and Power

Credits: 3

A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

ENGL1010 - College Composition and Rhetoric

Credits: 3

A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA

USP 2015 Code U5C1

ENR1000 - Energy and Society

Credits: 3

Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.

USP 2003-2014 Code U3O

USP 2015 Code U5PN

ENR4750 - ENR Law and Policy

Credits: 3

Explores the policy underpinnings of environmental and natural resource issues and the legal responses to these problems. Students will gain a basic understanding of: (1) the causes of environmental problems, including energy, water, wildlife, and other western land use issues; (2) the range of policy and instrument choices; and (3) the approaches actually taken in current laws. Students also will apply the law in an interdisciplinary, problem-based learning context.

Dual Listed ENR 5750.

Prerequisite: ENR 2000 and upper division standing or permission of instructor.

ERS3010 - Air Quality Management

Credits: 3

Provides an overview of air quality management approaches. In this course an interdisciplinary approach is adopted that includes diverse information from physical, natural and socioeconomic systems. With consideration of global and local issues this class focuses upon the energy sector.

Prerequisite: CHEM 1000 or CHEM 1020 and WA or COM1.

ERS4120 - Federal Public Land Law

Credits: 3

Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

FIN2100 - Principles of Finance

Credits: 3

Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200 , and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

GIST1200 - Geospatial Foundations

Credits: 3

Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

Former Course Number GIST 1100

GIST2310 - Intro to Geographic Information Systems

Credits: 4

Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number GIST 2100

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

LIFE2023 - Biology of Plants and Fungi

Credits: 4

An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).

Former Course Number [BIOL 2023]

Prerequisite: LIFE 1010 with a grade of C or better.

LIFE3400 - General Ecology

Credits: 3

Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

REWM2000 - Principles of Rangeland Management

Credits: 3

Basic principles of range management as they apply to various regions and vegetative types. Relationship of range management practices to livestock production, wildlife management, forestry, hydrology and other land uses. Introductory course for majors and non-majors.

Prerequisite: LIFE 1101 or LIFE 1010.

REWM2400 - Range Ecosystems and Plants

Credits: 4

Ecology of range ecosystems of western North America and identification of 200 most common plants species, including taxonomic keying.

Former Course Number [2500]

Prerequisite: REWM 2000 with a grade of C or better.

REWM3100 - Principles of Wildland Water Quality

Credits: 3

Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

Cross Listed ENR 3100.

When Offered (Normally offered fall semester)

Prerequisite: CHEM 1000.

REWM4200 - Reclamation of Drastically Disturbed Lands

Credits: 3

Overviews reclamation of drastically disturbed lands in the west, emphasizing surface mined lands. Includes principles of ecology, agronomy, soils and other relevant disciplines as applied to mitigate adverse environmental impacts of land disturbance.

When Offered (Normally offered fall semester)

Prerequisite: LIFE 3400, AECL 2100.

REWM4580 - Rangeland Restoration Ecology

Credits: 3

Detailed analysis of various disturbed ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic influences on degradation and strategies for vegetative rehabilitation. Strong focus on current research to formulate restoration strategies.

Dual Listed REWM 5580.

Prerequisite: REWM 4200 or LIFE 3400.

REWM4700 - Wildland Watershed Management

Credits: 3

Studies hydrological cycle with specific emphasis on the role of vegetation in hydrologic processes such as interception, surface detention storage, infiltration, percolation, run-off, and water quality. Utilization of watersheds and vegetation manipulation practices to modify these hydrologic processes.

When Offered (Normally offered spring semester)

Prerequisite: LIFE 1101 or LIFE 1010.

OR

REWM4710 - Watershed Water Quality Management

Credits: 3

Studies watershed processes controlling water quality. Examines impacts of land use activities such as agriculture production, livestock grazing, and mineral and natural gas extraction on surface water and ground water quality. Emphasis will be placed on water quality modeling and management.

Dual Listed REWM 5710.

When Offered (Normally offered spring semester)

Former Course Number [4180]

Prerequisite: CHEM 1000.

SOIL2010 - Introduction to Soil Science

Credits: 4

Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE

Prerequisite: CHEM 1000 or CHEM 1020.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces

statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

COM2 Elective, Pick ONE

COMM2010 - Public Speaking

Credits: 3

Beginning public speaking course. Students will develop foundational oral, digital and written communication skills. Emphasizes message construction, performance and critique in public communication settings. Includes speech preparation, listening, audience analysis, writing strategies, digital communication, critical thinking, language/nonverbal behavior and various speaking formats. (Offered fall, spring and summer).

USP 2003-2014 Code U3O

USP 2015 Code U5C2

Former Course Number COJO 2010

Corequisite: Prerequisite: Successful completion of a COM1 course.

ECON2400 - Economics of the Environment

Credits: 3

This introductory course examines the links between economics and the natural environment. We consider the efficient use of natural resources like minerals, forests, and fisheries. We also explore how to use economics to sharpen environmental policy for challenges like water and air pollution, climate change, and biodiversity protection.

When Offered (Offered based on sufficient demand and resources)

USP 2003-2014 Code U3G, U3WB

USP 2015 Code U5C2

A&S College Core 2015 ASG

Prerequisite: ECON 1010 recommended, ECON 1020 required.

ENGL2005 - Writing in Technology and the Sciences

Credits: 3

Develops writing styles specifically suited to technological and scientific fields of study. Includes focus on disciplinary

conventions and styles as well as audience/readership considerations. Introduces techniques for data interpretation and visualization, and helps students analyze, understand, and adapt common field genres and formats.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: successful completion of WA/COM1.

ENR2000 - Environment and Society

Credits: 3

Develops understanding of the nature and dimensions of environmental and natural resource issues. Explores ways in which elements of society approach, evaluate, and develop positions relative to environmental issues. Uses case studies to illustrate the contemporary and historical role of individuals and societies in identifying and addressing environmental issues at scales ranging from local to global.

USP 2003-2014 Code U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

ENR2450 - Fish and Wildlife Management in the Anthropocene

Credits: 4

Course examines fundamental principles in management of natural resources, especially fish and wildlife populations. Students explore historical to contemporary context of management, population biology, management tools and their application, career opportunities, with specific emphasis on human dimensions, law, and policy. Students will develop oral and written communication skills.

Cross Listed ZOO 2450.

USP 2015 Code U5C2

Prerequisite: LIFE 1010, LIFE 2022, and COM1.

ENR3300 - Environmental Policy, Conservation and Development in India

Credits: 3

This course will focus on India's environmental policies pertaining to conservation and development. Case studies will be used to understand how these policies were developed, put in place, and their intended and actual outcomes. Students are required to select a suitable topic and conduct research and submit a research report.

USP 2015 Code U5C2

Prerequisite: WA/ COM1 course.

ERS2500 - Communication Across Topics in Energy

Credits: 3

Students will develop interdisciplinary communication skills from an Energy Resources perspective. Communication will include oral, digital, and written forms. Audiences for communication projects will often be live, and from a variety of backgrounds.

USP 2015 Code U5C2

Prerequisite: WA/COM1.

GEOL2220 - Communicating Earth Science

Credits: 3

This course will focus on communicating science to non-scientists. Students will deliver earth science information through written, digital and oral presentations to be informative and interesting to the public.

USP 2015 Code U5C2

Prerequisite: grade of C or higher in GEOL 2010, COM1.

HP2020 - Honors Colloquium II

Credits: 3

Max Credit 3

Honors Colloquium II is the second course in a two-semester sequence introducing students to the Honors College and to interdisciplinary modes of inquiry and expression through intensive analytical reading and writing, lectures, Scholars Sessions, and experiential learning.

USP 2003-2014 Code U3O, U3WB

USP 2015 Code U5C2

Prerequisite: WA. COM I

UWYO1600 - Veterans Transition Course

Credits: 1

Provides returning veterans skills for successful transition to college and civilian life. Reviews tools for academic success, resources available to the veteran, information on veteran related challenges, and career planning resources. Students will develop skills in written, oral, and digital communication.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3I,U3L

USP 2015 Code U5C2

Prerequisite: Students must be a U. S. military veteran or an active duty military member.

COM3 Elective-Pick ONE

AGEC4965 - Agribusiness Entrepreneurship

Credits: 3

Designed for students preparing to launch or work with an entrepreneurial venture. Students develop a business plan, synthesizing knowledge of agricultural economics, agribusiness management and finance, human resources and accounting. Emphasis is placed on advancing student professional communication abilities for agribusiness management careers.

USP 2003-2014 Code U3WC

Prerequisite: senior standing, WB/COM2 writing course and AGECE 2020, or AGECE 4500, or AGECE 4060, or FIN 2100.

AGRI4600 - Developing Organizational Leadership

Credits: 3

A senior capstone experience for Bachelor of Applied Science students, bringing together reading, research, writing, and communication skills to focus on a major project. Leadership skills and approaches to organizational problem-solving are deepened using the structural, human resource, political, and symbolic frames to change and improve leadership and organizational culture.

USP 2015 Code U5C3

Prerequisite: COM1, COM2, AGRI 3000, and senior status.

BOT4100 - Scientific Communication

Credits: 2

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed ZOO 4100.

USP 2003-2014 Code U3L, U3WC

USP 2015 Code U5C3

A&S College Core 2015 Preference given to seniors.

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course.

COJO3010 - Business and Professional Communication

Credits: 3

Studies theories and techniques of professional communication activities including interviewing skills, group processes, and professional presentations; for students who are beyond elementary oral communication level. Students develop oral communication skills through projects and presentations.

USP 2015 Code U5C3

Prerequisite: COJO 1010 or COMM 2010 and junior standing.

ENGL3020 - Culture, Communication, Work

Credits: 3

Examines individual identity and group cultures, and how they influence communication in the workplace. Helps students develop strategies for working across cultural differences and for effective negotiation and conflict resolution skills.

USP 2003-2014 Code [(none)< >COM3]

Prerequisite: Completion of COM2.

ENGL4010 - Technical Writing in the Professions

Credits: 3

Enhances professional writing skills applicable to a variety of professions. Includes audience analysis and adaptation, information design and use of visuals, and a range of formats and genres. Emphasizes clarity and precision of language. May feature primary research and problem-based or service-learning projects.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: WA and WB/COM1 and COM2; junior or senior standing.

ENGL4030 - Writing for Magazines

Credits: 3

Students write a variety of articles that would be appropriate for submission to a magazine. Feedback is given through class workshops and consultation with the instructor. Award-winning articles are read and discussed. The business aspect of magazine writing is also covered.

Prerequisite: COM1, COM2, and junior standing.

ENGL4040 - Rhetoric, Media, and Culture

Credits: 3

This class will guide us through the ways in which popular culture shapes the way that we view ourselves and other, and gives us a vocabulary to describe this phenomenon, critique it, and even push back against it.

USP 2003-2014 Code [(none)<>COM3]

Prerequisite: COM1 and COM2.

ENGL4075 - Writing for Non-Profits

Credits: 3

Designed for students interested in working in the non-profit sector. Explores rhetorical, political, and social dimensions of writing and communicating in the non-profit world and features intensive study of special topics and problems related to non-profit communication, including activism, grant writing, organizational rhetoric, and non-profit genres. Content varies.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: WB/COM2.

ENR4900 - Capstone in ENR

Credits: 3

An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

Dual Listed ENR 5900.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: ENR 3000.

Concurrent ENR majors must take ENR 4900

ESS4950 - Exploring the Earth System

Credits: 3

Conduct critical and interdisciplinary assessments on complex topics addressing physical, biological, and human components of the Earth System. Through multiple written, oral, and digital communication products, students will work independently and collaboratively to critically review existing literature, define knowledge gaps, analyze evidence, and synthesize results for multiple audiences.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: ESS 1000 and either ESS 3480 or ENR 3450.

POLS4840 - Seminar in Public Law

Credits: 3

Max Credit (Max. 6)

Includes reading and research on selected problems in public law.

Dual Listed POLS 5840.

USP 2015 Code U5C3

Prerequisite: 9 hours of political science or related fields including POLS 1000 and consent of instructor.

REWM4900 - Rangeland Management Planning

Credits: 3

Applies planning processes that integrate soil, vegetation, water, livestock, wildlife, and environmental regulatory considerations within the context of satisfying ecologically sustainable rangeland management objectives.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: REWM 4830, ECON 1010 or AGECE 1010 or AGECE 1020, SOIL 4120 or SOIL 4150 (may be concurrent), REWM 3020 (may be concurrent), REWM 4330 (may be concurrent).

ZOO4100 - Scientific Communication

Credits: 2

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4100.

USP 2003-2014 Code U3L,U3WC

USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

Chemistry Elective- Pick ONE (USP:PN for all listed)

CHEM1000 - Introductory Chemistry

Credits: 4

Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1050 - Advanced General Chemistry I

Credits: 4

First semester of a one-year series covering chemical principles. Emphasizes inorganic chemistry and briefly discusses qualitative analysis. Credit not given for more than one of CHEM 1020, 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: one year high school chemistry, and an ACT Math score of 27 or higher or concurrent enrollment in MATH 2200.

Economics Elective- Pick ONE

AGEC3750 - Natural Resource Planning and Economics

Credits: 3

Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed ENR 3750.

Former Course Number [4750]

Prerequisite: QA/Q, WA/COM1 and junior standing.

AGEC4600 - Community Economic Analysis

Credits: 3

Analysis of regions and rural communities; their problems, socioeconomic characteristics, land use and economic development. Provides training in regional economic analysis, fiscal impact analysis and benefit cost analysis.

Dual Listed AGEC 5600.

USP 2015 Code U5H

Prerequisite: ECON 3010, ECON 3020, and MATH 1400.

AGEC4700 - Economics of Range Resources

Credits: 3

Applies economic and decision theory to management and allocation of public and private range resources.

When Offered (Normally offered spring semester)

Prerequisite: AGEC 1020 or equivalent.

AGEC4720 - Water Resource Economics

Credits: 3

Presents principles and procedures appropriate to water resource allocation and development decisions. Studies agricultural, recreational, industrial and other uses of water.

Prerequisite: AGEC 1020 or equivalent; QB course, WB course; senior standing.

ECON4420 - Seminar: Economics for ENR

Credits: 2-4

For students with little or no background in economics interested in economic perspectives on ENR. Emphasis is on integrated ecology-economics approach to investigate the economics environmental services, biological resources, and the ecosystems that contain them. CBEC and ECON majors cannot earn upper-division economics credit for this

course.

Prerequisite: successful completion of Q and senior standing.

ERS3400 - Energy Markets & Policy

Credits: 3

This course provides an economic analysis of recent developments in energy markets and policies.

Cross Listed ECON 3400.

Prerequisite: ECON 1000, ECON 1010, ECON 1020, ECON 1200, ECON 1300, ECON 1400, or ERS 1300.

Negotiation Elective-Pick ONE

AGEC4450 - Negotiation

Credits: 3

Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed ENR 4450.

Dual Listed AGEC 5450.

Prerequisite: completion of USP O/COM2 requirement; junior standing.

AGEC4550 - Negotiation Analysis

Credits: 3

Focuses on using an analytical perspective for maximizing joint gains between negotiators. Students learn analytical techniques to prepare for negotiation, evaluate options and proposals during a negotiation, and evaluate negotiated outcomes with respect to maximization of joint gains and fairness criteria.

Cross Listed ENR 4550.

Dual Listed AGEC 5550.

Prerequisite: QA/Q.

Data Analysis Elective-Pick ONE

ENR4500 - Risk Analysis

Credits: 4

Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty; and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.

Dual Listed ENR 5500.

USP 2003-2014 Code U3QB

Prerequisite: MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.

ENR4525 - Environmental Data Analysis

Credits: 4

Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.

Cross Listed GEOL 4525/GEOL 5525.

Dual Listed ENR 5525.

Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

ES1060 - Introduction to Engineering Problem Solving

Credits: 3

An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

GEOL2120 - Quantitative GeoMethods

Credits: 3

Focuses on fundamental mathematical concepts used in geosciences. This course provides the tools to solve quantitative problems in geosciences applications. Students should demonstrate mathematical skills needed to formulate, analyze, and interpret quantitative arguments in geosciences.

USP 2003-2014 Code U5Q

Prerequisite: Level 5 in Math Placement Test OR 23 in Math ACT OR 600 in Math SAT.

GEOL4250 - Mathematical Geosciences

Credits: 3

The purpose of this course is to strengthen the quantitative skills of students in geosciences by reviewing basic concepts of linear algebra, precalculus, derivation and integration through applications to real datasets and problem sets, and introducing basic concepts of inverse theory, spatial science, data analytics, and geostatistics. The examples focus on applications to practical geoscience problems.

Dual Listed GEOL 5250

Prerequisite: MATH 1400 and 1405 or consent of instructor.

GEOL4525 - Environmental Data Analysis

Credits: 4

Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real world problems in data analysis.

Cross Listed ENR 4525/ENR 5525.

Dual Listed GEOL 5525.

Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

GIST4211 - Advanced Remote Sensing

Credits: 3

On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

Dual Listed GIST 5211.

Former Course Number [BOT 4211; GEOG 4211]

Prerequisite: GIST 3111 or GIST 4130.

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

STAT3050 - Statistical Methods

Credits: 3

Provides undergraduate majors in the Colleges of Arts and Sciences, Agriculture and Education with training in statistical methodology for multiple variable situations. Integrates computer analysis packages such as R MINITAB, SAS and SPSSX into statistical topics. Credit cannot be earned in more than one of the following courses: STAT 2110, 3050 and STAT 5050, 5060, STAT 5070, STAT 5080.

Prerequisite: STAT 2050, STAT 2070 or equivalent.

ZOO4400 - Population Ecology

Credits: 3

Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.

Dual Listed ZOO 5400.

When Offered (Offered spring semester)

Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

Technical Elective- Pick ONE

ENR3000 - Approaches to ENR Problem Solving

Credits: 3

Provides an introduction to environmental and natural resources problem solving and decision making. Students learn how scholars and practitioners define and structure ENR problems for management and policy decision making. Additionally, students learn approaches, processes and techniques that address problems analytically and in a values-oriented context.

USP 2003-2014 Code U3CS, U3WB

USP 2015 Code U5H

Former Course Number [4000]

Prerequisite: ENR 2000.

ENR3050 - Cultures of Nature in the United States

Credits: 3

Uses artistic, philosophical, historical and literary material to investigate how ideas about and representations of nature have changed over time in the U. S. Culminates in an examination of a wide range of contemporary environmental ideas within this broad historical and cultural context.

Cross Listed AMST 3050/GWST 3050.

Prerequisite: 2000-level course in one of the following departments: AMST, American history, American literature, or a 2000-level course approved for the ENR program.

ENR3100 - Principles of Wildland Water Quality

Credits: 3

Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

Cross Listed REWM 3100.

When Offered (Normally offered fall semester)

Prerequisite: CHEM 1000.

ENR3130 - Environmental Quality

Credits: 3

Introduction to environmental quality issues and events. Course emphasizes impacts to soil, water, atmospheric, and vegetative ecosystems due to different nutrients and contaminants, including nitrogen, phosphorus, sulfur, trace elements, and organic chemicals. Current information pertaining to environmental quality is discussed and a field trip to the Union Pacific Tie Plant.

Cross Listed SOIL 3130.

When Offered (Offered fall semester)

Prerequisite: complete at least 1 University Studies Science course SB, SP or SE.

ENR3300 - Environmental Policy, Conservation and Development in India

Credits: 3

This course will focus on India's environmental policies pertaining to conservation and development. Case studies will be used to understand how these policies were developed, put in place, and their intended and actual outcomes. Students are required to select a suitable topic and conduct research and submit a research report.

USP 2015 Code U5C2

Prerequisite: WA/ COM1 course.

ENR3450 - Weather and Climate

Credits: 3

Systematically examines elements and controls of weather and climate with application to regions.

Cross Listed GEOG 3450 and GEOL 3450

When Offered (Normally offered fall semester)

Former Course Number [G&R 3450]

Prerequisite: GEOG 1000, GEOG 1010 or GEOG 1020.

ENR3620 - Environmental Justice

Credits: 3

Examines core philosophical understandings of justice and applies them to the environment through a variety of case studies, analytical essays and monographs.

Cross Listed POLS 3620.

Prerequisite: POLS 1000, POLS 2460, or POLS 3600, or permission of instructor.

ENR3700 - Wyoming Conservation Corps Practicum

Credits: 1
Max Credit 2

Required for students entering the WCC. Students will be required to make weekly journal entries and write a paper on a topic germane to their WCC experience. Additionally, necessary training for the Wyoming Conservation Corps program will be included in the course content.

Prerequisite: Acceptance into the Wyoming Conservation Corps program.

ENR3750 - Natural Resource Planning and Economics

Credits: 3

Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed AGEC 3750.

When Offered (Offered spring semester of odd-numbered years)

Former Course Number [4750]

Prerequisite: QA, WA and junior standing.

ENR3900 - Seminar in Environment and Natural Resources

Credits: 1-3
Max Credit 12

Examines research and policy perspectives by a variety of authorities on selected environment and natural resource problems and issues.

Prerequisite: ENR 3000 or consent of instructor.

ENR3950 - Environmental Sociology

Credits: 3

Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed SOC 3950.

Prerequisite: SOC 1000.

ENR4010 - Winter Ecology: Skills of the Winter Naturalist

Credits: 1

Emphasizes field naturalist skills, the effects of winter abiotic conditions on organisms and subsequent adaptations to these conditions, animal tracking, introduction to snow dynamics and winter safety.

Prerequisite: 6 hours of ENR or science courses.

ENR4011 - Winter Ecology: Snowpack Science and Dynamics

Credits: 1

Emphasizes snow science and avalanche safety through lectures and inquiry-based field laboratories.

Prerequisite: 6 hours of ENR or science courses.

ENR4012 - Winter Ecology: Wildlife and Plant Adaptations

Credits: 1

Emphasizes animal and plant adaptations to cope with the stresses of winter, as well as the predicted impacts of climate change, through lectures and inquiry-based field laboratories. Students also conduct field research in a winter environment.

Prerequisite: 6 hours of ENR or science courses.

ENR4030 - Ecology of Knowledge

Credits: 3

Examines the development of "disciplines" and explores definitions, theories, methods and practices of interdisciplinary work.

Cross Listed AMST 4030.

Dual Listed ENR 5030.

Prerequisite: 3 hours in any interdisciplinary program.

ENR4040 - Conservation of Natural Resources

Credits: 3

Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed BOT 4040/GEOG 4040.

USP 2003-2014 Code U3CS

Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

ENR4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, POLS 4051, GEOG 4051 and REWM 4051.

USP 2003-2014 Code U3WC

Prerequisite: POLS 1000.

ENR4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/AMST 4052/GEOG 4052/REWM 4052.

Prerequisite: POLS 1000.

ENR4240 - Disease Ecology

Credits: 3

Introduction to 1) how interactions among species, ecosystems, human systems, and abiotic components of the environment affect patterns and processes of disease, and 2) considerations for coevolution of hosts and pathogens, conservation biology, models used to understand disease dynamics, and approaches to manage and control disease in animals, plants, and humans.

Cross Listed PATB 4240.

Dual Listed ENR 5240.

Prerequisite: LIFE 2022 or LIFE 2023 and STAT 2050 or STAT 2070.

ENR4285 - Wildland Hydrology

Credits: 3

Teaches essential and unique characteristics of hydrologic cycle as occurs on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed REWM 4285.

Dual Listed ENR 5285.

Prerequisite: University Studies QA.

ENR4310 - Environmental Anthropology

Credits: 3

Addresses how human societies interact with their surroundings, emphasizing cultural understandings of the environment. Introduces variety of theoretical and methodological approaches to topics ranging from problems of the American West to global environmental change.

Cross Listed ANTH 4310.

Dual Listed ENR 5310.

When Offered (Normally offered every third semester)

Prerequisite: ANTH 1200.

ENR4412 - Global Environment History

Credits: 3

This course is designed to introduce undergraduate and graduate students to the new field of global environmental history. The Global Environmental History course will provide a new way of looking at humans, animals, and the lives they've built in the environment and the costs of their decisions to the environment.

Cross Listed HIST 4412.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or ENR.

ENR4420 - Conservation Biology

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ZOO 4420.

Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ENR4430 - Green Chemistry and Global Environmental Problems

Credits: 3

Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CE 4430/CHE 4430.

Prerequisite: CHEM 1020.

ENR4500 - Risk Analysis

Credits: 4

Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty; and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.

Dual Listed ENR 5500.

USP 2003-2014 Code U3QB

Prerequisite: MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.

ENR4525 - Environmental Data Analysis

Credits: 4

Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.

Cross Listed GEOL 4525/GEOL 5525.

Dual Listed ENR 5525.

Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

ENR4560 - Conservation Entrepreneurship

Credits: 3

Max Credit 3

This course introduces students to foundational concepts in social entrepreneurship applies them to environmental conservation issues. Students will learn the legal, financial, and ecological concepts underpinning entrepreneurial approaches to conservation. Students will apply concepts to real world examples to understand the strength and weaknesses of these approaches.

Dual Listed ENR 5560.

Prerequisite: ENR 3000

ENR4600 - Campus Sustainability

Credits: 3

Uses campus as a setting to explore long-term environmental, economic, and social sustainability theory and practice. Students design and implement a semester-long project to improve sustainability of the UW campus. This is an interdisciplinary course and is appropriate for students of all disciplines.

Dual Listed ENR 5600

Prerequisite: USP WB or COM2 course, junior or senior standing.

ENR4700 - Media, Science, and Society

Credits: 3

This course discusses why scientific, health, and environmental issues are covered in particular ways in media. We will also examine how these messages impact people's attitudes, opinion, knowledge, and emotions about science, health, and the environment.

Cross Listed COJO 4700.

Dual Listed ENR 5700.

Prerequisite: COMM 1000 or ENR 1200 or ENR 1500 or ENR 2000.

ENR4800 - Historic Preservation

Credits: 3

Review of the roots of historic preservation in Western culture with an emphasis on the historical and legal context of architectural conservation in America. Current issues in preservation are examined through case studies and guest presentations.

Cross Listed AMST 4800.

Dual Listed ENR 5800.

Prerequisite: ARE 3020 or AMST 5400.

ENR4890 - Topics in Environment and Natural Resources

Credits: 1-6

Max Credit (Max. 12)

Special topics in environment and natural resources are offered under this number. The specific subject matter varies each year because the course is normally taught by faculty who wish to present a specialized topic of interest to ENR and other students. Check class schedule for specific topics offered each year.

Dual Listed ENR 5890.

Former Course Number [4990]

Prerequisite: ENR 3000 or permission of the instructor.

ENR4900 - Capstone in ENR

Credits: 3

An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

Dual Listed ENR 5900.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: ENR 3000.

ENR4950 - Leadership in Natural Resources Management

Credits: 2

Provides Crew Leaders in the Wyoming Conservation Corps with an understanding of the complex dynamics of natural resources management while also equipping students with the tools to confidently lead groups of students on conservation-oriented service-learning projects on Wyoming's public lands during the summer months.

Cross Listed ERS 4950.

Dual Listed ENR 5950.

Prerequisite: ENR 3700 and consent of instructor.

ENR4960 - Field Studies in:

Credits: 1-6

Field-based courses in Environment and Natural Resources are taught under this number. The specific subject matter varies depending upon the location and content of each courses. Students frequently need to apply in advance.

Prerequisite: 6 credits of ENR coursework.

ENR4970 - ENR Internship

Credits: 1-6

Max Credit (Max. 6)

Provides practical experience in environmental and natural resource policy, management and decision processes, as well as interaction with professionals in the field. Offered S/U only.

Prerequisite: ENR 3000.

ENR4975 - Independent Study

Credits: 1-6

Max Credit (Max. 6)

Offers students the opportunity to independently complete special academic studies under direction of a faculty member. Readings, papers, and projects are completed as directed.

Dual Listed ENR 5975.

Prerequisite: 6 credits in ENR.

GEOG3010 - Geomorphology of Earth's Dynamic Landscapes

Credits: 3

A Systematic exploration of Earth's surface, emphasizing the geographic distribution of various landforms and their evolution over time. Introduces general geomorphic principles and describes the application of these principles to specific landscape features. The processes that drive landscape change are examined through case studies, computer-based mapping exercises, and basic calculations.

Former Course Number [G&R 3010]

Prerequisite: Either GEOG 1010 or GEOL 1500 or equivalent.

GEOG3030 - Geography and Development

Credits: 3

Examines distribution of wealth and poverty in the world; theories of development, from traditional modernization theories through Marxist critiques and sustainable development; and case studies from around the world of development successes and failures, chosen to illustrate and illuminate theories of development.

USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG
Former Course Number [G&R 3030]

Prerequisite: GEOG 1000 or GEOG 1020 or 3 credit hours of social science with global focus.

GEOG3050 - Economic Geography

Credits: 3

Economic Geography is the study of the location, distribution and spatial organization of economic activities across the globe; specifically how the economic realm is intertwined with other spheres of international social life. It explores the inherent logics and mechanisms of the capitalist system, and the social and spatial inequalities that result.

Former Course Number [G&R 3050]

Prerequisite: 6 hours of Social Sciences or International Studies.

GEOG3400 - Traditional Ecological Knowledge

Credits: 3

Description of the interaction between economy, religion, language and the ecosystem for select indigenous peoples and discussion of the pedagogical methods for preserving their ecological knowledge. An examination of the conflict between contemporary society's demands and preserving traditional society's heritage.

Cross Listed NAIS 3400.

USP 2003-2014 Code U3CS, U3D

A&S College Core 2015 ASD

Prerequisite: one course in American Indian culture.

GEOG3450 - Weather and Climate

Credits: 3

Systematically examines the patterns and process of Earth's climate system, focusing on atmospheric and surface energy and water balances; atmospheric motion; past, present, and future climate change.

Cross Listed ENR 3450 and GEOL 3450

Former Course Number [G&R 3450]

Prerequisite: GEOG 1010 OR any USP PN course.

GEOG3480 - Environmental Change

Credits: 3

Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how

societies have responded to natural and anthropogenic environmental change.

Cross Listed ESS 3480
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [G&R 3480]

Prerequisite: GEOG 1010 or any USP PN course; and USP COM1.

GEOG3550 - Natural Hazards and Society

Credits: 3

Considers societal structures and processes as they interact with hazards in the natural environment.

USP 2003-2014 Code U3CS
Former Course Number [G&R 3550]

GEOG4000 - Terrain Analysis

Credits: 3

Studies techniques for acquiring and analyzing spatial data from maps, remotely sensed imagery and field surveys for landscape assessment. Emphasizes deriving maps that describe physical suitability of landscapes for specific human activities. Field trip required.

Former Course Number [G&R 4000]

Prerequisite: Completion of USP PN requirement or consent of instructor.

GEOG4013 - Political Geography

Credits: 3

Geographic space mediates political action and is generated by it, and spatial forms are produced by governmental agencies that must respond or adapt to emerging patterns of political disruption and tendencies of social change. Students in this course learn to think about the relationship between politics and space at multiple scales and in global context. They also develop an inter-disciplinary approach to the sub-discipline of political geography in social and historical context, and, in that sense, develop a capacity to think and act as political geographers.

Cross Listed GEOG 5013 , INST 4013, INST 5013
Prerequisite: 6 hours in social science

GEOG4040 - Conservation of Natural Resources

Credits: 3

Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed ENR 4040.
GEOL 4040
USP 2003-2014 Code U3CS
Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

GEOG4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, POLS 4051 and REWM 4051.
USP 2003-2014 Code U3WC
Former Course Number [G&R 4051]

Prerequisite: POLS 1000.

GEOG4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/AMST 4052/REWM 4052.
Former Course Number [G&R 4052]

Prerequisite: POLS 1000.

GEOG4080 - Management of Major River Basins

Credits: 3

Examines geography of water resources, including distribution, water as a resource and water as a hazard to humans. Focuses on water management case studies on the scale of major river basins in North America and elsewhere in the world.

Former Course Number [G&R 4080]

Prerequisite: Completion of the USP PN requirement or consent of instructor.

GEOG4113 - Geological Remote Sensing

Credits: 4

Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and geologic hazards.

Cross Listed GEOL 4113.

Prerequisite: GEOL 1005 or GEOL 1100 or 1200 or GEOG 1010 and MATH 1400/1405 or MATH 1450.

REWM3000 - Plant Ecophysiology/Plant Form and Function

Credits: 4

Integration of basic vascular plant anatomy, morphology, physiology within the contexts of modern evolutionary and ecological theory. Students receive in depth exposure to fluid flow, energetics, development, growth, general metabolism, and structure, and functions for plant cells, tissue and organs.

Prerequisite: LIFE 2022 or LIFE 2023.

REWM3390 - Range Judging

Credits: 2

Judging rangelands based on soil, plant and animal resources and applying science-based information to make management decisions. Participation in a field trip and UW SRM judging teams is required including Plant Team and URME. This course is intended for members of the SRM competitive Teams.

When Offered (Normally offered spring semester)

Prerequisite: C or better in REWM 2000, REWM 2400 and REWM 3020, as well as the Team Coach permission.

REWM3500 - Rangeland Plant Ecophysiology

Credits: 3

Examines plant physiological processes that have application to ecological and land management issues. Topics include carbon assimilation, water relations, mineral nutrition as applied to plant distributions, plant and system responses to grazing, as well as plant tolerance of extreme conditions including drought, excessive temperatures and changes in climate.

When Offered (Normally offered fall semester)

Prerequisite: LIFE 2022 or LIFE 2023.

REWM4000 - Poisonous Plants and Plant Toxins

Credits: 3

Plants poisonous to livestock in Wyoming and the Mountain West; identification, ecology, toxic principles, physiologic responses of animals, situations leading to poisoning, control and management to prevent losses.

When Offered (Normally offered spring semester)

Prerequisite: 12 hours of biological and chemical sciences.

REWM4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and POLS 4051.

USP 2003-2014 Code U3WC

Prerequisite: POLS 1000.

REWM4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/GEOG 4052/AMST 4052.

Prerequisite: POLS 1000.

REWM4100 - Nutritional Ecological Management of Range Herbivores

Credits: 3

Examines ecological processes and management of nutritional resources by domestic and wild rangeland herbivores. Topics include nutrient availability, nutritional demand, foraging behavior, diet composition, grazing systems, stocking rates, livestock/wildlife competition, predation, parasitism, plant toxicity, and influences on ecological condition. Students evaluate case studies and analyze nutritional data using current technologies.

Dual Listed REWM 5100.

Prerequisite: LIFE 1010 or LIFE 1020.

REWM4103 - Range and Ranch Recreation

Credits: 3

Understanding of public demands for leisure use of public and private rangelands; potential impacts on rangeland resources, ranch practices and families and other rangeland users. Students prepare public range or private ranch recreation operations plan. Graduate students assist in preparation and presentation of lecture.

Dual Listed REWM 5103.

When Offered (Normally offered spring semester)

Former Course Number [3103]

Prerequisite: C or better in REWM 2000 and CS course.

REWM4150 - Behavior Modification for Production of Grazing Herbivores

Credits: 3

Strategies for manipulation of behavior and management of the grazing herbivore will be developed from scientific and practical information. Designed to equip the student to manage for animal and natural resource production.

Dual Listed REWM 5150.

When Offered (Normally offered spring semester)

Former Course Number [3150]

Prerequisite: C or better in REWM 2000 and REWM 3020 or ANSC 3100.

REWM4285 - Wildland Hydrology

Credits: 3

Teaches essential and unique characteristics of hydrologic cycle as occurred on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed ENR 4285.

Dual Listed REWM 5285.

When Offered (Normally offered fall semester)

Prerequisite: QA

REWM4300 - Grass Taxonomy

Credits: 3

Identification of grasses and their place in range management and world agriculture.

Dual Listed REWM 5300.

When Offered (Normally offered spring semester)

Former Course Number [3320]

Prerequisite: REWM 2500 or LIFE 2023.

REWM4330 - Rangeland Ecosystem Assessment and Monitoring

Credits: 4

Assessment, monitoring, and analysis of rangeland ecosystems and processes. Students integrate sampling design, measurements of vegetation attributes, indicators of rangeland health, ecological site information, riparian and wildlife habitat values, utilization, and statistical applications to evaluate rangeland resource integrity and sustainable use. Students collect, analyze, and report data using current technologies. REWM students will be given enrollment preference.

When Offered (Normally offered fall semester)

Prerequisite: REWM 2400 and STAT 2050 or STAT 2070. Concurrent enrollment in REWM 2400 and STAT 2050 or STAT 2070 is allowed with permission.

REWM4340 - Reclamation Techniques Field Trip

Credits: 2

Provides increased comprehension of current land reclamation problems and solutions by means of a field trip to sites in region where land reclamation is occurring.

When Offered (Normally offered fall semester)

Prerequisite: REWM 4200.

REWM4440 - Applied Fire Ecology

Credits: 3

Course examines drivers and patterns of wildfire in rangeland and forested ecosystems, fire behavior, fuel characteristics, fire effects, suppression tactics and mitigation strategies, prescribed burning precautions and applications, applications/uses of fire to meet resource objectives, policies and regulations, and modeling software. Required field trips out of class time.

Dual Listed REWM 5440.

Restricted Junior standing or greater class standing required.

Prerequisite: General biology and MATH 1400 or above.

REWM4500 - Rainfall-Runoff Modeling

Credits: 3

Introduction to hydrologic modeling that teaches the foundations of model development, calibration, and interpretation. Examines the different components of the water cycle and how they are being integrated into watershed models. Equips the students with the necessary skills to parameterize hydrologic models, understand the underlying principles, and interpret model outputs.

Dual Listed REWM 5500.

Prerequisite: REWM 4285.

REWM4530 - Seminar

Credits: 1

Max Credit (Max. 2)

Discusses pertinent range management problems.

Prerequisite: REWM 2000 (earn at least a C) or ENR 4000.

REWM4540 - Problems

Credits: 1-4
Max Credit (Max. 6)

Experimental work or intensive reading and discussion on range management problems. Includes problems offered in the following areas of range management: natural resources ecology, livestock habitat, business, improvements, watershed, reclamation, extension, and international development.

Prerequisite: basic training in field of problem selected and consent of instructor.

REWM4550 - Internship in:

Credits: 1
Max Credit (Max. 4)

Supervised field experience in range management or disturbed land reclamation. No more than 4 credits.

Prerequisite: basic course work in subject selected and consent of instructor.

REWM4600 - Drone-Based Remote Sensing

Credits: 3
This class teaches the basics of remote sensing applications in environmental sciences with a focus on unmanned aerial vehicles (UAVs, aka "drones"). Students will receive training in drone operation, data collection and analysis, and will be prepared to take the FAA Remote Pilot Certification.

Prerequisite: MATH 1400 or higher

REWM4750 - Wildlife Habitat Restoration Ecology

Credits: 3
Emphasis on fundamental and applied aspects of restoration ecology for terrestrial wildlife habitats following anthropogenic and natural disturbances. Although the course overviews theoretical concepts applicable to many systems, there is a focus on applications for wildlife habitats in western North America.

Dual Listed REWM 5750.

Prerequisite: Minimum of 6 hours of Biology or Life Sciences courses.

REWM4810 - Experiments in Restoration

Credits: 2
Emphasis on the experimental design using examples from restoration science. Focus on experiments to test concepts in ecosystem science, food webs, population genetics, metapopulation biology, biodiversity and invasion, and climate change. Address topics in experimental, ecological restoration.

Dual Listed REWM 5810.

Prerequisite: STAT 2050 or equivalent.

REWM4830 - Ecological Applications for Wildland Management

Credits: 3

Emphasis on applying understanding of interactions among components of rangelands to facilitate sustainable provision of ecosystem services. The influences of stochasticity and disturbances on ecosystem structure and function will be the focus of discussion and technical writing exercises.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3WB

Prerequisite: WA, REWM 2000 (earn at least a C), LIFE 3400 (latter may be concurrent).

REWM4900 - Rangeland Management Planning

Credits: 3

Applies planning processes that integrate soil, vegetation, water, livestock, wildlife, and environmental regulatory considerations within the context of satisfying ecologically sustainable rangeland management objectives.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: REWM 4830, ECON 1010 or AGECE 1010 or AGECE 1020, SOIL 4120 or SOIL 4150 (may be concurrent), REWM 3020 (may be concurrent), REWM 4330 (may be concurrent).

REWM4990 - Undergraduate Teaching Practicum

Credits: 1

Max Credit (Max. 2)

Teaching experience in classroom or laboratory assisting faculty instructor.

When Offered (Offered based on sufficient demand and resources)

RNEW3000 - Tropical Ecology

Credits: 3

Examines the characteristics of tropical ecosystems, how they evolved, their value to humans, their present status, and current issues relating to biodiversity, deforestation, extinction, and conservation.

Prerequisite: LIFE 1101 or LIFE 1010.

RNEW4130 - Applied Remote Sensing for Agricultural Management

Credits: 3

Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn

techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed PLNT 4130/GIST 4130.

Prerequisite: QA course and 9 credit hours in student's major field and junior/senior standing or permission of instructor.

RNEW4400 - Invasive Plant Ecology

Credits: 3

Ecological impacts of invasive, non-indigenous plant species, the ecological, genetic and evolutionary hypotheses for invasiveness, as well as management strategies for invasive plant species.

Cross Listed RNEW 4400, PLNT 4400, RNEW 5400, PLNT 5400

Dual Listed RNEW 5400.

Prerequisite: LIFE 3400.

RNEW4775 - Forest Ecology

Credits: 4

Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed BOT 4775.

Prerequisite: LIFE 3400.

RNEW4800 - Undergraduate Research

Credits: 1-3

Max Credit (Max. 18)

Undergraduate student research can be an important component in the intellectual and professional development of future scientists and land managers. Undergraduate students working with a faculty member in a research capacity can register for up to 3 credit hours per semester. The student and faculty member will identify an academic outcome that is associated with their research effort, such as a research paper, oral presentation, or poster session at an appropriate venue. Instructor's permission required.

RNEW4990 - Topics in:

Credits: 1-4

Max Credit (Max. 8)

Special topics pertaining to renewable natural resource management. Intended to accommodate instruction in various specialized subjects not offered on a regular basis. Students may enroll in more than one section of this course provided topics are different.

Dual Listed RNEW 5990.

Prerequisite: consent of the instructor to pursue study of the topic.

SOIL3000 - Irrigated Agriculture

Credits: 3

Study of the complexity of plant/soil water relationships and its importance on irrigation. Soil and water relations, reference/crops evapotranspiration, and management of the water balance. Principles of chemigation, computer modeling/ monitoring included. Methods for irrigation scheduling and the importance of water use efficiency as a strategy for water conservation.

Cross Listed PLNT 3000.

Prerequisite: MATH 1400, SOIL 2010.

SOIL3130 - Environmental Quality

Credits: 3

Introduction to environmental quality issues and events. Course emphasizes impacts to soil, water, atmospheric, and vegetative ecosystems due to different nutrients and contaminants, including nitrogen, phosphorus, sulfur, trace elements, and organic chemicals. Current information pertaining to environmental quality is discussed and a field trip to the Union Pacific Tie Plant.

Cross Listed ENR 3130.

When Offered (Offered fall semester)

Prerequisite: complete at least 1 University Studies Science course SB, SP or SE.

SOIL4100 - Soil Physics

Credits: 3

Examines forms and interrelations of matter and energy in the soil environment. Primarily addresses fluxes and transformations of soil water and solutes, as well as physical properties that influence soil productivity.

Dual Listed SOIL 5100.

When Offered (Offered spring semester)

Prerequisite: SOIL 2010 or equivalent introductory soils course.

SOIL4105 - Soil Physics Laboratory

Credits: 2

Teaches students the methodology and use of equipment to measure soil physical properties in the laboratory and field. Experiments include particle size analysis, soil surface area, soil-water measurement with neutron probe and TDR, field infiltration rate, soil-water retention curve, soil pore size distribution saturated and unsaturated conductivities, soil water potential and solute breakthrough curve.

Dual Listed SOIL 5105.

Prerequisite: SOIL 2010.

SOIL4120 - Genesis, Morphology and Classification of Soils

Credits: 4

Processes of soil development and methods of description, survey and classification. Includes field trips which examine soils in the Laramie Basin and surrounding mountains.

Dual Listed SOIL 5120.

When Offered (Offered fall semester)

Prerequisite: SOIL 2010.

SOIL4130 - Chemistry of the Soil Environment

Credits: 3

Introduction to the chemical properties and reactions that occur in the soil environment. Fundamental principles of soil mineralogy, organic matter and equilibrium chemistry as they relate to soil chemical reactions, plant nutrient availability and pedogenetic processes will be emphasized.

Dual Listed SOIL 5130.

When Offered (Offered spring semester)

Prerequisite: SOIL 2010, CHEM 1030 or CHEM 1060.

SOIL4140 - Soil Microbiology

Credits: 4

Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture and forestry.

Cross Listed MICR 4140.

Dual Listed SOIL 5140.

Prerequisite: SOIL 2010.

SOIL4150 - Forest and Range Soils

Credits: 3

Characteristics and management of forest and range soils primarily in arid environments. Examines pedagogical units representative of forests and ranges and soil properties, such as nutrient availability and water relations that influence plant growth.

Dual Listed SOIL 5150.

When Offered (Normally offered fall semester)

Prerequisite: SOIL 2010.

General Electives- Must take 13 credits, 4 credits must be upper division

BOT4775 - Forest Ecology

Credits: 4

Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed RNEW 4775.

Dual Listed BOT 5775.

When Offered (Normally offered fall semester of odd-numbered years)

Prerequisite: LIFE 3400.

CHE2005 - Chemical Process Analysis

Credits: 3

Introduces analysis of chemical processes using stoichiometry, material and energy balances, thermodynamics and economics.

When Offered (Normally offered fall semester)

Former Course Number [3000]

Prerequisite: C- or better in either CHEM 1050 or CHEM 1020 and concurrent enrollment in MATH 2205.

CHE4050 - Unit Operations Laboratory II

Credits: 3

Laboratory experiments examining heat transfer and process control. Also requires students to design, conduct and analyze 'open-ended' experiments. Introduces LabView and covers factorial experimental design and linear and non-linear data regression approaches. Emphasizes the preparation of a formal report describing all aspects of the experiments.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3WC

Prerequisite: C- or better in CHE 3040. (Normally offered spring semester)

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3

An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

ECON4430 - Energy Economics

Credits: 3

Economics of energy, particularly oil and gas. Includes a discussion of the history of the oil industry, as well as aspects of contemporary markets. Apply a variety of concepts from microeconomics, particularly related to industrial economics.

Prerequisite: ECON 3020, MATH 2200 or MATH 2350.

EDSE3040 - Energy and Power Technology

Credits: 3

A conceptual analysis and synthesis of energy requirements and sources, with emphasis on alternate energy systems. Analysis of energy conversion and the application of mechanical, fluid, thermal and electrical power systems.

When Offered (Offered through UW/CC)

Former Course Number [EDIE 3040]

Prerequisite: PHYS 1050 or PHYS 1110.

ENR1200 - Environment

Credits: 4

Introductory environmental science course appropriate for science and nonscience majors. Uses case studies and applied laboratories to explore core biological principles such as nutrient flow and cycling, population and community ecology, and ecosystem structure and function, as well as the non-science dimensions of ENR issues. Early-semester, weekend field trips/labs required.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

ENR2300 - Foundations of Sustainability

Credits: 3

Examine the basic concepts, theories, and practice of sustainability as a foundation for future learning in the field. Explore principles of sustainability in our community and personal lives through various lenses and systems.

USP 2003-2014 Code U3CH
USP 2015 Code U5H

ENR3450 - Weather and Climate

Credits: 3

Systematically examines elements and controls of weather and climate with application to regions.

Cross Listed GEOG 3450 and GEOL 3450

When Offered (Normally offered fall semester)

Former Course Number [G&R 3450]

Prerequisite: GEOG 1000, GEOG 1010 or GEOG 1020.

ENR3700 - Wyoming Conservation Corps Practicum

Credits: 1

Max Credit 2

Required for students entering the WCC. Students will be required to make weekly journal entries and write a paper on a topic germane to their WCC experience. Additionally, necessary training for the Wyoming Conservation Corps program will be included in the course content.

Prerequisite: Acceptance into the Wyoming Conservation Corps program.

ENR3750 - Natural Resource Planning and Economics

Credits: 3

Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed AGECE 3750.

When Offered (Offered spring semester of odd-numbered years)

Former Course Number [4750]

Prerequisite: QA, WA and junior standing.

ENR3900 - Seminar in Environment and Natural Resources

Credits: 1-3

Max Credit 12

Examines research and policy perspectives by a variety of authorities on selected environment and natural resource problems and issues.

Prerequisite: ENR 3000 or consent of instructor.

ENR3950 - Environmental Sociology

Credits: 3

Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed SOC 3950.

Prerequisite: SOC 1000.

ENR4010 - Winter Ecology: Skills of the Winter Naturalist

Credits: 1

Emphasizes field naturalist skills, the effects of winter abiotic conditions on organisms and subsequent adaptations to these conditions, animal tracking, introduction to snow dynamics and winter safety.

Prerequisite: 6 hours of ENR or science courses.

ENR4011 - Winter Ecology: Snowpack Science and Dynamics

Credits: 1

Emphasizes snow science and avalanche safety through lectures and inquiry-based field laboratories.

Prerequisite: 6 hours of ENR or science courses.

ENR4012 - Winter Ecology: Wildlife and Plant Adaptations

Credits: 1

Emphasizes animal and plant adaptations to cope with the stresses of winter, as well as the predicted impacts of climate change, through lectures and inquiry-based field laboratories. Students also conduct field research in a winter environment.

Prerequisite: 6 hours of ENR or science courses.

ENR4040 - Conservation of Natural Resources

Credits: 3

Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed BOT 4040/GEOG 4040.

USP 2003-2014 Code U3CS

Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

ENR4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, POLS 4051, GEOG 4051 and REWM 4051.

USP 2003-2014 Code U3WC

Prerequisite: POLS 1000.

ENR4420 - Conservation Biology

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ZOO 4420.

Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ENR4500 - Risk Analysis

Credits: 4

Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty; and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.

Dual Listed ENR 5500.

USP 2003-2014 Code U3QB

Prerequisite: MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.

ENR4525 - Environmental Data Analysis

Credits: 4

Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.

Cross Listed GEOL 4525/GEOL 5525.

Dual Listed ENR 5525.

Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

ENR4550 - Negotiation Analysis

Credits: 3

Focuses on using an analytical perspective for maximizing joint gains between negotiators. Students learn analytical techniques to prepare for negotiation, evaluate options and proposals during a negotiation, and evaluate negotiated outcomes with respect to maximization of joint gains and fairness criteria.

Cross Listed AGECE 4550.

Dual Listed ENR 5550.

Former Course Number [4700]

Prerequisite: QA.

ENR4560 - Conservation Entrepreneurship

Credits: 3

Max Credit 3

This course introduces students to foundational concepts in social entrepreneurship applies them to environmental conservation issues. Students will learn the legal, financial, and ecological concepts underpinning entrepreneurial approaches to conservation. Students will apply concepts to real world examples to understand the strength and weaknesses of these approaches.

Dual Listed ENR 5560.

Prerequisite: ENR 3000

ENR4600 - Campus Sustainability

Credits: 3

Uses campus as a setting to explore long-term environmental, economic, and social sustainability theory and practice. Students design and implement a semester-long project to improve sustainability of the UW campus. This is an interdisciplinary course and is appropriate for students of all disciplines.

Dual Listed ENR 5600

Prerequisite: USP WB or COM2 course, junior or senior standing.

ENR4890 - Topics in Environment and Natural Resources

Credits: 1-6

Max Credit (Max. 12)

Special topics in environment and natural resources are offered under this number. The specific subject matter varies each year because the course is normally taught by faculty who wish to present a specialized topic of interest to ENR

and other students. Check class schedule for specific topics offered each year.

Dual Listed ENR 5890.

Former Course Number [4990]

Prerequisite: ENR 3000 or permission of the instructor.

ENR4900 - Capstone in ENR

Credits: 3

An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

Dual Listed ENR 5900.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: ENR 3000.

ENR4950 - Leadership in Natural Resources Management

Credits: 2

Provides Crew Leaders in the Wyoming Conservation Corps with an understanding of the complex dynamics of natural resources management while also equipping students with the tools to confidently lead groups of students on conservation-oriented service-learning projects on Wyoming's public lands during the summer months.

Cross Listed ERS 4950.

Dual Listed ENR 5950.

Prerequisite: ENR 3700 and consent of instructor.

ENR4960 - Field Studies in:

Credits: 1-6

Field-based courses in Environment and Natural Resources are taught under this number. The specific subject matter varies depending upon the location and content of each courses. Students frequently need to apply in advance.

Prerequisite: 6 credits of ENR coursework.

ENR4970 - ENR Internship

Credits: 1-6

Max Credit (Max. 6)

Provides practical experience in environmental and natural resource policy, management and decision processes, as well as interaction with professionals in the field. Offered S/U only.

Prerequisite: ENR 3000.

ERS1650 - The Water-Energy-Climate Nexus

Credits: 3

Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i. e. water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

Cross Listed GEOL 1650.

USP 2015 Code U5PN

ERS4960 - Energy Field Studies

Credits: 1-3

Various facets of energy resource management and development are covered by visits to oil and gas wells, coal mines, power plants, wind farms, and other energy production and research sites. A trip is normally planned for 5 to 6 days.

Prerequisite: WB; ERS 1000/ENR 1000 or ECON 1300/ERS 1300. Undergraduate Research.

ERS4970 - Internship

Credits: 1-3

Max Credit (Max. 3)

A formalized internship designed to provide students with relevant practical experience in the energy sector allowing synthesis and application of principles in energy science to energy asset management.

Prerequisite: ERS 1000/ENR 1000 or ECON 1300/ERS 1300; QB; SP or SE.

ERS4975 - Global Experience in Energy

Credits: 2-4

Max Credit (Max. 4)

A 1-3 month integrative energy experience in China or Australia. Students will participate, in collaboration with partnering energy professionals, in outcomes focused education and research programs designed to address globally relevant challenges. Students will gain a global perspective within the cultural context of the partner institution.

Prerequisite: ERS 1000/ENR 1000 or ECON 1300/ERS 1300; QB; SP or SE.

ERS4990 - Topics in Energy Resource Development and Management

Credits: 1-6

Max Credit (Max. 6)

Special topics in contemporary energy development and management will be offered in response to changing industry and academic demands. The specific subject matter is based on faculty requirements and workforce innovation.

ESE4460 - Solar and Geothermal Engineering

Credits: 3

An introduction to the engineering of solar-powered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ME 4460.

Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ESE4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

Cross Listed ME 4470.

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

GEOG3050 - Economic Geography

Credits: 3

Economic Geography is the study of the location, distribution and spatial organization of economic activities across the globe; specifically how the economic realm is intertwined with other spheres of international social life. It explores the inherent logics and mechanisms of the capitalist system, and the social and spatial inequalities that result.

Former Course Number [G&R 3050]

Prerequisite: 6 hours of Social Sciences or International Studies.

GEOG3450 - Weather and Climate

Credits: 3

Systematically examines the patterns and process of Earth's climate system, focusing on atmospheric and surface energy and water balances; atmospheric motion; past, present, and future climate change.

Cross Listed ENR 3450 and GEOL 3450

Former Course Number [G&R 3450]

Prerequisite: GEOG 1010 OR any USP PN course.

GEOG3480 - Environmental Change

Credits: 3

Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.

Cross Listed ESS 3480

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Former Course Number [G&R 3480]

Prerequisite: GEOG 1010 or any USP PN course; and USP COM1.

GEOG3550 - Natural Hazards and Society

Credits: 3

Considers societal structures and processes as they interact with hazards in the natural environment.

USP 2003-2014 Code U3CS

Former Course Number [G&R 3550]

GEOG4040 - Conservation of Natural Resources

Credits: 3

Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed ENR 4040.

GEOL 4040

USP 2003-2014 Code U3CS

Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

GEOG4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, POLS 4051 and REWM 4051.

USP 2003-2014 Code U3WC

Former Course Number [G&R 4051]

Prerequisite: POLS 1000.

GEOG4080 - Management of Major River Basins

Credits: 3

Examines geography of water resources, including distribution, water as a resource and water as a hazard to humans. Focuses on water management case studies on the scale of major river basins in North America and elsewhere in the world.

Former Course Number [G&R 4080]

Prerequisite: Completion of the USP PN requirement or consent of instructor.

GEOG4113 - Geological Remote Sensing

Credits: 4

Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and geologic hazards.

Cross Listed GEOL 4113.

Prerequisite: GEOL 1005 or GEOL 1100 or 1200 or GEOG 1010 and MATH 1400/1405 or MATH 1450.

GEOG4440 - Advanced Global Climate Variability

Credits: 3

Climate varies. This fundamental aspect of the climate system can have major environmental and societal impacts to ecosystems, the hydrologic cycle and water resource management in arid environments such as the intermountain west. This course will utilize climate data and mapping tools to understand global and regional climate variability.

Dual Listed GEOG 5440.

Prerequisite: GEOG 3450/ENR 3450 or instructor's consent.

GEOG4470 - Fire Ecology

Credits: 3

Fire is an important phenomenon affecting ecosystems and human communities throughout the world. Explores spatial and temporal patterns of fire with emphasis on ecology and management.

Cross Listed GEOG/GEOL 4470/5470

Former Course Number [G&R 4470]

Prerequisite: Some basic knowledge of Earth processes GEOG 4460, BOT 4700, LIFE 3400 or graduate standing.

GEOG4550 - Geography of Wine

Credits: 3

Examine the regional influence of climate, terrain and cultural characteristics on the production of grape varieties and demonstrate the implications of this influence on the location and distribution of wines produced. Discussion will focus on the world-wide production and consumption of wine and impacts of multi-national corporations.

Prerequisite: junior standing and at least 21 years of age.

GEOG4880 - Current Topics

Credits: 1-6

Max Credit (Max. 6)

Special course on a topic of current interest.

Dual Listed GEOG 5880.

Former Course Number [G&R 4880, 4850]

Prerequisite: junior standing.

GEOG4885 - Seminar: (TOPICS)

Credits: 1-3

Max Credit (Max. 6)

Faculty-student discussion, reading, and study focused on a selected topic and interest.

Former Course Number [G&R 4885, 4900]

Prerequisite: GEOG 4750.

GEOL1001 - Earth Science and Society

Credits: 1

Introduces students to the study of Earth Science and its role in society through examination and discussion of current events, and through projects researching geologic topics of societal interest.

USP 2003-2014 Code Y3I, U3L

Prerequisite: GEOL 1100 or concurrent enrollment.

GEOL1070 - The Earth: Its Physical Environment

Credits: 4

Discusses selected topics from geology, astronomy and meteorology illustrating fundamental concepts, processes, products and the interrelationships among them. Emphasizes nature of science and relationship between selected topics and society.

Cross Listed ASTR 1070.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

Prerequisite: Math level 3 or equivalent courses, consent of instructor, elementary education major and EDCI 1450 must be taken concurrently.

GEOL1500 - Water, Dirt, and Earth's Environment

Credits: 4

Introductory environmental geology course focusing on water and soil both as hazards and as life-sustaining resources. Explores surface processes and climate change over geological and human timescales. Case studies illustrate the environmental tradeoffs of resource use.

Cross Listed ENR 1500.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

GEOL1600 - Global Sustainability: Managing Earth's Resources

Credits: 4

Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

USP 2003-2014 Code U3G, U3S

GEOL1650 - The Water-Energy-Climate Nexus

Credits: 3

Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i. e. water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

Cross Listed ERS 1650.

USP 2015 Code U5PN

GEOL2000 - Geochemical Cycles and the Earth System

Credits: 4

Introduces the Earth system, including the solid Earth, hydrosphere, biosphere and atmosphere. Emphasizes the evolution of the Earth, rock associations and geochemical cycles.

Cross Listed ESS 2000.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SE

Prerequisite: a 1000-level GEOL course with a lab and concurrent enrollment in CHEM 1020.

GEOL2080 - General Field Geology

Credits: 3

Covers basic concepts of geology and field techniques emphasizing interpretation of geologic features in the field and constructing geologic products (e.g. measured sections and geologic maps). Students are expected to be able to identify the common rock forming minerals and common rocks in hand-sample. Weekly field trip required.

When Offered (Normally offered the first half of the fall semester)

USP 2003-2014 Code U3SE

Prerequisite: GEOL 1100 and at least one other GEOL course.

GEOL3250 - Geosciences and Computers

Credits: 4

An integrated introduction to the basic components of modern scientific computing and to illustrate basic computing concepts through geoscience applications.

USP 2003-2014 Code [I< >(none)]

Prerequisite: One USP designated science course with lab.

GEOL3500 - Global Change: A Geological Perspective

Credits: 4

Considers the geochemical and geophysical systems that control the Earth's climate, the geological and historical record of climate change, and then discusses the possible effect that human activities will have upon these chemical and geophysical systems.

Prerequisite: junior standing and an introductory class in the physical sciences.

GEOL3600 - Earth and Mineral Resources

Credits: 4

Explores the geologic formation, production, and use of Earth and mineral resources, including building materials, chemical minerals, industrial minerals and metals. For each resource, the geologic environment and processes of formation are discussed. Exploration and mining techniques for each resources are also reviewed and associated environmental problems and regulations examined. Beneficial and detrimental aspects of the use of each resource are also discussed.

USP 2003-2014 Code U3G, U3SE

USP 2015 Code U5PN

Prerequisite: completion of USP QA and L.

GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge

Credits: 4

Examines the energy needs of a modern industrialized society. Looks at the types of energy, the natural laws that govern its use, transformation, and conservation. The different sources of energy available to modern societies are examined. Examination includes fossil fuels, nuclear power as well as alternative energy sources. The formation of the resource is discussed, how it is extracted, and any environmental consequences associated with its extraction and use.

USP 2003-2014 Code U3G, U3SE

USP 2015 Code U5PN

Prerequisite: completion of USP QA and L.

GEOL4001 - Modeling the Earth System

Credits: 4

Takes a modeling approach to demonstrate how the Earth is integrated into an interconnected system through exchanges of energy and matter, and how Earth system functioning is susceptible to human alteration. Unifying concepts focus on quantitative interactions between the Earth and the Sun, and between the Earth's lithosphere, hydrosphere, biosphere and atmosphere.

Cross Listed BOT 4001/ATSC/ESS 4001.

Prerequisite: MATH 2205 or equivalent and ESS 2000 or GEOL 2000.

GEOL4010 - Exploration Geoscience

Credits: 3

Provides students with information and skills necessary to understand the energy exploration modeling process. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, and reservoir characterization.

Cross Listed ERS 4010.

Prerequisite: GEOL 1100; MATH 2200 or MATH 2350.

GEOL4060 - Rocky Mountain Field Trip

Credits: 1

Max Credit (Max. 3)

A six-day geological field trip to various classic localities in the Rocky Mountains.

Prerequisite: senior standing and GEOL 2010 and GEOL 4610 or GEOL 4050.

GEOL4113 - Geological Remote Sensing

Credits: 4

Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and

geologic hazards.

Cross Listed GEOG 4113.

Dual Listed GEOL 5113.

Prerequisite: GEOL 1005 or GEOL 1100 or 1200 or GEOG 1010 and MATH 1400/MATH 1405 or MATH 1450.

GEOL4190 - Petroleum Geology

Credits: 3

Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.

Prerequisite: GEOL 2005 or PETE 2050.

GEOL4191 - Methods in Petroleum Geology

Credits: 3

Lectures and laboratory exercises are designed to give the student experience in working with various kinds of geoscientific data in relation to the exploration for and production of hydrocarbons. Most exercises utilize real data and real situations. Topics include recognition of hydrocarbons, interpretation of sample, mud and geophysical logs, geologic utilization of drill stem tests; subsurface correlation and mapping techniques; prospect generation.

Dual Listed GEOL 5191.

Prerequisite: GEOL 4190.

GIST1001 - GIST Orientation and Portfolio

Credits: 1

Introduces students to the GIST degree, the resources necessary to be successful in the program, and the broader geospatial field and its impact on society. Topics include a survey of domain applications, the ethical, legal and social implications of using geospatial data, and geospatial certifications and credentialing.

GIST1200 - Geospatial Foundations

Credits: 3

Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

Former Course Number GIST 1100

GIST2110 - Techniques in Cartography

Credits: 3

Max Credit 3

This course covers cartographic theory, techniques, and hands-on map-making. Students design thematic and reference maps using different platforms including web mapping. Students learn principles of graphic design and data journalism for effective communication, and they evaluate map purpose, design, data quality, and cognitive and political bias in maps.

GIST2140 - Survey of Remote Sensing Applications

Credits: 3

This course introduces remote sensing by surveying applications across disciplines. It includes a brief overview of fundamentals followed by exploration of types of remote sensing including aerial photography, multispectral and hyperspectral satellite remote sensing, active remote sensing, and thermal remote sensing. The course also introduces remote sensing applications for global change.

USP 2015 Code U5PN

Former Course Number GIST 2160

Prerequisite: USP Q; sophomore or junior class standing.

GIST2150 - Introduction to Programming in Geospatial Information Science and Technology

Credits: 3

Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

GIST2190 - Intro to Programming

Credits: 3

Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

Former Course Number GIST 2150

GIST2200 - Spatial Data Visualization

Credits: 3

Covers fundamental principles, concepts, and applications of spatial data visualization. Students will learn to find, understand, and act on spatial patterns, associations and trends, and to use and critique powerful graphical representations of spatial data including 3D maps, web maps, interactive graphics, and animations.

GIST2310 - Intro to Geographic Information Systems

Credits: 4

Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used

software.

Former Course Number GIST 2100

GIST3140 - Introduction to Remote Sensing

Credits: 3

This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth's surface with an emphasis on vegetation, and the hands-on application or remote sensing principles using digital image processing.

USP 2003-2014 Code Q

Former Course Number GIST 3111

GIST4130 - Applied Remote Sensing for Agricultural Management

Credits: 3

Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed RNEW 4130 and PLNT 4130.

Dual Listed GIST 5130.

Former Course Number [BOT 4130]

Prerequisite: QA/Q course and 9 credit hours in student's major field and junior/ senior standing.

GIST4211 - Advanced Remote Sensing

Credits: 3

On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

Dual Listed GIST 5211.

Former Course Number [BOT 4211; GEOG 4211]

Prerequisite: GIST 3111 or GIST 4130.

GIST4410 - UAS Sensors and Platforms

Credits: 1

This 1-credit online course taught over 8 weeks provides a detailed overview of the types of drones used for modern remote sensing and of the sensors that can be used with these different drone platforms to collect data, including RGB and multi-spectral cameras, thermal sensors, and lidar.

Dual Listed GIST 5410.

GIST4420 - UAS Mission Planning

Credits: 1

This 1-credit online course taught over 8 weeks provides a detailed overview of mission planning for UAS (drone) data collection. Students learn to evaluate mission requirements for a variety of UAS applications, to choose appropriate hardware to accomplish these requirements, and to use mission planning software to translate requirements into flight plans and data collection strategies.

Dual Listed GIST 5420.

GIST4430 - UAS Regulations and Safety

Credits: 1

This 1-credit online course taught over 8 weeks provides students with a detailed overview of federal, state, and local regulations pertaining to UAS flights and data collection. Students also learn about how to operate drones safely in both personal and professional applications. Course content helps prepare students for FAA remote pilot certification.

Dual Listed GIST 5430.

GIST4440 - UAS Ground School and Operations

Credits: 2

This field course provides students with the practical experience to operate UAS (drones) safely, legally, and effectively for collecting data to be used in a variety of applications. Students learn about pertinent safety and regulations, and then spend much of the course time flying drones in the field and collecting data.

Dual Listed GIST 5440.

GIST4450 - UAS Photogrammetry and Image Process

Credits: 3

This 3-credit online course provides overviews of the photogrammetric principles related to imagery acquired by unmanned aerial vehicles or drones, and the image processing techniques used for extracting information from the drone images. Students will gain experience in processing drone imagery collected with RGB cameras and multi-spectral sensors.

Dual Listed GIST 5450.

Prerequisite: Junior/Senior standing or approval from the instructor.

GIST4790 - Special Topics in Geospatial Information Science and Technology

Credits: 3

Advanced and specialized topics in GIS&T are addressed through guided student discussions of current literature and possible hands-on analyses.

Dual Listed GIST 5790.

GIST4870 - Internship in Geospatial Information Science and Technology

Credits: 1-12

Max Credit (Max. 12)

Provide undergraduates with the opportunity to receive credit for practical experience in geospatial information science and technology. Internship opportunities must be approved by faculty and work supervisors.

GIST4950 - Undergraduate Research in Geospatial Information Science and Technology

Credits: 1-6

Max Credit (Max. 6)

Undergraduate research in Geospatial Information Science and Technology (GIST) under the mentorship of UW faculty. Students are encouraged to present their research at professional meetings and to publish their work. GIST is multidisciplinary, so research problems span a wide range of topics.

HIST4535 - History of Oil

Credits: 3

Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

Dual Listed HIST 5535.

Prerequisite: 9 hours in history.

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

LIFE1002 - Discovering Science

Credits: 3

Integrates Biology, Chemistry, Physics, and Earth Science and is intended for non-science majors. Fundamental

concepts from each discipline are discussed through lectures and in-class activities, and students learn how to understand science and its importance in larger societal issues. There is no laboratory component of this course. Meets the S requirement in USP 2003 and the PN requirement in USP 2015.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Former Course Number [BIOL 1002]

LIFE1003 - Current Issues in Biology

Credits: 4

Emphasizes central themes of biology - cell biology, genetics, evolution, ecology - and scientific methodology by focusing on current issues in biology. Fundamental concepts are addressed through classroom and laboratory activities and discussions. This course is intended for non-science majors. Students cannot receive duplicate credit for LIFE 1010 or LIFE 1020.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1003]

LIFE1020 - Life Science

Credits: 4

An integrated lab and lecture emphasizing fundamental principles of biology including cell structure and function, genetics, ecology, evolution and organismal biology. Considers applications of these principles to societal issues such as the conservation of biodiversity, overpopulation and global environmental changes, biotechnology, and human wellness and disease. If you take LIFE 1020, you cannot get duplicate credit for LIFE 1000, 1003, or 1010.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1020]

Prerequisite: elementary education majors only; concurrent enrollment in EDEL 1430.

LIFE1101 - Introduction to Ecological Research

Credits: 3

Learn science by doing science! This course-based undergraduate research experience (CURE) will focus on beaver pond ecosystems in Medicine Bow National Forest. Students will engage in outdoor fieldwork in addition to classroom learning. They will carry out hands-on projects and gain experience in ecological sampling, lab work, data analysis, and scientific writing. Students who complete the course are encouraged to continue research and are eligible for summer internships.

USP 2015 Code U5FY

LIFE2100 - Intro Research and Analysis

Credits: 4

Students gather and analyze data in the context of life science research projects. provides a foundation in research design, probability and inference, and basic computational skills to support graphical and formal analyses of research data.

USP 2015 Code U5Q

Prerequisite: LIFE 1010 with a grade of C or better.

LIFE3410 - Introduction to Field Ecology

Credits: 2

Field and laboratory course. Introduces methods used in plant and animal ecology.

When Offered (Normally offered fall semester)

Former Course Number [BIOL 3410/BIOL 2410]

Prerequisite: LIFE 3400 (may be concurrently enrolled).

LS2010 - Engineering Surveying Lecture

Credits: 2

Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Basic principles of surveying and map making.

Former Course Number [CE 2072]

Prerequisite: a working knowledge of algebra and trigonometry.

LS2015 - Engineering Surveying Laboratory

Credits: 1

Field surveying activities consisting of traversing, differential leveling, construction staking and gathering topographic data.

Former Course Number [CE 2073]

Prerequisite: LS 2010 or concurrent.

LS2020 - GPS for Land Surveyors

Credits: 4

From fundamental theory to practical application and advanced technologies, this class covers all aspects of GPS

needed to understand and use GPS as a land surveyor including the basics of GPS technology, common hardware, surveying methods, survey design, planning and observing, real-time kinematics and DGPS.

Former Course Number [CE 2090]

Prerequisite: LS 2400.

LS2100 - Records Research for Surveyors

Credits: 3

Introduced to the public, quasi-public, and private depositories of recorded and non-recorded documents that establish land ownership boundaries, easement boundaries, and land use rights and restrictions in both the Public Land Survey System and the Colonial States. Assignments will require work to be conducted during depositories' normal business hours.

Former Course Number [CE 2076]

LS2410 - GIS in Surveying

Credits: 3

Covers the basic concepts of geographic information systems, the methods and software used to implement them, and their applications to surveying and analysis of other surveying problems.

Former Course Number [CE 2083]

Prerequisite: CE 2070 or LS 2010, and ES 1060 or ES 1061.

LS3120 - Boundary Principles

Credits: 2

This course in boundary law addresses the fundamental principles of real property as applied to land surveying and related professions. Discussion and applications center on practical situations and concepts commonly encountered while conducting boundary surveys and the determination of the extent of ownership rights. Students explore the scope of the surveyors' judiciary role in real property ownership. Primarily offered through the Outreach School.

Former Course Number [CE 3740]

Prerequisite: CE 2070 or LS 2010, and LS 3100 and LS 2110.

LS3130 - Public Land Surveys

Credits: 3

Basic fundamentals of the Public Land Survey System (PLSS), dependent and independent resurveys, survey plats, "bona fide rights", riparian boundaries, non-rectangular entities, corner evidence and the role of the modern day surveyor.

Former Course Number [CE 2085]

Prerequisite: CE 2070 or LS 2010, and LS 2110.

LS3200 - Route Surveying

Credits: 3

Laying out of super elevation and circular, parabolic, and spiral curves; the difference between highway and railway horizontal curve geometry; offsets to spiral curves as boundaries; area and volumes of earthwork.

Former Course Number [CE 3710, CE 4710]

Prerequisite: CE 2070 or LS 2010, and ES 1060 or ES 1061.

LS3210 - Advanced Surveying

Credits: 4

Advanced topics in surveying computations and procedures, including traverse error analysis, topographic surveying, mapping, astronomical observations, coordinate geometry applications, and state plane coordinates.

Former Course Number [CE 3720, CE 4720]

Prerequisite: CE 2070 or LS 2010.

ME4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented..

Cross Listed ESE 4470

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

MGT2030 - Principle-Based Ethics

Credits: 3

Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

MGT3420 - Organizational Behavior and Leadership

Credits: 3

An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

MGT4240 - Performance and Compensation

Credits: 3

In Human Resource Management the management of employee performance and compensation are key functions that drive organizational success. This course helps students become familiar with total compensation systems, including intrinsic and extrinsic rewards, base and variable pay, and benefits, and their relationship with employee performance and satisfaction.

Prerequisite: MGT 3410

MGT4260 - Training and Development

Credits: 3

In Human Resource Management training employees in the latest technical and managerial skills and helping them gain developmental experiences helps drive organizational success. Students will learn how to recognize training and developmental needs, how to develop employee training systems, and how to implement these training systems. Additionally, students will learn about career and leader development.

Prerequisite: MGT 3410

MGT4340 - Law for Managers

Credits: 3

Provides an overview of laws and legal issues associated with managing a business, incorporating aspects of sustainable business practices. Topics include agency and employment, business organizations, including securities laws and corporate governance standards, government regulation of businesses, including environmental/sustainability regulations, and an introduction to international law and global economy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4350 - Commercial Law

Credits: 3

A study of the basic principles of commercial law, including property, sales, negotiable instruments, secured transactions, creditors' rights and bankruptcy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4360 - Business Law for Entrepreneurs

Credits: 3

A survey of the various legal issues confronted by entrepreneurs, particularly related to new ventures.

Prerequisite: MGT 2010 and junior class standing.

MGT4370 - Employment Law

Credits: 3

Provides a comprehensive foundation for understanding the law as it relates to the employer-employee relationship. This course will provide students the legal background necessary to make better decisions both as a worker as well as a manager of other.

Prerequisite: MGT 2010 or equivalent, junior class standing.

MGT4430 - Organization Design and Change

Credits: 3

Examines organizations, what they are, how they operate and are structured and how they can be changed. Focus is on macro managerial issues in the design and change of work organizations.

Prerequisite: MGT 2100, MGT 3410, MGT 3420; advanced business standing, junior class standing.

MGT4470 - Negotiations and Conflict Resolution

Credits: 3

Max Credit 3

Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3

Prerequisite: MGT 2100, advanced business standing.

MGT4800 - Business Strategy and Policy

Credits: 3

A capstone course designed to integrate prior courses into a general manager's overall organization perspective.

Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3

Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

MGT4900 - Independent Study in Management

Credits: 1-4
Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Management not included in other structured management courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MGT4910 - Topics in Management

Credits: 3
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MKT2100 - Introduction to Marketing

Credits: 3
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

PETE4860 - Energy, Environment, and Materials

Credits: 3
Understanding the connection between materials, energy and environment, including the history of climate and different types of energy in use for a greener planet. Provides broad knowledge in the areas of energy, material science, chemical, petroleum, and environmental engineering.

Dual Listed PETE 5860.

Prerequisite: Junior standing and PETE 2050 or consent of instructor.

PHIL2420 - Critical Thinking

Credits: 3

Shows that argument is a skill of fundamental importance to any field of endeavor. Explains methods used in evaluating an argument. Introduces such topics as: patterns of reasoning, counterexamples, fallacies; inductive and deductive logic.

USP 2003-2014 Code U3CH

Former Course Number [1100]

PLNT1000 - Agroecology

Credits: 4

Introduces ecological interactions that affect food producing (agricultural) systems. Lectures and laboratory exercises study the various biological components and the science of sustainable agricultural production. Features differences between developed and developing countries. Explores crises and challenges facing agriculture and global society.

USP 2003-2014 Code U3G, U3SB

USP 2015 Code U5PN

Former Course Number [CROP/BOT 2000]

PLNT1150 - Pesticide Safety and Application

Credits: 1

Introduces various types and safe methods of pesticides application. Subsequent to completion, students may take the certification test administered by the Wyoming Department of Agriculture.

Cross Listed ENTO 1150.

Former Course Number [CROP 1150]

PLNT3030 - Ecological Web: Ecology of Plant Protection

Credits: 3

Introduces students to concurrent evolution of crop cultivation and organisms, both plant and animal, that attack them. Provides basic skills necessary to understand ecology and management of economic crop pests.

When Offered (Normally offered fall semester)

Former Course Number [2030]

Prerequisite: LIFE 1010 and PLNT 1000

PLNT4070 - Weed Science and Technology

Credits: 4

Management and physiological principles involved in control of economically important farm and range weeds.

Dual Listed PLNT 5070

When Offered (Normally offered fall semester)

Former Course Number [CROP 4070]

Prerequisite: PLNT 1000, LIFE 1010

PLNT4130 - Applied Remote Sensing for Agricultural Management

Credits: 3

Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed RNEW 4130/GIST 4130

Prerequisite: Q course and 9 credit hours in student's major field and junior/senior standing

POLS3620 - Environmental Justice

Credits: 3

Examines core philosophical understandings of justice and applies them to the environment through a variety of case studies, analytical essays and monographs.

Cross Listed ENR 3620.

Prerequisite: POLS 1000, POLS 2460, or POLS 3600, or permission of instructor.

POLS4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.

Dual Listed POLS 5051.

USP 2003-2014 Code U3WC

Former Course Number [4050]

Prerequisite: POLS 1000.

POLS4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ ENR 4052/GEOG 4052/REWM 4052.

Prerequisite: POLS 1000.

POLS4385 - Environment and Resource Conflict

Credits: 3

Drawing on key theory and contemporary real-world case studies this course explores how environmental change and the competition for scarce resources (such as food, water, oil, gems, and timber) have increasingly been linked to violent interstate and intrastate conflict and how such conflicts might be addressed, managed, or resolved through international and national action.

Cross Listed INST 4385.

Dual Listed POLS 5385.

Prerequisite: 9 hours of POLS or INST, including POLS 2310/INST 2310.

POLS4455 - Energy Security

Credits: 3

Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed INST 4455.

Dual Listed POLS 5455.

Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

POLS4555 - Political Ecology

Credits: 3

Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

Cross Listed INST/GEOG 4555 & POLS 5555

Dual Listed INST/GEOG 4555 & POLS 5555

Prerequisite: 9 hours of international studies or social science coursework.

REWM2000 - Principles of Rangeland Management

Credits: 3

Basic principles of range management as they apply to various regions and vegetative types. Relationship of range management practices to livestock production, wildlife management, forestry, hydrology and other land uses. Introductory course for majors and non-majors.

Prerequisite: LIFE 1101 or LIFE 1010.

REWM2400 - Range Ecosystems and Plants

Credits: 4

Ecology of range ecosystems of western North America and identification of 200 most common plants species, including taxonomic keying.

Former Course Number [2500]

Prerequisite: REWM 2000 with a grade of C or better.

REWM3000 - Plant Ecophysiology/Plant Form and Function

Credits: 4

Integration of basic vascular plant anatomy, morphology, physiology within the contexts of modern evolutionary and ecological theory. Students receive in depth exposure to fluid flow, energetics, development, growth, general metabolism, and structure, and functions for plant cells, tissue and organs.

Prerequisite: LIFE 2022 or LIFE 2023.

REWM3100 - Principles of Wildland Water Quality

Credits: 3

Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

Cross Listed ENR 3100.

When Offered (Normally offered fall semester)

Prerequisite: CHEM 1000.

REWM3390 - Range Judging

Credits: 2

Judging rangelands based on soil, plant and animal resources and applying science-based information to make management decisions. Participation in a field trip and UW SRM judging teams is required including Plant Team and URME. This course is intended for members of the SRM competitive Teams.

When Offered (Normally offered spring semester)

Prerequisite: C or better in REWM 2000, REWM 2400 and REWM 3020, as well as the Team Coach permission.

REWM3500 - Rangeland Plant Ecophysiology

Credits: 3

Examines plant physiological processes that have application to ecological and land management issues. Topics include carbon assimilation, water relations, mineral nutrition as applied to plant distributions, plant and system responses to grazing, as well as plant tolerance of extreme conditions including drought, excessive temperatures and changes in climate.

When Offered (Normally offered fall semester)

Prerequisite: LIFE 2022 or LIFE 2023.

REWM4000 - Poisonous Plants and Plant Toxins

Credits: 3

Plants poisonous to livestock in Wyoming and the Mountain West; identification, ecology, toxic principles, physiologic responses of animals, situations leading to poisoning, control and management to prevent losses.

When Offered (Normally offered spring semester)

Prerequisite: 12 hours of biological and chemical sciences.

REWM4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and POLS 4051.

USP 2003-2014 Code U3WC

Prerequisite: POLS 1000.

REWM4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/GEOG 4052/AMST 4052.

Prerequisite: POLS 1000.

REWM4100 - Nutritional Ecological Management of Range Herbivores

Credits: 3

Examines ecological processes and management of nutritional resources by domestic and wild rangeland herbivores. Topics include nutrient availability, nutritional demand, foraging behavior, diet composition, grazing systems, stocking rates, livestock/wildlife competition, predation, parasitism, plant toxicity, and influences on ecological condition. Students evaluate case studies and analyze nutritional data using current technologies.

Dual Listed REWM 5100.

Prerequisite: LIFE 1010 or LIFE 1020.

REWM4103 - Range and Ranch Recreation

Credits: 3

Understanding of public demands for leisure use of public and private rangelands; potential impacts on rangeland resources, ranch practices and families and other rangeland users. Students prepare public range or private ranch recreation operations plan. Graduate students assist in preparation and presentation of lecture.

Dual Listed REWM 5103.

When Offered (Normally offered spring semester)

Former Course Number [3103]

Prerequisite: C or better in REWM 2000 and CS course.

REWM4150 - Behavior Modification for Production of Grazing Herbivores

Credits: 3

Strategies for manipulation of behavior and management of the grazing herbivore will be developed from scientific and practical information. Designed to equip the student to manage for animal and natural resource production.

Dual Listed REWM 5150.

When Offered (Normally offered spring semester)

Former Course Number [3150]

Prerequisite: C or better in REWM 2000 and REWM 3020 or ANSC 3100.

REWM4285 - Wildland Hydrology

Credits: 3

Teaches essential and unique characteristics of hydrologic cycle as occurred on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed ENR 4285.

Dual Listed REWM 5285.

When Offered (Normally offered fall semester)

Prerequisite: QA

REWM4300 - Grass Taxonomy

Credits: 3

Identification of grasses and their place in range management and world agriculture.

Dual Listed REWM 5300.

When Offered (Normally offered spring semester)
Former Course Number [3320]

Prerequisite: REWM 2500 or LIFE 2023.

REWM4330 - Rangeland Ecosystem Assessment and Monitoring

Credits: 4

Assessment, monitoring, and analysis of rangeland ecosystems and processes. Students integrate sampling design, measurements of vegetation attributes, indicators of rangeland health, ecological site information, riparian and wildlife habitat values, utilization, and statistical applications to evaluate rangeland resource integrity and sustainable use. Students collect, analyze, and report data using current technologies. REWM students will be given enrollment preference.

When Offered (Normally offered fall semester)

Prerequisite: REWM 2400 and STAT 2050 or STAT 2070. Concurrent enrollment in REWM 2400 and STAT 2050 or STAT 2070 is allowed with permission.

REWM4340 - Reclamation Techniques Field Trip

Credits: 2

Provides increased comprehension of current land reclamation problems and solutions by means of a field trip to sites in region where land reclamation is occurring.

When Offered (Normally offered fall semester)

Prerequisite: REWM 4200.

REWM4440 - Applied Fire Ecology

Credits: 3

Course examines drivers and patterns of wildfire in rangeland and forested ecosystems, fire behavior, fuel characteristics, fire effects, suppression tactics and mitigation strategies, prescribed burning precautions and applications, applications/uses of fire to meet resource objectives, policies and regulations, and modeling software. Required field trips out of class time.

Dual Listed REWM 5440.

Restricted Junior standing or greater class standing required.

Prerequisite: General biology and MATH 1400 or above.

REWM4500 - Rainfall-Runoff Modeling

Credits: 3

Introduction to hydrologic modeling that teaches the foundations of model development, calibration, and interpretation. Examines the different components of the water cycle and how they are being integrated into watershed models. Equips the students with the necessary skills to parameterize hydrologic models, understand the underlying principles, and interpret model outputs.

Dual Listed REWM 5500.
Prerequisite: REWM 4285.

REWM4530 - Seminar

Credits: 1
Max Credit (Max. 2)

Discusses pertinent range management problems.

Prerequisite: REWM 2000 (earn at least a C) or ENR 4000.

REWM4540 - Problems

Credits: 1-4
Max Credit (Max. 6)

Experimental work or intensive reading and discussion on range management problems. Includes problems offered in the following areas of range management: natural resources ecology, livestock habitat, business, improvements, watershed, reclamation, extension, and international development.

Prerequisite: basic training in field of problem selected and consent of instructor.

REWM4550 - Internship in:

Credits: 1
Max Credit (Max. 4)

Supervised field experience in range management or disturbed land reclamation. No more than 4 credits.

Prerequisite: basic course work in subject selected and consent of instructor.

REWM4600 - Drone-Based Remote Sensing

Credits: 3

This class teaches the basics of remote sensing applications in environmental sciences with a focus on unmanned aerial vehicles (UAVs, aka "drones"). Students will receive training in drone operation, data collection and analysis, and will be prepared to take the FAA Remote Pilot Certification.

Prerequisite: MATH 1400 or higher

REWM4700 - Wildland Watershed Management

Credits: 3

Studies hydrological cycle with specific emphasis on the role of vegetation in hydrologic processes such as

interception, surface detention storage, infiltration, percolation, run-off, and water quality. Utilization of watersheds and vegetation manipulation practices to modify these hydrologic processes.

When Offered (Normally offered spring semester)

Prerequisite: LIFE 1101 or LIFE 1010.

REWM4750 - Wildlife Habitat Restoration Ecology

Credits: 3

Emphasis on fundamental and applied aspects of restoration ecology for terrestrial wildlife habitats following anthropogenic and natural disturbances. Although the course overviews theoretical concepts applicable to many systems, there is a focus on applications for wildlife habitats in western North America.

Dual Listed REWM 5750.

Prerequisite: Minimum of 6 hours of Biology or Life Sciences courses.

REWM4810 - Experiments in Restoration

Credits: 2

Emphasis on the experimental design using examples from restoration science. Focus on experiments to test concepts in ecosystem science, food webs, population genetics, metapopulation biology, biodiversity and invasion, and climate change. Address topics in experimental, ecological restoration.

Dual Listed REWM 5810.

Prerequisite: STAT 2050 or equivalent.

REWM4830 - Ecological Applications for Wildland Management

Credits: 3

Emphasis on applying understanding of interactions among components of rangelands to facilitate sustainable provision of ecosystem services. The influences of stochasticity and disturbances on ecosystem structure and function will be the focus of discussion and technical writing exercises.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3WB

Prerequisite: WA, REWM 2000 (earn at least a C), LIFE 3400 (latter may be concurrent).

REWM4850 - Rangeland Vegetation Management Techniques

Credits: 3

Uses applied ecological principles in restoration of degraded rangeland ecosystems to introduce methods for manipulating rangeland vegetation that satisfy land management objectives. Provides ecologically-sound practices to maintain optimal and sustained yield of rangeland products.

When Offered (Normally offered spring semester)

Prerequisite: C or better in REWM 2000 and SB.

REWM4900 - Rangeland Management Planning

Credits: 3

Applies planning processes that integrate soil, vegetation, water, livestock, wildlife, and environmental regulatory considerations within the context of satisfying ecologically sustainable rangeland management objectives.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: REWM 4830, ECON 1010 or AGECE 1010 or AGECE 1020, SOIL 4120 or SOIL 4150 (may be concurrent), REWM 3020 (may be concurrent), REWM 4330 (may be concurrent).

REWM4990 - Undergraduate Teaching Practicum

Credits: 1

Max Credit (Max. 2)

Teaching experience in classroom or laboratory assisting faculty instructor.

When Offered (Offered based on sufficient demand and resources)

SOIL2010 - Introduction to Soil Science

Credits: 4

Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE

Prerequisite: CHEM 1000 or CHEM 1020.

SOIL3130 - Environmental Quality

Credits: 3

Introduction to environmental quality issues and events. Course emphasizes impacts to soil, water, atmospheric, and vegetative ecosystems due to different nutrients and contaminants, including nitrogen, phosphorus, sulfur, trace elements, and organic chemicals. Current information pertaining to environmental quality is discussed and a field trip to the Union Pacific Tie Plant.

Cross Listed ENR 3130.

When Offered (Offered fall semester)

Prerequisite: complete at least 1 University Studies Science course SB, SP or SE.

SOIL4100 - Soil Physics

Credits: 3

Examines forms and interrelations of matter and energy in the soil environment. Primarily addresses fluxes and

transformations of soil water and solutes, as well as physical properties that influence soil productivity.

Dual Listed SOIL 5100.

When Offered (Offered spring semester)

Prerequisite: SOIL 2010 or equivalent introductory soils course.

SOIL4105 - Soil Physics Laboratory

Credits: 2

Teaches students the methodology and use of equipment to measure soil physical properties in the laboratory and field. Experiments include particle size analysis, soil surface area, soil-water measurement with neutron probe and TDR, field infiltration rate, soil-water retention curve, soil pore size distribution saturated and unsaturated conductivities, soil water potential and solute breakthrough curve.

Dual Listed SOIL 5105.

Prerequisite: SOIL 2010.

SOIL4120 - Genesis, Morphology and Classification of Soils

Credits: 4

Processes of soil development and methods of description, survey and classification. Includes field trips which examine soils in the Laramie Basin and surrounding mountains.

Dual Listed SOIL 5120.

When Offered (Offered fall semester)

Prerequisite: SOIL 2010.

SOIL4130 - Chemistry of the Soil Environment

Credits: 3

Introduction to the chemical properties and reactions that occur in the soil environment. Fundamental principles of soil mineralogy, organic matter and equilibrium chemistry as they relate to soil chemical reactions, plant nutrient availability and pedogenetic processes will be emphasized.

Dual Listed SOIL 5130.

When Offered (Offered spring semester)

Prerequisite: SOIL 2010, CHEM 1030 or CHEM 1060.

SOIL4140 - Soil Microbiology

Credits: 4

Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture and forestry.

Cross Listed MICR 4140.

Dual Listed SOIL 5140.

Prerequisite: SOIL 2010.

SOIL4150 - Forest and Range Soils

Credits: 3

Characteristics and management of forest and range soils primarily in arid environments. Examines pedagogical units representative of forests and ranges and soil properties, such as nutrient availability and water relations that influence plant growth.

Dual Listed SOIL 5150.

When Offered (Normally offered fall semester)

Prerequisite: SOIL 2010.

SOIL4160 - Soil Health and Nutrient Cycling

Credits: 3

Physical, chemical, and biological aspects of soils that impact fertilizer fate, uptake, and plant growth.

Dual Listed SOIL 5160.

When Offered (Normally offered fall semester of odd-numbered years)

Prerequisite: SOIL 2010.

SOIL4540 - Microbial Diversity and Ecology

Credits: 4

Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design. Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MOLB 4540/MICR 4540.

Dual Listed MOLB 5540/SOIL 5540/ECOL 5540.

Prerequisite: MOLB 2210.

SOIL4780 - Seminar:

Credits: 1-9

Consideration of special topics of current interest in social work. May be repeated for a maximum of 15 hours credit when the seminar topic is different.

Prerequisite: advanced major status; or consent of instructor and junior standing for non-social work majors.

Energy Resource Management and Development- Professional Land Management Concentration, B.S.

ERMD PLM Concentration

Professional Land Management majors determine ownership and title of surface and subsurface rights to negotiate leases with land/mineral owners, coordinate field exploration, and ensure compliance with governmental regulations.

University Studies Program Requirements

The University Studies Program 2015 develops a student's foundational knowledge to prepare them for the Bachelor of Science degree program. Some of the categories of USP will be completed by completing the degree requirements as outlined below. Students should review their degree audits carefully to ensure that USP requirements are completed. Students transferring with a qualifying associate degree will have most of the lower division portion of the USP requirement waived. For more information about qualifying earned associate degree, see the "Articulation: Earned Associate Degrees" information in this catalog.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

PLM Curriculum

Students must earn a letter grade of C or better in each course and a cumulative GPA of 2.000 or better.
Students will complete 120 credit hours for the BS in Energy Resources Management and Development.

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

ACCT2020 - Principles of Accounting II

Credits: 3

Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

AGEC1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed ECON 1020.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

DSCI4260 - Project Management

Credits: 3

Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

ECON1300 - Oil: Business, Culture, and Power

Credits: 3

A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

ENGL1010 - College Composition and Rhetoric

Credits: 3

A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA

USP 2015 Code U5C1

ENR1000 - Energy and Society

Credits: 3

Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.

USP 2003-2014 Code U3O

USP 2015 Code U5PN

ENR4750 - ENR Law and Policy

Credits: 3

Explores the policy underpinnings of environmental and natural resource issues and the legal responses to these problems. Students will gain a basic understanding of: (1) the causes of environmental problems, including energy, water, wildlife, and other western land use issues; (2) the range of policy and instrument choices; and (3) the approaches actually taken in current laws. Students also will apply the law in an interdisciplinary, problem-based learning context.

Dual Listed ENR 5750.

Prerequisite: ENR 2000 and upper division standing or permission of instructor.

ERS2010 - Introduction to Land Management

Credits: 3

Max Credit 3

Provides an introduction to land management in the various energy industries. Covers the knowledge and skills needed by land professionals including survey systems, land descriptions, mineral ownership, title examination, leases, surface use agreements, and contracts frequently used in the industry. In addition, provides an overview of ethical issues that arise and professional conduct expected in the industry.

ERS4010 - Exploration Geoscience

Credits: 3

The purpose of this course is to provide students with information and skills necessary to understand the oil and gas modeling process from exploration to production. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, reservoir characterization, reservoir production, well planning and decision making.

Cross Listed GEOL 4010.

Prerequisite: GEOL 1100; MATH 2200 or MATH 2350.

ERS4100 - Property I

Credits: 3

Property I addresses the nature of property ownership and the rights associated with property as well as the acquisition and transfer of ownership rights in property and the sharing of ownership rights over time, including estates, future interest, and concurrent estates.

ERS4105 - Property II

Credits: 3

Property II covers rights inherent to the ownership of property and public limitations on those rights.

Prerequisite: ERS 4100.

ERS4110 - Law of Contracts

Credits: 3

The Law of Contracts addresses the formation of a contract and the meaning of agreements and the justification of non-performance and breach.

Prerequisite: MGT 1040 and WB/C

ERS4120 - Federal Public Land Law

Credits: 3

Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

ERS4130 - Oil and Gas Law

Credits: 3

Focuses on the basic legal rules and principles governing the ownership and development of oil and gas, derived from a combination of property, contract, administrative, tort, and constitutional law.

ERS4135 - Advanced Energy Law

Credits: 3

Covers oil, gas and other energy development and financing arrangements including assignments, leases, farmouts, joint operating agreements, purchase and sale agreements, service agreements and marketing agreements. Covers oil, gas and other energy development regulation, including, oil and gas conservation commission and state and federal environmental regulation. Introduces other forms of energy development, including, but not limited to, renewables, nuclear, CCUS, hydrogen, and the various agreement and regulatory nuances of such energy development. Covers ethical issues that may arise in energy development.

USP 2015 Code U5C3

Prerequisite: ERS 4130.

ERS4985 - Seminar

Credits: 1-3

Max Credit (Max. 3)

Energy professionals, including accredited professional landmen, practicing attorneys, and other energy professionals will present a colloquium styled course to bridge conceptual content with realistic workforce focused applications.

Prerequisite: ERS 1000/ENR 1000 or ECON 1300/ERS 1300 and WA and QB.

FIN2100 - Principles of Finance

Credits: 3

Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200 , and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

GEOL1100 - Physical Geology

Credits: 4

Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

GIST1200 - Geospatial Foundations

Credits: 3

Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

Former Course Number GIST 1100

GIST2310 - Intro to Geographic Information Systems

Credits: 4

Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number GIST 2100

MATH1405 - Trigonometry

Credits: 3

Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

OR

MATH1450 - Algebra and Trigonometry

Credits: 5

Emphasizes aspects of algebra, trigonometry and problem solving important in the study of calculus. Functions and their applications to real world problems. Classes of functions including polynomial, exponential, logarithmic and trigonometric functions. Intuitive introduction to the idea of limit and sequence which are developed further in the calculus sequence. For the student with considerable prior exposure to trigonometry and algebra. Graphing calculators are used frequently in class and on assignments. See instructor for specifications.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

OR

MATH2355 - Mathematical Applications for Business

Credits: 4

Primarily for students in the College of Business. Includes the mathematics of finance; systems of linear equations and matrices; linear programming; sets, counting, and probability. Students will learn to use Excel spreadsheets to solve business application problems in a computer lab that meets one day per week.

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 26 or Math SAT of 600.

MGT2010 - Legal Environment of Business

Credits: 3

Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

COM2 Elective, Pick ONE

COMM2010 - Public Speaking

Credits: 3

Beginning public speaking course. Students will develop foundational oral, digital and written communication skills. Emphasizes message construction, performance and critique in public communication settings. Includes speech preparation, listening, audience analysis, writing strategies, digital communication, critical thinking, language/nonverbal behavior and various speaking formats. (Offered fall, spring and summer).

USP 2003-2014 Code U3O

USP 2015 Code U5C2

Former Course Number COJO 2010

Corequisite: Prerequisite: Successful completion of a COM1 course.

ECON2400 - Economics of the Environment

Credits: 3

This introductory course examines the links between economics and the natural environment. We consider the efficient use of natural resources like minerals, forests, and fisheries. We also explore how to use economics to sharpen environmental policy for challenges like water and air pollution, climate change, and biodiversity protection.

When Offered (Offered based on sufficient demand and resources)

USP 2003-2014 Code U3G, U3WB

USP 2015 Code U5C2

A&S College Core 2015 ASG

Prerequisite: ECON 1010 recommended, ECON 1020 required.

ENGL2005 - Writing in Technology and the Sciences

Credits: 3

Develops writing styles specifically suited to technological and scientific fields of study. Includes focus on disciplinary conventions and styles as well as audience/readership considerations. Introduces techniques for data interpretation and visualization, and helps students analyze, understand, and adapt common field genres and formats.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: successful completion of WA/COM1.

ENR2000 - Environment and Society

Credits: 3

Develops understanding of the nature and dimensions of environmental and natural resource issues. Explores ways in which elements of society approach, evaluate, and develop positions relative to environmental issues. Uses case studies to illustrate the contemporary and historical role of individuals and societies in identifying and addressing environmental issues at scales ranging from local to global.

USP 2003-2014 Code U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG

ENR2450 - Fish and Wildlife Management in the Anthropocene

Credits: 4

Course examines fundamental principles in management of natural resources, especially fish and wildlife populations. Students explore historical to contemporary context of management, population biology, management tools and their application, career opportunities, with specific emphasis on human dimensions, law, and policy. Students will develop oral and written communication skills.

Cross Listed ZOO 2450.

USP 2015 Code U5C2

Prerequisite: LIFE 1010, LIFE 2022, and COM1.

ENR3300 - Environmental Policy, Conservation and Development in India

Credits: 3

This course will focus on India's environmental policies pertaining to conservation and development. Case studies will be used to understand how these policies were developed, put in place, and their intended and actual outcomes. Students are required to select a suitable topic and conduct research and submit a research report.

USP 2015 Code U5C2

Prerequisite: WA/ COM1 course.

ERS2500 - Communication Across Topics in Energy

Credits: 3

Students will develop interdisciplinary communication skills from an Energy Resources perspective. Communication will include oral, digital, and written forms. Audiences for communication projects will often be live, and from a variety of backgrounds.

USP 2015 Code U5C2

Prerequisite: WA/COM1.

GEOL2220 - Communicating Earth Science

Credits: 3

This course will focus on communicating science to non-scientists. Students will deliver earth science information through written, digital and oral presentations to be informative and interesting to the public.

USP 2015 Code U5C2

Prerequisite: grade of C or higher in GEOL 2010, COM1.

HP2020 - Honors Colloquium II

Credits: 3
Max Credit 3

Honors Colloquium II is the second course in a two-semester sequence introducing students to the Honors College and to interdisciplinary modes of inquiry and expression through intensive analytical reading and writing, lectures, Scholars Sessions, and experiential learning.

USP 2003-2014 Code U3O, U3WB
USP 2015 Code U5C2

Prerequisite: WA. COM I

UWYO1600 - Veterans Transition Course

Credits: 1

Provides returning veterans skills for successful transition to college and civilian life. Reviews tools for academic success, resources available to the veteran, information on veteran related challenges, and career planning resources. Students will develop skills in written, oral, and digital communication.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3I,U3L

USP 2015 Code U5C2

Prerequisite: Students must be a U. S. military veteran or an active duty military member.

Ethics Elective- Pick ONE

ENR2330 - Environmental Ethics

Credits: 3

Introduces students to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed PHIL 2330.

USP 2003-2014 Code [CH<>(none)]

ENR2345 - Natural Resource Ethics

Credits: 3

Introduces students to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.

Cross Listed PHIL 2345/RNEW 2345.

USP 2003-2014 Code U3CH

USP 2015 Code U5H

ENR4040 - Conservation of Natural Resources

Credits: 3

Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed BOT 4040/GEOG 4040.

USP 2003-2014 Code U3CS

Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

LS3300 - Ethics for the Professional Surveyor

Credits: 1

Introduction to the common ethical and moral issues facing professional surveyors in modern practice.

Former Course Number [CE 2074]

Prerequisite: One of LS 3110 or LS 3120 or LS 3130.

MGT2030 - Principle-Based Ethics

Credits: 3

Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

PHIL2300 - Ethics in Practice

Credits: 1-3

Alerts preprofessional students and other interested individuals to various ethical issues they will encounter and relevant professional work on those issues. Emphasis of the course concentrates one time on biomedical ethics, another on technology and engineering ethics, another on ethics in the professions.

USP 2003-2014 Code U3CH

USP 2015 Code U5H

PHIL2330 - Environmental Ethics

Credits: 3

Introduction to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed ENR 2330.

USP 2003-2014 Code U3CH

PHIL2345 - Natural Resource Ethics

Credits: 3

Introduction to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.

Cross Listed ENR 2345/RNEW 2345.

USP 2003-2014 Code U3CH, U3D

USP 2015 Code U5H

PHIL3250 - Global Justice

Credits: 3

An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

USP 2003-2014 Code U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: 3 hours of philosophy or international studies.

PHIL3300 - Ethical Theory

Credits: 3

A philosophical investigation of such concepts as morality, obligation, goodness, freedom and responsibility, and of recurring types of ethical theory.

Prerequisite: 3 hours of philosophy.

PHIL4300 - Topics in Ethics

Credits: 3-6
Max Credit (Max. 6)

An advanced investigation of selected topics in ethics. Examples include derivative and basic principles of obligation; justice; morality and utility; generalization of norms; and the relation of morality and law.

Dual Listed PHIL 5300.
Prerequisite: 6 hours of philosophy.

PHIL4340 - Issues in Environmental Ethics

Credits: 3
Encompasses selected topics in environmental and natural resource ethics.

Dual Listed PHIL 5340.
Prerequisite: PHIL 2330, PHIL 2345, PHIL 3250, PHIL 3300 or PHIL 3350.

Economics Elective- Pick ONE

AGEC3750 - Natural Resource Planning and Economics

Credits: 3
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed ENR 3750.
Former Course Number [4750]

Prerequisite: QA/Q, WA/COM1 and junior standing.

AGEC4600 - Community Economic Analysis

Credits: 3
Analysis of regions and rural communities; their problems, socioeconomic characteristics, land use and economic development. Provides training in regional economic analysis, fiscal impact analysis and benefit cost analysis.

Dual Listed AGEC 5600.
USP 2015 Code U5H
Prerequisite: ECON 3010, ECON 3020, and MATH 1400.

AGEC4700 - Economics of Range Resources

Credits: 3
Applies economic and decision theory to management and allocation of public and private range resources.

When Offered (Normally offered spring semester)

Prerequisite: AGEC 1020 or equivalent.

AGEC4720 - Water Resource Economics

Credits: 3

Presents principles and procedures appropriate to water resource allocation and development decisions. Studies agricultural, recreational, industrial and other uses of water.

Prerequisite: AGEC 1020 or equivalent; QB course, WB course; senior standing.

ECON4420 - Seminar: Economics for ENR

Credits: 2-4

For students with little or no background in economics interested in economic perspectives on ENR. Emphasis is on integrated ecology-economics approach to investigate the economics environmental services, biological resources, and the ecosystems that contain them. CBEC and ECON majors cannot earn upper-division economics credit for this course.

Prerequisite: successful completion of Q and senior standing.

ERS3400 - Energy Markets & Policy

Credits: 3

This course provides an economic analysis of recent developments in energy markets and policies.

Cross Listed ECON 3400.

Prerequisite: ECON 1000, ECON 1010, ECON 1020, ECON 1200, ECON 1300, ECON 1400, or ERS 1300.

Negotiation Elective-Pick ONE

AGEC4450 - Negotiation

Credits: 3

Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed ENR 4450.

Dual Listed AGEC 5450.

Prerequisite: completion of USP O/COM2 requirement; junior standing.

AGEC4550 - Negotiation Analysis

Credits: 3

Focuses on using an analytical perspective for maximizing joint gains between negotiators. Students learn analytical

techniques to prepare for negotiation, evaluate options and proposals during a negotiation, and evaluate negotiated outcomes with respect to maximization of joint gains and fairness criteria.

Cross Listed ENR 4550.

Dual Listed AGEC 5550.

Prerequisite: QA/Q.

Data Analysis Elective- Pick ONE

ENR4500 - Risk Analysis

Credits: 4

Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty; and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.

Dual Listed ENR 5500.

USP 2003-2014 Code U3QB

Prerequisite: MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.

ENR4525 - Environmental Data Analysis

Credits: 4

Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.

Cross Listed GEOL 4525/GEOL 5525.

Dual Listed ENR 5525.

Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

ES1060 - Introduction to Engineering Problem Solving

Credits: 3

An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

GEOL2120 - Quantitative GeoMethods

Credits: 3

Focuses on fundamental mathematical concepts used in geosciences. This course provides the tools to solve quantitative problems in geosciences applications. Students should demonstrate mathematical skills needed to

formulate, analyze, and interpret quantitative arguments in geosciences.

USP 2003-2014 Code U5Q

Prerequisite: Level 5 in Math Placement Test OR 23 in Math ACT OR 600 in Math SAT.

GEOL4250 - Mathematical Geosciences

Credits: 3

The purpose of this course is to strengthen the quantitative skills of students in geosciences by reviewing basic concepts of linear algebra, precalculus, derivation and integration through applications to real datasets and problem sets, and introducing basic concepts of inverse theory, spatial science, data analytics, and geostatistics. The examples focus on applications to practical geoscience problems.

Dual Listed GEOL 5250

Prerequisite: MATH 1400 and 1405 or consent of instructor.

GEOL4525 - Environmental Data Analysis

Credits: 4

Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real world problems in data analysis.

Cross Listed ENR 4525/ENR 5525.

Dual Listed GEOL 5525.

Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

GIST4211 - Advanced Remote Sensing

Credits: 3

On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

Dual Listed GIST 5211.

Former Course Number [BOT 4211; GEOG 4211]

Prerequisite: GIST 3111 or GIST 4130.

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and

managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

STAT3050 - Statistical Methods

Credits: 3

Provides undergraduate majors in the Colleges of Arts and Sciences, Agriculture and Education with training in statistical methodology for multiple variable situations. Integrates computer analysis packages such as R MINITAB, SAS and SPSSX into statistical topics. Credit cannot be earned in more than one of the following courses: STAT 2110, 3050 and STAT 5050, 5060, STAT 5070, STAT 5080.

Prerequisite: STAT 2050, STAT 2070 or equivalent.

ZOO4400 - Population Ecology

Credits: 3

Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.

Dual Listed ZOO 5400.

When Offered (Offered spring semester)

Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

General Electives- 21 credits in total, 9 credits must be upper division

BOT4775 - Forest Ecology

Credits: 4

Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed RNEW 4775.

Dual Listed BOT 5775.

When Offered (Normally offered fall semester of odd-numbered years)

Prerequisite: LIFE 3400.

CHE2005 - Chemical Process Analysis

Credits: 3

Introduces analysis of chemical processes using stoichiometry, material and energy balances, thermodynamics and economics.

When Offered (Normally offered fall semester)

Former Course Number [3000]

Prerequisite: C- or better in either CHEM 1050 or CHEM 1020 and concurrent enrollment in MATH 2205.

CHEM4050 - Solar Energy Conversion

Credits: 3

Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

Cross Listed ERS 4050.

When Offered (Offered spring semester)

Prerequisite: CHEM 1030 or CHEM 1060 and PHYS 1210 or PHYS 1310 and MATH 2200.

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3

An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGECE 1010.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

ECON4430 - Energy Economics

Credits: 3

Economics of energy, particularly oil and gas. Includes a discussion of the history of the oil industry, as well as aspects of contemporary markets. Apply a variety of concepts from microeconomics, particularly related to industrial economics.

Prerequisite: ECON 3020, MATH 2200 or MATH 2350.

EDSE3040 - Energy and Power Technology

Credits: 3

A conceptual analysis and synthesis of energy requirements and sources, with emphasis on alternate energy systems. Analysis of energy conversion and the application of mechanical, fluid, thermal and electrical power systems.

When Offered (Offered through UW/CC)

Former Course Number [EDIE 3040]

Prerequisite: PHYS 1050 or PHYS 1110.

ENR1200 - Environment

Credits: 4

Introductory environmental science course appropriate for science and nonscience majors. Uses case studies and applied laboratories to explore core biological principles such as nutrient flow and cycling, population and community ecology, and ecosystem structure and function, as well as the non-science dimensions of ENR issues. Early-semester, weekend field trips/labs required.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

ENR2300 - Foundations of Sustainability

Credits: 3

Examine the basic concepts, theories, and practice of sustainability as a foundation for future learning in the field. Explore principles of sustainability in our community and personal lives through various lenses and systems.

USP 2003-2014 Code U3CH

USP 2015 Code U5H

ENR3450 - Weather and Climate

Credits: 3

Systematically examines elements and controls of weather and climate with application to regions.

Cross Listed GEOG 3450 and GEOL 3450

When Offered (Normally offered fall semester)

Former Course Number [G&R 3450]

Prerequisite: GEOG 1000, GEOG 1010 or GEOG 1020.

ENR3700 - Wyoming Conservation Corps Practicum

Credits: 1
Max Credit 2

Required for students entering the WCC. Students will be required to make weekly journal entries and write a paper on a topic germane to their WCC experience. Additionally, necessary training for the Wyoming Conservation Corps program will be included in the course content.

Prerequisite: Acceptance into the Wyoming Conservation Corps program.

ENR3750 - Natural Resource Planning and Economics

Credits: 3
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed AGEC 3750.
When Offered (Offered spring semester of odd-numbered years)
Former Course Number [4750]

Prerequisite: QA, WA and junior standing.

ENR3900 - Seminar in Environment and Natural Resources

Credits: 1-3
Max Credit 12

Examines research and policy perspectives by a variety of authorities on selected environment and natural resource problems and issues.

Prerequisite: ENR 3000 or consent of instructor.

ENR3950 - Environmental Sociology

Credits: 3
Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed SOC 3950.
Prerequisite: SOC 1000.

ENR4010 - Winter Ecology: Skills of the Winter Naturalist

Credits: 1

Emphasizes field naturalist skills, the effects of winter abiotic conditions on organisms and subsequent adaptations to these conditions, animal tracking, introduction to snow dynamics and winter safety.

Prerequisite: 6 hours of ENR or science courses.

ENR4011 - Winter Ecology: Snowpack Science and Dynamics

Credits: 1

Emphasizes snow science and avalanche safety through lectures and inquiry-based field laboratories.

Prerequisite: 6 hours of ENR or science courses.

ENR4012 - Winter Ecology: Wildlife and Plant Adaptations

Credits: 1

Emphasizes animal and plant adaptations to cope with the stresses of winter, as well as the predicted impacts of climate change, through lectures and inquiry-based field laboratories. Students also conduct field research in a winter environment.

Prerequisite: 6 hours of ENR or science courses.

ENR4040 - Conservation of Natural Resources

Credits: 3

Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed BOT 4040/GEOG 4040.

USP 2003-2014 Code U3CS

Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

ENR4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, POLS 4051, GEOG 4051 and REWM 4051.

USP 2003-2014 Code U3WC

Prerequisite: POLS 1000.

ENR4420 - Conservation Biology

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ZOO 4420.

Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ENR4500 - Risk Analysis

Credits: 4

Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty; and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.

Dual Listed ENR 5500.

USP 2003-2014 Code U3QB

Prerequisite: MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.

ENR4525 - Environmental Data Analysis

Credits: 4

Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.

Cross Listed GEOL 4525/GEOL 5525.

Dual Listed ENR 5525.

Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

ENR4560 - Conservation Entrepreneurship

Credits: 3

Max Credit 3

This course introduces students to foundational concepts in social entrepreneurship applies them to environmental conservation issues. Students will learn the legal, financial, and ecological concepts underpinning entrepreneurial approaches to conservation. Students will apply concepts to real world examples to understand the strength and weaknesses of these approaches.

Dual Listed ENR 5560.

Prerequisite: ENR 3000

ENR4600 - Campus Sustainability

Credits: 3

Uses campus as a setting to explore long-term environmental, economic, and social sustainability theory and practice. Students design and implement a semester-long project to improve sustainability of the UW campus. This is an interdisciplinary course and is appropriate for students of all disciplines.

Dual Listed ENR 5600

Prerequisite: USP WB or COM2 course, junior or senior standing.

ENR4890 - Topics in Environment and Natural Resources

Credits: 1-6

Max Credit (Max. 12)

Special topics in environment and natural resources are offered under this number. The specific subject matter varies each year because the course is normally taught by faculty who wish to present a specialized topic of interest to ENR and other students. Check class schedule for specific topics offered each year.

Dual Listed ENR 5890.

Former Course Number [4990]

Prerequisite: ENR 3000 or permission of the instructor.

ENR4900 - Capstone in ENR

Credits: 3

An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

Dual Listed ENR 5900.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: ENR 3000.

ENR4950 - Leadership in Natural Resources Management

Credits: 2

Provides Crew Leaders in the Wyoming Conservation Corps with an understanding of the complex dynamics of natural resources management while also equipping students with the tools to confidently lead groups of students on conservation-oriented service-learning projects on Wyoming's public lands during the summer months.

Cross Listed ERS 4950.

Dual Listed ENR 5950.

Prerequisite: ENR 3700 and consent of instructor.

ENR4960 - Field Studies in:

Credits: 1-6

Field-based courses in Environment and Natural Resources are taught under this number. The specific subject matter varies depending upon the location and content of each courses. Students frequently need to apply in advance.

Prerequisite: 6 credits of ENR coursework.

ENR4970 - ENR Internship

Credits: 1-6

Max Credit (Max. 6)

Provides practical experience in environmental and natural resource policy, management and decision processes, as well as interaction with professionals in the field. Offered S/U only.

Prerequisite: ENR 3000.

ERS1650 - The Water-Energy-Climate Nexus

Credits: 3

Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i. e. water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

Cross Listed GEOL 1650.

USP 2015 Code U5PN

ERS4960 - Energy Field Studies

Credits: 1-3

Various facets of energy resource management and development are covered by visits to oil and gas wells, coal mines, power plants, wind farms, and other energy production and research sites. A trip is normally planned for 5 to 6 days.

Prerequisite: WB; ERS 1000/ENR 1000 or ECON 1300/ERS 1300. Undergraduate Research.

ERS4970 - Internship

Credits: 1-3

Max Credit (Max. 3)

A formalized internship designed to provide students with relevant practical experience in the energy sector allowing synthesis and application of principles in energy science to energy asset management.

Prerequisite: ERS 1000/ENR 1000 or ECON 1300/ERS 1300; QB; SP or SE.

ERS4975 - Global Experience in Energy

Credits: 2-4
Max Credit (Max. 4)

A 1-3 month integrative energy experience in China or Australia. Students will participate, in collaboration with partnering energy professionals, in outcomes focused education and research programs designed to address globally relevant challenges. Students will gain a global perspective within the cultural context of the partner institution.

Prerequisite: ERS 1000/ENR 1000 or ECON 1300/ERS 1300; QB; SP or SE.

ERS4990 - Topics in Energy Resource Development and Management

Credits: 1-6
Max Credit (Max. 6)

Special topics in contemporary energy development and management will be offered in response to changing industry and academic demands. The specific subject matter is based on faculty requirements and workforce innovation.

ESE4460 - Solar and Geothermal Engineering

Credits: 3

An introduction to the engineering of solar-powered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ME 4460.

Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ESE4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

Cross Listed ME 4470.

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

FIN3310 - Investment Management

Credits: 3

Fundamental principles of investments and practical implications of financial theory. Students acquire a framework for understanding returns on financial assets, risk and return, fundamentals of portfolio theory, efficient market hypothesis, and asset pricing models. Other topics include financial statement analysis, behavioral finance, and introduction to options and futures.

Former Course Number [4310]

Prerequisite: FIN 2100 and advanced business standing.

FIN3520 - Financial Markets

Credits: 3

Portfolio and capital market theory and the analysis of risk are introduced. Integrates theory into practical aspects of financial markets.

Former Course Number [4520]

Prerequisite: FIN 2100, STAT 2010 or STAT 2050/STAT 2070, and advanced business standing.

GEOG3050 - Economic Geography

Credits: 3

Economic Geography is the study of the location, distribution and spatial organization of economic activities across the globe; specifically how the economic realm is intertwined with other spheres of international social life. It explores the inherent logics and mechanisms of the capitalist system, and the social and spatial inequalities that result.

Former Course Number [G&R 3050]

Prerequisite: 6 hours of Social Sciences or International Studies.

GEOG3450 - Weather and Climate

Credits: 3

Systematically examines the patterns and process of Earth's climate system, focusing on atmospheric and surface energy and water balances; atmospheric motion; past, present, and future climate change.

Cross Listed ENR 3450 and GEOL 3450

Former Course Number [G&R 3450]

Prerequisite: GEOG 1010 OR any USP PN course.

GEOG3480 - Environmental Change

Credits: 3

Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.

Cross Listed ESS 3480
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [G&R 3480]

Prerequisite: GEOG 1010 or any USP PN course; and USP COM1.

GEOG3550 - Natural Hazards and Society

Credits: 3
Considers societal structures and processes as they interact with hazards in the natural environment.

USP 2003-2014 Code U3CS
Former Course Number [G&R 3550]

GEOG4040 - Conservation of Natural Resources

Credits: 3
Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed ENR 4040.
GEOL 4040
USP 2003-2014 Code U3CS
Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

GEOG4051 - Environmental Politics

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, POLS 4051 and REWM 4051.
USP 2003-2014 Code U3WC
Former Course Number [G&R 4051]

Prerequisite: POLS 1000.

GEOG4080 - Management of Major River Basins

Credits: 3

Examines geography of water resources, including distribution, water as a resource and water as a hazard to humans. Focuses on water management case studies on the scale of major river basins in North America and elsewhere in the world.

Former Course Number [G&R 4080]

Prerequisite: Completion of the USP PN requirement or consent of instructor.

GEOG4113 - Geological Remote Sensing

Credits: 4

Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and geologic hazards.

Cross Listed GEOL 4113.

Prerequisite: GEOL 1005 or GEOL 1100 or 1200 or GEOG 1010 and MATH 1400/1405 or MATH 1450.

GEOG4440 - Advanced Global Climate Variability

Credits: 3

Climate varies. This fundamental aspect of the climate system can have major environmental and societal impacts to ecosystems, the hydrologic cycle and water resource management in arid environments such as the intermountain west. This course will utilize climate data and mapping tools to understand global and regional climate variability.

Dual Listed GEOG 5440.

Prerequisite: GEOG 3450/ENR 3450 or instructor's consent.

GEOG4470 - Fire Ecology

Credits: 3

Fire is an important phenomenon affecting ecosystems and human communities throughout the world. Explores spatial and temporal patterns of fire with emphasis on ecology and management.

Cross Listed GEOG/GEOL 4470/5470

Former Course Number [G&R 4470]

Prerequisite: Some basic knowledge of Earth processes GEOG 4460, BOT 4700, LIFE 3400 or graduate standing.

GEOG4880 - Current Topics

Credits: 1-6

Max Credit (Max. 6)

Special course on a topic of current interest.

Dual Listed GEOG 5880.

Former Course Number [G&R 4880, 4850]

Prerequisite: junior standing.

GEOG4885 - Seminar: (TOPICS)

Credits: 1-3

Max Credit (Max. 6)

Faculty-student discussion, reading, and study focused on a selected topic and interest.

Former Course Number [G&R 4885, 4900]

Prerequisite: GEOG 4750.

GEOL1001 - Earth Science and Society

Credits: 1

Introduces students to the study of Earth Science and its role in society through examination and discussion of current events, and through projects researching geologic topics of societal interest.

USP 2003-2014 Code Y3I, U3L

Prerequisite: GEOL 1100 or concurrent enrollment.

GEOL1070 - The Earth: Its Physical Environment

Credits: 4

Discusses selected topics from geology, astronomy and meteorology illustrating fundamental concepts, processes, products and the interrelationships among them. Emphasizes nature of science and relationship between selected topics and society.

Cross Listed ASTR 1070.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

Prerequisite: Math level 3 or equivalent courses, consent of instructor, elementary education major and EDCI 1450 must be taken concurrently.

GEOL1500 - Water, Dirt, and Earth's Environment

Credits: 4

Introductory environmental geology course focusing on water and soil both as hazards and as life-sustaining resources. Explores surface processes and climate change over geological and human timescales. Case studies illustrate the environmental tradeoffs of resource use.

Cross Listed ENR 1500.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

GEOL1600 - Global Sustainability: Managing Earth's Resources

Credits: 4

Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

USP 2003-2014 Code U3G, U3S

GEOL1650 - The Water-Energy-Climate Nexus

Credits: 3

Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i. e. water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

Cross Listed ERS 1650.

USP 2015 Code U5PN

GEOL2000 - Geochemical Cycles and the Earth System

Credits: 4

Introduces the Earth system, including the solid Earth, hydrosphere, biosphere and atmosphere. Emphasizes the evolution of the Earth, rock associations and geochemical cycles.

Cross Listed ESS 2000.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SE

Prerequisite: a 1000-level GEOL course with a lab and concurrent enrollment in CHEM 1020.

GEOL2080 - General Field Geology

Credits: 3

Covers basic concepts of geology and field techniques emphasizing interpretation of geologic features in the field and constructing geologic products (e.g. measured sections and geologic maps). Students are expected to be able to identify the common rock forming minerals and common rocks in hand-sample. Weekly field trip required.

When Offered (Normally offered the first half of the fall semester)

USP 2003-2014 Code U3SE

Prerequisite: GEOL 1100 and at least one other GEOL course.

GEOL3250 - Geosciences and Computers

Credits: 4

An integrated introduction to the basic components of modern scientific computing and to illustrate basic computing concepts through geoscience applications.

USP 2003-2014 Code [I< >(none)]

Prerequisite: One USP designated science course with lab.

GEOL3500 - Global Change: A Geological Perspective

Credits: 4

Considers the geochemical and geophysical systems that control the Earth's climate, the geological and historical record of climate change, and then discusses the possible effect that human activities will have upon these chemical and geophysical systems.

Prerequisite: junior standing and an introductory class in the physical sciences.

GEOL3600 - Earth and Mineral Resources

Credits: 4

Explores the geologic formation, production, and use of Earth and mineral resources, including building materials, chemical minerals, industrial minerals and metals. For each resource, the geologic environment and processes of formation are discussed. Exploration and mining techniques for each resource are also reviewed and associated environmental problems and regulations examined. Beneficial and detrimental aspects of the use of each resource are also discussed.

USP 2003-2014 Code U3G, U3SE

USP 2015 Code U5PN

Prerequisite: completion of USP QA and L.

GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge

Credits: 4

Examines the energy needs of a modern industrialized society. Looks at the types of energy, the natural laws that govern its use, transformation, and conservation. The different sources of energy available to modern societies are examined. Examination includes fossil fuels, nuclear power as well as alternative energy sources. The formation of the resource is discussed, how it is extracted, and any environmental consequences associated with its extraction and use.

USP 2003-2014 Code U3G, U3SE

USP 2015 Code U5PN

Prerequisite: completion of USP QA and L.

GEOL4001 - Modeling the Earth System

Credits: 4

Takes a modeling approach to demonstrate how the Earth is integrated into an interconnected system through

exchanges of energy and matter, and how Earth system functioning is susceptible to human alteration. Unifying concepts focus on quantitative interactions between the Earth and the Sun, and between the Earth's lithosphere, hydrosphere, biosphere and atmosphere.

Cross Listed BOT 4001/ATSC/ESS 4001.

Prerequisite: MATH 2205 or equivalent and ESS 2000 or GEOL 2000.

GEOL4010 - Exploration Geoscience

Credits: 3

Provides students with information and skills necessary to understand the energy exploration modeling process. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, and reservoir characterization.

Cross Listed ERS 4010.

Prerequisite: GEOL 1100; MATH 2200 or MATH 2350.

GEOL4060 - Rocky Mountain Field Trip

Credits: 1

Max Credit (Max. 3)

A six-day geological field trip to various classic localities in the Rocky Mountains.

Prerequisite: senior standing and GEOL 2010 and GEOL 4610 or GEOL 4050.

GEOL4113 - Geological Remote Sensing

Credits: 4

Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and geologic hazards.

Cross Listed GEOG 4113.

Dual Listed GEOL 5113.

Prerequisite: GEOL 1005 or GEOL 1100 or 1200 or GEOG 1010 and MATH 1400/MATH 1405 or MATH 1450.

GEOL4190 - Petroleum Geology

Credits: 3

Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.

Prerequisite: GEOL 2005 or PETE 2050.

GEOL4191 - Methods in Petroleum Geology

Credits: 3

Lectures and laboratory exercises are designed to give the student experience in working with various kinds of geoscientific data in relation to the exploration for and production of hydrocarbons. Most exercises utilize real data and real situations. Topics include recognition of hydrocarbons, interpretation of sample, mud and geophysical logs, geologic utilization of drill stem tests; subsurface correlation and mapping techniques; prospect generation.

Dual Listed GEOL 5191.

Prerequisite: GEOL 4190.

GIST1001 - GIST Orientation and Portfolio

Credits: 1

Introduces students to the GIST degree, the resources necessary to be successful in the program, and the broader geospatial field and its impact on society. Topics include a survey of domain applications, the ethical, legal and social implications of using geospatial data, and geospatial certifications and credentialing.

GIST2140 - Survey of Remote Sensing Applications

Credits: 3

This course introduces remote sensing by surveying applications across disciplines. It includes a brief overview of fundamentals followed by exploration of types of remote sensing including aerial photography, multispectral and hyperspectral satellite remote sensing, active remote sensing, and thermal remote sensing. The course also introduces remote sensing applications for global change.

USP 2015 Code U5PN

Former Course Number GIST 2160

Prerequisite: USP Q; sophomore or junior class standing.

GIST2150 - Introduction to Programming in Geospatial Information Science and Technology

Credits: 3

Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

GIST2190 - Intro to Programming

Credits: 3

Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

Former Course Number GIST 2150

GIST2200 - Spatial Data Visualization

Credits: 3

Covers fundamental principles, concepts, and applications of spatial data visualization. Students will learn to find, understand, and act on spatial patterns, associations and trends, and to use and critique powerful graphical representations of spatial data including 3D maps, web maps, interactive graphics, and animations.

GIST3140 - Introduction to Remote Sensing

Credits: 3

This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth's surface with an emphasis on vegetation, and the hands-on application of remote sensing principles using digital image processing.

USP 2003-2014 Code Q

Former Course Number GIST 3111

GIST4130 - Applied Remote Sensing for Agricultural Management

Credits: 3

Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed RNEW 4130 and PLNT 4130.

Dual Listed GIST 5130.

Former Course Number [BOT 4130]

Prerequisite: QA/Q course and 9 credit hours in student's major field and junior/ senior standing.

GIST4211 - Advanced Remote Sensing

Credits: 3

On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

Dual Listed GIST 5211.

Former Course Number [BOT 4211; GEOG 4211]

Prerequisite: GIST 3111 or GIST 4130.

GIST4410 - UAS Sensors and Platforms

Credits: 1

This 1-credit online course taught over 8 weeks provides a detailed overview of the types of drones used for modern

remote sensing and of the sensors that can be used with these different drone platforms to collect data, including RGB and multi-spectral cameras, thermal sensors, and lidar.

Dual Listed GIST 5410.

GIST4420 - UAS Mission Planning

Credits: 1

This 1-credit online course taught over 8 weeks provides a detailed overview of mission planning for UAS (drone) data collection. Students learn to evaluate mission requirements for a variety of UAS applications, to choose appropriate hardware to accomplish these requirements, and to use mission planning software to translate requirements into flight plans and data collection strategies.

Dual Listed GIST 5420.

GIST4430 - UAS Regulations and Safety

Credits: 1

This 1-credit online course taught over 8 weeks provides students with a detailed overview of federal, state, and local regulations pertaining to UAS flights and data collection. Students also learn about how to operate drones safely in both personal and professional applications. Course content helps prepare students for FAA remote pilot certification.

Dual Listed GIST 5430.

GIST4440 - UAS Ground School and Operations

Credits: 2

This field course provides students with the practical experience to operate UAS (drones) safely, legally, and effectively for collecting data to be used in a variety of applications. Students learn about pertinent safety and regulations, and then spend much of the course time flying drones in the field and collecting data.

Dual Listed GIST 5440.

GIST4450 - UAS Photogrammetry and Image Process

Credits: 3

This 3-credit online course provides overviews of the photogrammetric principles related to imagery acquired by unmanned aerial vehicles or drones, and the image processing techniques used for extracting information from the drone images. Students will gain experience in processing drone imagery collected with RGB cameras and multi-spectral sensors.

Dual Listed GIST 5450.

Prerequisite: Junior/Senior standing or approval from the instructor.

GIST4790 - Special Topics in Geospatial Information Science and Technology

Credits: 3

Advanced and specialized topics in GIS&T are addressed through guided student discussions of current literature and possible hands-on analyses.

Dual Listed GIST 5790.

HIST4535 - History of Oil

Credits: 3

Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

Dual Listed HIST 5535.

Prerequisite: 9 hours in history.

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

LIFE3400 - General Ecology

Credits: 3

Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3410 - Introduction to Field Ecology

Credits: 2

Field and laboratory course. Introduces methods used in plant and animal ecology.

When Offered (Normally offered fall semester)

Former Course Number [BIOL 3410/BIOL 2410]

Prerequisite: LIFE 3400 (may be concurrently enrolled).

LS2010 - Engineering Surveying Lecture

Credits: 2

Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Basic principles of surveying and map making.

Former Course Number [CE 2072]

Prerequisite: a working knowledge of algebra and trigonometry.

LS2015 - Engineering Surveying Laboratory

Credits: 1

Field surveying activities consisting of traversing, differential leveling, construction staking and gathering topographic data.

Former Course Number [CE 2073]

Prerequisite: LS 2010 or concurrent.

LS2020 - GPS for Land Surveyors

Credits: 4

From fundamental theory to practical application and advanced technologies, this class covers all aspects of GPS needed to understand and use GPS as a land surveyor including the basics of GPS technology, common hardware, surveying methods, survey design, planning and observing, real-time kinematics and DGPS.

Former Course Number [CE 2090]

Prerequisite: LS 2400.

LS2100 - Records Research for Surveyors

Credits: 3

Introduced to the public, quasi-public, and private depositories of recorded and non-recorded documents that establish land ownership boundaries, easement boundaries, and land use rights and restrictions in both the Public Land Survey System and the Colonial States. Assignments will require work to be conducted during depositories' normal business hours.

Former Course Number [CE 2076]

LS2410 - GIS in Surveying

Credits: 3

Covers the basic concepts of geographic information systems, the methods and software used to implement them, and their applications to surveying and analysis of other surveying problems.

Former Course Number [CE 2083]

Prerequisite: CE 2070 or LS 2010, and ES 1060 or ES 1061.

LS3210 - Advanced Surveying

Credits: 4

Advanced topics in surveying computations and procedures, including traverse error analysis, topographic surveying, mapping, astronomical observations, coordinate geometry applications, and state plane coordinates.

Former Course Number [CE 3720, CE 4720]

Prerequisite: CE 2070 or LS 2010.

ME4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented..

Cross Listed ESE 4470

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

MGT2030 - Principle-Based Ethics

Credits: 3

Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

MGT3410 - Human Resources Management

Credits: 3

A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

Prerequisite: MGT 2100 and advanced business standing.

MGT3420 - Organizational Behavior and Leadership

Credits: 3

An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

MGT4240 - Performance and Compensation

Credits: 3

In Human Resource Management the management of employee performance and compensation are key functions that drive organizational success. This course helps students become familiar with total compensation systems, including intrinsic and extrinsic rewards, base and variable pay, and benefits, and their relationship with employee performance and satisfaction.

Prerequisite: MGT 3410

MGT4260 - Training and Development

Credits: 3

In Human Resource Management training employees in the latest technical and managerial skills and helping them gain developmental experiences helps drive organizational success. Students will learn how to recognize training and developmental needs, how to develop employee training systems, and how to implement these training systems. Additionally, students will learn about career and leader development.

Prerequisite: MGT 3410

MGT4340 - Law for Managers

Credits: 3

Provides an overview of laws and legal issues associated with managing a business, incorporating aspects of sustainable business practices. Topics include agency and employment, business organizations, including securities laws and corporate governance standards, government regulation of businesses, including environmental/sustainability regulations, and an introduction to international law and global economy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4350 - Commercial Law

Credits: 3

A study of the basic principles of commercial law, including property, sales, negotiable instruments, secured transactions, creditors' rights and bankruptcy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4360 - Business Law for Entrepreneurs

Credits: 3

A survey of the various legal issues confronted by entrepreneurs, particularly related to new ventures.

Prerequisite: MGT 2010 and junior class standing.

MGT4370 - Employment Law

Credits: 3

Provides a comprehensive foundation for understanding the law as it relates to the employer-employee relationship. This course will provide students the legal background necessary to make better decisions both as a worker as well as a manager of other.

Prerequisite: MGT 2010 or equivalent, junior class standing.

MGT4430 - Organization Design and Change

Credits: 3

Examines organizations, what they are, how they operate and are structured and how they can be changed. Focus is on macro managerial issues in the design and change of work organizations.

Prerequisite: MGT 2100, MGT 3410, MGT 3420; advanced business standing, junior class standing.

MGT4470 - Negotiations and Conflict Resolution

Credits: 3

Max Credit 3

Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3

Prerequisite: MGT 2100, advanced business standing.

MGT4800 - Business Strategy and Policy

Credits: 3

A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3

Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

MGT4900 - Independent Study in Management

Credits: 1-4

Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Management not included in other structured management courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MGT4910 - Topics in Management

Credits: 3

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MKT2100 - Introduction to Marketing

Credits: 3

An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

PETE4860 - Energy, Environment, and Materials

Credits: 3

Understanding the connection between materials, energy and environment, including the history of climate and different types of energy in use for a greener planet. Provides broad knowledge in the areas of energy, material science, chemical, petroleum, and environmental engineering.

Dual Listed PETE 5860.

Prerequisite: Junior standing and PETE 2050 or consent of instructor.

PHIL2420 - Critical Thinking

Credits: 3

Shows that argument is a skill of fundamental importance to any field of endeavor. Explains methods used in evaluating an argument. Introduces such topics as: patterns of reasoning, counterexamples, fallacies; inductive and deductive logic.

USP 2003-2014 Code U3CH

Former Course Number [1100]

PLNT1000 - Agroecology

Credits: 4

Introduces ecological interactions that affect food producing (agricultural) systems. Lectures and laboratory exercises study the various biological components and the science of sustainable agricultural production. Features differences between developed and developing countries. Explores crises and challenges facing agriculture and global society.

USP 2003-2014 Code U3G, U3SB

USP 2015 Code U5PN

Former Course Number [CROP/BOT 2000]

PLNT1150 - Pesticide Safety and Application

Credits: 1

Introduces various types and safe methods of pesticides application. Subsequent to completion, students may take the certification test administered by the Wyoming Department of Agriculture.

Cross Listed ENTO 1150.

Former Course Number [CROP 1150]

PLNT3030 - Ecological Web: Ecology of Plant Protection

Credits: 3

Introduces students to concurrent evolution of crop cultivation and organisms, both plant and animal, that attack them. Provides basic skills necessary to understand ecology and management of economic crop pests.

When Offered (Normally offered fall semester)

Former Course Number [2030]

Prerequisite: LIFE 1010 and PLNT 1000

PLNT4070 - Weed Science and Technology

Credits: 4

Management and physiological principles involved in control of economically important farm and range weeds.

Dual Listed PLNT 5070

When Offered (Normally offered fall semester)

Former Course Number [CROP 4070]

Prerequisite: PLNT 1000, LIFE 1010

PLNT4130 - Applied Remote Sensing for Agricultural Management

Credits: 3

Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed RNEW 4130/GIST 4130

Prerequisite: Q course and 9 credit hours in student's major field and junior/senior standing

POLS3620 - Environmental Justice

Credits: 3

Examines core philosophical understandings of justice and applies them to the environment through a variety of case studies, analytical essays and monographs.

Cross Listed ENR 3620.

Prerequisite: POLS 1000, POLS 2460, or POLS 3600, or permission of instructor.

POLS4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.

Dual Listed POLS 5051.

USP 2003-2014 Code U3WC

Former Course Number [4050]

Prerequisite: POLS 1000.

POLS4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ ENR 4052/GEOG 4052/REWM 4052.

Prerequisite: POLS 1000.

POLS4385 - Environment and Resource Conflict

Credits: 3

Drawing on key theory and contemporary real-world case studies this course explores how environmental change and the competition for scarce resources (such as food, water, oil, gems, and timber) have increasingly been linked to violent interstate and intrastate conflict and how such conflicts might be addressed, managed, or resolved through international and national action.

Cross Listed INST 4385.

Dual Listed POLS 5385.

Prerequisite: 9 hours of POLS or INST, including POLS 2310/INST 2310.

POLS4455 - Energy Security

Credits: 3

Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed INST 4455.

Dual Listed POLS 5455.

Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

POLS4555 - Political Ecology

Credits: 3

Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

Cross Listed INST/GEOG 4555 & POLS 5555

Dual Listed INST/GEOG 4555 & POLS 5555

Prerequisite: 9 hours of international studies or social science coursework.

REWM2000 - Principles of Rangeland Management

Credits: 3

Basic principles of range management as they apply to various regions and vegetative types. Relationship of range management practices to livestock production, wildlife management, forestry, hydrology and other land uses. Introductory course for majors and non-majors.

Prerequisite: LIFE 1101 or LIFE 1010.

REWM3100 - Principles of Wildland Water Quality

Credits: 3

Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

Cross Listed ENR 3100.

When Offered (Normally offered fall semester)

Prerequisite: CHEM 1000.

REWM4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and POLS 4051.

USP 2003-2014 Code U3WC

Prerequisite: POLS 1000.

REWM4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/GEOG 4052/AMST 4052.

Prerequisite: POLS 1000.

REWM4200 - Reclamation of Drastically Disturbed Lands

Credits: 3

Overviews reclamation of drastically disturbed lands in the west, emphasizing surface mined lands. Includes principles of ecology, agronomy, soils and other relevant disciplines as applied to mitigate adverse environmental impacts of land disturbance.

When Offered (Normally offered fall semester)

Prerequisite: LIFE 3400, AECL 2100.

REWM4285 - Wildland Hydrology

Credits: 3

Teaches essential and unique characteristics of hydrologic cycle as occurred on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed ENR 4285.

Dual Listed REWM 5285.

When Offered (Normally offered fall semester)

Prerequisite: QA

REWM4330 - Rangeland Ecosystem Assessment and Monitoring

Credits: 4

Assessment, monitoring, and analysis of rangeland ecosystems and processes. Students integrate sampling design, measurements of vegetation attributes, indicators of rangeland health, ecological site information, riparian and wildlife habitat values, utilization, and statistical applications to evaluate rangeland resource integrity and sustainable use. Students collect, analyze, and report data using current technologies. REWM students will be given enrollment preference.

When Offered (Normally offered fall semester)

Prerequisite: REWM 2400 and STAT 2050 or STAT 2070. Concurrent enrollment in REWM 2400 and STAT 2050 or STAT 2070 is allowed with permission.

REWM4340 - Reclamation Techniques Field Trip

Credits: 2

Provides increased comprehension of current land reclamation problems and solutions by means of a field trip to sites in region where land reclamation is occurring.

When Offered (Normally offered fall semester)

Prerequisite: REWM 4200.

REWM4440 - Applied Fire Ecology

Credits: 3

Course examines drivers and patterns of wildfire in rangeland and forested ecosystems, fire behavior, fuel characteristics, fire effects, suppression tactics and mitigation strategies, prescribed burning precautions and applications, applications/uses of fire to meet resource objectives, policies and regulations, and modeling software. Required field trips out of class time.

Dual Listed REWM 5440.

Restricted Junior standing or greater class standing required.

Prerequisite: General biology and MATH 1400 or above.

REWM4500 - Rainfall-Runoff Modeling

Credits: 3

Introduction to hydrologic modeling that teaches the foundations of model development, calibration, and interpretation. Examines the different components of the water cycle and how they are being integrated into watershed models. Equips the students with the necessary skills to parameterize hydrologic models, understand the underlying principles, and interpret model outputs.

Dual Listed REWM 5500.

Prerequisite: REWM 4285.

REWM4530 - Seminar

Credits: 1

Max Credit (Max. 2)

Discusses pertinent range management problems.

Prerequisite: REWM 2000 (earn at least a C) or ENR 4000.

REWM4580 - Rangeland Restoration Ecology

Credits: 3

Detailed analysis of various disturbed ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic influences on degradation and strategies for vegetative rehabilitation. Strong focus on current research to formulate restoration strategies.

Dual Listed REWM 5580.

Prerequisite: REWM 4200 or LIFE 3400.

REWM4600 - Drone-Based Remote Sensing

Credits: 3

This class teaches the basics of remote sensing applications in environmental sciences with a focus on unmanned aerial vehicles (UAVs, aka "drones"). Students will receive training in drone operation, data collection and analysis, and will be prepared to take the FAA Remote Pilot Certification.

Prerequisite: MATH 1400 or higher

REWM4700 - Wildland Watershed Management

Credits: 3

Studies hydrological cycle with specific emphasis on the role of vegetation in hydrologic processes such as

interception, surface detention storage, infiltration, percolation, run-off, and water quality. Utilization of watersheds and vegetation manipulation practices to modify these hydrologic processes.

When Offered (Normally offered spring semester)

Prerequisite: LIFE 1101 or LIFE 1010.

REWM4710 - Watershed Water Quality Management

Credits: 3

Studies watershed processes controlling water quality. Examines impacts of land use activities such as agriculture production, livestock grazing, and mineral and natural gas extraction on surface water and ground water quality. Emphasis will be placed on water quality modeling and management.

Dual Listed REWM 5710.

When Offered (Normally offered spring semester)

Former Course Number [4180]

Prerequisite: CHEM 1000.

REWM4750 - Wildlife Habitat Restoration Ecology

Credits: 3

Emphasis on fundamental and applied aspects of restoration ecology for terrestrial wildlife habitats following anthropogenic and natural disturbances. Although the course overviews theoretical concepts applicable to many systems, there is a focus on applications for wildlife habitats in western North America.

Dual Listed REWM 5750.

Prerequisite: Minimum of 6 hours of Biology or Life Sciences courses.

REWM4810 - Experiments in Restoration

Credits: 2

Emphasis on the experimental design using examples from restoration science. Focus on experiments to test concepts in ecosystem science, food webs, population genetics, metapopulation biology, biodiversity and invasion, and climate change. Address topics in experimental, ecological restoration.

Dual Listed REWM 5810.

Prerequisite: STAT 2050 or equivalent.

REWM4830 - Ecological Applications for Wildland Management

Credits: 3

Emphasis on applying understanding of interactions among components of rangelands to facilitate sustainable provision of ecosystem services. The influences of stochasticity and disturbances on ecosystem structure and function will be the focus of discussion and technical writing exercises.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3WB

Prerequisite: WA, REWM 2000 (earn at least a C), LIFE 3400 (latter may be concurrent).

REWM4850 - Rangeland Vegetation Management Techniques

Credits: 3

Uses applied ecological principles in restoration of degraded rangeland ecosystems to introduce methods for manipulating rangeland vegetation that satisfy land management objectives. Provides ecologically-sound practices to maintain optimal and sustained yield of rangeland products.

When Offered (Normally offered spring semester)

Prerequisite: C or better in REWM 2000 and SB.

REWM4900 - Rangeland Management Planning

Credits: 3

Applies planning processes that integrate soil, vegetation, water, livestock, wildlife, and environmental regulatory considerations within the context of satisfying ecologically sustainable rangeland management objectives.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: REWM 4830, ECON 1010 or AGECE 1010 or AGECE 1020, SOIL 4120 or SOIL 4150 (may be concurrent), REWM 3020 (may be concurrent), REWM 4330 (may be concurrent).

SOIL2010 - Introduction to Soil Science

Credits: 4

Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE

Prerequisite: CHEM 1000 or CHEM 1020.

SOIL3130 - Environmental Quality

Credits: 3

Introduction to environmental quality issues and events. Course emphasizes impacts to soil, water, atmospheric, and vegetative ecosystems due to different nutrients and contaminants, including nitrogen, phosphorus, sulfur, trace elements, and organic chemicals. Current information pertaining to environmental quality is discussed and a field trip to the Union Pacific Tie Plant.

Cross Listed ENR 3130.

When Offered (Offered fall semester)

Prerequisite: complete at least 1 University Studies Science course SB, SP or SE.

SOIL4100 - Soil Physics

Credits: 3

Examines forms and interrelations of matter and energy in the soil environment. Primarily addresses fluxes and transformations of soil water and solutes, as well as physical properties that influence soil productivity.

Dual Listed SOIL 5100.

When Offered (Offered spring semester)

Prerequisite: SOIL 2010 or equivalent introductory soils course.

SOIL4105 - Soil Physics Laboratory

Credits: 2

Teaches students the methodology and use of equipment to measure soil physical properties in the laboratory and field. Experiments include particle size analysis, soil surface area, soil-water measurement with neutron probe and TDR, field infiltration rate, soil-water retention curve, soil pore size distribution saturated and unsaturated conductivities, soil water potential and solute breakthrough curve.

Dual Listed SOIL 5105.

Prerequisite: SOIL 2010.

SOIL4120 - Genesis, Morphology and Classification of Soils

Credits: 4

Processes of soil development and methods of description, survey and classification. Includes field trips which examine soils in the Laramie Basin and surrounding mountains.

Dual Listed SOIL 5120.

When Offered (Offered fall semester)

Prerequisite: SOIL 2010.

SOIL4130 - Chemistry of the Soil Environment

Credits: 3

Introduction to the chemical properties and reactions that occur in the soil environment. Fundamental principles of soil mineralogy, organic matter and equilibrium chemistry as they relate to soil chemical reactions, plant nutrient availability and pedogenetic processes will be emphasized.

Dual Listed SOIL 5130.

When Offered (Offered spring semester)

Prerequisite: SOIL 2010, CHEM 1030 or CHEM 1060.

SOIL4140 - Soil Microbiology

Credits: 4

Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture and forestry.

Cross Listed MICR 4140.

Dual Listed SOIL 5140.

Prerequisite: SOIL 2010.

SOIL4150 - Forest and Range Soils

Credits: 3

Characteristics and management of forest and range soils primarily in arid environments. Examines pedagogical units representative of forests and ranges and soil properties, such as nutrient availability and water relations that influence plant growth.

Dual Listed SOIL 5150.

When Offered (Normally offered fall semester)

Prerequisite: SOIL 2010.

SOIL4160 - Soil Health and Nutrient Cycling

Credits: 3

Physical, chemical, and biological aspects of soils that impact fertilizer fate, uptake, and plant growth.

Dual Listed SOIL 5160.

When Offered (Normally offered fall semester of odd-numbered years)

Prerequisite: SOIL 2010.

SOIL4540 - Microbial Diversity and Ecology

Credits: 4

Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design. Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MOLB 4540/MICR 4540.

Dual Listed MOLB 5540/SOIL 5540/ECOL 5540.

Prerequisite: MOLB 2210.

SOIL4565 - Research: Soil Science

Credits: 1-4

Max Credit (Max. 6)

Library, laboratory, and/or green-house investigations on select research topics. Graduate students will be required to give a presentation to the soil science group on their final product/ report.

Dual Listed SOIL 5565.

Prerequisite: basic training in soil science research.

SOIL4780 - Seminar:

Credits: 1-9

Consideration of special topics of current interest in social work. May be repeated for a maximum of 15 hours credit when the seminar topic is different.

Prerequisite: advanced major status; or consent of instructor and junior standing for non-social work majors.

Minor

Energy Resource Management Minor

ERM Minor

The purpose of the ERM minor is to provide students at UW the opportunity to learn about energy and expand their career opportunities with this credential.

Core Courses- 6 credit hours needed

ERS1000 - Energy and Society

Credits: 3

Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ENR 1000.

USP 2003-2014 Code U3O

USP 2015 Code U5PN

OR

ENR1000 - Energy and Society

Credits: 3

Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.

USP 2003-2014 Code U3O

USP 2015 Code U5PN

ERS3400 - Energy Markets & Policy

Credits: 3

This course provides an economic analysis of recent developments in energy markets and policies.

Cross Listed ECON 3400.

Prerequisite: ECON 1000, ECON 1010, ECON 1020, ECON 1200, ECON 1300, ECON 1400, or ERS 1300.

OR

ECON3400 - Energy Markets & Policy

Credits: 3

This course provides an economic analysis of recent developments in energy markets and policies.

Cross Listed ERS 3400.

Prerequisite: ECON 1000, ECON 1010, ECON 1020, ECON 1200, ECON 1300, ECON 1400, or ERS 1300, and sophomore class standing.

Elective Courses- 6 credit hours needed

ECON1300 - Oil: Business, Culture, and Power

Credits: 3

A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

OR

ERS1300 - Oil: Business, Culture, and Power

Credits: 3

A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ECON 1300.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

AGEC3750 - Natural Resource Planning and Economics

Credits: 3

Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning

and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed ENR 3750.

Former Course Number [4750]

Prerequisite: QA/Q, WA/COM1 and junior standing.

OR

ENR3750 - Natural Resource Planning and Economics

Credits: 3

Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed AGECE 3750.

When Offered (Offered spring semester of odd-numbered years)

Former Course Number [4750]

Prerequisite: QA, WA and junior standing.

INST4455 - Energy Security

Credits: 3

Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed POLS 4455.

Dual Listed INST 5455.

Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

OR

POLS4455 - Energy Security

Credits: 3

Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed INST 4455.

Dual Listed POLS 5455.

Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

POLS4350 - Sustainable Development and Global Policy

Credits: 3

Considers in-depth meaning of "sustainable development" and trade-offs necessary to achieve it. Considers this issue from global perspective through application of theories in economics, political science, international relations, technology studies and ethics.

Dual Listed POLS 5350.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.

Dual Listed POLS 5051.

USP 2003-2014 Code U3WC

Former Course Number [4050]

Prerequisite: POLS 1000.

SOC3950 - Environmental Sociology

Credits: 3

Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed ENR 3950.

Prerequisite: SOC 1000.

OR

ENR3950 - Environmental Sociology

Credits: 3

Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed SOC 3950.

Prerequisite: SOC 1000.

ERS2010 - Introduction to Land Management

Credits: 3
Max Credit 3

Provides an introduction to land management in the various energy industries. Covers the knowledge and skills needed by land professionals including survey systems, land descriptions, mineral ownership, title examination, leases, surface use agreements, and contracts frequently used in the industry. In addition, provides an overview of ethical issues that arise and professional conduct expected in the industry.

ERS4100 - Property I

Credits: 3
Property I addresses the nature of property ownership and the rights associated with property as well as the acquisition and transfer of ownership rights in property and the sharing of ownership rights over time, including estates, future interest, and concurrent estates.

ERS4110 - Law of Contracts

Credits: 3
The Law of Contracts addresses the formation of a contract and the meaning of agreements and the justification of non-performance and breach.

Prerequisite: MGT 1040 and WB/C

ERS4120 - Federal Public Land Law

Credits: 3
Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

ERS4130 - Oil and Gas Law

Credits: 3
Focuses on the basic legal rules and principles governing the ownership and development of oil and gas, derived from a combination of property, contract, administrative, tort, and constitutional law.

ERS3010 - Air Quality Management

Credits: 3
Provides an overview of air quality management approaches. In this course an interdisciplinary approach is adopted that includes diverse information from physical, natural and socioeconomic systems. With consideration of global and local issues this class focuses upon the energy sector.

Prerequisite: CHEM 1000 or CHEM 1020 and WA or COM1.

ERS4050 - Solar Energy Conversion

Credits: 3

Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

Cross Listed CHEM 4050.

When Offered (Offered spring semester)

Prerequisite: CHEM 1030 or CHEM 1060 and PHYS 1210 or PHYS 1310 and MATH 2200.

OR

CHEM4050 - Solar Energy Conversion

Credits: 3

Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

Cross Listed ERS 4050.

When Offered (Offered spring semester)

Prerequisite: CHEM 1030 or CHEM 1060 and PHYS 1210 or PHYS 1310 and MATH 2200.

ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate

Credits: 3

Introduces non-specialists to the fundamental scientific principles governing climate change. The underlying physics of both human and natural contributions to global warming is presented along with uncertainties in predicting climate. Potential strategies to mitigate global warming (alternative energy, carbon capture, and geoengineering) are also discussed.

USP 2003-2014 Code U5PN

GEOL4010 - Exploration Geoscience

Credits: 3

Provides students with information and skills necessary to understand the energy exploration modeling process. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, and reservoir characterization.

Cross Listed ERS 4010.

Prerequisite: GEOL 1100; MATH 2200 or MATH 2350.

OR

ERS4010 - Exploration Geoscience

Credits: 3

The purpose of this course is to provide students with information and skills necessary to understand the oil and gas modeling process from exploration to production. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, reservoir characterization, reservoir production, well planning and decision making.

Cross Listed GEOL 4010.

Prerequisite: GEOL 1100; MATH 2200 or MATH 2350.

GEOG3480 - Environmental Change

Credits: 3

Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.

Cross Listed ESS 3480

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Former Course Number [G&R 3480]

Prerequisite: GEOG 1010 or any USP PN course; and USP COM1.

OR

ESS3480 - Environmental Change

Credits: 3

Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.

Cross Listed GEOG 3480.

USP 2003-2014 Code U3G, U3WB

Prerequisite: GEOG 1010 or any USP PN course and USP COM1.

GEOL1600 - Global Sustainability: Managing Earth's Resources

Credits: 4

Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

USP 2003-2014 Code U3G, U3S

GEOL1650 - The Water-Energy-Climate Nexus

Credits: 3

Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i. e. water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

Cross Listed ERS 1650.

USP 2015 Code U5PN

OR

ERS1650 - The Water-Energy-Climate Nexus

Credits: 3

Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i. e. water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

Cross Listed GEOL 1650.

USP 2015 Code U5PN

GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge

Credits: 4

Examines the energy needs of a modern industrialized society. Looks at the types of energy, the natural laws that govern its use, transformation, and conservation. The different sources of energy available to modern societies are examined. Examination includes fossil fuels, nuclear power as well as alternative energy sources. The formation of the resource is discussed, how it is extracted, and any environmental consequences associated with its extraction and use.

USP 2003-2014 Code U3G, U3SE

USP 2015 Code U5PN

Prerequisite: completion of USP QA and L.

GEOL3600 - Earth and Mineral Resources

Credits: 4

Explores the geologic formation, production, and use of Earth and mineral resources, including building materials, chemical minerals, industrial minerals and metals. For each resource, the geologic environment and processes of formation are discussed. Exploration and mining techniques for each resources are also reviewed and associated environmental problems and regulations examined. Beneficial and detrimental aspects of the use of each resource are also discussed.

USP 2003-2014 Code U3G, U3SE

USP 2015 Code U5PN

Prerequisite: completion of USP QA and L.

GEOL4190 - Petroleum Geology

Credits: 3

Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.

Prerequisite: GEOL 2005 or PETE 2050.

OR

GEOL5190 - Petroleum Geology

Credits: 3

Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 4190.

Prerequisite: GEOL 2100, GEOL 4610.

GEOL4720 - Ore Deposits

Credits: 4

Teaches principles of economic geology of ore minerals. Lectures cover geochemistry of ore minerals and environments in which various ore minerals are found. Labs include identification of ore minerals in hand sample and under microscope and methodology of economic geology.

Dual Listed GEOL 5720

When Offered (Normally offered fall semester)

Former Course Number [GEOL 4700]

Prerequisite: a grade of C or better in GEOL 2020.

OR

GEOL5720 - Ore Deposits

Credits: 4

Teaches principles of economic geology of ore minerals. Lectures cover geochemistry of ore minerals and environments in which various ore minerals are found. Labs include identification of ore minerals in hand sample and under microscope and methodology of economic geology.

Dual Listed GEOL 4720.

Prerequisite: GEOL 2010.

ME4460 - Solar and Geothermal Engineering

Credits: 3

An introduction to the engineering of solarpowered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ESE 4460

Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

OR

ESE4460 - Solar and Geothermal Engineering

Credits: 3

An introduction to the engineering of solar-powered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ME 4460.

Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ME4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented..

Cross Listed ESE 4470

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

OR

ESE4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

Cross Listed ME 4470.

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

ERS4990 - Topics in Energy Resource Development and Management

Credits: 1-6

Max Credit (Max. 6)

Special topics in contemporary energy development and management will be offered in response to changing industry and academic demands. The specific subject matter is based on faculty requirements and workforce innovation.

NAIS4340 - Natural Resource Management on Western Reservations

Credits: 3

Examines natural resource management techniques on western reservations. Focus is on the management and planning of water, grazing, extractive industries, and forestry. Fieldwork on the Wind River Indian Reservation is included.

Cross Listed GEOG 4340.

Prerequisite: 6 hours of 2000-level NAIS courses.

ENR4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/AMST 4052/GEOG 4052/REWM 4052.

Prerequisite: POLS 1000.

OR

GEOG4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/AMST 4052/REWM 4052.

Former Course Number [G&R 4052]

Prerequisite: POLS 1000.

OR

AMST4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052 / ENR 4052 / GEOG 4052 / REWM 4052.

Prerequisite: POLS 1000.

OR

POLS4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ ENR 4052/GEOG 4052/REWM 4052.

Prerequisite: POLS 1000.

GEOL4210 - Topics in Geophysics

Credits: 1-3

Max Credit (Max. 9)

Studies particular geophysics topics in-depth at undergraduate level.

Former Course Number [GEOL 4020]

Prerequisite: senior standing and 20 hours in geology.

RNEW4775 - Forest Ecology

Credits: 4

Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed BOT 4775.

Prerequisite: LIFE 3400.

SOIL4100 - Soil Physics

Credits: 3

Examines forms and interrelations of matter and energy in the soil environment. Primarily addresses fluxes and transformations of soil water and solutes, as well as physical properties that influence soil productivity.

Dual Listed SOIL 5100.

When Offered (Offered spring semester)

Prerequisite: SOIL 2010 or equivalent introductory soils course.

PETE4860 - Energy, Environment, and Materials

Credits: 3

Understanding the connection between materials, energy and environment, including the history of climate and different types of energy in use for a greener planet. Provides broad knowledge in the areas of energy, material science, chemical, petroleum, and environmental engineering.

Dual Listed PETE 5860.

Prerequisite: Junior standing and PETE 2050 or consent of instructor.

PHYS2250 - Thermodynamic Systems in Energy Science

Credits: 4

Introduces the principles of thermodynamics and their application to energy science. Intended for students majoring in Energy Resource Science.

USP 2003-2014 Code U3SP

Prerequisite: PHYS 1210, grade of C or higher in MATH 2205.

ESE4474 - Topics in Energy Systems Engineering

Credits: 1-3

Max Credit (Max. 4)

Directed research in mechanical engineering.

Prerequisite: Completion of the ME Success Curriculum, ME 3005/ESE 3005.

GEOL4001 - Modeling the Earth System

Credits: 4

Takes a modeling approach to demonstrate how the Earth is integrated into an interconnected system through exchanges of energy and matter, and how Earth system functioning is susceptible to human alteration. Unifying concepts focus on quantitative interactions between the Earth and the Sun, and between the Earth's lithosphere, hydrosphere, biosphere and atmosphere.

Cross Listed BOT 4001/ATSC/ESS 4001.

Prerequisite: MATH 2205 or equivalent and ESS 2000 or GEOL 2000.

GEOL4020 - Global Biogeochemistry

Credits: 3

Biogeochemistry is the exploration of the physical, chemical, and biological processes that govern the exchange of energy and elements between the biosphere and the geosphere. This course will examine pri

Prerequisite: GEOL/ESS 2000

HIST4535 - History of Oil

Credits: 3

Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

Dual Listed HIST 5535.

Prerequisite: 9 hours in history.

ESE4060 - Energy Systems Design I

Credits: 3

First of a two-course design sequence constituting a capstone design experience on an energy-related project. Multidisciplinary teams prepare a project proposal or Statement of Qualifications, generate a morphological study of their project, develop mathematical models of their design, and prepare project plans and specifications. Project management and methods are also presented.

USP 2015 Code U5C3

Prerequisite: Completion of the ME Success Curriculum, ESE 3040 and ESE 3360.

ERS4960 - Energy Field Studies

Credits: 1-3

Various facets of energy resource management and development are covered by visits to oil and gas wells, coal mines, power plants, wind farms, and other energy production and research sites. A trip is normally planned for 5 to 6 days.

Prerequisite: WB; ERS 1000/ENR 1000 or ECON 1300/ERS 1300. Undergraduate Research.

EDSE3040 - Energy and Power Technology

Credits: 3

A conceptual analysis and synthesis of energy requirements and sources, with emphasis on alternate energy systems. Analysis of energy conversion and the application of mechanical, fluid, thermal and electrical power systems.

When Offered (Offered through UW/CC)

Former Course Number [EDIE 3040]

Prerequisite: PHYS 1050 or PHYS 1110.

ENR4750 - ENR Law and Policy

Credits: 3

Explores the policy underpinnings of environmental and natural resource issues and the legal responses to these problems. Students will gain a basic understanding of: (1) the causes of environmental problems, including energy, water, wildlife, and other western land use issues; (2) the range of policy and instrument choices; and (3) the approaches actually taken in current laws. Students also will apply the law in an interdisciplinary, problem-based learning context.

Dual Listed ENR 5750.

Prerequisite: ENR 2000 and upper division standing or permission of instructor.

BKCH3021 - Fundamentals of Blockchain

Credits: 3

The purpose of this course is to provide a fundamental understanding of blockchain technologies and their implications. Topics will focus on understanding how blockchain may change the way we think about money, disrupt traditional financial institutions and eliminate costly intermediaries.

Prerequisite: Requires Junior Class Standing.

GEOL4525 - Environmental Data Analysis

Credits: 4

Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real world problems in data analysis.

Cross Listed ENR 4525/ENR 5525.

Dual Listed GEOL 5525.

Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

EE4510 - Power Systems

Credits: 3

Electric power distribution and transmission. Distribution systems, transmission line calculations, installation and protection; substations, corona, protective relaying and carrier current communication and telemetering. Introduction to system stability studies.

Prerequisite: ES 2210 and EE 3510.

ENR4450 - Negotiation

Credits: 3

Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed AGECE 4450.

Dual Listed ENR 5450.

Prerequisite: completion of USP O requirement; junior standing.

EE2220 - Circuits and Signals

Credits: 4

Review of sinusoidal steady state analysis and ac power. Mutual inductance and linear transformers. Laplace transform. Laplace transform in circuit analysis. Frequency dependent circuits, including RLC circuit resonance. Magnitude and phase response, complex poles and zeros. Bode plots. Filter circuit fundamentals. Fourier series. Laboratory.

When Offered (Offered spring semester only)

Former Course Number [3320]

Prerequisite: ES 2210, or ES 2215 and ES 2216.

EE3510 - Electric Machines and Power Systems

Credits: 4

Polyphase AC circuits; single phase and polyphase transformers; AC synchronous and induction machines; introduction to power systems and per unit system; transmission line parameters; steady-state operations of transmission lines; power flows; transient stability; synchrophasor system and its applications.

Prerequisite: ES 2210, or ES 2215 and ES 2216.

AGEC4450 - Negotiation

Credits: 3

Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed ENR 4450.

Dual Listed AGEC 5450.

Prerequisite: completion of USP O/COM2 requirement; junior standing.

PETE2050 - Fundamentals of Petroleum Engineering

Credits: 3

General introduction to petroleum engineering, including petroleum geology, exploration, reservoir rocks, and fluid flow through porous media, drilling fundamentals, completion technology, well logging and testing, methods of production, stimulation methods, enhanced oil recovery, reserves and economics.

Prerequisite: grade of C or better in both MATH 2205 and PETE 1060.

CE3400 - Introduction to Environmental Engineering

Credits: 3

An introduction to the major topics in environmental engineering. Focus areas include water supply, wastewater treatment, air pollution control and solid and hazardous waste management. Quantitative aspects and engineering solutions to problems are emphasized.

Prerequisite: MATH 2205 and CHEM 1020 or equivalent.

CE4430 - Green Chemistry and Global Environmental Problems

Credits: 3

Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CHE 4430 /ENR 4430.

Former Course Number [3420, 2420]

Prerequisite: CHEM 1020.

CHE4430 - Green Chemistry and Global Environmental Problems

Credits: 3

Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CE 4430 /ENR 4430.

Prerequisite: CHEM 1020.

ME3400 - Heating, Ventilating and Air Conditioning of Buildings

Credits: 3

Qualitative and quantitative study in concepts of basic air-conditioning with focus on buildings including building envelope, moist air thermodynamics, human comfort, thermal load calculations, thermal behavior of buildings, HVAC systems/ equipment, and design of space air-conditioning and its relationship to architectural design.

Cross Listed ARE 3400

Prerequisite: ES 2310, ARE 2410 or ME 3360, ES 2330 or concurrent enrollment.

ME3450 - Properties of Materials

Credits: 3

Mechanical, electrical, thermal and chemical properties of materials. Theoretical treatment of structure of solids and design for specified properties.

When Offered (Normally offered spring semester)

Former Course Number [ES 3450]

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME3975 - Internship

Credits: 3

Students may apply for credit for extended work experience (>10 weeks; full-time) engaging in mechanical engineering work and supervised by an engineer in mechanical engineering (or closely related field). Students should apply through their adviser prior to the work experience.

Restricted Enrollment is by departmental approval only.

Prerequisite: consent of the department head.

ME4340 - Gas Turbine Engines

Credits: 3

Thermodynamic analysis and design of ground-based and aero-propulsion gas turbine engines.

Prerequisite: Completion of the ME Success Curriculum, ES 2310 and ES 2330.

ESE4455 - Combustion Engineering

Credits: 3

The basic physics and chemistry of combustion engineering and its applications are covered, including thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems. Cross-listed with ME 4455 and dual-listed with ME 5455.

Prerequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

ME4430 - HVAC Systems Analysis and Design

Credits: 3

Engineering design and performance analysis procedures for commercial building mechanical systems including energy conservation techniques. Relationship to aesthetic, architectural and structural elements are considered.

Cross Listed ARE 4430

Prerequisite: ARE 3400/ME 3400 and ARE 3360/ME 3360 or concurrent.

ME4455 - Combustion Engineering

Credits: 3

The basic physics and chemistry of combustion engineering and its applications are covered, including thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems.

Dual Listed ESE 4455

Prerequisite/Corequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

QuickStart Program

Quickstart 3+3, School of Energy Resources + College of Law

UW offers qualified undergraduate students a fast-track to a Juris Doctorate. The 3+3 Program at UW is an opportunity for qualified undergraduate students to earn their **bachelor's degree and law degree in six years** instead of seven years.

University Studies Program Requirements (Required for both EES and PLM)

The University Studies Program 2015

The University Studies Program 2015 develops a student's foundational knowledge to prepare them for the Bachelor of Science degree program. Some of the categories of USP will be completed by completing the degree requirements as outlined below. Students should review their degree audits carefully to ensure that USP requirements are completed. Students transferring with a qualifying associate degree will have most of the lower division portion of the USP requirement waived. For more information about qualifying earned associate degree, see the "Articulation: Earned Associate Degrees" information in this catalog.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Energy and Environmental Systems (Years 1-3)

Students accepted by UW College of Law (COL) into the 3+3 program begin taking classes at COL in what would otherwise be their senior year. Year one of law school (31 credits) counts toward both the BS and the JD degrees. Students must select one path for Years 1-3, either Energy and Environmental Systems or Professional Land Management.

EES majors can become environmental scientists who collect samples of air, soil, & water to identify environmental impacts, resolve environmental threats, & provide guidance on quality regulation and manage natural resources.

Students will complete a minimum of 85-95 credits in their baccalaureate (undergraduate) program by the end of their junior year (including required general education and major courses). Students will complete 90 credits with the College of Law. Students will be granted a BS upon completion of the 120 credit hours required for the undergraduate degree in BS-ERMD (using year one of College of Law coursework), with a cumulative minimum UW GPA of 2.0 or higher. Students must complete 42 hours of upper-division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. During the Energy Resource Management and Development program (years 1-3),

students will be advised by the School of Energy Resources advisor. During the College of Law program (years 4-6), students will receive advising from the College of Law.

EES Core Required Curriculum

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

DSCI4260 - Project Management

Credits: 3

Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

ECON1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

ECON1300 - Oil: Business, Culture, and Power

Credits: 3

A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H
A&S College Core 2015 ASG

ENGL1010 - College Composition and Rhetoric

Credits: 3

A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA
USP 2015 Code U5C1

ENR1000 - Energy and Society

Credits: 3

Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.
USP 2003-2014 Code U3O
USP 2015 Code U5PN

ERS3010 - Air Quality Management

Credits: 3

Provides an overview of air quality management approaches. In this course an interdisciplinary approach is adopted that includes diverse information from physical, natural and socioeconomic systems. With consideration of global and local issues this class focuses upon the energy sector.

Prerequisite: CHEM 1000 or CHEM 1020 and WA or COM1.

ERS4120 - Federal Public Land Law

Credits: 3

Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

GIST1200 - Geospatial Foundations

Credits: 3

Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

Former Course Number GIST 1100

GIST2310 - Intro to Geographic Information Systems

Credits: 4

Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number GIST 2100

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

LIFE2023 - Biology of Plants and Fungi

Credits: 4

An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).

Former Course Number [BIOL 2023]

Prerequisite: LIFE 1010 with a grade of C or better.

LIFE3400 - General Ecology

Credits: 3

Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

REWM2000 - Principles of Rangeland Management

Credits: 3

Basic principles of range management as they apply to various regions and vegetative types. Relationship of range management practices to livestock production, wildlife management, forestry, hydrology and other land uses. Introductory course for majors and non-majors.

Prerequisite: LIFE 1101 or LIFE 1010.

REWM2400 - Range Ecosystems and Plants

Credits: 4

Ecology of range ecosystems of western North America and identification of 200 most common plants species, including taxonomic keying.

Former Course Number [2500]

Prerequisite: REWM 2000 with a grade of C or better.

REWM3100 - Principles of Wildland Water Quality

Credits: 3

Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

Cross Listed ENR 3100.

When Offered (Normally offered fall semester)

Prerequisite: CHEM 1000.

REWM4200 - Reclamation of Drastically Disturbed Lands

Credits: 3

Overviews reclamation of drastically disturbed lands in the west, emphasizing surface mined lands. Includes principles of ecology, agronomy, soils and other relevant disciplines as applied to mitigate adverse environmental impacts of land disturbance.

When Offered (Normally offered fall semester)

Prerequisite: LIFE 3400, AECL 2100.

REWM4580 - Rangeland Restoration Ecology

Credits: 3

Detailed analysis of various disturbed ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic influences on degradation and strategies for vegetative rehabilitation. Strong focus on current research to formulate restoration strategies.

Dual Listed REWM 5580.

Prerequisite: REWM 4200 or LIFE 3400.

SOIL2010 - Introduction to Soil Science

Credits: 4

Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE

Prerequisite: CHEM 1000 or CHEM 1020.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Professional Land Management (Years 1-3)

Students accepted by UW College of Law (COL) into the 3+3 program begin taking classes at COL in what would otherwise be their senior year. Year one of law school (31 credits) counts toward both the BS and the JD degrees. Students must select one path for Years 1-3, either Energy and Environmental Systems or Professional Land Management.

Professional Land Management majors determine ownership and title of surface and subsurface rights to negotiate leases with land/mineral owners, coordinate field exploration, and ensure compliance with governmental regulations.

Students will complete a minimum of 85-95 credits in their baccalaureate (undergraduate) program by the end of their junior year (including required general education and major courses). Students will complete 90 credits with the College of Law. Students will be granted a BS upon completion of the 120 credit hours required for the undergraduate degree in BS-ERMD (using year one of College of Law coursework), with a cumulative minimum UW GPA of 2.0 or higher. Students must complete 42 hours of upper-division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. During the Energy Resource Management and Development program (years 1-3), students will be advised by the School of Energy Resources advisor. During the College of Law program (years 4-6), students will receive advising from the College of Law.

PLM Core Required Curriculum

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

ACCT2020 - Principles of Accounting II

Credits: 3

Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

AGEC4450 - Negotiation

Credits: 3

Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed ENR 4450.

Dual Listed AGECEC 5450.

Prerequisite: completion of USP O/COM2 requirement; junior standing.

OR

AGEC4550 - Negotiation Analysis

Credits: 3

Focuses on using an analytical perspective for maximizing joint gains between negotiators. Students learn analytical techniques to prepare for negotiation, evaluate options and proposals during a negotiation, and evaluate negotiated outcomes with respect to maximization of joint gains and fairness criteria.

Cross Listed ENR 4550.

Dual Listed AGECEC 5550.

Prerequisite: QA/Q.

DSCI4260 - Project Management

Credits: 3

Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

ECON1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

ECON1300 - Oil: Business, Culture, and Power

Credits: 3

A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

ENGL1010 - College Composition and Rhetoric

Credits: 3

A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA

USP 2015 Code U5C1

ENR1000 - Energy and Society

Credits: 3

Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.

USP 2003-2014 Code U3O

USP 2015 Code U5PN

ERS2010 - Introduction to Land Management

Credits: 3
Max Credit 3

Provides an introduction to land management in the various energy industries. Covers the knowledge and skills needed by land professionals including survey systems, land descriptions, mineral ownership, title examination, leases, surface use agreements, and contracts frequently used in the industry. In addition, provides an overview of ethical issues that arise and professional conduct expected in the industry.

ERS4010 - Exploration Geoscience

Credits: 3
The purpose of this course is to provide students with information and skills necessary to understand the oil and gas modeling process from exploration to production. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, reservoir characterization, reservoir production, well planning and decision making.

Cross Listed GEOL 4010.
Prerequisite: GEOL 1100; MATH 2200 or MATH 2350.

ERS4120 - Federal Public Land Law

Credits: 3
Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

ERS4985 - Seminar

Credits: 1-3
Max Credit (Max. 3)

Energy professionals, including accredited professional landmen, practicing attorneys, and other energy professionals will present a colloquium styled course to bridge conceptual content with realistic workforce focused applications.

Prerequisite: ERS 1000/ENR 1000 or ECON 1300/ERS 1300 and WA and QB.

ERS4990 - Topics in Energy Resource Development and Management

Credits: 1-6
Max Credit (Max. 6)

Special topics in contemporary energy development and management will be offered in response to changing industry and academic demands. The specific subject matter is based on faculty requirements and workforce innovation.

FIN2100 - Principles of Finance

Credits: 3
Studies the management of capital in business. Students learn how to use the time value of money to value cash flows

and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200 , and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

GEOL1100 - Physical Geology

Credits: 4

Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

GIST1200 - Geospatial Foundations

Credits: 3

Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

Former Course Number GIST 1100

GIST2310 - Intro to Geographic Information Systems

Credits: 4

Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number GIST 2100

MATH1405 - Trigonometry

Credits: 3

Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines,

identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

OR

MATH1450 - Algebra and Trigonometry

Credits: 5

Emphasizes aspects of algebra, trigonometry and problem solving important in the study of calculus. Functions and their applications to real world problems. Classes of functions including polynomial, exponential, logarithmic and trigonometric functions. Intuitive introduction to the idea of limit and sequence which are developed further in the calculus sequence. For the student with considerable prior exposure to trigonometry and algebra. Graphing calculators are used frequently in class and on assignments. See instructor for specifications.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

OR

MATH2355 - Mathematical Applications for Business

Credits: 4

Primarily for students in the College of Business. Includes the mathematics of finance; systems of linear equations and matrices; linear programming; sets, counting, and probability. Students will learn to use Excel spreadsheets to solve business application problems in a computer lab that meets one day per week.

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 26 or Math SAT of 600.

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Science and Mathematics Teaching Center

- Admission Requirements
- Degree Requirements
- Graduate Assistantships and Scholarships

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/smtc/>
Email: smtc@uwyo.edu

The Science and Mathematics Teaching Center (SMTC) was established in 1970 and is committed to excellence in science, mathematics and technology education. As part of the Office of Graduate Education in Academic Affairs, the SMTC, in cooperation with the Wyoming Department of Education (WDE) and the Professional Teaching Standards Board (PTSB), serves as a resource and professional development center for the state. The SMTC offers transdisciplinary graduate degree programs with multiple degree concentrations, certification options, and endorsement options. All of the programs emphasize both strong content knowledge and instructional practices. The affiliate faculty for the SMTC is comprised of include faculty from the Colleges of Agriculture and Natural Resources, Arts and Science, Education, and Engineering and Applied Science, and the Haub School of Environment and Natural Sciences.

The SMTC provides extensive off-campus professional development that serves throughout Wyoming that serves teachers, students, administrators, school districts and communities. SMTC in-service and extension courses, workshops, institutes, and conferences are designed collaboratively to improve science and mathematics teaching in Wyoming.

The SMTC administers and supports five master's degree programs:

1. the Master of Science degrees in Natural Science with concentrations in Middle Level Math (MMA) and Middle Level Science (MSC); these programs are designed for Wyoming's in-service elementary, middle, and high school teachers. They focus on general science and mathematics content with an emphasis on teaching middle school level learners. The course work leads to middle level certification provided by the Wyoming PTSB. Teachers must have two years of teaching experience to participate in these programs.
3. Master of Science in Teaching - Natural Science (MST - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School as well as other colleges. The program is developed individually with the guidance of a graduate committee based on the interests of the graduate student and may emphasize formal or informal learning settings.
4. Master of Science - Natural Science (MS - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School and other colleges. The program is developed individually based on the interests of the graduate student.
5. Master of Science in Natural Science with a concentration in Natural Science Education (NED). This Master's degree program is designed for students pursuing careers as environmental and natural science educators in non-public school or non-formal education settings. These students spend one year at the Teton Science Schools (TSS) in Jackson. A long-standing MOU between the SMTC and TSS allows students to use 15 graduate credit hours earned at TSS towards a master's degree if they are accepted into the second year at UW within the SMTC.

Admission Requirements

For the MSC, MMA, MST and MS-Natural Science Master's Degrees:

Two years of teaching experience and a valid teaching license

Application Fee, unless a UW Graduate

Official Transcripts from all Institutions attended and Bachelor Degree conferring institution

3.0 undergraduate grade point average; provisional admission with a lesser GPA only with consent from Academic Affairs

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from the teacher's principal and two other colleagues.

Note: if a prior Master's degree has been awarded, GRE Scores or an Alternative Portfolio are not required

The NED Degree - First Year Application:

Official Transcripts from all institutions attended and Bachelor Degree conferring institution

Application Fee, unless a UW Graduate

The NED Degree - Second Year Application:

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from a TSS Graduate Program Faculty Member, one from another TSS employee such as a Classroom Instructor or Field Instructor, and one from the first year application.

All the above information needs to be uploaded onto a UW graduate application, which will be reviewed by the SMTC and then if accepted, by the University of Wyoming Admissions and the SMTC. Any of the above requirements plus the university's minimum 3.000 grade point average can be waived if the proper documentation and reasoning is given and approved by the Associate Vice President of the Graduate Program.

Degree Requirements

For the MSC, MMA, MST and MS- Natural Science Master Degrees

Plan B (non-thesis)

30 Credit Hours of coursework is required. This includes 24 credit hours in required coursework that includes mathematical content courses, mathematical history, pedagogy and assessment; earth science, life science, physical science, depending on the program. 6 credit hours of additional coursework that can include a research class and an elective.

The MSC is a 3-year program, for the required coursework, in the summers only on UW's main campus.

The MMA is a 2-year program with classes offered virtually in the fall and spring and in-person on the main campus in the summer, for the required courses.

The MST and the MS- Natural Science Master Degrees are Main campus degrees.

A Plan A (thesis) may be completed with an extra year of research.

For the NED Master Degree - 2nd year.

Plan B (non-thesis)

This is a one-year program on the main campus.

30 credit hours of coursework is required, of which 15 credit hours of agreed upon courses, are transferable from TSS. The other 15 credit hours include a research class, environmental science and science pedagogy classes as chosen by the graduate student and their advisor.

A concurrent major in Environmental and Natural Resources is an option with this Master's

A Plan A (thesis) may be completed with an extra year of research.

Graduate Assistantships and Scholarships

The SMTC has scholarships and graduate assistantships available for all graduates accepted for the above Master's degree programs. More information upon admission and acceptance.

FERPA Family Educational Rights and Privacy Act (PL-380)

General Statement

The University of Wyoming has the responsibility for effectively supervising any access to and/or release of official data/information related to the education records of its students. Certain items of information about individual students are fundamental to the educational process and must be recorded. This recorded information concerning students must be used only for clearly-defined purposes, must be safeguarded and controlled to avoid violations of personal privacy, and must be appropriately disposed of when the justification for its collection and retention no longer exists.

In this regard, the university is committed to protecting, to the maximum extent possible, the right of privacy of all individuals about whom it holds information, records, and files. Access to, and release of, such records is restricted to

the student concerned, to parents of dependent students, to others with the student's written consent, to officials within the university, to a court of competent jurisdiction, and otherwise pursuant to law.

Access

All official information collected and maintained in the university identifiable with an individual student will be made available for inspection and review at the written request of that student subject to certain exceptions.

For purposes of access to records at the University of Wyoming, students enrolled (or formerly enrolled) for academic credit or audit at the university shall have access to official records concerning themselves.

A request for general access to all official records, files, and data maintained by the university must be made in writing to the registrar or to other person(s) as designated by the university officer in charge of the unit maintaining records. A request for access to official data maintained in a particular office may be made to the administrative head of the office.

When students (or former students) appear at a given office and request access to the university record about themselves:

1. The student must provide proper identification verifying that he or she is the person whose record is being accessed.
2. The designated staff person(s) must supervise the review of the contents of the record with the student.
3. Inspection and review shall be permitted within a period not to exceed 45 days from the date of the student's request.
4. Students will be free to make notes concerning the contents, but no material will be removed from the record at the time.

Recordkeeping personnel and members of the faculty and staff with administrative assignment may have access to records and files for internal educational purposes as well as for routine necessary clerical, administrative, and statistical purposes as required by the duties of their jobs. The name and position of the official responsible for the maintenance of each type of education record may be obtained from the registrar of the university.

Any other access allowed by law must be recorded showing the legitimate educational or other purpose and the signature of the person gaining access. The student concerned shall be entitled to review this information.

Release of Information

No personally identifiable information shall be disclosed to any individual (including parents, spouse, or other students) or organization except as follows:

1. Disclosure is authorized in writing by the student.
2. Disclosure is to university officers or employees who need to know so as to accomplish legitimate university purposes related to their functions.
3. Disclosure is to a governmental agency, educational organization, parent of a dependent student, or other entity as described by federal regulations or otherwise required by state or federal law. Custodians of records should obtain interpretations whenever third parties request personally identifiable information.
4. To authorized educational authorities at the local, state, and federal level.
5. When disclosure of any personally identifiable data/information from university records about a student is demanded pursuant to court order or lawfully issued subpoena, the staff member receiving such order shall, if possible, immediately notify the student concerned in writing prior to compliance with such order or subpoena. (NOTE: In fulfillment of its responsibilities to monitor certain state benefit and entitlement programs, the Wyoming state auditor may issue to the university from time to time an administrative subpoena for a listing of currently enrolled full-time students, the students' social security numbers, and information relating to the nature and amount of any educational financial aid being received by such

students. Upon being served with such a subpoena, the university will provide the information requested without further notice.)

6. Data/information from university records about students will be released for approved research purposes only if the identity of the student involved is fully protected, or if the research is related to official university business and not publicly disseminated.
7. Information from university records may be released to appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons.

The university officer responsible for the records from which information is released shall maintain with the student's record a listing of disclosures of personally identifiable information, except disclosures in accordance with items 1 and 2 above for which no record need be kept. The listing shall identify the parties who requested or obtained information and the legitimate interests these parties had in making the request.

Public or Directory Information

The following items are considered public data/information and may be disclosed by the university in response to inquiries concerning individual students, whether the inquiries are in person, in writing, or over the telephone:

1. Name;
2. Affirmation of whether currently enrolled;
3. Campus location.

Unless students have officially filed a written request with the university registrar within ten working days after the first day of classes for a semester that disclosure not be made without their written permission, the following items, in addition to those above, are considered public/ directory information; may be included in appropriate university/campus directories and publications; and may be disclosed by designated staff members in response to inquiries concerning individual students, whether the inquiries are in person, in writing, or over the telephone:

1. School, college, department, major, or division;
2. Dates of enrollment;
3. Degrees received;
4. Honors received;
5. Local address and phone number;
6. Home address (permanent);
7. Email address;
8. Participation in officially recognized activities and sports;
9. Weight and height of members of athletic teams;
10. Full-time or part-time enrollment.

Letters of Appraisal/Recommendation

Candid appraisals and evaluations of performance and potential are an essential part of the educational process. Clearly, the providing of such information to prospective employers, to other educational institutions, or to other legitimately concerned outside individuals and agencies is necessary and in the interest of the particular student.

Data/information which was part of university records prior to January 1, 1975 and which was collected and maintained as confidential information will not be disclosed to students. Should a student desire access to a confidential letter of appraisal received prior to January 1, 1975, the student shall be advised to have the writer of that appraisal notify, in writing, the concerned records custodian of the decision as to whether or not the writer is willing to have the appraisal made available for the student's review. Unless a written response is received approving a change of status in the letter, the treatment of the letter as a confidential document shall continue.

Documents of appraisal relating to students and collected by the university or any department or office of the university on or after January 1, 1975, will be maintained confidentially only if a waiver of the right of access has been executed

by the student. In the absence of such a waiver, all such documents will be available for the student's inspection and review.

If a student files a written waiver with the department or office concerned, letters of appraisal received pursuant to that waiver will be maintained confidentially. Forms will be available for this purpose.

Challenges to the Record

All students shall have the opportunity to challenge any item in their file which they consider to be inaccurate, misleading, or otherwise inappropriate. A student shall initiate a challenge by submitting a request in writing for the deletion or correction of the particular item. The request shall be made to the custodian of the particular record in question.

If the custodian and the student involved are unable to resolve the matter to the satisfaction of both parties, the written request for deletion or correction shall be submitted by the student to such person as designated by the president of the university who shall serve as the hearing officer. The student shall be given the opportunity for a hearing at which the student may present oral or written justification for the request for deletion or correction. The hearing officer may obtain such other information as he or she deems appropriate for use in the hearing and shall give the student a written decision on the matter within 30 days from the conclusion of the hearing. If the decision of the hearing officer is to deny the deletion or correction of an item in the student's file, the student shall be entitled to submit a written statement presenting the student's position with regard to the item to the hearing officer. Both the written decision of the hearing officer and the statement submitted by the student shall be inserted in the student's file. The decision of the hearing officer shall be final.

Grades may be challenged under this procedure only on the basis of the accuracy of their transcription or posting.

Exception to the Policy

It is the position of the university that certain data/information maintained in various offices of the university is not subject to the provisions of this policy with regard to inspection, review, challenge, correction, or deletion. Exceptions to "education records" include: alumni records, employment records, law enforcement records, medical records, sole possession records, and university disciplinary records.

1. Statements submitted by parent(s)/guardian or spouse in support of financial aid or residency determinations are considered to be confidential between those persons and the university and are not subject to the provisions of this policy except with the written consent of the persons involved. Such documents are not regarded as part of the student's official record.
2. University employment records of students are not included in this policy, except as provided under the Wyoming Public Records Act.
3. With regard to general health data, only that data/information which is used by the university in making a decision regarding the student's status is subject to review by the student under this policy. Written psychiatric or psychological case notes which form the basis for diagnoses, recommendations, or treatment plans remain privileged information not accessible to the student. Such case notes are not considered to be part of official university records. To ensure the availability of correct and helpful interpretations of any psychological test scores, notes, or other evaluative or medical materials, the contents of these files for an individual student may be reviewed by that student only in consultation with a professional staff member of the specific department involved. Records that are subject to FERPA are not subject to the HIPAA Privacy Rule.
4. Records relating to a continuing or active criminal investigation by the University of Wyoming Police Department, or records of said office not relating to the student's status with the university, are not subject to this policy.

5. No student is entitled to see information or records that pertain to another student, to parents, or to other third parties. A student is entitled to review only that portion of an official record or file that pertains to him or her.
6. The personal files, or sole possession records, of members of the faculty and staff which concern students, including private correspondence, and notes which refer to students, are not regarded as official records of the university. This includes notes intended for the personal use of the faculty and never intended to be official records of the university. In order to be sole possession records, they cannot be shared with anyone else.

Release of Personally Identifiable Information in a Deceased Student's Education Record

The Family Educational Rights and Privacy Act (FERPA)'s protection of personally identifiable information in a student's education record ends at the time of a student's death. The University of Wyoming's policy on the release of a deceased student's records is as follows:

Within the first year following the death of a student, the University will release the educational records of the decedent to the following individuals:

- If the student submitted a signed Authorization to Release Educational Records form which designated the person(s) eligible to request and/or receive educational records, the information will be released to the individual on that form.
- The decedent's next of kin. The request must be accompanied by official documentation.
- The individual designated as the personal representative of the decedent's estate. The request must be accompanied by official documentation.
- Members of the family or other persons with the written approval from the decedent's next of kin or the personal representative of the decedent's estate. Absent written approval from the family or representative of the estate, only directory information will be disclosed.
- In response to a subpoena or court order.
- To any other individual, if determined by the University to be in the best interest of the decedent or the University.

After one year has elapsed following the death of an individual student, the University may release the educational records of the decedent at the University's discretion.

Rights of Students

Students are hereby notified that controlling provisions of federal law are contained in Sec. 438, Pub. L.90-247, Title IV, as amended, 88 Stat. 571-574 (U.S.C. 1232g) and regulations set forth in the code of Federal Regulations, 34 C.F.R. sections 99.1 to 99.67 (1981). Complaints of institutional noncompliance may be made to the Department of Education as provided in the regulations.

Honor Societies and Programs

All Academic Disciplines

Phi Beta Kappa has been one of the most respected societies in the world for more than 200 years. Phi Beta Kappa was founded in 1776 at the College of William and Mary, Virginia. Within a decade, chapters arose at Yale, Harvard, and Dartmouth. The Wyoming chapter received its charter in 1940, and today fewer than 270 colleges and universities in the United States meet the strict qualifications for housing a chapter. UW faculty and administrators annually elect to

membership fewer than one-tenth of the leading scholars of the senior class, candidates for the degrees of Bachelor of Arts and Bachelor of Science. In exceptional cases a junior may be elected. In addition to having a distinguished academic record, a student eligible for Phi Beta Kappa must pursue a balanced and broad course of study, which includes a foreign language as well as courses in math, the sciences, and the humanities. At least 90 hours of the student's course work must be in the liberal arts and sciences. Students are reviewed for eligibility and are notified by mail the spring of their election. Phi Beta Kappa promotes the ideal of a community of scholarship, and every year the Chapter sponsors an eminent visiting lecturer for the entire university.

The national honor society of Phi Kappa Phi, founded in 1897, recognizes and encourages superior scholarship in all curricula of the colleges and divisions of the university. No other honor society has higher academic standards for admission. Good character is also an essential supporting attribute for those scholars elected to membership. The University of Wyoming chapter of Phi Kappa Phi sets minimum cumulative grade point requirements at 3.500 for seniors, 3.800 for juniors and 3.900 for graduate students. In addition, there are minimum requirements in terms of hours completed at UW. Since the chapter may initiate no more than ten percent of the number of seniors in each college, the actual grade point cutoff is often higher than these minimums. In the spring of each year, students' records are reviewed and letters of invitation are sent to those eligible for election to the society. Supplementing the work of its chapter, the national society awards fellowships for graduate study.

College of Agriculture and Natural Resources

Agriculture majors - *Alpha Zeta* is a national honorary for students in agriculture who demonstrate academic excellence, character and leadership. Applications for membership are sent to eligible students. *Gamma Sigma Delta* is a national honor society open to students in agriculture. Potential members are invited to membership based upon academic excellence. *Phi Upsilon Omicron* is a national honor society in family and consumer sciences. Potential members are invited to membership based on academic excellence and leadership. *Pi Alpha Xi* is a national honorary horticulture society, open to UW students with a minor in horticulture. Students are invited to join based upon academic excellence and leadership.

College of Arts and Sciences

Art - A *Bachelor of Fine Arts* in art is considered honorary.

Biology and Botany - This Honors Program is for students majoring in biology or botany with strong interests in independent research with a focus in ecology, evolution, systematics, bioinformatics, biostatistics or data science. Application to the biology or botany honors program may be made after completion of the sophomore year with a cumulative grade point average of 3.300.

Chemistry - *American Chemical Society* - The Department of Chemistry is closely associated with the Local Wyoming Chapter of the American Chemical Society. The American Chemical Society (ACS) is one of the largest scientific societies in the world - its purpose is to promote chemistry and educate the public on the impacts of the chemical profession on the economy, technology, and education. The ACS organizes both national and regional scientific meetings; our local section supports student travel to these meetings. The chemistry department also sponsors a Student Affiliates section of the ACS, which is mentored by a UW chemistry faculty member and serves the needs of our chemistry majors.

Communication - *Lambda Pi Eta* recognizes, fosters, and rewards outstanding scholastic achievement while stimulating interest in the communication discipline.

Criminal Justice - *Alpha Phi Sigma - Epsilon Omega Chapter*, criminal justice honorary. A national honorary society for Criminal Justice that recognizes the academic excellence of Criminal Justice students. Alpha Phi Sigma is a collaboration with the Academy of Criminal Justice Sciences.

English - *English Honors Program* enables junior and senior English majors who carry a grade point average of 3.500 or better in their English courses to intensify and enhance their studies by working closely with a supervising faculty member to develop a senior honors project, a piece of writing on a topic in English studies. *Sigma Tau Delta - Alpha Mu Omicron Chapter*, international English honor society.

Gender and Women's Studies - *National Women's Studies Association*; one of its primary objectives promoting and supporting the production and dissemination of knowledge about women and gender through teaching, learning, research and service in academic and other settings.

Geography - *Gamma Theta Upsilon - Eta Eta Chapter* candidates must have completed three semesters of college coursework and three courses in Geography, with a grade point average of 3.000 or higher for these courses. Contact department Department of Geology and Geophysics/ Geography Program for more information.

Geology - Eligible students are Bachelor of Science degree holders with honors, majoring in geology or geophysics. They must meet an overall grade point average of 3.200, a grade point average of 3.200 in the major, and successful completion of an independent research project. Contact department Department of Geology and Geophysics/ Geography Program for more information.

History - *Phi Alpha Theta* is a professional society whose mission is to promote the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians. It seeks to bring students and teachers together for intellectual and social exchanges, which promote and assist historical research and publication by our members in a variety of ways. The society currently has over 400,000 members, with some 9,000 new members joining each year through 970 chapters nationwide.

International Studies - *Sigma Iota Rho*: The purpose of Sigma Iota Rho is to promote and reward scholarship and service among students and practitioners of international studies, international affairs, and global studies and to foster integrity and creative performances in the conduct of world affairs. Membership provides public recognition of the best and the brightest students in the International Studies major and highlights the importance of contributing to the global community.

Journalism - *Society of Professional Journalists, Sigma Delta Chi*

Languages - The Department of Modern and Classical Languages sponsors chapters of two nationally recognized Honor Societies in Spanish.

Alpha of Wyoming Chapter of Sigma Delta Pi - To honor those who attain excellence in the study of the Spanish language and in the study of the literature and culture of the Spanish-speaking peoples; to honor those who have made the Hispanic contributions to modern culture better known in the English-speaking world; to encourage college and university students to acquire a greater interest in and a deeper understanding of Hispanic culture; to foster friendly relations and mutual respect between the nations of Hispanic speech and those of English speech; to serve its membership in ways which will contribute to the attainment of the goals and ideals of the society.

Sigma Delta Pi National Spanish Honorary Society celebrates its 100th anniversary in 2019. Our very active UW chapter was recognized in 2011 as a national honor chapter. Each semester we initiate new members who meet high academic standards and are dedicated to the study and teaching of Spanish. Chapter awards and student scholarships include study abroad opportunities and recognition of outstanding scholarly research and writing.

Music - *Presser Award* is conferred by vote of the department faculty for outstanding senior in music. *Pi Kappa Lambda*, selected by faculty on the basis of outstanding scholarship and musical accomplishments.

Physics and Astronomy - *Sigma Pi Sigma*: Sigma Pi Sigma (sigmapisigma.org) exists to honor outstanding scholarship in physics, to encourage interest in physics among students at all levels, to promote an attitude of service, and to provide a fellowship of persons who have excelled in physics.

American Physical Society (APS): The American Physical Society (www.aps.org) is a non-profit membership organization working to advance and diffuse the knowledge of physics through its outstanding research journals,

scientific meetings, and education, outreach, advocacy and international activities. APS represents over 50,000 members, including physicists in academia, national laboratories and industry in the United States and throughout the world. Society offices are located in College Park, MD (Headquarters), Ridge, NY, and Washington, DC.

American Astronomical Society (AAS): The American Astronomical Society (aas.org) is the major organization of professional astronomers in North America. The mission of the American Astronomical Society is to enhance and share humanity's scientific understanding of the universe.

Political Science - Pi Sigma Alpha, Epsilon Beta Chapter seeks "to stimulate scholarship and intelligent interest in political science." The society sponsors programs and events of value to the profession and teaching of political science. Membership provides public recognition of the best and brightest students in the Political Science major. Each chapter is encouraged to provide a framework for enriching the exposure of its members and the wider university community to the study of government and issues of public concern.

Pi Alpha Alpha, national public administration honorary. The purpose of Pi Alpha Alpha is to encourage and recognize outstanding scholarship and accomplishment in public affairs and administration. Its objectives, such as fostering integrity, professionalism, and effective performance, promote the advancement of quality in the education and practice of the art and science of public affairs and administration. PAA membership identifies those with the highest performance levels in educational programs preparing them for public service careers.

Psychology - Psi Chi - The Psychology Department supports a chapter of Psi Chi, the International Honor Society in Psychology. This local Psi Chi group functions within a larger Psychology Club that serves undergraduates interested in Psychology. The chapter and club are jointly involved in many activities, including community service projects, peer advising and graduation festivities.

Sociology - Alpha Kappa Delta, the international honorary society for sociology. In addition, sociology majors with a 3.2 overall GPA, a 3.500 GPA in sociology courses and two 5000-level sociology classes graduate with honors in sociology.

College of Business

Accounting - Beta Alpha Psi, Delta Alpha Chapter, is the UW chapter of the national accounting honorary. Membership in this very active student honorary is awarded only to the very best accounting students.

Business Administration - Beta Gamma Sigma is the national scholastic honor society. It is the arm of the accrediting group, AACSB International. Membership is very selective and based on class rank and grade point average.

College of Education

Kappa Delta Pi - Alpha Mu Chapter is the university chapter of the international honor society in education. The purpose of the society is to promote excellence in and recognize outstanding contributions to education. Invitation for membership is extended to those persons who exhibit commendable professional qualities, worthy educational ideals and sound scholarship.

Mu Nu Tau Chapter of Chi Sigma Iota is a Counseling Academic and Professional Honor Society International for counselors-in-training, counselor educators, and professional counselors. The mission of Chi Sigma Iota is to promote scholarship, research, professionalism, leadership, and excellence in counseling, and to recognize high attainment in the pursuit of academic and clinical excellence in the field of counseling. The CSI International homepage can be found at www.csi-net.org/index.cfm. The local chapter, Mu Nu Tau, encourages the furtherance of high standards of scholarship and professional practice through study groups, speaker programs, workshops, colloquia awards, social activities, and networking opportunities.

College of Engineering and Applied Science

Engineering majors - *Tau Beta Pi* is a national honor society for all engineering majors. The purposes of the society are to honor outstanding student scholarship and to provide a spirit of liberal culture in the College of Engineering and Applied Science. Membership is offered to outstanding junior, senior and graduate engineering students of high scholastic ability and exemplary character.

College of Health Sciences

Kinesiology - *Phi Epsilon Kappa* is a national professional fraternity dedicated to enhancing education, promotion of student research, community outreach, and professional development for persons pursuing careers in health, physical education, recreation, and other related fields.

Nursing - *Sigma Theta Tau* - academic leadership honorary. The mission of the Honor Society of Nursing, Sigma Theta Tau International is advancing world health and celebrating nursing excellence in scholarship, leadership, and service.

Pharmacy - *Rho Chi Society*, Academic Honorary. The Rho Chi Society encourages and recognizes excellence in intellectual achievement and advocates critical inquiry in all aspects of pharmacy. The Society further encourages high standards of conduct and character and fosters fellowship among its members; Phi Lambda Sigma, Pharmacy Leadership Society - to support pharmacy leadership commitment by recognizing leaders and fostering leadership development.

Social Work - The purpose of the Epsilon Delta Chapter of the Phi Alpha Social Work National Honor Society at the University of Wyoming Division of Social Work is to provide a closer bond among students of social work and promote humanitarian goals and ideals. Phi Alpha fosters high standards of education for social workers and invites into membership those who have attained excellence in scholarship and achievement in social work. The goals of Phi Alpha include the provision of service to the campus, local, and state communities in Wyoming; the promotion of social, economic and environmental justice on campus and in the community; and the development of student leadership skills.

University Honors College

The National Collegiate Honors Council and *The Western Regional Honors Council* provide recognition for students, faculty, and administrators in the area of academic achievement, civic responsibility, and personal development.

College of Law

Law majors - *Order of the Coif* is an honorary society which recognizes legal scholastic excellence. Each year, the chapter may initiate into membership those students who graduate in the highest ten percent of their class.

Tuition and Fees

Semester Tuition and Fee Schedule 2020-21 (subject to change)

The University of Wyoming semester tuition and fee schedules for the 2020-21 academic year, which begins with fall semester 2020, will be available in the Fee Book at <http://www.uwyo.edu/administration/financial-affairs/feebook/> or from Student Financial Services, Room 172, Knight Hall. Fall charges will post to accounts in WyoRecords by the end of July.

Summer school tuition and fees will be published in the *Summer Bulletin*.

Full-time undergraduate refers to undergraduate students enrolled for 12 or more hours, and part-time undergraduate refers to undergraduate students enrolled for less than 12 hours. At the graduate level, 9 or more hours is considered full time and less than 9 hours is classified as part time. Fees do not include special fees.

Student Benefit Package and Insurance

At the beginning of each semester, the part-time student benefit package will be added to student accounts of all part-time students (6 through 11.5 credit hours for undergraduates and 4.5 through 8.5 credit hours for graduate students) who have elected to purchase UW health insurance. The benefit package allows part-time students the same benefits as full-time students including, but not limited to, the use of Student Health Service, Half Acre Gym and the opportunity to apply for short-term emergency student loans.

Graduate students taking less than 4.5 credit hours should contact their academic department and also refer to the "Graduate Student Optional Fee Package Petition" document, which may be found on the Office of the Registrar website.

Students not assessed insurance who would like to purchase the benefit package, not for full-time status purposes, can fill out a form in Student Financial Services, 172 Knight Hall, and then pay for the package at the Cashier's Office, 170 Knight Hall, or online.

Student medical insurance is mandatory for international students. International students are automatically enrolled in the medical insurance every fall and spring semester that they enroll in classes. Students may potentially waive this requirement if they meet university regulations and provide the necessary documentation by the add/drop deadline. Students are not eligible for student health insurance if they are online only.

Each domestic enrolling student will be required, as part of the registration process, to make a Student Medical Insurance selection. If the eligible student selects "YES" to the question, the premium will be assessed on the student's account. If the student selects "NO," they will not be assessed for the premium. Part-time students who select yes for the health insurance will also be assessed for the Part-time Student Benefit Package.

Domestic students are eligible for insurance if they are enrolled in at least 6 hours for undergraduate or 4.5 hours for graduate students. Students are not eligible for student health insurance if online or remote only.

For questions regarding the Student Medical Insurance program, contact the Student Medical Insurance Advocate (248 Knight Hall) at (307) 766-3025.

Tuition and Fee Payment 2020-21

All university charges are due by September 1 (Fall), February 1 (Spring), and June 1 (Summer).

An institutional Payment Plan is available for students who need extra time paying.

A non-refundable \$50.00 payment plan enrollment fee is charged per semester to all students that are not paid in full by the payment dates above. The payment plan adds three monthly installments in addition to the first due date above. These are due on the 1st of two subsequent months. Registration holds and interest of 1.5% per month may be charged on all past due amounts.

Special Course Registration Fees

Additional charges (special course, college, advising, and program fees) must be paid by students enrolling in those courses and colleges with approved special fees. Fees for these courses and colleges will be indicated in the semester Class Schedule. Program fees, assessed to all courses under 5000 level, are by the college in which the course is held and may be different than a student's primary program.

Tuition Waivers

If an employee, spouse of an employee or cooperating agency waiver is used for payment of tuition and/or fees, the properly completed and signed waiver must be received by the Student Financial Services office by the first day of the term. All waivers will be applied to accounts after the drop deadline. To be eligible for the waiver, the student (or spouse of student is utilizing spousal waiver) must be a benefited employee by the first day of class.

Financial Holds

A student failing to pay fees, charges, fines, penalties, deposits or short term loans as prescribed by the Trustees of the University of Wyoming shall be denied registration at the university and copies of academic transcripts and/or diplomas until such fees, charges, fines, penalties, deposits or short term loans are paid in full. A ten-day wait is required before a student loan hold can be removed if the debt is paid with a personal check. Contact Student Financial Services in Knight Hall for information regarding financial holds.

If a payment is made on a student account and the payment is returned to the University as a result of insufficient funds or otherwise, the student will have a hold on their account until the return payment fee in addition to the original amount is a paid. Registered classes secured by a returned payment are subject to cancellation.

Summer Session 2021

Please refer to the 2021 Summer Bulletin for rates and applicable deadlines.

Refunds/Cancellations

Tuition and course fees will be canceled or refunded to a student who officially drops a class or classes, withdraws from the university through the Dean of Students office, or changes enrollment status (i.e. non-resident to resident; full-time to part-time) in accordance with the institutional refund policy outlined below.

No tuition penalty will be assessed for dropping and adding during the drop period identified in the term's class schedule unless all classes are dropped. Students who withdraw from individual courses after the end of the drop/add period will have their charges canceled in accordance with the institutional refund policy outlined below.

Mandatory fees, late registration fees, or service fees are not refundable.

The portion of tuition refund/cancellation is computed from the first day of the term, not class meeting pattern. If a student's initial registration includes blocked classes or short courses that begin at a later date, the refund/cancellation will still be computed from the first day of the term. If a student's initial registration occurs during an approved late registration period, the date for computing a refund/cancellation will be the first day of the term.

Institutional Refund Schedule

Before first day of semester	100%
Semester Class Day 1-8	100%
Semester Class Day 9-15	75%
Semester Class Day 16-20	50%
Semester Class Day 21-25	25%
Semester Class Day 26 on	0%

Examples of these calculations are available in Student Financial Services.

Interaction of Federal Return of Funds Policy and Institutional Refund Policy

When a student who receives federal financial aid withdraws from the university, he or she may owe a repayment of federal funds and/ or be due a refund from UW or owe an additional amount to UW. For details on the application of these policies to a specific situation, please consult with Student Financial Services, 172 Knight Hall, (307) 766-6232.

Student WyoOne ID Cards

167 Information Technology Center, (307) 766-5268

ID cards are issued to all students during their first semester of enrollment. These cards are used throughout the student's entire career at the university.

The ID card, also referred to as the WyoOne card, is needed to pick up transcripts, financial aid, cash checks, access student health services, attend athletic events, enter recreation facilities, check out library books and materials, food service access, enter residence halls, and other necessities. Visit the online card office at www.uwyo.edu/idooffice/ to make deposits, view transaction history, and access other card management features.

The WyoOne card may also be used as a debit card to make purchases at some locations on campus after the deposit account is established. Spouses, domestic partners and dependents of students are eligible for an ID card.

Credit Available to Undergraduate Students

The University of Wyoming offers credit towards an undergraduate degree through:

I. University of Wyoming Credit

Instructed Classes

Courses are offered on campus and at distance settings around the state, including recognized academic courses under faculty general supervision such as internships, clerkships, clinical experience, co-op programs, etc.

Distance courses

Unlike some institutions, UW delivers courses at a distance through its mainstream academic departments, not through a separate academic unit. Academic department heads have the authority to assign instructors to distance-delivered courses, including online courses. They also have a responsibility to ensure that those courses are comparable in rigor and effectiveness to courses delivered face to face.

For this reason, when a department offers a UW course both face to face and at a distance, any UW student may satisfy any relevant university-, college-, and department-level requirements or elective credit by taking the course in either format.

Exceptions may arise when it is necessary to reserve space in a distance-delivered course for off-campus students, who can't take the face-to-face version. In these cases, departments may reserve spaces for off-campus students. But to the extent that spaces remain available after all interested off-campus students have enrolled, these spaces must be available to interested on-campus students.

Credit by Examination

An examination of an appropriate type and content for the credit sought may be conducted to determine if the applicant's proficiency is equivalent to that which could be expected upon completion of a college-level course in the subject. An applicant found to have this level of proficiency will be awarded credit for that course and allowed to proceed either with more advanced courses or with courses in other areas.

The use of credit by examination, or credit for prior learning, in graduate programs is not allowed.

Information concerning credit by examination can be obtained by contacting the Office of the Registrar.

Departmental Exams

While there is no maximum placed on the amount of credit earned by examination, credit so earned does not count in fulfilling the residency requirement of 30 hours of upper division University of Wyoming credit.

A student may not be allowed credit by examination in a course in which the student is currently or was previously enrolled either for credit or as a visitor or auditor, except that credit by examination may be used as a means to obtain credit for courses previously taken at institutions from which credit is nontransferable. A student may not challenge equivalent courses.

A student may not earn credit by examination in a course if the student has completed a course in the subject matter area above the level of the course for which the examination is sought. However, at the discretion of the departments involved, during the add/drop period a student may challenge a lower-level course while enrolled in a higher-level course in the same subject matter area, if the course challenged is a prerequisite for the course in which the student is currently enrolled.

If an examination exists, eligible students who pay the testing fee of \$80.00 may not be denied an examination in the introductory undergraduate course in any department. "Introductory course" is interpreted as that course which is prerequisite for successive courses in the department. Additional fees for examinations offered by testing agencies other than the University of Wyoming are determined by the agency concerned.

Grades of S or U (satisfactory/unsatisfactory) are given in all examinations. Credit by examination is not included in the student's grade point average; it is, however, included in the hours earned toward graduation. The grade of S is the equivalent of a C or better. See below for specific subject requirements. Entry on the student's academic record for credit by examination is made only if a grade of S is obtained and is noted as a grade obtained by examination.

To qualify for undergraduate credit, the student must be currently registered at the University of Wyoming as a degree candidate. The student must also be able to demonstrate to the satisfaction of the chair of the department involved that background experience has prepared him or her to attempt a challenge examination if such an examination is sought. The department chair's decision will be based upon existing departmental constraints such as accreditation, graduation requirements, and program requirements.

Other Options Include:

- Subject CLEP tests
- AP tests
- International Baccalaureate (IB)
- DSST

Students showing proficiency by passing examinations such as the College Board Advanced Placement Program (AP), for example, or examinations developed by University of Wyoming departments may earn college credit through the level of demonstrated proficiency. Credit may be allowed on the basis of any testing procedure acceptable to any department, which may include tests of the AP program and both the general and subject (specific) examinations of the College Level Examinations Program (CLEP).

Advanced Placement (AP) Information

Portfolio Evaluations

In recognition of factors in our society that produce great individual differences in backgrounds and preparation of students entering the university, the university has developed various options to assess extraintitutional college-level learning. To qualify for undergraduate credit, the student must be currently registered at the University of Wyoming as a degree candidate.

Credit based on faculty evaluation of the kinds and extent of collegelevel learning which an applicant has acquired in prior extra-institutional settings, evidenced in a portfolio of documentation, may count toward university undergraduate graduation requirements. In such event, the student's degree program can be enriched by freeing time needed to take additional courses, or accelerated to earn the baccalaureate degree earlier and commence postgraduate studies sooner.

The number of credit hours able to be earned by means of a portfolio evaluation is normally limited to 12. Such credit, when awarded, shall be for specific University of Wyoming content-oriented courses (rather than given as X number of hours of credit in a general discipline area), following the college course model of assessment as defined by the Council for Adult and Experiential Learning. Portfolio assessment, when used, will be conducted by a committee of appropriate tenured faculty including at least one member with the academic rank of professor. *All credit assigned for experiential learning based upon portfolio evaluations is excluded from the minimum credit hour requirements as set forth in the university requirements.*

II. Transfer Credit

Transfer credit includes college courses accepted from other regionally-accredited colleges or universities. Such course work must be considered equivalent or comparable to course work required by the University of Wyoming. The university accepts only academic courses in the study of religion similar to those offered by the Religious Studies Program in the College of Arts and Sciences.

Students transferring to UW must have the registrar or records office of the previous school(s) send an official transcript to the University of Wyoming Admissions Office. Once all final transcripts have been received by the Admissions Office, the degree analysts in the Office of the Registrar will create an electronic record of all courses that transfer to UW.

Evaluations are not accomplished for students working toward a Second Bachelor's Degree or those admitted as non-degree seeking. Second Bachelor's students should consult with their adviser concerning the applicability of transfer work to their UW degree program.

The recording of credit does not automatically imply acceptance toward a degree since degree requirements vary from major to major. Questions concerning the transferability of course work from other institutions should be directed to the Office of the Registrar.

Nontraditional credits awarded by another institution will not normally be accepted by the University of Wyoming. They may be validated by departmental exam within the faculty regulations allowing for such examinations.

a. UW Policy (Academic Affairs Policy Letter, October 9, 2012)

UW maintains a system for accepting transfer credits from other institutions and prides itself on forward-looking approaches to distance education. The following clarifies policies for:

- Accepting transfer credit from Wyoming's public community colleges
- Accepting transfer credit for students transferring to UW from other institutions
- Accepting transfer credit for students enrolled at UW

1.. Transfer credit from Wyoming's public community colleges

UW generally accepts credit earned at any Wyoming public community college in accordance with the Wyoming Transfer Catalog. This policy applies to students transferring to UW and to students enrolled at UW who take courses at one of these community colleges while they pursue degrees at UW. It does not apply to FYS credit earned by students who earned concurrent enrollment FYS credit or students transferring with less than 30 semester hours.

UW maintains an active regimen of institution-wide and discipline-specific articulation with Wyoming community colleges. These discussions, together with department-driven decisions about which courses to list in the statewide common course-numbering system, provide mechanisms that can ensure appropriate levels of course equivalency.

2..Transfer credit for students transferring from other institutions

The UW Office of the Registrar (OTR) maintains a list of course equivalencies and courses accepted for general credit from other institutions of higher learning. In maintaining this list, the OTR, in consultation with academic departments as necessary, determines which outside courses:

- are equivalent to specific UW courses
- count for general university-level credit
- are not transferable for university-level credit

For courses beyond the 1000-2000 level and in cases where questions arise, the OTR relies on academic departments to assist in the assessment.

For any student transferring to UW from another institution of higher learning, UW will adhere to the OTR's equivalencies on the date that the transcript is evaluated. If a course in question has not previously been articulated, the

OTR will follow the normal protocol to make a determination. If an academic department determines that an outside course has been improperly articulated, the OTR will correct the equivalency. The corrected equivalency will apply to subsequent transfer students but not retroactively.

3. Transfer credit for students enrolled at UW

The university's faculty and administration expect UW students to earn credits by taking courses at UW. Exceptions may be appropriate in some instances. For example, the university encourages students to pursue opportunities to study abroad, whether through UW course offerings or through other approved programs. As another example, a student who spends a summer in another university town may also have a compelling case for taking a non-UW course and applying the credits to the UW transcript. There are many other possibilities.

For any student enrolled at UW, the university will guarantee transfer credits only for courses for which the student has received prior, course-specific approval from the Office of the Registrar. A Transfer Evaluation Form should be submitted prior to enrolling for a transfer course.

The only exceptions are transferable credits from Wyoming community colleges, as discussed above. In considering requests of this type, academic department heads may take into account the student's circumstances, department, and university-level learning outcomes such as global awareness, and the department faculty's assessment of the course's content, level, and academic rigor.

This policy has no effect on such programs as WICHE's Internet Course Exchange and other inter-institutional arrangements through which courses taught elsewhere count as credit-bearing UW courses.

b. Process

Transfer credit includes college courses accepted from other accredited colleges or universities. Such course work must be considered equivalent to course work required by the University of Wyoming. Students transferring to UW must have the registrar or records office of previous school(s) send an official transcript to the University of Wyoming Admissions Office. Once all final transcripts have been received by the Admissions Office, the degree analysts in the OTR will create an electronic record of credit transferred.

The recording of credit does not automatically imply acceptance toward a degree since degree requirements vary from major to major. Questions concerning the transferability of course work from other institutions should be directed to the Office of the Registrar.

c. Articulation: Earned Associate Degrees

1. Wyoming Community Colleges

Students entering UW beginning Fall 2001 who have completed an AA, AS, ADN, or AB degree from a Wyoming Community (spring 2001 or later) College receive credit toward completion of the lower division general education requirements included in the University Studies Program with the exception of the US/WY Government and Constitutions requirement. Students with an eligible associate's degree who have not completed both components of the US/WY Government and Constitutions requirement must complete it with coursework or challenge exam.

This policy applies to graduates receiving an Associate of Arts, and Associate of Sciences, Associate Degree Nursing, or an Associates of Business degree from any of the seven Wyoming Community Colleges. All graduates with an AA, AS, ADN, or AB degree complete a minimum of 64 college-level credits with a minimum of 2.000 GPA.

2. Community College Articulation: effective spring 2012

Graduates of regionally-accredited Colorado community colleges earning an AA/AS Spring 2012 or later are awarded the lower-division general education core in the same manner as graduates of Wyoming community colleges, with the exception of the US/WY Government and Constitutions requirement. Students must complete the Wyoming component through coursework or challenge exam. Spring 2008 (and later) graduates of Pikes Peak Community College are included due to a pre-existing articulation agreement.

Spring 2012 and later AA/AS graduates of Western Nebraska, Mid- Plains (Nebraska), and Colby (Kansas) Community Colleges will be extended the lower-division general education core in the same manner as Colorado schools above.

3.Community College Articulation: effective spring 2015

Graduates of regionally-accredited institutions earning an AA/ AS/AB Spring 2015 or later are awarded the lower-division general education core in the same manner as graduates of Wyoming community colleges, with the exception of the US/WY Government and Constitutions requirement. Students must complete the Wyoming component through coursework or challenge exam.

Transfer Credit from Regionally-Accredited U.S.Colleges and Universities

The Wyoming Transfer Catalog is a searchable online database of courses which the University of Wyoming has previously articulated from regionally-accredited U.S. institutions. Coursework may transfer in as equivalent, elective or NA. Elective coursework may be a general elective, academic department specific elective and/or elective with University Studies (USP) credit. Transfer courses which return values of "NA" in the UW Subject field are considered to be not transferable to UW. All new classes are evaluated on an individual basis. All new upper-division courses are initially given upper-division general elective credit; University faculty may then evaluate an upper-division course for direct UW equivalency transfer credit.

UW operates on semester credit; credit is awarded credit hour for credit hour. Quarter hours are recognized as two-thirds (2/3) of a semester hour.

Academic advisors may submit an elective course to fulfill a major or curricular requirement. Elective courses may also be considered for University Studies requirements via the University Studies Petition process.

Students intending to transfer to UW are encouraged to meet with advisors and review both the Wyoming Transfer Catalog and the UW Catalog when planning their program of study to ensure courses taken elsewhere will transfer to UW as intended for their desired major. Final determination of transfer credit acceptance is made by the University Registrar and faculty. Students must submit official transcripts of all completed coursework before a final determination can be made on credit transfer.

These equivalencies are subject to change without notice.

d.Transfer Credit for Study Abroad

Study abroad coursework is evaluated based off the documentation provided by the student and what is available to the Office of the Registrar. It is the students' responsibility to review the transfer work and to provide any course documentation (syllabi, descriptions, sample course work) to the Office of the Registrar. Once the transcripts received from the study abroad experience have been evaluated, students will have one year from that date to make any appeals or changes to what was initially awarded. Requests for changes to transfer credit awarded through study abroad following one year of the initial review will not be processed.

III. Military Service Courses

Students who have served in the Armed Forces may be allowed transfer credit for courses taken in some military schools. Students who desire to apply for credit on the basis of their military schooling should submit a copy of their DD-214 form or AARTS/SMART/CCAF transcript (or equivalent) to the UW Admissions Office. The degree analysts in the Office of the Registrar determine whether the course work is transferable to UW. Evaluations for the granting of credit for military-based training are based on recommendations in the American Council of Education (ACE) guidelines. Individual colleges will determine whether such course work is applicable to their degree programs.

The Grading System

Students are evaluated according to the following grading system:

Grade	Pts.	Definition
A	4.000	Exceptional
B	3.000	Very good
C	2.000	Fair
D	1.000	Poor
F	0.000	Failure (may be assigned as a grade for failure to attend or to indicate failure to formally withdraw)
I		Incomplete (temporary mark pending coursework completion as agreed in a signed document). See section on incompletes below for details.
W		Withdrawal (from the individual course or all courses), only if the student follows the official withdrawal procedure. If a student enrolls in a course and then abandons it (stops attending) without following the official withdrawal procedure, a grade of F will be assigned.
S		Satisfactory (equivalent to a C or better [B or better in courses numbered 5000 or above]; see general information on S/U grading below)
U		Unsatisfactory (see general information on S/U grading below)
UK		Unable to compute grades (for midterm grades only)

Grade Points

Each letter-graded course carries a grade point value computed as: the total credit hours earned in the course multiplied by the point value of the letter grade earned. For example: a student earning an A (point value of 4) in a 3 credit-hour course would earn 12 grade points for the course.

Semester (or Term) Grade Point Average

The semester grade point average (GPA) is the sum of all grade points earned in a semester or term divided by all credit hours attempted for letter grade. Credit hours in courses in which marks of I, W, S, or U were assigned, as well as developmental courses, are excluded.

Cumulative Grade Point Average

The average of all grade points earned by a student below is termed the cumulative grade point average. It is used for determining activity eligibility, honors, probation, suspension, graduation, and for all comparisons or purposes requiring measurement of academic standing.

The cumulative grade point average is defined as the sum of all grade points earned in University of Wyoming residence, correspondence, or Distance Education, divided by all credit hours attempted for letter grade, with the following exceptions:

1. The credit hours shall not be counted in courses in which marks of W, S, or U were assigned, or in which marks of I (for incomplete) are still in effect.
2. For repeated courses:
 - a. First repeat: only the second credit and grade is used to determine earned hours and to calculate the cumulative grade point average.
 - b. If repeated more than once, only the last credit and grade earned is used to determine earned hours and to calculate the cumulative grade point average.
 - c. A student is limited to a maximum of three (3) attempts, including withdrawals, in any course at the University of Wyoming.
 - d. If a mark of W, S, or U is assigned in a repeated course, the previous grade assigned will stand except when an S or U is earned repeating a previous S or U.
 - e. Courses applied towards one completed degree may be repeated as part of a second degree; however, the grade and grade point average in the original degree will not be changed.
3. Transfer grades are not counted in the UW grade point average. If a course taken at UW is repeated at another institution, the credits and grade earned at UW will be deleted from computation of the UW cumulative grade point average if credit for the repeated course is transferred to UW.
4. For graduate students, courses numbered below 4000 are not added in to the semester and cumulative totals, nor computed into the GPA.

Repeating a Course

Students may repeat course work; however, credit earned in any given course (or equivalent course) is applicable toward a degree requirement only once. All grade entries remain on the student's record, but only the last grade earned will be calculated in the UW cumulative grade point average. Refer to the Cumulative Grade Point Average section of this catalog for further information. Variable-credit courses are not considered as repeats unless the department head provides written certification that the course content was, in fact, repeated. Courses repeated will remain as entries on the academic transcript. Courses applied towards one completed degree may be repeated as part of a second degree; however, the grade and grade point average in the original degree will not be changed. A student is limited to a maximum of three (3) attempts in any course at the University of Wyoming. An "attempt" includes any instance in which the student earns a grade for the course or withdraws from the course. The three-attempt limit does not apply to courses identified in the University Catalog as being appropriate for students to take multiple times. A student can petition for exceptions to this limitation through established university procedures (UW Regulation 2-204). See the University Regulations online for the most up-to-date version.

Registration and Enrollment in Courses

Registration Procedures

Eligible students can register, drop, add, and get a schedule of their courses through WyoRecords. To insure that students have seen an adviser, access numbers for each semester's registration are distributed through the academic advisers. Directions for registration are contained in the appropriate *Class Schedule*. *Class Schedules* are available online no later than one week prior to advising week. Students are responsible for following directions and deadlines contained in the *Class Schedules*.

The following categories of continuing students in good standing or on academic probation are eligible to register for the semesters indicated:

1. *For the fall semester:*
All students who were enrolled the previous fall, spring, or summer semester.
2. *For the spring semester:*
All students who were enrolled the previous spring, summer, or fall semester.
3. *For the summer session:*
Students who were enrolled the previous summer, fall, or spring semester.

All other applicants and students should complete admission requirements by the admission deadline. (Refer to the sections on undergraduate and graduate admissions in this catalog for deadlines.)

All information requested during admission and registration is important to the student and to the university and should be kept accurate and complete. If a student's address, telephone, major, adviser, or other vital information changes after enrollment, the Office of the Registrar should be informed without delay.

Academic Adviser

Academic advising is a decision-making process involving a partnership between the academic adviser and the student (advisee). In this partnership, issues and questions regarding personal, professional, and educational goals are examined and evaluated. This includes, but is not limited to, planning an appropriate course of study and the scheduling of classes.

The purpose of academic advising is to promote rational, informed, and independent choices by the student. To that end, the academic adviser is a significant link for the student to other resources in the university community. Students are expected to take the initiative in developing the adviser-advisee relationship and to assume an ever-increasing role in developing their own academic, career, and personal goals.

Change of Registration

Modification of a course schedule during the drop/add time period is accomplished through WyoRecords. After the end of the drop/add period, individual class withdrawals can be done by the students on WyoRecords. Changes to a student's registration or withdrawals are not official until the process is completed as prescribed.

The period of time allowed for modifying a student's schedule or withdrawing during the summer session or other special terms is established in regulations or by the registrar, subject to the approval of the vice president for academic affairs.

During the fall and/or spring semester(s):

1. *Dropping a class or changing sections:* A student may drop classes during the first eight class days of the semester (four class days for blocked courses).
2. *Adding a course or changing grading option:* A student may add classes, change sections, or change grading options or hours in variable-credit courses during the first four class days of the semester (two class days for blocked courses).
3. *Withdrawal from a course:* After the designated drop/add period, students may officially withdraw from individual regular term courses until fifteen class days after mid-semester (five days after the middle of the course for blocked courses). Withdrawing means that a non-punitive grade of "W" is assigned as the final grade for the class. Students considering withdrawing should contact the Student Financial Aid Office prior to withdrawing to fully understand how withdrawing will affect their aid and scholarships. Students may withdraw from an individual course through their WyoRecords account. If a student has a hold on their account preventing them from withdrawing through WyoRecords, they may submit an online Class Withdrawal form available on the Office of the Registrar website. The online form is required for students who wish to withdraw from First Year Seminar classes. Refunds for course withdrawal (when applicable) are based on the date the withdrawal is processed, not on submission of the online petition. When a class has a status of "Indiv Course Withdrawal" on the "Add or Drop Classes" page in WyoRecords, the student has officially withdrawn. Students may also confirm that a final grade of "W" is noted on the transcript, which may be viewed through WyoRecords. Unauthorized discontinuance of enrollment or unofficial abandonment of classes will result in a failing grade.
4. *All-School-Withdrawal (termination of enrollment):* Withdrawal from the university is the official termination of student status prior to the end of a fall or spring semester, but students may otherwise register for classes for the subsequent semester if they choose to do so. Students wishing to withdraw from all on-campus classes should initiate the procedure with the Dean of Students Office. Withdrawal from the university is not permitted during the last 15 days of a term. After clearing with the Dean of Students Office, the withdrawal form must be presented to the university cashier for initial processing. The Office of the Registrar will report withdrawals to instructors concerned. Students withdrawing from distance classes should send an email to the Office of the Registrar to initiate the process.
