Specific course requirements for the Public History Concentration are as follows:

Required Courses for Public History Concentration

HIST2050 - Introduction to Public History

HIST2700 - Introduction to Museology

HIST3020 - Historical Methods

HIST4400 - Internship

Elective courses for Public History Concentration

2 of the following courses:

HIST4055 - Archival Research Methods

HIST4077 - Book History: Topics

HIST4315 - History, Politics and Memory of the Holocaust in Europe

HIST4320 - Memory and National Identity in Twentieth Century Europe

HIST4400 - Internship (Students are allowed 2 Internship courses if approved by an advisor)

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

ENGL 1010

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

College of Arts and Sciences Core

D- - Diversity

Credits: 3
A&S Course: Diversity in the United States

G- - Global Awareness

Credits: 3
A&S Core: Global Awareness Course

History BA Requirements

The History major requires a minimum of 36 credit hours in History courses or approved substitutions and an additional 12 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages. All courses used to satisfy major requirements - including the language requirement - must be completed with a grade of C or better. To complete the Bachelor of Arts (B.A.) degree in History, all University Studies Program (USP) and college requirements must also be satisfied.

Language

Students must complete three semesters of a single foreign language or the equivalent as determined by the Department of Languages - Modern and Classical. This requirement may be satisfied by American Sign Language.

Two Required Courses: 6 Hours

HIST3020 - Historical Methods

Credits: 3

An introduction to the concepts, methods, and techniques used by historians. The main emphasis will be on methods of historical research and analysis, demonstrated through writing. Students will write a number of short papers building skills in various areas of research, analysis, and argumentation, and one longer paper reflecting individual research. Total pages for the semester: 30-45.

USP 2003-2014 Code U3L, U3WB

Former Course Number [4020]

Prerequisite: junior standing, 12 hours of HIST, and COM1.

AND

HIST4030 - Senior Capstone Seminar

Credits: 3

Max Credit (Max. 6)

For undergraduate departmental majors; presented in a small group, non-lecture setting. Under close instructor supervision, students write reviews and essays, present critiques and oral reports and lead discussion on materials read by class.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: advanced standing as a History major and HIST 3020.

Elective: Any Level: 3 Hours

One additional History course at any level.

Lower-Division Electives: 12 Hours

Lower-Division courses are 1000 and 2000 level courses.

HIST1101 - FYS: Hamilton's America: Beyond the Musical

Credits: 3

Over the last few years, Hamilton: An American Musical has taken the world by storm. Taking the musical as a starting point, we will consider the real Alexander Hamilton's life and times; the relationship between history, memory, storytelling, and art: and the newfound love of an historical figure who was, in his own time, less than universally

popular. This course fulfills the First-Year Seminar (FYS) requirement of the 2015 University Studies Program.

USP 2015 Code U5FY

HIST1110 - Western Civilization I

Credits: 3

Surveys basics of Western European civilization from decline of Roman Empire to 1700.

USP 2003-2014 Code U3CH

HIST1120 - Western Civilization II

Credits: 3

A broad survey of European history in the Western tradition from 1700 to present.

HIST1210 - United States History I

Credits: 3

Surveys U. S. history 1607-1865. Together with HIST 1220, it is the foundation on which all U. S. history courses offered by the department are based. Students cannot receive credit for both HIST 1210 and HIST 1211 .

USP 2003-2014 Code U3VT

HIST1211 - U.S. to 1865

Credits: 3

Surveys U.S. history through the Civil War which by itself meets the requirements of the Wyoming statutes providing for instruction in the provisions and principles of the constitutions of the United States and Wyoming. Students cannot receive credit for both HIST 1210 and 1211.

When Offered Normally offered fall semester

USP 2003-2014 Code U3V

USP 2015 Code U5V

HIST1220 - United States History II

Credits: 3

Surveys U.S. history from reconstruction to recent past. Together with HIST 1210, it is the foundation for all U. S. history courses offered by the department. Students cannot receive credit for both HIST 1220 and HIST 1221.

HIST1221 - U.S. From 1865

Credits: 3

Surveys U.S. history from the Civil War to the present and meets the requirements of the Wyoming statutes providing for instruction in the provisions and principles of the constitutions of the U. S. and of Wyoming. Students cannot receive credit for both HIST 1220 and 1221.

When Offered Normally offered spring semester
USP 2003-2014 Code U3V
USP 2015 Code U5V

HIST1250 - History of Wyoming

Credits: 3

A study of Wyoming from its beginning to the present. Students cannot receive credit for both HIST 1250 and HIST 1251.

USP 2003-2014 Code U3VT

HIST1251 - Wyoming History

Credits: 3

A survey which encourages an understanding of Wyoming history, how it relates to the history of the West and the rest of America and how it has influenced the present. An important component is to learn about the U.S. and the Wyoming constitutions and how these two documents have influenced Wyoming history. Students cannot receive credit for both HIST 1250 and 1251.

USP 2003-2014 Code U3V
USP 2015 Code U5V

HIST1290 - History of the U.S. West

Credits: 3

An introductory survey of the American West, with consideration of developments in both the 19th and 20th centuries.

HIST1320 - World History to 1500

Credits: 3

A history of the world's peoples and societies from human prehistory to 1500, with an emphasis on the diversity and interconnectedness of human life in the past.

USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

HIST1330 - World History since 1500

Credits: 3

A history of the world's peoples and societies from 1500 to the present, with an emphasis on the diversity and interconnectedness of human life in the past.

USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG

HIST2020 - American Military History

Credits: 3

Surveys military experiences of U.S. from colonial period to the present. In addition to specific wars, examines military doctrines and political, social and economic forces that shaped conduct of war in American history.

HIST2030 - History and Environmental Science

Credits: 3

This course is designed as an introduction to both the historical work of environmental historians and the scientific work of environmental scientists. No previous background in either history or science is required.

Cross Listed ENR 2030.

USP 2003-2014 Code [(none)< >H]

HIST2040 - Imperial China

Credits: 3

Surveys China's social, intellectual, political, cultural, technological and ethnohistory from earliest historical period through the last imperial dynasty, and China's role in greater E. Asian and world history. Provides background for other Asia-related courses and is part of year-long series; see HIST 2041.

USP 2003-2014 Code U3CS, U3G

HIST2041 - Modern China

Credits: 3

Surveys China's social, intellectual, political, cultural, and ethnohistory from mid-1800s to the present. Themes include colonialism, emergence of nation-state, Communist party, Mao's socio-political agenda, post-Mao reforms, and China's role in Asia. Background for other Asia-related courses and part of year-long series; see HIST 2040.

HIST2050 - Introduction to Public History

Credits: 3

Introduces the student to the non-teaching, professional uses of history. Topics for consideration include archival work, museum management, public information and publications, historic site development, oral history interviewing, preparation of government reports, historic preservation general concepts and historical programming.

HIST2060 - Topics in History

Credits: 2-3

Max Credit 6

Discusses special topics that fall outside traditional chronological and geographical framework of history; content varies from semester to semester in accordance with faculty interest and student demand.

HIST2080 - Holocaust

Credits: 3

Surveys the destruction of European Jewry, 1933-1945.

Cross Listed RELI 2080.

USP 2003-2014 Code U3CH

Former Course Number [4315]

HIST2105 - Medieval Europe in Film

Credits: 3

Historical depictions in films help to shape people's view of the past. Uses commercial films to study major themes in the development of western European civilization between 500 and 1500. Students view, discuss and write about films, learning to evaluate films historically and to view films critically, developing media literacy.

HIST2120 - Ancient Greece and the Near East

Credits: 3

Examines development of civilization in Eastern Mediterranean from prehistory to Alexander the Great.

HIST2130 - Ancient Rome

Credits: 3

Studies history of the growth of Roman power from city-state to world power.

HIST2225 - History of Christianity

Credits: 3

Traces Christianity from its beginnings to late 20th century.

Cross Listed RELI 2225.

USP 2015 Code U5H

HIST2230 - The History of Russia to 1855

Credits: 3

General survey of modern Russian history from earliest times to 1855.

HIST2240 - The History of Russia Since 1855

Credits: 3

General survey of modern Russian history from 1855 to the present.

HIST2250 - American Religious History I (To 1865)

Credits: 3

Traces the history of religion in America through the Civil War. We will pay particular attention to the intertwining of

religion and colonialism; the tension between emerging Protestant hegemony and religious pluralism; and the roles religion has played in justifying oppression and pursuing liberty in American history.

Cross Listed RELI 2250.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H
A&S College Core 2015 ASD

HIST2252 - American Religious History II (1865 to 1945)

Credits: 3

Traces American religious history from the Civil War through WWII. Focuses on how race/ethnicity, class, gender, and national origin affected religion, and explores how Americans used religion in oppressing and liberating people; marking and erasing difference; and exporting values abroad as well as reforming society at home.

Cross Listed RELI 2252.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H
A&S College Core 2015 ASD

HIST2280 - Introduction to European Studies

Credits: 3

This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.

Cross Listed INST 2280.
USP 2015 Code U5C2

HIST2290 - History of North American Indians

Credits: 3

Studies American Indian history through 500 years and across the continent. Considers Indian political, social and economic continuity and change. Focuses on how Indian peoples experienced and responded to times of dramatic change.

Cross Listed NAIS 2290.
USP 2003-2014 Code U3CH, U3D
A&S College Core 2015 ASD

HIST2315 - History of Non-Western Religions

Credits: 3

Introduces students to religions outside the Judeo-Christian realm familiar in the west. Each religion analyzed in its world views, its ways of life, and in its social organization. History of each religion and its changes.

Cross Listed RELI 2315.
USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

HIST2320 - History of Islam

Credits: 3

Focuses on the origins of Islam and its early formation, its growth and spread across the world, and its intellectual, spiritual and historical character. Time will also be spent on the formation of Islam in the modern world and how that impacts the views and actions of its members.

USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG

HIST2360 - African-American History

Credits: 3

Surveys African-American history in America, particularly emphasizing issues of identity, class, and progress as well as exploring African-Americans' quest for full participation in American life.

Cross Listed AAST 2360.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5C2
A&S College Core 2015 ASD

HIST2370 - Chicano History: Origins to 1900

Credits: 3

General survey of the history of the Mexican American Chicano people in the United States. Examines the origins and development of Mexican Americans, Chicanos through the major historical processes which have shaped their experience. Major themes include multicultural, multiethnic context, origins; changing identity, comparative relations to other social, ethnic groups, culture, social structure, politics, economy, immigration, and the influence of United States-Mexico relations.

Cross Listed LTST 2370/GEOG 2370.
USP 2003-2014 Code U3CS, U3D
USP 2015 Code U5H
A&S College Core 2015 ASD

HIST2380 - Latin American History 1500 to 2000

Credits: 3

Provides introduction to Latin American history, from colonial contacts to the present. Explores important themes and connections across the colonial and modern periods, such as race, national identity, foreign involvement, indigenous peoples' role in nation-states, religion, social movements, economic systems, and globalization.

USP 2003-2014 Code U3G

USP 2015 Code U5H

HIST2385 - Chicano History : 1900 to Present

Credits: 3

General survey of the history of the Mexican American Chicano people in the United States. Examines the origins and development of Mexican Americans, Chicanos through the major historical processes which have shaped their experience. Major themes include multicultural, multiethnic context, origins; changing identity, comparative relations to other social, ethnic groups, culture, social structure, politics, economy, immigration, and the influence of United States-Mexico relations.

Cross Listed LTST 2385.

USP 2015 Code U5H

A&S College Core 2015 ASD

HIST2389 - History of Women in the American West

Credits: 3

Surveys the roots of society's marginal historical depiction of women in the American West from the colonial period through the twentieth century. From the perspective of race, class, ethnicity, and gender, the course focuses on the development of a multi-dimensional understanding of women's roles using an interdisciplinary approach.

Cross Listed GWST 2389.

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

HIST2390 - US West Between the World Wars

Credits: 3

Examines two pivotal decades (1918-1942) in the US West that encompasses prosperity, Depression, and reform, through the use of historical documents, art, film, literature, and music.

HIST2460 - Traditional Japan

Credits: 3

Surveys Japan's social, intellectual, political, cultural, technological and ethnohistory from earliest historical period to the 1800s. Topics include roles of China and Korea, the samurai warrior tradition, family structure, Buddhism and Shinto. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2461.

HIST2461 - Modern Japan

Credits: 3

Surveys Japan's social, intellectual, political, cultural, economic, technological and ethnohistory from the 1800s through the present. Topics include Japan's industrialization, Asian colonialism, post-WWII, and Japan as economic superpower. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2460.

A&S College Core 2015 ASG

HIST2470 - Civilization of India

Credits: 3-4
Max Credit 4

Surveys Indian civilization from earliest times, including cultural aspects.

HIST2500 - The Impact of the Union Pacific on Wyoming History

Credits: 3

Students experience and interpret the impact of the building of the Union Pacific Railroad on the history and culture of Wyoming through the lens of three disciplinary perspectives. Students explore how the railroad impacted Wyoming geography, economic development and the people of the state through personal research projects.

Cross Listed ECON 2500.

HIST2600 - Forgotten Africa: Intro to African Civilizations

Credits: 3

This survey course introduces students to African states and empires, dating from classical to modern times. The course challenges depictions of Africa as timeless and underdeveloped within contemporary narratives by highlighting the continent's vibrant cultures, sophisticated technologies, dynamic and complex political systems and participation in long-distance trade.

Cross Listed ANTH 2600.
USP 2015 Code U5H

HIST2700 - Introduction to Museology

Credits: 3

Introduces students to the various roles and responsibilities of museum professionals in the areas of leadership and management, collections, exhibits, education and engagement, and security. Practice-based assignments, readings, discussions, field trips, and meetings with museum professionals will provide students with a solid understanding of key aspects central to the working of all museums, regardless of the nature of the collection, and introduce students to available career paths in these institutions. Crosslisted between American Studies, Anthropology, Art and Art History and History.

Cross Listed ART 2700/AMST 2700/ANTH 2700.
USP 2003-2014 Code U3CH

HIST2705 - Museology II

Credits: 3

Introduces students to the history of museums, as well as major theoretical, legal and political challenges within museum studies. Students are encouraged to think beyond their specific disciplinary background to gain a greater appreciation for the lessons that can be learned from related disciplines and types of repositories, including larger ethical and cultural concerns that have been raised through the creation of modern museum standards. The combination of readings, discussion, and fieldtrips to a variety of museums/repositories will provide students a solid introduction to

these themes. Cross listed between Anthropology, History, American Studies, and Art.

Cross Listed AMST 2705 / ANTH 2705 / ART 2705

Upper-Division Electives: 15 Hours

Upper-Division courses are 3000 and 4000 level courses.

HIST3000 - Plains Culture and History

Credits: 3

An ethnohistorical study of those Native peoples inhabiting the plains region of the U.S. from prehistory to the present.

Cross Listed NAIS 3000.

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

Prerequisite: 6 hours of HIST or NAIS.

HIST3020 - Historical Methods

Credits: 3

An introduction to the concepts, methods, and techniques used by historians. The main emphasis will be on methods of historical research and analysis, demonstrated through writing. Students will write a number of short papers building skills in various areas of research, analysis, and argumentation, and one longer paper reflecting individual research.

Total pages for the semester: 30-45.

USP 2003-2014 Code U3L, U3WB

Former Course Number [4020]

Prerequisite: junior standing, 12 hours of HIST, and COM1.

HIST3050 - Athenian Democracy

Credits: 3

Examines democratic government in ancient Athens: its origins and development, its practical workings, how politics were conducted and power was gained and exercised, citizen participation, law courts, and evaluations of democracy in the ancient world and since.

Cross Listed CLAS 3050/POLS 3050.

Prerequisite: WB or COM2.

HIST3110 - Modern Germany

Credits: 3

A cultural, social, and political history of German-Speaking Europe from 1789 to the present.

Prerequisite: 6 hours of HIST or INST.

HIST3160 - "What Killed Socrates?"

Credits: 3

This course will reexamine Socrates' trial in 399 BCE, widely regarded as a miscarriage of justice, in its total historic context, seeking to understand the reasons for Socrates' conviction. In the process, it will impart a broad understanding of the cultural, philosophical, political, and legal life of classical Athens.

Cross Listed CLAS 3160/PHIL 3160.

Prerequisite: WB or COM2.

HIST3220 - History of the Modern Middle East

Credits: 3

Surveys the Middle East from 1700 to the present. Emphasizes the demise of the Ottoman Empire, the rise of domination by European colonial powers, transformations in political, social, religious and cultural life, the rise of nationalist movements, the influence of oil, the growth of Islamist political groups and the Israeli-Palestinian conflict.

Cross Listed RELI 3220.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Prerequisite: 6 hours of HIST, RELI, or INST.

HIST3230 - Early Christianity

Credits: 3

Considers the development of the Christian religion from a small Jewish sect to its place as the official religion of the Roman Empire and beyond. It examines the development of creeds, doctrines and institutions, placing them within their historical context.

Prerequisite: RELI 1000 or RELI 2225/HIST 2225.

HIST3235 - Medieval Christianity

Credits: 3

Traces the development of 'Christendom' in Europe between about 500 - 1500 CE, concentrating on the Latin West. It examines the growth of Christian institutions and practices, the Church's role as sole governing entity, along with conflicts with secular governments as they developed in later centuries.

Cross Listed RELI 3235.

Prerequisite: RELI 2225/HIST 2225, HIST 1110, or RELI 1000.

HIST3240 - Reformation and Enlightenment Christianity

Credits: 3

The years between about 1500 and 1800 saw the permanent dismantling of Christianity in the West as a unified force, as Protestantism brought new ways of viewing the relationship between God and humanity. Once the fragmentation began, it accelerated rapidly as Enlightenment thinking challenged Christianity in new and complex ways.

Cross Listed Cross listed with: RELI 3240.

Prerequisite: RELI 1000, RELI 2225/HIST 2225.

HIST3275 - World Christianities

Credits: 3

Examines the development of Christianity primarily in Africa, Asia and South America.

Cross Listed RELI 3275

USP 2003-2014 Code U3CH, U3G

A&S College Core 2015 ASG

Prerequisite: WB and CH

HIST3300 - Secret History of Science

Credits: 3

Explores developments in science from prehistory to the present. It focuses on the lesser-known men and women who contributed to science, as well as on seemingly superstitious beliefs that were nonetheless important to advances in knowledge.

Restricted Restricted to junior standing or higher.

Prerequisite: 6 hours in HIST or 6 hours of PN coursework, or a combination of both.

HIST3400 - Mongol Empire

Credits: 3

Examines the history of the Mongol Empire from a world history perspective. Major themes: structure of a nomadic empire, how that empire interacted with the various settled states it conquered and ramifications of the Mongol conquest on trade, technology, and social and intellectual developments across Eurasia, between the years 1200 to 1450 CE.

Prerequisite: 6 hours of HIST.

HIST3500 - Colonial America

Credits: 3

This course covers the history of European colonization from roughly 1492 to 1763. Our geographic focus will be on the (future) United States, but will also learn how transatlantic forces influenced its people.

Prerequisite: 12 hours of HIST courses or permission of instructor.

HIST3670 - African Diaspora

Credits: 3

Examines process through which aspects of African culture have endured in Diaspora. Analyzes social relations between Diaspora Africans and non-African populations in N. and S. America, the Caribbean, Britain, Asia, and the Mediterranean. Discusses cultural hybridization as a product of culture contact.

Cross Listed AAST 3670.

USP 2003-2014 Code U3CS, U3G

A&S College Core 2015 ASG

Prerequisite: AAST 1000, any AAST 2000-level course, or AAST 2360/HIST 2360.

HIST3880 - Comparative History

Credits: 3

Explores comparative history from a variety of topics, such as colonialism, memory, nationalisms, frontiers, or cultural history. This course will introduce students to at least one of these themes from at least two regions, time periods, or groups of people to understand patterns and change in human societies through time.

Prerequisite: 6 hours of HIST.

HIST3900 - Historical Archaeology

Credits: 3

This course introduces students to the field of historical archaeology, the archaeological and archival study of literate societies. Students will be introduced to the history of the discipline, a survey of contemporary historical archaeological practice.

Cross Listed ANTH 3900

Former Course Number [none < > none]

Prerequisite: ANTH 1300

HIST4000 - Indians of Wyoming

Credits: 3

Examines Native American culture in Wyoming from pre-history to the 21st century. Analyzes social, political, and economic developments of Native peoples of Wyoming before, during, and after contact with Europeans. Discusses interaction between these diverse societies and explores the changing relationships between Indians and Euro-Americans through the periods after contact.

Cross Listed NAIS 4000

Dual Listed HIST 5000

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST or NAIS.

HIST4020 - The Black West

Credits: 3

This course explores the historical experiences and contributions of people of African descent to the American West from their earliest recorded presence in the 16th Century through the present.

Cross Listed AAST 4020.

USP 2003-2014 Code U3CH, U3D

Prerequisite: AAST 1000, any AAST 2000-level course, junior/senior standing, or three hours of any level of HIST course.

HIST4030 - Senior Capstone Seminar

Credits: 3

Max Credit (Max. 6)

For undergraduate departmental majors; presented in a small group, non-lecture setting. Under close instructor supervision, students write reviews and essays, present critiques and oral reports and lead discussion on materials read by class.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: advanced standing as a History major and HIST 3020.

HIST4055 - Archival Research Methods

Credits: 3

Students will master advanced research strategies with interdisciplinary applications. Focuses on primary research and the development of advanced skills in information literacy, critical analysis of sources, verification of evidence, techniques for researching underdocumented populations, and interpretation of historical evidence. Advanced writing and oral presentation skills are emphasized.

Dual Listed HIST 5055.

Prerequisite: 9 hours of HIST, including HIST 2050 or HIST 2700.

HIST4060 - Independent Study

Credits: 1-3

Max Credit 6

Credit not to exceed 6 hours maximum, to be arranged in either European or American history. Primarily for juniors and seniors who can profit from independent work with minimal supervision.

Prerequisite: 12 semester hours in history; written permission of instructor required.

HIST4077 - Book History: Topics

Credits: 3
Max Credit (Max. 6)

An in-depth, hands-on study of books within their historical contexts. The topic will vary each time and focus on a particular theme, time period, place, or culture. Taught at the Rare Books Library, American Heritage Center, using original books or facsimiles. May be repeated once for credit.

Dual Listed HIST 5077.
Prerequisite: 9 hours of HIST.

HIST4100 - Early Medieval Europe

Credits: 3
Studies development of European civilization from decline of Rome to 12th century.

Dual Listed HIST 5100.
Prerequisite: 9 hours of HIST.

HIST4110 - The High Middle Ages

Credits: 3
Studies history of European civilization between the 12th and 15th centuries.

Dual Listed HIST 5110.
Prerequisite: 9 hours of HIST.

HIST4112 - History of the Medieval City

Credits: 3
After the fall of the Western Roman Empire, cities virtually disappeared from Western Europe. Around 1000 Europe began its rise to world prominence and cities contributed to that rise. Examines development of cities in medieval Europe and explores life within those cities.

Dual Listed HIST 5112.
Prerequisite: 9 hours of HIST.

HIST4113 - Medieval Religious Dissent

Credits: 3
Religious dissent in the Middle Ages included what some would call heresy, but also encompasses such marginal groups as Jews and witches. Examines development of orthodoxy and persecution of religious diversity between eleventh and 16th centuries within the historical context of the times.

Cross Listed RELI 4113.
Dual Listed HIST 5113.
Prerequisite: 9 hours of HIST or RELI.

HIST4120 - Europe During the Renaissance

Credits: 3

Intensely studies European history in 14th and 15th centuries.

Prerequisite: 9 hours of HIST.

HIST4130 - Europe During the Reformation

Credits: 3

Intensely studies European history in the 16th century.

Prerequisite: 9 hours of HIST.

HIST4140 - Europe During the Age of the Baroque

Credits: 3

Intensely studies European history in 17th century.

Prerequisite: 9 hours of HIST.

HIST4150 - Europe During the Age of the Enlightenment

Credits: 3

Intensely studies European history in 18th century.

Prerequisite: 9 hours of HIST.

HIST4170 - Europe in the Nineteenth Century

Credits: 3

An intensive study of European history from the beginning of the nineteenth century through to the origins of the First World War in 1914.

Dual Listed HIST 5170.

Prerequisite: HIST 1120.

HIST4174 - Judaism from Ezra to Jesus

Credits: 3

This course focuses on the religious and historical development of Judaism during the centuries between the end of the Old Testament and the New Testament, studying the arrival of Greek and then Roman culture and the changes Judaism underwent during that time that endure today.

Cross Listed RELI 4174.

Prerequisite: WB or COM2, and RELI 1000 or RELI 2110.

HIST4175 - Judaism at the Dawn of Christianity

Credits: 3

Judaism is the only Mediterranean religion that was practiced in the ancient world as well as in Late Antiquity and beyond. This course helps students analyze how Judaism was able to change and adapt at key moments to provide its adherents with an active, living religion that addressed their needs.

Cross Listed RELI 4175.

Prerequisite: RELI 1000 or RELI 2110, and junior standing.

HIST4180 - Europe in the 20th Century

Credits: 3

An intensive study of European history from 1914 through 2000.

Dual Listed HIST 5180.

Prerequisite: 9 hours of HIST.

HIST4270 - France: Old Regime and Revolution

Credits: 3

The social, political and cultural history of early modern France (1598-1789), from the rise of the Absolutist state under Louis XIV to the outbreak of the Revolution. Explores the cultural and intellectual shifts from court culture at Versailles, to the Enlightenment, to the rise of revolutionary ideologies.

Dual Listed HIST 5270.

Prerequisite: 9 hours of HIST.

HIST4290 - History of the Soviet Union

Credits: 3

Depicts Russia under Communism, including particularly the development of totalitarian dictatorship in its political, economic, social and cultural manifestations.

Dual Listed HIST 5290.

Prerequisite: 9 hours of HIST.

HIST4305 - Global History

Credits: 3

Thematically focused examinations of interactions or parallel phenomena in multiple world regions. Courses may be comparative (comparing two empires, or multiple revolutions), or may examine the growth of a particular trend globally (e.g. abolition of slavery), or the interaction of many states (e.g. the Cold War).

Dual Listed HIST 5305.

USP 2003-2014 Code U3G

Prerequisite: 9 hours of HIST, INST, or POLS.

HIST4310 - World War II in Europe

Credits: 3

Covers the origins, course and consequences of one of this century's defining global developments. World War II in Europe was a transnational development which shaped the world as it is known today.

Dual Listed HIST 5310.

Prerequisite: 9 hours of HIST.

HIST4315 - History, Politics and Memory of the Holocaust in Europe

Credits: 3

Offers students the opportunity to learn about the history of the Holocaust through travel to various sites in Central Europe where the events themselves occurred, such as Berlin, Warsaw, Krakow and Auschwitz-Birkenau.

Cross Listed INST 4315.

Dual Listed HIST 5315.

Prerequisite: 9 hours of HIST or INST.

HIST4320 - Memory and National Identity in Twentieth Century Europe

Credits: 3

Europe in the twentieth century saw a century of unprecedented violence. Examines the public representation of such historical trauma through the concept of "collective memory" and focuses in particular on how memory has become a contested part of defining identity in modern-day Europe.

Dual Listed HIST 5320.

Prerequisite: 9 hours of HIST.

HIST4340 - The Social History of American Women

Credits: 3

Explores everyday life experiences of American women from the 17th century to the present. Focuses on the complex influence of gender, race and class in shaping those experiences; also, analyzes the ways in which women's dissatisfaction with their position in society formed the basis for the development of American feminism and led to the formation of an organized women's movement.

Dual Listed HIST 5340.

USP 2015 Code U5H

Former Course Number [4840]

Prerequisite: 9 hours of HIST or GWST.

HIST4380 - International History of Human Rights

Credits: 3

Examine the modern history of human rights in the global system, with particular emphasis on developments since the Second World War. Topics include the philosophy of human rights ideas; the histories of rights and rights violations in various regions; and the resulting international responses.

Cross Listed INST 4380.

Dual Listed HIST 5380.

Prerequisite: 9 hours of HIST or INST.

HIST4400 - Internship

Credits: 1-12

Max Credit (Max. 12)

The internship allows students to gain hands-on experience that will help to bridge the gap between history as an academic discipline and history as practiced in museums, public history agencies and historic sites. Specific arrangements must be made in advance to identify the academic component of the internship and the grading criteria. Such planning will be done in consultation with the department's internship director.

Prerequisite: 9 hours of HIST.

HIST4405 - American Encounters to 1850

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African and Asian people from pre-contact through the mid-19th century.

Dual Listed HIST 5405.

USP 2003-2014 Code U3D

USP 2015 Code U5H

Prerequisite: 9 hours of HIST.

HIST4406 - American Encounters from 1850

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African, and Asian people from the mid-19th century to the present.

Dual Listed HIST 5406

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST.

HIST4410 - America in an Early Modern World

Credits: 3

Explores the American colonial experience as part of a worldwide process of colonial encounters with indigenous peoples between 1400 and 1800. Compares the experiences of early modern colonization in North and South America, Asia, and the Pacific and examines the nature of the colonial societies created by these cross-cultural relationships.

Dual Listed HIST 5410.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: 9 hours of HIST.

HIST4412 - Global Environment History

Credits: 3

This course is designed to introduce undergraduate and graduate students to the new field of global environmental history. The Global Environmental History course will provide a new way of looking at humans, animals, and the lives they've built in the environment and the costs of their decisions to the environment.

Cross Listed ENR 4412.

Dual Listed HIST 5412.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or ENR.

HIST4415 - Entangled Worlds, Entangled Lives: Indigenous People and Colonizers Before 1850

Credits: 3

The experiences of indigenous people and colonizers in Africa, Eurasia, the Americas, and the Pacific as they forged new colonial societies in the first global age (1400-1850). Emphasis throughout the course will be on the often-overlooked role of indigenous people in creating colonial societies.

Dual Listed HIST 5415.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

Prerequisite: 9 hours of HIST.

HIST4425 - Britain's Global Empires: 1558 to the Present

Credits: 3

Britain's four distinctive empires from Elizabeth I through the present. Emphasis throughout the course will be on the creation and operation of these distinctive but related empires with a special focus on the impact empires had on both colonized people and the people of Britain.

Dual Listed HIST 5425.

A&S College Core 2015 ASG

Prerequisite: 9 hours of HIST.

HIST4450 - The Civil War and Reconstruction

Credits: 3

Studies crisis of the Union, 1861-1877. Examines experiences of both the North and South during the Civil War and restoration of the Union after the war.

Dual Listed HIST 5450.

Prerequisite: 9 hours of HIST.

HIST4460 - Post-Civil War America: The Gilded Age

Credits: 3

Intensively covers economic, cultural and political developments which marked the U.S. in post-Civil War era, such as rise of industry, emergence of distinctive national culture and party struggles shaping America's Gilded Age.

Dual Listed HIST 5460.

Prerequisite: 9 hours of HIST.

HIST4462 - American Indian History to 1783

Credits: 3

Surveys the history of American Indians from the period before contact to the end of the American Revolution. Examines the various contacts between American Indians and Europeans and considers what the American Revolution meant to the continent's Native peoples.

Cross Listed NAIS 4462.

Dual Listed HIST 5462.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or NAIS.

HIST4463 - American Indian History 1783 to 1890

Credits: 3

Surveys the history of American Indians during the era of westward expansion. Examines the impact of American westward movement and also the manifold changes that accompanied moving west.

Cross Listed NAIS 4463.

Dual Listed HIST 5463.

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST or NAIS.

HIST4464 - American Indians in the Twentieth Century

Credits: 3

Surveys the history of American Indians during the twentieth century. Examines the development of new cultural,

social and political forms that help create an American Indian identity.

Cross Listed NAIS 4464.

Dual Listed HIST 5464.

USP 2003-2014 Code U3D

Prerequisite: 9 hours of HIST or NAIS.

HIST4466 - American Indian Ethnohistory

Credits: 3

Surveys ethnohistorical methods and concepts and provides students concrete opportunities to use these methodologies in writing exercises. American Indian ethnohistory explores Native American experiences within their own cultural contexts.

Cross Listed NAIS 4466.

USP 2003-2014 Code U3D

Prerequisite: 9 hours of HIST, NAIS, or ANTH.

HIST4468 - American Indians in the North American West

Credits: 3

One of the defining features of the North American West is the presence of American Indians. Through the discussion of varied readings and primary document research, the history of American Indians in the West is examined, with particular emphasis on the Great Plains and California.

Cross Listed NAIS 4468.

USP 2003-2014 Code U3D

Prerequisite: 9 hours of HIST or NAIS.

HIST4470 - The Birth of Modern America, 1890 to 1929

Credits: 3

Studies political and diplomatic developments in the U. S. in the wake of industrialization and massive immigration. Some attention to cultural and social themes. Emphasizes shifting nature of reform between depression of the 1890s and that of the 1930s.

Dual Listed HIST 5470.

Prerequisite: 9 hours of HIST.

HIST4475 - American Environmental History

Credits: 3

Explores history of American attitudes and actions toward the land and natural resources.

Dual Listed HIST 5475.

Former Course Number [4670]

Prerequisite: 9 hours of HIST.

HIST4480 - Growth of Modern America, 1929 to 1960

Credits: 3

Studies political and diplomatic developments in the U.S. in Depression, World War II and early Cold War periods. Some attention to cultural and social themes. Emphasizes economic crisis, growth of government, reform traditions, anti-communism and civil rights.

Dual Listed HIST 5480.

Prerequisite: 9 hours of HIST.

HIST4485 - U.S. Latino Diaspora

Credits: 3

Combines classroom activities and a week-long stay abroad in examining the historical creation and contemporary spread of the Latino Diaspora from the Caribbean to the Yucatan and beyond. U.S. Latina/o history, multiculturalism, pan-Latino identity, assimilation, migration trends and natives' responses are stressed.

Cross Listed LTST 4485/INST 4485.

Prerequisite: 9 hours of LTST, HIST, and/or INST related coursework.

HIST4490 - Modern America, 1960 to Present

Credits: 3

Studies political and diplomatic aspects of the U.S. since 1960. Emphasizes impact of Cold War, social and political tensions at home, civil rights and government policies.

Dual Listed HIST 5490.

Prerequisite: 9 hours of HIST.

HIST4492 - Revolutions in Latin America

Credits: 3

Explores the meaning and impact of revolution in Latin America's modern history, focusing on political ideology, cultural expression, foreign relations, human rights, and globalization. Offers in-depth analysis of revolutions from the early nineteenth century to the present.

Cross Listed LTST 4492.

Dual Listed HIST 5492.

USP 2003-2014 Code U3CS, U3G

A&S College Core 2015 ASG

Prerequisite: 9 hours of HIST or INST.

HIST4494 - The U.S. in Latin America

Credits: 3

This course explores Latin America's experiences with the United States during the twentieth century. The class addresses U.S.-Latin American relations from a variety of angles, covering topics from military intervention and government policies, to informal imperialism and cultural exchanges through film and literature.

Dual Listed HIST 5494.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or INST.

HIST4495 - Borderlands in Latin America

Credits: 3

Examines borderlands and frontiers in Latin American history, focusing on the U.S.-Mexico border region, the Southern Cone, and the Caribbean. Key issues include cultural contact zones, colonialism, military expansion and conflict, and nation-building.

Dual Listed HIST 5495.

Former Course Number [4720]

Prerequisite: 9 hours of HIST or INST.

HIST4496 - History of Mexico

Credits: 3

Intensive course in Mexican development. Emphasizes the 20th century especially the Mexican Revolution of 1910, showing how this nation transformed itself into a modern nation-state. Includes diplomatic relations with the U.S., incorporation of Indians, church-state relations, uses of land and other natural resources, role of the military and growth of Mexican nationalism.

Cross Listed LTST 4496.

Dual Listed HIST 5496.

Former Course Number [4800]

Prerequisite: 9 hours of HIST or INST.

HIST4505 - The Old South, 1820 to 1861

Credits: 3

Studies history of the South from emergence of southern identity to the Civil War. Emphasizes southern society and culture.

Dual Listed HIST 5505.

Former Course Number [4500]

Prerequisite: 9 hours of HIST.

HIST4510 - Modern East Asia

Credits: 3

Focuses on the emergence of the modern East Asian states China, Japan, Korea, and Vietnam as individual states and members of this important region historically and in contemporary era, understanding the emergence of those states as responses to internal forces and external pressures such as imperialism, nationalism, Communism and Capitalism.

Dual Listed HIST 5510.

Former Course Number [4950]

Prerequisite: 9 hours of HIST.

HIST4515 - American Legal History

Credits: 3

An intensive course in the history of American law, the judicial system, the legal profession and legal administration from colonial times to the present.

Dual Listed HIST 5515.

Former Course Number [4710]

Prerequisite: 9 hours of HIST.

HIST4530 - 19th Century American West

Credits: 3

A study of the westward movement with emphasis on the trans-Mississippi West.

Dual Listed HIST 5530.

Former Course Number [4630]

Prerequisite: 9 hours of HIST.

HIST4535 - History of Oil

Credits: 3

Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

Dual Listed HIST 5535.

Prerequisite: 9 hours in history.

HIST4540 - 20th Century American West

Credits: 3

A study of the modern American West, with consideration of social, economic and political continuity and change.

Dual Listed HIST 5540.

Former Course Number [4640]

Prerequisite: 9 hours of HIST.

HIST4545 - The Multicultural West

Credits: 3

Explores the American West as a meeting ground of diverse peoples and their diverse cultures. Focuses on the sustained cross-cultural interchange between Native Americans, Euro-Americans, African Americans, Latin Americans, and Asian Americans from trans-Appalachia to the Pacific Coast from the eighteenth century to the present.

Prerequisite: 9 hours of HIST.

HIST4560 - American Social History in the 20th Century

Credits: 3

Explores history of social mobility and conflict in 20th century. Emphasizes impact of industrialization, rapid urbanization, massive immigration, ethnic minorities, race, religion, women and the family, painting and architecture.

Dual Listed HIST 5560.

Prerequisite: 9 hours of HIST.

HIST4582 - 20th Century U.S. Foreign Relations

Credits: 3

Studies Twentieth Century United States foreign relations with a focus on the Cold War period. Examines economic sources of policy decisions, elites and mass public opinion, as well as cultural, religious, ethnic, racial, and gender issues.

Cross Listed INST 4582.

Dual Listed HIST 5582.

Prerequisite: 9 hours of HIST or INST.

HIST4610 - Seminar Topics in the History of Wyoming I

Credits: 3

An intensive research and writing course dealing with topics in the period before statehood in 1890.

Prerequisite: 9 hours of HIST, including HIST 1251.

HIST4620 - Seminar Topics in the History of Wyoming II

Credits: 3

Allows students to do intensive research and writing dealing with topics in Wyoming history from 1890 to present.

Prerequisite: 9 hours of HIST, including HIST 1251.

HIST4965 - Senior Thesis

Credits: 3

Working closely with a faculty advisor, a history major will develop a research proposal that, after approval by the History department faculty, will lead to in-depth research and writing, producing a minimum 50-page thesis that demonstrates an excellent grasp of historical methods and a high degree of writing skill.

Prerequisite: 12 hours of HIST; senior class standing; HIST major.

HIST4990 - Topics in _____

Credits: 1-6

Max Credit (Max. 12)

Affords students opportunity to study in-depth various topics in history not offered in regular courses or independent study.

Former Course Number [4080]

Prerequisite: 9 hours of HIST.

Minor

History Minor

Only 18 credit hours of classes to learn professional skills vital to any career. Critical thinking, effective written and oral communication, and multi-perspective analysis highlight History's benefits in whatever profession you pursue.

Requirements

The history minor requires at least 18 credit hours of History courses, 9 hours of which must be Upper-Division (3000 and 4000 level) courses. These courses must be taken for letter grades with a minimum earned grade of C. For assistance in tailoring the minor content, contact the Department of History.

HIST1101 - FYS: Hamilton's America: Beyond the Musical

Credits: 3

Over the last few years, Hamilton: An American Musical has taken the world by storm. Taking the musical as a starting point, we will consider the real Alexander Hamilton's life and times; the relationship between history, memory, storytelling, and art; and the newfound love of an historical figure who was, in his own time, less than universally popular. This course fulfills the First-Year Seminar (FYS) requirement of the 2015 University Studies Program.

USP 2015 Code U5FY

HIST1110 - Western Civilization I

Credits: 3

Surveys basics of Western European civilization from decline of Roman Empire to 1700.

USP 2003-2014 Code U3CH

HIST1120 - Western Civilization II

Credits: 3

A broad survey of European history in the Western tradition from 1700 to present.

HIST1210 - United States History I

Credits: 3

Surveys U. S. history 1607-1865. Together with HIST 1220, it is the foundation on which all U. S. history courses offered by the department are based. Students cannot receive credit for both HIST 1210 and HIST 1211 .

USP 2003-2014 Code U3VT

HIST1211 - U.S. to 1865

Credits: 3

Surveys U.S. history through the Civil War which by itself meets the requirements of the Wyoming statutes providing for instruction in the provisions and principles of the constitutions of the United States and Wyoming. Students cannot receive credit for both HIST 1210 and 1211.

When Offered Normally offered fall semester

USP 2003-2014 Code U3V

USP 2015 Code U5V

HIST1220 - United States History II

Credits: 3

Surveys U.S. history from reconstruction to recent past. Together with HIST 1210, it is the foundation for all U. S. history courses offered by the department. Students cannot receive credit for both HIST 1220 and HIST 1221.

HIST1221 - U.S. From 1865

Credits: 3

Surveys U.S. history from the Civil War to the present and meets the requirements of the Wyoming statutes providing for instruction in the provisions and principles of the constitutions of the U. S. and of Wyoming. Students cannot receive credit for both HIST 1220 and 1221.

When Offered Normally offered spring semester
USP 2003-2014 Code U3V
USP 2015 Code U5V

HIST1250 - History of Wyoming

Credits: 3

A study of Wyoming from its beginning to the present. Students cannot receive credit for both HIST 1250 and HIST 1251.

USP 2003-2014 Code U3VT

HIST1251 - Wyoming History

Credits: 3

A survey which encourages an understanding of Wyoming history, how it relates to the history of the West and the rest of America and how it has influenced the present. An important component is to learn about the U.S. and the Wyoming constitutions and how these two documents have influenced Wyoming history. Students cannot receive credit for both HIST 1250 and 1251.

USP 2003-2014 Code U3V
USP 2015 Code U5V

HIST1290 - History of the U.S. West

Credits: 3

An introductory survey of the American West, with consideration of developments in both the 19th and 20th centuries.

HIST1320 - World History to 1500

Credits: 3

A history of the world's peoples and societies from human prehistory to 1500, with an emphasis on the diversity and interconnectedness of human life in the past.

USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

HIST1330 - World History since 1500

Credits: 3

A history of the world's peoples and societies from 1500 to the present, with an emphasis on the diversity and interconnectedness of human life in the past.

USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG

HIST2020 - American Military History

Credits: 3

Surveys military experiences of U.S. from colonial period to the present. In addition to specific wars, examines military doctrines and political, social and economic forces that shaped conduct of war in American history.

HIST2030 - History and Environmental Science

Credits: 3

This course is designed as an introduction to both the historical work of environmental historians and the scientific work of environmental scientists. No previous background in either history or science is required.

Cross Listed ENR 2030.

USP 2003-2014 Code [(none)< >H]

HIST2040 - Imperial China

Credits: 3

Surveys China's social, intellectual, political, cultural, technological and ethnohistory from earliest historical period through the last imperial dynasty, and China's role in greater E. Asian and world history. Provides background for other Asia-related courses and is part of year-long series; see HIST 2041.

USP 2003-2014 Code U3CS, U3G

HIST2041 - Modern China

Credits: 3

Surveys China's social, intellectual, political, cultural, and ethnohistory from mid-1800s to the present. Themes include colonialism, emergence of nation-state, Communist party, Mao's socio-political agenda, post-Mao reforms, and China's role in Asia. Background for other Asia-related courses and part of year-long series; see HIST 2040.

HIST2050 - Introduction to Public History

Credits: 3

Introduces the student to the non-teaching, professional uses of history. Topics for consideration include archival work, museum management, public information and publications, historic site development, oral history interviewing, preparation of government reports, historic preservation general concepts and historical programming.

HIST2060 - Topics in History

Credits: 2-3

Max Credit 6

Discusses special topics that fall outside traditional chronological and geographical framework of history; content varies from semester to semester in accordance with faculty interest and student demand.

HIST2080 - Holocaust

Credits: 3

Surveys the destruction of European Jewry, 1933-1945.

Cross Listed RELI 2080.

USP 2003-2014 Code U3CH

Former Course Number [4315]

HIST2105 - Medieval Europe in Film

Credits: 3

Historical depictions in films help to shape people's view of the past. Uses commercial films to study major themes in the development of western European civilization between 500 and 1500. Students view, discuss and write about films, learning to evaluate films historically and to view films critically, developing media literacy.

HIST2120 - Ancient Greece and the Near East

Credits: 3

Examines development of civilization in Eastern Mediterranean from prehistory to Alexander the Great.

HIST2130 - Ancient Rome

Credits: 3

Studies history of the growth of Roman power from city-state to world power.

HIST2225 - History of Christianity

Credits: 3

Traces Christianity from its beginnings to late 20th century.

Cross Listed RELI 2225.

USP 2015 Code U5H

HIST2230 - The History of Russia to 1855

Credits: 3

General survey of modern Russian history from earliest times to 1855.

HIST2240 - The History of Russia Since 1855

Credits: 3

General survey of modern Russian history from 1855 to the present.

HIST2250 - American Religious History I (To 1865)

Credits: 3

Traces the history of religion in America through the Civil War. We will pay particular attention to the intertwining of religion and colonialism; the tension between emerging Protestant hegemony and religious pluralism; and the roles religion has played in justifying oppression and pursuing liberty in American history.

Cross Listed RELI 2250.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H
A&S College Core 2015 ASD

HIST2252 - American Religious History II (1865 to 1945)

Credits: 3

Traces American religious history from the Civil War through WWII. Focuses on how race/ethnicity, class, gender, and national origin affected religion, and explores how Americans used religion in oppressing and liberating people; marking and erasing difference; and exporting values abroad as well as reforming society at home.

Cross Listed RELI 2252.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H
A&S College Core 2015 ASD

HIST2280 - Introduction to European Studies

Credits: 3

This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.

Cross Listed INST 2280.
USP 2015 Code U5C2

HIST2290 - History of North American Indians

Credits: 3

Studies American Indian history through 500 years and across the continent. Considers Indian political, social and economic continuity and change. Focuses on how Indian peoples experienced and responded to times of dramatic change.

Cross Listed NAIS 2290.
USP 2003-2014 Code U3CH, U3D
A&S College Core 2015 ASD

HIST2315 - History of Non-Western Religions

Credits: 3

Introduces students to religions outside the Judeo-Christian realm familiar in the west. Each religion analyzed in its world views, its ways of life, and in its social organization. History of each religion and its changes.

Cross Listed RELI 2315.
USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5H
A&S College Core 2015 ASG

HIST2320 - History of Islam

Credits: 3

Focuses on the origins of Islam and its early formation, its growth and spread across the world, and its intellectual, spiritual and historical character. Time will also be spent on the formation of Islam in the modern world and how that impacts the views and actions of its members.

USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG

HIST2360 - African-American History

Credits: 3

Surveys African-American history in America, particularly emphasizing issues of identity, class, and progress as well as exploring African-Americans' quest for full participation in American life.

Cross Listed AAST 2360.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5C2
A&S College Core 2015 ASD

HIST2370 - Chicano History: Origins to 1900

Credits: 3

General survey of the history of the Mexican American Chicano people in the United States. Examines the origins and development of Mexican Americans, Chicanos through the major historical processes which have shaped their experience. Major themes include multicultural, multiethnic context, origins; changing identity, comparative relations to other social, ethnic groups, culture, social structure, politics, economy, immigration, and the influence of United States-Mexico relations.

Cross Listed LTST 2370/GEOG 2370.
USP 2003-2014 Code U3CS, U3D
USP 2015 Code U5H
A&S College Core 2015 ASD

HIST2380 - Latin American History 1500 to 2000

Credits: 3

Provides introduction to Latin American history, from colonial contacts to the present. Explores important themes and connections across the colonial and modern periods, such as race, national identity, foreign involvement, indigenous peoples' role in nation-states, religion, social movements, economic systems, and globalization.

USP 2003-2014 Code U3G
USP 2015 Code U5H

HIST2385 - Chicano History : 1900 to Present

Credits: 3

General survey of the history of the Mexican American Chicano people in the United States. Examines the origins and development of Mexican Americans, Chicanos through the major historical processes which have shaped their experience. Major themes include multicultural, multiethnic context, origins; changing identity, comparative relations to other social, ethnic groups, culture, social structure, politics, economy, immigration, and the influence of United States-Mexico relations.

Cross Listed LTST 2385.

USP 2015 Code U5H

A&S College Core 2015 ASD

HIST2389 - History of Women in the American West

Credits: 3

Surveys the roots of society's marginal historical depiction of women in the American West from the colonial period through the twentieth century. From the perspective of race, class, ethnicity, and gender, the course focuses on the development of a multi-dimensional understanding of women's roles using an interdisciplinary approach.

Cross Listed GWST 2389.

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

HIST2390 - US West Between the World Wars

Credits: 3

Examines two pivotal decades (1918-1942) in the US West that encompasses prosperity, Depression, and reform, through the use of historical documents, art, film, literature, and music.

HIST2460 - Traditional Japan

Credits: 3

Surveys Japan's social, intellectual, political, cultural, technological and ethnohistory from earliest historical period to the 1800s. Topics include roles of China and Korea, the samurai warrior tradition, family structure, Buddhism and Shinto. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2461.

HIST2461 - Modern Japan

Credits: 3

Surveys Japan's social, intellectual, political, cultural, economic, technological and ethnohistory from the 1800s through the present. Topics include Japan's industrialization, Asian colonialism, post-WWII, and Japan as economic superpower. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2460.

A&S College Core 2015 ASG

HIST2470 - Civilization of India

Credits: 3-4
Max Credit 4

Surveys Indian civilization from earliest times, including cultural aspects.

HIST2500 - The Impact of the Union Pacific on Wyoming History

Credits: 3

Students experience and interpret the impact of the building of the Union Pacific Railroad on the history and culture of Wyoming through the lens of three disciplinary perspectives. Students explore how the railroad impacted Wyoming geography, economic development and the people of the state through personal research projects.

Cross Listed ECON 2500.

HIST2600 - Forgotten Africa: Intro to African Civilizations

Credits: 3

This survey course introduces students to African states and empires, dating from classical to modern times. The course challenges depictions of Africa as timeless and underdeveloped within contemporary narratives by highlighting the continent's vibrant cultures, sophisticated technologies, dynamic and complex political systems and participation in long-distance trade.

Cross Listed ANTH 2600.

USP 2015 Code U5H

HIST2700 - Introduction to Museology

Credits: 3

Introduces students to the various roles and responsibilities of museum professionals in the areas of leadership and management, collections, exhibits, education and engagement, and security. Practice-based assignments, readings, discussions, field trips, and meetings with museum professionals will provide students with a solid understanding of key aspects central to the working of all museums, regardless of the nature of the collection, and introduce students to available career paths in these institutions. Crosslisted between American Studies, Anthropology, Art and Art History and History.

Cross Listed ART 2700/AMST 2700/ANTH 2700.

USP 2003-2014 Code U3CH

HIST2705 - Museology II

Credits: 3

Introduces students to the history of museums, as well as major theoretical, legal and political challenges within museum studies. Students are encouraged to think beyond their specific disciplinary background to gain a greater appreciation for the lessons that can be learned from related disciplines and types of repositories, including larger ethical and cultural concerns that have been raised through the creation of modern museum standards. The combination of readings, discussion, and fieldtrips to a variety of museums/repositories will provide students a solid introduction to these themes. Cross listed between Anthropology, History, American Studies, and Art.

Cross Listed AMST 2705 / ANTH 2705 / ART 2705

HIST3000 - Plains Culture and History

Credits: 3

An ethnohistorical study of those Native peoples inhabiting the plains region of the U.S. from prehistory to the present.

Cross Listed NAIS 3000.

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

Prerequisite: 6 hours of HIST or NAIS.

HIST3020 - Historical Methods

Credits: 3

An introduction to the concepts, methods, and techniques used by historians. The main emphasis will be on methods of historical research and analysis, demonstrated through writing. Students will write a number of short papers building skills in various areas of research, analysis, and argumentation, and one longer paper reflecting individual research.

Total pages for the semester: 30-45.

USP 2003-2014 Code U3L, U3WB

Former Course Number [4020]

Prerequisite: junior standing, 12 hours of HIST, and COM1.

HIST3050 - Athenian Democracy

Credits: 3

Examines democratic government in ancient Athens: its origins and development, its practical workings, how politics were conducted and power was gained and exercised, citizen participation, law courts, and evaluations of democracy in the ancient world and since.

Cross Listed CLAS 3050/POLS 3050.

Prerequisite: WB or COM2.

HIST3110 - Modern Germany

Credits: 3

A cultural, social, and political history of German-Speaking Europe from 1789 to the present.

Prerequisite: 6 hours of HIST or INST.

HIST3160 - "What Killed Socrates?"

Credits: 3

This course will reexamine Socrates' trial in 399 BCE, widely regarded as a miscarriage of justice, in its total historic context, seeking to understand the reasons for Socrates' conviction. In the process, it will impart a broad understanding of the cultural, philosophical, political, and legal life of classical Athens.

Cross Listed CLAS 3160/PHIL 3160.

Prerequisite: WB or COM2.

HIST3220 - History of the Modern Middle East

Credits: 3

Surveys the Middle East from 1700 to the present. Emphasizes the demise of the Ottoman Empire, the rise of domination by European colonial powers, transformations in political, social, religious and cultural life, the rise of nationalist movements, the influence of oil, the growth of Islamist political groups and the Israeli-Palestinian conflict.

Cross Listed RELI 3220.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Prerequisite: 6 hours of HIST, RELI, or INST.

HIST3230 - Early Christianity

Credits: 3

Considers the development of the Christian religion from a small Jewish sect to its place as the official religion of the Roman Empire and beyond. It examines the development of creeds, doctrines and institutions, placing them within their historical context.

Prerequisite: RELI 1000 or RELI 2225/HIST 2225.

HIST3235 - Medieval Christianity

Credits: 3

Traces the development of 'Christendom' in Europe between about 500 - 1500 CE, concentrating on the Latin West. It examines the growth of Christian institutions and practices, the Church's role as sole governing entity, along with conflicts with secular governments as they developed in later centuries.

Cross Listed RELI 3235.

Prerequisite: RELI 2225/HIST 2225, HIST 1110, or RELI 1000.

HIST3240 - Reformation and Enlightenment Christianity

Credits: 3

The years between about 1500 and 1800 saw the permanent dismantling of Christianity in the West as a unified force, as Protestantism brought new ways of viewing the relationship between God and humanity. Once the fragmentation began, it accelerated rapidly as Enlightenment thinking challenged Christianity in new and complex ways.

Cross Listed Cross listed with: RELI 3240.

Prerequisite: RELI 1000, RELI 2225/HIST 2225.

HIST3275 - World Christianities

Credits: 3

Examines the development of Christianity primarily in Africa, Asia and South America.

Cross Listed RELI 3275

USP 2003-2014 Code U3CH, U3G

A&S College Core 2015 ASG

Prerequisite: WB and CH

HIST3300 - Secret History of Science

Credits: 3

Explores developments in science from prehistory to the present. It focuses on the lesser-known men and women who contributed to science, as well as on seemingly superstitious beliefs that were nonetheless important to advances in knowledge.

Restricted Restricted to junior standing or higher.

Prerequisite: 6 hours in HIST or 6 hours of PN coursework, or a combination of both.

HIST3400 - Mongol Empire

Credits: 3

Examines the history of the Mongol Empire from a world history perspective. Major themes: structure of a nomadic empire, how that empire interacted with the various settled states it conquered and ramifications of the Mongol conquest on trade, technology, and social and intellectual developments across Eurasia, between the years 1200 to 1450 CE.

Prerequisite: 6 hours of HIST.

HIST3500 - Colonial America

Credits: 3

This course covers the history of European colonization from roughly 1492 to 1763. Our geographic focus will be on the (future) United States, but will also learn how transatlantic forces influenced its people.

Prerequisite: 12 hours of HIST courses or permission of instructor.

HIST3670 - African Diaspora

Credits: 3

Examines process through which aspects of African culture have endured in Diaspora. Analyzes social relations

between Diaspora Africans and non-African populations in N. and S. America, the Caribbean, Britain, Asia, and the Mediterranean. Discusses cultural hybridization as a product of culture contact.

Cross Listed AAST 3670.

USP 2003-2014 Code U3CS, U3G

A&S College Core 2015 ASG

Prerequisite: AAST 1000, any AAST 2000-level course, or AAST 2360/HIST 2360.

HIST3880 - Comparative History

Credits: 3

Explores comparative history from a variety of topics, such as colonialism, memory, nationalisms, frontiers, or cultural history. This course will introduce students to at least one of these themes from at least two regions, time periods, or groups of people to understand patterns and change in human societies through time.

Prerequisite: 6 hours of HIST.

HIST3900 - Historical Archaeology

Credits: 3

This course introduces students to the field of historical archaeology, the archaeological and archival study of literate societies. Students will be introduced to the history of the discipline, a survey of contemporary historical archaeological practice.

Cross Listed ANTH 3900

Former Course Number [none < > none]

Prerequisite: ANTH 1300

HIST4000 - Indians of Wyoming

Credits: 3

Examines Native American culture in Wyoming from pre-history to the 21st century. Analyzes social, political, and economic developments of Native peoples of Wyoming before, during, and after contact with Europeans. Discusses interaction between these diverse societies and explores the changing relationships between Indians and Euro-Americans through the periods after contact.

Cross Listed NAIS 4000

Dual Listed HIST 5000

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST or NAIS.

HIST4020 - The Black West

Credits: 3

This course explores the historical experiences and contributions of people of African descent to the American West

from their earliest recorded presence in the 16th Century through the present.

Cross Listed AAST 4020.

USP 2003-2014 Code U3CH, U3D

Prerequisite: AAST 1000, any AAST 2000-level course, junior/senior standing, or three hours of any level of HIST course.

HIST4030 - Senior Capstone Seminar

Credits: 3

Max Credit (Max. 6)

For undergraduate departmental majors; presented in a small group, non-lecture setting. Under close instructor supervision, students write reviews and essays, present critiques and oral reports and lead discussion on materials read by class.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: advanced standing as a History major and HIST 3020.

HIST4055 - Archival Research Methods

Credits: 3

Students will master advanced research strategies with interdisciplinary applications. Focuses on primary research and the development of advanced skills in information literacy, critical analysis of sources, verification of evidence, techniques for researching underdocumented populations, and interpretation of historical evidence. Advanced writing and oral presentation skills are emphasized.

Dual Listed HIST 5055.

Prerequisite: 9 hours of HIST, including HIST 2050 or HIST 2700.

HIST4060 - Independent Study

Credits: 1-3

Max Credit 6

Credit not to exceed 6 hours maximum, to be arranged in either European or American history. Primarily for juniors and seniors who can profit from independent work with minimal supervision.

Prerequisite: 12 semester hours in history; written permission of instructor required.

HIST4077 - Book History: Topics

Credits: 3

Max Credit (Max. 6)

An in-depth, hands-on study of books within their historical contexts. The topic will vary each time and focus on a particular theme, time period, place, or culture. Taught at the Rare Books Library, American Heritage Center, using

original books or facsimiles. May be repeated once for credit.

Dual Listed HIST 5077.

Prerequisite: 9 hours of HIST.

HIST4100 - Early Medieval Europe

Credits: 3

Studies development of European civilization from decline of Rome to 12th century.

Dual Listed HIST 5100.

Prerequisite: 9 hours of HIST.

HIST4110 - The High Middle Ages

Credits: 3

Studies history of European civilization between the 12th and 15th centuries.

Dual Listed HIST 5110.

Prerequisite: 9 hours of HIST.

HIST4112 - History of the Medieval City

Credits: 3

After the fall of the Western Roman Empire, cities virtually disappeared from Western Europe. Around 1000 Europe began its rise to world prominence and cities contributed to that rise. Examines development of cities in medieval Europe and explores life within those cities.

Dual Listed HIST 5112.

Prerequisite: 9 hours of HIST.

HIST4113 - Medieval Religious Dissent

Credits: 3

Religious dissent in the Middle Ages included what some would call heresy, but also encompasses such marginal groups as Jews and witches. Examines development of orthodoxy and persecution of religious diversity between eleventh and 16th centuries within the historical context of the times.

Cross Listed RELI 4113.

Dual Listed HIST 5113.

Prerequisite: 9 hours of HIST or RELI.

HIST4120 - Europe During the Renaissance

Credits: 3

Intensely studies European history in 14th and 15th centuries.

Prerequisite: 9 hours of HIST.

HIST4130 - Europe During the Reformation

Credits: 3

Intensely studies European history in the 16th century.

Prerequisite: 9 hours of HIST.

HIST4140 - Europe During the Age of the Baroque

Credits: 3

Intensely studies European history in 17th century.

Prerequisite: 9 hours of HIST.

HIST4150 - Europe During the Age of the Enlightenment

Credits: 3

Intensely studies European history in 18th century.

Prerequisite: 9 hours of HIST.

HIST4170 - Europe in the Nineteenth Century

Credits: 3

An intensive study of European history from the beginning of the nineteenth century through to the origins of the First World War in 1914.

Dual Listed HIST 5170.

Prerequisite: HIST 1120.

HIST4174 - Judaism from Ezra to Jesus

Credits: 3

This course focuses on the religious and historical development of Judaism during the centuries between the end of the Old Testament and the New Testament, studying the arrival of Greek and then Roman culture and the changes Judaism underwent during that time that endure today.

Cross Listed RELI 4174.

Prerequisite: WB or COM2, and RELI 1000 or RELI 2110.

HIST4175 - Judaism at the Dawn of Christianity

Credits: 3

Judaism is the only Mediterranean religion that was practiced in the ancient world as well as in Late Antiquity and beyond. This course helps students analyze how Judaism was able to change and adapt at key moments to provide its adherents with an active, living religion that addressed their needs.

Cross Listed RELI 4175.

Prerequisite: RELI 1000 or RELI 2110, and junior standing.

HIST4180 - Europe in the 20th Century

Credits: 3

An intensive study of European history from 1914 through 2000.

Dual Listed HIST 5180.

Prerequisite: 9 hours of HIST.

HIST4270 - France: Old Regime and Revolution

Credits: 3

The social, political and cultural history of early modern France (1598-1789), from the rise of the Absolutist state under Louis XIV to the outbreak of the Revolution. Explores the cultural and intellectual shifts from court culture at Versailles, to the Enlightenment, to the rise of revolutionary ideologies.

Dual Listed HIST 5270.

Prerequisite: 9 hours of HIST.

HIST4290 - History of the Soviet Union

Credits: 3

Depicts Russia under Communism, including particularly the development of totalitarian dictatorship in its political, economic, social and cultural manifestations.

Dual Listed HIST 5290.

Prerequisite: 9 hours of HIST.

HIST4305 - Global History

Credits: 3

Thematically focused examinations of interactions or parallel phenomena in multiple world regions. Courses may be comparative (comparing two empires, or multiple revolutions), or may examine the growth of a particular trend globally (e.g. abolition of slavery), or the interaction of many states (e.g. the Cold War).

Dual Listed HIST 5305.

USP 2003-2014 Code U3G

Prerequisite: 9 hours of HIST, INST, or POLS.

HIST4310 - World War II in Europe

Credits: 3

Covers the origins, course and consequences of one of this century's defining global developments. World War II in Europe was a transnational development which shaped the world as it is known today.

Dual Listed HIST 5310.

Prerequisite: 9 hours of HIST.

HIST4315 - History, Politics and Memory of the Holocaust in Europe

Credits: 3

Offers students the opportunity to learn about the history of the Holocaust through travel to various sites in Central Europe where the events themselves occurred, such as Berlin, Warsaw, Krakow and Auschwitz-Birkenau.

Cross Listed INST 4315.

Dual Listed HIST 5315.

Prerequisite: 9 hours of HIST or INST.

HIST4320 - Memory and National Identity in Twentieth Century Europe

Credits: 3

Europe in the twentieth century saw a century of unprecedented violence. Examines the public representation of such historical trauma through the concept of "collective memory" and focuses in particular on how memory has become a contested part of defining identity in modern-day Europe.

Dual Listed HIST 5320.

Prerequisite: 9 hours of HIST.

HIST4340 - The Social History of American Women

Credits: 3

Explores everyday life experiences of American women from the 17th century to the present. Focuses on the complex influence of gender, race and class in shaping those experiences; also, analyzes the ways in which women's dissatisfaction with their position in society formed the basis for the development of American feminism and led to the formation of an organized women's movement.

Dual Listed HIST 5340.

USP 2015 Code U5H

Former Course Number [4840]

Prerequisite: 9 hours of HIST or GWST.

HIST4380 - International History of Human Rights

Credits: 3

Examine the modern history of human rights in the global system, with particular emphasis on developments since the Second World War. Topics include the philosophy of human rights ideas; the histories of rights and rights violations in various regions; and the resulting international responses.

Cross Listed INST 4380.

Dual Listed HIST 5380.

Prerequisite: 9 hours of HIST or INST.

HIST4400 - Internship

Credits: 1-12

Max Credit (Max. 12)

The internship allows students to gain hands-on experience that will help to bridge the gap between history as an academic discipline and history as practiced in museums, public history agencies and historic sites. Specific arrangements must be made in advance to identify the academic component of the internship and the grading criteria. Such planning will be done in consultation with the department's internship director.

Prerequisite: 9 hours of HIST.

HIST4405 - American Encounters to 1850

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African and Asian people from pre-contact through the mid-19th century.

Dual Listed HIST 5405.

USP 2003-2014 Code U3D

USP 2015 Code U5H

Prerequisite: 9 hours of HIST.

HIST4406 - American Encounters from 1850

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African, and Asian people from the mid-19th century to the present.

Dual Listed HIST 5406

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST.

HIST4410 - America in an Early Modern World

Credits: 3

Explores the American colonial experience as part of a worldwide process of colonial encounters with indigenous peoples between 1400 and 1800. Compares the experiences of early modern colonization in North and South America, Asia, and the Pacific and examines the nature of the colonial societies created by these cross-cultural relationships.

Dual Listed HIST 5410.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: 9 hours of HIST.

HIST4412 - Global Environment History

Credits: 3

This course is designed to introduce undergraduate and graduate students to the new field of global environmental history. The Global Environmental History course will provide a new way of looking at humans, animals, and the lives they've built in the environment and the costs of their decisions to the environment.

Cross Listed ENR 4412.

Dual Listed HIST 5412.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or ENR.

HIST4415 - Entangled Worlds, Entangled Lives: Indigenous People and Colonizers Before 1850

Credits: 3

The experiences of indigenous people and colonizers in Africa, Eurasia, the Americas, and the Pacific as they forged new colonial societies in the first global age (1400-1850). Emphasis throughout the course will be on the often-overlooked role of indigenous people in creating colonial societies.

Dual Listed HIST 5415.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

Prerequisite: 9 hours of HIST.

HIST4425 - Britain's Global Empires: 1558 to the Present

Credits: 3

Britain's four distinctive empires from Elizabeth I through the present. Emphasis throughout the course will be on the creation and operation of these distinctive but related empires with a special focus on the impact empires had on both colonized people and the people of Britain.

Dual Listed HIST 5425.

A&S College Core 2015 ASG

Prerequisite: 9 hours of HIST.

HIST4450 - The Civil War and Reconstruction

Credits: 3

Studies crisis of the Union, 1861-1877. Examines experiences of both the North and South during the Civil War and restoration of the Union after the war.

Dual Listed HIST 5450.

Prerequisite: 9 hours of HIST.

HIST4460 - Post-Civil War America: The Gilded Age

Credits: 3

Intensively covers economic, cultural and political developments which marked the U.S. in post-Civil War era, such as rise of industry, emergence of distinctive national culture and party struggles shaping America's Gilded Age.

Dual Listed HIST 5460.

Prerequisite: 9 hours of HIST.

HIST4462 - American Indian History to 1783

Credits: 3

Surveys the history of American Indians from the period before contact to the end of the American Revolution. Examines the various contacts between American Indians and Europeans and considers what the American Revolution meant to the continent's Native peoples.

Cross Listed NAIS 4462.

Dual Listed HIST 5462.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or NAIS.

HIST4463 - American Indian History 1783 to 1890

Credits: 3

Surveys the history of American Indians during the era of westward expansion. Examines the impact of American westward movement and also the manifold changes that accompanied moving west.

Cross Listed NAIS 4463.

Dual Listed HIST 5463.

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST or NAIS.

HIST4464 - American Indians in the Twentieth Century

Credits: 3

Surveys the history of American Indians during the twentieth century. Examines the development of new cultural, social and political forms that help create an American Indian identity.

Cross Listed NAIS 4464.
Dual Listed HIST 5464.
USP 2003-2014 Code U3D
Prerequisite: 9 hours of HIST or NAIS.

HIST4466 - American Indian Ethnohistory

Credits: 3

Surveys ethnohistorical methods and concepts and provides students concrete opportunities to use these methodologies in writing exercises. American Indian ethnohistory explores Native American experiences within their own cultural contexts.

Cross Listed NAIS 4466.
USP 2003-2014 Code U3D
Prerequisite: 9 hours of HIST, NAIS, or ANTH.

HIST4468 - American Indians in the North American West

Credits: 3

One of the defining features of the North American West is the presence of American Indians. Through the discussion of varied readings and primary document research, the history of American Indians in the West is examined, with particular emphasis on the Great Plains and California.

Cross Listed NAIS 4468.
USP 2003-2014 Code U3D
Prerequisite: 9 hours of HIST or NAIS.

HIST4470 - The Birth of Modern America, 1890 to 1929

Credits: 3

Studies political and diplomatic developments in the U. S. in the wake of industrialization and massive immigration. Some attention to cultural and social themes. Emphasizes shifting nature of reform between depression of the 1890s and that of the 1930s.

Dual Listed HIST 5470.
Prerequisite: 9 hours of HIST.

HIST4475 - American Environmental History

Credits: 3

Explores history of American attitudes and actions toward the land and natural resources.

Dual Listed HIST 5475.
Former Course Number [4670]

Prerequisite: 9 hours of HIST.

HIST4480 - Growth of Modern America, 1929 to 1960

Credits: 3

Studies political and diplomatic developments in the U.S. in Depression, World War II and early Cold War periods. Some attention to cultural and social themes. Emphasizes economic crisis, growth of government, reform traditions, anti-communism and civil rights.

Dual Listed HIST 5480.

Prerequisite: 9 hours of HIST.

HIST4485 - U.S. Latino Diaspora

Credits: 3

Combines classroom activities and a week-long stay abroad in examining the historical creation and contemporary spread of the Latino Diaspora from the Caribbean to the Yucatan and beyond. U.S. Latina/o history, multiculturalism, pan-Latino identity, assimilation, migration trends and natives' responses are stressed.

Cross Listed LTST 4485/INST 4485.

Prerequisite: 9 hours of LTST, HIST, and/or INST related coursework.

HIST4490 - Modern America, 1960 to Present

Credits: 3

Studies political and diplomatic aspects of the U.S. since 1960. Emphasizes impact of Cold War, social and political tensions at home, civil rights and government policies.

Dual Listed HIST 5490.

Prerequisite: 9 hours of HIST.

HIST4492 - Revolutions in Latin America

Credits: 3

Explores the meaning and impact of revolution in Latin America's modern history, focusing on political ideology, cultural expression, foreign relations, human rights, and globalization. Offers in-depth analysis of revolutions from the early nineteenth century to the present.

Cross Listed LTST 4492.

Dual Listed HIST 5492.

USP 2003-2014 Code U3CS, U3G

A&S College Core 2015 ASG

Prerequisite: 9 hours of HIST or INST.

HIST4494 - The U.S. in Latin America

Credits: 3

This course explores Latin America's experiences with the United States during the twentieth century. The class addresses U.S.-Latin American relations from a variety of angles, covering topics from military intervention and

government policies, to informal imperialism and cultural exchanges through film and literature.

Dual Listed HIST 5494.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or INST.

HIST4495 - Borderlands in Latin America

Credits: 3

Examines borderlands and frontiers in Latin American history, focusing on the U.S.-Mexico border region, the Southern Cone, and the Caribbean. Key issues include cultural contact zones, colonialism, military expansion and conflict, and nation-building.

Dual Listed HIST 5495.

Former Course Number [4720]

Prerequisite: 9 hours of HIST or INST.

HIST4496 - History of Mexico

Credits: 3

Intensive course in Mexican development. Emphasizes the 20th century especially the Mexican Revolution of 1910, showing how this nation transformed itself into a modern nation-state. Includes diplomatic relations with the U.S., incorporation of Indians, church-state relations, uses of land and other natural resources, role of the military and growth of Mexican nationalism.

Cross Listed LTST 4496.

Dual Listed HIST 5496.

Former Course Number [4800]

Prerequisite: 9 hours of HIST or INST.

HIST4505 - The Old South, 1820 to 1861

Credits: 3

Studies history of the South from emergence of southern identity to the Civil War. Emphasizes southern society and culture.

Dual Listed HIST 5505.

Former Course Number [4500]

Prerequisite: 9 hours of HIST.

HIST4510 - Modern East Asia

Credits: 3

Focuses on the emergence of the modern East Asian states China, Japan, Korea, and Vietnam as individual states and members of this important region historically and in contemporary era, understanding the emergence of those states as responses to internal forces and external pressures such as imperialism, nationalism, Communism and Capitalism.

Dual Listed HIST 5510.

Former Course Number [4950]

Prerequisite: 9 hours of HIST.

HIST4515 - American Legal History

Credits: 3

An intensive course in the history of American law, the judicial system, the legal profession and legal administration from colonial times to the present.

Dual Listed HIST 5515.

Former Course Number [4710]

Prerequisite: 9 hours of HIST.

HIST4530 - 19th Century American West

Credits: 3

A study of the westward movement with emphasis on the trans-Mississippi West.

Dual Listed HIST 5530.

Former Course Number [4630]

Prerequisite: 9 hours of HIST.

HIST4535 - History of Oil

Credits: 3

Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

Dual Listed HIST 5535.

Prerequisite: 9 hours in history.

HIST4540 - 20th Century American West

Credits: 3

A study of the modern American West, with consideration of social, economic and political continuity and change.

Dual Listed HIST 5540.

Former Course Number [4640]

Prerequisite: 9 hours of HIST.

HIST4545 - The Multicultural West

Credits: 3

Explores the American West as a meeting ground of diverse peoples and their diverse cultures. Focuses on the sustained cross-cultural interchange between Native Americans, Euro-Americans, African Americans, Latin Americans, and Asian Americans from trans-Appalachia to the Pacific Coast from the eighteenth century to the present.

Prerequisite: 9 hours of HIST.

HIST4560 - American Social History in the 20th Century

Credits: 3

Explores history of social mobility and conflict in 20th century. Emphasizes impact of industrialization, rapid urbanization, massive immigration, ethnic minorities, race, religion, women and the family, painting and architecture.

Dual Listed HIST 5560.

Prerequisite: 9 hours of HIST.

HIST4582 - 20th Century U.S. Foreign Relations

Credits: 3

Studies Twentieth Century United States foreign relations with a focus on the Cold War period. Examines economic sources of policy decisions, elites and mass public opinion, as well as cultural, religious, ethnic, racial, and gender issues.

Cross Listed INST 4582.

Dual Listed HIST 5582.

Prerequisite: 9 hours of HIST or INST.

HIST4610 - Seminar Topics in the History of Wyoming I

Credits: 3

An intensive research and writing course dealing with topics in the period before statehood in 1890.

Prerequisite: 9 hours of HIST, including HIST 1251.

HIST4620 - Seminar Topics in the History of Wyoming II

Credits: 3

Allows students to do intensive research and writing dealing with topics in Wyoming history from 1890 to present.

Prerequisite: 9 hours of HIST, including HIST 1251.

HIST4965 - Senior Thesis

Credits: 3

Working closely with a faculty advisor, a history major will develop a research proposal that, after approval by the History department faculty, will lead to in-depth research and writing, producing a minimum 50-page thesis that demonstrates an excellent grasp of historical methods and a high degree of writing skill.

Prerequisite: 12 hours of HIST; senior class standing; HIST major.

HIST4990 - Topics in _____

Credits: 1-6

Max Credit (Max. 12)

Affords students opportunity to study in-depth various topics in history not offered in regular courses or independent study.

Former Course Number [4080]

Prerequisite: 9 hours of HIST.

Graduate

History, M.A.

Wyoming's M.A. in history will open both professional and academic pathways. A student may pursue this degree as the final step in their educational journey or go on to pursue a doctoral degree and, eventually, a teaching or research position.

Program Specific Admission Requirements

General Regulations

The M.A. in History requires 18 hours of undergraduate history courses as minimum preparation for admission. The rules under which the student enters remain those governing the program for the duration of the student's continued enrollment. In accordance with university graduate regulations, students are responsible for meeting all deadlines and for fulfilling all requirements for the degree.

Application and Admissions

To be eligible for financial support in the form of a Graduate Assistantship, the Department of History must receive all materials by March 1. All other application materials must be received by the Department of History no later than May

1. The application process is now completely online. In addition to the application, applicants must upload the following documents via the UW Admissions website (www.uwyo.edu/admissions):

1. Three letters of recommendation that assess the student's academic and research abilities.
2. Transcripts from all undergraduate institutions and graduate programs.
3. A writing sample of 10-20 pages, typically either a portion of a senior thesis or an upper-level seminar paper.
4. A statement of purpose of 250-500 words, explaining the applicant's preparation, interests, and plans. Please indicate if you would like to be considered for a graduate assistantship.

Program Specific Graduate Assistantships

When applicants submit their materials to the program in History, they should indicate their wish to be considered for a Graduate Assistantship. Anyone receiving financial support must be registered as a full-time (9 hours per semester) student and must be making acceptable progress towards degree completion. Renewal of Graduate Assistantships is contingent on such progress. Support is not given for more than two academic years.

Requirements

Program Specific Degree Requirements for the History Master's Program are as follows:

Required Courses

Candidates for the Master of Arts degree are expected to complete the program in 2 years. Graduate Students are required to complete a minimum of 31 credit hours of graduate (5000) level courses. Students must complete 27 hours of coursework, of which at least 24 hours must be in History. Students will work with their advisor to plan the course of study that will include:

(3 credit hours) HIST5880 - History Theory

(12 credit hours) 5000-level, non-dual-listed courses in HIST (excluding HIST 5880)

(12 credit hours) Additional graduate-level course work, of which at least 9 credit hours must be in HIST courses.

(4 credit hours) HIST5960 - Thesis Research

Foreign Language

Students must demonstrate a reading knowledge of a foreign language appropriate to their research. In special cases, other relevant historical tools may substitute for the language requirement upon approval of the thesis adviser and the Graduate Coordinator. Generally, either of the following options may meet the language requirement:

- Passing a language exam administered by the Department of History. This must be completed by the end of the first year with the appropriate faculty.
- Completing the equivalent of the fourth semester of a language as offered at the University of Wyoming. All courses must be passed with a grade of C or better (may be taken pass/fail).

Thesis

- Graduate students will identify two "fields" of study, in consultation with their main advisor: one time/place field (such as Modern U.S. History), and one thematic field (such as Environmental History), both of which correspond to the student's thesis research.

- In the spring semester of the first year the student will publicly defend his/her thesis proposal, which must include a written research prospectus and bibliography.
- At the end of the second year the student will successfully defend the thesis before an approved Graduate Committee.

Department of Languages - Modern and Classical

Assistant Professors:

CHELSEA ESCALANTE, B.A. Stanford University 2005; M.A. University of Arizona 2009; Ph.D. University of California, Davis 2018; Assistant Professor of Spanish 2018.

SONIA RODRIGUEZ HICKS, Ph.D. University of New Mexico 2017. Assistant Professor of Spanish 2020.

Senior Academic Professional Lecturers:

LAURA DE LOZIER, B.A. Beloit College 1990; M.A. University of Wisconsin 1992; Ph.D. 2002; Senior Academic Professional Lecturer in Classics, Greek, and Latin 2014, 2003.

MARK W. PERSON, B.A. University of Wyoming 1983; M.A. 1986; Senior Academic Professional Lecturer in German 2017, 2008.

BÉNÉDICTE SOHIER, B.A. Stephen F. Austin State University 2006; M.A. Indiana University Bloomington 2008; Associate Academic Professional Lecturer in French 2015, 2009.

YAN ZHANG, B.A. Harbin Institute of Technology 2000; M.A. Heilongjiang Provincial Academy of Social Sciences 2002; Senior Academic Professional Lecturer in Chinese 2016, 2006.

Associate Academic Professionals Temporary Lecturers:

Noah Miles, Adriana Noya-Salgueiro

Professors Emeriti:

M. Ian Adams, Lewis Bagby, Lowell A. Bangerter, Klaus D. Hanson, Francis S. Heck, Philip G. Holt, Joseph Krafczik, Hannelore Mundt, Jean-Louis G. Picherit, Duane Rhoades, Pavel Sigalov

The Modern and Classical Languages department offers work leading to the B.A. degree with majors and minors in French, German, and Spanish. A minor is offered in Classical Civilizations, Chinese, Latin and Japanese. The M.A. is available in Spanish. Courses are also offered in literature, linguistics and translation.

Foreign Language Requirements

All candidates for the B.A. and B.S. degree in the College of Arts and Sciences who matriculated before Fall 2015 are required to complete the equivalent of 8 semester hours of work in a single modern or classical language. Students with prior exposure to the language may be granted college credit after taking an online examination administered by the department; students must take this examination before completing registration for a language course (for regulations governing credit by examination, refer to Credit Available to Undergraduate Students in this *Catalog*). An advanced placement, AP, examination in the language with a score of 4 or higher satisfies the language requirement in most languages, as do CLEP and IB scores (see section on Credit by Examination on the department website).

Students who have had a foreign language in high school should take the online examination to determine the course in which they should enroll and to avail themselves of the opportunity to receive credit by examination. Students who have completed their language requirement can enroll for additional language courses of their choice, something strongly advised for those who wish to reach adequate levels of proficiency in the language or wish to study abroad. Check the Catalog or website for special sections targeted for students with varied experiences in the language.

Undergraduate Major

A language major usually requires 30-31 semester hours of work in a single language beyond 2030. To include a language option in the humanities/fine arts interdisciplinary program, students must complete at least 12 hours above the 2030 level.

Students completing an undergraduate major in our department will meet the following learning goals:

1. attain proficiency in another language in all four of the basic skills (speaking, listening, reading, and writing);
2. gain understanding of other cultures; and

3. develop skills in research critical thinking, analysis, and writing on subjects appropriate to the field of study. Students will meet the following learning outcomes to:

1. demonstrate proficiency in conversation;
2. demonstrate reading comprehension of texts written in the language;
3. produce grammatical, idiomatic compositions in the target language;
4. gain essential knowledge about the history, traditions, customs, and ways of thinking of at least one other culture;
5. demonstrate understanding of works of literature read in the original language; and
6. produce well-reasoned and clearly articulate research papers on subjects appropriate to their field.

Minor

In general, students desiring to complete a minor in a foreign language will be required to complete a program of 18 semester hours above 2030.

Teaching Certification

For those wishing to pursue teaching certification, contact the Department of Secondary Education.

Native Language Credit

Students are not allowed university credit for language courses in their native language below the 4000 level, but may receive credit for literature courses below that level.

Study Abroad

There are many opportunities for students to study abroad and students are encouraged to do so.

Graduate Study

The Department of Modern and Classical Languages offers programs leading to the master of arts degree in Spanish. Contact the department for further details or check the department website.

Program Specific Admission Requirements

Admission to the graduate program in a specific language is open to students who have completed an undergraduate major, or the equivalent, in the same subject and who meet the minimum requirements set forth in this *Catalog*.

Students entering the graduate program from other institutions may be required to make up deficiencies in areas covered by required courses in this department's undergraduate programs.

Major

French, B.A.

The main goal of French courses will be to emphasize "the development of communication skills in French through the four language skills: listening, speaking, reading, and writing". Each course introduces students to French and Francophone cultures.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Prerequisites - 12 Credits

FREN1010 - First Year French I

Credits: 4
Fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H

FREN1020 - First Year French II

Credits: 4
Fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H

Prerequisite: FREN 1010 or two years of high school French.

FREN2030 - Second Year French I

Credits: 4

Emphasizes the development of communication skills (listening, speaking, reading and writing) so as to help students function effectively in real-life contexts. Provides a systematic review of grammatical structures necessary for successfully communicating in French.

USP 2015 Code U5H

Prerequisite: FREN 1020 or three years of high school French.

A language major requires 30 hours of credit in a single language above 2030

Required Courses

FREN2040 - Second Year French II

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2015 Code U5H

Prerequisite: FREN 2030, three years of high school French or FREN 1010, FREN 1020 with grade of B or better.

FREN2130 - Contemporary French Culture

Credits: 3

Designed as an introduction to contemporary French culture. It gives students an in-depth insight into contemporary French life. It also deals with issues affecting the French-speaking world in general: Quebec, Africa, New Caledonia, Switzerland, Monaco, etc.

USP 2015 Code U5H

Prerequisite: FREN 1020 or equivalent.

OR

FREN3110 - Contemporary French Civilization

Credits: 3

Emphasizes the institution and values of contemporary France. Deals with the major political, social, cultural and economic aspects of today's France. Will be taught in French.

Prerequisite: FREN 3050.

FREN2140 - Introduction to Reading

Credits: 3

Introduction to the literature of France; analysis of major literary types and elements of criticism.

USP 2003-2014 Code U3CH, U3G

Prerequisite: FREN 2030.

FREN3005 - French Phonetics and Pronunciation

Credits: 3

Focus on the phonetic structures of French through systematic pronunciation drills and phonetic transcriptions. Varied oral activities and exercises will help develop an awareness of spoken French and improve students' pronunciation.

Prerequisite: FREN 2040 or equivalent.

FREN3050 - Third Year French I

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: FREN 2040.

FREN3060 - Third Year French II

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

Prerequisite: FREN 3050.

FREN4100 - A Survey of French Literature I

Credits: 3

A study of French Literature and civilization from the Middle Ages through the 18th century.

Prerequisite: FREN 2140 or equivalent.

FREN4110 - A Survey of French Literature II

Credits: 3

A study of French Literature and civilization from the 19th century to the present.

Prerequisite: FREN 2140 or equivalent.

- Plus 6 hours of electives in French at the 4000-level (See Electives list in Minor Requirements)

Minor Program Requirements - 18 Credit Hours

Required Minor Classes

FREN2040 - Second Year French II

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2015 Code U5H

Prerequisite: FREN 2030, three years of high school French or FREN 1010, FREN 1020 with grade of B or better.

FREN2140 - Introduction to Reading

Credits: 3

Introduction to the literature of France; analysis of major literary types and elements of criticism.

USP 2003-2014 Code U3CH, U3G

Prerequisite: FREN 2030.

FREN3050 - Third Year French I

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: FREN 2040.

- Electives - 9 hours of French Courses at the 3000 course level or 4000 course level (Choose from Elective list below)

FREN3005 - French Phonetics and Pronunciation

Credits: 3

Focus on the phonetic structures of French through systematic pronunciation drills and phonetic transcriptions. Varied oral activities and exercises will help develop an awareness of spoken French and improve students' pronunciation.

Prerequisite: FREN 2040 or equivalent.

FREN3060 - Third Year French II

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

Prerequisite: FREN 3050.

FREN3110 - Contemporary French Civilization

Credits: 3

Emphasizes the institution and values of contemporary France. Deals with the major political, social, cultural and economic aspects of today's France. Will be taught in French.

Prerequisite: FREN 3050.

FREN3990 - Independent Study

Credits: 1-4

Books or periodicals of special interest to the student, selected in consultation with a member of the staff; independent reading and reports.

Prerequisite: FREN 2030.

FREN4080 - Studies in the French Language

Credits: 3

Max Credit (Max. 9)

The topics explored under this general heading include: translation, history of the French language, French of the media and conversation.

Dual Listed FREN 5080.

Prerequisite: FREN 3060.

FREN4100 - A Survey of French Literature I

Credits: 3

A study of French Literature and civilization from the Middle Ages through the 18th century.

Prerequisite: FREN 2140 or equivalent.

FREN4110 - A Survey of French Literature II

Credits: 3

A study of French Literature and civilization from the 19th century to the present.

Prerequisite: FREN 2140 or equivalent.

FREN4120 - Medieval French Literature

Credits: 3

A survey of medieval French literature: epic, courtly poetry, Arthurian romance, theatre and the poetry of Villon.

Dual Listed FREN 5120.

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4140 - 17th Century French Literature

Credits: 3

A survey of representative works from the major literary genres from the formative period to classicism and its aftermath.

Dual Listed FREN 5140.

USP 2003-2014 Code U3WC

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4200 - Introduction to Research

Credits: 3

Senior seminar on a topic varying from year to year.

USP 2015 Code U5C3

Prerequisite: COM2 (FREN 3050), Survey I and II courses (FREN 4100 and FREN 4110).

FREN4250 - 19th Century French Literature

Credits: 3

Development of romanticism from Rousseau on with excerpts from Chateaubriand and romantic poets like Hugo and Vigny. The period of realism-naturalism focuses on novels of Flaubert and Zola, while the symbolist school of poetry is represented by Baudelaire, Verlaine and Rimbaud.

Dual Listed FREN 5250.

Former Course Number [4150]

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4260 - 20th Century French Literature

Credits: 3

The era since 1900 is divided into four parts: pre-World War I, between the wars, post-World War II and the New Wave. These periods are represented by authors including Valery, Proust, Malraux, Saint-Exupery, Camus, Sartre and others.

Dual Listed FREN 5260.

Former Course Number [4160]

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4350 - Studies in French and Francophone Literatures

Credits: 3

An intensive study of a topic, period or author (pertaining to French or Francophone literature), to be selected according to interest and currency).

Dual Listed FREN 5350.

Prerequisite: FREN 3060; FREN 4100 and FREN 4110 strongly recommended.

FREN4990 - Advanced Independent Study

Credits: 1-3

Special projects designed to meet the needs of individual students, designed in consultation with instructor.

Prerequisite: FREN 3050 and consent of instructor.

German, B.A.

As a German Major, you will develop your speaking, listening, and communication skills as a German speaker. You will gain a better understanding of perspectives and experiences of German speaking cultures.

University Studies Program Requirements

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Required Courses - 9 credits

A language major requires 30 hours of credit in a single language above 2030.

GERM2040 - Second Year German II

Credits: 3

Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2015 Code U5H

Prerequisite: GERM 2030 or three years of high school German.

GERM3050 - Third Year German I

Credits: 3

Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

A&S College Core 2015 ASG

Prerequisite: GERM 2040.

GERM3060 - Introduction to German Literature

Credits: 3

Introduces literature of Germany. Analyzes major literary types and elements of criticism. Emphasizes compositions and corrective practice, stylistic analysis of representative texts and group discussion on prepared topics.

Prerequisite: GERM 3050.

Electives - 21 credits

All electives must be above GERM 2030. At least three courses should be at the 4000-level.

GERM3006 - 20th Century German Culture and Civilization

Credits: 3

Major political, ideological and cultural developments in Germany between 1871 and the present. An interdisciplinary approach (history, art history, film and literature) allows students to explore and assess a nation's culture and civilization as well as far-reaching events (WWI, WWII and the Holocaust) from various perspectives.

USP 2003-2014 Code U3CH, U3WC

Prerequisite: junior standing.

GERM3150 - German History and Culture

Credits: 3

Taught in English, this class engages students both theoretically and practically with German history and culture throughout the ages from the Middle Ages to today. Reading content is complemented with outings to culturally and historically significant sites in Germany as part of a summer study abroad program.

USP 2003-2014 Code U3CH, U3G

A&S College Core 2015 ASG

Prerequisite: WA or equivalent.

GERM3990 - Independent Study

Credits: 1-4

Focuses on books or periodicals of special interest to the student selected in consultation with a staff member; independent reading and reports.

Prerequisite: GERM 2030.

GERM4070 - Fourth Year German

Credits: 3

Emphasizes weekly compositions and corrective practice, stylistic analysis of representative texts and group discussion on prepared topics.

Dual Listed GERM 5070.

When Offered (Offered every other year)

Prerequisite: GERM 3060.

GERM4080 - German-English and English- German Translation

Credits: 3

Encompasses written translation exercises based on contemporary and relevant texts in both English and German. Addresses specific translation problems arising in both English and German, when translating into the other language.

When Offered (Offered fall semester)

USP 2003-2014 Code U3WB

Prerequisite: GERM 3050 and/or GERM 3060.

GERM4100 - A Survey of German Literature I

Credits: 3

Studies German literature and civilization from the Middle Ages to the 17th century.

Dual Listed GERM 5100.

Prerequisite: GERM 2140 or equivalent.

GERM4110 - A Survey of German Literature II

Credits: 3

Studies German literature and civilization from the 18th century to the end of the 20th century.

Dual Listed GERM 5110.

Prerequisite: GERM 2140 or equivalent.

GERM4145 - Weimar Classicism

Credits: 3

Introduces student to Weimar Classicism, one of the crucial periods in German literature and culture. Explores the foundation of the movement, its cultural and historical contexts, aesthetic and philosophical principles, and significant works during this period. Primary language for instruction for this course is German.

Dual Listed GERM 5145.

Prerequisite: GERM 2140 or equivalent.

GERM4180 - German Poetry

Credits: 3

Surveys poetry from the Middle Ages to the present. Emphasizes poetry after 1600. Treats formal elements and genre categories.

Dual Listed GERM 5180.

Prerequisite: GERM 2140.

GERM4200 - Introduction to Research

Credits: 3

Max Credit 9

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2015 Code U5C3

Prerequisite: 12 hours of 4000-5000-level courses.

GERM4240 - German Literature of the Romantic Period

Credits: 3

Introduces the philosophical bases of German Romanticism and analyzes representative works of prose and poetry.

Dual Listed GERM 5240.

Prerequisite: GERM 2140 or equivalent.

GERM4255 - 19th Century German Novellas

Credits: 3

Studies a wide selection of significant German novellas from the period when this genre flourished in the German-speaking world, with a popularity unparalleled in the rest of Europe. Examines the form's origins, evolution, reception, and theory.

Dual Listed GERM 5255.

Prerequisite: GERM 2140 or equivalent.

GERM4275 - Contemporary Migration Literature

Credits: 3

Introduces students to a range of recent cultural production by artists identified with immigrant communities or communities of color. Topics examined include intersections of gender, race, nation, culture, and class; experiences of different minorities; question of national and transnational identity, self-representation, immigration, multiculturalism and integration debates. Course is taught in German.

Dual Listed GERM 5275.

Prerequisite: GERM 2140 or equivalent.

GERM4285 - 20th/21st Century German Film

Credits: 3

Introduces students to classical German films, and thereby enhances their skills to conduct research in the Humanities. Themes to be discussed: representation of authority, issues of race and gender, German culture and history, the Americanization of German culture, minorities in contemporary Germany.

Dual Listed GERM 5285.

Prerequisite: WB.

GERM4990 - Advanced Independent Study

Credits: 1-3

Encompasses special projects designed to meet needs of individual students, designed in consultation with instructor.

Prerequisite: GERM 2140 and consent of instructor.

Spanish B.A.: Language-Linguistics Track

Requirements

SPAN2040 - Second Year Spanish II

Credits: 4

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2015 Code U5H

Prerequisite: SPAN 2030 or three years of high school Spanish.

SPAN3030 - Spanish for Heritage Speakers

Credits: 3

Stresses academic use of the Spanish language by native or near-native speakers, through composition, cultural readings, oral presentations, and digital interactions. This class will prepare native and near-native speakers for Spanish upper division classes. It will review spelling rules, grammatical terminology, dialectal and register differences, and academic vocabulary.

USP 2015 Code U5C2

Prerequisite: SPAN 2040 and consent of instructor.

OR

SPAN3050 - Third Year Spanish I

Credits: 3

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: SPAN 2040.

SPAN3060 - Third Year Spanish II

Credits: 3

Intensively reviews grammar and composition-skill development. Also emphasizes specialized lexicons, written and oral translation, as well as conversational fluency.

A&S College Core 2015 ASD

Prerequisite: SPAN 3050.

SPAN3140 - Introduction to Literature

Credits: 3

This course introduces literary analysis by focusing on different genres from the Hispanic tradition. The course is focused on developing interpretation strategies and it introduces key elements of literary criticism. Students are required to produce complex ideas about the texts, give oral presentations, and write essays on the texts read.

USP 2003-2014 Code U3CH,U3G

A&S College Core 2015 ASG

Prerequisite: SPAN 2140 or SPAN 3030 or SPAN 3050.

SPAN3300 - Introduction to Hispanic Linguistics

Credits: 3
Max Credit (Max. 9)

Overview of basic concepts and approaches to linguistics with examples from and emphasis on Spanish description. Basic concepts in semiotics, formal and non-formal linguistics, core areas in linguistics (phonetics & phonology, morphosyntax, semantics & pragmatics), as well as an overview of subfields of linguistics (psycholinguistics, sociolinguistics, computational linguistics, etc.).

Former Course Number [4310]

Prerequisite: SPAN 3030 or SPAN 3050 or equivalent proficiency

SPAN4080 - Spanish Advanced Grammar

Credits: 3
Max Credit (Max. 9)

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 5080.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

OR

SPAN4090 - Spanish Phonetics and Phonology

Credits: 3

Provides a description of Spanish sound system and general survey of the language's major dialectal variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

Dual Listed SPAN 5090.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

- additional 12 hours of electives above SPAN 2030.

Highly Recommended Electives

SPAN3040 - Spanish Conversation

Credits: 3

Emphasizes speaking and listening comprehension through structured and monitored individual, pair, small group and class work, while providing socio-cultural competence, vocabulary acquisition and grammar review. Provides enhanced language skills in a manner that otherwise could only be attained through an extended stay in a Hispanic country.

Prerequisite: SPAN 2040; limited to Spanish majors/minors with no previous experience abroad.

SPAN3070 - Intensive Spanish Abroad

Credits: 3

Max Credit (Max. 9)

Spanish language and cultural study in Spanish-speaking countries led by UW faculty.

Prerequisite: SPAN 2030 or consent of instructor.

SPAN3080 - Spanish Language in the USA

Credits: 3

This course studies the Spanish language in its social context as a language of the United States, through concepts such as: social and individual bilingualism, Spanglish, dialects, language contact, borrowings, code switching, language policy, or language ideology.

Cross Listed LTST 3080.

USP 2015 Code U5H

Prerequisite: SPAN 3050 or SPAN 3060 or instructor's consent.

SPAN4070 - Spanish Variation and Change

Credits: 3

Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among other, as they are seen in the Spanish language.

Dual Listed SPAN 5070.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4080 - Spanish Advanced Grammar

Credits: 3

Max Credit (Max. 9)

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 5080.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4090 - Spanish Phonetics and Phonology

Credits: 3

Provides a description of Spanish sound system and general survey of the language's major dialectical variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

Dual Listed SPAN 5090.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4200 - Introduction to Research

Credits: 3

Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

It is Possible to Take

It is possible to take one class from the following:

SPPA3160 - Speech and Language Development

Credits: 4

Deals with the development of speech sound production, phonology, semantics, syntax, morphology, discourse, and pragmatics for typically-developing children from infancy to adolescence. Includes prelinguistic and paralinguistic communication, the cognitive correlates of communication, and written language. Considers the effects of sociocultural context and multiple language acquisition. Application component provides weekly experience in language sample analysis.

Former Course Number [4160]

Prerequisite: SPPA 2210 or instructor permission.

- ANTH 4775 - Language and Gender

ANTH4785 - Language and Racism

Credits: 3

Explores the ways in which racist ideology and socially-based racial categories are reinforced and changed through language and linguistic usage. The forms of language used in the construction of covertly and overtly racist communication, and the media through which racism is communicated also will be investigated.

Dual Listed ANTH 5785.

Prerequisite: ANTH 1200 or ANTH 2000.

ANTH4795 - Language Change

Credits: 3

Considers how languages change over time, due to both internal and external forces. The effects of language contact, borrowing, and structural change are discussed. The use of linguistic data for questions of migration and cultural contact are also explored.

Dual Listed ANTH 5795.

Prerequisite: ANTH 2000.

Total: 31 Hours

Spanish, B.A.

As a Spanish Major, you will develop your speaking, listening, and communication skills as a Spanish speaker. You will gain a better understanding of perspectives and experiences of Spanish speaking cultures.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Tracks

The undergraduate degree in Spanish has two tracks for students to select: Culture, Literature, and Cinema Track or Language-Linguistics Track.

There are multiple entry points into the major depending on previous Spanish language experience. Students should consult a Modern and Classical Languages advisor about the appropriate placement and credit-by-exam options.

A language major usually requires 30-31 semester hours of work in a single language beyond 2030. To include a language option in the humanities/fine arts interdisciplinary program, students must complete at least 12 hours above the 2030 level.

Spanish offers two major tracks:

Spanish B.A. : Culture, Literature, and Cinema Track

Spanish B.A. : Language-Linguistics Track

Prerequisites for both Spanish Tracks

SPAN1010 - First Year Spanish I

Credits: 4

Studies fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H

SPAN1020 - First Year Spanish II

Credits: 4

Studies fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H

Prerequisite: SPAN 1010 or two years of high school Spanish.

SPAN2030 - Second Year Spanish I

Credits: 4

Encompasses reading, grammar review, compositions and conversation.

USP 2015 Code U5H

Prerequisite: SPAN 1020 or three years of high school Spanish.

Language and Linguistics Track

Requirements

SPAN2040 - Second Year Spanish II

Credits: 4

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2015 Code U5H

Prerequisite: SPAN 2030 or three years of high school Spanish.

SPAN3030 - Spanish for Heritage Speakers

Credits: 3

Stresses academic use of the Spanish language by native or near-native speakers, through composition, cultural readings, oral presentations, and digital interactions. This class will prepare native and near-native speakers for Spanish upper division classes. It will review spelling rules, grammatical terminology, dialectal and register differences, and academic vocabulary.

USP 2015 Code U5C2

Prerequisite: SPAN 2040 and consent of instructor.

OR

SPAN3050 - Third Year Spanish I

Credits: 3

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: SPAN 2040.

SPAN3060 - Third Year Spanish II

Credits: 3

Intensively reviews grammar and composition-skill development. Also emphasizes specialized lexicons, written and oral translation, as well as conversational fluency.

A&S College Core 2015 ASD

Prerequisite: SPAN 3050.

SPAN3140 - Introduction to Literature

Credits: 3

This course introduces literary analysis by focusing on different genres from the Hispanic tradition. The course is focused on developing interpretation strategies and it introduces key elements of literary criticism. Students are required to produce complex ideas about the texts, give oral presentations, and write essays on the texts read.

USP 2003-2014 Code U3CH,U3G

A&S College Core 2015 ASG

Prerequisite: SPAN 2140 or SPAN 3030 or SPAN 3050.

SPAN3300 - Introduction to Hispanic Linguistics

Credits: 3
Max Credit (Max. 9)

Overview of basic concepts and approaches to linguistics with examples from and emphasis on Spanish description. Basic concepts in semiotics, formal and non-formal linguistics, core areas in linguistics (phonetics & phonology, morphosyntax, semantics & pragmatics), as well as an overview of subfields of linguistics (psycholinguistics, sociolinguistics, computational linguistics, etc.).

Former Course Number [4310]

Prerequisite: SPAN 3030 or SPAN 3050 or equivalent proficiency

SPAN4080 - Spanish Advanced Grammar

Credits: 3
Max Credit (Max. 9)

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 5080.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.
OR

SPAN4090 - Spanish Phonetics and Phonology

Credits: 3

Provides a description of Spanish sound system and general survey of the language's major dialectal variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

Dual Listed SPAN 5090.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

- **PLUS** 12 hours of electives from the following:

SPAN3040 - Spanish Conversation

Credits: 3

Emphasizes speaking and listening comprehension through structured and monitored individual, pair, small group and class work, while providing socio-cultural competence, vocabulary acquisition and grammar review. Provides enhanced language skills in a manner that otherwise could only be attained through an extended stay in a Hispanic country.

Prerequisite: SPAN 2040; limited to Spanish majors/minors with no previous experience abroad.

SPAN3070 - Intensive Spanish Abroad

Credits: 3
Max Credit (Max. 9)

Spanish language and cultural study in Spanish-speaking countries led by UW faculty.

Prerequisite: SPAN 2030 or consent of instructor.

SPAN3080 - Spanish Language in the USA

Credits: 3

This course studies the Spanish language in its social context as a language of the United States, through concepts such as: social and individual bilingualism, Spanglish, dialects, language contact, borrowings, code switching, language policy, or language ideology.

Cross Listed LTST 3080.

USP 2015 Code U5H

Prerequisite: SPAN 3050 or SPAN 3060 or instructor's consent.

SPAN4070 - Spanish Variation and Change

Credits: 3

Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among other, as they are seen in the Spanish language.

Dual Listed SPAN 5070.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4200 - Introduction to Research

Credits: 3

Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

It is possible to take one class from the following:

SPPA3160 - Speech and Language Development

Credits: 4

Deals with the development of speech sound production, phonology, semantics, syntax, morphology, discourse, and pragmatics for typically-developing children from infancy to adolescence. Includes prelinguistic and paralinguistic

communication, the cognitive correlates of communication, and written language. Considers the effects of sociocultural context and multiple language acquisition. Application component provides weekly experience in language sample analysis.

Former Course Number [4160]

Prerequisite: SPPA 2210 or instructor permission.

ANTH4785 - Language and Racism

Credits: 3

Explores the ways in which racist ideology and socially-based racial categories are reinforced and changed through language and linguistic usage. The forms of language used in the construction of covertly and overtly racist communication, and the media through which racism is communicated also will be investigated.

Dual Listed ANTH 5785.

Prerequisite: ANTH 1200 or ANTH 2000.

ANTH4795 - Language Change

Credits: 3

Considers how languages change over time, due to both internal and external forces. The effects of language contact, borrowing, and structural change are discussed. The use of linguistic data for questions of migration and cultural contact are also explored.

Dual Listed ANTH 5795.

Prerequisite: ANTH 2000.

Culture, Literature, and Cinema Track

Requirements

SPAN2040 - Second Year Spanish II

Credits: 4

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2015 Code U5H

Prerequisite: SPAN 2030 or three years of high school Spanish.

SPAN2140 - Introduction to Reading

Credits: 3

This course introduces a varied selection of readings and other cultural media in an immersive, intensive language class. Through the study of short stories, media articles, films, etc. , students learn cultural aspects of the Spanish-speaking world and are able to practice and improve their communicative abilities.

USP 2003-2014 Code U3CH,U3G

A&S College Core 2015 ASG

Prerequisite: SPAN 2030 or equivalent.

SPAN3030 - Spanish for Heritage Speakers

Credits: 3

Stresses academic use of the Spanish language by native or near-native speakers, through composition, cultural readings, oral presentations, and digital interactions. This class will prepare native and near-native speakers for Spanish upper division classes. It will review spelling rules, grammatical terminology, dialectal and register differences, and academic vocabulary.

USP 2015 Code U5C2

Prerequisite: SPAN 2040 and consent of instructor.

OR

SPAN3050 - Third Year Spanish I

Credits: 3

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: SPAN 2040.

SPAN3100 - Survey of Spanish Literature

Credits: 3

Studies Spanish literature from the Middle Ages to the end of the 17th century.

Prerequisite: SPAN 2140 or equivalent. SPAN 3140 strongly recommended.

OR

SPAN3110 - Survey of Contemporary Spanish Literature

Credits: 3

Studies Spanish literature from the 18th to the 21st century. SPAN 3110 is a continuation of SPAN 3100, which studies Spanish literature from the Middle Ages to the end of the 17th century. In order to take 3110, students do not need to take SPAN 3100. SPAN 3140 strongly recommended.

Prerequisite: SPAN 2140 or equivalent.

OR

SPAN3120 - Survey of Spanish American Literature

Credits: 3

Surveys Spanish American literature from colonial period to the present.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Prerequisite: SPAN 2140 or equivalent.

SPAN3140 - Introduction to Literature

Credits: 3

This course introduces literary analysis by focusing on different genres from the Hispanic tradition. The course is focused on developing interpretation strategies and it introduces key elements of literary criticism. Students are required to produce complex ideas about the texts, give oral presentations, and write essays on the texts read.

USP 2003-2014 Code U3CH,U3G

A&S College Core 2015 ASG

Prerequisite: SPAN 2140 or SPAN 3030 or SPAN 3050.

SPAN3300 - Introduction to Hispanic Linguistics

Credits: 3

Max Credit (Max. 9)

Overview of basic concepts and approaches to linguistics with examples from and emphasis on Spanish description. Basic concepts in semiotics, formal and non-formal linguistics, core areas in linguistics (phonetics & phonology, morphosyntax, semantics & pragmatics), as well as an overview of subfields of linguistics (psycholinguistics, sociolinguistics, computational linguistics, etc.).

Former Course Number [4310]

Prerequisite: SPAN 3030 or SPAN 3050 or equivalent proficiency

- **PLUS** 12 hours of electives from the following:

SPAN3040 - Spanish Conversation

Credits: 3

Emphasizes speaking and listening comprehension through structured and monitored individual, pair, small group and class work, while providing socio-cultural competence, vocabulary acquisition and grammar review. Provides enhanced language skills in a manner that otherwise could only be attained through an extended stay in a Hispanic country.

Prerequisite: SPAN 2040; limited to Spanish majors/minors with no previous experience abroad.

SPAN3200 - Spanish Culture and Civilization

Credits: 3

Studies the evolution of Spanish culture through its main artistic, sociological and intellectual expressions.

Prerequisite: SPAN 2040, SPAN 2140.

SPAN3220 - Spanish-American Cultures in Context

Credits: 3

Introduction to the Spanish-speaking cultures of Latin America and the United States through a historical overview and a focus on contemporary politics and culture.

Prerequisite: SPAN 2040 or SPAN 2140 or consent of instructor.

SPAN3070 - Intensive Spanish Abroad

Credits: 3

Max Credit (Max. 9)

Spanish language and cultural study in Spanish-speaking countries led by UW faculty.

Prerequisite: SPAN 2030 or consent of instructor.

SPAN4200 - Introduction to Research

Credits: 3

Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

Minor

Chinese Minor

A Minor in Chinese consists of a minimum of 18 credit hours, including successful completion of 10 credit hours of Chinese language and culture courses at and above CHIN2040 on campus and 9 credit hours of an intensive summer study in China.

Prerequisites

Completion of:

CHIN1010 - First Year Chinese I

Credits: 4

Fundamentals of grammar, conversation, and reading. Introduction to Chinese culture through the language.

USP 2015 Code U5H

CHIN1020 - First Year Chinese II

Credits: 4

Fundamentals of grammar, conversation, and reading. Introduction to Chinese culture through the language.

USP 2015 Code U5H

Prerequisite: CHIN 1010 or equivalent.

CHIN2030 - Second Year Chinese I

Credits: 4

Grammar, composition, conversation and more vocabulary in Chinese.

Prerequisite: CHIN 1020 or equivalent.

Requirements

CHIN2040 - Second Year Chinese II

Credits: 4

Further studies in grammar composition, conversation and more vocabulary in Chinese.

Prerequisite: CHIN 2030 or CHIN equivalent.

CHIN3055 - Business Chinese

Credits: 3

Comprehensive course on business language skills. For students with proficiency in Mandarin at the Intermediate Mid level or higher. Focus is on language functions for the workplace. Productive skills, both spoken and written, will include the composition of extended frequently-used business documents

USP 2003-2014 Code U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

Prerequisite: CHIN 3050 or equivalent.

CHIN3160 - See Movies, Touch China

Credits: 3

This course combines exploration of classical and contemporary Chinese cultures through prominent Chinese films. The audio-video materials selected will be discussed in their historical context. Students will explore the transformations China has undergone, and will seek to understand the Chinese mindset.

USP 2003-2014 Code [(none)< >H]

Prerequisite: COM1.

Or

CHIN4070 - Business Chinese II

Credits: 3

Apply previously acquired skills in complex Chinese language and business topics to the thorough analysis of case studies in Chinese business scenarios. Students will be able to read, discuss, and reach conclusions based on case studies of international companies in China and Chinese companies in international markets.

Prerequisite: CHIN 3055.

Study Abroad

Summer Study in China is required for completion of 9 credit hours of coursework:

CHIN2041 - Contemporary and Traditional Chinese Culture

Credits: 3

Designed to provide those with a serious interest in China and Chinese language with a cultural context for learning Chinese language. Incorporates economic and social material to give students a clear view of Chinese culture with an emphasis on Chinese language instruction.

Prerequisite: CHIN 2030.

CHIN3050 - Intermediate Composition and Conversation

Credits: 3

Develop abilities to read and write complex Chinese texts with an intermediate level of understanding, including texts in both conversational and narrative styles. Reading and writing skills will build considerably on the skills learned in two years of university study in Chinese language.

Prerequisite: CHIN 2040 or equivalent.

CHIN3065 - Intermediate Composition and Conversation II

Credits: 3

Students will not only understand and construct complex speech and writing but will gain the ability to do so effectively to persuade, discuss and communicate accurately with native Chinese speakers. Students will be able to relate topics such as personal experience, daily routine, reports, opinions and judgment in well-written Chinese paragraphs.

Prerequisite: CHIN 3050 or equivalent.

Total: 19 Hours

Note: Study abroad is required for completion of 12 credit hours of coursework for this minor.

Classical Civilizations Minor

As a Classical Civilizations Minor, you will develop an interdisciplinary understanding of Classical Greek and Roman material, intellectual, and cultural traditions that have helped shape western systems and values.

Requirements

CLAS2020 - Classical Greek Civilization

Credits: 3

Examines some of the most important developments of ancient Greek culture. Includes development of government in the city-states, with particular attention to Athenian democracy; tragedies of Aeschylus, Sophocles and Euripides; comedies of Aristophanes; crisis of values of the Peloponnesian War; and philosophy of Plato.

USP 2003-2014 Code U3C, U3WB

USP 2015 Code U5H

Prerequisite: WA or COM1.

OR

HIST2120 - Ancient Greece and the Near East

Credits: 3

Examines development of civilization in Eastern Mediterranean from prehistory to Alexander the Great.

CLAS2040 - Classical Roman Civilization

Credits: 3

Examines some of the most interesting political, legal, artistic, literary, and engineering developments of the Republic and Principate (510 BC-AD 212) These include representational government, citizens' rights, sanctioned violence, Rome's infrastructure, and major literary works of oratory, comedy, history, epic, and philosophy.

USP 2003-2014 Code U3CH, U3WB

Prerequisite: WA or COM1.

OR

HIST2130 - Ancient Rome

Credits: 3

Studies history of the growth of Roman power from city-state to world power.

Electives

12 hours chosen from Classics 3000-level or above; PHIL 3120, PHIL 4020, or PHIL 4030:

CLAS3050 - Athenian Democracy

Credits: 3

Examines democratic government in ancient Athens: its origins and development, its practical workings, how politics were conducted and power was gained and exercised, citizen participation, law courts, and evaluations of democracy in the ancient world and since.

Cross Listed HIST 3050/POLS 3050.

Prerequisite: WB or COM2.

CLAS3160 - "What Killed Socrates?"

Credits: 3

This course will reexamine Socrates' trial in 399 BCE, widely regarded as a miscarriage of justice, in its total historic context, seeking to understand the reasons for Socrates' conviction. In the process, it will impart a broad understanding of the cultural, philosophical, political, and legal life of classical Athens.

Cross Listed HIST 3160/PHIL 3160.

Prerequisite: WB or COM2.

CLAS4230 - Greek Tragedy

Credits: 3

Reading and discussion of major plays by Aeschylus, Sophocles, and Euripides, together with examination of the performance and social context of Greek drama, its use of traditional myths, and selected issues in contemporary scholarship on the tragedies.

Cross Listed ENGL 4230/THEA 4230.

Prerequisite: WB or COM2.

CLAS4270 - Classical Epic Poetry

Credits: 3

Reading and discussion of major works of Greek and Latin epic poetry, centered on Homer and Vergil. Also includes consideration of the background of these works (both mythological and historical) and the development of the epic tradition in the ancient world.

Cross Listed ENGL 4270.

Prerequisite: WB or COM2.

CLAS4975 - Independent Study

Credits: 1-4
Max Credit (max. 12)

Specialized study in aspects of Greek or Roman civilization of interest to the student, with topic and plan of work to be worked out by the student and the instructor together.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: 6 hours of Classics courses or consent of instructor.

CLAS4990 - Topics in Classical Civilization

Credits: 1-4
Max Credit (max. 12)

Study in depth of special areas in ancient civilization that are not covered in regularly offered courses.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: 6 hours of Classics courses or consent of the instructor.

PHIL3120 - Ancient Greek Philosophy

Credits: 3
Surveying some of ancient Greek philosophy. Begins with the works of the earliest extant philosophical thinkers, the pre-Socratics. Remainder of focus on Plato and Aristotle.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL4020 - Plato

Credits: 3
Detailed examination of selected dialogues of Plato.

Dual Listed PHIL 5020.
Prerequisite: PHIL 3120.

PHIL4030 - Aristotle

Credits: 3
Detailed examination of selected works of Aristotle.

Dual Listed PHIL 5030.
Prerequisite: PHIL 3120.

Other courses about ancient Mediterranean cultures that are not taught under Classics may be submitted for approval to the Classics section head.

Up to 6 hours of Latin at the 3000-level or above may be counted as electives:

LATN3110 - Vergil, The Aeneid I

Credits: 3

Reading portions of the Aeneid and consideration of its literary interpretation.

Former Course Number [2110]

Prerequisite: LATN 2030 or equivalent.

LATN3120 - Vergil, The Aeneid II

Credits: 3

Reading further portions of the Aeneid and consideration of its literary interpretation.

When Offered (Offered based on sufficient demand and resources)

Former Course Number [2120]

Prerequisite: LATN 3110.

LATN3140 - Caesar

Credits: 2

Acquaints students with war-memoir genre of Latin literature.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN3150 - Livy

Credits: 3

Reading portions of Livy's historical works, and consideration of the history he covers and how the Romans viewed their past.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN3160 - Ovid

Credits: 2

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN3990 - Independent Study

Credits: 1-4

Books or texts of special interest to the student, selected in conjunction with the instructor; independent reading and reports.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4110 - Horace

Credits: 3

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4115 - Latin Philosophers

Credits: 3

An introduction to Latin philosophical traditions. Readings will be selected either from one author, such as Lucretius (ca. 99-55 BCE) or Seneca the Younger (ca. 4 BCE-65 CE), or from different authors about a given theme.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

Total: 18 Hours

French Minor

As a French Minor, you will develop your speaking, listening, and communication skills as a French speaker. You will gain a better understanding of perspectives and experiences of French speaking cultures.

Requirements

FREN2040 - Second Year French II

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2015 Code U5H

Prerequisite: FREN 2030, three years of high school French or FREN 1010, FREN 1020 with grade of B or better.

FREN2140 - Introduction to Reading

Credits: 3

Introduction to the literature of France; analysis of major literary types and elements of criticism.

USP 2003-2014 Code U3CH, U3G

Prerequisite: FREN 2030.

FREN3050 - Third Year French I

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: FREN 2040.

Electives

- 9 hours chosen from French at the 3000 or 4000 level.
- Minors are encouraged to take one to two 4000 level courses with a traditional course load consisting of one 3000 level course and two 4000 level courses
- Elective courses include:

FREN3005 - French Phonetics and Pronunciation

Credits: 3

Focus on the phonetic structures of French through systematic pronunciation drills and phonetic transcriptions. Varied oral activities and exercises will help develop an awareness of spoken French and improve students' pronunciation.

Prerequisite: FREN 2040 or equivalent.

FREN3050 - Third Year French I

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: FREN 2040.

FREN3060 - Third Year French II

Credits: 3

A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

Prerequisite: FREN 3050.

FREN3110 - Contemporary French Civilization

Credits: 3

Emphasizes the institution and values of contemporary France. Deals with the major political, social, cultural and economic aspects of today's France. Will be taught in French.

Prerequisite: FREN 3050.

FREN3990 - Independent Study

Credits: 1-4

Books or periodicals of special interest to the student, selected in consultation with a member of the staff; independent reading and reports.

Prerequisite: FREN 2030.

FREN4080 - Studies in the French Language

Credits: 3

Max Credit (Max. 9)

The topics explored under this general heading include: translation, history of the French language, French of the media and conversation.

Dual Listed FREN 5080.

Prerequisite: FREN 3060.

FREN4100 - A Survey of French Literature I

Credits: 3

A study of French Literature and civilization from the Middle Ages through the 18th century.

Prerequisite: FREN 2140 or equivalent.

FREN4110 - A Survey of French Literature II

Credits: 3

A study of French Literature and civilization from the 19th century to the present.

Prerequisite: FREN 2140 or equivalent.

FREN4120 - Medieval French Literature

Credits: 3

A survey of medieval French literature: epic, courtly poetry, Arthurian romance, theatre and the poetry of Villon.

Dual Listed FREN 5120.

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4140 - 17th Century French Literature

Credits: 3

A survey of representative works from the major literary genres from the formative period to classicism and its aftermath.

Dual Listed FREN 5140.

USP 2003-2014 Code U3WC

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4200 - Introduction to Research

Credits: 3

Senior seminar on a topic varying from year to year.

USP 2015 Code U5C3

Prerequisite: COM2 (FREN 3050), Survey I and II courses (FREN 4100 and FREN 4110).

FREN4250 - 19th Century French Literature

Credits: 3

Development of romanticism from Rousseau on with excerpts from Chateaubriand and romantic poets like Hugo and Vigny. The period of realism-naturalism focuses on novels of Flaubert and Zola, while the symbolist school of poetry is represented by Baudelaire, Verlaine and Rimbaud.

Dual Listed FREN 5250.

Former Course Number [4150]

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4260 - 20th Century French Literature

Credits: 3

The era since 1900 is divided into four parts: pre-World War I, between the wars, post-World War II and the New Wave. These periods are represented by authors including Valery, Proust, Malraux, Saint-Exupery, Camus, Sartre and others.

Dual Listed FREN 5260.

Former Course Number [4160]

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4350 - Studies in French and Francophone Literatures

Credits: 3

An intensive study of a topic, period or author (pertaining to French or Francophone literature), to be selected according to interest and currency).

Dual Listed FREN 5350.

Prerequisite: FREN 3060; FREN 4100 and FREN 4110 strongly recommended.

FREN4990 - Advanced Independent Study

Credits: 1-3

Special projects designed to meet the needs of individual students, designed in consultation with instructor.

Prerequisite: FREN 3050 and consent of instructor.

Total: 18 Hours

German Minor

As a German Minor, you will develop your speaking, listening, and communication skills as a German speaker. You will gain a better understanding of perspectives and experiences of German speaking cultures.

Requirements

GERM2040 - Second Year German II

Credits: 3

Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2015 Code U5H

Prerequisite: GERM 2030 or three years of high school German.

GERM3050 - Third Year German I

Credits: 3

Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

A&S College Core 2015 ASG

Prerequisite: GERM 2040.

GERM3060 - Introduction to German Literature

Credits: 3

Introduces literature of Germany. Analyzes major literary types and elements of criticism. Emphasizes compositions and corrective practice, stylistic analysis of representative texts and group discussion on prepared topics.

Prerequisite: GERM 3050.

Electives

- 9 hours chosen from German at the 3000 or 4000 level.

GERM3006 - 20th Century German Culture and Civilization

Credits: 3

Major political, ideological and cultural developments in Germany between 1871 and the present. An interdisciplinary approach (history, art history, film and literature) allows students to explore and assess a nation's culture and civilization as well as far-reaching events (WWI, WWII and the Holocaust) from various perspectives.

USP 2003-2014 Code U3CH, U3WC

Prerequisite: junior standing.

GERM3050 - Third Year German I

Credits: 3

Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

A&S College Core 2015 ASG

Prerequisite: GERM 2040.

GERM3150 - German History and Culture

Credits: 3

Taught in English, this class engages students both theoretically and practically with German history and culture throughout the ages from the Middle Ages to today. Reading content is complemented with outings to culturally and historically significant sites in Germany as part of a summer study abroad program.

USP 2003-2014 Code U3CH, U3G

A&S College Core 2015 ASG

Prerequisite: WA or equivalent.

GERM3990 - Independent Study

Credits: 1-4

Focuses on books or periodicals of special interest to the student selected in consultation with a staff member; independent reading and reports.

Prerequisite: GERM 2030.

GERM4070 - Fourth Year German

Credits: 3

Emphasizes weekly compositions and corrective practice, stylistic analysis of representative texts and group discussion on prepared topics.

Dual Listed GERM 5070.

When Offered (Offered every other year)

Prerequisite: GERM 3060.

GERM4080 - German-English and English- German Translation

Credits: 3

Encompasses written translation exercises based on contemporary and relevant texts in both English and German. Addresses specific translation problems arising in both English and German, when translating into the other language.

When Offered (Offered fall semester)

USP 2003-2014 Code U3WB

Prerequisite: GERM 3050 and/or GERM 3060.

GERM4100 - A Survey of German Literature I

Credits: 3

Studies German literature and civilization from the Middle Ages to the 17th century.

Dual Listed GERM 5100.

Prerequisite: GERM 2140 or equivalent.

GERM4145 - Weimar Classicism

Credits: 3

Introduces student to Weimar Classicism, one of the crucial periods in German literature and culture. Explores the foundation of the movement, its cultural and historical contexts, aesthetic and philosophical principles, and significant works during this period. Primary language for instruction for this course is German.

Dual Listed GERM 5145.

Prerequisite: GERM 2140 or equivalent.

GERM4180 - German Poetry

Credits: 3

Surveys poetry from the Middle Ages to the present. Emphasizes poetry after 1600. Treats formal elements and genre categories.

Dual Listed GERM 5180.

Prerequisite: GERM 2140.

GERM4200 - Introduction to Research

Credits: 3

Max Credit 9

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2015 Code U5C3

Prerequisite: 12 hours of 4000-5000-level courses.

GERM4240 - German Literature of the Romantic Period

Credits: 3

Introduces the philosophical bases of German Romanticism and analyzes representative works of prose and poetry.

Dual Listed GERM 5240.

Prerequisite: GERM 2140 or equivalent.

GERM4255 - 19th Century German Novellas

Credits: 3

Studies a wide selection of significant German novellas from the period when this genre flourished in the German-speaking world, with a popularity unparalleled in the rest of Europe. Examines the form's origins, evolution, reception, and theory.

Dual Listed GERM 5255.

Prerequisite: GERM 2140 or equivalent.

GERM4275 - Contemporary Migration Literature

Credits: 3

Introduces students to a range of recent cultural production by artists identified with immigrant communities or communities of color. Topics examined include intersections of gender, race, nation, culture, and class; experiences of different minorities; question of national and transnational identity, self-representation, immigration, multiculturalism and integration debates. Course is taught in German.

Dual Listed GERM 5275.

Prerequisite: GERM 2140 or equivalent.

GERM4285 - 20th/21st Century German Film

Credits: 3

Introduces students to classical German films, and thereby enhances their skills to conduct research in the Humanities. Themes to be discussed: representation of authority, issues of race and gender, German culture and history, the Americanization of German culture, minorities in contemporary Germany.

Dual Listed GERM 5285.

Prerequisite: WB.

GERM4990 - Advanced Independent Study

Credits: 1-3

Encompasses special projects designed to meet needs of individual students, designed in consultation with instructor.

Prerequisite: GERM 2140 and consent of instructor.

Total: 18 Hours

Japanese Minor

As a Japanese Minor, you will develop your speaking, listening, and communication skills as a Japanese speaker. You will gain a better understanding of perspectives and experiences of Japanese speaking cultures.

Prerequisites

JAPN1010 - First Year Japanese I

Credits: 4

Studies fundamentals of grammar, composition, conversation and reading. Introduces Japanese culture through the language.

When Offered (Offered fall semester)

USP 2015 Code U5H

JAPN1020 - First Year Japanese II

Credits: 4

Studies fundamentals of grammar, composition, conversation and reading. Introduces Japanese culture through the language.

When Offered (Offered spring semester)

USP 2015 Code U5H

Prerequisite: JAPN 1010 or equivalent.

JAPN2030 - Second Year Japanese I

Credits: 4

Encompasses reading, speaking and writing in original Japanese syllabaries, including elementary kanji characters for daily practical application.

When Offered (Offered fall semester)

Prerequisite: JAPN 1020 or equivalent.

Minor Program Requirements

A Japanese minor requires 18 credit hours of coursework which include JPN 2040 and above, and all courses required for a minor in Japanese are offered as online courses. These courses include:

JAPN3050 - Third Year Japanese I

Credits: 3

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: JAPN 2040 or equivalent.

JAPN3060 - Third Year Japanese II

Credits: 3

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: JAPN 2040 and JAPN 3050 or equivalent.

JAPN2070 - Conversational Japanese Abroad

Credits: 4

Japanese language and cultural study in Japan led by UW faculty.

Prerequisite: JAPN 1020.

LANG2150 - Manga: History and Culture

Credits: 3

Manga is one of the most important art forms to emerge from Japan. Its importance as a medium of visual culture and storytelling cannot be denied. Through reading and examination of texts, students will understand the relevance of comics in Japanese society.

USP 2003-2014 Code U3O, U3WB

USP 2015 Code U5C2

Prerequisite: COM1.

LANG3140 - Anime: History and Culture

Credits: 3

An introduction to the history, development, and cultural significance of Japanese animation. Through the examination of a variety of anime genres, students will gain insight into contemporary Japan as well as important historical periods. We will read analyses of particular anime, emphasizing the unique characteristics of the art and the mystery of its popularity in the US.

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Prerequisite: completion of WA.

LANG4800 - Advanced Instruction In: (TOPIC)

Credits: 1-3

Max Credit (Max. 12)

Advanced study and projects designed to meet special needs and interests of students, to be selected in consultation with a suitable member of the faculty.

Prerequisite: consent of instructor.

LANG3105 - Major Themes in Chinese and Japanese Literature

Credits: 3

Explores mindsets of two rich and ancient civilizations, China and Japan. Considers distinctive characters of each civilization, while illuminating basic elements that we share with these peoples.

Prerequisite: ENGL 1010.

HP3151 - Modes of Understanding

Credits: 3

Max Credit (Max. 6)

Introduces study of nature and grounds of knowledge, its limits and validity. Examines epistemological basis of selected areas of academic thought. Topics vary from year to year. Required of UW Honors Program students.

Former Course Number [3150]

Prerequisite: COM1, COM2

History and Culture classes (LANG 2150, 3140, 3105, and 4800) rotate every two years, as one History and Culture class is offered a semester. Modern Japanese Society (HP/LANG 3151) is offered twice a year, with one of these classes being a study abroad opportunity.

Latin Minor

As a Latin Minor, you will develop the communication skills necessary to read an original text of Classical Latin in prose or verse as well as the cultural knowledge essential to understand and analyze it.

Requirements

LATN3110 - Vergil, The Aeneid I

Credits: 3

Reading portions of the Aeneid and consideration of its literary interpretation.

Former Course Number [2110]

Prerequisite: LATN 2030 or equivalent.

LATN3140 - Caesar

Credits: 2

Acquaints students with war-memoir genre of Latin literature.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4120 - Catullus and the Elegiac Poets

Credits: 3

Discusses Latin lyric poetry of late Republic and early Empire, excluding works of Horace and Ovid, and elegiac tradition in Latin.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4130 - Cicero

Credits: 3

Introduction to the prose of the statesman Marcus Tullius Cicero (106-43 BCE). Readings will be selected from his political speeches, correspondences, or treatises on philosophical, rhetorical, and religious topics.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

Electives

7 hours chosen from Latin at the 3000-level or above.

LATN3120 - Vergil, The Aeneid II

Credits: 3

Reading further portions of the Aeneid and consideration of its literary interpretation.

When Offered (Offered based on sufficient demand and resources)

Former Course Number [2120]

Prerequisite: LATN 3110.

LATN3150 - Livy

Credits: 3

Reading portions of Livy's historical works, and consideration of the history he covers and how the Romans viewed their past.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN3160 - Ovid

Credits: 2

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN3990 - Independent Study

Credits: 1-4

Books or texts of special interest to the student, selected in conjunction with the instructor; independent reading and reports.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4110 - Horace

Credits: 3

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4115 - Latin Philosophers

Credits: 3

An introduction to Latin philosophical traditions. Readings will be selected either from one author, such as Lucretius (ca. 99-55 BCE) or Seneca the Younger (ca. 4 BCE-65 CE), or from different authors about a given theme.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

Total: 18 Hours

Spanish Minor

As a Spanish Minor, you will develop your speaking, listening, reading, writing, and presentational skills in Spanish. You will gain a better understanding of perspectives and experiences of Spanish speaking cultures.

Electives

- 18 hours of electives in Spanish at the 2000-level or above (excluding SPAN 2030).
- Elective courses include:

SPAN3040 - Spanish Conversation

Credits: 3

Emphasizes speaking and listening comprehension through structured and monitored individual, pair, small group and class work, while providing socio-cultural competence, vocabulary acquisition and grammar review. Provides enhanced language skills in a manner that otherwise could only be attained through an extended stay in a Hispanic country.

Prerequisite: SPAN 2040; limited to Spanish majors/minors with no previous experience abroad.

SPAN3070 - Intensive Spanish Abroad

Credits: 3

Max Credit (Max. 9)

Spanish language and cultural study in Spanish-speaking countries led by UW faculty.

Prerequisite: SPAN 2030 or consent of instructor.

SPAN3080 - Spanish Language in the USA

Credits: 3

This course studies the Spanish language in its social context as a language of the United States, through concepts such as: social and individual bilingualism, Spanglish, dialects, language contact, borrowings, code switching, language policy, or language ideology.

Cross Listed LTST 3080.

USP 2015 Code U5H

Prerequisite: SPAN 3050 or SPAN 3060 or instructor's consent.

SPAN3200 - Spanish Culture and Civilization

Credits: 3

Studies the evolution of Spanish culture through its main artistic, sociological and intellectual expressions.

Prerequisite: SPAN 2040, SPAN 2140.

SPAN3220 - Spanish-American Cultures in Context

Credits: 3

Introduction to the Spanish-speaking cultures of Latin America and the United States through a historical overview and a focus on contemporary politics and culture.

Prerequisite: SPAN 2040 or SPAN 2140 or consent of instructor.

SPAN4070 - Spanish Variation and Change

Credits: 3

Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among other, as they are seen in the Spanish language.

Dual Listed SPAN 5070.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4080 - Spanish Advanced Grammar

Credits: 3

Max Credit (Max. 9)

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 5080.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4090 - Spanish Phonetics and Phonology

Credits: 3

Provides a description of Spanish sound system and general survey of the language's major dialectical variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

Dual Listed SPAN 5090.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4200 - Introduction to Research

Credits: 3

Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

Total: 18 Hours

Graduate

Spanish, M.A.

As a Spanish Masters Student, you will develop your speaking, listening, reading, writing, and presentational skills in Spanish. You will gain a better understanding of perspectives and experiences of Spanish speaking cultures.

Required Courses

Program Specific Degree Requirements

A total of 27 graduate-level course hours are required.

Plus 4 thesis hours.

SPAN4200 - Introduction to Research

Credits: 3

Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

SPAN5900 - Practicum in College Teaching

Credits: 3
Max Credit 3

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

- One 5000 level course in SPAN Linguistics Credits: 3
 - One 5000 level course in SPAN Literature Credits: 3
 - Spanish elective credits at the graduate level Credits: 15
- One 5000 level course (3 credits) can be taken outside the department with the approval of the thesis advisor or the graduate advisor

Graduate-level courses include:

SPAN5070 - Spanish Variation and Change

Credits: 3

Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among other, as they are seen in the Spanish language.

Dual Listed SPAN 4070.

Prerequisite: graduate standing.

SPAN5080 - Spanish Advanced Grammar

Credits: 3

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 4080.

Prerequisite: graduate standing.

SPAN5090 - Spanish Phonetics and Phonology

Credits: 3

Provides a description of Spanish sound system and general survey of the language's major dialectal variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

Dual Listed SPAN 4090.

Prerequisite: graduate standing.

SPAN5100 - Hispanic Thought

Credits: 3

intensive study of a topic, author, or philosophical movement. Designed for upper level and graduate students.

Prerequisite: 12 hours of Spanish literature at 4000-5000 level.

SPAN5110 - Peninsular Spanish Literature

Credits: 1-3

Max Credit (Max. 9)

An intensive study of a topic or an author. Designed for upper level and graduate students.

Prerequisite: 12 hours of Spanish literature at 4000-5000 level.

SPAN5120 - Spanish American Literature

Credits: 1-3

Max Credit (Max. 9)

An intensive study of a topic or an author. Designed for upper level and graduate students.

Prerequisite: 12 hours of Spanish literature.

SPAN5130 - Masterpieces of Spanish Renaissance Literature

Credits: 3

A study of the Spanish Renaissance, taking into consideration social, political, economic, religious philosophical, and aesthetic aspects of the culture as a context for and as reflected in the literature.

Dual Listed SPAN 4130.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN5140 - Masterpieces of Spanish Baroque Literature

Credits: 3

Studies of the Spanish Baroque, taking into consideration social, political, economic, religious, philosophical, and aesthetic aspects of the culture as a context for and as reflected in the literature. Also covers the relationship between the Spanish Renaissance and the Baroque.

Dual Listed SPAN 4140.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN5150 - Spanish Romanticism

Credits: 3

A comprehensive study of the romantic movement in Spain. Close reading and commentary of texts by representative

authors including Espronceda, Rivas, Zorilla, Becquer and de Castro.

Dual Listed SPAN 4150.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN5160 - Graduate Readings

Credits: 1-5

Max Credit (Max. 6)

Prerequisite: graduate standing.

SPAN5170 - Special Problems

Credits: 1-2

Max Credit (Max. 6)

Prerequisite: graduate standing.

SPAN5180 - Advanced Cultural Studies in Hispanic Lit/Media

Credits: 3

Advanced analysis of Hispanic cultural phenomena. Focus on the Spanish-speaking cultures of Spain or the Spanish-speaking Americas or both. The Texts consulted vary according to instructor and may include the visual arts, such as film, paintings, and performance, academic theory, websites, and other fiction and non-fiction readings.

Dual Listed SPAN 4180.

Prerequisite: SPAN 2140 or equivalent and one 4000-level course.

SPAN5190 - 20th and 21st Century Spanish- American Texts

Credits: 3

Provides students the opportunity to study representative literary texts that reflect the tendencies and trends in 20th and 21st Century Spanish-language works of the Americas.

Dual Listed SPAN 4190.

Prerequisite: 6 hours of SPAN at the 4000-level.

SPAN5260 - The Realist Novel in Spain

Credits: 3

Studies of the major novelists of nineteenth century Spain from 1850 until the Generation of '98.

Dual Listed SPAN 4260.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Total: 31 Hours

Life Sciences Program

Life Sciences Program

107 Aven Nelson Building, 766-4158 Web site: www.uwyo.edu/lifescience

Program Director: Jonathan Prather

The Life Sciences Program consists of all LIFE prefix courses. These courses support a wide range of life science majors and several non-life science majors across campus. The number of LIFE courses taken by students in each major is determined by the departments that offer the majors. The curriculum intends to provide science majors with both breadth and depth in the basic life sciences, and nonscience majors with exposure to key concepts in biology and an understanding of the connections between science and society. The program courses also expose students to the fields of cell and molecular biology, genetics, ecology, and evolution, and they familiarize students with the diversity of life on the planet. Courses within the curriculum address four fundamental goals at a level appropriate for each course: 1. Acquisition, Application and Synthesis of Knowledge 2. Communication Skills 3. Critical Thinking and Problem Solving 4. Research Skills The Life Sciences courses listed below were previously offered under the BIOL prefix. All courses listed below are now offered through the LIFE prefix.

Professor:

JONATHAN F. PRATHER, B.S. University of Virginia 1995; Ph.D. Emory University 2001; Professor of Zoology and Physiology 2021, 2009.

Department of Music

Music 2049 Buchanan Center for the Performing Arts, (307) 766-5242
FAX: (307) 766-5326
Web site: www.uwyo.edu/music
Department Head: J. Scott Turpen

Professors:

ROBERT BELSER, B.M.E. Central Missouri State University 1977; M.S. M.E University of Illinois 1982; D.M.A. University of Iowa 1994; Professor of Music 2008, 1995. Director of Bands, Conducting, Music Education.

THERESA L. BOGARD, B.M. University of Colorado 1983; M.M. Eastman School of Music 1985; D.M.A. University of Colorado 1990; Professor of Music 2004, 1992. Keyboard, Keyboard Area Coordinator, Piano.

JOHN FADIAL, B.M. North Carolina School of the Arts 1987; M.M. Eastman School of Music 1989; D.M.A. University of Maryland 1995; Professor of Music 2015, 2008. Violin.

ANNE GUZZO, B.M. University of New Mexico 1992; M.A. University of California, Santa Cruz 1996; Ph.D. University of California, Davis 2002; Associate Professor of Music 2011, 2006. Composition, Theory.

MICHAEL GRIFFITH, B.M.E. Michigan State University 1973; M.M. 1975; D.M.A. University of Colorado 1994; Professor of Music 2001, 1989. Conducting, Woodwinds.

JAMES PRZYGOCKI, B.M. Western Michigan University 1979; M.M. Indiana University 1984; Professor of Music 2005, 1993. Viola, String Methods, Music Education.

J. SCOTT TURPEN, B.M.E. Boise State University 1994; M.M. University of Georgia 1996; D.M.A. 1999; Professor of Music 2012, 2001. Saxophone.

KATRINA ZOOK, B.M. Oberlin College 1986; M.M. University of California-Santa Barbara 1992; D.M.A. Eastman School of Music 2000; Professor of Music 2011, 1999. Voice, Vocal Pedagogy, Music History, Associate Chair.

Associate Professors:

HOLLY DALRYMPLE, BM, Texas State University; MM, University of Texas-Austin; DMA, University of North Texas; Associate Professor of Music 2019, 2013. Director of Choral Activities.

BLAKE MCGEE, B.M. University of Minnesota 2001; M.M. 2004; D.M.A. University of Oregon 2008; Associate Professor of Music 2016, 2010. Clarinet, Musicology.

CRYSTAL SIEGER, B.M. Ohio State University 1992; M.M. University of Arizona 1994; Ph.D. 2012; Assistant Professor of Music 2014. Music Education.

BETH VANDERBORGH, B.M. Manhattan School of Music 1988; M.M. Eastman School of Music 1990; D.M.A. University of Maryland 1995; Associate Professor of Music 2014, 2008. Cello, Graduate Coordinator.

CHI-CHEN WU, B.F.A. National Taiwan Normal University 1998; M.M. 2202; D.M.A. New England Conservatory 2006; Assistant Professor of Music 2012. Piano and Collaborative Piano.

Assistant Professors:

JOSEPH CARVER, B.M.E. 2007 Ohio University; M.M. 2014 Ohio University; Ph.D. 2019 The Ohio State University. Associate Director of Bands.

BEN MARKLEY, B.M. Fort Hays State University 2005; M.A. New York University 2007; D.M.A. University of Colorado-Boulder 2010; Assistant Professor of Music 2016. Jazz Studies.

BRIAN MURRAY, B.M. University of North Texas 2010; MME, Florida State University 2015; DMA, University of North Texas 2020. Assistant Professor of Music 2020. Choral Music Education.

TIGER ROBISON, B.M.E. University of Hartford 2005; M.S. Central Connecticut State University 2012; Ph.D. University of Hartford 2016; Assistant Professor of Music 2017. Music Education.

DAVID WHARTON, B.M. Oberlin Conservatory 2009, M.M. Yale School of Music 2011, D.M.A. University of Connecticut 2019. Assistant Professor of Music 2020. Trumpet.

ANDREW WHEELOCK, B.M.E. Central Michigan University 2013; M.M. University of Illinois 2015; D.M.A. 2018; Assistant Professor of Music 2018. Percussion.

Academic Professional Lecturers:

SHERRY SINIFT, B.M. Western Michigan University 1979; M.M. Indiana University 1981; Academic Professional Lecturer 2010. Violin, UW String Project.

JENNIFER TURPEN, B.M.E. SUNY-Potsdam 1996; M.M. University of Georgia 2000; D.M.A. 2000; Academic Professional Lecturer, Senior 2017, 2003. Theory, Saxophone.

Lecturers:

Kato, Riner

Part-time Lecturers:

Erlandson, Flagg, Fourt, Harvey, Hoffman, Latchininsky, Smith, Strampe, Stucki, Teppa, Uno-Jack, Watt

Professors Emeriti:

Steve Barnhart, David Brinkman, Gordon Childs, Julia Combs, Rodney Garnett, Frederick Gersten, Brian Hanly, Larry Hensel, Edgar Lewis, Kathleen McKeage, William Stacy, Carlyle Weiss

The Department of Music offers undergraduate and graduate degree programs which combine scholarship with performance, theory with practice and the academic with the creative. It also provides an opportunity for the study and performance of music by university students who are not majors in music. By giving concerts, workshops and lectures throughout the state of Wyoming through the Fine Arts Outreach Program, the music department serves as a musical resource for the entire state. The music department is fully accredited by the National Association of Schools of Music.

Procedures and requirements are listed in the music department *Student Handbook* which is available online at www.uwyo.edu/music/forms/index.html. The music department *Student Handbook* and the *University Catalog* are binding documents for the degree programs listed below. Students must receive a "C" or better in all courses designated MUSC to satisfy department requirements. The foreign language requirement for the Bachelor of Music in Performance Vocal Emphasis degree may be satisfied with a "C" or better in all courses. A student's transfer courses must meet all of these requirements to be accepted for credit.

An audition is required to become a Music major or minor. The 3 Steps to Becoming a Music Major are:

1. Apply for admission to the University of Wyoming (www.uwyo.edu/admissions/).
2. Audition for admittance as a Music major and for Music scholarships. Audition and scholarship information may be found at www.uwyo.edu/music. All Music majors and minors MUST audition to be admitted to the Music program.
3. Perform at an acceptable level, and you are in!

Degrees

Bachelor of Arts (with major in music): A program designed for the student who desires a broadly-based liberal arts program.

Bachelor of Music Performance: A fouryear course of study designed for students who wish to prepare for a professional career as performer and applied teacher.

Bachelor of Music Education: A fouryear course of study for the student who wishes to prepare for a career as a teacher of music in elementary or secondary schools in the instrumental, vocal, and general music fields.

Certificates

Music Entrepreneurship Certificate: The certificate provides a basic understanding of music marketing principles and practical hands-on experience that allows one to enter the workforce with a marketable skill set in the areas of arts promotion and management. A certificate may be pursued on its own or in conjunction with any university degree program. https://www.uwyo.edu/music/certificates/music_entrep_index.html

Audio Technology Certificate: The certificate provides a basic understanding of audio principles and practical hands-on experience that allows one to enter the commercial music workforce with a marketable skill set. Students will learn how to record and manipulate recorded sounds as well as provide live sound reinforcement for live concerts or events. Certificate may be pursued on its own or in conjunction with any university degree program.

Performer's (post-baccalaureate) Certificate

A non-degree course of study for the student seeking to improve professional performance skills. The program consists of a total of 30 credit hours from applied lessons, ensembles and electives to be selected in consultation with the major adviser. Prerequisites are demonstrated evidence of advanced performance proficiency through a live or recorded audition, undergraduate degree in music, and admission to the university.

Music for Other Students

Music as an elective subject. Students from other departments of the university may, with consent of their adviser and applied instructor, elect private or class lessons in applied music (with or without previous training) and may enroll in any theory, music literature or activity course for which they are qualified. See the music department Student Handbook for requirements for a minor in music.

Organizations. Performance organizations include the Happy Jacks, Marching Band, Symphonic Band, Wind Ensemble, Collegiate Chorale, Symphony Orchestra, Chamber Orchestra, Singing Statesmen, Bel Canto, Women's Choir, and Opera Theatre. Other groups are brass, woodwind, string, percussion and piano ensembles, Vocal Jazz, Civic Chorus and Jazz Ensemble. Membership is open to qualified students in all colleges and departments of the university. Each year, in addition to frequent appearances on the campus, several of these organizations and groups tour the region.

Music Fees

For Individual Instruction:

One 1/2-hour lesson weekly, per semester	\$150.00
One 1-hour lesson weekly, per semester	\$300.00

For Music 4510, 4520, 4530, 4540, 4550 and 4560 (courses taken in the form of private lessons) a fee of \$85.00 is assessed each semester.

Practice Rooms:

per semester	\$35.00
Music instrumental fee, per semester	\$25.00
Music locker fee, per student per semester	\$15.00
Public School Methods fee, per class	\$5.00

Undergraduate Study

Learning Outcomes

Bachelor of Arts in Music

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course

even though the course number is not unique. To fulfill this degree requirement students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Arts degree in Music, students will be able to: (1) demonstrate a level of competence as solo and ensemble performers appropriate for a musician educated in the liberal arts, (2) demonstrate specific knowledge in music theory, music history, and general studies appropriate for their professional goals, and (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music.

Degree Total 120

*Upper Division MUSC Electives: See complete list in Undergraduate Music Handbook.

University and College Requirements

In addition to the major requirements listed above, students must complete all university and College of Arts and Sciences requirements listed elsewhere in this *Catalog*. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Bachelor of Music in Performance

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirements students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. All string and vocal emphases must pass the piano proficiency test during their sophomore year. Class Piano 1-4 is highly recommended for those with little piano background. All wind and percussion emphases must pass Class Piano 1-2 with a B or better or may substitute the Piano Literacy exam in their place. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Music degree in Performance, students will be able to: (1) demonstrate excellence as solo and ensemble performers to provide a basis for a professional career as a musician, (2) demonstrate specific knowledge in music theory, music history, and instrumental pedagogy to provide a basis for a professional career as a performing musician, and (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music.

University and College Requirements

In addition to the major requirements listed above, students must complete all university and College of Arts and Sciences requirements listed elsewhere in this Catalog. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Upper Division Music Electives

Upper division music electives vary per emphasis. Please see the Undergraduate Music Handbook for a full listing.

Degree Total 120

Bachelor of Music Education

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirement students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. All music majors must pass the piano proficiency test during their sophomore year. Class Piano 1-4 is highly recommended for majors with little piano background. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Music Education degree, students will be able to: (1) demonstrate skill as solo and ensemble performers who can work as professional educators, (2) demonstrate specific knowledge in music theory, music history, and instrumental and vocal pedagogy to provide a basis for a professional career as a music educator, (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music, and (4) demonstrate the pedagogical background and teaching experience to function as effective K-12 music educators.

University and College Requirements

In addition to the major requirements listed below, students must complete all university requirements listed elsewhere in this Catalog. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Bachelor of Music Education - Brass, Woodwind, & Percussion Emphasis

Graduate Study

The Department of Music offers programs leading to the Master of Music in Performance and to the Master of Music Education.

The following prerequisites and credit hours will pertain to individual lessons for all the instruments and voice listed below. All students enrolled in MUSC 5080 through MUSC 5670 levels will be required to take a jury examination at the end of the semester to determine, in part, the final grade. (See current fee schedule for listing of fees in Individual Lessons.)

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this *Catalog*, the Department of Music requires that applicants for graduate programs submit supplementary documentation of their preparation for advanced study in music.

Those interested in graduate study in music are encouraged to contact the Graduate Studies Coordinator for the Department of Music, Dr. Beth Vanderborgh (bvander@uwyo.edu), or the Area Coordinator for each instrument or voice cited on the Department of Music website (www.uwyo.edu/music/).

In order to apply, please submit the following via the University of Wyoming's online application system (www.uwyo.edu/admissions/apply.html):

- three letters of recommendation
- the Graduate Teaching Assistantship application
- academic transcripts

A minimum undergraduate cumulative GPA of 3.000 is required. The GRE is not required for admission consideration.

All accepted graduate students in the Mast of Music (MM) or Master of Music Education (MME) programs will take the Graduate Entrance Examinations in music history and music theory prior to matriculation. If a student does not pass one or more sections, they must take an online refresher course prior to undertaking advanced coursework.

International applicants who are not native English speakers must submit TOEFL or IELTS scores (TOEFL minimum = 76, IELTS minimum = 6.5). If an international applicant wishes to be considered for a Graduate Teaching Assistantship, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center if you have questions regarding the OPI (www.uwyo.edu/elc/international-teaching-assistants/graduate_admissions/index.html).

Applicants for the MM program should also request an audition and apply for music scholarship consideration via the Audition and Scholarships link found on the Graduate page of the Department of Music website (www.uwyo.edu/music/graduate_students/index.html). Applicants for the MME program should send their supporting documents (video of teaching/rehearsing, statement of music education philosophy, writing sample) directly to Dr. Crystal Sieger, Music Education Coordinator (csieger@uwyo.edu).

Master of Music Education

An earned, documented Bachelor of Music Education degree from an accredited institution of higher learning.

One year of teaching experience plus: An active background in music education, A DVD of classroom teaching and/or rehearsing,

A one- to three-page statement of music education philosophy,

Three letters of recommendation, one from an immediate supervisor, of teaching effectiveness.

A writing sample from an extensive undergraduate research paper.

Learning Outcomes

1. Students will demonstrate the advanced musical and pedagogical knowledge and research/writing skills necessary to enhance their teaching abilities in a P-16 vocal and/or instrumental teaching position.
2. Students will demonstrate the advanced musical and pedagogical knowledge and research/writing/and communication skills necessary to solve contemporary music problems.

Master of Music in Performance

An earned, documented bachelor of music performance or bachelor of arts from an accredited institution of higher learning.

Live audition (preferred), live remote video audition, or links to an online video demonstrating:

A strong sense of musicality, Technical proficiency, Stylistically correct performance practices in at least three historical periods, where applicable,

A working knowledge of the standard repertoire,

Also, a portfolio of work showing concentrated activity on the major instrument or voice area.

Learning Outcomes

1. Graduate students will be excellent performers on voice or instrument.
2. Graduate students will demonstrate the advanced musical and pedagogical knowledge and research writing skills necessary to begin their professional performing career and/or demonstrate their readiness to teach at the college and/or university level and/or pursue
doctoral degrees.

Program Specific Graduate Assistantships

Graduate assistantships are awarded on a competitive basis to defray some of the costs of graduate study and to provide practical experience working under the guidance of faculty members.

Criteria that are taken into account in awarding assistantships include: academic preparation, performing ability, and special skills that would prove valuable in carrying out the duties of the assistantship, as well as, needs of the department.

To be considered for a graduate assistantship, the candidate must be fully admitted through the university. The application for an assistantship is accessed via the UW Graduate Admissions application. After considering the merits of the application, the department then nominates candidates to the university. Applications for assistantships are due by February 15.

Program Specific Degree Requirements

Master's Programs

Each of the degree programs consists of 30 semester hours of work composed of the following elements:

Basic music core (11 hours)

MUSC 5310. Bibliographical Research, 2 hours

Upper-division music history, 3 to 6 hours

Upper-division music theory, 3 to 6 hours

Major area courses (12-16 hours)

Thesis requirement (Plan A, four hours); (Plan B, zero hours)

The thesis requirement may be fulfilled under the Plan B paper/lecture-recital as appropriate to the specific degree program. A proposal for a thesis or Plan B paper must be submitted to and approved by the student's graduate committee chair.

Electives (0 to 7 hours)

Master of Music Education Plan A or Plan B

To earn a Master of Music Education, students must complete the following requirements:

Basic music core, (11 hours)

Major area courses (12 - 15 hours)

EDRE 5530. Introduction to Research, 3 hours

MUSC 5760. Music Education Seminar, 2 hours

MUSC 5720. Music Supervision, 2 hours

Music education electives, 5-8 hours

Thesis requirement (0 to 4 hours) Plan A:

MUSC 5960. Thesis Research, four hours (the thesis must be on a music education topic), or

Plan B: Plan B paper, plus extra courses, 0 hours Electives (4 to 7 hours)

Master of Music in Performance Plan B

To earn a Master of Music in Performance, students must complete the following requirements:

Basic music core (11 hours minimum)

Major area courses (16 hours minimum)

MUSC 5480-5670. Private Lessons in major instrument or voice. A minimum of 8 hours.

MUSC 5770-5890. Ensembles, 2 hours

MUSC 5680. Graduate Recital, 2 hours.

A faculty jury must approve a recital given for credit one month prior to the performance. The faculty jury will determine the grade after the performance.

MUSC 5390. Performance Practice and Interpretation, 2 hours

MUSC 5320. Advanced Seminar, 3 hours MUSC 4***. Pedagogy (instrument specific), 2 hours

Requirement in lieu of thesis:

Plan B paper, or 1-hour lecture-recital

Foreign language requirement (voice majors only). Singers must demonstrate acceptable proficiency in singing in Italian, German, French, and English.

Electives (0 to 3 hours)

Both degrees require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

Music (MUSC)

Individual Lessons: All students enrolled in MUSC 2080 through MUSC 5670 levels will be required to take a jury examination at the end of the semester to determine, in part, the final grade. (See current fee schedule for listing of fees in individual lessons.)

Students must receive a "C" or better in all courses designated MUSC to satisfy department degree requirements. A student's transfer courses in music must also reflect a "C" or better to be accepted for credit.

USP Codes are listed in brackets by the 2003 USP code followed by the 2015 USP code (e.g. [QB♦Q]).

Major

Jazz Performance, B.M.

The BM in Jazz Performance is a jazz intense professional degree intended to prepare students for graduate school as well as a career in performing music. Acceptance to the program is by audition only.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Jazz Performance, B.M.: 120 Credits

Music Core: 56 Credits

- Students must complete at least one ensemble per semester enrolled, total 8.

MUSC0200 - Music Convocation

Credits: 0
Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.

Students must complete 8 semesters of Convocation, 1 each semester they are in residence.

MUSC1290 - Class Piano I

Credits: 1
Encompasses group instruction for the beginner at the keyboard. First semester of four-semester sequence. Enrollment limited to music or music education majors whose principal performance area is not piano.

When Offered (Offered fall semester)

MUSC1295 - Class Piano II

Credits: 1
Continues skills begun in MUSC 1290 including all major scales, beginning minor scales, prescribed chord progressions, harmonization, transposition, sight reading and repertoire.

When Offered (Offered spring semester)

Prerequisite: MUSC 1290 or successful completion of final exam requirements for MUSC 1290.

MUSC1030 - Written Theory I

Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.

MUSC1035 - Aural Theory I

Credits: 1

First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3

Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II

Credits: 1

Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

MUSC2030 - Written Theory III

Credits: 3

First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1

First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3

Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC1003 - Historical Perspectives in Music I

Credits: 3

The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3I, U3L

Prerequisite: Music majors and minors, or by permission of the instructor.

MUSC2050 - Historical Perspectives in Music II

Credits: 3

Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA

Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III

Credits: 3

Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

MUSC4070 - Conducting

Credits: 3

Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

Prerequisite: MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

MUSC3255 - Sophomore Qualifying Performance Jury

Credits: 0

An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

Prerequisite: 4 semesters of private instruction, consent of instructor.

- One hour of Applied Lessons on the students major instrument must be taken every semester starting at the 2000 level.
MUSC 2*** Applied Lessons II: 4 Credits
MUSC 3*** Applied Lessons III: 4 Credits
MUSC 4*** Applied Lessons IV: 4 Credits
MUSC 5*** Applied Lessons V: 4 Credits

Instrumental Emphasis: 2 Credits

MUSC4615 - Instrumental Pedagogy

Credits: 2

Surveys teaching materials in solo and chamber literature, techniques, practices, and methods for applicable instrument.

Prerequisite: 8 credit hours of individual study in a specific instrument.

Jazz Core Requirements: 11 Credits

MUSC3025 - Fundamentals of Jazz Improvisation

Credits: 2

Continuation of Jazz Aural Theory IV, MUSC 1045. More advanced topics will be covered and more challenging repertoire will be explored. A strong emphasis will be placed on common practice techniques in mainstream jazz.

Prerequisite: MUSC 2045.

MUSC4020 - Advanced Jazz Improvisation

Credits: 2

Continuation of Fundamentals of Jazz and Improvisation , MUSC 3025. Students will learn the harmonic and melodic language of bebop and hard bop through performance and composition of tunes in these idioms.

Prerequisite: MUSC 3025.

MUSC4025 - Jazz Composition and Arranging

Credits: 2

Continuation of Advanced Jazz Improvisation , MUSC 4020. Students explore developments in jazz improvisation and composition since 1960. Advanced theoretical concepts are covered in lectures and workshop sessions.

Prerequisite: MUSC 4020.

MUSC4350 - History and Literature of Jazz

Credits: 3

Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H

Prerequisite: consent of instructor.

MUSC4380 - Jazz Techniques

Credits: 2

Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)

Prerequisite: MUSC 2035.

Upper Division Music Electives: 9 Credits

MUSC3015 - Introduction to the Music of the World's Peoples

Credits: 3

Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Cross Listed ANTH 3015.

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Former Course Number [2015]

Prerequisite: MUSC 1000 or permission of instructor and WA.

MUSC4000 - Careers in Music

Credits: 2

Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4315 - America's Ethnic Music

Credits: 3

Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D

A&S College Core 2015 ASD

Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3

An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3

Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4490 - History of Rock and Roll

Credits: 3

This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

MUSC4650 - Keyboard Literature

Credits: 3

An overview of solo ensemble keyboard literature from the 1600s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

Restricted BM MMM MME PC; MUSC 5655 Graduate Standing

Prerequisite: MUSC 4655, MUSC 2050, MUSC 2055

MUSC4651 - String Solo Literature

Credits: 3

Provide a survey of the masterpieces of string solo literature (violin, viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4750 - Marching Band Techniques

Credits: 1

Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

MUSC4790 - Choral Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.

MUSC4990 - Topics in:

Credits: 1-12

Max Credit (Max. 12)

Encompasses various topics in music. Specific subjects vary from year to year as course is often taught by distinguished visiting artists and lecturers or music faculty. Presents topics of special interest to music majors, graduate students and music educators. Please check class schedule for course titles each semester.

Prerequisite: consent of instructor.

MUSC5035 - Advanced Theory

Credits: 3

To further understanding of chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combing historical and theoretical elements in viewing the work as a whole.

Dual Listed MUSC 4035

Prerequisite: MUSC 2030 and MUSC 2035, music majors only; (MUSC 5035): graduate standing.

A&S Core

A&S Diversity - 3 Credits

A&S Global - 3 Credits

General Electives: 6 Credits

Music Education, B.M.

The **BM in Music Education** is a professional degree intended to prepare students for careers as K-12 music educators. Acceptance to the program is by audition only.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

H- - Human Culture (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Music Education: B.M.

Music Core: 43 Credits

- Students must complete at least one ensemble per semester enrolled, total 7.

MUSC0200 - Music Convocation

Credits: 0
Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.

MUSC1030 - Written Theory I

Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.

MUSC1035 - Aural Theory I

Credits: 1

First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3

Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II

Credits: 1

Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

MUSC2030 - Written Theory III

Credits: 3

First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1

First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3

Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC2045 - Aural Theory IV

Credits: 1

Second semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 2035.

MUSC1003 - Historical Perspectives in Music I

Credits: 3

The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3I, U3L

Prerequisite: Music majors and minors, or by permission of the instructor.

MUSC2050 - Historical Perspectives in Music II

Credits: 3

Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA

Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III

Credits: 3

Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

MUSC2390 - Piano Literacy Exam

Credits: 0

The Piano Literacy test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2390 a maximum of two times. Consult the Music Department Handbook for specific requirements.

Restricted MUSIC, BA and BM Instrumental Performance only

- Students who are Brass, Woodwind, and Percussion Emphasis may fulfill this requirement by passing Class Piano 1 and 2 with a B or higher.
OR

MUSC2395 - Piano Proficiency

Credits: 0

Piano proficiency test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2395 a maximum of 2 times. Consult the Music Department Handbook for specific requirements.

- Required for all Vocal and String emphasis students. Class Piano 1-4 is recommended to prepare for this exam.

MUSC4070 - Conducting

Credits: 3

Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

Prerequisite: MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

MUSC3255 - Sophomore Qualifying Performance Jury

Credits: 0

An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

Prerequisite: 4 semesters of private instruction, consent of instructor.

MUSC4155 - Senior Music Education Recital

Credits: 0

Music Education students perform a recital which may be a part of a Convocation or a separate performance. Consult your studio teacher for individual studio requirements.

Prerequisite: senior standing and studio teacher consent.

- Applied lessons are required each semester of residency:
MUSC 2*** Applied Lessons II: 2 Credits
MUSC 3*** Applied Lessons III: 2 Credits
MUSC 4*** Applied Lessons IV: 2 Credits
MUSC 5*** Applied Lessons V: 2Credits

Music Education Core: 13 Credits

Prerequisite: MUSC 1040 & 1045

MUSC1025 - Introduction to Music Education

Credits: 2

Introduces music teacher education. Includes overview of vocal and instrumental music education and teaching processes in grade levels K-12. Requires on-site visits and observations of music programs.

When Offered (Offered spring semester)
Former Course Number [1020]

Prerequisite: music majors only.

MUSC1312 - Public School Tech: Brass

Credits: 2

This course is designed to teach the fundamentals of brass pedagogy and performance for music education majors. The course consists of two components applied study on brass instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1322 - Public School Tech: Percussion

Credits: 2

This course is designed to teach the fundamentals of percussion pedagogy and performance for music education majors. The course consists of two components applied study on percussion instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1332 - Public School Tech: Strings

Credits: 2

This course is designed to teach the fundamentals of string pedagogy and performance for music education majors. The course consists of two components applied study on string instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1340 - Public School Methods: Voice I

Credits: 1

Max Credit (Max. 2)

Encompasses group instruction in vocal methods for music education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1352 - Public School Tech: Woodwinds

Credits: 2

This course is designed to teach the fundamentals of woodwind pedagogy and performance for music education majors. The course consists of two components applied study on woodwind instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1360 - Public School Methods: Guitar

Credits: 1

Max Credit (Max. 2)

Prerequisite: MUSC 1040, MUSC 1045.

MUSC3265 - Music Education Proficiency Review

Credits: 0

This course is required for entrance into upper-division Music Education coursework. The review will assess competency in oral and written communication skills, preliminary teacher performance, sight singing, and error detection. Completion is in the sophomore year or in the first semester for transfer students.

Prerequisite: sophomore standing.

MUSC4620 - Practicum in Music Education

Credits: 1

Provides opportunity to gain experience in music classroom in area public schools. Includes work on meeting educational standards of Wyoming necessary to begin student teaching and continued work on developing a teaching portfolio.

Prerequisite: MUSC 1050 and junior status.

Emphasis: Choose One, 4-5 credits

String Emphasis: 4 credits

- String majors must take lessons on a secondary string instrument. 2 credits

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

Vocal Emphasis: 4 credits

MUSC2320 - Diction for Singers I

Credits: 2

Studies phonetic sounds of English and Italian.

When Offered (Offered fall semester)

MUSC4620 - Practicum in Music Education

Credits: 1

Provides opportunity to gain experience in music classroom in area public schools. Includes work on meeting educational standards of Wyoming necessary to begin student teaching and continued work on developing a teaching portfolio.

Prerequisite: MUSC 1050 and junior status.

Brass, Woodwind, and Percussion Emphasis: 5 credits

MUSC4380 - Jazz Techniques

Credits: 2

Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)

Prerequisite: MUSC 2035.

MUSC4750 - Marching Band Techniques

Credits: 1

Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

Professional Education Requirements: 33 Credits

EDST2450 - Foundations of Development and Learning

Credits: 3

Introduces students to the essential understandings of child/adolescent development and learning. The course emphasizes various theories and concepts related to student development with attention to cognitive, social, and physical perspectives.

When Offered (Offered each semester)

USP 2003-2014 Code U3CS

USP 2015 Code U5H

Former Course Number [EDFD 2450]

Prerequisite: 2.500 UW institutional GPA.

EDEX2484 - Introduction to Special Education

Credits: 3

Designed to meet the needs of education majors for a required course in special education. Students will explore the history of, understanding of and services for individuals with low/high incidence disabilities.

Prerequisite: EDST 2450 completed with a C or better and an institutional GPA of 2.50.

MUSC4455 - Elem General Music Methods

Credits: 3

This course is designed to prepare students for a career in K-6 music teaching while emphasizing the need for music teachers to recognize diverse student needs, including those unique qualities brought into the classroom by marginalized populations.

A&S College Core 2015 ASD

Restricted Restricted to Music Education majors.

Prerequisite: Completion of MUSC 2040, MUSC 2045 and MUSC 2055. Concurrent enrollment in MUSC 4705.

MUSC4460 - Choral Music Methods

Credits: 3

This course is designed to help pre-professional music educators gain tools for teaching secondary choral music. Topics to be explored include choral literature, methodology involving strengthening musicianship, rehearsal techniques, and issues pertaining to the development of a choral ensemble program.

Restricted Restricted to Music Education majors.

Prerequisite: Completion of MUSC 2040, MUSC 2045 and MUSC 2055. Concurrent Enrollment in MUSC 4715 for choral emphasis students.

MUSC4465 - Instrumental Music Methods

Credits: 3

Based on a comprehensive instrumental music education model, this course acquaints students with curriculum development, instructional planning, and materials and techniques designed for teaching musical concepts and skills in instrumental ensemble and class lesson settings.

USP 2015 Code U5C3

Restricted Restricted to Music Education majors.

Prerequisite: Completion of MUSC 2040, MUSC 2045 and MUSC 2055. Concurrent enrollment in MUSC 4715 for instrumental emphasis students.

MUSC4705 - Elementary Music Ed Practicum

Credits: 1

Practicum experience is integral to development as a music teacher. As part of the Music Teaching Methods Sequence, pre-service music teachers will be immersed into authentic elementary and secondary music settings.

Restricted Restricted to Music Education majors.

Prerequisite: Concurrent enrollment with MUSC 4455 for instrumental emphasis students.

MUSC4715 - Secondary Music Ed Practicum

Credits: 1

Practicum experience is integral to development as a music teacher. As part of the Music Teaching Methods Sequence, pre-service music teachers will be immersed into authentic elementary and secondary music settings.

Restricted Restricted to Music Education majors.

Prerequisite: Concurrent enrollment with MUSC 4460 or MUSC 4465.

MUSC4700 - Elementary Student Teaching in Music

Credits: 8

The final professional academic semester of the teacher education program. A full-time residency with an elementary mentor teacher.

Prerequisite: 2.750 cumulative GPA, 3.000 GPA in major content courses, completion of all content courses, successful completion of Phase IIIa specific pedagogy and practicum, complete review of the prospective teacher's record.

MUSC4710 - Secondary Student Teaching in Music

Credits: 8

The final professional academic semester of the teacher education program. A full-time residency with a secondary mentor teacher.

Prerequisite: 2.750 cumulative GPA, 3.000 GPA in major content courses, completion of all content courses, successful completion of Phase IIIa specific pedagogy and practicum, complete review of the prospective teacher's record.

MUSC4070 - Conducting

Credits: 3

Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

Prerequisite: MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

MUSC3500 - Junior Recital

Credits: 0

Students will perform a 30 minute (minimum) recital of appropriate repertoire. Consult your studio teacher for individual studio requirements.

Prerequisite: 4 semesters of private instruction, consent of instructor.

MUSC4590 - Senior Recital

Credits: 2

Max Credit (Max. 4)

Prerequisite: at least 14 semester hours in one performance field and senior standing.

Vocal Emphasis: 6 Credits

MUSC2320 - Diction for Singers I

Credits: 2

Studies phonetic sounds of English and Italian.

When Offered (Offered fall semester)

MUSC2325 - Diction for Singers II

Credits: 2

Studies phonetic sounds of French and German. (Usually offered spring semester)

MUSC4635 - Vocal Pedagogy

Credits: 2

This specialized course addresses anatomy and physiology of the vocal instrument and the scientific principles surrounding it, studio teaching techniques, student learning styles, repertoire assignment, and all aspects of establishing a private voice studio. The last quarter of the class includes an in-class, supervised teaching unit. Students enrolled in the graduate level (5635) will undertake an extensive research paper/project and additional teaching.

Dual Listed MUSC 5635.

When Offered (Offered alternate spring semesters)

Former Course Number [4610]

Prerequisite: 8 credits of voice or permission of instructor.

Upper Division Music Electives: 16 Credits

MUSC3015 - Introduction to the Music of the World's Peoples

Credits: 3

Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Cross Listed ANTH 3015.

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Former Course Number [2015]

Prerequisite: MUSC 1000 or permission of instructor and WA.

MUSC3025 - Fundamentals of Jazz Improvisation

Credits: 2

Continuation of Jazz Aural Theory IV, MUSC 1045. More advanced topics will be covered and more challenging repertoire will be explored. A strong emphasis will be placed on common practice techniques in mainstream jazz.

Prerequisite: MUSC 2045.

MUSC4000 - Careers in Music

Credits: 2

Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4020 - Advanced Jazz Improvisation

Credits: 2

Continuation of Fundamentals of Jazz and Improvisation , MUSC 3025. Students will learn the harmonic and melodic language of bebop and hard bop through performance and composition of tunes in these idioms.

Prerequisite: MUSC 3025.

MUSC4025 - Jazz Composition and Arranging

Credits: 2

Continuation of Advanced Jazz Improvisation , MUSC 4020. Students explore developments in jazz improvisation and composition since 1960. Advanced theoretical concepts are covered in lectures and workshop sessions.

Prerequisite: MUSC 4020.

MUSC4040 - Composition

Credits: 2
Max Credit (Max. 12)

Prerequisite: MUSC 4010.

MUSC4315 - America's Ethnic Music

Credits: 3
Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D
A&S College Core 2015 ASD
Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3
An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3
Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4380 - Jazz Techniques

Credits: 2
Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)
Prerequisite: MUSC 2035.

MUSC4490 - History of Rock and Roll

Credits: 3
This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

MUSC4650 - Keyboard Literature

Credits: 3

An overview of solo ensemble keyboard literature from the 1600 s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

Restricted BM MMM MME PC; MUSC 5655 Graduate Standing

Prerequisite: MUSC 4655, MUSC 2050 , MUSC 2055

MUSC4651 - String Solo Literature

Credits: 3

Provide a survey of the masterpieces of string solo literature (violin,viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4750 - Marching Band Techniques

Credits: 1

Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

MUSC4790 - Choral Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.

MUSC4360 - Fundamentals of Audio for Music Production

Credits: 3

Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.

B.M. Performance, Keyboard Emphasis: 120 Hours Total

Music Core: 56 Hours

MUSC0200 - Music Convocation

Credits: 0

Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.

- Students must be enrolled in Convocation every semester they are enrolled, maximum of 8.

MUSC1030 - Written Theory I

Credits: 3

First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.

MUSC1035 - Aural Theory I

Credits: 1

First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3

Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II

Credits: 1

Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

MUSC2030 - Written Theory III

Credits: 3

First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1

First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3

Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC2045 - Aural Theory IV

Credits: 1

Second semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 2035.

MUSC1003 - Historical Perspectives in Music I

Credits: 3

The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3I, U3L

Prerequisite: Music majors and minors, or by permission of the instructor.

MUSC2050 - Historical Perspectives in Music II

Credits: 3

Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA

Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III

Credits: 3
Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

MUSC2395 - Piano Proficiency

Credits: 0

Piano proficiency test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2395 a maximum of 2 times. Consult the Music Department Handbook for specific requirements.

MUSC3255 - Sophomore Qualifying Performance Jury

Credits: 0

An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

Prerequisite: 4 semesters of private instruction, consent of instructor.

- Applied lessons are required each semester of residency:
MUSC 2*** Applied Lessons II: 4 Credits
MUSC 3*** Applied Lessons III: 4 Credits
MUSC 4*** Applied Lessons IV: 4 Credits
MUSC 5*** Applied Lessons V: 4 Credits

MUSC4070 - Conducting

Credits: 3

Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

Prerequisite: MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

MUSC4040 - Composition

Credits: 2

Max Credit (Max. 12)

Prerequisite: MUSC 4010.

MUSC1280 - Collaborative Piano I

Credits: 1-2

Max Credit (Max. 8)

Encompasses supervised practice in the art of collaborative piano playing. Discusses traditional usages as applicable to various schools and periods of vocal and instrumental duo literature.

Prerequisite: audition required.

- Ensembles: MUSC 1280 is intended for freshman and sophomores; MUSC 3280 is intended for juniors and seniors. You must be registered for a minimum of one ensemble per semester.

MUSC3280 - Collaborative Piano II

Credits: 1-2

Max Credit (Max. 8)

Encompasses supervised practice in the art of collaborative piano playing. Discusses traditional usages as applicable to various schools and periods of vocal and instrumental duo literature.

Prerequisite: audition required.

MUSC3500 - Junior Recital

Credits: 0

Students will perform a 30 minute (minimum) recital of appropriate repertoire. Consult your studio teacher for individual studio requirements.

Prerequisite: 4 semesters of private instruction, consent of instructor.

MUSC4590 - Senior Recital

Credits: 2

Max Credit (Max. 4)

Prerequisite: at least 14 semester hours in one performance field and senior standing.

Keyboard Emphasis: 5 Credits

MUSC4625 - Piano Pedagogy

Credits: 2

Max Credit (Max. 2)

This specialized course addresses the teaching of piano to children with special emphasis on the development of correct technique, studio teaching techniques, student learning styles, repertoire assignment, and all aspects of establishing a private studio. The last quarter of the class includes an in-class, supervised teaching unit.

Dual Listed MUSC 5625.

Former Course Number [4600]

Prerequisite: 8 credit hours of piano study.

MUSC4650 - Keyboard Literature

Credits: 3

An overview of solo ensemble keyboard literature from the 1600 s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

Restricted BM MMM MME PC; MUSC 5655 Graduate Standing

Prerequisite: MUSC 4655, MUSC 2050 , MUSC 2055

Upper Division Music Electives: 17 Hours

MUSC3015 - Introduction to the Music of the World's Peoples

Credits: 3

Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Cross Listed ANTH 3015.

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Former Course Number [2015]

Prerequisite: MUSC 1000 or permission of instructor and WA.

MUSC3025 - Fundamentals of Jazz Improvisation

Credits: 2

Continuation of Jazz Aural Theory IV, MUSC 1045. More advanced topics will be covered and more challenging repertoire will be explored. A strong emphasis will be placed on common practice techniques in mainstream jazz.

Prerequisite: MUSC 2045.

MUSC4000 - Careers in Music

Credits: 2

Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4020 - Advanced Jazz Improvisation

Credits: 2

Continuation of Fundamentals of Jazz and Improvisation , MUSC 3025. Students will learn the harmonic and melodic language of bebop and hard bop through performance and composition of tunes in these idioms.

Prerequisite: MUSC 3025.

MUSC4025 - Jazz Composition and Arranging

Credits: 2

Continuation of Advanced Jazz Improvisation , MUSC 4020. Students explore developments in jazz improvisation and composition since 1960. Advanced theoretical concepts are covered in lectures and workshop sessions.

Prerequisite: MUSC 4020.

MUSC4315 - America's Ethnic Music

Credits: 3

Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D

A&S College Core 2015 ASD

Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3

An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3

Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4350 - History and Literature of Jazz

Credits: 3

Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H

Prerequisite: consent of instructor.

MUSC4380 - Jazz Techniques

Credits: 2

Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)

Prerequisite: MUSC 2035.

MUSC4490 - History of Rock and Roll

Credits: 3

This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

MUSC4651 - String Solo Literature

Credits: 3

Provide a survey of the masterpieces of string solo literature (violin,viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4750 - Marching Band Techniques

Credits: 1

Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

MUSC4790 - Choral Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.

MUSC4360 - Fundamentals of Audio for Music Production

Credits: 3

Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.

B.M. Performance, String Emphasis: 120 Total Hours

Music Core: 56 Credits

- Ensembles: 1 per semester, minimum 8

MUSC0200 - Music Convocation

Credits: 0

Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.

- Students must be enrolled in Convocation every semester they are enrolled, maximum of 8.

MUSC1030 - Written Theory I

Credits: 3

First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.

MUSC1035 - Aural Theory I

Credits: 1

First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3

Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II

Credits: 1

Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

MUSC2030 - Written Theory III

Credits: 3

First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1

First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3

Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC2045 - Aural Theory IV

Credits: 1

Second semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 2035.

MUSC1003 - Historical Perspectives in Music I

Credits: 3

The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3I, U3L

Prerequisite: Music majors and minors, or by permission of the instructor.

MUSC2050 - Historical Perspectives in Music II

Credits: 3

Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA

Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III

Credits: 3

Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

MUSC2395 - Piano Proficiency

Credits: 0

Piano proficiency test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2395 a maximum of 2 times. Consult the Music Department Handbook for specific requirements.

- Class Piano 1-4 is highly recommended for students with little or no piano experience. All music majors must pass a piano proficiency test during their sophomore year (MUSC 2395). If a student opts not to take Class Piano, then four (4) hours of elective credits must be taken to ensure 120 hours for graduation.

MUSC3255 - Sophomore Qualifying Performance Jury

Credits: 0

An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

Prerequisite: 4 semesters of private instruction, consent of instructor.

MUSC4330 - Undergraduate Seminar

Credits: 3

An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3

Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4350 - History and Literature of Jazz

Credits: 3

Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H

Prerequisite: consent of instructor.

MUSC4380 - Jazz Techniques

Credits: 2

Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)

Prerequisite: MUSC 2035.

MUSC4490 - History of Rock and Roll

Credits: 3

This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

MUSC4650 - Keyboard Literature

Credits: 3

An overview of solo ensemble keyboard literature from the 1600 s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

Restricted BM MMM MME PC; MUSC 5655 Graduate Standing

Prerequisite: MUSC 4655, MUSC 2050 , MUSC 2055

MUSC4651 - String Solo Literature

Credits: 3

Provide a survey of the masterpieces of string solo literature (violin,viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4750 - Marching Band Techniques

Credits: 1

Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

MUSC4790 - Choral Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.

MUSC4360 - Fundamentals of Audio for Music Production

Credits: 3

Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.

Music, B.A.

The **BA in Music** is a broad liberal arts degree with a 58-credit core music curriculum. Majors have the freedom to explore the potential for future careers in the music and arts industry such as arts management, entrepreneurship, and audio technology.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Music Core: 40 Credits

- Students must complete at least one ensemble per semester enrolled, total 8.

MUSC0200 - Music Convocation

Credits: 0
Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.

- All music majors must enroll in and successfully complete Convocation each semester they are enrolled, maximum of 8.

MUSC1030 - Written Theory I

Credits: 3

First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.

MUSC1035 - Aural Theory I

Credits: 1

First semester of a one-year series. Studies ear training and sight singing.

MUSC2030 - Written Theory III

Credits: 3

First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1

First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC1003 - Historical Perspectives in Music I

Credits: 3

The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3I, U3L

Prerequisite: Music majors and minors, or by permission of the instructor.

MUSC2050 - Historical Perspectives in Music II

Credits: 3

Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA

Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III

Credits: 3
Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

MUSC2390 - Piano Literacy Exam

Credits: 0

The Piano Literacy test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2390 a maximum of two times. Consult the Music Department Handbook for specific requirements.

Restricted MUSIC, BA and BM Instrumental Performance only

- The Piano Literacy Exam must be completed by the end of Sophomore year. It may be substituted by passing Class Piano 1 and 2 with a B or higher.

MUSC3255 - Sophomore Qualifying Performance Jury

Credits: 0

An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

Prerequisite: 4 semesters of private instruction, consent of instructor.

- Students must be enrolled in instrument specific lessons every semester they are enrolled. They must complete the following:
 - MUSC 2*** Applied Lessons II, 2 credits
 - MUSC 3*** Applied Lessons III, 2 Credits
 - MUSC 4*** Applied Lessons IV, 2 Credits
 - MUSC 5*** Applied Lessons V, 2 Credits

Upper Division Electives: 18 Credits

MUSC3015 - Introduction to the Music of the World's Peoples

Credits: 3

Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Cross Listed ANTH 3015.

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Former Course Number [2015]

Prerequisite: MUSC 1000 or permission of instructor and WA.

MUSC3025 - Fundamentals of Jazz Improvisation

Credits: 2

Continuation of Jazz Aural Theory IV, MUSC 1045. More advanced topics will be covered and more challenging repertoire will be explored. A strong emphasis will be placed on common practice techniques in mainstream jazz.

Prerequisite: MUSC 2045.

MUSC4000 - Careers in Music

Credits: 2

Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4020 - Advanced Jazz Improvisation

Credits: 2

Continuation of Fundamentals of Jazz and Improvisation , MUSC 3025. Students will learn the harmonic and melodic language of bebop and hard bop through performance and composition of tunes in these idioms.

Prerequisite: MUSC 3025.

MUSC4025 - Jazz Composition and Arranging

Credits: 2

Continuation of Advanced Jazz Improvisation , MUSC 4020. Students explore developments in jazz improvisation and composition since 1960. Advanced theoretical concepts are covered in lectures and workshop sessions.

Prerequisite: MUSC 4020.

MUSC4040 - Composition

Credits: 2

Max Credit (Max. 12)

Prerequisite: MUSC 4010.

MUSC4315 - America's Ethnic Music

Credits: 3

Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D
A&S College Core 2015 ASD
Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3

An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3

Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4350 - History and Literature of Jazz

Credits: 3

Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H

Prerequisite: consent of instructor.

MUSC4380 - Jazz Techniques

Credits: 2

Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)

Prerequisite: MUSC 2035.

MUSC4490 - History of Rock and Roll

Credits: 3

This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

MUSC4590 - Senior Recital

Credits: 2

Max Credit (Max. 4)

Prerequisite: at least 14 semester hours in one performance field and senior standing.

MUSC4650 - Keyboard Literature

Credits: 3

An overview of solo ensemble keyboard literature from the 1600 s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

Restricted BM MMM MME PC; MUSC 5655 Graduate Standing

Prerequisite: MUSC 4655, MUSC 2050 , MUSC 2055

MUSC4651 - String Solo Literature

Credits: 3

Provide a survey of the masterpieces of string solo literature (violin,viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4750 - Marching Band Techniques

Credits: 1

Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

MUSC4790 - Choral Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.

MUSC4990 - Topics in:

Credits: 1-12
Max Credit (Max. 12)

Encompasses various topics in music. Specific subjects vary from year to year as course is often taught by distinguished visiting artists and lecturers or music faculty. Presents topics of special interest to music majors, graduate students and music educators. Please check class schedule for course titles each semester.

Prerequisite: consent of instructor.

MUSC5035 - Advanced Theory

Credits: 3
To further understanding of chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combining historical and theoretical elements in viewing the work as a whole.

Dual Listed MUSC 4035

Prerequisite: MUSC 2030 and MUSC 2035, music majors only; (MUSC 5035): graduate standing.

A&S Core

A&S Diversity - 3 Credits

A&S Global - 3 Credits

Minor

Music Minor: 18 Credits

A **Minor in Music** consists of 18 credit hours intended to broaden a student's musical skills as well as foster musical talents while they are pursuing a separate major. Acceptance to the minor is by audition only.

Required Courses

- **Ensembles:** Minimum 2 semesters required
- **Applied Lessons:** Complete at least 2 hours of Applied Lessons (2 semesters, minimum 30 minutes each)

MUSC0200 - Music Convocation

Credits: 0
Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.
2 Semesters Required

MUSC1030 - Written Theory I

Credits: 3

First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.

MUSC1035 - Aural Theory I

Credits: 1

First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3

Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II

Credits: 1

Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

Choose one of the following:

MUSC2050 - Historical Perspectives in Music II

Credits: 3

Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA

Prerequisite: MUSC 1003, or by permission of instructor.

OR

MUSC2055 - Historical Perspectives III

Credits: 3

Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

Choose at least 3 credits from the following. Final credit hours for the minor must equal 18.

MUSC3015 - Introduction to the Music of the World's Peoples

Credits: 3

Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Graduate

Music Education, M.M.

Each of the degree programs consists of 30 semester hours of work composed of the following elements:

Plan A or Plan B

To earn a Master of Music Education, students must complete the following requirements:

Basic Music Core (11 Hours)

No more than 12 credits can be counted from 4000-level courses toward any graduate program of study.

MUSC5310 - Music Research Methods

Credits: 2

Prepares students to be knowledgeable consumers of music and interdisciplinary information. Topics include the musicology research process, information ethics, and critical analyses and integration of information sources into writing. Information literacy principles and research techniques equip students for both graduate-level music research and the post-graduate, professional world.

Prerequisite: graduate standing in music.

- Choose a total of at least THREE courses from the following (minimum 9 credits from the following two categories):
- **Upper-Division Music History** (3-6 Credits):

MUSC4315 - America's Ethnic Music

Credits: 3

Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D

A&S College Core 2015 ASD

Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3

An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3

Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4350 - History and Literature of Jazz

Credits: 3

Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H

Prerequisite: consent of instructor.

MUSC4651 - String Solo Literature

Credits: 3

Provide a survey of the masterpieces of string solo literature (violin,viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4490 - History of Rock and Roll

Credits: 3

This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

MUSC5320 - Advanced Seminar

Credits: 2-6

Max Credit (Max. 6)

Such topics as The Music of J. S. Bach, The Chamber Music of Mozart, and Contemporary Music will be pursued and will terminate in oral reports and a research paper.

Prerequisite: MUSC 5310.

- **Upper-Division Theory** (3-6 hours):

MUSC5035 - Advanced Theory

Credits: 3

To further understanding of chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combining historical and theoretical elements in viewing the work as a whole.

Dual Listed MUSC 4035

Prerequisite: MUSC 2030 and MUSC 2035, music majors only; (MUSC 5035): graduate standing.

MUSC5340 - Advanced Composition

Credits: 1-4

Max Credit (Max. 6)

A project course to be conducted by individual appointment with the instructor. The result should be the production of a major work suitable for performance by one of the campus organizations. Evaluation is made by a faculty committee on completion and performance of the composition.

Prerequisite: 4 hours of MUSC 4040.

MUSC5350 - Advanced Analysis

Credits: 3

Consideration of the analytical techniques of Harder, Piston, and Schillinger for traditional music, of Hanson and Hindemith for modern tonal music, and of Schoenberg and Reti for serial music.

Prerequisite: graduate standing in music.

Major Area Courses (12-15 Hours)

EDRE5530 - Introduction To Research

Credits: 3

Basic concepts of educational research design, statistics, and measurement. The focus of the course is on reading and critiquing research articles, both quantitative and qualitative, and includes an introduction to statistics. Students learn to conduct a review of the literature relevant to a specific research problem.

Prerequisite: graduate standing.

MUSC5760 - Music Education Seminar

Credits: 2

A study and discussion of trends, objectives, and curricula of the various phases of music education.

MUSC5720 - Musical Supervision: Choral

Credits: 2

Examination of the administrative responsibilities of the music teacher, the music department chairman, and the district music supervisor in the public schools, as well as the responsibilities of a music festival chairman and officers of the state music educators association.

Prerequisite: graduate standing in music.

- Music education electives Credits: 5-8

Thesis Requirement (0-4 Hours)

Plan A

Four hours (the thesis must be on a music education topic)

MUSC5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

Plan B

The thesis requirement may be fulfilled under the Plan B paper/lecture-recital as appropriate to the specific degree program. A proposal for a thesis or Plan B paper must be submitted to and approved by the student's graduate committee chair.

- Plan B paper, plus extra courses Credits: 0

Electives (4 to 7 Hours)

Require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

Music Performance, M.M.

Each of the degree programs consists of 30 semester hours of work composed of the following elements

Plan B

To earn a Master of Music in Performance, students must complete the following requirements:

Basic Music Core (11 Hours Minimum)

No more than 12 credits can be counted from 4000-level courses toward any graduate program of study.

MUSC5310 - Music Research Methods

Credits: 2

Prepares students to be knowledgeable consumers of music and interdisciplinary information. Topics include the musicology research process, information ethics, and critical analyses and integration of information sources into writing. Information literacy principles and research techniques equip students for both graduate-level music research and the post-graduate, professional world.

Prerequisite: graduate standing in music.

- Choose a total of at least THREE courses from the following (minimum 9 credits from the following two categories):
- **Upper-Division Music History** (3-6 Credits):

MUSC4315 - America's Ethnic Music

Credits: 3

Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D

A&S College Core 2015 ASD

Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3

An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3

Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4350 - History and Literature of Jazz

Credits: 3

Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H

Prerequisite: consent of instructor.

MUSC4651 - String Solo Literature

Credits: 3

Provide a survey of the masterpieces of string solo literature (violin,viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4490 - History of Rock and Roll

Credits: 3

This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

MUSC5320 - Advanced Seminar

Credits: 2-6

Max Credit (Max. 6)

Such topics as The Music of J. S. Bach, The Chamber Music of Mozart, and Contemporary Music will be pursued and will terminate in oral reports and a research paper.

Prerequisite: MUSC 5310.

- **Upper-Division Theory** (3-6 hours):

MUSC5035 - Advanced Theory

Credits: 3

To further understanding of chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combing historical and theoretical elements in viewing the work as a whole.

Dual Listed MUSC 4035

Prerequisite: MUSC 2030 and MUSC 2035, music majors only; (MUSC 5035): graduate standing.

MUSC5340 - Advanced Composition

Credits: 1-4

Max Credit (Max. 6)

A project course to be conducted by individual appointment with the instructor. The result should be the production of a major work suitable for performance by one of the campus organizations. Evaluation is made by a faculty committee on completion and performance of the composition.

Prerequisite: 4 hours of MUSC 4040.

MUSC5350 - Advanced Analysis

Credits: 3

Consideration of the analytical techniques of Harder, Piston, and Schillinger for traditional music, of Hanson and Hindemith for modern tonal music, and of Schoenberg and Reti for serial music.

Prerequisite: graduate standing in music.

Major Area Courses (16 Hours Minimum)

- MUSC 5480 - MUSC 5670 Private Lessons in major instrument or voice Credits: 8 minimum
- MUSC 5700 - MUSC 5890 Ensembles Credits: 2

MUSC5680 - Graduate Recital

Credits: 2

A recital, vocal or instrumental and consisting of selections of advanced difficulty in matters of technique and interpretation, is presented under the direction of a staff member. Quality and content of recital must be approved by a faculty committee one month before the recital date, and the faculty committee will determine the final grade.

Prerequisite: graduate standing in music and consent of instructor.

MUSC5390 - Performance Practice and Interpretation

Credits: 2

A study of the inherited traditions of correct interpretation and performance as related to the various style periods in music.

Prerequisite: graduate standing in music.

MUSC5320 - Advanced Seminar

Credits: 2-6

Max Credit (Max. 6)

Such topics as The Music of J. S. Bach, The Chamber Music of Mozart, and Contemporary Music will be pursued and will terminate in oral reports and a research paper.

Prerequisite: MUSC 5310.

- MUSC 4*** - Pedagogy (instrument specific) Credits: 2

Requirement In Lieu of Thesis

Plan B paper, or 1-hour lecture-recital

Foreign Language Requirement

(voice majors only). Singers must demonstrate acceptable proficiency in singing in Italian, German, French, and English.

Electives (0 to 3 hours)

Require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

Certificate

Audio Technology Certificate: 12 Credits

The Audio Technology Certificate provides a basic understanding of audio principles and practical hands-on experience that allows one to enter the commercial music work force with a marketable skill set. Students will learn how to record and manipulate recorded sounds as well as provide live sound reinforcement for live concerts or events. A certificate may be pursued on its own or in conjunction with any university degree program.

Required Courses

MUSC4360 - Fundamentals of Audio for Music Production

Credits: 3

Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.

MUSC4365 - Recording Art and Technology

Credits: 3

Topics include history of music production, multi-track recording, digital audio workstations, digital editing, session management and production, mixing, mastering, and distribution.

MUSC4370 - Live Sound Reinforcement

Credits: 1

Max Credit 3

Topics include history of live sound reinforcement, analog audio, digital consoles, system checks, troubleshooting, and client relations. Students will build upon MUSC 4360 with focus on live sound reinforcement.

MUSC4990 - Topics in:

Credits: 1-12

Max Credit (Max. 12)

Encompasses various topics in music. Specific subjects vary from year to year as course is often taught by distinguished visiting artists and lecturers or music faculty. Presents topics of special interest to music majors, graduate students and music educators. Please check class schedule for course titles each semester.

Prerequisite: consent of instructor.

Audio Technology Practicum/Internship

Endorsement/Certificate

Art Entrepreneurship Certificate: 12 Credits

This certificate provides a basic understanding of marketing principles specific to the arts with practical hands-on experience that allows one to enter the workforce with a marketable skill set in the areas of art promotion and management.

Required Core Courses (All Emphases)

MUSC4001 - Music Entrepreneurship Seminar

Credits: 2

Further crystalizes successful business enterprise development introduced in ENTR 2700. Student will hone entrepreneurial skills in idea creation, business incubation, development, research, and commercialization.

ENTR2700 - Entrepreneurial Mindset

Credits: 3

This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

Prerequisite: COM1, sophomore class standing.

- Choose one of the following:

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

OR

MKT2100 - Introduction to Marketing

Credits: 3

An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

- **The internships below are variable, 1-2 credits, depending on department. Please see individual advisors for exact hours.**

Music Emphasis

MUSC4000 - Careers in Music

Credits: 2

Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4005 - Internship in Music Business

Credits: 1

Offers an evaluated and professional work experience in public or private organizations on assignments relating to student's career goals, allowing students to explore the relationship between theory and practice in their major.

Visual Arts Emphasis

ART4600 - Professional Practices and Strategies

Credits: 3

This course offers information to junior/senior level art majors in regards to: finding jobs in art, finding/applying for exhibition opportunities, applying/finding grant opportunities, furthering education including finding/applying for a Masters in art, and overall life possibilities after the completion of an undergraduate art degree. Writing is expected in the form of cover letters, resumes, artist statements, and project proposals.

USP 2015 Code U5C3

Prerequisite: ART 2000, junior or senior standing.

ART4400 - Internship

Credits: 1-3

Max Credit (Max. 9)

Allows students to bridge the gap between theoretical problems solved in the classroom and the real work world. Students are placed in a setting where they perform duties similar to a working environment. Specific arrangements are made through the major area adviser. Students are evaluated at mid-term and finals. Minimum of three contact hours of internship per week for a semester equals an hour course credit.

Prerequisite: ART 2000 and 12 hours in the major area.

Theater and Dance: Dance Emphasis

THEA4700 - Auditioning and Careers in Dance

Credits: 1

Designed for dance majors as a culminating course in preparation for final semester auditions and applications for companies and graduate schools. Through this course, students will set career goals, create an audition portfolio, and gain exposure to the many challenges and opportunities in dance.

Prerequisite: senior standing, THEA 1021, and one semester of THEA 4010 or THEA 4030.

THEA4975 - Theatre/Dance Internship

Credits: 1-12

Max Credit (Max. 12)

The intent of this course is designed to provide professional experiences to students outside of the academic curriculum of Theatre and Dance Department. It is designed to advance the students potential career opportunities and help advance their knowledge in the field.

Restricted Restricted to sophomores, juniors, and seniors.

Prerequisite: Must have completed 6 hours in the department of Theatre and Dance.

Theater and Dance: Design/Tech Management Emphasis

THEA3850 - Design and Technology Seminar

Credits: 2

Introduces designer/technician to process of preparing successful interview material, including a professionally developed portfolio. Exposes designer/technician to business aspects of the theatre world, including resumes, letters of inquiry and application, contracts, unions and professional organizations, internships, apprenticeships, URTAs and professional design/technical training programs. Culminates in junior End-of-the-Year Evaluations.

Prerequisite: junior standing in the BFA Program with Design/Technical emphasis.

THEA4975 - Theatre/Dance Internship

Credits: 1-12

Max Credit (Max. 12)

The intent of this course is designed to provide professional experiences to students outside of the academic curriculum of Theatre and Dance Department. It is designed to advance the students potential career opportunities and help advance their knowledge in the field.

Restricted Restricted to sophomores, juniors, and seniors.

Prerequisite: Must have completed 6 hours in the department of Theatre and Dance.

Theater and Dance: Performance Emphasis

THEA4720 - Auditioning and Professional Issues

Credits: 3

Introduces actors to process of finding, preparing and executing successful audition material, including monologues, songs and dance combinations. Exposes actors to business aspects of the theatre world, including resumes, photos, contracts, unions, internships, apprenticeships, Equity Membership Candidacy programs, URTA's and professional actor training graduate programs. Culminates preparation for final semester auditions for the company/school of choice.

Prerequisite: THEA 1100, THEA 3710 and THEA 3740.

THEA4975 - Theatre/Dance Internship

Credits: 1-12

Max Credit (Max. 12)

The intent of this course is designed to provide professional experiences to students outside of the academic curriculum of Theatre and Dance Department. It is designed to advance the students potential career opportunities and help advance their knowledge in the field.

Restricted Restricted to sophomores, juniors, and seniors.

Prerequisite: Must have completed 6 hours in the department of Theatre and Dance.

Department of Philosophy and Religious Studies

Philosophy

122 Ross Hall, (307) 766-3204

E-mail: philosophy@uwyo.edu

Department Head: Susanna L. Goodin

Professors:

HARVEY HIX, B.A. Belmont College 1982; M.A. University of Texas, Austin 1985; Ph.D. 1987; Professor of Philosophy and Creative Writing 2013.

JEFFREY A. LOCKWOOD, B.S. New Mexico Institute of Mining and Technology 1982; Ph.D. Louisiana State University 1985; Professor of Philosophy and Creative Writing 2006.

Associate Professors:

SUSANNA L. GOODIN, B.A. Texas Technical University 1981; M.A. Rice University 1985; Ph.D. 1990; Associate Professor of Philosophy 1998, 1992.

FRANZ-PETER GRIESMAIER, University of Vienna 1986; M.A. University of Colorado 1988; Ph.D. University of Arizona 1997; Associate Professor of Philosophy 2006, 2000.

EDWARD D. SHERLINE, B.A. Princeton University 1982; M.A. University of Chicago 1983; Ph.D. University of Illinois-Chicago 1990; Associate Professor of Philosophy 1996, 1989.

Assistant Professor:

BRADLEY RETTLER, B.S. Crown College 2004; M.A. Biola University 2008; Ph.D. University of Notre Dame 2014; Assistant Professor of Philosophy 2018.

Senior Academic Professional Lecturer:

ROBERT S. COLTER, B.A. The University of Puget Sound 1992; M.A. University of Colorado 1995; Ph.D. Northwestern University 2001; Academic Professional Lecturer 2013, 2007.

Professors Emeriti:

James Forrester, Richard L. Howey, James A. Martin

About the Program

Philosophy starts with those hard questions we all ask at some time or another. Some important questions of meaning and justification can't be answered by making observations or doing experiments. Philosophy is the effort to deal with these problems through sustained, hard, and critical thinking. Philosophy is good preparation for careers that call for you to use your mind, without prejudice but with rigor.

The Philosophy Department offers an undergraduate major, three undergraduate minors, and a graduate MA.

For details on each of these programs, see the department's web site.

Graduate Study

The Department of Philosophy offers the master of arts degree under the Plan A or Plan B.

Program Specific Admission Requirements

A writing sample of no more than 3,000 words on any subject in philosophy.

A statement describing specific philosophical interests.

Program Specific Graduate Assistantships

The department offers two to three graduate assistantships yearly on a competitive basis. These assistantships carry a tuition and fee waiver, plus a stipend. For more information, please contact the department.

About the Program

Throughout history, religion has played an important role in shaping cultures and societies. Religious beliefs have inspired armies in their wars and leaders in their decisions. Religions have provided the foundation for ethical behavior and in many societies have been the primary source of education. In today's world, religions remain important, influencing our responses to 9/11, the Arab Spring, the Philosophy and Religious Studies, Middle East crisis, and other events in regions around the world. Even in our own secular United States, religions and their beliefs play a major role in our debates over public policy.

The Religious Studies department offers a range of courses in the academic study of religions. These courses seek to acquaint students with religious beliefs and behavior, helping them to understand the ability of religions to define the world in which their adherents live and the power religions have to influence the behavior of their followers. Religious Studies courses cover a broad range of religions, both modern and historical. Some courses focus on understanding a single religion in a limited time period, while others compare aspects of different religions. Yet further courses focus on religious expression, studying how religious beliefs are depicted in literature, film, art and music. Many of these courses are offered by the Religious Studies department, while others can be found in various departments, including anthropology, art, English, history and sociology.

Graduate Study

At present, no program for a graduate degree in religious studies is offered; however, some courses may be counted at the graduate level.

Major

Philosophy, B.A.

Philosophy provides the critical thinking, logical reasoning, and innovative problem-solving skills necessary to be competitive in law, business, academia, tech, arts, and government. It also explores what it is to live a meaningful life outside a career.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Additional Requirements

- A major in Philosophy requires a minimum of 33 hours (11 courses) of philosophy.
- At least 6 hours (2 courses) must be at the 4000-level.
- At least an additional 18 hours (6 courses) must be at or above the 3000-level.
- The remaining 9 hours (3 courses) may be at any level.
- The department recommends that students begin with a 1000-level Intro course or a FYS followed by one or two other courses at the 1000 or 2000-level but it is not required that a student follow this recommendation.
- Only those courses in which a grad of C or better has been earned may count toward the 33-hour requirement.

1000 -2000-level courses

Nine hours (3 courses) may be at any level.

PHIL1000 - Introduction to Philosophy

Credits: 3

Introduces critical thinking through a study of elementary logic, scientific method and philosophical problems of ethics, religion, epistemology and metaphysics.

USP 2003-2014 Code U3CH

USP 2015 Code U5H

PHIL1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

PHIL2100 - The Greek Mind

Credits: 3

Part one of the history of philosophy sequence. The first great age of philosophy was in ancient Greece. Students read from ancient Greek poets, historians and medical writers, as well as philosophers. The course attempts to understand the Greek mind: what Greeks thought of persons, society and the universe.

USP 2003-2014 Code U3CH

PHIL2300 - Ethics in Practice

Credits: 1-3

Alerts preprofessional students and other interested individuals to various ethical issues they will encounter and relevant professional work on those issues. Emphasis of the course concentrates one time on biomedical ethics, another on technology and engineering ethics, another on ethics in the professions.

USP 2003-2014 Code U3CH

USP 2015 Code U5H

PHIL2310 - Philosophy of Religion

Credits: 3

Systematically examines philosophical questions, arguments and theories arising from study of religion. Topics may include: reason and religion; the existence and nature of God.

USP 2003-2014 Code U3CH

PHIL2330 - Environmental Ethics

Credits: 3

Introduction to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed ENR 2330.

USP 2003-2014 Code U3CH

PHIL2345 - Natural Resource Ethics

Credits: 3

Introduction to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.

Cross Listed ENR 2345/RNEW 2345.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H

PHIL2420 - Critical Thinking

Credits: 3

Shows that argument is a skill of fundamental importance to any field of endeavor. Explains methods used in evaluating an argument. Introduces such topics as: patterns of reasoning, counterexamples, fallacies; inductive and deductive logic.

USP 2003-2014 Code U3CH
Former Course Number [1100]

3000-level courses

At least 18 hours (6 courses) must be at or above the 3000-level.

PHIL3000 - Special Topics

Credits: 3

Max Credit (Max. 9)

Provides undergraduates with the opportunity for in-depth discussion of seminal works in the history of philosophy or a problem in contemporary philosophy not offered in regular courses or independent study. Open to interested undergraduates from all majors.

Prerequisite: 3 hours of philosophy.

PHIL3100 - History of Modern Philosophy: The Rationalists

Credits: 3

The second great age of philosophy absorbed the influence of the new science during the 17th and 18th centuries. People to be studied include: Descartes, Spinoza and Leibniz.

Prerequisite: 3 hours of philosophy.

PHIL3110 - History of Modern Philosophy: The Empiricists

Credits: 3

People to be studied include: Locke, Berkeley, Hume and Kant. These philosophers are included in the second great age of philosophy.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3120 - Ancient Greek Philosophy

Credits: 3

Surveying some of ancient Greek philosophy. Begins with the works of the earliest extant philosophical thinkers, the pre-Socratics. Remainder of focus on Plato and Aristotle.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3140 - Philosophy of Science

Credits: 3

Systematically examines philosophical problems about the nature of science, its methods of explanation, and the status of its laws.

Prerequisite: 3 hours of philosophy or 3 hours of science or consent of instructor.

PHIL3160 - "What Killed Socrates?"

Credits: 3

This course will reexamine Socrates' trial in 399 BCE, widely regarded as a miscarriage of justice, in its total historic context, seeking to understand the reasons for Socrates' conviction. In the process, it will impart a broad understanding of the cultural, philosophical, political, and legal life of classical Athens.

Cross Listed CLAS 3160/HIST 3160.

Prerequisite: WB or COM2.

PHIL3220 - Existentialism and Phenomenology

Credits: 3

Examines fundamental perspectives of existentialist thought, beginning with its roots in Kierkegaard and Nietzsche. Looks at a large variety of existentialist perspectives presented by Sartre, Heidegger, Buber, Jaspers and Camus. Considers the relation of Husserl's phenomenological method to existentialism.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy.

PHIL3250 - Global Justice

Credits: 3

An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

USP 2003-2014 Code U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: 3 hours of philosophy or international studies.

PHIL3300 - Ethical Theory

Credits: 3

A philosophical investigation of such concepts as morality, obligation, goodness, freedom and responsibility, and of recurring types of ethical theory.

Prerequisite: 3 hours of philosophy.

PHIL3320 - Eastern Thought

Credits: 3

Surveys some of the major concepts in Zen, Hinduism, Buddhism, Taoism and Confucianism.

Cross Listed RELI 3320.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3340 - Philosophy in Literature

Credits: 3

Max Credit (Max. 6)

Examines central themes in literary works with philosophical significance; studies related general issues. Issues include questions of interpretation, criticism, and translation, as well as the possibility of direct philosophical influence on authors.

Cross Listed ENGL

USP 2015 Code U5H

Former Course Number [2340]

Prerequisite: one course in philosophy or one course in literature or consent of instructor.

PHIL3350 - History of Moral Philosophy

Credits: 3

A historical and philosophical overview of ethical theory ranging from ancient Greek ethics to the present.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy.

PHIL3420 - Symbolic Logic

Credits: 3

Studies both propositional and quantificational logic, concentrating on methods of proof. Takes up such topics as identity, singular terms, intuitive set theory, and translating English sentences into symbolic notation.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3440 - Philosophy of Mind

Credits: 3

Considers topics in philosophy of mind, including the mind-body problem, emotions, attitudes, perception and psychological explanation.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3500 - History of Science

Credits: 3

Historic and philosophic survey of the development of science from the ancient Greeks to the 20th century.

Prerequisite: 3 hours of philosophy or 3 hours of science or consent of instructor.

PHIL3510 - Introduction to Epistemology

Credits: 3

Systematic introduction to epistemology, the philosophical study of knowledge and justified belief. Aims to answer questions such as: What are the necessary and sufficient conditions of knowledge? What are its sources? What is its structure, and what are its limits? How we are to understand the concept of justification?

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3560 - Introduction to Metaphysics

Credits: 3

A systematic introduction to metaphysics, the branch of philosophy concerned with providing a comprehensive account of the most general features of reality as a whole. Of central importance is the study of ontology, which seeks to address the question of what general sorts of things exist: particulars, universals, propositions, numbers, minds.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3933 - African Philosophy

Credits: 3

Examines the work of philosophers of Africa, of African descent and others who deal with African diaspora.

Cross Listed AAST 3933/INST 3933.

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: 6 hours of philosophy.

4000-level-courses

At least 6 hours (2 courses) must be at the 4000-level.

PHIL4000 - Philosophical Issues

Credits: 1-3

Dual Listed PHIL 5000.

Prerequisite: consent of instructor.

PHIL4020 - Plato

Credits: 3

Detailed examination of selected dialogues of Plato.

Dual Listed PHIL 5020.

Prerequisite: PHIL 3120.

PHIL4030 - Aristotle

Credits: 3

Detailed examination of selected works of Aristotle.

Dual Listed PHIL 5030.

Prerequisite: PHIL 3120.

PHIL4040 - Kant

Credits: 3

An examination of one or more aspects of the work of Immanuel Kant, conducted either from the perspective of the history of philosophy.

Prerequisite: 6 hours of philosophy.

PHIL4110 - Figures in Contemporary Philosophy

Credits: 3-6

Max Credit (Max. 6)

An advanced study of the work of one, or several related, contemporary philosophers.

Prerequisite: 12 hours of philosophy including PHIL 3100 or PHIL 3110.

PHIL4120 - Philosophy and the 20th Century

Credits: 3

Part three of the history of philosophy sequence. Covers the third great age of philosophy. Studies the main ways in which philosophy has been done since 1900. Topics normally include logic and philosophy, Wittgenstein, logical positivism and current trends.

Dual Listed PHIL 5120.

Former Course Number [4100]

Prerequisite: 6 hours of philosophy.

PHIL4130 - Figures in Modern and 19th Century Philosophy

Credits: 3

A detailed examination of one or more of the figures in modern or 19th century philosophy.

Dual Listed PHIL 5130.

Prerequisite: 6 hours of philosophy.

PHIL4140 - Topics in Philosophy of Science

Credits: 3

Max Credit (Max. 6)

Encompasses selected topics in philosophy of science.

Dual Listed PHIL 5140.

Prerequisite: 6 hours of philosophy.

PHIL4190 - Philosophy of Language

Credits: 3-6

Max Credit (Max. 6)

An advanced study of the work of one, or several related, contemporary philosophers.

Dual Listed PHIL 5190.

Prerequisite: 6 hours of philosophy.

PHIL4300 - Topics in Ethics

Credits: 3-6

Max Credit (Max. 6)

An advanced investigation of selected topics in ethics. Examples include derivative and basic principles of obligation; justice; morality and utility; generalization of norms; and the relation of morality and law.

Dual Listed PHIL 5300.

Prerequisite: 6 hours of philosophy.

PHIL4340 - Issues in Environmental Ethics

Credits: 3

Encompasses selected topics in environmental and natural resource ethics.

Dual Listed PHIL 5340.

Prerequisite: PHIL 2330, PHIL 2345, PHIL 3250, PHIL 3300 or PHIL 3350.

PHIL4420 - Advanced Logic

Credits: 3

Studies advanced topics in mathematical logic. Takes up such topics as: uninterpreted calculi and the distinctive contributions of syntax and semantics; metatheory, including completeness and consistency proofs; modal logic and semantics; logic as a philosophical tool.

Cross Listed COSC 4420/MATH 4420.

Dual Listed PHIL 5420.

Prerequisite: PHIL 3420 or equivalent.

PHIL4440 - Topics in Philosophy of the Mind

Credits: 3-6

Max Credit (Max. 6)

An advanced study of problems in the philosophy of mind such as the concept of human action; intention, choice, reasons and causes in the explanation of human action, mental states and brain states, and artificial intelligence.

Dual Listed PHIL 5440.

Prerequisite: 6 hours of philosophy.

PHIL4510 - Theory of Knowledge

Credits: 3

Studies such problems as knowledge and belief, skepticism, perception and knowledge, memory, truth.

Dual Listed PHIL 5510.

Prerequisite: 6 hours of philosophy.

PHIL4560 - Metaphysics

Credits: 3

Examines approaches to metaphysics. Discusses problems such as causality, individuation.

Dual Listed PHIL 5560.

Prerequisite: 6 hours of philosophy.

PHIL4975 - Independent Study

Credits: 1

Max Credit 6

Primarily for juniors and seniors who can benefit from independent study of topics in philosophy not covered in course offerings. Guidance provided by faculty member in the appropriate field.

Restricted undergraduate standing

Prerequisite: 9 hours of philosophy and consent of instructor

Religious Studies, B.A.

Religious Studies builds skills for your future in a globalized world. You will learn to ask life's big questions, analyze how communities across time and place have addressed these questions, and communicate persuasively in your own speech and writing.

General Requirements

A major in Religious Studies requires 33 hours (11 courses) plus a second major or minor in another discipline.

For students completing their degree under the 2015 University Studies Program:

Two Required Courses: 6 Hours

RELI1000 - Introduction to Religion

Credits: 3

Introduces world religions and shared characteristics. Draws on various academic approaches to religion study, emphasizing similarities and differences among wide variety of religions.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

RELI4000 - Theories of Religion

Credits: 3

Investigates different theories proposed to explain religion and methods used to investigate them. Pays primary attention to influential thinkers and theorists of the past century.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: RELI 1000, and 12 additional hours in Religious Studies, at least 6 of which must be at the 3000-level or above, junior standing.

Concurrent Concentration I: 9 Hours

Students should acquire a focused concentration by taking three courses (1) on a single religion, or (2) on the religions of a particular region or culture. Courses may be from a limited time period or spread across history. Students may choose from established concentrations or create their own concentration in consultation with their adviser. [Six hours must be above 3000-level.]

Concurrent Concentration II: 9 Hours

Students should take three courses in a religion, region, or culture differing significantly from that of the first concentration. [Six hours must be above 3000-level.]

Electives

Three courses in Religious Studies (see note 2 below) chosen in accordance with the student's interests. [Six hours must be above 3000-level.]

Language

Students should take three semesters of a single foreign language or demonstrate equivalent proficiency. See note 3 below.

Honors

If a student wishes to pursue an Honors designation in Religious Studies, two additional requirements must be fulfilled.

- A. A three-hour Thesis Seminar or Internship, during which a research paper is written, or other suitable research project is carried out.
- B. Demonstration of competency in a foreign language equivalent to a fourth-semester college-level course.

Notes:

1. If students majoring in Religious Studies can use its courses to satisfy requirements in a second major or minor, this is permitted.
2. Courses for the major should be drawn from those with a RELI prefix, or from a list of approved courses taught by other departments or programs. See the list of approved courses on the Religious Studies website. In each of the concentrations, only one course may be from outside RELI offerings. Two such courses may be used as electives. Occasionally, courses on religion are taught by outside departments as one-time opportunities. Students may propose these for inclusion in the major to the Religious Studies Program Director.
3. The language requirement may be satisfied with American Sign Language (ASL) or, with the approval of the department, coursework in another form of non- English communication (e.g. computer science, statistics, music composition).

4. All courses must be passed with a grade of C or better.

Minor

Environmental Values Minor

The minor in Environmental Values explores the vital link among the natural sciences, humanities, and the social sciences in grappling with environmental challenges.

Course Requirements

The minor in Environmental Values may be added to any bachelor's program at UW.

The minor requires a total of 18 credit hours, including at least one course within each of four areas of concentration. At least 12 of these credits must be outside the primary major, and nine of these credits must be at or above the 3000-level. A three-hour, core course (either Phil 2330 Environmental Ethics or Phil 2345 Natural Resource Ethics) is required of all students.

Core Course

A three-hour, core course is required of all students.

PHIL2330 - Environmental Ethics

Credits: 3

Introduction to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed ENR 2330.

USP 2003-2014 Code U3CH

PHIL2345 - Natural Resource Ethics

Credits: 3

Introduction to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.

Cross Listed ENR 2345/RNEW 2345.

USP 2003-2014 Code U3CH, U3D

USP 2015 Code U5H

Areas of Concentration:

(note: the courses listed below are provided as examples of the type of courses that meet the various areas of concentration. Other courses may be approved on a course by course basis in consultation with the Philosophy Department Undergraduate Advisor.)

Aesthetics

Expressing ourselves through the performing, visual and literary arts:

GEOG4500 - The American Landscape

Credits: 3

This course trains students to interpret patterns and processes of contemporary landscapes of the Americas (North, Central, and South America) by viewing those landscapes historically. We investigate the relationship between landscape, politics, and economy, or, more generally, the relationship between landscape as a geographical form and cultural politics in the hemisphere. Students are introduced to research techniques and methodologies in historical geography.

Cross Listed Cross listed with GEOG 5500, INST 4500, INST 5500

Former Course Number [G&R 4500]

Prerequisite: 6 credits of international studies or social science coursework

THEA2400 - Vertical Dance I

Credits: 1

An introduction to vertical dance including safety issues, beginning rigging and performance.

Prerequisite: consent of instructors.

THEA3400 - Vertical Dance II

Credits: 1

A continuing course in vertical dance emphasizing the math and physics of the rigging; safety and design, choreography and research in the field.

Prerequisite: completion of THEA 2400 and consent of instructors.

Culture

Viewing human meaning and purpose in historical and contemporary terms:

NAIS3000 - Plains Culture and History

Credits: 3

An ethnohistorical study of those Native peoples inhabiting the Plains region of the U. S. from prehistory to the present.

Cross Listed HIST 3000.

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

Prerequisite: 6 hours of HIST or NAIS.

ANTH4310 - Environmental Anthropology

Credits: 3

Addresses how human societies interact with their surroundings, emphasizing cultural understandings of the environment. Introduces variety of theoretical and methodological approaches to topics ranging from problems of the American West to global environmental change.

Cross Listed ENR 4310.

Dual Listed ANTH 5310.

When Offered (Normally offered every third semester)

Prerequisite: ANTH 1200.

ENGL3400 - Topics in: Eighteenth-Century Literature

Credits: 3

Max Credit (Max. 12)

Topics in eighteenth-century American and/or British literatures. Readings situated amid the historical and social developments of the era, including the expansion of mercantilism and slavery, the spread of secularism, the rise of print capitalism, and the emergence of new ideas of self and authorship. Subject matter varies by section.

Prerequisite: COM1, ENGL 2025, and any one of the following: ENGL 2425, ENGL 2430, ENGL 2435, ENGL 2340, ENGL 2350, or ENGL 2360.

ENGL4480 - Regional Literature of the US: The West

Credits: 3

Encompasses major themes and writers in western American literature.

Prerequisite: 6 hours of 2000-level literature courses.

ENR2000 - Environment and Society

Credits: 3

Develops understanding of the nature and dimensions of environmental and natural resource issues. Explores ways in which elements of society approach, evaluate, and develop positions relative to environmental issues. Uses case studies to illustrate the contemporary and historical role of individuals and societies in identifying and addressing environmental issues at scales ranging from local to global.

USP 2003-2014 Code U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG

ENR3050 - Cultures of Nature in the United States

Credits: 3

Uses artistic, philosophical, historical and literary material to investigate how ideas about and representations of nature have changed over time in the U. S. Culminates in an examination of a wide range of contemporary environmental ideas within this broad historical and cultural context.

Cross Listed AMST 3050/GWST 3050.

Prerequisite: 2000-level course in one of the following departments: AMST, American history, American literature, or a 2000-level course approved for the ENR program.

HIST4475 - American Environmental History

Credits: 3

Explores history of American attitudes and actions toward the land and natural resources.

Dual Listed HIST 5475.

Former Course Number [4670]

Prerequisite: 9 hours of HIST.

Ethics

Considering right and wrong via critical and systematic thinking and doing:

PHIL2330 - Environmental Ethics

Credits: 3

Introduction to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed ENR 2330.

USP 2003-2014 Code U3CH

PHIL2345 - Natural Resource Ethics

Credits: 3

Introduction to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.

Cross Listed ENR 2345/RNEW 2345.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H

PHIL3250 - Global Justice

Credits: 3

An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

USP 2003-2014 Code U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

Prerequisite: 3 hours of philosophy or international studies.

PHIL3300 - Ethical Theory

Credits: 3

A philosophical investigation of such concepts as morality, obligation, goodness, freedom and responsibility, and of recurring types of ethical theory.

Prerequisite: 3 hours of philosophy.

PHIL3350 - History of Moral Philosophy

Credits: 3

A historical and philosophical overview of ethical theory ranging from ancient Greek ethics to the present.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy.

PHIL4340 - Issues in Environmental Ethics

Credits: 3

Encompasses selected topics in environmental and natural resource ethics.

Dual Listed PHIL 5340.

Prerequisite: PHIL 2330, PHIL 2345, PHIL 3250, PHIL 3300 or PHIL 3350.

Policy

Exploring laws, regulations, and public discourse in American society:

AGEC4710 - Natural Resource Law and Policy

Credits: 3

Legal and economic examination of laws intended to resolve environmental conflicts. Surveys economic rationales both for private property and government intervention in environmental disputes; content of selected environmental laws in the U. S. ; and basic principles of environmental mediation.

When Offered (Normally offered fall semester of even-numbered years)

Prerequisite: AGEC 1020, ECON 1020 or equivalent and 3 hours of business law or agricultural law.

NAIS4340 - Natural Resource Management on Western Reservations

Credits: 3

Examines natural resource management techniques on western reservations. Focus is on the management and planning of water, grazing, extractive industries, and forestry. Fieldwork on the Wind River Indian Reservation is included.

Cross Listed GEOG 4340.

Prerequisite: 6 hours of 2000-level NAIS courses.

ECON2400 - Economics of the Environment

Credits: 3

This introductory course examines the links between economics and the natural environment. We consider the efficient use of natural resources like minerals, forests, and fisheries. We also explore how to use economics to sharpen environmental policy for challenges like water and air pollution, climate change, and biodiversity protection.

When Offered (Offered based on sufficient demand and resources)

USP 2003-2014 Code U3G, U3WB

USP 2015 Code U5C2

A&S College Core 2015 ASG

Prerequisite: ECON 1010 recommended, ECON 1020 required.

ENR4900 - Capstone in ENR

Credits: 3

An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

Dual Listed ENR 5900.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: ENR 3000.

GEOG4040 - Conservation of Natural Resources

Credits: 3

Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed ENR 4040.

GEOL 4040

USP 2003-2014 Code U3CS

Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

POLS4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.

Dual Listed POLS 5051.

USP 2003-2014 Code U3WC

Former Course Number [4050]

Prerequisite: POLS 1000.

POLS4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ ENR 4052/GEOG 4052/REWM 4052.

Prerequisite: POLS 1000.

Ethics Minor

A minor in Ethics enhances and compliments any major, such as education, health sciences, law, business, engineering, computer science, political science, or communication.

Course Requirements

A minor in Ethics requires a minimum of 18 hours. One course from each of the three areas plus a capstone course.

A Student Takes One Course in Each of These Areas:

1. Ethical Theory

PHIL3300 - Ethical Theory

Credits: 3

A philosophical investigation of such concepts as morality, obligation, goodness, freedom and responsibility, and of recurring types of ethical theory.

Prerequisite: 3 hours of philosophy.

PHIL3350 - History of Moral Philosophy

Credits: 3

A historical and philosophical overview of ethical theory ranging from ancient Greek ethics to the present.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy.

PHIL3250 - Global Justice

Credits: 3

An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

USP 2003-2014 Code U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: 3 hours of philosophy or international studies.

2. Applications

(determined on a course by course basis in consultation with the Philosophy Department Undergraduate Advisor)

3. Scientific, Historical and Social Analysis

(determined on a course by course basis in consultation with the Philosophy Department Undergraduate Advisor)

Capstone Course

The capstone course is an independent study normally taken during a student's senior year. The course integrates the student's different areas of study in the ethics minor into a project or thesis. Any professor in any college can sponsor

this independent study. Capstone topics must be approved by the ethics minor advisor. (determined in consultation with the Philosophy Department Undergraduate Advisor)

Electives

The other two courses are approved electives, (2 courses from Areas 1, 2 or 3 -- each from a different area).

Philosophy Minor

Philosophy provides the critical thinking, logical reasoning, and innovative problem-solving skills necessary to be competitive in law, business, academia, tech, arts, and government. It also explores what it is to live a meaningful life outside a career.

Course Requirements

A minor in Philosophy requires a minimum of 18 hours (6 courses) of philosophy.

- Of the 18 hours, 12 hours must be at 3000-level or above.
- Of the 18 hours, the remaining 6 hours (2 courses) may be at any level.

Only courses in which a grade of C or better has been earned count toward the 18-hour requirement.

Religious Studies Minor

The Minor in Religious Studies requires eighteen hours of relevant courses, all with a grade of "C" or higher. These should consist of courses as set out below:

Relevant Courses: 18 Hours

RELI1000 - Introduction to Religion

Credits: 3

Introduces world religions and shared characteristics. Draws on various academic approaches to religion study, emphasizing similarities and differences among wide variety of religions.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

RELI4000 - Theories of Religion

Credits: 3

Investigates different theories proposed to explain religion and methods used to investigate them. Pays primary attention to influential thinkers and theorists of the past century.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: RELI 1000, and 12 additional hours in Religious Studies, at least 6 of which must be at the 3000-level or above, junior standing.

- Twelve hours of courses focusing on issues in the study of religions, nine of which should be at the 3000 level or higher. Occasionally, courses on religion are taught by outside departments as one-time opportunities. Students may propose these for inclusion in the major to the Religious Studies Program Director

Graduate

Philosophy, M.A.

Program Specific Degree Requirements

Plan A (Thesis)

31 hours of graduate credit

27 hours of graduate coursework

4 hours of thesis research

Proof of proficiency in formal logic (through first-order predicate logic with identity) by either passing the department's course (3420) or some other course judged to be its equivalent with a grade B or better or by completing a test with a grade B or better at the end of the second semester.

First year paper at the beginning of the third semester.

Defense of a thesis prospectus by the end of the third semester.

In any cases of deficiency, the department may require remedial work before admission to M.A. candidacy.

Department of Physics and Astronomy

204 Physical Sciences Building,

(307) 766-6150

FAX: (307) 766-2652

Web site: www.uwyo.edu/physics

Department Head: Jinke Tang

Professors:

MICHAEL S. BROTHERTON, B.S. Rice University 1990; M.A. University of Texas at Austin 1992; Ph.D. 1996; Professor of Physics and Astronomy 2014, 2002.

YURI DAHNOVSKY, Ph.D. Institute of Chemical Physics, Moscow 1983; Professor of Physics 2007, 2000.

DANIEL A. DALE, B.S. University of Minnesota 1993; M.S. Cornell University 1996; Ph.D. 1998; Professor of Physics and Astronomy 2009, 2001.

HENRY A. KOBULNICKY, B.S. University of Iowa 1991; M.S. University of Minnesota 1993; Ph.D. 1997; Professor of Physics and Astronomy 2014, 2002.

ADAM D. MYERS, M.S. Durham University, United Kingdom 2000; Ph.D. 2004; Associate Professor of Physics and Astronomy 2017, 2011; Professor of Physics and Astronomy Fall 2022

H. EDWARD SEIDEL, B.S. College of William and Mary 1981; M.S. University of Pennsylvania 1983; Ph.D. Yale University 1988; Professor of Physics and Astronomy 2020.

JINKE TANG, B.S. Jilin University 1982; M.S. Iowa State University 1990; Ph.D. 1989; Professor of Physics 2007.

Associate Professors:

TEYU CHIEN, B.S. National Taiwan Normal University 2001; Ph.D. University of Tennessee-Knoxville 2009; Associate Professor of Physics 2019, 2013.

MICHAEL J. PIERCE, B.S. University of Oklahoma 1980; M.A. University of Hawaii 1983; Ph.D. 1988; Associate Professor of Physics and Astronomy 2005, 2001.

WENYONG WANG, B.S. Nankai University 1993; M.S. Yale University 1999; Ph.D. 2004; Associate Professor of Physics 2014, 2008.

Assistant Professors:

JIFA TIAN, B.S. Beijing Normal University 2003; Ph.D. University of Chinese Academy of Sciences/Institute of Physics, CAS 2009; Assistant Professor of Physics 2018.

Academic Professional Lecturers:

RÜDIGER MICHALAK, Dipl. Phys FZ Jülich 1989; Ph.D. 1993; Academic Professional Lecturer in Physics and Astronomy 2007, 2004.

Assistant Lecturer:

AYSENUR BICER, B.S. Ege University 2006; M.S. 2009; Ph.D. Texas A&M University 2018; Assistant Lecturer in Physics 2019.

JESSE FEDDERSEN, B.S. Indiana University 2013; M.S. Yale University 2015; Ph.D. Yale University 2019; Assistant Lecturer in Physics and Astronomy 2020.

Adjunct Professors:

Gabrielle Allen, Pu Du, Paul Marquard, William Rice, Zhaohui Shang, Tim Slater, Hannah Jang-Condell, Edmund Synakowski.

Professors Emeriti:

Ronald W. Canterna, Paul E. Johnson, A. Raymond Kunselman, Terry P. Roark, James M. Rosen, Jimmie Verley, David R. Thayer.

Physics originated in antiquity as the study of natural philosophy. As such, it attempts to describe the universe within the context of both physical laws and the fundamental particles of nature. The broad scope of physics runs from the microscopic nuclear structure and that of the elementary particles themselves to the macroscopic, the galaxy and evolution of the universe as a whole. Today the subject is generally divided into broad areas such as condensed matter, nuclear, elementary particles, astrophysics, etc. The department maintains competence in most major branches of physics and offers instruction in these areas at both the undergraduate and graduate levels. In addition, it has a strong interest and involvement in science education.

Learning Outcomes

The B.S. and B.A. in Physics, the B.S. in Astronomy, and the B.A. in Physics and Physics Education all have the broad objectives enumerated below. These objectives are designed to promote the success of our majors in their chosen career path, whether that takes them into academia, secondary teaching, industry or further education:

1. Provide students with problem-solving and data-manipulation skills appropriate to the growing range of scientific and technological careers in academia or industry.
2. Develop students' oral, written, interpersonal and communication skills.
3. Provide students with skills in experimental design, data collection, and data analysis through research experiences in a laboratory/computational/telescope setting.
4. Educate students in the application of mathematical tools that will be useful for them to achieve success in a postcollege career.
5. Provide a conceptual and analytical understanding of the core areas of physics and their specialty area.
6. Provide students with an understanding of scientific reasoning, i.e., the roles of theory, hypothesis, and experiment in the scientific method.

The B.S. in Physics and the B.S. in Astronomy are primarily designed for students who wish to pursue post-graduate education or to have a more in-depth physics background. The Physics B.A. is primarily designed for students interested in pursuing a double major, or a professional career. The B.A. in Physics and Physics Education is structured for those interested in pursuing a secondary science teaching career.

Undergraduate Curriculum

The four-year physics programs are the Bachelor of Arts in physics and the Bachelor of Science in physics. The Bachelor of Science programs are intended for students who will pursue a career or a graduate degree in the field, whereas the Bachelor of Arts program is primarily geared toward those who are interested in pursuing physics as a second major. The department also offers a Bachelor of Science degree in Astronomy and Astrophysics.

Graduate Study

The Department of Physics and Astronomy offers the degrees of master of science in physics, master of science in teaching, and doctor of philosophy. Advanced degrees in physics may be based on experimental or theoretical research in physics or astrophysics.

Please refer to the departmental homepage at <http://www.uwyo.edu/physics/> for the programmatic updates, or contact the department directly.

Program Specific Admission Requirements

We will begin to review applications in late January. Both the GRE general and physics subject exams are optional, and we will review all applications on their total merits. Students of all backgrounds, ethnicities, genders and countries of origin are encouraged to apply at <http://www.uwyo.edu/admissions/apply-online.html>

Applications should include:

- Resume or CV
- Undergraduate transcript
- A Personal Statement that says why you want to pursue a PhD, why Wyoming is a good fit for you, and what experiences you've previously had completing long-term projects
- Three letters of recommendation (this will be done through the application website)
- GRE scores Both the GRE general and physics subject exams are optional.
- TOEFL for non-native English speakers
- Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Program Specific Graduate Assistantships

The Physics and Astronomy Department commits to providing first- and second-year students with teaching assistantships for the nine-month academic year. More advanced students are generally supported on federal grants or fellowships. Both teaching and research assistantships carry a full tuition waiver and insurance. Summer assistantships are often available to students making satisfactory progress. Refer to <http://www.uwyo.edu/physics/> for current amounts.

Major

Astronomy and Astrophysics, B.S.

The Bachelor of Science in Astronomy & Astrophysics program prepares students for graduate school, or a career in astronomy/astrophysics or a related field.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

A&S College Core

The **BS in Astronomy and Astrophysics** requires the **A&S Core**:

- **D** - Diversity (3 credits)
- **G** - Global (3 credits)
- At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).
- No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation.

See below for more information:

- <http://www.uwyo.edu/as/current-students/index.html>

Requirements

Students in the Bachelor of Science in Astronomy major program are required to complete the following courses:

ASTR1050 - Survey of Astronomy

Credits: 4

Consists of 3 lecture periods and a two-hour laboratory in observational and laboratory astronomy. Observing sessions are scheduled after dark and held when weather permits. Designed primarily for non-science majors.

USP 2003-2014 Code [SE< >PN]

Prerequisite: MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.

ASTR2310 - General Astronomy I

Credits: 4

[(none)<>PN] Covers the history of astronomy, orbital mechanics, solar system (the Sun, planetary interiors, atmospheres, moons, comets, meteors); interaction of radiation and matter (physical processes in gas, black body radiation) astronomical instrumentation and detectors. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.

When Offered (Normally offered spring semester)

USP 2003-2014 Code PN

Prerequisite: PHYS 1210 or PHYS 1310, MATH 2200.

ASTR2320 - General Astronomy II

Credits: 4

Covers the properties of stars, stellar atmospheres and stellar evolution, interstellar matter, galaxies and cosmology including models of the universe, the Big Bang, and dark energy. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.

USP 2003-2014 Code PN

Prerequisite: PHYS 1210 or PHYS 1310, MATH 2200.

ASTR4610 - Introduction to Astrophysics

Credits: 3

Includes astrophysical sources of radiation, radiation transport, nonequilibrium processes, stellar atmospheres, stellar interiors and the interstellar medium.

Prerequisite: ASTR 2310, PHYS 2310 and concurrent registration in PHYS 4210 and PHYS 4410.

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

OR

PHYS1310 - College Physics I

Credits: 4

First course of two semester sequence. Provides thorough introduction to physics with calculus. Primarily for majors in physics, astronomy, and other areas in science, mathematics and technology requiring the highest levels of sophistication. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1310 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1210.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

OR

PHYS1320 - College Physics II

Credits: 4

Follows PHYS 1310 and continues introduction to physics with calculus. Includes electricity, magnetism and thermodynamics. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1320 cannot receive credit for PHYS 1050, PHYS 1120 or PHYS 1220.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PHYS2310 - Physics III: Waves and Optics

Credits: 4

Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS2320 - Physics IV: Modern Physics

Credits: 3

Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS3000 - Methods of Physics

Credits: 4

Provides introduction to mathematical methods and modern scientific computational tools used in physics/ astronomy. Topics include introduction to Python or linux operating system and use LabView software to run laboratory apparatus. Course examples will draw upon material in PHYS 1210/PHYS 1220 to help build fluency in the first year physics material.

Prerequisite: PHYS 1220.

PHYS3640 - Modern Electronics and Experimental Techniques

Credits: 4

Introduced to analog and digital circuits/devices and computer interfacing with laboratory equipment and experiments. Includes computer programming, the analysis of experimental data, and report writing. Apply the skills developed in this class to interface with and control representative instrumentation used in experimental physics laboratories.

Prerequisite: PHYS 2320.

PHYS3650 - Advanced Lab in Modern Physics and Electronics

Credits: 4

Presents fundamentals of modern optics, modern and quantum physics, E&M/electronics, and thermodynamics in a project oriented interactive undergraduate laboratory with a focus on professional grade lab report writing that qualifies as WB USP. Students learn professional data handling, error theory, and data analysis.

USP 2015 Code U5C3

Prerequisite: WA and PHYS 2310 or PHYS 2320.

PHYS4210 - Classical Mechanics I

Credits: 3

First semester of a two-course sequence. Presents classical mechanics at intermediate level. Begins with elementary Newtonian mechanics and builds step by step into analytic mechanics. Includes simple harmonic motion of particles in one, two or three dimensions, gravitation; introduction to rigid-body motion; and introduction to Lagrangian and Hamiltonian Mechanics.

When Offered (Normally offered spring semester)

Prerequisite: PHYS 2310 or equivalent, MATH 2210 or equivalent.

PHYS4310 - Quantum Mechanics

Credits: 3

Studies fundamental concepts of quantum theory.

When Offered (Normally offered fall semester)

Prerequisite: PHYS 4210.

PHYS4410 - Electricity and Magnetism I

Credits: 3

First semester of a two-course sequence. Presents electricity and magnetism on intermediate level, emphasizing fields. Begins with review of vector algebra and calculus and proceeds to discussion of electrostatics, potential theory and steady currents.

When Offered (Normally offered fall semester)

Prerequisite: PHYS 2310 or equivalent and MATH 2210.

PHYS4420 - Electricity and Magnetism II

Credits: 3

Follows PHYS 4410 and continues intermediate discussion of electricity and magnetism. Covers magnetostatics, magnetoquasistatics, alternating currents, electromagnetic waves, transmission lines and antennae.

When Offered (Normally offered spring semester)

Prerequisite: PHYS 4410.

PHYS4510 - Thermodynamics and Statistical Mechanics

Credits: 3

Presents fundamental principles of thermodynamics, emphasizing mathematical development.

Prerequisite: PHYS 4310 or equivalent and MATH 2210.

PHYS4840 - Mathematical and Computational Physics II

Credits: 4

Second semester of a two-semester course. Provides a comprehensive overview of computational physics and provides numerous numerical techniques applied to physics problems. Topics include: numerical computations and visualizations, numerical solutions of ordinary differential equations, linear systems, curve fitting, discrete Fourier transforms, partial differential equations, integration, and Monte Carlo simulations of general stochastic systems. A weekly lab session will be held.

Prerequisite: MATH 2210, PHYS 2320 and PHYS 3000.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

Additional Description

- See the "Prerequisite and MPE Cut Score Reference Chart" on the Math Placement website for the most up-to-date math placement equivalencies: <http://www.uwyo.edu/mathstats/math-placement/>.
- For declared physics/astronomy majors, the prerequisite of Math 2200 is waived and concurrent enrollment is approved.
- For declared physics/astronomy majors, the prerequisite of Math 2205 is waived and concurrent enrollment is approved.

- Students are strongly encouraged to enroll in Human Culture requirement courses that correspond to the College of Arts & Sciences Core required US Diversity (ASD) and Global Awareness (G) electives or else they will have to take separate ASD and ASG courses. A list of ASD & ASG courses that transfer is available.

If intending to apply to graduate school, plan to take the physics GRE by fall semester of the senior year

Additional Requirements

Course sequencing may need to be altered if ACT, SAT or Math Placement scores require a student to take pre-college courses before taking required math or English courses. • Not all courses are offered every semester and some electives may have prerequisites. Students should review course descriptions in the University Catalog and consult with their academic advisor to plan accordingly.

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major

The Bachelor of Science degree in astronomy and astrophysics is administered by the Department of Physics and Astronomy faculty. Please see the Physics and Astronomy listing in this *Catalog* for more information.

Physics, B.A.

The Bachelor of Arts (BA) in Physics degree program provides a pathway for more students to major in physics, as a second major to physical chemistry, mathematics, and engineering, for example.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

A&S College Core

The **BA in Physics** requires the **A&S Core**:

- **D** - Diversity (3 credits)
- **G** - Global (3 credits)
- At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).
- No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation.

See below for more information:

- <http://www.uwyo.edu/as/current-students/index.html>

Require Courses

Students in the Bachelor of Arts in physics major program are required to complete the following courses:

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

OR

PHYS1310 - College Physics I

Credits: 4

First course of two semester sequence. Provides thorough introduction to physics with calculus. Primarily for majors in physics, astronomy, and other areas in science, mathematics and technology requiring the highest levels of sophistication. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1310 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1210.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

OR

PHYS1320 - College Physics II

Credits: 4

Follows PHYS 1310 and continues introduction to physics with calculus. Includes electricity, magnetism and thermodynamics. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1320 cannot receive credit for PHYS 1050, PHYS 1120 or PHYS 1220.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PHYS2310 - Physics III: Waves and Optics

Credits: 4

Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS2320 - Physics IV: Modern Physics

Credits: 3

Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS3000 - Methods of Physics

Credits: 4

Provides introduction to mathematical methods and modern scientific computational tools used in physics/ astronomy. Topics include introduction to Python or linux operating system and use LabView software to run laboratory apparatus. Course examples will draw upon material in PHYS 1210/PHYS 1220 to help build fluency in the first year physics material.

Prerequisite: PHYS 1220.

PHYS3650 - Advanced Lab in Modern Physics and Electronics

Credits: 4

Presents fundamentals of modern optics, modern and quantum physics, E&M/electronics, and thermodynamics in a project oriented interactive undergraduate laboratory with a focus on professional grade lab report writing that qualifies as WB USP. Students learn professional data handling, error theory, and data analysis.

USP 2015 Code U5C3

Prerequisite: WA and PHYS 2310 or PHYS 2320.

PHYS4210 - Classical Mechanics I

Credits: 3

First semester of a two-course sequence. Presents classical mechanics at intermediate level. Begins with elementary Newtonian mechanics and builds step by step into analytic mechanics. Includes simple harmonic motion of particles in one, two or three dimensions, gravitation; introduction to rigid-body motion; and introduction to Lagrangian and Hamiltonian Mechanics.

When Offered (Normally offered spring semester)

Prerequisite: PHYS 2310 or equivalent, MATH 2210 or equivalent.

PHYS4310 - Quantum Mechanics

Credits: 3

Studies fundamental concepts of quantum theory.

When Offered (Normally offered fall semester)

Prerequisite: PHYS 4210.

PHYS4410 - Electricity and Magnetism I

Credits: 3

First semester of a two-course sequence. Presents electricity and magnetism on intermediate level, emphasizing fields. Begins with review of vector algebra and calculus and proceeds to discussion of electrostatics, potential theory and steady currents.

When Offered (Normally offered fall semester)

Prerequisite: PHYS 2310 or equivalent and MATH 2210.

PHYS4510 - Thermodynamics and Statistical Mechanics

Credits: 3

Presents fundamental principles of thermodynamics, emphasizing mathematical development.

Prerequisite: PHYS 4310 or equivalent and MATH 2210.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

Electives

- Students are required to take at least 3 hours of electives from any PHYS 4000 or 5000 level course.

Additional Requirements

Course sequencing may need to be altered if ACT, SAT or Math Placement scores require a student to take pre-college courses before taking required math or English courses. Not all courses are offered every semester and some electives may have prerequisites. Students should review course descriptions and consult with their academic advisor to plan accordingly.

A major requires 42 hours of upper division (3000 level or above) coursework, 30 of which must be from the University of Wyoming.

Students must have a minimum cumulative GPA of 2.0 to graduate. Courses must be taken for a letter grade unless offered only for S/U.

University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

For declared physics majors, the prerequisite of MATH 2200 is waived and concurrent enrollment is approved.

For declared physics majors, the prerequisite of MATH 2205 is waived and concurrent enrollment is approved.

If intending to apply to graduate school, students should take the physics GRE by fall semester of the senior year.

Students with specific additional interests (e.g. pre-med or another pre-professional program) may wish to move their V/H/C2 courses to alternate semesters so as to take the necessary required courses (e.g. LIFE 1010, MOLB 3000 etc.)

Physics, B.S.

The Bachelor of Science in Physics program is intended for students who will pursue a career or a graduate degree in physics or related fields.

Requirement for Major in Physics

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

OR

PHYS1310 - College Physics I Credits 4

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive

credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

OR

PHYS1320 - College Physics II Credits: 4

PHYS2310 - Physics III: Waves and Optics

Credits: 4

Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS2320 - Physics IV: Modern Physics

Credits: 3

Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS3000 - Methods of Physics

Credits: 4

Provides introduction to mathematical methods and modern scientific computational tools used in physics/ astronomy. Topics include introduction to Python or linux operating system and use LabView software to run laboratory apparatus. Course examples will draw upon material in PHYS 1210/PHYS 1220 to help build fluency in the first year physics material.

Prerequisite: PHYS 1220.

PHYS3640 - Modern Electronics and Experimental Techniques

Credits: 4

Introduced to analog and digital circuits/devices and computer interfacing with laboratory equipment and experiments. Includes computer programming, the analysis of experimental data, and report writing. Apply the skills developed in this class to interface with and control representative instrumentation used in experimental physics laboratories.

Prerequisite: PHYS 2320.

PHYS3650 - Advanced Lab in Modern Physics and Electronics

Credits: 4

Presents fundamentals of modern optics, modern and quantum physics, E&M/electronics, and thermodynamics in a project oriented interactive undergraduate laboratory with a focus on professional grade lab report writing that qualifies as WB USP. Students learn professional data handling, error theory, and data analysis.

USP 2015 Code U5C3

Prerequisite: WA and PHYS 2310 or PHYS 2320.

PHYS4210 - Classical Mechanics I

Credits: 3

First semester of a two-course sequence. Presents classical mechanics at intermediate level. Begins with elementary Newtonian mechanics and builds step by step into analytic mechanics. Includes simple harmonic motion of particles in one, two or three dimensions, gravitation; introduction to rigid-body motion; and introduction to Lagrangian and Hamiltonian Mechanics.

When Offered (Normally offered spring semester)

Prerequisite: PHYS 2310 or equivalent, MATH 2210 or equivalent.

PHYS4310 - Quantum Mechanics

Credits: 3

Studies fundamental concepts of quantum theory.

When Offered (Normally offered fall semester)

Prerequisite: P HYS 4 210.

PHYS4410 - Electricity and Magnetism I

Credits: 3

First semester of a two-course sequence. Presents electricity and magnetism on intermediate level, emphasizing fields. Begins with review of vector algebra and calculus and proceeds to discussion of electrostatics, potential theory and steady currents.

When Offered (Normally offered fall semester)

Prerequisite: PHYS 2310 or equivalent and MATH 2210.

PHYS4510 - Thermodynamics and Statistical Mechanics

Credits: 3

Presents fundamental principles of thermodynamics, emphasizing mathematical development.

Prerequisite: PHYS 4310 or equivalent and MATH 2210.

PHYS4420 - Electricity and Magnetism II

Credits: 3

Follows PHYS 4410 and continues intermediate discussion of electricity and magnetism. Covers magnetostatics, magnetoquasistatics, alternating currents, electromagnetic waves, transmission lines and antennae.

When Offered (Normally offered spring semester)

Prerequisite: PHYS 4410.

PHYS4830 - Mathematical and Computational Physics I

Credits: 3

First semester of a two-semester sequence. Provides a comprehensive overview of mathematical physics and numerous analytical mathematical techniques applied to physics problems. Topics include: numerical computations and visualizations, differential and integral vector analysis, linear algebra, infinite series, complex variables, partial differential equations, ordinary differential equations, integral transforms and equations, and calculus of variations.

Prerequisite: PHYS 2310 or PHYS 2320 and MATH 2210, MATH 2250, MATH 2310.

PHYS4840 - Mathematical and Computational Physics II

Credits: 4

Second semester of a two-semester course. Provides a comprehensive overview of computational physics and provides numerous numerical techniques applied to physics problems. Topics include: numerical computations and visualizations, numerical solutions of ordinary differential equations, linear systems, curve fitting, discrete Fourier transforms, partial differential equations, integration, and Monte Carlo simulations of general stochastic systems. A weekly lab session will be held.

Prerequisite: MATH 2210, PHYS 2320 and PHYS 3000.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

Electives

Students are required to take at least 3 hours of electives from any PHYS 4000 or 5000 level course.

Minor

Astronomy Minor

Complete

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

OR

PHYS1310 - College Physics I

Credits: 4

First course of two semester sequence. Provides thorough introduction to physics with calculus. Primarily for majors in physics, astronomy, and other areas in science, mathematics and technology requiring the highest levels of sophistication. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1310 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1210.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

OR

PHYS1320 - College Physics II

Credits: 4

Follows PHYS 1310 and continues introduction to physics with calculus. Includes electricity, magnetism and thermodynamics. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1320 cannot receive credit for PHYS 1050, PHYS 1120 or PHYS 1220.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PHYS2310 - Physics III: Waves and Optics

Credits: 4

Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS2320 - Physics IV: Modern Physics

Credits: 3

Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

ASTR2310 - General Astronomy I

Credits: 4

[(none)<>PN] Covers the history of astronomy, orbital mechanics, solar system (the Sun, planetary interiors, atmospheres, moons, comets, meteors); interaction of radiation and matter (physical processes in gas, black body radiation) astronomical instrumentation and detectors. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.

When Offered (Normally offered spring semester)

USP 2003-2014 Code PN

Prerequisite: PHYS 1210 or PHYS 1310, MATH 2200.

ASTR2320 - General Astronomy II

Credits: 4

Covers the properties of stars, stellar atmospheres and stellar evolution, interstellar matter, galaxies and cosmology including models of the universe, the Big Bang, and dark energy. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.

USP 2003-2014 Code PN

Prerequisite: PHYS 1210 or PHYS 1310, MATH 2200.

Additional Requirements

Students minoring in Astronomy gain exposure to the principles of astronomy, physics, and mathematics. They learn to think critically and evaluate, interpret, and solve problems related to astronomical, as well as other technical and general scientific topics

Physics Minor

A minor in physics appeals to students who have an interest in physics but intend to pursue a degree in some other field.

Complete

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

OR

PHYS1310 - College Physics I

Credits: 4

First course of two semester sequence. Provides thorough introduction to physics with calculus. Primarily for majors in physics, astronomy, and other areas in science, mathematics and technology requiring the highest levels of sophistication. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1310 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1210.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

OR

PHYS1320 - College Physics II

Credits: 4

Follows PHYS 1310 and continues introduction to physics with calculus. Includes electricity, magnetism and thermodynamics. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1320 cannot receive credit for PHYS 1050, PHYS 1120 or PHYS 1220.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PHYS2310 - Physics III: Waves and Optics

Credits: 4

Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS2320 - Physics IV: Modern Physics

Credits: 3

Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

At Least Two of the Following:

PHYS4210 - Classical Mechanics I

Credits: 3

First semester of a two-course sequence. Presents classical mechanics at intermediate level. Begins with elementary Newtonian mechanics and builds step by step into analytic mechanics. Includes simple harmonic motion of particles in one, two or three dimensions, gravitation; introduction to rigid-body motion; and introduction to Lagrangian and Hamiltonian Mechanics.

When Offered (Normally offered spring semester)

Prerequisite: PHYS 2310 or equivalent, MATH 2210 or equivalent.

PHYS4310 - Quantum Mechanics

Credits: 3

Studies fundamental concepts of quantum theory.

When Offered (Normally offered fall semester)

Prerequisite: P HYS 4 210.

PHYS4410 - Electricity and Magnetism I

Credits: 3

First semester of a two-course sequence. Presents electricity and magnetism on intermediate level, emphasizing fields. Begins with review of vector algebra and calculus and proceeds to discussion of electrostatics, potential theory and steady currents.

When Offered (Normally offered fall semester)

Prerequisite: PHYS 2310 or equivalent and MATH 2210.

PHYS4510 - Thermodynamics and Statistical Mechanics

Credits: 3

Presents fundamental principles of thermodynamics, emphasizing mathematical development.

Prerequisite: PHYS 4310 or equivalent and MATH 2210.

Additional Requirements

The physics minor provides students with the fundamental concepts of physics beyond the introductory level. Through rigorous hands-on experience, students deepen their understanding of foundational concepts and develop their quantitative skills.

Graduate

Physics, M.S.

Thesis planning, development, and production guided by the committee chair and graduate committee.

The University of Wyoming Master of Science in Physics program prepares students for a wide range of exciting physics-related careers

Requirements

Plan A (Thesis)

- 26 hours of graduate coursework, 20 of which must be in PHYS/ASTR at the 5000-level
- 4 hours of PHYS 5960

Plan B (Non-Thesis)

- 30 hours of graduate coursework, 24 of which must be in PHYS/ASTR at the 5000-level

Physics, M.S.T.

The Master of Science in Teaching is designed for graduate students preparing to teach in secondary schools or in community colleges. It includes a small, carefully designed component in psychology and education as well as a supervised teaching experience. This program will require a thesis project based on experience in the classroom.

Thesis planning, development, and production guided by the committee chair and graduate committee.

Requirements

Plan A (Thesis)

- 18 hours from PHYS/ASTR at the 5000-level
- 12 hours from PSYC or the College of Education at the 4000- or 5000-level

Additional Requirements

The Master of Science in Physics with emphasis in Teaching is designed for graduate students preparing to teach in private secondary schools or in community colleges. It includes a small, carefully designed component in psychology and education, and includes experience as a teaching assistant. Students interested in this program should contact the current advisor, Prof. Tim Slater.

Physics, Ph.D.

During the first two years, students normally take physics and astronomy courses while working with faculty members on one or more research projects. Course work consists of several required courses plus a number of elective courses. Students participate in weekly research seminars and journal clubs to learn about a broad range of current research. By the third year, Ph.D. students begin research work in the area of their dissertation.

Ph.D. candidates demonstrate their competency in basic undergraduate physics and in required graduate courses through a written examination. After passing the written exam, students will take an oral preliminary exam based on a

research project they have completed during the first two years. At the completion of the Ph.D. dissertation, a candidate makes a public presentation of his or her work and the committee conducts a final examination to award the degree.

Requirements

- 42 hours of graduate coursework
- 30 hours of PHYS 5980 or PHYS 5860. Dissertation planning, development, and production guided by the committee chair and graduate committee.

Tracks:

- Physics, Physics Track, Ph.D.
- Physics, Astronomy Track, Ph.D.

Additional Requirements

The Physics PhD program educates students to become scholars and researchers in physics. Our graduates are trained to teach and to carry out original research that is theoretical, experimental, computational, or a blend of these approaches.

School of Politics, Public Affairs, and International Studies

**207-208 Arts and Sciences Building,
(307) 766-6484**

Web site: www.uwyo.edu/sppais

School Head: Stephanie Anderson

SPPAIS Faculty:

Professors:

STEPHANIE B. ANDERSON, B.S.F.S. Georgetown University 1989; M.Sc. The London School of Economics and Political Science 1990; Ph.D. University of Cambridge 1996; Professor of Political Science 2017, 2005.

R. MCGREGGOR CAWLEY, B.A. Kearney State College 1971; M.A. Colorado State University 1974; Ph.D. 1981; Professor of Political Science 1997, 1987.

TEENA J. GABRIELSON, B.A. Macalester College 1992; M.A. University of California - Davis 1997; Ph.D. 2002; Professor of Political Science 2019, 2006.

ANDREW D. GARNER, B.S. Kennesaw State University 2002; Ph.D. University of Mississippi 2007; Professor of Political Science 2014, 2008.

JEAN A. GARRISON, B.A. University of Wyoming 1990; M.A. University of South Carolina 1992; Ph.D. 1996; Professor of Political Science, International Studies 2010, 2001.

JAMES D. KING, B.A. Michigan State University 1974; M.A. Western Michigan University 1977; Ph.D. University of Missouri-Columbia 1983; Professor of Political Science 1999, 1992.

BRENT L. PICKETT, B.A. Wichita State University 1989; M.A. University of Colorado at Boulder 1991; Ph.D. 1995; Professor of Political Science - Casper 2010, 2005.

ROBERT A. SCHUHMAN, B.S. Appalachian State University 1987; M.P.A. 1989; Ph.D. Virginia Polytechnic Institute and State University 1995; Professor of Political Science 2013, 1995.

Associate Professors:

NEVIN AIKEN, B.A. University of Western Ontario 2003; M.A. 2004; Ph.D. University of British Columbia 2010; Associate Professor of Political Science and International Studies 2016, 2010.

YI-LING CHEN, B.S. National Taiwan University 1989; M.S. 1992; Ph.D. Rutgers University 2000; Associate Professor of International Studies and Geography 2015, 2010.

NICHOLAS CRANE, B.A. The Ohio State University 2006; M.A. 2008; Ph.D. 2014; Assistant Professor of Geography and International Studies 2016.

ZOE PEARSON, B.A. University of California Los Angeles 2005; M.A. Ohio State University 2010; Ph.D. 2016; Assistant Professor of Geography and International Studies 2016.

JUSTIN T. PICCORELLI, B.A. Loyola Marymount University 2004; M.P.A. Cleveland State University 2009; Ph.D. 2014; Assistant Professor of Public Administration 2015.

THOMAS R. SEITZ, B.S. University of the State of New York 1988; M.A. University of Kent at Canterbury 1989; Ph.D. University of Cambridge 1997; Associate Professor of International Studies 2015, 2009.

Assistant Professors:

JASON B. MCCONNELL, B.S. University of Wyoming 1998, MA 2003, J.D. 2005; Ph.D. Washington State University 2017; Assistant Professor of Political Science 2018.

GABEL C. TAGGART, B.S. Brigham Young University 2010; M.P.P. 2013; Ph.D. Arizona State University 2017; Assistant Professor of Public Administration 2018.

Senior Academic Lecturer:

ANNE ALEXANDER, B.B.A. New Mexico State University, 1991; M.S. 1993; Ph.D. University of Wyoming, 2001; Senior Academic Lecturer, 2019, 2013; Interim Provost and Vice President for Academic Affairs 2020.

Associate Lecturer:

RUTH BJÖRKENWALL, B.A. University of California at Berkeley, 1989; M.A. 2004; Associate Lecturer 2018, 2013.

Professors Emeriti:

Winberg Chai, Larry Hubbell, Garth Massey, Margaret M. Murdock, Stephen C. Ropp, Oliver Walter

Associate Professor Emeritus:

Alan E. Schenker

Adjunct Faculty:

(see department section following name for academic credentials)

Tanja Börzel, political science, Freie Universitaet Berlin
Roger Coupal, agriculture and applied economics
Michael Harkin, anthropology
Mark Peterson, management and marketing
Thomas Risse, political science, Freie Universitaet Berlin
Amy Roberts, elementary and early childhood education
Chris Rothfuss, international studies
Mona Schatz, social work
Ed Sherline, philosophy
J.J. Shinker, geography
Lilia Soto, American studies and latina/o studies
Jim Thurman, international studies, political science - Central Wyoming College

International Studies

Undergraduate Learning Outcomes

Goal 1. Students graduating with a BA in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

Goal 2. Students graduating with a BA in international studies will have the capability to critically read, write about, discuss, and engage in scholarly inquiry related to international processes and issues.

Goal 3. Students graduating with a BA in international studies will have a minimal level of fluency in a second language and are expected to experience a foreign locale in which to use the second language skills.

Goal 4. Students will be made aware of career and post-graduate opportunities suitable for an international studies major.

Graduate Learning Outcomes

All students who graduate with a Master's degree in international studies will be able to:

- Engage in independent empirical inquiry that makes an original contribution to the field of study;
- Think critically and reason logically about a problem and the ways it can be answered;
- Employ the best recognized methods appropriate to their research;

- Effectively develop alternative explanations, use theories and concepts to guide the research project, and conduct the work in such a way that disproof is possible; and
- Present their work intelligently, with both written and oral capability at a level of professional expectations.

They will have a broad understanding of:

- International affairs;
- The diversity of national cultures and social structures;
- Political and economic systems;
- Major global trends and problems

International Studies Major

Students graduating with a degree in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective. uwyo.edu/sppais.

Core Courses

Students take 9 hours of core coursework. INST 2350 (Introduction to Global Studies) and INST 2310 (Introduction to International Relations) provide the theoretical framework for the global and regional tracks. INST 4950 (Capstone) provides the culminating experience for

students completing the B.A. degree in international studies and fulfills the COM3 writing requirement for the University Studies Program.

Area of Focus

Students will complete a minimum of 18 hours of coursework in two specific areas of focus, choosing a global and regional track. Students must complete a minimum of 9 hours in each track.

Global Tracks - Governance and Conflict Resolution; Economic Systems; Culture and Social Issues; Sustainable Development and the Environment

Regional Tracks - Africa and the Middle East; Asia, Europe and the Former Soviet Union; Latin America

Global and regional tracks have suggested Gateway courses. Most Gateway courses fulfill University Studies requirements. All INST students are required to take the Regional Gateway course in their chosen region, either: INST 2230 (Introduction to Asian Studies),

INST 2240 (Introduction to African Studies), INST 2250 (Introduction to Latin American Studies), or INST 2280 (Introduction to European Studies)/POLS 2200 (Politics of Europe and the EU). These courses fulfill the COM2 requirement for University Studies Program and counts towards the 9 hours required for the Regional Track.

Foreign Language

Students must complete a four semester sequence in a single foreign language or show an equivalent level of proficiency. Language courses must be conversational language courses. American Sign Language is not considered a foreign language.

Electives

Students must take 9 hours of elective courses from the international studies curriculum, 6 of which must be upper division. The following Gateway courses can count for the elective requirement: ANTH 1200, ECON 1000, INST 1060 or GEOG 1000, INST/ POLS 1200,

INST 1330.

All required courses for the major must be passed with a grade of C or better. There are numerous special topics courses offered during the academic year and these courses can fulfill the international studies requirements with approval from your adviser. Students are

encouraged to satisfy the USP Q (quantitative reasoning) requirement by taking STAT 2070, Introductory Statistics for Social Sciences.

International Study Abroad and Internship Opportunities

All International Studies majors are strongly encouraged to consider taking part in a semester long study abroad program or a shorter-term faculty-led international fieldwork or study abroad courses taught by UW faculty (typically offered during the Summer and Winter

breaks) as a way to earn course credit towards their International Studies degree. In addition, International Studies majors are also encouraged to consider participating in paid or unpaid international internship opportunities as a way of earning additional academic credit

towards their International Studies degree. For more information on international study abroad exchanges, faculty-led fieldwork courses and internship opportunities, please visit the UW Abroad Office at: uwyo.edu/geo/eda/index.

Global Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Sustainable Development and the Environment

Suggested Gateway Courses: ENR 1100, ECON 1010, ECON 1020, GEOG 1000, GEOL 1600, SOC 1000

AGEC 4460 - Agriculture and Economic Development

AGEC 4660 - Community Economic Development

ANTH 4310 - Environmental Anthropology

ECON 4700 - Economic Development

ENR 2000 - Environment and Society

GEOG 3030 - Geography and Development

GEOG 3550 - Natural Hazards and Society

GEOG 4420 - Tourism and Recreation

GEOL 3500 - Global Change: A Geological Perspective

GEOL 3600 - Earth and Mineral Resources

GEOL 3650 - Energy: A Geological Perspective

INST/AGEC 3860 - Econ of World Food/Ag

INST 4060 - NGOs, Development, and Culture

INST/SOC 4110 - Sociology of Development

INST/POLS 4255 - Politics of Developing Nations

INST 4475 - Sustainable Development & Environment

INST 4580 - Gender, Global Change and Development

MKT 4590 - Sustainable Business Practices

POLS 4350 - Sustainable Development and Global Policy

Economic Systems

Suggested Gateway Courses: ECON 1000, ECON 1010, ECON 1020. NOTE: Some courses from this curriculum require ECON 3020.

AGEC 4460 - Agriculture and Economic Development

AGEC 4660 - Community Economic Development

AGEC 4880 - International Agricultural Trade, Markets and Policy

BUSN 4540 - Global Business Issues

ECON 4700 - Economic Development

ECON 4720 - International Trade

ECON 4740 - International Finance

FIN 4460 - Multinational Finance

INST/BUSN 2000 - Intro to International Business

INST/GEOG 3050 - Economic Geography

INST/AGEC 3860 - Economics of World Food and Development

INST/SOC 4370 - Global Political Economy

INST/MKT 4540 - International Marketing

INST/ECON 4710 - Comparative Systems

MKT 4590 - Sustainable Business Practices

Culture and Social Issues

Suggested Gateway Courses: ANTH 1200, SOC 1000

ANTH 4300 - Anthropology of Religion

ANTH 4350 - Medical Anthropology

ANTH 4380 - Visual Anthropology

ART 4650 - International Study in Art

COJO 3190 - Cross-Cultural Communication

GEOG 4570 - Cultural Geography

HIST 4405 - American Encounters to 1850

HIST 4406 - American Encounters from 1850

INST/SOC 3000 - Social Change

INST/ANTH 3420 - Anthropology of Global Issues

INST/HLSC 4100 - Global Public Health

INST/WMST 4155 - Women, War and Health

INST/WMST 4175 - Gender, Women and Health

INST/WMST 4240 - Global Sex Work and Trafficking

INST/ANTH 4350 - Culture Change

INST 4590 - Women of India

INST 4650 - Women, Gender and Migration

INST/SOWK 4881 - Intl Social Welfare/Social Dev.

ANTH/MUSC 3015 - Introduction to Music of the World's People

MUSC 4050 - Advanced Studies in World Music

RELI 2225 - History of Christianity

RELI 2255 - Introduction to Judaism

WMST 3500 - Gender and Society

ZOO 4110 - HIV/AIDS

Governance and Conflict Resolution

Suggested Gateway Courses: GEOG 1000, POLS 1200, SOC 1000

ANTH 4320 - Political Anthropology

CRMJ 4280 - Comparative Criminal Justice

GEOG 4590 - Geography of Conflicts

INST 3200 - Comparative Political Cultures

INST/WMST 4155 - Women, War, and Health

INST/SOC 4300 - The World System

INST/POLS 4330 - American Foreign Relations

INST/POLS 4340 - International Organizations

INST 4360 - International Peace & Conflict

INST 4375 - Transitional Justice

INST/HIST 4380 - History of Human Rights

INST 4455 - Drug War Geopolitics in the Americas

INST/GEOG 4560 - Global Cities

INST/HIST 4582 - 20th Century Foreign Relations

PHIL 3250 - Global Justice

POLS 3300 - Model United Nations

POLS/GEOG 4013 - Political Geography

POLS 4710 - Emerging Democracies

POLS 4870 - Seminar: International Relations

POLS 4875 - Seminar: Comparative Foreign Policy Analysis

POLS 4890 - Seminar: Comparative Government and Politics

Regional Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Africa and the Middle East

Gateway Course for this Concentration: INST 2240, Introduction to African Studies

AAST/INST 2240 - Introduction to African Studies

AAST/ANTH/ART 2730 - African Creativity and Ritual

AAST/HIST 3120 - Africa Since 1800

AAST 3130 - Global Impact of African Cultures

AAST 3670 - African Diaspora

ENGL 2190 - African Literature

HIST/RELI 2320 - History of Islam

HIST 3220 - History of the Modern Middle East

HIST/WMST 4335 - Women and Islam

INST 3400 - Politics and Society of Turkey

INST/AAST 4050 - Dev., Africa, and Culture

POLS 3270 - Government and Politics of the Middle East

RELI 2040 - Religions of the Middle East

RELI 2450 - Traditional African Religion

Asia

Note: The Asian Studies minor is different from this concentration.

Gateway Course for this Concentration: INST 2230, Introduction to Asian Studies

HIST 2040 - Imperial China

HIST 2041 - Modern China

HIST 2460 - Traditional Japan

HIST 2461 - Modern Japan

HIST 3400 - Mongol Empire

HIST 4510 - Modern Far East: China, Japan and India

INST 2230 - Introduction to Asian Studies

INST/SOC 3100 - Chinese Society

INST 4200 - China and Globalization

INST 4250 - Economic Development in Asia

INST/SOC 4680 - Shanghai: Past and Present

POLS 4230 - Governments and Politics of Asia

POLS 4240 - Culture, Society, Political Economy in East Asia

RELI 2050 - Religious Landscapes of Asia

RELI 2315 - History of Hinduism

RELI 3340 - Mysticism, Yoga, and Enlightenment in the East

RELI 3344 - Gods, Avatars, Heroes, and Mystics

WMST 4590 - Women of India

Europe and the Former Soviet Union

Note: The European Studies minor is different from this concentration.

Gateway Course for this Concentration: INST 2280, Introduction to European Studies, or INST 2200, Politics of Europe and the European Union

FREN 3110 - Contemporary French Civilization

GERM 3006 - 20th Century German Culture

HIST/RELI 2080 - Holocaust

HIST 2240 - History of Russia from 1855

HIST 3110 - Modern Germany

HIST 4170 - Europe in the 19th Century

HIST 4180 - Europe in the 20th Century

HIST 4270 - France: Old Regime and Revolution

HIST 4280 - France Since 1814

HIST 4290 - History of the Soviet Union

HIST 4310 - World War II in Europe

HIST 4315 - Central Europe and the Holocaust

HIST 4320 - Memory and National Identity

HIST 4330 - European Gender and Women's History

POLS 2200 - Politics of Europe and the European Union

POLS 3220 - Government and Politics of Russia and the FSU

POLS 4220 - European Union

RELI 4150 - Christianity, Jews, and Muslims in Iberia

WMST 4330 - European Gender and Women's History

Latin America

Gateway Course for this Concentration: INST 2250, Introduction to Latin American Studies

AAST 2410 - Survey of AfroCaribbean Cultures

GEOG 4500 - Landscapes of the Americas

HIST 2380 - Latin America Civilization

HIST 4492 - Indian Cultures of Latin America

HIST 4495 - Colonial Mexico

HIST 4496 - History of Mexico

INST 2250 - Introduction to Latin American Studies

INST/POLS 4290 - Inter-American Relations

INST 4445 - Drug War Geopolitics in the Americas

INST 4495 - Indigenous Social Movements of Latin America

INST/LTST 4650 - Women, Gender and Migration

POLS 2290 - Government and Politics of Latin America

POLS 4890 - Populism and Liberal Democracy

General Requirements for the International Studies Major

A student must complete 36 hours of course work and 16 hours of foreign language.

Concurrent Major

A concurrent major is a second major pursued alongside the primary major. The majors can be in one or more colleges. One degree is awarded from the college of the primary major. University Studies requirements need only be satisfied once.

Dual Degree

A dual degree is a second degree pursued either in the same college as the first degree or in another college. University Studies requirements need only be satisfied once. Students must meet all the college and major requirements for both majors. Students must complete at least 30 credit hours (minimum 12 upper-division hours) beyond the credit hours required for the degree

with the smallest number of credit hours required. An academic advisor for each degree is required.

Second Bachelor's Degree

Students pursuing a second bachelor's degree must earn a minimum of 30 additional credit hours from UW, 12 of which must be upper-division. A student must also fulfill all of the college and major requirements, however, University Studies requirements only need to be met once if the first degree is from UW.

Undergraduate Minors

Students can minor in 3 areas by fulfilling one of the following sets of requirements:

International Studies Minor

A minor in international studies requires 12 hours of a single foreign language and 15 hours of international studies curriculum, with a minimum of 9 hours at the 3000-level or above.

Asian Studies Minor

The Asian Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of an Asian region or a single country. The program emphasizes a social science approach to the study of Asian history, politics, society, and culture with options to

include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Asia is defined first and foremost as a geographic entity to include Western, Northern, Central, South and East Asian areas. Thus, for example,

countries such as modern Turkey and areas such as the 'Middle East' can rightly be included in 'Asia' alongside areas more traditionally understood as part of Asia such as China and India.

Asian Studies Minor Course Requirements (18 credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 Credit Hours)

All Asian Studies Minor students must complete one of two required Gateway courses, either INST 2230 - Introduction to Asian Studies (G/COM2) or POLS 3270 - Government and Politics of the Middle East, depending on their primary area of interest within Asia.

Asian Studies Area Courses (15 Credit Hours)

Asian Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved Asian Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the

approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Asian Studies Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to

review the International Studies Newsletter each semester to see what Asian Studies Area courses are currently being offered.

Approved Asian Studies Area Courses

ART 2720 - Introduction to the Art and Culture of Islam

ART 4650 - International Study in Art (Turkey/India)

CHIN 1101 - Taste of China

CHIN 2041 - Contemporary and Traditional Chinese Culture

Optional Asian Study Abroad Component

Asian Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Asia to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of

the Asian Studies Area Course requirement on the approval of the student's designated minor advisor. Optional Asian Foreign Language Component Asian Studies Minor students are also strongly encouraged to learn an Asian foreign language as part of their progression

towards completion of the Minor. Accordingly, up to eight (8) lower-division (1000-2000) credit hours of an Asian foreign language may be counted towards fulfillment of the Asian Studies Area Course requirement. 'Asian' languages at UW include Japanese, Chinese and

Arabic. However, Asian Studies Minor, students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other Asian language

instruction at UW, other relevant in-country summer intensive programs, or languagefocused study abroad programs.

European Studies Minor

The European Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of a European region or a single country. The program emphasizes a social science approach to the study of modern European history, politics, society, and

culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Europe is defined first and foremost as a geographic entity running from the Atlantic to the Urals and from Scandinavia to the

Mediterranean and the Caucasus Mountains. Courses that transcend these boundaries should include the study of Europe in a prominent way to count toward the minor.

European Studies Minor Course Requirements (18 credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 credit hours)

All European Studies Minor students must complete one of two required Gateway courses, either INST 2280 - Introduction to European Studies (COM2) or POLS 2200 - Politics of Europe and the European Union (COM2).

European Studies Area Courses (15 credit hours)

European Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved European Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition

to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the

International Studies Newsletter each semester to see what European Studies Area courses are currently being offered.

POLS 3220 - Government and Politics of Russia and the FSU

POLS 4215 - European Union

RELI 4150 - Christianity, Jews and Muslims in Iberia

SPAN 3220 - Spanish Culture and Civilization

Optional European Study Abroad Component

European Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Europe to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards

fulfillment of the European Studies Area Course requirement on the approval of the student's designated minor advisor.

Optional European Foreign Language Component

European Studies Minor students are also strongly encouraged to learn an European foreign language (other than English) as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower division (1000-2000) credit hours of an European

foreign language may be counted towards fulfillment of the European Studies Area Course requirement. 'European' languages at UW include French, German, and Spanish. However, European Studies Minor students need not necessarily be limited to the three languages

currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other European language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad

programs. All required courses for the major must be passed with a grade of C or better. A course cannot simultaneously fulfill more than one major requirement.

Graduate Study

Students take the Plan A (thesis). Students must have a minimum of 26 hours of graded non-thesis coursework and 4 hours of thesis.

Program Specific Admission Requirements

Admission is open to all students holding a bachelor's degree in any major. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

Program Specific Degree Requirements

Students must meet three requirements: 1) Each student must take INST 5400. 2) Each student must take INST 5200. 3) Each student must demonstrate proficiency in a foreign language, accomplished in the course of the program or from previous experience or

coursework. Foreign language hours do not count toward the M.A. degree. The program also offers a joint International Studies/Environment and Natural Resources degree. See www.uwyo.edu/sppais for specific degree requirements.

Plan A (thesis)

Students are encouraged to construct, with the adviser's approval, a program that focuses their own intellectual interests and career plans. To promote that end, students should be prepared to file a plan of study with the graduate adviser during the second semester of

coursework. No later than the second semester in residence, each student shall select a graduate committee to oversee his or her academic work. The committee will be chaired by the student's major professor and must have at least one member from outside of The

School of Politics, Public Affairs, and International Studies. Students also will prepare a thesis proposal and give a presentation of their preliminary project before the International Studies faculty and complete a thesis prospectus defense with their graduate committee by

the end of their second semester. Students must pass an oral examination at the completion of their program. Normally, examination will center on the thesis, but may also encompass coursework of the candidate.

Required Coursework

Advanced Theory Course

INST 5200 Graduate Proseminar in International Studies

Research Methods Course

INST 5400 International Social Science Research Methods

Graduate Minor in International Studies

A graduate minor in international studies provides students in graduate programs other than international studies with the opportunity to acquire a basic graduate-level familiarity with international relations, global processes and cultural diversity around the world. Students

acquire a foundation in intergovernmental relations and research methodology. Beyond this, students work closely with a graduate director to fashion a program of study appropriate for their interests and post-graduate plans. The minor complements several other graduate

degree programs.

Prerequisites for Admission

Declaration of an international studies minor is contingent on admission to a master's or doctoral degree program. Application is in the form of a letter of interest to the director of the program, including the background, anticipated course of study, and reason for seeking

the minor. An interview with the director is also required. All prerequisites for entering the graduate program in international studies as a major apply to the minor with the exception of proficiency in a second language. Students must be prepared for coursework in

international studies at the graduate level and be willing to take prerequisite courses if necessary.

Course and Committee Requirements

Graduate students minoring in international studies must satisfy the requirements of their graduate major and take twelve credits of guided graduate coursework in international studies. With the approval of the department of the graduate major, these twelve hours may also

count toward the major. Students are required to take at least one advanced theory course (INST 5200) and one advanced research methods course. All courses will be determined in consultation with the program director.

Political Science

Political Science is the study of how societies govern themselves and interact with one another. Courses of instruction in the Political Science major are offered in the following subfields: American politics, comparative government, international relations, political philosophy, public law, and public administration. Areas of focus include analysis of government structures and processes, citizens' influence on government, policy content, philosophical concepts and traditions, political systems of other states, and resolution of conflicts between nations. By developing critical thinking

and analytical skills, the major prepares students for effective participation in the political process, successful careers in the public and private sectors, and further study in law, political science, and public administration.

In 1925, the state legislature passed a law requiring the study of the U.S. and Wyoming constitutions by all University of Wyoming students. Political Science 1000 satisfies this requirement, but the requirement can also be satisfied by special examination given periodically by the School of Politics, Public Affairs, and International Studies.

Learning Outcomes

We continuously and actively assess the Political Science undergraduate curriculum to ensure that the following learning outcomes are being met for each of our graduates:

1. Acquisition of a knowledge and understanding of the values, beliefs, and institutions that constitute governing processes;
2. Acquisition of an understanding of the distinctions among the major subfields of the discipline including: American politics and law; international relations; comparative politics; and political theory;
3. Development of a knowledge and understanding of citizens' roles within governing processes;
4. Acquisition of a knowledge of the theories and analytic skills necessary to evaluate conflicting arguments, assemble and present appropriate evidence, and make reasoned conclusions from the evidence available;
5. The ability to communicate effectively, both orally and in written form.

Undergraduate Major

In addition to the university and college requirements listed elsewhere in this bulletin, a major in political science requires 33 department hours. Students are required to complete the following four introductory courses: POLS 1000; POLS 1200 or POLS 1250; POLS 2310; and POLS 2460 or POLS 3600. Students are also required to take at least one seminar in political science (and its prerequisites); 8 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages; STAT 2050 or STAT 2070; and a minimum of 9 hours of upper division credit in political science. A maximum of 6 hours of internship credit may be applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies:

www.uwyo.edu/sppais.

5 Year B.A./M.A. Program in Political Science

The Political Science 5 Year B.A./M.A. Program offers highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor's degree (whether B.A. or B.S.) and thereby earn a graduate degree more efficiently. Political science majors with a cumulative major GPA of 3.5 or higher may be invited to apply at the outset of the second semester of the junior year. Interested students will submit an application and 2 letters of recommendation, at least one from a political science faculty to be reviewed, along with unofficial, current UW transcripts, by the M.A. Director and Committee. Upon provisional acceptance into the program in the junior year, students will be required to take the GRE. GRE scores will be considered for full and final acceptance to the M.A. program, which will be made once the student has completed the bachelor's degree.

Provisional acceptance to the 5 Year B.A./M.A. program in Political Science will allow students to apply up to six credit hours of 5000-level courses toward both the B.A./B.S. and M.A. degree programs. To earn graduatelevel credit, students must achieve at least a 3.000 in the course. By successfully completing up to six credit hours of graduate coursework during their senior year, these students will have demonstrated their ability to do graduate level coursework as undergraduates, easing their transition into the Master's Program in Political Science. Interested students may reserve up to six additional credits for graduate study that do not apply to the undergraduate degree by securing appropriate approvals as explained in the Registrar's "Request to Reserve Coursework for Graduate Credit" prior to taking the coursework. Students will be granted the BA/BS upon completion of the credit hours required for the undergraduate degree in political science. Students must complete the BA/BS before formally entering the MA program. To remain in good standing in the program, students must maintain a cumulative and departmental GPA of 3.200 and earn at least a 3.000 in all 5000-level courses. Failure to meet the GPA requirements places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be suspended from the program. Students in the program are encouraged to take the Plan B option. Please see the Graduate Study section to find the degree requirements of the M.A. in Political Science.

Undergraduate Minors

The school offers optional undergraduate minors in American politics, international relations and comparative government, public law, and political theory. Eighteen hours are required in each minor, including 9 hours of upper-division courses and one seminar. A maximum of 3 hours of internship credit may be applied towards the 18 hours required for the political science minor. At least 12 credit hours in a minor must be from courses not counted toward the student's major. Information relating to specific courses fulfilling minor requirements may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

American Politics Minor

A minor in American Politics requires POLS 1000 - American and Wyoming Government, either POLS 4850 - Seminar in American Political Institutions or POLS 4840 - Seminar in Public Law, and 12 hours from an approved list of courses, with a minimum of 9 hours at the 3000-level or above.

Approved American Politics Minor courses:

POLS 2000 - Current Issues in American Government
POLS 2070 - Politics of State & Local Government
POLS 2410 - Introduction to Public Administration
POLS 2430 - Parties, Interest Groups, & Elections
POLS 2450 - Politics & Media

POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
POLS 3100 - Politics and the Judicial Process
POLS 3520 - Voting & Participation in America
POLS 3550 - Political Communication
POLS 3600 - American Political Thought
POLS 4051 - Environmental Politics
POLS 4052 - Federal Land Politics
POLS 4100 - Constitutional Law: Institutional Powers
POLS 4110 - Constitutional Law: Civil Liberties & Civil Rights
POLS 4330 - American Foreign Relations
POLS 4420 - Seminar in Public Administration (Max. 6)
POLS 4430 - U.S. Presidency

POLS 4435 - Presidential Elections
POLS 4520 - Public Opinion
POLS 4530 - U.S. Congress
POLS 4550 - Internship in Government (dept. approval required)(1-6)
POLS 4560 - Washington Semester Program (Max. 6)
POLS 4710 - Topics in _____ (dept. approval required)(Max. 9)
POLS 4720 - Workshop in Practical Politics (Max. 6)
POLS 4840 - Seminar in Public Law (Max. 6)
POLS 4850 - Seminar in American Politics and Institutions (Max. 6)

International Relations and Comparative Politics Minor

A minor in International Relations and Comparative Politics requires POLS 2310 - Introduction to International Relations, either POLS 1200 - Non-Western Political Cultures or POLS 1250 - Introduction to Comparative Politics, either POLS 4870 - Seminar in International Relations or POLS 4890 - Introduction to Comparative Government and Politics, and 9 hours from an approved list of courses, with a minimum of 6 hours at the 3000-level or above.

Approved International Relations and Comparative Politics Minor courses

POLS 2200 - Politics of Europe and the European Union
POLS 2290 - Government & Politics of Latin America
POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
POLS 3200 - Comparative Political Cultures
POLS 3220 - Government & Politics of Russia and FSU
POLS 3270 - Government & Politics of the Middle East
POLS 3300 - Model United Nations (Max. 6)
POLS 4013 - Political Geography
POLS 4215 - European Union
POLS 4230 - Government & Politics of Asia
POLS 4255 - Politics of Developing Nations
POLS 4260 - Democratization & Regime Change
POLS 4290 - Inter-American Relations
POLS 4330 - American Foreign Relations
POLS 4340 - International Organizations
POLS 4350 - Sustainable Development & Global Policy
POLS 4360 - International Peace & Conflict
POLS 4375 - Transitional Justice
POLS 4445 - Drug War Geopolitics in the Americas
POLS 4475 - Politics of Natural Resources in Latin America
POLS 4600 - Political Violence
POLS 4710 - Topics in _____ (dept. approval required)(Max. 6)
POLS 4870 - Seminar in International Relations (Max. 6)
POLS 4890 - Seminar in Comparative Government and Politics (Max. 6)

Political Theory Minor

A minor in Political Theory offers an opportunity for interdisciplinary study. Required are POLS 2460 - Introduction to Political Theory, POLS 3600 - American Political Thought, POLS 4810 - Seminar in Political Theory, and 9 hours

from an approved list of courses in political science and other disciplines, with a minimum of 6 hours at the 3000-level or above.

Approved Political Theory Minor courses

POLS 2330 - Environmental Ethics
POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
POLS 3050 - Athenian Democracy
POLS 3610 - Classics in Environmental Thought
POLS 3620 - Environmental Justice
POLS 4090 - Anglo-American Jurisprudence
POLS 4160 - Legal Philosophy
POLS 4640 - Political Philosophy: Ancient & Medieval
POLS 4650 - Political Philosophy: Modern
POLS 4660 - Political Philosophy: Contemporary
POLS 4710 - Topics in _____ (dept. approval required) (Max. 6)
PHIL 2200 - Social & Political Philosophy (Max. 6)
SOC 3900 - Social Theory

Public Law Minor

A minor in Public Law offers an opportunity for interdisciplinary study. Required are POLS 4100 - Constitutional Law: Institutional Powers, POLS 4110 - Constitutional Law: Civil Liberties & Rights, POLS 4840 - Seminar in Public Law, and 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 3 hours at the 3000-level or above.

Approved Public Law Minor courses

POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
POLS 3100 - Politics and the Judicial Process
POLS 4090 - Anglo-American Jurisprudence
POLS 4160 - Legal Philosophy
POLS 4710 - Topics in _____ (dept. approval required) (Max. 6)
AGEC 3400 - Agricultural Law
COJO 4500 - Mass Communication Law
CRMJ 2210 - Criminal Law
CRMJ 3110 - Criminal Courts & Processes
CRMJ 4140 - Criminal Legal Procedure
CRMJ 4350 / SOC 4350 - Sociology of Law
CRMJ 4540 / WMST 4540 - Women, Crime, and Law
CRMJ 4730 / PSYC 4730 - Psychology and Law
HIST 4515 - American Legal History
MGT 1040 - Legal Environment of Business

Teacher Education

The teacher certification program in Secondary Social Studies Education, with a concurrent major in Political Science is available through the College of Education. A minimum 2.500 UW grade point average and a 2.500 grade point

average in Political Science and Social Studies content are required to change majors. Further information may be found under the College of Education section in this Catalog.

Major or Minor in Environment and Natural Resources

The Haub School of Environment and Natural Resources (ENR) offers a second major or minor for students interested in interdisciplinary training in the policy, legal, economic, scientific, ethical, and other perspectives associated with ENR challenges. The Haub School uses problem-based learning and interdisciplinary team teaching. Students of all disciplines are welcome to take classes in ENR or add ENR to their degree program. Contact the Haub School at (307) 766-5080, haub.school@uwo.edu, or www.uwo.edu/haub.

Graduate Study

The master of arts and the master of public administration are offered by the School of Politics, Public Affairs, and International Studies. The school's mission is to give graduate students an understanding of the theories and methods necessary for success in (1) research or in post-baccalaureate study in any of the subfields in political science, (2) high school teaching in social science, or (3) careers in policy analysis or public administration in local, state, or federal government, or international governmental, non-profit, or non-governmental organizations. Our graduate students have progressed to senior positions in government, the U.S. Foreign Service, and international organizations; they have pursued rewarding careers in education and the private sector; and they have advanced to Ph.D. programs in political science and related fields.

Program Specific Admission Requirements

Master of Arts in Political Science

Admission is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.0 GPA. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

Master of Public Administration (M.P.A.)

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI). Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

Program Specific Degree Requirements

Master's Programs

Master of Arts in Political Science, Plan A (thesis)

At least 30 hours of graduate credit, to include:

POLS 5510. Public Policy and Program Management.
POLS 5680. Research Methods for Political Science.
POLS 5684. Empirical Analysis for Public Administration.
POLS 5810. Seminar in Political Philosophy.
At least 6 additional hours of coursework in political science.
A maximum of 9 hours of coursework in disciplines other than political science.
A minimum of 4 hours thesis research.
A master's thesis demonstrating independent research, written under the supervision of the major professor.
An oral examination conducted by the graduate committee covering all coursework and the thesis.
No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
Students must maintain a graduate GPA of 3.000.

Master of Arts in Political Science, Plan B (non-thesis)

At least 30 hours of graduate credit, to include:

POLS 5510. Public Policy and Program Management.

POLS 5680. Research Methods for Political Science.
POLS 5684. Empirical Analysis for Public Administration.
POLS 5810. Seminar in Political Philosophy.
At least 6 additional hours of coursework in political science.
A maximum of 12 hours of coursework in disciplines other than political science.
Plan B paper that reflects the quality but not scope of a master's thesis, written under the supervision of the major professor.
An oral examination conducted by the graduate committee covering all coursework and the Plan B paper.
No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
Students must maintain a graduate GPA of 3.000.

Master of Public Administration Plan B (non-thesis)

Thirty-nine hours of graduate credit, to include:

21 hours of core credit,
6 hours of option-core credit,
12 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits. Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion. Students must maintain a graduate GPA of 3.000.

Master of Public Administration/Juris Doctor

See the M.P.A. Director and/or the College of Law for information. Students must be accepted to both programs.

Major

International Studies, B.A.

Students graduating with a degree in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective. uwo.edu/sppais.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Requirements

All required courses for the major must be passed with a grade of C or better. There are numerous special topics courses offered during the academic year and these courses can fulfill the international studies requirements with approval from your adviser. Students are encouraged to satisfy the USP Q (quantitative reasoning) requirement by taking STAT2070 - Introductory Statistics for the Social Sciences or STAT2050 - Introduction to Statistics.

Core Courses

Students take 9 hours of core coursework. INST2350 - Introduction to Global Studies and INST2310 - Introduction to International Relations provide the theoretical framework for the global and regional tracks. INST4950 - Capstone in International Studies (Capstone) provides the culminating experience for students completing the B.A. degree in international studies and fulfills the COM3 writing requirement for the University Studies Program.

Area of Focus

Students will complete a minimum of 18 hours of coursework in two specific areas of focus, choosing a global and regional track. Students must complete a minimum of 9 hours in each track.

Global and regional tracks have suggested Gateway courses. Most Gateway courses fulfill University Studies requirements. All INST students are required to take the Regional Gateway course in their chosen region. All INST students are required to take the Regional Gateway course in their chosen region. These courses fulfill the COM2 requirement for the University Studies Program and count towards the 9 hours required for the Regional Track.

INST2230 - Introduction to Asian Studies

Credits: 3

Asia, the world's largest continent, is home to virtually half of humanity and a broad spectrum of peoples, languages, religions, and cultures. This course introduces the cultural, political, economic, and environmental landscapes of this diverse region.

USP 2003-2014 Code U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

INST2240 - Introduction to African Studies

Credits: 3

Confronts African stereotypes by exploring the continent's complex history and current affairs, with the help of different disciplinary perspectives, such as economics, political science, and anthropology. Equipped with the basics, students will be primed to tackle more advanced courses on Africa.

Cross Listed AAST 2240.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

INST2250 - Introduction to Latin American Studies

Credits: 3

An introduction to the culture, history and politics of Latin America, from the US/Mexico border to the Antarctic ice fields of Patagonia. We will consider historical events and encounters from pre-Conquest times to contemporary crises. Our toolkit includes geography, anthropology, history, political economy, literature and cultural studies.

USP 2015 Code U5C2

OR

INST2280 - Introduction to European Studies

Credits: 3

This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.

Cross Listed HIST 2280.

USP 2015 Code U5C2

OR

POLS2200 - Politics of Europe and the European Union

Credits: 3

Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2

Prerequisite: POLS 1200 o r POLS 1250 o r permission of the instructor.

Global Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

- Global Track, Sustainable Development and the Environment
- Global Track, Economic Systems
- Global Track, Culture and Social Issues
- Global Track, Governance and Conflict Resolution

Regional Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

- Regional Tracks, Africa and the Middle East
- Regional Tracks, Asia
- Regional Tracks, Europe and the Former Soviet Union
- Regional Tracks, Latin America

Foreign Language

Students must complete a four semester sequence in a single foreign language or show an equivalent level of proficiency. Language courses must be conversational language courses. American Sign Language is not considered a foreign language.

Electives

Students must take 9 hours of elective courses from the international studies curriculum, 6 of which must be upper division. The following Gateway courses can count for the elective requirement:

ANTH1200 - Introduction to Cultural Anthropology

Credits: 3

Introduction to foreign, especially non-western, cultures through anthropological concepts, films and ethnographies.

USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

ECON1000 - Global Economic Issues

Credits: 3

Economics: creating value through trade, enhancing society through ideas, and protecting the environment by design. This introductory course will help you understand better on how people use both free markets and government regulations to create value, enhance society, and protect nature. You will explore how economic ideas and tools address big global issues like poverty and prosperity, inequality of wealth, capital and labor, sustainable development, free trade vs fair trade, climate change, war and peace, migration, brain drains, and science and nature.

USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H

INST1060 - World Regional Geography

Credits: 3

Covers the distributions, traits, and processes of the Earth's peoples and landscapes through the perspective of regional geography, which is the study of the spatial relationships of natural environments and human societies.

Cross Listed Cross listed with: GEOG 1000.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H

INST1330 - World History since 1750

Credits: 3

A history of the world's peoples and societies from 1750 to the present, with an emphasis on the diversity and interconnectedness of human life in the past.

USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG

Political Science B.A.

Political Science is the study of how societies govern themselves and interact with one another. The Political Science major offers the subfields: American politics, comparative government, international relations, political philosophy, public law, and public administration.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Political Science B.A.

POLS1000 - American and Wyoming Government

Credits: 3
Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

When Offered (Offered each semester)
USP 2003-2014 Code U3V
USP 2015 Code U5V

POLS1200 - Non-Western Political Cultures

Credits: 3
Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.

Cross Listed INST 1200.
USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG
Or

POLS1250 - Introduction to Comparative Government

Credits: 3
How do foreign states deal with the numerous challenges to their stability? Do institutions affect a state's approach to solving different problems? How do these different approaches affect policy? This course introduces students to different styles of governance and compare countries from around the world with reference to their political ideology.

Cross Listed INST 1250.
A&S College Core 2015 ASG

POLS2310 - Introduction to International Relations

Credits: 3
Analyzes the nature of international relations, emphasizing various methods of explaining and interpreting the behavior of nation-states. In doing so, the course illustrates the contemporary problems of world politics.

Cross Listed INST 2310.

USP 2003-2014 Code U3G
A&S College Core 2015 ASG

POLS2460 - Introduction to Political Philosophy

Credits: 3

Surveys history of Western political thought including study of concepts and approaches to political philosophy.

When Offered (Offered once a year)

Or

POLS3600 - American Political Thought

Credits: 3

Examines key primary sources and traditions from the founding to present.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: POLS 1000 or permission of instructor.

Additional Requirements:

A major in political science requires 33 department hours.

A maximum of 6 hours of internship credit may be applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

Students are also required to take

- at least one seminar in political science (and its prerequisites)
- 8 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages
- STAT2070 - Introductory Statistics for the Social Sciences Credits: 4
- OR
- STAT2050 - Fundamentals of Statistics Credits: 4
- minimum of 9 hours of upper division credit in political science.

Political Science, B.A./M.A.

The Political Science 5 Year B.A./M.A. Program offers highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor's degree (whether B.A. or B.S.) and thereby earn a graduate degree more efficiently. Political science majors with a cumulative major GPA of 3.5 or higher may be invited to apply at the outset of the second semester of the junior year.

Interested students will submit an application and 2 letters of recommendation, at least one from a political science faculty to be reviewed, along with unofficial, current UW transcripts, by the M.A. Director and Committee. Upon provisional acceptance into the program in the junior year, students will be required to take the GRE. GRE scores will be considered for full and final acceptance to the M.A. program, which will be made once the student has completed the bachelor's degree.

Provisional acceptance to the 5 Year B.A./M.A. program in Political Science will allow students to apply up to six credit hours of 5000-level courses toward both the B.A./B.S. and M.A. degree programs. To earn graduatelevel credit, students must achieve at least a 3.000 in the course. By successfully completing up to six credit hours of graduate coursework during their senior year, these students will have demonstrated their ability to do graduatelevel coursework as undergraduates, easing their transition into the Master's Program in Political Science. Interested students may reserve up to six additional credits for graduate study that do not apply to the undergraduate degree by securing appropriate approvals as explained in the Registrar's "Request to Reserve Coursework for Graduate Credit" prior to taking the coursework.

Students will be granted the BA/BS upon completion of the credit hours required for the undergraduate degree in political science. Students must complete the BA/BS before formally entering the MA program. To remain in good standing in the program, students must maintain a cumulative and departmental GPA of 3.200 and earn at least a 3.000 in all 5000-level courses. Failure to meet the GPA requirements places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be suspended from the program. Students in the program are encouraged to take the Plan B option. Please see the Graduate Study section to find the degree requirements of the M.A. in Political Science.

Political Science, B.S.

Political Science studies how states govern themselves and interact. Subfields include: American politics, comparative government, international relations, political philosophy, public law, and public administration with an emphasis on statistical analysis and quantitative methods.

Introductory Courses

Students are required to complete the following four introductory courses:

POLS1000 - American and Wyoming Government

Credits: 3

Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

When Offered (Offered each semester)

USP 2003-2014 Code U3V

USP 2015 Code U5V

POLS1200 - Non-Western Political Cultures

Credits: 3

Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.

Prerequisite: POLS 1000 or permission of instructor.

Other Requirements

In addition to the university and college requirements listed elsewhere in this bulletin, a major in political science requires 33 department hours.

A maximum of 6 hours of internship credit may be applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

Students are also required to take

- at least one seminar in political science (and its prerequisites)
- 8 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

- minimum of 9 hours of upper division credit in political science.

Minor

American Politics Minor

The American Politics minor delves into the mechanics of politics in the United States by studying historical and current implications.

Requirements

A minor in American Politics requires

POLS1000 - American and Wyoming Government

Credits: 3

Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

When Offered (Offered each semester)

USP 2003-2014 Code U3V

USP 2015 Code U5V

POLS4850 - Seminar in American Politics and Institutions

Credits: 3

Max Credit (Max. 6)

Includes reading and research on selected U. S. government and politics problems.

Dual Listed POLS 5850.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: 9 hours of political science including POLS 1000 and consent of instructor.

OR

POLS4840 - Seminar in Public Law

Credits: 3

Max Credit (Max. 6)

Includes reading and research on selected problems in public law.

Dual Listed POLS 5840.

USP 2015 Code U5C3

Prerequisite: 9 hours of political science or related fields including POLS 1000 and consent of instructor.

- 12 hours from an approved list of courses, with a minimum of 9 hours at the 3000-level or above.

Approved American Politics Minor Courses

POLS2000 - Current Issues in American Government

Credits: 3

Examines current political topics in the U. S. Focuses on key public policy problems, policy-making process and the final policy choice. Students must keep abreast of political events on daily basis and apply basic concepts in American government to current affairs.

USP 2003-2014 Code U3CS

Prerequisite: POLS 1000.

POLS2070 - Politics of State and Local Government

Credits: 3

Studies politics, organizations, structures and processes of American state and local governments.

Prerequisite: POLS 1000.

POLS2410 - Introduction to Public Administration

Credits: 3

Deals with executive branches of governments in the U. S. : national, state and local. Considers organizational, political and policy-making aspects of each. Discusses administration in other forms of government, such as interstate compacts and regional agreements.

Prerequisite: POLS 1000.

POLS2430 - Parties, Interest Groups and Elections

Credits: 3

Studies nature and functions of political organizations in American democracy. Discusses origins and evolution of American parties, causes of interest group development, political socialization, political participation and voting behavior, as well as activities of interest groups within American society and political system. Emphasizes current trends regarding role of parties versus interest groups.

USP 2003-2014 Code U3CS

Prerequisite: POLS 1000.

POLS2450 - Politics and Media

Credits: 3

Examines the media's coverage of current events, governmental institutions and electoral campaigns. Discusses effect of media on individuals' opinions and behavior.

Prerequisite: POLS 1000.

POLS2490 - Topics In:

Credits: 1-3

Max Credit (Max. 6)

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000.

POLS3100 - Politics and the Judicial Process

Credits: 3

Analyzes courts and their personnel in the American political system, including examination of functions of courts, characteristics of judicial process, approaches to the study of judicial behavior, and role of courts as policy makers.

Former Course Number [2100]

Prerequisite: POLS 1000.

POLS3520 - Voting and Participation in America

Credits: 3

Examines the ways citizens participate in government, including campaigning, donating money, and voting. Topics include mobilization by parties and campaigns, social and demographic differences in participation, explanations of voting behavior, civic responsibility, and the role of participation in a democracy.

Prerequisite: POLS 1000.

POLS3550 - Political Communication

Credits: 3

Examines the intersection of politics and communication. For example, may cover politics and media, interpersonal political discussion, organizational and governmental political communication, political campaigns, politics and technology, etc. Moreover, it may cover the effects of political communication on individuals' opinions and behavior.

Cross Listed COJO 3550.

Prerequisite: COMM 1000, COMM 1040, or POLS 1000.

POLS3600 - American Political Thought

Credits: 3

Examines key primary sources and traditions from the founding to present.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: POLS 1000 or permission of instructor.

POLS4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.

Dual Listed POLS 5051.

USP 2003-2014 Code U3WC
Former Course Number [4050]

Prerequisite: POLS 1000.

POLS4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ ENR 4052/GEOG 4052/REWM 4052.

Prerequisite: POLS 1000.

POLS4100 - Constitutional Law: Institutional Powers

Credits: 3

Encompasses case-study analysis of judicial decisions and policies affecting constitutional interrelationships among the three branches of federal government, federal-state relations, as well as powers of the states and federal government in the area of social and economic regulatory laws.

Dual Listed POLS 5100.

Prerequisite: POLS 1000.

POLS4110 - Constitutional Law: Civil Liberties and Rights

Credits: 3

Encompasses case-study analysis of judicial decisions and policies of the constitutional interpretation of the 1st Amendment (freedom of speech, press, association and religion), privacy rights, the rights of the criminally accused, and civil rights (racial and gender equality).

Cross Listed CRMJ 4110.

Dual Listed POLS 5110.

Prerequisite: POLS 1000, POLS 3100 recommended.

POLS4330 - American Foreign Relations

Credits: 3

Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

Cross Listed INST 4330.

Dual Listed POLS 5330.

Prerequisite: 9 hours of political science or international studies including POLS 2310.

POLS4420 - Seminar in Public Administration

Credits: 3

Max Credit (Max. 6)

Includes reading and research in selected public administration topics.

Dual Listed POLS 5420.

Prerequisite: POLS 1000 and consent of instructor.

POLS4430 - United States Presidency

Credits: 3

Analyzes office of president, its roles, development, relationships with other governmental agencies and problems in the contemporary world.

Dual Listed POLS 5430.

Prerequisite: POLS 1000.

POLS4435 - Presidential Elections

Credits: 3

Examines the process of electing the U. S. president. Topics include the roles of presidential primaries, caucuses, and conventions; campaign strategies; media coverage; citizen participation; the electoral college; and reforms.

Dual Listed POLS 5435.

Prerequisite: POLS 1000.

POLS4520 - Public Opinion

Credits: 3

Deals with natures of a public in democracy and means of forming and manipulating public opinion. Emphasizes role of public opinion as essential ingredient of the policy-making process in popular government.

Dual Listed POLS 5520.

Prerequisite: POLS 1000.

POLS4530 - U.S. Congress

Credits: 3

Analyzes aspects of the U. S. Congress, including election of congressmen, legislative process, congressional-presidential relations, and the influence of political parties, interest groups, and constituents on the legislative process.

Dual Listed POLS 5530.

Prerequisite: POLS 1000.

POLS4550 - Internship in Government

Credits: 1-6

Integrates practical political experience with academic knowledge. Students are expected to participate in specifically assigned duties and observe broader activities of the sponsoring organization; then, reflect upon this participation and observation in the form of written assignments. Internship credit can be earned for work in political campaigns, Wyoming Legislature or government services.

Prerequisite: 9 hours of political science.

POLS4560 - Washington Semester Program

Credits: 15

Provides students with paid internships in Washington, D. C. , in either congressional offices or federal agencies. Selection into the program is very competitive and is made the semester prior to service.

Prerequisite: POLS 1000 and 6 additional hours of political science courses.

POLS4710 - Topics in

Credits: 1-3

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000 and 3 additional hours of political science.

POLS4720 - Workshop in Practical Politics

Credits: 1-3

Familiarizes or strengthens participants in techniques of political effectiveness. Includes political organization, campaigning and persuasion. Guest speakers include public officials and experts in the field of practical politics.

Prerequisite: 9 hours of political science.

POLS4840 - Seminar in Public Law

Credits: 3

Max Credit (Max. 6)

Includes reading and research on selected problems in public law.

Dual Listed POLS 5840.

USP 2015 Code U5C3

Prerequisite: 9 hours of political science or related fields including POLS 1000 and consent of instructor.

POLS4850 - Seminar in American Politics and Institutions

Credits: 3
Max Credit (Max. 6)

Includes reading and research on selected U. S. government and politics problems.

Dual Listed POLS 5850.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: 9 hours of political science including POLS 1000 and consent of instructor.

Asian Studies Minor

The Asian Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of an Asian region or a single country. The program emphasizes a social science approach to the study of Asian history, politics, society, and culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Asia is defined first and foremost as a geographic entity to include Western, Northern, Central, South and East Asian areas. Thus, for example, countries such as modern Turkey and areas such as the 'Middle East' can rightly be included in 'Asia' alongside areas more traditionally understood as part of Asia such as China and India.

Course Requirements (18 Credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 Credit Hours)

All Asian Studies Minor students must complete one of two required Gateway courses depending on their primary area of interest within Asia.

INST2230 - Introduction to Asian Studies

Credits: 3

Asia, the world's largest continent, is home to virtually half of humanity and a broad spectrum of peoples, languages, religions, and cultures. This course introduces the cultural, political, economic, and environmental landscapes of this diverse region.

USP 2003-2014 Code U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

OR

POLS3270 - Governments and Politics of the Middle East

Credits: 3

Acquaints students with basic political, social and economic institutions of Middle Eastern countries. Emphasizes post-World War I developments, contemporary issues and problems. Special attention is given to politics of major nations in

the Middle East such as Turkey, Iran, Israel, Egypt, Saudi Arabia, Iraq and Syria.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

Asian Studies Area Courses (15 Credit Hours)

Asian Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved Asian Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Asian Studies Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the International Studies Newsletter each semester to see what Asian Studies Area courses are currently being offered.

Approved Asian Studies Area Courses

- ART 2720 - Introduction to the Art and Culture of Islam

ART4650 - International Study of Art

Credits: 3

Students will respond creatively to the historical, cultural and aesthetic experience in the country of travel and will use journaling, drawing, and collection of visual material to continue a more in-depth response upon return. Course sections will vary regarding structure/context. All sections will include studio and/or art historical curriculum.

USP 2003-2014 Code U3G
A&S College Core 2015 ASG
Prerequisite: ART 4635.

CHIN1101 - First-Year Seminar

Credits: 3

USP 2003-2014 Code U5FY

CHIN2041 - Contemporary and Traditional Chinese Culture

Credits: 3

Designed to provide those with a serious interest in China and Chinese language with a cultural context for learning Chinese language. Incorporates economic and social material to give students a clear view of Chinese culture with an emphasis on Chinese language instruction.

Prerequisite: CHIN 2030.

CHIN3160 - See Movies, Touch China

Credits: 3

This course combines exploration of classical and contemporary Chinese cultures through prominent Chinese films. The audio-video materials selected will be discussed in their historical context. Students will explore the

transformations China has undergone, and will seek to understand the Chinese mindset.

USP 2003-2014 Code [(none)< >H]

Prerequisite: COM1.

ENR3300 - Environmental Policy, Conservation and Development in India

Credits: 3

This course will focus on India's environmental policies pertaining to conservation and development. Case studies will be used to understand how these policies were developed, put in place, and their intended and actual outcomes. Students are required to select a suitable topic and conduct research and submit a research report.

USP 2015 Code U5C2

Prerequisite: WA/ COM1 course.

HIST2040 - Imperial China

Credits: 3

Surveys China's social, intellectual, political, cultural, technological and ethnohistory from earliest historical period through the last imperial dynasty, and China's role in greater E. Asian and world history. Provides background for other Asia-related courses and is part of year-long series; see HIST 2041.

USP 2003-2014 Code U3CS, U3G

HIST2041 - Modern China

Credits: 3

Surveys China's social, intellectual, political, cultural, and ethnohistory from mid-1800s to the present. Themes include colonialism, emergence of nation-state, Communist party, Mao's socio-political agenda, post-Mao reforms, and China's role in Asia. Background for other Asia-related courses and part of year-long series; see HIST 2040.

HIST2320 - History of Islam

Credits: 3

Focuses on the origins of Islam and its early formation, its growth and spread across the world, and its intellectual, spiritual and historical character. Time will also be spent on the formation of Islam in the modern world and how that impacts the views and actions of its members.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

OR

RELI2320 - History of Islam

Credits: 3

Focuses on the origins of Islam and its early formation, its growth and spread across the world, and its intellectual,

spiritual and historical character. Time will also be spent on the formation of Islam in the modern world and how that impacts the views and actions of its members.

Cross Listed HIST 2320.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

HIST2460 - Traditional Japan

Credits: 3

Surveys Japan's social, intellectual, political, cultural, technological and ethnohistory from earliest historical period to the 1800s. Topics include roles of China and Korea, the samurai warrior tradition, family structure, Buddhism and Shinto. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2461.

HIST2461 - Modern Japan

Credits: 3

Surveys Japan's social, intellectual, political, cultural, economic, technological and ethnohistory from the 1800s through the present. Topics include Japan's industrialization, Asian colonialism, post-WWII, and Japan as economic superpower. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2460.

A&S College Core 2015 ASG

HIST2470 - Civilization of India

Credits: 3-4

Max Credit 4

Surveys Indian civilization from earliest times, including cultural aspects.

- HIST 3210 - The Islamic World in the Premodern Era

HIST3220 - History of the Modern Middle East

Credits: 3

Surveys the Middle East from 1700 to the present. Emphasizes the demise of the Ottoman Empire, the rise of domination by European colonial powers, transformations in political, social, religious and cultural life, the rise of nationalist movements, the influence of oil, the growth of Islamist political groups and the Israeli-Palestinian conflict.

Cross Listed RELI 3220.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Prerequisite: 6 hours of HIST, RELI, or INST.

HIST3400 - Mongol Empire

Credits: 3

Examines the history of the Mongol Empire from a world history perspective. Major themes: structure of a nomadic

empire, how that empire interacted with the various settled states it conquered and ramifications of the Mongol conquest on trade, technology, and social and intellectual developments across Eurasia, between the years 1200 to 1450 CE.

Prerequisite: 6 hours of HIST.

GWST4335 - Women and Islam

Credits: 3

Examines women's lives in Islamic societies from the seventh century to the present in the Middle East and throughout the world. Themes include women's position in Islamic law, society and culture, Western images of Muslim women, veiling and Islamist movements, theoretical readings on power, gender and agency.

Cross Listed HIST 4335 and RELI 4335.

Dual Listed GWST 5335.

Prerequisite: 9 hours of HIST, WMST, INST, or RELI.

- HIST 4520 - Modern Far East: China, Japan and India

INST2230 - Introduction to Asian Studies

Credits: 3

Asia, the world's largest continent, is home to virtually half of humanity and a broad spectrum of peoples, languages, religions, and cultures. This course introduces the cultural, political, economic, and environmental landscapes of this diverse region.

USP 2003-2014 Code U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

INST3100 - Chinese Society

Credits: 3

Reviews origins and consequences of Chinese revolution in comparative and cultural perspectives. Discusses influence of historical traditions and social structure on individual lives and behavioral patterns.

Cross Listed SOC 3100.

USP 2003-2014 Code U3G

Prerequisite: SOC 1000.

OR

SOC3100 - Chinese Society

Credits: 3

Reviews origins and consequences of Chinese revolution in comparative and cultural perspectives. Discusses influence of historical traditions and social structure on individual lives and behavioral patterns.

Cross Listed INST 3100.

USP 2003-2014 Code U3G

Prerequisite: SOC 1000.

INST3400 - Politics and Society of Turkey

Credits: 3

Examines the history of Turkey with an emphasis on its relationship with the Western world. Major topics include the Ottoman Empire; Ataturk and the founding of the Republic of Turkey; Turkey's role in the Cold War, Kurdish and other minority populations; the changing Turkish political landscape, the evolution of Islamist politics; and recent relations with the United States and European Union.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Prerequisite: INST 1200/POLS 1200 or POLS 1250 and INST 2310/POLS 2310 or permission of instructor.

INST4200 - China and Globalization

Credits: 3

The economic reforms in China have been political, cultural, and above all, global processes. Understanding these processes of economic reform tells us much about the role of government, culture, and globalization in the transition from socialism to capitalism, as well as about China's future role in the world.

Prerequisite: POLS 1200/INST 1200 or POLS 1250/INST 1250 or HIST 2041 or SOC 3100.

INST4250 - East Asia Society and Economy

Credits: 3

Designed to explore key issues to the historical development of Asian countries from both comparative and international political economy perspectives. Distinctive political, social, and economic characteristics of these nations will be analyzed.

Dual Listed INST 5250.

USP 2003-2014 Code U3G

INST4560 - Global Cities

Credits: 3

Globalization accelerates urbanization processes and creates a new type of city: the global city. This course investigates the debates over global cities, urban culture, new urban landscapes, urban planning practices, and social disparity. Using case studies from around the world, this class explores the diversity of global city formation processes.

Cross Listed GEOG 4560.

Dual Listed Dual listed with INST 5560.

USP 2015 Code U5H

Prerequisite: 9 hours of international studies or geography.

INST4590 - Sustainable Business Practices

Credits: 3

A close look at what is happening in business practice today through the 'lens' of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed MKT 4590.

Dual Listed INST 5590.

Prerequisite: advanced business standing.

OR

LANG2150 - Manga: History and Culture

Credits: 3

Manga is one of the most important art forms to emerge from Japan. Its importance as a medium of visual culture and storytelling cannot be denied. Through reading and examination of texts, students will understand the relevance of comics in Japanese society.

USP 2003-2014 Code U3O, U3WB

USP 2015 Code U5C2

Prerequisite: COM1.

LANG3105 - Major Themes in Chinese and Japanese Literature

Credits: 3

Explores mindsets of two rich and ancient civilizations, China and Japan. Considers distinctive characters of each civilization, while illuminating basic elements that we share with these peoples.

Prerequisite: ENGL 1010.

LANG3140 - Anime: History and Culture

Credits: 3

An introduction to the history, development, and cultural significance of Japanese animation. Through the examination of a variety of anime genres, students will gain insight into contemporary Japan as well as important historical periods. We will read analyses of particular anime, emphasizing the unique characteristics of the art and the mystery of its popularity in the US.

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Prerequisite: completion of WA.

LANG4800 - Advanced Instruction In: (TOPIC)

Credits: 1-3

Max Credit (Max. 12)

Advanced study and projects designed to meet special needs and interests of students, to be selected in consultation with a suitable member of the faculty.

Prerequisite: consent of instructor.

POLS3270 - Governments and Politics of the Middle East

Credits: 3

Acquaints students with basic political, social and economic institutions of Middle Eastern countries. Emphasizes post-World War I developments, contemporary issues and problems. Special attention is given to politics of major nations in the Middle East such as Turkey, Iran, Israel, Egypt, Saudi Arabia, Iraq and Syria.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS4230 - Governments and Politics of Asia

Credits: 3

Studies political systems of East Asia. Analyzes impact of social and economic factors upon political institutions.

Dual Listed POLS 5230.

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

RELI2040 - Religions of the Middle East: Judaism, Christianity and Islam

Credits: 3

Analyzes origins and early years of three major religions that arose in the Middle East: Judaism, Christianity and Islam. Looks at historical development, political and cultural context, and structure of each religion.

USP 2003-2014 Code U3CH, U3G

A&S College Core 2015 ASG

RELI2050 - Religions of Asia

Credits: 3

Introduces students to the religions of Asia. Primary focus on Hinduism and Buddhism, but also addresses several smaller religions. Emphasis on beliefs, sacred texts and tales, practices, ethics and worship, as well as historical development and contemporary issues.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

RELI2315 - History of Non-Western Religions

Credits: 3

Max Credit 9

Introduces students to religions outside the Judeo-Christian realm familiar in the west. Each religion analyzed in its

world views, its ways of life, and in its social organization. History of each religion and its changes.

Cross Listed HIST 2315.
USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

RELI3320 - Eastern Thought

Credits: 3
Surveys some of the major concepts in Zen, Hinduism, Buddhism, Taoism and Confucianism.

Cross Listed PHIL 3320.
USP 2015 Code U5H
Prerequisite: 3 hours of philosophy.
OR

PHIL3320 - Eastern Thought

Credits: 3
Surveys some of the major concepts in Zen, Hinduism, Buddhism, Taoism and Confucianism.

Cross Listed RELI 3320.
USP 2015 Code U5H
Prerequisite: 3 hours of philosophy, or consent of instructor.

RELI3340 - Mysticism, Yoga, and Enlightenment in the East

Credits: 3
Explores Hindu and Buddhist concepts of enlightenment and the means for reaching them through mysticism and yoga. Study the texts and beliefs and their translation into practice.

Prerequisite: WB and CH.

- RELI 3344 - Gods, Avatars, Heroes, and Mystics
- SOC 3050 - Japanese Society

Optional Asian Study Abroad Component

Asian Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Asia to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of the Asian Studies Area Course requirement on the approval of the student's designated minor advisor. Optional Asian Foreign Language Component Asian Studies Minor students are also strongly encouraged to learn an Asian foreign language as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower-division (1000-2000) credit hours of an Asian foreign language may be counted towards fulfillment of the Asian Studies Area Course requirement. 'Asian' languages at UW include Japanese, Chinese and Arabic. However, Asian Studies Minor, students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be

fulfilled by other Asian language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad programs.

European Studies Minor

The European Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of a European region or a single country. The program emphasizes a social science approach to the study of modern European history, politics, society, and culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Europe is defined first and foremost as a geographic entity running from the Atlantic to the Urals and from Scandinavia to the Mediterranean and the Caucasus Mountains. Courses that transcend these boundaries should include the study of Europe in a prominent way to count toward the minor.

All required courses for the major must be passed with a grade of C or better. A course cannot simultaneously fulfill more than one major requirement.

Course Requirements (18 Hours)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 Credit Hours)

All European Studies Minor students must complete one of two required Gateway courses, either:

INST2280 - Introduction to European Studies

Credits: 3

This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.

Cross Listed HIST 2280.

USP 2015 Code U5C2

OR

POLS2200 - Politics of Europe and the European Union

Credits: 3

Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2

Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

European Studies Area Courses (15 Credit Hours)

European Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved European Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the International Studies Newsletter each semester to see what European Studies Area courses are currently being offered.

Approved European Studies Area Courses

- A&S 2200 - British Life and Culture

FREN2130 - Contemporary French Culture

Credits: 3

Designed as an introduction to contemporary French culture. It gives students an in-depth insight into contemporary French life. It also deals with issues affecting the French-speaking world in general: Quebec, Africa, New Caledonia, Switzerland, Monaco, etc.

USP 2015 Code U5H

Prerequisite: FREN 1020 or equivalent.

FREN3110 - Contemporary French Civilization

Credits: 3

Emphasizes the institution and values of contemporary France. Deals with the major political, social, cultural and economic aspects of today's France. Will be taught in French.

Prerequisite: FREN 3050.

- FREN 4085 - Studies in French Culture

GERM3006 - 20th Century German Culture and Civilization

Credits: 3

Major political, ideological and cultural developments in Germany between 1871 and the present. An interdisciplinary approach (history, art history, film and literature) allows students to explore and assess a nation's culture and civilization as well as far-reaching events (WWI, WWII and the Holocaust) from various perspectives.

USP 2003-2014 Code U3CH, U3WC

Prerequisite: junior standing.

GERM3150 - German History and Culture

Credits: 3

Taught in English, this class engages students both theoretically and practically with German history and culture throughout the ages from the Middle Ages to today. Reading content is complemented with outings to culturally and historically significant sites in Germany as part of a summer study abroad program.

USP 2003-2014 Code U3CH, U3G

A&S College Core 2015 ASG

Prerequisite: WA or equivalent.

- GERM 4265 - Divided Nation: Politics and Culture in Germany 1945 - 1990

GERM4285 - 20th/21st Century German Film

Credits: 3

Introduces students to classical German films, and thereby enhances their skills to conduct research in the Humanities.

Themes to be discussed: representation of authority, issues of race and gender, German culture and history, the

Americanization of German culture, minorities in contemporary Germany.

Dual Listed GERM 5285.

Prerequisite: WB.

HIST2080 - Holocaust

Credits: 3

Surveys the destruction of European Jewry, 1933-1945.

Cross Listed RELI 2080.

USP 2003-2014 Code U3CH

Former Course Number [4315]

HIST2240 - The History of Russia Since 1855

Credits: 3

General survey of modern Russian history from 1855 to the present.

HIST3110 - Modern Germany

Credits: 3

A cultural, social, and political history of German-Speaking Europe from 1789 to the present.

Prerequisite: 6 hours of HIST or INST.

HIST4170 - Europe in the Nineteenth Century

Credits: 3

An intensive study of European history from the beginning of the nineteenth century through to the origins of the First World War in 1914.

Dual Listed HIST 5170.

Prerequisite: HIST 1120.

HIST4180 - Europe in the 20th Century

Credits: 3

An intensive study of European history from 1914 through 2000.

Dual Listed HIST 5180.

Prerequisite: 9 hours of HIST.

- HIST 4190 - Europe: 1930 - Present
- HIST 4195 - European Economic History

HIST4270 - France: Old Regime and Revolution

Credits: 3

The social, political and cultural history of early modern France (1598-1789), from the rise of the Absolutist state under Louis XIV to the outbreak of the Revolution. Explores the cultural and intellectual shifts from court culture at Versailles, to the Enlightenment, to the rise of revolutionary ideologies.

Dual Listed HIST 5270.

Prerequisite: 9 hours of HIST.

- HIST 4280 - France Since 1814

HIST4290 - History of the Soviet Union

Credits: 3

Depicts Russia under Communism, including particularly the development of totalitarian dictatorship in its political, economic, social and cultural manifestations.

Dual Listed HIST 5290.

Prerequisite: 9 hours of HIST.

HIST4310 - World War II in Europe

Credits: 3

Covers the origins, course and consequences of one of this century's defining global developments. World War II in Europe was a transnational development which shaped the world as it is known today.

Dual Listed HIST 5310.

Prerequisite: 9 hours of HIST.

HIST4315 - History, Politics and Memory of the Holocaust in Europe

Credits: 3

Offers students the opportunity to learn about the history of the Holocaust through travel to various sites in Central Europe where the events themselves occurred, such as Berlin, Warsaw, Krakow and Auschwitz-Birkenau.

Cross Listed INST 4315.

Dual Listed HIST 5315.

Prerequisite: 9 hours of HIST or INST.

HIST4320 - Memory and National Identity in Twentieth Century Europe

Credits: 3

Europe in the twentieth century saw a century of unprecedented violence. Examines the public representation of such historical trauma through the concept of "collective memory" and focuses in particular on how memory has become a contested part of defining identity in modern-day Europe.

Dual Listed HIST 5320.

Prerequisite: 9 hours of HIST.

INST2280 - Introduction to European Studies

Credits: 3

This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.

Cross Listed HIST 2280.

USP 2015 Code U5C2

INST4330 - American Foreign Relations

Credits: 3

Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

Cross Listed POLS 4330.

When Offered (Normally offered once a year)

Prerequisite: 9 hours of political science or international studies including POLS 2310.

OR

POLS4330 - American Foreign Relations

Credits: 3

Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

Cross Listed INST 4330.

Dual Listed POLS 5330.

Prerequisite: 9 hours of political science or international studies including POLS 2310.

OR

- SOC 4330 - The World System

INST4380 - International History of Human Rights

Credits: 3

Examine the modern history of human rights in the global system, with particular emphasis on developments since the

Second World War. Topics include the philosophy of human rights ideas; the histories of rights and rights violations in various regions; and the resulting international responses.

Cross Listed HIST 4380.

Dual Listed INST 5380.

Prerequisite: 9 hours of HIST or INST.

INST4881 - International Social Welfare and Social Development

Credits: 3

Examines the basic framework of social welfare analysis and social development programming in the international arena, employing a multinational comparative analysis approach to explore the wide array of responses to social need across the globe. Students employ multinational comparative analyses to an area of social concern.

Cross Listed SOWK 4881.

Dual Listed INST 5881.

Prerequisite: POLS 1000; ECON 1010 recommended.

POLS2200 - Politics of Europe and the European Union

Credits: 3

Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2

Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

POLS3220 - Government and Politics of Russia and FSU

Credits: 3

Examines the political, economic and identity transitions of Russia and other states of the former Soviet Union during the post-communist era. Explores how current challenges relate to past Soviet practices.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS4215 - European Union

Credits: 3

Examines the European Union's history, institutional structures, and policy areas and explores the positive and negative effects of European integration.

Cross Listed INST 4215.

Dual Listed POLS 5215.

Former Course Number [4220]

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

- RELI 4150 - Christianity, Jews and Muslims in Iberia

SPAN3220 - Spanish-American Cultures in Context

Credits: 3

Introduction to the Spanish-speaking cultures of Latin America and the United States through a historical overview and a focus on contemporary politics and culture.

Prerequisite: SPAN 2040 or SPAN 2140 or consent of instructor.

Optional European Study Abroad Component

European Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Europe to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of the European Studies Area Course requirement on the approval of the student's designated minor advisor.

Optional European Foreign Language Component

European Studies Minor students are also strongly encouraged to learn an European foreign language (other than English) as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower division (1000-2000) credit hours of an European foreign language may be counted towards fulfillment of the European Studies Area Course requirement. 'European' languages at UW include French, German, and Spanish. However, European Studies Minor students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other European language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad programs.

International Relations and Comparative Politics Minor

Requirements

A minor in International Relations and Comparative Politics requires

POLS2310 - Introduction to International Relations

Credits: 3

Analyzes the nature of international relations, emphasizing various methods of explaining and interpreting the behavior of nation-states. In doing so, the course illustrates the contemporary problems of world politics.

Cross Listed INST 2310.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

POLS1200 - Non-Western Political Cultures

Credits: 3

Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.

Cross Listed INST 1200.
USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG

OR

POLS1250 - Introduction to Comparative Government

Credits: 3

How do foreign states deal with the numerous challenges to their stability? Do institutions affect a state's approach to solving different problems? How do these different approaches affect policy? This course introduces students to different styles of governance and compare countries from around the world with reference to their political ideology.

Cross Listed INST 1250.
A&S College Core 2015 ASG

POLS4870 - Seminar in International Relations

Credits: 3

Max Credit (Max. 6)

Encompasses reading and research in international law and politics.

Dual Listed POLS 5870.
USP 2015 Code U5C3
Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

OR

POLS4890 - Seminar in Comparative Government and Politics

Credits: 3

Max Credit (Max. 6)

Researches selected topics in comparative government and politics.

Dual Listed POLS 5890.
USP 2003-2014 Code U3G, U3WC
USP 2015 Code U5C3
Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

- 9 hours from an approved list of courses, with a minimum of 6 hours at the 3000-level or above.

Approved International Relations and Comparative Politics Minor Courses

POLS2200 - Politics of Europe and the European Union

Credits: 3

Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2

Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

POLS2290 - Governments and Politics of Latin America

Credits: 3

Studies chief cultural and historical factors influencing Latin American political process. Surveys major institutions and political patterns of the region.

Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

POLS2490 - Topics In:

Credits: 1-3

Max Credit (Max. 6)

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000.

POLS3200 - Comparative Political Cultures

Credits: 3

Histories and experiences of various societies have shaped their values, norms, beliefs, expectations, and attitudes. This class explores how the beliefs, values, and lifestyles of various societies shape peoples' views of their place in the politics of the state and of the state's place in their daily lives.

Cross Listed POLS 3200.

Prerequisite: POLS 1200/INST 1200 or POLS 1250/ INST 1250 or permission of instructor.

POLS3220 - Government and Politics of Russia and FSU

Credits: 3

Examines the political, economic and identity transitions of Russia and other states of the former Soviet Union during the post-communist era. Explores how current challenges relate to past Soviet practices.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS3270 - Governments and Politics of the Middle East

Credits: 3

Acquaints students with basic political, social and economic institutions of Middle Eastern countries. Emphasizes post-World War I developments, contemporary issues and problems. Special attention is given to politics of major nations in the Middle East such as Turkey, Iran, Israel, Egypt, Saudi Arabia, Iraq and Syria.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS3300 - Model United Nations

Credits: 1-3
Max Credit (Max. 6)

Focuses on the United Nations (UN) system and multilateral diplomacy to prepare students to participate in a Model UN simulation. Students learn to evaluate the UN system, learn strategies to address international problems, and develop skills to effectively represent a country in a role-playing exercise.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS4013 - Political Geography

Credits: 3
Geographic space is subdivided into political units to aid human interaction and to facilitate political processes. Examines the spatial organization of political space and its effects upon political processes at varying geographic scales ranging from the local to international.

Cross Listed GEOG 4013.

Dual Listed POLS 5013.

Prerequisite: Completion of USP H requirement.

POLS4215 - European Union

Credits: 3
Examines the European Union's history, institutional structures, and policy areas and explores the positive and negative effects of European integration.

Cross Listed INST 4215.

Dual Listed POLS 5215.

Former Course Number [4220]

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

POLS4230 - Governments and Politics of Asia

Credits: 3
Studies political systems of East Asia. Analyzes impact of social and economic factors upon political institutions.

Dual Listed POLS 5230.

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

POLS4255 - Politics of Developing Nations

Credits: 3

An analysis of the processes of political, economic and social change in the non-Western world.

Cross Listed INST 4255.

Dual Listed POLS 5255.

Prerequisite: 9 hours of political science or international studies, including POLS 1200/INST 1200 or POLS 1250/INST 1250 or POLS 2310/INST 2310, or permission of instructor.

POLS4260 - Democratization and Regime Change

Credits: 3

Examines the theoretical/empirical research on causes of democratic transition and consolidation, including new waves of democratization and prospects for democratization in other contexts. Focus is given to a variety of theoretical/methodological perspectives such as the structural, strategic, social/cultural, institutional, and economic approaches.

Cross Listed INST 4260.

Dual Listed POLS 5260.

Prerequisite: 9 hours of political science or international studies, including POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

POLS4290 - Inter-American Relations

Credits: 3

Surveys inter-American system and idea of hemispheric unity. Analyzes major issues confronting inter-American community.

Cross Listed INST 4290.

Dual Listed POLS 5290.

Prerequisite: 9 hours of political science, including POLS 1200/ INST 1200, or POLS 1250/INST 1250, or POLS 2310/ INST 2310, or permission of instructor.

POLS4330 - American Foreign Relations

Credits: 3

Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

Cross Listed INST 4330.

Dual Listed POLS 5330.

Prerequisite: 9 hours of political science or international studies including POLS 2310.

POLS4340 - International Organizations

Credits: 3

Encompasses development of world organizations, such as League of Nations, United Nations and its affiliate bodies. Also studies regional organizations and private international bodies.

Cross Listed INST 4340.

Dual Listed POLS 5340.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4350 - Sustainable Development and Global Policy

Credits: 3

Considers in-depth meaning of "sustainable development" and trade-offs necessary to achieve it. Considers this issue from global perspective through application of theories in economics, political science, international relations, technology studies and ethics.

Dual Listed POLS 5350.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4360 - International Peace and Conflict

Credits: 3

Why do nations go to war, engage in atrocities such as genocide, or move toward peace following conflict? Examines underlying processes behind both conflict and peace in the international system, including sources of conflict and ways conflicts might be moved toward sustainable peace.

Cross Listed INST 4360.

Dual Listed POLS 5360.

Prerequisite: 9 hours of political science or international studies including POLS 2310.

POLS4375 - Transitional Justice

Credits: 3

Mechanisms provide accountability for gross human rights violations and acts of mass atrocity within nations. Case studies are used to examine types of transitional justice interventions; tensions between demands of justice at local, national, and international levels; and transitional justice's role in post-conflict peace-building and reconciliation.

Cross Listed INST 4375.

Dual Listed POLS 5375.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4445 - Drug War Geopolitics in the Americas

Credits: 3

This course examines illegal drug commodity chains and international efforts to police the drug trade in the Americas. It approaches the drug war through a "critical geopolitics" framework, also covering broader themes such as international politics, livelihoods, development, environmental justice, the global economy, race-based discrimination, public health, and resistance movements.

Cross Listed INST 4445.

Dual Listed POLS 5445.

Prerequisite: 9 hours of international studies or social science coursework and junior standing.

POLS4475 - Politics of Natural Resources in Latin America

Credits: 3

This course examines major trends in resource extraction, management, and conservation in Latin America, and the politics surrounding those trends, from theoretical, social, political, economic, and ecological perspectives and through a variety of grounded case studies. The theories and concepts we study are applicable to resource politics beyond Latin America.

Cross Listed INST 4475.

Dual Listed POLS 5475.

Prerequisite: 9 hours of international studies or social science coursework and junior standing.

POLS4600 - Political Violence

Credits: 3

Examines causes and consequences of violence both among individuals and among nations.

Cross Listed CRMJ 4600.

Dual Listed POLS 5600.

When Offered (Normally offered every other year)

Prerequisite: POLS 1000, or SOC 1000, or POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

POLS4710 - Topics in

Credits: 1-3

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000 and 3 additional hours of political science.

POLS4870 - Seminar in International Relations

Credits: 3

Max Credit (Max. 6)

Encompasses reading and research in international law and politics.

Dual Listed POLS 5870.

USP 2015 Code U5C3

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4890 - Seminar in Comparative Government and Politics

Credits: 3

Max Credit (Max. 6)

Researches selected topics in comparative government and politics.

Dual Listed POLS 5890.

USP 2003-2014 Code U3G, U3WC

USP 2015 Code U5C3

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

International Studies Graduate Minor

Students graduating with a minor in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

Additional Requirements

A graduate minor in international studies provides students in graduate programs other than international studies with the opportunity to acquire a basic graduate-level familiarity with international relations, global processes and cultural diversity around the world. Students acquire a foundation in intergovernmental relations and research methodology. Beyond this, students work closely with a graduate director to fashion a program of study appropriate for their interests and post-graduate plans. The minor complements several other graduate degree programs.

Prerequisites for Admission

Declaration of an international studies minor is contingent on admission to a master's or doctoral degree program. Application is in the form of a letter of interest to the director of the program, including the background, anticipated course of study, and reason for seeking the minor. An interview with the director is also required. All prerequisites for entering the graduate program in international studies as a major apply to the minor with the exception of proficiency in a second language. Students must be prepared for coursework in international studies at the graduate level and be willing to take prerequisite courses if necessary.

Course and Committee Requirements

Graduate students minoring in international studies must satisfy the requirements of their graduate major and take twelve credits of guided graduate coursework in international studies. With the approval of the department of the graduate major, these twelve hours may also count toward the major. Students are required to take at least one advanced theory course (INST 5200) and one advanced research methods course. All courses will be determined in consultation with the program director.

International Studies Minor

Students graduating with a minor in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

Additional Information

A minor in international studies requires 12 hours of a single foreign language and 15 hours of international studies curriculum, with a minimum of 9 hours at the 3000-level or above.

Political Theory Minor

A minor in Political Theory offers an opportunity for interdisciplinary study.

Requirements

POLS2460 - Introduction to Political Philosophy

Credits: 3

Surveys history of Western political thought including study of concepts and approaches to political philosophy.

When Offered (Offered once a year)

POLS3600 - American Political Thought

Credits: 3

Examines key primary sources and traditions from the founding to present.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: POLS 1000 or permission of instructor.

POLS4810 - Seminar in Political Philosophy

Credits: 3

Max Credit (Max. 6)

Seminar in Political Philosophy; Encompasses reading and research on selected problems in political philosophy.

Dual Listed POLS 5810.

USP 2015 Code U5C3

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

- 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 6 hours at the 3000-level or above.

Approved Political Theory Minor Courses

POLS2330 - Environmental Ethics

Credits: 3

Introduces students to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed PHIL 2330.

POLS2490 - Topics In:

Credits: 1-3
Max Credit (Max. 6)

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000.

POLS3050 - Athenian Democracy

Credits: 3

Examines democratic government in ancient Athens: its origins and development, its practical workings, how politics were conducted and power was gained and exercised, citizen participation, law courts, and evaluations of democracy in the ancient world and since.

Cross Listed CLAS 3050/HIST 3050.

Prerequisite: WB or COM2.

POLS3610 - Classics in Environmental Thought

Credits: 3

Surveys classic texts in environmental thought from the nineteenth century through the present.

Prerequisite: POLS 1000.

POLS3620 - Environmental Justice

Credits: 3

Examines core philosophical understandings of justice and applies them to the environment through a variety of case studies, analytical essays and monographs.

Cross Listed ENR 3620.

Prerequisite: POLS 1000, POLS 2460, or POLS 3600, or permission of instructor.

POLS4090 - Anglo-American Jurisprudence

Credits: 3

Considers topics, such as functions of law in a democratic society; historical origins and growth of the common law as contrasted to the civil (code) law systems; and principal theories of nature and functions of law which have influenced development of English and American legal institutions.

Dual Listed POLS 5090.

Prerequisite: 9 hours of political science or philosophy, including POLS 1000.

POLS4160 - Legal Philosophy

Credits: 3

This course examines the philosophies that undergird the law, considering both ancient and modern legal thought. Throughout the course, both historical and contemporary examples will be used to illustrate the salient differences between philosophical approaches, to better articulate our understanding of the law.

Dual Listed POLS 5160.

Prerequisite: POLS 1000.

POLS4640 - Political Philosophy: Ancient and Medieval

Credits: 3

Surveys political philosophy from Classical Greek period to Machiavelli.

Dual Listed POLS 5640.

Prerequisite: POLS 2460, or POLS 3600, or consent of the instructor.

POLS4650 - Political Philosophy: Modern

Credits: 3

Surveys political philosophy from Machiavelli through the 19th century.

Dual Listed POLS 5650.

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

POLS4660 - Political Philosophy: Contemporary

Credits: 3

Examines central developments in political philosophy that guide action in today's world.

Dual Listed POLS 5660.

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

POLS4710 - Topics in

Credits: 1-3

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000 and 3 additional hours of political science.

POLS2200 - Politics of Europe and the European Union

Credits: 3

Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2

Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

- SOC 3900 - Social Theory

Public Law Minor

A minor in Public Law offers an opportunity for interdisciplinary study.

Requirements

POLS4100 - Constitutional Law: Institutional Powers

Credits: 3

Encompasses case-study analysis of judicial decisions and policies affecting constitutional interrelationships among the three branches of federal government, federal-state relations, as well as powers of the states and federal government in the area of social and economic regulatory laws.

Dual Listed POLS 5100.

Prerequisite: POLS 1000.

POLS4110 - Constitutional Law: Civil Liberties and Rights

Credits: 3

Encompasses case-study analysis of judicial decisions and policies of the constitutional interpretation of the 1st Amendment (freedom of speech, press, association and religion), privacy rights, the rights of the criminally accused, and civil rights (racial and gender equality).

Cross Listed CRMJ 4110.

Dual Listed POLS 5110.

Prerequisite: POLS 1000, POLS 3100 recommended.

POLS4840 - Seminar in Public Law

Credits: 3

Max Credit (Max. 6)

Includes reading and research on selected problems in public law.

Dual Listed POLS 5840.

USP 2015 Code U5C3

Prerequisite: 9 hours of political science or related fields including POLS 1000 and consent of instructor.

- 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 3 hours at the 3000-level or above.

Approved Public Law Minor Courses

POLS2490 - Topics In:

Credits: 1-3
Max Credit (Max. 6)

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000.

POLS3100 - Politics and the Judicial Process

Credits: 3
Analyzes courts and their personnel in the American political system, including examination of functions of courts, characteristics of judicial process, approaches to the study of judicial behavior, and role of courts as policy makers.

Former Course Number [2100]

Prerequisite: POLS 1000.

POLS4090 - Anglo-American Jurisprudence

Credits: 3
Considers topics, such as functions of law in a democratic society; historical origins and growth of the common law as contrasted to the civil (code) law systems; and principal theories of nature and functions of law which have influenced development of English and American legal institutions.

Dual Listed POLS 5090.

Prerequisite: 9 hours of political science or philosophy, including POLS 1000.

POLS4160 - Legal Philosophy

Credits: 3
This course examines the philosophies that undergird the law, considering both ancient and modern legal thought. Throughout the course, both historical and contemporary examples will be used to illustrate the salient differences between philosophical approaches, to better articulate our understanding of the law.

Dual Listed POLS 5160.

Prerequisite: POLS 1000.

POLS4710 - Topics in

Credits: 1-3
Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000 and 3 additional hours of political science.

AGEC3400 - Agricultural Law

Credits: 3

Surveys legal issues and principles of practical concern to agriculture and examines legal institutions authorized to carry out laws affecting agriculture.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3WB

Former Course Number [4400]

Prerequisite: WA/ COM1 and junior standing.

COJO4500 - Mass Communication Law

Credits: 3

Studies development of First Amendment law. Includes practical application of law to mass media practice; relationship of legal and social responsibilities of the mass media; and problems of law and regulation, such as constitutional, statutory and administrative.

Prerequisite: COM2 with a grade of C or better.

CRMJ2210 - Criminal Law

Credits: 3

Introduces the fundamental principles of substantive criminal law: the history and philosophy of modern criminal law, the basic dimension of criminality, the elements of major crimes, criminal defenses and the nature of criminal sanctions.

Prerequisite: CRMJ 1001 and POLS 1000.

CRMJ3110 - Criminal Courts and Processes

Credits: 3

Examines the structure, organization and operation of criminal courts and their role in the larger criminal justice system; the process of adjudication of criminal cases from initial charging through post-conviction review; the constitutional rights of the accused; and the roles of the major courtroom participants.

Prerequisite: CRMJ 1001, CRMJ 2210, and CRMJ 2400/SOC 2400, or declared Public Law minor.

CRMJ4140 - Criminal Legal Procedure

Credits: 3

Examines the constitutional principles that safeguard the rights and liberties of criminal suspects and constrain police

during the investigatory stages of the criminal justice process: arrest; search and seizure; interrogation; undercover operations; pretrial identification; and the exclusionary rule.

Prerequisite: CRMJ 1001, CRMJ 2210, and CRMJ 2400/SOC 2400, or declared Public Law minor.

CRMJ4350 - Sociology of Law

Credits: 3

A consideration of sociological concepts such as inequality, stratification, social control and social change in an analysis of the law and legal institutions. Topics include: the role of the police, lawyers, judges, and juries; race, sex, age, and sexuality discrimination and civil rights; free speech, and toxic torts.

Cross Listed SOC 4350.

Prerequisite: 6 hours of sociology/criminal justice, including SOC 1000, and at least junior standing.

OR

SOC4350 - Sociology of Law

Credits: 3

A consideration of sociological concepts such as inequality, stratification, social control and social change in an analysis of the law and legal institutions. Topics include: the role of the police, lawyers, judges, and juries; race, sex, age, and sexuality discrimination and civil rights; free speech, and toxic torts.

Cross Listed CRMJ 4350.

Dual Listed SOC 5350.

Prerequisite: 6 hours of sociology/criminal justice, including SOC 1000, and at least junior standing.

CRMJ4540 - Gender and Crime

Credits: 3

Addresses issues pertaining to gender and the criminal justice system to include women's roles as offenders and victims and their unique experiences in the criminal justice system. Feminist perspectives, LGBTQ+ and special populations are also explored.

Cross Listed GWST 4540 / GWST 5540 .

Dual Listed CRMJ 5540.

Prerequisite: ENGL 1080/WMST/GWST 1080 , WMST/GWST 2500 , WMST/SOC 3500, or CRMJ 2400/SOC 2400.

OR

GWST4540 - Gender and Crime

Credits: 3

Addresses issues pertaining to gender and the criminal justice system to include women's roles as offenders and victims and their unique experiences in the criminal justice system. Feminist perspectives, LGBTQ+ and special populations are also explored.

Cross Listed CRMJ 4540.

When Offered (Offered every other year)

Prerequisite: ENGL 1080/GWST 1080, WMST/SOC 3500, or CRMJ 2400/SOC 2400 , WMST/GWST 2500

CRMJ4730 - Psychology and Law

Credits: 3

Exposes students to the application of psychological principles to problems in law. Emphasizes the American trial system, correction systems and civil commitment.

Cross Listed PSYC 4730.

Prerequisite: A grade of C or better in 6 hours in psychology.

OR

PSYC4730 - Psychology and Law

Credits: 3

Exposes students to the application of psychological principles to problems in law. Emphasizes the American trial system, correction systems and civil commitment.

Cross Listed CRMJ 4730.

Prerequisite: A grade of C or better in 6 hours in psychology.

HIST4515 - American Legal History

Credits: 3

An intensive course in the history of American law, the judicial system, the legal profession and legal administration from colonial times to the present.

Dual Listed HIST 5515.

Former Course Number [4710]

Prerequisite: 9 hours of HIST.

MGT2010 - Legal Environment of Business

Credits: 3

Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

Graduate

International Studies, M.A.

MA students will be able to pursue international, interdisciplinary research in order learn about global problems from a variety of historical, political, social, cultural, and economic perspectives.

Plan A (Thesis)

Students are encouraged to construct, with the adviser's approval, a program that focuses their own intellectual interests and career plans. To promote that end, students should be prepared to file a plan of study with the graduate adviser during the second semester of coursework.

No later than the second semester in residence, each student shall select a graduate committee to oversee his or her academic work. The committee will be chaired by the student's major professor and must have at least one member from outside of The School of Politics, Public Affairs, and International Studies. Students also will prepare a thesis proposal and give a presentation of their preliminary project before the International Studies faculty and complete a thesis prospectus defense with their graduate committee by the end of their second semester.

Students must pass an oral examination at the completion of their program. Normally, examination will center on the thesis, but may also encompass coursework of the candidate.

Required Coursework

Advanced Theory Course

INST5200 - Graduate Proseminar in International Studies

Credits: 3-6
Max Credit (Max. 6)

Introduces students to different interdisciplinary approaches - perspectives, theories, and paradigms - within International Studies in order to explain the economic, historical, social, cultural, and political dimensions of international processes and issues. Students explore emerging trends in the global system and the most pressing challenges facing states, societies, and peoples.

Prerequisite: graduate student status.

Research Methods Course

INST5400 - International Social Science Research Methods

Credits: 3
Introduces students to a wide variety of interdisciplinary social science methodologies that have proven especially conducive to international research.

Prerequisite: graduate standing.

Additional Information

Students take the Plan A (thesis). Students must have a minimum of 26 hours of graded non-thesis coursework and 4 hours of thesis.

Program Specific Admission Requirements

Admission is open to all students holding a bachelor's degree in any major. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

Program Specific Degree Requirements

Master's Program

Students must meet three requirements:

1. Each student must take INST 5400.
2. Each student must take INST 5200.
3. Each student must demonstrate proficiency in a foreign language, accomplished in the course of the program or from previous experience or coursework. Foreign language hours do not count toward the M.A. degree.

The program also offers a joint International Studies/Environment and Natural Resources degree. See www.uwyo.edu/sppais for specific degree requirements.

Political Science, M.A.

Political Science studies how states govern themselves and interact. Subfields include: American politics, comparative government, international relations, political philosophy, public law, and public administration.

Plan A (Thesis)

Graduate Credit

At least 30 hours of graduate credit, to include:

- At least 6 additional hours of coursework in political science.
- A maximum of 9 hours of coursework in disciplines other than political science.
- A minimum of 4 hours thesis research.
- A master's thesis demonstrating independent research, written under the supervision of the major professor.
- An oral examination conducted by the graduate committee covering all coursework and the thesis.
- No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
- Students must maintain a graduate GPA of 3.000.

INST5200 - Graduate Proseminar in International Studies

Credits: 3-6

Max Credit (Max. 6)

Introduces students to different interdisciplinary approaches - perspectives, theories, and paradigms - within International Studies in order to explain the economic, historical, social, cultural, and political dimensions of international processes and issues. Students explore emerging trends in the global system and the most pressing challenges facing states, societies, and peoples.

Prerequisite: graduate student status.

And

INST5400 - International Social Science Research Methods

Credits: 3

Introduces students to a wide variety of interdisciplinary social science methodologies that have proven especially conducive to international research.

Prerequisite: graduate standing.

Plan B (Non-Thesis)

Graduate Credit

At least 30 hours of graduate credit, to include:

- At least 6 additional hours of coursework in political science.
- A maximum of 12 hours of coursework in disciplines other than political science.
- Plan B paper that reflects the quality but not scope of a master's thesis, written under the supervision of the major professor.
- An oral examination conducted by the graduate committee covering all coursework and the Plan B paper.
- No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
- Students must maintain a graduate GPA of 3.000.

INST5200 - Graduate Proseminar in International Studies

Credits: 3-6

Max Credit (Max. 6)

Introduces students to different interdisciplinary approaches - perspectives, theories, and paradigms - within International Studies in order to explain the economic, historical, social, cultural, and political dimensions of international processes and issues. Students explore emerging trends in the global system and the most pressing challenges facing states, societies, and peoples.

Prerequisite: graduate student status.

And

INST5400 - International Social Science Research Methods

Credits: 3

Introduces students to a wide variety of interdisciplinary social science methodologies that have proven especially conducive to international research.

Prerequisite: graduate standing.

Public Administration (MPA)

The Master's in Public Administration degree offered at the University of Wyoming is considered an ethics based program where complicated issues of administrative decision making are the hallmarks of professional life.

Admissions

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI).

Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

Plan B (non-thesis)

Thirty-nine hours of graduate credit, to include:

- 24 hours of core credit,
- 15 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits.

Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion.

Students must maintain a graduate GPA of 3.000.

Current Core Courses

Thirty-nine hours of graduate credit, to include:

POLS5000 - Survey of Public Administration

Credits: 3

Designed to introduce the beginning graduate student to the study and practice of public administration at all levels of government. Attention is also directed to specific functions and processes such as intergovernmental relations, budgeting, personnel, and regulation.

Prerequisite: graduate status and consent of instructor.

POLS5400 - Public Personnel Management

Credits: 3

Designed to integrate information about the political environment of personnel administration with problem solving exercises in such specific areas as job analysis, affirmative action, and flextime. A number of topics including the

evolution of the civil service, the rights and responsibilities of governmental employees, the functions of public personnel management, and collective bargaining processes are also covered.

Prerequisite: POLS 5000.

POLS5410 - Administrative Behavior and Theory of Organization

Credits: 3

An advanced course in the theory of organization and the workings of public agencies.

Prerequisite: POLS 5000.

POLS5440 - Principles and Processes of Government Budgeting

Credits: 3

Analyzes the principles, processes and politics of the budgetary process in the U. S. It examines the various theories of budgetary decision-making, the politics of budgeting and budgetary reforms.

Prerequisite: POLS 5000 and graduate standing.

POLS5480 - Ethics In Government

Credits: 3

The student is introduced to the ethical nature and dilemmas of public administration in American constitutional government. Such topics are addressed as source of ethical obligation, role of loyalty, application of moral philosophy, constitutional theory and ethical obligation, relation of theory and practice, and methods of ethical reflection.

Prerequisite: POLS 5000.

POLS5510 - Public Policy and Program Management

Credits: 3

An overview of governmental policy making processes in the U. S and the uses of applied policy analysis.

Prerequisite: POLS 5000.

POLS5684 - Empirical Analysis for Public Administration

Credits: 3

Designed for students in public administration to train them to make decisions based on empirical evidence in policy and management. Course draws concepts from system analysis, management science, operations research, and social science methodology to provide an understanding of various policy analysis and program management techniques across many applications.

Prerequisite: POLS 5000.

POLS5690 - Capstone in Public Management

Credits: 3

Integrates theories and concepts introduced in core and option-core courses, and emphasizes students' application of them to various administrative settings.

Prerequisite: completion of all other core and option core requirements in the MPA Program.

Approved Elective Credit

POLS4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ ENR 4052/GEOG 4052/REWM 4052.

Prerequisite: POLS 1000.

POLS5051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051/ ENR 4051/GEOG 4051/REWM 4051.

Dual Listed POLS 4051.

Prerequisite: POLS 1000.

POLS5420 - Seminar In Public Administration

Credits: 3

Max Credit (Max. 6)

A reading and research course in selected topics in public administration.

Dual Listed POLS 4420.

Prerequisite: POLS 1000 and consent of instructor.

POLS5445 - Drug War Geopolitics in the Americas

Credits: 3

This course examines illegal drug commodity chains and international efforts to police the drug trade in the Americas. It approaches the drug war through a "critical geopolitics" framework, also covering broader themes such as

international politics, livelihoods, development, environmental justice, the global economy, race-based discrimination, public health, and resistance movements.

Cross Listed INST 5445.

Dual Listed POLS 4445.

Prerequisite: 9 hours of international studies or social science coursework

POLS5450 - Administrative Regulation

Credits: 3

Significant points of contact between government and business are stressed. Government activities designed to regulate and aid such economic interests as business, labor, agriculture, and consumers are dealt with at length.

Prerequisite: POLS 5000.

POLS5460 - Public Administration and Law

Credits: 3

Focuses on various facets of the relationship between American public administration and law. Emphasis is placed on the emerging body of administrative law as a context for jurisprudential reasoning in administrative decision making.

Prerequisite: POLS 5000.

POLS5465 - Survey of the Nonprofit Sector

Credits: 3

This foundational course is designed to give students of diverse backgrounds a common framework for understanding the nonprofit sector in the United States and globally. Students in this course will identify and interpret key theories, issues, and challenges in the nonprofit world and will consider the implications for practice.

Dual Listed POLS 4465.

Prerequisite: graduate standing.

POLS5500 - Internship in Public Administration

Credits: 1-6

Max Credit (Max. 6)

Educationally-oriented assignments for work in selected public agencies, with tutorial types of supervision.

Prerequisite: consent of instructor.

POLS5530 - USCongress

Credits: 3

Analyze aspects of the U. S. Congress, including election of congressmen, legislative process, congressional-

presidential relations, and the influence of political parties, interest groups, and constituents on the legislative process.

Dual Listed POLS 4430

Prerequisite: POLS 1000.

POLS5540 - Public Policy Perspectives

Credits: 3

Acquaints students with the underlying structure and dynamics of public policy formulation, implementation, and evaluation at the state, local, and federal levels. Drawing on a number of analytic approaches, the course seeks to understand this complex political phenomenon in the context of the institutions that drive it.

Prerequisite: graduate standing.

POLS5600 - Political Violence

Credits: 3

Examines causes and consequences of violence both among individuals and among nations.

Dual Listed POLS 4600.

Prerequisite: POLS 1000, or SOC 1000, or POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

POLS5685 - Program Evaluation and Policy Analysis

Credits: 3

Explores techniques for analyzing and evaluating public policy choices and impacts.

Dual Listed POLS 4685.

Prerequisite: STAT 5070 or equivalent and an introductory research methods course in social science or related discipline.

POLS5710 - Topics In Political Science

Credits: 1-3

Max Credit (Max. 9)

Intended to accommodate various specialized subjects not offered as regular courses.

Prerequisite: graduate standing.

POLS5810 - Seminar in Political Philosophy

Credits: 3

Encompasses reading and research on selected problems in political philosophy.

Dual Listed POLS 4810.

USP 2015 Code U5C3

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

CRMJ4130 - Leadership and Management in the Criminal Justice System

Credits: 3

There is a clear need for managers and administrators to understand leadership and ethics. This course is designed to provide students with a foundation in the management and leadership discourse surrounding criminal justice agencies.

Prerequisite: CRMJ 1001, CRMJ 2210, CRMJ 2400/SOC 2400, and CRMJ 3490.

CRMJ5000 - Survey of Criminal Justice

Credits: 3

Provides an overview of criminal justice theory by providing critical evaluation and discussion of research in the criminal justice field. It will emphasize seminal works and review current research concerning the structure, function, operation, interaction of the criminal justice system's primary components, and future trends.

Prerequisite: Admission to the MPA Program or consent of instructor.

CRMJ5100 - Public Policy and Crime

Credits: 3

This course is designed to take a multidimensional look at public policy issues related to the prevention and control of crime in the United States. Issues covered include the development, implementation, and evaluation of crime control policy.

Prerequisite: Admission to the MPA Program or consent of instructor.

CRMJ5280 - Comparative Criminal Justice

Credits: 3

Compares the incidence, trends, control, treatment and prevention of crime across nations using mainstream criminological theories. Examines criminal justice systems from an international perspective and draws lessons for the American society. Explores forms of international cooperation and difficulties in the control of transnational crimes.

Dual Listed CRMJ 4280.

USP 2003-2014 Code U3G, U3WC

A&S College Core 2015 ASG

Prerequisite: graduate standing.

CRMJ5500 - Internship in Criminal Justice

Credits: 3

Educationally-oriented assignments for work in selected criminal justice agencies, with tutorial types of supervision.

Prerequisite: Admission to the MPA Program or consent of instructor.

CRMJ5860 - Social Inequality, Crime, Criminal Justice and the Law

Credits: 3

Provides an in-depth look at social inequality and its impact on crime, criminal justice, and the law. Particular emphasis will be given to the individual and interactive effects of race, class, and gender inequality. Critical theoretical perspectives that promote social justice will be the primary analytical focus.

Dual Listed CRMJ 4860.

Prerequisite: graduate standing or consent of the instructor.

CNSL5060 - Counseling Ethics and Professional Issues

Credits: 3

Designed to provide students with a philosophical base for making ethical decisions in the professional situations they encounter. In addition, it involves a chance to discuss many specific ethical and professional issues that are commonly encountered in the profession.

Prerequisite: program admission or consent of instructor.

EDRE5530 - Introduction To Research

Credits: 3

Basic concepts of educational research design, statistics, and measurement. The focus of the course is on reading and critiquing research articles, both quantitative and qualitative, and includes an introduction to statistics. Students learn to conduct a review of the literature relevant to a specific research problem.

Prerequisite: graduate standing.

ENGL4075 - Writing for Non-Profits

Credits: 3

Designed for students interested in working in the non-profit sector. Explores rhetorical, political, and social dimensions of writing and communicating in the non-profit world and features intensive study of special topics and problems related to non-profit communication, including activism, grant writing, organizational rhetoric, and non-profit genres. Content varies.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: WB/COM2.

STAT5220 - Advanced Design

Credits: 3

Advanced study of experimental designs, observational designs, and mixed models. Topics include fixed and random

effects, factorial, split-plot and repeated measures designs, and hierarchical models. Linear model methodology and Data Science concepts will also be emphasized.

Prerequisite: MATH 5265/STAT 4265/STAT 5265, and at least one of STAT 4015/STAT 5015, STAT 4025/STAT 5025, or STAT 5210.

Public Administration (MPA/JD)

The Master's in Public Administration degree offered at the University of Wyoming is considered an ethics based program where complicated issues of administrative decision making are the hallmarks of professional life.

Admissions

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI).

Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

Plan B (non-thesis)

Thirty-nine hours of graduate credit, to include:

- 24 hours of core credit,
- 15 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits.

Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion.

Students must maintain a graduate GPA of 3.000.

Current Core Courses

POLS5000 - Survey of Public Administration

Credits: 3

Designed to introduce the beginning graduate student to the study and practice of public administration at all levels of government. Attention is also directed to specific functions and processes such as intergovernmental relations, budgeting, personnel, and regulation.

Prerequisite: graduate status and consent of instructor.

POLS5400 - Public Personnel Management

Credits: 3

Designed to integrate information about the political environment of personnel administration with problem solving exercises in such specific areas as job analysis, affirmative action, and flextime. A number of topics including the evolution of the civil service, the rights and responsibilities of governmental employees, the functions of public personnel management, and collective bargaining processes are also covered.

Prerequisite: POLS 5000.

POLS5410 - Administrative Behavior and Theory of Organization

Credits: 3

An advanced course in the theory of organization and the workings of public agencies.

Prerequisite: POLS 5000.

POLS5440 - Principles and Processes of Government Budgeting

Credits: 3

Analyzes the principles, processes and politics of the budgetary process in the U. S. It examines the various theories of budgetary decision-making, the politics of budgeting and budgetary reforms.

Prerequisite: POLS 5000 and graduate standing.

POLS5480 - Ethics In Government

Credits: 3

The student is introduced to the ethical nature and dilemmas of public administration in American constitutional government. Such topics are addressed as source of ethical obligation, role of loyalty, application of moral philosophy, constitutional theory and ethical obligation, relation of theory and practice, and methods of ethical reflection.

Prerequisite: POLS 5000.

POLS5510 - Public Policy and Program Management

Credits: 3

An overview of governmental policy making processes in the U. S and the uses of applied policy analysis.

Prerequisite: POLS 5000.

POLS5684 - Empirical Analysis for Public Administration

Credits: 3

Designed for students in public administration to train them to make decisions based on empirical evidence in policy and management. Course draws concepts from system analysis, management science, operations research, and social

science methodology to provide an understanding of various policy analysis and program management techniques across many applications.

Prerequisite: POLS 5000.

POLS5690 - Capstone in Public Management

Credits: 3

Integrates theories and concepts introduced in core and option-core courses, and emphasizes students' application of them to various administrative settings.

Prerequisite: completion of all other core and option core requirements in the MPA Program.

Academic Regulations

- A student in the joint Juris Doctor/Master of Public Administration program must be admitted to both the College of Law and College of Arts and Sciences. The degrees are awarded concurrently by each college upon successful completion of the combined degree program requirements. In fulfillment of the J.D. degree, the College of Law will accept up to nine hours of MPA credits in courses approved by the law faculty (see Academic Regulations). In fulfillment of the MPA degree, the College of Arts and Sciences will accept up to 12 hours of credits earned in the J.D. program. For additional information regarding these joint degree programs, contact the College of Law or the joint program of interest.
- Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits.
- Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course.
- Students must maintain a graduate GPA of 3.000.

Juris Doctor

The Juris Doctor requirements are found here: [Juris Doctor](#)

Department of Psychology

135 Biological Sciences Building,

(307) 766-6303

FAX: (307) 766-2926

Department Chair: Sean McCrea

Professors:

KAREN BARTSCH ESTES, B.S. Colorado State University 1981; M.A. Oxford University 1983; Ph.D. University of Michigan 1988; Professor of Psychology 2007, 1992.

MATTHEW J. GRAY, B.A. Creighton University 1993; M.S. Drake University 1995; Ph.D. University of Mississippi 2000; Professor of Psychology 2014, 2002.

CYNTHIA M. HARTUNG, B.S. University of Wisconsin-Madison 1990; M.A. University of Kentucky 1993; Ph.D. 1998; Professor of Psychology 2019, 2007.

SEAN M. McCREA, B.A. Bucknell University 1996; Ph.D. Indiana University 2002; Professor of Psychology 2019, 2009.

CHRISTINE L. McKIBBIN, B.S. Michigan State University 1991; M.S. University of North Texas 1994; Ph.D. 1997; Professor of Psychology 2019, 2007.

NARINA NUÑEZ, B.A. State University of New York at Cortland 1980; M.S. 1984; Ph.D. Cornell University 1987; Professor of Psychology 2000, 1987.

CAROLYN M. PEPPER, B.S. Western Michigan University 1989; M.A. State University of New York at Stony Brook 1992; Ph.D. 1995; Professor of Psychology 2011, 2002.

BENJAMIN M. WILKOWSKI, B.A. Ohio University 2002; M.S. North Dakota State University 2005; Ph.D. 2008; Professor of Psychology 2020, 2008.

Associate Professors:

JOSHUA D. CLAPP, B.A. University of Wyoming 2003; M.A. State University of New York at Buffalo 2008; Ph.D. 2012; Associate Professor of Psychology 2018, 2012.

KYLE P. De YOUNG, B.S. University of Iowa 2004; M.A. State University of New York at Albany 2008; Ph.D. 2011; Associate Professor of Psychology 2020, 2016.

ALISON R. LOOBY, B.A. University of California-San Diego 2002; M.A. State University of New York at Albany 2007; Ph.D. 2011; Associate Professor of Psychology 2020, 2016.

MEREDITH E. MINEAR, B.S. University of Illinois at Urbana-Champaign 1994; Ph.D. University of Michigan 2004; Associate Professor of Psychology 2019, 2013.

Assistant Professor:

KAYLA A. BURD, B.A. Hofstra University 2010; M.A. Cornell University 2016; Ph.D. 2018; Assistant Professor of Psychology 2020.

CHRISTINA MCDONNELL, B.A. University of Notre Dame 2018; M.A. University of Notre Dame 2014; Ph.D. University of Notre Dame 2018; Assistant Professor of Psychology 2021.

KASEY STANTON, B.S. Montana State University 2012; M.A. University of Notre Dame 2014; Ph.D. University of Notre Dame 2018; Assistant Professor of Psychology 2021.

ANNE STEVENS, B.A. Davidson College 2007, M.A. Appalachian State University 2014; Ph.D. University of Wyoming 2020; Clinical Assistant Professor of Psychology 2021.

Academic Professional Lecturer:

CATHERINE P. CARRICO, B.A. Austin College; Ph.D. University of Northern Colorado; Clinical Associate Professor 2020.

TARA K. CLAPP, B.A. State University of New York at Buffalo 2005; M.S. Niagara University 2010; Associate Academic Professional Lecturer in Psychology 2018, 2012.

SCOTT FRENG, B.S. Black Hills State University 1995; M.A. University of South Dakota 1998; Ph.D. University of Nebraska - Lincoln 2001; Senior Lecturer in Psychology 2013, 2003.

MARIA I. KUZNETSOVA, B.A. Syktyvkar State University-Russia 2000; M.S. University of South Carolina-Aiken 2005; Ph.D. Virginia Commonwealth University 2011; Associate Academic Professional Lecturer in Psychology 2017, 2011.

Professor Emeritus

George Blau, David Estes, Charles J. Ksir, Karen B. Nicholas

The Department of Psychology offers coursework at several levels:

1. Introductory courses for students in other programs who wish an elementary knowledge of psychology.
2. Courses supportive of work in other majors.
3. An undergraduate major that is sufficiently flexible to allow students to prepare for graduate programs in psychology, professional schools (e.g. law, medicine) or for employment after graduation.
4. Graduate course work leading to the Ph.D. in clinical psychology, social psychology, cognition/cognitive development, or psychology and law.

Facilities are available for course work and laboratory experiences in areas of psychology such as cognition, personality, social, biological psychology, cognitive development, and psychology and law.

Students who wish to increase chances of employment related to their undergraduate majors should consult an adviser concerning areas of specialization within psychology.

Students planning graduate work in psychology should consult with their faculty adviser concerning career choices and development.

Learning Outcomes

We expect that our Psychology graduating students will have:

1. a basic knowledge of psychology and related fields.
2. the ability to evaluate the assumptions, purposes, methods, and results of psychological research and scholarship.
3. skills in teamwork, leadership, writing, speaking and listening, especially concerning psychology-related topics.

Credit by Examination

Credit by examination will be allowed only for PSYC 1000. The examination accepted is the College Level Examination Program (CLEP); the passing score is 50.

Advanced Placement

The psychology department will accept a score of 4 on the AP exam for credit in PSYC 1000, effective Fall 2015.

Undergraduate Major

A major requires a minimum of 33 semester hours and may not exceed 60 hours in psychology. Of these, 18 hours must be at the 3000 level or above. These upper-division courses must also be taken from at least two different members of the psychology department faculty listed in this *Catalog*.

Students must complete the following courses:

PSYC 1000 General Psychology

PSYC 2000 Research Psychological Methods

Four of five cores:

Biological,

PSYC 2210 Drugs and Behavior **or** PSYC 2080 Biological Psychology

Developmental,

PSYC 2300 Developmental Psychology

Clinical,

PSYC 2340 Abnormal Psychology

Social,

PSYC 2380 Social Psychology

Cognitive,

PSYC 3120 Cognitive Psychology

Additionally **one** of the following restricted enrollment (seminar or writing intensive) courses is required: PSYC 4040, 4150, 4250, 4320, 4350, 4380, 4390, 4400, 4740, 4860.

Also required are 6 hours of anthropology, communication/journalism, criminal justice, economics, political science, or sociology; LIFE 1003 or 1010; and STAT 2050 or 2070.

One approved 3-4 credit hour STEM course: CHEM 1000, CHEM 1020, COSC 1010, COSC 1100, KIN/ZOO 2040, KIN/ ZOO 2041, LIFE 2002, LIFE 2022, LIFE 2023, LIFE 2050, MATH 1050, MATH 1405, MATH 2200, MICR/MOLB 2021, PHYS 1050, PHYS 1110, STAT 2000, STAT 3050, or ZOO 3600.

Students who have an established UW GPA and who wish to change their major to Psychology, or to add Psychology as a major, will be required to have a UW GPA of at least 2.500.

For graduation, students must receive a C or better grade in all courses taken to satisfy department requirements.

Psychology courses taken 15 or more years ago will not be used to satisfy degree requirements.

Undergraduate Minors

The Department of Psychology offer two undergraduate minors: psychology and aging studies.

Psychology

A minor in psychology requires 18 semester hours in psychology. These must include PSYC 1000 or equivalent and 9 hours at the 3000- level or above. A grade of C or better is required in all minor courses.

Students seeking a minor must have 12 hours exclusive to the minor and not used in the major.

Aging Studies

A minor in aging studies requires 18 credit hours. These must include the following:

Core Courses

NURS 2240, FCSC 2110, HLSC 4985

Elective Courses - 9 credits

6 credits must be outside student major

Academic Standards

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

Background Check

Students seeking the minor in Aging Studies will be required to obtain a background check as specified by College of Health Sciences policy. Please contact us for specific information.

Program Plan

Complete the Program Plan of Study with both your major academic advisor and your minor advisor.

Graduate Study

The Department of Psychology offers the doctor of philosophy in psychology with programs in clinical (APA accredited) psychology, social psychology, cognition/ cognitive development, and psychology and law.

Program Specific Admission Requirements

The deadline for receipt of all application materials is December 1.

We only admit students one time per year. Our graduate students begin their programs of study in the fall semester.

Although our graduate programs technically consist of separate master's and doctoral degree components, only students who are applying for, and who expect to complete, the doctoral program are considered for admission. That is, we do not offer a terminal master's degree.

Application materials include the application, one to two page statement of purpose, undergraduate and graduate (if applicable) transcripts, curriculum vitae, and three letters of recommendation. An application fee of \$50 is required.

Applications are evaluated based on the applicants' academic qualifications (e.g., undergraduate GPA, graduate GPA if applicable, course specific grades) and stated research and (if applicable) clinical interests. Particular attention is paid to the goodness of fit between the applicant's expressed research/clinical interests and the particular strengths and offerings of our program.

Our program does not employ a set of formal "cut-offs" with regard to any of the quantitative application elements (e.g., undergraduate/graduate GPA). Often a strong record in one area may make up for a weakness in another area. Applicants interested in information on the qualifications of admitted students should consult the student summary data (www.uwyo.edu/psychology).

Program Specific Graduate Assistantships

Applicants are considered for graduate assistantships at the time of admission. Graduate students typically receive some departmental financial support for the first four years.

Program Specific Degree Requirements

Master's Programs Plan A (thesis)

In addition to the general requirements specified in this Catalog, the following are required: (1) successful completion and oral defense of a thesis; (2) PSYC 5060. Statistical Methods in Psychology - 3 hours or STAT 5050. Statistical Methods in Biological Science - 3 hours; PSYC 5300. Applied Multivariate Analysis - 3 hours or STAT 5055. Statistical Methods for Biologists II - 3 hours; PSYC 5520. Research Design in Psychology - 3 hours; (3) at least 9 hours in 5000-level courses exclusive of those listed above and exclusive of research and thesis research credit.

A minimum of 30 semester hours is required (26 coursework hours and 4 thesis hours).

Doctoral Programs

Clinical Psychology

Students complete a four-year, on-campus sequence of required courses covering core areas of psychology and clinical competency. In addition, the following are required: successful completion of a thesis, a preliminary comprehensive examination, a dissertation, two summer clerkships, and a full year APA accredited internship.

Social Psychology, Cognition/Cognitive Development, or Psychology and Law

Students complete course requirements in topics designated as core areas of psychology, a preliminary comprehensive examination, and a research-based dissertation.

Major

Psychology, B.S.

Learn empirical approaches to understanding human behavior from biological, clinical, cognitive, developmental, neuroscientific, and social psychological perspectives. Develop skills in critical thinking, communication, and scientific research.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

A&S College Core

D - Diversity 3 credits
G - Global 3 Credits

Students Must Complete the Following Courses:

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

PSYC2000 - Research Psychological Methods

Credits: 4

Introduces some of the methods of investigating psychological questions. Exposure to various research strategies ranging from observational to experimental, using representative laboratory exercises, lectures, readings, films and demonstrations. Requires written and oral reports. May be used to satisfy department's written and oral communication

requirement for majors. Laboratory two hours per week.

USP 2003-2014 Code U3WB

Prerequisite: A grade of C or better in PSYC 1000, WA or COM1, STAT 2050 or STAT 2070.

Four of Five Cores:

Biological Core

PSYC2210 - Drugs and Behavior

Credits: 3

Surveys drugs which affect behavior, emphasizing both psychotherapeutic agents and drugs with abuse potential. Includes brief introduction to the chemistry of the brain and how drugs may have their effects. Behavioral, social, historical and medical aspects of each major class of psychoactive drugs are discussed.

Prerequisite: A grade of C or better in PSYC 1000.

OR

PSYC2080 - Biological Psychology

Credits: 3

Introduces biological bases of behavior. Includes ethology and comparative behavior, psychobiological development, physiological and sensory mechanisms of behavior, and evolution and behavioral genetics. Presents basic structural and functional properties of the nervous system.

When Offered (Normally offered fall semester)

Prerequisite: A grade of C or better in PSYC 1000 and general biology.

Social Psychology Core

PSYC2380 - Social Psychology

Credits: 3

Examines how peoples' thoughts, feelings, and behaviors are influenced by the presence of others. Course will cover a broad range of theories and research in social psychology.

When Offered (Normally offered fall semester)

Former Course Number [4755]

Prerequisite: A grade of C or better in PSYC 1000.

Clinical Core

PSYC2340 - Abnormal Psychology

Credits: 3

Provides a general overview of abnormal behavior, emphasizing types, etiology and treatment methods.

When Offered (Normally offered spring semester)

Former Course Number [4340]

Prerequisite: A grade of C or better in PSYC 1000.

Cognitive Core

PSYC3120 - Cognitive Psychology

Credits: 3

Deals with higher mental processes that are primarily unique to human beings from theoretical and research orientations. Emphasizes interrelationships between various cognitive processes and continuity of those processes with perceptual and non-cognitive activities. Discusses how information is processed and remembered.

When Offered (Normally offered spring semester)

Former Course Number [4120]

Prerequisite: A grade of C or better in 6 hours of psychology including PSYC 1000.

Developmental Core

PSYC2300 - Developmental Psychology

Credits: 3

Introduces psychological development, including age-related changes in thinking, emotion, and behavior. Major theories, methodologies, and empirical discoveries are surveyed in an exploration of developments beginning with conception, with emphasis on social, affective, and cognitive developments in childhood and infancy and their implications for policy and practice.

When Offered (Normally offered spring semester)

Prerequisite: A grade of C or better in PSYC 1000.

One of the Following

Additionally **one** of the following restricted enrollment (seminar or writing intensive) courses is required:

PSYC4150 - Cognitive Development

Credits: 3

Examines cognitive development from infancy through adolescence. Explores, through lecture, discussion and projects,

major theories and current empirical research on cognitive development, as well as implications for social and educational policies concerning children.

Prerequisite: A grade of C or better in 9 hours of psychology, including child psychology course.

PSYC4250 - Psychological Aspects of Chronic Illness

Credits: 3

Investigates the impact of chronic physical illnesses on diagnosed children and adults, their families, and society. Emphasizes effects of illnesses on psychological adaptation and quality of life. Should be of particular interest to helping professionals and health care workers.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 3250.

PSYC4320 - Intellectual Disability

Credits: 3

Acquaints students with all aspects of intellectual disability including assessment, diagnosis and classification, etiology, and associated health and mental health difficulties. Prevention, educational and psychological intervention, family adaptation, and community involvement are also addressed.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 4300 or FCSC 2121 or EDST 2450.

PSYC4350 - Psychology of Adulthood

Credits: 3

Examines theories and research on psychological development from early adulthood to the end of life, with special emphasis on positive development, successful aging, and methodological issues in the study of adult development.

Prerequisite: A grade of C or better in PSYC 1000.

PSYC4380 - Death and Dying

Credits: 3

Designed to provide a comprehensive overview of the field of thanatology. Death is considered from both an individual and sociocultural perspective. Aims to provide solid ground in research, methods, and theory of end-of-life issues and to encourage contemplation of personal and professional applications of death studies.

Prerequisite: A grade of C or better in PSYC 1000 and junior/ senior standing.

PSYC4390 - Personality Science

Credits: 3

Examines the contemporary science in personality psychology, with a focus on the genetic, biological, social, cognitive, and affective variables which interact to influence individual differences and personality coherence.

Former Course Number [3390]

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 2340 or PSYC 2380.

PSYC4400 - Principles of Psychological Testing

Credits: 3

Encompasses basic concepts, principles and procedures of psychological testing, with a lecture, discussion, laboratory project approach. Emphasizes nature and uses of test reliability, validity, norms and transformations, selecting and evaluating tests, test interpretation models and professional ethics in test use. Lecture three hours per week.

Prerequisite: A grade of C or better in 6 hours of psychology and STAT 2050 or STAT 2070.

PSYC4740 - Advanced Social Psychology

Credits: 3

Concentrates on critical assessment of interpersonal behavior. Students are expected to become familiar with data gathering, analysis and reporting procedures commonly used in contemporary social psychology.

USP 2003-2014 Code U3WC

Prerequisite: A grade of C or better in PSYC 2000 and PSYC 2380.

PSYC4860 - Seminar

Credits: 1-6

Course consists of extended and in-depth discussions of particular topics in psychology. Topics vary semester to semester. Class format may include lecture, group discussion, and group activities. Reading assignments will draw heavily from scientific literature and may include journal articles, textbooks, or book chapter.

Prerequisite: 9 hours in psychology.

PSYC4040 - Cognitive Neuroscience

Credits: 4

Examines the underlying neural bases of higher cognitive functions in humans, including attentions, language, motor control, navigation, emotions, and memory, as well as neuroanatomy fundamentals and neuroscience methods such as fMRI and ERP. Lecture and lab components.

Prerequisite: A grade of C or better in PSYC 2080 or PSYC 3120 or ZOO 4280.

A total of 18 hours at the 3000 level or higher are required

Also Required

Also required are

- 6 hours of anthropology, communication/journalism, criminal justice, economics, political science, or sociology;

LIFE1003 - Current Issues in Biology

Credits: 4

Emphasizes central themes of biology - cell biology, genetics, evolution, ecology - and scientific methodology by focusing on current issues in biology. Fundamental concepts are addressed through classroom and laboratory activities and discussions. This course is intended for non-science majors. Students cannot receive duplicate credit for LIFE 1010 or LIFE 1020.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1003]

OR

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

STEM Course

One approved 3-4 credit hour STEM course:

CHEM1000 - Introductory Chemistry

Credits: 4

Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

COSC1010 - Introduction to Computer Science I

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

COSC1100 - Computer Science Principles and Practice

Credits: 3

Introduces use of computers for algorithmic problem solving. Studies scope, major contributions, tools and current status of computer science. Presentation of computer science principles; use of software packages and evaluation of their effectiveness; and elementary programming.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: C or better in MATH 1400 or in any University Studies QB or Level 4 or higher on Mathematics Placement Exam.

ESS4001 - Analysis of Nature's Data

Credits: 3

"Statistical thinking will one day be as necessary for efficient citizenship as the ability to read and write." In this course, we lead with environmental questions to examine elements of statistics, statistical thinking, data analysis, and data visualization in the environmental sciences. We use program R for all applications.

Prerequisite: STAT 2050 , or STAT 2070 , or consent of the instructor.

GEOL3500 - Global Change: A Geological Perspective

Credits: 4

Considers the geochemical and geophysical systems that control the Earth's climate, the geological and historical record of climate change, and then discusses the possible effect that human activities will have upon these chemical and geophysical systems.

Prerequisite: junior standing and an introductory class in the physical sciences.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

- ZOO 2040

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

- ZOO 2041

LIFE2022 - Animal Biology

Credits: 4

An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered spring semester)

Former Course Number [BIOL 2022]

Prerequisite: LIFE 1010 with a grade of C or better.

LIFE2023 - Biology of Plants and Fungi

Credits: 4

An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).

Former Course Number [BIOL 2023]

Prerequisite: LIFE 1010 with a grade of C or better.

MATH1405 - Trigonometry

Credits: 3

Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the

derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MICR2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.

Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

MICR4001 - Epidemiology (Diseases in Population)

Credits: 3

Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed PATB 4001.

Dual Listed MICR 5001.

Prerequisite: STAT 2050.

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

PHYS1050 - Concepts of Physics

Credits: 4

Introduces the physical world. For students whose background in math and science is minimal; recommended for

students in paramedical sciences and medical technology. Three lecture hours per week are supplemented by two hours per week of laboratory work.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.

PHYS1110 - General Physics I

Credits: 4

First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, pre dental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied. Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1450, 1405 or equivalent.

STAT2000 - Statistics and the World

Credits: 3

Discusses statistical reasoning and methods as related to today's society. Emphasizes ideas rather than specific techniques. Focuses on real examples of the use (and misuse) of statistics. Includes sampling, experimentation, descriptive statistics, elementary probability and statistical inference.

USP 2003-2014 Code U3QB,U3Q

Prerequisite: grade of C or better in MATH 0921 or level 2 on the Math Placement Exam or Math ACT of 21 or Math SAT of 600 or concurrent enrollment in MATH 1080.

STAT4015 - Regression Analysis

Credits: 3

Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.

Former Course Number [4010, 4410]

Prerequisite: STAT 2050 or equivalent

STAT4025 - Design and Analysis of Experiments I

Credits: 3

Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and

incomplete blocks as time permits.

Dual Listed STAT 5025.

Former Course Number [4020, 4310]

Prerequisite: STAT 2050 or equivalent

STAT4155 - Fundamentals of Sampling

Credits: 3

Develops methodology of simple random sampling, stratified sampling, and multistage sampling. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

Dual Listed STAT 5155.

Former Course Number [4150]

Prerequisite: choice of STAT 2010, STAT 2050, STAT 2070 or equivalent.

ZOO3600 - Principles of Animal Behavior

Credits: 3

Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)

Prerequisite: introductory course in zoology, biology or psychology.

ZOO4110 - HIV/AIDS: The Disease and the Dilemma

Credits: 3

Explores the basic biology of the HIV virus, and its effects upon the human body, the magnitude of the global HIV/AIDS pandemic, treatment and prevention of AIDS, and the social, political, economic, and legal issues of HIV/AIDS.

Prerequisite: LIFE 1003 or LIFE 1010.

Additional Requirements

A major requires a minimum of 33 semester hours and may not exceed 60 hours in psychology. Of these, 18 hours must be at the 3000 level or above. These upper-division courses must also be taken from at least two different members of the psychology department faculty listed in this *Catalog*.

Students who have an established UW GPA and who wish to change their major to Psychology, or to add Psychology as a major, will be required to have a UW GPA of at least 2.500.

For graduation, students must receive a C or better grade in all courses taken to satisfy department requirements.

Psychology courses taken 15 or more years ago will not be used to satisfy degree requirements.

Minor

Aging Studies Minor

Background Check

Students seeking the minor in Aging Studies will be required to obtain a background check. Please contact us for specific information.

Program Plan

Complete the Program Plan of Study with both your major academic advisor and your minor advisor.

A minor in aging studies requires 18 credit hours. These must include the following:

Core Courses

FCSC2110 - Fundamentals of Aging and Human Development

Credits: 3

Discusses aging as a lifelong process, involving interrelationships of the individual and his or her environment. Includes future demographic trends, family health care, social policy and mass media.

Prerequisite: PSYC 1000 or SOC 1000.

HLSC4985 - Health Sciences Internship

Credits: 1-6

Max Credit (Max. 6)

Gives students an opportunity to gain practical experience in a health care field of their choice. The intense relationship with a mentor allows the student to become socialized into a health care field, gain practice skills, and relate to other health care professionals in an interdisciplinary way.

When Offered (Offered fall, spring and summer)

Prerequisite: completion of all other degree requirements.

Elective Courses - 9 Credits

- 6 credits must be outside student major

Academic Standards

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

Psychology Minor

Learn empirical approaches to understanding human behavior from biological, clinical, cognitive, developmental, neuroscientific, and social psychological perspectives. Develop skills in critical thinking, communication, and scientific research.

A minor in psychology requires 18 semester hours in psychology. These must include PSYC 1000 or equivalent and 9 hours at the 3000- level or above. A grade of C or better is required in all minor courses.

Students seeking a minor must have 12 hours exclusive to the minor and not used in the major.

Psychology, Minor in Aging Studies

Academic Standards:

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

Background Check:

Students seeking the minor in Aging Studies will be required to obtain a background check. Please contact us for specific information.

Core Courses

FCSC2110 - Fundamentals of Aging and Human Development

Credits: 3

Discusses aging as a lifelong process, involving interrelationships of the individual and his or her environment. Includes future demographic trends, family health care, social policy and mass media.

Prerequisite: PSYC 1000 or SOC 1000.

PSYC3400 - Community Resources for Older Adults

Credits: 3

The purpose of this course is to raise student awareness of the needs of older adults in the community and to evaluate the continuum of long-term care resources available, service gaps, program models, and funding mechanisms. Community-based learning is required.

Prerequisite: FCSC 2110 or PSYC 1000

PSYC4970 - Aging Minor Internship

Credits: 1-6

This course provides students in the Aging Studies Minor the opportunity to experience applied aspects of aging studies in a community setting. Prior to registration the student must work with the minor advisor and instructor to identify the internship setting and complete all required paperwork.

Prerequisite: Completion of all other degree requirements

Electives

(9 credits hours - 6 credits must be outside student major)

An interdisciplinary program, current approved courses are offered through the College of Agriculture, College of Arts and Sciences, and College of Health Sciences.

Graduate

Psychology, Ph.D.

Doctoral Programs

- Clinical Psychology
- Social Psychology, Cognition/Cognitive Development, or Psychology and Law

Department of Theatre and Dance

2099 Buchanan Center for the
Performing Arts, (307) 766-2199

Web site: uwyo.edu/thd/

Department Head: **Margaret Wilson**

Professors:

CECILIA ARAGÓN, B.S. McMurry University 1991; M.A. University of New Mexico 1996; Ph.D. Arizona State University 2003; Professor of Theatre and Dance 2017, 2005.

MARGARET WILSON, B.A. University of Wyoming 1981; M.S. 1987; Ph.D. Texas Woman's University 2007; Professor of Theatre and Dance 2016, 2005.

Associate Professor:

PATRICK KONESKO, B.A. Saginaw Valley University 2008; M.A. Bowling Green State University 2009; Ph.D. 2013; Assistant Professor of Theatre and Dance 2015, 2021.

Assistant Professors:

CATHERINE FOLDENAUER, B.S. University of California, Davis 2006; M.F.A. California Institute of the Arts 2021; Assistant Professor of Theatre and Dance 2020.

SCOTT TEDMON-JONES, B.F.A. University of Wyoming 2001; M.F.A. Carnegie Mellon University 2010; Assistant Professor of Theatre and Dance 2018.

Assistant Lecturers:

JASON BANKS, B.F.A. University of Florida 2004; M.F.A. The Ohio State University 2007; Assistant Lecturer FTTC 2020.

ANDREW LIA, B.A. Augustana College 2009; M.F.A. California Institute of the Arts 2013; Assistant Lecturer FTTC 2020.

Adjunct Professor:

Neil F. Humphrey

Emeritus Professors:

Rebecca Hilliker, Patricia Tate, Ron Steger, Larry Hazlett, Leroy Hodgson

Degrees Offered

The Department of Theatre and Dance offers curricula leading to the B.A. degree and the Bachelor of Fine Arts and courses which fulfill a part of University Studies and various colleges' requirements, including the College of Arts and Sciences.

Curricula

Students may not take a course for S/U credit to satisfy course requirements in the major. This does not apply to courses offered for S/U only. Requirements for students majoring in the areas of the department are indicated below.

Theatre

The study of theatre provides students with a broad understanding of the art of theatre in a liberal arts college. The study of theatre is considered to provide a basis for more specialized theatre study in a graduate or professional school. The liberal arts education in theatre together with extensive experience in the production program also provides the foundation for a professional career in theatre, motion pictures, or television drama for those individuals with special desires and abilities. Secondary teaching certification in theatre can be obtained through this program of study.

Dance

The dance concentration within the Department of Theatre and Dance is designed to provide students with a broad foundation in the humanities and specific emphasis in performance and production aspects of dance. Students pursuing this course of study will have opportunities to attain technical competency in ballet and/or modern dance, to perform in yearly dance productions, to obtain practical experience in the fundamentals of teaching dance and to gain experience in technical theatre as an aid to dance production. The program seeks to provide a comprehensive view of dance as an artistically expressive medium, as well as a creative and recreational tool to human expression.

Students completing this program will qualify for more advanced private instruction as well as advanced academic instruction.

All dance students are matriculated into the BA degree. Students wishing to apply for the BFA in Dance Performance or BFA in Dance Science do so the second semester of their freshman year.

Students must receive a C or better in all courses designated THEA to satisfy department degree requirements. A student's transfer courses in Theatre and Dance must also reflect a C or better to be accepted for credit. A grade of C- does not meet the requirement.

Outcomes:

Our goal is to nurture artists and scholars within aesthetic, social, critical, historical and contemporary performance and dance idioms, who appreciate cultural literacy and respect diversity, who think critically, who master discipline-specific performance and production skills, and who foster knowledge and make compelling artistic choice on stage.

The Theatre and Dance Department expects that upon graduation all students will be able to:

- Demonstrate or detail the basic production process and make an informed assessment of quality in all areas of theatre and dance,
- Honor and represent historical, contemporary, and cultural diversity in academic and performance settings,
- Articulate the intersection of their personal, aesthetic, and social/political ideas in relation to a particular play, performance work or production,
- Develop collaborative skills, communicate effectively and function in a variety of contexts with self-knowledge, resilience, and resourcefulness, both in performance and in creation,
- Understand the demands and expectations of the profession,
- Synthesize and utilize knowledge from courses in the breadth of the discipline,
- Recognize and be familiar with postgraduate training opportunities in professional theatre, dance and academia.

Scholarships

A number of scholarships are available to interested majors in theatre or within the dance option. The University Theatre also maintains a summer company. Applications should be sent to the Department of Theatre and Dance, Dept. 3951, 1000 E. University Ave., Laramie, WY 82071.

Departmental Activities/ Organizations

The department sponsors one of the largest all-student activities on campus. Nearly 150 students take part in its productions each season. All students are eligible to participate in its productions through auditions.

Productions are mounted in the Buchanan Center for the Performing Arts which includes a flexible proscenium theatre, thrust theatre and experimental-studio theatre complete with scenic and costume support facilities.

Auditions, open to all university students, are publicly announced for each production. Qualified students may receive credit in performance and production areas (THEA 2050).

The Wyoming Summer Theatre presents a season of plays of varying types during the summer session. Theatre majors and minors are urged to spend at least one summer working with this group.

Graduate Study

At present, no program for graduate degrees in theatre and dance is offered.

Major

Theatre and Dance, Acting Performance Concentration, B.F.A.

The BFA in Acting Performance permits a total of 70-71 credits in the major. It is designed primarily for those desiring to pursue additional pre-professional training in musical theatre and or for those preparing to enter MFA graduate programs.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Required Courses

These are the required courses for a B.F.A. with Acting Concentration: *Certain substitutions may have to be made and all scheduling of classes should be discussed with an adviser.*

THEA1040 - Production Crew I

Credits: 0.5
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA1200 - Introduction to Design

Credits: 3
Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

THEA1300 - Musical Theatre Workshop: Voice and Acting

Credits: 2
Max Credit (Max. 8)

Musical Theatre Workshop: Voice & Acting will focus on developing and strengthening the speaking and singing voice for stage, wherein students will construct performances through integration of breath and voice work.

THEA2010 - Theatrical Backgrounds Drama I

Credits: 3
First semester of a two-course series. Introduces dramatic literature through the ages.

THEA2020 - Theatrical Backgrounds Drama II

Credits: 3
Second semester of a one-year course. Continues THEA 2010.

Prerequisite: THEA 2010.

THEA2040 - Production Crew II

Credits: 0.5

Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2100 - Acting II

Credits: 3

Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1100 OR equivalent

THEA2160 - Stage Makeup

Credits: 2

Introduction to theatrical makeup with the stage performer in mind. Focus on principles, materials, and techniques; concentrating on problems of designing and executing specific makeup designs and applications for a wide range of ages, types, and styles.

THEA2170 - Speech for the Actor

Credits: 3

Studies speech techniques, including the International Phonetic Alphabet and Standard American Speech for the Stage. Builds upon the FitzmauriceVoicework technique as well as other voice methodologies.

Prerequisite: THEA 1100 and THEA 1700.

THEA2220 - Stagecraft

Credits: 3

Introduces students to basic stage production practices and techniques, including safe rigging practices, set construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

THEA2720 - Movement for Actors I

Credits: 2

This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the actor in all performance efforts.

Prerequisite: THEA 1100.

THEA2790 - Stage Management

Credits: 3

Study of the essential elements of supervising theatrical productions. Stresses the art of organizing auditions, casts, crews, rehearsals, and performances while developing a unique professional relationship with directors, designers and actors. Students will work on a live production.

Prerequisite: THEA 1100, THEA 1200, THEA 2220.

THEA3710 - Acting III

Credits: 3

Building on concepts explored in Acting II, this course seeks to further develop the student's ability to interpret, create and sustain a well-developed, believable character. Acting III develops the actor's voice and body for characterization and character interaction through performances of scenes as well as the study of character and scene.

Restricted Theatre majors or permission of instructor

Prerequisite: THEA 2100

THEA3740 - Acting Styles

Credits: 3

Focuses on textual analysis of plays from different periods and styles of dramatic literature. Emphasizes vocal and physical interpretation of character as represented in non-realistic styles of drama.

Prerequisite: THEA 1100 and THEA 3710.

THEA3750 - Acting for the Camera

Credits: 3

Addresses performance skills required in acting for the camera. Covers various techniques, styles, and skills necessary to be successful in the professional world of film and television as an actor. Students perform scenes for 3-camera and single camera set-ups, and become familiar with rudimentary technical skills as crewmembers for shoots. Lecture and test material cover career opportunities, union affiliations, and current trends in the film and television industry.

Prerequisite: THEA 1100 and THEA 3710. THEA 3805. Stage Lighting II.

THEA3910 - 20th Century Theatre Diversity

Credits: 3

Studies plays and production techniques, within the context of historical and sociological events, as developed in the 20th Century that has led to the cultural diversity seen in modern theatre.

A&S College Core 2015 ASD

Former Course Number [591]

Prerequisite: junior standing.

THEA3950 - Dialects for the Actor

Credits: 3

Introduces the actor to five major dialects for the stage. Examines sensibility, vowel and consonant changes, pitch placement and charting.

Prerequisite: THEA 1100, THEA 1700, and THEA 2170.

THEA4710 - Acting IV

Credits: 3

Max Credit 3

Involves intensive work at an advanced level dealing with individual actor's problems through the medium of scene study.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 3710

THEA4720 - Auditioning and Professional Issues

Credits: 3

Introduces actors to process of finding, preparing and executing successful audition material, including monologues, songs and dance combinations. Exposes actors to business aspects of the theatre world, including resumes, photos, contracts, unions, internships, apprenticeships, Equity Membership Candidacy programs, URTA's and professional actor training graduate programs. Culminates preparation for final semester auditions for the company/school of choice.

Prerequisite: THEA 1100, THEA 3710 and THEA 3740.

THEA4730 - Movement for Actors II

Credits: 2

This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the

actor in all performance efforts.

Prerequisite: THEA 1100 and THEA 2720 .

THEA4820 - Directing I

Credits: 3

Tools course. Focuses on basic pictorial and blocking skills of the director. Includes in-class exercises that cover structural and character analysis of play scripts, blocking annotation and prompt scripts, developing ground plans, creating compositions with emphasis, focus and balance, and employing movement as a dynamic tool. Requires two outside directing projects with verbal evaluations of all project work.

Prerequisite: THEA 2010, THEA 2020, THEA 3710, and THEA 3810 or instructor permission.

THEA4930 - Theatre History I

Credits: 3

First semester of a one-year series. Surveys theatrical and dramatic practices from origins of Western European theatre to the theatre of the avant-garde. Specifically focuses on the climate of ideas and theoreticians, theatrical practitioners and audiences. Offered fall semester.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: THEA 2010, THEA 2020, 6 hours in theatre at 3000-level.

THEA4940 - Theatre History II

Credits: 3

Second semester of a one-year series. Continues THEA 4930.

Prerequisite: THEA 4930.

- Foreign Language Credits: 8
A&S Global Credits: 3
A&S Diversity Credits: 3

Three Hours From the Following:

THEA1410 - Beginning Ballet I

Credits: 1

Introduces principles and practices of classical ballet technique.

USP 2015 Code U5H

Prerequisite: THEA 1410 or instructor permission.

THEA1430 - Beginning Modern I

Credits: 1

Introduces principles and techniques of modern dance.

USP 2015 Code U5H

THEA1450 - Beginning Tap Dance I

Credits: 1

Explores basic tap techniques and related principles of tap dance composition.

THEA1480 - Beginning Jazz Dance I

Credits: 1

Explores basic jazz dance techniques and related principles of jazz dance composition.

USP 2003-2014 Code H

Theatre and Dance, B.A.

The University Studies Program 2015

Tracks:

- Theatre and Dance, Theatre Track, B.A.
- Theatre and Dance, Dance Track, B.A.

University Studies Program Requirements

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Theatre and Dance, Dance Performance Concentration, B.F.A.

The BFA in Dance Performance is a professionally oriented degree for students interested in a career of performing or choreographing and permits a total of 71-74 credits in the major. Admission to the BFA is by application only.

Required Courses

These are the required courses for a B.F.A. with Dance Performance Concentration. *Certain substitutions may have to be made and all scheduling of classes should be discussed with an adviser.*

THEA1021 - Academic and Professional Issues in Dance

Credits: 1

Introduces freshman to the discipline of dance and academic study at the University of Wyoming. Key intellectual and literacy concepts will be introduced, including, but not limited to: critical thinking and analysis, knowledge of the discipline, career options, diversity of the discipline, university and region.

USP 2003-2014 Code U3I,U3L

THEA1040 - Production Crew I

Credits: 0.5

Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual production of one stage play in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA1200 - Introduction to Design

Credits: 3

Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

THEA1405 - Introduction to Pilates Training

Credits: 1

Max Credit (Max. 2)

An introduction to Pilates based training, including mat work and exercises on the Reformer.

Prerequisite: consent of instructor.

THEA1450 - Beginning Tap Dance I

Credits: 1

Explores basic tap techniques and related principles of tap dance composition.

THEA2040 - Production Crew II

Credits: 0.5

Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2050 - Theatre Practice

Credits: 1-2

Encompasses individually supervised practical training in performance and production.

Prerequisite: consent of instructor.

THEA2160 - Stage Makeup

Credits: 2

Introduction to theatrical makeup with the stage performer in mind. Focus on principles, materials, and techniques; concentrating on problems of designing and executing specific makeup designs and applications for a wide range of ages, types, and styles.

OR

THEA2800 - Stage Lighting I

Credits: 3

Examines the elemental aspects of stage lighting including equipment, facilities, color, and fundamental electricity. Requires studio work on departmental productions. Intended for majors in the program.

Former Course Number [3800]

Prerequisite: THEA 2150 and THEA 2220.

OR

THEA3820 - Stage Costuming I

Credits: 3

A study of basic drawing and rendering skills, and a selective study of historical silhouettes. Objectives include the ability to trust instinct, application of the basic elements of design, applying historical reference and research to a specific character, developing a concept and finally the application of these principles to a final project.

Former Course Number [4840]

Prerequisite: THEA 1100.

THEA2100 - Acting II

Credits: 3

Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1100 OR equivalent

THEA2200 - Backgrounds of Dance

Credits: 3

Surveys ethnic and theatrical dance forms from primal society to 20th century. Examines the place of the arts as a reflection of the culture.

USP 2003-2014 Code U3CA,U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

THEA2410 - Intermediate Ballet I

Credits: 1.5

Max Credit (Max. 3)

A first year, first semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary, and principles of classical ballet.

USP 2015 Code U5H

Prerequisite: Admission by permission only.

THEA2420 - Intermediate Ballet II

Credits: 1.5

Max Credit (Max. 3)

A first year, second semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary and principles of classical ballet.

USP 2015 Code U5H

Prerequisite: Admission by permission only.

THEA2430 - Intermediate Modern I

Credits: 1.5

Max Credit (Max. 3)

A first year, first semester, modern dance technique class for dance majors and minors. Knowledge of basic vocabulary and principles will be augmented with an understanding of historical techniques and their application to contemporary dance. Class meets three times per week.

USP 2015 Code U5H

Prerequisite: Limited to dance majors and minors; admission by permission only.

THEA2440 - Intermediate Modern II

Credits: 1.5

Max Credit (Max. 3)

A first year, second semester modern dance technique class for dance majors and minors. Mastering vocabulary and

principles will be augmented with a deeper understanding of historical techniques and their application to contemporary dance.

USP 2015 Code U5H

Prerequisite: THEA 2430. Limited to dance majors and minors; admission by permission only.

THEA2450 - Intermediate Tap I

Credits: 1

Continued studies in techniques and principles of tap dance and tap dance composition.

Prerequisite: THEA 1450.

THEA2480 - Intermediate Jazz I

Credits: 1

Continued studies in techniques and principles of jazz dance and jazz dance composition.

USP 2015 Code U5H

Prerequisite: THEA 1480. Instructor permission required.

THEA3021 - Foundations of Dance Pedagogy

Credits: 1

Introduces students to basic theories and practices of dance pedagogy. Lecture and discussion will be balanced with peer teaching and coaching, observation of lessons and integration within a dance classroom situation with some teaching responsibilities and development of a portfolio with lessons and resources for teaching.

Prerequisite: sophomore standing in the department of Theatre and Dance; successful completion of THEA 3420 or THEA 3440.

THEA3100 - Kinesiology for Dance

Credits: 3

Encompasses seminar in current kinesiology research for dancers. Includes practicum based projects, lectures and supplementary materials.

Prerequisite: ZOO 2040.

THEA3410 - Adv/Intermediate Ballet I

Credits: 1.5

Max Credit (Max. 3)

A second year, first semester ballet technique class for dance majors and minors. Emphasis is placed on improving technical skills and learning more advanced steps. Includes research into one discipline of ballet.

Prerequisite: successful completion of THEA 2440 and admission by permission only. Limited to dance majors and minors.

THEA3420 - Adv/Intermediate Ballet II

Credits: 1.5
Max Credit (Max. 3).

Second semester, second year ballet technique class for dance majors and minors. Emphasizes broadening the dancer's movement vocabulary while refining acquired technical skills. Dancers begin work in study of Baroque dance terms.

Prerequisite: successful completion of THEA 3410 or equivalent required. Limited to dance majors and minors; admission by permission only.

THEA3430 - Adv/Intermediate Modern I

Credits: 1.5
Max Credit (Max. 3)

A second year, first semester, intermediate level modern dance technique class for dance majors and minors. Continued training in classical modern dance and continued historical survey of modern dance will be augmented by rhythmic analysis and compositional forms.

Prerequisite: successful completion of THEA 2440 or its equivalent. Limited to dance majors and minors; admission by permission only.

THEA3440 - Adv/Intermediate Modern II

Credits: 1

A second year, second semester, modern dance technique class with continuing studies of sequential modern dance technique at the intermediate level, introduction of Laban effort/shape theory, compositional forms, improvisation and additional rhythmic analysis.

Prerequisite: THEA 3430 or its equivalent. Limited to dance majors and minors; admission by permission only.

THEA3480 - Adv/Intermediate Jazz I

Credits: 1
Max Credit (Max. 2)

An intermediate jazz technique class. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation and incorporate them into class compositions.

Prerequisite: THEA 2480.

THEA3490 - Advanced Jazz I

Credits: 1
Max Credit (Max. 2)

An advanced class in jazz technique and performance. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation as well as incorporate them into class compositions.

Prerequisite: THEA 3480.

THEA4001 - Historical Dance

Credits: 2
Max Credit (Max. 2)

Historical dance forms in the "Noble Style" dating from the 15th through 18th Centuries. Class work covers the relationship of musical forms to the specific step vocabulary and dances of each period, deportment, period costume as it relates to movement, social environment, period style with an emphasis on reconstruction of 17th and 18th Century dances from Feuillet notation.

Prerequisite: THEA 3440.

- *Plus 8 credits total in any combination of THEA 4010 and THEA 4030*

THEA4010 - Advanced Ballet

Credits: 1-3
Max Credit (Max. 8)

A continuing course in the principles and techniques of classical ballet. Emphasis is placed on continuing to broaden the dancer's movement vocabulary while refining acquired technical skills.

Prerequisite: THEA 3420. Limited to dance majors and minors; admission by permission only.

THEA4030 - Advanced Modern Dance

Credits: 1-3
Max Credit (Max. 8)

This class will develop a professional dancer capable of working within diverse modern dance styles and techniques through the interweaving of classical and contemporary movement modalities along with an experiential anatomy approach.

Prerequisite: THEA 3440. Limited to dance majors and minors; admission by permission only.

THEA4200 - 20th Century Dance

Credits: 3

Intensely studies dance in 20th Century, emphasizing contemporary movement in modern, ballet, jazz and musical theatre dance. Examines social, political and aesthetic trends influencing dance theory and performance.

USP 2003-2014 Code U3CA,U3WC

USP 2015 Code U5C3

Prerequisite: THEA 2200.

THEA4250 - Beginning Dance Composition

Credits: 2

Presents and criticizes movement studies based on various approaches to composition. Explores experimentation in choreography.

Prerequisite: THEA 2420, THEA 2440.

THEA4260 - Intermediate Dance Composition

Credits: 2-3

Prerequisite: THEA 4250 and consent of instructor.

THEA4700 - Auditioning and Careers in Dance

Credits: 1

Designed for dance majors as a culminating course in preparation for final semester auditions and applications for companies and graduate schools. Through this course, students will set career goals, create an audition portfolio, and gain exposure to the many challenges and opportunities in dance.

Prerequisite: senior standing, THEA 1021, and one semester of THEA 4010 or THEA 4030.

- THEA4880 - Advanced Theatre Practice Credits: 1

THEA4880 - Advanced Theatre Practice

Credits: 1-2

Prerequisite: 12 hours in theatre and consent of instructor.

THEA4950 - Senior Thesis

Credits: 3

Encompasses senior research project under faculty member guidance and supervision.

Prerequisite: senior standing.

OR

THEA4960 - Senior Project

Credits: 1-3
Max Credit (Max. 3)

Exercise in the practical application of production, centered on a UW production, either main stage or studio. It may deal with design in scenery, costumes, properties, sound, makeup, playwriting, technical direction, directing, dance pedagogy, or choreography. The project is intended to be a "real" exercise in theatrical production.

THEA4975 - Theatre/Dance Internship

Credits: 1-12
Max Credit (Max. 12)

The intent of this course is designed to provide professional experiences to students outside of the academic curriculum of Theatre and Dance Department. It is designed to advance the students potential career opportunities and help advance their knowledge in the field.

Restricted Restricted to sophomores, juniors, and seniors.

Prerequisite: Must have completed 6 hours in the department of Theatre and Dance.

- LIFE 1000 Credits: 4
OR

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

OR

ANTH1100 - Introduction to Biological Anthropology

Credits: 4

Basic concepts relating to the origin, evolution and biological nature of the human species.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

- Foreign Language Credits: 8
- First Aid/CPR Credits: 0
- A&S Global Credits: 3
- A&S Diversity Credits: 3

Theatre and Dance, Dance Science Concentration, B.F.A.

The BFA in Dance Science permits 78 credits in the major and is a professionally oriented degree for students interested in a career in research or science. The degree provides summation and synthesis of dance training. Admission by application only.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

THEA4200 - 20th Century Dance

Credits: 3
Intensely studies dance in 20th Century, emphasizing contemporary movement in modern, ballet, jazz and musical theatre dance. Examines social, political and aesthetic trends influencing dance theory and performance.

USP 2003-2014 Code U3CA,U3WC

USP 2015 Code U5C3

Prerequisite: THEA 2200.

THEA4250 - Beginning Dance Composition

Credits: 2

Presents and criticizes movement studies based on various approaches to composition. Explores experimentation in choreography.

Prerequisite: THEA 2420, THEA 2440.

THEA4260 - Intermediate Dance Composition

Credits: 2-3

Prerequisite: THEA 4250 and consent of instructor.

THEA4880 - Advanced Theatre Practice

Credits: 1-2

Prerequisite: 12 hours in theatre and consent of instructor.

THEA4990 - Research in Theatre

Credits: 1-3

Prerequisite: 6 hours in area of research and consent of instructor.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

KIN3050 - Prevention and Care of Athletic Injuries

Credits: 2

Encompasses theory and practical work in the field of athletic training. Strongly emphasizes prevention and care of athletic injuries, including wrapping and taping techniques.

Former Course Number [PEPR 3050]

Prerequisite: junior standing; C or better in KIN 2040; minimum 2.750 GPA.

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

KIN4020 - Motor Behavior

Credits: 3

Provides undergraduate majors in kinesiology and health the foundation of motor learning and control theories to be applied to decisions related to the enhancement of human performance.

Prerequisite: C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; and 2.750 GPA.

OR

KIN3034 - Lifespan Motor Development

Credits: 3

Studies lifespan motor development. Emphasizes developmental periods of infancy through adolescence. Gives attention to observation and analysis of motor behavior and movement performance of individuals across lifespan.

Former Course Number [PEPR 3034]

Prerequisite: grade of C or better in PSYC 1000; junior standing; 2.750 GPA.

KIN3037 - Sport Psychology

Credits: 3

Studies psychological theories and techniques applied to sport to enhance the performance and personal growth of athletes and coaches. Emphasizes the influence of personality, anxiety, motivation, social factors, and psychological skills training.

Former Course Number [PEPR 3037]

Prerequisite: Admitted to the last two years of one of the programs in DK&H.

OR

KIN3038 - Exercise Psychology

Credits: 3

Studies psychological theories for understanding and predicting health-oriented exercise behavior, including psychological intentions for increasing exercise participation and adherence. Emphasizes psychological and psychobiological responses to exercise.

Prerequisite: grade of C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; 2.750 GPA.

- Foreign Language Credits: 8
A&S Global Credits: 3
A&S Diversity Credits: 3

Additional Upper-division Required Course Work

(minimum 6 hours from the following courses):

KIN3021 - Physiology of Exercise

Credits: 3

Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

Former Course Number [PEPR 3021]

Prerequisite: 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

KIN3040 - Teaching Human Anatomy

Credits: 3

Students develop communication and teaching skills while expanding their knowledge in anatomy. Under faculty instruction, each student develops lecture and laboratory lessons for all human anatomy systems. Under direct faculty supervision, each student demonstrates their teaching skills through preparation of videotape segments and actual laboratory teaching experience in the lower-division human anatomy course.

Former Course Number [PEPR 3040]

Prerequisite: 2.750 GPA and grade of B or better in KIN 2040 and consent of instructor.

KIN3042 - Biomechanics of Human Movement

Credits: 3

Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

FCSC3145 - Sports Nutrition and Metabolism

Credits: 3

Discusses roles played by carbohydrate, fat, protein, water, and key vitamins and minerals as they relate to physical exercise. Applies principles of nutrition.

Prerequisite: FCSC 1141; ZOO 3115.

FCSC4147 - Nutrition and Weight Control

Credits: 3

Advanced course in physiological and metabolic determinants of weight control emphasizing pathology, psychodynamics, assessment and treatment of obesity.

Dual Listed FCSC 5147.

Prerequisite: FCSC 1141; ZOO 3115.

PSYC3120 - Cognitive Psychology

Credits: 3

Deals with higher mental processes that are primarily unique to human beings from theoretical and research orientations. Emphasizes interrelationships between various cognitive processes and continuity of those processes with perceptual and non-cognitive activities. Discusses how information is processed and remembered.

When Offered (Normally offered spring semester)

Former Course Number [4120]

Prerequisite: A grade of C or better in 6 hours of psychology including PSYC 1000.

PSYC3250 - Health Psychology

Credits: 3

Provides overview of growing partnership between psychology and health care, including history of psychology in health care; theoretical foundations of health and illness; intervention and research techniques; stress and high risk behaviors (e. g. , substance abuse, eating behaviors, AIDS); psychology's contribution to improving outcomes and quality of life in chronic and life-threatening behaviors.

Cross Listed NURS 3250.

Prerequisite: A grade of C or better in PSYC 1000.

PSYC4070 - Motivation

Credits: 3

Covers classic and contemporary theories and research concerning motivation and the pursuit of goals. Discusses the study of motivation from a variety of perspectives, including biological, environmental, and psychological. Considers the role of emotion in motivational processes.

Prerequisite: C or better in 6 hours in psychology.

Theatre and Dance, Design Tech Management Concentration, B.F.A.

The BFA Design Tech Management permits 69-70 credits in the major and is a professionally oriented degree for students interested in pre-professional theatre design, technology and management or graduate study.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Required Courses

These are the required courses for a B.F.A. with Design Tech Management Concentration. *Certain substitutions may have to be made and all scheduling of classes should be discussed with an adviser.*

THEA1040 - Production Crew I

Credits: 0.5

Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA1050 - Beginning Drawing and Painting

Credits: 3

An introductory drawing and painting technique course for students to achieve a working knowledge of a variety of mediums that cross the disciplines of scenic, costume, and lighting design. Form, perspective, texture and basic color theories will be explored.

THEA1200 - Introduction to Design

Credits: 3

Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

THEA2010 - Theatrical Backgrounds Drama I

Credits: 3

First semester of a two-course series. Introduces dramatic literature through the ages.

THEA2020 - Theatrical Backgrounds Drama II

Credits: 3

Second semester of a one-year course. Continues THEA 2010.

Prerequisite: THEA 2010.

THEA2040 - Production Crew II

Credits: 0.5

Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2100 - Acting II

Credits: 3

Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1100 OR equivalent

THEA2150 - Drafting for Design

Credits: 3

Introduces Design and Technical students to the basics of hand drafting and numerous drafting techniques and conventions. After completing this course, students will be well prepared for scenic and lighting design courses.

THEA2220 - Stagecraft

Credits: 3

Introduces students to basic stage production practices and techniques, including safe rigging practices, set construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

THEA2250 - Computer Aided Design I

Credits: 3

Building on skills and techniques learned in THEA 2150 Drafting for Design, the course introduces and provides students with training on commonly used software, that may include CAD, 3D-modeling, and photo editing software. Skills acquired will be built upon in later courses.

Prerequisite: THEA 2150 or by permission of instructor.

THEA2790 - Stage Management

Credits: 3

Study of the essential elements of supervising theatrical productions. Stresses the art of organizing auditions, casts, crews, rehearsals, and performances while developing a unique professional relationship with directors, designers and actors. Students will work on a live production.

Prerequisite: THEA 1100, THEA 1200, THEA 2220.

THEA2800 - Stage Lighting I

Credits: 3

Examines the elemental aspects of stage lighting including equipment, facilities, color, and fundamental electricity. Requires studio work on departmental productions. Intended for majors in the program.

Former Course Number [3800]

Prerequisite: THEA 2150 and THEA 2220.

THEA2990 - Period Style for Theatre I

Credits: 3

First semester of a one-year survey. Studies antiquity to the Renaissance with an overview of the architecture, décor, clothing, arts and culture as related in their use and understanding of Western drama. The social, economic, and political histories of each period will be discussed as well. THEA 2990 and THEA 2995 should be taken in sequence.

THEA2995 - Period Style for Theatre II

Credits: 3

Second semester of a one-year survey. Studies Renaissance to Contemporary with an overview of the architecture, decor, clothing, arts and culture as related in their use and understanding of Western drama. The social, economic, and political histories of each period will be discussed as well. THEA 2990 and 2995 should be taken in sequence.

Prerequisite: THEA 2990 or permission of instructor.

THEA3710 - Acting III

Credits: 3

Building on concepts explored in Acting II, this course seeks to further develop the student's ability to interpret, create and sustain a well-developed, believable character. Acting III develops the actor's voice and body for characterization and character interaction through performances of scenes as well as the study of character and scene.

Restricted Theatre majors or permission of instructor

Prerequisite: THEA 2100

THEA3805 - Stage Lighting 2

Credits: 3

Max Credit 3

Analyze proposed productions in terms of period, style, theatre limitations and instrument inventories. Determine appropriate design solutions in written descriptive analyses that result in 2-D drawings of the design. Produce all supporting paperwork including drafting a plan view, section view, instrument schedules, magic sheets and proposed cue lists. Instructor permission required.

Prerequisite: THEA 2800

THEA3810 - Scene Design I

Credits: 3

An in-depth study of idea development from script analysis through design conception using different types of theaters and source material. The design process will cover research, drawing, drafting, model making, and rendering.

Prerequisite: THEA 2150 and THEA 2220 or by permission of instructor.

THEA3820 - Stage Costuming I

Credits: 3

A study of basic drawing and rendering skills, and a selective study of historical silhouettes. Objectives include the ability to trust instinct, application of the basic elements of design, applying historical reference and research to a specific character, developing a concept and finally the application of these principles to a final project.

Former Course Number [4840]

Prerequisite: THEA 1100.

THEA3850 - Design and Technology Seminar

Credits: 2

Introduces designer/technician to process of preparing successful interview material, including a professionally developed portfolio. Exposes designer/technician to business aspects of the theatre world, including resumes, letters of inquiry and application, contracts, unions and professional organizations, internships, apprenticeships, URTAs and professional design/technical training programs. Culminates in junior End-of-the-Year Evaluations.

Prerequisite: junior standing in the BFA Program with Design/Technical emphasis.

THEA3910 - 20th Century Theatre Diversity

Credits: 3

Studies plays and production techniques, within the context of historical and sociological events, as developed in the 20th Century that has led to the cultural diversity seen in modern theatre.

A&S College Core 2015 ASD

Former Course Number [591]

Prerequisite: junior standing.

THEA4810 - Scene Design II

Credits: 3

Building on previous coursework, this course will focus on further development of the individual creative and design processes, honing research and presentation skills, and refinement of artistry and craftsmanship. Strong emphasis will be on the presentation of ideas and the advancement of the portfolio.

Prerequisite: THEA 2250 and THEA 3810.

THEA4820 - Directing I

Credits: 3

Tools course. Focuses on basic pictorial and blocking skills of the director. Includes in-class exercises that cover structural and character analysis of play scripts, blocking annotation and prompt scripts, developing ground plans, creating compositions with emphasis, focus and balance, and employing movement as a dynamic tool. Requires two outside directing projects with verbal evaluations of all project work.

Prerequisite: THEA 2010, THEA 2020, THEA 3710, and THEA 3810 or instructor permission.

THEA4850 - Stage Costuming II

Credits: 3

Explores costume design, emphasizing various rendering techniques. Emphasis is placed on the portfolio.

Prerequisite: THEA 3820.

THEA4930 - Theatre History I

Credits: 3

First semester of a one-year series. Surveys theatrical and dramatic practices from origins of Western European theatre to the theatre of the avant-garde. Specifically focuses on the climate of ideas and theoreticians, theatrical practitioners and audiences. Offered fall semester.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: THEA 2010, THEA 2020, 6 hours in theatre at 3000-level.

THEA4940 - Theatre History II

Credits: 3

Second semester of a one-year series. Continues THEA 4930.

Prerequisite: THEA 4930.

Foreign Language Credits: 8

A&S Global Credits: 3

A&S Diversity Credits: 3

Recommended Electives:

THEA2145 - Costume Construction

Credits: 3

Teaches the basic skills and terminology that are used in costume construction. Teaches hand and machine sewing focusing on techniques used to stitch historical and modern costumes as well as basic knowledge of fabric.

THEA2160 - Stage Makeup

Credits: 2

Introduction to theatrical makeup with the stage performer in mind. Focus on principles, materials, and techniques; concentrating on problems of designing and executing specific makeup designs and applications for a wide range of ages, types, and styles.

THEA2810 - Scenic Painting for the Theatre

Credits: 3

Introduces the art of scenic painting by the hands-on use and instruction of a variety of scenic paints, application on select construction materials, the use of unique tools and techniques commonly used to paint scenery for the stage. Safe use and proper handling of such material are addressed.

Prerequisite: THEA 2220.

THEA2900 - Sound Design for Theatre and Dance

Credits: 3

Examines the basic aspects of sound design for the theatre, dance, entertainment and film worlds. Topics covered include recording, sampling, live mixing, playback, and non-linear editing through several software packages.

Prerequisite: THEA 2220.

ART2010 - Art History I

Credits: 3

First semester of a one-year survey. Studies ancient, medieval, renaissance and modern art with special reference to various social, economic and historic factors which motivated and conditioned the aesthetic forms. Includes ancient, medieval and early renaissance periods. ART 2010 and ART 2020 are required of all art majors and should be taken in sequence.

USP 2003-2014 Code U3CA

USP 2015 Code U5H

ART2020 - Art History II

Credits: 3

Second semester of a one-year survey. Studies European/American Art from the Renaissance through Contemporary with special emphasis and historical factors which motivated and conditioned the aesthetic forms. Covers Renaissance, Baroque, Rococo, 18th Century, 19th Century, Early Modernism and Contemporary Art. ART 2010 and 2020 are required of art majors and should be taken in sequence.

USP 2003-2014 Code U3CA

USP 2015 Code U5H

Theatre and Dance, Musical Theatre Performance Concentration, B.F.A.

The BFA in Musical Theatre Performance permits a total of 60-70 credits in the major. It is designed primarily for those desiring to pursue additional pre-professional training in theatre and or for those preparing to enter MFA graduate programs.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on

developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Required Courses

The following are the required courses for a Bachelor of Fine Arts in Performance (Musical Theatre):

THEA1040 - Production Crew I

Credits: 0.5

Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA1200 - Introduction to Design

Credits: 3

Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

THEA1300 - Musical Theatre Workshop: Voice and Acting

Credits: 2

Max Credit (Max. 8)

Musical Theatre Workshop: Voice & Acting will focus on developing and strengthening the speaking and singing voice for stage, wherein students will construct performances through integration of breath and voice work.

THEA1360 - Fundamentals of Music for Theatre Majors

Credits: 3

Basics of music theory to include music notation, rhythm, pitch, scales, key signatures, triads, and basic ear training and keyboard skills, specific to the needs of Musical Theatre. Assumes little or no music theory background.

THEA2010 - Theatrical Backgrounds Drama I

Credits: 3

First semester of a two-course series. Introduces dramatic literature through the ages.

THEA2020 - Theatrical Backgrounds Drama II

Credits: 3

Second semester of a one-year course. Continues THEA 2010.

Prerequisite: THEA 2010.

THEA2040 - Production Crew II

Credits: 0.5

Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2100 - Acting II

Credits: 3

Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1100 OR equivalent

THEA2160 - Stage Makeup

Credits: 2

Introduction to theatrical makeup with the stage performer in mind. Focus on principles, materials, and techniques; concentrating on problems of designing and executing specific makeup designs and applications for a wide range of ages, types, and styles.

THEA2170 - Speech for the Actor

Credits: 3

Studies speech techniques, including the International Phonetic Alphabet and Standard American Speech for the Stage. Builds upon the FitzmauriceVoicework technique as well as other voice methodologies.

Prerequisite: THEA 1100 and THEA 1700.

THEA2220 - Stagecraft

Credits: 3

Introduces students to basic stage production practices and techniques, including safe rigging practices, set construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

THEA2300 - MT Workshop: Scene Study

Credits: 1

Max Credit 1

Study and analysis of written aspects of Musical Theatre (Book, Lyrics, Music) with an emphasis on translating analysis into tangible aspects of musical theatre performance. Study and practice outside of class, as well as rehearsals with assigned scene partner(s) is required.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1300

THEA2340 - Musical Theatre Voice Lesson

Credits: 1

Max Credit (Max. 8)

Solo instruction in singing techniques and performance styles associated with Musical Theatre. Includes demonstration, brief lecture, discussion, and active participation through singing, analyzing, movement, and performance.

THEA2720 - Movement for Actors I

Credits: 2

This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the actor in all performance efforts.

Prerequisite: THEA 1100.

THEA2790 - Stage Management

Credits: 3

Study of the essential elements of supervising theatrical productions. Stresses the art of organizing auditions, casts, crews, rehearsals, and performances while developing a unique professional relationship with directors, designers and actors. Students will work on a live production.

Prerequisite: THEA 1100, THEA 1200, THEA 2220.

THEA3300 - MT Workshop: Production

Credits: 1-2
Max Credit 2

Focusing on solos, duets and/or large and small ensemble pieces, instruction will include music preparation, choreography, blocking, acting, character study and performance. Additional scene study, rehearsals outside of class times, mock auditions, and study of materials will be required. The course will be repeated twice for credit.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1300

THEA3710 - Acting III

Credits: 3

Building on concepts explored in Acting II, this course seeks to further develop the student's ability to interpret, create and sustain a well-developed, believable character. Acting III develops the actor's voice and body for characterization and character interaction through performances of scenes as well as the study of character and scene.

Restricted Theatre majors or permission of instructor

Prerequisite: THEA 2100

THEA3740 - Acting Styles

Credits: 3

Focuses on textual analysis of plays from different periods and styles of dramatic literature. Emphasizes vocal and physical interpretation of character as represented in non-realistic styles of drama.

Prerequisite: THEA 1100 and THEA 3710.

THEA3910 - 20th Century Theatre Diversity

Credits: 3

Studies plays and production techniques, within the context of historical and sociological events, as developed in the 20th Century that has led to the cultural diversity seen in modern theatre.

A&S College Core 2015 ASD
Former Course Number [591]

Prerequisite: junior standing.

THEA3950 - Dialects for the Actor

Credits: 3

Introduces the actor to five major dialects for the stage. Examines sensibility, vowel and consonant changes, pitch placement and charting.

Prerequisite: THEA 1100, THEA 1700, and THEA 2170.

THEA4330 - History of American Musical Theatre

Credits: 3

History of the American Musical from its inception to today. Emphasis on developments and literature.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: THEA 2010, THEA 2020, 6 hours in theatre at the 3000-level.

THEA4710 - Acting IV

Credits: 3

Max Credit 3

Involves intensive work at an advanced level dealing with individual actor's problems through the medium of scene study.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 3710

THEA4720 - Auditioning and Professional Issues

Credits: 3

Introduces actors to process of finding, preparing and executing successful audition material, including monologues, songs and dance combinations. Exposes actors to business aspects of the theatre world, including resumes, photos, contracts, unions, internships, apprenticeships, Equity Membership Candidacy programs, URTA's and professional actor training graduate programs. Culminates preparation for final semester auditions for the company/school of choice.

Prerequisite: THEA 1100, THEA 3710 and THEA 3740.

THEA4730 - Movement for Actors II

Credits: 2

This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the actor in all performance efforts.

Prerequisite: THEA 1100 and THEA 2720 .

THEA4820 - Directing I

Credits: 3

Tools course. Focuses on basic pictorial and blocking skills of the director. Includes in-class exercises that cover structural and character analysis of play scripts, blocking annotation and prompt scripts, developing ground plans, creating compositions with emphasis, focus and balance, and employing movement as a dynamic tool. Requires two outside directing projects with verbal evaluations of all project work.

Prerequisite: THEA 2010, THEA 2020, THEA 3710, and THEA 3810 or instructor permission.

THEA4930 - Theatre History I

Credits: 3

First semester of a one-year series. Surveys theatrical and dramatic practices from origins of Western European theatre to the theatre of the avant-garde. Specifically focuses on the climate of ideas and theoreticians, theatrical practitioners and audiences. Offered fall semester.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: THEA 2010, THEA 2020, 6 hours in theatre at 3000-level.

- Foreign Language Credits: 8
- Plus two additional dance courses in an area of choice.

A&S Global Credits: 3

A&S Diversity Credits: 3

Plus 3 Hours From the Following:

THEA1410 - Beginning Ballet I

Credits: 1

Introduces principles and practices of classical ballet technique.

USP 2015 Code U5H

Prerequisite: THEA 1410 or instructor permission.

THEA1430 - Beginning Modern I

Credits: 1

Introduces principles and techniques of modern dance.

USP 2015 Code U5H

THEA1450 - Beginning Tap Dance I

Credits: 1

Explores basic tap techniques and related principles of tap dance composition.

THEA1480 - Beginning Jazz Dance I

Credits: 1

Explores basic jazz dance techniques and related principles of jazz dance composition.

USP 2003-2014 Code H

Theatre and Dance, Theatre/English Concentration, B.F.A.

The BFA in English Theatre permits 60-70 credits in the major field. It is designed primarily for students who seek additional professional education and certification, or for those who wish to enter MFA graduate programs.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Required Courses

These are the required courses for a B.F.A. with Theatre/English Concentration. *Certain substitutions may have to be made and all scheduling of classes should be discussed with an adviser.*

THEA1040 - Production Crew I

Credits: 0.5
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual

production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA1200 - Introduction to Design

Credits: 3

Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

THEA2010 - Theatrical Backgrounds Drama I

Credits: 3

First semester of a two-course series. Introduces dramatic literature through the ages.

THEA2020 - Theatrical Backgrounds Drama II

Credits: 3

Second semester of a one-year course. Continues THEA 2010.

Prerequisite: THEA 2010.

THEA2040 - Production Crew II

Credits: 0.5

Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2100 - Acting II

Credits: 3

Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1100 OR equivalent

THEA2150 - Drafting for Design

Credits: 3

Introduces Design and Technical students to the basics of hand drafting and numerous drafting techniques and conventions. After completing this course, students will be well prepared for scenic and lighting design courses.

THEA2220 - Stagecraft

Credits: 3

Introduces students to basic stage production practices and techniques, including safe rigging practices, set construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

THEA2800 - Stage Lighting I

Credits: 3

Examines the elemental aspects of stage lighting including equipment, facilities, color, and fundamental electricity. Requires studio work on departmental productions. Intended for majors in the program.

Former Course Number [3800]

Prerequisite: THEA 2150 and THEA 2220.

THEA3710 - Acting III

Credits: 3

Building on concepts explored in Acting II, this course seeks to further develop the student's ability to interpret, create and sustain a well-developed, believable character. Acting III develops the actor's voice and body for characterization and character interaction through performances of scenes as well as the study of character and scene.

Restricted Theatre majors or permission of instructor

Prerequisite: THEA 2100

THEA3740 - Acting Styles

Credits: 3

Focuses on textual analysis of plays from different periods and styles of dramatic literature. Emphasizes vocal and physical interpretation of character as represented in non-realistic styles of drama.

Prerequisite: THEA 1100 and THEA 3710.

THEA3810 - Scene Design I

Credits: 3

An in-depth study of idea development from script analysis through design conception using different types of theaters and source material. The design process will cover research, drawing, drafting, model making, and rendering.

Prerequisite: THEA 2150 and THEA 2220 or by permission of instructor.

THEA3820 - Stage Costuming I

Credits: 3

A study of basic drawing and rendering skills, and a selective study of historical silhouettes. Objectives include the ability to trust instinct, application of the basic elements of design, applying historical reference and research to a specific character, developing a concept and finally the application of these principles to a final project.

Former Course Number [4840]

Prerequisite: THEA 1100.

THEA3910 - 20th Century Theatre Diversity

Credits: 3

Studies plays and production techniques, within the context of historical and sociological events, as developed in the 20th Century that has led to the cultural diversity seen in modern theatre.

A&S College Core 2015 ASD

Former Course Number [591]

Prerequisite: junior standing.

THEA4820 - Directing I

Credits: 3

Tools course. Focuses on basic pictorial and blocking skills of the director. Includes in-class exercises that cover structural and character analysis of play scripts, blocking annotation and prompt scripts, developing ground plans, creating compositions with emphasis, focus and balance, and employing movement as a dynamic tool. Requires two outside directing projects with verbal evaluations of all project work.

Prerequisite: THEA 2010, THEA 2020, THEA 3710, and THEA 3810 or instructor permission.

THEA4830 - Directing II

Credits: 3

Focuses on creative process of developing directorial concepts, establishing the world and style of the play, working with the actor, and functioning as a designer. Includes exercises that analyze different directorial approaches, as well as the audition and casting process. Culminates one-act mounted production performed before invited audience.

Prerequisite: THEA 4820 and written permission of instructor.

THEA4930 - Theatre History I

Credits: 3

First semester of a one-year series. Surveys theatrical and dramatic practices from origins of Western European theatre to the theatre of the avant-garde. Specifically focuses on the climate of ideas and theoreticians, theatrical practitioners and audiences. Offered fall semester.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: THEA 2010, THEA 2020, 6 hours in theatre at 3000-level.

THEA4940 - Theatre History II

Credits: 3

Second semester of a one-year series. Continues THEA 4930.

Prerequisite: THEA 4930.

- ENGL 2000 Credits 6
 - ENGL 4000 Credits: 9
 - ENGL 4110 Credits: 3
- OR**
- ENGL 4120 Credits: 3
 - Foreign Language Credits: 8
 - A&S Global Credits: 3
 - A&S Diversity Credits: 3

Minor

Dance Minor

Required Courses

THEA1021 - Academic and Professional Issues in Dance

Credits: 1

Introduces freshman to the discipline of dance and academic study at the University of Wyoming. Key intellectual and literacy concepts will be introduced, including, but not limited to: critical thinking and analysis, knowledge of the discipline, career options, diversity of the discipline, university and region.

USP 2003-2014 Code U3I,U3L

THEA1040 - Production Crew I

Credits: 0.5

Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA2200 - Backgrounds of Dance

Credits: 3

Surveys ethnic and theatrical dance forms from primal society to 20th century. Examines the place of the arts as a reflection of the culture.

USP 2003-2014 Code U3CA,U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

THEA4250 - Beginning Dance Composition

Credits: 2

Presents and criticizes movement studies based on various approaches to composition. Explores experimentation in choreography.

Prerequisite: THEA 2420, THEA 2440.

Ballet Technique: 5-6 Credit Hours

Four (4) Consecutive Classes in Ballet Technique.* Choose From:

THEA1410 - Beginning Ballet I

Credits: 1

Introduces principles and practices of classical ballet technique.

USP 2015 Code U5H

Prerequisite: THEA 1410 or instructor permission.

THEA1420 - Beginning Ballet II

Credits: 1

Continues studies in classical ballet technique. Instructor permission required.

USP 2015 Code U5H

Prerequisite: THEA 1410.

THEA2410 - Intermediate Ballet I

Credits: 1.5

Max Credit (Max. 3)

A first year, first semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary, and principles of classical ballet.

USP 2015 Code U5H

Prerequisite: Admission by permission only.

THEA2430 - Intermediate Modern I

Credits: 1.5

Max Credit (Max. 3)

A first year, first semester, modern dance technique class for dance majors and minors. Knowledge of basic vocabulary and principles will be augmented with an understanding of historical techniques and their application to contemporary dance. Class meets three times per week.

USP 2015 Code U5H

Prerequisite: Limited to dance majors and minors; admission by permission only.

THEA3410 - Adv/Intermediate Ballet I

Credits: 1.5

Max Credit (Max. 3)

A second year, first semester ballet technique class for dance majors and minors. Emphasis is placed on improving technical skills and learning more advanced steps. Includes research into one discipline of ballet.

Prerequisite: successful completion of THEA 2440 and admission by permission only. Limited to dance majors and minors.

THEA3420 - Adv/Intermediate Ballet II

Credits: 1.5

Max Credit (Max. 3).

Second semester, second year ballet technique class for dance majors and minors. Emphasizes broadening the dancer's movement vocabulary while refining acquired technical skills. Dancers begin work in study of Baroque dance terms.

Prerequisite: successful completion of THEA 3410 or equivalent required. Limited to dance majors and minors; admission by permission only.

THEA4010 - Advanced Ballet

Credits: 1-3

Max Credit (Max. 8)

A continuing course in the principles and techniques of classical ballet. Emphasis is placed on continuing to broaden the dancer's movement vocabulary while refining acquired technical skills.

Prerequisite: THEA 3420. Limited to dance majors and minors; admission by permission only.

Modern Technique: 5-6 Credit Hours

Four (4) Consecutive Classes in Modern Technique.* Choose from:

THEA1430 - Beginning Modern I

Credits: 1

Introduces principles and techniques of modern dance.

USP 2015 Code U5H

THEA1440 - Beginning Modern II

Credits: 1

Continues studies in modern dance techniques.

USP 2015 Code U5H

Prerequisite: Prerequisite THEA 1430 or instructor permission.

THEA2430 - Intermediate Modern I

Credits: 1.5

Max Credit (Max. 3)

A first year, first semester, modern dance technique class for dance majors and minors. Knowledge of basic vocabulary and principles will be augmented with an understanding of historical techniques and their application to contemporary dance. Class meets three times per week.

USP 2015 Code U5H

Prerequisite: Limited to dance majors and minors; admission by permission only.

THEA2440 - Intermediate Modern II

Credits: 1.5

Max Credit (Max. 3)

A first year, second semester modern dance technique class for dance majors and minors. Mastering vocabulary and principles will be augmented with a deeper understanding of historical techniques and their application to contemporary dance.

USP 2015 Code U5H

Prerequisite: THEA 2430. Limited to dance majors and minors; admission by permission only.

THEA3430 - Adv/Intermediate Modern I

Credits: 1.5
Max Credit (Max. 3)

A second year, first semester, intermediate level modern dance technique class for dance majors and minors. Continued training in classical modern dance and continued historical survey of modern dance will be augmented by rhythmic analysis and compositional forms.

Prerequisite: successful completion of THEA 2440 or its equivalent. Limited to dance majors and minors; admission by permission only.

THEA3440 - Adv/Intermediate Modern II

Credits: 1

A second year, second semester, modern dance technique class with continuing studies of sequential modern dance technique at the intermediate level, introduction of Laban effort/shape theory, compositional forms, improvisation and additional rhythmic analysis.

Prerequisite: THEA 3430 or its equivalent. Limited to dance majors and minors; admission by permission only.

THEA4030 - Advanced Modern Dance

Credits: 1-3
Max Credit (Max. 8)

This class will develop a professional dancer capable of working within diverse modern dance styles and techniques through the interweaving of classical and contemporary movement modalities along with an experiential anatomy approach.

Prerequisite: THEA 3440. Limited to dance majors and minors; admission by permission only.

Jazz or a Mix of Jazz and Tap Class: 2 Credit Hours

Two (2) Consecutive Classes in Jazz or a Mix of Jazz and Tap Classes.* Choose from: 2

THEA1450 - Beginning Tap Dance I

Credits: 1
Explores basic tap techniques and related principles of tap dance composition.

THEA1480 - Beginning Jazz Dance I

Credits: 1
Explores basic jazz dance techniques and related principles of jazz dance composition.

USP 2003-2014 Code H

THEA2450 - Intermediate Tap I

Credits: 1

Continued studies in techniques and principles of tap dance and tap dance composition.

Prerequisite: THEA 1450.

THEA2480 - Intermediate Jazz I

Credits: 1

Continued studies in techniques and principles of jazz dance and jazz dance composition.

USP 2015 Code U5H

Prerequisite: THEA 1480. Instructor permission required.

THEA3480 - Adv/Intermediate Jazz I

Credits: 1

Max Credit (Max. 2)

An intermediate jazz technique class. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation and incorporate them into class compositions.

Prerequisite: THEA 2480.

THEA3490 - Advanced Jazz I

Credits: 1

Max Credit (Max. 2)

An advanced class in jazz technique and performance. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation as well as incorporate them into class compositions.

Prerequisite: THEA 3480.

Elective at 3000-4000 level: 2-3 Credit Hours

Suggested:

THEA4010 - Advanced Ballet

Credits: 1-3

Max Credit (Max. 8)

A continuing course in the principles and techniques of classical ballet. Emphasis is placed on continuing to broaden the dancer's movement vocabulary while refining acquired technical skills.

Prerequisite: THEA 3420. Limited to dance majors and minors; admission by permission only.

THEA4030 - Advanced Modern Dance

Credits: 1-3
Max Credit (Max. 8)

This class will develop a professional dancer capable of working within diverse modern dance styles and techniques through the interweaving of classical and contemporary movement modalities along with an experiential anatomy approach.

Prerequisite: THEA 3440. Limited to dance majors and minors; admission by permission only.

THEA4001 - Historical Dance

Credits: 2
Max Credit (Max. 2)

Historical dance forms in the "Noble Style" dating from the 15th through 18th Centuries. Class work covers the relationship of musical forms to the specific step vocabulary and dances of each period, deportment, period costume as it relates to movement, social environment, period style with an emphasis on reconstruction of 17th and 18th Century dances from Feuillet notation.

Prerequisite: THEA 3440.
OR

THEA4200 - 20th Century Dance

Credits: 3
Intensely studies dance in 20th Century, emphasizing contemporary movement in modern, ballet, jazz and musical theatre dance. Examines social, political and aesthetic trends influencing dance theory and performance.

USP 2003-2014 Code U3CA,U3WC
USP 2015 Code U5C3
Prerequisite: THEA 2200.

Minor Total 17.5-22.5

Theatre Minor

Required Courses

*THEA 2150 is a prerequisite for THEA 3810

THEA1040 - Production Crew I

Credits: 0.5
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual

production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA1100 - Acting I

Credits: 3

Acting I introduces students to the study of the actor's process with an emphasis on analyzing, rehearsing and performing scenes in front of an audience. The student will be introduced to exercises which promote creative expression. Scene work and scoring will focus on contemporary realism.

USP 2003-2014 Code U3CA

USP 2015 Code U5H

Restricted Theater majors or permission of instructor

THEA1200 - Introduction to Design

Credits: 3

Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

THEA2010 - Theatrical Backgrounds Drama I

Credits: 3

First semester of a two-course series. Introduces dramatic literature through the ages.

THEA2020 - Theatrical Backgrounds Drama II

Credits: 3

Second semester of a one-year course. Continues THEA 2010.

Prerequisite: THEA 2010.

THEA2040 - Production Crew II

Credits: 0.5

Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2220 - Stagecraft

Credits: 3

Introduces students to basic stage production practices and techniques, including safe rigging practices, set

construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

THEA2800 - Stage Lighting I

Credits: 3

Examines the elemental aspects of stage lighting including equipment, facilities, color, and fundamental electricity. Requires studio work on departmental productions. Intended for majors in the program.

Former Course Number [3800]

Prerequisite: THEA 2150 and THEA 2220.

OR

THEA3810 - Scene Design I

Credits: 3

An in-depth study of idea development from script analysis through design conception using different types of theaters and source material. The design process will cover research, drawing, drafting, model making, and rendering.

Prerequisite: THEA 2150 and THEA 2220 or by permission of instructor.

OR

THEA3820 - Stage Costuming I

Credits: 3

A study of basic drawing and rendering skills, and a selective study of historical silhouettes. Objectives include the ability to trust instinct, application of the basic elements of design, applying historical reference and research to a specific character, developing a concept and finally the application of these principles to a final project.

Former Course Number [4840]

Prerequisite: THEA 1100.

- Plus 3 hours of electives in Theatre and Dance (must be 4000 level or above)

Department of Zoology and Physiology

Department of Zoology and Physiology

The Department of Zoology and Physiology offers a variety of courses in the biological sciences that encompass many aspects of animal form, function, and biology. Whether you are interested in the intricacies of cell biology or the complexities of ecosystem functioning and whether you want to become a wildlife biologist or a physician, we offer a major that will suit your needs.

Undergraduate Degrees:

Students can choose from three undergraduate degrees: physiology, wildlife and fisheries biology and management, or zoology.

Learning Outcomes for Undergraduates

The learning outcomes that direct the teaching of the department's degrees and which we expect our graduates to have acquired are:

- Competence in basic sciences;
- Competence in the content of the specific courses that constitute the principal knowledge of the degree;
- Ability to comprehend, analyze, and interpret biological data where appropriate; and
- Ability to synthesize information from the biological literature, and communicate it effectively in writing or orally.

Undergraduate Minors:

Minors in human and animal physiology, wildlife fisheries biology management, neuroscience, and zoology are offered.

Graduate Study

The Department of Zoology and Physiology offers programs leading to the master of science and the doctor of philosophy in zoology and physiology. We also participate in graduate programs through the Neuroscience Program and the Program in Ecology.

Program Specific Admission Requirements

Admission is open to all students who meet the minimum requirements set forth in the admissions section of this *Catalog*.

Research and teaching assistantships are available for graduate students working toward the M.S. or Ph.D. degrees. Applicants can apply for this financial assistance at the time they apply for admission to graduate standing. Applications must be completed by February 15 in order to be considered for the following academic year.

Information on how to apply to the graduate program in the Department of Zoology and Physiology is detailed on our web site. Begin by identifying a faculty member in our department whose research interests are similar to yours. We will only consider an application if a faculty member has indicated a willingness to serve as the student's adviser. After finding a potential adviser, e-mail a completed departmental application form, a copy of your curriculum vitae, copies of college transcripts, and recommendation letters to him or her. Our graduate admissions committee will review all applications and make decisions on admission based on the availability of funding and a commitment from a faculty member to serve as the adviser. Students recommended for admission will then be asked to fill out an application to the University of Wyoming and pay a non-refundable application fee.

Consult the website, www.uwyo.edu/zoology, to find out about faculty research.

Learning Outcomes for M.S. Students

1. Comprehend and synthesize advanced knowledge in a specific area of biology.
2. Collect and analyze data to address a research question.
3. Summarize research findings and communicate them effectively in writing and orally.

Learning Outcomes for Doctoral Students

1. Comprehend and synthesize advanced knowledge in a specific area of biology.
2. Develop a research project which constitutes a substantial and original contribution to the field of study.
3. Summarize research findings and communicate them effectively in writing and orally.

Major

Physiology, B.S.

Physiology is the science of how the body functions in health and disease. A degree in physiology provides excellent preparation for careers or graduate study in the health professions and biomedical research or related disciplines.

Additional Information

Physiology is the study of how animals work: how they breathe, feed, interact with their environment, and carry out many other activities and functions. Physiology is the knowledge that the health sciences are built on and so is especially important for students who may be thinking of becoming medical practitioners, veterinarians or health care professionals.

All courses in the major must be completed with a grade of "C" or better.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

A&S College Core

D- - Diversity

Credits: 3
A&S Course: Diversity in the United States

G- - Global Awareness

Credits: 3
A&S Core: Global Awareness Course

Foundation Courses:

(MATH 1450 may substituted for MATH 1400 and MATH 1405)

MATH1400 - College Algebra

Credits: 3
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MATH1405 - Trigonometry

Credits: 3

Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces

associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1030 - General Chemistry II

Credits: 4

Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: CHEM 1020.

PHYS1110 - General Physics I

Credits: 4

First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, pre dental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied. Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1450, 1405 or equivalent.

PHYS1120 - General Physics II

Credits: 4

Follows PHYS 1110 and completes introduction to physics without calculus. Includes electricity, magnetism, optics

and modern physics. Laboratory sessions illustrate principles studied. Students receiving credit in PHYS 1120 cannot receive credit in PHYS 1050, PHYS 1220 or PHYS 1320.

When Offered (Normally offered spring and summer semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: P HYS 1110.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

LIFE2022 - Animal Biology

Credits: 4

An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered spring semester)

Former Course Number [BIOL 2022]

Prerequisite: LIFE 1010 with a grade of C or better.

OR

MICR2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.

Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

OR

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

LIFE3050 - Genetics

Credits: 4

Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

Two Additional CHEM Courses:

*MOLB 3610 may be used as a CHEM elective, but cannot also count as a PHSO Core Elective.

*CHEM 3550 may be used as a CHEM elective, but cannot also count as a PHSO Core Elective

CHEM2230 - Quantitative Analysis

Credits: 5

Broad, general coverage of analytical techniques, principles and calculations.

Lab/Lecture Hours Laboratory: 6 hours per week.

When Offered (Normally offered spring semester)

Prerequisite: CHEM 1030, CHEM 1060 or equivalent.

CHEM2300 - Introductory Organic Chemistry

Credits: 4

Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.

When Offered (Normally offered spring semester)

Prerequisite: CHEM 1020, CHEM 1050, CHEM 1000 or equivalent.

CHEM2420 - Organic Chemistry I

Credits: 4

First semester of a one-year sequence in organic chemistry. Approached from the viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week. No credit allowed in CHEM 2420 if credit earned in CHEM 2300.

When Offered (Normally offered fall)

Prerequisite: CHEM 1030 or CHEM 1060.

CHEM2440 - Organic Chemistry II

Credits: 4

Second semester of a one-year sequence in organic chemistry. Approached from viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week.

When Offered (Normally offered spring semester)

A&S College Core 2015 Note: CHEM 2300 is not an acceptable prerequisite for CHEM 2440.

Prerequisite: CHEM 1030 or CHEM 1060 and CHEM 2420.

CHEM3020 - Environmental Chemistry

Credits: 3

Environment and modern environmental problems in terms of chemical structures and reactions. Chemical principles of equilibrium, kinetics, and thermodynamics are used to help understand our changing environment. Topics include toxicological chemistry, aquatic chemistry, atmospheric chemistry, and green chemistry.

Prerequisite: CHEM 2300 or CHEM 2420; CHEM 2230; and QA course.

CHEM3550 - Physical Chemistry for the Life Sciences

Credits: 3

Deals with areas of physical chemistry of interest to students majoring in the life sciences. Covers thermodynamics, kinetics, equilibrium and spectroscopy, using biological systems for development and illustration. Credit is allowed for only one of the courses: CHEM 3550 or CHEM 4507.

When Offered (Normally offered every other year)

Prerequisite: CHEM 1030, MATH 2200.

CHEM4050 - Solar Energy Conversion

Credits: 3

Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

Cross Listed ERS 4050.

When Offered (Offered spring semester)

Prerequisite: CHEM 1030 or CHEM 1060 and PHYS 1210 or PHYS 1310 and MATH 2200.

CHEM4230 - Instrumental Methods of Chemical Analysis

Credits: 5

Introduces optical, electroanalytical and separation methods of analysis, emphasizing practical industrial applications.

When Offered (Normally offered fall semester)

Prerequisite: CHEM 2230.

CHEM4400 - Biological Chemistry

Credits: 3

Covers the main principles of biological chemistry from a chemical standpoint. Highlights the chemical structure of biological molecules and examines biological processes with emphasis on the underlying organic chemistry. Introduces biological NMR spectroscopy and other biophysical methods. Discusses main metabolic pathways.

Dual Listed CHEM 5400.

Prerequisite: CHEM 2440 or consent of instructor

MOLB3610 - Principles of Biochemistry

Credits: 4

One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

Physiology Core Required Courses

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data.

Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

ZOO4125 - Integrative Physiology

Credits: 5

Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

Prerequisite: grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

ZOO4100 - Scientific Communication

Credits: 2

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4100.

USP 2003-2014 Code U3L,U3WC

USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

ZOO4101 - Scientific Communication Lab

Credits: 1

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4101.

USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

Physiology Core Electives

A minimum of 10 of the 18 Physiology Core Elective credits must be exclusive to the PHSO major.

At the end of this program students will have a thorough knowledge of physiology, will be well prepared to enter health sciences or graduate education, and will have a range of skills attractive to employers.

Choose a Total of 18 Credits From:

**cannot count towards PHSO electives if used as a CHEM requirement in the Foundational Courses

ANSC4120 - Principles of Mammalian Reproduction

Credits: 4

Overview of the anatomy, physiology, endocrinology and biochemistry of reproductive processes in male and female mammals. Includes lecture and laboratory components.

Dual Listed ANSC 5120.

When Offered (Normally offered fall semester)

Prerequisite: ANSC 3010 OR ZOO 3115

ANSC4260 - Mammalian Endocrinology

Credits: 3

Introduces principles of endocrinology, role of endocrine systems in regulating metabolism, growth, reproduction and lactation in mammals.

Dual Listed ANSC 5260.

When Offered (Normally offered fall semester)

Prerequisite: ANSC 3010, ZOO 3115, or equivalent.

ANTH4210 - Human Osteology

Credits: 3

Provides a detailed study of the human skeleton.

Dual Listed ANTH 5210.

When Offered (Normally offered spring semester)

Prerequisite: ANTH 1100, LIFE 2022.

ANTH4230 - Forensic Anthropology

Credits: 3

Introduces methods and purposes of physical anthropology as applied in human identification for law enforcement agencies.

Cross Listed CRMJ 4230.

When Offered (Normally offered fall semester of odd-numbered years)

Prerequisite: ANTH 1100.

KIN3021 - Physiology of Exercise

Credits: 3

Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular, circulatory, and

respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

Former Course Number [PEPR 3021]

Prerequisite: 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

KIN3038 - Exercise Psychology

Credits: 3

Studies psychological theories for understanding and predicting health-oriented exercise behavior, including psychological intentions for increasing exercise participation and adherence. Emphasizes psychological and psychobiological responses to exercise.

Prerequisite: grade of C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; 2.750 GPA.

KIN3042 - Biomechanics of Human Movement

Credits: 3

Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

KIN4042 - Advanced Biomechanics

Credits: 3

Provides understanding of biomechanical theories and the application of biomechanical measurements to human movement in sports, training, and rehabilitation. Emphasis on using equipment to collect biomechanical data to answer research and clinical questions. Lecture and data collection topics include electromyography, force, balance, kinematics, and kinetics.

Prerequisite: C or better in KIN 3042, minimum 2.750 GPA.

LIFE3600 - Cell Biology

Credits: 4

Focuses on cell structure, cell function and the regulation of cell processes. Examines many levels of organization, ranging from single molecules and individual cells to multi-cellular systems and the whole organism. Discussion section is required.

Former Course Number [BIOL 3600/ BIOL 4600]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

MICR4001 - Epidemiology (Diseases in Population)

Credits: 3

Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed PATB 4001.

Dual Listed MICR 5001.

Prerequisite: STAT 2050.

MOLB3610 - Principles of Biochemistry

Credits: 4

One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

MOLB4670 - Advanced Molecular Cell Biology

Credits: 3

Key concepts in eukaryotic cell biology will be presented with a focus on cellular processes that form the basis for human diseases. Cellular organization, dynamics, and signaling will be emphasized. Students will also explore principles of research design by critical reading and discussion of scientific literature.

Dual Listed MOLB 5670

When Offered Fall

Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600

MOLB4100 - Clinical Biochemistry

Credits: 4

Integrated discussion of biochemical, molecular, and physiological principles underlying human medical disorders and biochemical and molecular genetics tests used in prevention, diagnosis and treatment. Weekly discussion sessions review basic concepts studied by students independently and class sessions include problem solving in an active learning format, lectures and other applied activities.

When Offered Spring

Former Course Number [3980]

Prerequisite: Minimum grade of C in MOLB 3610 or MOLB 4600; course in physiology recommended (e.g. ZOO 3115).

MOLB4400 - Immunology

Credits: 4

Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed PATB 4400.

Dual Listed MOLB 5400.

When Offered Fall

Prerequisite: MOLB 2021 or MICR 2021 or MOLB 2240 or PATB 2220, and a minimum grade of C in MOLB 3000 or MOLB 3610.

NEUR4295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (*Xenopus* tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and *Drosophila*).

Cross Listed ZOO 4295.

Dual Listed NEUR 5295.

Prerequisite: ZOO 4280.

NEUR5100 - Structure and Function of the Nervous System

Credits: 4

Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed ZOO 5100.

Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

NEUR5295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (*Xenopus* tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and *Drosophila*).

Cross Listed ZOO 5295.

Dual Listed NEUR 4295.

NEUR5685 - Neurophysiology

Credits: 3

Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms will be covered in addition to the basic neurophysiology of nerve cells.

Cross Listed ZOO 5685.

Prerequisite: one course in physiology, chemistry, physics.

NEUR5887 - Molecular Neuropharmacology

Credits: 3

Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

Prerequisite: PharmD current standing and instructor's permission or NEUR 5280.

PATB4001 - Epidemiology (Diseases in Population)

Credits: 3

Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed MICR 4001

Dual Listed PATB 5001

Prerequisite: STAT 2050 or STAT 2070

PATB4130 - Mammalian Pathobiology

Credits: 3

Anatomical basis of disease in mammals. Emphasis on concepts of pathogenesis of disease, and the gross, microscopic and clinicopathological changes associated with lesions: cell injury and death; cellular degeneration; disturbances of growth and circulation; neoplasia; inflammation; and recognition of gross and microscopic tissue changes. Background in immunology will be beneficial.

Cross Listed MICR 4130

Dual Listed PATB 5130

When Offered (Normally offered spring semester)

USP 2015 Code U5C3

Prerequisite: C or better in LIFE 2022.

PATB4140 - Principles of Toxicology

Credits: 3

Toxicology is the study of poisons, their mechanisms of action and their effects on various organisms including man

and domestic animals. Designed to provide students in the life and environmental sciences with an understanding of the principles of toxicology as they apply to animal and human health, food safety and environmental studies.

Dual Listed PATB 5140

When Offered (Normally offered fall semester of even-numbered years)

Prerequisite: 9 hours of biological science (e.g., physiology), 4 hours chemistry, 3 hours biochemistry.

PATB4400 - Immunology

Credits: 4

Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed MOLB 4400

Dual Listed PATB 5400

When Offered (Normally offered spring semester)

Prerequisite: MOLB 2021/MICR 2021 or MOLB 2240/MICR 2240 or PATB 2220, and a minimum grade of C- in MOLB 3000 or MOLB 3610.

PATB4710 - Medical Virology

Credits: 3

Human and animal viruses as biological entities. Methods of study, classification, replication strategies, diagnostic approaches, epidemiology and significance as disease agents.

Cross Listed MICR 4710

Dual Listed PATB 5710

When Offered (Normally offered fall semester)

Prerequisite: MOLB 2240

PHCY3450 - Foundational Pathophysiology

Credits: 4

Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)

Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PSYC3250 - Health Psychology

Credits: 3

Provides overview of growing partnership between psychology and health care, including history of psychology in

health care; theoretical foundations of health and illness; intervention and research techniques; stress and high risk behaviors (e. g. , substance abuse, eating behaviors, AIDS); psychology's contribution to improving outcomes and quality of life in chronic and life-threatening behaviors.

Cross Listed NURS 3250.

Prerequisite: A grade of C or better in PSYC 1000.

PSYC4040 - Cognitive Neuroscience

Credits: 4

Examines the underlying neural bases of higher cognitive functions in humans, including attentions, language, motor control, navigation, emotions, and memory, as well as neuroanatomy fundamentals and neuroscience methods such as fMRI and ERP. Lecture and lab components.

Prerequisite: A grade of C or better in PSYC 2080 or PSYC 3120 or ZOO 4280.

PSYC4080 - Physiological Psychology

Credits: 4

Examines physiological mechanisms of behavior, strongly emphasizing neural and hormonal processes. Includes fundamentals of neuroanatomy and evolution of the nervous system, basic neurophysiology, sensory and motor processes, as well as the physiology of emotion, motivation, learning and memory. Lecture three hours per week. Laboratory two hours per week.

USP 2003-2014 Code U3SB

Prerequisite: A grade of C or better in 6 hours of psychology and LIFE 1000, LIFE 1003, or LIFE 1010 or an introductory zoology course.

PSYC4250 - Psychological Aspects of Chronic Illness

Credits: 3

Investigates the impact of chronic physical illnesses on diagnosed children and adults, their families, and society. Emphasizes effects of illnesses on psychological adaptation and quality of life. Should be of particular interest to helping professionals and health care workers.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 3250.

SOC3550 - Medical Sociology

Credits: 3

Considers sociological contributions to diagnosis and treatment of illness. Studies social organization of health professions and agencies.

Prerequisite: SOC 1000.

SOC4160 - Sociology of Aging

Credits: 3

The process of aging from the individual to the societal level is the focus of the course. Consequences of this process such as the increase in the number of elderly, retirement and health are examined from the major social institutions, the relationships between these institutions and American society as a whole.

Dual Listed SOC 5160.

Former Course Number [4150]

Prerequisite: 6 hours of sociology (including SOC 1000) and at least junior standing.

ZOO3010 - Vertebrate Anatomy, Embryology, and Histology

Credits: 4

Provides a comprehensive overview of vertebrate anatomy. The structural organization, embryological derivation, and histological organization of the major organ systems will be emphasized. The evolution and functional organization of anatomical structure will also be emphasized. Includes laboratory sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: LIFE 2022 or equivalent, and a semester of chemistry.

ZOO4110 - HIV/AIDS: The Disease and the Dilemma

Credits: 3

Explores the basic biology of the HIV virus, and its effects upon the human body, the magnitude of the global HIV/AIDS pandemic, treatment and prevention of AIDS, and the social, political, economic, and legal issues of HIV/AIDS.

Prerequisite: LIFE 1003 or LIFE 1010.

ZOO4280 - Introduction to Neuroscience

Credits: 3

Examines the basic electrical properties of neurons and from there identifies determinants of brain development, how neuronal "circuits" are formed and how these neuronal systems enable the processing of sensory information, coordinated movement, adaptation to the environment, and other complex functions (e. g. , sleep, sex).

Dual Listed ZOO 5280.

Prerequisite: ZOO 3115 or equivalent.

ZOO4340 - Developmental Biology and Embryology

Credits: 4

Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

Dual Listed ZOO 5340.

When Offered (Normally offered spring semester)

Prerequisite: one year of life sciences, one year of chemistry.

- ZOO 4670

ZOO4735 - Advanced Topics in Physiology

Credits: 1-4

Max Credit (Max. 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e. g. circadian rhythms, thermal stress) may also be included.

Dual Listed ZOO 5735.

Former Course Number [5730]

Prerequisite: ZOO 3115 or equivalent as approved by the instructor.

ZOO5100 - Structure and Function of the Nervous System

Credits: 4

Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed NEUR 5100.

Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

ZOO5685 - Neurophysiology

Credits: 3

Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms are covered in addition to the basic neurophysiology of nerve cells. The laboratory complements the lecture sequence.

Cross Listed NEUR 5685.

Prerequisite: one course in physiology, chemistry, physics.

SPPA3265 - Anatomy and Physiology of Speech, Swallowing and Hearing

Credits: 4

Introduces the student to the anatomy of the normal speech and hearing systems as well as the physiologic underpinnings of the speech (respiration, phonation, articulation), swallowing, and hearing (external, middle, and inner ear) systems. Theories of speech production and speech perception are presented.

Former Course Number [3400]

Prerequisite: KIN 2040 or consent of instructor.

CHEM3550 - Physical Chemistry for the Life Sciences

Credits: 3

Deals with areas of physical chemistry of interest to students majoring in the life sciences. Covers thermodynamics, kinetics, equilibrium and spectroscopy, using biological systems for development and illustration. Credit is allowed for only one of the courses: CHEM 3550 or CHEM 4507.

When Offered (Normally offered every other year)

Prerequisite: CHEM 1030, MATH 2200.

Wildlife and Fisheries Biology and Management, B.S.

Provides a solid foundation in the theory and techniques involved in the management, conservation, and captive propagation of wildlife and fish populations. Includes both classroom and field experiences in a Rocky Mountain setting.

Additional Information

Wildlife and Fisheries Biology and Management is a professional degree designed to prepare students for state, federal, and other positions in resource management and conservation biology. The degree provides students with knowledge of the natural world, understanding of processes governing dynamics of wildlife and fish populations, as well as an appreciation of human-mediated effects on wildlife and fish populations. A student graduating with this degree will be familiar with the theory of resource management as well as with methods used to determine population status, habitat quality, and conservation. In Wyoming the abundance of wild animals and pristine habitats provide a unique natural laboratory for studying the responses of wildlife and fish populations to changing climates and habitats.

A student graduating with a degree in WFBM will have comprehensive knowledge of wildlife and fisheries biology and management, will have earned a degree that is compatible with the requirements for professional certification with the American Fisheries Society or the Wildlife Society, and will have a range of knowledge and skills that are valuable to potential employers.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on

developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

A&S College Core

D- - Diversity

Credits: 3

A&S Course: Diversity in the United States

G- - Global Awareness

Credits: 3

A&S Core: Global Awareness Course

Foundation Courses

(MATH 1450 may substitute for MATH 1400 and MATH 1405)

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MATH1405 - Trigonometry

Credits: 3

Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

LIFE2100 - Intro Research and Analysis

Credits: 4

Students gather and analyze data in the context of life science research projects. provides a foundation in research design, probability and inference, and basic computational skills to support graphical and formal analyses of research data.

USP 2015 Code U5Q

Prerequisite: LIFE 1010 with a grade of C or better.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1030 - General Chemistry II

Credits: 4

Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: CHEM 1020.

GEOL1100 - Physical Geology

Credits: 4

Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

OR

PHYS1110 - General Physics I

Credits: 4

First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, pre dental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied. Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1450, 1405 or equivalent.

OR

SOIL2010 - Introduction to Soil Science

Credits: 4

Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE

Prerequisite: CHEM 1000 or CHEM 1020.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

LIFE2022 - Animal Biology

Credits: 4

An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered spring semester)

Former Course Number [BIOL 2022]

Prerequisite: LIFE 1010 with a grade of C or better.

Data Science course

Choose ONE course from the following:

COSC1010 - Introduction to Computer Science I

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

COSC1015 - Introduction to Programming for Data Science

Credits: 3

Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q

A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

Prerequisite: grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

COSC1100 - Computer Science Principles and Practice

Credits: 3

Introduces use of computers for algorithmic problem solving. Studies scope, major contributions, tools and current status of computer science. Presentation of computer science principles; use of software packages and evaluation of their effectiveness; and elementary programming.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: C or better in MATH 1400 or in any University Studies QB or Level 4 or higher on Mathematics Placement Exam.

COSC1200 - Computer Information Systems

Credits: 3

Introduces computers and information processing, computer systems and hardware, computer software, information processing systems, information systems and information resource management. Uses word processing, data base language and electronic spreadsheet program in hands-on exercises.

Prerequisite: passing of Mathematics Placement Examination at Level 2 or equivalent.

GIST1200 - Geospatial Foundations

Credits: 3

Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

Former Course Number GIST 1100

GIST2140 - Survey of Remote Sensing Applications

Credits: 3

This course introduces remote sensing by surveying applications across disciplines. It includes a brief overview of fundamentals followed by exploration of types of remote sensing including aerial photography, multispectral and hyperspectral satellite remote sensing, active remote sensing, and thermal remote sensing. The course also introduces remote sensing applications for global change.

USP 2015 Code U5PN

Former Course Number GIST 2160

Prerequisite: USP Q; sophomore or junior class standing.

GIST2190 - Intro to Programming

Credits: 3

Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

Former Course Number GIST 2150

GIST2200 - Spatial Data Visualization

Credits: 3

Covers fundamental principles, concepts, and applications of spatial data visualization. Students will learn to find, understand, and act on spatial patterns, associations and trends, and to use and critique powerful graphical representations of spatial data including 3D maps, web maps, interactive graphics, and animations.

GIST2310 - Intro to Geographic Information Systems

Credits: 4

Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number GIST 2100

GIST3140 - Introduction to Remote Sensing

Credits: 3

This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth's surface with an emphasis on vegetation, and the hands-on application or remote sensing principles using digital image processing.

USP 2003-2014 Code Q

Former Course Number GIST 3111

GIST4211 - Advanced Remote Sensing

Credits: 3

On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

Dual Listed GIST 5211.

Former Course Number [BOT 4211; GEOG 4211]

Prerequisite: GIST 3111 or GIST 4130.

Core Required Courses

LIFE3050 - Genetics

Credits: 4

Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3400 - General Ecology

Credits: 3

Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3410 - Introduction to Field Ecology

Credits: 2

Field and laboratory course. Introduces methods used in plant and animal ecology.

When Offered (Normally offered fall semester)

Former Course Number [BIOL 3410/BIOL 2410]

Prerequisite: LIFE 3400 (may be concurrently enrolled).

ZOO2450 - Fish and Wildlife Management in the Anthropocene

Credits: 4

Course examines fundamental principles in management of natural resources, especially fish and wildlife populations. Students explore historical to contemporary context of management, population biology, management tools and their application, career opportunities, with specific emphasis on human dimensions, law, and policy. Students will develop oral and written communication skills.

Cross Listed Crosslisted with ENR 2450.

USP 2015 Code U5C2

Prerequisite: LIFE 1010, LIFE 2022, and COM1.

ZOO4190 - Comparative Environmental Physiology

Credits: 4

Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.

When Offered (Offered spring semester)

Former Course Number [4230]

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

ZOO4400 - Population Ecology

Credits: 3

Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.

Dual Listed ZOO 5400.

When Offered (Offered spring semester)

Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

ZOO4970 - Internship in Wildlife Management

Credits: 1

Max Credit (Max. 1)

Provides practical field experience in resource management for undergraduate credit.

Prerequisite: consent of instructor.

ZOO4100 - Scientific Communication

Credits: 2

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4100.

USP 2003-2014 Code U3L,U3WC

USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

ZOO4101 - Scientific Communication Lab

Credits: 1

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4101.

USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

Options

Complete Terrestrial OR Aquatic Option

Aquatic Option

A minimum of 10 of the AQUATIC OPTION requirements listed below (ZOO 4330 and ZOO 4440 and ZOO 4430 and Restricted Electives) must be exclusive to the WFBM major.

REQUIRED COURSES

ZOO4330 - Ichthyology

Credits: 3

Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.

When Offered (Normally offered spring semester)

Former Course Number [4750]

Prerequisite: LIFE 2022.

ZOO4440 - Limnology

Credits: 3

Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)

Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

ZOO4430 - Limnology Laboratory

Credits: 2

Utilizes basic field techniques in limnology. Emphasizes analysis and interpretation of data obtained from field and laboratory exercises.

When Offered (Offered fall semester)

Prerequisite: concurrent enrollment in ZOO 4440.

Restricted Electives

15 Credits of Electives from the following list:

ZOO3600 - Principles of Animal Behavior

Credits: 3

Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)

Prerequisite: introductory course in zoology, biology or psychology.

ZOO4235 - Marine Biology

Credits: 3

This course explore major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed BOT 4235.

Dual Listed ZOO 5235.

Prerequisite: LIFE 3400 with a grade of C or better.

ZOO4300 - Wildlife Ecology and Management

Credits: 5

Integrates concepts of vertebrate ecology with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e. g. , viability analysis, monitoring, habitat assessment), and ecosystem management approaches. Laboratory included.

Dual Listed ZOO 5300.

When Offered (Offered fall semester)

Former Course Number [4720]

Prerequisite: LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.

ZOO4310 - Fisheries Management

Credits: 3

Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and production, rates of mortality and recruitment and use of yield models in fisheries biology. Includes laboratory and field exercises.

Dual Listed ZOO 5310.

When Offered (Normally offered fall semester)

Former Course Number [4730]

Prerequisite: ZOO 4330.

ZOO4350 - Ornithology

Credits: 3

Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.

When Offered (Offered spring semester)

Former Course Number [4780]

Prerequisite: LIFE 2022.

ZOO4370 - Mammalogy

Credits: 3

Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 5370.

When Offered (Offered fall semester)

Former Course Number [4790]

Prerequisite: LIFE 2022.

ZOO4380 - Herpetology

Credits: 3

Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.

Prerequisite: LIFE 2022.

ZOO4415 - Behavioral Ecology

Credits: 3

Applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently puzzling behaviors?).

Dual Listed ZOO 5415.

When Offered (Offered fall semester)

Prerequisite: ZOO 3600 or LIFE 3400 or permission of the instructor.

ZOO4420 - Conservation Biology

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ENR 4420.

Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ZOO4540 - Invertebrate Zoology

Credits: 4

Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.

When Offered (Offered fall semester)

Prerequisite: LIFE 2022.

CHEM2230 - Quantitative Analysis

Credits: 5

Broad, general coverage of analytical techniques, principles and calculations.

Lab/Lecture Hours Laboratory: 6 hours per week.

When Offered (Normally offered spring semester)

Prerequisite: CHEM 1030, CHEM 1060 or equivalent.

SOC3950 - Environmental Sociology

Credits: 3

Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed ENR 3950.

Prerequisite: SOC 1000.

AGEC3750 - Natural Resource Planning and Economics

Credits: 3

Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed ENR 3750.

Former Course Number [4750]

Prerequisite: QA/Q, WA/COM1 and junior standing.

LIFE2023 - Biology of Plants and Fungi

Credits: 4

An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).

Former Course Number [BIOL 2023]

Prerequisite: LIFE 1010 with a grade of C or better.

- BOT 0000:5999
- ENR 0000:5999
- REWM 0000:5999

Terrestrial Option

A minimum of 10 of the TERRESTRIAL OPTION requirements listed below (BOT 4700 and ZOO 4300 and Restricted Electives) must be exclusive to the WFBM major.

REQUIRED COURSES

BOT4700 - Vegetation Ecology

Credits: 4

Reviews the ecology of major vegetation types, emphasizing patterns of vegetation distribution, vegetation-environment relationships, succession, the effect of fire and management decisions, and methods of vegetation analysis.

Dual Listed BOT 5700.

When Offered (Normally offered fall semester)

Prerequisite: LIFE 3400.

ZOO4300 - Wildlife Ecology and Management

Credits: 5

Integrates concepts of vertebrate ecology with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e. g. , viability analysis, monitoring, habitat assessment), and ecosystem management approaches. Laboratory included.

Dual Listed ZOO 5300.

When Offered (Offered fall semester)

Former Course Number [4720]

Prerequisite: LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.

Restricted Electives

14 Credits of Electives from the following list:

ZOO3600 - Principles of Animal Behavior

Credits: 3

Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)

Prerequisite: introductory course in zoology, biology or psychology.

ZOO4235 - Marine Biology

Credits: 3

This course explore major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed BOT 4235.

Dual Listed ZOO 5235.

Prerequisite: LIFE 3400 with a grade of C or better.

ZOO4310 - Fisheries Management

Credits: 3

Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and production, rates of mortality and recruitment and use of yield models in fisheries biology. Includes laboratory and field exercises.

Dual Listed ZOO 5310.

When Offered (Normally offered fall semester)

Former Course Number [4730]

Prerequisite: ZOO 4330.

ZOO4330 - Ichthyology

Credits: 3

Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.

When Offered (Normally offered spring semester)

Former Course Number [4750]

Prerequisite: LIFE 2022.

ZOO4350 - Ornithology

Credits: 3

Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.

When Offered (Offered spring semester)

Former Course Number [4780]

Prerequisite: LIFE 2022.

ZOO4370 - Mammalogy

Credits: 3

Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 5370.

When Offered (Offered fall semester)

Former Course Number [4790]

Prerequisite: LIFE 2022.

ZOO4380 - Herpetology

Credits: 3

Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.

Prerequisite: LIFE 2022.

ZOO4415 - Behavioral Ecology

Credits: 3

Applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently puzzling behaviors?).

Dual Listed ZOO 5415.

When Offered (Offered fall semester)

Prerequisite: ZOO 3600 or LIFE 3400 or permission of the instructor.

ZOO4420 - Conservation Biology

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ENR 4420.

Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ZOO4430 - Limnology Laboratory

Credits: 2

Utilizes basic field techniques in limnology. Emphasizes analysis and interpretation of data obtained from field and laboratory exercises.

When Offered (Offered fall semester)

Prerequisite: concurrent enrollment in ZOO 4440.

ZOO4440 - Limnology

Credits: 3

Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)

Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

ZOO4540 - Invertebrate Zoology

Credits: 4

Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.

When Offered (Offered fall semester)

Prerequisite: LIFE 2022.

SOC3950 - Environmental Sociology

Credits: 3

Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed ENR 3950.

Prerequisite: SOC 1000.

CHEM2230 - Quantitative Analysis

Credits: 5

Broad, general coverage of analytical techniques, principles and calculations.

Lab/Lecture Hours Laboratory: 6 hours per week.

When Offered (Normally offered spring semester)
Prerequisite: CHEM 1030, CHEM 1060 or equivalent.

AGEC3750 - Natural Resource Planning and Economics

Credits: 3

Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed ENR 3750.
Former Course Number [4750]

Prerequisite: QA/Q, WA/COM1 and junior standing.

LIFE2023 - Biology of Plants and Fungi

Credits: 4

An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).
Former Course Number [BIOL 2023]

Prerequisite: LIFE 1010 with a grade of C or better.

- BOT 0000:5999
- ENR 0000:5999
- REWM 0000:5999

Zoology, B.S.

Zoology majors explore form, function, behavior, ecology, evolution and conservation of animals and hone analytical, writing, and research skills for diverse careers from graduate school to state and federal agencies, consulting, and nonprofits.

Additional Information

Zoology is the study of animals: their structure, physiology, development and evolution. One of the enduring fascinations of zoology is that we can learn so much about ourselves and our environment by studying what our fellow creatures do.

At the end of this program students will have a comprehensive knowledge of zoology, will be well prepared for graduate education, and will be equipped to enter any of the many employment opportunities that are available.

University Studies Program

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

A&S College Core

D- - Diversity

Credits: 3
A&S Course: Diversity in the United States

G- - Global Awareness

Credits: 3
A&S Core: Global Awareness Course

Foundation Courses

(MATH 1450 may substitute for MATH 1400 and MATH 1405)

MATH1400 - College Algebra

Credits: 3
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MATH1405 - Trigonometry

Credits: 3

Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

LIFE2100 - Intro Research and Analysis

Credits: 4

Students gather and analyze data in the context of life science research projects. provides a foundation in research design, probability and inference, and basic computational skills to support graphical and formal analyses of research data.

USP 2015 Code U5Q

Prerequisite: LIFE 1010 with a grade of C or better.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1030 - General Chemistry II

Credits: 4

Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: CHEM 1020.

CHEM2230 - Quantitative Analysis

Credits: 5

Broad, general coverage of analytical techniques, principles and calculations.

Lab/Lecture Hours Laboratory: 6 hours per week.

When Offered (Normally offered spring semester)
Prerequisite: CHEM 1030, CHEM 1060 or equivalent.
OR

CHEM2300 - Introductory Organic Chemistry

Credits: 4
Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.

When Offered (Normally offered spring semester)
Prerequisite: CHEM 1020, CHEM 1050, CHEM 1000 or equivalent.
OR

CHEM2420 - Organic Chemistry I

Credits: 4
First semester of a one-year sequence in organic chemistry. Approached from the viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week. No credit allowed in CHEM 2420 if credit earned in CHEM 2300.
When Offered (Normally offered fall)
Prerequisite: CHEM 1030 or CHEM 1060.
OR

CHEM2440 - Organic Chemistry II

Credits: 4
Second semester of a one-year sequence in organic chemistry. Approached from viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week.
When Offered (Normally offered spring semester)
A&S College Core 2015 Note: CHEM 2300 is not an acceptable prerequisite for CHEM 2440.
Prerequisite: CHEM 1030 or CHEM 1060 and CHEM 2420.
OR

CHEM3020 - Environmental Chemistry

Credits: 3
Environment and modern environmental problems in terms of chemical structures and reactions. Chemical principles of equilibrium, kinetics, and thermodynamics are used to help understand our changing environment. Topics include toxicological chemistry, aquatic chemistry, atmospheric chemistry, and green chemistry.

Prerequisite: CHEM 2300 or CHEM 2420; CHEM 2230; and QA course.
OR

CHEM3550 - Physical Chemistry for the Life Sciences

Credits: 3

Deals with areas of physical chemistry of interest to students majoring in the life sciences. Covers thermodynamics, kinetics, equilibrium and spectroscopy, using biological systems for development and illustration. Credit is allowed for only one of the courses: CHEM 3550 or CHEM 4507.

When Offered (Normally offered every other year)

Prerequisite: CHEM 1030, MATH 2200.

OR

CHEM4050 - Solar Energy Conversion

Credits: 3

Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

Cross Listed ERS 4050.

When Offered (Offered spring semester)

Prerequisite: CHEM 1030 or CHEM 1060 and PHYS 1210 or PHYS 1310 and MATH 2200.

OR

CHEM4230 - Instrumental Methods of Chemical Analysis

Credits: 5

Introduces optical, electroanalytical and separation methods of analysis, emphasizing practical industrial applications.

When Offered (Normally offered fall semester)

Prerequisite: CHEM 2230.

OR

CHEM4400 - Biological Chemistry

Credits: 3

Covers the main principles of biological chemistry from a chemical standpoint. Highlights the chemical structure of biological molecules and examines biological processes with emphasis on the underlying organic chemistry. Introduces biological NMR spectroscopy and other biophysical methods. Discusses main metabolic pathways.

Dual Listed CHEM 5400.

Prerequisite: CHEM 2440 or consent of instructor

PHYS1110 - General Physics I

Credits: 4

First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, pre dental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied.

Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1450, 1405 or equivalent.

PHYS1120 - General Physics II

Credits: 4

Follows PHYS 1110 and completes introduction to physics without calculus. Includes electricity, magnetism, optics and modern physics. Laboratory sessions illustrate principles studied. Students receiving credit in PHYS 1120 cannot receive credit in PHYS 1050, PHYS 1220 or PHYS 1320.

When Offered (Normally offered spring and summer semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: P HYS 1110.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

LIFE2022 - Animal Biology

Credits: 4

An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered spring semester)

Former Course Number [BIOL 2022]

Prerequisite: LIFE 1010 with a grade of C or better.

LIFE3050 - Genetics

Credits: 4

Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3400 - General Ecology

Credits: 3

Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3500 - Evolutionary Biology

Credits: 3

Presents modern evolutionary theory. Examines evolution and evolutionary mechanisms from several viewpoints, with particular attention given to genetic mechanisms underlying processes of evolution and speciation.

When Offered (Normally offered fall semester)

Former Course Number [BIOL 3500]

Prerequisite: completion of LIFE 1010 and LIFE 3050 with a grade of C or higher in each.

ZOO4100 - Scientific Communication

Credits: 2

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4100.

USP 2003-2014 Code U3L,U3WC

USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

ZOO4101 - Scientific Communication Lab

Credits: 1

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4101.

USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

Advanced Zoology Course

* if more than one of the required courses is completed, additional courses can count towards the Zoology Approved Core Electives below.

One of:

ZOO4330 - Ichthyology

Credits: 3

Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.

When Offered (Normally offered spring semester)

Former Course Number [4750]

Prerequisite: LIFE 2022.

ZOO4350 - Ornithology

Credits: 3

Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.

When Offered (Offered spring semester)

Former Course Number [4780]

Prerequisite: LIFE 2022.

ZOO4370 - Mammalogy

Credits: 3

Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 5370.

When Offered (Offered fall semester)

Former Course Number [4790]

Prerequisite: LIFE 2022.

ZOO4380 - Herpetology

Credits: 3

Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.

Prerequisite: LIFE 2022.

ZOO4540 - Invertebrate Zoology

Credits: 4

Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.

When Offered (Offered fall semester)

Prerequisite: LIFE 2022.

Zoology Approved Core Electives

A minimum of 10 of 18 Zoology Approved Core Electives must be exclusive to the ZOOL major.

Choose a total of 18 credits from:

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

ZOO3600 - Principles of Animal Behavior

Credits: 3

Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)

Prerequisite: introductory course in zoology, biology or psychology.

ZOO4190 - Comparative Environmental Physiology

Credits: 4

Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.

When Offered (Offered spring semester)

Former Course Number [4230]

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

ZOO4235 - Marine Biology

Credits: 3

This course explore major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed BOT 4235.

Dual Listed ZOO 5235.

Prerequisite: LIFE 3400 with a grade of C or better.

ZOO4300 - Wildlife Ecology and Management

Credits: 5

Integrates concepts of vertebrate ecology with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e. g. , viability analysis, monitoring, habitat assessment), and ecosystem management approaches. Laboratory included.

Dual Listed ZOO 5300.

When Offered (Offered fall semester)

Former Course Number [4720]

Prerequisite: LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.

ZOO4310 - Fisheries Management

Credits: 3

Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and production, rates of mortality and recruitment and use of yield models in fisheries biology. Includes laboratory and field exercises.

Dual Listed ZOO 5310.

When Offered (Normally offered fall semester)

Former Course Number [4730]

Prerequisite: ZOO 4330.

ZOO4330 - Ichthyology

Credits: 3

Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.

When Offered (Normally offered spring semester)

Former Course Number [4750]

Prerequisite: LIFE 2022.

ZOO4340 - Developmental Biology and Embryology

Credits: 4

Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

Dual Listed ZOO 5340.

When Offered (Normally offered spring semester)

Prerequisite: one year of life sciences, one year of chemistry.

ZOO4350 - Ornithology

Credits: 3

Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.

When Offered (Offered spring semester)

Former Course Number [4780]

Prerequisite: LIFE 2022.

ZOO4370 - Mammalogy

Credits: 3

Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 5370.

When Offered (Offered fall semester)

Former Course Number [4790]

Prerequisite: LIFE 2022.

ZOO4380 - Herpetology

Credits: 3

Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.

Prerequisite: LIFE 2022.

ZOO4540 - Invertebrate Zoology

Credits: 4

Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.

When Offered (Offered fall semester)

Prerequisite: LIFE 2022.

ZOO4400 - Population Ecology

Credits: 3

Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.

Dual Listed ZOO 5400.

When Offered (Offered spring semester)

Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

ZOO4415 - Behavioral Ecology

Credits: 3

Applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently puzzling behaviors?).

Dual Listed ZOO 5415.

When Offered (Offered fall semester)

Prerequisite: ZOO 3600 or LIFE 3400 or permission of the instructor.

ZOO4420 - Conservation Biology

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ENR 4420.

Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ZOO4430 - Limnology Laboratory

Credits: 2

Utilizes basic field techniques in limnology. Emphasizes analysis and interpretation of data obtained from field and laboratory exercises.

When Offered (Offered fall semester)

Prerequisite: concurrent enrollment in ZOO 4440.

ZOO4440 - Limnology

Credits: 3

Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)

Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

ZOO4735 - Advanced Topics in Physiology

Credits: 1-4

Max Credit (Max. 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e. g. circadian rhythms, thermal stress) may also be included.

Dual Listed ZOO 5735.

Former Course Number [5730]

Prerequisite: ZOO 3115 or equivalent as approved by the instructor.

ANSC3010 - Comparative Anatomy and Physiology of Domestic Animals

Credits: 4

Teaches comparative anatomy and physiology of digestion, circulation, production, reproduction and environment of farm animals.

When Offered (Normally offered spring semester)

Prerequisite: LIFE 1010 and LIFE 2022, or concurrent registration with LIFE 2022.

ANSC3100 - Principles of Animal Nutrition

Credits: 3

Description of the nutrients, nutrient digestion and absorption, and nutrient function within the body of various domesticated animals.

When Offered (Normally offered spring semester)

Prerequisite: CHEM 2300 or ANSC 2010.

ANSC3150 - Equine Nutrition and Physiology

Credits: 3

Provides general knowledge of nutrition, physiology and biochemistry of exercise and reproductive processes of equine.

When Offered (Normally offered fall semester)

Prerequisite: 4 hours of biology.

MOLB3000 - Introduction to Molecular Biology

Credits: 3

An introduction to molecular biological processes governing cellular events is presented in the context of the structure of genomes, genes and chromosomes, DNA replication, gene expression, signal transduction pathways and the regulation of cellular processes in disease and development. Experimental methods and technologies will also be discussed.

Prerequisite: LIFE 1010 and CHEM 1030; MOLB 2021 or MICR 2021 recommended.

BOT4235 - Marine Biology

Credits: 3

This course explores major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed ZOO 4235.

Dual Listed BOT 5235.

Prerequisite: LIFE 3400 with a grade of C or better.

BOT4550 - Computational Biology

Credits: 4

Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

Dual Listed BOT 5550.

Prerequisite: MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

BOT4664 - Special Topics in Evolution

Credits: 1-4

Max Credit (Max. 6)

Advanced topics in evolutionary biology are engaged by studying primary research and topical synthesis in the current literature.

Dual Listed BOT 5664.

Prerequisite: LIFE 3500 or equivalent.

BOT4790 - Special Topics in Ecology

Credits: 1-3

Acquaints students with various topics not covered in regular courses. Emphasizes recent developments appearing in journal literature.

Dual Listed BOT 5790.

Former Course Number [4710]

Prerequisite: two courses in ecology.

- GEOG 3150

GEOG3480 - Environmental Change

Credits: 3

Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.

Cross Listed ESS 3480
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [G&R 3480]

Prerequisite: GEOG 1010 or any USP PN course; and USP COM1.

GIST3140 - Introduction to Remote Sensing

Credits: 3

This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth's surface with an emphasis on vegetation, and the hands-on application or remote sensing principles using digital image processing.

USP 2003-2014 Code Q
Former Course Number GIST 3111

ENTO4300 - Insect Ecology

Credits: 3

Examines concepts of insect ecology and their application to the management of agricultural and rangeland insect pests. Control of rangeland weeds using insects is also examined. Covers population dynamics, predator-prey and insect-plant interactions, biological control and integrated pest management.

Prerequisite: ENTO 1000 or LIFE 1003 or LIFE 1020 or consent of instructor.

ENTO4682 - Insect Anatomy and Physiology

Credits: 5

Studies structure and function of the insect body, particularly emphasizing the relationship between anatomical features and their cellular/biochemical functions.

Dual Listed ENTO 5682.
When Offered (Normally offered spring semester of even-numbered years)
Prerequisite: ENTO 1000.

ENTO4678 - Aquatic Entomology

Credits: 3

Emphasizes biology, ecology, distribution, and taxonomy of aquatic insects. Includes aquatic insects as indicators of pollution. Students must make and identify a collection of immature aquatic insects.

Dual Listed ENTO 5678.
When Offered (Normally offered fall semester of even-numbered years)
Prerequisite: ENTO 1000, ENTO 1001.

ENTO4684 - Classification of Insects

Credits: 4

Studies insect orders, families and taxonomic treatises. Requires collection of adult insects representing 100 families, or equivalent museum project, for completion of course requirements.

Dual Listed ENTO 5684.

When Offered (Normally offered fall semester of odd-numbered years)

Prerequisite: ENTO 1000.

PATB4170 - Diseases of Wildlife

Credits: 3

Introduction to wildlife diseases of the Rocky Mountain region and North America. Emphasis on infectious, parasitic, traumatic, toxic, and other disease agents with coverage of mechanisms of disease, epidemiology, and disease impacts on wildlife populations and species. Significant discussion of zoonotic diseases and diseases at the wildlife/domestic animal interface.

Dual Listed PATB 5170

When Offered (Offered spring semester of even numbered years)

A&S College Core 2015 12 hours of biological or zoological sciences.

Former Course Number [4120]

- PATB 4310
- PATB 4360

PATB4710 - Medical Virology

Credits: 3

Human and animal viruses as biological entities. Methods of study, classification, replication strategies, diagnostic approaches, epidemiology and significance as disease agents.

Cross Listed MICR 4710

Dual Listed PATB 5710

When Offered (Normally offered fall semester)

Prerequisite: MOLB 2240

Minor

Human and Animal Physiology Minor

Physiology is the science of how the body functions in health and disease. A minor in physiology provides additional background for students in a variety of majors.

Human and Animal Physiology minor - requirements

Requirements for the minor in human and animal physiology (AHPY) include a minimum of 18 credit hours. Courses counted towards one minor may not be counted towards another. A grade of C or better is required in all courses.

Required Courses

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

At Least One of These Three:

* if more than one of the three required courses is completed, additional courses can count towards Physiology Core elective courses requirement below.

ZOO4125 - Integrative Physiology

Credits: 5

Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

Prerequisite: grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

ZOO4190 - Comparative Environmental Physiology

Credits: 4

Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.

When Offered (Offered spring semester)

Former Course Number [4230]

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

PHCY3450 - Foundational Pathophysiology

Credits: 4

Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)

Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

Elective Courses

Physiology Core Electives. At least three courses from:

ANSC4120 - Principles of Mammalian Reproduction

Credits: 4

Overview of the anatomy, physiology, endocrinology and biochemistry of reproductive processes in male and female mammals. Includes lecture and laboratory components.

Dual Listed ANSC 5120.

When Offered (Normally offered fall semester)

Prerequisite: ANSC 3010 OR ZOO 3115

ANSC4260 - Mammalian Endocrinology

Credits: 3

Introduces principles of endocrinology, role of endocrine systems in regulating metabolism, growth, reproduction and lactation in mammals.

Dual Listed ANSC 5260.

When Offered (Normally offered fall semester)

Prerequisite: ANSC 3010, ZOO 3115, or equivalent.

ANTH4210 - Human Osteology

Credits: 3

Provides a detailed study of the human skeleton.

Dual Listed ANTH 5210.

When Offered (Normally offered spring semester)

Prerequisite: ANTH 1100, LIFE 2022.

ANTH4230 - Forensic Anthropology

Credits: 3

Introduces methods and purposes of physical anthropology as applied in human identification for law enforcement agencies.

Cross Listed CRMJ 4230.

When Offered (Normally offered fall semester of odd-numbered years)

Prerequisite: ANTH 1100.

KIN3021 - Physiology of Exercise

Credits: 3

Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

Former Course Number [PEPR 3021]

Prerequisite: 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

KIN3038 - Exercise Psychology

Credits: 3

Studies psychological theories for understanding and predicting health-oriented exercise behavior, including psychological intentions for increasing exercise participation and adherence. Emphasizes psychological and psychobiological responses to exercise.

Prerequisite: grade of C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; 2.750 GPA.

KIN3042 - Biomechanics of Human Movement

Credits: 3

Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

KIN4042 - Advanced Biomechanics

Credits: 3

Provides understanding of biomechanical theories and the application of biomechanical measurements to human movement in sports, training, and rehabilitation. Emphasis on using equipment to collect biomechanical data to answer

research and clinical questions. Lecture and data collection topics include electromyography, force, balance, kinematics, and kinetics.

Prerequisite: C or better in KIN 3042, minimum 2.750 GPA.

LIFE3600 - Cell Biology

Credits: 4

Focuses on cell structure, cell function and the regulation of cell processes. Examines many levels of organization, ranging from single molecules and individual cells to multi-cellular systems and the whole organism. Discussion section is required.

Former Course Number [BIOL 3600/ BIOL 4600]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

MOLB3610 - Principles of Biochemistry

Credits: 4

One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

MOLB4100 - Clinical Biochemistry

Credits: 4

Integrated discussion of biochemical, molecular, and physiological principles underlying human medical disorders and biochemical and molecular genetics tests used in prevention, diagnosis and treatment. Weekly discussion sessions review basic concepts studied by students independently and class sessions include problem solving in an active learning format, lectures and other applied activities.

When Offered Spring

Former Course Number [3980]

Prerequisite: Minimum grade of C in MOLB 3610 or MOLB 4600; course in physiology recommended (e.g. ZOO 3115).

MOLB4400 - Immunology

Credits: 4

Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed PATB 4400.

Dual Listed MOLB 5400.

When Offered Fall

Prerequisite: MOLB 2021 or MICR 2021 or MOLB 2240 or PATB 2220, and a minimum grade of C in MOLB 3000 or MOLB 3610.

MOLB4670 - Advanced Molecular Cell Biology

Credits: 3

Key concepts in eukaryotic cell biology will be presented with a focus on cellular processes that form the basis for human diseases. Cellular organization, dynamics, and signaling will be emphasized. Students will also explore principles of research design by critical reading and discussion of scientific literature.

Dual Listed MOLB 5670

When Offered Fall

Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600

NEUR4295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (*Xenopus* tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and *Drosophila*).

Cross Listed ZOO 4295.

Dual Listed NEUR 5295.

Prerequisite: ZOO 4280.

NEUR5100 - Structure and Function of the Nervous System

Credits: 4

Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed ZOO 5100.

Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

NEUR5295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (*Xenopus* tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and *Drosophila*).

Cross Listed ZOO 5295.

Dual Listed NEUR 4295.

NEUR5685 - Neurophysiology

Credits: 3

Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms will be covered in addition to the basic neurophysiology of nerve cells.

Cross Listed ZOO 5685.

Prerequisite: one course in physiology, chemistry, physics.

NEUR5887 - Molecular Neuropharmacology

Credits: 3

Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

Prerequisite: PharmD current standing and instructor's permission or NEUR 5280.

PATB4130 - Mammalian Pathobiology

Credits: 3

Anatomical basis of disease in mammals. Emphasis on concepts of pathogenesis of disease, and the gross, microscopic and clinicopathological changes associated with lesions: cell injury and death; cellular degeneration; disturbances of growth and circulation; neoplasia; inflammation; and recognition of gross and microscopic tissue changes. Background in immunology will be beneficial.

Cross Listed MICR 4130

Dual Listed PATB 5130

When Offered (Normally offered spring semester)

USP 2015 Code U5C3

Prerequisite: C or better in LIFE 2022.

PATB4140 - Principles of Toxicology

Credits: 3

Toxicology is the study of poisons, their mechanisms of action and their effects on various organisms including man and domestic animals. Designed to provide students in the life and environmental sciences with an understanding of the principles of toxicology as they apply to animal and human health, food safety and environmental studies.

Dual Listed PATB 5140

When Offered (Normally offered fall semester of even-numbered years)

Prerequisite: 9 hours of biological science (e.g., physiology), 4 hours chemistry, 3 hours biochemistry.

PATB4400 - Immunology

Credits: 4

Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed MOLB 4400

Dual Listed PATB 5400

When Offered (Normally offered spring semester)

Prerequisite: MOLB 2021/MICR 2021 or MOLB 2240/MICR 2240 or PATB 2220, and a minimum grade of C- in MOLB 3000 or MOLB 3610.

PATB4710 - Medical Virology

Credits: 3

Human and animal viruses as biological entities. Methods of study, classification, replication strategies, diagnostic approaches, epidemiology and significance as disease agents.

Cross Listed MICR 4710

Dual Listed PATB 5710

When Offered (Normally offered fall semester)

Prerequisite: MOLB 2240

PSYC3250 - Health Psychology

Credits: 3

Provides overview of growing partnership between psychology and health care, including history of psychology in health care; theoretical foundations of health and illness; intervention and research techniques; stress and high risk behaviors (e. g. , substance abuse, eating behaviors, AIDS); psychology's contribution to improving outcomes and quality of life in chronic and life-threatening behaviors.

Cross Listed NURS 3250.

Prerequisite: A grade of C or better in PSYC 1000.

PSYC4040 - Cognitive Neuroscience

Credits: 4

Examines the underlying neural bases of higher cognitive functions in humans, including attentions, language, motor control, navigation, emotions, and memory, as well as neuroanatomy fundamentals and neuroscience methods such as fMRI and ERP. Lecture and lab components.

Prerequisite: A grade of C or better in PSYC 2080 or PSYC 3120 or ZOO 4280.

PSYC4080 - Physiological Psychology

Credits: 4

Examines physiological mechanisms of behavior, strongly emphasizing neural and hormonal processes. Includes

fundamentals of neuroanatomy and evolution of the nervous system, basic neurophysiology, sensory and motor processes, as well as the physiology of emotion, motivation, learning and memory. Lecture three hours per week. Laboratory two hours per week.

USP 2003-2014 Code U3SB

Prerequisite: A grade of C or better in 6 hours of psychology and LIFE 1000, LIFE 1003, or LIFE 1010 or an introductory zoology course.

PSYC4250 - Psychological Aspects of Chronic Illness

Credits: 3

Investigates the impact of chronic physical illnesses on diagnosed children and adults, their families, and society. Emphasizes effects of illnesses on psychological adaptation and quality of life. Should be of particular interest to helping professionals and health care workers.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 3250.

SOC3550 - Medical Sociology

Credits: 3

Considers sociological contributions to diagnosis and treatment of illness. Studies social organization of health professions and agencies.

Prerequisite: SOC 1000.

SOC4160 - Sociology of Aging

Credits: 3

The process of aging from the individual to the societal level is the focus of the course. Consequences of this process such as the increase in the number of elderly, retirement and health are examined from the major social institutions, the relationships between these institutions and American society as a whole.

Dual Listed SOC 5160.

Former Course Number [4150]

Prerequisite: 6 hours of sociology (including SOC 1000) and at least junior standing.

ZOO3010 - Vertebrate Anatomy, Embryology, and Histology

Credits: 4

Provides a comprehensive overview of vertebrate anatomy. The structural organization, embryological derivation, and histological organization of the major organ systems will be emphasized. The evolution and functional organization of anatomical structure will also be emphasized. Includes laboratory sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: LIFE 2022 or equivalent, and a semester of chemistry.

OR

ZOO4110 - HIV/AIDS: The Disease and the Dilemma

Credits: 3

Explores the basic biology of the HIV virus, and its effects upon the human body, the magnitude of the global HIV/AIDS pandemic, treatment and prevention of AIDS, and the social, political, economic, and legal issues of HIV/AIDS.

Prerequisite: LIFE 1003 or LIFE 1010.

ZOO4280 - Introduction to Neuroscience

Credits: 3

Examines the basic electrical properties of neurons and from there identifies determinants of brain development, how neuronal "circuits" are formed and how these neuronal systems enable the processing of sensory information, coordinated movement, adaptation to the environment, and other complex functions (e. g. , sleep, sex).

Dual Listed ZOO 5280.

Prerequisite: ZOO 3115 or equivalent.

ZOO4340 - Developmental Biology and Embryology

Credits: 4

Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

Dual Listed ZOO 5340.

When Offered (Normally offered spring semester)

Prerequisite: one year of life sciences, one year of chemistry.

- ZOO 4670

ZOO4735 - Advanced Topics in Physiology

Credits: 1-4

Max Credit (Max. 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e. g. circadian rhythms, thermal stress) may also be included.

Dual Listed ZOO 5735.

Former Course Number [5730]

Prerequisite: ZOO 3115 or equivalent as approved by the instructor.

ZOO5100 - Structure and Function of the Nervous System

Credits: 4

Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed NEUR 5100.

Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

ZOO5685 - Neurophysiology

Credits: 3

Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms are covered in addition to the basic neurophysiology of nerve cells. The laboratory complements the lecture sequence.

Cross Listed NEUR 5685.

Prerequisite: one course in physiology, chemistry, physics.

SPPA3265 - Anatomy and Physiology of Speech, Swallowing and Hearing

Credits: 4

Introduces the student to the anatomy of the normal speech and hearing systems as well as the physiologic underpinnings of the speech (respiration, phonation, articulation), swallowing, and hearing (external, middle, and inner ear) systems. Theories of speech production and speech perception are presented.

Former Course Number [3400]

Prerequisite: KIN 2040 or consent of instructor.

CHEM3550 - Physical Chemistry for the Life Sciences

Credits: 3

Deals with areas of physical chemistry of interest to students majoring in the life sciences. Covers thermodynamics, kinetics, equilibrium and spectroscopy, using biological systems for development and illustration. Credit is allowed for only one of the courses: CHEM 3550 or CHEM 4507.

When Offered (Normally offered every other year)

Prerequisite: CHEM 1030, MATH 2200.

Neuroscience Minor

Neuroscience explores the nervous system structure and function. Electrical signaling of neurons provides the basis of our thoughts, perceptions, learning, movement, emotion, sleep-wakefulness, and behavior.

Additional Information

Minimum credit hours: 17. Courses counted towards one minor my NOT count towards a different minor. A grade of "C" or better is required in all coursework in the Neurosciences minor.

Required Courses

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

ZOO4280 - Introduction to Neuroscience

Credits: 3

Examines the basic electrical properties of neurons and from there identifies determinants of brain development, how neuronal "circuits" are formed and how these neuronal systems enable the processing of sensory information, coordinated movement, adaptation to the environment, and other complex functions (e. g. , sleep, sex).

Dual Listed ZOO 5280.

Prerequisite: ZOO 3115 or equivalent.

Elective Courses:

ZOO4125 - Integrative Physiology

Credits: 5

Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

Prerequisite: grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

ZOO4735 - Advanced Topics in Physiology

Credits: 1-4
Max Credit (Max. 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e. g. circadian rhythms, thermal stress) may also be included.

Dual Listed ZOO 5735.
Former Course Number [5730]

Prerequisite: ZOO 3115 or equivalent as approved by the instructor.
(ZOO 4735 sections must have a neurosciences aspect, consult your advisor for help selecting appropriate sections).

ZOO4340 - Developmental Biology and Embryology

Credits: 4
Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

Dual Listed ZOO 5340.
When Offered (Normally offered spring semester)
Prerequisite: one year of life sciences, one year of chemistry.

ZOO4295 - Neurodevelopment

Credits: 3
Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

Cross Listed NEUR 4295.
Dual Listed ZOO 5295.
Prerequisite: ZOO 4280.

ZOO5685 - Neurophysiology

Credits: 3
Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms are covered in addition to the basic neurophysiology of nerve cells. The laboratory complements the lecture sequence.

Cross Listed NEUR 5685.
Prerequisite: one course in physiology, chemistry, physics.

ZOO5100 - Structure and Function of the Nervous System

Credits: 4

Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed NEUR 5100.

Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

NEUR5887 - Molecular Neuropharmacology

Credits: 3

Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

Prerequisite: PharmD current standing and instructor's permission or NEUR 5280.

PSYC4040 - Cognitive Neuroscience

Credits: 4

Examines the underlying neural bases of higher cognitive functions in humans, including attentions, language, motor control, navigation, emotions, and memory, as well as neuroanatomy fundamentals and neuroscience methods such as fMRI and ERP. Lecture and lab components.

Prerequisite: A grade of C or better in PSYC 2080 or PSYC 3120 or ZOO 4280.

Wildlife Fisheries Biology Management Minor

Course include theory and techniques involved in the management, conservation, and captive propagation of wildlife and fish populations. Includes both classroom and field experiences in a Rocky Mountain setting.

Wildlife Fisheries Biology Management minor - requirements

Requirements for the minor in wildlife fisheries biology management (WFBM) include a minimum of 18 credit hours. Courses counted towards one minor may not be counted towards another. A grade of C or better is required in all courses.

Required Courses

9 or 11 credit hours required from the following:

LIFE3400 - General Ecology

Credits: 3

Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

ZOO2450 - Fish and Wildlife Management in the Anthropocene

Credits: 4

Course examines fundamental principles in management of natural resources, especially fish and wildlife populations. Students explore historical to contemporary context of management, population biology, management tools and their application, career opportunities, with specific emphasis on human dimensions, law, and policy. Students will develop oral and written communication skills.

Cross Listed Crosslisted with ENR 2450.

USP 2015 Code U5C2

Prerequisite: LIFE 1010, LIFE 2022, and COM1.

One (1) Course From:

ZOO4300 - Wildlife Ecology and Management

Credits: 5

Integrates concepts of vertebrate ecology with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e. g. , viability analysis, monitoring, habitat assessment), and ecosystem management approaches. Laboratory included.

Dual Listed ZOO 5300.

When Offered (Offered fall semester)

Former Course Number [4720]

Prerequisite: LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.

OR

ZOO4310 - Fisheries Management

Credits: 3

Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and production, rates of mortality and recruitment and use of yield models in fisheries biology. Includes laboratory and field exercises.

Dual Listed ZOO 5310.

When Offered (Normally offered fall semester)

Former Course Number [4730]

Prerequisite: ZOO 4330.

Elective Courses

Select three (3) of the following courses, one of which must have a laboratory component:

LIFE3050 - Genetics

Credits: 4

Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

ZOO3600 - Principles of Animal Behavior

Credits: 3

Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)

Prerequisite: introductory course in zoology, biology or psychology.

ZOO4190 - Comparative Environmental Physiology

Credits: 4

Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.

When Offered (Offered spring semester)

Former Course Number [4230]

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

ZOO4330 - Ichthyology

Credits: 3

Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.

When Offered (Normally offered spring semester)

Former Course Number [4750]

Prerequisite: LIFE 2022.

ZOO4350 - Ornithology

Credits: 3

Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.

When Offered (Offered spring semester)

Former Course Number [4780]

Prerequisite: LIFE 2022.

ZOO4370 - Mammalogy

Credits: 3

Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 5370.

When Offered (Offered fall semester)

Former Course Number [4790]

Prerequisite: LIFE 2022.

ZOO4380 - Herpetology

Credits: 3

Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.

Prerequisite: LIFE 2022.

ZOO4400 - Population Ecology

Credits: 3

Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.

Dual Listed ZOO 5400.

When Offered (Offered spring semester)

Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

ZOO4415 - Behavioral Ecology

Credits: 3

Applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently puzzling behaviors?).

Dual Listed ZOO 5415.

When Offered (Offered fall semester)

Prerequisite: ZOO 3600 or LIFE 3400 or permission of the instructor.

ZOO4420 - Conservation Biology

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ENR 4420.

Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ZOO4440 - Limnology

Credits: 3

Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)

Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

ZOO4540 - Invertebrate Zoology

Credits: 4

Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.

When Offered (Offered fall semester)

Prerequisite: LIFE 2022.

Zoology Minor

Explore form, function, behavior, ecology, evolution and conservation of animals and hone analytical, writing, and research skills.

Zoology Minor - requirements

Requirements for the minor in zoology (ZOOL) include a minimum of 17 credit hours. Courses counted towards one minor may not be counted towards another. A grade of C or better is required in all courses.

Required Course

LIFE3050 - Genetics

Credits: 4

Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

Elective Courses

Select four (4) of the following courses, one of which must have a laboratory component:

LIFE3400 - General Ecology

Credits: 3

Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3500 - Evolutionary Biology

Credits: 3

Presents modern evolutionary theory. Examines evolution and evolutionary mechanisms from several viewpoints, with particular attention given to genetic mechanisms underlying processes of evolution and speciation.

When Offered (Normally offered fall semester)

Former Course Number [BIOL 3500]

Prerequisite: completion of LIFE 1010 and LIFE 3050 with a grade of C or higher in each.

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

ZOO3600 - Principles of Animal Behavior

Credits: 3

Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)

Prerequisite: introductory course in zoology, biology or psychology.

ZOO4190 - Comparative Environmental Physiology

Credits: 4

Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.

When Offered (Offered spring semester)

Former Course Number [4230]

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

ZOO4235 - Marine Biology

Credits: 3

This course explore major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed BOT 4235.

Dual Listed ZOO 5235.

Prerequisite: LIFE 3400 with a grade of C or better.

ZOO4330 - Ichthyology

Credits: 3

Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes.

Includes laboratory.

Dual Listed ZOO 5330.

When Offered (Normally offered spring semester)

Former Course Number [4750]

Prerequisite: LIFE 2022.

ZOO4340 - Developmental Biology and Embryology

Credits: 4

Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

Dual Listed ZOO 5340.

When Offered (Normally offered spring semester)

Prerequisite: one year of life sciences, one year of chemistry.

ZOO4350 - Ornithology

Credits: 3

Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.

When Offered (Offered spring semester)

Former Course Number [4780]

Prerequisite: LIFE 2022.

ZOO4370 - Mammalogy

Credits: 3

Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 5370.
When Offered (Offered fall semester)
Former Course Number [4790]

Prerequisite: LIFE 2022.

ZOO4380 - Herpetology

Credits: 3

Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.
Prerequisite: LIFE 2022.

ZOO4540 - Invertebrate Zoology

Credits: 4

Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.
When Offered (Offered fall semester)
Prerequisite: LIFE 2022.

BOT4235 - Marine Biology

Credits: 3

This course explores major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed ZOO 4235.
Dual Listed BOT 5235.
Prerequisite: LIFE 3400 with a grade of C or better.

Graduate

Zoology and Physiology, M.S.

Advanced-degree students in Zoo/Phys experience collaborative, interdisciplinary approaches to basic and applied questions. Work spans molecules to ecosystems, with training in fields including physiology, ecology, evolution, fisheries, and wildlife.

Plan A (Thesis)

Includes 26 hours of coursework and 4 hours of thesis research.

Applicants should have at least 20 semester hours of undergraduate work in zoology, physiology, or other areas of the biosciences and have completed introductory courses in mathematics, chemistry, and in at least one other natural or physical science. Early in the second semester the student must file a program of study with the university and have a graduate committee appointed. Plan A candidates shall orally defend the thesis before the graduate committee.

All M.S. candidates will be required to complete credit in two graduate seminars. A student may enroll in more than one of these required seminars during one semester or academic year.

After two semesters in the department, a Plan A master's candidate may request permission from the department's graduate advisory board to proceed directly to the Ph.D. degree; however, such a bypass is granted only by the department head after considering recommendations from the graduate advisory board.

Zoology and physiology may be used as a field by a candidate working for the interdisciplinary master of science in natural science in the College of Arts and Sciences and the College of Education.

Plan B (Non-Thesis)

Includes 30 hours of coursework.

The program for the Plan B is established by the student and a faculty adviser and must be approved by the department head during the student's second semester or summer session.

The graduate committee will require the candidate to take a written examination. An oral examination may also be required. The final examination is comprehensive, covering all areas of zoology, but emphasizing one major area.

Zoology and Physiology, Ph.D.

Advanced-degree students in Zoo/Phys experience collaborative, interdisciplinary approaches to basic and applied questions. Work spans molecules to ecosystems, with training in fields including physiology, ecology, evolution, fisheries, and wildlife.

Additional Information

This is a 72 hour program.

A Ph.D. applicant must have 20 hours of undergraduate work in zoology, physiology, or other areas of biology and also have completed substantial undergraduate work in other sciences. Under exceptional circumstances, a student with an undergraduate major in a scientific discipline other than biology may be admitted. After the Ph.D. student has completed two semesters of graduate work, s/he must be approved for continued work toward the doctorate by the graduate advisory board. This board can reconsider a candidate thereafter if it so desires.

A graduate committee shall be appointed for the individual student no later than the third semester. After consultation with the student, this committee will prescribe special requirements (courses, minors, research tools, etc.) that must be fulfilled. At this time, the graduate committee shall consult with the candidate on the proposed research and shall identify the subject matter areas to be included in the preliminary examination. The preliminary examination will consist of a written research proposal, its oral defense, and a written and oral preliminary examination. When training outside zoology and physiology is specified by the committee, certification of satisfactory completion of the requirement will be made by the appropriate department.

In addition to the general university requirements for the Ph.D. degree, the department requires the following:

The coursework program should include work in a discipline outside the department, generally in the sense of a minor, to be identified in consultation with the graduate committee.

The preliminary examination consisting of written and oral portions should be taken no later than midterm of the fourth semester in residence. The graduate committee will certify satisfactory performance for the preliminary examination.

The dissertation must be received by each member of the graduate committee three weeks before the final dissertation seminar. As oral defense of the dissertation, the candidate will deliver a formal 50 minute seminar on original research from the dissertation. The seminar will be followed by an examination by the graduate committee.

Some time during their degree program, all Ph.D. candidates will be required to complete credit in three graduate seminars. A student may enroll in more than one of these required seminars during one semester or academic year.

All candidates for the Ph.D. degree shall be required to teach for one semester during their program.

The dissertation may be written in a format suitable for publication in a journal and the usual extensive literature review, description of study sites, technical details, raw data, supporting figures, charts, and photographs should be included in a well-organized appendix. (See also format requirements by the university.)

College of Business

College of Business

310 Business Building

Website: <http://business.uwyo.edu>

Rob Godby, Interim Dean

Phone: (307)766-4194 **FAX:** (307)766-4028

Peter M. and Paula Green Johnson Student Success Center (307) 766-8249

The College of Business prepares students for careers by providing quality education in business disciplines, creating and disseminating knowledge, and assisting in Wyoming's economic development. The College of Business expects the highest level of integrity from our administration, faculty, staff, students, and alumni.

The College of Business grew from roots established in 1899 when the UW School of Commerce was founded. While the programs offered have changed over the years, the college remains firmly committed to academic excellence and positive student experiences.

The college has three academic departments: accounting and finance; economics; and management and marketing. The college also houses the College of Business Peter M. and Paula Green Johnson Student Success Center which is instrumental in maintaining the college's link with the business world.

These units are committed to preparing all College of Business students to enter our rapidly-changing world. Successful graduates are fully prepared to compete in their chosen professions or in graduate school. More importantly, they are well-educated individuals prepared to live fulfilling lives, and to meet the challenges presented by the complex ethical, moral and cultural contexts of our times.

College of Business Learning Outcomes

The College of Business expects that its graduates:

1. Will be competent in their field of study
2. Will be effective problem solvers
3. Will be ethical
4. Will be professional

5. Will be effective communicators

AACSB Accreditation

The business degree programs offered by the College of Business are accredited by AACSB-International. AACSB standards ensure that College of Business students are provided comprehensive, high-quality, well-rounded degree programs. The "Common Body of Knowledge" and the "Advanced Business Standing" (ABS) as described on the following pages have been developed to meet the AACSB accreditation standards.

A minimum of 50% of COB courses required for the major must be taken from the degree-awarding institution.

Programs of Study

Undergraduate Degrees

BSB - Bachelors of Science in Business

BSE - Bachelors of Science in Economics

The Majors are as follows:

- Accounting, B.S. (BSB-ACCT)
- Business Economics, B.S. (BSB - CBEC)
- Entrepreneurship, B.S. (BSB - ENTR)
- Finance, B.S. (BSB - FIN)
- Management, B.S. (BSB - MGT)
- Marketing, B.S. (BSB - MKT)
- Professional Sales, B.S. (BSB - SELL)
- Economics, B.S. (BSE - ECON)

The Minors are as follows:

- Banking and Financial Services Minor
- Blockchain Minor
- Data Analytics Minor
- Economics Minor
- Entrepreneurship Minor (for nonbusiness students only)
- Hospitality Business Management Minor
- Leadership Minor
- Professional and Technical Selling Minor
- Real Estate Minor

Graduate Degrees

Master of Science

Accounting, M.S.

Economics, M.S.

Finance, M.S.

Business Administration, M.B.A.

Business Administration, Online, M.B.A.

Doctor of Philosophy

Economics, Ph.D.

Marketing, Ph.D.

Certificate Programs

Certified Financial Planning Certificate (Graduate)

Energy Business Certificate (Graduate)

Student Services

Academic Advising

All College of Business undergraduate students are advised by professional academic advisers in the College of Business Peter M. and Paula Green Johnson Student Success Center. Advising can be reached by e-mail (success@uwyo.edu) or by phone (307-766-8249).

Career Services

The Career Services unit connects students and employers in ways that lead to meaningful experiences and job opportunities. Business students are encouraged to explore career options and grow their career readiness by completing the Pokes Professionalism Badge and engaging in multiple internships. Students also have the option to apply for local, national, and international internships starting their first year and may be able to receive credit for their work. Networking with employers is highly encouraged and offered through a series of fairs, events, and in-class projects. One-on-one assistance and workshops are also available to students for things such as: internship or job searching; resume creation, review, or targeting; and career coaching or counseling. Individual appointments may be scheduled by email (success@uwyo.edu) or by phone, (307) 766-8249.

Student Responsibilities

College of Business students are responsible for knowing and meeting requirements for graduation. In addition to degree requirements, all College of Business students must complete the advanced business standing requirements prior to enrollment in most upper-division (3000/4000-level) College of Business courses (see Advanced Business Standing (ABS) Prerequisites section).

All students must have already completed any prerequisites listed (in addition to ABS for COB students), including having the appropriate class standing. Students not meeting the prerequisites are identified and administratively dropped from those courses each semester.

Requirements for the Bachelor of Science Degree

Candidates for the Bachelor of Science degree in the College of Business must meet university, college, and departmental requirements. Degree candidates for the B.S. degree in the College of Business also must have a minimum 2.500 cumulative University of Wyoming (UW) grade point average and a 2.500 grade point average in College of Business courses at the time of graduation. In addition, economics majors also must hold a minimum 2.500 grade point average for all economics courses. College of Business degree candidates must earn a minimum of 120 semester hours depending on major including:

I. University Studies Requirements:

All first year students who enter the University of Wyoming (UW) and students who enter a Wyoming Community College (CC) are required to meet the USP 2015 requirements for graduation. Wyoming CC students transferring to UW with an Associate of Arts or Associate of Science degree will have course work evaluated per the General Education Articulation Agreement between the University of Wyoming and Wyoming Community Colleges. Non-resident transfer students and Wyoming CC transfer students without an associate's degree will have course work evaluated on a course-by-course basis, based on all approved USP courses. Academic advisers will help students select the appropriate courses to satisfy university studies requirements. Some College of Business requirements also meet university studies requirements.

A. Basic skills (USP 2015) Hrs.

1. First-year seminar (FYS) Choose from list of approved courses, Credits: 3
2. Writing
 - a. USP Communication 1 course, Credits: 3
 - b. USP Communication 2 course- Mid-level communication or 2000-4000-level communication intensive course- Choose from list of approved courses, Credits: 3
 - c. USP Communication 3 course- Upper-level communication or 3000-4000-level communication intensive course, Credits: 3
3. Physical and Natural World (PN) (Two courses required-choose from list of approved courses), Credits: 6
4. Human Culture (H) (Two courses required-choose from list of approved courses), Credits: 6
5. U.S. and Wyoming Constitutions (V), Credits: 3
6. Quantitative Reasoning (Q), Credits: 3

II. Electives

The number of hours of elective credit and upper-division (3000-/4000-level) credit varies by department. Economics majors will take 48-51 hours of free electives. A maximum of 6 credit hours each at the freshman/sophomore and junior/senior-level military science courses may be applied to degrees in the College of Business.

A. Non-Business electives Hrs

1. Non-Business electives. May include MATH 1400, Credits: 3-9

B. Free electives Hrs.

1. Free electives from any college. May require upper-division (3000/4000-level) courses, with the total number of credits needed dependent on major.

Students **may not** take courses for S/U (satisfactory/unsatisfactory) credit to satisfy university studies or college requirements, course requirements in the major, or courses outside the college required by the major department curriculum.

III. Advanced Business Standing: (excludes Economics majors)

College of Business majors must satisfy the following advanced business prerequisites prior to enrolling in most upper-division (3000- /4000- level) College of Business courses:

1. Achieve junior standing by completing a minimum of 60 earned semester hours;
2. Complete 10 specific courses with a grade of C (not C-) or better in each. These ten courses are: ECON 1010 and 1020, USP Communication 1 and 2 courses, ACCT 2010 and 2020, IMGT 2400, MATH 2200 and 2205 or MATH 2350 and 2355 and STAT 2050 or 2070.
3. Achieve a cumulative UW institution grade point average or transfer grade point average of at least 2.500. Note: Transfer grades are not counted in the UW GPA (see UW Catalog http://www.uwyo.edu/registrar/university_catalog/grade.html for additional information). Transfer students who have not attended the University of Wyoming, and therefore do not have an established UW institutional/cumulative GPA, and who have completed the required ten (10) courses with a C or better, have 60 earned credit hours, and have a 2.500 cumulative TRANSFER GPA will be awarded ABS.

IV. Common Body of Knowledge: (excludes Economics majors)

College of Business majors take a common set of courses that expose them to the basic concepts, processes and technical skills necessary to complete a well-rounded high quality business education. The common body of knowledge includes ACCT 2010, ACCT 2020, DSCI 2100, ECON 1010, ECON 1020, FIN 2100, IMGT 2400, MGT 2010, MGT 2100, MKT 2100, and MGT 4800. Grades of C (not C-) or above required.

V. Minimum requirements:

Achieve a cumulative College of Business and UW institution grade point average of at least 2.500. Complete 50% of the business credit hours from UW. Earn grades of C or above in common body of knowledge and major specific core courses. Earn a passing score on the Senior Exit Exam required for all College of Business majors.

Requirements for Non-College of Business Majors

Students in non-College of Business majors who wish to enroll in College of Business upper-division courses need not meet the advanced business standing prerequisites. However, they are required to meet individual course prerequisites listed in the University Catalog, including class standing.

Acceptance of Transfer Credit

The College of Business complies with UW policies regarding transfer credit discussed in the front section of this bulletin. The college has special course transfer arrangements with Wyoming community colleges that allow some courses taken at community colleges at the lower-division (freshman-sophomore) level to transfer for upper-division (junior) credit. Wyoming community college transfer students should contact the GJSSC for details.

Students transferring from other AACSB accredited colleges and universities will have their courses reviewed for transfer on a course-by-course basis.

The College of Business does not accept transfer credits for COB courses with equivalents at UW when the grade earned was less than a C.

Where appropriate, College of Business course equivalency will be granted for transfer courses at the 3000 and 4000 level if such coursework was completed at an AACSB or EQUIS institution only. Any coursework completed at an institution that does not meet that qualification will not be considered for upper division equivalency.

The UW College of Business is AACSB accredited and therefore follows AACSB's current guidelines* to maintain accreditation.

The primary goal of this transfer policy is to ensure coursework accepted from other institutions is comparable to coursework required by our college's degree programs and ensure that the majority of learning is completed at the institution awarding the degree while simultaneously allowing measured flexibility in acceptance of transfer credits as allowed by AACSB accreditation in support of student progress and degree completion.** For example, at the time of this policy's creation, the number of business credit hours for the College of Business's undergraduate majors is fifty-four (54) credit hours (this includes the business common body of knowledge courses). Therefore, to align with AACSB standards, a minimum of twenty-seven (27) credit hours of business coursework in the major must be earned in residence at the University of Wyoming.

In addition to the transfer policies defined in the University of Wyoming catalog, the College of Business has established the following policies in support of AACSB Standards governing the transfer of credit for equivalent business courses. Courses will be considered for transfer according to the additional criteria below. Students may transfer up to a total of twenty-seven (27) hours of business credits, either solely lower division courses or a mix of lower division and upper division courses, as follows:

- Students may transfer up to twenty-seven (27) lower division (1000/2000 level) business credits to the Common Body of Knowledge.
 - Lower division courses from regionally accredited institutions will be evaluated for equivalency and approved by the UW Office of the Registrar on an annual basis.
- Students may transfer up to nine (9) upper division (3000/4000 level) business credits according to the following guidelines:
 - Transferring upper division business credits to be included in the twenty-seven (27) credits reduces the number of lower division credits a student is able to transfer.
 - Courses from AACSB/EQUIS accredited institutions will be evaluated for equivalency and approved by the College of Business.
 - Courses from regionally accredited, non-AACSB/EQUIS institutions will be accepted as upper division elective credit in accordance with the transfer policies defined in the University of Wyoming catalog.
 - The College of Business has collaborative provisions (detailed in separate articulation agreements) that allow students from Wyoming's community colleges to transfer up to nine (9) credit hours of 2000 level coursework to satisfy up to nine (9) credit hours of 3000 level coursework that has been evaluated by the College of Business. These courses will be evaluated annually for equivalency***.

* A requirement of the accreditation process (as reflected in Standard 6 of the 2020 Business Standards) is for accredited colleges to have clear policies regarding transfer coursework.

** As noted by AACSB: "transfer credit related to business disciplines is normally limited to no more than half of the program requirements" (2020 AACSB Standards, p. 13).

*** Per college-specific articulation agreements, students may be able to transfer coursework satisfying completion of the following courses: ACCT 3070, ACCT 3230, ACCT 3240 or ACCT 3430.

Accounting, Management, and Marketing Online Programs

The College of Business offers the opportunity to pursue online degree programs in the areas of accounting, management, and/or marketing accredited by AACSB and delivered through distance education. These online delivery programs are designed to help students maximize their flexibility in the business world.

The online accounting, management, and marketing degrees are offered almost in their entirety through the University of Wyoming, with the exception that students must have taken MATH 2350/2200 and MATH 2355/2205 through another institution as they are not offered online consistently through UW. The University of Wyoming College of Business works closely with our Wyoming community college partners to assist students in taking and transferring these math courses and other courses that align with our curriculum. Students are able to take a variety of transferable 1000 and 2000 level courses from Wyoming Community Colleges, in consultation with academic advisors, and then complete their upper division coursework from the University of Wyoming.

Students will be required to apply to UW and meet UW admissions criteria prior to enrolling in any College of Business program. Students must also attain a 2.500 GPA for graduation for both College of Business and UW courses, complete and submit an anticipated graduation date form, and must pass the Senior Exit Exam (BUSN 4990) to graduate.

To ensure you the availability of required courses in this program, enrollment into courses is managed and approved by the College of Business Peter M. and Paula Green Johnson Student Success Center.

College of Business Minors

Minors are available to on-campus students through the College of Business in the areas of banking and financial services, blockchain, data analytics, economics, entrepreneurship (not available to College of Business majors), hospitality business management, leadership, professional and technical selling, and real estate. Minors requirements may often be met by simply focusing the elective credits available in a student's major.

The minors program consists of course requirements of 15 hours of study. A minimum grade of C must be earned in each course. Certification of a successful minor program completion occurs as part of the DegreeWorks progress report, and the Office of the Registrar notes the completion of the minor on student transcripts. Minors must be approved by the Peter M. and Paula Green Johnson Student Success Center.

Students must have a minimum 2.500 cumulative UW GPA. Students must maintain a cumulative 2.500 GPA in the required College of Business courses for the minor to be awarded. Non-College of Business students must meet the individual course prerequisites listed in the catalog, although they need not meet the advanced business standing requirements. A minimum of 50% of COB courses must be taken from the degree-awarding institution.

Cooperative Undergraduate Programs

The Concentration in Environment and Natural Resources

College of Business majors may earn a cross major in Environment and Natural Resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness of environmental consequences of decisions have become major issues for business. Exposure to ideas, skills and sensibilities in these areas is critical to future business people. Students majoring in economics may elect an environment and natural resources concentration in which an economics approach to problem solving is stressed. For more information call the ENR office at (307) 766-5089.

Graduate Study

The College of Business is comprised of three academic departments: accounting and finance, economics, and management and marketing. The faculty of these departments cooperate in the presentation of graduate work leading to the following degrees:

Master of Business Administration

Master of Science in Accounting

Master of Science in Economics

Master of Science in Finance

Doctor of Philosophy in Economics

Doctor of Philosophy in Marketing

The College of Business faculty is firmly committed to the excellence of its graduate programs. The graduate programs in the College of Business are accredited by AACSB International. The three academic departments coordinate course offerings to support all of the graduate degree programs; the M.B.A. program in particular is a college-wide effort.

Cooperative Graduate Programs

The Concentration in Environment and Natural Resources

College of Business graduate students may earn an interdisciplinary minor in environment and natural resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness of environmental consequences of decisions have become major issues for all areas of business and economics. The School of Environment and Natural Resources is designed to move beyond the strictly disciplinary design and management of their long-term solutions. The school seeks to attract outstanding graduate students from a variety of disciplines, who are eager to pursue careers that engage other professionals, policymakers, and the public in finding innovative ways to resolve complex environmental and natural resource issues. To pursue a minor in ENR, students must first be admitted to another master's or doctoral degree program offered at the University of Wyoming. For more information call the ENR office at (307) 766-5080.

Accounting Major

The basic objectives of the accounting program are twofold: to provide students who do not intend to major in accounting with the basis for understanding the role accounting plays in business today and to provide those students who desire to major in accounting with the educational background necessary for lifelong learning and a rewarding career in the accounting profession. The curriculum offered by the department attempts to blend the conceptual with the practical. Exposure to the underlying conceptual framework of accounting provides a basis for dealing with emerging accounting issues, while examination of technical pronouncements enables students to gain insight into practical issues encountered in an accounting environment.

Accounting majors may enter the professional world of accounting from a variety of directions. Choices available in the form of elective courses enable students to chart a course that leads them toward public accounting, private accounting, governmental or not-for-profit accounting, as well as other specialties that rely on a strong accounting background. Those students seeking professional certification, such as the CPA, CMA or CIA, are able to satisfy requirements to sit for these professional examinations by completing the undergraduate accounting degree.

All accounting majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All accounting courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the College of Business Peter M. and Paula Green Johnson Student Success Center in the College of Business Building.

Please Note:

Students who anticipate taking the CPA examination should be aware of the Wyoming statute governing eligibility to sit for the exam. Please see the state board's web site for information: cpaboard.state.wy.us. The current combined curricula (B.S. and M.S.) enable students to satisfy the educational requirements to sit for the CPA exam in Wyoming and other jurisdictions.

Graduate Study

Accounting is an integral part of the College of Business degree programs. The department offers courses in support of college graduate degree programs, as well as a master of science in accounting (MS in Accounting) degree. The MS in Accounting degree was developed in response to emerging needs of the accounting profession. Those students who wish to become professional accountants, whether that be in a corporate setting, a not-for-profit setting, or public accounting, will find the MS in Accounting degree to be one that enables them to develop both the personal and professional skills needed to enjoy a productive career.

The MS in Accounting program satisfies the Wyoming requirements for individuals to take the Certified Public Accountant (CPA) exam and it further develops students' professional skills. The MS in Accounting program focuses on the two main areas of development: 1) advanced accounting and business education, and 2) professional skills development-including written, oral, interpersonal communication, computer applications, critical thinking, and adaptability.

The MS in Accounting degree is designed for students who have completed an undergraduate degree in accounting in the United States. However, it is possible to be admitted to the program once deficiency courses are successfully completed. Those holding a bachelor's degree from within the U.S., but not in accounting, and international applicants

can still apply for admission once the deficiency courses are successfully completed. We do not provisionally or conditionally admit students to our program.

Program Specific Admission Requirements

Admission to the Master of Science in Accounting program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U. S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GRE or GMAT optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Office of Admissions at 1000 E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the department Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

•Interview.

You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor,

mentor, faculty member, program director, etc.)

letter(s) of recommendation provided directly by the
reference via the UW Graduate Admissions

Application.

•Interview.

You will be contacted by our program

office to participate in a virtual interview that can be

completed at your convenience. • Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

NOTE: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming MS in Accounting program does not personally or conditionally admit students.

*Please refer to the AICPA Site (www.aicpa.org) to check on the requirements you will need to fulfill in your state if you plan to sit for the CPA Exam.

Additional requirements for International Applicants:

• Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 540 on the paper-based test (TOEFL PBT) or a score of 76 on the internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 6.5. An applicant whose native language is English and is a citizen of one of the following countries or who has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency. Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia, Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.

• On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions). (not applicable for distance education students).

• Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

Additionally, to be admitted to the Master of Science in Accounting program, a student demonstrate competency in the following subject matters/courses:

- ACCT 3230 Intermediate I & ACCT 3430 Intermediate II (External Financial Reporting)
- ACCT 3240 Cost I (Advanced Managerial Accounting)
- ACCT 3070 Tax I (Tax Accounting, must cover US income taxation for individuals)
- ACCT 4060 Audit I (must cover US Generally Accepted Auditing Standards and/or International Standards on Auditing)

*These courses may be completed through any regionally accredited university or college. A minimum grade of B (a 3.0 on a 4.0 scale) is considered evidence of proficiency.

*Evidence of proficiency in these areas can also be demonstrated by relevant professional experience on a case-by-case basis. Please contact the program office for additional information.

Each candidate who applies to the University of Wyoming Master of Science in Accounting or Finance program is evaluated individually by our faculty and program directors. We consider each part of the application in a holistic assessment, including the candidate's reasons for pursuing the degree, interview responses, prior academic performance, work experience, and letters of recommendation.

Students are admitted on a rolling basis with applications evaluated as soon as they are completed. It typically takes no more than two weeks to receive an admission decision.

Application Deadlines

Fall Admission

- Block 1 Final Deadline: June 30
- Block 2 Final Deadline: October 1
- Priority Deadline: May 1

Spring Admission

- Block 1 Final Deadline: December 1
- Block 2 Final Deadline: February 1
- Priority Deadline: October 1

Summer Admission

- Final Deadline: April 1
- Priority Deadline: February 1

International applicants: Please be advised that there are additional university requirements that may take additional processing time - you are encouraged to apply prior to the application deadline if possible to ensure that if admitted, all required documentation can be provided prior to the term of entry.

Program Specific Degree Requirements

Master of Science in Accounting

The objectives of the master of science in accounting degree program are:

- To provide students with an advanced understanding of the field of accounting,
- To provide students with specific advanced knowledge of the sub-topics within accounting,
- To provide students with professional skills that will enable them to enjoy productive and rewarding careers in accounting and other accounting-related areas.

The program consists of a minimum of 30 semester hours of graduate coursework. Students must complete coursework in accounting and elective business and/or non-business areas. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level non-accounting courses (approximately six hours). Non-accounting courses should be selected in consultation with the student's graduate adviser. Non-accounting courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director, prior to the first day of such classes.

Students must take these 5 core accounting courses (minimum 15 credit hours):

ACCT 5030. Advanced Financial Accounting

ACCT 5040. Seminar in Managerial Accounting

ACCT 5060. Auditing II

ACCT 5070 Tax II Accounting Elective

ACCT 5065 Fraud Examination or ACCT 5066 Seminar on Mangement Fraud

A maximum of six hours may come from 4000- level courses offered in the College of Business or in other colleges at the University of Wyoming.

NOTE: ACCT 4010, 4020, 4050, 4060, 4100, 4600, 4900, and 5000 are not applicable for M.S. accounting students' programs of study.

The student must complete the required coursework (both graduate and prerequisite) with a minimum GPA of 3.000 (on a 4.000 scale).

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid dismissal.

Students must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Finance Major

Modern business is characterized by its emphasis upon finance. The application of sound financial management principles often will be the difference between success and failure in business.

Courses prescribed for those who wish to major in finance are designed to provide a background for financial management of business concerns and, if students desire, to specialize in bank management, corporation finances and investment management. Since financial policies of business enterprises are subject to economic principles which make all businesses financially interdependent and sensitive to disturbances in the economic structure, students in this field should study the economic, as well as the technical, administrative aspects of finance and accounting. Prescribed work in this area attempts to emphasize all three phases of the subject.

All finance majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All finance courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the Academic Advising unit of the GJSSC of the College of Business Building.

Graduate Study

The Master of Finance program will allow students to obtain advanced training built on the foundations of principles and practices of modern finance. The MS in Finance is a rigorous, yet practical program that encompasses the fundamentals as well as cutting-edge topics in investment analysis, portfolio management, financial modeling, risk management, and fixed income securities. The MS in Finance program aims to make you well prepared to evaluate and react to change with confidence and to develop effective solutions to meet the needs of markets and industries.

The objectives of the master of science in finance are:

To provide students with an advanced understanding of the field of finance.

To provide students with specific advanced knowledge of the subtopics within finance.

To provide students with professional skills that will enable them to enjoy productive and rewarding careers in finance and other finance-related areas.

Program Specific Admission Requirements

Admission to the Master of Science in Finance program generally requires:

- Completed University of Wyoming Graduate Admissions Application and nonrefundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.000 scale.
- GRE/GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Office of Admissions Office of Admissions Office at 1000 E.University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming MS in Finance program does not provisionally or conditionally admit students.

Additional Requirements for International Applicants:

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 540 on the paper-based test (TOEFL PBT) or a score of 76 on the internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 6.5. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions). (not applicable for distance education students)
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

Prerequisites

No prerequisite courses will be required if you have completed a business or STEM bachelors or masters degree from a regionally accredited college or university with the minimum preferred 3.0 GPA (based on a 4.0 scale).

Applicants without a business or STEM related undergraduate or graduate degree with a minimum 3.0 GPA must provide evidence of proficiency in the following areas:

Business Math and Statistics

Financial Management

Application Deadlines

Each candidate who applies to the University of Wyoming Master of Science in Accounting or Finance program is evaluated individually by our faculty and program directors. We consider each part of the application in a holistic assessment, including the candidate's reasons for pursuing the degree, interview responses, prior academic performance, work experience, and letters of recommendation.

General Finance Track

- FIN 5310: Investment Management (3)
- FIN 5400: Financial Modeling (3)
- 15 credit hours Finance electives + 9 credit hours other business electives (maximum 6 credit hours can be 4000 level).

MS in Finance (CFP Track) Core - Required Courses

- FIN 5310: Investment Management (3)

- FIN 5070: Tax Planning for Financial Planners (3)
- FIN 5720: Retirement/ Insurance Planning (3)
- FIN 5750: Fundamentals of Financial Planning (3)
- FIN 5780: Estate Planning (3)
- FIN 5800: CFP Capstone (3)
- FIN 5400: Financial Modeling (3)
- Finance Electives (9ch) (maximum 6 credit hours can be 4000 level).

The student must complete the required coursework with a minimum GPA of 3.000 (on a 4.000 scale).

Student must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student will be immediately dismissed from the program.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid dismissal.

Major

Accounting, B.S.

The Accounting major prepares students for a career within the profession by providing them with the skills to create, interpret and analyze economic and financial information while focusing on assurance, financial and tax services.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on

developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Requirements - Total Credits: 120

Common Body of Knowledge - Credits: 33

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

ACCT2020 - Principles of Accounting II

Credits: 3

Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

ECON1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

MGT2010 - Legal Environment of Business

Credits: 3

Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

FIN2100 - Principles of Finance

Credits: 3

Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200 , and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

MKT2100 - Introduction to Marketing

Credits: 3

An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3

An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

MGT4800 - Business Strategy and Policy

Credits: 3

A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3

Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

BUSN4990 - Senior Exit Exam

Credits: 0

The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

Major Specific Courses - Credits: 30

Accounting Core: 21 Credits

ACCT3070 - Tax I

Credits: 3

This class covers a broad range of the tax concepts applicable to the taxation of individual taxpayers. Special emphasis will be placed on the role of taxation of the individual and the related decision-making process.

Prerequisite: ACCT 2010 and ACCT 2020, Advance Business Standing.

ACCT3230 - Intermediate Accounting I

Credits: 3

First of two courses studying financial reporting. Topics include recording and reporting events in the expenditure and revenue cycles.

Former Course Number [2230]

Prerequisite: ACCT 2010 , ACCT 2020 and MATH 1400 with grades of C or better in each; sophomore class standing.

ACCT3240 - Cost Accounting I

Credits: 3

Organizational uses of information to plan, make decisions, and evaluate performance. Specific topics include job order and process costing, cost estimation and CVP analysis, budgeting and variance analysis.

Former Course Number [2240]

Prerequisite: ACCT 2010, ACCT 2020 and MATH 1400 with grades of C or better in each; sophomore class standing.

ACCT3430 - Intermediate Accounting II

Credits: 4

Second of two courses studying financial reporting. Topics include debt, equity, revenue recognition, and special issues in expense and liability recognition.

Prerequisite: ACCT 3230 with grade of C or better; advanced business standing, or special permission of Department Head.

ACCT3610 - Accounting Information Systems

Credits: 3

Provides an understanding of accounting information systems and internal controls. Emphasis on the use of current accounting technology, accounting software and internal control systems.

Former Course Number [2040, 3010]

Prerequisite: ACCT 3230 with a grade of C or better; advanced business standing.

- ACCT 3900 - Accounting Professional Skills

ACCT4060 - Auditing I

Credits: 3

A study of the scope, activities, and responsibilities of professional auditors. Topics include assurance services by public accountants and the methods and techniques used to provide these services, with a focus on the audits of financial statements and internal controls performed by external auditors.

Prerequisite: ACCT 3230 with a grade of C or better; ACCT 3610 with a grade of C or better (or concurrent enrollment)

Accounting Elective: 3 Credits

Choose 1 of the Following:

ACCT3100 - Financial Statement Analysis

Credits: 3

Advanced study of financial statements and how to analyze those statements from both an internal and external perspective.

Former Course Number [4100, 2000, 3000]

Prerequisite: ACCT 2010 ,ACCT 2020 , FIN 2100 (or equivalent), sophomore class standing.

ACCT4960 - Volunteer Income Tax Assistance

Credits: 1-3

Max Credit 3

The Volunteer Income Tax Assistance (VITA) program is an IRS-sanctioned program designed to help low-income individuals and families file their federal and state taxes through trained volunteers. This course trains students to assist taxpayers in filing tax returns through the VITA program.

Prerequisite: ACCT 3070 (or concurrent).

Advanced Business Electives: 6 Credits

Any business courses at a 3000+ level that have not been used to meet any other primary major requirements.

Free Electives from Any College: 18 Credits

Courses from any college at any level that have not been used to meet any other primary major requirements.

A complete curriculum sheet is available from the College of Business Peter M. and Paula Green Johnson Student Success Center in the College of Business Building.

Please Note:

All accounting courses for the major require a minimum grade of C. In addition to university and college requirements cited previously, requirements for accounting majors are listed above.

Students who anticipate preparing themselves for the CPA examination following completion of their degree should be aware of the Wyoming statute governing eligibility to sit for the exam. Please see the state board's web site for information: cpaboard.state.wy.us. The current combined curricula (B.S. and M.S.) enable students to satisfy the educational requirements to sit for the CPA exam in Wyoming and other jurisdictions.

Finance, B.S.

The Finance major provides the principal concepts for students to understand financial management of business concerns and, if students desire, to specialize in bank management, corporation finances and investment management.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Requirements - Total Credits: 120

Common Body of Knowledge - Credits: 33

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

ACCT2020 - Principles of Accounting II

Credits: 3

Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

ECON1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

MGT2010 - Legal Environment of Business

Credits: 3

Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

FIN2100 - Principles of Finance

Credits: 3

Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200 , and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

MKT2100 - Introduction to Marketing

Credits: 3

An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3

An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

MGT4800 - Business Strategy and Policy

Credits: 3

A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3

Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

BUSN4990 - Senior Exit Exam

Credits: 0

The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

Major Specific Courses - Credits: 21

Finance Core: 12 Credits

ACCT3100 - Financial Statement Analysis

Credits: 3

Advanced study of financial statements and how to analyze those statements from both an internal and external perspective.

Former Course Number [4100, 2000, 3000]

Prerequisite: ACCT 2010 ,ACCT 2020 , FIN 2100 (or equivalent), sophomore class standing.

FIN4400 - Financial Modeling

Credits: 3

Involves the application of basic econometric methods to the analysis of financial data. Focus is on utilizing spreadsheets and other softwares to facilitate financial decision making.

Dual Listed FIN 5400.

Prerequisite: FIN 2100, FIN 3310, IMGT 2400, advanced business standing.

FIN3310 - Investment Management

Credits: 3

Fundamental principles of investments and practical implications of financial theory. Students acquire a framework for understanding returns on financial assets, risk and return, fundamentals of portfolio theory, efficient market hypothesis, and asset pricing models. Other topics include financial statement analysis, behavioral finance, and introduction to options and futures.

Former Course Number [4310]

Prerequisite: FIN 2100 and advanced business standing.

FIN4250 - Advanced Corporate Finance

Credits: 3

Give students a better appreciation of the techniques and theories of corporate finance and investments that may have been introduced in introductory finance courses.

USP 2015 Code U5C3

Prerequisite: FIN 2100.

Finance Electives: 3 Credits

Choose 1 of the Following:

FIN3520 - Financial Markets

Credits: 3

Portfolio and capital market theory and the analysis of risk are introduced. Integrates theory into practical aspects of financial markets.

Former Course Number [4520]

Prerequisite: FIN 2100, STAT 2010 or STAT 2050/STAT 2070, and advanced business standing.

FIN4340 - Portfolio Management I

Credits: 3

Manage, monitor and invest real money provided by the State of Wyoming and the University of Wyoming Foundation. Students should obtain from the course the ability to construct investment portfolios from scratch, to learn the signals from which to obtain sell and buy data and the ability to act on this information.

Prerequisite: FIN 3310 and advanced business standing.

FIN4350 - Portfolio Management II

Credits: 3

Manage, monitor and invest real money provided by the State of Wyoming and the University of Wyoming Foundation. Students should obtain from the course the ability to construct investment portfolios from scratch, to learn the signals from which to obtain sell and buy data and the ability to act on this information.

Prerequisite: FIN 3310 and advanced business standing.

FIN4360 - Options and Futures

Credits: 3

Provides an introduction to financial futures such as currency futures and interest rate futures. Explores the markets on which they are traded. Also analyzes pricing of options and other derivative securities. Includes the leverage and risk aspects of options.

Prerequisite: FIN 2100, FIN 3310.

FIN4510 - Bank Management

Credits: 3

Deals with financial decision-making in financial institutions, particularly emphasizing commercial banks. Topics covered include managing financial assets, deposit acquisition and capital management.

Prerequisite: FIN 2100 and advanced business standing.

FIN4530 - Fixed Income Securities

Credits: 3

Provides an overview of the fixed income securities markets, pricing and risk management. In so doing, the course follows the CFA institute learning objectives of the CFA exam. We first introduce the major forms of fixed income securities. We then delve into valuation of these securities using a myriad of pricing techniques. We then embark on credit risk analysis, followed by fixed income portfolio management. Ultimately, the course aims at preparing students

for most challenging and yet active fixed income markets: corporate bonds and mortgage securities.

Dual Listed FIN 5530.

Prerequisite: FIN 2100, advanced business standing.

FIN4540 - Banking Policy

Credits: 3

Intended to be taken either with or after FIN 4510, Bank Management, and will cover similar topics but in greater depth and breadth. Integrated application of these topics will take place in a selection of case studies, some of which will be analyzed in teams.

Prerequisite: FIN 4510 or concurrent enrollment in FIN 4510.

FIN4710 - Risk Management

Credits: 3

Analyzes the risk management and insurance problem in the business enterprise with emphasis on methodology for risk analysis; techniques for risk and loss control; and models for risk management decision-making.

Dual Listed FIN 5710.

Prerequisite: FIN 2100

Advanced Business Electives: 6 Credits

Any business courses at a 3000+ level that have not been used to meet any other primary major requirements.

Free Electives from Any College: 27 Credits

- Courses from any college at any level - Credits: 21
- Courses from any college at a 3000+ level - Credits: 6

Minor

Banking and Financial Services Minor

The Banking and Financial Services minor introduces the student to the field and provides them with a greater understanding of how the banking system functions to provide service and value to the economy.

Finance Requirement

FIN4510 - Bank Management

Credits: 3

Deals with financial decision-making in financial institutions, particularly emphasizing commercial banks. Topics

covered include managing financial assets, deposit acquisition and capital management.

Prerequisite: FIN 2100 and advanced business standing.

FIN4540 - Banking Policy

Credits: 3

Intended to be taken either with or after FIN 4510, Bank Management, and will cover similar topics but in greater depth and breadth. Integrated application of these topics will take place in a selection of case studies, some of which will be analyzed in teams.

Prerequisite: FIN 4510 or concurrent enrollment in FIN 4510.

FIN4530 - Fixed Income Securities

Credits: 3

Provides an overview of the fixed income securities markets, pricing and risk management. In so doing, the course follows the CFA institute learning objectives of the CFA exam. We first introduce the major forms of fixed income securities. We then delve into valuation of these securities using a myriad of pricing techniques. We then embark on credit risk analysis, followed by fixed income portfolio management. Ultimately, the course aims at preparing students for most challenging and yet active fixed income markets: corporate bonds and mortgage securities.

Dual Listed FIN 5530.

Prerequisite: FIN 2100, advanced business standing.

Advanced Business Electives

- Any Business Course (3000-level or higher) Credits: 3
- Any Business Course (3000-level or higher) Credits: 3

Minor Total Credits: 15

Blockchain Minor

This minor lays the foundation for gaining a competitive advantage in the blockchain ecosystem by providing an understanding of the implications and business opportunities associated with blockchain and digital assets and how they affect global industries.

Blockchain Core - Credits: 9

BKCH3021 - Fundamentals of Blockchain

Credits: 3

The purpose of this course is to provide a fundamental understanding of blockchain technologies and their implications. Topics will focus on understanding how blockchain may change the way we think about money, disrupt traditional financial institutions and eliminate costly intermediaries.

Prerequisite: Requires Junior Class Standing.

BKCH4021 - Business Applications of Blockchain

Credits: 3

This course provides advanced concepts underpinning the applications of global blockchain technologies for business and their use cases. Students will learn about the underlying technologies to be well-prepared to develop blockchain applications in the business world.

Prerequisite: BKCH 3021.

BKCH4121 - Case Studies in Block Chain

Credits: 3

This experiential learning focused course is targeted toward understanding the creation and development of blockchain ventures. Besides course lecture materials, students will study and support new blockchain ventures in a real-world setting.

Prerequisite: BKCH 3021.

Blockchain Electives - Credits: 6

Choose two from the following:

FIN4910 - Topics in Finance

Credits: 1-6
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MGT2030 - Principle-Based Ethics

Credits: 3
Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

DSCI4260 - Project Management

Credits: 3

Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

ES4920 - Entrepreneurship for Engineers

Credits: 3

Traditional engineering education does not prepare graduates for work in entrepreneurial ventures. The goal of this course is to have students demonstrate skills in developing business ideas, performing preliminary market research, estimating cash flow, and launching a business.

Prerequisite: 9 hours within an engineering discipline and junior standing.

COSC4010 - Special Topics in Computer Science

Credits: 1-3

Individual or small group pursuit of interdisciplinary problems in the use of computers or study of advanced topics.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: COSC 3020 concurrently and consent of instructor.

COSC1015 - Introduction to Programming for Data Science

Credits: 3

Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q

A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

Prerequisite: grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

Total for Minor: 15 Credits

Data Analytics Minor

The Data Analytics minor is designed to provide the student with the skills necessary to gather, process and interpret the large amounts of data available in today's fast paced business environment.

Required Core

DSCI4240 - Computer Applications in Decision Sciences

Credits: 3

A study of decision science topics such as mathematical programming, Monte Carlo simulation, forecasting, project management and decision theory. The applications of computer techniques is emphasized.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, and junior class standing.

IMGT4500 - Business Analytics

Credits: 3

This class prepares students to understand, manage, and visualize data. Students will learn how to apply the appropriate analytic tools, and communicate the findings and their relevance. Topics covered include data wrangling, descriptive analytics, predictive analytics, and prescriptive analytics.

Prerequisite: IMGT 1400, STAT 2050 or equivalent

ECON4230 - Intermediate Econometric Theory

Credits: 3

Covers simple and multiple regression models, problems of estimation, hypothesis and diagnostic testing, dummy variable, autoregressive and distributed lag models, and time-series analysis. The objective is to understand the underlying theory of econometric modeling and obtain operational ability to construct, estimate, and test econometric models.

Cross Listed AGE 4230.

Dual Listed ECON 5230.

When Offered (Normally offered spring semester)

Former Course Number [4340]

Prerequisite: ECON 3020, STAT 2050 or STAT 2070, and MATH 2350.

OR

ECON4530 - Computational Economics

Credits: 3

An introduction to computational tools used to analyze economic data and policies. Provides operational knowledge of how to formulate numerical economic models to conduct analyses of consumer behavior, markets, trade, and state and local fiscal administration. Special emphasis on applications to Wyoming problems.

Dual Listed ECON 5530.

Prerequisite: ECON 3020, and one of STAT 2010, STAT 2050, STAT 2070, or STAT 2110.

Advanced Business Electives

- Any Business Course (3000-level or higher) Credits: 3
- Any Business Course (3000-level or higher) Credits: 3

Minor Total Credits: 15

Real Estate Minor

The Real Estate minor enables students to gain broad understanding of this important market and as a result compete for jobs in many real estate related careers such as real estate management, investment, development, brokerage, appraisal and more.

Real Estate Requirement

FIN3100 - Real Estate Development

Credits: 3

This course presents the basic principles involved in real estate development. Topics include: land acquisition and appraisal, site improvements, market feasibility analysis, development financing, real estate government approval and regulations, real estate engineering and construction issues, real estate marketing and property operations and performances.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: ACCT 2010.

FIN4800 - Real Estate Finance

Credits: 3

Exposes students to the fundamentals of real estate finance such as mortgage financing, commercial leases, pro-forma analysis, financial modeling, tax implications, leveraged real estate and valuation of income producing properties. While the theory of each topic will be presented, the focus is on the applications of the material.

Prerequisite: FIN 2100 and advanced business standing.

FIN4810 - Real Estate Investment

Credits: 3

Covers advance real estate investment topics such as investments risk and valuation sensitivity analysis, futures and real options, liquid real estate investments, analysis of development projects, and commercial mortgage backed securities. While the theory the topics will be presented, the course focus is on the application of the material.

Prerequisite: FIN 2100 and advanced business standing

Real Estate Electives

Complete a minimum of 6 credits with courses from the below list:

ACCT3100 - Financial Statement Analysis

Credits: 3

Advanced study of financial statements and how to analyze those statements from both an internal and external perspective.

Former Course Number [4100, 2000, 3000]

Prerequisite: ACCT 2010 ,ACCT 2020 , FIN 2100 (or equivalent), sophomore class standing.

FIN3310 - Investment Management

Credits: 3

Fundamental principles of investments and practical implications of financial theory. Students acquire a framework for understanding returns on financial assets, risk and return, fundamentals of portfolio theory, efficient market hypothesis, and asset pricing models. Other topics include financial statement analysis, behavioral finance, and introduction to options and futures.

Former Course Number [4310]

Prerequisite: FIN 2100 and advanced business standing.

FIN3520 - Financial Markets

Credits: 3

Portfolio and capital market theory and the analysis of risk are introduced. Integrates theory into practical aspects of financial markets.

Former Course Number [4520]

Prerequisite: FIN 2100, STAT 2010 or STAT 2050/STAT 2070, and advanced business standing.

FIN4510 - Bank Management

Credits: 3

Deals with financial decision-making in financial institutions, particularly emphasizing commercial banks. Topics covered include managing financial assets, deposit acquisition and capital management.

Prerequisite: FIN 2100 and advanced business standing.

FIN4540 - Banking Policy

Credits: 3

Intended to be taken either with or after FIN 4510, Bank Management, and will cover similar topics but in greater depth and breadth. Integrated application of these topics will take place in a selection of case studies, some of which will be analyzed in teams.

Prerequisite: FIN 4510 or concurrent enrollment in FIN 4510.

FIN4710 - Risk Management

Credits: 3

Analyzes the risk management and insurance problem in the business enterprise with emphasis on methodology for risk analysis; techniques for risk and loss control; and models for risk management decision-making.

Dual Listed FIN 5710.

Prerequisite: FIN 2100

MGT4350 - Commercial Law

Credits: 3

A study of the basic principles of commercial law, including property, sales, negotiable instruments, secured transactions, creditors' rights and bankruptcy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

BUSN4600 - Advanced Internship in Business

Credits: 3

Max Credit 6

Provides students with practical business knowledge, policy, procedure, and decision making. Students work as interns in operating organizations.

Prerequisite: MKT 2100, MGT 2100, FIN 2100, advanced business standing, approved internship application through the Peter M. & Paula Green Johnson Student Success Center.

Additional options for electives may be available. Consult your advisor for more options.

ERS4100 - Property I

Credits: 3

Property I addresses the nature of property ownership and the rights associated with property as well as the acquisition and transfer of ownership rights in property and the sharing of ownership rights over time, including estates, future interest, and concurrent estates.

ERS4105 - Property II

Credits: 3

Property II covers rights inherent to the ownership of property and public limitations on those rights.

Prerequisite: ERS 4100.

ERS4110 - Law of Contracts

Credits: 3

The Law of Contracts addresses the formation of a contract and the meaning of agreements and the justification of non-performance and breach.

Prerequisite: MGT 1040 and WB/C

ERS4120 - Federal Public Land Law

Credits: 3

Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

ERS4130 - Oil and Gas Law

Credits: 3

Focuses on the basic legal rules and principles governing the ownership and development of oil and gas, derived from a combination of property, contract, administrative, tort, and constitutional law.

ERS4135 - Advanced Energy Law

Credits: 3

Covers oil, gas and other energy development and financing arrangements including assignments, leases, farmouts, joint operating agreements, purchase and sale agreements, service agreements and marketing agreements. Covers oil, gas and other energy development regulation, including, oil and gas conservation commission and state and federal environmental regulation. Introduces other forms of energy development, including, but not limited to, renewables, nuclear, CCUS, hydrogen, and the various agreement and regulatory nuances of such energy development. Covers ethical issues that may arise in energy development.

USP 2015 Code U5C3

Prerequisite: ERS 4130.

ERS2010 - Introduction to Land Management

Credits: 3

Max Credit 3

Provides an introduction to land management in the various energy industries. Covers the knowledge and skills needed by land professionals including survey systems, land descriptions, mineral ownership, title examination, leases, surface use agreements, and contracts frequently used in the industry. In addition, provides an overview of ethical issues that arise and professional conduct expected in the industry.

Minor Total Credits: 15

Graduate

Accounting, M.S.

Students who wish to become professional accountants will find the online MS in Accounting degree to be one that enables them to develop both the personal and professional skills needed to enjoy a productive career.

Additional Requirements

The objectives of the master of science in accounting are:

- To provide students with an advanced understanding of the field of accounting,
- To provide students with specific advanced knowledge in selected sub-topics within accounting,
- To provide students with professional skills that will enable them to enjoy productive and rewarding careers in accounting and accounting-related areas.

The program consists of a minimum of 30 semester credit hours of graduate coursework. Students must complete coursework in accounting and elective business and/or non-business courses as approved by program leadership. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level accounting or non-accounting courses (approximately six total credit hours). Non-accounting courses should be selected in consultation with the student's graduate adviser. Non-accounting courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director prior to the first day of such classes. Courses reserved for graduate credit may also not be counted towards the undergraduate degree requirements. Approved reservation of courses for graduate credit does not guarantee admission to the graduate program.

Core Accounting Courses

Students must take these 4 core accounting courses (minimum 12 credit hours):

ACCT5030 - Advanced Financial Accounting

Credits: 3

Advanced topics in financial reporting for students planning careers as professional accountants. Topics may include: business combinations, consolidated financial reporting, segment and interim reporting, SEC reporting, multinational accounting and reporting, and other emerging topics.

Restricted MS-ACCT

Prerequisite: Admission to the MS in Accounting Program or department approval.

ACCT5040 - Seminar in Managerial Accounting

Credits: 3

Organizational development of financial and nonfinancial budgets, interaction between performance measurement systems and human behavior, and advanced topics in uses of information for decision making.

Restricted MS-ACCT

Prerequisite: Admission to the MS in Accounting Program or department approval.

ACCT5060 - Auditing II

Credits: 3

An in-depth study of the financial statement audit and the professional responsibilities of public accountants. The role of professional judgment and skepticism is emphasized in case studies and research involving current auditing issues, including financial statement fraud.

Restricted MS-ACCT

Prerequisite: Admission to the MS in Accounting Program or department approval.

ACCT5070 - Tax II

Credits: 3

Choice of entity and special tax subjects. Emphasis will be placed on the importance of ethical considerations, competent tax research, and thoughtful tax planning.

Restricted MS-ACCT

Prerequisite: Admission to the MS in Accounting Program or department approval.

Required Accounting Elective

Students must take one of the following courses:

ACCT5065 - Fraud Examination

Credits: 3

The study of fraud against organizations and individuals. Includes consideration of how and why fraud is committed, the basics of fraud investigation, and fraud prevention. Coverage may also include an in-depth study of specific fraud cases based on the above elements.

Restricted MS-ACCT

Prerequisite: Admission to the MS in Accounting Program or department approval.

ACCT5066 - Seminar on Management Fraud

Credits: 3

An in-depth study and analysis of the causes, methods, and consequences of financial statements fraud committed by top management in the organization. The course covers psychological and criminological theories of management fraud, as well as detailed analysis of high-profile managements frauds. Seminar format.

Restricted MS-ACCT

Prerequisite: Admission to the MS in Accounting Program or department approval.

Note(s):

NOTE: ACCT 4060, ACCT 4900, ACCT 5000, and ACCT 5940 are not applicable to M.S. accounting students' programs of study.

The student must complete the required coursework with a minimum GPA of 3.000 on a 4.000 scale.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid suspension. If a 3.000 GPA is not attained in the subsequent semester, the student will be suspended from the MS Accounting program and the University of Wyoming.

Students must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Finance, M.S.

The MS in Finance program is a rigorous, yet practical program built on the foundations of principles and practices in modern finance, with an optional CFP (Certified Financial Planner) track.

Additional Requirements

The program consists of a minimum of 30 semester hours of graduate coursework. Students must complete coursework in finance and elective business and/or non-business areas as approved by program leadership. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level finance or non-finance courses (approximately six hours). Non-finance courses should be selected in consultation with the student's graduate advisor. Non-finance courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director prior to the first day of such classes. Courses reserved for graduate credit may also not be counted towards the undergraduate degree requirements. Approved reservation of courses for graduate credit does not guarantee admission to the graduate program.

The student must complete the required coursework with a minimum GPA of 3.000 on a 4.000 scale.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid suspension. If the 3.000 GPA is not attained in the subsequent semester, the student will be suspended from the MS in Finance program and the University of Wyoming.

Student must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student may be immediately dismissed from the program

General Finance Track

FIN5310 - Advanced Investment Analysis

Credits: 3

The theory of investment management and security values, portfolio management including the analysis of investment policies and objectives, the analysis and use of investment information, and the development and application of the tools for determining values.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5250 - Cases in Corporate Finance

Credits: 3

Max Credit 3

The goal of this course is to enhance students' understanding of major corporate decisions, and to explore the role such decisions play in value creation within a corporation. Some issues covered in the course will include analyzing companies' historical performance, forecasting future performance, estimating hurdle rates, and analyzing resource allocation choices.

Restricted MS Finance and/or CFP Certificate

Prerequisite: Admission to MS Finance and/or CFP Certificate Program, or department approval

FIN5400 - Advanced Financial Modeling

Credits: 3

Involves the application of basic econometric methods to the analysis of financial data. Focus is on utilizing spreadsheets and other softwares to facilitate financial decision making.

Dual Listed FIN 4400.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

- 21 credit hours of 4000 or 5000 level College of Business electives.
- Maximum of 6 credit hours can be taken at the 4000 level.

CFP Track

FIN5070 - Tax Planning for Financial Planners

Credits: 3

Focuses on principles, current law, and practice of income taxation and its impact on financial planning for individuals, couples, and families in their role as investors, employees, and business owners.

Dual Listed FIN 4070.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5250 - Cases in Corporate Finance

Credits: 3

Max Credit 3

The goal of this course is to enhance students' understanding of major corporate decisions, and to explore the role such decisions play in value creation within a corporation. Some issues covered in the course will include analyzing companies' historical performance, forecasting future performance, estimating hurdle rates, and analyzing resource allocation choices.

Restricted MS Finance and/or CFP Certificate

Prerequisite: Admission to MS Finance and/or CFP Certificate Program, or department approval

FIN5310 - Advanced Investment Analysis

Credits: 3

The theory of investment management and security values, portfolio management including the analysis of investment policies and objectives, the analysis and use of investment information, and the development and application of the tools for determining values.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5400 - Advanced Financial Modeling

Credits: 3

Involves the application of basic econometric methods to the analysis of financial data. Focus is on utilizing spreadsheets and other softwares to facilitate financial decision making.

Dual Listed FIN 4400.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5720 - Insurance and Retirement Planning

Credits: 3

This class is designed to help graduate students understand various topics in retirement and insurance planning for individuals and families.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5750 - Fundamentals of Financial Planning

Credits: 3

This is a survey course for financial planning and wealth management. The topics include insurance planning, tax planning, investment planning, retirement planning, estate planning, and professional conduct. The course will focus on acquiring a framework for understanding the major components of financial planning and developing a coordinated financial plan.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5780 - Estate Planning

Credits: 3

This course will cover general reliability modeling and evaluation; probability and stochastic processes; system modeling; methods of reliability assessment (state space, frequency balancing, cut-set and tie-set analysis, decomposition, Monte Carlo simulation); and reliability modeling and analysis of electric power systems: bulk power systems, distribution systems, and industrial systems.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5800 - CFP Capstone

Credits: 3

This course will be organized around the four major areas of financial planning, as outlined by the College of Financial Planning curriculum. These four key areas are as follow: retirement planning; income tax planning; investment planning; and estate tax planning.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to the MS program or permission of the Department Head.

- 6 credit hours of 4000 or 5000 level College of Business electives.
- Maximum of 6 credit hours can be taken at the 4000 level.

Certificate

Certified Financial Planning Certificate (Graduate)

The certificate is composed of 18-credits of masters-level graduate coursework with the primary goal of providing students with the education, training, and skills necessary to be able to sit for the Certified Financial Planner (CFP) examination.

Additional Requirements

The curriculum is aligned with the CFP® Board's Principal Knowledge Topics and covers principles and practices of essential areas of financial planning, including:

- Wealth Management
- Investment Management
- Tax Planning
- Estate Planning
- Insurance and Retirement Planning

CFP Certificate Requirements

FIN5070 - Tax Planning for Financial Planners

Credits: 3

Focuses on principles, current law, and practice of income taxation and its impact on financial planning for individuals, couples, and families in their role as investors, employees, and business owners.

Dual Listed FIN 4070.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5310 - Advanced Investment Analysis

Credits: 3

The theory of investment management and security values, portfolio management including the analysis of investment policies and objectives, the analysis and use of investment information, and the development and application of the tools for determining values.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5720 - Insurance and Retirement Planning

Credits: 3

This class is designed to help graduate students understand various topics in retirement and insurance planning for individuals and families.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5750 - Fundamentals of Financial Planning

Credits: 3

This is a survey course for financial planning and wealth management. The topics include insurance planning, tax planning, investment planning, retirement planning, estate planning, and professional conduct. The course will focus on acquiring a framework for understanding the major components of financial planning and developing a coordinated financial plan.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5780 - Estate Planning

Credits: 3

This course will cover general reliability modeling and evaluation; probability and stochastic processes; system modeling; methods of reliability assessment (state space, frequency balancing, cut-set and tie-set analysis, decomposition, Monte Carlo simulation); and reliability modeling and analysis of electric power systems: bulk power systems, distribution systems, and industrial systems.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5800 - CFP Capstone

Credits: 3

This course will be organized around the four major areas of financial planning, as outlined by the College of Financial Planning curriculum. These four key areas are as follow: retirement planning; income tax planning; investment planning; and estate tax planning.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to the MS program or permission of the Department Head.

- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Department of Economics

260W Business Building, (307) 766-2175

Web site: www.uwyo.edu/economics

Department Chairman: David Aadland

Wyoming Excellence Chair in Conservation Economics:

H. JO ALBERS, B.S. Duke University 1985; M.E.S. Yale University 1987; Ph.D. University of California at Berkeley 1993; Professor of Economics 2014.

Wyoming Excellence Chair in Economics and McMurry Fellow:

DAVID C. FINNOFF, B.S. University of Wyoming 1994; Ph.D. 2001; Professor of Economics 2018, 2004.

H.A. (Dave) True, Jr. Chair in Petroleum and Natural Gas Economics:

CHARLES F. MASON, A.B. University of California 1977; Ph.D. 1983; Professor of Economics 1994, 1982.

Stroock Chair of Natural Resource and Environmental Economics:

JASON F. SHOGREN, B.A. University of Minnesota-Duluth 1980; Ph.D. University of Wyoming 1986; Professor of Economics 1995.

John S. Bugas Chair in Economics:

TODD CHERRY, B.S.B.A. Appalachian State University 1992; M.A. University of North Carolina Greensboro 1995; Ph.D. University of Wyoming, 1999. Professor of Economics, Graduate Director.

Professors:

TIMOTHY J. CONSIDINE, B.A. Loyola University 1975; M.S. Purdue University 1977; Ph.D. Cornell University 1981; Professor of Economics 2008.

Associate Professors:

DAVID M. AADLAND, B.A. Augustana College 1991; M.S. University of Oregon 1996; Ph.D. 1997; Department Chairman, 2018; Associate Professor of Economics 2005, 2003.

ROBERT GODBY, B.S. Trent University 1990; M.A. University of Guelph 1992; Ph.D. McMaster University 1997; Center for Energy Economics and Public Policy Director, and Associate Professor of Economics 2003, 1997.

THORSTEN M. JANUS, B.A. University of Copenhagen 2000; M.A. University of California at Santa Cruz 2003; Ph.D. 2006; Associate Professor of Economics 2012.

STEPHEN NEWBOLD, B.S. University of California, Davis 1995; M.S. 2002; Ph.D. 2002; Associate Professor of Economics 2018.

ALEXANDRE SKIBA, Specialist Diploma Rivne State Technical University 1999; M.S. Purdue University 2001; Ph.D. 2003; Associate Professor of Economics 2019, 2012.

LINDA THUNSTROM, M.S. Umea University, Sweden 1999; Ph.D. Umea University Sweden 2008; Associate Professor of Economics 2013.

KLAAS T. VAN 'T VELD, B.Sc. University of London 1992; M.S. University of California Berkeley 1993; Ph.D. 1997; Associate Professor of Economics 2010, 2004.

Assistant Professors:

BENJAMIN COOK, B.S. University of Wyoming 2003; Ph.D. 2011; Visiting Assistant Professor/Enhanced Oil Recovery Institute 2012.

FELIX NASCHOLD, B.S. University of London 1994; M.S. 1995; Ph.D. Cornell University 2008; Assistant Professor of Economics 2014.

Academic Professionals:

TYLER KJORSTAD, B.A. College of St. Scholastica 2009; M.S. University of Minnesota Duluth 2012; M.S. University of Wyoming 2014, Director of Undergraduate Studies in Economics.

Professors Emeriti:

Thomas D. Crocker, Owen R. Phillips, Sherrill Shaffer

Business Economics Major

The science of efficient allocation, economics has much to offer students in the way of general and specialized preparation for positions in business, as well as government and the academic profession.

All Business Economics majors must comply with requirements of the advanced business standing prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

A complete curriculum guide is available from the Peter M. & Paula Green Johnson Student Success Center in the College of Business.

Economics and Business Economics majors must hold a 2.500 cumulative grade point average in all economics courses at graduation, as well as a minimum 2.500 cumulative UW grade point average and a minimum 2.500 grade point average in all College of Business courses.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of 4000-level economics courses.

Students who intend to continue on to graduate work are urged to give special attention to courses in economics theory, statistics and mathematics. Those planning a career in econometrics or mathematical economics should consult the department head as to mathematics and statistics requirements in these fields of study.

Economics Undergraduate Major

This program is designed to meet the requirements of AACSB International (the Association to Advance Collegiate Schools of Business), the University of Wyoming, and the College of Business.

Minimum requirements include:

Minimum of 42 semester hours of 3000+ level courses. 30 of the 42 hours must be earned from UW.

2.50 grade point average in all College of Business courses, Economics courses, and all institution (UW) courses.

50% of the business credit hours must be from the University of Wyoming.

Grade of C or above required for University Studies Program: FY, CI, C2, and C3.

Grade of C or above required for common body of knowledge and major specific core courses.

A maximum of 6 hours at the 1/2000 level and 3/4000 level military science may be applied to degrees in the College of Business.

A complete curriculum guide is available from the Peter M. & Paula Green Johnson Student Success Center in the College of Business.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of the 4000-level economics electives.

This program allows considerable flexibility for the student to specialize in interdisciplinary study. For example, the student can be advised on selecting upper level division courses for pre-law study, political economy, environmental and natural resources, women's studies, and international studies.

Students who intend to continue in graduate work should give special attention to courses in economic theory, statistics and mathematics. Those planning a career in mathematical economics or econometrics should consult the department head regarding the mathematics and statistics requirements in these fields of study.

Graduate Study

The Department of Economics offers programs leading to a master of science degree in economics and the doctor of philosophy degree in economics.

Program Specific Admission Requirements

Economics Program

Admission to the economics graduate programs is granted to students who show high promise of success. Candidates of high promise generally have a cumulative grade point average of 3.000 or better (A=4.000) and score above 300 (for MS) and 310 (for PhD) combined on the verbal and quantitative sections of the GRE, with particular emphasis on strong quantitative and analytical scores. Such scores and grades do not guarantee admission.

The TOEFL is required for international students in accordance with University rules.

The Department of Economics requires that students have completed courses in intermediate micro and macro theory (ECON 3010, ECON 3020 or equivalent), statistics, and 6 hours of introductory calculus (MATH 2200, MATH 2205 or equivalent) for the MS program. A course in linear algebra (MATH 2050) is required for the PhD program.

Program Specific Degree Requirements

Master of Science in Economics

A minimum of 18 hours in economics is required; at least 15 of these must be at the 5000 level. A basic core sequence of ECON 5010 (macro), 5390 (math micro), 5530 (computational), 5230 (econometrics), and 5300 (game theory) is required, which completes 15 hours of 5000-level courses, which is required.

The student must complete 26 hours of coursework and 4 hours of ECON 5960 Thesis Research for the Plan A option. The student must complete 30 hours of coursework and a project for the Plan B option.

Students may take 4000-level courses for graduate credit up to 6 hours.

A maximum of 6 semester hours of graduate coursework not used toward any other degree from another institution may be applied to the M.S. economics program subject to regulations regarding transfer of credit listed in this bulletin and with the approval of the director of graduate studies.

At the beginning of the third semester, the student selects a major professor who directs the Plan A thesis or Plan B project. A graduate committee, nominated by the major professor, the student, and the department chair, conducts an oral examination of the student on the project or thesis and area he/she has studied in the program. A favorable report by the committee and approval by the Office of the Registrar complete the degree requirements.

The majority of students complete the M.S. degree within two years.

QuickStart Master of Science in Economics

UW undergraduates can complete the M.S. degree in just one year after completing their B.S. degree if they apply to the QuickStart M.S. program in their junior year. To be eligible, students must have (and maintain) a cumulative GPA of 3.200 or better as well as an Economics GPA of 3.200 or better. They are also required to take the GRE by the fall of their senior year and score above 300 combined on the verbal and quantitative sections combined. The GRE requirement can be waived by the Graduate Director or Director of Undergraduate Studies. Two letters of recommendation from UW economics faculty members are also required. Admission to the QuickStart program allows students to double-count 6 credits of courses taken as an undergraduate towards both the B.S. and M.S. degrees, and reserve an additional 6 credits of courses taken as an undergraduate towards the M.S. degree alone. This then leaves only 18 credits to be taken after completion of the B.S. degree, which is feasible in just one year.

Doctoral Program

Doctor of Philosophy in Economics

The doctor of philosophy degree in the field of economics at the University of Wyoming requires a minimum of 42 hours of coursework. All coursework must be at the graduate (5000) level.

The program is designed to give the student a strong foundation in economic theory and the basic quantitative tools necessary for professional research. If students receive a grade lower than an **A** during their first year, they must take a comprehensive exam in that field (microeconomics and/or econometrics) during the summer to continue to the second year of the PhD program. The program's qualifying exam takes the form of a research paper written during the second summer and defended to, and approved by, a faculty committee by early in the third year, with revisions and resubmission required by December. Students who pass the qualifying paper requirement receive an MS degree and move on in the PhD program, while students who fail this requirement receive the MS degree and fail out of the PhD program.

During the third year, or no later than the first few weeks of the fourth year, a graduate committee nominated by the student's major professor and the director of graduate studies conducts an oral examination of the student. The purpose of the oral examination is to determine whether the student has formulated a workable dissertation project and has the necessary skills to complete it.

Following successful completion of the dissertation, and completion of a departmental requirement of 30 hours of dissertation research, the student presents an oral defense to the graduate committee. The doctor of philosophy degree is granted on recommendation of the committee and approval by the Office of the Registrar, providing all other requirements have been satisfactorily fulfilled.

Major

Business Economics, B.S.

Economics is the science of decision making and how to create value through trade. An business economics degree will provide you the tools to work on challenging policy issues and employ data analytics to address those issues.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on

developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Requirements - Total Credits: 120

Common Body of Knowledge - Credits: 33

College of Business Common Body of Knowledge Courses

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

ACCT2020 - Principles of Accounting II

Credits: 3

Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

ECON1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

MGT2010 - Legal Environment of Business

Credits: 3

Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

FIN2100 - Principles of Finance

Credits: 3

Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200 , and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

MKT2100 - Introduction to Marketing

Credits: 3

An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3

An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

MGT4800 - Business Strategy and Policy

Credits: 3

A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3

Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

BUSN4990 - Senior Exit Exam

Credits: 0

The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

Major Specific Courses - Credits: 21

Economics Core: 9 Credits

ECON3010 - Intermediate Macroeconomics

Credits: 3

A presentation and study of national income aggregates and accounting; equilibrium analysis of output, employment and the price level; general equilibrium analysis; and an introduction to economic dynamics.

Former Course Number [2010, 4010]

Prerequisite: ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

ECON3020 - Intermediate Microeconomics

Credits: 3

Key problems of environmental degradation and natural resource scarcity are identified. Main underlying causes of misuse and overuse are explained from an economics perspective. Policy options for improved management are presented. These economic concepts and tools are then applied to current real world environment and natural resource issues.

Former Course Number [2020, 4020]

Prerequisite: ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

ECON4240 - Evolution of Economic Ideas

Credits: 3

Focuses on the most influential economists who have shaped the evolution of economic thinking throughout history. Emphasis is on tracing the evolution of economic thought into the modern intellectual foundation of economics. Traces changing economic thought from mercantilism through modern paradigms.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Restricted Restricted to Seniors in Economics, Business Economics, or a concurrent major with Economics.

Prerequisite: Senior standing and ECON 3010 and ECON 3020, or permission of instructor.

Economics Electives: 6 Credits

Any Economics Courses at a 4000+ level that have not been used to meet any other primary major requirements.

Advanced Business Electives: 6 Credits

Any business courses at a 3000+ level that have not been used to meet any other primary major requirements.

Free Electives from Any College: 27 Credits

- Courses from any college at any level - Credits: 21
- Courses from any college at a 3000+ level - Credits: 6

Additional Requirements

All Business Economics majors must comply with requirements of the advanced business standing prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

A complete curriculum sheet is available from the Academic Advising unit of the GJSSC in the College of Business Building.

Business Economics majors must hold a 2.500 cumulative grade point average in all economics courses at graduation, as well as a minimum 2.500 cumulative UW grade point average and a minimum 2.500 grade point average in all College of Business courses.

With approval of the department chair or director of undergraduate studies, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of 4000-level economics courses.

Students who intend to continue on to graduate work are urged to give special attention to courses in economics theory, statistics and mathematics. Those planning a career in econometrics or mathematical economics should consult the department head as to mathematics and statistics requirements in these fields of study.

Economics, B.S.

Economics is the science of decision making and how to create value through trade. An economics degree will provide you with the tools to work on challenging policy issues and employ data analytics to address those issues.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Requirements - Total Credits: 120

Major Specific Courses - Credits: 48

Economics Core: 15 Credits

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

ECON1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

ECON3010 - Intermediate Macroeconomics

Credits: 3

A presentation and study of national income aggregates and accounting; equilibrium analysis of output, employment and the price level; general equilibrium analysis; and an introduction to economic dynamics.

Former Course Number [2010, 4010]

Prerequisite: ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

ECON3020 - Intermediate Microeconomics

Credits: 3

Key problems of environmental degradation and natural resource scarcity are identified. Main underlying causes of misuse and overuse are explained from an economics perspective. Policy options for improved management are presented. These economic concepts and tools are then applied to current real world environment and natural resource issues.

Former Course Number [2020, 4020]

Prerequisite: ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

ECON4240 - Evolution of Economic Ideas

Credits: 3

Focuses on the most influential economists who have shaped the evolution of economic thinking throughout history. Emphasis is on tracing the evolution of economic thought into the modern intellectual foundation of economics. Traces changing economic thought from mercantilism through modern paradigms.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Restricted Restricted to Seniors in Economics, Business Economics, or a concurrent major with Economics.

Prerequisite: Senior standing and ECON 3010 and ECON 3020, or permission of instructor.

BUSN4990 - Senior Exit Exam

Credits: 0

The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

Economics Electives: 12 Credits

Any Economics courses at a 4000+ level that have not been used to meet any other primary major requirements.

Optional Quantitative Concentration: 21 Credits

ECON4230 - Intermediate Econometric Theory

Credits: 3

Covers simple and multiple regression models, problems of estimation, hypothesis and diagnostic testing, dummy variable, autoregressive and distributed lag models, and time-series analysis. The objective is to understand the underlying theory of econometric modeling and obtain operational ability to construct, estimate, and test econometric models.

Cross Listed AGEC 4230.

Dual Listed ECON 5230.

When Offered (Normally offered spring semester)

Former Course Number [4340]

Prerequisite: ECON 3020, STAT 2050 or STAT 2070, and MATH 2350.

ECON4530 - Computational Economics

Credits: 3

An introduction to computational tools used to analyze economic data and policies. Provides operational knowledge of how to formulate numerical economic models to conduct analyses of consumer behavior, markets, trade, and state and local fiscal administration. Special emphasis on applications to Wyoming problems.

Dual Listed ECON 5530.

Prerequisite: ECON 3020, and one of STAT 2010, STAT 2050, STAT 2070, or STAT 2110.

Students must take one of the following courses:

STAT4015 - Regression Analysis

Credits: 3

Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.

Former Course Number [4010, 4410]

Prerequisite: STAT 2050 or equivalent

STAT4025 - Design and Analysis of Experiments I

Credits: 3

Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete blocks as time permits.

Dual Listed STAT 5025.

Former Course Number [4020, 4310]

Prerequisite: STAT 2050 or equivalent

Students will need Free Electives from any college at a 3000 + level - Credits: 15

Free Electives from Any College: 33 Credits

Courses from any college at any level - Credits: 33

Additional Requirements

The Economics major in the College of Business must complete 30 semester hours in economics courses.

All Economics majors must comply with course specific prerequisites for enrollment in upper-division courses and must complete all university studies courses as listed above previously. Students must earn a minimum grade of C (not C-) in all Economics courses.

This program is designed to meet the requirements of AACSB International (the Association to Advance Collegiate Schools of Business), the University of Wyoming, and the College of Business.

Minimum requirements include:

Minimum of 42 semester hours of 3000+ level courses. 30 of the 42 hours must be earned from UW.

2.50 grade point average in all College of Business courses, Economics courses, and all institution (UW) courses.

50% of the business credit hours must be from the University of Wyoming.

Grade of C (C- not acceptable) or above required for University Studies Program: FY, CI, C2, and C3.

Grade of C (C- not acceptable) or above required for common body of knowledge and major specific core courses.

A maximum of 6 hours at the 1/2000 level and 3/4000 level military science may be applied to degrees in the College of Business.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of the 4000-level economics electives.

This program allows considerable flexibility for the student to specialize in interdisciplinary study. For example, the student can be advised on selecting upper level division courses for pre-law study, political economy, environmental and natural resources, women's studies, and international studies.

Students who intend to continue in graduate work should give special attention to courses in economic theory, statistics and mathematics. Those planning a career in mathematical economics or econometrics should consult the department head regarding the mathematics and statistics requirements in these fields of study.

Minor

Economics Minor

Economics is the science of decision making and how to create value through trade. An economics degree will provide you the tools to work on challenging policy issues and employ data analytics to address those issues.

Economics Requirement

ECON3010 - Intermediate Macroeconomics

Credits: 3

A presentation and study of national income aggregates and accounting; equilibrium analysis of output, employment and the price level; general equilibrium analysis; and an introduction to economic dynamics.

Former Course Number [2010, 4010]

Prerequisite: ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

ECON3020 - Intermediate Microeconomics

Credits: 3

Key problems of environmental degradation and natural resource scarcity are identified. Main underlying causes of misuse and overuse are explained from an economics perspective. Policy options for improved management are presented. These economic concepts and tools are then applied to current real world environment and natural resource issues.

Former Course Number [2020, 4020]

Prerequisite: ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

Advanced Economics Electives

- Any ECON Course Credits: 3 (excl. ECON 3010, ECON 3020)
- Any ECON Course (4000-level) Credits: 6

Minor Total Credits: 15

Graduate

Economics, M.S.

Economics is the science of decision making and how to create value through trade. An economics degree will provide you with the tools to work on challenging policy issues and employ data analytics to address those issues.

Requirements - Total Credits: 30

Required Economics Courses - Credits: 15

ECON5010 - Advanced Macroeconomic Analysis

Credits: 3

An advanced application of economic theory to complex macroeconomics problems facing the economy of the state and nation, such as inflation, unemployment, and fiscal and monetary policies.

Prerequisite: ECON 3010, ECON 3020, or equivalent.

ECON5230 - Intermediate Econometric Theory

Credits: 3

Covers simple and multiple regression models, problems of estimation, hypothesis and diagnostic testing, dummy variable, autoregressive and distributed lag models, and time-series analysis. The objective is to understand the underlying theory of econometric modeling and obtain operational ability to construct, estimate, and test econometric models.

Cross Listed AGECE 5230.

Dual Listed ECON 4230.

Prerequisite: admission to the Master's Program in Economics.

ECON5300 - Game Theory

Credits: 3

Discusses a variety of important concepts from game theory - the study of how individuals interact strategically. The course focuses on the development of students' ability to think strategically. To that end the course covers basic concepts in game theory.

Restricted Course is restricted to MS ECON

Prerequisite: admission to the graduate program in Economics and Finance.

ECON5390 - Math Microeconomics

Credits: 3

This course provides a broad set of practical tools that allow an analysis of important economic problems. The mathematical tools analyze human behavior and predict the response of economic systems to changes in circumstances and alternative policies, for applications such as investment project evaluation, capacity expansion, production decisions, or demand for various goods.

Dual Listed ECON 4390.

Prerequisite: ECON 3010, ECON 3020, MATH 2205 or MATH 2355.

ECON5530 - Computational Economics

Credits: 3

An introduction to computational tools used to analyze economic data and policies. Provides operational knowledge of how to formulate numerical economic models to conduct analyses of consumer behavior, markets, trade, and state and local fiscal administration. Special emphasis on applications to Wyoming problems.

Dual Listed ECON 4530.

Prerequisite: admission to the Master's program in Economics.

Graduate Elective Courses

Plan A - 12 hours of Graduate electives required plus 4 credits of Thesis Research credit

Plan B - 15 hours of Graduate electives.

A maximum of 6 hours can be taken at the 4000 level.

Additional Requirements

Program Specific Degree Requirements

A minimum of 18 hours in economics is required; at least 15 of these must be at the 5000 level. A basic core sequence of ECON 5010 (macro), ECON 5390 (math micro), ECON 5530 (computational), ECON 5230 (econometrics), and ECON 5300 (game theory) is required, which completes 15 hours of 5000-level courses, which is required.

The student must complete 26 hours of coursework and 4 hours of ECON5960 - Thesis Research for the Plan A option. The student must complete 30 hours of coursework and a project for the Plan B option.

Students may take 4000-level courses for graduate credit up to 6 hours.

A maximum of 6 semester hours of graduate coursework not used toward any other degree from another institution may be applied to the M.S. economics program subject to regulations regarding transfer of credit listed in this bulletin and with the approval of the director of graduate studies.

At the beginning of the third semester, the student selects a major professor who directs the Plan A thesis or Plan B project. A graduate committee, nominated by the major professor, the student, and the department chair, conducts an oral examination of the student on the project or thesis and area he/she has studied in the program. A favorable report by the committee and approval by the Office of the Registrar complete the degree requirements.

The majority of students complete the M.S. degree within two years.

QuickStart Master of Science in Economics

UW undergraduates can complete the M.S. degree in just one year after completing their B.S. degree if they apply to the QuickStart M.S. program in their junior year. To be eligible, students must have (and maintain) a cumulative GPA of 3.200 or better as well as an Economics GPA of 3.200 or better. They are also required to take the GRE by the fall of their senior year and score above 300 combined on the verbal and quantitative sections combined. The GRE

requirement can be waived with letters of recommendation from two UW faculty members. Admission to the QuickStart program allows students to double-count 6 credits of courses taken as an undergraduate towards both the B.S. and M.S. degrees, and reserve an additional 6 credits of courses taken as an undergraduate towards the M.S. degree alone. This then leaves only 18 credits to be taken after completion of the B.S. degree, which is feasible in just one year.

Economics, Ph.D.

Economics is the science of decision making and how to create value through trade. An economics degree will provide you with the tools to work on challenging policy issues and employ data analytics to address those issues.

Requirements - Total Credit Hours: 72

Required Economics Courses - Credits: 30

ECON5010 - Advanced Macroeconomic Analysis

Credits: 3

An advanced application of economic theory to complex macroeconomics problems facing the economy of the state and nation, such as inflation, unemployment, and fiscal and monetary policies.

Prerequisite: ECON 3010, ECON 3020, or equivalent.

ECON5020 - Advanced Microeconomic Analysis

Credits: 3

A rigorous course in the analysis of demand and the theory of consumer behavior, supply and the theory of the firm, market equilibrium and stability, and income distribution.

Prerequisite: ECON 3010, ECON 3020, or equivalent.

ECON5120 - Advanced Analysis II-Microeconomics

Credits: 3

Part of a sequence with ECON 5020. It is advanced microeconomic analysis covering general equilibrium and welfare economics, and advanced topics in consumption and production theory.

Prerequisite: ECON 5010, ECON 5020.

ECON5130 - Dynamic Optimization

Credits: 3

Covers methods for obtaining the optimal choice for economic variables that change over time, including calculus of variations and optimal control. These methods are applied to various dynamic economic problems, including optimal resource extraction, optimal capital allocation, and optimal growth.

Prerequisite: ECON 5020, ECON 5370.

ECON5310 - Research Methods

Credits: 3

A variety of topics of importance to the advanced student who is preparing to write his or her dissertation are discussed.

Restricted Economics Graduate Students

Prerequisite: Admission to the graduate program in Economics

ECON5330 - Advanced Mathematical Economics

Credits: 3

Study of the principal mathematic techniques used in economic theory and modeling. Taught jointly with ECON 5020.

Prerequisite: graduate standing.

ECON5350 - Advanced Econometrics Theory I

Credits: 3

Review topics in probability theory and mathematical statistics. Also provides an introduction to the classical linear regression model, estimation, hypothesis testing, and prediction.

Prerequisite: Calculus and Basic Statistics.

ECON5360 - Advanced Econometrics Theory II

Credits: 3

Continue the analysis in ECON 5350 and cover topics such as panel data, limited-dependent variables, simultaneous systems, nonlinear models, Bayesian analysis, and time series methods.

Prerequisite: ECON 5350.

ECON5400 - Advanced Resource and Environmental Economics

Credits: 3

This course examines how we use economics to sharpen natural resource use and environmental policy. We focus on the behavioral and institutional underpinnings of market success and failures, choice under risk, time, space, conflict, cooperation, incentive design, non-market valuation, and prosperity.

Prerequisite: ECON 3020, ECON 4400 or consent of instructor.

ECON5410 - Seminar in Advanced Resource and Environmental Economics

Credits: 1-3
Max Credit (Max. 6)

This course explores the modern theory and empirics in environmental and natural resource economics. We focus on cost-benefit analysis, land use, energy, biodiversity protection, climate change, forestry, ecosystem services, fisheries, water, and sustainable development.

Prerequisite: ECON 4400 and ECON 5020.

Graduate Elective Courses - Credits: 12

Dissertation Research - Credits: 30

Additional Requirements

The doctor of philosophy degree in the field of economics at the University of Wyoming requires a minimum of 42 hours of coursework. All coursework must be at the graduate (5000) level.

The program is designed to give the student a strong foundation in economic theory and the basic quantitative tools necessary for professional research. If students receive a grade lower than a A during their first year, they must take a comprehensive exam in that field (microeconomics and/or econometrics) during the summer to continue to the second year of the PhD program. The program's qualifying exam takes the form of a research paper written during the second summer and defended to, and approved by, a faculty committee by early in the third year, with revisions and resubmission required by December. Students who pass the qualifying paper requirement receive an MS degree and move on in the PhD program, while students who fail this requirement receive the MS degree and fail out of the PhD program.

During the third year, or no later than the first few weeks of the fourth year, a graduate committee nominated by the student's major professor and the director of graduate studies conducts an oral examination of the student. The purpose of the oral examination is to determine whether the student has formulated a workable dissertation project and has the necessary skills to complete it.

Following successful completion of the dissertation, and completion of a departmental requirement of 30 hours of dissertation research, the student presents an oral defense to the graduate committee. The doctor of philosophy degree is granted on recommendation of the committee and approval by the Office of the Registrar, providing all other requirements have been satisfactorily fulfilled.

Department of Management and Marketing

College of Business 354, (307) 766-3124

FAX: (307) 766-3488

Web site: business.uwyo.edu/mgmtmkt

Department Chairman: Andrew Arnette

Professors:

PATRICK M. KREISER, B.A. John Carroll University 1997; M.B.A. University of Alabama 1999; Ph.D. 2004; Professor of Management and Rile Chair of Entrepreneurship and Leadership 2021, 2018.

MARK LEACH, B.S. University of Arizona 1991; Ph.D. Georgia State University 1998; Professor of Marketing 2016.

RICHARD C. MCGINITY, A.B. Princeton University 1966; M.B.A. Harvard Business School 1973; D.B.A. 1980; Bill Daniels Chair of Business Ethics 2007; Professor of Management and Marketing 2009.

C. MARK PETERSON, B.A. University of Virginia 1978; M.S. Georgia Institute of Technology 1989; Ph.D. 1994; Professor of Marketing 2014, 2007.

LINDA PRICE, B.A. University of Wyoming; M.B.A. University of Wyoming; Ph.D. University of Texas Austin; Professor of Marketing 2020.

ROBERT D. SPRAGUE, B.S.B.A. University of Denver 1980; J.D. 1985; M.B.A. University of Southern California 1999; Professor of Legal Studies in Business 2016, 2004.

Associate Professors:

ANDREW ARNETTE, B.S. Virginia Polytechnic Institute & State University 2000; M.B.A. Virginia Polytechnic Institute & State University 2002; Ph.D. Virginia Polytechnic Institute & State University 2010; Associate Professor of Decision Science 2018, 2012.

GRANT L. LINDSTROM, B.S. Utah State University 1981; M.B.A. University of Utah 1986; Ph.D. 1989; Associate Professor of Management 1996, 1990.

ELIZABETH A. MINTON, B.S. University of Alaska Southeast 2008; M.B.A. Idaho State University 2010; Ph.D. University of Oregon 2014; Associate Professor of Marketing 2018, 2014.

STEPHANIE A. ONETO, B.S. University of Nebraska-Lincoln 1999; M.A. University of Houston 2001; Ph.D. 2007; Associate Professor of Marketing 2014, 2007.

RONN J. SMITH, B.S. Montana State University 1999; M.A. Montana State University 2000; Ph.D. Washington State University 2004; Associate Professor of Marketing 2020.

CHASE THIEL, B.S. Idaho State University 2009; M.S. University of Oklahoma 2009; Ph.D. 2012; Associate Professor of Management 2019, 2016.

Assistant Professors:

MOLLY R. BURCHETT, B.A. Transylvania University 2009; M.A. University of Kentucky 2014; Ph.D. University of Kentucky 2020.

MATTHEW FOX, B.A. Colorado College 2000; M.B.A. University of Nevada 2007; Ph.D. Duke University 2015; Assistant Professor of Entrepreneurship 2018.

JACOB HOLWERDA, B.A. Cornell University 2006; M.S. Cornell University 2009; Ph.D. Cornell University 2014; Assistant Professor of Management 2020.

NICHOLAS PRINCE, B.S. Kansas State University 2004; M.B.A. Brigham Young University 2009; Ph.D. University of Illinois Urbana-Champaign 2015; Assistant Professor of Management 2016.

Academic Professionals:

R. CLIFFORD ASAY, B.S. Brigham Young University 1991; M.B.A. Portland State University 1998; Senior Lecturer 2011, 2006.

COREY A. BILLINGTON, B.S. Stanford University 1981; M.S. 1981; Ph.D. 1987; Professor of Practice 2015.

CASEY FROME, B.S. University of Wyoming 2009; M.P.A. 2014; J.D. 2014; Assistant Lecturer 2018.

ERIC J. KRSZJZANIEK, B.A. University of Wisconsin-Stevens Point 2005; M.A. University of Wyoming 2014; Ph.D. 2018; Assistant Lecturer 2018.

GREG C. LIVINGSTON, B.A. University of Wyoming 1996; M.A. 2018; Assistant Lecturer 2018.

Professors Emeriti:

Robert E. Allen, John H. Jackson, Anthony F. McGann, J. Brooks Mitchell, Terri L. Rittenburg, Robert G. Roe, Philip E. Varca, Larry R. Weatherford

The Department of Management and Marketing offers programs of study leading to the Bachelor of Science in Business degrees in (1) Management, (2) Marketing, (3) Entrepreneurship, and (4) Professional Sales. The departmental requirements for each of these degree programs are listed below.

All majors in the Department of Management and Marketing must meet requirements of the advanced business standing, complete the common body of knowledge, major courses, and MGT 4800 with a minimum grade of C (not C-).

Non-business majors may take business courses, and are not held to advanced business standing.

College of Business 3000- and 4000- level courses are reserved for those with junior or senior level standing whether majors or non-majors unless otherwise noted.

Decision Sciences

The decision sciences courses are a supplement for students with a variety of majors. The curriculum provides analytic skills based in both numerical data and behavioral evidence to facilitate problem solving, planning/project management, and decision making within organizations and across supply chains.

Entrepreneurship

The Entrepreneurship major is designed to assist students who wish to start their own businesses by providing them with exposure to the development and testing of business concepts. Analyzing the potential success of their concepts using a variety of tools and techniques, being flexible in developing new businesses and innovative ideas, and formulating and implementing business plans that will assist in the establishment and growth of these new ventures. The major provides students with exposure to issues involving family firms such as governance, succession and interpersonal relationships as well as innovation and change in existing organizations. Thus, the major focuses on entrepreneurship in both new ventures and established firms and prepares students to 1) start new businesses, 2) innovate in their own family firms, and/or 3) be entrepreneurial in an existing business.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Management

The Management major focuses on using resources to achieve goals in organizations. It studies the activities and operations that bring together human, financial, material, and information resources. Management majors should graduate with an understanding of the business world and a set of tools to manage successfully parts or all of an organization's operations. The Management degree allows students the ability to customize their degree within one of two tracks:

1) Human Resources Track - An experiential-learning focused program designed to prepare students to develop and manage the human capital of an organization. Students will be prepared to develop and implement policies and practices for recruitment, socialization, training, development, compensation, performance management, career planning, and employee relations. As more organizations move away from viewing employees as a commodity, toward an understanding that employees are a resource that can be developed into a distinct competitive advantage to ensure organizational success, sustainability, and reputation in the human resource function in the workplace will become increasingly important. This track will help employees understand the core functions of the area of human resource management are to a) recognize the potential of individuals for and within an organization and b) structure a positive, supportive, constructive work environment that will enable employees to work at their optimal capacity and achieve organizational goals.

2) General Management Track - A multi-faceted program designed to prepare students to manage multiple business functions across a variety of organizational types. A particular emphasis is to help develop interpersonal and problem-solving skills so they are capable of resolving a broad spectrum of problems for large or small organizations, or consult with organizations about these issues. This track is designed to provide students with a large degree of flexibility when considering different career paths, because students will be prepared to systematically think through the processes that organizations use to create and maintain sustainable competitive advantage. The track prepares students to work in for-profit businesses, non-profit organizations, entrepreneurial ventures, or in government organizations

The Management major, including both tracks, is available to students as an online degree completion program.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Marketing

Marketing is a societal process and a set of organizational functions for creating, communicating, and delivering value to customers and for managing relationships in ways to benefit local and global stakeholders. Marketing majors are employed in a wide variety of industries and governmental agencies where understanding and managing customer relationships are critical. Students find jobs in market research, advertising, public relations, professional selling, non-profit marketing, product management, retailing, digital marketing and brand management.

The Marketing Major is available to students as an online degree completion program.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Professional Sales

The Professional Sales major prepares students to manage business clients of for-profit and nonprofit organizations. Specifically, this major provides business students with coursework and opportunities to equip themselves with essential knowledge and skills required to begin professional careers in sales. Careers in sales offer independence,

ample financial reward, personal growth and opportunities for rapid advancement within organizations. Students that pursue a degree in professional sales will be challenged with industry engagement opportunities such as internships, and sales competitions. Students experience rigorous classroom experiences designed to develop the knowledge and practical skills needed to succeed during the first years of their sales careers including: oral and written communication skills, selling techniques and networking, the use of sales technology and customer information, and sales pipeline management.

All professional sales majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All professional selling courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Graduate Study

The Department of Management and Marketing offers a Ph.D. in Marketing. Some 4000- and 5000-level classes may be counted as graduate classes in other programs.

Doctoral Program

Doctor of Philosophy in Marketing

The Department of Management and Marketing offers a program leading to a Doctor of Philosophy in Marketing. The program of study draws from extant marketing theory, primarily in consumer behavior, combined with studies in the basic sciences (e.g., anthropology, psychology, sociology) and other applied sciences (e.g., environmental sciences) to create a base of knowledge acceptable for marketing scholarship in higher education, and a depth of knowledge conducive to a stream of publishable research in a specific topic area. Theoretical development is supplemented with course work in the gathering and analysis of qualitative and quantitative data, which prepares the student for rigorous exploration of marketing phenomena. Students are required to complete 72 semester hours and a scholarly dissertation that contributes to the knowledge foundations in marketing and contributes to the basic sciences that informed the inquiry. Semester hours will include core marketing classes, outside elective courses in statistics, basic social sciences, and/or interdisciplinary studies in environmental and natural resources, and dissertation work. First and second year research projects are also required, aimed at the student having published articles in respected marketing and social science journals before program completion. Comprehensive exam is completed at the end of the second semester.

All doctoral students are expected to teach while enrolled in the program. The program is designed to give students a strong research background and intensive teaching experience.

Application Deadlines

We begin accepting applications in October for the following fall semester. All completed applications must be submitted by February 1st.

Admission Requirements

- A bachelor's degree and working toward or completion of a master's degree from an accredited institution, preferably in business or a core social science discipline
- Completed application (i.e., all required materials submitted) on the UW Graduate Programs Applications system

- \$50 application fee paid to University Admissions
- Copies of **all** undergraduate and graduate program transcripts scanned and uploaded to the UW system, and official transcripts from each post-secondary institution attended submitted to the UW admissions office
- A valid GRE or GMAT score. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be requested from the testing organization and sent to UW
- Three strong letters of recommendation, including one or more from an academic. The letters must be uploaded by the recommenders to the UW system in MS Word or .pdf format
- A personal statement summarizing your interest in pursuing doctoral studies and speaking to questions or issues you wish to research. This document must be uploaded to the UW system as an MS Word or .pdf document
- For international students, Test of Foreign Language (TOEFL) scores are required. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be submitted to UW from the testing organization. A minimum TOEFL score of 76 (online) or 540 (paper) is required for admission.

Major

Entrepreneurship, B.S.

For students who wish to start their own businesses, provides exposure to the development and testing of business concepts, and formulating and implementing business plans that will assist in the establishment and growth of these new ventures.

Requirements - Total Credits: 120

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Common Body of Knowledge - Credits: 33

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

ACCT2020 - Principles of Accounting II

Credits: 3

Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3

An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

ECON1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

FIN2100 - Principles of Finance

Credits: 3

Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200 , and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

MGT2010 - Legal Environment of Business

Credits: 3

Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior,

design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

MKT2100 - Introduction to Marketing

Credits: 3

An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

MGT4800 - Business Strategy and Policy

Credits: 3

A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3

Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

BUSN4990 - Senior Exit Exam

Credits: 0

The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

Major Specific Courses - Credits: 21

Entrepreneurship Core: 12 Credits

ENTR2700 - Entrepreneurial Mindset

Credits: 3

This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

Prerequisite: COM1, sophomore class standing.

ENTR3700 - Innovation, Ideation, and Value Proposition

Credits: 3

This course explores opportunity recognition, innovation, and building value propositions based on customer discovery through interviews, surveys, and other methods. Students learn to develop a lean start-up and build customer focused value propositions. The focus is on rapid hypothesis testing and developing minimum viable products.

Prerequisite: ENTR 2700.

ENTR4700 - Business Model Creation and Launch

Credits: 3

Students build on previous learning to develop a complete business model including sales and marketing strategies, operations, financial forecasts, and partners. Deliverables include a pitch to start-up investors as part of a real-world entrepreneurship experience (for example, an entrepreneurship competition). Students learn primarily through hands-on application of concepts.

Prerequisite: ENTR 3700.

ENTR4750 - Theories of Entrepreneurship

Credits: 3

A broad examination of historical, literary, and business perspectives on entrepreneurship. Students explore the role of individuals, new ventures, and established organizations in the discovery, evaluation, and exploitation of opportunities. Emphasis is on the evolution of entrepreneurship theories over time, and current trends related to the application of these theories.

Prerequisite: ENTR 3700.

Entrepreneurship Elective: 3 Credits

Choose 1 from the following:

ENTR4910 - Topics in Entrepreneurship

Credits: 3

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Prerequisite: Junior class standing, consent of instructor

ENTR4900 - Independent Study in Entrepreneurship

Credits: 1-4

Max Credit 6

This course provides students the opportunity to study on an individual basis, any aspect of Entrepreneurship not included in other structure Entrepreneurship courses

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MGT2030 - Principle-Based Ethics

Credits: 3

Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

MKT4590 - Sustainable Business Practices

Credits: 3

A close look at what is happening in business practice today through the lens of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed INST 4590.

Dual Listed MKT 5590.

Prerequisite: advanced business standing.

Advanced Business Electives: 6 Credits

Any business course at a 3000 - 4000 level that has not been used to meet any other primary major requirements.

Free Electives from Any College - Credits: 27

21 (or 24*) of the 27 required hours must be 3000 - 4000 level which have not been used to meet any other requirement.

- Courses from any college at any level - Credits: 6 (or 3*)
- Courses from any college at 3000 - 4000 level - Credits: 21 (or 24*)

* If *MGT 2030* is selected as the *Entrepreneurship Elective*

Additional Requirements

The Entrepreneurship major is designed to assist students who wish to start their own businesses by providing them with exposure to the development and testing of business concepts. Analyzing the potential success of their concepts using a variety of tools and techniques, being flexible in developing new businesses and innovative ideas, and formulating and implementing business plans that will assist in the establishment and growth of these new ventures. The major provides students with exposure to issues involving family firms such as governance, succession and interpersonal relationships in both new ventures and established firms and prepares students to 1) start new businesses, 2) innovate in their own family firms and/or 3) be entrepreneurial in an existing business.

Management, B.S.

Studies the activities and operations that bring together human, financial, material, and information resources to achieve goals in organizations. Students can customize their degree within one of two tracks: Human Resources or General Management.

Requirements - Total Credits: 120

University Studies Program

Major Specific Courses - Credits: 21

Management Core - Credits: 15

MGT3410 - Human Resources Management

Credits: 3

A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

Prerequisite: MGT 2100 and advanced business standing.

MGT3420 - Organizational Behavior and Leadership

Credits: 3

An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

- Choose any 3 Approved Elective Courses within the same track area Credits: 9

Human Resources Track

MGT2030 - Principle-Based Ethics

Credits: 3

Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

MGT4220 - Talent Acquisition

Credits: 3

In Human Resource Management one core function is recruiting and selecting the best talent to drive organizational success. Students will learn how to analyze jobs and develop recruitment plans to find qualified individuals, how to conduct professional and valid interviews, and how to successfully onboard employees into the organization.

Prerequisite: MGT 3410

MGT4240 - Performance and Compensation

Credits: 3

In Human Resource Management the management of employee performance and compensation are key functions that drive organizational success. This course helps students become familiar with total compensation systems, including intrinsic and extrinsic rewards, base and variable pay, and benefits, and their relationship with employee performance and satisfaction.

Prerequisite: MGT 3410

MGT4260 - Training and Development

Credits: 3

In Human Resource Management training employees in the latest technical and managerial skills and helping them gain developmental experiences helps drive organizational success. Students will learn how to recognize training and developmental needs, how to develop employee training systems, and how to implement these training systems. Additionally, students will learn about career and leader development.

Prerequisite: MGT 3410

MGT4470 - Negotiations and Conflict Resolution

Credits: 3
Max Credit 3

Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3

Prerequisite: MGT 2100, advanced business standing.

MGT4900 - Independent Study in Management

Credits: 1-4
Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Management not included in other structured management courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MGT4910 - Topics in Management

Credits: 3
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

General Management Track

MGT2030 - Principle-Based Ethics

Credits: 3
Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

MGT4340 - Law for Managers

Credits: 3

Provides an overview of laws and legal issues associated with managing a business, incorporating aspects of sustainable business practices. Topics include agency and employment, business organizations, including securities laws and corporate governance standards, government regulation of businesses, including environmental/sustainability regulations, and an introduction to international law and global economy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4350 - Commercial Law

Credits: 3

A study of the basic principles of commercial law, including property, sales, negotiable instruments, secured transactions, creditors' rights and bankruptcy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4470 - Negotiations and Conflict Resolution

Credits: 3

Max Credit 3

Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3

Prerequisite: MGT 2100, advanced business standing.

MGT4900 - Independent Study in Management

Credits: 1-4

Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Management not included in other structured management courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

Credits: 3

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

DSCI4240 - Computer Applications in Decision Sciences

Credits: 3

A study of decision science topics such as mathematical programming, Monte Carlo simulation, forecasting, project management and decision theory. The applications of computer techniques is emphasized.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, and junior class standing.

DSCI4260 - Project Management

Credits: 3

Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

ENTR2700 - Entrepreneurial Mindset

Credits: 3

This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

Prerequisite: COM1, sophomore class standing.

ENTR3700 - Innovation, Ideation, and Value Proposition

Credits: 3

This course explores opportunity recognition, innovation, and building value propositions based on customer discovery through interviews, surveys, and other methods. Students learn to develop a lean start-up and build customer focused value propositions. The focus is on rapid hypothesis testing and developing minimum viable products.

Prerequisite: ENTR 2700.

MKT4240 - Consumer Behavior

Credits: 3

A study of the dimensions of the consumer market and decision-making processes of consumers through analyzing economic, personal, social and situational influences on the consumer market and on buying behavior.

Prerequisite: MKT 2100, junior class standing.

SELL3310 - Professional and Technical Selling

Credits: 3

This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused opportunities within their field.

USP 2015 Code U5C2

Prerequisite: COM1 and sophomore class standing.

Advanced Business Electives: 6 Credits

Any business courses at a 3000 - 4000 level that have not been used to meet any other primary major requirements.

Free Electives from Any College: 27 Credits

18 (or 21 or 24*) of the 27 required hours must be 3000 - 4000 level which have not been used to meet any other requirement.

- Courses from any college at any level - Credits: 9 (or 6 or 3*)
- Courses from any college at 3000 - 4000 level - Credits: 18 (or 21 or 24*)

** 21 hours if MGT 2030 or ENTR 2700 are selected as one of the courses within either track; 24 hours if both courses are selected.*

Additional Requirements

The Management major focuses on using resources to achieve goals in organizations. It studies the activities and operations that bring together human, financial, material, and information resources. Management majors should graduate with an understanding of the business world and a set of tools to manage successfully parts or all of an organization's operations. The Management degree allows students the ability to customize their degree within one of two tracks:

1) Human Resources Track - An experiential-learning focused program designed to prepare students to develop and manage the human capital of an organization. Students will be prepared to develop and implement policies and practices for recruitment, socialization, training, development, compensation, performance management, career planning, and employee relations. As more organizations move away from viewing employees as a commodity, toward an understanding that employees are a resource that can be developed into a distinct competitive advantage to ensure organizational success, sustainability, and reputation in the human resource function in the workplace will become increasingly important. This track will help employees understand the core functions of the area of human resource management are to a) recognize the potential of individuals for and within an organization and b) structure a positive, supportive, constructive work environment that will enable employees to work at their optimal capacity and achieve organizational goals.

2) General Management Track - A multi-faceted program designed to prepare students to manage multiple business functions across a variety of organizational types. A particular emphasis is to help develop interpersonal and problem-solving skills so they are capable of resolving a broad spectrum of problems for large or small organizations, or consult with organizations about these issues. This track is designed to provide students with a large degree of flexibility when considering different career paths, because students will be prepared to systematically think through the processes that organizations use to create and maintain sustainable competitive advantage. The track prepares students to work in for-profit businesses, non-profit organizations, entrepreneurial ventures, or in government organizations.

The Management major, including both tracks, is available to students as an online degree completion program.

All management majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

All management courses for the major require a minimum grade of C (not C-).

Marketing, B.S.

Marketing is a societal process and a set of organizational functions for creating, communicating, and delivering value to customers, and for managing relationships in ways to benefit local and global stakeholders.

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Common Body of Knowledge - Credits: 33

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

ACCT2020 - Principles of Accounting II

Credits: 3

Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3

An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGECE 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

ECON1020 - Principles of Microeconomics

Credits: 3

You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

FIN2100 - Principles of Finance

Credits: 3

Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200 , and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

MGT2010 - Legal Environment of Business

Credits: 3

Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

MKT2100 - Introduction to Marketing

Credits: 3

An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

MGT4800 - Business Strategy and Policy

Credits: 3

A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3

Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

BUSN4990 - Senior Exit Exam

Credits: 0

The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

Major Specific Courses - Credits: 21

Marketing Core - Credits: 9

MKT4240 - Consumer Behavior

Credits: 3

A study of the dimensions of the consumer market and decision-making processes of consumers through analyzing economic, personal, social and situational influences on the consumer market and on buying behavior.

Prerequisite: MKT 2100, junior class standing.

MKT4450 - Advanced Marketing Management

Credits: 3

This course is designed to integrate prior marketing classes. Primary focus is on utilizing marketing concepts and tools in a strategic marketing decision-making context.

USP 2015 Code U5C3

Prerequisite: MKT 2100 , MKT 4520, junior class standing.

MKT4520 - Marketing Research and Analysis

Credits: 3

Investigation of the systematic procedures and tools of research available to the marketing researcher, including a survey of contemporary practices.

Prerequisite: MKT 2100, junior class standing.

Marketing Electives - Credits: 6

Choose 2 of the following:

MKT4230 - Integrated Marketing Communication

Credits: 3

Introduction to integrated marketing communication, the coordination of an organization's advertising and promotional efforts. Emphasis on how marketing communication is used by organizations to further their marketing objectives. Among the tools available to the integration process are advertising, sales promotion, personal selling, sponsorship marketing, and public relations.

Prerequisite: MKT 2100, advanced business standing.

MKT4250 - Digital Marketing

Credits: 3

This is an investigation of the digital marketing discipline with an emphasis on e-commerce models, online advertising, digital consumer behavior, privacy considerations, website structure, search engine optimization and social media marketing.

Prerequisite: MKT 2100

MKT4440 - Services Marketing

Credits: 3

This course is designed for students who may be interested in working in service industries and will address the distinct needs and problems of service firms in the area of marketing.

Prerequisite: HOSP 2000 or MKT 2100 .

MKT4540 - International Marketing

Credits: 3

Approaches the topic of international marketing from a managerial perspective. Exposure to world environmental

characteristics and interdependencies, as well as objectives, strategies and tactics of marketing goods and services to various countries and cultures.

Cross Listed INST 4540.

Prerequisite: MKT 2100 and junior class standing.

MKT4590 - Sustainable Business Practices

Credits: 3

A close look at what is happening in business practice today through the lens of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed INST 4590.

Dual Listed MKT 5590.

Prerequisite: advanced business standing.

MKT4900 - Independent Study in Marketing

Credits: 1-4

Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Marketing not included in other structured marketing courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MKT4910 - Topics in Marketing

Credits: 3

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

SELL3310 - Professional and Technical Selling

Credits: 3

This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused

opportunities within their field.

USP 2015 Code U5C2

Prerequisite: COM1 and sophomore class standing.

Advanced Business Electives: 6 Credits

Any business courses at a 3000 - 4000 level that have not been used to meet any other primary major requirements.

Free Electives from Any College - Credits: 27

- Courses from any college at any level - Credits: 9
- Courses from any college at a 3000 - 4000 level - Credits: 18

Additional Requirements

Marketing is a societal process and a set of organizational functions for creating, communicating, and delivering value to customers, and for managing relationships in ways to benefit local and global stakeholders. Marketing majors are employed in a wide variety of industries and governmental agencies where understanding and managing customer relationships are critical. Students find jobs in market research, advertising, public relations, professional selling, non-profit marketing, product management, retailing, digital marketing, and brand management.

The Marketing major is available to students as an online degree completion program.

Professional Sales, B.S.

Prepares students to manage business clients of for-profit and nonprofit organizations. Rigorous classroom experiences and industry opportunities equip students with essential knowledge and skills required to begin professional careers in sales.

Requirements - Total Credits: 120

University Studies Program

The University Studies Program 2015

The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

Major Specific Courses - Credits: 21

Professional Sales Core - Credits: 12

SELL3310 - Professional and Technical Selling

Credits: 3

This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused opportunities within their field.

USP 2015 Code U5C2

Prerequisite: COM1 and sophomore class standing.

SELL4310 - Advanced Selling

Credits: 3

This course provides students in-depth study of advanced sales concepts including relationship management, problem solving, negotiation, and proposal writing. It also explores the use of data-based decision making and the use of selling technologies. Students will learn how to use data to sell to both resellers and manufacturers.

Prerequisite: SELL 3310 and junior class standing.

SELL4320 - Sales Force Strategies

Credits: 3

This class will examine the linkages among management of the sales function, personal selling activities, and the marketing area. Students will gain an understanding of the role of the sales force in achieving of the firm's marketing, customer relationship, and revenue objectives.

Prerequisite: SELL 3310 and junior class standing.

SELL4330 - Sales Seminar

Credits: 3

This course provides students in-depth study of advanced, and cutting edge sales and sales management concepts presenting by top talent in industry. While topic can vary, this seminar teams students with industry experts to explore state-of-the-art thinking in technical sales, sales management, sales training, compensation, and team selling.

Prerequisite: SELL 3310 and junior class standing.

Professional Sales Electives - Credits: 3

Choose 1 from the following list:

DSCI4260 - Project Management

Credits: 3

Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

DSCI4280 - Supply Chain Management

Credits: 3

Explores the links between overall business strategy and supply chain strategy, with a focus on strategic design and effective operation of supply chains to improve the organizations' productivity and competitiveness. Examines impact of technologies transforming global supply chains such as blockchain, machine learning, analytics, robotics, and other advancements.

Prerequisite: DSCI 2100, junior class standing, advanced business standing.

FIN4250 - Advanced Corporate Finance

Credits: 3

Give students a better appreciation of the techniques and theories of corporate finance and investments that may have been introduced in introductory finance courses.

USP 2015 Code U5C3

Prerequisite: FIN 2100.

MGT2030 - Principle-Based Ethics

Credits: 3

Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

MGT3420 - Organizational Behavior and Leadership

Credits: 3

An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

BUSN4600 - Advanced Internship in Business

Credits: 3
Max Credit 6

Provides students with practical business knowledge, policy, procedure, and decision making. Students work as interns in operating organizations.

Prerequisite: MKT 2100, MGT 2100, FIN 2100, advanced business standing, approved internship application through the Peter M. & Paula Green Johnson Student Success Center.

MGT4470 - Negotiations and Conflict Resolution

Credits: 3
Max Credit 3

Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3

Prerequisite: MGT 2100, advanced business standing.

SELL4900 - Independent Study in Professional Selling

Credits: 1-4
Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Professional Selling not included in other structured Professional Selling courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

SELL4910 - Topics in Professional Selling

Credits: 3
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

Advanced Business Electives - Credits: 6

Any business courses at a 3000 - 4000 level that have not been used to meet any other primary major requirements.

Free Electives from Any College - Credits: 27

- Courses from any college at any level - Credits: 9
- Courses from any college at a 3000 - 4000 level - Credits: 18

Additional Requirements

The Professional Sales major prepares students to manage business clients of for-profit and nonprofit organizations. Specifically, this major provides business students with coursework and opportunities to equip themselves with essential knowledge and skills required to begin professional careers in sales. Careers in sales offer independence, ample financial reward, personal growth and opportunities for rapid advancement within organizations. Students that pursue a degree in professional sales will be challenged with industry engagement opportunities such as internships, and sales competitions. Students experience rigorous classroom experiences designed to develop the knowledge and practical skills needed to succeed during the first years of their sales careers including: oral and written communication skills, selling techniques and networking, the use of sales technology and customer information, and sales pipeline management.

All professional sales majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

All professional selling courses for the major require a minimum grade of C.

Minor

Entrepreneurship Minor

A minor in entrepreneurship features business courses likely to be important to the creator of a new venture and/or someone seeking to bring innovation and creativity to an existing enterprise. **For non-College of Business majors only.**

Entrepreneurship Minor Requirements - Credits: 9

ENTR2700 - Entrepreneurial Mindset

Credits: 3

This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

Prerequisite: COM1, sophomore class standing.

ENTR3700 - Innovation, Ideation, and Value Proposition

Credits: 3

This course explores opportunity recognition, innovation, and building value propositions based on customer discovery

through interviews, surveys, and other methods. Students learn to develop a lean start-up and build customer focused value propositions. The focus is on rapid hypothesis testing and developing minimum viable products.

Prerequisite: ENTR 2700.

ENTR4700 - Business Model Creation and Launch

Credits: 3

Students build on previous learning to develop a complete business model including sales and marketing strategies, operations, financial forecasts, and partners. Deliverables include a pitch to start-up investors as part of a real-world entrepreneurship experience (for example, an entrepreneurship competition). Students learn primarily through hands-on application of concepts.

Prerequisite: ENTR 3700.

- *Combination of courses from the Approved Electives for the Entrepreneurship Minor list totaling 6 credit hours.*

Approved Electives for the Entrepreneurship Minor - Credits: 6

ACCT3100 - Financial Statement Analysis

Credits: 3

Advanced study of financial statements and how to analyze those statements from both an internal and external perspective.

Former Course Number [4100, 2000, 3000]

Prerequisite: ACCT 2010 ,ACCT 2020 , FIN 2100 (or equivalent), sophomore class standing.

AGEC4450 - Negotiation

Credits: 3

Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed ENR 4450.

Dual Listed AGEC 5450.

Prerequisite: completion of USP O/COM2 requirement; junior standing.

OR

ENR4450 - Negotiation

Credits: 3

Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and

cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed AGEC 4450.

Dual Listed ENR 5450.

Prerequisite: completion of USP O requirement; junior standing.

AGEC4965 - Agribusiness Entrepreneurship

Credits: 3

Designed for students preparing to launch or work with an entrepreneurial venture. Students develop a business plan, synthesizing knowledge of agricultural economics, agribusiness management and finance, human resources and accounting. Emphasis is placed on advancing student professional communication abilities for agribusiness management careers.

USP 2003-2014 Code U3WC

Prerequisite: senior standing, WB/COM2 writing course and AGEC 2020, or AGEC 4500, or AGEC 4060, or FIN 2100.

COJO3010 - Business and Professional Communication

Credits: 3

Studies theories and techniques of professional communication activities including interviewing skills, group processes, and professional presentations; for students who are beyond elementary oral communication level. Students develop oral communication skills through projects and presentations.

USP 2015 Code U5C3

Prerequisite: COJO 1010 or COMM 2010 and junior standing.

DSCI4230 - Purchasing and Supply Management

Credits: 3

Examines how to manage supply function. Topics include organization, planning procedures, category management, supplier selection, quality, inventory decisions, ethical and profession standards, costing, and price determination.

Prerequisite: DSCI 2100, junior class standing, advanced business standing.

ENTR3020 - Comparison of Entrepreneurial Ecosystems

Credits: 3

The goal of this course is to expose students to different entrepreneurial ecosystems and let them think about how the environment, legal, technical, cultural, and economic, could impact their entrepreneurial endeavors. The class will accomplish this by visiting a developed country and a developing country to learn about the ecosystems and talk with entrepreneurs to see how the forces impacted their startups.

Cross Listed ES 3020.

ENTR4750 - Theories of Entrepreneurship

Credits: 3

A broad examination of historical, literary, and business perspectives on entrepreneurship. Students explore the role of individuals, new ventures, and established organizations in the discovery, evaluation, and exploitation of opportunities. Emphasis is on the evolution of entrepreneurship theories over time, and current trends related to the application of these theories.

Prerequisite: ENTR 3700.

ES4920 - Entrepreneurship for Engineers

Credits: 3

Traditional engineering education does not prepare graduates for work in entrepreneurial ventures. The goal of this course is to have students demonstrate skills in developing business ideas, performing preliminary market research, estimating cash flow, and launching a business.

Prerequisite: 9 hours within an engineering discipline and junior standing.

FCSC3160 - Merchandise Retailing and Buying

Credits: 3

Provides students with the knowledge involved in the buying function of the merchandising and retailing process, including merchandise planning and retail math. Gives students the necessary skills to pursue a career in retail buying.

Prerequisite: FCSC 2185 and MATH 1000 or MATH 1400.

FCSC4181 - Global Trade and Sourcing for Textile Products

Credits: 3

Discusses global textile industry, how the U. S. fits into the global industry, textiles and apparel trade policy, as well as balancing conflicting interests in the world marketplace.

Dual Listed FCSC 5181.

When Offered (Offered spring semester odd years)

USP 2003-2014 Code U3G

Prerequisite: FCSC 1185.

MGT2030 - Principle-Based Ethics

Credits: 3

Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

MGT3410 - Human Resources Management

Credits: 3

A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

Prerequisite: MGT 2100 and advanced business standing.

MGT3420 - Organizational Behavior and Leadership

Credits: 3

An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

MGT4360 - Business Law for Entrepreneurs

Credits: 3

A survey of the various legal issues confronted by entrepreneurs, particularly related to new ventures.

Prerequisite: MGT 2010 and junior class standing.

MGT4470 - Negotiations and Conflict Resolution

Credits: 3

Max Credit 3

Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3

Prerequisite: MGT 2100, advanced business standing.

MKT4590 - Sustainable Business Practices

Credits: 3

A close look at what is happening in business practice today through the lens of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed INST 4590.

Dual Listed MKT 5590.

Prerequisite: advanced business standing.

MUSC4000 - Careers in Music

Credits: 2

Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4001 - Music Entrepreneurship Seminar

Credits: 2

Further crystalizes successful business enterprise development introduced in ENTR 2700. Student will hone entrepreneurial skills in idea creation, business incubation, development, research, and commercialization.

MUSC4005 - Internship in Music Business

Credits: 1

Offers an evaluated and professional work experience in public or private organizations on assignments relating to student's career goals, allowing students to explore the relationship between theory and practice in their major.

ORTM4900 - Outdoor Recreation and Tourism Management Business Strategies

Credits: 3

Application of the successful delivery of hospitality, tourism, and outdoor recreation enterprises. Business activities covered include tourism- specific marketing, market-based research and analytics, regional challenges and opportunities, business plan components, financial risk analysis, and law and policy.

Restricted Restricted to ORTM majors only.

Prerequisite: Senior standing, ORTM 3050.

SELL3310 - Professional and Technical Selling

Credits: 3

This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused opportunities within their field.

USP 2015 Code U5C2

Prerequisite: COM1 and sophomore class standing.

SELL4310 - Advanced Selling

Credits: 3

This course provides students in-depth study of advanced sales concepts including relationship management, problem solving, negotiation, and proposal writing. It also explores the use of data-based decision making and the use of selling technologies. Students will learn how to use data to sell to both resellers and manufacturers.

Prerequisite: SELL 3310 and junior class standing.

Additional Requirements

A minor in entrepreneurship features business courses likely to be important to the creator of a new venture and/or someone seeking to bring innovation and creativity to an existing enterprise. The minor includes exposure to various elements of the entrepreneurial process, including creativity, ideation, innovation, value proposition, and business model creation.

15 credit hours (9 credits of required courses, 6 credits from the Approved Elective for the Entrepreneurship Minor courses list)

(For non-College of Business majors only)

Hospitality Business Management Minor

The Hospitality Business Minor provides students an understanding of the operations of multiple domains of the hospitality industry including food and beverage, tourism and lodging, and entrepreneurship and consumer relations.

Minor Total Credits: 15

Required Courses - Credits: 9

HOSP2000 - Foundations of Customer Service & Hospitality

Credits: 3

This course examines critical elements of excellent customer service in the hospitality industry.

HOSP3000 - Managing Profitability in Hospitality

Credits: 3

This course examines the complexities of profitability in the hospitality industry, driven by issues of pricing and cost management. Areas explored can include restaurants, hotels, and other hospitality ventures.

Prerequisite: ACCT 2010

HOSP4800 - Hospitality Operations Management

Credits: 3

This course provides a broad-reaching, applications-based understanding of hospitality operations and management. It provides a managerial perspective on the operations of each component of hospitality management and operations, including the financial aspect.

Prerequisite: HOSP 2000

- Any Approved Elective Courses within one core area (see approved elective courses cores) Credits: 6

Approved Elective Courses - Credits 6

(choose any courses totaling 6 credits from one of three focal cores: Food & Beverage, Tourism & Lodging, or Management & Marketing)

Food & Beverage Core

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

FCSC1150 - Scientific Study of Food

Credits: 3

Comprehensive introduction to the study of food. Food science theories relative to composition are applied through the laboratory experiences.

- FCSC 4900 - Food Safety Credits: 3
The following HOSP courses are offered through Casper College via distance education
- HOSP 2320 - Food & Beverage Management Credits:3
- HOSP 2330 - Food & Beverage Services Credits:3
- HOSP 2535 - Planning and Control for Food & Beverage Operations Credits: 3
- HOSP 2540 - Bar & Beverage Management Credits: 3
The following FSHM courses are acceptable transferrable electives only offered in-person at Sheridan College in Sheridan, WY.
- FSHM 2540 - Bar & Beverage Management Credits: 2
- FSHM 2600 - Dining Room Management Credits: 2
- FSHM 2700 - Food & Beverage Services Credits: 3
The following HRM courses are acceptable transferrable electives only offered in-person at Central Wyoming College in Jackson, WY.
- HRM 1505 - Sanitation, Health, & Safety in the Hospitality Industry Credits: 3
- HRM 1510 - Dining Room Management & Food Delivery Systems Credits: 3
- HRM 1515 - Planning and Control for Food & Beverage Operations Credits: 3
- HRM 2500 - Quality Food Purchasing Credits: 3
- HRM 2525 - Wine Production, Service, & Appreciation Credits: 3
- HRM 2530 - Beverage Management Credits: 3

Tourism & Lodging Core

ORTM1000 - Foundations of Recreation and Tourism

Credits: 3

Introduces the conceptual foundations, array of services, and management with recreation and tourism. Primary focal points for this course include historical and psychological underpinnings, market trends, types of resources and services, cultural, economic, political, and legal considerations, and career opportunities. Emphasizes the relationship to resource stewardship.

ORTM3000 - Tourism Theory and Practice

Credits: 3

Tourism is a dynamic system of global interconnection that impacts human and natural environments in myriad ways. This course examines the behavioral, social, economic, political, and environmental issues implicated in and affected by tourism and its industries. Students will develop a critical understanding of the implications on the practice of tourism today.

Prerequisite: junior standing.

HOSP4910 - Topics in Hospitality

Credits: 3

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

The following HOSP courses are offered through Casper College via distance education

- HOSP 1540 - Hotel Operations Management Credits: 3
- HOSP 2525 - Recreation & Tourism Planning & Development Credits: 3
- HOSP 2530 - Tourism Management Credits: 3

The following FSHM course is an acceptable transferrable elective only offered in-person at Sheridan College in Sheridan, WY.

- FSHM 2610 - Banquet Management Credits: 2

The following HRM course is an acceptable transferrable elective only offered in-person at Central Wyoming College in Jackson, WY.

- HRM 1501 - Lodging Management/Front Office Procedures Credits: 3

Management & Marketing Core

ENTR2700 - Entrepreneurial Mindset

Credits: 3

This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within

established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

Prerequisite: COM1, sophomore class standing.

MGT3410 - Human Resources Management

Credits: 3

A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

Prerequisite: MGT 2100 and advanced business standing.

MKT4230 - Integrated Marketing Communication

Credits: 3

Introduction to integrated marketing communication, the coordination of an organization's advertising and promotional efforts. Emphasis on how marketing communication is used by organizations to further their marketing objectives. Among the tools available to the integration process are advertising, sales promotion, personal selling, sponsorship marketing, and public relations.

Prerequisite: MKT 2100, advanced business standing.

MKT4240 - Consumer Behavior

Credits: 3

A study of the dimensions of the consumer market and decision-making processes of consumers through analyzing economic, personal, social and situational influences on the consumer market and on buying behavior.

Prerequisite: MKT 2100, junior class standing.

MKT4440 - Services Marketing

Credits: 3

This course is designed for students who may be interested in working in service industries and will address the distinct needs and problems of service firms in the area of marketing.

Prerequisite: HOSP 2000 or MKT 2100 .

SELL3310 - Professional and Technical Selling

Credits: 3

This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused

opportunities within their field.

USP 2015 Code U5C2

Prerequisite: COM1 and sophomore class standing.

The following HOSP course is offered through Casper College via distance education

- HOSP 1560 - Convention Sales & Management Credits: 3

The following FSHM course is an acceptable transferrable elective only offered in-person at Sheridan College in Sheridan, WY.

- FSHM 2520 - Security & Loss Prevention Management Credits: 3

Additional Requirements

The Hospitality Business Minor provides students an understanding of the operations of multiple domains of the hospitality industry including food and beverage, tourism and lodging, and entrepreneurship and consumer relations. Knowledge in these areas is critical for anyone desiring to work in the hospitality industry or for a business that services the hospitality industry.

Leadership Minor

A unique experience that prepares students to be principle-based leaders in every facet of their lives. Students develop leadership competencies and their own personal leadership style, and are prepared to make decisions in principle-based ways.

Minor Total Credits: 15

Required Courses - Credits: 9

MGT2030 - Principle-Based Ethics

Credits: 3

Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

LEAD4110 - Leadership in Practice

Credits: 3

The culminating leadership experience of the university's leadership program. Students draw upon their prior learning to lead an experiential project, benefiting a UW stakeholder. Students continue to learn about effective leadership through the lens of practitioner-oriented literature and apply their learning in advanced casework. The instructor acts as a leadership coach who helps students refine their leadership competencies and enhance leadership potential.

Prerequisite: LEAD 3610 , MGT 2030

Leadership Electives - Credits: 6

Complete a minimum of 6 credits with courses from the below list

ACES3000 - Peer Advising

Credits: 3

This course is designed to help you develop the skills, understanding, competencies, and dispositions needed to be an effective peer advisor at UW. Course content will cover student development theory, interpersonal skills, Ethics of working with college students, UW policies/procedures, UW academic requirements, and advising approaches.

When Offered (Offered Spring Semester Only)

Prerequisite: Sophomore standing and completion of USP15-C2

AGRI4600 - Developing Organizational Leadership

Credits: 3

A senior capstone experience for Bachelor of Applied Science students, bringing together reading, research, writing, and communication skills to focus on a major project. Leadership skills and approaches to organizational problem-solving are deepened using the structural, human resource, political, and symbolic frames to change and improve leadership and organizational culture.

USP 2015 Code U5C3

Prerequisite: COM1, COM2, AGRI 3000, and senior status.

AGRI4700 - Elements of Leadership

Credits: 3

Focuses on a basic understanding of theory and practice. Will develop self-awareness and provide a foundation for continued development of leadership skill in the workplace, the community and the home.

Dual Listed AGRI 5700.

Prerequisite: Restricted enrollment. Prior approval required.

AIR2010 - Team and Leadership Fundamentals I

Credits: 1-0.5

Focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The courses will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate.

Prerequisite: AIR 1010 and AIR 1020 or consent of instructor.

AIR2020 - Team and Leadership Fundamentals II

Credits: 1-0.5
Continues AIR 2010.

Prerequisite: AIR 1010, AIR 1020, and AIR 2010 or consent of instructor.

AIR3010 - Leading People/Effective Communication I

Credits: 3
Teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.

USP 2015 Code U5C2
Former Course Number [4010]

Prerequisite: AIR 1010, AIR 1020, AIR 2010, and AIR 2020 or consent of instructor.

AIR3020 - Leading People/Effective Communication II

Credits: 3
Continues AIR 3010.

USP 2003-2014 Code U3CS
Former Course Number [4020]

Prerequisite: AIR 1010, AIR 1020, AIR 2010, AIR 2020, AIR 3010 or consent of instructor.

ARMY2010 - Leadership Skills and Management

Credits: 2
Studies principles and theories of leadership and team dynamics. Develops student leadership potential through the study of the values and attributes of effective leaders. Students gain self-confidence through the application of principles and techniques of leadership in a military environment.

Former Course Number [2030]

Prerequisite: ARMY 1010, ARMY 1020 or consent of instructor.

ARMY2020 - Leadership Skills and Small Unit Management

Credits: 2

Studies principles in small-unit management, tactics, operations and leadership. Develops students' self-confidence in their leadership ability through progressive application of knowledge, decision making, communication and control.

Former Course Number [2040]

Prerequisite: ARMY 2010 or consent of instructor.

ARMY2060 - Competent and Confident Leadership

Credits: 2

Interdisciplinary course whose aim is to encourage assessment of our obligations, commitments, and roles in society by inquiring into the nature of leadership and the responsibilities of both leaders and followers. Examines leadership traits that transcend the military aspect of leadership.

ARMY3010 - Leadership and Tactics I

Credits: 3

Studies leadership techniques and tactical operations at the small-unit level. Instruction covers the decision-making process, troop leading procedures, land navigation and operation orders. In-depth analysis of team/squad tactical procedures and techniques. Numerous student oral presentations and practical exercises.

USP 2003-2014 Code U3O

Prerequisite: ARMY 2010, ARMY 2020, basic camp or consent of department head.

ARMY3020 - Leadership and Tactics II

Credits: 3

Studies platoon-level tactics and leadership techniques. Instruction covers the solving of complex tactical problems. Illustrates techniques for properly managing personnel, resources and time to accomplish organizational goals. Introduces Army staff functions and prepares students for successful completion of ARMY 3030.

Prerequisite: ARMY 3010.

ARMY4010 - Dynamics of the Military Organization I

Credits: 2

Studies and analyzes organization, resources and functions of military staff. Reviews formal staff problem-solving procedures, including student effective writing and briefing presentations. Introduces ethics and the military profession.

Former Course Number [4030]

Prerequisite: ARMY 3010, ARMY 3020 or consent of department head.

ARMY4020 - Dynamics of the Military Organization II

Credits: 2

Introduces military law; planning and management of personal affairs; Army transportation, logistics and personnel management systems. Studies officer/NCO relations. Includes student writing and briefing presentations on assigned topics.

Former Course Number [4040]

Prerequisite: ARMY 4010 or consent of department head.

CNSL2200 - Introduction to Student Leadership

Credits: 2

Acquaints student leaders with skills and competencies necessary for successful service in the university community.

When Offered (Normally offered each fall semester)

USP 2003-2014 Code U3CS, U3L

CNSL3010 - Student Leadership Strategies

Credits: 2

Develops skills and competencies requisite to effective leadership. Provides student leaders with skills they will profit from, both while enrolled at the university and later in their chosen careers.

When Offered (Normally offered each spring semester)

CRMJ4130 - Leadership and Management in the Criminal Justice System

Credits: 3

There is a clear need for managers and administrators to understand leadership and ethics. This course is designed to provide students with a foundation in the management and leadership discourse surrounding criminal justice agencies.

Prerequisite: CRMJ 1001, CRMJ 2210, CRMJ 2400/SOC 2400, and CRMJ 3490.

ENR2800 - Introduction to Outdoor Leadership

Credits: 3

Designed to increase knowledge and competencies related to leading others in the outdoors. Significant focus is on self-awareness, judgment, and decision-making. The specific skills and theories students learn throughout provide a foundation for other leadership endeavors.

Cross Listed ORTM 2800

Prerequisite: consent of instructor.

OR

ORTM2800 - Outdoor Leadership

Credits: 3

Designed to increase knowledge and competencies related to leading others in the outdoors. There is a significant focus on self-awareness, judgment, and decision-making. The specific skills and theories students learn in the class provide a foundation for other leadership endeavors.

Cross Listed ENR 2800

Prerequisite: COM 1

FCSC4117 - Understanding Community Leadership

Credits: 3

Understanding Community Leadership. Introduces students to the scope and functions of professionals working in rural communities as leaders. Students will explore community dynamics, leadership skills and managing change, and understand the complexities of leadership within communities. Understanding communities and leadership increases the likelihood of success for community based professionals.

Dual Listed FCSC 5117.

USP 2003-2014 Code U3CS

Prerequisite: senior standing and satisfactory completion of a WB/COM2 course.

HP4152 - Honors Seminar

Credits: 3

Max Credit (Max. 6)

Asks students to confront a complex social issue, examine it from several perspectives and take a stance on some aspect of the issue. Topics vary from year to year. Required of UW Honors students.

Former Course Number [4150]

Prerequisite: COM1, COM2

MGT3420 - Organizational Behavior and Leadership

Credits: 3

An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

NURS4830 - Leadership in Healthcare Today

Credits: 2

Focuses on the role of nurse leader and manager through integration of leadership, management, and organizational concepts, models, and theories. Emphasis in on leadership, followership, management, advocacy, professional development and activism, and managing resources.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4835 - Leading Nursing Practice

Credits: 2

Focuses on nurse leaders making a difference using evidence-based nursing practice. Learners utilize and synthesize basic concepts of professional nursing practice. This course creates the opportunity for learners to lead nursing practice in a variety of settings.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

GWST1900 - Women and Leadership

Credits: 3

Students examine theoretical, historical and cultural aspects of leadership, values in leadership, gender differences in leadership styles, and practical applications of leadership skills through oral communication and information literacy. Individual and collaborative work is expected.

Cross Listed SOWK 1900.

USP 2003-2014 Code U3L, U3O

Former Course Number [4510]

UWYO3000 - Student Leadership in Supplemental Instruction

Credits: 2

Focuses on theoretical perspectives of group tutoring and peer leadership, best practices in supplemental instruction, and student reflection. Will strengthen leadership knowledge and skills and introduce effective methods for group facilitation and SI curriculum.

Prerequisite: closed to general enrollment.

(UWYO 3000 is a closed enrollment course. Students may only enroll if invited by LeaRN Program Director)

UWYO3010 - Student-Athlete Leadership Skills

Credits: 1

Designed for students to gain and apply leadership skills among other topics such as healthy relationships, nutrition, budgeting, and preparing for internships. This course builds on UWYO 1050 Student-Athlete Academic Success, and prepares the student for UWYO 3050 Student-Athlete Career Preparation.

Prerequisite: COM1.

Additional Requirements

The Leadership Minor is a unique interdisciplinary curricular, co-curricular, and extra-curricular experience that prepares students to be principle-based leaders in every facet of their lives. Through the Leadership Minor, students develop leadership competencies and their own personal leadership style, and are prepared to make decisions in principle-based ways.

All courses for the minor require a minimum grade of C (not C-).

Professional and Technical Selling Minor

Provides students with technical and/or liberal arts backgrounds with opportunities to pair these backgrounds with essential knowledge and skills required for careers in sales. Combines rigorous classroom experiences with industry opportunities.

Minor Total Credits: 15

Professional and Technical Selling Requirement - Credits: 3

SELL3310 - Professional and Technical Selling

Credits: 3

This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused opportunities within their field.

USP 2015 Code U5C2

Prerequisite: COM1 and sophomore class standing.

Professional and Technical Selling Approved Elective Courses - Credits: 6

Choose 2 courses from the list below

SELL4310 - Advanced Selling

Credits: 3

This course provides students in-depth study of advanced sales concepts including relationship management, problem solving, negotiation, and proposal writing. It also explores the use of data-based decision making and the use of selling technologies. Students will learn how to use data to sell to both resellers and manufacturers.

Prerequisite: SELL 3310 and junior class standing.

SELL4320 - Sales Force Strategies

Credits: 3

This class will examine the linkages among management of the sales function, personal selling activities, and the marketing area. Students will gain an understanding of the role of the sales force in achieving of the firm's marketing, customer relationship, and revenue objectives.

Prerequisite: SELL 3310 and junior class standing.

SELL4330 - Sales Seminar

Credits: 3

This course provides students in-depth study of advanced, and cutting edge sales and sales management concepts presenting by top talent in industry. While topic can vary, this seminar teams students with industry experts to explore state-of-the-art thinking in technical sales, sales management, sales training, compensation, and team selling.

Prerequisite: SELL 3310 and junior class standing.

Advanced Business Electives - Credits: 6

- Any business courses at the 3000 - 4000 level - Credits: 6

Additional Requirements

The professional and technical selling minor prepares students to manage business clients. This minor provides students with technical and/or liberal arts backgrounds with opportunities to pair these backgrounds with essential knowledge and skills required for careers in sales. Careers in sales offer independence, ample financial reward, personal growth, and opportunities for rapid advancement within organizations. Students experience rigorous classroom experiences designed to develop important knowledge and practical selling skills including: oral and written communication skills, selling techniques and networking, and the use of sales technology and customer information.

All professional and technical selling minors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All professional selling courses for the minor require a minimum grade of C.

15 credit hours (3 credits required course, 6 credits from the Approved Elective Courses for the Professional and Technical Selling Minor course list, 6 credits of Advanced Business Electives)

Graduate

Business Administration, M.B.A.

The UW MBA program offers a 1-Year Early Career MBA tailored to those looking to gain the needed experience and business insights required in today's competitive marketplace.

Additional Requirements

- Thirty-six (36) credit hours of graduate coursework, including participation in all MBA Program activities (orientation, Jackson Leadership Summit, MBA Executive Speaker Series, Professional Development,

- Experiential Leadership Program, etc.). Please note that students enrolled in any dual degree MBA program are required to complete all MBA participation activities and the core coursework.
- This is a cohort based program and while the course sequence is highly structured, there may be the opportunity to extend the duration of the one-year program. Course sequence is subject to change at the discretion of the MBA Director.
 - Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Course of Study

MBA Core Requirements (27 Credit Hours)

Required of all MBA students including all dual degree students.

MBAM5101 - MBA Foundations

Credits: 1

The purpose of this course is to prepare students for the academic rigors of the MBA program.

Restricted Enrollment in MBAM or MBAF degree program.

Prerequisite: Admission to full-time MBA program.

MBAM5104 - Organization Behavior and Human Resource Management

Credits: 3

Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5202 - Data and Decision Modeling

Credits: 3

This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Prerequisite: Admission to the MBAM program.

MBAM5204 - Financial Management

Credits: 3

Students taking this course should expect to learn the fundamentals principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

Prerequisite: Admission to the MBAM program.

MBAM5208 - Managerial Accounting

Credits: 3

This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions.

Prerequisite: Admission to the MBAM program.

MBAM5207 - Marketing Management

Credits: 3

Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5102 - Operations Management

Credits: 3

Production and operations management. Topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, and scheduling.

Prerequisite: Admission to the MBAM program.

MBAM5330 - Global Business Environment

Credits: 3

Max Credit 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

Restricted Admission to the MBA, MBAE, or MBAF program.

Prerequisite: Admission to the MBA program, or permission from the MBA Program Director.

MBAM5107 - Decision Making I

Credits: 1

This course develops a systematic process for making decisions in complex business situations, by integrating six dimensions of business risk: competitive, financial, organizational, legal, social, and ethical. The process combines analytical and ethical reasoning methods that compensate for the flawed decision making common in business organizations.

Prerequisite: Admission to the MBAM program.

MBAM5209 - Decision Making II

Credits: 1

An experiential learning course that builds on MBAM 5107. Students apply systematic business decision making process to real-world business situations. Student teams work directly with owners and managers of Wyoming companies to address their strategic, competitive, operational, financial, and/or administrative challenges in real time.

Prerequisite: MBAM 5107.

MBAM5305 - Strategic Management

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

Prerequisite: Admission to the MBAM program. #304.

MBA Elective Requirements

- MBA-MBA students, including dual degree students, must take an additional 9 credit hours of 4000 or 5000 level College of Business courses. Dual degree students (JD/PharmD/MS) may take 3 credit hours outside the College of Business following dual degree agreement guidelines. Please contact your advisor for additional information.

**Note: A maximum of 12 credit hours may be taken at the 4000 level for graduate credit.*

Business Administration, Online, M.B.A.

The Online MBA Program is specifically designed for business professionals interested in a fully AACSB accredited, 100% online program that fits their busy schedules and enhances their understanding of decision-making in the workplace.

Additional Requirements

- 30 credit hours of graduate credit as outlined in the Course of Study.
- Concentration Available: Energy (EMN)
- Optional Certificate Add-Ons: CFP (certified financial planning) or Energy Business. Adding on a certificate may increase required number of credit hours. Please contact us for additional information.
- This is a cohort based program that can be flexible in sequence depending on student needs. Course sequence is subject to change at the discretion of the MBA Director.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student will be immediately dismissed from the program.

Prerequisite Courses

Prerequisite coursework may be requested based on experience and undergraduate coursework at the discretion of the MBA Program Director as part of the application process. Please contact the MBA & Professional Graduate Program Office for additional information.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 in the MBA Program to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program. Other requirements involving program dismissal include:

- A student who earns a grade lower than a "C" in any course may be immediately dismissed from the program.

Course of Study

MBA Core Requirements (21 Credit Hours)

Required of all MBAX students.

MBAX5104 - Organizational Behavior and Human Resource Management

Credits: 3

Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5202 - Data and Decision Modeling

Credits: 3

This course will prepare students to use computer-based models for solving problems in the areas of operation, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analysis including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5204 - Financial Management

Credits: 3

Students taking this course should expect to learn the fundamental principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval

MBAX5208 - Managerial Accounting

Credits: 3

This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval

MBAX5207 - Marketing Management

Credits: 3

Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5330 - The Global Business Environment

Credits: 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational

environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5305 - Strategic Management

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBA Elective/Concentration Requirements

- MBA-MBAX students must take an additional 9 credit hours of 5000 level College of Business courses.
- Energy Concentration students will complete the additional 9 credit hours of coursework as follows:
 - ACCT 5503 Fundamentals of Accounting in the Energy Industry. 3.
 - MGT 5504 Energy Industry Value Chain. 3.
 - FIN 5502 Energy Finance: Project Evaluation. 3.

Marketing, Ph.D.

The program of study draws from extant marketing theory, combined with studies in basic and other applied sciences to create a base of knowledge, which is supplemented with courses in the gathering and analysis of qualitative and quantitative data.

Additional Requirements

The Department of Management and Marketing offers a program leading to a Doctor of Philosophy in Marketing. The program of study draws from extant marketing theory, primarily in consumer behavior, combined with studies in the basic sciences (e.g., anthropology, psychology, sociology) and other applied sciences (e.g., environmental sciences) to create a base of knowledge acceptable for marketing scholarship in higher education, and a depth of knowledge conducive to a stream of publishable research in a specific topic area. Theoretical development is supplemented with course work in the gathering and analysis of qualitative and quantitative data, which prepares the student for rigorous exploration of marketing phenomena. Students are required to complete 72 semester hours and a scholarly dissertation that contributes to the knowledge foundations in marketing and contributes to the basic sciences that informed the inquiry. Semester hours will include core marketing classes, outside elective courses in statistics, basic social sciences, and/or interdisciplinary studies in environmental and natural resources, and dissertation work. First and second year

research projects are also required, aimed at the student having published articles in respected marketing and social science journals before program completion. Comprehensive exam is completed at the end of the second semester. All doctoral students are expected to teach while enrolled in the program. The program is designed to give students a strong research background and intensive teaching experience.

We begin accepting applications in October for the following fall semester. All completed applications must be submitted by February 1st. Admission requirements include:

- A Bachelor's Degree and work toward or completion of a master's degree from an accredited institution, preferably in business or a core social science discipline
- Completed application (i.e., all required materials submitted) on the UW Graduate Programs Applications system
- \$50 application fee paid to University Admissions
- Copies of all undergraduate and graduate program transcripts scanned and uploaded to the UW system, and official transcripts from each post-secondary institution attended submitted to the UW admissions office
- A valid GRE or GMAT score. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be requested from the testing organization and sent to UW
- Three strong letters of recommendation, with one or more being from an academic. The letters must be uploaded by the recommenders to the UW system in MS Word or .pdf format.
- A personal statement summarizing your interest in pursuing doctoral studies and speaking to questions or issues you wish to research. This document must be uploaded to the UW system as an MS Word or .pdf document
- For international students, Test of Foreign Language (TOEFL) scores are required. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be submitted to UW from the testing organization. A minimum TOEFL score of 76 (online) or 540 (paper) is required for admission

Certificate

Energy Business Certificate (Graduate)

The online Energy Business Certificate is designed for professionals working in the energy industry who are interested in gaining knowledge related to real-world application within the highly competitive industry.

Additional Requirements

The Certificate in Energy Business is composed of 9-credits of masters-level graduate coursework in the College of Business, with the primary goal of achieving mastery and professional skills common to functional business roles within the energy industry. Specifically:

- Develop a working understanding of the concepts and practices of Supply Chain Management to make strategic support decisions within the energy industry.
- Acquire the foundation necessary to work in the energy industry as a financial statement analyst, manager, auditor, or accountant.
- Utilize core capital budgeting, techno-economic cashflow modeling and other finance concepts to evaluate energy industry project investments.
- Demonstrate effective problem solving, written, and oral communication skills in the context of the energy industry.

Certificate Requirements

FIN5502 - Energy Finance: Project Evaluation

Credits: 3

This course introduces students to the key methods used to evaluate investments in energy industry projects from the perspective of the developer as well as the lender and other stakeholders. Topics include project finance modeling, techno-economic considerations, business structures, regulatory and legal issues, risk analysis, and deal terms.

Restricted Admitted to CERT-MBAE or MBA-MBA.

Prerequisite: Admission to the MBA or Energy Business certificate program, or permission of the MBA Program Director.

ACCT5503 - Fundamentals of Accounting in the Energy Industry

Credits: 3

Introduces students to basic financial accounting and reporting issues related to energy producing activities. Specifically, the course will investigate current accounting practices of energy producing companies related to exploration, acquisition, development, and delivery of energy products. The course will also cover financial requirements of the Financial Accounting Standards Board (FASB), the International Accounting Standards Board (IASB), and the Securities and Exchange Commission (SEC).

Prerequisite: Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

MGT5504 - Energy Industry Value Chain

Credits: 3

Examines the overall energy industry with detailed exploration of the major energy subsectors and supply chains. Students will develop knowledge of the energy industry value chain including coverage of market dynamics, prevalent strategies, finance, operations, externalities and network effects, environmental and ethical considerations, and associated policy issues.

Restricted Admitted to CERT-MBAE or MBA-MBA.

Prerequisite: Admission to the MBA or Energy Business certificate program, or permission of the MBA Program Director

- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

MBA - General

Program Overview

The UW MBA Program delivers professional management education that connects principles, concepts, and intense case analysis with real world experience as tools for making business decisions. Students will develop leadership and managerial skills. UW MBAs will possess the education and training to compete in today's rapidly changing global business world.

Class sizes are small and diverse. Courses are taught by a select group of business faculty members. The total program experience (both inside and outside the classroom) is designed to provide experiential learning along with access to powerful networks.

Admission Requirements

A Faculty Admissions Committee, chaired by the Director of the MBA Program, will review all applicants. Application to the program is open to students who have a baccalaureate degree from an accredited university or college. Students with a baccalaureate degree in a business discipline or business administration are eligible for the program, but will not be allowed to waive any of the core course requirements. Please view the full list of admission requirements below.

Students whose native language is not English must submit TOEFL results (or another approved English proficiency exam). There are no exceptions for students from other UW colleges and schools seeking dual degrees. If an international applicant wishes to be considered for GA funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI) or an approved alternative to the OPI. Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please be advised that our program includes significant class discussion, substantial daily reading, many written assignments, and presentations.

Dual Degree Programs

The following dual degree programs are available:

- MS in Engineering / MBA
- Pharm. D. / MBA
- J.D. / MBA

Students will need to meet all MBA admission requirements and respective dual college/department requirements and be admitted to both degree programs in order to be considered for the dual degree program. The MBA core requirements are required of all students. After successful completion of all requirements, students in the dual degree program will graduate with two graduate level degrees.

Admission to the Master of Business Administration program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.

- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- A GMAT or GRE score may be required as part of the application process as determined by the program director after reviewing the required application materials. Please reach out for additional information to cobgradprograms@uwoyo.edu or 307-766-2482.
- Professional resume.
- Official transcripts of **all** undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding.

Prerequisites: No specific prerequisite courses are required. However, evidence of technical proficiency and/or prior business experience from your work history and transcripts are considered in the admissions process. If admitted to the program, all MBA students are required to take our MBA Foundations course, which establishes a baseline level of knowledge in Accounting, Finance, Economics, and Statistics.

Additional International Student Admission Requirements:

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries *may be* exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia, Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university *may be* exempt from providing proof of English proficiency.

Degree Requirements

- Thirty-six (MBA-MBA) credit hours of graduate coursework, including participation in all MBA Program activities (orientation, Jackson Leadership Summit, MBA Executive Speaker Series, Professional Development, Experiential Leadership Program, etc.). Please note that students enrolled in any dual degree MBA program are required to complete all MBA participation activities and the core coursework.
- This is a cohort based program and while the course sequence is highly structured, there may be the opportunity to extend the duration of the one-year program. Course sequence is subject to change at the discretion of the MBA Director.

- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Course of Study

Pre-Term: All admitted MBA students will complete a Foundations course prior to orientation, the experiential leadership program, and the Jackson Leadership Summit. Students may also receive pre-term assignments and/or pre-term prep course material.

MBA Core Requirements (27 credit hours) - Required of all MBA students as well as all Dual Degree MBA students.

- MBAM 5101 MBA Foundations. 1.
- MBAM 5202 Data and Decision Modeling. 3.
- MBAM 5104 Organizational Behavior and HRM. 3.
- MBAM 5208 Accounting for Managers. 3. OR MBAM 5208 Managerial Accounting. 3.
- MBAM 5204 Financial Management. 3.
- MBAM 5207 Marketing Management. 3.
- MBAM 5102 Operations Management. 3.
- MBAM 5330 Global Business Environment. 3.
- MBAM 5107 Decision Making I. 1.
- MBAM 5209 Decision Making II. 1.
- MBAM 5305 Strategic Management. 3. (includes international or domestic travel)

MBA Elective Requirements

- MBA-MBA students, including dual degree students, must take an additional 9 credit hours of 4000 or 5000 level College of Business courses. Dual degree students (JD/PharmD/MS) may take three (3) credit hours outside the College of Business following dual degree agreement guidelines. Please contact your advisor for additional information.

**Note: A maximum of 12 credit hours may be taken at the 4000 level for graduate credit.*

Application Deadlines

- **Fall Admission Only**
 - Final Deadline: June 1
 - Priority Deadline: November 1
 - Scholarship Deadline: March 1

**International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are highly encouraged to apply prior to the application deadline to ensure that if admitted, all required documentation can be provided prior to the beginning of the term of entry.*

Additional Information

Tuition & Fees

Tuition and fee charges will not include the cost of textbooks. Please refer to University of Wyoming cost of attendance for additional information.

MBA Executive Speaker Series

Students participate in weekly meetings (primarily on Fridays) with business leaders from a wide variety of industries (business, government, and non-profit entities). The program takes place mostly on campus, but does include some travel. This program supplements the class work, provides discussion and learnings of business challenges, opens the students' horizons on career opportunities, and provides long-term networking opportunities.

Experiential Leadership Program

Students focus on improving leadership competence and focus on teamwork outside of the typical business element. This experience has been tailored to represent an experiential case study on effective leaders and effective teams. Substitute experiences can be discussed on a case-by-case basis.

Jackson Leadership Summit

Exclusive leadership development event for MBA students to network with an astute panel of individuals with proven business success. Topics usually focus on the global economy and strategic planning.

Campus to Online MBA Program

Students enrolled in the campus MBA program may, on a case-by-case basis apply credits from the Online MBA program (courses with an MBAX prefix) to their degree, and vice versa. Must be approved by the Program Director.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 in the MBA Program to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program and suspension from the University of Wyoming. Other requirements involving program dismissal include:

- A student who earns a grade of "D" or lower in any one course may have the opportunity to retake the course (MBAX or MBAM).

MBA-MBAX - General

Program Overview

The University of Wyoming offers a flexible Online MBA (EMBA). The Online MBA Program is specifically designed for experienced business professionals interested in an AACSB accredited, 100% online program that fits their busy schedules. This program is typically completed in two years and is tailored for professionals interested in enhancing their understanding of business disciplines and applying them to decision-making. With starts each Fall, Spring, and Summer, the cohort-based program consists of a minimum 30 credit hours of required coursework.

Program Admission Requirements

A Faculty Admissions Committee, chaired by the Director of the MBA Program, will review all applicants. Application to the program is open to students who have a baccalaureate degree from an accredited university or college. Students with a baccalaureate degree in a business discipline or business administration are eligible for the program, but will not be allowed to waive any of the core course requirements. Please see full list of admission requirements below.

Students whose native language is not English must submit TOEFL results, or results of another approved English proficiency exam. There are no exceptions for students from other UW colleges and schools seeking dual degrees. If an international applicant wishes to be considered for GA funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI) or an approved alternative. Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please be advised that our program includes significant class discussion, substantial daily reading, many written assignments, and presentations.

Admission to the Online Master of Business Administration program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GRE or GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Professional resume. A minimum 2 years' professional work experience is preferred.
- Official transcripts of **all** undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding.

Prerequisites: Prerequisite courses may be required as determined by the MBA Director. Please reach out to our office at cobgradprograms@uwyo.edu or 307-766-2482 for additional information.

Additional International Student Admissions Requirements

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries *may be* exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia

- Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
 - Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university *may be* exempt from providing proof of English proficiency.

Degree Requirements

- Thirty (30) credit hours of graduate credit as outlined in the Course of Study section.
- This is a cohort based program and while the course sequence is structured, there is a lot of opportunity for flexibility. This program can be completed in one or two years most commonly, but longer completion timelines can be discussed. Course sequence is subject to change at the discretion of the MBA Director.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F.

Course of Study

MBA Core Requirements (21 credit hours) - Required of all MBAX students.

- MBAX 5204 Financial Management. 3.
- MBAX 5207 Marketing Management. 3. or MBAX 5235 Marketing Analysis & Strategy. 3.
- MBAX 5202 Data and Decision Modeling. 3.
- MBAX 5104 Organizational Behavior & HRM. 3.
- MBAX 5330 The Global Business Environment. 3.
- MBAX 5208 Accounting for Managers. 3. or MBAX 5208 Managerial Accounting. 3.
- MBAX 5305 Strategic Management. 3.

MBA Elective/Concentration Requirements

- MBA-MBAX students must take an additional 9 credit hours of 5000 level College of Business courses.
- Energy Concentration students will complete the additional 9 credit hours of coursework as follows:
 - ACCT 5503 Fundamentals of Accounting in the Energy Industry. 3.
 - MGT 5504 Energy Industry Value Chain. 3.
 - FIN 5502 Energy Finance: Project Evaluation. 3.

Application Deadlines

- **Fall Admission**
 - Block 1 Final Deadline: June 30
 - Block 2 Final Deadline: October 1
 - Priority Deadline: May 1
- **Spring Admission**
 - Block 1 Final Deadline: December 1
 - Block 2 Final Deadline: February 1
 - Priority Deadline: October 1
- **Summer Admission**
 - Final Deadline: April 1
 - Priority Deadline: February 1

**International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are highly encouraged to apply prior to the application deadline to ensure that if admitted, all required documentation can be provided prior to the beginning of the term of entry.*

CERT-MBAE - Energy Business

CERT-CFP - Certified Financial Planning

Program Overview, Energy Business Certificate

The Certificate in Energy Business is composed of 9-credits of masters-level graduate coursework in the College of Business, with the primary goal of achieving mastery and professional skills common to functional business roles within the energy industry. Specifically:

- Develop a working understanding of the concepts and practices of Supply Chain Management to make strategic support decisions within the energy industry.

- Acquire the foundation necessary to work in the energy industry as a financial statement analyst, manager, auditor, or accountant.
- Utilize core capital budgeting, techno-economic cashflow modeling and other finance concepts to evaluate energy industry project investments.
- Demonstrate effective problem solving, written, and oral communication skills in the context of the energy industry.

Program Overview, CFP Certificate

The Certificate in Certified Financial Planning is composed of 18-credits of masters-level graduate coursework in the College of Business, with the primary goal of providing students with the education, training, and skills necessary to be able to sit for the Certified Financial Planner (CFP) examination. The curriculum is aligned with the CFP® Board's Principal Knowledge Topics and covers principles and practices of essential areas of financial planning, including:

- Wealth Management
- Investment Management
- Tax Planning
- Estate Planning
- Insurance and Retirement Planning

Program Admission Requirements

Admission to the graduate certificate programs generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred (based on a 4.0 scale). If you do not meet the preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GRE or GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.), but is not required.
- Professional resume. A minimum 2 years of professional work experience is preferred.
- Official transcripts of **all** undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience (no need to schedule a meeting).

Note: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming College of Business Graduate Certificate programs do not admit students provisionally or conditionally.

CERT-MBAE Prerequisites: Applicants must provide evidence of proficiency in the following areas:

Managerial Accounting

Finance

CERT-CFP Prerequisites: Applicants must provide evidence of proficiency in the following areas:

Business Math and Statistics

Financial Management

*Evidence of proficiency in these areas is considered on a case-by-case basis but is commonly pursued through supplemental courses and/or relevant professional experience. Please contact the program office for additional information.

Additional International Student Admissions Requirements

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries *may be* exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university *may be* exempt from providing proof of English proficiency.

Degree Requirements, Energy Business Certificate

- 9 total credit hours of coursework to include:
 - FIN 5502 - Energy Finance: Project Evaluation. 3.
 - ACCT 5503 - Fundamentals of Accounting in the Energy Industry. 3.
 - MGT 5504 - Energy Industry Value Chain. 3.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Degree Requirements, CFP Certificate

- 18 total credit hours of coursework to include:
 - FIN 5070 Tax Planning for Financial Planners. 3.
 - FIN 5310 Investment Management. 3.
 - FIN 5720 Insurance and Retirement Planning. 3.
 - FIN 5750 Fundamentals of Financial Planning. 3.
 - FIN 5780 Estate Planning. 3.
 - FIN 5800 CFP Capstone. 3.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program and suspension from the University of Wyoming. Other requirements involving program dismissal include:

- A student who earns a grade lower than a "C" in any course must retake the course, or withdraw from the program.

The College of Education prepares teachers, counselors, administrators and other service personnel for positions in public education in Wyoming, throughout the nation, and the world. The teacher education program incorporates content area courses from the various colleges on campus with experiences in educational methodology. Programs are designed to provide students with a maximum amount of experience in the classroom.

Graduates of the College of Education are prepared to deal with youth growing up in a rapidly changing world. Programs are experiential, collaborative, outcomes based, and technologically supported. Emphasis is placed on professional ethics, a commitment to lifelong learning, and respect for all individuals in our culturally diverse society.

Organization of the College

The College of Education includes undergraduate teacher education and graduate studies in education. Schools offering undergraduate and graduate programs in the college include:

- **School of Teacher Education**

- **School of Counseling, Leadership, Advocacy, and Design**

Undergraduate and graduate education are supported by several units. The Teacher Preparation and Advising Office, McWhinnie Hall room 100, coordinates activities dealing with academic advising, field experiences, and teacher licensure.

The Wellspring Counseling Clinic provides counseling services to students, staff, faculty of the university, as well as the community at-large.

The College of Education, College of Arts and Sciences, Wyoming community colleges, many Wyoming districts, the Wyoming Professional Teaching Standards Board, and the Wyoming Department of Education are part of the Wyoming School-University Partnership, which grounds collaborative efforts across the state related to K-12 preservice and inservice education.

The Laboratory School, an Albany County School District entity, serves the college, the university, the school district, and the state as an educational center for research, development, instructional advancement, and inservice education. The school enrolls students in pre-school through eighth grade.

Computer laboratories in the college feature a wide range of capabilities including Internet access. The laboratory equipment is frequently updated to serve the needs of students, faculty and staff.

The Learning Resource Center is a branch of the university library system. Educational materials are available to serve the needs of K-12 students, university students, university faculty and public school faculty in Wyoming

Faculty in the College of Education

School of Counseling, Leadership, Advocacy, and Design

School Director: Peter Moran

Associate Professors:

KARA L. CARNES-HOLT, B.A. East Texas Baptist University 2000; M.S. Ed. Baylor University 2003; Ph.D. University of North Texas 2010; Associate Professor of Counselor Education 2016, 2010.

COURTNEY McKIM, B.S. Boise State University 2006; Ph.D. University of Nebraska 2011; Associate Professor of Educational Research 2020, 2011.

MICHAEL M. MORGAN, B.S. Brigham Young University 1993; M.S. Auburn University 1995; Ph.D. Purdue University 2003; Associate Professor of Counselor Education 2011, 2003.

LINDSEY NICHOLS, B.S. University of Connecticut 2002; M.A. University of Connecticut 2003; M.Ed. University of North Carolina at Chapel Hill 2006; Ph.D. Pennsylvania State University 2012; Associate Professor 2019.

W. REED SCULL, B.S. St. Louis University 1983; M.A. University of Nevada-Reno 1989; Ed.D. University of Arizona 1994; Associate Professor 2019.

Assistant Professors:

WILLIAM CAIN, B.A. University of Texas 1994; Ph.D. Michigan State University 2018; Assistant Professor 2018.

JONTHAN CARRIER, B.S. East Tennessee State University 1999; M.S.E. Portland State University 2002; Ph.D. University of the Cumberlands 2017; Assistant Professor of Higher Education Administration, 2020.

RICHARD CARTER, B.S. Western Carolina University 2010; M.S.E. 2012; Ph.D. University of Kansas 2016; Assistant Professor of Special Education 2017.

AMANDA DeDIEGO, B.S. University of North Georgia 2009; M.S. 2012; Ph.D. University of Tennessee 2016; Assistant Professor of Counselor Education 2016.

BARBARA HICKMAN, B.A. University of Minnesota 1985; B.S. University of Minnesota 1986; M.A. Saint Mary's College 1997; Ed.D. Northern Arizona University 2017; Assistant Professor 2019.

JIHYUN LEE, B.A. Daegu University 2006; M.Ed. Korea National University 2012; M.S. University of Wisconsin-Madison 2014; Ph.D. University of Texas-Austin 2018; Assistant Professor 2019.

ROBERT MADDOX, B.S. Missouri State University 2005; M.A. Southeast Missouri State University 2009; Ed.S. Southeast Missouri State University 2011; Ph.D. University of Wyoming 2015; Assistant Professor 2019.

LAY-NAH BLUE MORRIS-HOWE, B.S. University of Wyoming 2004; M.S. 2007; Ph.D. 2011; Assistant Professor of Counselor Education 2015.

MARK PERKINS, B.A. Ft. Lewis College 2001; M.A. University of Colorado-Denver 2009; Ph.D. Colorado State University 2014; Assistant Professor of Educational Research, 2020.

MIA WILLIAMS, B.S. Northern Arizona University 1995; M.Ed., 1999 Ph.D 2008 Arizona State University Assistant Professor 2020.

Associate Professional Lecturer:

TIFFANY HUNT, B.S. University of Wyoming 2001; M.S. University of Northern Colorado 2006, Ph.D. 2017; Assistant Professional Lecturer of Special Education 2014.

Professors Emeritus

Martin Agran, Mary Alice Bruce, John Cochenour, Ace Cossairt, Kay Cowie, Michael Day, Deborah McGriff, Alan Moore, Kay Persichitte, Suzanne Young.

School of Teacher Education

School Director: Alan Buss

Professors:

STEVEN M. BIALOSTOK, B.A. University of the Pacific 1975; M.S.W. California State University - Sacramento 1986; Ph.D. University of Arizona 1999; Professor of Elementary and Early Childhood Education 2015, 2000.

CYNTHIA BROCK, B.S. Oregon State University 1981; MEd Washington State University 1985; Ph.D. Michigan State University 1997; Wyoming Excellence in Education Literacy Chair 2015.

ANDREA C. BURROWS, B.S. University of Central Florida 1992; M.S. Florida State University 1994; Ed.D. University of Cincinnati 2011; Professor of Secondary Education 2017, 2011. Associate Dean of Undergraduate Programs 2020.

ALAN R. BUSS, B.A. Brigham Young University 1989; M.A. 1993; Ph.D. University of Wyoming 1998; Professor of Elementary and Early Childhood Education 2019, 1997.

SCOTT A. CHAMBERLIN, B.A. Purdue University 1989 and 1993; M.Ed. University of Utah 1998; Ph.D. Purdue University 2002; Professor of Elementary and Early Childhood Education 2015, 2003.

LEIGH HALL, B.S. University of South Florida 1996; M.Ed. Peabody College of Vanderbilt University 1997; Ph.D. Michigan State University 2005; Professor of Secondary Education 2017. Wyoming Excellence in Education Literacy Chair, 2017.

JOHN KAMBUTU, B. A. University of Wyoming 1991; M. A. 1992; Ph.D. 1998; Professor of Educational Studies 2015, 1999.

RICHARD KITCHEN, B.A. University of Colorado-Denver 1984; M.A. University of Montana 1990; Ph.D. University of Wisconsin- Madison 1996; Professor of Secondary Education 2017. Wyoming Excellence in Education Mathematics Education Chair 2017.

PETER WILLIAM MORAN, B.A. University of Wyoming 1987; M.A. Kansas State University 1993; Ph.D. 2000; Professor of Elementary and Early Childhood Education 2017, 2001.

LYDIAH NGANGA, B.S. University of Wyoming 1998; M.S. 2000; Ph.D. 2005; Professor of Elementary and Early Childhood Education 2020, 2005.

LESLIE S. RUSH, B.S. Texas A&M-Commerce 1984; M.Ed. 1996; Ph.D. University of Georgia, 2002; Professor of Secondary Education 2014, 2002.

JENNA M. SHIM, B.A. California State University - Los Angeles 1994; M.M. Manhattan School of Music - New York 1996; M.S. State University of New York - Albany 2006; Ph.D. 2009; Professor of Educational Studies 2016, 2010.

TIMOTHY F. SLATER, B.S. Kansas State University 1989; B.S. Ed. 1989; M.S. Clemson University 1991; Ph.D. University of South Carolina 1993; Professor of Secondary Education 2008. Wyoming Excellence in Education Science Education Chair 2008.

ALLEN TRENT, B.A. Eastern Kentucky University 1986; M.S. University of Dayton 1992; Ph.D. The Ohio State University 2000; Professor of Elementary and Early Childhood Education 2012.

Associate Professors:

TAO HAN, B.A. Sungshin Women's University, Korea 1984; M.A. University of Arizona 1993; M.A. University of Nevada-Reno 2002; Ph.D. 2006; Associate Professor of Elementary and Early Childhood Education 2016, 2010.

ANA HOUSEAL, B.A. University of Iowa 1985; M.A. University of Northern Iowa 1998; Ph.D. University of Illinois 2010; Associate Professor of Elementary and Early Childhood Education 2017, 2011.

LINDA HUTCHISON, B.A. Humboldt State University 1978; M.A. Stanford University 1986; Ph.D. University of Washington 1992; Associate Professor of Secondary Education 2000, 1993.

TRICIA JOHNSON, B.S. Lehigh University 1991; M.Ed. 1993; Ed.S. George Washington University 1997; Ed.D. Columbia University 2004; Associate Professor of Elementary and Early Childhood Education 2012.

PATRICK MANYAK, B.A. Pepperdine University 1988; M.S. 1990; Ph.D. University of Southern California-Los Angeles 2001; Associate Professor of Elementary and Early Childhood Education 2007, 2001.

AMY ROBERTS, B.S. Indiana University 1986; M.A. Portland State University 1991; Ph.D. Indiana University 1996; Associate Professor of Elementary and Early Childhood Education 2004, 1998.

KATHERINE MUIR WELSH, B.A. University of California-Berkeley 1986; Single Subject Teaching Credential (Life Sciences) University of California-Santa Barbara 1990; Ph.D. University of California-Los Angeles 2002; Associate Professor of Elementary and Early Childhood Education 2008, 2002.

Assistant Professors:

ALI BICER, B.S. Celal Bayar University 2006; M.S. Texas A&M University 2012; Ph.D. 2016; Assistant Professor of Elementary and Early Childhood Education 2019.

TODD REYNOLDS, B.A. University of Northern Colorado 1998; M.A. 2004; Ed.S. 2008; Ph.D. University of Wyoming 2015; Assistant Professor of Secondary Education 2019.

ALISON MERCIER, B.S. North Carolina State University 2000; M.S. University of North Carolina 2020; Assistant Professor of Secondary Education 2020.

Senior Lecturers:

NIKKI BALDWIN, B.A. University of Wyoming 1994; M.A. 2005; Senior Lecturer of Elementary and Early Childhood Education 2020, 2009.

KIMBERLY GUSTAFSON, B.A. University of Wyoming 1998; M.A. 2003; Ed.D. 2010; Senior Lecturer of Elementary and Early Childhood Education 2019, 2007.

AMY SPIKER, B.A. University of Wyoming 1989; M.A. 2004; Senior Lecturer of Elementary and Early Childhood Education 2016, 2007.

Associate Lecturers:

JASON KATZMANN, B.S. Texas Women's University 1994; M.A. Colorado College 2000; Ph.D. University of Northern Colorado 2007; Assistant Professor of Educational Studies 2016, 2007.

ROD THOMPSON, B.A. University of Nebraska at Kearney 1991; M.A. University of Northern Iowa 1998; Associate Lecturer of Educational Studies 2019.

Assistant Lecturers:

LINDSEY FREEMAN, B.S. University of Wyoming 2011; M.A. 2018; Assistant Lecturer of Educational Studies 2019.

JENNIFER GERINGER, B.A. University of Texas - San Antonio 1991; M.S. University of Wyoming 1997; Ph.D. 2001; Assistant Lecturer of Elementary and Early Childhood Education 2015.

JANET LEAR, B.S. University of Wisconsin-Madison 1990; M.A. University of California, Berkeley 1998; Ph.D. University of Denver 2017; Assistant Lecturer of Educational Studies 2019.

ROCHELLE MCCOY, B.A. Western Governors University 2006; M.A. 2012; Assistant Lecturer of Elementary and Early Childhood Education 2019.

JOSEPH SCHROER, B.A. University of Cincinnati 2002; B.S. 2005; M.A. 2001; Ph.D. 2007; Assistant Lecturer of Educational Studies 2019.

Professors Emeritus:

Michelle Buchanan, Barbara A. Chatton, Margaret Cooney, Lydia Dambekalns, Judith Z. Ellsworth, Patricia McClurg, R. Timothy Rush

Accreditation

The College of Education, a member of the American Association of Colleges of Teacher Education, is currently accredited by the National Council for the Accreditation of Educator Preparation (CAEP) and is moving toward the Association for Advancing Quality in Educator Preparation (AAQEP) in 2023-2024. The Wyoming Professional Teaching Standards Board (PTSB) and the North Central Association of Colleges and Schools approve the college as an accredited teacher-preparing institution. The Counseling programs are fully accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP).

Academic Advising

Students are assigned an academic adviser who will assist in planning a program combining University Studies requirements, core content requirements, and professional education courses. Students are expected to consult with their adviser regularly. The Teacher Preparation and Advising Office coordinates advising and provides students and faculty with assistance in areas related to academic advising.

Further information on each program is available in:

Teacher Preparation and Advising Office
McWhinnie Hall room 100
Dept. 3374, 1000 E. University Ave.

Engineering is a profession that truly makes a difference. Engineers constantly discover how to improve lives by creating new solutions to real world problems and needs. From small villages to large cities, engineers are involved in innovative improvements to all aspects of life from health care, to energy production, to protecting and rehabilitating the environment, to developing the newest technological device. The broad background of communication, mathematical, scientific, and problem solving skills provided at the University of Wyoming will prepare engineering graduates to pursue careers in engineering, construction, environmental policy, even medicine or law. The possibilities are endless! The creativity and innovative thinking developed in engineering enables students to lead rewarding lives, work with inspiring people, and give back to their communities. Computer science is a profession that is closely affiliated with engineering. At the University of Wyoming, degrees in computer science are awarded through the College of Engineering and Applied Science. The technology trends in this industry are also advancing at a tremendous

rate. This requires that computer science education be at the forefront of new computing technologies, software languages, and networking.

Mission

The University of Wyoming's College of Engineering and Applied Science will provide excellent education, research, and service in chosen fields of engineering and applied science. The College emphasizes connectivity with society, life-long learning, and the essential problem-solving and collaborative skills needed to address the frontier challenges facing Wyoming, the nation and the world.

Design Experiences

In direct support of the goals of the individual departments within the College of Engineering and Applied Science, the design process is consistently developed and integrated throughout the curriculum from the freshman year through the senior year. Within the engineering science program, design elements such as basic analysis skills, communication skills, experimental skills, computational skills, problem solving skills, and design methodology are taught. At the departmental level, these skills are developed further and the concepts of design methodology are reinforced. The design process culminates in a comprehensive design experience within the student's major.

Accreditation

The following undergraduate programs are accredited by the Engineering Accreditation Commission of ABET: architectural engineering, chemical engineering, civil engineering, computer engineering, electrical engineering, energy systems engineering, mechanical engineering, and petroleum engineering.

Various options within different engineering programs are accredited as part of the primary major. That is, the electrical engineering/ bioengineering option is accredited as an electrical engineering degree, and the chemical engineering/petroleum option is accredited as a chemical engineering degree.

The Bachelor of Science in Computer Science is accredited by the Computer Accreditation Commission of ABET.

Programs of Study

Undergraduate Degrees

- Bachelor of Science in Architectural Engineering
- Bachelor of Science in Chemical Engineering
- Bachelor of Science in Civil Engineering
- Bachelor of Science in Computer Engineering
- Bachelor of Science in Computer Science
- Bachelor of Science in Computer Science (Computers and Business Option)
- Bachelor of Science in Computer Science (Big Data Option)
- Bachelor of Science in Construction Management
- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Electrical Engineering (Francis M. Long bioengineering option)
- Bachelor of Science in Energy Systems Engineering

Bachelor of Science in Mechanical Engineering
Bachelor of Science in Petroleum Engineering

Graduate Degrees

Master of Science

Architectural engineering
Atmospheric science
Chemical engineering
Civil engineering
Civil engineering/water resources
Computer science
Computer science professional
Electrical engineering
Environmental engineering
Mechanical engineering
Petroleum engineering

Doctor of Philosophy

Atmospheric science
Chemical engineering
Civil engineering
Computer science
Electrical engineering
Mechanical engineering
Petroleum engineering

Candidates for the various master's degrees in engineering are required to do a full year's work in residence either under Plan A or Plan B.

Students should understand that a strong background in mathematics is necessary to actively pursue an engineering curriculum. Credit toward an engineering degree is not allowed for algebra and trigonometry.

Coursework in all four-year curricula stresses the mastery of subjects fundamental to all fields of engineering. The balance of the program is divided between cultural context and courses applying to the particular field selected. The aim is to provide the student with such groundwork that the general principles acquired may be used successfully in any one of the several specialized fields he or she may follow after graduation.

Depending on the major, a minimum of 120 to 132 semester hours of credit is required for the bachelor's degree from the College of Engineering and Applied Science. All course work must be selected with prior approval. Detailed outlines of curricula are presented later under headings of the various departments of the college. Since most engineering programs are similar during the first year, students may change an engineering major during this time with little or no loss in credit.

Degree candidates must meet the academic requirements of the university and must have a grade point average of 2.000 (C) or above in all engineering courses attempted at this university.

Students may not take a course for S/U credit to satisfy any requirement for a degree from the College of Engineering and Applied Science, unless the course is offered for S/U credit only.

The College of Engineering and Applied Science adheres to prerequisite coursework being completed before moving forward to advanced coursework. If a student is found to be enrolled in a course without meeting the prerequisites, the student will be administratively dropped from the course.

All undergraduate engineering programs within the College of Engineering and Applied Science use the Fundamentals of Engineering Exam as one of their methods of outcomes assessment. As a graduation requirement, students must complete the exam, with a good faith effort, within one year prior to their expected graduation.

Preparation for the profession of engineering requires diligent work in the various curricula. The required credit hours can be completed in a four-year program, but because of the rigorous nature of some of the courses involved, some students may require additional time to complete degree requirements.

All engineering curricula are subject to minor program changes. The published curricula are general guides. Prospective students should consult the individual departments for current information.

International Engineering Minor

Students in the College of Engineering and Applied Science may earn a Minor in International Engineering. The Minor requires:

- a) a study abroad experience;
- b) 9 credits of lower-division coursework; and
- c) 9 credits of upper-division coursework.

More detailed requirements are available at: <http://www.uwyo.edu/ceas/academics/intleng.html>

Graduate Study

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following master's degrees: master of science in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, environmental engineering, mechanical engineering, and petroleum engineering. Candidates for the various master's degrees in engineering are required to do a full year's study in residence either under Plan A or Plan B.

Only graduates with satisfactory GPAs in programs accredited by ABET are granted full admission to graduate study. In addition, graduates with satisfactory GPAs in undergraduate disciplines of meteorology, physics, mathematics, or related fields can be granted full admission to graduate studies in atmospheric science. Other engineering graduates can be admitted on a provisional basis.

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following doctoral degrees: doctorate in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, mechanical engineering, and petroleum engineering. Interdisciplinary programs of study and research leading to one of the above disciplinary degrees can be developed.

Engineering Science

Program Director: David Mukai, Ph.D.
2076 Engineering Building,
(307) 766-6181
FAX: (307) 766-4444

Engineering Science offerings present the fundamental engineering concepts upon which most engineering analysis and design work is based. Faculty are drawn from all of the academic departments in the college. These core courses represent the majority of engineering offerings at the freshman and sophomore level.

Courses in engineering science have their roots in mathematics and physical science, extending knowledge toward creative application. Thus, students must take their courses in calculus, chemistry, physics, and engineering science in a timely manner. Details are given in the published curriculum for each program. **A grade of C or better must be earned in all courses that are prerequisite to any required engineering science course.**

Minor

International Engineering Minor

The International Engineering minor is an 18 credit hour program open to all engineering students. Cornerstones are a study abroad experience and coursework to help students gain understanding of perspectives and viewpoints from around the world.

Study Abroad Requirement

All students earning the International Engineering Minor must complete an educational experience outside of the United States. Examples are:

- Semester or year abroad at a college or university
- UW faculty-led study abroad program
- International service-learning experience (such as Engineers Without Borders, or Alternative Spring Break)
- Internship with a company outside the United States
- Research experience outside the United States

Coursework

The coursework is 18 total credits - these credits may also count toward major degree program. The coursework is intended to help students gain understanding of perspectives and viewpoints from around the world.

Lower Division Coursework

Select 9 credits from the following courses:

- Foreign language courses (except American Sign Language)
- 1000 or 2000 level Engineering courses completed during a Study Abroad program
- 1000 or 2000 level courses in International Studies (INST)
- Any of the courses listed below

ANTH2200 - World Culture

Credits: 3

Provides an understanding of cultural behavior of people in various geographical areas of the world. Students read ethnographies, cultural descriptions of societies, written by cultural anthropologists.

When Offered (Normally offered at least once a year)

USP 2003-2014 Code U3G, U3CS

A&S College Core 2015 ASG

ANTH1200 - Introduction to Cultural Anthropology

Credits: 3

Introduction to foreign, especially non-western, cultures through anthropological concepts, films and ethnographies.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

ECON1000 - Global Economic Issues

Credits: 3

Economics: creating value through trade, enhancing society through ideas, and protecting the environment by design. This introductory course will help you understand better on how people use both free markets and government regulations to create value, enhance society, and protect nature. You will explore how economic ideas and tools address big global issues like poverty and prosperity, inequality of wealth, capital and labor, sustainable development, free trade vs fair trade, climate change, war and peace, migration, brain drains, and science and nature.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

ERS1300 - Oil: Business, Culture, and Power

Credits: 3

A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ECON 1300.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

GEOG1000 - World Regional Geography

Credits: 3

Covers the distributions, traits, and processes of the Earth's peoples and landscapes through the perspective of regional geography, which is the study of the spatial relationships of natural environments and human societies.

Cross Listed INST 1060.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG
Former Course Number [G&R 1000]

RELI1000 - Introduction to Religion

Credits: 3

Introduces world religions and shared characteristics. Draws on various academic approaches to religion study, emphasizing similarities and differences among wide variety of religions.

USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

RELI2315 - History of Non-Western Religions

Credits: 3

Max Credit 9

Introduces students to religions outside the Judeo-Christian realm familiar in the west. Each religion analyzed in its world views, its ways of life, and in its social organization. History of each religion and its changes.

Cross Listed HIST 2315.
USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

INBU1040 - Introduction to International Business

Credits: 3

A broad survey of the field of international business which introduces basic concepts of international business activity and theory and reviews major foreign environmental forces--financial, economic and socioeconomic, physical, sociocultural, political, legal, labor, competitive and distributive.

Cross Listed INST 1040.
A&S College Core 2015 ASG
Former Course Number [BUSN 2000]

Upper Division Coursework

Select 9 credits from the following courses:

- 3000 or 4000 level Engineering courses completed during a Study Abroad program
- 3000 or 4000 level courses in International Studies (INST)
- Engineering design courses with an International focus

- Internship credits earned from an International internship
(Must be approved by International Engineering Minor Coordinator, in advance, with course syllabus or internship plan with detailed International content.)
- Undergraduate Research (for-credit) experience with an International focus
(Must be approved by International Engineering Minor Coordinator, in advance, with course syllabus or internship plan with detailed International content.)
- Any of the courses listed below

ARE3030 - History of Architecture

Credits: 3

A survey of the history of architecture and its allied fields, focusing on the formal, aesthetic, cultural and socio-political dimensions, from prehistory to the present.

Cross Listed ART 3030.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5H

Prerequisite: WA or COM1.

ART3030 - History of Architecture

Credits: 3

A survey of the history of architecture and its allied fields, focusing on the formal, aesthetic, cultural and socio-political dimensions, from prehistory to the present.

Cross Listed ARE 3030.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5H

Prerequisite: WA or COM1.

CHE4000 - Environment, Technology and Society

Credits: 3

Explores relationships among technology, the environment and society. Examines social and humanistic aspects of using current and future technology to understand and solve environmental problems.

Cross Listed PETE 4000.

Prerequisite: junior standing and completion of two lab sciences.

PETE4000 - Environment, Technology and Society

Credits: 3

Explores relationships among technology, the environment and society. Studies social and humanistic aspects of using current and future technology to understand and solve environmental problems.

Cross Listed CHE 4000.

Prerequisite: junior standing and completion of two lab sciences.

Graduate

Engineering and Applied Science, MBA/MS Dual Degree

Students who hold both an MBA and an MS in Engineering set themselves apart when entering the competitive marketplace. As leaders, not only do they speak the technical lingo, they also understand the overall strategy and operational goals.

MS/MBA Dual Degree Requirements

The MS/MBA is typically a non-thesis option. An additional 21 credits in engineering, science or mathematics must be earned beyond the BS degree. At least 15 credits of graduate course work must be at the 5000-level from the respective EAS graduate program.

MBA Courses

All students pursuing a dual degree program with the College of Engineering and Applied Science and the College of Business must meet the admission requirements for both programs in order to be considered for the dual degree program. If admitted to both programs, students will complete the following requirements:

Any 9 credit hours of the following required MBA core courses can be counted towards the MS/MBA degree.

MBAM5202 - Data and Decision Modeling

Credits: 3

This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Prerequisite: Admission to the MBAM program.

MBAM5102 - Operations Management

Credits: 3

Production and operations management. Topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, and scheduling.

Prerequisite: Admission to the MBAM program.

MBAM5104 - Organization Behavior and Human Resource Management

Credits: 3

Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5204 - Financial Management

Credits: 3

Students taking this course should expect to learn the fundamentals principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

Prerequisite: Admission to the MBAM program.

MBAM5207 - Marketing Management

Credits: 3

Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5208 - Managerial Accounting

Credits: 3

This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions.

Prerequisite: Admission to the MBAM program.

MBAM5330 - Global Business Environment

Credits: 3

Max Credit 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

Restricted Admission to the MBA, MBAE, or MBAF program.

Prerequisite: Admission to the MBA program, or permission from the MBA Program Director.

MBAM5305 - Strategic Management

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

Prerequisite: Admission to the MBAM program. #304.

Program Specific Requirements

Please review the specific program requirements for each program within the dual degree agreement.

- Business Administration, M.B.A.
- Mechanical Engineering, M.S.
- Petroleum Engineering, M.S.

Thesis Option

For a thesis option, students will only count one MBAM course from the above list and are required to complete 4 credits of ME 5960 and 2 credits for ME 5478 similar to the Plan A option.

Department of Atmospheric Science

6034 Engineering Building, (307) 766-3245

FAX: (307)766-2635

Web site: www.atmos.uwyo.edu

Department Head: Jeffrey French

Professors:

BART GEERTS, Licenciaat Physical Geography Katholieke University, Belgium 1984; Engineer in Irrigation Sciences 1986; Ph.D. University of Washington 1992; Professor of Atmospheric Science 2011, 1999.

Associate Professor:

JEFFREY R. FRENCH, B.S. South Dakota School of Mines 1992; M.S. 1994; Ph.D. University of Wyoming 1998; Associate Professor of Atmospheric Science 2021, 2015.

ZACHARY J. LEBO, B.S. Pennsylvania State University 2007; M.S. 2009; Ph.D. California Institute of Technology 2012; Associate Professor of Atmospheric Science 2021, 2015.

SHANE MURPHY, B.S. University of Colorado 2000; Ph.D. California Institute of Technology 2009; Associate Professor of Atmospheric Science 2019, 2011.

Assistant Professors:

DANA CAULTON, B.S. Indiana University 2010; Ph.D. Purdue University 2014; Assistant Professor of Atmospheric Science 2018.

DANIEL T. MCCOY, B.S., New Mexico Institute of Mining and Technology, 2010; Ph.D., Atmospheric Science, University of Washington, 2016. Assistant Professor of Atmospheric Science 2020.

Adjunct Professors:

Xiaohong Liu
Zhien Wang

Professors Emeritus:

Terry L. Deshler, Robert D. Kelly, John D. Marwitz, Derek C. Montague, Thomas R. Parish, Alfred R. Rodi, Jefferson R. Snider, Gabor Vali

Atmospheric Science is a rapidly evolving discipline aimed at better understanding the earth's atmosphere and sits at the nexus between meteorology, physics, chemistry, biology, engineering, mathematics and computer science. The entire development of atmospheric science demonstrates how progress can result from the application of knowledge developed in the basic sciences to a complex environmental system. Concurrently, atmospheric scientists develop many observational and analytical techniques unique to the study of the atmosphere. Over the past decades, atmospheric science developed vigorously, stimulated by the availability of the latest satellite, ground-based and aircraft observations, as well as the availability of large computers for numerical simulations of atmospheric processes. At the same time, the importance of the atmosphere as a crucial resource in the welfare and survival of humankind is being recognized, as knowledge about how the atmosphere behaves is obtained.

The Department of Atmospheric Science offers graduate programs leading to the M.S. and Ph.D. degrees.

In these graduate programs, great emphasis is placed on the active research involvement of students both during the academic year and during the summer months. The low student to faculty ratio in the department ensures an atmosphere of cooperation among students, faculty and staff. Student theses and dissertations form integral parts of the department's research productivity and usually lead to articles published in the refereed literature.

Research interests in the department center around cloud and precipitation physics, cloud and mesoscale atmospheric dynamics, boundary layer processes, tropospheric aerosols and atmospheric chemistry, climate change, instrumentation and air quality. These interests are reflected in the department's academic program, which has the breadth and depth necessary to give students a background for entering into many different types of employment upon graduation.

A number of unique research tools are available in the department. Prominent among these is the King Air research aircraft which carries extensive instrumentation and computer-directed data acquisition systems. A mobile lab for sampling near surface atmospheric gases and aerosols can be deployed across the United States. Excellent laboratory facilities are available in the department's spacious quarters. These laboratories focus on cloud physics, remote sensing,

aerosol, and atmospheric chemistry. Well-equipped electronic and mechanical construction and design facilities are conducive for work in instrument development. A wide range of computer facilities are available, including access to the NCAR/Wyoming Supercomputer Center(NWSC). The Department of Atmospheric Science is the lead user of the Wyoming allocation of the NWSC.

A prerequisite for admission to the graduate program is a bachelor's degree in meteorology, engineering, physics, chemistry, mathematics or a similar relevant discipline. Graduate assistantships are available by application to the department and are awarded on the basis of past record and promise for achievement.

For material containing further details on curriculum and research programs, write to the graduate admissions coordinator or visit the web site at www.uwyo.edu/atsc/.

Graduate Study

The Department of Atmospheric Science offers degree programs leading to the master of science and doctor of philosophy degrees. The department has strong research programs in the following areas: cloud physics and dynamics; tropospheric aerosols and clouds; greenhouse gases; air pollution and wildfires; boundary layer processes; remote sensing; and airborne instrumentation. The department's observational facilities are: 1) the King Air research aircraft (UWKA); 2) the Air Quality Mobile Lab and the Wyoming Air Quality Monitoring Lab; 3) the Wyoming Cloud Radar (WCR) and Wyoming Cloud Lidar (WCL) for the study of cloud structure and composition; and 4) the Keck Aerosol Laboratory. The UWKA, WCR, and WCL are designated Lower Atmospheric Observing Facilities by the National Science Foundation (NSF). Please refer to the departmental homepage at www.atmos.uwyo.edu for programmatic updates, or contact the department directly.

Program Specific Admission Requirements

Admission based on the university minimum requirements. Admissions are competitive.

Program Specific Graduate Assistantships

Assistantships are offered for both the M.S. and Ph.D. tracks.

Program Specific Degree Requirements

Master's Program

Approval of research plan by the graduate committee Colloquium and oral defense of M.S. thesis Approval of M.S. thesis by the graduate committee Requires a minimum of 26 hours of acceptable graduate coursework and four hours of thesis research and a thesis (final written project). 21 in-residence coursework hours

Doctoral Program

Approval of research plan by the graduate committee At least one colloquium presentation per year Preliminary exam Oral defense of Ph.D. dissertation Approval of Ph.D. dissertation by the graduate committee Ph.D. requires a minimum of 72 graduate hours, with at least 42 hours in formal coursework. This includes appropriate coursework from a master's degree. Additional credits toward the 72 credit hour requirement may include dissertation research hours, internship hours, or additional coursework. 24 in-residence coursework hours

Required Courses

These courses are required for the master's program.

ATSC 5010: Physical Meteorology. 4.

ATSC 5011: Physical Meteorology II. 4.

ATSC 5014: Dynamic Meteorology. 4.

ATSC 5016: Synoptic Meteorology. 4.

ATSC 5018: Ethics & Research Methods. 1.

UW Elective(s) to be determined by committee. 9 minimum

Graduate

Atmospheric Science, M.S.

The Master of Science degree in Atmospheric Science prepares the recipient to work in fields related to meteorology, weather and forecasting, air quality, climate change and environmental regulation.

Program Specific Degree Requirements

Approval of research plan by the graduate committee

Colloquium and oral defense of M.S. thesis

Approval of M.S. thesis by the graduate committee

A minimum of 30 hours of acceptable graduate credit hours that includes at least:

- 26 hours of acceptable graduate coursework and
- 4 hours of thesis research

21 graduate credits must be earned in the Department of Atmospheric Science

Required Courses

These courses are required for the master's program.

ATSC5010 - Physical Meteorology I

Credits: 4

First and second law of thermodynamics applied to energy transformations in the atmosphere, including dry, moist, and saturated processes and atmospheric stability. Fundamentals of radiation including blackbody, planetary budget, and propagation and how these drive the thermodynamics of the earth's atmosphere.

Prerequisite: MATH 2210, PHYS 1310 and PHYS 1320 or equivalent.

ATSC5011 - Physical Meteorology II

Credits: 4

Quantitative description of cloud particle nucleation, growth by condensation, and growth by deposition and collection. Ties to other atmospheric processes, e. g. , radiation budgets and cloud dynamics, are also emphasized. Course material is presented in lecture and computer-based laboratory settings. A numerical cloud model is developed and analyzed in the laboratory.

Prerequisite: ATSC 5010.

ATSC5014 - Dynamic Meteorology

Credits: 4

Development and interpretation of the atmospheric equations of motion, scales of motion, horizontal atmospheric winds, thermal wind equation, circulation and vorticity, mesoscale motions. Introduction to planetary boundary layer flows. Data visualization software is also introduced and used to develop understanding of dynamical processes.

Prerequisite: MATH 2210, PHYS 1310 and PHYS 1320 or equivalent.

ATSC5016 - Synoptic Meteorology

Credits: 4

Large-scale vertical motion as viewed from quasigeostrophic and isentropic potential vorticity perspectives. Baroclinic instability, and the structure and evolution of extratropical cyclones. Identification and development of fronts, jet streams and associated weather features. Role of topography on large-scale circulations.

Prerequisite: MATH 2210, PHYS 1310 and PHYS 1320 or equivalent.

ATSC5018 - Ethics and Research Methods

Credits: 1

Ethics and ethical dilemmas in research and academia and how to address them are discussed. This course also covers general research methodology and describes processes for research funding and disseminating research findings and the peer-review process.

Prerequisite: graduate standing.

Atmospheric Science, Ph.D.

The Doctorate of Philosophy degree in Atmospheric Science prepares the recipient for a career in research studying the atmosphere. Graduates may work in academia, governmental laboratories and agencies, and private industry.

Program Specific Degree Requirements

Approval of research plan by the graduate committee

Successful completion of the Preliminary Examination

Approval of Ph.D. dissertation by the graduate committee

A minimum of 72 hours of acceptable graduate credit hours that includes at least:

- 42 hours of acceptable graduate coursework, and
- 10 hours of thesis or dissertation research

24 graduate coursework hours must be earned in the Department of Atmospheric Science

Department of Chemical Engineering

4055 Engineering Building, (307) 766-2500

Web site: www.uwyo.edu/chemical

Department Head: Patrick Johnson

Professors:

VLADIMIR ALVARADO, B.Sc. Universidad Central de Venezuela 1987; M.S. Institut Francais du Pétrole 2002; Ph.D. University of Minnesota 1996; Professor of Chemical Engineering 2017, 2006.

DAVID M. BAGLEY, B.S. Colorado School of Mines 1984; M.S. Cornell University 1989; Ph.D. 1993; Professor of Chemical Engineering 2011, 2005.

DAVID A. BELL, B.S. University of Washington 1976; M.S. Rice University 1979; Ph.D. Colorado State University 1992; Professor of Chemical Engineering 2019, 1993.

JOSEPH HOLLES, B.S. Iowa State University 1990; M.E. University of Virginia 1998; Ph.D. 2000; Associate Professor of Chemical Engineering 2010.

JOHN OAKEY, B.S. The Pennsylvania State University 1997; M.S. Colorado School of Mines 1999; Ph.D. 2003; Professor of Chemical Engineering 2019, 2010.

MICHAEL V. PISHKO, B.S. University of Missouri-Columbia 1986; M.S. 1987; Ph.D. University of Texas at Austin 1992; Professor of Chemical Engineering 2015.

PATRICK JOHNSON, B.S. Lehigh University 1992; M.S. University of Virginia 1994; Ph.D. Columbia University 2004; Associate Professor of Chemical Engineering 2012, 2006.

Associate Professors:

SAMAN ARYANA, B.S. University of Texas at Arlington 2003; M.S. 2006; Ph.D. Stanford University 2012; Assistant Professor of Chemical Engineering 2013.

KATIE DONGMEI LI-OAKEY, B.S. Shandong University of Technology 1994; M.S. Tianjin University 1997; M.S. University of Colorado at Boulder 1999; Ph.D. 2003; Associate Professor of Chemical Engineering 2018, 2011.

Associate Professor of Practice:

JOHN TATARKO JR., B. ChE, cum laude: 2008 Cleveland State University. MS ChE: 2010 Cleveland State University. MS EE: 2013 University of Louisville. PhD ChE: 2015 University of Louisville.

Assistant Professors:

KAREN WAWROUSEK, B.S. The College of St. Rose 2001; Ph.D. California Institute of Technology 2009; Assistant Professor of Chemical Engineering 2014.

Adjunct Professors:

John Ackerman
Morris Argyle
Youqing Shen
John Schabron

Professors Emeriti:

Chang Yul Cha
H. Gordon Harris
Henry W. Haynes

Chemical Engineering is one of the most versatile of the engineering programs. It prepares students for employment in many diverse fields, such as production of pharmaceuticals, polymers and plastics, semiconductors, heavy industrial chemicals, synthetic fuels, petrochemicals and petroleum refining. Chemical engineers also work in biological engineering, environmental engineering, enhanced oil recovery, corrosion control, metallurgy and microelectronics. Undergraduate chemical engineering training has been found to be an excellent background for graduate work not only in engineering, but also in a number of other fields, including medicine, law, business, and the natural sciences.

The chemical engineering curriculum is based on a sound background in chemistry, mathematics, physics, and biology. The essentials of engineering are added to this foundation, including fluid dynamics and thermodynamics. In order to develop the individual's social consciousness and to broaden the student's educational background, an integrated program of study in the humanities and social sciences is included in the curriculum. Chemical engineering courses in multicomponent thermodynamics, transport phenomena, kinetics, process control and process design are concentrated in the junior and senior years. This program provides training for engineers to enter production, research, product and process development, process design, technical sales and engineering management positions. Training in chemical engineering equips the graduate to solve many of the problems facing society today: human health, energy shortages, synthetic fuels production, water and air pollution, toxic chemical control, and food production. Furthermore, our program prepares students interested in a career in medicine or the life sciences and is suitable for pre-medical and pre-dental students.

The department offers an 18-credit-hour block of approved technical electives. Students select an emphasis in Biological Engineering, Environmental Engineering, Materials Science and Engineering, Chemical Process Industry, Petroleum Engineering, Graduate School Preparation, and Pre-Medicine. Students can also pursue a concurrent major in Chemistry, minors in Physics, Chemistry, Math, Computer Science, Molecular Biology and Business. See department for details. Students are required to take a minimum of 3 credits of Chemical Engineering Technical electives. The Chemical Engineering Program requires that the number of credits of upper division courses be satisfied (ie., 10 credits of Technical electives must be 3000+). The Chemical Engineering program requires 48 hours of 3000 and 4000-level coursework. This is fulfilled by required courses and approved technical electives.

Chemical Engineering degree candidates must meet the academic requirements of the college and, in addition, must have a GPA of 2.000 in Chemical Engineering courses attempted at UW that are applied toward graduation for the B.S. degree from the department.

Students must achieve a C- or better in all chemical engineering courses serving as a prerequisite for another chemical engineering course.

Chemical Engineering Program Educational Objectives

Three to six years after graduation, graduates who choose to practice in Chemical Engineering should:

- Successfully practice the profession of Chemical Engineering;
- Demonstrate successful career growth

Chemical Engineering Program Outcomes

During the course of study in Chemical Engineering, the student should demonstrate:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
- an ability to communicate effectively with a range of audiences;
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions;
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Graduate Study

The Department of Chemical Engineering offers graduate programs leading to the M.S. and Ph.D. degrees in chemical engineering. The M.S. degree is offered under Plan A and Plan B. In addition, an environmental engineering program, run jointly by the Department of Chemical Engineering, the Department of Petroleum Engineering, and the Department of Civil and Architectural Engineering, offers graduate programs leading to an M.S. in environmental engineering under either Plan A or Plan B.

Program Specific Admission Requirements

Admission Process and Requirements

Standard Admission

Admission is open to students with at least a bachelor's degree who meet the minimum requirements:

1. A GPA of 3.000 (A = 4.000), or equivalent;
2. A GRE score (there is no minimum GRE score requirement)
3. For international applicants who did not attend an English-speaking program in an English-speaking country for all years of their highest degree:

A TOEFL score of 600 (paper-based), 250 (computer-based), or 80 (Internet based) or an IELTS score of 6.5.

Unofficial transcripts of all prior college-level coursework, test scores and recommendations from three references must be uploaded as parts of the application.

If admission is granted, then official transcripts, GRE and TOEFL scores are required.

Applications submitted by February 1 will be given priority consideration for the fall semester.

The application will not be processed until all the necessary documents have been uploaded.

Major

Chemical Engineering, B.S.

Chemical Engineering draws upon fundamentals of chemistry, physics, biology, and math to analyze and design processes. Chemical Engineers work in a variety of fields including the energy, medicine, food, microelectronics, biotechnology, environmental, and manufacturing industries. The B.S. in Chemical Engineering is accredited by ABET and provides a path to P.E. licensure.

Curriculum

For students entering UW Fall 2022 or later.

CHE1005 - Introduction to Chemical Engineering

Credits: 1

Provides an overview of chemical engineering and its role in the current technological importance: energy, biotechnology, production of chemicals, and materials processing. Introduces strategies for solving engineering problems, including ethical considerations and teamwork, discusses process variables, units, mass balance, and data analysis, and incorporates active learning exercises using spreadsheet to solve chemical engineering problems.

Prerequisite: concurrent enrollment in MATH 2200.

CHE2005 - Chemical Process Analysis

Credits: 3

Introduces analysis of chemical processes using stoichiometry, material and energy balances, thermodynamics and economics.

When Offered (Normally offered fall semester)

Former Course Number [3000]

Prerequisite: C- or better in either CHEM 1050 or CHEM 1020 and concurrent enrollment in MATH 2205.

CHE2060 - Chemical Engineering Computing

Credits: 3

Introduces fundamental concepts in linear algebra, numerical methods and applied statistics needed to solve engineering problems. In this context, this course also introduces and reinforces computational tools that will be useful for other CHE classes.

Prerequisite: C or better in CHE 1005 or ES 1060; C or better in CHE 2005; concurrent enrollment in MATH 2310.

CHE2070 - Chemical Thermodynamics

Credits: 3

Discusses first and second laws of thermodynamics applied to chemical processes, production of power from heat, refrigeration, and liquefaction processes, develops thermodynamic relations for calculating thermodynamic properties of fluids, including the use of equations of state, and introduces heat effects, Gibbs-energy change of reaction, and chemical-reaction equilibria.

Prerequisite: C- or better in CHE 2005, PHYS 1210; C or better in MATH 2210.

CHE2080 - Chemical Engineering Fluid Mechanics

Credits: 3

Introduces the fundamental aspects of macroscopic fluid mechanics, including physical properties, fluid statics, mass, energy, and momentum balances, momentum transport, and flow through pumps, pipes, and other chemical engineering equipment for both incompressible and compressible fluids, and of microscopic fluid mechanics, including differential mass and momentum balances.

Prerequisite: C- or better in CHE 2005, PHYS 1210, and C or better in MATH 2210.

CHE3015 - Chemical Thermodynamics II

Credits: 3

Introduces mixture properties, such as chemical potentials, excess properties, partial molar properties, heats of mixing, fugacities, and practical tools for estimating them from solution theories and equations of state. These tools and concepts are applied to phase and chemical equilibria.

When Offered (Normally offered fall semester)

Former Course Number [3010]

Prerequisite: C or better in CHE 2060, and CHE 2070 or ES 2310.

CHE3026 - Heat Transfer

Credits: 3

Introduces the theory and application of energy transport (e. g. conduction, convection, radiation), discusses in depth fundamentals of microscopic energy transport, and applies the knowledge to macroscopic chemical engineering processes and systems.

Prerequisite: C- or better in CHE 2060, and CHE 2080 or ES 2330.

CHE3028 - Mass Transfer

Credits: 3

Introduces mass transfer concepts, including molecular diffusion, convective mass transfer, and mass transfer between phases, and the development of mathematical models of these physical phenomena, applicable to the analysis and design of chemical processes.

Prerequisite: C- or better in CHE 2005, CHE 2060, and CHE 2080 or ES 2330.

CHE3040 - Unit Operations Laboratory I

Credits: 3

Laboratory experiments examining settling, pump performance, heat transfer, adsorption, gas transfer, and distillation. Introduces topics in statistics including: probability distributions, mean, median, mode, variance and standard deviation, systematic and random error, confidence intervals, and t-tests, F-tests and ANOVA. Emphasizes the preparation of formal laboratory reports including experimental error analysis.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3WB

Prerequisite: C- or better in CHE 3026 and CHE 3028 and CHE 4060. (Normally offered fall semester)

CHE4050 - Unit Operations Laboratory II

Credits: 3

Laboratory experiments examining heat transfer and process control. Also requires students to design, conduct and analyze 'open-ended' experiments. Introduces LabView and covers factorial experimental design and linear and non-linear data regression approaches. Emphasizes the preparation of a formal report describing all aspects of the experiments.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3WC

Prerequisite: C- or better in CHE 3040. (Normally offered spring semester)

CHE4060 - Reaction Engineering

Credits: 3

Introduces chemical process kinetics, catalysis and reactor design. Includes homogeneous and heterogeneous reaction kinetics; design of batch, stirred-tank and tubular reactors; and nonisothermal operation.

When Offered (Normally offered spring semester)

Prerequisite: C- or better in CHE 3015 and CHE 3026 and concurrent enrollment in CHE 3028.

CHE4070 - Process Simulation & Economics

Credits: 4

Max Credit 4

Introduces simulation software used to model chemical processing. Techniques used to determine economic feasibility of chemical plants are described.

When Offered (Normally offered fall semester)

Prerequisite: C or better in CHE 3028 and CHE 4060

CHE4080 - Senior Design

Credits: 4

Max Credit 4

Intended for the senior year. Applies all previous courses to the design of safe, economical and environmentally benign processes.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: COM-2, concurrent enrollment in CHE 4070

CHE4090 - Process Dynamics and Control

Credits: 3

Encompasses analysis and design control systems for the chemical process industry including steady-state approximation, types of controllers, simple unsteady-state analysis, use of mathematical models and process dynamics under control.

Prerequisite: C- or better in CHE 3028 and CHE 4060.

CHEM1050 - Advanced General Chemistry I

Credits: 4

First semester of a one-year series covering chemical principles. Emphasizes inorganic chemistry and briefly discusses qualitative analysis. Credit not given for more than one of CHEM 1020, 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: one year high school chemistry, and an ACT Math score of 27 or higher or concurrent enrollment in MATH 2200.

CHEM1060 - Advanced General Chemistry II

Credits: 4

Second semester of a one-year series covering chemical principles. Emphasizes inorganic chemistry and briefly discusses qualitative analysis. Credit not given for more than one of CHEM 1030 and 1060.

Lab/Lecture Hours Laboratory: 3 hours per week.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: CHEM 1050 or CHEM 1020, with permission of the instructor.

CHEM2420 - Organic Chemistry I

Credits: 4

First semester of a one-year sequence in organic chemistry. Approached from the viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week. No credit allowed in CHEM 2420 if credit earned in CHEM 2300.

When Offered (Normally offered fall)

Prerequisite: CHEM 1030 or CHEM 1060.

CHEM2440 - Organic Chemistry II

Credits: 4

Second semester of a one-year sequence in organic chemistry. Approached from viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week.

When Offered (Normally offered spring semester)

A&S College Core 2015 Note: CHEM 2300 is not an acceptable prerequisite for CHEM 2440.

Prerequisite: CHEM 1030 or CHEM 1060 and CHEM 2420.

CHEM4507 - Physical Chemistry I

Credits: 3

First semester of a one-year sequence. Emphasis on introductory quantum mechanics, atomic structure, molecular bonding and structure and spectroscopy. Kinetic molecular theory of gasses may be introduced. Uses multivariable calculus, differential equations and some linear algebra.

When Offered (Normally offered fall semester)

Prerequisite: one year of general chemistry, multivariable calculus, one year of general college physics.

COSC1010 - Introduction to Computer Science I

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

University Studies Program Requirements

The University Studies Program 2015

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Approved Electives

See CEAS Advising Center for a current list of approved technical electives. There are a total of 18 credits required for technical electives.

Transfer Coursework: All Wyoming Community College equivalent courses will be evaluated for acceptance into the CHE program. For upper-division coursework, no more than two CHE 3000+ courses can be transferred and applied to the CHE degree, however, CHE4070 - Process Simulation & Economics and CHE4080 - Senior Design cannot be transferred to UW.

In addition, all CHE transfer courses must be completed with a grade of C- or better.

Program Educational Objectives

Three to six years after graduation, graduates who choose to practice in Chemical Engineering should:

- Successfully practice the profession of Chemical Engineering;
- Demonstrate successful career growth

Chemical Engineering Program Outcomes

During the course of study in Chemical Engineering, the student should demonstrate:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
- an ability to communicate effectively with a range of audiences;
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions;
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Minor

Biomedical Engineering Minor

Biomedical Engineering is an interdisciplinary field that combines principles of biology and medicine with engineering design to produce healthcare innovations. Biomedical engineers contribute to medical technologies in a variety of areas including diagnostics, therapeutics, imaging, bioinformatics, and rehabilitation.

Learning Outcomes:

A student who has completed the Biomedical Engineering Minor will have:

1. Experience and proficiency in applying principles of engineering, biology, human physiology, chemistry, calculus-based physics, differential equations, and statistics;
2. Experience and proficiency in solving biomedical engineering problems, including those associated with the interaction between living and nonliving systems;
3. Experience and proficiency in analyzing, modeling, designing, and realizing medical (biomedical engineering) devices, systems, components, or processes;
4. Experience and proficiency in making measurements on and interpreting data from living systems;
5. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
6. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
7. An ability to communicate effectively with a range of audiences.
8. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
9. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
10. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
11. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Biomedical Engineering is an interdisciplinary field that combines principles of biology and medicine with engineering design to produce healthcare innovations. Biomedical engineers contribute to medical technologies in a variety of areas including diagnostics, therapeutics, imagins, bioinformatics, and rehabilitation. Accordingly, biomedical engineers typically possess a broad biology background and strong engineering design and problem-solving principles. The

purpose of this minor in Biomedical Engineering is to prepare students studying engineering or the life sciences for careers in industries that develop technologies to advance medicine.

The following curriculum is accessible to students from any major degree program in the College of Engineering and Applied Science (CEAS). Major-specific tracks anticipating the most appropriate groupings of electives are provided to the CEAS advising center. Specialized, more comprehensive programs of study are proposed for students with a particular interest in medical school preparation.

Coursework:

The minimum required coursework consists of 18 credits of electives. The course of study can be self-directed or tailored to a student's major degree program. Example coursework tracks are provided below for students pursuing specific engineering majors.

Chemical Engineering

Chemical Engineering draws upon the fundamentals of chemistry, physics, and biology to analyze and design processes. Chemical Engineers work in a variety of biomedical disciplines including pharmaceutical production, biomedical devices, tissue engineering, and medical sensing. The following coursework covers biological fundamentals and materials with a focus on process and device design.

CHE3100 - Fundamentals of Bioengineering

Credits: 3

An introduction to select biological concepts with emphasis on their relevancy to bioengineering. Topics include model organisms, cells and organelles, bioenergetics and metabolism, macromolecules, DNA replication and modern molecular biology methods, and control mechanisms.

Prerequisite: C- or better in LIFE 1010.

CHE4100 - Biochemical Engineering

Credits: 3

Applies chemical engineering principles to the analysis and design of biological processes widely used in the pharmaceutical, food and environmental remediation industries. Topics include kinetics of enzyme-catalyzed reactions, cellular growth and metabolism, bioreactor design and mass transfer considerations.

Dual Listed CHE 5100.

Prerequisite: Completion with a C- or better or concurrent enrollment in CHE 3100 or MOLB 2021.

CHE4160 - Biomedical Engineering-Transport Processes

Credits: 3

Focuses on chemical and physical transport processes with applications toward the development of drug delivery systems, artificial organs, bioartificial organs and tissue engineering. Involves topics covering body fluids, capillary solute transport, physical and flow properties of blood, tissue oxygen transport, pharmacokinetic models and cell physiology.

Prerequisite: consent of instructor and grade of C or better in at least three courses counting no more than two from CHEM 1020, CHEM 1030, CHEM 1050, LIFE 1010, LIFE 1020 and at least one from LIFE 2022, MATH 2200, KIN 2040, MOLB 2021, MOLB 2240, CHE 3000, ES 2310.

CHE4165 - Biomaterials

Credits: 3

Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

Dual Listed CHE 5165.

Prerequisite: LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.
+ 6 Credits for approved coursework

Electrical Engineering

BE4810 - Bioinstrumentation

Credits: 3

Electronic systems used to monitor physiological systems and function (cardiovascular, pulmonary, nervous); transducer systems, amplifiers and recording systems used in research and clinical applications. Laboratory.

Dual Listed BE 5810.

Prerequisite: EE 2210 or similar electric circuit course.

BE4820 - Biomedical Signal Processing

Credits: 3

Extraction of signals from noise and data analysis. Emphasis on system modeling of physiological functions from experimental data.

Dual Listed BE 5810.

Prerequisite: EE 3220, basic course, or equivalent.

EE5410 - Neural and Fuzzy Systems

Credits: 3

Theory of feed forward and recurrent neural networks. Supervised and unsupervised learning theories. Fuzzy logic and systems. Associative memories. Matching and self-organizing networks. Application of neural and fuzzy systems.

Prerequisite: EE 3220.

CHE3100 - Fundamentals of Bioengineering

Credits: 3

An introduction to select biological concepts with emphasis on their relevancy to bioengineering. Topics include model organisms, cells and organelles, bioenergetics and metabolism, macromolecules, DNA replication and modern molecular biology methods, and control mechanisms.

Prerequisite: C- or better in LIFE 1010.

CHE4165 - Biomaterials

Credits: 3

Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

Dual Listed CHE 5165.

Prerequisite: LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN3042 - Biomechanics of Human Movement

Credits: 3

Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

Mechanical Engineering

With a focus upon biomaterials and biomechanics, this minor combines biology and physiology with mechanical engineering. This coursework helps students apply mechanical engineering principles to biological challenges including prosthetics, robotic surgery instruments, and medical device design.

CHE3100 - Fundamentals of Bioengineering

Credits: 3

An introduction to select biological concepts with emphasis on their relevancy to bioengineering. Topics include model organisms, cells and organelles, bioenergetics and metabolism, macromolecules, DNA replication and modern molecular biology methods, and control mechanisms.

Prerequisite: C- or better in LIFE 1010.

CHE4100 - Biochemical Engineering

Credits: 3

Applies chemical engineering principles to the analysis and design of biological processes widely used in the pharmaceutical, food and environmental remediation industries. Topics include kinetics of enzyme-catalyzed reactions, cellular growth and metabolism, bioreactor design and mass transfer considerations.

Dual Listed CHE 5100.

Prerequisite: Completion with a C- or better or concurrent enrollment in CHE 3100 or MOLB 2021.

CHE4160 - Biomedical Engineering-Transport Processes

Credits: 3

Focuses on chemical and physical transport processes with applications toward the development of drug delivery systems, artificial organs, bioartificial organs and tissue engineering. Involves topics covering body fluids, capillary solute transport, physical and flow properties of blood, tissue oxygen transport, pharmacokinetic models and cell physiology.

Prerequisite: consent of instructor and grade of C or better in at least three courses counting no more than two from CHEM 1020, CHEM 1030, CHEM 1050, LIFE 1010, LIFE 1020 and at least one from LIFE 2022, MATH 2200, KIN 2040, MOLB 2021, MOLB 2240, CHE 3000, ES 2310.

CHE4165 - Biomaterials

Credits: 3

Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

Dual Listed CHE 5165.

Prerequisite: LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN3042 - Biomechanics of Human Movement

Credits: 3

Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

Medical School Preparation

With a focus upon biomaterials and biomechanics, this minor combines biology and physiology with mechanical engineering. This coursework helps students apply mechanical engineering principles to biological challenges including prosthetics, robotic surgery instruments, and medical device design.

MOLB2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.

When Offered Spring

Prerequisite: LIFE 1010.

MOLB3610 - Principles of Biochemistry

Credits: 4

One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

CHE4160 - Biomedical Engineering-Transport Processes

Credits: 3

Focuses on chemical and physical transport processes with applications toward the development of drug delivery systems, artificial organs, bioartificial organs and tissue engineering. Involves topics covering body fluids, capillary solute transport, physical and flow properties of blood, tissue oxygen transport, pharmacokinetic models and cell physiology.

Prerequisite: consent of instructor and grade of C or better in at least three courses counting no more than two from CHEM 1020, CHEM 1030, CHEM 1050, LIFE 1010, LIFE 1020 and at least one from LIFE 2022, MATH 2200, KIN 2040, MOLB 2021, MOLB 2240, CHE 3000, ES 2310.

CHE4165 - Biomaterials

Credits: 3

Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

Dual Listed CHE 5165.

Prerequisite: LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.

PHCY3450 - Foundational Pathophysiology

Credits: 4

Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)

Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

Plus the following suggested coursework:

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

ZOO4125 - Integrative Physiology

Credits: 5

Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

Prerequisite: grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

MOLB3000 - Introduction to Molecular Biology

Credits: 3

An introduction to molecular biological processes governing cellular events is presented in the context of the structure of genomes, genes and chromosomes, DNA replication, gene expression, signal transduction pathways and the regulation of cellular processes in disease and development. Experimental methods and technologies will also be discussed.

Prerequisite: LIFE 1010 and CHEM 1030; MOLB 2021 or MICR 2021 recommended.

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

SOC1000 - Sociological Principles

Credits: 3

Provides a survey of the discipline and foundation for other sociology courses. Explores major areas of interest - ranging from small groups and families to bureaucracies and social movements. Introduces significant concepts and theories, along with tools of social research. Gives attention to contemporary American society, as well as comparative and historical material.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

or

PHCY6120 - Advanced Pathophysiology

Credits: 3

Advanced course covering the molecular, cellular, genetic and clinical principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for Doctor of Pharmacy students who will transition into their clinical rotations. Students will jointly meet once per week with students within

PHCY 3450 for interprofessional education revolving around student-led case study presentations.

Former Course Number [6220]

Prerequisite: LIFE 1010, LIFE 1020, CHEM 1020, CHEM 1030, CHEM 2420, CHEM 2440, MOLB 2240, MOLB 3610, ZOO 3115, ZOO 4125.

Additional Approved Courses:

In addition to the suggested tracks above, individual programs may be customized or augmented by selecting from any of the following approved credits, which may be counted in fulfillment of technical elective requirements within the major degree program.

Select 18 credit hours from the following:

CHE3100 - Fundamentals of Bioengineering

Credits: 3

An introduction to select biological concepts with emphasis on their relevancy to bioengineering. Topics include model organisms, cells and organelles, bioenergetics and metabolism, macromolecules, DNA replication and modern molecular biology methods, and control mechanisms.

Prerequisite: C- or better in LIFE 1010.

CHE4100 - Biochemical Engineering

Credits: 3

Applies chemical engineering principles to the analysis and design of biological processes widely used in the pharmaceutical, food and environmental remediation industries. Topics include kinetics of enzyme-catalyzed reactions, cellular growth and metabolism, bioreactor design and mass transfer considerations.

Dual Listed CHE 5100.

Prerequisite: Completion with a C- or better or concurrent enrollment in CHE 3100 or MOLB 2021.

CHE4160 - Biomedical Engineering-Transport Processes

Credits: 3

Focuses on chemical and physical transport processes with applications toward the development of drug delivery systems, artificial organs, bioartificial organs and tissue engineering. Involves topics covering body fluids, capillary solute transport, physical and flow properties of blood, tissue oxygen transport, pharmacokinetic models and cell physiology.

Prerequisite: consent of instructor and grade of C or better in at least three courses counting no more than two from CHEM 1020, CHEM 1030, CHEM 1050, LIFE 1010, LIFE 1020 and at least one from LIFE 2022, MATH 2200, KIN 2040, MOLB 2021, MOLB 2240, CHE 3000, ES 2310.

CHE4165 - Biomaterials

Credits: 3

Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

Dual Listed CHE 5165.

Prerequisite: LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.

CHE3900 - Undergraduate Research

Credits: 1-6

Students carry out research appropriate to undergraduates, under faculty supervision. May be taken more than once.

When Offered (Normally offered each semester)

Prerequisite: junior standing in chemical engineering.

CHE4220 - Metabolic and Protein Engineering

Credits: 3

An introduction to the design of biological systems for conversion of a feedstock to product, with emphasis on synthetic biology and directed evolution design principles, evolutionary mechanisms and tradeoffs. Metabolic pathways and molecules of industrial importance will be discussed, as well as ethics as applied to synthetic biology and bioengineering.

Dual Listed CHE 5220.

Prerequisite: MOLB 2021 or concurrent enrollment in CHE 3100.

BE4810 - Bioinstrumentation

Credits: 3

Electronic systems used to monitor physiological systems and function (cardiovascular, pulmonary, nervous); transducer systems, amplifiers and recording systems used in research and clinical applications. Laboratory.

Dual Listed BE 5810.

Prerequisite: EE 2210 or similar electric circuit course.

BE4820 - Biomedical Signal Processing

Credits: 3

Extraction of signals from noise and data analysis. Emphasis on system modeling of physiological functions from experimental data.

Dual Listed BE 5810.

Prerequisite: EE 3220, basic course, or equivalent.

EE4800 - Problems in _____

Credits: 1-6

Max Credit (Max. 6)

Section 1 is individual study. Other sections are group study by seminar or class format. Features topics not included in regularly offered courses.

Prerequisite: consent of instructor.

EE5410 - Neural and Fuzzy Systems

Credits: 3

Theory of feed forward and recurrent neural networks. Supervised and unsupervised learning theories. Fuzzy logic and systems. Associative memories. Matching and self-organizing networks. Application of neural and fuzzy systems.

Prerequisite: EE 3220.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

KIN3042 - Biomechanics of Human Movement

Credits: 3

Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

LIFE3050 - Genetics

Credits: 4

Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3600 - Cell Biology

Credits: 4

Focuses on cell structure, cell function and the regulation of cell processes. Examines many levels of organization, ranging from single molecules and individual cells to multi-cellular systems and the whole organism. Discussion section is required.

Former Course Number [BIOL 3600/ BIOL 4600]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

MOLB2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.

When Offered Spring

Prerequisite: LIFE 1010.

MOLB3000 - Introduction to Molecular Biology

Credits: 3

An introduction to molecular biological processes governing cellular events is presented in the context of the structure of genomes, genes and chromosomes, DNA replication, gene expression, signal transduction pathways and the regulation of cellular processes in disease and development. Experimental methods and technologies will also be discussed.

Prerequisite: LIFE 1010 and CHEM 1030; MOLB 2021 or MICR 2021 recommended.

MOLB4100 - Clinical Biochemistry

Credits: 4

Integrated discussion of biochemical, molecular, and physiological principles underlying human medical disorders and biochemical and molecular genetics tests used in prevention, diagnosis and treatment. Weekly discussion sessions review basic concepts studied by students independently and class sessions include problem solving in an active learning format, lectures and other applied activities.

When Offered Spring

Former Course Number [3980]

Prerequisite: Minimum grade of C in MOLB 3610 or MOLB 4600; course in physiology recommended (e.g. ZOO 3115).

MOLB4260 - Quantitative Microscopy

Credits: 1

Acquaints students with principles of light microscopy, use of fluorescent probes and image processing software. Students use phase contrast, fluorescent, and confocal microscopes learning to measure and compare size and intensity of images.

Dual Listed MOLB 5260.

When Offered Fall

Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600, and PHYS 1120.

MOLB4400 - Immunology

Credits: 4

Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed PATB 4400.

Dual Listed MOLB 5400.

When Offered Fall

Prerequisite: MOLB 2021 or MICR 2021 or MOLB 2240 or PATB 2220, and a minimum grade of C in MOLB 3000 or MOLB 3610.

MOLB4600 - Advanced Biochemistry

Credits: 3

Emphasis will be placed on identifying essential chemical features of select biomolecules, understanding molecular mechanisms of representative biochemical and bioenergetic processes, and detailing experimental approaches for addressing important research questions in biochemistry.

Dual Listed MOLB 5600

When Offered Fall

Prerequisite: Minimum grade of C in MOLB 3610 or CHEM 4400

MOLB4610 - Biochemistry 2: Molecular Mechanisms

Credits: 3

Biochemical and molecular mechanisms underlying cell function, including gene expression and epigenetic regulation, RNA and protein modification and function, assembly of macromolecular complexes, signaling and regulation of the cell cycle, are discussed.

Dual Listed MOLB 5610

Prerequisite: Minimum grade of C in MOLB 3610 or MOLB 4600

PHCY3450 - Foundational Pathophysiology

Credits: 4

Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)

Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY6120 - Advanced Pathophysiology

Credits: 3

Advanced course covering the molecular, cellular, genetic and clinical principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for Doctor of Pharmacy students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 3450 for interprofessional education revolving around student-led case study presentations.

Former Course Number [6220]

Prerequisite: LIFE 1010, LIFE 1020, CHEM 1020, CHEM 1030, CHEM 2420, CHEM 2440, MOLB 2240, MOLB 3610, ZOO 3115, ZOO 4125.

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

ZOO4125 - Integrative Physiology

Credits: 5

Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

Prerequisite: grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

NOTE

CHE 3100 fulfills the LIFE 2021 & 3050 pre-requisite requirements for CHE 4100, 4160, and 4165.

Alternatively, students may take the following in lieu of CHE 3100: MICR 2021 Microbiology (4) or MOLB 3610 Principles of Biochemistry (4)

Process Control Minor

Process control engineers optimize processes and implement quality control systems in the manufacturing industry. They design, test, and oversee the implementation of new processes. Process control engineers are often employed at manufacturing plants that process chemicals, metals, and other materials.

Required Courses

CHE2005 - Chemical Process Analysis

Credits: 3

Introduces analysis of chemical processes using stoichiometry, material and energy balances, thermodynamics and economics.

When Offered (Normally offered fall semester)

Former Course Number [3000]

Prerequisite: C- or better in either CHEM 1050 or CHEM 1020 and concurrent enrollment in MATH 2205.

CHE2090 - Practical Fundamentals of Process Control

Credits: 2

Introduces students to sensors, valves, actuators and the assembly of process control components. Provide hands-on practical experience with level control, flow control, temperature control and pressure control processes. This course consists of one (1) hour of lecture and two (2) hours of laboratory per week.

Prerequisite: C or better in MATH 2205.

CHE3090 - Applying Simulation to Dynamic Processes

Credits: 1

Introduces students to dynamic simulation software for controlling individual chemical engineering processes. This course consists of two (2) hours of laboratory per week.

Prerequisite: C or better in CHE 2005.

CHE4092 - Controlling Process Systems

Credits: 3

Capstone process control course. Students will design process control for systems of linked processes including sensing and transmission, final control elements, and controller. This course consists of two (2) hours of lecture and three (3) hours of laboratory per week.

Prerequisite: C or better in CHE 3090 and concurrent enrollment in either CHE 4090, EE 4620, or EE 4621.

CHE4090 - Process Dynamics and Control

Credits: 3

Encompasses analysis and design control systems for the chemical process industry including steady-state approximation, types of controllers, simple unsteady-state analysis, use of mathematical models and process dynamics under control.

Prerequisite: C- or better in CHE 3028 and CHE 4060.

or

EE4620 - Automatic Control Systems

Credits: 3

Control theory and design methods focused on application. Feedback. Performance limits. Routh-Hurwitz, root locus, Nyquist. Nonminimum-phase systems. State feedback. Proportional-Integral-Derivative control. Lead/lag. High-order compensation. Discrete controllers.

Prerequisite: EE 2220 or ME 3020.

or

EE4621 - Honors Automatic Control Systems

Credits: 3

Control theory and design methods focused on application. Feedback. Performance limits. Routh-Hurwitz, root locus, Nyquist. Nonminimum-phase systems. State feedback. Proportional-Integral-Derivative control. Lead/lag. High-order compensation. Discrete controllers. Honors students will at the end of the semester design a high-performance control system for a sophisticated plant with realistic feedback limitations.

Prerequisite: EE 2220 or ME 3020.

Approved Elective Courses

At least 6 hours of approved elective courses are required for this minor.

ES2210 - Electric Circuit Analysis

Credits: 3

Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

EE2220 - Circuits and Signals

Credits: 4

Review of sinusoidal steady state analysis and ac power. Mutual inductance and linear transformers. Laplace transform. Laplace transform in circuit analysis. Frequency dependent circuits, including RLC circuit resonance. Magnitude and phase response, complex poles and zeros. Bode plots. Filter circuit fundamentals. Fourier series. Laboratory.

When Offered (Offered spring semester only)

Former Course Number [3320]

Prerequisite: ES 2210, or ES 2215 and ES 2216.

EE3220 - Signals And Systems

Credits: 3

Discrete and continuous-time signals and systems. Topics include linear time-invariant systems; convolution; difference equations; FIR and IIR systems; sampling, aliasing, reconstruction, and quantization. Frequency domain concepts include discrete and continuous Fourier transforms, Z-transforms, system frequency response, Laplace transform properties, and applications of digital filters and DFT analysis.

When Offered (Offered spring semester only)

Prerequisite: EE 2220.

ME4020 - Design of Mechanical/Electronic Systems

Credits: 3

Theoretical and experimental study of sensors and actuators, interfacing sensors and actuators to a microcomputer, discrete and continuous controller design, analog and digital electronics, and real-time programming for control.

Prerequisite: Completion of the ME Success Curriculum, ME 3020.

COSC4450 - Computer Graphics

Credits: 3

Introduction to computer graphics, an increasingly important area of computer science. Computer graphics, together with multimedia and the World Wide Web, offers exciting new possibilities for the design of human-computer interfaces. Presents the principles, techniques, and tools that enable these advances.

Dual Listed COSC 5450.

Prerequisite: COSC 3020 and MATH 2250.

COSC4765 - Computer Security

Credits: 3

Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

Prerequisite: COSC 2030

CHE4972 - Internship in Process Control Engineering

Credits: 1-6

Max Credit (Max. 6)

Enables credit for students serving as interns with an approved organization that provides process control and instrumentation experience.

Prerequisite: Be enrolled in the Process Control and Instrumentation minor.

Learning Outcomes

An engineer who has completed the Process Control and Instrumentation Minor will be able to examine an engineering process that requires automated control and provide a practical control design by:

- Identifying key performance and technical features of the process
- Specifying process variables to control to achieve desired process outcomes
- Identifying the appropriate manipulated variables to achieve control
- Selecting appropriate measurement instrumentation for process variables
- Specifying needed final control elements to effect change of manipulated variables
- Selecting an appropriate controller and control algorithm that achieves stable control
- Testing and tuning the control design in simulation

- Evaluating the control design against performance and economic objectives
- Understand key nomenclature and terms in process control
- Understand the difference between analog and digital components

Graduate

Chemical Engineering, M.S.

Graduate Study Guidelines

All incoming M.S. Plan A and M.S. Plan B students must have an adviser. The student is responsible for contacting faculty members in order to find an adviser.

All Chemical Engineering graduate students must take the following Chemical Engineering Core courses:

CHE5020 - Thermodynamics

Credits: 3

Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed PETE 5020.

Prerequisite: graduate standing.

CHE5010 - Transport Phenomena

Credits: 3

Examines the modeling of momentum, heat and mass transport.

Cross Listed PETE 5010.

Prerequisite: ES 2330, MATH 2310, and graduate standing in Chemical or Petroleum Engineering.

CHE5030 - Reaction Kinetics

Credits: 3

An analysis of reactions involving phase boundaries, heterogeneous catalysis, gas-solid systems, and gas-liquid systems.

Prerequisite: CHE 4060.

CHE5355 - Mathematical Methods in Chemical Engineering

Credits: 3

Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization

techniques, and linear solution techniques: direct and iterative methods.

Dual Listed PETE 5355

Prerequisite: MATH 2210, CHE/PETE 3025 or equivalent.

Credit Hours

- Total (from above) Credits: 12
- CHE 5960 - Thesis Research Credits: 4
- Electives Credits: 14
- Total Credits: 30

Plan B (Non-Thesis)

The coursework requirements are the same as the M.S. Plan A requirements except that Thesis Research (CHE 5960) is not required. Plan B students take an additional 4 hours of elective course credits (a total of 30 hours required).

M.S. Plan B students must write a paper on a topic assigned by the adviser and present their work to their graduate committee. This paper must be submitted to the student's graduate committee for approval at least one week prior to the oral presentation.

M.S. Seminar Requirements

All chemical engineering graduate students must enroll in CHE 5890, Chemical Engineering Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Registered off-campus graduate students can be exempt from having to enroll in CHE 5890.

M.S. Thesis

All M.S. Plan A students must orally defend their thesis at a public final examination. At least two weeks before the examination, the student must provide each member of the graduate committee with a copy of the written M.S. thesis and provide the department an announcement of their defense for advertisement by bulletin board, e-mail, or other means. The results of the examination are reported on the Report of Final Examination form. Graduate committee members may request changes in the thesis, and they may postpone signing the form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Graduate Student Resources web site. This copy will be rejected if the format standards specified by the Thesis and Dissertation Format Guide are not met. This guide allows for a publication-ready format. If required by the department and/or committee, additional printed copies should be delivered to the University Store for binding. Students should consult with the adviser to determine if the adviser wants a copy of the thesis, dissertation, or other research documentation.

Chemical Engineering, Ph.D.

The Department of Chemical Engineering offers graduate programs leading to the M.S. and Ph.D. degrees in chemical engineering. The M.S. degree is offered under Plan A and Plan B. In addition, an environmental engineering program, run jointly by the Department of Chemical Engineering and the Department of Civil and Architectural Engineering, offers graduate programs leading to an M.S. in environmental engineering under either Plan A or Plan B.

The mission of the graduate program in Chemical Engineering is to prepare students to be leaders in industry, government, or academia.

A master's degree is not required to enter a Ph.D. program.

Graduate Core Classes

All incoming Ph.D students must have an adviser. The student is responsible for contacting faculty members in order to find an adviser.

All Chemical Engineering graduate students must take the following Chemical Engineering Core courses:

CHE5020 - Thermodynamics

Credits: 3

Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed PETE 5020.

Prerequisite: graduate standing.

CHE5010 - Transport Phenomena

Credits: 3

Examines the modeling of momentum, heat and mass transport.

Cross Listed PETE 5010.

Prerequisite: ES 2330, MATH 2310, and graduate standing in Chemical or Petroleum Engineering.

CHE5030 - Reaction Kinetics

Credits: 3

An analysis of reactions involving phase boundaries, heterogeneous catalysis, gas-solid systems, and gas-liquid systems.

Prerequisite: CHE 4060.

- CHE 5355 - Mathematical Methods in Chemical Engineering Credits: 3

Doctoral Program

Credit Hours

- CHE 5980 - Dissertation Research Credits: 30
- Electives - Credits: 30 (CHE 5980 will count toward your electives)
- Total Credits: 72

Ph.D. Seminar Requirements

All chemical engineering graduate students must enroll in CHE 5890, Chemical Engineering Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Registered off-campus graduate students can be exempt from having to enroll in CHE 5890.

Ph.D. Preliminary Examination

All Ph.D. students must pass a preliminary examination no later than the end of the student's fifth full semester in the graduate program and a least 15 weeks prior to the dissertation defense. Prior to attempting the Ph.D. preliminary examination, students must have completed all required core classes no later than the end of their fourth semester in the graduate program. Students must file a program of study prior to attempting the preliminary examination.

The goal of the preliminary exam is for the student to demonstrate his or her research progress to-date and present the research proposition that will be investigated and lead to his or her final dissertation. The preliminary exam consists of three components: a written document provided to each member of the student's graduate committee at least one week prior to the oral presentation; a public oral presentation; and a private examination by the student's graduate committee immediately following the oral presentation.

The written document may be in any format but must concisely provide a survey of the relevant literature, a summary of the student's progress to-date, and a clear, detailed plan for the successful completion of the proposed work. The preliminary exam oral presentation should be consistent with the written document. It should provide an appropriate literature background, demonstrate proficiency with proposed experimental/computational techniques, identify details of the experiments to be performed, and provide a timeline to final defense.

The student's committee will pass or fail the student on the strength of the preliminary examination, with an option to conditionally pass the student while requiring an interim committee meeting prior to the final Ph.D. examination. A form sent by the student's adviser to the Office of the Registrar reports the results of the examination.

Ph.D. Final Examination (Dissertation Defense)

All Ph.D. students must orally defend their thesis or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public thesis defense in oral presentation format. At least two weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis of Ph.D. dissertation and provide the department an announcement of their defense for advertisement by bulletin board, e-mail, or other means. The results of the examination are reported on the Report of Final Examination form. Graduate committee members may request changes in the thesis or dissertation, and they may postpone signing the form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Graduate Student Resources web site. This copy will be rejected if the format standards specified by the Thesis and Dissertation Format Guide are not met. This guide allows for a publication-ready format. If required by the department and/or committee, additional printed copies should be delivered to the University Store for

binding. Students should consult with the adviser to determine if the adviser wants a copy of the thesis, dissertation, or other research documentation.

QuickStart Program

Chemical Engineering Quick Start, B.S./M.S.

The BS/MS Quick Start program in Chemical Engineering (CHE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their Bachelor of Science (B.S.) degree in Chemical Engineering. These students may apply for admission to the Quick Start program during the second semester of their junior year or during their senior year.

This program allows for early planning of the graduate portion of a student's education and provides more flexibility in the number of required courses and the order in which they are taken. The more efficient and better-planned use of time should result in reduction of the time required for obtaining the Master of Science in Chemical Engineering (M.S. CHE) degree. Students who enter the Quick Start program must accept the primary responsibility for actively planning their programs of study to assure timely completion of their coursework and research programs.

The Quick Start program contains two essential elements:

Qualified students may receive provisional admission to the Chemical Engineering graduate program prior to completing the normal application process. This provisional admission will permit students to make their long-term educational plans earlier in their studies, thus providing enhanced opportunities for course selection and involvement in research.

Students in the program may apply up to 6 credit hours of 5000-level courses toward both the B.S. and M.S. degree programs. By completing successfully up to 6 credit hours of graduate classes during their senior year, these students will have demonstrated their ability to do graduate-level coursework as undergraduates, easing their transition to the Chemical Engineering graduate program.

For additional information and an application form, please contact the CHE graduate program coordinator at che-info@uwo.edu or stop by 4055 Engineering Building.

Department of Civil and Architectural Engineering and Construction Management

Department Head: Anthony S. Denzer

Professors:

MICHAEL G. BARKER, B.S. Purdue University 1983; M.S. 1987; Ph.D. University of Minnesota 1990; Professor of Civil Engineering 2003.

JONATHAN A. BRANT, B.S. Virginia Military Institute 1998; M.S. University of Nevada 2000; Ph.D. 2003; Professor of Civil Engineering 2020, 2008.

ANTHONY S. DENZER, B.A. University of California, Berkeley 1991; M.Arch. University of Kansas 1998; Ph.D. University of California, Los Angeles 2005; Professor of Architectural Engineering, 2021, 2005.

KHALED KSAIBATI, B.S. Wayne State University 1984; M.S. Purdue University 1986; Ph.D. Purdue University 1990; Professor of Civil Engineering 2001; Director of the Wyoming Technology Transfer Center 2003, 1990.

MICHAEL A. URYNOWICZ, B.S. Michigan State University 1990; M.S. University of Wisconsin 1995; M.S. Colorado School of Mines 1998; Ph.D. 2000; Professor of Civil Engineering 2014, 2002.

JIANTING "JULIAN" ZHU, B.S. Zhejiang University 1983; M.S. Peking University 1985; Ph.D. Dalhousie University 1996; Professor of Civil Engineering 2019, 2013.

Associate Professors:

MOHAMED AHMED, B.S. Al-Azhar University 2001; M.S. University of Central Florida 2009; Ph.D. 2012; Associate Professor of Civil Engineering, 2019, 2013.

FRANCOIS JACOBS, B.S. California Baptist University 1995; M.B.A. University of Denver 2005; Ph.D. Colorado State University 2010; Associate Professor of Construction Management, 2019.

DAVID J. MUKAI, B.S. University of Hawaii 1983; M.S. 1985; Ph.D. University of Washington 1991; Associate Professor of Civil Engineering 2005, 2001.

KAM NG, B.S. Iowa State University 1996; M.S. 1997; Ph.D. 2011; Associate Professor of Civil Engineering 2019, 2012.

NORIAKI OHARA, B.A. Chuo University 1997; M.A. 1999; Ph.D. University of California, Davis 2003; Associate Professor of Civil Engineering 2019, 2012.

JENNIFER E. TANNER, B.A. Eastern College 1994; B.S. Oklahoma State University 1995; M.S. University of Costa Rica 1998; Ph.D. University of Texas 2003; Associate Professor of Civil Engineering 2009, 2003.

LIPING WANG, B.S. Xi'an University of Architecture and Technology 2010; M.S. 2003; Ph.D. National University of Singapore 2007; Associate Professor of Architectural Engineering, 2020, 2013.

HAIBO ZHAI, B.S. Xi'an University of Technology 1999; M.S. Tongji University 2002; Ph.D. North Carolina State University, 2008; Associate Professor of Civil Engineering, 2020.

Assistant Professors:

AHMED ABDELATY AHMED, B.S. Cairo University 2001; M.S. 2014; Ph.D. Iowa State University, 2017; Assistant Professor of Construction Management, 2020.

WEBB, RYAN W., B.S. University of New Mexico, Albuquerque, NM 2010; M.S. University of New Mexico, Albuquerque, NM 2012; Ph.D. Colorado State University, Fort Collins, CO 2016; Assistant Professor of Construction Management, 2021.

CHENGYI "CHARLIE" ZHANG, B.S. Harbin University of Commerce 2007; M.S. China University of Mining and Technology, Beijing 2009; Ph.D. Illinois Institute of Technology 2013; Assistant Professor of Construction Management, 2020.

MILAN ZLATKOVIC, B.S. University of Belgrade 2005; M.S. University of Utah 2009; Ph.D. 2015; Assistant Professor of Civil Engineering, 2016.

Assistant Instructional Professors:

AYSEGUL DEMIR, B.S. Dokuz Eylul University 2013; M.S. Istanbul Technical University 2016; Ph.D. The University of Texas at Austin 2022.

SHAWN C. GRIFFITHS, B.S. Utah State University 2009; M.S. University of Arkansas 2011; Ph.D. University of Texas, Austin 2015; Assistant Professor of Civil Engineering 2015.

Academic Professionals:

KIMBERLY FRITH, B.S. Clemson University, 2007; M.S. Stanford University 2009; Assistant Lecturer, 2020.

JAIN, DHAWAL, B.S. K.R.V.I.A Mumbai India 2014; M.S. Virginia Tech 2018.

JON A. GARDZELEWSKI, B.S. University of Wyoming 2002; M.Arch. University of Oregon 2005; Associate Lecturer, 2016, 2010.

SHELLEY MACY, B.S. University of Wyoming 2002; M.S. University of Wyoming, 2013; Assistant Lecturer, 2021.

Adjunct Faculty:

Aaron Cvar, Song Jin, Mark Kilgore, Robert Loane, Marci Miller, Alan Moore, Evan O'Toole, Chris Schabron, Dennis Moulard, Nathan Bergh.

Professors Emeriti:

Patricia J.S. Colberg, Charles W. Dolan, Thomas V. Edgar, K. James Fornstrom, Victor R. Hasfurther, Michael Humenick, Anton Munari, Larry O. Pochop, Jay Puckett, Richard J. Schmidt, James L. Smith, John P. Turner.

Civil Engineering

The mission of the department of Civil and Architectural Engineering and Construction Management at the University of Wyoming is:

- To educate and prepare Civil & Architectural Engineering and Construction Management students to lead as designers, builders, project managers and entrepreneurs as it relates to the sustainable built and natural environments.
- To develop technical solutions through research, innovation, and improved infrastructure to diversify and grow the economies that serve Wyoming and the world.

The Civil Engineering curriculum begins with a basic education in the physical, engineering, mathematical and computer sciences. This foundation supports further development of engineering topics that prepare the engineer to address critical societal needs. To meet these needs, the Civil Engineer designs and builds bridges, buildings, dams and hydraulic structures, pipelines and canals, power plants, transportation facilities, sanitary and environmental engineering facilities, surveying and mapping systems, space and ocean platforms, as well as numerous other engineering systems. The civil engineer must also be aware of the social, humanistic, and political aspects of their projects. Therefore, course work in the humanities and social sciences is required to better understand the social aspects

of public works. During the last two years of their program, students may pursue several areas of Civil Engineering or, depending upon their interests, more specialized courses in one or more of the specific technical areas listed below. All students must have a comprehensive design experience.

Structural engineering: Analysis and design of structural systems including buildings, bridges, towers and other structures. Structural engineering also includes the study of solid mechanics and advanced structural materials.

Environmental engineering: Analysis, design and development of engineering systems to provide potable water supplies, treat municipal, industrial and hazardous wastes and protect human health and the environment.

Water resource engineering: Planning, analysis and design of hydraulic and hydrologic systems with respect to watersheds, municipalities, irrigation and drainage, and flood control. Conservation and management of groundwater and surface water are emphasized.

Transportation engineering: Planning, analysis and design of highways, traffic engineering and control, traffic safety, and pavement maintenance, design and rehabilitation.

Geotechnical engineering: Design and analysis of foundations, dams, embankments, slope stability and construction practices in soil and rock.

The Civil Engineering curriculum prepares the graduate to engage in professional practice, and upon completion of post-graduate requirements, to obtain registration as a Professional Engineer. It also provides the graduate with an excellent preparation for graduate studies in engineering, business or law.

Civil Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in courses required for the major. Students must complete a minimum of 42 upper division (junior/senior) or graduate-level semester credit hours. Students may have a maximum of 6 credits in courses with a grade of D in upper division CE courses that apply towards their degree program.

Computer Requirement

Many courses in Civil Engineering require students to have a laptop or tablet computer to bring to class, and to be able to download various software program (normally free). See www.uwyo.edu/civil/undergrad/laptop.html for more information.

CE Objectives

Three to six years after graduation, graduates of the University of Wyoming Civil Engineering Program will:

CE-OB1. Be able to successfully practice the profession of Civil Engineering.

CE-OB2. Be prepared and motivated to accept challenging assignments and responsibilities.

CE-OB3. Demonstrate successful professional growth through leadership development and career progression.

CE Outcomes

The Civil Engineering department regularly evaluates the following student skills.

Specifically, every University of Wyoming Civil Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences

4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Transfer Coursework: The Civil Engineering program accepts transfer course equivalents listed in the Wyoming Transfer Catalog. Other transfer courses will be considered by petition to the Department. The Department has a Policy on Transfer Courses for Continuing Students, which says continuing students should not plan to substitute "core" courses with transfer credits from other institutions, and that transfer credits for continuing students are evaluated on a case-by case basis. For upper-division coursework, no more than two upper division courses may be transferred and applied to the CE degree. CE 4010 and CE 4900 cannot be transferred to UW.

Advanced Civil and Architectural Engineering Standing

All undergraduate students in Civil and Architectural Engineering must fulfill the Gateway Requirement prior to enrolling in any upper-division (3000-5000 level) courses taught in the College of Engineering and Applied Science.

To meet the Civil and Architectural Engineering Gateway Requirement, the student must earn a minimum of 57 Quality Points from any combination of the following seven classes or their equivalent. It is not necessary to complete all seven courses to fulfill the Gateway Requirement.

Gateway Courses

- CHEM1020 - General Chemistry I

- PHYS1210 - Engineering Physics I
OR
- PHYS1220 - Engineering Physics II

- MATH2200 - Calculus I
- MATH2205 - Calculus II
- ES2110 - Statics
- ES2120 - Dynamics
- ES 2410 Mechanics of Material I

See the advising pages on the Civil and Architectural Engineering website for more information.

Graduate Study

Graduate Programs

An advanced degree in civil and architectural engineering is professionally and economically attractive. Advanced degrees are important for professional civil engineers in many specialized areas of civil engineering. Many consulting firms and industrial design groups require advanced knowledge gained from graduate studies. Engineers in such firms often work at the forefront of their profession. UW alumni are involved in design and construction of major projects worldwide.

An advanced degree is also required for careers in university teaching and research. A university career is highly recommended for those motivated students who are interested in becoming leaders in education and in the development of new concepts, processes and inventions.

The Department of Civil and Architectural Engineering offers programs leading to the degrees of master of science and doctor of philosophy. Areas of study in the M.S. and Ph.D. programs include: environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering. The department also offers a master of science in architectural engineering and a master of science in environmental engineering in cooperation with the Department of Chemical and Petroleum Engineering. Additional information is available from the department or from the Web page.

Program Specific Admission Requirements

Admission is open to all students holding a bachelor's degree with at least a 3.000 GPA from an accredited engineering curriculum and a GRE combined minimum score of 298.

Ph.D. applicants are reviewed with regard to stated interests, objectives and the ability of the department to provide a quality experience for the applicant.

International students must achieve a TOEFL score of 550 on the paper-based, a minimum of 76 on the internet-based or a minimum of 6.0 on the IELTS.

Architectural Engineering

Architectural Engineering is a rapidly expanding profession that deals with the myriad aspects of buildings and their design, construction and operation. Architectural Engineers are typically specialists, responsible for the design and integration of such building elements as the structural, plumbing, fire protection, heating and air conditioning, or lighting and electrical systems. The curriculum in architectural engineering is designed to acquaint students with the various aspects of building design and construction and exposes them to a variety of courses dealing with different building materials and systems. The curriculum also includes course work in the humanities and social sciences, both to enrich the student's academic experience and assist in dealing with and contributing to society. The program leads to a Bachelor of Science in Architectural Engineering, preparing graduates to engage in practice as Professional Engineers upon completion of post-graduate registration requirements. Graduate work with emphasis in Architectural Engineering leading to a Master of Science and Doctor of Philosophy degree is offered through the Civil and Mechanical Engineering Programs. Additionally, advanced study can also be pursued in allied areas such as architecture, business or other engineering fields.

Students choose an area of emphasis in either structural or mechanical systems and select courses from approved electives, usually beginning their elective sequence in the second semester of their junior year. Consult with the Civil and Architectural Engineering Department for current elective lists.

Architectural Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in courses required for the major. Students must complete a minimum of 42 upper division (junior/senior) or graduate-level semester credit hours.

Students may have a maximum of 6 credits in courses with a grade of D in upper division ARE courses that apply towards their degree program.

Computer Requirement

Many courses in Architectural Engineering require students to have a laptop or tablet computer to bring to class, and to be able to download various software programs (normally free). See www.uwyo.edu/civil/undergrad/laptop.html for more information.

Architectural Engineering Objectives

Three to six years after graduation, graduates of the University of Wyoming Civil Engineering Program will:

ARE-OB1 Be able to successfully practice the profession of Architectural Engineering.

ARE-OB2 Be prepared and motivated to accept challenging assignments and responsibilities.

ARE-OB3 Demonstrate successful professional growth through leadership development and career progression.

ARE Outcomes

The Architectural Engineering department regularly evaluates the following student skills. Specifically, every University of Wyoming Architectural Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Transfer Coursework: The Architectural Engineering program accepts transfer course equivalents listed in the Wyoming Transfer Catalog. Other transfer courses will be considered by petition to the Department. The Department has a Policy on Transfer Courses for Continuing Students, which says continuing students should not plan to substitute "core" courses with transfer credits from other institutions, and that transfer credits for continuing students are evaluated on a case-by case basis. For upper-division coursework, no more than two upper division courses may be transferred and applied to the ARE degree. ARE 4720 and ARE 4740 cannot be transferred to UW.

Advanced Civil and Architectural Engineering Standing

All undergraduate students in Civil and Architectural Engineering must fulfill the Gateway Requirement prior to enrolling in any upper-division (3000-5000 level) courses taught in the College of Engineering and Applied Science.

To meet the Civil and Architectural Engineering Gateway Requirement, the student must earn a minimum of 57 Quality Points from any combination of the following seven classes or their equivalent. It is not necessary to complete all seven courses to fulfill the Gateway Requirement.

Gateway Courses

- CHEM1020 - General Chemistry I
- PHYS1210 - Engineering Physics I
- **OR**
- PHYS1220 - Engineering Physics II

- MATH2200 - Calculus I
- MATH2205 - Calculus II
- ES2110 - Statics
- ES2120 - Dynamics
- ES 2410 Mechanics of Material I

Students choose an area of emphasis in either, building, structural or mechanical systems and select courses from approved electives, usually beginning their elective sequence in the second semester of their junior year. Consult with the Civil and Architectural Engineering Department for current elective lists. Students are required to have a lap top computer.

Architectural engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in civil and architectural engineering courses attempted at this university.

Construction Management

Construction Management is a rapidly-growing discipline, that is focused on the planning and oversight required to deliver construction projects on-time and on-budget. Students learn skills such as project management, decision making, budgeting, scheduling, and site logistics including safety planning, surveying, and building information modeling.

The Construction Management curriculum is designed to prepare students for success in a wide variety of career paths available in the construction sector. The curriculum includes course work in construction, business, humanities and social sciences to enrich the student's academic experience and to assist them in making a positive contribution to society. The program leads to a four-year Bachelor of Science in Construction Management degree.

Construction Management degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 in courses required for the major.

A grade of C or better is required in all required courses with a CM prefix.

Construction Management Learning Objectives

Upon graduation students shall be able to:

1. Create written communications appropriate to the construction discipline.
2. Create oral presentations appropriate to the construction discipline.
3. Create a construction project safety plan.
4. Create construction project cost estimates.
5. Create construction project schedules.
6. Analyze professional decisions based on ethical principles.
7. Analyze construction documents for planning and management of construction processes.
8. Analyze methods, materials, and equipment used to construct projects.
9. Apply electronic-based technology to manage the construction process.
10. Apply basic surveying techniques for construction layout and control.
11. Understand construction management skills as a member of a multi-disciplinary team.
12. Understand different methods for project delivery and the roles and responsibilities of all constituencies involved in the design and construction process.
13. Understand construction risk management.
14. Understand construction accounting and cost control.
15. Understand construction quality assurance and control.
16. Understand construction project control processes.
17. Understand the legal implications of contract, common, and regulatory law to manage a construction project.
18. Understand the basic principles of sustainable construction.
19. Understand the basic principles of structural behavior.
20. Understand the basic principles of mechanical, electrical and piping system.

Environmental Engineering

3074/4055 Engineering Building,

766-5255/766-2500

E-mail: cae.info@uwyo.edu

Web site: www.uwyo.edu/chemical/graduate/prospective/environmental/index.html

A master of science in environmental engineering is available in the College of Engineering through a joint effort of the Department of Civil and Architectural Engineering and the Department of Chemical Engineering. This interdisciplinary degree offers students an engineering perspective for solutions to environmental problems. Emphasis is on minimization, monitoring, control, and processing of waste products as well as treatment and disposal associated with point and non-point pollution sources. Integration of engineering with science, regulatory, and policy aspects of environmental engineering is an important component of this unique program. Further information is available from the environmental engineering graduate studies program office and/or departments involved.

Program Specific Admission Requirements

Admission is open to students with at least a bachelor's degree who meet the minimum requirements:

1. A GPA of 3.000 (A=4.000), or equivalent;
2. A GRE score of 291 (combined verbal and quantitative sections);
3. For international applicants who did not attend an English-speaking program in an English-speaking country for all years of their highest degree: A TOEFL score of 76 (Internet based) or an IELTS score of 6.0.

Complete official transcripts of all prior college-level coursework and recommendations from three references must be submitted as parts of the application.

The deadline to submit application credentials is February 1 (to be considered for fall semester), and October 1 (to be considered for spring semester).

The application will not be processed until all the necessary documents have been submitted.

Major

Architectural Engineering, B.S.

Architectural Engineers create structural and mechanical-electrical-plumbing systems for buildings. The B.S. in Architectural Engineering is accredited by ABET and provides a path to P.E. licensure. Note: This is not an Architecture degree.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Core Courses: 73 Credit Hours

ARE1000 - Exploring CAECM

Credits: 1

Introduction to civil and architectural engineering professions through exploration of modern engineering challenges. Students work on a design project, starting with problem definition and working towards concept designs using spreadsheet and communication tools. Professional topics introduced include globaliztion, diversity, professional ethics, design limitations and constraints, sustainability, environmental stewardship, and engineering economics.

Cross Listed CE 1000.

Prerequisite/Corequisite: of MATH 1450 or MATH 1405.

ARE1600 - Architectural Design Studio I

Credits: 3

Freshman-level architectural design in a project-based learning environment. Introduction to Building Information Modeling (BIM); architectural presentation drawings; freehand sketching; essentials of architectural design and building code compliance.

Former Course Number [ARE 2100]

ARE2410 - Fundamentals of Building Performance

Credits: 3

Introduction to building performance measures that embrace a global notion of environmental stewardship. Emphasis on passive heating and cooling systems and daylighting strategies to manage the thermal and luminous environments over the facility life cycle.

Prerequisite: PHYS 1210.

ARE2600 - Architectural Design Studio II

Credits: 3

Sophomore-level architectural design in a project-based learning environment using Building Information Modeling (BIM). The course builds upon skills learned in ARE 1600, with a new emphasis on building materials and construction methods.

Former Course Number [ARE 2200]

Prerequisite: ARE 1600.

ARE-3110 Professional Practice

ARE3200 - Structural Analysis I

Credits: 3

Introductory design and analysis topics in stress and displacement analysis of structures, including beams, trusses and frames, classical flexibility and stiffness methods.

Cross Listed CE 3200.

Prerequisite: ES 2410.

ARE3210 - Civil Engineering Materials

Credits: 4

Laboratory investigation and design of materials used in civil engineering: metals, masonry, concrete and timber. Non-destructive evaluation of materials. Analysis and presentation of data, including various types of written reports and oral presentations.

Cross Listed CE 3210.

USP 2003-2014 Code U3WB

USP 2015 Code U5C3

Prerequisite: COM2 and ES 2410.

ARE3300 - Building Electrical and Plumbing Systems

Credits: 3

Introduction to National Electrical Code. The topics include basic circuits, AC and DC single phase, three phase power, transients, capacitance and inductance, branch circuits. Study of plumbing systems and fixtures including wastewater, water supply, storm water, and venting systems. Study of International Plumbing Code.

Prerequisite: ARE 1600 or CE 1010, and ES 2330 or concurrent enrollment.

ARE3400 - Heating, Ventilating and Air Conditioning of Buildings

Credits: 3

Qualitative and quantitative study in concepts of basic air-conditioning with focus on buildings including building envelope, moist air thermodynamics, human comfort, thermal load calculations, thermal behavior of buildings, HVAC systems/equipment, and design of space air-conditioning and its relationship to architectural design.

Cross Listed ME 3400.

Former Course Number [ARE 3800]

Prerequisite: ES 2310, ARE 2410 or ME 3360, ES 2330 or concurrent enrollment.

ARE3600 - Architectural Design Studio III

Credits: 3

Junior-level architectural design in a project-based learning environment using Building Information Modeling (BIM). This course builds upon skills learned in ARE 2600, with a new emphasis on the complexities that accompany mid-rise construction, and the integration of structural and mechanical systems.

Prerequisite: ARE 2410 and ARE 2600.

ARE4600 - Architectural Design Studio IV

Credits: 3

Senior-level architectural design in a project-based learning environment using Building Information Modeling (BIM). The course builds upon skills learned in ARE 3600, with a new emphasis on the complexities that accompany high-rise construction, and the integration of structural and mechanical systems.

Prerequisite: ARE 3600.

ART3030 - History of Architecture

Credits: 3

A survey of the history of architecture and its allied fields, focusing on the formal, aesthetic, cultural and socio-political dimensions, from prehistory to the present.

Cross Listed ARE 3030.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5H

Prerequisite: WA or COM1.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2310 - Thermodynamics I

Credits: 3

Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2330 - Fluid Dynamics

Credits: 3

Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2410 - Mechanics of Material I

Credits: 3

Mechanics of deformable bodies, including energy methods.

Prerequisite: ES 2110 and MATH 2205 .

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

Geology Course: 4 Credit Hours

Must take one of the following.

GEOL1100 - Physical Geology

Credits: 4

Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

GEOL1500 - Water, Dirt, and Earth's Environment

Credits: 4

Introductory environmental geology course focusing on water and soil both as hazards and as life-sustaining resources. Explores surface processes and climate change over geological and human timescales. Case studies illustrate the environmental tradeoffs of resource use.

Cross Listed ENR 1500.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

GEOL1600 - Global Sustainability: Managing Earth's Resources

Credits: 4

Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

USP 2003-2014 Code U3G, U3S

Physics Course: 4 Credit Hours

Must take one of the following courses:

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

ARE Professional Development Courses: 18 Credit Hours Required

Must take six of the following:

ARE3360 - Fundamentals of Transport Phenomena

Credits: 3

Basic concepts of heat and mass transfer and their applications to problems involving engineering analysis and design. Topics include steady-state and transient conduction, free and forced convection (heat and mass), radiation and heat exchangers.

Cross Listed ESE 3360/ME 3360.
Former Course Number [ARE 3430, ARE 4420]

Prerequisite: MATH 2310, ES 2310 and ES 2330.

ARE4200 - Structural Analysis II

Credits: 3
Stress and displacement of indeterminate structures. Determination of loads on buildings. Matrix stiffness methods.

Cross Listed CE 4200
Prerequisite: ARE 3200/CE 3200.

ARE4250 - Structural Steel Design

Credits: 3
Design of structural components and applications utilizing steel.

Cross Listed CE 4250.
Prerequisite: ARE 3200/CE 3200.

ARE4260 - Structural Concrete Design

Credits: 3
Design of structural components and systems using reinforced concrete.

Cross Listed CE 4260.
Prerequisite: ARE 3200/CE 3200.

ARE4285 - Masonry Design

Credits: 3
Design of structural components in reinforced masonry buildings, including walls, columns, beams and connections. Particular attention is paid to current codes, specifications and analysis.

Cross Listed CE 4285.
Dual Listed ARE 5285 and CE 5285.
When Offered Offered on a three semester rotation.
Former Course Number [ARE 4280]

Prerequisite: ARE 4260/CE 4260 and ARE 3200/CE 3200.

ARE4295 - Structural Timber Design

Credits: 3

Design of structural components and systems utilizing timber.

Cross Listed CE 4295.

Dual Listed ARE 5295.

Former Course Number [ARE 4290]

Prerequisite: CE 3200 or equivalent.

ARE4330 - Building Electrical Systems

Credits: 3

Analysis and design of electrical systems in buildings using the National Electrical Code. The topics include panel boards, motors, system sizing, electrical distribution in buildings, methodology of reducing the available short circuit current, transformers, capacitors in buildings, and power systems harmonics. Students will perform an electrical building design project.

Prerequisite: ARE 3300.

ARE4390 - Building Safety and Fire Protection

Credits: 3

Fundamentals of building design for fire and life safety. Emphasis is on a systematic design approach. Basic considerations of building codes, fire loading, fire resistance, means of egress design, introduction to protective systems including fire protection systems, and fundamentals of fire and smoke control.

Prerequisite: ARE 3300.

ARE4430 - HVAC Systems Analysis and Design

Credits: 3

Engineering design and performance analysis procedures for commercial building mechanical systems including energy conservation techniques. Relationship to aesthetic, architectural and structural elements are considered.

Cross Listed ME 4430.

When Offered (Normally offered alternate spring semesters)

Former Course Number [ARE 3420, ARE 4810]

Prerequisite: Completion of the ME Success Curriculum, ARE 3400 and ARE 3360/ME 3360 or concurrent.

ARE4490 - Modeling and Optimization of Energy Systems

Credits: 3

Application of principles of thermodynamics, fluids, and heat and mass transfer in the component and system-level design of energy/thermal systems, including modeling, simulation and optimization techniques. Examples are drawn from building environmental control, energy conversion and thermal industrial processes. Students work on projects for

integration of these components in the design of energy/thermal systems. Requires enrollment in associated laboratory session.

Cross Listed ME 4490.

Prerequisite: ARE 3400.

CE3600 - Soil Mechanics I

Credits: 4

A study of soil and the properties which influence its usefulness as an engineering material. Principles governing movement of soil, water and propagation of stresses through soil masses are studied.

Former Course Number [4600]

Prerequisite: ES 2410.

CE4610 - Foundation Engineering

Credits: 3

Site characterization, laboratory shear tests and determination of soil properties. Analyses include bearing capacity, stress distribution and settlement. Design of shallow and control of deep foundations using static and dynamic methods.

Dual Listed CE 5610.

Prerequisite: CE 3600.

CE4620 - Soil and Rock Slope Engineering

Credits: 3

Advanced engineering and geologic classification of landslides; detailed field investigations; solid and rock strength properties for stability analysis; advanced analytical and numerical methods for analysis of slope stability; design of engineered stabilization systems.

Dual Listed CE 5660.

Prerequisite: CE 3600.

CE4630 - Ground Improvement, Reinforcement and Treatment

Credits: 3

This course is designed to help students understand a number of available geotechnical ground improvement, reinforcement and treatment techniques currently in use.

Dual Listed CE 5630.

Prerequisite: CE 3600.

CE5010 - Advanced Mechanics of Materials

Credits: 3

Elements of elasticity, unified approach to strength of structural members design and failure criteria; basic concepts of fracture mechanics; stress concentration factors; treatment of torsion, bending, axial and shear in structural members including plastic effects; bending of flat plates.

Prerequisite: ME 3010 or CE 3200, MATH 2310.

CE5200 - Advanced Structural Analysis

Credits: 3

Analysis of framed structures with stiffness-based matrix methods including plane trusses, frames, and grid systems and space trusses and frames. Column, beam, beam-column and frame stability. Geometric and material nonlinearities of framed structures. Plastic analysis and moment-curvature relationships. Computer applications are emphasized.

Prerequisite: CE 4200 or equivalent.

CE5220 - Structural Dynamics

Credits: 3

Introduction to general structural dynamics, general dynamic loading, generalized coordinated and nonlinear structural response, linear and nonlinear response spectra, multiple degree of freedom systems, continuous systems, and discretization of continuous systems. Introduction to seismic load specifications.

Prerequisite: CE 4200 or equivalent and MATH 2310.

CE5255 - Advanced Steel Design

Credits: 3

A comprehensive design course for steel building structures. Topics include preliminary design, selection of framing systems, braced and unbraced frames, stability effects and nonlinear behavior. Includes building design project for seismic regions.

Prerequisite: grade of C or better in CE 4250 or ARE 4250.

CE5270 - Highway Bridge Engineering

Credits: 3

A study of the analysis, design and rating of highway bridges, including consideration of dead and vehicular loads, analysis of typical systems, service, fatigue and ultimate strength behavior, rating of existing bridge design, and bridge operations. Composite and non-composite steel and concrete bridges are considered. Includes investigations that require field trips outside the schedule class times. Contemporary issues are routinely discussed.

Prerequisite: CE 4250 and CE 4260.

ME3040 - Thermodynamics II

Credits: 3

Consideration of advanced thermodynamic topics including Maxwell's relations, compressible flow, and combustion. Applications to design of refrigeration cycles, humidification systems, and Rankine cycles.

Cross Listed ESE 3040

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME3170 - Machine Design

Credits: 3

Application of engineering mechanics and materials science to the analysis and design of mechanical components such as bolted connections, springs, gears, bearings and shafts. Design for dynamic loading conditions. Principles of hydrodynamic lubrication. Introduction to computer-aided design. Case studies with appropriate topics.

Prerequisite: Completion of the ME Success Curriculum, ES 2410.

ME4460 - Solar and Geothermal Engineering

Credits: 3

An introduction to the engineering of solarpowered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ESE 4460

Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ME4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented..

Cross Listed ESE 4470

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

ARE Capstone: 3 Credit Hours

Must take 1 of the following courses

ARE4720 - Structural Systems Design Project

Credits: 3

Final course in the building structural systems sequence incorporating elements of previous design courses by executing design of a hypothetical building with a concentration on a detailed design of the project's structural systems.

Prerequisite: ARE/CE 3110, ARE 4200, ARE 4250, and ARE 4260 or concurrent enrollment.

ARE4740 - Mechanical Systems Design Project

Credits: 3

Final course in the building mechanical systems sequence incorporating elements of previous design courses by executing design of a hypothetical building with a concentration on a detailed design of the project's mechanical systems.

Cross Listed ARE/ME 4740

Prerequisite: ARE/CE 3110 and ARE 3400

ARE Math/Sci/Tech/Prof Courses: 6 credit hours

Must take 6 additional credit hours in Math/Science/Technical/Professional courses.

Total Required Credit Hours: 123 Hours (Minimum)

A Minimum of 42 Credit Hours Must Be Upper Division (3000+) Level.

- **Advanced Standing/Gateway:** Prior to enrolling in upper division ARE/CE courses, students must earn 57 quality points in the following courses: CHEM 1020, PHYS 1210 or PHYS 1220, MATH 2200, MATH 2205, ES 2110, ES 2120, and ES 2410.
- Degree candidates must meet the academic requirements of the university, and must have a minimum GPA of 2.0 in all engineering courses, and all courses required for the major. *Grades of C or better are required for all prerequisite courses.
- Students choose an area of emphasis in either structural or mechanical systems, and select Optional Electives and the Capstone Design for their emphasis area. Care should be taken to ensure prerequisites are completed.
- Students may have a maximum of 6 credits in courses with a grade of D in upper division ARE courses that apply towards their degree.
- Students may not take a course for S/U credit to satisfy any requirement, unless the course is offered for S/U credit only.
- No more than two upper division courses may be transferred and applied to the ARE degree. ARE 4720 and ARE 4740 cannot be transferred to UW.

ARE Outcomes

The Architectural Engineering department regularly evaluates the following student skills. Specifically, every University of Wyoming Architectural Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences

4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Civil Engineering, B.S.

Civil Engineers create infrastructure and development projects, including structures, transportation, water & wastewater, earthworks, and urban site plans. The B.S. in Civil Engineering is accredited by ABET and provides a path to P.E. licensure.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Core Courses: 75 Credits

CE1000 - Exploring CAECM

Credits: 1
Introduction to civil and architectural engineering professions through exploration of modern engineering challenges.

Students work on a design project, starting with problem definition and working towards concept designs using spreadsheet and communication tools. Professional topics introduced include globalizability, diversity, professional ethics, design limitations and constraints, sustainability, environmental stewardship, and engineering economics.

Cross Listed ARE 1000.

Prerequisite/Corequisite: of MATH 1450 or MATH 1405.

CE1010 - Civil Engineering Tools

Credits: 3

This course is an introduction to computing tools commonly used in civil engineering practice including 3-D Computer Aided Drafting, Spreadsheets and Presentation Software. Tools will be introduced through design work on typical civil engineering design projects.

Prerequisite/Corequisite: of MATH 2200.

CE2070 - Engineering Surveying

Credits: 3

Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Traverse field techniques and office calculations. Basic principles of surveying and map making.

Prerequisite/Corequisite: of MATH 1450 or MATH 1405.

CE-3110 Professional Practice

CE3200 - Structural Analysis I

Credits: 3

Introductory design and analysis topics in loads on building, stress and displacement analysis of structures, including beams, trusses and frames, classical flexibility and stiffness methods.

Cross Listed ARE 3200.

USP 2003-2014 Code [WB<>(none)]

Prerequisite: ES 2410.

CE3210 - Civil Engineering Materials

Credits: 4

Laboratory investigation and design of materials used in civil engineering: metals, masonry, concrete and timber. Nondestructive evaluation of materials. Analysis and presentation of data, including various types of written reports and oral presentations.

Cross Listed ARE 3210.

USP 2003-2014 Code U3WB

USP 2015 Code U5C3

Former Course Number [2210]

Prerequisite: COM2 and ES 2410.

CE3300 - Hydraulic Engineering

Credits: 3

Develops analysis, design and modeling techniques for incompressible pipe flow, steady uniform and gradually varied open channel flow, and hydraulic structures.

Former Course Number [4320]

Prerequisite: ES 2330.

CE3400 - Introduction to Environmental Engineering

Credits: 3

An introduction to the major topics in environmental engineering. Focus areas include water supply, wastewater treatment, air pollution control and solid and hazardous waste management. Quantitative aspects and engineering solutions to problems are emphasized.

Prerequisite: MATH 2205 and CHEM 1020 or equivalent.

CE3500 - Transportation Engineering

Credits: 4

Introduction to the major topics in Transportation Engineering. The topics covered include human, vehicle and roadway characteristics and performance, traffic characteristics and flow theory, roadway capacity and Level of Service (LOS) concepts, intersection and traffic signal design, public transportation, transportation planning, geometric design of highways, traffic safety, highway materials, and pavement design

Former Course Number [4500]

Prerequisite: CE 1010.

CE3600 - Soil Mechanics I

Credits: 4

A study of soil and the properties which influence its usefulness as an engineering material. Principles governing movement of soil, water and propagation of stresses through soil masses are studied.

Former Course Number [4600]

Prerequisite: ES 2410.

CE4010 - Civil Engineering Design

Credits: 3

Students will prepare final civil engineering documents including construction plans, specifications, and engineering estimates for a civil engineering project. Concepts of standard specifications and sustainability measures will also be applied to the design.

Former Course Number [3010]

Prerequisite: STAT 2050.

CE4900 - Comprehensive Design Experience

Credits: 3

Team comprehensive project design experience considering the sub-disciplines of civil engineering.

Prerequisite: ARE/CE 3110 and 3 of CE 3200, CE 3300, CE 3400, CE 3500, CE 3600, and two of CE 4250, CE 4260, CE 4610, CE 4555, CE 4510, CE 4400, CE 4410, or CE 4800, or instructor consent.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2310 - Thermodynamics I

Credits: 3

Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2330 - Fluid Dynamics

Credits: 3

Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2410 - Mechanics of Material I

Credits: 3

Mechanics of deformable bodies, including energy methods.

Prerequisite: ES 2110 and MATH 2205 .

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

Physics Course

Must take one of the following:

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity,

magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

Science Elective: 4 credit hours

Must take one of the following.

ASTR2310 - General Astronomy I

Credits: 4

[(none)<>PN] Covers the history of astronomy, orbital mechanics, solar system (the Sun, planetary interiors, atmospheres, moons, comets, meteors); interaction of radiation and matter (physical processes in gas, black body radiation) astronomical instrumentation and detectors. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.

When Offered (Normally offered spring semester)

USP 2003-2014 Code PN

Prerequisite: PHYS 1210 or PHYS 1310, MATH 2200.

ATSC2000 - Introduction to Meteorology

Credits: 4

First course in meteorology for students with minimal background in math and science. Provides general and practical understanding of weather phenomena. Emphasizes observational aspects of the science, meteorological view of the physical world and the impact the science has on life and society. Includes three hours of lecture and one laboratory per week. Includes atmospheric composition and structure, radiation, winds and horizontal forces, stability and vertical motions, general circulation, synoptic meteorology, clouds and precipitation, severe storms and atmospheric optics.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate

Credits: 3

Introduces non-specialists to the fundamental scientific principles governing climate change. The underlying physics of both human and natural contributions to global warming is presented along with uncertainties in predicting climate. Potential strategies to mitigate global warming (alternative energy, carbon capture, and geoengineering) are also discussed.

USP 2003-2014 Code U5PN

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

ENR1200 - Environment

Credits: 4

Introductory environmental science course appropriate for science and nonscience majors. Uses case studies and applied laboratories to explore core biological principles such as nutrient flow and cycling, population and community ecology, and ecosystem structure and function, as well as the non-science dimensions of ENR issues. Early-semester, weekend field trips/labs required.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

GEOL1100 - Physical Geology

Credits: 4

Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

GEOL1110 - Physical Geology for Engineers

Credits: 4

Introduction to geologic principles for engineers with emphasis on near surface processes and material properties. The first half will teach planetary basics, mineral/ rock and geologic structure, surface processes, geologic material strength and deformation, and geohazards. The final half covers methods and analysis with the collection of geophysical data on-campus to assess near-surface properties with a full lab report.

USP 2003-2014 Code [(none)< >PN]

Prerequisite: MATH 1400 and MATH 1405 or MPE score of 5 or higher or SAT Math score of 600 or higher or ACT Math score of 27 or higher.

GEOL1500 - Water, Dirt, and Earth's Environment

Credits: 4

Introductory environmental geology course focusing on water and soil both as hazards and as life-sustaining resources. Explores surface processes and climate change over geological and human timescales. Case studies illustrate the environmental tradeoffs of resource use.

Cross Listed ENR 1500.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

GEOL1600 - Global Sustainability: Managing Earth's Resources

Credits: 4

Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

USP 2003-2014 Code U3G, U3S

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

SOIL2010 - Introduction to Soil Science

Credits: 4

Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE

Prerequisite: CHEM 1000 or CHEM 1020.

Structural Design Course: 3 credit hours

Must take one of the following.

CE4250 - Structural Steel Design

Credits: 3

Design of structural components and applications utilizing steel.

Cross Listed ARE 4250.

Prerequisite: ARE 3200/CE 3200.

CE4260 - Structural Concrete Design

Credits: 3

Design of structural components and applications utilizing reinforced concrete.

Cross Listed ARE 4260.

Prerequisite: ARE 3200/CE 3200.

CE Professional Development Courses: 12 credit hours

Must take four of the following.

Selection of Professional Development Courses must demonstrate breadth by covering more than one area among Environmental, Geotechnical, Transportation and Water Resources.

CE4200 - Structural Analysis II

Credits: 3

Stress and displacement of indeterminate structures. Determination of loads on buildings. Matrix stiffness methods.

Cross Listed ARE 4200

Prerequisite: ARE 3200/CE 3200.

CE4265 - Prestressed Concrete Design

Credits: 3

This is a classical course on designing prestressed and precast concrete systems. Principles and behavior of prestressed concrete build the foundation for topics that included flexure, shear, and axial load, construction and fabrication, and application. The course continues with fundamental concepts taught in RE/CE 4260.

Cross Listed ARE 4265.

Dual Listed CE 5265.

Prerequisite: ARE 4260/CE 4260.

CE4285 - Masonry Design

Credits: 3

Design of structural components in reinforced masonry buildings, including walls, columns, beams and connections. Particular attention is paid to current codes, specifications and analysis.

Cross Listed ARE 4285.
Dual Listed ARE 5285 and CE 5285.
When Offered Offered on a three semester rotation.
Former Course Number [4280]

Prerequisite: ARE 4260/CE 4260 and ARE 3200/CE 3200.

CE4295 - Structural Timber Design

Credits: 3
Design of structural components and applications utilizing timber.

Cross Listed ARE 4295.
Dual Listed CE 5295.
Former Course Number [4290]

Prerequisite: CE 3200 or equivalent.

CE4400 - Design of Water Treatment Facilities

Credits: 3
A theoretical and practical design course for municipal potable water treatment systems. Major emphasis includes health criteria, operational control procedures, primary and secondary drinking water regulations, as well as the latest treatment design standards for production of drinking water.

Prerequisite: CE 3400.

CE4410 - Design of Wastewater Treatment Facilities

Credits: 3
A theoretical and practical design course for treatment of municipal wastewaters. Major areas of emphasis include waste characterization and physical, chemical and biological unit processes.

Prerequisite: CE 3400.

CE4430 - Green Chemistry and Global Environmental Problems

Credits: 3
Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CHE 4430 /ENR 4430.
Former Course Number [3420, 2420]

Prerequisite: CHEM 1020.

CE4441 - Solid Waste Engineering

Credits: 3

Municipal solid waste characteristics and quantities, collection, landfills, processing of municipal solid waste, materials separation, combustion and energy recovery, and biochemical processes with an emphasis on materials flow. Integrated solid waste management principles are also discussed.

Former Course Number [4440]

Prerequisite: CE 3400.

CE4510 - Pavement Design for Airports and Highways

Credits: 3

Designing flexible and rigid pavements for highways and airports. Topics include pavement materials and common uses, soil stabilization, quality control of materials, pavement design procedures.

Dual Listed CE 5510.

Former Course Number [5510]

Prerequisite: CE 3500 or CE 3600.

CE4530 - Traffic Engineering: Operations

Credits: 3

Basic characteristics of traffic, such as drivers, vehicles, volumes, speeds, delay, origins and destinations, intersection performance, capacity, termination and accidents; techniques for making traffic engineering investigations; traffic laws and ordinances, regulations, design and application of signal systems; curb parking control; enforcement and traffic administration; and public relations.

Dual Listed CE 5530.

Prerequisite: CE 3500.

CE4555 - Geometric Design of Highways

Credits: 3

Criteria controlling geometric design of highways including design speed, design volume, vehicle requirements and capacity design standards for different highway types; design of sight distance, alignment, grade; cross-section design; access control, frontage roads; intersection design elements, and design of intersections and interchanges.

Dual Listed CE 5555.

A&S College Core 2015 Students may not receive credit for both CE 4555 and CE 5555.

Former Course Number [4520]

Prerequisite: CE 3500.

CE4610 - Foundation Engineering

Credits: 3

Site characterization, laboratory shear tests and determination of soil properties. Analyses include bearing capacity, stress distribution and settlement. Design of shallow and control of deep foundations using static and dynamic methods.

Dual Listed CE 5610.

Prerequisite: CE 3600.

CE4620 - Soil and Rock Slope Engineering

Credits: 3

Advanced engineering and geologic classification of landslides; detailed field investigations; solid and rock strength properties for stability analysis; advanced analytical and numerical methods for analysis of slope stability; design of engineered stabilization systems.

Dual Listed CE 5660.

Prerequisite: CE 3600.

CE4630 - Ground Improvement, Reinforcement and Treatment

Credits: 3

This course is designed to help students understand a number of available geotechnical ground improvement, reinforcement and treatment techniques currently in use.

Dual Listed CE 5630.

Prerequisite: CE 3600.

CE4800 - Hydrology

Credits: 3

Analysis of elements of the hydrologic cycle and design with emphasis on precipitation, evapotranspiration, infiltration, runoff and groundwater. Precipitation/Runoff relationships, routing methods, flood prediction, groundwater yield and drawdown in unconfined and confined aquifers, unsteady well behavior, and method of images are also introduced.

Prerequisite: CE 3300.

CE4810 - Groundwater Hydrology

Credits: 3

Principles and basic equations associated with saturated and unsaturated flow in soils describing groundwater and drainage flow. Laws governing the movement, recharge, and production of underground water with special emphasis on techniques and modeling methods for development of groundwater resources.

Dual Listed CE 5810.

Prerequisite: ES 2330.

CE4870 - Water Resource Engineering

Credits: 3

Study in water resource planning and design and problem solving applying engineering principles and procedures. Western United States water problems are emphasized, including user completion, reallocation, consumptive use, water development, conservation, conveyance losses, and return flows.

Dual Listed CE 5870.

Prerequisite: CE 3300.

CE Math/Sci/Tech/Prof Courses: 9 credit hours

Must take 9 additional credit hours in Math/Science/Technical/Professional courses.

Required Credits: 125 Hours (Minimum)

A Minimum of 42 Credit Hours Must Be Upper Division (3000+) Level.

- **Advanced Standing/Gateway:** Prior to enrolling in upper division ARE/CE courses, students must earn 57 quality points in the following courses: CHEM 1020, PHYS 1210 or PHYS 1220, MATH 2200, MATH 2205, ES 2110, ES 2120, and ES 2410.
- Degree candidates must meet the academic requirements of the university, and must have a minimum GPA of 2.0 in all engineering courses, and all courses required for the major. *Grades of C or better are required for all prerequisite courses.
- Students choose an area of emphasis in either structural or mechanical systems, and select Optional Electives and the Capstone Design for their emphasis area. Care should be taken to ensure prerequisites are completed.
- Students must take either CE 4250 or CE 4260 for the Structural Design requirement. Remaining Professional Development Electives must cover at least two of the following areas: Environmental, Geotechnical, Transportation, Water Resources.
- Students may have a maximum of 6 credits in courses with a grade of D in upper division ARE courses that apply towards their degree.
- Students may not take a course for S/U credit to satisfy any requirement, unless the course is offered for S/U credit only.
- No more than two upper division courses may be transferred and applied to the CE degree. CE 4010 and CE 4900 cannot be transferred to UW.

CE Outcomes

The Civil Engineering department regularly evaluates the following student skills. Specifically, every University of Wyoming Civil Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences

4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Civil Engineering/Water Resources

The purpose of this program is to broaden the students' master of science program in the water resource area in civil engineering.

Plan A Thesis Requirement

Only students with a M.S. Plan A thesis option are eligible. The student's graduate committee will include at least one member of the Water Resources Curriculum Committee.

Coursework and Thesis

Each student must complete a minimum of 28 hours of graduate level coursework and a thesis under Plan A (4 credit hours) to qualify for the master of science in civil engineering/ water resources.

The student must obtain at least 18 credit hours of graduate level coursework in engineering, emphasizing a concentration of core courses in a particular area of emphasis in civil engineering. The core course areas of emphasis for this program are hydrologic and hydraulic engineering. The particular set of courses for a given area of emphasis will be designated by the faculty in the water resources area for these areas of emphasis with the approval of the Civil Engineering Graduate Committee.

Interdisciplinary Component

9 hours

Technical Hydrology (3 Hours)

GEOL5444 - Geohydrology

Credits: 3

Examines the physical principles governing the occurrence, movement, and extraction of water in aquifers.

Dual Listed GEOL 4444.

When Offered (Normally offered fall semester)

Prerequisite: MATH 2205.

GEOL5550 - Numerical Methods in Ground Water Geology I

Credits: 3

Numerical solution of ground water flow equations with emphasis on steady state and elementary time dependent finite difference techniques.

Prerequisite: GEOL 4444 or GEOL 5444, competence in FORTRAN programming.

GEOL5570 - Advanced Geohydrology

Credits: 3

Aquifer performance and testing, ground water basin development and management, conjunctive use of ground and surface water, and regional water resource investigations.

Prerequisite: GEOL 4444 or GEOL 5444.

REWM5285 - Wildland Hydrology

Credits: 3

Teaches essential and unique characteristics of hydrologic cycle as occurs on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed ENR 5285.

Dual Listed REWM 4285.

Prerequisite: graduate standing and University Studies QA.

- REWM 5280 - Stream Habitat Management Credits: 3

Law/Natural Resource Economics (3 Hours)

(please refer to the general degree requirements for a list of courses)

Water Quality (3 Hours)

GEOL5450 - Geochemical Modeling

Credits: 3

Modeling of geochemical processes in fluid-rock systems of the Earth's crust. Emphasizes development and application of conceptual models as well as quantitative numerical models. Reinforces and expands fundamental skills in aqueous and fluid-rock geochemistry to better understand geochemical processes and solve problems in fluid-rock systems.

Prerequisite: GEOL 4777/GEOL 5777 or GEOL 5610 or GEOL 4490.

GEOL5777 - Geochemistry of Natural Waters

Credits: 3

Physical chemistry of solutions applied to natural waters. Chemistry of rock weathering, controls on major, minor, and

trace element contents of natural waters. Problems of introduced pollutants.

Cross Listed GEOL 4777.

Prerequisite: CHEM 1030 OR consent of instructor.

- MOLB 4410 Water Microbiology Credits: 3
- MOLB 4500 Microbial Ecology Credits: 3

ZOO4440 - Limnology

Credits: 3

Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)

Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

Construction Management, B.S.

Construction Managers are responsible for overseeing construction projects, including schedules, budgets, and quality control. The B.S. in Construction Management is a candidate for accreditation by ACCE and provides numerous career paths.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Core Courses: 50 credit hours

CE1000 - Exploring CAECM

Credits: 1

Introduction to civil and architectural engineering professions through exploration of modern engineering challenges. Students work on a design project, starting with problem definition and working towards concept designs using spreadsheet and communication tools. Professional topics introduced include globalizability, diversity, professional ethics, design limitations and constraints, sustainability, environmental stewardship, and engineering economics.

Cross Listed ARE 1000.

Prerequisite/Corequisite: of MATH 1450 or MATH 1405.

CE2070 - Engineering Surveying

Credits: 3

Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Traverse field techniques and office calculations. Basic principles of surveying and map making.

Prerequisite/Corequisite: of MATH 1450 or MATH 1405.

CM2000 - Introduction to Construction Management

Credits: 3

Introduction to the practice and principles of construction management as it relates to both vertical and horizontal construction projects.

CM2120 - Construction Materials and Methods

Credits: 3

Introduction to building materials and construction practices used in the construction industry to construct both vertical and horizontal construction projects.

Prerequisite: COM1.

CM2300 - Construction Safety

Credits: 3

Introduce students to the various causes of construction accidents and adopted strategies to prevent worksite injuries and illnesses with an emphasis on OSHA standards.

Prerequisite: CM 2000.

CM2400 - MEP Systems

Credits: 3

Introduction to mechanical, electrical and plumbing systems in site infrastructure and vertical construction projects.

Prerequisite: C in PHYS 1110.

CM2600 - Construction Documents

Credits: 3

Introduction to the creation and interpretation of construction documents used in the construction industry to build today's vertical and horizontal construction projects.

Prerequisite: CM 2000.

CM3100 - Construction Scheduling

Credits: 3

Principles of construction scheduling including analytical and quantitative scheduling and management techniques as they apply to both vertical and horizontal construction projects.

Prerequisite: CM 3210

CM3160 - Construction Law & Contracts

Credits: 3

The course covers different contract methods, or arrangements, used by the Construction industry to contract and procure construction work. The course also introduces students to construction law in support of planning and the execution of construction work.

Prerequisite: CM 2600.

CM3180 - Evolving Technologies in CM

Credits: 3

The course introduces students to Leadership in Energy and Environmental Design (LEED), Building Information Modeling (BIM) and evolving technologies in construction.

Prerequisite/Corequisite: Grade of C in CM 2000

CM3200 - Statics & Structural Systems

Credits: 4

The course introduces students to the basic principles of statics and structural analysis and design. It provides students with a concise presentation of structural technology, from the determination of structural loads, sizing and design as it relates to timber, steel and concrete structures.

Prerequisite: PHYS 1110 and MATH 2200 with grades of C or better.

CM3210 - Construction Estimating

Credits: 3

The course introduces students to concepts in estimating including but not limited to labor and equipment calculations, the use of price databases, direct and indirect cost, bid preparation and computer applications.

Prerequisite: C in CM 2600.

CM3220 - Soils and Concrete

Credits: 3

This course will introduce students with the construction process that includes, site clearing, soil mechanics, testing, concrete foundations, concrete mix design, concrete construction practice, and concrete testing.

Prerequisite: GEOL 1110 with a grade of C or better and concurrent enrollment in CM 3200.

CM4100 - Project Management

Credits: 3

This course guides students through fundamental Project Management concepts and behavioral skills needed to success-fully launch and lead construction projects in the construction sector.

Prerequisite: CM 3100.

CM4140 - Heavy CM Methods

Credits: 3

The course provides student an overall understanding of construction equipment and selected construction methods used on large scale construction projects. With specific reference to selection, economy, and productivity of common construction equipment and construction procedures for site development and industrial, heavy and civil construction.

Prerequisite: CM 2120 and CM 3200.

CM4600 - Building Info. Modeling

Credits: 3

This course focuses on the skills and information needed to effectively use an existing Building Information Model (BIM) in plan execution for a building construction project. This is a projectbased course where students develop skills on the implementation of BIM concepts throughout the lifecycle of a building, from planning and design, to construction operations.

Prerequisite: CM 2600.

CM4900 - Capstone Project

Credits: 3

This course requires students to participate in a "real" construction situation involving all aspects of managing a project; from initial planning to completion, including budgets, estimating, scheduling, financing and creating contracts

and other construction forms as necessary. Case studies will be utilized to develop critical thinking skills.

Prerequisite: CM 4100.

Business & Professional Courses: 18 credit hours

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

COMM2010 - Public Speaking

Credits: 3

Beginning public speaking course. Students will develop foundational oral, digital and written communication skills. Emphasizes message construction, performance and critique in public communication settings. Includes speech preparation, listening, audience analysis, writing strategies, digital communication, critical thinking, language/nonverbal behavior and various speaking formats. (Offered fall, spring and summer).

USP 2003-2014 Code U3O

USP 2015 Code U5C2

Former Course Number COJO 2010

Corequisite: Prerequisite: Successful completion of a COM1 course.

COJO3010 - Business and Professional Communication

Credits: 3

Studies theories and techniques of professional communication activities including interviewing skills, group processes, and professional presentations; for students who are beyond elementary oral communication level. Students develop oral communication skills through projects and presentations.

USP 2015 Code U5C3

Prerequisite: COJO 1010 or COMM 2010 and junior standing.

ECON1010 - Principles of Macroeconomics

Credits: 3

An introductory course on why economics matters. We examine why countries like the US are rich, while others are

poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

MGT2010 - Legal Environment of Business

Credits: 3

Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

Math/Science Courses: 18 credit hours

GEOL1100 - Physical Geology

Credits: 4

Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE
USP 2015 Code U5PN

MATH1405 - Trigonometry

Credits: 3

Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA
USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

PHYS1110 - General Physics I

Credits: 4

First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, pre dental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied. Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1450, 1405 or equivalent.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

Math/Science Elective Credits: 3

CM Electives: 6 credit hours

Must take 6 additional credit hours in Construction Management elective courses.

General Electives: 12 credit hours

Must take 12 additional credit hours in general elective courses.

Required Credits: 120 Hours (Minimum)

A Minimum of 42 Credit Hours Must Be Upper Division (3000+) Level.

- Degree candidates must meet the academic requirements of the university, and must have a minimum GPA of 2.0 in all courses, and all courses required for the major. *Grades of C or better are required for all prerequisite courses.
- Math 2350 may replace Math 2200 but student must also have Math 1405.
- Math 1405 may be satisfied with Level 5 of the Math placement exam or Math ACT of 27 or SAT Math of 640. Students placing out of Math 1405 will need an additional general elective.
- Students may not take a course for S/U credit to satisfy any requirement, unless the course is offered for S/U credit only.

Minor

Construction Management Minor

For UW undergraduate students in other majors, a Minor in Construction Management may be earned by:

Completing any 15 credits with a CM prefix, with the exceptions listed below.

Architectural Engineering majors will not be permitted to use the following courses to satisfy the Minor requirement (or as ARE Major Electives), because they duplicate content in required courses in their major:

CM 2120: Construction Materials and Methods

CM 2200: Structures

CM 2400: MEP Systems

CM 2600: Construction Documents

CM 3220: Soils and Concrete

CM 4600: Building Info. Modeling

Civil Engineering majors will not be permitted to use the following courses to satisfy the Minor requirements (or as CE MSTP Electives), because they duplicate content in required courses in their major:

CM 2200: Structures

CM 3220: Soils and Concrete

Minors in Construction Management are not accredited

Land Surveying Minor

A minor in Land Surveying requires 31 hours of specific course work. This minor includes the Wyoming Board of Professional Engineers and Professional Land Surveyor's education requirements for a Land Surveyor in Training license. The Land Surveying minor may be paired with any major. All Land Surveying classes are offered as distance learning through Distance Education Programs.

Curriculum Requirements:

LS2010 - Engineering Surveying Lecture

Credits: 2

Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Basic principles of surveying and map making.

Former Course Number [CE 2072]

Prerequisite: a working knowledge of algebra and trigonometry.

LS2015 - Engineering Surveying Laboratory

Credits: 1

Field surveying activities consisting of traversing, differential leveling, construction staking and gathering topographic data.

Former Course Number [CE 2073]

Prerequisite: LS 2010 or concurrent.

LS2020 - GPS for Land Surveyors

Credits: 4

From fundamental theory to practical application and advanced technologies, this class covers all aspects of GPS needed to understand and use GPS as a land surveyor including the basics of GPS technology, common hardware, surveying methods, survey design, planning and observing, real-time kinematics and DGPS.

Former Course Number [CE 2090]

Prerequisite: LS 2400.

LS2100 - Records Research for Surveyors

Credits: 3

Introduced to the public, quasi-public, and private depositories of recorded and non-recorded documents that establish land ownership boundaries, easement boundaries, and land use rights and restrictions in both the Public Land Survey System and the Colonial States. Assignments will require work to be conducted during depositories' normal business hours.

Former Course Number [CE 2076]

LS2110 - Real Property Law

Credits: 3

Covers all major areas of real property law, including the nature of real property, types of ownership, real estate contracts, title and insurance, financing, landlord and tenant, land use, environmental law and regulation. An understanding of real property law is fundamental to understanding boundary law.

Former Course Number [CE 2050]

LS2400 - Basic Geodesy for Today's Land Surveyor

Credits: 2

The history of geodesy including measurement techniques, coordinate systems, ellipsoids, and datums is reviewed. The modern geodetic and Cartesian coordinates systems, as well as the differences between grid and ground coordinates systems, and the current geodetic and Cartesian coordinate systems available today are discussed.

Former Course Number [CE 2089]

Prerequisite: CE 2070 or LS 2010.

LS3100 - Real Property Descriptions

Credits: 2

Historical and current issues for land description writing and usage for the practicing surveyor. Relationship between written descriptions and field survey data, interpreting old descriptions and the structure principles of description.

Former Course Number [CE 2088]

Prerequisite: CE 2070 or LS 2010, and LS 2100 and LS 2110.

LS3110 - Boundary Evidence

Credits: 2

A practical and working guide to understanding survey evidence and the laws of boundary location for efficient, accurate boundary determination. This material aids in the elimination of errors in location of land boundaries. The surveyor's liability and statutes of limitations are explored in depth. Also included are discussions of the surveyor's role in court. Normally offered only through the Outreach School.

Former Course Number [CE 3750]

Prerequisite: CE 2070 or LS 2010, and LS 2110.

LS3120 - Boundary Principles

Credits: 2

This course in boundary law addresses the fundamental principles of real property as applied to land surveying and related professions. Discussion and applications center on practical situations and concepts commonly encountered

while conducting boundary surveys and the determination of the extent of ownership rights. Students explore the scope of the surveyors' judiciary role in real property ownership. Primarily offered through the Outreach School.

Former Course Number [CE 3740]

Prerequisite: CE 2070 or LS 2010, and LS 3100 and LS 2110.

LS3130 - Public Land Surveys

Credits: 3

Basic fundamentals of the Public Land Survey System (PLSS), dependent and independent resurveys, survey plats, "bona fide rights", riparian boundaries, non-rectangular entities, corner evidence and the role of the modern day surveyor.

Former Course Number [CE 2085]

Prerequisite: CE 2070 or LS 2010, and LS 2110.

LS3200 - Route Surveying

Credits: 3

Laying out of super elevation and circular, parabolic, and spiral curves; the difference between highway and railway horizontal curve geometry; offsets to spiral curves as boundaries; area and volumes of earthwork.

Former Course Number [CE 3710, CE 4710]

Prerequisite: CE 2070 or LS 2010, and ES 1060 or ES 1061.

LS3210 - Advanced Surveying

Credits: 4

Advanced topics in surveying computations and procedures, including traverse error analysis, topographic surveying, mapping, astronomical observations, coordinate geometry applications, and state plane coordinates.

Former Course Number [CE 3720, CE 4720]

Prerequisite: CE 2070 or LS 2010.

Total Credits: 31 Hours

¹ Computer Aided Drafting 1 offered through Sheridan College Outreach Programs.

The intent of this application based minor is to prepare the student for the pursuit of Professional Licensure. Those only seeking the remote learning Land Surveying courses should see the Cadastral Land Surveying Certificate found at <http://www.uwyo.edu/civil/landsurvey/>.

Graduate

Architectural Engineering, M.S.

The MSCE Quick Start (Plan A) program in Civil and Architectural Engineering (CAE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor of science (BS) degree in Civil Engineering or Architectural Engineering. These students must apply for admission to the Quick Start (Plan A) program no later than the second semester of their junior year. Areas of study in the master of science program include: building mechanical systems, building energy modeling, structural engineering. The master of science degree in each of these areas requires completion of 12 to 18 hours of engineering courses related to the particular program area.

Plan A (Thesis)

The degree of master of science, Plan A, requires a minimum of 26 hours of coursework and a minimum of 4 hours thesis research in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework for approval by the departmental graduate studies committee (AREGS), and the department head.

Plan A is required of all state or contract supported graduate assistants.

Plan B (Non-thesis)

Requires a minimum of 30 hours of coursework and a Plan B paper, in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework and the course number that the Plan B paper covers for approval by the AREGS and the department head.

Civil Engineering, M.S.

Program Specific Degree Requirements

Master's Program

Areas of study in the master of science program include: building mechanical systems engineering, environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering. The master of science degree in each of these areas requires completion of 12 to 18 hours of engineering courses related to the particular program area.

Plan A (Thesis)

The degree of master of science, Plan A, requires a minimum of 26 hours of coursework and a minimum of 4 hours thesis research in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework for approval by the departmental graduate studies committee (CEGS), and the department head.

Plan A is required of all state or contract supported graduate assistants.

Plan B (Non-Thesis)

Requires a minimum of 30 hours of coursework and a Plan B paper, in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework and the course number that the Plan B paper covers for approval by the CEGS and the department head.

Civil Engineering, Ph.D.

Areas of study in the doctor of philosophy program include: building mechanical systems engineering, environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering.

Minimum of 42 hours of coursework beyond the baccalaureate, 36 hours of which must be 5000-level (graduate-level) courses or the equivalent, and concentrated independent research leading to an acceptable dissertation.

In addition to expertise in the specific dissertation topic, the candidate must demonstrate competence in two or more research areas that will help to insure a high-quality dissertation acceptable to the student's graduate committee.

Subject to department and university requirements, the student's coursework is arranged by consultation between the student, his or her adviser, and his or her committee, and must also be approved by the CEGS and by the department head.

Coursework is defined in a program of study that should be filed by the end of the second semester of the Ph.D. program.

At a time near the completion of formal coursework, the student is required to take and pass a preliminary examination on the Ph.D. coursework and, as a part of the examination, is required to present a written and oral dissertation proposal to his or her committee for approval.

Finally, the student must demonstrate research competence in an oral defense of the dissertation and must submit an acceptable written version of the dissertation to his or her graduate committee in a timely manner to meet deadlines. In addition, the student is to meet the minimum requirements set forth in this bulletin.

Certificate

Cadastral Surveying Certificate

Program Information

- Students must be properly admitted as Cadastral Surveying Certificate students through the University of Wyoming Admissions Office to be eligible for this Certificate.

- This certificate requires a minimum of 30 semester hours as listed below. 21 credit hours must be successfully completed at the University of Wyoming.
- All transfer credit is subject to review by the UW Land Surveying Director.
- A grade of C or better must be earned in each course.
- The Certificate meets the Wyoming Board of Professional Engineers and Land Surveying licensing requirements for the surveying specific course work required to apply to be a Land Surveyor in Training (LSIT).
- Students earning the Cadastral Surveying Certificate are NOT eligible for Federal Financial Aid. Students may utilize private student loan programs available through the Student Financial Aid Office.
- The UW Cadastral Surveying program is not ABET Accredited.
- Students should have a working knowledge of algebra and trigonometry, and some experience with spreadsheets prior to beginning in this program.
- AutoCAD Civil 3D is recommended.

Course Requirements

LS2010 - Engineering Surveying Lecture

Credits: 2

Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Basic principles of surveying and map making.

Former Course Number [CE 2072]

Prerequisite: a working knowledge of algebra and trigonometry.

LS2020 - GPS for Land Surveyors

Credits: 4

From fundamental theory to practical application and advanced technologies, this class covers all aspects of GPS needed to understand and use GPS as a land surveyor including the basics of GPS technology, common hardware, surveying methods, survey design, planning and observing, real-time kinematics and DGPS.

Former Course Number [CE 2090]

Prerequisite: LS 2400.

LS2100 - Records Research for Surveyors

Credits: 3

Introduced to the public, quasi-public, and private depositories of recorded and non-recorded documents that establish land ownership boundaries, easement boundaries, and land use rights and restrictions in both the Public Land Survey System and the Colonial States. Assignments will require work to be conducted during depositories' normal business hours.

Former Course Number [CE 2076]

LS2110 - Real Property Law

Credits: 3

Covers all major areas of real property law, including the nature of real property, types of ownership, real estate contracts, title and insurance, financing, landlord and tenant, land use, environmental law and regulation. An understanding of real property law is fundamental to understanding boundary law.

Former Course Number [CE 2050]

LS2400 - Basic Geodesy for Today's Land Surveyor

Credits: 2

The history of geodesy including measurement techniques, coordinate systems, ellipsoids, and datums is reviewed. The modern geodetic and Cartesian coordinates systems, as well as the differences between grid and ground coordinates systems, and the current geodetic and Cartesian coordinate systems available today are discussed.

Former Course Number [CE 2089]

Prerequisite: CE 2070 or LS 2010.

LS3100 - Real Property Descriptions

Credits: 2

Historical and current issues for land description writing and usage for the practicing surveyor. Relationship between written descriptions and field survey data, interpreting old descriptions and the structure principles of description.

Former Course Number [CE 2088]

Prerequisite: CE 2070 or LS 2010, and LS 2100 and LS 2110.

LS3110 - Boundary Evidence

Credits: 2

A practical and working guide to understanding survey evidence and the laws of boundary location for efficient, accurate boundary determination. This material aids in the elimination of errors in location of land boundaries. The surveyor's liability and statutes of limitations are explored in depth. Also included are discussions of the surveyor's role in court. Normally offered only through the Outreach School.

Former Course Number [CE 3750]

Prerequisite: CE 2070 or LS 2010, and LS 2110.

LS3120 - Boundary Principles

Credits: 2

This course in boundary law addresses the fundamental principles of real property as applied to land surveying and related professions. Discussion and applications center on practical situations and concepts commonly encountered while conducting boundary surveys and the determination of the extent of ownership rights. Students explore the scope of the surveyors' judiciary role in real property ownership. Primarily offered through the Outreach School.

Former Course Number [CE 3740]

Prerequisite: CE 2070 or LS 2010, and LS 3100 and LS 2110.

LS3130 - Public Land Surveys

Credits: 3

Basic fundamentals of the Public Land Survey System (PLSS), dependent and independent resurveys, survey plats, "bona fide rights", riparian boundaries, non-rectangular entities, corner evidence and the role of the modern day surveyor.

Former Course Number [CE 2085]

Prerequisite: CE 2070 or LS 2010, and LS 2110.

LS3200 - Route Surveying

Credits: 3

Laying out of super elevation and circular, parabolic, and spiral curves; the difference between highway and railway horizontal curve geometry; offsets to spiral curves as boundaries; area and volumes of earthwork.

Former Course Number [CE 3710, CE 4710]

Prerequisite: CE 2070 or LS 2010, and ES 1060 or ES 1061.

LS3210 - Advanced Surveying

Credits: 4

Advanced topics in surveying computations and procedures, including traverse error analysis, topographic surveying, mapping, astronomical observations, coordinate geometry applications, and state plane coordinates.

Former Course Number [CE 3720, CE 4720]

Prerequisite: CE 2070 or LS 2010.

Required Credits: 30 Hours Minimum

QuickStart Program

Civil and Architectural Engineering Quick Start, B.S./M.S.

The MSCE Quick Start (Plan A) program in Civil and Architectural Engineering (CAE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor of science (BS) degree in Civil Engineering or Architectural Engineering.

Department of Electrical Engineering and Computer Science

5068 Engineering Building, (307) 766-2279

FAX: (307) 766-2248

Web site: www.uwyo.edu/electrical and www.uwyo.edu/cosc

Professors:

STEVEN F. BARRETT, B.S. University of Nebraska 1979; M.E. University of Idaho 1986; Ph.D. University of Texas 1993; Professor of Electrical Engineering 2011, 1999.

RUBEN GAMBOA, B.S. Angelo State University 1984; M.C.S. Texas A&M University 1986; Ph.D. The University of Texas 1999; Professor of Computer Science 2015, 2002.

JOHN M. HITCHCOCK, B.S. Iowa State University 1999; M.S. 2001; Ph.D. 2003; Professor of Computer Science 2015, 2003.

JOHN E. McINROY, B.S. University of Wyoming 1986; M.S. Rensselaer Polytechnic Institute 1988; Ph.D. 1991; Professor of Electrical Engineering 2002, 1991.

SURESH S. MUKNAHALLIPATNA, B.E. University of Bangalore, India 1988; M.E. 1991; Ph.D. University of Wyoming 1995; Professor of Electrical Engineering 2010, 1997.

JOHN W. PIERRE, B.S. Montana State University 1986; M.S. University of Minnesota 1989; Ph.D. 1991; Professor of Electrical Engineering 2002, 1991.

CAMERON H.G. WRIGHT, B.S. Louisiana Tech University 1983; M.S. Purdue University 1988; Ph.D. University of Texas 1996; Professor of Electrical Engineering 2016, 2003.

Associate Professors:

AMY BANIC, B.S. Duquesne University 2003; M.S. University of North Carolina 2005; Ph.D. 2008; Associate Professor of Computer Science 2012, 2010.

MIKE BOROWCZAK, B.S. University of Cincinnati 2007; Ph.D. 2013; Associate Professor of Computer Science 2022.

DONGLIANG DUAN, B.E. Huazhong University of Science and Technology 2006; M.S. University of Florida 2009; Ph.D. Colorado State University 2012; Associate Professor of Electrical Engineering 2019, 2012.

EVA S. FERRE-PIKAL, B.S. University of Puerto Rico 1988; M.S. University of Michigan 1989; Ph.D. University of Colorado 1996; Associate Professor of Electrical Engineering 2004, 1998.

JOHN F. O'BRIEN, B.S. California State Polytechnic University, Pomona 1991; M.S. University of Wyoming 1997; Ph.D. Rensselaer Polytechnic Institute 2001; Associate Professor of Electrical Engineering 2009, 2003.

JON M. PIKAL, B.S. Purdue University 1988; M.S. University of Colorado 1993; Ph.D. Colorado State University 1999; Associate Professor of Electrical Engineering 2005, 1999.

Assistant Professors:

CHAO JIANG, B.E. Chongqing University 2009; Ph.D. Stevens Institute of Technology 2019; Assistant Professor of Electrical and Computer Engineering 2019.

LARS KOTTHOFF, Diplom (M.Sc.) University of Leipzig 2007; Ph.D. University of St. Andrews 2012; Assistant Professor of Computer Science 2017.

NGA NGUYEN, B.S. Hanoi University of Science and Technology 2005; M.S. 2007; Ph.D. Michigan State University 2017; Assistant Professor of Electrical and Computer Engineering 2018.

DIKSHA SHUKLA, B.S. Kanpur University 2008; M.C.A. Jawaharlal Nehru University 2011; M.S. Louisiana Tech University 2014; Ph.D. Syracuse University 2019; Assistant Professor of Computer Science 2019.

Senior Lecturer:

JAMES S. WARD, B.S. University of Wyoming 1993; M.S. 1997; Senior Lecturer of Computer Science 2011, 2000.

Associate Lecturer:

KIM BUCKNER, B.S. Chapman University 1993; M.S. University of Tennessee, Knoxville 1998; Ph.D. 2003; Associate Lecturer of Computer Science 2014, 2008.

Adjunct Faculty:

Robin Hill, Elena Oggero, Guido Pagnacco

Professors Emeriti:

Thomas A. Bailey, Jr., Mark Balas, Henry R. Bauer III, James L. Caldwell, Christos T. Constantinides, John R. Cowles, Jerry J. Cupal, Clifford D. Ferris, Jerry Hamann, Raymond G. Jacquot, Robert F. Kubichek, Stanislaw Legowski, John Rowland, John W. Steadman, A.H.M. Sadrul Ula, David Whitman

Lecturer Emeritus:

Jeri R. Hanly

Computer Science

A Bachelor of Science degree (B.S.) in Computer Science prepares students for careers in virtually any industry or to continue on with graduate study in Computer Science and many other fields. Computer science students learn to approach problems from a computational (algorithmic) point of view, and this approach to problem solving often leads to better and more general solutions. Software systems, information technology, and large scale data applications are core technologies in every area and the applications continue to grow with software and information systems becoming more and more embedded in the fabric of everyday life. These systems are essential tools in science and engineering, for business and finance, government, communications, medicine, and entertainment. Software systems make the world go round and smart devices, such as phones, tablets, glasses, wearable devices, medical implants are ubiquitous. As a result, computer science has grown from a specialized field to an independent, broadly based area that studies all aspects of the use and understanding of software systems, information, and computational processes. Students studying B.S. in Computer Science at the University of Wyoming have the option to focus their studies by taking a concentration in Business, Big Data, or the Cybersecurity certificate. The Cybersecurity certificate captures core technical cyber security foundations and principles, from databases and networks to advanced threat detection and mitigation. All of the Computer Science concentrations lead to a Bachelor of Science in Computer Science and all programs are ABET accredited.

Program Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.

Growing: Graduates show continued learning and leading in computing-related professions.

Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Program Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

Graduate Study - Computer Science

The Department offers graduate work leading to the Master of Science degree in computer science and the Doctor of Philosophy in computer science. The Department also offers a graduate minor in computer science.

Program Specific Admission Requirement

Applicants for a graduate degree in computer science are expected to have completed undergraduate courses in Algorithms and Data Structures (COSC 3020 equivalent), Theory of Computing (COSC 4100 or COSC 4200 equivalent), Operating Systems (COSC 4740 equivalent), and Programming languages or Compilers (COSC 4780 or COSC 4785 equivalent). Applicants to the doctoral program must have completed a bachelor's or master's degree in computer science or a closely related discipline at an accredited university or college.

The Graduate Record Examination (GRE) is required of all applicants. GRE scores are required with minimums of 40th percentile for the verbal score and 65th percentile for the quantitative score. Our strongest students tend to have scores substantially above these minimums, with quantitative scores often around the 90th percentile or higher.

Students whose native language is not English must also complete the Test of English as a Foreign Language (TOEFL) with a score of at least 550 on the paper based TOEFL; 213 on the computerized test including a 58 or better in section 1-Reading; 80 for the Internet based TOEFL (iBT) including a score of 23 or better in section 1-Reading or the International English Language Testing System (IELTS) test with a 6.5 score or better. Students may also use the Duolingo exam, with a minimum of 105 overall and 125 in the Literacy section.

You must submit to the online application system contact information for three references that can evaluate your potential for graduate study in computer science. If you wish to pursue a Ph.D., the letters should address your ability to pursue quality original research. Letters should also evaluate your oral and written communication skills.

If you meet the minimum criteria and would like to formally apply for admission you will also need to submit the following information during the completion of your application via the application portal:

Copies of transcripts from all colleges and universities (minimum GPA or equivalent 3.000 on a scale of 4.000) for all degrees attained. International applicants must submit copies of individual semester transcripts, consolidated transcripts will not be accepted.

Copy of GRE scores a minimum percentile of 40% on verbal and 65% on quantitative portions of the exam. The majority of admitted students tend to have scores substantially above these minimums.

Contact information for three recommendation letters (applicants should follow-up with recommenders to ensure this requirement is fulfilled; applications will not be processed further until all recommendations have been received).

International students will also need to submit a copy of TOEFL scores, IELTS scores, or Duolingo scores.

High performing undergraduates in computer science can elect for Quick Start admission to the graduate program, allowing the sharing of up to six credit hours of 5000-level coursework toward the completion of both the B.S. and the graduate degree programs.

Electrical Engineering

The program of study outlined in the curriculum has been planned to provide the depth of understanding necessary to meet challenges of changing technology while being flexible enough to allow students to pursue in-depth study in at least one area of electrical engineering. In order to attain this, students are required to gain an understanding of mathematics and the basic engineering sciences. The fundamental electrical engineering education consists of courses in circuits, networks, electromagnetics, electronics, digital systems, communications, controls and energy conversion. Selection of elective courses, in consultation with the academic adviser, enables students to specialize in the above mentioned areas, as well as in robotics, microcircuits, microprocessors and high frequency electronics.

Laboratory work associated with electrical engineering courses is an important part of the curricula. This work helps students gain experience in applying the theoretical knowledge they acquire to practical engineering problems.

Engineering design is an important component of the curriculum that concludes with a significant design experience in the senior year. Additional programs are described below.

F.M. Long Bioengineering Option. Named in honor of UW Professor Francis M. Long, this area offers excellent opportunities for those interested in applying the techniques of the electronic engineer to problems of environmental science, biology and medicine. Employment opportunities exist in state and federal agencies, industry and medical institutions. Career placement includes such areas as environmental monitoring, design and development of biological and medical instrumentation and clinical engineering. With minor modifications, the curriculum shown may be used as preparation for entrance to medical or dental school.

Computer Engineering

Computer Engineering is a blend of Computer Science and Electrical Engineering. In fact, a Computer Engineering student can change majors to Computer Science within the first three semesters without losing any credits. More careful planning is required to switch from Computer Science to Computer Engineering. Computer Engineering students receive training that allows them to design complex computer systems and embed them in custom applications such as robots, spacecraft, automobiles, etc. A typical system may interface with a sensor to measure the world, then decide how to best use the information to achieve goals and eventually turn on actuators which perform the needed task. They also develop computer vision systems, high performance computers and software, and the internet of things. They take many of the same required courses as Electrical Engineers, but fill in their electives with computer specific courses. Graduates have the ability to design electric circuits, understand network hardware, design computer systems, and write the software inside those systems. Compared to Electrical Engineers, Computer Engineers have less breadth of knowledge in Electrical Engineering but more depth in software and computer hardware. Compared to Computer Scientists, Computer Engineers know much more about hardware and signal/system theory. Computer Engineers sometimes also major in either Electrical Engineering or Computer Science to get two degrees.

Grade Policy

Electrical and computer engineering majors must achieve a grade of C (2.000) or better on courses that are prerequisites for courses within the student's course of study. Students must also achieve a grade of C (2.000) or better in all required mathematics courses.

Concurrent Major and Minor

The department offers a concurrent major and minor in both the electrical engineering and computer engineering programs. Consult the department office for a current detailed list of requirements.

Program Educational Objectives for Electrical and Computer Engineering

Graduates of the University of Wyoming Electrical and Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

University of Wyoming, Electrical and Computer Engineering Program, Student Outcomes

All Electrical (Computer) Engineering graduates shall demonstrate:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Graduate Program - Electrical Engineering

The department offers programs of study leading to the Master of Science and Doctor of Philosophy degrees in electrical engineering. Study programs are individually planned to students' interests in both course work and research. The areas of major concentration at the graduate level are:

- Bio-Engineering
- Controls
- Electrical Energy Systems
- Electronic Systems and Devices
- Robotics
- Signal Processing and Computer Networks

The department also offers a combined B.S./M.S. program for exceptional students wishing to obtain both degrees in a shorter period of time.

Program Specific Admission Requirements

Statement of purpose

Official transcripts from all post-secondary institutions attended

GRE verbal percentile minimum of 45 percent. GRE quantitative percentile minimum of 65 percent.

TOEFL total of 79 iBT or IELTS total 6.5.

Program Specific Graduate Assistantships

Additionally, all international students who are state-funded teaching assistantships or any international student with teaching responsibilities are required to complete an Oral Proficiency Interview (OPI). Students will need to follow the recommendations to improve their English skills. Students on state-funding who fail to follow the recommendations or

do not meet the minimum proficiency by the end of their first semester will not be able to receive any state-funding until they have demonstrated proficiency.

Major

Computer Engineering, B.S.

A B.S. in Computer Engineering provides the knowledge needed for careers in computer programming & design. It is a blend of Computer Science and Electrical Engineering and is often used to develop special purpose computers like those in your car.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Math & Science

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2300 - Discrete Structures

Credits: 3

Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed COSC 2300.

Prerequisite: grade of C or better in COSC 1030 and in either MATH 2200 or MATH 2350.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and

organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

- 3 credits of an approved Math/Science Elective ²

Engineering Science

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2210 - Electric Circuit Analysis

Credits: 3

Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

Electrical Engineering

EE2220 - Circuits and Signals

Credits: 4

Review of sinusoidal steady state analysis and ac power. Mutual inductance and linear transformers. Laplace transform. Laplace transform in circuit analysis. Frequency dependent circuits, including RLC circuit resonance. Magnitude and phase response, complex poles and zeros. Bode plots. Filter circuit fundamentals. Fourier series. Laboratory.

When Offered (Offered spring semester only)

Former Course Number [3320]

Prerequisite: ES 2210, or ES 2215 and ES 2216.

EE2390 - Digital Systems Design

Credits: 4

Binary logic, digital logic gates, reduction of Boolean expressions, combinational logic design. MSI and LSI combinational logic ICs, flip-flops, synchronous and asynchronous sequential systems design, MSI and LSI sequential system ICs, and algorithmic state machines.

Prerequisite: COSC 1010 or COSC 1015 or COSC 1030 or ES 1060, and MATH 2205.

EE3150 - Electromagnetics

Credits: 3

A thorough study of static electric and magnetic fields using vector methods with an introduction to dynamic fields.

Prerequisite: ES 2210, or ES 2215 and ES 2216, MATH 2210, and PHYS 1220 or concurrent enrollment.

EE3220 - Signals And Systems

Credits: 3

Discrete and continuous-time signals and systems. Topics include linear time-invariant systems; convolution;

difference equations; FIR and IIR systems; sampling, aliasing, reconstruction, and quantization. Frequency domain concepts include discrete and continuous Fourier transforms, Z-transforms, system frequency response, Laplace transform properties, and applications of digital filters and DFT analysis.

When Offered (Offered spring semester only)

Prerequisite: EE 2220.

EE3311 - Electronics I

Credits: 3

Physical characteristics and models of semiconductor devices with application to electronic circuit design. Diode circuits, single transistor amplifiers, biasing, and load lines. Prerequisites: (PHYS 1220 or PHYS 1320 or EE 3150), and EE 2220 or concurrent enrollment.(Offered fall semester only)

Prerequisite: PHYS 1220 or PHYS 1320 or EE 3150, and EE 2220 or concurrent enrollment

EE3312 - Electronics I Laboratory

Credits: 1

Hands on interactive laboratory investigation of the physical characteristics of semiconductor devices and applications in electronic circuit design. Study of diode and transistor characteristics as well as diode circuits and single transistor amplifier circuit design, construction and testing. Prerequisites: EE3311 must be taken either concurrently or as a prerequisite. (Offered fall semester only)

When Offered (Offered fall semester only)

Prerequisite: EE3311 must be taken either concurrently or as a prerequisite.

EE3331 - Electronics II

Credits: 3

Current sources, differential and multistage amplifiers; circuits with ideal and non-ideal operational amplifiers; low and high band frequency response, feedback, stability, gain and phase margin of amplifiers; output stages, class A and push-pull; monolithic operational amplifier; oscillators; transistors as switches and introduction to digital electronic circuits. Laboratory. Prerequisites: (EE 3310 or EE 3311) and EE 2220. (Offered spring semester only)

When Offered (Offered spring semester only)

Prerequisite: (EE 3312 or EE 3311) and EE 2220

EE3332 - Electronics II Laboratory

Credits: 1

Hands on interactive laboratory investigation of transistor switching circuits, differential amplifiers, current sources, amplifier frequency response, feedback, output stages, and oscillators. Prerequisites: EE 3312 and EE 3331 concurrently (offered spring semester only).

Prerequisite: EE 3312 and EE 3331 concurrently

EE4220 - Probabilistic Signals and Systems

Credits: 3

Fundamentals of probability and statistics for engineers; reliability in engineering systems; random processes, statistical estimation, auto/ cross correlation and power spectral density functions and linear filtering of random signals.

Prerequisite: MATH 2210 and EE 3220. EE 3220 may be taken concurrently.

EE4390 - Microprocessors

Credits: 3

Design of microcomputers, controllers and instruments which use microprocessors. Semiconductor memory design, CPU architecture, bus structure and timing, input-output interfaces and devices, assembly language programming, assemblers, compilers, editors and simulators. Emphasizes design techniques. Laboratory.

When Offered (Normally offered once a year)

Prerequisite: EE 2390.

EE4490 - Hardware Descriptive Language (HDL) Digital Design

Credits: 3

Hardware Description Language design of digital systems. Industrial CAD tools are used to produce a functional description of hardware that is both simulated and then synthesized into hardware. Methods to describe both combinational logic and synchronous devices are given. Devices such as CPLDs and FPGAs are targeted in this design process. Emphasizes design techniques.

Prerequisite: EE 2390.

EE4820 - Senior Design I

Credits: 2

Students choose a senior design project and complete the preliminary design. This stage of senior design includes investigation of alternative solutions that meet the project's requirements, cost analysis, and building the prototype circuit. Periodic oral and written project progress reports are required.

When Offered (Offered fall semester only)

Prerequisite: EE 2220, EE 2390, and EE 3312 or concurrent enrollment, plus 6 hours of 4000 level EE/BE classes, or concurrent enrollment. COM2 must be passed with a C or better grade.

EE4830 - Senior Design II

Credits: 2

Students complete the senior design project partially designed in EE 4820. The final result of the senior design project includes assembly of a PC board hardware that meets the project's requirements and final report describing the design procedure, designed hardware and software, and results of final testing. Periodic oral and written project progress reports are required.

When Offered (Offered spring semester only)

Prerequisite: EE 4820 and selected courses in the area of the design project.

EE4870 - Computer Network Hardware

Credits: 4

Basic LANs, Ethernet LAN architecture, and classical Ethernet CSMA/CD MAC protocol. 10Mbps, 100 Mbps, and gigabit Ethernet architecture. Introduction to switching, queuing theory, architecture, design and performance analysis of switch fabrics. Architecture, design, algorithms and performance analysis of Routing. Cellular Networks. TCP/IP Protocol.

Prerequisite: EE 2390.

OR

COSC4760 - Computer Networks

Credits: 3

Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

Computer Science

COSC1010 - Introduction to Computer Science I

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

COSC1030 - Computer Science I

Credits: 4

Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

Prerequisite: COSC 1010.

COSC2030 - Computer Science II

Credits: 4

Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

Prerequisite: COSC 1030.

COSC2150 - Computer Organization

Credits: 3

Introduces students to the organization and architecture of computer systems, beginning with the standard von Neumann model and then moving forward to more recent architectural concepts.

Cross Listed EE 2150

Prerequisite: COSC 1030.

CPEN Electives

12 credits from the following list.

A maximum of two CPEN elective courses can be from the computer science department.

EE 4075 is not allowed as a CPEN Elective.

EE4245 - Digital Signal Processing

Credits: 3

Sampling and oversampling A/D's; FIR and IIR digital filter design, effects of quantization, practical realizations; applications of the discrete and fast Fourier Transform (DFT and FFT); correlation, periodograms, window effects, multi-rate techniques, multi-dimensional signal processing, and other topics in digital signal processing.

Prerequisite: EE 3220.

EE4340 - Semiconductor Materials and Devices

Credits: 3

Physical properties of semiconductor materials and devices, including crystal lattices and energy bands, carrier generation, transport, and recombination. PN, metal-semiconductor, and heterojunction operation. Field Effect Transistors, including Metal Oxide Semiconductor (MOSFET), Junction (JFET), MEtal Semiconductor (MESFET), and High Electron Mobility (HEMT) transistors. Bipolar Junction (BJT) and Heterojunction (HBT) Transistor operation.

Cross Listed PHYS 4340.

Prerequisite: PHYS 1220 or PHYS 1320.

EE4345 - Hardware Digital Signal Processing

Credits: 3

Hands-on introduction to real-time digital signal processing. Programming DSP algorithms using C on modern DSP hardware. Students gain deep understanding of fundamental DSP concepts by implementing selected applications including sampling, reconstruction, FIR and IIR filters, signal generation, and FFT. Hardware concepts include EDMA,

memory maps, interrupts, buffered serial ports.

Prerequisite: EE 3220.

EE4360 - VLSI Design

Credits: 3

Introduction to CMOS processing, MOS fundamentals including devices models; switching and timing; analog subcircuits and amplifiers; inverters and CMOS gates; concept of standard cells and fully custom design; use of SPICE, digital simulation, and chip layout and verification software.

Prerequisite: EE 2390, and EE 3331 or concurrent enrollment.

EE4440 - Communication Theory

Credits: 3

Amplitude and angle modulation and demodulation; digital baseband and carrier communication systems; performance of communication systems; and current topics in communication systems.

When Offered (Normally offered once a year)

Prerequisite: EE 3220 and EE 4220.

EE4590 - Real Time Embedded Systems

Credits: 3

Emphasizes a systems approach to real time embedded systems. Students are expected to apply methodical system design practices to designing and implementing a microprocessor-based real time embedded system. Students employ a robot-based educational platform to learn the intricacies of real time embedded systems, distributed processing, and fuzzy logic. Students learn processor input/output interfacing techniques. Students use state-of-the-art design and troubleshooting tools.

Dual Listed EE 5590.

Prerequisite: EE 4390.

EE4870 - Computer Network Hardware

Credits: 4

Basic LANs, Ethernet LAN architecture, and classical Ethernet CSMA/CD MAC protocol. 10Mbps, 100 Mbps, and gigabit Ethernet architecture. Introduction to switching, queuing theory, architecture, design and performance analysis of switch fabrics. Architecture, design, algorithms and performance analysis of Routing. Cellular Networks. TCP/IP Protocol.

Prerequisite: EE 2390.

EE4990 - Advanced Microprocessors

Credits: 3

Architecture and instruction set of Intel family of microprocessors; Intel System Development Kit and its monitor program; Microsoft Macro Assembler (MASM) and Visual C/C++ Express; modular programming; High level language compilers of object code; Interface design issues of peripheral devices to Personal Computer.

Prerequisite: EE 4390.

EE5390 - Computer Architecture

Credits: 3

Examines the various methodologies used in the design of high-performance computer systems. Topics include CISC and RISC architecture and instruction sets, pipelining, instruction-level parallelism, memory hierarchy (including cache) design and computer networks.

Prerequisite: EE 4390.

EE5410 - Neural and Fuzzy Systems

Credits: 3

Theory of feed forward and recurrent neural networks. Supervised and unsupervised learning theories. Fuzzy logic and systems. Associative memories. Matching and self-organizing networks. Application of neural and fuzzy systems.

Prerequisite: EE 3220.

EE5430 - 3-D Computer Vision

Credits: 3

This course is intended to provide a mathematical framework for describing three dimensional imaging and computer vision. Topics include 3-D coordinate transforms, image formation, camera calibration, reconstruction from two views, SIFT detection, hidden Markov models, Markov random fields, and "bag-of-words" visual description.

Prerequisite: EE 4220, MATH 2250.

EE5460 - Probabilistic Robotics

Credits: 3

Fundamental theory underlying the robust sensing and planning used in self-driving machines is developed. Topics covered are: Bayesian, Kalman, and Particle Filters; simple ground robot motion models; mobile robot localization; simultaneous localization and mapping; partially observable Markov decision processes.

Prerequisite: EE 4220.

EE5620 - Digital Image Processing

Credits: 3

Methodologies and algorithms for processing digital images by computer. Includes gray level transformations,

histogram analysis, spatial domain filtering, 2D Fourier transforms, frequency domain filtering, image restoration, and reconstruction of computer tomography (CT) medical images.

When Offered (Offered fall of even-numbered years)

Former Course Number [4530]

Prerequisite: EE 3220 or equivalent background.

EE5630 - Advanced Image Processing

Credits: 3

Introduces students to advanced aspects of image processing (IP), using specific applications to demonstrate these principles. Concepts such as medical imaging; color IP; wavelets and multiresolution IP; image compression; morphological IP; image segmentation, representation, description and understanding are covered.

Prerequisite: EE 5620.

EE5650 - Object and Pattern Recognition

Credits: 3

Introduces students to both fundamental and advanced aspects of object and pattern recognition, using specific applications to demonstrate these principles. Concepts such as Bayesian, maximum-likelihood, principal components, nonparametric, linear discriminant, multi-layer neural networks, etc., and the trade-offs and appropriateness of classification techniques are covered.

Prerequisite: EE 4220.

EE5670 - Digital Image Formation

Credits: 3

This course introduces fundamental aspects of practical digital image formation, using specific applications to demonstrate these principles. Standard CCD and CMOS cameras (both still and video) and standard camera lens systems are assumed.

Prerequisite: EE 3220 or equivalent background.

COSC3020 - Algorithms and Data Structures

Credits: 4

Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies, and an introduction to parallelism and the analysis of parallel programs.

Prerequisite: COSC 2300 , COSC 2030

COSC3765 - Computer Security

Credits: 3

Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

Prerequisite: COSC 2030

COSC4210 - Web Application Development

Credits: 3

The course covers the basics of developing data driven web applications. Topics include using responsive design for user interfaces, architectural patterns and frameworks, object-relational mapping, language-integrated queries, authentication, authorization, unit testing, using source control for code management, publishing web applications and cloud computing.

Prerequisite: COSC 3011.

COSC4220 - Design and Implementation in Emerging Environments

Credits: 3

Students who have completed the analysis and design course extend their knowledge by implementing an information system in an emerging systems environment. Teams use project management principles to implement the system.

Prerequisite: COSC 4210.

COSC4450 - Computer Graphics

Credits: 3

Introduction to computer graphics, an increasingly important area of computer science. Computer graphics, together with multimedia and the World Wide Web, offers exciting new possibilities for the design of human-computer interfaces. Presents the principles, techniques, and tools that enable these advances.

Dual Listed COSC 5450.

Prerequisite: COSC 3020 and MATH 2250.

COSC4550 - Introduction to Artificial Intelligence

Credits: 3

A computational study of intelligent behavior. Focus is on intelligent agents, which could be software agents or robots. Covers how agents sense, reason, and act within their environment. Includes problem-solving, search, knowledge representation, planning, game playing, learning, and neural and belief networks.

Dual Listed COSC 5550.

Prerequisite: COSC 3020.

COSC4555 - Machine Learning

Credits: 3

Goal is to program machines to learn and improve their performance on their own, based on experience and/or data. First half covers machine learning techniques; second half covers applications.

Dual Listed COSC 5555.

Prerequisite: COSC 3020.

COSC4560 - Modern Robots and Softbots

Credits: 3

Popular agent designs: logic-based, biomimetic, and physicomimetic. Foundational issues on internal robot and softbot knowledge representations. Planning and control, followed by issues of how agents can reason and plan under real-world conditions of environmental uncertainty. Concludes with discussions about papers on modern robot and softbot applications, as well as invited lectures by graduate students and faculty.

Dual Listed COSC 5560.

COSC4730 - Mobile Application Programming

Credits: 3

Introduces development of applications on mobile devices. Presents the principles, techniques, and tools for developing mobile applications. Differences between desktop applications and mobile applications are discussed.

Dual Listed COSC 5730.

Prerequisite: six hours of upper division COSC coursework.

COSC4735 - Advanced Mobile Programming

Credits: 3

Continues the development of applications on mobile devices. The focus is device sensors, such as camera, AR, VR, Bluetooth, embedded and connected devices.

Dual Listed COSC 5735.

Prerequisite: COSC 4730.

COSC4740 - Operating Systems Design

Credits: 4

Studies systems programming languages and computer systems design. Includes interacting processes, main storage management, procedure and data sharing, scheduling, deadlock problems and file management in batch processing and multi-programming systems. Operating system implementation.

Prerequisite: COSC 2150 and COSC 3020.

COSC4760 - Computer Networks

Credits: 3

Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

BE5410 - Rehabilitation Engineering

Credits: 3

This course covers the engineering principles of multiple rehabilitation technologies, including rehabilitation robots, exoskeletons, wearable sensors, electrical stimulators, implants, and virtual reality. Students will learn the technical and biological principles of all of these technologies via lectures, projects, and literature reviews.

Prerequisite: graduate standing.

MATH4500 - Matrix Theory

Credits: 3

Continuation from MATH 2250 of the study of matrices, an important tool in statistics, physics, engineering and applied mathematics in general. Concentrates on the structure of matrices, including diagonalizability; symmetric, hermitian and unitary matrices; and canonical forms such as Jordan form.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 2250.

EE/BE Elective

3 credits of an approved EE/BE Elective.

General Elective

1 credit of a general elective (1000 level or higher)

Total Credits: 128 Hours

¹ PHYS 1210: no credit can be earned in PHYS 1210 if taken after ES 2120. PHYS 1220 should be taken before or concurrently with ES 2210.

² One course from the ECE Math/Science Elective List. ABET requires a minimum of 30 hours of Math/Science courses.

³Or any ES, EE, BE course (>2000 level), or COSC 3011 or COSC 3750

⁴To meet the COM3 requirement with EE 4820 and EE 4830 the COM2 course must be taken before EE 4820. Also, EE 4820 and EE 4830 must be taken in sequence. COM 2 grade of C or better is required.

⁵ Network Congestion Control can also be taken to fulfill the CPEN network course requirement.

Online courses taken outside of the Wyoming system will not be considered for preapproved transfer.

Students must have a minimum cumulative GPA 2.000 in all Engineering courses for graduation.

A grade of C or better is required for all prerequisite courses.

Students must also achieve a grade of C or better in all required mathematics courses.

Students must complete a minimum of 42 hours of upper division coursework, 30 of which must from the University of Wyoming.

EE 1101 is the recommended FYS course for EE and CPEN majors

Computer Engineering Program Educational Objectives

Graduates of the University of Wyoming Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

Computer Engineering - Student Learning Outcomes

All Computer Engineering graduates shall demonstrate:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Computer Science, B.S.

Computer scientists learn the theory and practice of computing, which is essential in the modern world. A B.S. in Computer Science prepares you for a career designing, implementing, and securing software-intensive systems.

Computer Science General Information

Computer Science majors must satisfactorily meet the requirements of the University Studies Program (USP), and they must complete a minimum of 120 credit hours, at least 42 of which must be upper division hours.

Note that some of the courses required for the Computer Science core or the concentrations will meet some of the USP requirements. Students do not have to take additional courses to meet those requirements.

All courses in Computer Science, Mathematics, and Statistics must be completed with a grade of C or better.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Mathematics and Science Courses

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

COSC2300 - Discrete Structures

Credits: 3

Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed MATH 2300.

Prerequisite: COSC 1030, MATH 2200 or MATH 2350.

OR

MATH2300 - Discrete Structures

Credits: 3

Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed COSC 2300.

Prerequisite: grade of C or better in COSC 1030 and in either MATH 2200 or MATH 2350.

- Approved Science course - 4 credits
 - Approved Science course - 4 credits
 - Approved Math/Science Elective - 4 credits
- ABET requires a minimum of 30 Math/Science credit hours.

Math elective means any MATH course above Calculus II or STAT courses 3000 and up.

Exceptions: cannot count MATH 2350, MATH 2355, MATH 4000, STAT 4220 [Inactive] or any variable credit courses toward this requirement.

Courses meeting the Science requirement must have a lab component and be for science or engineering majors. See Department web pages for a current list of approved courses.

Computer Science Courses

Introductory Programming Course - Choose one of:

COSC1010 - Introduction to Computer Science I

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

OR

COSC1015 - Introduction to Programming for Data Science

Credits: 3

Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q

A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

Prerequisite: grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

COSC1030 - Computer Science I

Credits: 4

Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

Prerequisite: COSC 1010.

COSC2030 - Computer Science II

Credits: 4

Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

Prerequisite: COSC 1030.

COSC2150 - Computer Organization

Credits: 3

Introduces students to the organization and architecture of computer systems, beginning with the standard von Neumann model and then moving forward to more recent architectural concepts.

Cross Listed EE 2150

Prerequisite: COSC 1030.

COSC3011 - Introduction to Software Design

Credits: 3

Introduces the principles and practice of software design, including UML and design patterns. Uses case studies to illustrate design in action.

Prerequisite: COSC 2030.

COSC3015 - Functional Programming

Credits: 3

Studies programming in the context of a functional language that emphasizes algorithmic strategies over syntactic detail.

Prerequisite: COSC 2030 and COSC 2300.

COSC3020 - Algorithms and Data Structures

Credits: 4

Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies, and an introduction to parallelism and the analysis of parallel programs.

Prerequisite: COSC 2300 , COSC 2030

COSC3050 - Ethics for the Computer Professional

Credits: 1

The proliferation of computers has had a profound effect on our society. Computing professionals must be aware of the social and ethical implications of our activities. Examines the codes of behavior related to computer science through readings, discussions and case studies.

Prerequisite: junior standing and COSC major.

COSC3765 - Computer Security

Credits: 3

Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

Prerequisite: COSC 2030

Theory Course - Choose one of:

COSC4100 - Foundations of Computing

Credits: 3

Introduces several theoretical areas which are the basis of computer science. Languages and automata, computability, complexity, analysis of algorithms, logic, and the specification and correctness of programs.

Prerequisite: COSC 3020.

OR

COSC4200 - Computability and Complexity

Credits: 3

Introduction to theoretical study of computability and efficient computation. Finite-state and pushdown automata; turing machines and the Church-Turing thesis; undecidability, computational complexity; NP-completeness.

Prerequisite: COSC 3020.

Operating Systems Course - Choose one of:

COSC4740 - Operating Systems Design

Credits: 4

Studies systems programming languages and computer systems design. Includes interacting processes, main storage management, procedure and data sharing, scheduling, deadlock problems and file management in batch processing and multi-programming systems. Operating system implementation.

Prerequisite: COSC 2150 and COSC 3020.

OR

COSC3750 - Linux Programming for System Applications

Credits: 3

Provide the necessary tools and skills to begin programming effectively on UNIX and Linux operating systems. Topics will include, shells and basic shell scripting, Linux utilities, editors, compilation, I/O and the file system, sockets and interprocess communication, and time permitting, threads.

Prerequisite: COSC 2150 and COSC 2030.

Programming Language Course - Choose one of:

COSC4780 - Principles of Programming Languages

Credits: 3

Introduces the methods of analysis and design of programming languages. Covers syntax, typing schemes and the semantics (denotational and operational) in the context of functional and imperative programming languages. Students build interpreters to explore the implications of the different constructs on computational behavior.

Prerequisite: COSC 3015.

OR

COSC4785 - Compiler Construction

Credits: 3

Theory and implementation of interpreters and compilers. Compiler topics include lexical analysis, top-down and bottom-up parsing methods, symbol tables, and code generation from a block-structured language with recursion and parameters. Project uses compiler writing tools.

Dual Listed COSC 5785.

Prerequisite: COSC 2150 and COSC 3020.

Systems Course - Choose one of:

COSC4760 - Computer Networks

Credits: 3

Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

OR

COSC4820 - Database Systems

Credits: 3

Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with

the problems and issues of database management.

Prerequisite: COSC 2030.

COSC4950 - Senior Design I

Credits: 1

Students choose a senior design project, investigate alternate solutions and submit a preliminary project design. Periodic oral and written project progress reports are required.

Prerequisite: COSC 3011 and COSC 3020.

COSC4955 - Senior Design II

Credits: 2

Students complete the senior design project partially designed in COSC 4950. Successful communication of the details of the solution through written documents and oral presentations will be required.

Prerequisite: COSC 4950.

Electives

- 9 credits of COSC Electives (3000-level or above, not used to complete any other requirement)
- General Electives to reach 120 credits.

A total of 3 credits of COSC 3970 can be used.

Approved EE courses may also be taken as COSC electives. See Department web pages for a current list of approved courses.

General electives include any course at or above the 1000 level, not used to complete any other requirement.

Electives should be selected to meet the 42 hour requirement for Upper Division credits.

Computer Science Program Educational Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.

Growing: Graduates show continued learning and leading in computing-related professions.

Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Computer Science - Student Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

Computer Science, Big Data Concentration, B.S.

The B.S. in Computer Science with a Concentration on Big Data combines a rigorous education in Computer Science with statistics, preparing you for a career in computer science, data analysis, or machine learning.

Computer Science General Information

Computer Science majors must satisfactorily meet the requirements of the University Studies Program (USP), and they must complete a minimum of 120 credit hours, at least 42 of which must be upper division hours.

Note that some of the courses required for the Computer Science core or the concentrations will meet some of the USP requirements. Students do not have to take additional courses to meet those requirements.

All courses in Computer Science, Mathematics, and Statistics must be completed with a grade of C or better.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Mathematics and Science Courses:

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

COSC2300 - Discrete Structures

Credits: 3

Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed MATH 2300.

COSC4785 - Compiler Construction

Credits: 3

Theory and implementation of interpreters and compilers. Compiler topics include lexical analysis, top-down and bottom-up parsing methods, symbol tables, and code generation from a block-structured language with recursion and parameters. Project uses compiler writing tools.

Dual Listed COSC 5785.

Prerequisite: COSC 2150 and COSC 3020.

Systems Course - Choose one of:

COSC4760 - Computer Networks

Credits: 3

Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

OR

COSC4820 - Database Systems

Credits: 3

Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with the problems and issues of database management.

Prerequisite: COSC 2030.

COSC4950 - Senior Design I

Credits: 1

Students choose a senior design project, investigate alternate solutions and submit a preliminary project design. Periodic oral and written project progress reports are required.

Prerequisite: COSC 3011 and COSC 3020.

COSC4955 - Senior Design II

Credits: 2

Students complete the senior design project partially designed in COSC 4950. Successful communication of the details of the solution through written documents and oral presentations will be required.

Prerequisite: COSC 4950.

Concentration Requirements

Big data is high volume, high velocity, and/or high variety assets that require new forms of processing to enable enhanced decision making, insight discovery and process optimization. The Big Data Concentration directs the students

toward data handling (AI, visualization, data mining, and machine learning) courses and data analysis (statistics) courses.

Students should take the following courses to fulfill the Big Data Concentration.

In addition, students who wish to pursue a Big Data concentration are required to complete a minor in Statistics.

COSC4450 - Computer Graphics

Credits: 3

Introduction to computer graphics, an increasingly important area of computer science. Computer graphics, together with multimedia and the World Wide Web, offers exciting new possibilities for the design of human-computer interfaces. Presents the principles, techniques, and tools that enable these advances.

Dual Listed COSC 5450.

Prerequisite: COSC 3020 and MATH 2250.

COSC4550 - Introduction to Artificial Intelligence

Credits: 3

A computational study of intelligent behavior. Focus is on intelligent agents, which could be software agents or robots. Covers how agents sense, reason, and act within their environment. Includes problem-solving, search, knowledge representation, planning, game playing, learning, and neural and belief networks.

Dual Listed COSC 5550.

Prerequisite: COSC 3020.

COSC4555 - Machine Learning

Credits: 3

Goal is to program machines to learn and improve their performance on their own, based on experience and/or data. First half covers machine learning techniques; second half covers applications.

Dual Listed COSC 5555.

Prerequisite: COSC 3020.

COSC4570 - Data Mining

Credits: 3

Examine methods that have emerged from artificial intelligence and statistics and proven to be of value in recognizing patterns and making predictions with large data sets. Will include both theory and practice while developing several projects.

Prerequisite: COSC 4550.

- Courses for Statistics Minor
 - General Electives to reach 120 credits.
- A total of 3 credits of COSC 3970 can be used.

General Electives include any course at or above the 1000 level, not used to complete any other requirement. Electives should be selected to meet the 42 hour requirement for Upper Division credits.

Computer Science Program Educational Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.

Growing: Graduates show continued learning and leading in computing-related professions.

Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Computer Science - Student Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

Computer Science, Computers and Business Concentration, B.S.

The B.S. in Computer Science with a Concentration on Computers and Business combines a rigorous education in Computer Science with an understanding of business processes, preparing you for a career applying computer science in the business world.

Computer Science General Information

Computer Science majors must satisfactorily meet the requirements of the University Studies Program (USP), and they must complete a minimum of 120 credit hours, at least 42 of which must be upper division hours.

Note that some of the courses required for the Computer Science core or the concentrations will meet some of the USP requirements. Students do not have to take additional courses to meet those requirements.

All courses in Computer Science, Mathematics, and Statistics must be completed with a grade of C or better.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Mathematics and Science Courses:

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2250 - Elementary Linear Algebra

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

COSC2300 - Discrete Structures

Credits: 3

Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed MATH 2300.

Prerequisite: COSC 1030, MATH 2200 or MATH 2350.

OR

MATH2300 - Discrete Structures

Credits: 3

Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed COSC 2300.

Prerequisite: grade of C or better in COSC 1030 and in either MATH 2200 or MATH 2350.

- Approved Science Course - 4 credits
- Approved Science Course - 4 credits
- Approved Math/Science Elective - 4 credits

ABET requires a minimum of 30 Math/Science credit hours.

Math elective means any MATH course above Calculus II or STAT courses 3000 and up.

Exceptions: cannot count MATH 2350, MATH 2355, MATH 4000, STAT 4220 or any variable credit courses toward this requirement.

Courses meeting the Science requirement must have a lab component and be for science or engineering majors. See Department web pages for a current list of approved courses.

Computer Science Courses

Introductory Programming Course - Choose one of:

COSC1010 - Introduction to Computer Science I

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

OR

COSC1015 - Introduction to Programming for Data Science

Credits: 3

Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q

A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

Prerequisite: grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

COSC1030 - Computer Science I

Credits: 4

Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

Prerequisite: COSC 1010.

COSC2030 - Computer Science II

Credits: 4

Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

Prerequisite: COSC 1030.

COSC2150 - Computer Organization

Credits: 3

Introduces students to the organization and architecture of computer systems, beginning with the standard von

Neumann model and then moving forward to more recent architectural concepts.

Cross Listed EE 2150

Prerequisite: COSC 1030.

COSC3011 - Introduction to Software Design

Credits: 3

Introduces the principles and practice of software design, including UML and design patterns. Uses case studies to illustrate design in action.

Prerequisite: COSC 2030.

COSC3015 - Functional Programming

Credits: 3

Studies programming in the context of a functional language that emphasizes algorithmic strategies over syntactic detail.

Prerequisite: COSC 2030 and COSC 2300.

COSC3020 - Algorithms and Data Structures

Credits: 4

Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies, and an introduction to parallelism and the analysis of parallel programs.

Prerequisite: COSC 2300 , COSC 2030

COSC3050 - Ethics for the Computer Professional

Credits: 1

The proliferation of computers has had a profound effect on our society. Computing professionals must be aware of the social and ethical implications of our activities. Examines the codes of behavior related to computer science through readings, discussions and case studies.

Prerequisite: junior standing and COSC major.

COSC3765 - Computer Security

Credits: 3

Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

Prerequisite: COSC 2030

Theory Course - Choose one of:

COSC4100 - Foundations of Computing

Credits: 3

Introduces several theoretical areas which are the basis of computer science. Languages and automata, computability, complexity, analysis of algorithms, logic, and the specification and correctness of programs.

Prerequisite: COSC 3020.

OR

COSC4200 - Computability and Complexity

Credits: 3

Introduction to theoretical study of computability and efficient computation. Finite-state and pushdown automata; turing machines and the Church-Turing thesis; undecidability, computational complexity; NP-completeness.

Prerequisite: COSC 3020.

Operating Systems - Choose one of:

COSC4740 - Operating Systems Design

Credits: 4

Studies systems programming languages and computer systems design. Includes interacting processes, main storage management, procedure and data sharing, scheduling, deadlock problems and file management in batch processing and multi-programming systems. Operating system implementation.

Prerequisite: COSC 2150 and COSC 3020.

OR

COSC3750 - Linux Programming for System Applications

Credits: 3

Provide the necessary tools and skills to begin programming effectively on UNIX and Linux operating systems. Topics will include, shells and basic shell scripting, Linux utilities, editors, compilation, I/O and the file system, sockets and interprocess communication, and time permitting, threads.

Prerequisite: COSC 2150 and COSC 2030.

Programming Language Course - Choose one of:

COSC4780 - Principles of Programming Languages

Credits: 3

Introduces the methods of analysis and design of programming languages. Covers syntax, typing schemes and the semantics (denotational and operational) in the context of functional and imperative programming languages. Students build interpreters to explore the implications of the different constructs on computational behavior.

Prerequisite: COSC 3015.

OR

COSC4785 - Compiler Construction

Credits: 3

Theory and implementation of interpreters and compilers. Compiler topics include lexical analysis, top-down and bottom-up parsing methods, symbol tables, and code generation from a block-structured language with recursion and parameters. Project uses compiler writing tools.

Dual Listed COSC 5785.

Prerequisite: COSC 2150 and COSC 3020.

Systems Course

COSC4820 - Database Systems

Credits: 3

Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with the problems and issues of database management.

Prerequisite: COSC 2030.

COSC4950 - Senior Design I

Credits: 1

Students choose a senior design project, investigate alternate solutions and submit a preliminary project design. Periodic oral and written project progress reports are required.

Prerequisite: COSC 3011 and COSC 3020.

COSC4955 - Senior Design II

Credits: 2

Students complete the senior design project partially designed in COSC 4950. Successful communication of the details of the solution through written documents and oral presentations will be required.

Prerequisite: COSC 4950.

Concentration Requirements

An understanding of business fundamentals is essential for students planning a career in applied computer science in a business environment.

Students should take COSC 4820 to satisfy the System Course requirement, and should take the following courses as part of the Computer and Business Concentration.

In addition, students who wish to pursue a Computers and Business concentration are required to complete one of the minors offered by the College of Business.

COSC4210 - Web Application Development

Credits: 3

The course covers the basics of developing data driven web applications. Topics include using responsive design for user interfaces, architectural patterns and frameworks, object-relational mapping, language-integrated queries, authentication, authorization, unit testing, using source control for code management, publishing web applications and cloud computing.

Prerequisite: COSC 3011.

COSC4220 - Design and Implementation in Emerging Environments

Credits: 3

Students who have completed the analysis and design course extend their knowledge by implementing an information system in an emerging systems environment. Teams use project management principles to implement the system.

Prerequisite: COSC 4210.

- 3 credits of COSC Electives (3000-level or above, not used to complete any other requirement)
 - Courses for Business Minor
 - General Electives to reach 120 credits
- A total of 3 credits of COSC 3970 can be used.
Approved EE courses may also be taken as COSC electives. See Department web pages for a current list of approved courses.
General electives include any course at or above the 1000 level, not used to complete any other requirement.
Electives should be selected to meet the 42 hour requirement for Upper Division credits.

Computer Science Program Educational Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.

Growing: Graduates show continued learning and leading in computing-related professions.

Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Computer Science - Student Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

Electrical Engineering, B.S.

A B.S. in Electrical Engineering provides the knowledge needed for careers in power systems, control systems, electronics, signal processing, tele-communications, computer programming & design.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Math & Science

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

- 3 credits of an approved Math/Science Elective ²

Engineering Science

ES1060 - Introduction to Engineering Problem Solving

Credits: 3

An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2210 - Electric Circuit Analysis

Credits: 3

Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

Electrical Engineering

EE2220 - Circuits and Signals

Credits: 4

Review of sinusoidal steady state analysis and ac power. Mutual inductance and linear transformers. Laplace transform. Laplace transform in circuit analysis. Frequency dependent circuits, including RLC circuit resonance. Magnitude and phase response, complex poles and zeros. Bode plots. Filter circuit fundamentals. Fourier series. Laboratory.

When Offered (Offered spring semester only)

Former Course Number [3320]

Prerequisite: ES 2210, or ES 2215 and ES 2216.

EE2390 - Digital Systems Design

Credits: 4

Binary logic, digital logic gates, reduction of Boolean expressions, combinational logic design. MSI and LSI combinational logic ICs, flip-flops, synchronous and asynchronous sequential systems design, MSI and LSI sequential system ICs, and algorithmic state machines.

Prerequisite: COSC 1010 or COSC 1015 or COSC 1030 or ES 1060, and MATH 2205.

EE3150 - Electromagnetics

Credits: 3

A thorough study of static electric and magnetic fields using vector methods with an introduction to dynamic fields.

Prerequisite: ES 2210, or ES 2215 and ES 2216, MATH 2210, and PHYS 1220 or concurrent enrollment.

EE3220 - Signals And Systems

Credits: 3

Discrete and continuous-time signals and systems. Topics include linear time-invariant systems; convolution; difference equations; FIR and IIR systems; sampling, aliasing, reconstruction, and quantization. Frequency domain concepts include discrete and continuous Fourier transforms, Z-transforms, system frequency response, Laplace transform properties, and applications of digital filters and DFT analysis.

When Offered (Offered spring semester only)

Prerequisite: EE 2220.

EE3311 - Electronics I

Credits: 3

Physical characteristics and models of semiconductor devices with application to electronic circuit design. Diode circuits, single transistor amplifiers, biasing, and load lines. Prerequisites: (PHYS 1220 or PHYS 1320 or EE 3150), and EE 2220 or concurrent enrollment. (Offered fall semester only)

Prerequisite: PHYS 1220 or PHYS 1320 or EE 3150, and EE 2220 or concurrent enrollment

EE3312 - Electronics I Laboratory

Credits: 1

Hands on interactive laboratory investigation of the physical characteristics of semiconductor devices and applications in electronic circuit design. Study of diode and transistor characteristics as well as diode circuits and single transistor amplifier circuit design, construction and testing. Prerequisites: EE3311 must be taken either concurrently or as a prerequisite. (Offered fall semester only)

When Offered (Offered fall semester only)

Prerequisite: EE3311 must be taken either concurrently or as a prerequisite.

EE3331 - Electronics II

Credits: 3

Current sources, differential and multistage amplifiers; circuits with ideal and non-ideal operational amplifiers; low and high band frequency response, feedback, stability, gain and phase margin of amplifiers; output stages, class A and push-pull; monolithic operational amplifier; oscillators; transistors as switches and introduction to digital electronic circuits. Laboratory. Prerequisites: (EE 3310 or EE 3311) and EE 2220. (Offered spring semester only)

When Offered (Offered spring semester only)

Prerequisite: (EE 3312 or EE 3311) and EE 2220

EE3332 - Electronics II Laboratory

Credits: 1

Hands on interactive laboratory investigation of transistor switching circuits, differential amplifiers, current sources, amplifier frequency response, feedback, output stages, and oscillators. Prerequisites: EE 3312 and EE 3331 concurrently (offered spring semester only).

Prerequisite: EE 3312 and EE 3331 concurrently

EE3510 - Electric Machines and Power Systems

Credits: 4

Polyphase AC circuits; single phase and polyphase transformers; AC synchronous and induction machines; introduction to power systems and per unit system; transmission line parameters; steady-state operations of transmission lines; power flows; transient stability; synchrophasor system and its applications.

Prerequisite: ES 2210, or ES 2215 and ES 2216.

EE4075 - C++ with Numerical Methods for Engineers

Credits: 4

Introduction to the fundamentals of practical engineering programming, using specific applications of numerical methods to demonstrate these principles. The use of an object oriented approach using C++ in an efficient manner is emphasized. Other solution approaches, including C and Matlab will be discussed as appropriate.

A&S College Core 2015 Credit will not be allowed in both EE 4075 and ES 3070.

Prerequisite: MATH 2205 and (COSC 1010, COSC 1015, or ES 1060) and (MATH 2250 or MATH 2310) or consent of instructor.

EE4220 - Probabilistic Signals and Systems

Credits: 3

Fundamentals of probability and statistics for engineers; reliability in engineering systems; random processes, statistical estimation, auto/ cross correlation and power spectral density functions and linear filtering of random signals.

Prerequisite: MATH 2210 and EE 3220. EE 3220 may be taken concurrently.

EE4390 - Microprocessors

Credits: 3

Design of microcomputers, controllers and instruments which use microprocessors. Semiconductor memory design, CPU architecture, bus structure and timing, input-output interfaces and devices, assembly language programming, assemblers, compilers, editors and simulators. Emphasizes design techniques. Laboratory.

When Offered (Normally offered once a year)

Prerequisite: EE 2390.

EE4440 - Communication Theory

Credits: 3

Amplitude and angle modulation and demodulation; digital baseband and carrier communication systems; performance of communication systems; and current topics in communication systems.

When Offered (Normally offered once a year)

Prerequisite: EE 3220 and EE 4220.

EE4620 - Automatic Control Systems

Credits: 3

Control theory and design methods focused on application. Feedback. Performance limits. Routh-Hurwitz, root locus, Nyquist. Nonminimum-phase systems. State feedback. Proportional-Integral-Derivative control. Lead/lag. High-order compensation. Discrete controllers.

Prerequisite: EE 2220 or ME 3020.

EE4820 - Senior Design I

Credits: 2

Students choose a senior design project and complete the preliminary design. This stage of senior design includes investigation of alternative solutions that meet the project's requirements, cost analysis, and building the prototype circuit. Periodic oral and written project progress reports are required.

When Offered (Offered fall semester only)

Prerequisite: EE 2220, EE 2390, and EE 3312 or concurrent enrollment, plus 6 hours of 4000 level EE/BE classes, or concurrent enrollment. COM2 must be passed with a C or better grade.

EE4830 - Senior Design II

Credits: 2

Students complete the senior design project partially designed in EE 4820. The final result of the senior design project includes assembly of a PC board hardware that meets the project's requirements and final report describing the design procedure, designed hardware and software, and results of final testing. Periodic oral and written project progress reports are required.

When Offered (Offered spring semester only)

Prerequisite: EE 4820 and selected courses in the area of the design project.

Advisor Approved Electives

- 15 credits of EE or BE Electives (4000-Level or Above)
- 4 credits Approved Technical Electives.⁵

Total Credits: 128 Hours

¹PHYS 1210: no credit can be earned in PHYS 1210 if taken after ES 2120. PHYS 1220 should be taken before or concurrently with ES 2210.

²One course from the ECE Math/Science Elective List. ABET requires a minimum of 30 hours of Math/ Science Electives.

³Or any ES, EE, BE course (>2000 level), or COSC 3011 or COSC 3750

⁴To meet the COM3 requirement with EE 4820 and EE 4830, the COM2 course must be taken before EE 4820. Also, EE 4820 and EE 4830 must be taken in sequence. COM 2 grade of C or better is required.

⁵Any course from the approved ECE technical elective list. Credit can be earned for professional internships or CO-OPs. Internships for Credit must go through EE 4800

Online courses taken outside of the Wyoming system will not be considered for preapproved Transfer.

Students must have a minimum cumulative GPA 2.000 in all Engineering courses for graduation.

A grade of C or better is required for all prerequisite courses.

Students must also achieve a grade of C or better in all required mathematics courses.

Students must complete a minimum of 42 hours of upper division coursework, 30 of which must from the University of Wyoming.

EE 1101 is the recommended FYS course for Electrical Engineering majors.

Electrical Engineering Program Educational Objectives

Graduates of the University of Wyoming Electrical and Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

Electrical Engineering - Student Learning Outcomes

All Electrical (Computer) Engineering graduates shall demonstrate:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Electrical Engineering, F.M. Long Bioengineering, B.S.

The Bioengineering B.S. is a degree in Electrical Engineering in which the electives are carefully taken to understand and design medical equipment. With a few more courses, it can serve as a pre-med or pre-dental program.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Math & Science

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM2300 - Introductory Organic Chemistry

Credits: 4

Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.

When Offered (Normally offered spring semester)

Prerequisite: CHEM 1020, CHEM 1050, CHEM 1000 or equivalent.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

MOLB3610 - Principles of Biochemistry

Credits: 4

One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

Engineering Science

ES1060 - Introduction to Engineering Problem Solving

Credits: 3

An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2210 - Electric Circuit Analysis

Credits: 3

Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

Electrical Engineering

EE2220 - Circuits and Signals

Credits: 4

Review of sinusoidal steady state analysis and ac power. Mutual inductance and linear transformers. Laplace transform. Laplace transform in circuit analysis. Frequency dependent circuits, including RLC circuit resonance. Magnitude and phase response, complex poles and zeros. Bode plots. Filter circuit fundamentals. Fourier series. Laboratory.

When Offered (Offered spring semester only)

Former Course Number [3320]

Prerequisite: ES 2210, or ES 2215 and ES 2216.

EE2390 - Digital Systems Design

Credits: 4

Binary logic, digital logic gates, reduction of Boolean expressions, combinational logic design. MSI and LSI combinational logic ICs, flip-flops, synchronous and asynchronous sequential systems design, MSI and LSI sequential system ICs, and algorithmic state machines.

Prerequisite: COSC 1010 or COSC 1015 or COSC 1030 or ES 1060, and MATH 2205.

EE3150 - Electromagnetics

Credits: 3

A thorough study of static electric and magnetic fields using vector methods with an introduction to dynamic fields.

Prerequisite: ES 2210, or ES 2215 and ES 2216, MATH 2210, and PHYS 1220 or concurrent enrollment.

EE3220 - Signals And Systems

Credits: 3

Discrete and continuous-time signals and systems. Topics include linear time-invariant systems; convolution; difference equations; FIR and IIR systems; sampling, aliasing, reconstruction, and quantization. Frequency domain concepts include discrete and continuous Fourier transforms, Z-transforms, system frequency response, Laplace transform properties, and applications of digital filters and DFT analysis.

When Offered (Offered spring semester only)

Prerequisite: EE 2220.

EE3311 - Electronics I

Credits: 3

Physical characteristics and models of semiconductor devices with application to electronic circuit design. Diode circuits, single transistor amplifiers, biasing, and load lines. Prerequisites: (PHYS 1220 or PHYS 1320 or EE 3150), and EE 2220 or concurrent enrollment.(Offered fall semester only)

Prerequisite: PHYS 1220 or PHYS 1320 or EE 3150, and EE 2220 or concurrent enrollment

EE3312 - Electronics I Laboratory

Credits: 1

Hands on interactive laboratory investigation of the physical characteristics of semiconductor devices and applications in electronic circuit design. Study of diode and transistor characteristics as well as diode circuits and single transistor amplifier circuit design, construction and testing. Prerequisites: EE3311 must be taken either concurrently or as a prerequisite. (Offered fall semester only)

When Offered (Offered fall semester only)

Prerequisite: EE3311 must be taken either concurrently or as a prerequisite.

EE3331 - Electronics II

Credits: 3

Current sources, differential and multistage amplifiers; circuits with ideal and non-ideal operational amplifiers; low and high band frequency response, feedback, stability, gain and phase margin of amplifiers; output stages, class A and push-pull; monolithic operational amplifier; oscillators; transistors as switches and introduction to digital electronic circuits. Laboratory. Prerequisites: (EE 3310 or EE 3311) and EE 2220. (Offered spring semester only)

When Offered (Offered spring semester only)

Prerequisite: (EE 3312 or EE 3311) and EE 2220

EE3332 - Electronics II Laboratory

Credits: 1

Hands on interactive laboratory investigation of transistor switching circuits, differential amplifiers, current sources, amplifier frequency response, feedback, output stages, and oscillators. Prerequisites: EE 3312 and EE 3331 concurrently (offered spring semester only).

Prerequisite: EE 3312 and EE 3331 concurrently

EE3510 - Electric Machines and Power Systems

Credits: 4

Polyphase AC circuits; single phase and polyphase transformers; AC synchronous and induction machines;

introduction to power systems and per unit system; transmission line parameters; steady-state operations of transmission lines; power flows; transient stability; synchrophasor system and its applications.

Prerequisite: ES 2210, or ES 2215 and ES 2216.

EE4075 - C++ with Numerical Methods for Engineers

Credits: 4

Introduction to the fundamentals of practical engineering programming, using specific applications of numerical methods to demonstrate these principles. The use of an object oriented approach using C++ in an efficient manner is emphasized. Other solution approaches, including C and Matlab will be discussed as appropriate.

A&S College Core 2015 Credit will not be allowed in both EE 4075 and ES 3070.

Prerequisite: MATH 2205 and (COSC 1010, COSC 1015, or ES 1060) and (MATH 2250 or MATH 2310) or consent of instructor.

EE4220 - Probabilistic Signals and Systems

Credits: 3

Fundamentals of probability and statistics for engineers; reliability in engineering systems; random processes, statistical estimation, auto/ cross correlation and power spectral density functions and linear filtering of random signals.

Prerequisite: MATH 2210 and EE 3220. EE 3220 may be taken concurrently.

EE4390 - Microprocessors

Credits: 3

Design of microcomputers, controllers and instruments which use microprocessors. Semiconductor memory design, CPU architecture, bus structure and timing, input-output interfaces and devices, assembly language programming, assemblers, compilers, editors and simulators. Emphasizes design techniques. Laboratory.

When Offered (Normally offered once a year)

Prerequisite: EE 2390.

EE4820 - Senior Design I

Credits: 2

Students choose a senior design project and complete the preliminary design. This stage of senior design includes investigation of alternative solutions that meet the project's requirements, cost analysis, and building the prototype circuit. Periodic oral and written project progress reports are required.

When Offered (Offered fall semester only)

Prerequisite: EE 2220, EE 2390, and EE 3312 or concurrent enrollment, plus 6 hours of 4000 level EE/BE classes, or concurrent enrollment. COM2 must be passed with a C or better grade.

EE4830 - Senior Design II

Credits: 2

Students complete the senior design project partially designed in EE 4820. The final result of the senior design project includes assembly of a PC board hardware that meets the project's requirements and final report describing the design procedure, designed hardware and software, and results of final testing. Periodic oral and written project progress reports are required.

When Offered (Offered spring semester only)

Prerequisite: EE 4820 and selected courses in the area of the design project.

Bio-Engineering and Electives

BE4810 - Bioinstrumentation

Credits: 3

Electronic systems used to monitor physiological systems and function (cardiovascular, pulmonary, nervous); transducer systems, amplifiers and recording systems used in research and clinical applications. Laboratory.

Dual Listed BE 5810.

Prerequisite: EE 2210 or similar electric circuit course.

BE4820 - Biomedical Signal Processing

Credits: 3

Extraction of signals from noise and data analysis. Emphasis on system modeling of physiological functions from experimental data.

Dual Listed BE 5810.

Prerequisite: EE 3220, basic course, or equivalent.

OR

EE4620 - Automatic Control Systems

Credits: 3

Control theory and design methods focused on application. Feedback. Performance limits. Routh-Hurwitz, root locus, Nyquist. Nonminimum-phase systems. State feedback. Proportional-Integral-Derivative control. Lead/lag. High-order compensation. Discrete controllers.

Prerequisite: EE 2220 or ME 3020.

- 3 credits of EE or BE Electives (4000-level or above)
- 3 credits Approved Technical Electives.⁴

Total Credits: 128 Hours

¹ PHYS 1210: no credit can be earned in PHYS 1210 if taken after ES 2120. PHYS 1220 should be taken before or concurrently with ES 2210.

² Or any ES, EE, BE course (>2000 level), or COSC 3011 or COSC 3750

³ To meet the COM3 requirement with EE 4820 and EE 4830 the COM2 course must be taken before EE 4820. Also, EE 4820 and EE 4830 must be taken in sequence. COM 2 grade of C or better is required.

⁴ Any course from the approved ECE technical elective list. Credit can be earned for professional internships or CO-OPs. Internships for Credit must go through EE 4800.

Online courses taken outside of the Wyoming system will not be considered for preapproved Transfer.

Students must have a minimum cumulative GPA 2.000 in all Engineering courses for graduation.

A grade of C or better is required for all prerequisite courses.

Students must also achieve a grade of C or better in all mathematics courses.

Students must complete a minimum of 42 hours of upper division coursework, 30 of which must from the University of Wyoming.

EE 1101 is the recommended FYS course for Electrical Engineering majors.

Electrical Engineering -F.M. Long Bioengineering Program Educational Objectives

Graduates of the University of Wyoming Electrical and Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

Electrical Engineering, F.M. Long Bioengineering Student Learning Outcomes

All Electrical (Computer) Engineering graduates shall demonstrate:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Minor

Computer Engineering Minor

Minor Requirements:

You must have a minimum of 12 credits of courses that are not counted toward your major.

COSC2150 - Computer Organization

Credits: 3

Introduces students to the organization and architecture of computer systems, beginning with the standard von Neumann model and then moving forward to more recent architectural concepts.

Cross Listed EE 2150

Prerequisite: COSC 1030.

EE4490 - Hardware Descriptive Language (HDL) Digital Design

Credits: 3

Hardware Description Language design of digital systems. Industrial CAD tools are used to produce a functional description of hardware that is both simulated and then synthesized into hardware. Methods to describe both combinational logic and synchronous devices are given. Devices such as CPLDs and FPGAs are targeted in this design process. Emphasizes design techniques.

Prerequisite: EE 2390.

- 17 credits of electrical engineering (EE) or CPEN Elective courses.

COSC Courses

The following COSC courses can also be used:

COSC1010 - Introduction to Computer Science I

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

OR

COSC1015 - Introduction to Programming for Data Science

Credits: 3

Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q

A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

Prerequisite: grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

COSC1030 - Computer Science I

Credits: 4

Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

Prerequisite: COSC 1010.

COSC2030 - Computer Science II

Credits: 4

Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

Prerequisite: COSC 1030.

COSC4760 - Computer Networks

Credits: 3

Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

Computer Science Graduate Minor

A graduate minor in Computer Science gives you the skills and knowledge to understand how software-intensive systems are designed and implemented. With these skills, you can use computers to extend the state of the art in your major discipline.

Requirements:

12 credits are required, and must be completed with a grade of B or better.

COSC5110 - Analysis Of Algorithms

Credits: 3

Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting,

hashing, and string search. Offered fall semester of even numbered years.

Prerequisite: COSC 3020 or equivalent and consent of the department.

- 9 additional credits of 5000-level computer science courses

Computer Science Minor

A minor in Computer Science gives you the skills and knowledge to understand how software-intensive systems are designed and implemented. With these skills, you can use computers to tackle problems specific to your major field.

Requirements

18 credits of Computer Science courses are required and must be completed with a grade of C or better.

COSC 1101 and COSC 1200 cannot be used for the Computer Science Minor.

Electrical Engineering Minor

Electrical Engineering Minor Requirements:

You must have a minimum of 12 credits of EE/BE courses that are not counted toward your major.

ES2210 - Electric Circuit Analysis

Credits: 3

Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

- plus a total of 20 credits of electrical engineering (EE) or bioengineering (BE) courses

Graduate

Computer Science, M.S.

Computer scientists learn the theory and practice of computing, which is essential in the modern world. An M.S. in Computer Science extends your technical expertise in computer science to design, implement, and secure software-intensive systems.

Program Specific Degree Requirements

Plan A (Thesis)

A total of at least 31 credit hours must be completed. The student must complete a minimum of 27 hours of courses, including the CORE and BREADTH REQUIREMENTS. At least 19 credit hours must be COSC courses. All COSC courses must be at the 5000 level. Courses from other departments, including no more than 6 hours of 4000-level courses, may be included with the approval of the supervising M.S. committee.

Plan A students are required to formally defend their theses before their supervising committees. All defenses must be open and announced at least two weeks in advance. The thesis must be distributed to the committee at least two weeks in advance of the defense. If the student does not pass the defense, the committee will instruct the student as to what needs to be accomplished (and by when) to pass.

Plan B (Non-Thesis)

The student must complete a minimum of 33 hours of courses, including the CORE and BREADTH REQUIREMENTS. At least 22 credit hours must be COSC courses. All COSC courses must be at the 5000 level. Courses from other departments, including no more than 6 hours of 4000-level courses, may be included with the approval of the supervising M.S. committee.

UW Coursework Requirements for M.S. Transfer Students:

M.S. transfer students must complete at least 21 credit hours at the University of Wyoming. At least 12 credits of the CORE & BREADTH REQUIREMENTS must be taken at the University of Wyoming. No more than one class per category of breadth may be counted towards this 12-credit total. The algorithms course credits may be counted toward this 12-credit total.

Summary of Credit Requirements

Plan A

COSC5110 - Analysis Of Algorithms

Credits: 3

Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting, hashing, and string search. Offered fall semester of even numbered years.

Prerequisite: COSC 3020 or equivalent and consent of the department.

- Breadth: theory course, AI course, two systems courses Credits: 12
- Additional courses Credits: 12

COSC5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

OR

COSC5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Total Credits: 31 Hours

Plan B

COSC5110 - Analysis Of Algorithms

Credits: 3

Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting, hashing, and string search. Offered fall semester of even numbered years.

Prerequisite: COSC 3020 or equivalent and consent of the department.

- Breadth: theory course, AI course, two systems courses Credits: 12
- Additional courses Credits: 18

Total Credits: 33 Hours

Computer Science, Ph.D.

Computer scientists learn the theory and practice of computing, which is essential in the modern world. A Ph.D. in Computer Science prepares you to advance the state of the art in computing principles and practice.

Program Information

Each doctoral student will have a supervising committee of at least five members appointed. The primary functions of this committee are to suggest coursework, to administer the qualifying, preliminary, and final examinations, and to

oversee and evaluate the research of the candidate. The committee will consist of at least three members of the computer science department faculty and at least one non-COSC faculty member. The standards that this committee should consider when recommending programs of study are outlined in the following sections.

Coursework Requirements:

A total of at least 72 credit hours must be completed. A minimum of 42 of these credit hours must be taken as coursework, including the CORE and BREADTH REQUIREMENTS. A minimum of 12 hours of COSC5980 - Dissertation Research must be taken. All COSC courses must be at the 5000 level. Courses from other departments, including no more than 12 hours of 4000-level courses, may be included with the approval of the supervising Ph.D. committee. All course requirements MUST be completed or enrolled with satisfactory midterm progress prior to scheduling the Ph.D. Final Examination.

UW Coursework Requirements for Ph.D. Transfer Students:

Ph.D. transfer students must complete at least 24 credit hours at the University of Wyoming. At least 12 credits of the CORE and BREADTH REQUIREMENTS must be taken at the University of Wyoming. No more than one class per category of breadth may be counted towards this 12-credit total. The algorithms course credits may be counted toward this 12-credit total.

Program:

A program of original and innovative research will be undertaken by the candidate. At the end of this program, the candidate will document this research in a dissertation. The dissertation will present the details and results of the candidate's research in addition to providing a critical comparison with relevant previously-published works.

Each successful doctoral student must pass three examinations. These include a qualifying examination, a preliminary examination, and a final (dissertation) defense.

Qualifying Exam Criteria:

The student must complete the CORE REQUIREMENT and pass a closed oral examination on a research area administered by the supervising committee. Although closed to the public, faculty members of the Department of Computer Science are welcome to attend. The exam must be announced to the faculty at least two weeks in advance. The research area will be chosen in consultation with the committee. The student must demonstrate background knowledge of the state of the art in the area and preliminary work. This will involve, but is not limited to, presenting material and answering questions covering the relevant area knowledge. The format of the exam will be defined by the committee prior to the exam to allow for sufficient preparation. This examination is intended to motivate the candidate to review relevant literature extensively prior to pursuing the original and innovative portions of the research. Qualifying exam criteria must be completed within the first two years of enrollment in the Ph.D program. If the student does not pass the qualifying exam, the committee will instruct the student as to what needs to be accomplished (and by when) to pass. The closed oral examination requirement may be waived for a student who has completed an M.S. degree in COSC at UW if their M.S. presentation was at a research level that demonstrated background knowledge of the state of the art in the area, at the discretion of the supervising Ph.D. committee.

Preliminary Exam Criteria:

Prior to scheduling the Preliminary Examination, the student must be making satisfactory progress towards completion of their course requirements, including the BREADTH REQUIREMENTS. A Preliminary Examination will consist of

a presentation and defense of the already completed portion of the dissertation research and the research that is proposed to complete the dissertation. The Preliminary Examination must be open and announced at least two weeks in advance. The preliminary examination must be completed within two years of enrollment in the Ph.D program (within three years of enrollment for students who do not have an M.S. degree). This examination is intended to motivate the candidate to make significant progress on work towards their Ph.D. dissertation and propose milestones for completion. If the nature of the proposed continued research and methodology is deemed to be sufficiently original and innovative by the supervising committee, then the committee will approve the research direction after having administered this examination. If the student does not pass the preliminary exam, the committee will instruct the student as to what needs to be accomplished (and by when) to pass.

Option for M.S. degree en route to Ph.D.:

After completing the Qualifying Exam and Preliminary Exam, a Ph.D. student may additionally earn an M.S. degree after completing the remaining M.S. course requirements, including the BREADTH REQUIREMENTS. COSC 5980 may be substituted for COSC 5960 in the M.S. requirements at the discretion of the supervising committee. The M.S. degree will be granted only after completion of the preliminary exam. For an M.S. degree to be granted prior to completion of the preliminary exam, the student should enroll in the M.S. degree program and complete the remaining M.S. requirements.

Final Exam Criteria:

Prior to scheduling the Ph.D. Final Examination (often referred to as a "defense"), all course requirements, including the BREADTH REQUIREMENTS, MUST be completed or enrolled with satisfactory midterm progress. The Final Examination (dissertation defense) will consist of an oral presentation by the candidate of his/her research and the results that were derived. At this examination, the candidate is expected to defend the research as being original and contributory to the discipline of computer science. The Final Examination must be open and announced at least two weeks in advance. The dissertation must be distributed to the supervising committee at least two weeks in advance of the Final Examination. If the student does not pass the final exam, the committee will instruct the student as to what needs to be accomplished (and by when) to pass.

Time to degree for part-time students:

Exceptions to the completion deadlines for the Qualifying Exam and Preliminary Exam may be made for part-time students at the discretion of the supervising committee.

Computer Science Core Requirements

COSC5110 - Analysis Of Algorithms must be completed with a grade of B or better. A grade of B- is not sufficient. Students are strongly encouraged to take COSC 5110 the first time it is offered after enrollment.

Computer Science Breadth Requirements

Students must earn a grade of B or better in one class from the Theory category, one class from the Artificial Intelligence category, and two classes from the Systems category. A grade of B- is not sufficient. Thus there must be 12 credits taken to satisfy the breadth requirement. A list of courses in each category is available from the Department. Although some courses may be listed under multiple categories, a course may only count once towards the breadth requirement.

Program Specific Degree Requirements

Summary of Credit Requirements

COSC5110 - Analysis Of Algorithms

Credits: 3

Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting, hashing, and string search. Offered fall semester of even numbered years.

Prerequisite: COSC 3020 or equivalent and consent of the department.

- Breadth: theory course, AI course, two systems courses Credits:12
- Additional courses Credits: 27

COSC5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

OR

COSC5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

- Other credits (may include courses or COSC 5960/COSC 5980) Credits: 18

Total Credits: 72 Hours

Electrical Engineering, M.S.

Plan A (Thesis)

This is a minimum 30 credit hour program, 26 hours coursework and 4 hours of thesis

- Minimum 16 Course Hours in Electrical and Computer Engineering Course Work
- Minimum 3 Course Hours in Formal Course Work outside the Electrical and Computer Engineering Department approved by the student's committee
- 7 Additional Formal Course Hours in or out of the Electrical and Computer Engineering Department
- 4 credits of MS thesis research
- No more than 12 credit hours can be at the 4000 level
- No more than 3 credit hours of independent study

Of the above credit hours in formal coursework, no more than 12 credit hours can be 4000 level

The candidate must meet the minimum requirements for the Master of Science degree and also complete and defend a master's thesis.

Plan B (with Paper)

This is a 30 hour program:

- Minimum 18 Course Hrs in Electrical and Computer Engineering Course Work
- Minimum 3 Course Hrs in Formal Course Work outside the Electrical and Computer Engineering Department
- 9 Additional Formal Course Hrs in or out of the Electrical and Computer Engineering Department
- No more than 12 credit hours can be at the 4000 level
- No more than 3 credit hours of independent study

Plan B (Coursework Only)

This is a 30 hour program:

- Minimum 18 Course Hrs in Electrical and Computer Engineering Course Work
- Minimum 3 Course Hrs in Formal Course Work outside the Electrical and Computer Engineering Department
- 9 Additional Formal Course Hrs in or out of the Electrical and Computer Engineering Department
- No more than 12 credit hours can be at the 4000 level
- No more than 3 credit hours of independent study

Of the above credit hours in formal coursework, no more than 12 can be 4000 level.

Electrical Engineering, Ph.D.

Degree Requirements

Ph.D. Degree Requirements:

Ph.D. Credit Allocation (all at 4000 level minimum)

- 72 hours (minimum) of acceptable graduate coursework
- 42 hours (minimum) from ECE and closely related formal course work (EE5980 - Dissertation Research not counting toward this minimum)

Of those 42 hours, no more than 12 hours can be at the 4000 level

Courses required by the department bachelor of science degree may not be applied for graduate credit

- 6 hours (maximum) of EE4800 - Problems in _____ can be counted for program of study credit
- 6 hours (maximum) of EE 5880 - Problems in ... can be counted for program of study credit
- 9 hours (maximum) of EE5600 - Statistical Signal Processing in: can be counted for program of study credit.

In addition to the minimum requirements of the university, doctoral students must pass a written and oral comprehensive examination, part of which is a written proposal explaining their planned dissertation research. The student after completing successfully the oral comprehensive examination and before defending the completed dissertation must present their research work at an ECE department seminar. The student must also present and defend a completed dissertation. Programs of study, including coursework and any research tools, are arranged by consultation between the students and their graduate committee.

Environmental Engineering, M.S.

A master of science in environmental engineering is available in the College of Engineering through a joint effort of the Department of Civil and Architectural Engineering and the Department of Chemical Engineering.

Core Courses (9 Hours)

All Environmental Engineering M.S. students must take the following Core courses (9 hrs):

- ENVE 5425 - Environmental Engineering Microbiology

ENVE5430 - Environmental Engineering Chemistry

Credits: 3

Focus includes inorganic, organic, physical, equilibrium, biochemistry, colloidal and nuclear chemistry with an emphasis on the problems/solutions encountered by environmental and civil engineers.

Prerequisite: CHEM 1020.

CE5435 - Environmental Transport Processes

Credits: 3

Designed for graduate students and engineering seniors interested in the principles of mass transport and their application to environmental systems. Deals with the hydrodynamics of mixing and transport, as well as the interaction of mixing and various reaction rate processes. Applications include water and wastewater treatment, groundwater pollution, and transport and mixing in rivers, lakes and reservoirs.

Cross Listed ENVE 5435 and CHE 5435.

Prerequisite: MATH 2310 and ES 2330.

Recommended Courses (3 Hours)

Students should also take at least one of the following Recommended courses (3 hrs):

ENVE5410 - Advanced Biological Wastewater Treatment

Credits: 3

Theory and practice of advanced biological treatment processes for municipal and industrial wastewaters, sludges, groundwater bioremediation and solid waste. Emphasis is on fundamental principles applied to the design and control of existing processes and the development of innovative systems.

Cross Listed CE 5410/CHE 5410.

Prerequisite: consent of instructor.

ENVE5450 - Advanced Physical Chemical Treatment

Credits: 3

A study of physical and chemical processes for treatment of water, and waste water.

Cross Listed CE 5450.

Prerequisite: CE 4400.

Approved Elective Coursework

Plan A (Thesis) students complete another 14 hours of Approved Elective coursework, at least 4 hours of ENVE5960 - Thesis Research, and write and defend their thesis. Plan B (Project) students complete another 18 hours of Approved Elective coursework and write and present their project.

Total Required Credit Hours: 30 (Minimum)

Certificate

Cybersecurity Certificate

Cybersecurity is the practice of ensuring the confidentiality, integrity, and availability of information within interconnected systems. The certificate in Cybersecurity prepares you for a career securing software-intensive systems.

Requirements

COSC2030 - Computer Science II

Credits: 4

Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

Prerequisite: COSC 1030.

COSC4010 - Special Topics in Computer Science

Credits: 1-3

Individual or small group pursuit of interdisciplinary problems in the use of computers or study of advanced topics.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: COSC 3020 concurrently and consent of instructor.

COSC4760 - Computer Networks

Credits: 3

Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

COSC3765 - Computer Security

Credits: 3

Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

Prerequisite: COSC 2030

COSC4820 - Database Systems

Credits: 3

Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with the problems and issues of database management.

Prerequisite: COSC 2030.

- STAT 2010 Credits: 4

OR

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT4220 - Basic Engineering Statistics

Credits: 3

Introduces probability models, properties of distributions, statistical inference and development of statistical models for physical and engineering sciences. Credit cannot be earned in more than one of the following courses: STAT 2010, STAT 2050, STAT 2070, 4220 and 5000.

Former Course Number [4020]

Prerequisite: MATH 2205, MATH 2355 or equivalent.

Minimum Required: 20 Credits

Note: COSC 4760 can also be replaced by the ECE version ECE 4870 or a second COSC4010 - Special Topics in Computer Science.

QuickStart Program

Electrical and Computer Engineering Quick Start, B.S./M.S.

The combined B.S./M.S. program in electrical and computer engineering enables especially well-qualified students to be admitted to the M.S. program during the junior year of their B.S. program, and to work thereafter towards both the B.S. and M.S. degrees. These students would earn the B.S. in either electrical engineering or computer engineering and the M.S. degree in electrical engineering following the current curricula.

This program allows for early planning of the M.S. portion of the student's education, taking graduate courses as part of the B.S. degree, more flexibility in the order in which courses are taken, and more efficient use of what would otherwise be a final semester with a light credit hour load.

Degree Requirements

Up to 6 credit hours from UW, at the 5000-level or above, may be counted toward both the B.S. and M.S. degree programs.

For further information please visit our Web site at
<http://www.uwyo.edu/electrical/graduate/prospective/ms/quickstart.html>.

Department of Mathematics and Statistics

Mathematics

JASON WILLIFORD, B.A. University of Pennsylvania 1998; Ph.D. University of Delaware 2004; Associate Professor Mathematics 2014, 2009.

Associate Professors:

MICHELLE T. CHAMBERLIN, B.S. Colorado State University 1997; M.S. 1999; Ph.D. Purdue University 2002; Associate Professor of Mathematics 2012, 2007.

FREDERICO da CUNHA FURTADO, B.S. Federal University of Minas Gerais 1979; M.S. Federal University of Rio de Janeiro 1984; Ph.D. Courant Institute 1989; Associate Professor of Mathematics 2002, 1997.

TYRRELL McALLISTER, B.S. University of California, Davis 2001; Ph.D. 2006; Associate Professor of Mathematics 2015, 2009.

DAN STANESCU, B.Eng. Polytechnic Institute, Romania 1986; M.Eng. McGill University, 1994; Ph.D. Concordia University 1999; Associate Professor of Mathematics 2008, 2003.

MAN-CHUNG YEUNG, B.S. Jinan University, China 1986; M.Ph. University of Hong Kong 1990; Ph.D. University of California-Los Angeles 1997; Associate Professor of Mathematics 2005, 2001.

Assistant Professor:

PING ZHONG, B.S. Huanzhong University 2005; M.S. Peking University 2008; Ph.D. Indiana University 2014; Assistant Professor of Mathematics 2018.

Senior Lecturers:

DAVID ANTON, B.S. North Dakota State University 2001; M.S. University of Wyoming 2007; Senior Lecturer in Mathematics 2017, 2005.

WILLIAM WEBER, B.S. Colorado State University 1979; B.S. University of Wyoming 1988; M.S. 1992; Senior Lecturer in Mathematics 2012, 2001.

Associate Lecturer:

NATHAN CLEMENTS, B.S. Brigham Young University-Idaho 2007; M.S. Idaho State University 2009; D.A. 2012; Associate Lecturer in Mathematics 2019, 2012.

Assistant Lecturer:

CHRISTINA G. KNOX, B.S. California State Polytechnic University, Pomona 2012; M.S. 2014; Ph.D. University of California, Riverside, 2019; Assistant Lecturer of Mathematics 2019.

JORGE FLORES, B.S. Chadron State College 2015; M.S. University of Wyoming 2018; Assistant Lecturer of Mathematics 2020.

Adjunct Professors:

Saman Aryana, Hakima Bessaih, Li Deng Douglas, George Elliot, Benedetta Ferrario, Maria Garrido-Atienda, John Hitchcock, Robert Kansky, David Meyer, Bjorn Schmalfuss, Gerald Schuster, Dongwoo Sheen, Marie-Agnés Tellier

Professors Emeriti:

Charles Angevine, Leonard Asimow, Robert Buschman, Benito M. Chen-Carpentier, George C. Gastl, John H. George, Sylvia A. Hobart, Syed Husain, Peter Polyakov, A. Duane Porter, Ben G. Roth, John Rowland, Chanyoung Lee Shader, Raymond Smithson, John Spitler, Myron B. Allen III, Farhad Jarari.

"For the things of this world cannot be made known without a knowledge of mathematics."--Roger Bacon

Virtually every student at UW will take one or more math courses to fulfill graduation requirements. The intent is to illustrate the esthetics inherent in mathematics, and to provide students with the quantitative skills needed for today's careers.

Mathematics majors receive a broad and deep view of the mathematical sciences. They develop their mathematical thinking and communications skills in algebra, analysis, and applied math. They learn a variety of technological tools necessary for jobs in education, business, government, and industry. In addition to our math classes, the department offers a variety of opportunities to enrich the undergraduate experience. Students can participate in weekly seminars, summer research projects, Putnam Team competitions, and the math club.

Mathematics Placement

All UW math courses have prerequisites which are detailed in the course listings below. These are to assure that each student has the best possible opportunity for success in the course. In accordance with this, *all students registering for a math course will have their records checked in order to determine whether the prerequisite is satisfied.*

A computerized prerequisite check is run prior to the start of every semester. *Students who preregistered for a math course but have not satisfied the prerequisites at the time of the check will be automatically dropped from the course.*

Prerequisites for courses numbered 2200 or lower (except MATH 1105 and MATH 2120), and MATH2350 - Business Calculus, may be satisfied in one of four ways:

1. Obtain a grade of C or better in a prerequisite course. Note that noncredit courses from out-of-state colleges are not accepted as prerequisites.
2. Pass the Mathematics Placement Exam (MPE) at the stated level within one year of the start of the course.
3. Obtain a sufficiently high score on one of the following standardized exams within three years of the start of the course: ACT math score or SAT quantitative score.
4. Obtain a sufficiently high score on one of the following standardized exams: AP Calculus, CLEP, or IB.

More information on mathematics placement may be obtained from 766-4221, or at www.uwyo.edu/mathstats/math-placement.

Duplication of Courses (MATH 1400, MATH 1405, MATH 1450)

To avoid loss of credit because of duplication of course content, please note the following: (a) students with credit for both MATH 1400 and MATH 1405 will not receive new credit by taking MATH 1450; (b) students with credit for one of MATH 1400 or MATH 1405 will receive only 2 additional credits by taking MATH 1450; (c) students with credit for MATH 1450 will receive only 1 additional credit by taking both MATH 1400 and MATH 1405. Note that the GPA calculation for these situations is unusual, and students should ask the Registrar's Office for details.

Note that MATH 1450 counts as one attempt at each of MATH 1400 and MATH 1405 for the purposes of repeating classes.

Graduate Study

The Mathematics Program offers programs leading to the degrees of master of arts, master of science, master of arts in teaching, master of science in teaching, and the doctor of philosophy.

The requirements for these degrees reflect our belief that mathematicians should have a broad foundation in the core areas of algebra, analysis, and applied mathematics as well as the experience of a more intensive investigation of a

specialized area. We provide this within a flexible structure that recognizes the individual interests and varied backgrounds of our students.

Program Specific Admission Requirements

To be competitive for admission, applicants must have strong backgrounds in mathematics. Generally, this means a bachelor's degree in mathematics or a closely related discipline. All applicants should have substantial coursework beyond the calculus sequence; courses in differential equations, linear algebra, and, in particular, courses in abstract algebra and analysis are highly recommended. A solid performance on the GRE Subject Test in Mathematics can demonstrate the applicant's mastery of these subjects. The GRE Subject Test in Mathematics is therefore recommended but is not required.

The GRE General Test is required, with a minimum Quantitative Reasoning score of 157 and Verbal score of 143. International applicants need a composite TOEFL score of 76 or an IELTS score of 6.5.

ETS only reports TOEFL scores taken within two years of the date of request.

Graduate Assistantships

The mathematics program employs approximately 22 graduate assistants each year. Assistantships include a full tuition and fee waiver, a monthly living stipend, and health insurance. Ph.D. students normally receive a higher stipend than master's students.

Teaching assistants teach or assist with the teaching of an undergraduate course each semester.

Students may also compete for research assistantships, provided that their interests align with an externally funded research project.

Summer support is not guaranteed but is usually available through teaching and research opportunities.

Renewal of funding and continuation in the mathematics graduate program is dependent upon the student's adequate progress towards graduation and satisfactory completion of assistantship duties.

Statistics

223 Ross Hall, (307) 766-4221

FAX: (307) 766-6838

Program Director: Ken Gerow

Professors:

KENNETH G. GEROW, B.S. University of Guelph, Canada 1981; M.Sc. 1984; Ph.D. Cornell University 1992; Professor of Statistics 2007, 1993.

TIMOTHY J. ROBINSON, B.S. James Madison University 1989; M.S. Virginia Polytechnic Institute and State University 1994; Ph.D. 1997; Professor of Statistics 2012

SHAUN S. WULFF, B.S. Montana State University 1991; M.S. 1994; Ph.D. Oregon State University 1999; Professor of Statistics 2019, 1999.

Assistant Professors:

ANNALISA PICCORELLI, B.A. Miami University of Ohio 2003; M.S. Case Western Reserve University 2007; Ph.D. 2010. Assistant Professor of Statistics 2015.

Assistant Lecturer:

MICHELE BIRD, B.A. University of Nevada, Las Vegas 1996; M.A. 2000; Assistant Lecturer of Statistics 2019.

JARED STUDYVIN, B.S. University of Wyoming 2009; Ph.D. University of Wyoming 2015; Assistant Lecturer 2021.

Adjunct Professors:

Robert Petit

Emeriti Faculty:

Stephen L. Bieber, Burke Grandjean, Richard Anderson-Sprecher.

The curriculum in statistics includes a firm foundation in mathematics and computer science, in addition to course work in statistical theory and methodology. Statistics majors are also required to obtain a minor in an area of application. The nature of statistical work is to design and analyze research projects through the application of the principles of mathematics, computer science, and statistics.

The student who wishes to make valid inferences from empirical data will find the field of statistics fascinating and rewarding. The study of statistics as a separate professional field is comparatively recent. The wide demand for graduates with special training in research and development techniques has fostered development of statistical curricula in colleges and universities. A pioneer in this field, the University of Wyoming is one of the few schools in the nation where a coordinated undergraduate training program in statistics is available.

We expect that students graduating with a statistics degree will be able to: 1) recognize the importance of variation and uncertainty in the world, 2) understand how statistics improves decisions when faced with uncertainty, 3) become proficient with a broad range of statistical tools, 4) develop critical thinking skills that enable application of statistics in new and unusual settings, and 5) communicate effectively. With these skills, graduates will be able to work effectively as statistical professionals and, if desired, successfully pursue further training at the master's and doctorate levels.

Graduates with statistical training are employed in a broad spectrum of areas which include the business world, the sciences (social, biological, physical and health), as well as engineering and education. For this reason, an area of application is required of each student.

The statistics program also offers graduate programs leading to a minor in statistics, and to a Master of Science (Plan A, Plan B), and Doctor of Philosophy in statistics.

Graduate Study

The Statistics Program offers graduate programs leading to a minor in statistics, and to a master of science in applied statistics (Plan B Option 1). The minor is designed to enhance the M.S. or Ph.D. program of any student enrolled in one of the graduate programs at the University of Wyoming. All of these programs emphasize the understanding and application of a broad variety of statistical methods on real projects. Students will be provided with numerous

opportunities to perform analyses and communicate findings. The M.S. program in statistics is grounded in statistical theory.

Program Specific Admission Requirements

The prerequisite for admission to graduate study is an undergraduate degree from an accredited institution, including work in mathematics through calculus III, Linear Algebra and at least one second-level class in statistical methods. Prospective students are encouraged to have had Math Analysis and upper level introduction to probability and mathematical statistics. A score of at least 150 on the verbal reasoning section and a score of at least 141 on the quantitative reasoning section is required for the Master's Degree and the TOEFL exam is required for international students. The minimum score for the TOEFL is 540 (76 Internet-based Test) or for IELTS minimum score is 6.5. Students who do not have prerequisites in mathematics and statistics may make up this deficiency at the beginning of their graduate program; however, such work does not count toward graduation requirements.

Major

Mathematics, B.A.

A comprehensive math degree with training in the fundamentals of proofs, analysis, algebra, computation and math modeling. Provides a strong background for teaching, work in industry and graduate programs in math.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Required Lower Division Core Courses

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2800 - Mathematics Major Seminar

Credits: 2

An introduction to modern mathematical reasoning and discourse, emphasizing the distinctive ways in which logic and language are used and the motivations behind them. Develops methods of precise definition and rigorous proof. Several topics are explored, illustrating mathematics as a living, dynamic subject with its own culture and conventions.

Upper Division

These courses, known as the transition courses, introduce students to the three main areas of mathematics research currently represented in the department.

At the upper division, all mathematics majors must take:

MATH3205 - Analysis I: Elementary Real Analysis

Credits: 3

An introduction to rigorous analysis in one real variable. Includes a rigorous reconsideration of the elements of calculus: the real number system, numerical sequences and series, limits, continuity, differentiability, and Riemann integrability for functions of one variable. Proof and mathematical writing are emphasized.

Prerequisite: Grade of C or better in MATH 2205 and MATH 2800.

MATH3500 - Algebra I: Introduction to Rings and Proofs

Credits: 3

Begins with common features of integers, rational numbers, and polynomials, leading to study of rings in general. Topics include divisibility, factorization, and modular arithmetic for integers and polynomials, and homomorphisms and ideals for rings. Proof techniques include direct proof, proof by contrapostive, mathematical induction, and proof by contradiction.

Prerequisite: MATH 2800 and grade C or better in MATH 2250 or concurrent registration in MATH 2250.

MATH3340 - Introduction to Scientific Computing

Credits: 3

Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed COSC 3340.

Prerequisite: grade of C or better in MATH 2210.

Depth Course

Every mathematics major must select one course that builds on the corresponding transition course. This sequence provides the student with an opportunity to study one of these areas in greater depth.

MATH4200 - Analysis 2: Advanced Analysis

Credits: 3

A second course in analysis. Includes metric space topology, sequences and series of functions, and analysis in \mathbb{R}^n .

When Offered (Offered fall semester)

USP 2015 Code U5C3

Prerequisite: grade of C or better in MATH 2210, MATH 2250 and MATH 3205.

OR

MATH4205 - Analysis 3: Undergraduate Topics in Analysis

Credits: 3

Special topics in analysis. Content varies. May be repeated for credit.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 4200.

OR

MATH4510 - Algebra II: Introduction to Group Theory

Credits: 3

An introduction to the fundamental properties of groups including: binary operations, groups, permutation groups, subgroups, homomorphisms, and quotient groups.

When Offered (Offered spring semester)

USP 2015 Code U5C3

Prerequisite: grade of C or better in MATH 3500.

OR

MATH4520 - Algebra III: Topics in Abstract Algebra

Credits: 3

Further examples and structure of rings and fields. Finite fields and number fields. Special topics.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 4510.

OR

MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations

Credits: 3

Further develops the skills needed for computational problem solving and numerical analysis. Topics addressed include: one-step and linear multistep methods for solving initial value problems; truncation errors, stability analysis, and convergence of the numerical methods; finite difference approximation for elliptic equations and initial boundary value problems; iterative methods for sparse linear systems. Students typically complete a final project in this course.

Cross Listed COSC 4340.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 2310 and MATH 3340.

OR

MATH4440 - Introduction to Partial Differential Equations I

Credits: 3

Survey of analytic methods for solving partial differential equations. Topics include: method of characteristics for solving first-order linear and quasi-linear equations; classification of second-order equations and canonical forms; background to separation of variables with applications; transform methods and Green functions; elliptic equations; heat and wave equations in one dimension.

Prerequisite: grade of C or better in MATH 2210 and MATH 2310.

Upper Division Math Courses

Finally, an additional 15 credits of upper division math courses (3000 and above) are required. It is recommended that these courses be selected to provide a broad view of mathematics.

Two of the math electives may be chosen from a list of approved courses that have significant math content, upon approval by the student's advisor. More details about such courses are available on the math department's web site, www.uwyo.edu/mathstats/.

Only grades of C or better will be accepted for the major.

Mathematics, B.S.

A comprehensive math degree with training in the fundamentals of proofs, analysis, algebra, computation and math modeling. Provides a strong background for teaching, work in industry and graduate programs in math.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Required Lower Division Core Courses

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2800 - Mathematics Major Seminar

Credits: 2

An introduction to modern mathematical reasoning and discourse, emphasizing the distinctive ways in which logic and language are used and the motivations behind them. Develops methods of precise definition and rigorous proof. Several topics are explored, illustrating mathematics as a living, dynamic subject with its own culture and conventions.

Upper Division

These courses, known as the transition courses, introduce students to the three main areas of mathematics research currently represented in the department.

At the upper division, all mathematics majors must take

MATH3205 - Analysis I: Elementary Real Analysis

Credits: 3

An introduction to rigorous analysis in one real variable. Includes a rigorous reconsideration of the elements of calculus: the real number system, numerical sequences and series, limits, continuity, differentiability, and Riemann integrability for functions of one variable. Proof and mathematical writing are emphasized.

Prerequisite: Grade of C or better in MATH 2205 and MATH 2800.

MATH3500 - Algebra I: Introduction to Rings and Proofs

Credits: 3

Begins with common features of integers, rational numbers, and polynomials, leading to study of rings in general. Topics include divisibility, factorization, and modular arithmetic for integers and polynomials, and homomorphisms and ideals for rings. Proof techniques include direct proof, proof by contrapostive, mathematical induction, and proof by contradiction.

Prerequisite: MATH 2800 and grade C or better in MATH 2250 or concurrent registration in MATH 2250.

MATH3340 - Introduction to Scientific Computing

Credits: 3

Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed COSC 3340.

Prerequisite: grade of C or better in MATH 2210.

Depth Course

Every mathematics major must select one course that builds on the corresponding transition course. This sequence provides the student with an opportunity to study one of these areas in greater depth.

MATH4200 - Analysis 2: Advanced Analysis

Credits: 3

A second course in analysis. Includes metric space topology, sequences and series of functions, and analysis in \mathbb{R}^n .

When Offered (Offered fall semester)

USP 2015 Code U5C3

Prerequisite: grade of C or better in MATH 2210, MATH 2250 and MATH 3205.

OR

MATH4205 - Analysis 3: Undergraduate Topics in Analysis

Credits: 3

Special topics in analysis. Content varies. May be repeated for credit.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 4200.

OR

MATH4510 - Algebra II: Introduction to Group Theory

Credits: 3

An introduction to the fundamental properties of groups including: binary operations, groups, permutation groups, subgroups, homomorphisms, and quotient groups.

When Offered (Offered spring semester)

USP 2015 Code U5C3

Prerequisite: grade of C or better in MATH 3500.

OR

MATH4520 - Algebra III: Topics in Abstract Algebra

Credits: 3

Further examples and structure of rings and fields. Finite fields and number fields. Special topics.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 4510.

OR

MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations

Credits: 3

Further develops the skills needed for computational problem solving and numerical analysis. Topics addressed include: one-step and linear multistep methods for solving initial value problems; truncation errors, stability analysis, and convergence of the numerical methods; finite difference approximation for elliptic equations and initial boundary value problems; iterative methods for sparse linear systems. Students typically complete a final project in this course.

Cross Listed COSC 4340.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 2310 and MATH 3340.

OR

MATH4440 - Introduction to Partial Differential Equations I

Credits: 3

Survey of analytic methods for solving partial differential equations. Topics include: method of characteristics for solving first-order linear and quasi-linear equations; classification of second-order equations and canonical forms; background to separation of variables with applications; transform methods and Green functions; elliptic equations; heat and wave equations in one dimension.

Prerequisite: grade of C or better in MATH 2210 and MATH 2310.

Upper Division Math Courses

Finally, an additional 15 credits of upper division math courses (3000 and above) are required. It is recommended that these courses be selected to provide a broad view of mathematics.

Two of the math electives may be chosen from a list of approved courses that have significant math content, upon approval by the student's advisor. More details about such courses are available on the math department's web site, www.uwyo.edu/mathstats/.

Only grades of C or better will be accepted for the major.

Statistics, B.A.

Statisticians (data scientists) provide analytic solutions to scientific problems. Statistics is the process of using data to answer a research question.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

30 hours of Statistics - Required Courses:

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

STAT4015 - Regression Analysis

Credits: 3

Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.

Former Course Number [4010, 4410]

Prerequisite: STAT 2050 or equivalent

STAT4025 - Design and Analysis of Experiments I

Credits: 3

Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete blocks as time permits.

Dual Listed STAT 5025.

Former Course Number [4020, 4310]

Prerequisite: STAT 2050 or equivalent

STAT4255 - Mathematical Theory of Probability

Credits: 3

Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence and conditional probability, mathematical expectation, multivariate distributions and properties of normal probability law.

Cross Listed MATH 4255.

Dual Listed STAT 5255.

When Offered (Offered fall semester)

Former Course Number [4250]

Prerequisite: grade of C or better in MATH 2210.

STAT4265 - Introduction to the Theory of Statistics

Credits: 3

Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

Cross Listed MATH 4265.

Dual Listed STAT 5265.

Former Course Number [4260, 4010]

Prerequisite: STAT 4255/MATH 4255.

STAT4870 - Senior Thesis

Credits: 3

Encompasses senior thesis research project under faculty member guidance and supervision. Faculty sponsorship must be obtained prior to registration.

Prerequisite: 18 hours in statistics and senior standing.

Optional from (12 Hours)

STAT4045 - Categorical Data Analysis

Credits: 3

Applied methods for analyzing associations when some or all variables are measured in discrete categories, not continuous scales. Topics include the binomial, multinomial, and Poisson probability models, parameter estimation and hypothesis-testing about proportions, measures of association and tests for contingency tables, logistic regression, and log-linear models.

Dual Listed STAT 5045.

Former Course Number [4040]

Prerequisite: STAT 2050 or equivalent

STAT4070 - Causal Models

Credits: 3

Applications of least-squares and iterative maximum-likelihood methods for drawing cause and effect conclusions from nonexperimental data. Topics include regression-based path analysis, reciprocal causation, confirmatory factor analysis, measurement error, and structural equation models with unmeasured (latent) variables.

Cross Listed SOC 4070.

Prerequisite: one of STAT 3050, STAT 4015, STAT 5050, 5060, STAT 5070, STAT 5080 or equivalent (regression methods).

STAT4115 - Time Series Analysis and Forecasting

Credits: 3

An applied introduction to time series and forecasting. Brief coverage of time series regression, decomposition methods, and smoothing will lead into a more detailed coverage of Box-Jenkins (ARIMA) modeling. Computer analyses using MINITAB and SAS will be an important part of the course.

Cross Listed ECON 5115

Dual Listed STAT 5115.

Former Course Number [4110]

Prerequisite: STAT 4015 /5015

STAT4155 - Fundamentals of Sampling

Credits: 3

Develops methodology of simple random sampling, stratified sampling, and multistage sampling. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

Dual Listed STAT 5155.

Former Course Number [4150]

Prerequisite: choice of STAT 2010, STAT 2050, STAT 2070 or equivalent.

STAT4300 - Applied Multivariate Analysis

Credits: 3

The application of multivariate statistical methods in behavioral science research. Topics include: multivariate regression, canonical correlation, discriminate analysis, factor analysis and multidimensional scaling. A wide range of computer assistance is incorporated.

Dual Listed STAT 5300.

Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4350 - Survey Construction and Analysis

Credits: 3

Examines the issues surrounding the construction (item wording, test theory, and numerical scales), assessment (sampling and psychometrics), and analysis (item analysis, qualitative data analysis, and factor analysis) of survey instruments. Roughly a third of the course is devoted to each of these areas.

Dual Listed STAT 5350.

Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4360 - Spatial Statistics

Credits: 3

Emphasis is on a generalized linear model approach to the modeling of continuous data, placing model building and the various kriging methods into a single conceptual framework.

Dual Listed STAT 5360.

Prerequisite: STAT 4015.

STAT4370 - Survival Analysis

Credits: 3

Introduction to the modeling of time to event data as it arises in epidemiological and medical research. Topics include parametric and non-parametric estimation for censored data without covariates, and for data with covariates, the proportional hazards regression model, additive hazards regression model and parametric regression models.

Dual Listed STAT 5370.

Prerequisite: STAT 4015 and STAT 4025.

STAT4460 - Statistical Software

Credits: 1

Max Credit 1

An introduction to the various statistical software programs currently in use at the University of Wyoming. Topics will include the structure of each language, I/O, programming the basic statistical applications, and a comparison of the other languages.

Former Course Number [5480]

Prerequisite: STAT 2050

STAT4880 - Problems in Statistics

Credits: 1-4

Encourages individual initiative on part of students who work on extending their knowledge through library research.

Former Course Number [4790]

Prerequisite: senior standing, 8 hours in statistics and consent of instructor.

Mathematics (15 Hours)

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient,

optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

Computer Science (6 Hours)

COSC1010 - Introduction to Computer Science I

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

COSC1030 - Computer Science I

Credits: 4

Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

Prerequisite: COSC 1010.

Electives

Chosen so that at least 42 hours are at the 3000/4000/5000 level

Total Hours: at Least 120

Only grades of C or better will be accepted for the major.

Statistics, B.S.

Statisticians (data scientists) provide analytic solutions to scientific problems. Statistics is the process of using data to answer a research question. The B.S. in Statistics is applied with some theory.

University Studies Program

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

30 Hours of Statistics - Required Courses:

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

STAT4015 - Regression Analysis

Credits: 3
Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.

Former Course Number [4010, 4410]

Prerequisite: STAT 2050 or equivalent

STAT4025 - Design and Analysis of Experiments I

Credits: 3

Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete blocks as time permits.

Dual Listed STAT 5025.

Former Course Number [4020, 4310]

Prerequisite: STAT 2050 or equivalent

STAT4255 - Mathematical Theory of Probability

Credits: 3

Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence and conditional probability, mathematical expectation, multivariate distributions and properties of normal probability law.

Cross Listed MATH 4255.

Dual Listed STAT 5255.

When Offered (Offered fall semester)

Former Course Number [4250]

Prerequisite: grade of C or better in MATH 2210.

STAT4265 - Introduction to the Theory of Statistics

Credits: 3

Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

Cross Listed MATH 4265.

Dual Listed STAT 5265.

Former Course Number [4260, 4010]

Prerequisite: STAT 4255/MATH 4255.

STAT4270 - Applied Bayesian Statistics

Credits: 3

This course introduces Bayesian data analysis in an applied context. We will learn about Bayesian statistics primarily in a regression model context, taken broadly. A conceptual understanding of popular Markov Chain Monte Carlo algorithms will be provided.

Dual Listed STAT 5270.

Prerequisite: STAT 4015 /5015

STAT4870 - Senior Thesis

Credits: 3

Encompasses senior thesis research project under faculty member guidance and supervision. Faculty sponsorship must be obtained prior to registration.

Prerequisite: 18 hours in statistics and senior standing.

Optional from (12 Hours)

STAT4045 - Categorical Data Analysis

Credits: 3

Applied methods for analyzing associations when some or all variables are measured in discrete categories, not continuous scales. Topics include the binomial, multinomial, and Poisson probability models, parameter estimation and hypothesis-testing about proportions, measures of association and tests for contingency tables, logistic regression, and log-linear models.

Dual Listed STAT 5045.

Former Course Number [4040]

Prerequisite: STAT 2050 or equivalent

STAT4070 - Causal Models

Credits: 3

Applications of least-squares and iterative maximum-likelihood methods for drawing cause and effect conclusions from nonexperimental data. Topics include regression-based path analysis, reciprocal causation, confirmatory factor analysis, measurement error, and structural equation models with unmeasured (latent) variables.

Cross Listed SOC 4070.

Prerequisite: one of STAT 3050, STAT 4015, STAT 5050, 5060, STAT 5070, STAT 5080 or equivalent (regression methods).

STAT4115 - Time Series Analysis and Forecasting

Credits: 3

An applied introduction to time series and forecasting. Brief coverage of time series regression, decomposition methods, and smoothing will lead into a more detailed coverage of Box-Jenkins (ARIMA) modeling. Computer analyses using MINITAB and SAS will be an important part of the course.

Cross Listed ECON 5115
Dual Listed STAT 5115.
Former Course Number [4110]

Prerequisite: STAT 4015 /5015

STAT4155 - Fundamentals of Sampling

Credits: 3

Develops methodology of simple random sampling, stratified sampling, and multistage sampling. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

Dual Listed STAT 5155.
Former Course Number [4150]

Prerequisite: choice of STAT 2010, STAT 2050, STAT 2070 or equivalent.

STAT4300 - Applied Multivariate Analysis

Credits: 3

The application of multivariate statistical methods in behavioral science research. Topics include: multivariate regression, canonical correlation, discriminant analysis, factor analysis and multidimensional scaling. A wide range of computer assistance is incorporated.

Dual Listed STAT 5300.
Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4350 - Survey Construction and Analysis

Credits: 3

Examines the issues surrounding the construction (item wording, test theory, and numerical scales), assessment (sampling and psychometrics), and analysis (item analysis, qualitative data analysis, and factor analysis) of survey instruments. Roughly a third of the course is devoted to each of these areas.

Dual Listed STAT 5350.
Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4360 - Spatial Statistics

Credits: 3

Emphasis is on a generalized linear model approach to the modeling of continuous data, placing model building and the various kriging methods into a single conceptual framework.

Dual Listed STAT 5360.
Prerequisite: STAT 4015.

STAT4370 - Survival Analysis

Credits: 3

Introduction to the modeling of time to event data as it arises in epidemiological and medical research. Topics include parametric and non-parametric estimation for censored data without covariates, and for data with covariates, the proportional hazards regression model, additive hazards regression model and parametric regression models.

Dual Listed STAT 5370.

Prerequisite: STAT 4015 and STAT 4025.

STAT4460 - Statistical Software

Credits: 1

Max Credit 1

An introduction to the various statistical software programs currently in use at the University of Wyoming. Topics will include the structure of each language, I/O, programming the basic statistical applications, and a comparison of the other languages.

Former Course Number [5480]

Prerequisite: STAT 2050

STAT4880 - Problems in Statistics

Credits: 1-4

Encourages individual initiative on part of students who work on extending their knowledge through library research.

Former Course Number [4790]

Prerequisite: senior standing, 8 hours in statistics and consent of instructor.

Mathematics (15 Hours)

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

Computer Science (6 Hours)

COSC1010 - Introduction to Computer Science I

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

COSC1030 - Computer Science I

Credits: 4

Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

Prerequisite: COSC 1010.

Electives

- Chosen so that at least 42 hours are at the 3000/4000/5000 level

Total Hours: at Least 120

Only grades of C or better will be accepted for the major.

Minor

Interdisciplinary Computational Science Graduate Minor

In recognition of the importance of modeling and simulation in an increasing number of applications, the Graduate Interdisciplinary Computational Science Minor is intended to help prepare science, math, and engineering students for leading roles in their professions.

Requirements

- The student must earn 15 credit hours in specified courses.
- Within the 15 credits, the student must earn at least 12 credits in graduate level classes (5000).
- Within the 15 credits, the student must earn 6 credits outside of her/his department.
- Only grades of B or better will be accepted for a course counting towards the minor.
- For all students, the 15 hours of coursework will be divided into 9 credit hours of core courses and 6 credit hours of electives.

Core Courses

MATH5310 - Computational Methods in Applied Sciences I

Credits: 3

First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

OR

COSC5310 - Computational Methods in Applied Sciences I

Credits: 3

First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability.

Cross Listed MATH 5310.

Prerequisite: MATH 3310, COSC 1010.

COSC5010 - Graduate Topics in Computer Science

Credits: 1-6
Max Credit (Max. 12)

Individual or small group pursuit of computer science research areas.

Prerequisite: graduate standing and consent of instructor.

MATH5340 - Computational Methods II

Credits: 3
Second semester of a three-semester computational methods series with emphasis on numerical solution of differential equations. Topics include explicit and implicit methods, methods for stiff ODE problems, finite difference, finite volume, and finite element methods for time-independence PDEs semi/fully discrete methods for time-dependent PDEs.

Prerequisite: MATH 5310.

OR

- COSC 5340 - Computational Methods II Credits: 3

BOT4550 - Computational Biology

Credits: 4
Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

Dual Listed BOT 5550.

Prerequisite: MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

OR

BOT5550 - Computational Biology

Credits: 4
Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

Dual Listed BOT 4550.

Prerequisite: MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

GEOL4030 - Groundwater Flow and Solute Transport Modeling

Credits: 3
Movement of groundwater and the dissolved solute is responsible for a variety of environmental, engineering, and geological processes of interest. Presents an overview of the analyses of groundwater flow and solute transport using

numerical modeling. The principles of the Finite Difference Method are introduced.

Dual Listed GEOL 5030.

Prerequisite: MATH 2205 and GEOL 4444/GEOL 5444.

OR

GEOL5030 - Groundwater Flow and Solute Transport Modeling

Credits: 3

Movement of groundwater and the dissolved solute is responsible for a variety of environmental, engineering, and geological processes of interest. Presents an overview of the analyses of groundwater flow and solute transport using numerical modeling. The principles of the Finite Difference Method are introduced.

Dual Listed GEOL 4030.

Prerequisite: MATH 2205, GEOL 5444.

ME5461 - Computational Fluid Dynamics I

Credits: 3

An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed Dual list with ME 4461 and ESE 4461

Prerequisite: graduate standing

ME5462 - Computational Fluid Dynamics II

Credits: 3

A study of advanced techniques in modern-day scientific computing as applied to Computational Fluid Dynamics. These include unstructured mesh generation using Delaunay triangulation, searching and sorting techniques, and efficient data structures. Other topics cover efficient hardware implementation including cache-effects and parallel computing and sensitivity analysis for design optimization.

Prerequisite: ME 5461

STAT5660 - Computationally Intensive Methods in Statistics

Credits: 3

Advanced statistical inference often relies on methods which are computationally intensive. The basic methods include Newton-Raphson; the EM algorithm; bootstrap and other resampling procedures; kernel density estimators; Laplace's method, importance sampling and MCMC, and saddlepoint and Edgeworth approximations.

Prerequisite: STAT 5520.

Electives

COSC5110 - Analysis Of Algorithms

Credits: 3

Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting, hashing, and string search. Offered fall semester of even numbered years.

Prerequisite: COSC 3020 or equivalent and consent of the department.

STAT5680 - Advanced Bayesian Statistics

Credits: 3

Philosophical principles underlying Bayesian and non-Bayesian statistics. Decision theoretic foundations of Bayesian statistics including loss functions, minimaxity, and admissibility. Construction of conjugate prior distributions and non-informative prior distributions. Bayesian point estimation, hypothesis tests and credible sets. Computational tools for Bayesian problems including Markov chain Monte Carlo (MCMC) and other methods for approximating posterior distributions with some emphasis on implementation via a programming language or statistical computing software. As time and interest permit: the normal linear model, non-normal models, hierarchical models, Bayesian model averaging, other topics.

Prerequisite: STAT 5380; 5420 and STAT 5520.

STAT5380 - Bayesian Data Analysis

Credits: 3

Bayesian statistical methods for analyzing various kinds of data. Topics include basic Bayesian ideas and model formulation (priors, posteriors, likelihoods), single- and multiple-parameter models, hierarchical models, generalized linear models, multivariate models, survival models and an introduction to computation methods.

Prerequisite: STAT 5255

- High-Performance Computing in Geosciences, 2 hrs
- MATH 5320 - Mathematics Modeling of Processes Credits: 3

CHEM4560 - Molecular Modeling

Credits: 3

Emphasizes practical training in computational modeling of molecular properties using modern computer software. Includes ab-initio quantum mechanical, density functional, semi-empirical and molecular mechanics methods.

Lab/Lecture Hours 3 hours per week.

Dual Listed CHEM 5560.

When Offered (Normally offered alternating spring semesters)

Prerequisite: CHEM 4507.

OR

CHEM5560 - Molecular Modeling

Credits: 3

Emphasizes practical training in computational modeling of molecular properties using modern computer software. Includes ab-initio quantum mechanical,

Lab/Lecture Hours 3 hours per week.

Dual Listed CHEM 4560.

When Offered (Normally offered alternating spring semesters)

Prerequisite: CHEM 4507.

PHYS4840 - Mathematical and Computational Physics II

Credits: 4

Second semester of a two-semester course. Provides a comprehensive overview of computational physics and provides numerous numerical techniques applied to physics problems. Topics include: numerical computations and visualizations, numerical solutions of ordinary differential equations, linear systems, curve fitting, discrete Fourier transforms, partial differential equations, integration, and Monte Carlo simulations of general stochastic systems. A weekly lab session will be held.

Prerequisite: MATH 2210, PHYS 2320 and PHYS 3000.

MATH4300 - Introduction to Mathematical Modeling

Credits: 3

A model of a real world problem captures the essential features of the problem, while scaling it down to a manageable size. In this course, symbolic tools and mathematical techniques are used to construct, analyze and interpret various mathematical models which arise from problems in the physical, biological and social sciences.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 2250 or MATH 2310.

Interdisciplinary Computational Science Minor

In recognition of the importance of modeling and simulation in an increasing number of applications, the Undergraduate Interdisciplinary Computational Science Minor is intended to help prepare science, math, and engineering students for leading roles in their professions.

The Undergraduate Minor in Computational Science is based on the following requirements:

1. The student must earn 15 credit hours in specified courses.
2. Within the 15 credits, the student must earn 9 credits at the upper-division level (3000 or above).
3. Within the 15 credits, the student must earn 6 credits outside of her/his major.
4. Within the 15 credits, the student must earn at least 6 credits in core courses.
5. Only grades of C or better will be accepted for the minor.

The 15 hours of coursework are divided between core and elective courses as listed below.

Core Courses

MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations

Credits: 3

Further develops the skills needed for computational problem solving and numerical analysis. Topics addressed include: one-step and linear multistep methods for solving initial value problems; truncation errors, stability analysis, and convergence of the numerical methods; finite difference approximation for elliptic equations and initial boundary value problems; iterative methods for sparse linear systems. Students typically complete a final project in this course.

Cross Listed COSC 4340.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 2310 and MATH 3340.

OR

COSC4340 - Numerical Methods for Ordinary and Partial Differential Equations

Credits: 3

Further develops the skills needed for computational problem solving and numerical analysis. Topics addressed include: one-step and linear multistep methods for solving initial value problems; truncation errors, stability analysis, and convergence of the numerical methods; finite difference approximation for elliptic equations and initial boundary value problems; iterative methods for sparse linear systems. Students typically complete a final project in this course.

Cross Listed MATH 4340.

Prerequisite: grade of C or better in MATH 2310 and MATH 3340.

- High-Performance Computing (Offered as a topics course).

MATH3340 - Introduction to Scientific Computing

Credits: 3

Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed COSC 3340.

Prerequisite: grade of C or better in MATH 2210.

OR

COSC3340 - Introduction to Scientific Computing

Credits: 3

Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed MATH 3340.

Prerequisite: grade of C or better in MATH 2210.

STAT4460 - Statistical Software

Credits: 1
Max Credit 1

An introduction to the various statistical software programs currently in use at the University of Wyoming. Topics will include the structure of each language, I/O, programming the basic statistical applications, and a comparison of the other languages.

Former Course Number [5480]

Prerequisite: STAT 2050

Elective Courses

BOT4550 - Computational Biology

Credits: 4

Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

Dual Listed BOT 5550.

Prerequisite: MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

OR

BOT5550 - Computational Biology

Credits: 4

Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

Dual Listed BOT 4550.

Prerequisite: MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

COSC3020 - Algorithms and Data Structures

Credits: 4

Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies, and an introduction to parallelism and the analysis of parallel programs.

Prerequisite: COSC 2300 , COSC 2030

PHYS4840 - Mathematical and Computational Physics II

Credits: 4

Second semester of a two-semester course. Provides a comprehensive overview of computational physics and provides numerous numerical techniques applied to physics problems. Topics include: numerical computations and visualizations, numerical solutions of ordinary differential equations, linear systems, curve fitting, discrete Fourier transforms, partial differential equations, integration, and Monte Carlo simulations of general stochastic systems. A weekly lab session will be held.

Prerequisite: MATH 2210, PHYS 2320 and PHYS 3000.

CHEM4560 - Molecular Modeling

Credits: 3

Emphasizes practical training in computational modeling of molecular properties using modern computer software. Includes ab-initio quantum mechanical, density functional, semi-empirical and molecular mechanics methods.

Lab/Lecture Hours 3 hours per week.

Dual Listed CHEM 5560.

When Offered (Normally offered alternating spring semesters)

Prerequisite: CHEM 4507.

OR

CHEM5560 - Molecular Modeling

Credits: 3

Emphasizes practical training in computational modeling of molecular properties using modern computer software. Includes ab-initio quantum mechanical,

Lab/Lecture Hours 3 hours per week.

Dual Listed CHEM 4560.

When Offered (Normally offered alternating spring semesters)

Prerequisite: CHEM 4507.

- ES 3070 - C with Numerical Methods for Engineers

MATH4300 - Introduction to Mathematical Modeling

Credits: 3

A model of a real world problem captures the essential features of the problem, while scaling it down to a manageable size. In this course, symbolic tools and mathematical techniques are used to construct, analyze and interpret various mathematical models which arise from problems in the physical, biological and social sciences.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 2250 or MATH 2310.

ME4040 - Introduction to Finite Elements

Credits: 3

An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. The course includes development of the underlying matrix equations, the treatment of element

generation and properties, and implementation of boundary conditions.

Dual Listed ME 5040.

Prerequisite: Completion of the ME Success Curriculum, MATH 2310 and (CE 4200/ARE 4200 or MATH 2250 or ME 3010 or ME 3060).

COSC4820 - Database Systems

Credits: 3

Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with the problems and issues of database management.

Prerequisite: COSC 2030.

Mathematics Minor

The minor in mathematics focuses on fundamental aspects of mathematics that are essential for further study in mathematics and a variety of other disciplines. Students may customize the minor by choosing the appropriate transition course and upper-division electives.

Lower Division Core Courses

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2800 - Mathematics Major Seminar

Credits: 2

An introduction to modern mathematical reasoning and discourse, emphasizing the distinctive ways in which logic and language are used and the motivations behind them. Develops methods of precise definition and rigorous proof. Several topics are explored, illustrating mathematics as a living, dynamic subject with its own culture and conventions.

Upper Division

Two of the math electives may be chosen from a list of approved courses that have significant math content, upon approval by the student's advisor. More details about such courses are available on the math department's web site, www.uwyo.edu/mathstats/.

Only grades of C or better will be accepted for the minor.

At the upper division, all mathematics minors must take ONE of

MATH3205 - Analysis I: Elementary Real Analysis

Credits: 3

An introduction to rigorous analysis in one real variable. Includes a rigorous reconsideration of the elements of calculus: the real number system, numerical sequences and series, limits, continuity, differentiability, and Riemann integrability for functions of one variable. Proof and mathematical writing are emphasized.

Prerequisite: Grade of C or better in MATH 2205 and MATH 2800.

OR

MATH3500 - Algebra I: Introduction to Rings and Proofs

Credits: 3

Begins with common features of integers, rational numbers, and polynomials, leading to study of rings in general. Topics include divisibility, factorization, and modular arithmetic for integers and polynomials, and homomorphisms and ideals for rings. Proof techniques include direct proof, proof by contrapostive, mathematical induction, and proof by contradiction.

Prerequisite: MATH 2800 and grade C or better in MATH 2250 or concurrent registration in MATH 2250.

OR

MATH3340 - Introduction to Scientific Computing

Credits: 3

Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed COSC 3340.

Prerequisite: grade of C or better in MATH 2210.

- as well as 3 additional credits of upper division math courses (3000 and above)

Statistics Minor

Statisticians (data scientists) provide analytic solutions to scientific problems. Statistics is the process of using data to answer a research question. The B.S. in Statistics is applied with some theory. The minor of Statistics is all application.

Requirements

The following courses are required for a statistics minor:

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

12 Additional Hours from the Following:

STAT4015 - Regression Analysis

Credits: 3

Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.

Former Course Number [4010, 4410]

Prerequisite: STAT 2050 or equivalent

STAT4025 - Design and Analysis of Experiments I

Credits: 3

Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete blocks as time permits.

Dual Listed STAT 5025.

Former Course Number [4020, 4310]

Prerequisite: STAT 2050 or equivalent

STAT4045 - Categorical Data Analysis

Credits: 3

Applied methods for analyzing associations when some or all variables are measured in discrete categories, not continuous scales. Topics include the binomial, multinomial, and Poisson probability models, parameter estimation and hypothesis-testing about proportions, measures of association and tests for contingency tables, logistic regression, and log-linear models.

Dual Listed STAT 5045.
Former Course Number [4040]

Prerequisite: STAT 2050 or equivalent

STAT4070 - Causal Models

Credits: 3

Applications of least-squares and iterative maximum-likelihood methods for drawing cause and effect conclusions from nonexperimental data. Topics include regression-based path analysis, reciprocal causation, confirmatory factor analysis, measurement error, and structural equation models with unmeasured (latent) variables.

Cross Listed SOC 4070.

Prerequisite: one of STAT 3050, STAT 4015, STAT 5050, 5060, STAT 5070, STAT 5080 or equivalent (regression methods).

STAT4115 - Time Series Analysis and Forecasting

Credits: 3

An applied introduction to time series and forecasting. Brief coverage of time series regression, decomposition methods, and smoothing will lead into a more detailed coverage of Box-Jenkins (ARIMA) modeling. Computer analyses using MINITAB and SAS will be an important part of the course.

Cross Listed ECON 5115

Dual Listed STAT 5115.

Former Course Number [4110]

Prerequisite: STAT 4015 /5015

STAT4155 - Fundamentals of Sampling

Credits: 3

Develops methodology of simple random sampling, stratified sampling, and multistage sampling. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

Dual Listed STAT 5155.

Former Course Number [4150]

Prerequisite: choice of STAT 2010, STAT 2050, STAT 2070 or equivalent.

STAT4255 - Mathematical Theory of Probability

Credits: 3

Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence and conditional probability, mathematical expectation, multivariate distributions and

properties of normal probability law.

Cross Listed MATH 4255.

Dual Listed STAT 5255.

When Offered (Offered fall semester)

Former Course Number [4250]

Prerequisite: grade of C or better in MATH 2210.

STAT4265 - Introduction to the Theory of Statistics

Credits: 3

Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

Cross Listed MATH 4265.

Dual Listed STAT 5265.

Former Course Number [4260, 4010]

Prerequisite: STAT 4255/MATH 4255.

STAT4350 - Survey Construction and Analysis

Credits: 3

Examines the issues surrounding the construction (item wording, test theory, and numerical scales), assessment (sampling and psychometrics), and analysis (item analysis, qualitative data analysis, and factor analysis) of survey instruments. Roughly a third of the course is devoted to each of these areas.

Dual Listed STAT 5350.

Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4360 - Spatial Statistics

Credits: 3

Emphasis is on a generalized linear model approach to the modeling of continuous data, placing model building and the various kriging methods into a single conceptual framework.

Dual Listed STAT 5360.

Prerequisite: STAT 4015.

STAT4370 - Survival Analysis

Credits: 3

Introduction to the modeling of time to event data as it arises in epidemiological and medical research. Topics include parametric and non-parametric estimation for censored data without covariates, and for data with covariates, the proportional hazards regression model, additive hazards regression model and parametric regression models.

Dual Listed STAT 5370.

Prerequisite: STAT 4015 and STAT 4025.

STAT4300 - Applied Multivariate Analysis

Credits: 3

The application of multivariate statistical methods in behavioral science research. Topics include: multivariate regression, canonical correlation, discriminate analysis, factor analysis and multidimensional scaling. A wide range of computer assistance is incorporated.

Dual Listed STAT 5300.

Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4270 - Applied Bayesian Statistics

Credits: 3

This course introduces Bayesian data analysis in an applied context. We will learn about Bayesian statistics primarily in a regression model context, taken broadly. A conceptual understanding of popular Markov Chain Monte Carlo algorithms will be provided.

Dual Listed STAT 5270.

Prerequisite: STAT 4015 /5015

Total: 18-19 Hours

Only grades of C or better will be accepted for the minor.

Graduate

Mathematics, M.A.

A comprehensive mathematics degree, with training in the fundamentals of analysis, abstract algebra, computation, and mathematical modeling. Provides a strong foundation for teaching, work in industry, and continued study in graduate-level programs.

Common Requirements

The following requirements are common to all four tracks:

- The student must maintain a 3.000 cumulative GPA.
- The student must complete 30 hours of formal mathematics coursework at the 5000 level.
- The student must pass the department's Foundation Exam. This exam covers material from advanced vector calculus and linear algebra at the upper-division undergraduate level and is offered before the beginning of each semester.

- Take one hour of the seminar MATH 4970: Professional Development in Mathematics and one hour of the seminar MATH 4970: Professional Development in Teaching.

5000-level Mathematics Courses

As part of the 30 hours of formal 5000-level mathematics courses, the student must complete the following courses with a grade of B or better:

MATH5200 - Real Variables I

Credits: 3

Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on L_p spaces. Lebesgue theory is an important application of this development.

Prerequisite: MATH 4200.

MATH5230 - Complex Variables I

Credits: 3

Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

Prerequisite: MATH 4200.

MATH5310 - Computational Methods in Applied Sciences I

Credits: 3

First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

MATH5400 - Methods of Applied Mathematics I

Credits: 3

First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e. g. , conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

Prerequisite: MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

MATH5500 - Advanced Linear Algebra

Credits: 3

An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

Prerequisite: MATH 3500 and MATH 4500.

MATH5550 - Abstract Algebra I

Credits: 3

Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

Prerequisite: MATH 3500 or MATH 5500.

Tracks:

In addition to the common elements above, students must select and complete one of the capstone experiences described in the tracks below.

Track #1: Master's Thesis (Plan A)

Within the 30 hours of 5000-level courses, the Plan A student must complete 4 hours of MATH5960 - Thesis Research. At least 26 hours of 5000-level coursework must be mathcontent courses (not thesis research).

The student must prepare a master's thesis (Plan A) and give an oral defense of the thesis. In the mathematics program, a Plan A thesis reports on the result(s) of independent and original research completed by the student under the direction of a faculty member. The thesis should describe the research and its results and be written to the standards of the appropriate area of mathematics.

Track #2: Master's Paper (Plan B)

The student must prepare a master's paper (Plan B) and give an oral defense.

To write a Plan B paper, the student must present an expository paper on a designated mathematical subject. Students are guided by their advisor in the subject matter and in the preparation of the paper. A successful paper and defense demonstrates that the student has mastered a substantial mathematical topic that is beyond those covered in formal foundational coursework.

Track #3: Coursework/Project (Plan B)

A second M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper, the student takes a sequence of three 5000-level courses that all address a common mathematical theme. The sequence must be approved by the

student's advisor and the mathematics graduate committee. Two of the courses must be mathematics-department offerings, and the third may be either a mathematics course (including reading/topics courses) or a course from another department in a related field.

- The student must complete an additional 6 hours of courses at the 5000 level. Thus, Track #3 requires the completion of 36 hours of graduate-level coursework.
- Within the 36 hours, the student must propose and complete with a grade of B or better an appropriate 3-course sequence
- The student will write a short paper illustrating how the common mathematical theme of the sequence manifests itself in the content of each course and give a presentation/defense of the paper.

In approving the student's proposal for this option, the graduate committee and the advisor will consider how the writing and independent study spirit of the Plan B option are fulfilled within the recommended plan.

Track #4: Qualifying Exam (Plan B)

A third M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper or taking additional coursework, the student must take and pass the department's PhD Qualifying Examination in one of the three areas: Analysis, Algebra, or Applied Mathematics. These examinations focus on the material in the required courses.

These examinations are given twice a year at the beginning of the fall and spring semesters. This option is intended for students who will continue for a PhD at UW.

- The oral component of this Track will consist of a defense of the student's written answers to qualifying exam.
- Pass one of the department's qualifying exams in:

Analysis

MATH5200 - Real Variables I

Credits: 3

Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on L_p spaces. Lebesgue theory is an important application of this development.

Prerequisite: MATH 4200.

MATH5230 - Complex Variables I

Credits: 3

Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

Prerequisite: MATH 4200.

Algebra

MATH5500 - Advanced Linear Algebra

Credits: 3

An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

Prerequisite: MATH 3500 and MATH 4500.

MATH5550 - Abstract Algebra I

Credits: 3

Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

Prerequisite: MATH 3500 or MATH 5500.

Applied Mathematics

MATH5310 - Computational Methods in Applied Sciences I

Credits: 3

First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

MATH5400 - Methods of Applied Mathematics I

Credits: 3

First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e. g. , conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

Prerequisite: MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

Mathematics, M.A.T.

Applicants are required to have:

- A. A valid teaching endorsement in any state or educational requirements satisfied for secondary teaching;
- B. courses equivalent to MATH 3205, MATH 3500, MATH 4000 and MATH 4600;

C. a course in computer programming.

Students who enter the program with a deficiency in the courses listed in (b) must take them at UW, but these courses may not be counted toward the course requirements of the M.S.T./M.A.T. program.

Mathematics, M.S.

A comprehensive mathematics degree, with training in the fundamentals of analysis, abstract algebra, computation, and mathematical modeling. Provides a strong foundation for teaching, work in industry, and continued study in graduate-level programs.

Common Requirements

The following requirements are common to all four tracks:

- The student must maintain a 3.000 cumulative GPA.
- The student must complete 30 hours of formal mathematics coursework at the 5000 level.
- The student must pass the department's Foundation Exam. This exam covers material from advanced vector calculus and linear algebra at the upper-division undergraduate level and is offered before the beginning of each semester.
- Take one hour of the seminar MATH 4970: Professional Development in Mathematics and one hour of the seminar MATH 4970: Professional Development in Teaching.

5000-level Mathematics Courses

As part of the 30 hours of formal 5000-level mathematics courses, the student must complete the following courses with a grade of B or better:

MATH5200 - Real Variables I

Credits: 3

Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on L_p spaces. Lebesgue theory is an important application of this development.

Prerequisite: MATH 4200.

MATH5230 - Complex Variables I

Credits: 3

Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

Prerequisite: MATH 4200.

MATH5310 - Computational Methods in Applied Sciences I

Credits: 3

First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

MATH5400 - Methods of Applied Mathematics I

Credits: 3

First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e. g. , conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

Prerequisite: MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

MATH5500 - Advanced Linear Algebra

Credits: 3

An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

Prerequisite: MATH 3500 and MATH 4500.

MATH5550 - Abstract Algebra I

Credits: 3

Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

Prerequisite: MATH 3500 or MATH 5500.

Tracks:

In addition to the common elements above, students must select and complete one of the capstone experiences described in the tracks below.

Track #1: Master's Thesis (Plan A)

Within the 30 hours of 5000-level courses, the Plan A student must complete 4 hours of MATH5960 - Thesis Research. At least 26 hours of 5000-level coursework must be mathcontent courses (not thesis research).

The student must prepare a master's thesis (Plan A) and give an oral defense of the thesis. In the mathematics program, a Plan A thesis reports on the result(s) of independent and original research completed by the student under the direction of a faculty member. The thesis should describe the research and its results and be written to the standards of the appropriate area of mathematics.

Track #2: Master's Paper (Plan B)

The student must prepare a master's paper (Plan B) and give an oral defense.

To write a Plan B paper, the student must present an expository paper on a designated mathematical subject. Students are guided by their advisor in the subject matter and in the preparation of the paper. A successful paper and defense demonstrates that the student has mastered a substantial mathematical topic that is beyond those covered in formal foundational coursework.

Track #3: Coursework/Project (Plan B)

A second M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper, the student takes a sequence of three 5000-level courses that all address a common mathematical theme. The sequence must be approved by the student's advisor and the mathematics graduate committee. Two of the courses must be mathematics-department offerings, and the third may be either a mathematics course (including reading/topics courses) or a course from another department in a related field.

- The student must complete an additional 6 hours of courses at the 5000 level. Thus, Track #3 requires the completion of 36 hours of graduate-level coursework.
- Within the 36 hours, the student must propose and complete with a grade of B or better an appropriate 3-course sequence
- The student will write a short paper illustrating how the common mathematical theme of the sequence manifests itself in the content of each course and give a presentation/defense of the paper.

In approving the student's proposal for this option, the graduate committee and the advisor will consider how the writing and independent study spirit of the Plan B option are fulfilled within the recommended plan.

Track #4: Qualifying Exam (Plan B)

A third M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper or taking additional coursework, the student must take and pass the department's PhD Qualifying Examination in one of the three areas: Analysis, Algebra, or Applied Mathematics. These examinations focus on the material in the required courses.

These examinations are given twice a year at the beginning of the fall and spring semesters. This option is intended for students who will continue for a PhD at UW.

- The oral component of this Track will consist of a defense of the student's written answers to qualifying exam.
- Pass one of the department's qualifying exams in:

Analysis

MATH5200 - Real Variables I

Credits: 3

Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on L_p spaces. Lebesgue theory is an important application of this development.

Prerequisite: MATH 4200.

MATH5230 - Complex Variables I

Credits: 3

Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

Prerequisite: MATH 4200.

Algebra

MATH5500 - Advanced Linear Algebra

Credits: 3

An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

Prerequisite: MATH 3500 and MATH 4500.

MATH5550 - Abstract Algebra I

Credits: 3

Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

Prerequisite: MATH 3500 or MATH 5500.

Applied Mathematics

MATH5310 - Computational Methods in Applied Sciences I

Credits: 3

First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

MATH5400 - Methods of Applied Mathematics I

Credits: 3

First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e. g. , conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

Prerequisite: MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

Mathematics, M.S.T.

Applicants are required to have:

- A. A valid teaching endorsement in any state or educational requirements satisfied for secondary teaching;
- B. courses equivalent to MATH 3205, MATH 3500, MATH 4000 and MATH 4600;
- C. a course in computer programming.

Students who enter the program with a deficiency in the courses listed in (b) must take them at UW, but these courses may not be counted toward the course requirements of the M.S.T./M.A.T. program.

Mathematics, Ph.D.

A rigorous PhD program in mathematics, culminating in an original research project. Math PhDs have excellent career prospects in a variety of settings, including academia, industry, research, engineering, economics and government.

Mathematics PhD Information

The student must maintain a 3.0 cumulative GPA.

The student must teach two semesters of college mathematics.

The student must complete a combination of 72 hours of coursework and dissertation research. Within the 72 hours, a maximum of 12 hours can be at the 4000 level, and 42 hours must be formal courses at the 5000 level. The courses must be mathematics courses or courses with significant mathematical content, as approved by the department's graduate committee.

The Student Must Complete

Within the 42 hours of 5000-level courses, the student must:

- Complete the courses distributed in three areas: algebra, analysis, and applied mathematics. The student must take at least two courses in each of two categories and at least one course from the third category. The department maintains a list of course categories.

MATH5200 - Real Variables I

Credits: 3

Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on L_p spaces. Lebesgue theory is an important application of this development.

Prerequisite: MATH 4200.

MATH5230 - Complex Variables I

Credits: 3

Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

Prerequisite: MATH 4200.

MATH5310 - Computational Methods in Applied Sciences I

Credits: 3

First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

MATH5400 - Methods of Applied Mathematics I

Credits: 3

First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e. g. , conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

Prerequisite: MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

MATH5500 - Advanced Linear Algebra

Credits: 3

An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

Prerequisite: MATH 3500 and MATH 4500.

MATH5550 - Abstract Algebra I

Credits: 3

Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

Prerequisite: MATH 3500 or MATH 5500.

Take Two Hours of

MATH5800 - Seminar in Mathematics

Credits: 1-3

Max Credit (Max. 8)

Prerequisite: consent of instructor.

In Addition

In addition, the student must:

- Pass the foundation exam, the qualifying exam in the student's research area, and the preliminary exam.
- Write a dissertation containing the student's original mathematical results and present an oral defense of the research.
- Take one hour of the seminar 4970: Professional Development in Mathematics and one hour of the seminar MATH4970 - Professional Development in Teaching.

Statistics Graduate Minor

A graduate minor in statistics can be a great way to signal your interest and skill in data analysis as it relates to your field of study.

Requirements

Twelve hours of STAT courses at the 5XXX-level, with the exception of:

STAT 5000

STAT 5185

STAT4220 - Basic Engineering Statistics

Credits: 3

Introduces probability models, properties of distributions, statistical inference and development of statistical models for physical and engineering sciences. Credit cannot be earned in more than one of the following courses: STAT 2010, STAT 2050, STAT 2070, 4220 and 5000.

Former Course Number [4020]

Prerequisite: MATH 2205, MATH 2355 or equivalent.

- STAT 5000

Statistics, M.S.

Profile

The Master's Program in Applied Statistics will give the student an extensive and broad background in statistical methods, data analysis, and written and oral presentation skills. This degree is a terminal experience in graduate statistical education and should not be viewed as preparatory for entrance into a Ph.D. program in statistics. Graduates will have the necessary background to work as data management specialists, statistical analysts, and as project managers within a wide range of research organizations.

Plan B (Option 1)

Coursework

In addition to the general requirements of the university all candidates for the MS (Plan B - Option 1) degree must successfully take and complete:

Required: 15 Credit Hours

STAT5210 - Advanced Regression

Credits: 3

Advanced methodologies, with particular focus on concepts and methods related to regression. Topics include generalized linear models, nonlinear regression, elementary linear model theory, and Data Science topics such as resampling inference, ridge regression and the lasso, and k-fold cross-validation.

Prerequisite: MATH 4265/STAT 4265/STAT 5265 and STAT 4015/STAT 5015. STAT 4025/STAT 5025 and STAT 4045/STAT 5045 are recommended.

STAT5220 - Advanced Design

Credits: 3

Advanced study of experimental designs, observational designs, and mixed models. Topics include fixed and random effects, factorial, split-plot and repeated measures designs, and hierarchical models. Linear model methodology and Data Science concepts will also be emphasized.

Prerequisite: MATH 5265/STAT 4265/STAT 5265, and at least one of STAT 4015/STAT 5015, STAT 4025/STAT 5025, or STAT 5210.

STAT5470 - Data Analysis

Credits: 3

This course is designed to develop the skill of analyzing data sets using methods of classic statistical analysis, such as analysis of variance, regression, discrete models, descriptive analysis, non-parametrics, and multivariate methods. The focus will be on understanding the various models and methods, computer assisted data analysis, and communication of results (oral and written).

Prerequisite: 12 graduate level hours in statistics (excluding STAT 5000).

STAT5380 - Bayesian Data Analysis

Credits: 3

Bayesian statistical methods for analyzing various kinds of data. Topics include basic Bayesian ideas and model formulation (priors, posteriors, likelihoods), single- and multiple-parameter models, hierarchical models, generalized linear models, multivariate models, survival models and an introduction to computation methods.

Prerequisite: STAT 5255

STAT5660 - Computationally Intensive Methods in Statistics

Credits: 3

Advanced statistical inference often relies on methods which are computationally intensive. The basic methods include Newton-Raphson; the EM algorithm; bootstrap and other resampling procedures; kernel density estimators; Laplace's method, importance sampling and MCMC, and saddlepoint and Edgeworth approximations.

Prerequisite: STAT 5520.

Electives

a minimum of 15 credit hours in other acceptable graduate courses. Acceptable courses include statistics courses numbered 5000 or higher, excepting:

- STAT 5000
- STAT 5050 - Statistical Methods for the Biological Science
- STAT 5060
- STAT 5070 - Statistical Methods for the the Social Sciences
- STAT 5080 - Statistical Methods for the Agricultural and Natural Resource Sciences
- STAT 5185 - Analysis of Data

Total Credits: 30 Hours

Graduation Requirements: (1) successful completion of coursework and (2) a data analysis project (Plan B paper).

QuickStart Program

Mathematics Quick Start BS/MS

A five-year combined Master's and Bachelor's degree in mathematics, in which six credits of graduate coursework is counted toward both degrees. UW students must apply to be considered for this degree.

Mathematics Quick Start Information

Overview

The combined BS/MS program in Mathematics is designed to afford highly qualified students in their junior or senior year the opportunity to work towards both the BS and MS degrees in Mathematics. The program allows for advanced students to jump-start the graduate portion of their education by applying credits for graduate courses to both their BS and MS requirements. The MS degree earned under the combined BS/MS program is not a new or separate category of degree. However, through careful planning and coordination, this program can result in a reduction of the time required to complete both the Mathematics, B.S. and Mathematics, M.S. degrees.

Qualification/Admission

Application for admission may be submitted to the department at any time after the student has completed 75 undergraduate credits. Graduate credits may be applied toward the MS under this program upon the completion of 90 undergraduate credits. Additional minimum requirements for admission are:

1. Minimum GPA of 3.25
2. Minimum GPA in undergraduate math courses of 3.5
3. Completion of two transition courses or their equivalents
4. Three letters of recommendation from UW faculty (at least 2 from UW-Math)

Credits

The BS/MS-Math program allows for students under the guidance of their academic advisor to take graduate courses as part of their BS degree. During their senior year, up to six graduate credits (5000+ level) can be counted simultaneously towards both the BS and MS degrees in Mathematics. In principle, this "double dipping" allows students to earn a MS after completing only 144 credits (120 to earn the BS, 6 of which are applied toward the 30 credits required to earn the MS) instead of 150 credits. In addition, students may reserve a further six credits of 5000 level credits for their MS degrees prior to earning their BS; however, these credits will not be counted toward the BS degree.

Satisfactory progress

The department's Foundation Exam must be passed by the beginning of their second semester of their 4th year. Students in the BS/MS program must have a faculty advisor, with whom they consult to complete a program of study. The Program of Study (POS) must be submitted to the Mathematics Graduate Committee for approval by the end of the midterm of the first semester in which the student has been admitted into the program. The POS must include all courses to be taken during their senior year to the end of the students MS program. Any of the tracks (plan A or B) available to our Masters students will be available to students in this program. The advisor will aid the student in determining which track is the best for completion of the Masters.

Regulations

Students in this program will be governed by the regulations applicable to any undergraduate student in Mathematics until the student has completed 120 credit hours applicable to the BS degree in Mathematics. Once those 120 credit hours have been completed, the student will be enrolled as a graduate student and be governed by graduate student

regulations in the Mathematics graduate program. To the extent possible, once the student transitions to being a graduate student, the student should complete the MS degree in 12 months.

University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

College of Arts and Sciences requirements:

Students must take two "core" courses in addition to UW's University Studies Program requirements: Diversity in the United States (ASD) and Global Awareness (ASG). • No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation. • At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).

Statistics Quick Start BS/MS

An advanced degree in Statistics is powerful in its own right; statistical methods are part of the core of data science, so stands as a useful foundation for that as well. The Program in Statistics at the University of Wyoming now offers a QuickStart ("4+1") MS program, within which qualified students can obtain a **Statistics, B.S.** and a **Statistics, M.S.** degree in five years.

The program is intended for inspired, high-achieving students; the pace will be intense, as you will need to be taking courses at the graduate level in your undergraduate senior year.

The MS degree requires 30 credits; in order to make the 4+1 program work enrolled students can

1. Have two three-credit 4XXX/5XXX classes count towards both the BS and MS degrees. Enrollment must be for the 5XXX section of the course. Tuition is charged at the undergraduate rate.
2. Reserve two three-credit 4XXX/5XXX classes for graduate credit. Tuition is charged at the undergraduate rate, but these two classes *will only count towards the MS*.

With these four courses counting towards the MS, there remains 18 credits, which can be done in two semesters of three (three-credit) classes each.

Steps:

1. Apply (usually in the Spring of your Junior year) online to the QuickStart- Statistics BS/MS -College of Arts & Science program[1]. You will need (unofficial is fine) college transcripts, a statement of purpose, and three letters of recommendation[2].
2. Once you are enrolled in the program, the Admissions Office will work with you to put into play the double-dip and reserved courses mentioned above.

Acceptance into the MS is conditional until your undergraduate degree is awarded and results are in from your taking the GRE, which we recommend you take in your last undergraduate year.

[1] Instructions from the registrar: Apply at: <https://www.uwyo.edu/admissions/apply-online.html>

The log-in is different from WyoWeb. If you remember the log-in email/password form when you originally applied to UW, you can use the Returning Users option. Otherwise, use the First Time users option. When you get to the page where you select your program of study, select **QuickStart- Statistics BS/MS -College of Arts & Science**. All the Quickstart program are under Q to (hopefully) reduce confusion for non-quickstart applicants. Any questions during the application process can be directed to admissions@uwyo.edu or 766-5160.

[2] These documents are standard for applying to our graduate program; we anticipate we will have a mix of QuickStart students and regular (i.e. 2-year) MS students who are applying from elsewhere.

Department of Mechanical Engineering

2052 Engineering Building, (307) 766-2122

Web site: www.uwyo.edu/mechanical

E-mail: me.info@uwyo.edu

Department Head: Erica Belmont

Professors:

DENNIS N. COON, B.S. Alfred University New York; M.S. 1984; Ph.D. Pennsylvania State University 1986; Professor of Mechanical Engineering 1999, 1988.

DIMITRI J. MAVRIPLIS, B.S. McGill University 1982; M.Eng. 1982; Ph.D. Princeton University 1987; Professor of Mechanical Engineering 2003.

JONATHAN W. NAUGHTON, B.S. Cornell University 1986; Ph.D. Pennsylvania State University 1993; Professor of Mechanical Engineering 2012, 1997.

Associate Professors:

DILPUNEET S. AIDHY, B.E. Punjab Engineering College 2004; Ph.D. University of Florida 2009; Associate Professor of Mechanical Engineering 2021, 2015.

ERICA L. BELMONT, B.S. Tufts University 2004; M.S. 2008; Ph.D. University of Texas at Austin 2014; Associate Professor of Mechanical Engineering 2020, 2014.

RAY S. FERTIG III, B.S. University of Wyoming 2001; M.S. 2003; Ph.D. Cornell University 2010; Associate Professor of Mechanical Engineering 2017, 2011.

MICHAEL STOELLINGER, M.S. Technical University Munich 2005; Ph.D. University of Wyoming 2010; Associate Professor of Mechanical Engineering 2018, 2012.

Assistant Professors:

MAYSAM MOUSAVIRAAD, B.S. Sharif University of Technology 2002; M.S. 2004; Ph.D. University of Iowa 2010; Assistant Professor of Mechanical Engineering 2017.

XIANG ZHANG, B.S. Northeastern University (China) 2009; M.S. Beihang University (China) 2012; Ph.D. Vanderbilt University 2017; Assistant Professor of Mechanical Engineering 2019.

Instructional Professors:

RAMSANKAR VEERAKUMAR, B.S in Mechanical Engineering , University of Kerala, India, 2005. M.S. in Mechanical Engineering , Birla Institute of Technology and Science (BITS Pilani), India, 2014. Ph.D. in Aerospace Engineering, Iowa State University 2021. Instructional Assistant Professor, 2021.

Lecturers:

KARI STRUBE, BS in Electrical Engineering (bioengineering option), University of Wyoming 2007. MS in Electrical Engineering, University of Wyoming, 2009. Assistant Lecturer, 2021

Professors Emeriti:

Donald F. Adams, Paul A. Dellenback, Bruce R. Dewey, Andrew Hansen, William R. Lindberg, Kynric M. Pell, Ovid A. Plumb, David E. Walrath, Robert A. Wheasler

Mechanical Engineering B.S.

Mechanical Engineering is the broadest area of study in engineering. In contrast to other engineering disciplines, mechanical engineers are employed in significant percentages in almost all industrial and governmental organizations that employ engineers.

The spectrum of activities in which mechanical engineers are engaged continues to expand. The curriculum has in turn become flexible to allow for the education of mechanical engineering students in many diverse and allied areas, or for graduate school preparation.

The educational objectives of the of Mechanical Engineering B.S. program are to prepare students to:

- Successfully practice the profession of engineering.
- Demonstrate career growth (e.g. increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees).
- Apply Mechanical Engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts.
- Successfully serve in a range of leadership and collaborative roles in the profession in the community.
- Exhibit high professional standards and commitment to ethical action.

The undergraduate program includes a foundation in mathematics, science, and engineering sciences. The three key elements of the mechanical engineering undergraduate program include core engineering principles, laboratory experience, and development of communication skills.

The mechanical engineering curriculum affords the student the flexibility to pursue specific professional goals within the discipline. Such an opportunity needs to be carefully considered by each student, so that elective courses are chosen with these goals in mind. During the junior and senior years, the student selects 15 credit hours of technical electives.

Mechanical and Energy Systems Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in Mechanical and/or Energy Systems engineering courses completed at this university. A grade of C or better must be earned in all engineering science (ES) and required mathematics courses.

Mechanical Engineering, B.S.

Energy Systems Engineering B.S.

Energy Systems Engineering (ESE) is an ABET-accredited undergraduate degree offering in the Department of Mechanical Engineering. The ESE program was designed to train engineers to address one of this country's foremost challenges: to achieve energy independence and meet the growing demand for energy, while at the same time addressing critical environmental concerns. The program is intended to help meet these challenges by preparing students to be:

- technology leaders in energy conversion and environmental protection systems
- capable managers in the energy industry
- versatile overseers of energy development by the governmental sector
- technically-trained and environmentally-sensitive liaisons between the energy industry and the public.

ESE students will be trained in alternative and environmentally-friendly energy conversion systems, as well as more traditional technologies that will continue to play an important role for the foreseeable future.

Although the discipline of mechanical engineering has historically been responsible for the design of energy conversion cycles and equipment, issues outside the conventional realms of engineering are increasingly important to address as new and improved energy conversion systems are implemented. The engineer trained in Energy Systems will be better equipped than traditional mechanical engineers to deal with the environmental, legal, political, economic, and permitting aspects of new energy projects.

The educational objectives of the of Energy Systems Engineering B.S. program are to prepare students to:

- Successfully practice the profession of engineering.
- Demonstrate career growth (e.g. increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees).
- Apply Energy Systems Engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts.
- Successfully serve in a range of leadership and collaborative roles in the profession in the community.
- Exhibit high professional standards and commitment to ethical action.

The ESE degree has many coursework requirements in common with the Mechanical Engineering degree, particularly in the thermal, fluids, and energy conversion sciences. However, the ESE program emphasizes energy conversion aspects of Mechanical Engineering and requires coursework from UW's School of Environment and Natural Resources (ENR), course work in environmental law, and electives picked from a list of classes that focus attention on energy and the environment. The ENR courses expose students to issues related to permitting such as preparation of environmental impact studies, and related regulations such as the Endangered Species Act. In addition, technical electives allow students to choose more detailed study in personal areas of interest including, for example, courses in environmental engineering, wind engineering, solar engineering, and petroleum engineering.

Mechanical and Energy Systems Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in Mechanical and/or Energy Systems engineering courses completed at this university. A grade of C or better must be earned in all engineering science (ES) and required mathematics courses.

Energy Systems Engineering, B.S.

Concurrent ME/ESE Degrees

In the event that a student desires concurrent majors in ME and ESE, University policy requires that ALL requirements for each program are met. The student must select which will be the primary major.

Graduate Study

The Department of Mechanical Engineering offers graduate study leading to the Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Mechanical Engineering. Faculty in Mechanical Engineering conduct research in the areas of aerodynamics, biomaterials, composite materials, computational material science, computational fluid dynamics, combustion, continuum mechanics, heat transfer, materials reliability, mechanical behavior of materials, nanomechanics of surfaces and interfaces, and wind energy.

Department Specific Graduate Admission Requirements

Applicants should possess a Bachelor of Science (B.S.) degree or equivalent in Mechanical Engineering with a minimum GPA of 3.000 on a 4.000 grade scale or equivalent. Students that do not hold B.S.M.E. degrees may qualify as M.S. candidates by completing, without credit, certain prerequisite courses as specified by the Department. These prerequisites would depend upon the candidate's background and upon the area in which he/ she plans to specialize.

A minimum composite score of 294 (MS) or 307 (PhD) on the Verbal and Quantitative sections of the GRE is required for admission to the Mechanical Engineering Department. For international students, a minimum TOEFL score of 90 on the Internet-based test (iBT) (or a minimum IELTS score ≥ 6.5 or a DuoLingo ≥ 110) is required. If an international applicant wishes to be considered for Graduate Teaching Assistantship funding, the following minimum English Proficiency must be met: OPI \geq Advanced Mid, TOEFL Speaking ≥ 23 , IELTS Speaking ≥ 6.5 , DuoLingo Conversation & Production (average) ≥ 110 . If an international applicant wishes to be considered for Graduate Teaching Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/study-iep-esl/grad-ta-support/index.html>) if you have questions regarding the English proficiency requirements. Admittance to the graduate program is competitive, and the average applicant that is accepted with assistantship support will likely have well above the minimum qualifications.

In order to apply, please submit the following via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>): resume, copy of academic transcript, copy of GRE scores, copies of TOEFL (or IELTS or DuoLingo) scores for international non-native English speaking applicants, three letters of reference, and a Statement of Purpose indicating the applicant's technical area of interest, abilities, and objectives in completing a graduate degree in mechanical engineering. If you are applying for the BS/MS program, please choose "QuickStart - Mechanical Engineering BS/MS" as the program (no GRE score and Statement of Purpose are needed for the BS/MS application). Applicants to the joint MBA/MS-ME program should choose the MS degree program for the application. To be considered for Assistantships, applications must be submitted before March 15 for the Fall semester or October 15 for the Spring semester.

For Quickstart B.S./M.S. admissions requirement, see degree link below.

Major

Energy Systems Engineering, B.S.

Energy Systems Engineers design, develop, and test energy systems and devices with emphasis on renewables, conversion, and more, and in the context of environmental and legal considerations. The UW BS in Energy Systems Engineering is ABET accredited.

Energy Systems Engineering Success Curriculum

All undergraduate students in the B.S. Mechanical Engineering and B.S. Energy Systems Engineering programs must successfully complete the Mechanical Engineering Success Curriculum prior to enrolling in any upper-division (3000-level or above) courses taught by the Mechanical Engineering Department. The Mechanical Engineering Success Curriculum promotes successful completion of upper-division coursework by assuring a student that their foundational knowledge and skills are strong in mathematics and engineering fundamentals. AP/iB courses are excluded from the GPA calculation, but grades transferred from other institutions will be used in evaluating the ME Success Curriculum GPA.

Successful Completion

To successfully complete the Mechanical Engineering Success Curriculum, a student must earn a minimum 3.000 GPA in the following 10 courses:

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

ES1060 - Introduction to Engineering Problem Solving

Credits: 3

An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2210 - Electric Circuit Analysis

Credits: 3

Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2310 - Thermodynamics I

Credits: 3

Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2330 - Fluid Dynamics

Credits: 3

Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2410 - Mechanics of Material I

Credits: 3

Mechanics of deformable bodies, including energy methods.

Prerequisite: ES 2110 and MATH 2205 .

Policy for Transfer Credit Towards Energy Systems Engineering (ESE) Core Coursework

In general, transfer of coursework toward an Energy Systems Engineering degree will follow University of Wyoming policy. A course must be shown to be equivalent to its University of Wyoming course (latitude may be given for Energy Systems Engineering electives without a direct University of Wyoming equivalent). However, three courses are considered to be the core of the Energy Systems Engineering program, and therefore credit cannot be transferred from another institution. These courses are ESE 3020, ESE 3040, and ESE 3360. Exceptions may be made for courses from approved study abroad programs or in extreme circumstances. Please note that failing a prerequisite course resulting in a delay of graduation does not constitute an extreme circumstance. Any transfer of ESE courses requires explicit written approval from the Department.

Energy Systems Engineering Curriculum

Atmospheric Science

ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate

Credits: 3

Introduces non-specialists to the fundamental scientific principles governing climate change. The underlying physics of both human and natural contributions to global warming is presented along with uncertainties in predicting climate. Potential strategies to mitigate global warming (alternative energy, carbon capture, and geoengineering) are also discussed.

USP 2003-2014 Code U5PN

Chemistry

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

Engineering Science

ES1060 - Introduction to Engineering Problem Solving

Credits: 3

An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2210 - Electric Circuit Analysis

Credits: 3

Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2310 - Thermodynamics I

Credits: 3

Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2330 - Fluid Dynamics

Credits: 3

Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2410 - Mechanics of Material I

Credits: 3

Mechanics of deformable bodies, including energy methods.

Prerequisite: ES 2110 and MATH 2205 .

Environment and Natural Resources

ENR3000 - Approaches to ENR Problem Solving

Credits: 3

Provides an introduction to environmental and natural resources problem solving and decision making. Students learn how scholars and practitioners define and structure ENR problems for management and policy decision making.

Additionally, students learn approaches, processes and techniques that address problems analytically and in a values-oriented context.

USP 2003-2014 Code U3CS, U3WB

USP 2015 Code U5H

Former Course Number [4000]

Prerequisite: ENR 2000.

ENR4750 - ENR Law and Policy

Credits: 3

Explores the policy underpinnings of environmental and natural resource issues and the legal responses to these problems. Students will gain a basic understanding of: (1) the causes of environmental problems, including energy, water, wildlife, and other western land use issues; (2) the range of policy and instrument choices; and (3) the approaches actually taken in current laws. Students also will apply the law in an interdisciplinary, problem-based learning context.

Dual Listed ENR 5750.

Prerequisite: ENR 2000 and upper division standing or permission of instructor.

ENR4900 - Capstone in ENR

Credits: 3

An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

Dual Listed ENR 5900.
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: ENR 3000.

Math

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

Energy System Engineering

ESE3005 - Engineering Experimentation

Credits: 3

A combined lecture/laboratory course introducing students to experimental methods in the context of dynamics. Written technical communication, intermediate structured programming, experimental design, fundamental statistics, and uncertainty methods (numerical and analytical) are emphasized. Collaborative writing and teamwork is introduced.

Cross Listed ME 3005.

Former Course Number [2010; 2020]

Prerequisite: Completion of the ME Success Curriculum, ES 1060; ES 2120.

ESE3020 - System Dynamics

Credits: 3

Theoretical and experimental study of the dynamics of linear and non-linear lumped parameter models of mechanical, electrical, electronic, fluid, thermal and mixed systems.

Cross Listed ME 3020.

Prerequisite: Completion of the ME Success Curriculum, ES 2210 and MATH 2310.

ESE3040 - Thermodynamics II

Credits: 3

Consideration of advanced thermodynamic topics including Maxwell's relations, compressible flow, and combustion. Applications to design of refrigeration cycles, humidification systems, and Rankine cycles.

Cross Listed ME 3040.

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ESE3060 - Numerical Methods for Engineers

Credits: 3

Numerical solutions of problems commonly encountered in mechanical engineering including differentiation, integration, differential equations, system of linear and nonlinear equations, and optimization. The structured programming approach will be emphasized and applications from solid mechanics, thermal fluid sciences, materials science, and dynamic systems will be covered.

Cross Listed ME 3060.

Prerequisite: Completion of the ME Success Curriculum, ES 1060 and corequisite of MATH 2310.

ESE3160 - Thermal/Fluid Science Lab

Credits: 3

A laboratory course to introduce students to experimental methods for temperature measure and pressure/flow characteristics of fluids. Continuation of experience with communication (written, oral, and digital), intermediate

programming, experimental design, data analysis, and teamwork skills is emphasized.

Cross Listed ME 3160.

Former Course Number [2140; 2160]

Prerequisite: Completion of the ME Success Curriculum, ES 2330; ME 3005/ESE 3005.

ESE3360 - Fundamentals of Transport Phenomena

Credits: 3

Basic concepts of heat and mass transfer and their applications to problems involving engineering analysis and design. Topics include steady-state and transient conduction, free and forced convection (heat and mass), radiation and heat exchangers.

Cross Listed ME 3360/ARE 3360.

Prerequisite: Completion of the ME Success Curriculum, MATH 2310, ES 2310 and ES 2330.

ESE4060 - Energy Systems Design I

Credits: 3

First of a two-course design sequence constituting a capstone design experience on an energy-related project. Multidisciplinary teams prepare a project proposal or Statement of Qualifications, generate a morphological study of their project, develop mathematical models of their design, and prepare project plans and specifications. Project management and methods are also presented.

USP 2015 Code U5C3

Prerequisite: Completion of the ME Success Curriculum, ESE 3040 and ESE 3360.

ESE4070 - Energy Systems Design II

Credits: 3

Continuation of a two-course design sequence. The design teams refine their designs, fabricate the project, test the project for compliance with the design specifications, write a comprehensive engineering design report including socioeconomic factors, and prepare and deliver a presentation of the project in a public forum.

USP 2003-2014 Code U3WC

Prerequisite: Completion of the ME Success Curriculum, ME 4060/ESE 4060 and WB.

Life Sciences

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get

duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

Physics

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

Electives

- One Math/Science Elective (min 3 CH total, select from department-approved list)
- One Business Elective (min 3 CH, select from department-approved list)

(See here for Math, Science and Business Elective options: [me_math_science_business_electives_2022_02_04.pdf](#) (uwyo.edu))

ESE Electives

Two ESE Electives (min 6 CH total) choose 2 from:

ECON1300 - Oil: Business, Culture, and Power

Credits: 3

A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

ENR2000 - Environment and Society

Credits: 3

Develops understanding of the nature and dimensions of environmental and natural resource issues. Explores ways in which elements of society approach, evaluate, and develop positions relative to environmental issues. Uses case studies to illustrate the contemporary and historical role of individuals and societies in identifying and addressing environmental issues at scales ranging from local to global.

USP 2003-2014 Code U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

POLS4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.

Dual Listed POLS 5051.

USP 2003-2014 Code U3WC

Former Course Number [4050]

Prerequisite: POLS 1000.

POLS4350 - Sustainable Development and Global Policy

Credits: 3

Considers in-depth meaning of "sustainable development" and trade-offs necessary to achieve it. Considers this issue from global perspective through application of theories in economics, political science, international relations, technology studies and ethics.

Dual Listed POLS 5350.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

GEOL3500 - Global Change: A Geological Perspective

Credits: 4

Considers the geochemical and geophysical systems that control the Earth's climate, the geological and historical record of climate change, and then discusses the possible effect that human activities will have upon these chemical and geophysical systems.

Prerequisite: junior standing and an introductory class in the physical sciences.

GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge

Credits: 4

Examines the energy needs of a modern industrialized society. Looks at the types of energy, the natural laws that govern its use, transformation, and conservation. The different sources of energy available to modern societies are examined. Examination includes fossil fuels, nuclear power as well as alternative energy sources. The formation of the resource is discussed, how it is extracted, and any environmental consequences associated with its extraction and use.

USP 2003-2014 Code U3G, U3SE

USP 2015 Code U5PN

Prerequisite: completion of USP QA and L.

PETE4000 - Environment, Technology and Society

Credits: 3

Explores relationships among technology, the environment and society. Studies social and humanistic aspects of using current and future technology to understand and solve environmental problems.

Cross Listed CHE 4000.

Prerequisite: junior standing and completion of two lab sciences.

ENR4890 - Topics in Environment and Natural Resources

Credits: 1-6

Max Credit (Max. 12)

Special topics in environment and natural resources are offered under this number. The specific subject matter varies each year because the course is normally taught by faculty who wish to present a specialized topic of interest to ENR and other students. Check class schedule for specific topics offered each year.

Dual Listed ENR 5890.

Former Course Number [4990]

Prerequisite: ENR 3000 or permission of the instructor.

Technical Electives

Five Technical Electives (min 15 CH). Choose 5 from:

ARE4430 - HVAC Systems Analysis and Design

Credits: 3

Engineering design and performance analysis procedures for commercial building mechanical systems including energy conservation techniques. Relationship to aesthetic, architectural and structural elements are considered.

Cross Listed ME 4430.

When Offered (Normally offered alternate spring semesters)

Former Course Number [ARE 3420, ARE 4810]

Prerequisite: Completion of the ME Success Curriculum, ARE 3400 and ARE 3360/ME 3360 or concurrent.

ARE4740 - Mechanical Systems Design Project

Credits: 3

Final course in the building mechanical systems sequence incorporating elements of previous design courses by executing design of a hypothetical building with a concentration on a detailed design of the project's mechanical systems.

Cross Listed ARE/ME 4740

Prerequisite: ARE/CE 3110 and ARE 3400

CE3400 - Introduction to Environmental Engineering

Credits: 3

An introduction to the major topics in environmental engineering. Focus areas include water supply, wastewater treatment, air pollution control and solid and hazardous waste management. Quantitative aspects and engineering solutions to problems are emphasized.

Prerequisite: MATH 2205 and CHEM 1020 or equivalent.

CE4430 - Green Chemistry and Global Environmental Problems

Credits: 3

Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CHE 4430 /ENR 4430.

Former Course Number [3420, 2420]

Prerequisite: CHEM 1020.

ES2800 - Physical Computing

Credits: 3

Emphasizes implementing python programs on the Raspberry Pi and then interfacing with power stages, mobile platforms, sensors and input/output devices. The goal is designing systems that sense the world, make decisions based on those sensations

Prerequisite: EE 1101 or ES 2210 or concurrent enrollment in ES2210 or Consent of the Instructor

ESE4455 - Combustion Engineering

Credits: 3

The basic physics and chemistry of combustion engineering and its applications are covered, including

thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems. Cross-listed with ME 4455 and dual-listed with ME 5455.

Prerequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

ESE4461 - Computational Fluid Dynamics I

Credits: 3

Max Credit 3

An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed ME 4461

Dual Listed ME 5461

GEOL4190 - Petroleum Geology

Credits: 3

Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.

Prerequisite: GEOL 2005 or PETE 2050.

ME3400 - Heating, Ventilating and Air Conditioning of Buildings

Credits: 3

Qualitative and quantitative study in concepts of basic air-conditioning with focus on buildings including building envelope, moist air thermodynamics, human comfort, thermal load calculations, thermal behavior of buildings, HVAC systems/ equipment, and design of space air-conditioning and its relationship to architectural design.

Cross Listed ARE 3400

Prerequisite: ES 2310, ARE 2410 or ME 3360, ES 2330 or concurrent enrollment.

ME3450 - Properties of Materials

Credits: 3

Mechanical, electrical, thermal and chemical properties of materials. Theoretical treatment of structure of solids and design for specified properties.

When Offered (Normally offered spring semester)

Former Course Number [ES 3450]

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented..

Cross Listed ESE 4470

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

ME4460 - Solar and Geothermal Engineering

Credits: 3

An introduction to the engineering of solarpowered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ESE 4460

Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ME4340 - Gas Turbine Engines

Credits: 3

Thermodynamic analysis and design of ground-based and aero-propulsion gas turbine engines.

Prerequisite: Completion of the ME Success Curriculum, ES 2310 and ES 2330.

PETE2050 - Fundamentals of Petroleum Engineering

Credits: 3

General introduction to petroleum engineering, including petroleum geology, exploration, reservoir rocks, and fluid flow through porous media, drilling fundamentals, completion technology, well logging and testing, methods of production, stimulation methods, enhanced oil recovery, reserves and economics.

Prerequisite: grade of C or better in both MATH 2205 and PETE 1060.

Universities Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Notes:

- i. Before enrolling in any upper division ESE or ME course, students must complete the ME Success Curriculum (minimum 3.000 GPA in MATH 2200, MATH 2250, MATH 2210, and the seven ES courses).
- ii. Graduates must meet all college requirements and earn a minimum GPA of 2.000 in ME and ESE courses taken at UW. A minimum of 48 hours of upper division coursework are required, so ESE, business, and technical electives should be chosen appropriately.

Program Educational Objectives

- Successfully practice the profession of engineering
- Demonstrate career growth (e.g., increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees)
- Apply energy systems engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts
- Successfully serve in a range of leadership and collaborative roles in the profession and in the community
- Exhibit high professional standards and commitment to ethical action

Energy Systems Student Outcomes

The Department's Student Outcomes are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors

3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Mechanical Engineering, B.S.

Mechanical Engineers design, develop, build, and test mechanical and thermal systems and devices in a wide range of fields including energy, manufacturing, materials, machines, and more. The UW BS in Mechanical Engineering is ABET accredited.

Mechanical Engineering Success Curriculum

All undergraduate students in the B.S. Mechanical Engineering and B.S. Energy Systems Engineering programs must successfully complete the Mechanical Engineering Success Curriculum prior to enrolling in any upper-division (3000-level or above) courses taught by the Mechanical Engineering Department. The Mechanical Engineering Success Curriculum promotes successful completion of upper-division coursework by assuring a student that their foundational knowledge and skills are strong in mathematics and engineering fundamentals. AP/iB courses are excluded from the GPA calculation, but grades transferred from other institutions will be used in evaluating the ME Success Curriculum GPA.

Successful Completion

To successfully complete the Mechanical Engineering Success Curriculum, a student must earn a minimum 3.000 GPA in the following 10 courses:

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

ES1060 - Introduction to Engineering Problem Solving

Credits: 3

An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2210 - Electric Circuit Analysis

Credits: 3

Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2310 - Thermodynamics I

Credits: 3

Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2330 - Fluid Dynamics

Credits: 3

Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2410 - Mechanics of Material I

Credits: 3

Mechanics of deformable bodies, including energy methods.

Prerequisite: ES 2110 and MATH 2205 .

Policy for Transfer Credit Towards Mechanical Engineering (ME) Core Coursework

In general, transfer of coursework towards a Mechanical Engineering degree will follow University of Wyoming policy. A course must be shown to be equivalent to its University of Wyoming course (latitude may be given for Mechanical Engineering electives without a direct University of Wyoming equivalent). However, six courses are considered to be the core of the Mechanical Engineering program, and therefore credit cannot be transferred from another institution. These courses are ME 3010, ME 3020, ME 3040, ME 3170, ME 3360, and ME 3450. Exceptions may be made for courses from approved study abroad programs or in extreme circumstances. Please note that failing a prerequisite course resulting in a delay of graduation does not constitute an extreme circumstance. Any transfer of ME courses requires explicit written approval from the Department.

Mechanical Engineering Curriculum

Chemistry

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM

1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

Engineering Science

ES1060 - Introduction to Engineering Problem Solving

Credits: 3

An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2210 - Electric Circuit Analysis

Credits: 3

Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2310 - Thermodynamics I

Credits: 3

Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2330 - Fluid Dynamics

Credits: 3

Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2410 - Mechanics of Material I

Credits: 3

Mechanics of deformable bodies, including energy methods.

Prerequisite: ES 2110 and MATH 2205 .

ES2800 - Physical Computing

Credits: 3

Emphasizes implementing python programs on the Raspberry Pi and then interfacing with power stages, mobile platforms, sensors and input/output devices. The goal is designing systems that sense the world, make decisions based on those sensations

Prerequisite: EE 1101 or ES 2210 or concurrent enrollment in ES2210 or Consent of the Instructor

Math

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

Mechanical Engineering

ME3005 - Engineering Experimentation

Credits: 3

A combined lecture/laboratory course introducing students to experimental methods in the context of dynamics. Written technical communication, intermediate structured programming, experimental design, fundamental statistics, and uncertainty methods (numerical and analytical) are emphasized. Collaborative writing and teamwork is introduced.

Cross Listed ESE 3005

Former Course Number [2010; 2020]

Prerequisite: Completion of the ME Success Curriculum, ES 1060, ES 2120.

ME3010 - Intermediate Mechanics of Materials

Credits: 3

Expansion of the principles of solid mechanics: stress, strain, principal stresses, elastic and plastic behavior, failure theories and the use of energy methods. Analysis and design of thick-walled pressure vessels, noncircular cross sections under torsion, nonsymmetric beams under bending and curved beams.

Prerequisite: Completion of the ME Success Curriculum, ES 2410.

ME3020 - System Dynamics

Credits: 3

Theoretical and experimental study of the dynamics of linear and non-linear lumped parameter models of mechanical, electrical, electronic, fluid, thermal and mixed systems.

Cross Listed ESE 3020

Prerequisite: Completion of the ME Success Curriculum, ES 2210 and MATH 2310.

ME3040 - Thermodynamics II

Credits: 3

Consideration of advanced thermodynamic topics including Maxwell's relations, compressible flow, and combustion. Applications to design of refrigeration cycles, humidification systems, and Rankine cycles.

Cross Listed ESE 3040

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME3060 - Numerical Methods for Engineers

Credits: 3

Numerical solutions of problems commonly encountered in mechanical engineering including differentiation, integration, differential equations, system of linear and nonlinear equations, and optimization. The structured programming approach will be emphasized and applications from solid mechanics, thermal fluid sciences, materials science, and dynamic systems will be covered.

Cross Listed ESE 3060

Prerequisite: Completion of the ME Success Curriculum, ES 1060, and MATH 2310 or concurrent enrollment.

ME3160 - Thermal/Fluid Science Lab

Credits: 3

A laboratory course to introduce students to experimental methods for temperature measure and pressure/flow characteristics of fluids. Continuation of experience with communication (written, oral, and digital), intermediate programming, experimental design, data analysis, and teamwork skills is emphasized.

Cross Listed ESE 3160

Former Course Number [2140; 2160]

Prerequisite: Completion of the ME Success Curriculum, ES 2330; ME 3005/ESE 3005.

ME3170 - Machine Design

Credits: 3

Application of engineering mechanics and materials science to the analysis and design of mechanical components such as bolted connections, springs, gears, bearings and shafts. Design for dynamic loading conditions. Principles of hydrodynamic lubrication. Introduction to computer-aided design. Case studies with appropriate topics.

Prerequisite: Completion of the ME Success Curriculum, ES 2410.

ME3360 - Fundamentals of Transport Phenomena

Credits: 3

Basic concepts of heat and mass transfer and their applications to problems involving engineering analysis and design. Topics include steady-state and transient conduction, free and forced convection (heat and mass), radiation and heat exchangers.

Cross Listed ARE 3360/ESE 3360

Prerequisite: Completion of the ME Success Curriculum, MATH 2310, ES 2310, and ES 2330.

ME3450 - Properties of Materials

Credits: 3

Mechanical, electrical, thermal and chemical properties of materials. Theoretical treatment of structure of solids and design for specified properties.

When Offered (Normally offered spring semester)

Former Course Number [ES 3450]

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME4060 - Systems Design I

Credits: 3

First of a two-course design sequence constituting a capstone design experience. Student multidisciplinary teams prepare a project proposal or SOQ, generate a morphological study of their project and prepare project plans and specifications. Project management methods are also presented.

USP 2015 Code U5C3

Former Course Number [3070]

Prerequisite: Completion of the ME Success Curriculum, ME 3010 (or concurrent enrollment), ME 3170, and ME 3360/ESE 3360/ARE 3360.

ME4070 - Systems Design II

Credits: 3

Continuation of a two-course design sequence. The design teams refine their designs, fabricate the project, test the project for compliance with the design specifications, write a comprehensive engineering design report including socioeconomic factors, and prepare and deliver a presentation of the project in a public forum.

USP 2003-2014 Code U3WC

Prerequisite: Completion of the ME Success Curriculum, ME 4060/ESE 4060 and WB.

ME4150 - Mechanical Behavior of Materials

Credits: 3

Commonly encountered phenomenological and mechanistic behaviors that lead to mechanical failure are examined. Understanding the origin of mechanical failure of components allows for robust design of mechanical systems. Metallic, polymeric, and ceramic materials are covered.

Prerequisite: Completion of the ME Success Curriculum, ME 3450.

Physics

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PHYS2310 - Physics III: Waves and Optics

Credits: 4

Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

OR

PHYS2320 - Physics IV: Modern Physics

Credits: 3

Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

OR

CHEM1030 - General Chemistry II

Credits: 4

Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and

organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: CHEM 1020.

Electives

- Four ME Electives (min 12 CH total, any upper division ME course or EE 4620)
- Two Math/Science Electives (min 6 CH total, select from department-approved list)
- One Business Elective (min 3 CH, select from department-approved list)
- One Technical Elective (min 3 CH, any engineering, math/science or business course approved by the ME Dept)

(See here for Math, Science and Business Elective options: [me_math_science_business_electives_2022_02_04.pdf](#) (uwo.edu))

EE4620 - Automatic Control Systems

Credits: 3

Control theory and design methods focused on application. Feedback. Performance limits. Routh-Hurwitz, root locus, Nyquist. Nonminimum-phase systems. State feedback. Proportional-Integral-Derivative control. Lead/lag. High-order compensation. Discrete controllers.

Prerequisite: EE 2220 or ME 3020.

ME4010 - Mechanical Vibrations

Credits: 3

The theory of single and multi-degree-of-freedom systems with an introduction to continuous systems. Determination of equations of motion, including natural frequency for free vibration and amplitude of forced vibration. Design of discrete and continuous systems for transient and harmonic excitations.

When Offered (Normally offered fall semester)

Prerequisite: Completion of the ME Success Curriculum, ES 2120, ES 2410, and MATH 2310.

ME4020 - Design of Mechanical/Electronic Systems

Credits: 3

Theoretical and experimental study of sensors and actuators, interfacing sensors and actuators to a microcomputer, discrete and continuous controller design, analog and digital electronics, and real-time programming for control.

Prerequisite: Completion of the ME Success Curriculum, ME 3020.

ME4040 - Introduction to Finite Elements

Credits: 3

An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. The course includes development of the underlying matrix equations, the treatment of element generation and properties, and implementation of boundary conditions.

Dual Listed ME 5040.

Prerequisite: Completion of the ME Success Curriculum, MATH 2310 and (CE 4200/ARE 4200 or MATH 2250 or ME 3010 or ME 3060).

ME4100 - Manufacturing Processes

Credits: 3

Details of manufacturing processes used in production of metal, plastic and ceramic components with an emphasis on science and mechanics of processes.

Prerequisite: Completion of the ME Success Curriculum, ME 3010 and ME 3450.

ME4200 - Thermo/Kinetics of Materials

Credits: 3

Introduction to the foundations of thermodynamics and kinetics of materials, including Gibbs free energy, ideal solutions, alloy ordering, phase diagrams, atomistic mechanisms of diffusion, interfaces and microstructure, grain growth, solidification, and diffusional and diffusionless transformation in solids.

Dual Listed ME 5200.

Prerequisite: ME 3450

ME4210 - Introduction to Composite Materials

Credits: 3

Applications, mechanical properties and fabrication of fiber reinforced composite materials; stress analysis of laminated, anisotropic composite structures; study of special problems unique to composites.

Prerequisite: Completion of the ME Success Curriculum, ME 3010.

ME4215 - Composite Materials Design and Manufacturing

Credits: 3

Introduction to composite material manufacturing processes. Aspects of constituent material production, as well as design, fabrication, and testing of composite materials. Laboratory exercises, such as laminating, filament winding, pultrusion and compression molding.

Prerequisite: Completion of the ME Success Curriculum, ME 4210.

ME4240 - Gas Dynamics I

Credits: 3

Thermodynamics of a compressible fluid; one-dimensional isentropic flow, normal and oblique shocks, expansion wave, flows with friction and heat transfer.

Prerequisite: Completion of the ME Success Curriculum, ES 2310 and ES 2330.

ME4340 - Gas Turbine Engines

Credits: 3

Thermodynamic analysis and design of ground-based and aero-propulsion gas turbine engines.

Prerequisite: Completion of the ME Success Curriculum, ES 2310 and ES 2330.

ME4350 - Airplane Aerodynamics and Flight

Credits: 3

Introduces students to the fundamentals of airfoil and wing design, airplane aerodynamics, and airplane stability. Links these fundamental ideas to the design and performance of real aircraft.

Prerequisite: Completion of the ME Success Curriculum, ES 2330.

ME4430 - HVAC Systems Analysis and Design

Credits: 3

Engineering design and performance analysis procedures for commercial building mechanical systems including energy conservation techniques. Relationship to aesthetic, architectural and structural elements are considered.

Cross Listed ARE 4430

Prerequisite: ARE 3400/ME 3400 and ARE 3360/ME 3360 or concurrent.

ME4450 - Principles of Materials Selection

Credits: 3

A review of the economic and engineering aspects of materials selection. A detailed study of the properties, applications and limitations of engineering materials systems. Emphasis is on metal alloy systems, but non-metallics are included. Forming and joining processes are outlined.

Former Course Number [3110]

Prerequisite: Completion of the ME Success Curriculum, ME 3450

ME4455 - Combustion Engineering

Credits: 3

The basic physics and chemistry of combustion engineering and its applications are covered, including

thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems.

Dual Listed ESE 4455

Prerequisite/Corequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

ME4460 - Solar and Geothermal Engineering

Credits: 3

An introduction to the engineering of solarpowered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ESE 4460

Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ME4461 - Computational Fluid Dynamics I

Credits: 3

Max Credit 3

An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed Cross-list with ME 4461

Dual Listed dual list with ME 5461

Prerequisite: ME Success Curriculum; ME/ESE 3060 - Numerical Methods; ME/ESE 3360 - Transport Phenomena

ME4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented..

Cross Listed ESE 4470

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

Universities Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3

Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Notes:

- i. Before enrolling in any upper division ESE or ME course, students must complete the ME Success Curriculum (minimum 3.000 GPA in MATH 2200, MATH 2250, MATH 2210, and the seven ES courses).
- ii. ES 2800 is NOT a part of the MESC
- iii. Graduates must meet all college requirements and earn a minimum GPA of 2.000 in ME and ESE courses taken at UW. A minimum of 48 hours of upper division coursework are required, so ME, business, and technical electives should be chosen appropriately.

Mechanical Engineering Program Educational Objectives

- Successfully practice the profession of engineering
- Demonstrate career growth (e.g. increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees).
- Apply Mechanical Engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts.
- Successfully serve in a range of leadership and collaborative roles in the profession in the community.
- Exhibit high professional standards and commitment to ethical action.

Mechanical Engineering Program Student Outcomes

The Department's Student Outcomes are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
3. An ability to communicate effectively with a range of audiences

4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Graduate

Mechanical Engineering, M.S.

The UW Mechanical Engineering MS program offers two options: thesis (Plan A) or non-thesis (Plan B). Both tracks offer opportunities to take graduate coursework in topics of thermal fluids, materials, experimentation, computational tools, and more.

Program Specific Degree Requirements

Plan A (Thesis)

A thesis project is chosen in consultation with an ME faculty member, and constitutes 4 credit hours of ME 5960 in the 30-hour Plan A program. ME 5478 (Seminar) is to be taken during the final semester when the thesis is presented and defended, and constitutes 2 credit hours of the 30-hour Plan A program. Classes must meet the following constraints:

- ME courses (5000-level): minimum of 15 hours
- A maximum of 9 credits at the 4000 level outside of ME may be taken
- Thesis research (ME 5960): 4 credit hours
- Seminar (ME 5478): 2 credit hours
- Total: Minimum of 30 CH.

Courses outside of ME must be chosen with the approval of the academic adviser. They can be in mathematics, statistics, science, or other engineering disciplines. Up to two courses may be from the fields of business, ENR, or public policy. Special topic credits may be earned using ME 5475 (maximum of 6 credits).

Plan B (Non-Thesis)

The Plan B M.S. degree can be completed by earning a minimum of 31 credits beyond the baccalaureate degree. Classes must meet the following constraints:

- ME courses (5000-level): minimum of 15 hours
- A maximum of 9 credits at the 4000 level outside of ME may be taken
- Graduate Project (ME 5961): minimum of 1 hour
- Total: minimum of 31 hours

Courses outside of ME must be chosen with the approval of the academic adviser. They can be in mathematics, statistics, science, or other engineering disciplines. Special topic credits may be earned using ME 5475 (maximum of 6 credits). Research credits earned through ME 5960 as part of an unfinished M.S. Plan A program may not be

counted. Although the Plan B M.S. degree is not research-oriented, the program must contain an "element of discovery," documented by completing ME 5961 (Graduate Project). This could be a special project performed as independent study or as part of a graduate course.

MS-ME/MBA Dual Program

The UW Mechanical Engineering MS/MBA program offers the opportunity to pursue MS and MBA degrees simultaneously and reduce course requirements by applying course credit towards both degrees. There are thesis and non-thesis options for the MS degree.

MS-ME/MBA Program Requirements

The MS-ME component is typically a non-thesis option. An additional 21 credits in engineering, science or mathematics must be earned beyond the BS degree. At least 15 credits of graduate course work must be at the 5000-level from ME. The following MBA courses will be counted towards the MS-ME degree and constitute 9 credit hours of the 30 hours MS-ME program

Choose two of the following courses:

MBAM5103 - Business Research Methods

Credits: 3

An overview of the scientific research process applied in the context of business. Topics include problem definition, selection of a methodological approach, design and implementation of field work (qualitative and survey methods), analysis techniques (thematic analysis for qualitative research and statistical analysis for survey research, and communicating results.

Prerequisite: Admission to the MBAM program.

MBAM5202 - Data and Decision Modeling

Credits: 3

This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Prerequisite: Admission to the MBAM program.

MBAM5301 - MBA Summer Project

Credits: 3

Serves as an externship for individual MBA students or MBA teams to work with a client on a business issue under the supervision of a qualified faculty member in the College of Business.

Prerequisite: Completion of the first-year (Fall & Spring semester) on campus MBA courses.

MBAM5501 - Energy Economics and Policy

Credits: 3

Applies the tools of economic analysis to attain and understanding of energy markets and energy policy analysis. Sec. 1 Overviews the major energy and environmental policy issues facing the United States and the world. Sec 2 Determinants of energy demand. Sec. 3 Technologies and costs to produce and deliver energy. Sec. 4 Determinants of energy price.

Prerequisite: Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

MBAM5503 - Fundamentals of Accounting in the Energy Industry

Credits: 3

Introduces students to basic financial accounting and reporting issues related to energy producing activities. Specifically, the course will investigate current accounting practices of energy producing companies related to exploration, acquisition, development, and delivery of energy products. The course will also cover financial requirements of the Financial Accounting Standards Board (FASB), the International Accounting Standards Board (IASB), and the Securities and Exchange Commission (SEC).

Cross Listed ACCT 5503.

Prerequisite: Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

MBAM5506 - Energy Finance: Securities, Hedging, and Trading

Credits: 3

Overview of security analysis applied to energy firms, hedging strategies, and trading activities in energy markets. Trading activities covered include the use of forward and futures contracts, swaps, options, and related derivatives.

Prerequisite: Permission of MBA Program Director.

MBAM5508 - Marketing and Sustainable Consumption

Credits: 3

Focuses on understanding household and business energy consumption. Emphasizes the environmental, economic, social and psychological influences on consumer decision making and sustainable consumption. Course deals with developing customer value propositions, and for marketing strategy development in branding, product-line offerings, pricing, retailing and distribution, and public policy.

Prerequisite: Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

MGT5504 - Energy Industry Value Chain

Credits: 3

Examines the overall energy industry with detailed exploration of the major energy subsectors and supply chains. Students will develop knowledge of the energy industry value chain including coverage of market dynamics, prevalent strategies, finance, operations, externalities and network effects, environmental and ethical considerations, and associated policy issues.

Restricted Admitted to CERT-MBAE or MBA-MBA.

Prerequisite: Admission to the MBA or Energy Business certificate program, or permission of the MBA Program Director

Required course:

MBAM5305 - Strategic Management

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

Prerequisite: Admission to the MBAM program. #304.

MS-ME/MBA Thesis Option

For a thesis option, students will only count one MBAM course from the above list and are required to complete 4 credits of ME 5960 and 2 credits for ME 5478, similar to the Plan A option.

Mechanical Engineering Graduate Level Courses

ME5040 - Introduction to Finite Element Analysis

Credits: 3

An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. Includes development of the underlying matrix equations, the treatment of element generation and properties, and implementation of boundary conditions.

Dual Listed ME 4040

Prerequisite: MATH 2310 and (CE 4200 or ARE 4200 or ME 3010)

ME5045 - Advanced Finite Element Analysis

Credits: 3

Advanced topics in finite element analysis with emphasis on mathematical foundations of the method, numerical algorithms for software implementation, and analysis of problems with material and geometric nonlinear behavior.

Cross Listed CE 5045

Prerequisite: ME 4040 or ME 5040 or CE 5040.

ME5200 - Thermo/Kinetics of Materials

Credits: 3

Introduction to the foundations of thermodynamics and kinetics of materials, including Gibbs free energy, ideal solutions, alloy ordering, phase diagrams, atomistic mechanisms of diffusion, interfaces and microstructure, grain growth, solidification, and diffusional and diffusionless transformation in solids.

Dual Listed ME 4200

Prerequisite: ME 3450

ME5432 - Advanced Materials Science

Credits: 3

An analysis of the relationships between the structures of materials and their mechanical and physical properties, leading to the application of these relationships to the design of materials for advanced engineering systems. Topics include crystallography, lattice defects, transport phenomena, phase transformations, fracture, environmental effects, and control of microstructure by processing.

Prerequisite: ME 3450

ME5434 - Computational Materials Science

Credits: 3

Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

Prerequisite: graduate standing.

ME5435 - Failure of Engineering Materials

Credits: 3

Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

Prerequisite: ME 3450 or equivalent.

ME5438 - Plasticity and Viscoelasticity

Credits: 3

Analysis of stress and deformation of idealized plastic and viscoelastic solids. Limit theorems in plasticity. Time-dependent behavior of viscoelastic materials.

Prerequisite: ME 5472 or equivalent.

ME5440 - Fluid Mechanics

Credits: 3

Lagrangian and Eulerian descriptions, conservation laws, stress and rate-of-stress tensors, Navier-Stokes equations,

energy equations, vorticity and circulation inviscid and potential flows, laminar flows, turbulent flows, boundary-layer theory.

Cross Listed CHE 5440.

ME5442 - Advanced Fluid Mechanics

Credits: 3

Introduction to inviscid and viscous hydrodynamic stability; closure in turbulent flows; vorticity and vortex dynamics, theoretical aerodynamics, numerical simulations of viscous flows, experimental methods in fluid flows.

Prerequisite: ME 5440.

ME5446 - Turbulence

Credits: 3

Basic notions, properties and scales in turbulent flows. Transport equations; Reynold's stresses, mixing and phenomenological theories. Turbulence dynamics; mean and fluctuating kinetic energy balances, vorticity and temperature fluctuations. Statistical description of turbulence; correlations and spectra, transport, isotropy and homogeneity. Shear flows; plane jets, wakes and boundary layers (including planetary). Turbulent diffusion.

Cross Listed CHE 5446.

Prerequisite: ME 5440.

ME5448 - Experimental Fluid Dynamics.

Credits: 3

Provides an introduction to the design of fluid dynamics experiments. Specific instrumentation will be discussed and methods of analyzing and assessing data will be presented.

Prerequisite: graduate standing.

ME5452 - Convection Heat Transfer

Credits: 3

Convection, including heat and momentum transfer. Boundary layer theory. Laminar and turbulent flows, steady and unsteady formulations including differential and integral descriptions. High velocity, compressible systems.

Cross Listed CHE 5452.

Prerequisite: ES 3360 or consent of instructor.

ME5461 - Computational Fluid Dynamics I

Credits: 3

An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical

stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed Dual list with ME 4461 and ESE 4461

Prerequisite: graduate standing

ME5462 - Computational Fluid Dynamics II

Credits: 3

A study of advanced techniques in modern-day scientific computing as applied to Computational Fluid Dynamics. These include unstructured mesh generation using Delaunay triangulation, searching and sorting techniques, and efficient data structures. Other topics cover efficient hardware implementation including cache-effects and parallel computing and sensitivity analysis for design optimization.

Prerequisite: ME 5461

ME5472 - Continuum Mechanics

Credits: 3

The basic laws of the physical behavior of continuous media. Stress and deformation at a point; fundamental equations of balance of mass, momentum, and energy; second law of thermodynamics; curvilinear coordinate analysis. Applications to linear elasticity and fluid mechanics.

Prerequisite: graduate standing.

ME5478 - Seminar in Mechanical Engineer

Credits: 2

Prerequisite: graduate standing in engineering.

ME5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

ME5961 - Graduate Projects

Credits: 1-4

Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly

activities in support of their Plan B project. Prerequisites: enrollment in Plan B program and have departmental approval.

ME5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Mechanical Engineering, Ph.D.

The UW Mechanical Engineering PhD program includes coursework and a substantial research component. Research is performed with an advisor, and a dissertation is produced. Program requirements include Qualifying, Preliminary, and Final Examinations.

Program Requirements

For students of outstanding academic ability and with demonstrated capacity for undertaking independent research on advanced engineering problems, the Ph.D. program in mechanical engineering is offered. The Ph.D. requires a minimum of 72 graduate hours, at least 42 of which must be earned in formal coursework. In addition to coursework requirements, graduate students pursuing a Ph.D. in Mechanical Engineering must complete three examinations: Qualifying, Preliminary, and Final.

Classes must meet the following constraints:

- A minimum of 24 in-resident coursework hours is required
- ME courses (5000-level): minimum of 15 hours
- A maximum of 9 credits at the 4000 level outside of ME may be taken

All graduate students in Mechanical Engineering are expected to follow the graduate education policies of the College of Engineering and Applied Sciences.

Qualifying Exam

In consultation with their advisor, students are allowed to take the Qualifying Exam after declaring pursuit of a Ph.D. degree. Graduate students do not require a M.S. to take the Qualifying Exam. The format is a knowledge-based examination consisting of three subject areas, each with both a written and an oral component. The candidate will be evaluated for each subject area, based on the cumulative performance in both (written and oral) components. Should the student fail a single subject area, at the discretion of the committee, they may repeat the failed portion at the next available opportunity. A third attempt is not permitted. The successful completion of the Qualifying Exam is required before the Preliminary Exam.

Preliminary & Final Exam

The purpose of the Preliminary Exam is to evaluate the aptitude of the Ph.D. candidate to perform research based on preliminary results, and to assess the student's plan for completing the research necessary for the Final Exam. The

Preliminary Exam follows university regulations and, at a minimum, consists of a seminar attended by the student's committee members.

The purpose of the Final Exam is to ensure the Ph.D. candidate has sufficient accomplishments to be awarded a Ph.D. The Final Exam consists of an oral defense of the dissertation in accordance with university policy.

Mechanical Engineering Graduate Level Courses

ME5045 - Advanced Finite Element Analysis

Credits: 3

Advanced topics in finite element analysis with emphasis on mathematical foundations of the method, numerical algorithms for software implementation, and analysis of problems with material and geometric nonlinear behavior.

Cross Listed CE 5045

Prerequisite: ME 4040 or ME 5040 or CE 5040.

ME5040 - Introduction to Finite Element Analysis

Credits: 3

An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. Includes development of the underlying matrix equations, the treatment of element generation and properties, and implementation of boundary conditions.

Dual Listed ME 4040

Prerequisite: MATH 2310 and (CE 4200 or ARE 4200 or ME 3010)

ME5200 - Thermo/Kinetics of Materials

Credits: 3

Introduction to the foundations of thermodynamics and kinetics of materials, including Gibbs free energy, ideal solutions, alloy ordering, phase diagrams, atomistic mechanisms of diffusion, interfaces and microstructure, grain growth, solidification, and diffusional and diffusionless transformation in solids.

Dual Listed ME 4200

Prerequisite: ME 3450

ME5432 - Advanced Materials Science

Credits: 3

An analysis of the relationships between the structures of materials and their mechanical and physical properties, leading to the application of these relationships to the design of materials for advanced engineering systems. Topics include crystallography, lattice defects, transport phenomena, phase transformations, fracture, environmental effects, and control of microstructure by processing.

Prerequisite: ME 3450

ME5434 - Computational Materials Science

Credits: 3

Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

Prerequisite: graduate standing.

ME5435 - Failure of Engineering Materials

Credits: 3

Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

Prerequisite: ME 3450 or equivalent.

ME5438 - Plasticity and Viscoelasticity

Credits: 3

Analysis of stress and deformation of idealized plastic and viscoelastic solids. Limit theorems in plasticity. Time-dependent behavior of viscoelastic materials.

Prerequisite: ME 5472 or equivalent.

ME5440 - Fluid Mechanics

Credits: 3

Lagrangian and Eulerian descriptions, conservation laws, stress and rate-of-stress tensors, Navier-Stokes equations, energy equations, vorticity and circulation inviscid and potential flows, laminar flows, turbulent flows, boundary-layer theory.

Cross Listed CHE 5440.

ME5442 - Advanced Fluid Mechanics

Credits: 3

Introduction to inviscid and viscous hydrodynamic stability; closure in turbulent flows; vorticity and vortex dynamics, theoretical aerodynamics, numerical simulations of viscous flows, experimental methods in fluid flows.

Prerequisite: ME 5440.

ME5446 - Turbulence

Credits: 3

Basic notions, properties and scales in turbulent flows. Transport equations; Reynold's stresses, mixing and phenomenological theories. Turbulence dynamics; mean and fluctuating kinetic energy balances, vorticity and

temperature fluctuations. Statistical description of turbulence; correlations and spectra, transport, isotropy and homogeneity. Shear flows; plane jets, wakes and boundary layers (including planetary). Turbulent diffusion.

Cross Listed CHE 5446.

Prerequisite: ME 5440.

ME5448 - Experimental Fluid Dynamics.

Credits: 3

Provides an introduction to the design of fluid dynamics experiments. Specific instrumentation will be discussed and methods of analyzing and assessing data will be presented.

Prerequisite: graduate standing.

ME5452 - Convection Heat Transfer

Credits: 3

Convection, including heat and momentum transfer. Boundary layer theory. Laminar and turbulent flows, steady and unsteady formulations including differential and integral descriptions. High velocity, compressible systems.

Cross Listed CHE 5452.

Prerequisite: ES 3360 or consent of instructor.

ME5455 - Combustion Engineering

Credits: 3

The basic physics and chemistry of combustion engineering and its applications are covered, including thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems.

Dual Listed ME 4455 ESE 4455

Prerequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

ME5461 - Computational Fluid Dynamics I

Credits: 3

An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed Dual list with ME 4461 and ESE 4461

Prerequisite: graduate standing

ME5462 - Computational Fluid Dynamics II

Credits: 3

A study of advanced techniques in modern-day scientific computing as applied to Computational Fluid Dynamics. These include unstructured mesh generation using Delaunay triangulation, searching and sorting techniques, and efficient data structures. Other topics cover efficient hardware implementation including cache-effects and parallel computing and sensitivity analysis for design optimization.

Prerequisite: ME 5461

ME5472 - Continuum Mechanics

Credits: 3

The basic laws of the physical behavior of continuous media. Stress and deformation at a point; fundamental equations of balance of mass, momentum, and energy; second law of thermodynamics; curvilinear coordinate analysis. Applications to linear elasticity and fluid mechanics.

Prerequisite: graduate standing.

ME5474 - Energy Methods

Credits: 3

Introduction to variational calculus with applications in solid mechanics. The basic theorems of virtual work, minimum potential energy, and complementary energy are developed. Direct methods such as Castigliano's theorem as well as the approximate methods of Ritz and Galerkin are developed and used to obtain solutions for a variety of problems in solid mechanics.

Prerequisite: ME 3010

ME5478 - Seminar in Mechanical Engineer

Credits: 2

Prerequisite: graduate standing in engineering.

ME5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

QuickStart Program

Mechanical Engineering Quick Start, B.S./M.S.

The UW Mechanical Engineering BS/MS QuickStart program offers Mechanical Engineering and Energy Systems Engineering undergraduate students the opportunity to start on MS graduate coursework early and gain credit towards BS and MS degree requirements.

Requirements for Admission

Through judicious choice of undergraduate electives, this program allows double-counting up to two 5000-level courses from the B.S. program toward M.S. degree requirements, thus reducing the time requirement for completing an M.S. degree. Students can apply for admission to the B.S./M.S. program by achieving junior status and meeting the following requirements for admission:

- completion of the four core ME courses (listed below),
- a minimum overall GPA of 3.250,
- a minimum GPA of 3.250 in ME courses, and
- a minimum of three letters of recommendation (at least two must be from ME faculty at UW).

Core Mechanical Engineering Courses

Completion of the following four ME courses is required for admission.

ME3010 - Intermediate Mechanics of Materials

Credits: 3

Expansion of the principles of solid mechanics: stress, strain, principal stresses, elastic and plastic behavior, failure theories and the use of energy methods. Analysis and design of thick-walled pressure vessels, noncircular cross sections under torsion, nonsymmetric beams under bending and curved beams.

Prerequisite: Completion of the ME Success Curriculum, ES 2410.

ME3020 - System Dynamics

Credits: 3

Theoretical and experimental study of the dynamics of linear and non-linear lumped parameter models of mechanical, electrical, electronic, fluid, thermal and mixed systems.

Cross Listed ESE 3020

Prerequisite: Completion of the ME Success Curriculum, ES 2210 and MATH 2310.

ME3040 - Thermodynamics II

Credits: 3

Consideration of advanced thermodynamic topics including Maxwell's relations, compressible flow, and combustion. Applications to design of refrigeration cycles, humidification systems, and Rankine cycles.

Cross Listed ESE 3040

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME3360 - Fundamentals of Transport Phenomena

Credits: 3

Basic concepts of heat and mass transfer and their applications to problems involving engineering analysis and design. Topics include steady-state and transient conduction, free and forced convection (heat and mass), radiation and heat exchangers.

Cross Listed ARE 3360/ESE 3360

Prerequisite: Completion of the ME Success Curriculum, MATH 2310, ES 2310, and ES 2330.

Additional Information

Students must maintain a GPA of at least 3.250 in their undergraduate and at least 3.000 in their graduate coursework in order to remain in good standing in the program. Not meeting the GPA requirement places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be dismissed from the Quick Start program. Transfer students must have taken courses equivalent to the ME core courses. Transfer students must have also completed at least 15 credit hours of courses at UW in order to be eligible for admission.

Until a student in this program has completed a total of 131 credit hours of courses applicable to the B.S. degree in Mechanical Engineering, or a total of 129 credit hours of courses applicable to the B.S. degree in Energy Systems Engineering, he/she will be governed by the regulations applicable to undergraduate students in the Department. After a student has accumulated a total of 131 or 129 applicable credit hours, he/she will be governed by the regulations applicable to any graduate student in the ME department. These regulations include the requirement that every student must take the GRE general examination. It is the intention of the department that, to the degree possible, a student in this program is treated on the same basis as any other student in the department at a comparable stage of his/her academic career.

As many as 6 credit hours of ME department courses at the 5000 level may be counted towards both the undergraduate degree requirements and the requirements for the MS degree. In principle, therefore, the minimum number of course credit hours required for the BS/MS degrees will be 151 for Plan A students (+ 4 additional hours of thesis research) or 156 for Plan B students (non-thesis option).

Department of Petroleum Engineering

4015 Engineering Building, (307) 766-4258

Web site: www.uwyo.edu/petroleum

Department Head: Dennis Coon, Ph.D., Interim

Professors:

HERTANTO ADIDHARMA, B.Sc. Institute of Technology, Surabaya 1987; Ph.D. Louisiana State University 1999; Professor of Chemical Engineering 2019.

MAOHONG FAN, B.S. Wuhan University of Science and Engineering 1984; M.S. Beijing University of Science and Tech. 1992; Ph.D. Chinese Academy of Sciences 1997; Ph.D. Iowa State University 2000; Ph.D. Osaka University 2003; Professor of Chemical Engineering 2014.

KHALED A.M. GASEM, B.Sc. University of California at Berkeley 1976; M.Sc. Colorado School of Mines 1979; Ph.D. Oklahoma State University 1986; Professor of Chemical Engineering 2014.

LAMIA GOUAL, B.Sc. Ecole Nationale Polytechnique 1993; M.Sc. Imperial College, London 1998; Ph.D. 2003; Professor of Petroleum Engineering 2021.

MOHAMMAD PIRI, B.Sc. Azad University, Arak 1995; M.Sc. Azad University, Tehran 1998; M.Sc. Imperial College, London 2000; Ph.D. 2004; Professor of Petroleum Engineering 2018.

Associate Professors:

PEJMAN TAHMASEBI, B.S. Sahand University of Technology 2007; M.Sc. Amirkabir University 2009; Ph.D. University of Southern California/Amirkabir University 2012; Associate Professor of Petroleum Engineering 2021.

MORTEZA DEJAM, B.Sc. Petroleum University of Technology 2007; M.Sc. Sharif University of Technology 2009; Ph.D. University of Calgary 2016; Associate Professor of Petroleum Engineering 2022.

SOHEIL SARAJI, B.S. Petroleum University of Technology 2004; M.Sc. Sharif University of Technology 2007; Ph.D. University of Wyoming 2013; Associate Professor of Petroleum Engineering 2022.

Academic Professionals:

TAWFIK ELSHEHABI, B.Sc. Suez Canal University 2003; M.Sc. 2007; Ph.D. West Virginia University 2017; Senior Lecturer of Petroleum Engineering 2019.

Instructional Professors:

REZA TAHERI, B.Sc. Amirkabir University 1997; M.S. University of Twente, Netherlands 2001; Ph.D. Curtin University 2008; Assistant Instructional Professor of Petroleum Engineering 2020.

Professors of Practice:

DOUGLAS CUTHBERTSON, B.S. University of Wyoming 1985; Professor of Practice in Petroleum Engineering 2016.

BRIAN TOELLE, B.S. Texas A&M University 1978; M.S. Austin State University 1981; Ph.D. West Virginia University 2013; Professor of Practice in Petroleum Engineering 2015.

Professors Emeriti:

Jack Evers
H. Gordon Harris
Norman R. Morrow
Mrityunjai P. Sharma
Brian Towler

Petroleum Engineering trains students for Wyoming's largest industries, the production of crude oil and gas. With the recognition of the state's and nation's vast reserves of natural gas, the curriculum emphasizes the production and

processing of this important resource. Because of American predominance in petroleum technology, career opportunities are available throughout most of the world.

The curriculum in petroleum engineering is based upon sound preparation in fundamental sciences, mathematics, physics, chemistry, and geology. The essentials of engineering are added to this foundation: computer programming, statics, dynamics, materials science, hydraulics, and thermodynamics. To aid in developing individuals' social potential and broaden their educational background, an integrated program in humanities and social sciences is included in the curriculum. Petroleum engineering courses, which are primarily concerned with application of previously acquired knowledge to problems of the oil and gas industry, are concentrated in the junior and senior years.

Petroleum Engineering degree candidates must meet the academic requirements of the college and must have a GPA of 2.000 or greater in Petroleum Engineering (PETE) courses attempted at UW that are applied toward graduation for the B.S. degree from the department. For approved electives, students must have prior approval of their advisor and department head. Elective courses must be chosen from a list provided by the department. Students must complete a minimum of 48 upper division (junior/senior) or graduate-level credit hours for this program.

Program Vision

As a highly respected community of scholars and practitioners, we are committed to providing outstanding petroleum engineering education, conducting internationally recognized research in key focus areas, and improving the well-being of the people of Wyoming and the world through education, technical innovation and economic development.

Program Mission

Provide outstanding, contemporary, ABET-accredited education in petroleum engineering to highly qualified undergraduates who will serve as an economic resource for Wyoming and the world.

Provide excellent, research-based graduate educations at the master's and doctoral levels in petroleum engineering to top students who will drive technical and economic innovation for Wyoming and the world.

Conduct internationally recognized research in key focus areas that leads to new technologies while also enhancing economic development for Wyoming and the world.

Program Educational Objectives

Three to six years after graduation, graduates who choose to practice in Petroleum Engineering should:

- (PETE-OB1) Successfully practice the profession/field of petroleum engineering or related discipline.
- (PETE-OB2) Demonstrate successful career accomplishment and civic engagement.

Program Outcomes

During the course of study in Petroleum Engineering, the student should develop:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
3. An ability to communicate effectively with a range of audiences.

4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Undergraduate "Major Only" Courses

Upper division PETE core courses are restricted to petroleum engineering majors only.

Technical Electives Policy

The technical electives in the petroleum engineering curriculum can be used to complete a curriculum emphasis option or a minor. The number of credits of upper division courses must be satisfied, therefore, 13 elective credits must be 3000-level courses or higher.

Note: Technical Electives must be selected with your advisor's documented approval.

Transfer Credit Limit

To graduate with a degree in Petroleum Engineering from UW, students must successfully complete at least 20 credit hours of required PETE courses at UW.

1. Once a student has transferred to UW's Department of Petroleum Engineering from another institution, they may transfer no more than 9 additional credits from other institutions.
2. Non-transfer students may transfer up to 18 credits from other institutions.

Repeating a Course

Students who fail a PETE class three times can no longer enroll in that class.

Academic Suspension

Students who have been academically suspended from UW twice are no longer eligible to enroll in PETE courses.

Curriculum Emphases

The Department of Petroleum Engineering has established curriculum emphases that could shape your interest further or acquire useful transferable skills. A curriculum emphasis is not a minor or concentration and will not be stated on your diploma. If you choose to follow a curriculum emphasis option, you should discuss it with your academic advisor so they can assist you in planning your courses.

Petroleum Engineering offers the following curriculum emphasis options:

- Unconventional Reservoirs
- Chemical Engineering
- Mechanical Engineering

- Graduate School Preparation

BS/MS Quick Start Program

The BS/MS Quick Start program in Petroleum Engineering (PETE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their Bachelor of Science (B.S.) degree in Petroleum Engineering. These students may apply for admission to the Quick Start program during the first or second semester of their junior year or *before* starting their senior year.

This program allows for early planning of the graduate portion of a student's education and provides more flexibility in the number of required courses and the order in which they are taken. The more efficient and better planned use of time should result in reduction of the time required for obtaining the Master of Science in Petroleum Engineering degree. Students who enter the Quick Start program must accept primary responsibility for actively planning their Programs of Study to assure timely completion of their course work and research programs.

The Quick Start program contains two essential elements:

1. Qualified students may receive provisional admission to the Petroleum Engineering graduate program by submitting a quick start application through the online graduate application system. This provisional admission will permit students to make their long-term educational plans earlier in their studies and before graduating the B.S. program, thus providing enhanced opportunities for course selection and involvement in research.
2. Students in the program may apply up to 6 credit hours of graduate-level courses toward both the B.S. and M.S. degree programs. By successfully completing up to 6 credit hours of graduate classes during their senior year, these students will have demonstrated their ability to do graduate-level course work as undergraduates, easing their transition to the Petroleum Engineering graduate program.

For additional information, visit our website for admissions information

<http://www.uwyo.edu/petroleum/undergraduate/current-students/quickstart.html> or contact our graduate admissions coordinator at pete-info@uwyo.edu.

Graduate Study

The Department of Petroleum Engineering offers graduate programs leading to the M.S. and Ph.D. degrees in petroleum engineering. The M.S. degree is offered with Plan A and Plan B options.

In addition, the Department offers an M.B.A./M.S. in Petroleum Engineering Dual Degree Program, in conjunction with the College of Business M.B.A. Program. Students pursuing this option must apply to and be offered admission from both programs.

Admission Process and Requirements

Graduate admission is open to students with at least a B.S. degree in petroleum engineering or closely related field and who meet the minimum requirements as shown below. Please note that test scores must be dated within the previous two years to be considered valid.

- A GPA of 3.000, or equivalent;
- A GRE score;
- A TOEFL score of 600 (paper-based), 250 (computer-based), or 80 (Internet based) **or** an IELTS score of 6.5 in each category for international applicants. We are also accepting the DuoLingo exam with a minimum score of 110 required.

Applications must include the following documents uploaded with the online application:

1. Complete official transcripts of all prior college-level coursework,

2. Current resume or curriculum vitae,
3. Recommendations from at least three academic or professional references,
4. A statement of purpose, and
5. Unofficial test score certificates for both GRE and English proficiency exams.

Applications will not be reviewed or accepted until all required documents have been submitted.

The deadlines to submit applications are February 1 each year (to be considered for Fall semester), and September 15 each year (to be considered for Spring semester).

For additional information, visit our website for admissions information <http://www.uwyo.edu/petroleum/graduate/prospective/index.html> or contact our graduate admissions coordinator at pete-info@uwyo.edu.

Graduate Courses of Study

Incoming graduate students, not preselected by a faculty member, must meet with Petroleum faculty members to obtain information regarding research areas and current availability. The student must formally request a Petroleum faculty member of their choosing to oversee their degree study program.

Masters Program

1. All Petroleum M.S. students with a B.S. in Petroleum Engineering from an accredited program must take the following courses:

Required Courses	Hrs.
PETE 5355.....	3
PETE 5890.....	2
At least three Core Courses from the following:	
PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5310.....	3
PETE 5350.....	3
Plan A Thesis Additional Course Requirements:	
4000-level or above approved electives.....	12
PETE 5960.....	4
Total Credits 30	

Plan B Non-Thesis Additional Course Requirements:	
4000-level or above approved electives.....	14
PETE 5970.....	2
Total Credits 30	

2. All Petroleum M.S. students with a B.S. in Chemical or Mechanical Engineering from an accredited program must take the following courses:

Required Courses	Hrs.
PETE 5055	3
PETE 5340	3

PETE 5355	3
PETE 5715	3
PETE 5890	2

At least four Core Courses from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5310.....	3
PETE 5350.....	3

Plan A Thesis Additional Course

Requirements:

4000-level or above approved electives.....	7
GEOL 5190.....	3
PETE 5960.....	4

Total Credits 40

Plan B Non-Thesis Additional Course

Requirements:

4000-level or above approved electives.....	7
GEOL 5190.....	3
PETE 5970.....	4

Total Credits 40

Dual Degree Program - M.B.A./M.S. degree in Petroleum Engineering

3. All Dual Degree M.S. students with a B.S. in Petroleum Engineering from an accredited program must take the following required courses:

Required Courses	Hrs.
PETE 5355.....	3
PETE 5890.....	2

At least three Core Courses from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5310.....	3
PETE 5350.....	3

Plan A Thesis Additional Course

Requirements:

4000-level or above approved electives.....	3
M.B.A. approved electives: MBAM 5XXX, MBAM 5301, MBAM 5305.....	9
PETE 5960.....	4

Total Credits 30

Plan B Non-Thesis Additional Course

Requirements:

4000-level or above approved electives.....	5
M.B.A. approved electives:	
MBAM 5XXX, MBAM 5301, MBAM 5305.....	9
PETE 5970.....	2

Total Credits 30

4. All Dual Degree students with a B.S. in Chemical or Mechanical Engineering from an accredited program must take the following required courses:

Required Courses	Hrs.
PETE 5055	3
PETE 5340	3
PETE 5355	3
PETE 5715	3
PETE 5890	2

At least four Core Courses from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5310.....	3
PETE 5350.....	3

Plan A Thesis Additional Course

Requirements:

4000-level or above approved electives.....	3
M.B.A. approved electives:	
MBAM 5XXX, MBAM 5301, MBAM 5305.....	9
PETE 5960.....	4

Total Credits 42

Plan B Non-Thesis Additional Course

Requirements:

4000-level or above approved electives.....	5
M.B.A. approved electives:	
MBAM 5XXX, MBAM 5301, MBAM 5305.....	9
PETE 5970.....	2

Total Credits 42

Note: For a student with a B.S. in another discipline, upon acceptance into the M.S. program, the Graduate Program Committee will develop a plan of study with the consent of the advisor.

Doctoral Program

1. All Petroleum Ph.D. students with a B.S. in Petroleum Engineering must take the following required courses:

Required Courses	Hrs.
PETE 5090.....	3
PETE 5355.....	3
PETE 5890.....	6

At least four Core Courses* from the following:

PETE 5010.....	3
----------------	---

PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5255.....	3
PETE 5310.....	3
PETE 5350.....	3

Electives**
4000-level or above approved electives.....18

Research
PETE 5980..... 30

Total Credits 72

2. All Petroleum Ph.D. students with an B.S. in Other Majors must take the following required courses:

Required Courses	Hrs.
PETE 5090.....	3
PETE 5355.....	3
PETE 5890.....	6

At least five Core Courses* from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5255.....	3
PETE 5310.....	3
PETE 5350.....	3

Electives**
4000-level or above approved electives.....15

Research
PETE 5980..... 30

Total Credits 72

*Transferable from MS degree if applicable.

**Up to 14 credits of electives transferable from MS degree if applicable.

Graduate Seminar Requirements

All petroleum engineering graduate students must enroll in PETE 5890, Petroleum Engineering Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Graduate students enrolled in continuous registration are exempt from having to enroll in PETE 5890 in their final semester.

Graduate Teaching Requirement

All Petroleum Engineering graduate students must complete at least one semester as a teaching assistant within the Petroleum Engineering curriculum. Students receiving a state-funded graduate assistantship will be required to serve as a teaching assistant every semester of their award. Students funded by any source other than state funds will work with their supervisor or faculty mentor to determine an appropriate time to complete this requirement.

Program of Study Requirement

All Petroleum Engineering graduate students must complete their Program of Study worksheet at the beginning of their second academic year of study or 3rd semester of enrollment, and PhD students must submit it prior to their preliminary examination.

Ph.D. Preliminary Examination

Candidacy in the doctorate occurs upon certification of successful completion of the preliminary examination. The preliminary examination will be held at least 15 weeks prior to the final examination. The preliminary examination may not be given before: (a) the research tool requirements, if any, have been met and certification approved; (b) at least 30 hours of coursework have been completed; and (c) the doctoral program of study has been approved.

The goal of the preliminary exam is for the student to present the research proposition that is being investigated and will lead to the final dissertation, and demonstrate progress to-date. The preliminary exam consists of three components:

- a written document provided to each member of the student's graduate committee at least three weeks prior to the oral presentation;
- a public oral presentation; and
- a private examination by the student's graduate committee immediately following the oral presentation.

The written document may be in any format but must concisely provide a survey of the relevant literature, a summary of the student's progress to-date, and a clear, detailed plan for the successful completion of the proposed work. The preliminary exam oral presentation should be consistent with the written document. It should provide an appropriate literature background, demonstrate proficiency with proposed experimental/computational techniques, identify details of the experiments to be performed, and provide a timeline to final defense.

The student's committee will pass or fail the student on the strength of the preliminary examination, with an option to conditionally pass the student while requiring an interim committee meeting prior to the final Ph.D. examination. The Report on Preliminary Examination for Admission to Candidacy form sent to the Office of the Registrar reports the results of the examination.

M.S. and Ph.D. Final Examination (Thesis or Dissertation Defense)

All M.S. and Ph.D. students must orally defend their final report, thesis, or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public defense in oral presentation format. At least three weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis or dissertation and provide the department an announcement of their defense for public advertisement. The results of the defense are reported by the committee on the Report of Final Examination form. Often, graduate committee members request changes in the final thesis or dissertation, and they may postpone signing this form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Registrar's web site. This copy will be rejected if the format standards specified by the Thesis or Dissertation Format Guide are not met. This guide allows for a publication-ready format. An electronic copy must also be submitted to the department for the departmental library. Most students will want copies for their own use. Students should consult with their chair to determine if they also want a copy of the final paper or other research documentation.

Major

Petroleum Engineering, B.S.

Petroleum engineers combine fundamentals of science & math with computer programming, materials science, fluid mechanics and thermodynamics to develop and apply new technology to recover hydrocarbons from conventional and unconventional reservoirs.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

H- - Human Culture (1)

Credits: 3

Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Undergraduate Curriculum

*Course meets USP requirement.

Applies to all undergraduate PETE programs.

CHEM1020 - General Chemistry I

Credits: 4

First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1030 - General Chemistry II

Credits: 4

Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: CHEM 1020.

CHEM2300 - Introductory Organic Chemistry

Credits: 4

Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.

When Offered (Normally offered spring semester)

Prerequisite: CHEM 1020, CHEM 1050, CHEM 1000 or equivalent.

ES2110 - Statics

Credits: 3

Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3

Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2310 - Thermodynamics I

Credits: 3

Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2330 - Fluid Dynamics

Credits: 3

Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

ES2410 - Mechanics of Material I

Credits: 3

Mechanics of deformable bodies, including energy methods.

Prerequisite: ES 2110 and MATH 2205 .

GEOL1100 - Physical Geology

Credits: 4

Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE

USP 2015 Code U5PN

GEOL4190 - Petroleum Geology

Credits: 3

Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.

Prerequisite: GEOL 2005 or PETE 2050.

- GEOL Technical Elective Credits: 3

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PETE1060 - Introduction to Petroleum Engineering Problem Solving

Credits: 1

Covers elements of Petroleum Engineering calculations associated with typical computations in Drilling, Production, and Reservoir Engineering, Rock and Fluids properties, to simultaneously train the student on basic computing skills as well as basic language of Petroleum Engineering. The preferred computing tool is Matlab, which will be introduced through simple calculations on the computer. Notions of the petroleum engineering curriculum will also be provided through examples of the different subjects.

Prerequisite: Math placement 5 or concurrent enrollment in MATH 2200.

PETE2050 - Fundamentals of Petroleum Engineering

Credits: 3

General introduction to petroleum engineering, including petroleum geology, exploration, reservoir rocks, and fluid flow through porous media, drilling fundamentals, completion technology, well logging and testing, methods of production, stimulation methods, enhanced oil recovery, reserves and economics.

Prerequisite: grade of C or better in both MATH 2205 and PETE 1060.

PETE2060 - Introduction to Petroleum Engineering Computing

Credits: 3

Introduces Petroleum Engineering problems and principles, develops computational skills needed to solve them, and reinforces a computational tool that will be useful for other Petroleum Engineering classes.

Prerequisite: C or better in PETE 1060, and either a D or better in MATH 2310 or concurrent enrollment in MATH 2310.

PETE3015 - Multicomponent Thermodynamics

Credits: 3

Introduces mixture properties, such as chemical potentials, excess properties, partial molar properties, heats of mixing, fugacities, and practical tools for estimating them from solution theories and equations of state. These tools and concepts are applied to phase and chemical equilibria.

Prerequisite: C or better in ES 2310 and concurrent enrollment in PETE 2060. Student must be a Petroleum Engineering major.

PETE3025 - Heat and Mass Transfer

Credits: 3

Introduces energy and mass transfer concepts and the development of mathematical models of physical phenomena, including convection, conduction, radiation, and mass diffusion and convection.

Prerequisite: C or better in ES 2330 and MATH 2310. Student must be a Petroleum Engineering major.

PETE3100 - Rock and Fluids Lab

Credits: 2

Provides understanding of principles of rock and fluid properties and their measurement as part of conventional and special core analysis, as well as PVT characteristics of reservoir fluids. Students are expected to understand how to measure important rock and fluid properties using laboratory equipment, as part of reservoir characterization routines, formation damage evaluations and well log calibration protocols. Students are also expected to learn how to write succinct and organized reports.

Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE3200 - Reservoir Engineering

Credits: 3

Covers rock and fluid properties, reserve estimation using volumetric and material balance methods, discussion of different reservoir drive mechanisms, aquifer models, Darcy's law and single-phase flow through porous media, introduction to well testing, solution of radial diffusivity equation, immiscible displacement, decline rate analysis, and reservoir simulation.

Prerequisite: PETE 3025, C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE3255 - Basic Drilling Engineering

Credits: 3

Principles and practices of oil and gas well rotary drilling, including rock mechanics, drilling hydraulics, drilling fluids, and hole deviation. Drilling equipment analysis, casing design, and drilling fluid properties. Application of modern computer-based analysis and design methods.

Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE3265 - Drilling Fluids Laboratory

Credits: 3

Measurement of physical and chemical properties of drilling fluids, including experiments on mud density control, viscosity control, rheological properties, mud hydraulics, filtration properties, mud contaminants and their treatments. Includes design of experiments, data processing, interpretation and writing technical reports.

Prerequisite: PETE 3255, C or better in both ES 2310 and ES 2330. Student must be a Petroleum Engineering major.

PETE3715 - Production Engineering

Credits: 3

Provides elements for calculating the production rate of oil or gas wells, including reservoir inflow performance, which is determined by the reservoir rock and fluids properties and calculated based on Darcy's law, and tubing performance, which is determined by tubing parameters and calculated based on Newtonian dynamics. Basic design of artificial lift systems, reservoir stimulations and optimization of production systems are also included.

Prerequisite: C or better in ES 2310, ES 2330 and PETE 2050. Student must be a Petroleum Engineering major.

PETE3725 - Well Completions

Credits: 3

Covers many facets of completion and intervention in oil and gas wells, including design and procedures to meet deliverability, safety, and integrity, starting with completion, stimulation, workover, and intervention, ending with plug

and abandonment requirements.

Prerequisite: C or better in both PETE 2050 and ES 2410. Student must be a Petroleum Engineering major.

PETE4225 - Well Test Analysis

Credits: 3

Covers knowledge of well test interpretation techniques. Theory for well testing include drawdown and buildup tests, single-rate and multi-rate testing, derivative analysis, wellbore storage, type curve matching, fall off and injectivity, fractured wells, fractured reservoirs, interference and pulse testing, and horizontal well analysis.

Prerequisite: PETE 3200. Student must be a Petroleum Engineering major.

PETE4320 - Well Log Interpretation

Credits: 3

Studies use of various types of open hole logs for quantitative evaluation of formations.

Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE4340 - Petroleum Economics

Credits: 3

Applies principles of economics to petroleum properties. Studies taxation, present worth, rate of return, payout and decisions under uncertainty.

Prerequisite: PETE 3200. Student must be a Petroleum Engineering major.

PETE4736 - Petroleum Engineering Design

Credits: 4

Design and development of petroleum reservoirs using principles and skills learned in the Petroleum Engineering program. Application of software for design and analysis of the drilling, reservoir and production of petroleum.

USP 2015 Code U5C3

Prerequisite: PETE 3200, PETE 3255, PETE 3715, PETE 3725, and C or better in COM2. Student must be a Petroleum Engineering major.

- PETE Technical Electives Credits: 15

Technical Electives Policy

The technical electives in the PETE curriculum can be used to complete a curriculum emphasis option or a minor. The number of credits of upper division courses must be satisfied, therefore, 13 elective credits must be 3000-level courses or higher.

Notes: Technical Electives must be selected with your advisor's documented approval.

Minimum Grade Requirements

A grade of C or better is required for the following courses:

- USP designated courses: FYS, COM1, COM2, COM3
- All Engineering Science (ES) courses
- MATH courses that are prerequisites to ES & PETE courses

PETE1060 - Introduction to Petroleum Engineering Problem Solving

Credits: 1

Covers elements of Petroleum Engineering calculations associated with typical computations in Drilling, Production, and Reservoir Engineering, Rock and Fluids properties, to simultaneously train the student on basic computing skills as well as basic language of Petroleum Engineering. The preferred computing tool is Matlab, which will be introduced through simple calculations on the computer. Notions of the petroleum engineering curriculum will also be provided through examples of the different subjects.

Prerequisite: Math placement 5 or concurrent enrollment in MATH 2200.

PETE2050 - Fundamentals of Petroleum Engineering

Credits: 3

General introduction to petroleum engineering, including petroleum geology, exploration, reservoir rocks, and fluid flow through porous media, drilling fundamentals, completion technology, well logging and testing, methods of production, stimulation methods, enhanced oil recovery, reserves and economics.

Prerequisite: grade of C or better in both MATH 2205 and PETE 1060.

PETE4736 - Petroleum Engineering Design

Credits: 4

Design and development of petroleum reservoirs using principles and skills learned in the Petroleum Engineering program. Application of software for design and analysis of the drilling, reservoir and production of petroleum.

USP 2015 Code U5C3

Prerequisite: PETE 3200, PETE 3255, PETE 3715, PETE 3725, and C or better in COM2. Student must be a Petroleum Engineering major.

Total Upper Division Credits Required

48

Total Hours Required for B.S. Degree

129

Petroleum Engineering Program Educational Objectives

Three to six years after graduation, graduates who choose to practice in Petroleum engineering should:

- (PETE-OB1) Successfully practice the profession/field of petroleum engineering or related discipline.
- (PETE-OB2) Demonstrate successful career accomplishment and civic engagement.

Petroleum Engineering Program Outcomes

During the course of study in Petroleum Engineering, the student should develop:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Graduate

Petroleum Engineering, M.S.

Petroleum M.S. Students With a B.S. In Petroleum Engineering

All Petroleum M.S. students with a B.S. in Petroleum Engineering from an accredited program must take the following required courses:

Required Courses

PETE5355 - Mathematical Methods

Credits: 3

Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization techniques, and linear solution techniques: direct and iterative methods.

Cross Listed CHE 5355.

Prerequisite: graduate standing.

PETE5890 - Petroleum Engineering Graduate Seminar

Credits: 1

Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.

Prerequisite: graduate standing.

Core Courses

At least three Core Courses from the following:

PETE5010 - Transport Phenomena

Credits: 3

Examines the modeling of momentum, heat and mass transport.

Cross Listed CHE 5010.

Prerequisite: graduate standing.

PETE5020 - Thermodynamics

Credits: 3

Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed CHE 5020.

Prerequisite: graduate standing.

PETE5060 - Flow through Porous Media

Credits: 3

Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

Cross Listed CHE 5060

Dual Listed PETE 4060.

Prerequisite: graduate standing.

PETE5080 - Interfacial Phenomena

Credits: 3

Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

Prerequisite: graduate standing.

PETE5310 - Fundamentals of EOR

Credits: 3

The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

Dual Listed PETE 4310.

Prerequisite: graduate standing.

PETE5350 - Advanced Reservoir Engineering

Credits: 3

Covers high-level understanding of modern reservoir engineering. Provides knowledge of scientific principles to formulate fluid flow, heat and mass transport in permeable media. Use analytical and computational tools to resolve research-oriented problems. Develop competence in interpreting results of modeling.

Prerequisite: graduate standing.

Total Credits: 14 Hours

Plan A Thesis Additional Course Requirements:

- 4000-level or above approved electives Credits: 12

PETE5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

Total Credits: 30 Hours

Plan B Non-Thesis Additional Course Requirements:

4000-level or above approved electives

PETE5970 - MS Plan B Research Project

Credits: 1-2
Max Credit 2

Students complete a non-thesis capstone project on a topic of choice within the petroleum or energy field, under the guidance of their graduate committee. Students must produce at least one final paper and present their results in a public forum (Final Examination). Must complete a minimum of two credit hours for the M.S. degree.

Prerequisite: Graduate Standing.

Total Credits: 30 Hours

Petroleum M.S. Students With a B.S. In Chemical or Mechanical Engineering

All Petroleum M.S. students with a B.S. in Chemical or Mechanical Engineering from an accredited program must take the following required courses:

Required Courses:

PETE5055 - Drilling Engineering

Credits: 3
Max Credit 3

Principles and practices of oil and gas well rotary drilling, including rock mechanics, drilling hydraulics, drilling fluids, and hole deviation. Drilling equipment analysis, casing design, and drilling fluid properties. Application of modern computer-based analysis and design methods.

Prerequisite: Graduate Standing

PETE5340 - Reservoir Engineering.

Credits: 3
Covers rock and fluid properties, reserve estimation using volumetric and material balance methods, discussion of different reservoir drive mechanisms, aquifer models, Darcy's law and single-phase flow through porous media, introduction to well testing, solution of radial diffusivity equation, immiscible displacement, decline rate analysis, and reservoir simulation.

Prerequisite: Graduate standing.

PETE5715 - Production Engineering

Credits: 3
Provides elements for calculating production rate of oil/ gas wells, including reservoir inflow performance, determined

by reservoir rock and fluids properties using Darcy's law, and tubing performance, determined by tubing parameters and using Newtonian dynamics. Basic design of artificial life systems, reservoir stimulations and optimization of production systems are included.

Prerequisite: graduate standing.

Core Courses

At least five Core Courses from the following:

PETE5010 - Transport Phenomena

Credits: 3

Examines the modeling of momentum, heat and mass transport.

Cross Listed CHE 5010.

Prerequisite: graduate standing.

PETE5020 - Thermodynamics

Credits: 3

Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed CHE 5020.

Prerequisite: graduate standing.

PETE5060 - Flow through Porous Media

Credits: 3

Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

Cross Listed CHE 5060

Dual Listed PETE 4060.

Prerequisite: graduate standing.

PETE5080 - Interfacial Phenomena

Credits: 3

Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

Prerequisite: graduate standing.

PETE5310 - Fundamentals of EOR

Credits: 3

The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

Dual Listed PETE 4310.

Prerequisite: graduate standing.

PETE5350 - Advanced Reservoir Engineering

Credits: 3

Covers high-level understanding of modern reservoir engineering. Provides knowledge of scientific principles to formulate fluid flow, heat and mass transport in permeable media. Use analytical and computational tools to resolve research-oriented problems. Develop competence in interpreting results of modeling.

Prerequisite: graduate standing.

Total Credits: 26 Hours

Plan A Thesis Additional Course Requirements:

- 4000-level or above approved electives Credits: 7

GEOL4190 - Petroleum Geology

Credits: 3

Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.

Prerequisite: GEOL 2005 or PETE 2050.

PETE5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

Total Credits: 40 Hours

Plan B Non-Thesis Additional Course Requirements:

- 4000-level or above approved electives Credits: 9

GEOL4190 - Petroleum Geology

Credits: 3

Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.

Prerequisite: GEOL 2005 or PETE 2050.

PETE5970 - MS Plan B Research Project

Credits: 1-2

Max Credit 2

Students complete a non-thesis capstone project on a topic of choice within the petroleum or energy field, under the guidance of their graduate committee. Students must produce at least one final paper and present their results in a public forum (Final Examination). Must complete a minimum of two credit hours for the M.S. degree.

Prerequisite: Graduate Standing.

Total Credits: 40 Hours

Graduate Seminar Requirements

All petroleum engineering PhD students must enroll in PETE5890 - Petroleum Engineering Graduate Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Graduate students enrolled in continuous registration are exempt from having to enroll in PETE 5890 in their final semester. MS students are required to take PETE 5890 for at least two semesters.

Graduate Teaching Requirement

All Petroleum Engineering graduate students must complete at least one semester as a teaching assistant within the Petroleum Engineering curriculum. Students receiving a state-funded graduate assistantship will be required to serve as a teaching assistant every semester of their award. Students funded by a faculty mentor will work with their mentor to determine an appropriate time to complete this requirement.

Program of Study Requirement

All Petroleum Engineering graduate students must complete their Program of Study worksheet at the beginning of their second academic year of study or 3rd semester of enrollment, and PhD students must submit it prior to their preliminary examination.

M.S. and Ph.D. Final Examination (Thesis or Dissertation Defense)

All M.S. and Ph.D. students must orally defend their final report, thesis, or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public defense in oral presentation format. At least three weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis or dissertation and provide the department an announcement of their defense for public advertisement. The results of the defense are reported by the committee on the Report of Final Examination form. Often, graduate committee members request changes in the final thesis or dissertation, and they may postpone signing this form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Registrar's web site. This copy will be rejected if the format standards specified by the Thesis or Dissertation Format Guide are not met. This guide allows for a publication-ready format. An electronic copy must also be submitted to the department for the departmental library. Most students will want copies for their own use. Students should consult with their chair to determine if they also want a copy of the final paper or other research documentation.

Petroleum Engineering, Ph.D.

Students with a B.S. in Petroleum Engineering

All Petroleum Ph.D. students with a B.S. in Petroleum Engineering must take the following required courses:

Required Courses

PETE5090 - Graduate Research Methods

Credits: 3

A general approach to scientific research and graduate school. Topics include: purpose of graduate school, career options with graduate degrees, communication basics, literature search skills, presentations, research instrumentation, the scientific method, developing hypotheses, grant proposals, paper writing, research ethics, copyrights, patents, research notebooks, and classroom teaching techniques.

Prerequisite: graduate standing.

PETE5355 - Mathematical Methods

Credits: 3

Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution

techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization techniques, and linear solution techniques: direct and iterative methods.

Cross Listed CHE 5355.

Prerequisite: graduate standing.

PETE5890 - Petroleum Engineering Graduate Seminar

Credits: 1

Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.

Prerequisite: graduate standing.

Core Courses

At least three Core Courses from the following:

PETE5010 - Transport Phenomena

Credits: 3

Examines the modeling of momentum, heat and mass transport.

Cross Listed CHE 5010.

Prerequisite: graduate standing.

PETE5020 - Thermodynamics

Credits: 3

Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed CHE 5020.

Prerequisite: graduate standing.

PETE5060 - Flow through Porous Media

Credits: 3

Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

Cross Listed CHE 5060

Dual Listed PETE 4060.

Prerequisite: graduate standing.

PETE5080 - Interfacial Phenomena

Credits: 3

Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

Prerequisite: graduate standing.

PETE5310 - Fundamentals of EOR

Credits: 3

The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

Dual Listed PETE 4310.

Prerequisite: graduate standing.

Electives

- 4000-level or above approved electives Credits: 21

Research

PETE5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Total Credits: 72

Students with an M.S. in Petroleum Engineering

All Petroleum Ph.D. students with an M.S. in Petroleum Engineering from UW must take the following required courses:

Plan A MS Courses Credits: 26

See Petroleum Engineering, M.S. program

Required Courses

PETE5090 - Graduate Research Methods

Credits: 3

A general approach to scientific research and graduate school. Topics include: purpose of graduate school, career options with graduate degrees, communication basics, literature search skills, presentations, research instrumentation, the scientific method, developing hypotheses, grant proposals, paper writing, research ethics, copyrights, patents, research notebooks, and classroom teaching techniques.

Prerequisite: graduate standing.

PETE5890 - Petroleum Engineering Graduate Seminar

Credits: 1

Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.

Prerequisite: graduate standing.

Electives

- 4000-level or above approved electives Credits: 9

Research

PETE5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Total Credits: 72

Students with an M.S. in Petroleum Engineering

All Petroleum Ph.D. students with an M.S. in Petroleum Engineering from another institution must take the following required courses:

Transferred MS Courses Approved by Student's Committee Credits: 14

Required Courses

PETE5090 - Graduate Research Methods

Credits: 3

A general approach to scientific research and graduate school. Topics include: purpose of graduate school, career options with graduate degrees, communication basics, literature search skills, presentations, research instrumentation, the scientific method, developing hypotheses, grant proposals, paper writing, research ethics, copyrights, patents, research notebooks, and classroom teaching techniques.

Prerequisite: graduate standing.

PETE5890 - Petroleum Engineering Graduate Seminar

Credits: 1

Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.

Prerequisite: graduate standing.

Core Courses

At least four Core Courses from the following:*

PETE5010 - Transport Phenomena

Credits: 3

Examines the modeling of momentum, heat and mass transport.

Cross Listed CHE 5010.

Prerequisite: graduate standing.

PETE5020 - Thermodynamics

Credits: 3

Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed CHE 5020.

Prerequisite: graduate standing.

PETE5060 - Flow through Porous Media

Credits: 3

Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

Cross Listed CHE 5060

Dual Listed PETE 4060.

Prerequisite: graduate standing.

PETE5080 - Interfacial Phenomena

Credits: 3

Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

Prerequisite: graduate standing.

PETE5310 - Fundamentals of EOR

Credits: 3

The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

Dual Listed PETE 4310.

Prerequisite: graduate standing.

PETE5350 - Advanced Reservoir Engineering

Credits: 3

Covers high-level understanding of modern reservoir engineering. Provides knowledge of scientific principles to formulate fluid flow, heat and mass transport in permeable media. Use analytical and computational tools to resolve research-oriented problems. Develop competence in interpreting results of modeling.

Prerequisite: graduate standing.

PETE5355 - Mathematical Methods

Credits: 3

Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization techniques, and linear solution techniques: direct and iterative methods.

Cross Listed CHE 5355.

Prerequisite: graduate standing.

Electives

- 4000-level or above approved electives Credits: 9

Research

PETE5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Total Credits: 72 Hours

*Some or all of these credit hours can be transferred by petition, provided they are non-degree credits.

Students with an M.S. Degree in a Geoscience

All Petroleum Ph.D. students with an M.S. degree in a geoscience from another accredited institution must take the following required courses:

Transferred MS Courses Approved by Student's Committee Credits: 12

Required Courses

PETE5090 - Graduate Research Methods

Credits: 3

A general approach to scientific research and graduate school. Topics include: purpose of graduate school, career options with graduate degrees, communication basics, literature search skills, presentations, research instrumentation, the scientific method, developing hypotheses, grant proposals, paper writing, research ethics, copyrights, patents, research notebooks, and classroom teaching techniques.

Prerequisite: graduate standing.

PETE5890 - Petroleum Engineering Graduate Seminar

Credits: 1

Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.

Prerequisite: graduate standing.

Core Courses

At least six Core Courses from the following:*

PETE5010 - Transport Phenomena

Credits: 3

Examines the modeling of momentum, heat and mass transport.

Cross Listed CHE 5010.

Prerequisite: graduate standing.

PETE5020 - Thermodynamics

Credits: 3

Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed CHE 5020.

Prerequisite: graduate standing.

PETE5060 - Flow through Porous Media

Credits: 3

Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

Cross Listed CHE 5060

Dual Listed PETE 4060.

Prerequisite: graduate standing.

PETE5080 - Interfacial Phenomena

Credits: 3

Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

Prerequisite: graduate standing.

PETE5310 - Fundamentals of EOR

Credits: 3

The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

Dual Listed PETE 4310.

Prerequisite: graduate standing.

PETE5350 - Advanced Reservoir Engineering

Credits: 3

Covers high-level understanding of modern reservoir engineering. Provides knowledge of scientific principles to formulate fluid flow, heat and mass transport in permeable media. Use analytical and computational tools to resolve research-oriented problems. Develop competence in interpreting results of modeling.

Prerequisite: graduate standing.

PETE5355 - Mathematical Methods

Credits: 3

Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization techniques, and linear solution techniques: direct and iterative methods.

Cross Listed CHE 5355.

Prerequisite: graduate standing.

At Least Eight Additional Courses:

- Six (6) credits in advanced mathematics
- 18 credits in petroleum engineering

Petroleum Engineering Credits Include:

- PETE 5340
- PETE 5055

PETE5715 - Production Engineering

Credits: 3

Provides elements for calculating production rate of oil/ gas wells, including reservoir inflow performance, determined by reservoir rock and fluids properties using Darcy's law, and tubing performance, determined by tubing parameters and using Newtonian dynamics. Basic design of artificial life systems, reservoir stimulations and optimization of production systems are included.

Prerequisite: graduate standing.

Electives

- 4000-level or above approved electives Credits: 9

Research

PETE5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Total Credits: 100 Hours

*Some or all of these credit hours can be transferred by petition, provided they are non-degree credits.

Graduate Seminar Requirements

All petroleum engineering graduate students must enroll in PETE5890 - Petroleum Engineering Graduate Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Graduate students enrolled in continuous registration are exempt from having to enroll in PETE 5890 in their final semester.

Graduate Teaching Requirement

All Petroleum Engineering graduate students must complete at least one semester as a teaching assistant within the Petroleum Engineering curriculum. Students receiving a state-funded graduate assistantship will be required to serve as a teaching assistant every semester of their award. Students funded by a faculty mentor will work with their mentor to determine an appropriate time to complete this requirement.

Program of Study Requirement

All Petroleum Engineering graduate students must complete their Program of Study worksheet at the beginning of their second academic year of study or 3rd semester of enrollment, and PhD students must submit it prior to their preliminary examination.

Ph.D. Preliminary Examination

Candidacy in the doctorate occurs upon certification of successful completion of the preliminary examination. The preliminary examination will be held at least 15 weeks prior to the final examination. The preliminary examination may not be given before: (a) the research tool requirements, if any, have been met and certification approved; (b) at least 30 hours of coursework have been completed; and (c) the doctoral program of study has been approved.

The goal of the preliminary exam is for the student to present the research proposition that is being investigated and will lead to the final dissertation, and demonstrate progress to-date. The preliminary exam consists of three components:

- a written document provided to each member of the student's graduate committee at least three weeks prior to the oral presentation;
- a public oral presentation; and
- a private examination by the student's graduate committee immediately following the oral presentation.

The written document may be in any format but must concisely provide a survey of the relevant literature, a summary of the student's progress to-date, and a clear, detailed plan for the successful completion of the proposed work. The preliminary exam oral presentation should be consistent with the written document. It should provide an appropriate literature background, demonstrate proficiency with proposed experimental/computational techniques, identify details of the experiments to be performed, and provide a timeline to final defense.

The student's committee will pass or fail the student on the strength of the preliminary examination, with an option to conditionally pass the student while requiring an interim committee meeting prior to the final Ph.D. examination. The Report on Preliminary Examination for Admission to Candidacy form sent to the Office of the Registrar reports the results of the examination.

M.S. and Ph.D. Final Examination (Thesis or Dissertation Defense)

All M.S. and Ph.D. students must orally defend their final report, thesis, or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public defense in oral presentation format. At least three weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis or dissertation and provide the department an announcement of their defense for public advertisement. The results of the defense are reported by the committee on the Report of Final Examination form. Often, graduate committee members request changes in the final thesis or dissertation, and they may postpone signing this form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Registrar's web site. This copy will be rejected if the format standards specified by the Thesis or Dissertation Format Guide are not met. This guide allows for a publication-ready format. An electronic copy must also be submitted to the department for the departmental library. Most students will want copies for their own use. Students should consult with their chair to determine if they also want a copy of the final paper or other research documentation.

QuickStart Program

Petroleum Engineering Quick Start, B.S./M.S.

The BS/MS Quick Start program is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their BS degree in Petroleum Engineering. These students may apply for admission during their junior year.

Quick Start Program Requirements

The BS/MS Quick Start program in Petroleum Engineering (PETE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their Bachelor of Science (B.S.) degree in Petroleum Engineering. These students may apply for admission to the Quick Start program during their junior year or before starting their senior year.

This program allows for early planning of the graduate portion of a student's education and provides more flexibility in the number of required courses and the order in which they are taken. The more efficient and better planned use of time should result in reduction of the time required for obtaining the Master of Science in Petroleum Engineering degree. Students who enter the Quick Start program must accept primary responsibility for actively planning their Programs of Study to assure timely completion of their course work and research programs.

The Quick Start program contains two essential elements:

1. Qualified students may receive provisional admission to the Petroleum Engineering graduate program prior to completing the normal application process. This provisional admission will permit students to make their long-term educational plans earlier in their studies, thus providing enhanced opportunities for course selection and involvement in research.
2. Students in the program may apply up to 6 credit hours of 5000-level courses toward both the B.S. and M.S. degree programs. By completing successfully up to 6 credit hours of graduate classes during their senior year, these students will have demonstrated their ability to do graduate-level course work as undergraduates, easing their transition to the Petroleum Engineering graduate program.

For additional information, visit our website for admissions information <http://www.uwyo.edu/petroleum/undergraduate/current-students/quickstart.html> or contact our graduate admissions coordinator at pete-info@uwyo.edu.

Quick Start Prerequisites

Cumulative GPA of 3.25.

PETE GPA of 3.50

3 letters of recommendation, at least 2 from PETE faculty at UW.

PETE3200 - Reservoir Engineering

Credits: 3

Covers rock and fluid properties, reserve estimation using volumetric and material balance methods, discussion of different reservoir drive mechanisms, aquifer models, Darcy's law and single-phase flow through porous media, introduction to well testing, solution of radial diffusivity equation, immiscible displacement, decline rate analysis, and reservoir simulation.

Prerequisite: PETE 3025, C or better in PETE 2050. Student must be a Petroleum Engineering major.

Prerequisite courses: PETE 2050 and PETE 3025

PETE3255 - Basic Drilling Engineering

Credits: 3

Principles and practices of oil and gas well rotary drilling, including rock mechanics, drilling hydraulics, drilling fluids, and hole deviation. Drilling equipment analysis, casing design, and drilling fluid properties. Application of modern computer-based analysis and design methods.

Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.
Prerequisite courses: ES 2330 and PETE 2050

PETE3715 - Production Engineering

Credits: 3

Provides elements for calculating the production rate of oil or gas wells, including reservoir inflow performance, which is determined by the reservoir rock and fluids properties and calculated based on Darcy's law, and tubing performance, which is determined by tubing parameters and calculated based on Newtonian dynamics. Basic design of artificial lift systems, reservoir stimulations and optimization of production systems are also included.

Prerequisite: C or better in ES 2310, ES 2330 and PETE 2050. Student must be a Petroleum Engineering major.
Prerequisite courses: ES 2310, ES 2330 and PETE 2050

Transfer Students' Requirements

Must have taken at least two of the three required PETE courses listed above at UW.

Transfer course work must be from an accredited institution and deemed equivalent to current UW PETE core courses.

Must have completed at least 15 credit hours of PETE course work at UW prior to starting the Quick Start program.

Quick Start Program Retention

Prior to completion of the BS degree, students must:

- Complete all requirements for admission to UW graduate school and the PETE graduate program.
 - The Graduate Records Examination (GRE) requirement will be waived.
 - Additional English proficiency testing for admission is also waived for international students.
- Maintain a cumulative GPA of at least 3.25 in their overall undergraduate program.
- Maintain a GPA of 3.5 in their PETE courses.
- Maintain a GPA of at least 3.0 in 5000-level (graduate) courses.

- Failure to complete graduate admission requirements prior to the start of the final year of undergraduate study will result in immediate suspension from the program.
- Failure to meet any GPA requirements places a student on academic probation for one semester.
- If the GPA requirement is still not met after academic probation, the student will be suspended from the program.

Web site: www.uwyo.edu/hs

The College of Health Sciences is the place for students interested in improving and maintaining the physical, mental, and social health of others. We offer challenging degree programs in the "helping professions" and serve as the gateway to schools of medicine, dentistry, physical and occupational therapy, physician's assistant study, optometry, and more.

Health sciences students receive not only a superior education from knowledgeable and caring faculty but also precise and personal guidance from conscientious advising personnel. Students benefit, too, from practicums and internships that help them refine and test the skills acquired in lectures and labs as well as opportunities to participate in dynamic, interdisciplinary research projects.

The college is also the home of the Wyoming Institute for Disabilities (WIND); two Family Medicine Residency Centers; and the WWAMI Medical Education Program.

We serve as the state certifying office for the Wyoming, Washington, Alaska, Montana, and Idaho (WWAMI) medical education contract program with the University of Washington School of Medicine; WYDENT, the dental education contract program with the University of Nebraska and Creighton University; and two programs for the Western Interstate Commission of Higher Education (WICHE): the Professional Student Exchange Program (PSEP) and the Western Regional Graduate Program (WRGP). Refer to the sections on WWAMI, WYDENT, and WICHE in this catalog for program descriptions or go to www.uwyo.edu/certwy.

Any student seeking admission to programs in the College of Health Sciences will be required to obtain a background check as specified by college policy. Please contact your school or division for specific information.

The College of Health Sciences retains the right to deny or revoke admission to any of its programs for academic, disciplinary, ethical, or professional standards reasons.

Programs of Study

Undergraduate Degrees

Bachelor of Science

Kinesiology and Health Promotion
Medical Laboratory Science
Physical Education Teacher Education K-12
Speech, Language and Hearing Sciences

Bachelor of Science in Dental Hygiene

Bachelor of Science in Nursing

Bachelor of Social Work

Graduate Degrees

Master of Science

Health Services Administration
Nursing

Kinesiology and Health
Speech-Language Pathology

Master of Social Work

Professional Degrees

Doctor of Nursing Practice

Doctor of Pharmacy

Minor in the College of Health Sciences

Disability Studies

Disability studies is a diverse interdisciplinary field that investigates broad questions about the nature, meanings, and consequences of disability from interrelated social, historical, cultural, and political perspectives. Students will gain a broad understanding of disability issues for working with people with disabilities rather than specific disciplinary skills and techniques. The minor complements any major and consists of 18 credit hours. See www.uwyo.edu/hs/divisions-and-programs/minor-indisability-studies.html.

Undergraduate and Pre-Health Advising Office

Health Sciences Center, 110

The Undergraduate and Pre-Health Advising Office (UPHAO) in the College of Health Sciences (www.uwyo.edu/preprof/) provides pre-professional health advising to all UW students regardless of their academic majors, who are interested in pursuing future study in athletic training, chiropractic, dentistry, medicine, optometry, occupational therapy, physical therapy, physician assistant, or other health care careers such as public health. A bachelor's degree is usually required for admission to a professional school. The University of Wyoming does not offer degrees in pre-professional areas. Students may pursue any UW degree program in which they have an interest and at the same time complete the admission requirements for the professional schools they wish to attend. The UPHAO advises students for their professional program prerequisites as well as other aspects of becoming solid candidates. Each student will also have an advisor in his/her major.

Through this office, pre-health students can access current information about admission requirements, entrance examinations, application process, professional school curriculums, interviewing skills, and test preparation. Specific schools may have additional requirements; students are urged to check with the schools they wish to attend.

Information and Wyoming state residency applications for the WICHE PSEP program, the WWAMI medical education program, and the WYDENT dental education program, may be found online at <http://www.uwyo.edu/certwy>.

Please view individual division and program pages list for full course and curriculum listings

Division of Communication Disorders

265 Health Sciences, (307) 766-6427

FAX: (307) 766-6829

Web site: www.uwyo.edu/comdis

Director: Mark Guiberson

Professors:

MARK GUIBERSON, B.A. University of Colorado 1997; M.A. 1999; Ph.D. Colorado State University 2006; Professor of Speech-Language Pathology 2019, 2011.

Assistant Professors:

KATELYN J. KOTLAREK, B.S. University of Wisconsin-Madison 2012; M.S. Florida State University 2014; Ph.D. East Carolina University 2019; Assistant Professor 2019.

BREANNA KRUEGER, B.A. University of Wyoming 2007; M.A. University of Kansas 2011; M.A. 2013; Ph.D. 2017; Assistant Professor 2017.

Lecturers:

SHELLEY BARTON, B.A. University of Wyoming 2005; M.S. 2008; Instructor 2018.

ESTHER HARTSKY, B.A. Adams State University 2000; A.A.S. Pikes Peak Community College 2004; Assistant Lecturer 2017.

KARLEE SMITH, B.S. University of Wyoming 2014; M.S. University of Wyoming 2013; Lecturer 2020.

Clinical Professors:

TERESA J. GARCIA, B.S. University of Wyoming 1989; M.S. 1991; Clinical Professor 2020, 2016, 1995.

Assistant Clinical Professors:

CORRI SANDOVAL, B.S. University of Wyoming 2000; M.S. 2010; Assistant Clinical Professor 2020.

HEIDI CLARK, B.S. University of Virginia 1998; M.A. Kent State University 2000; Assistant Clinical Professor 2020.

Adjunct Clinical Instructor:

Melissa Denker, M.S., CCC-SLP

Professors Emeriti:

Janis A. Jelinek, Douglas W. Laws, Michael A. Primus, Mary Hardin-Jones, David L. Jones

About the Division of Communication Disorders

The Division of Communication Disorders offers three academic programs: a certificate in American Sign Language Studies, a Bachelor's of Science (B.S.) degree in Speech, Language and Hearing Science, and a Master of Science (MS) degree in Speech-Language Pathology. Information on these programs can be found on the links on the bottom of this page. In addition, the College of Education's Curriculum and Instruction, Ph.D., Concentration in Literacy Education, is a doctorate degree in which affiliated Division of Communication Disorders faculty can offer doctorate coursework, advising, and other involvement. See the College of Education website for details. The Division is also home to the University of Wyoming Speech & Hearing Clinic. Information about the Division's Vision, Mission, and Strategic Plan can be found on the Division website, as well as important information about the Division's Diversity, Equity, and Inclusion statement (<http://www.uwyo.edu/comdis/>).

Speech and Hearing Clinic

The UW Speech and Hearing Clinic is a training center for students from the Division of Communication Disorders, including B.S. students in the Speech, Language, and Hearing Sciences program and M.S. students in the Speech-Language Pathology program. Student clinical experiences occur under the direct supervision of state licensed and ASHA-certified speech-language pathologists (CCC-SLP). The clinic also provides audiology services from a ASHA-certified and state licensed audiologists (CCC-A). In addition to on-campus services, the clinic provides telepractice speech-language pathology services. Clinical services are available to students, faculty as well as the larger community. More information can be found on the UW Speech and Hearing Clinic website <http://www.uwyo.edu/comdis/uw-speech-and-hearing-clinic/index.html>.

Major

Speech, Language and Hearing Science, B.S.

Learn about working with people to improve their speech, language, and hearing. Study American Sign Language. This pre-professional degree is preparation for application to a graduate studies in speech-language pathology, audiology, or other areas.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate and are not covered by the Speech, Language and Hearing Science major:

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

Courses required for major

PSYC1000 - General Psychology

Credits: 3
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

MATH1400 - College Algebra

Credits: 3
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

PHYS1050 - Concepts of Physics

Credits: 4

Introduces the physical world. For students whose background in math and science is minimal; recommended for students in paramedical sciences and medical technology. Three lecture hours per week are supplemented by two hours per week of laboratory work.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

FCSC2121 - Child Development

Credits: 4

Incorporates classroom instruction with laboratory application of child development research and theory in physical, intellectual and social/emotional domains. Emphasizes early childhood years.

USP 2003-2014 Code U3CS

Prerequisite: PSYC 1000 or SOC 1000 or EDST 2450.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

SPPA1010 - Introduction to Communication Disorders

Credits: 3

Introduces information regarding basics of speech and hearing. Discusses disorders of speech and hearing by defining the problem, etiology or theories of cause, classifications and controversies, evaluation techniques and therapies to correct the disorder.

USP 2003-2014 Code U3I,U3L

SPPA2110 - American Sign Language I

Credits: 4

Basic comprehension and expression of American Sign Language (ASL), the language used by the Deaf community in the United States. ASL vocabulary, grammar, and pragmatics are taught through lecture, conversation, and storytelling. The direct experience method (using ASL with no voice) is utilized to enhance the learning process.

USP 2015 Code U5H

Former Course Number [4100]

SPPA2120 - American Sign Language II

Credits: 4

Second level of ASL comprehension and expression. ASL vocabulary, grammar, and pragmatics, along with increased fluency, are taught through lecture, conversation, and storytelling. Translation from English to ASL is addressed.

USP 2015 Code U5H

Former Course Number [4120]

Prerequisite: SPPA 2110.

SPPA2210 - Phonetics

Credits: 3

Articulatory and acoustic description of speech sound production. Introduction to the International Phonetic Alphabet and phonetic transcription.

Former Course Number [3210]

Prerequisite: SPPA 1010 or consent of instructor.

SPPA3160 - Speech and Language Development

Credits: 4

Deals with the development of speech sound production, phonology, semantics, syntax, morphology, discourse, and pragmatics for typically-developing children from infancy to adolescence. Includes prelinguistic and paralinguistic communication, the cognitive correlates of communication, and written language. Considers the effects of sociocultural context and multiple language acquisition. Application component provides weekly experience in language sample analysis.

Former Course Number [4160]

Prerequisite: SPPA 2210 or instructor permission.

SPPA3265 - Anatomy and Physiology of Speech, Swallowing and Hearing

Credits: 4

Introduces the student to the anatomy of the normal speech and hearing systems as well as the physiologic underpinnings of the speech (respiration, phonation, articulation), swallowing, and hearing (external, middle, and inner ear) systems. Theories of speech production and speech perception are presented.

Former Course Number [3400]

Prerequisite: KIN 2040 or consent of instructor.

SPPA4240 - Speech and Language Disorders Across the Lifespan

Credits: 3

The nature and causes of developmental and acquired speech and language disorders across the lifespan are examined. Principles of assessment and intervention are introduced.

Prerequisite: SPPA 3160 or consent of instructor.

SPPA4340 - Basic Audiology

Credits: 3

An introduction to audiology as a profession, with primary focus on screening and diagnostic methods for the clinical evaluation of hearing loss in children and adults.

When Offered (Normally offered spring semester)

Prerequisite: SPPA 3265 or concurrent enrollment.

SPPA4150 - Aural Rehabilitation

Credits: 3

Examines basis for and characteristics of communication problems created by hearing loss and management procedures to facilitate communication and adjustment to hearing loss. Includes acoustic and visual properties of speech, amplification devices and hearing loss in school children.

Prerequisite: SPPA 4340 or consent of instructor.

SPPA4250 - Clinical Methods

Credits: 4

Introduction to clinical procedures, such as: collecting data, clinical writing and documentation, reviewing practice regulations, interviewing, and counseling. Students will obtain initial clinical experience (i. e. observation, simulation and/ or clinical assignment). Requirements (e. g. , background check, TB screen) must be met for involvement in the Speech & Hearing Clinic.

Prerequisite: SPPA 3265

SPPA4380 - Neurological Basis of Communication

Credits: 3

Studies details of human nervous system, including central and peripheral nervous systems, major motor and sensory pathways and special senses. Emphasizes neurology of various communication disorders.

Prerequisite: SPPA 3265 or consent of instructor.

Notes:

A grade of C or better must be earned in all SPPA courses; courses in the major must be taken for a letter grade unless offered for S/U only. Also note that speech, language, and hearing topic courses from community colleges do not transfer or count as course equivalents.

Elective Courses

Upper-Division Social Behavior Credits (choose one)

Choose one from the list below (students are responsible for knowing prerequisites for these courses).

CNSL4520 - Fundamentals of Counseling (B)

Credits: 3

Students learn some of the skills of counseling and develop an understanding of elementary principles of counseling theory, as well as a better understanding of themselves in relation to other people.

Dual Listed CNSL 5520.

When Offered (Offered on campus and online all semesters)

Prerequisite: junior standing; 6 hours of education or psychology and graduate standing to receive graduate credit.

PSYC4310 - Developmental Psychopathology

Credits: 3

Provides basic understanding of developmental psychopathology. Examines characteristics, etiology, assessment and treatment of psychological disorders in children including autism, mental retardation, anxiety, depression, attention, learning, and conduct problems.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or FCSC 2121 or EDST 2450.

PSYC4320 - Intellectual Disability

Credits: 3

Acquaints students with all aspects of intellectual disability including assessment, diagnosis and classification, etiology, and associated health and mental health difficulties. Prevention, educational and psychological intervention, family adaptation, and community involvement are also addressed.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 4300 or FCSC 2121 or EDST 2450.

Electives

Lower division (1/2000) open electives (student choice - any course that does not meet another university or major requirement): 24 credits

Upper division (3/4000) open elective (student choice - any course that does not meet another university or major requirement): 12 credits

Additional Information

The BS degree prepares students for graduate study in communication disorders disciplines. Students study the normal processes associated with understanding and producing speech and language. These include anatomy, physiology, and neurology. Students also learn about normal development of speech and language in children, and they are introduced to disorders and clinical methods. Courses in related areas, such as anatomy, psychology, child development, statistics, and linguistics are also part of the program. Students obtain initial clinical experiences through observing clinical practice in the UW Speech & Hearing Clinic as part of coursework.

The B.S. degree is considered pre-professional preparation for entrance into a graduate program in speech-language pathology, audiology, or related fields. A clinical graduate degree is required in order to become a speech-language pathologist or an audiologist. The B.S. degree at UW is not designed to meet requirements to become a speech-language pathology assistant (SLP-A), additional practicum and some coursework at another institution would be required to become an SLP-A. For information on SLP-A technical programs please visit ASHA.org.

Student Learning Objectives

The BS degree provides students with a broad-based foundation in the sciences and humanities, fundamental knowledge of human communication, communication development, and the nature of communication disorders across the lifespan. Specific learning objectives can be found on the BS program website.

<http://www.uwyo.edu/comdis/undergraduate/bachelors-of-speech-language-and-hearing-science.html>

Criminal Background Check

Eligibility for the B.S. degree is contingent upon passing a criminal background check. Usually during the senior year, each student will be required to obtain, pay for, and pass a criminal background check as part of enrollment in advanced courses. These background checks are required in order to participate in any aspect of the UW Speech & Hearing Clinic. The results of the background check may impact a student's ability to complete the required coursework and obtain the degree. Please see the College of Health Sciences website for the policy and procedures document.

National Student Speech Language Hearing Association

Students can join the UW chapter of the National Student Speech Language Hearing Association (NSSLHA) to become a part of a community of students interested in communication sciences and disorders. Objectives are to promote and recognize scholastic achievement and to support clinical, research, and service endeavors.

Graduate

Speech-Language Pathology, M.S.

Earn a Master of Science (M.S.) in speech-language pathology, our program is accredited by ASHA's CAA and includes 3 semesters of on-campus coursework and clinic work followed by 3 semesters of distance education and external clinical placements.

Accreditation

The Master of Science in Speech-Language Pathology is a professional degree program that includes 61-64 semester credit hours of enrollment (see typical programs below). Students may pursue either a thesis or non-thesis track during their graduate studies. Both tracks lead to eligibility for the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP), granted by the Council for Clinical Certification in Audiology and Speech-Language-Pathology (CFCC), which is a council serving the American Speech-Language Hearing Association. Graduates are also eligible for the Wyoming license in speech-language pathology. A supervised Clinical Fellowship Year (CFY) is required beyond the graduate degree for certification.

Accreditation. The Master's of Science (MS) education program in speech-language pathology {residential} at the University of Wyoming is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700.

Typical Programs of Study

There are two programs of study for the MS SLP program. The Plan A is the thesis option (64-credit hour program), and Plan B is the non-thesis option (61-credit hour program). The Plan A (thesis) option requires and 38 credits of graduate academic work (including 4 credits of SPPA 5960 Thesis Research) and 26 credits of graduate clinical practicum. The Plan B (non-thesis) option requires 35 credits of graduate academic work (including 1 credit of SPPA 5961 Graduate Projects/Oral Comprehensive Exam) and 26 credits of graduate clinical practicum.

35-38 Hours of Graduate Academic Work Usually Includes:

SPPA5020 - Phonological Assessment and Intervention

Credits: 3

Emphasis on normal phonetic and phonologic development, diagnosis and clinical management of articulatory and phonological disorders.

Prerequisite: SPPA 3210.

SPPA5140 - EBP and Evaluation Procedures in Communication Disorders

Credits: 4

Focuses on research and evaluation procedures in speech-language pathology. Topics include evidence-based practice, evaluating research, an overview of models of disability across applied settings, assessment and evaluation processes including interviewing, understanding tool psychometrics, and using norm-based referenced tools, criterion-based measurements, and dynamic assessment.

Prerequisite: Acceptance to the University of Wyoming's graduate SLP program.

SPPA5280 - Early Language Intervention

Credits: 3

Principles and techniques of language assessment and intervention for preschoolers, infants, and low-functioning individuals.

Prerequisite: SPPA 3160.

SPPA5220 - Voice Disorders

Credits: 3

Study of the etiology, assessment, and remediation of voice disorders. Includes a discussion of preventing disorders, maintaining a healthy voice, and normal changes in voice. Presentation of rehabilitation options for laryngectomized speaker.

Prerequisite: SPPA 3265.

SPPA5130 - Adult Neurogenic Disorders

Credits: 4

This course will cover acquired neurogenic communication disorders. Topics include language disorders (focusing on Aphasia) as well as cognitive-communication disorders (i. e. , traumatic brain injury, Right Hemisphere Dysfunction, and Neurocognitive disorder). This graduate course provides 1) a basic understanding of the neuroanatomical/physiological basis and 2) instruction regarding evaluation and treatment methods.

Prerequisite: SPPA 4380.

SPPA5330 - School-Age Language Intervention

Credits: 3

Principles and techniques of language assessment and intervention for school-age children and adolescents with particular attention to service delivery issues in schools.

Prerequisite: SPPA 3160.

SPPA5120 - Stuttering

Credits: 2

Theories of etiology, symptoms of the problem, diagnosis and treatment of childhood non-fluency and various approaches to therapy for the adult stutterer.

Prerequisite: graduate level standing.

SPPA5110 - Craniofacial Disorders

Credits: 2

Studies communication disorders related to cleft lip and palate disorders and associated craniofacial sequences and syndromes. Assessment and treatment of these communication disorders is presented in the context of interdisciplinary management. Surgical and nonsurgical treatment procedures employed to manage speech problems associated with velopharyngeal insufficiency are included.

Prerequisite: SPPA 3265, SPPA 2210.

SPPA5230 - Dysphagia

Credits: 3

Provides information regarding the anatomy and physiology of the adult and pediatric swallowing mechanisms, the diagnosis of dysphagia and feeding disorders using clinical and instrumental approaches, the medical diagnoses for which dysphagia is a common symptom, and methods that are commonly used to treat dysphagia and feeding disorders.

Prerequisite: SPPA 3265.

SPPA5100 - Motor Speech Disorders

Credits: 2

Evaluation and treatment of motor speech disorders. Topics will include characteristics of disordered speech associated with neurological impairments/diseases; methods for evaluating communication disorders associated with dysarthria, apraxia of speech, and other neurological and acquired conditions, and treatment approaches.

Prerequisite: SPPA 4380 or a course covering neuroanatomy/physiology of normal and disordered communication.

SPPA5210 - Augmentative and Alternative Communication

Credits: 2

Selection, design, and application of augmentive and alternative communication (AAC) systems to enhance communication, education, and quality of life for individuals with development and acquired disorders.

SPPA5380 - Professional Practice

Credits: 3

Max Credit (Max. 9)

Emphasizes issues related to professional practice of speech-language pathology, such as professional ethics, scope of practice, professional standards, and techniques of counseling clients. This course applies to speech-language pathologists working in either the medical or school setting. This course prepares the speech-language pathologist to collaborate with other professional in the workplace through discussion and activities of inter-professional practice and education (IPP and IPE).

Prerequisite: graduate standing in Communication Disorders and consent of instructor.

SPPA5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Graduate level course designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

SPPA5961 - Graduate Projects

Credits: 1-4
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly activities in support of their Plan B project.

Prerequisite: must be enrolled in Plan B program and have departmental approval.

26 Hours of Graduate Clinical Practicum Include:

SPPA5030 - Clinical Practicum

Credits: 1-4
Max Credit (Max. 12)

Supervised clinical experience with speech, language, and hearing disordered children and adults under supervision of University of Wyoming Speech and Hearing Clinic faculty.

Prerequisite: matriculating graduate students only.
(14 credits total required)

SPPA5270 - Educational Practicum

Credits: 1-12
Max Credit (Max. 12)

Under supervision, the student is given increased responsibility for performing speech and language assessments, hearing screenings, and treatment of children in an educational setting. Students will relate to other educational personnel and counsel teachers and families about communication disorders.

Prerequisite: completion of at least two semesters (including summer) of approved graduate coursework and clinical practicum (SPPA 5030); and approval of faculty.
(6 credits total required)

SPPA5290 - Medical Practicum

Credits: 1-12
Max Credit (Max. 12)

Under supervision, the student is given increased responsibility for performing speech and language assessments, hearing screenings and treatment of children and adults in a medical setting. Students relate to other medical and clinical personnel and counsel professionals and families about communication disorders.

Prerequisite: Completion of at least two semesters (including summer) of approved graduate coursework and clinical practicum; and approval of faculty.
(6 credits total required)

Note:

Note: Specific degree requirements (course name and content), may change based on departmental decisions or requirement changes from accreditation and licensure bodies.

Additional Information

Admissions to the M.S. Degree Program in Speech-Language Pathology

Admission to the master's program in speech-language pathology is made on a competitive basis. We accept students to start in the fall of each year. For application, admission, and a description of the program, see the division website. Applicants must have completed a bachelor's degree or equivalent from a regionally accredited institution. All applicants should have at least a 3.000 cumulative GPA (scale of 4.000).

Additional required undergraduate coursework and discipline specific coursework.

Admitted students must also have taken required coursework in the 4 Foundational Areas (Biological Sciences, Physical Sciences, Social/Behavioral Sciences, and Statistics). For the UW M.S. SLP program, admitted students must also have completed coursework in phonetics; speech & language development; anatomy and physiology of speech, hearing, and swallowing; audiology; neural basis of communication; and aural rehabilitation. Coursework in each of these areas is needed in order to meet the requirements of the Council for Clinical Certification in Audiology and Speech-Language-Pathology (CFCC) certification requirements and/or in order to graduate from the UW MS SLP program. Students missing any of these courses must complete requirements in order to be considered eligible for the M.S. in SLP degree.

Application Procedure

Applications to our master's program must be made through an electronic, centralized application service: the Communication Sciences and Disorders Centralized Application Service for Clinical Education in Audiology and Speech Language Pathology (CSDCAS). Instructions and application procedures are available at <https://csdcas.liasoncas.org/>. Check the division web site in September for instructions.

Applicants will be notified of the division's decision on acceptance, alternate, or denial by mid-March. Applicants must respond to the offer by April 15. Alternates may be offered positions that become available after April 15.

International Students

For all International students, the university must determine whether financial resources are sufficient for study here.

International students from non-English speaking countries need a TOEFL score of 600 to show English proficiency. Additional sources of evidence may be requested by the division to make a final decision. English proficiency must be sufficient for success in graduate school and certification as a speech-language pathologist in the United States, even if the applicant intends to return to the native country.

Conditional Status

An applicant may be admitted conditionally if he or she does not meet the GPA requirements for full admission, and the Division determines that there are sufficient areas of strength for success in graduate school in comparison to other applicants. Conditions will be placed on admission such as graduate grade point average, performance criteria, or completion of certain courses.

Requirements Following Offer of Admission

Students who accept an offer of admission to the program must then provide numerous pieces of required documentation for admission to UW and program, and will also need to be responsive to emails from the Division and faculty throughout onboarding.

Criminal Background Check

Admission to the graduate program in speech-language pathology is contingent upon passing a criminal background check. Each student recommended for admission into program will be required to obtain, pay, and pass a criminal background check. Additional background checks are routinely required by schools, hospitals, and other agencies that participate in the clinical education of our students. The results of the background checks may determine admission and/or ability to complete the UW M.S. SLP program. Please see the College of Health Sciences web site for the policy and procedures document.

Vaccination Requirements

Students' admission to our program is contingent on verification of vaccinations, including COVID-19 vaccination. Other medical information (TB test) will also be requested. Admitted students can request a COVID-19 vaccination exemption from the University, but keep in mind that external clinical placements have their own processes and are not bound to accept University of Wyoming determinations. Students who are not vaccinated may be at risk for extended programs of study and/or inability to complete the degree by completing required and approved externships.

Graduate Student Outcome Data

As of September 2021, 98.04% of MS SLP students completed the program "on-time" over the last three years, 100% obtained employment, and reported Praxis Exam pass rate was 100%.

Program Specific Graduate Assistantships

Financial help for graduate students is available each year through the department with assistantships and other funding. Typically, graduate assistantships include one-half tuition support and a monthly stipend. These assistantships require the student to spend 10 hours per week assisting faculty members in teaching and research. Graduate Assistantships and scholarship awards are competitive and based on past academic performance, evidence of professional promise, and letters of recommendation.

Differential Tuition

The graduate program in speech-language pathology has a differential tuition rate. See the Division website and/or fee book for details.

Certificate

American Sign Language Studies Certificate

Gain basic foundational skills in American Sign Language (ASL), understand sociocultural aspects of Deaf communities, teach other students the basics of ASL.

The American Sign Language Studies (ASL Studies) certificate provides a basic or beginning understanding of ASL and an introduction to Deaf sociocultural issues. The ASL Studies certificate may be helpful to anyone in the health and education fields in learning to communicate with and understand individuals who are Deaf. The certificate is a nominal recognition for students who wish to pursue more education in the fields of speech-language pathology, sign language interpreter, teacher of the deaf, preschool and K-12 education, audiology, nursing, counseling and other areas. The ASL Studies Certificate is not designed or adequate to meet educational requirements for any specific professional license or certification. The ASL Studies certificate from UW is a nominal recognition of basic or beginning ASL skills and Deaf culture. It does not prepare or entitle a student or recipient for any certification or licensure from any state or national associates, agencies or governmental bodies. For more information on the ASL Studies learning objectives, see the website: <http://www.uwyo.edu/comdis/american-sign-language/index.html>.

ASL Studies Certificate Requirements:

Students must have earned a grade of A for all three language courses (SPPA 2110, SPPA 2120, and SPPA 4130) in order to be eligible for the certificate. ASL coursework needs to have been completed within the last 5 years in order to pursue the ASL Studies Certificate, exceptions can be granted if the student demonstrated adequate skills during a structured interview with a UW ASL instructor.

Course sequence for the certificate, 16 credits total:

SPPA2110 - American Sign Language I

Credits: 4

Basic comprehension and expression of American Sign Language (ASL), the language used by the Deaf community in the United States. ASL vocabulary, grammar, and pragmatics are taught through lecture, conversation, and storytelling. The direct experience method (using ASL with no voice) is utilized to enhance the learning process.

USP 2015 Code U5H

Former Course Number [4100]

SPPA2120 - American Sign Language II

Credits: 4

Second level of ASL comprehension and expression. ASL vocabulary, grammar, and pragmatics, along with increased fluency, are taught through lecture, conversation, and storytelling. Translation from English to ASL is addressed.

USP 2015 Code U5H

Former Course Number [4120]

Prerequisite: SPPA 2110.

SPPA4070 - Deaf Studies

Credits: 3

Studies deaf culture and deaf history in the United States. Culture topics will include deaf community dynamics, humor, behavior, emotional and social interaction, besides issues involving deaf children as a linguistic minority. History will be discussed from the 1700s to the present in the U. S.

USP 2003-2014 Code U3CS,U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: SPPA 2110.

SPPA4130 - Advanced ASL

Credits: 4

Third level of ASL comprehension and expression. Addresses increased fluency in ASL; register variation for different conversational participants; and specialized vocabulary, including sexuality and religion. Translation from English to ASL is addressed.

Prerequisite: SPPA 2120.

SPPA4140 - Undergraduate Teaching Assistant

Credits: 1

Max Credit (Max. 2)

Students assist instructor in major courses that they have successfully completed, including assisting with lab or practice sessions, providing individual student assistance, and participating in other student outreach activities on behalf of the Division. One semester credit hour requires 4 hours of work per week.

Prerequisite: consent of instructor/department and junior standing.

Division of Kinesiology and Health

Corbett Building, (307) 766-5284

FAX: (307) 766-4098

Web site: www.uwyo.edu/kandh

Director: Derek Smith

Professors:

TAMI BENHAM DEAL, B.S. Indiana University 1981; M.S. 1988; P.E.D. 1989; Professor of Kinesiology and Health 2012.

CHRISTINE M. PORTER, B.S. University of Maryland 1993; M.A. University of London 2002; Ph.D. Cornell University 2010; Professor of Kinesiology and Health 2021, 2016, 2010.

TRISTAN WALLHEAD, B.S. Loughborough University 1994; M.S. Leeds Metropolitan University 2000; Ph.D. Ohio State University 2004; Professor of Kinesiology and Health 2017, 2010, 2004.

QIN ZHU, B.S. Shanghai University of Sports 1999; M.Ed. 2002; Ph.D. Indiana University 2008; Professor of Kinesiology and Health 2020, 2014, 2008.

Associate Professors:

BOYI DAI, B.Ed. Beijing Sport University 2007; M.S. Iowa State University 2009; Ph.D. University of North Carolina at Chapel Hill 2012; Associate Professor of Kinesiology and Health 2017, 2012.

EVAN C. JOHNSON, B.A. The George Washington University 2004; M.A. University of Connecticut 2008; Ph.D. 2014; Associate Professor of Kinesiology and Health 2020, 2015.

R. TUCKER READDY, B.A. University of California, Berkeley 2000; M.A. San Diego State University 2004; Ph.D. Oregon State University 2009; Associate Professor of Kinesiology and Health 2016, 2010.

DEREK SMITH, B.S. Colorado State University 1997; M.S. Wake Forest University 1999; Ph.D. University of Colorado 2003; Associate Professor of Kinesiology and Health 2009, 2003.

Assistant Professors:

DANIELLE BRUNS, B.S. Linfield College-McMinnville 2008; M.S. Colorado State University 2010; Ph.D. 2013; Assistant Professor of Kinesiology and Health 2018.

BEN KERN, B.A. Western Colorado University 1999; M.A. Adams State University 2002; Ph.D. University of Illinois Urbana-Campaign 2017; Assistant Professor Kinesiology and Health 2020.

EMILY E. SCHMITT, B.S. Elon University 2007; M.S. University of North Carolina at Charlotte 2009; Ph.D. Texas A&M University 2015; Assistant Professor of Kinesiology and Health 2018.

KELLY SIMONTON, B.S. University of Wyoming 2014; M.S. Louisiana State University 2016; Ph.D. Louisiana State University 2018; Assistant Professor of Kinesiology and Health 2021.

Academic Professional:

MARCI SMITH, B.S. Colorado State University 1995; M.S. Wake Forest University 1998; Senior Lecturer in Kinesiology and Health 2015, 2003.

Adjunct Faculty:

Laurence Deal, Shane Tweeter

Professors Emeriti:

Paul Dunham, Ward Gates, Charles W. Huff, Donna Marburger, D. Paul Thomas, Mark Byra, Jayne Jenkins

The Division of Kinesiology and Health offers the Kinesiology and Health Promotion (K&HP) major and the Physical Education Teacher Education (PHET) major. These two majors prepare students in kinesiology and health promotion for a variety of clinical and nonclinical settings including teaching physical and health education in schools K-12. Students enrolled in these programs must meet academic standards as determined by the Division of Kinesiology and Health, College of Health Sciences, and the University of Wyoming.

The K&HP major prepares students well for admission to physical therapy school and occupational therapy school, as well as other health professions (e.g., physician, physician assistant, dentist, chiropractor, optometrist, etc.). Approximately 60% of students majoring in K&HP apply to one of these health professional schools once they have completed their B.S. degree in Kinesiology and Health. Other students majoring in training, fitness, recreation, and leisure, and health promotion with state agencies enter a very diverse job market.

The PHET program prepares students to teach physical and health education (PHET) in K-12 schools. The PHET major is a nationally recognized program for meeting the NASPE/NCATE Initial Physical Education Teacher Education Accreditation Standards. This program offers individuals opportunity to combine certifications/endorsements in health education K-12, adapted physical education K-12, and coaching.

A graduate program leading to a Master of Science degree in Kinesiology and Health is offered by the Division.

Professional Program

Students who meet University of Wyoming entry requirements are admitted to the university in one of the two undergraduate majors that leads to the Bachelor of Science degree. The Division's undergraduate majors are open at the freshman level to all graduates of accredited high schools. Advanced placement for students with previous college credit is based on evaluation of transcripts of previous academic work.

Students in the Kinesiology & Health Promotion (K&HP) program are ready to move forward in the junior year of the program when they complete the pre-requisite requirements to enroll in KIN 3021 and KIN 3022, Physiology of Exercise lecture and laboratory. To be eligible for the K&HP Professional Program (junior/senior years), students must have completed all program course prerequisites and have a minimum cumulative grade point average of 2.750, preferred GPA of 3.000. Advancement in the K&HP Professional Program is complete once prerequisite criteria is met.

The entry course for admission to the Physical Education Teacher Education (PHET) program is KIN3012 - Teaching Laboratory I. To be eligible, for the PHET professional program, students must have completed all program course prerequisites and have a minimum cumulative grade point average of 2.750, preferred GPA of 3.000. Admission to the last two years of the PHET major is a competitive process. Application to the PHET majors is conducted only for fall. The application deadline is early April.

Undergraduate Majors

Kinesiology and Health Promotion, B.S.

Physical Education Teacher Education K-12, B.S.

Additional School Endorsements K-12

Adapted Physical Education K-12 Endorsement

School Health Education K-12 Endorsement (For Physical Education Teacher Education Majors)

Affiliated Options

The Division of Kinesiology and Health offers two options for the general undergraduate population. They require course work beyond degree requirements.

Athletic Coaching Endorsement / Permit

School Health Education K-12 Endorsement (For non-Physical Education Teacher Education Majors)

Graduate Study

Program Specific Admission Requirements

Admissions into the M.S. degree program is open to people who have obtained an undergraduate degree with a major program of study in exercise and sport science, health, kinesiology, physical education, or other area in human movement sciences. Students who do not have a bachelor's degree in kinesiology, physical education or health are required to complete four undergraduate courses in kinesiology and/or health in addition to the courses required for the graduate program of study. Individuals interested in applying are encouraged to contact the Graduate Program Coordinator, Dr. Tucker Readdy (tucker.readdy@uwyo.edu) for more information.

In order to apply, please submit the following via the University of Wyoming's online application system (www.uwyo.edu/admissions/apply.html): K&H supplemental application, copies of GRE scores, transcripts, a sample of professional writing, and three letters of recommendation. Applications must be submitted no later than February 1 to be considered for Fall admission; Spring admissions are also considered on a case by case basis.

GRE scores are required for admission but can be waived in specific situations. A minimum of a 3.000 undergraduate cumulative GPA is also necessary for admission. International students who are not native English speakers must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (www.uwyo.edu/ele/) if you have questions regarding English proficiency requirements.

Please see the Graduate Admissions and Graduate Student Regulations and Policies in the front section of the UW Catalog for more information.

Program Specific Graduate Assistantships

Graduate assistantships are available on a competitive basis. Teaching opportunities exist within the laboratory portions of the human anatomy and exercise physiology courses, the teaching laboratory portions of the pedagogy practical courses, and HLED1006 - Personal Health. A graduate assistantship also involves some research opportunities with assigned graduate faculty advisors.

A stipend for a full time graduate assistant is \$12,333.00 per academic year. Tuition and fees are covered according to the percentage of assistantship allocated to the student.

Program Specific Degree Requirements Master's Programs

Kinesiology and Health, Exercise and Sport Science Emphasis, M.S. *Plan A (thesis)*

Kinesiology and Health, Health Emphasis, M.S. *Plan A (thesis)*

Kinesiology and Health, Physical Education Teacher Education Emphasis, M.S. *Plan A (thesis)*

Kinesiology and Health, M.S. *Plan B (paper and experiential learning option)*

Kinesiology and Health Distance Education, M.S. *Plan B (paper)*

Major

Kinesiology and Health Promotion, B.S.

The B.S. in Kinesiology and Health Promotion degree prepares students for careers in clinical exercise physiology, health and movement coaching, biomechanics, nutrition, basic science, and behavioral science. The program is also excellent for students seeking to enter the field of medicine.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate and are not covered by the Kinesiology and Health Promotion major. These courses should be taken before KIN 3021 & 3022, except the Communications III (USP-C3) course.

First Year Seminar (3 credits)

Communications I (3 credits)

ENGL 1010 English Composition

Communications II (3 credits)

Communications III (3 credits)

U.S. & Wyoming Constitution (3 credits)

Human Culture

Any USP-H course (not HLED) (3 credits, meets 3 out of 6 credits of Human Culture USP requirement)

Courses required for major

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring,

theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

CHEM1000 - Introductory Chemistry

Credits: 4

Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.
OR CHEM 1020 - General Chemistry I

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

HLED1006 - Personal Health

Credits: 3

Introduces multiple concepts of personal health (e. g. , physical activity, diet, stress, social pressure, public health,

human behavior, disease prevention, healthcare access, and health-oriented citizenship) in relation to improving individual health and understanding the health of a society and cultural differences in human health and health behavior.

USP 2015 Code U5H

KIN1006 - Introduction to Kinesiology and Health

Credits: 1

A survey of the disciplines of kinesiology and health and exposure to foundational literature in the field.

Prerequisite: Declared Kinesiology & Health Promotion major or permission of instructor.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.
OR STAT 2070 Introductory Statistics for the Social Sciences

PHYS1050 - Concepts of Physics

Credits: 4

Introduces the physical world. For students whose background in math and science is minimal; recommended for students in paramedical sciences and medical technology. Three lecture hours per week are supplemented by two hours per week of laboratory work.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.
OR PHYS 1110 General Physics I

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

HLED3020 - Community and Public Health

Credits: 3

Public health aim to create the conditions where people can be healthy. This course introduces goals and applications of community and public health work in the US, illustrated with case studies from the most urgent health issues facing our nation.

Former Course Number [4050]

Prerequisite: HLED 1006, completion of a COM2 course, and minimum 2.750 GPA.

KIN3021 - Physiology of Exercise

Credits: 3

Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

Former Course Number [PEPR 3021]

Prerequisite: 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH

1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

A minimum cumulative GPA of 2.750 (preferred 3.000) is required before taking KIN 3021

KIN3022 - Lab Exp in Exercise Physiology

Credits: 1

An in-depth examination of the measurement of physiological principles and mechanisms related to human movement. Lab exercises emphasize skills necessary for basic morphological through advanced exercise performance testing variables. Laboratory writing exercises focus on improving students' ability to read and comprehend scientific articles and produce scientific writing based on their own experiments and data.

Prerequisite: KIN 3021 or concurrent enrollment.

KIN3024 - Fundamentals of Health and Fitness Assessment

Credits: 3

Fundamental concepts of health appraisal, assessment of health-related fitness levels, individual and group exercise programming and leadership, and methods of behavioral change. Theory and practical application of fitness presented with an emphasis on adults. Has lecture and lab components. Completion of KIN 3021 highly recommended.

Former Course Number [PEPR 3010]

Prerequisite: completed or concurrent enrollment in KIN 3021; 2.750 GPA.

KIN3034 - Lifespan Motor Development

Credits: 3

Studies lifespan motor development. Emphasizes developmental periods of infancy through adolescence. Gives attention to observation and analysis of motor behavior and movement performance of individuals across lifespan.

Former Course Number [PEPR 3034]

Prerequisite: grade of C or better in PSYC 1000; junior standing; 2.750 GPA.
OR KIN 4020 Motor Behavior

KIN3037 - Sport Psychology

Credits: 3

Studies psychological theories and techniques applied to sport to enhance the performance and personal growth of athletes and coaches. Emphasizes the influence of personality, anxiety, motivation, social factors, and psychological skills training.

Former Course Number [PEPR 3037]

Prerequisite: Admitted to the last two years of one of the programs in DK&H.
OR KIN 3038 Exercise Psychology

KIN3042 - Biomechanics of Human Movement

Credits: 3

Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

Minimum of 6 hours total in:

KIN4015 - Internship Experience in Kinesiology

Credits: 1-12

Variable-credit (1-12) and S/U course required of Kinesiology and Health undergraduate majors to provide experiential learning in kinesiology and health in a real world setting. Intended to integrate theory and technique with practical application to expose students to areas of professional/career interest and assist with building professional careers. Must have CPR/ AED/1st Aid Certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed HLED 4015.

Former Course Number [PEPR 4015]

Prerequisite: Grade of C or better in KIN 3024;
OR

HLED4015 - Internship Experience in Health

Credits: 1-12

Max Credit (Max. 12)

Variable-credit (1-12) and S/U course required of Kinesiology and Health undergraduate majors to provide experiential learning in kinesiology and health in a real world setting. Intended to integrate theory and technique with practical application to expose students to areas of professional/career interest and assist with building professional careers. Must have CPR/AED/1st Aid Certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed KIN 4015.

Prerequisite: Grade of C or better in KIN 3024; 2.750 GPA; completion of a minimum of 18 credits in KIN/HLED upper division coursework.

OR

KIN4016 - Research Experience in Kinesiology and Health

Credits: 1-6
Max Credit (Max. 6)

Offered to students who wish to gain a research experience in Kinesiology and Health. Meant for students who are interested in pursuing an advanced degree. Students may choose to complete KIN/ HLED 4016 instead of KIN/HLED 4015. Must have CPR/AED/1st Aid certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed HLED 4016.

Prerequisite: minimum sophomore standing; declared KHP major; permission of instructor; 2.750 GPA.
OR

HLED4016 - Research Experience in Kinesiology and Health

Credits: 3-6
Max Credit (Max. 6)

Offered to students who wish to gain a research experience in Kinesiology and Health. Meant for students who are interested in pursuing an advanced degree. Students may choose to complete KIN 4016/HLED 4016 instead of KIN 4015/HLED 4015. Must have CPR/AED/1st Aid certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed KIN 4016.

Prerequisite: minimum sophomore standing; declared KHP major; permission of instructor; and minimum 2.750 GPA.

Elective Courses

KIN/HLED Upper-Division Elective Coursework (15 credits)

15 credits of 3000-4000 level KIN/HLED elective coursework is required in addition to the required KIN & HLED courses listed above.

Consult with your advisor to see list of possible courses.

General Electives (25 credits)

Degree must include 120 credits, at least 48 of which must be upper-division credits.

KIN and HLED electives (i.e., non required courses) from above may be counted towards these 25 credits. KIN 2050 is recommended as one elective course.

Consult with your academic advisor and your pre-health advisor (if applicable). Pre-health students will need to take additional professional prerequisite courses as electives.

Additional Requirements

Students must complete 48 credit hours of upper division coursework (3000- or 4000-level courses) to meet the Division's minimum 48 credit hour requirement for the B.S. degree in Kinesiology and Health Promotion.

NOTE: Students should complete CPR & first aid certification and the certification should remain current throughout the program. Cards can be presented to the division registrar in Corbett 119 to be cleared of the requirement on the degree evaluation.

PRE-HEALTH ANNOUNCEMENT

This degree is great preparation for various careers in health care and allied health. If you are interested in becoming a strong applicant to graduate school for a career in these fields, please tell your primary advisor and connect with the Pre-Health Advising Office on campus as soon as possible: <https://www.uwyo.edu/preprof/> or hsadvise@uwyo.edu Your career of choice will determine which math and science courses you need to take in your first years, so talk to them early!

Physical Education Teacher Education K-12, B.S.

The Physical Education program is a nationally accredited program where students learn the content and teaching methods required to be certified to teach physical education K-12 in the public schools of Wyoming.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate. Many of these requirements are covered by the Physical Education Teacher Education K-12 major. All USP courses except the Communications II (USP-C2) and Communications III (USP-C3) courses must be completed prior to admission into the Physical Education Teacher Education Program.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3

Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3

Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Prerequisites for Admission

Prerequisites for admission into the Physical Education Teacher Education program:

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

OR MATH 1405 Trigonometry

CHEM1000 - Introductory Chemistry

Credits: 4

Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.

OR CHEM 1020 - General Chemistry

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

HLED1006 - Personal Health

Credits: 3

Introduces multiple concepts of personal health (e. g. , physical activity, diet, stress, social pressure, public health, human behavior, disease prevention, healthcare access, and health-oriented citizenship) in relation to improving individual health and understanding the health of a society and cultural differences in human health and health behavior.

USP 2015 Code U5H

KIN2000 - Movement Core I: Striking/Fielding and Invasion Games

Credits: 2

Exposes students to skill and tactical themes comprising striking/fielding and invasion games. Course aims for students' ability to understand, demonstrate and analyze the different offensive and defensive tactics that facilitate game play success in invasion (soccer, tag rugby, basketball) and striking/fielding (softball, cricket) games.

Former Course Number [PEPR 2000]

Prerequisite: sophomore standing.

KIN2001 - Movement Core II: Net and Target Games

Credits: 2

Exposes students to skill and tactical themes comprising net and target games. Course aims for students' ability to understand, demonstrate and analyze different offensive and defensive tactics facilitating game play success in net (volleyball, tennis, badminton) and target (archery) games.

Former Course Number [KIN 1025, PEPR 1025]

Prerequisite: sophomore standing.

KIN2003 - Move Core IV: Adv. & Otrd. Ed.

Credits: 2
Max Credit 2

Movement Core IV: Adventure and Outdoor Education - To provide prospective pre-service physical education teachers (PTs) with the skills and knowledge necessary to teach adventure and outdoor education curricula to K-12 learners.

Former Course Number [KIN 1000, PEPR 1000]**Restricted** Sophomore standing

Prerequisite: sophomore standing.

KIN2004 - Move Core V: FMS & Ind. Act.

Credits: 3
Max Credit 3

Movement Core V: Fundamental Movement Skills, Gymnastics, Dance, and Swimming - To provide prospective pre-service physical education teachers (PTs) with the skills and knowledge necessary to teach fundamental motor skills, gymnastics, dance, and swimming to K-12 learners.

USP 2003-2014 Code U3CA

Former Course Number [KIN 3025, PEPR 3025]**Restricted** Sophomore standing

KIN2005 - Movement Core VI: Physical Fitness and Physical Activity

Credits: 2

Designed for prospective school-based physical and health education teachers K-12. Focuses on five primary content areas: what is fitness education and why do we need it; development of content-based fitness curriculum; teaching cognitive aspects of fitness education; teaching physical aspects of fitness education; and promoting fitness education.

Former Course Number [KIN 2025, PEPR 2025]

Prerequisite: sophomore standing.

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

PHYS1050 - Concepts of Physics

Credits: 4

Introduces the physical world. For students whose background in math and science is minimal; recommended for students in paramedical sciences and medical technology. Three lecture hours per week are supplemented by two hours per week of laboratory work.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.
OR PHYS 1110 General Physics I

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.
OR STAT 2070 Introductory Statistics for the Social Sciences

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

EDSE3540 - Teaching Reading and Study Strategies in the Content Areas

Credits: 2-4

Provides students majoring in secondary education programs with a knowledge of reading factors as they relate to various disciplines. Content includes estimating students' reading ability, techniques for vocabulary development, questioning strategies, and developing reading related study skills.

Former Course Number [EDCI 3540]

Prerequisite: junior standing and minimum 12 hours in discipline area.

Required Courses After Admission

Required courses after admission into the professional program.

Consult with your academic advisor for the order in which these courses must be taken, or if you have any questions.

KIN3011 - Teaching Methods in Physical Education K-12

Credits: 3

Develops knowledge, skills and understandings appropriate to successful participation in a class setting when functioning in the teaching role.

Former Course Number [PEPR 3011]

Prerequisite: grade of C or better in KIN 3012; concurrent enrollment in KIN 3015 and KIN 4080.

KIN3012 - Teaching Laboratory I

Credits: 3

Provides the opportunity to develop skills and acquire knowledge needed to teach physical education. Allows the opportunity for students to evaluate the motor status and progress of a preschool aged child, as well as plan and implement a developmentally appropriate motor program.

When Offered (Offered fall semester)

USP 2015 Code U5C2

Former Course Number [PEPR 3012]

Prerequisite: Admitted to PHET program.

KIN3015 - Teaching Laboratory II

Credits: 3

Provides pre-service physical education teacher with skills, knowledge and principles of teaching through application of peer teaching and small group elementary school teaching. Emphasizes and practices program development, lesson planning and development of a physical education teaching unit.

When Offered (Offered spring semester)
USP 2003-2014 Code U3WC
Former Course Number [PEPR 3015]

Prerequisite: grade of C or better in KIN 3012; concurrent enrollment in KIN 3011, KIN 4080.

KIN3021 - Physiology of Exercise

Credits: 3

Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

Former Course Number [PEPR 3021]

Prerequisite: 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

KIN3022 - Lab Exp in Exercise Physiology

Credits: 1

An in-depth examination of the measurement of physiological principles and mechanisms related to human movement. Lab exercises emphasize skills necessary for basic morphological through advanced exercise performance testing variables. Laboratory writing exercises focus on improving students' ability to read and comprehend scientific articles and produce scientific writing based on their own experiments and data.

Prerequisite: KIN 3021 or concurrent enrollment.

KIN3034 - Lifespan Motor Development

Credits: 3

Studies lifespan motor development. Emphasizes developmental periods of infancy through adolescence. Gives attention to observation and analysis of motor behavior and movement performance of individuals across lifespan.

Former Course Number [PEPR 3034]

Prerequisite: grade of C or better in PSYC 1000; junior standing; 2.750 GPA.

KIN3037 - Sport Psychology

Credits: 3

Studies psychological theories and techniques applied to sport to enhance the performance and personal growth of athletes and coaches. Emphasizes the influence of personality, anxiety, motivation, social factors, and psychological skills training.

Former Course Number [PEPR 3037]

Prerequisite: Admitted to the last two years of one of the programs in DK&H.
OR KIN 3038 Exercise Psychology

KIN3042 - Biomechanics of Human Movement

Credits: 3

Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

KIN3050 - Prevention and Care of Athletic Injuries

Credits: 2

Encompasses theory and practical work in the field of athletic training. Strongly emphasizes prevention and care of athletic injuries, including wrapping and taping techniques.

Former Course Number [PEPR 3050]

Prerequisite: junior standing; C or better in KIN 2040; minimum 2.750 GPA.

KIN3060 - Understanding Skill Acquisition for Teaching

Credits: 3

Addresses practical questions specific to teaching physical activity

Prerequisite: C or better in PSYC 1000; junior standing; declared major in KHP or PHET; 2.750 GPA; or permission of instructor.

KIN4012 - Curriculum Development in Physical Education

Credits: 3

Focuses on the design of K-12 school physical education programs. It provides opportunities to study alternative curriculum models, engage in the process of curriculum design, and examine policy and theoretical issues of concern to curriculum designers.

When Offered (Offered fall semester)

Former Course Number [PEPR 4012]

Prerequisite: grade of C or better in KIN 3011, KIN 3015 and KIN 4080.

KIN4013 - School Administration for the Health Sciences

Credits: 2

Provides teaching majors with information about staff-administrator relationships in school settings. Topics include principles of leadership, school organization and culture, legal issues, financial issues, building and facilities management.

Prerequisite: grade of C or better in KIN 3011, KIN 3015, KIN 4080.

KIN4017 - Teaching Laboratory III

Credits: 3

Focuses on the application of teaching skills and the effective utilization of sport-based curricular and instructional models in the secondary public school setting.

When Offered (Offered fall semester)

Former Course Number [PEPR 4017]

Prerequisite: grade of C or better in KIN 3011, KIN 3015, and KIN 4080; 2.750 minimum cumulative GPA; concurrent enrollment in KIN 4012.

KIN4055 - Adapted Physical Education

Credits: 2

Presents skills necessary to plan, implement and evaluate individualized physical education programs in the least restrictive environment. Acquaints students with current laws, characteristics, assessment instruments and nationally validated programs in physical education for the disabled child.

When Offered (Offered spring semester)

Former Course Number [PEPR 4055]

Prerequisite: KIN 3012.

KIN4080 - Assessment in Physical Education

Credits: 3

Provides prospective teachers with a thorough knowledge of learner assessment as applied to physical education K-12.

When Offered (Offered spring semester)

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Former Course Number [PEPR 4080]

Prerequisite: grade of C or better in KIN 3012.

KIN4099 - Student Teaching in Physical Education

Credits: 1-16

Student teaching is the culminating experience required of all students in teacher education for graduation and recommendation for certification. Consists of full-time assignment of 16 weeks in an approved school station in Wyoming under supervision of an experienced, approved supervising teacher.

Former Course Number [PEPR 4099]

Prerequisite: grade of C or better in KIN 4017.

Note(s):

*** Note: Students must be certified in first aid and CPR prior to enrollment in KIN 4099.

Additional Requirements

Students must complete 48 credit hours of upper-division coursework (3000- or 4000-level courses) to meet the Division's requirement for the B.S. in Physical Education Teacher Education. For any elective coursework, it is recommended that these courses are selected from the Affiliated Options on this page.

In order to advance into the professional program, students must be admitted through a competitive application process. The entry course for admission to the Physical Education Teacher Education (PHET) program is KIN 3012, Teaching Lab 1. To be eligible for the PHET professional program, students must have completed all program course prerequisites and have a minimum cumulative grade point average of 2.750, preferred GPA of 3.000.

NOTE: Students should complete CPR certification and the certification should remain current throughout the program. Cards can be presented to the division registrar in Corbett 119 to be cleared of the requirement on the degree evaluation.

Affiliated Options

The Division of Kinesiology and Health offers two options for the general undergraduate population. They require course work beyond degree requirements.

Athletic Coaching Endorsement/Permit

Students who wish to qualify for an athletic coaching permit to coach in Wyoming public schools must complete four courses. Note: Endorsements are for current teachers. Permits are for those who are not a licensed educator.

- CPR Certification

KIN3050 - Prevention and Care of Athletic Injuries

Credits: 2

Encompasses theory and practical work in the field of athletic training. Strongly emphasizes prevention and care of athletic injuries, including wrapping and taping techniques.

Former Course Number [PEPR 3050]

Prerequisite: junior standing; C or better in KIN 2040; minimum 2.750 GPA.

- Foundations of Coaching KIN 4090 /KIN 5090 - 3 Credit Hours
- Students completing the Physical Education Teacher Education undergraduate degree are exempt from the KIN 4090/5090 requirement.
- Coaching in... Experience (completed at a community college or complete a coaching experience in a specific sport for one season or more with a letter written by your supervising coach to submit with your PTSB endorsement application form).

School Health Education K-12

In addition to completing a bachelor's degree in teaching at the secondary level from an approved university program, 25 credit hours are required to be endorsed to teach health education K-12 in the public schools of Wyoming.

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

HLED1006 - Personal Health

Credits: 3

Introduces multiple concepts of personal health (e. g. , physical activity, diet, stress, social pressure, public health, human behavior, disease prevention, healthcare access, and health-oriented citizenship) in relation to improving individual health and understanding the health of a society and cultural differences in human health and health behavior.

USP 2015 Code U5H

- CPR Certification

HLED4120 - Assessment in Health

Credits: 3

Provide students with an understanding of components of a balanced assessment system in school health education. Students review the basics of standards-based health education and explore innovations in assessment that provide teachers and students with a more complete and authentic picture of student learning.

Prerequisite: Minimum 2.500 GPA; concurrent enrollment in KIN 4099 or certified K-12 teacher.

HLED4025 - Teaching Sensitive Issues In Human Sexuality

Credits: 3

Prepares educators and other helping professionals whose work involves promoting healthy sexuality in children, young people, and adults. It also provides detailed investigation into important aspects of teaching sensitive issues related to human sexuality. Students practice, critique, develop, and evaluate sexuality education processes and resources.

Dual Listed HLED 5025.

Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

HLED4110 - Teaching Health in Schools K-12

Credits: 3

Presented appropriate knowledge and skills to become health literate. Explore ways to teach health skills and knowledge and use assessment strategies for health education.

When Offered (Offered fall semester)

Prerequisite: Grade C or better in KIN 3015 or certified K-12 teacher.

HLED4130 - Management of Coordinated School Health Programs

Credits: 3

Reviews the coordinated school health program (CSHP) model and identifies research that supports the eight components of the model. Prepares students to advocate for CSHP and to develop the school infrastructure necessary to carry out such a program. Also prepares individuals to work with school from job settings outside the school.

Dual Listed HLED 5130.

When Offered (Offered fall semester)

Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

PSYC2210 - Drugs and Behavior

Credits: 3

Surveys drugs which affect behavior, emphasizing both psychotherapeutic agents and drugs with abuse potential. Includes brief introduction to the chemistry of the brain and how drugs may have their effects. Behavioral, social, historical and medical aspects of each major class of psychoactive drugs are discussed.

Prerequisite: A grade of C or better in PSYC 1000.

OR

HLED4030 - Teaching About Alcohol and Substance Abuse

Credits: 3

Introduces students to the issues of societal and personal attitudes towards alcohol and substance use, misuse and abuse. Prepares an educator to teach about alcohol and substance abuse in the classroom and out of the school setting.

Prerequisite: Sophomore standing; minimum 2.750 GPA; or permission of instructor.

Adapted Physical Education K-12 Endorsement

In addition to completing the Bachelor of Science degree in physical education teacher education from the University of Wyoming, students can qualify for K-12 endorsements in adapted physical education and/or health education by completing the following course requirements:

EDEX2484 - Introduction to Special Education

Credits: 3

Designed to meet the needs of education majors for a required course in special education. Students will explore the history of, understanding of and services for individuals with low/high incidence disabilities.

Prerequisite: EDST 2450 completed with a C or better and an institutional GPA of 2.50.

KIN4055 - Adapted Physical Education

Credits: 2

Presents skills necessary to plan, implement and evaluate individualized physical education programs in the least restrictive environment. Acquaints students with current laws, characteristics, assessment instruments and nationally validated programs in physical education for the disabled child.

When Offered (Offered spring semester)

Former Course Number [PEPR 4055]

Prerequisite: KIN 3012.

KIN4065 - Resources in Adapted Physical Education

Credits: 2-3

Max Credit (Max. 3)

Offers flexible credit for students interested in pursuing intensive study of resources for adapted physical education. Required for state endorsement in Adapted Physical Education.

Former Course Number [PEPR 4065]

Prerequisite: grade of C or better in KIN 4055.

KIN4075 - Assessment in Adapted Physical Education

Credits: 3

Designed to provide an overview of the assessment process in adapted physical education. Developmentally and disability appropriate psychomotor assessments and procedures for administering them are examined.

Prerequisite: grade of C or better in KIN 4055 and KIN 4080.

Graduate

Kinesiology and Health Distance Education, M.S.

Master of Science Distance Education Program is designed for teachers, coaches, and other health professionals to fit into their busy schedules. Students can complete the Master of Science degree via synchronous or online modalities in a three, four, or five year period of time.

Plan B (Paper)

General Information

Teachers of health and physical education typically teach throughout the day and coach during the evenings and weekends. Therefore, traditional on campus Master's degree programs that require students to attend the University of Wyoming in Laramie are often simply impossible for teachers and other health professionals to fit into their busy schedule.

The Division of Kinesiology and Health offers the Master of Science degree in Kinesiology and Health as an off-campus, distance education program. All courses are delivered via synchronous or online modalities. The distance education program is designed such that you can complete the Master of Science degree in a three, four, or five year period of time.

This program involves a minimum of thirty (30) total credit hours of coursework and a culminating paper or case study presentation (experiential learning option) that is developed on a topic selected by the student in conjunction with her or his graduate faculty advisor. The process for composing the culminating paper or case study includes the development of a prospectus and final presentation of the paper or case study. Students who elect the experiential learning option will also be required to complete three (3) credits of KIN 5990 (Internship) . At least twenty-one (21) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the nine (9) hours of general required courses.

General Required Courses (9 Credits)

¹ May substitute EDRE 5530

KIN5080 - Investigations in Kinesiology and Health

Credits: 1-3
Max Credit (Max. 3)

Designed to develop Master of Science level graduate students into critical consumers of research. An additional purpose is to develop research skills to the level necessary to complete a master of science Plan B paper.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5085 - Research Methods

Credits: 3

Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

Prerequisite: graduate standing in KIN or permission of instructor.

EDRE5600 - Introduction to Quantitative Research

Credits: 3

Basic concepts of educational survey research design, statistics, and measurement. The focus is on descriptive statistics (measures of central tendency, variability, percent and frequency distribution, bivariate correlation, graphical displays, testing hypotheses about proportions). Students develop questionnaires and plan, conduct, and report on a survey study.

OR

EDRE5640 - Introduction to Qualitative Research

Credits: 3

This course introduces qualitative research. Students will explore the foundations, social science theories, methods, and processes of qualitative research and will learn to critically evaluate published research. Emphases will include basic design principles, trustworthiness, and analysis. Students will engage in original data collection and will produce a mini report.

Prerequisite: EDRE 5530.

Kinesiology and Health Electives (15 Credits)

12 credits selected from the following KIN courses:

KIN5011 - Teacher Socialization in PE

Credits: 3

Max Credit 3

This course provides students with understanding of how physical educators are recruited into, professionally trained, and function in the workplace. Students will have the opportunity to analyze, critique, and evaluate empirical evidence related to socialization in physical education, as well as conduct research on given topics from the socialization literature.

Prerequisite: Graduate standing or permission from instructor

KIN5014 - Teaching Tactics in Sport-Based Physical Education

Credits: 3

Introduces students to the instructional strategy of the Tactical Games Approach (Mitchell, Oslin, & Griffin, 2006) of teaching sport-based activities in physical education. Emphasis is on planning, implementing, assessing and evaluating the tactical approach within the K-12 physical education context.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5016 - Analysis and Supervision of Teaching in Physical and Health Education

Credits: 3

Introduces various evaluative and supervisory techniques which are designed to improve teaching effectiveness and student learning. Emphasis will be placed on utilizing various strategies of evaluation in instructional settings.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5018 - Psychology of Teaching Physical Education

Credits: 3

Weaves together theory, research, and practical information related to the psychological aspects of teaching physical education. It shows how you can use psychological principles and strategies to manage behavior, motivate students, achieve program goals, and establish a positive learning environment.

Prerequisite: graduate standing in KIN or permission of instructor.

- KIN 5019 - Instructional Models for Physical Education Credits: 3

KIN5090 - Foundations of Coaching

Credits: 3

Coaches must be effective teachers, trainers, fund-raisers, recruiters, motivators, administrators, and counselors. The major purpose of this course is to provide future coaches with current information about the eight domains of essential coaching skills identified in the NSSC. These domains include philosophy and ethics, safety and injury prevention, physical conditioning, growth and development, teaching and communication, sport skills and tactics, organization and administration, and evaluation.

Dual Listed KIN 4090.

Prerequisite: graduate standing in KIN or permission of instructor.

Elective Courses (6 Credits)

Students are encouraged to complete at least one course from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Investigation in Kinesiology and Health: Maximum of 3 credit hours of Investigation in Kinesiology and Health (KIN 5080) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Thesis Research: No credit hours of Thesis Research (KIN 5960) may contribute to the Plan B Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097 /KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

- Practicum/Internship Coursework: Maximum of 3-credit hours of Practicum in College Teaching (HLED 5900 /KIN 5900) or KIN 5990 - Internship may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Kinesiology and Health, Exercise and Sport Science Emphasis, M.S.

Master of Science with Emphasis in Exercise and Sport Science is designed for students who want to pursue doctoral degrees and careers in exercise physiology, biomechanics, exercise and sport psychology, motor learning and control, physical activity and lifespan development, etc.

Plan A (Thesis)

The Plan A option of the Master of Science degree in ESS is designed to prepare students for careers in one of the subdisciplines (e.g., exercise physiology, biomechanics, exercise and sport psychology, motor learning and control, physical activity and lifespan development, etc.).

All students complete a series of general required courses and a concentration of courses in their specific ESS subdiscipline. The ESS area of emphasis involves a minimum of thirty (30) total credit hours of coursework, a thesis, and a final oral examination. At least twenty-five (25) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the ten (10) hours of general required courses.

General Required Courses (10 Credits)

¹ May substitute STAT 5060, STAT 5070, STAT 5080; or EDRE 5600 or EDRE 5640. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0

KIN5085 - Research Methods

Credits: 3

Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: graduate standing in KIN or permission of instructor.

STAT5050 - Statistical Methods for the Biological Science

Credits: 3

General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 3050, 5050, 5060, STAT 5070.

Cross Listed ZOO 5050.

Prerequisite: one course in statistics (all introductory courses except 2000).

Specialized Required Courses (9-15 Credits)

Area of specialization will include three to five courses (9-15 hours) within the student's chosen ESS subdiscipline. Your advisor will identify courses to be taken specific to the selected area of emphasis.

Elective Courses (Minimum 6 Credits)

Students are encouraged to complete at least one of their elective course selections from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

1. Thesis Research: Maximum of 4 credit hours of Thesis Research (KIN 5960) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
2. Investigations in Kinesiology and Health: No credit hours of Investigations in Kinesiology and Health (KIN 5080) may contribute to the Plan A (Thesis) Degree Program.
3. Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097/KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
4. Practicum/Internship Coursework: Maximum of 3-credit hours of Practicum in College Teaching (KIN 5900) or Internship (KIN 5990) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
5. 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Kinesiology and Health, Health Emphasis, M.S.

Master of Science with Emphasis in Health is designed to prepare students for careers in public and community health settings.

Plan A (Thesis)

The Plan A option of the Master of Science degree in the area of HLED is designed to prepare students for careers in public and community health settings. All students complete a series of general required courses and a concentration of courses in the area of HLED.

The HLED area of emphasis involves a minimum of thirty (30) total credit hours of coursework, a thesis, and a final oral examination. At least twenty-one (21) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the ten (10) hours of general required courses.

General Required Courses (10 Credits)

¹ May substitute STAT 5060, STAT 5070 or STAT 5080 ,EDRE 5640 or EDRE 5660. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0

KIN5085 - Research Methods

Credits: 3

Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: graduate standing in KIN or permission of instructor.

STAT5050 - Statistical Methods for the Biological Science

Credits: 3

General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 3050, 5050, 5060, STAT 5070.

Cross Listed ZOO 5050.

Prerequisite: one course in statistics (all introductory courses except 2000).

Specialized Required Courses (9-15 Credits)

Coursework will include three to five courses (9-15 hours). Your advisor will identify courses to be taken.

Elective Courses (Minimum 6 Credits)

Students are encouraged to complete at least one of their elective course selections from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Thesis Research: Maximum of 4 credit hours of Thesis Research (KIN 5960) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Investigations in Kinesiology and Health: No credit hours of Investigations in Kinesiology and Health (KIN 5080) may contribute to the Plan A (Thesis) Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097/KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Practicum Coursework: Maximum of 3-credit hours of Practicum in College Teaching (HLED 5900) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Kinesiology and Health, M.S.

Master of Science, Plan B, is designed for students who are seeking a terminal degree in Kinesiology and Health. This option is not designed for students seeking to pursue a doctoral degree at the completion of the Master of Science degree.

Plan B (Paper and Experiential Learning Option)

The Plan B option of the Master of Science degree in Kinesiology and Health is designed to prepare students who are seeking a terminal degree. This option is not designed for students seeking to pursue a doctoral degree at the completion of the Master of Science degree in Kinesiology and Health.

This program involves a minimum of thirty (30) total credit hours of coursework and a culminating paper or case study presentation (experiential learning option) that is developed on a topic selected by the student in conjunction with her or his graduate faculty advisor. The process for composing the culminating paper or case study includes the development of a prospectus and final presentation of the paper or case study. Students who elect the experiential learning option will also be required to complete three (3) credits of KIN 5990 - Internship . At least twenty-four (24) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the nine (9) hours of general required courses.

General Required Courses (10 Credits)

¹ May substitute STAT 5060, STAT 5070, STAT 5080 , EDRE 5600 or EDRE 5640. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0

KIN5080 - Investigations in Kinesiology and Health

Credits: 1-3
Max Credit (Max. 3)

Designed to develop Master of Science level graduate students into critical consumers of research. An additional purpose is to develop research skills to the level necessary to complete a master of science Plan B paper.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5085 - Research Methods

Credits: 3
Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

Prerequisite: graduate standing in KIN or permission of instructor.

STAT5050 - Statistical Methods for the Biological Science

Credits: 3
General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 3050, 5050, 5060, STAT 5070.

Cross Listed ZOO 5050.

Prerequisite: one course in statistics (all introductory courses except 2000).

Elective Kinesiology and Health Courses (Minimum of 15 Credits)

Elective Courses (Minimum of 6 Credits)

Students are encouraged to complete at least one course from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Investigation in Kinesiology and Health: Maximum of 3 credit hours of Investigation in Kinesiology and Health (KIN 5080) may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Thesis Research: No credit hours of Thesis Research (KIN 5960) may contribute to the Plan B Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097 /KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

- Practicum/Internship Coursework: Maximum of 3-credit hours of Practicum in College Teaching (HLED 5900 /KIN 5900) or KIN 5990 - Internship may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Kinesiology and Health, Physical Education Teacher Education Emphasis, M.S.

Master of Science with Emphasis in Physical Education Teacher Education is designed for teachers who have attained their licensure for teaching physical education and want to pursue an advanced degree to further develop their professional knowledge of teaching.

Plan A (Thesis)

The Plan A option of the Master of Science degree in the area of PETE is for teachers who have attained their licensure for teaching physical education and want to pursue an advanced degree to further develop their professional knowledge of teaching.

The PETE program of studies involves a minimum of thirty (30) total credit hours of coursework, a thesis, and a final oral examination. At least twenty-five (25) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the ten (10) hours of general required courses.

General Required Courses (10 Credits)

¹ May substitute STAT 5060, STAT 5070, STAT 5080; or EDRE 5600 or EDRE 5640. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0

KIN5085 - Research Methods

Credits: 3

Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: graduate standing in KIN or permission of instructor.

STAT5050 - Statistical Methods for the Biological Science

Credits: 3

General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 3050, 5050, 5060, STAT 5070.

Cross Listed ZOO 5050.

Prerequisite: one course in statistics (all introductory courses except 2000).

Specialized Required Courses

(12 Credits Selected from The Following KIN Courses)

KIN5011 - Teacher Socialization in PE

Credits: 3

Max Credit 3

This course provides students with understanding of how physical educators are recruited into, professionally trained, and function in the workplace. Students will have the opportunity to analyze, critique, and evaluate empirical evidence related to socialization in physical education, as well as conduct research on given topics from the socialization literature.

Prerequisite: Graduate standing or permission from instructor

KIN5014 - Teaching Tactics in Sport-Based Physical Education

Credits: 3

Introduces students to the instructional strategy of the Tactical Games Approach (Mitchell, Oslin, & Griffin, 2006) of teaching sport-based activities in physical education. Emphasis is on planning, implementing, assessing and evaluating the tactical approach within the K-12 physical education context.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5016 - Analysis and Supervision of Teaching in Physical and Health Education

Credits: 3

Introduces various evaluative and supervisory techniques which are designed to improve teaching effectiveness and student learning. Emphasis will be placed on utilizing various strategies of evaluation in instructional settings.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5018 - Psychology of Teaching Physical Education

Credits: 3

Weaves together theory, research, and practical information related to the psychological aspects of teaching physical education. It shows how you can use psychological principles and strategies to manage behavior, motivate students, achieve program goals, and establish a positive learning environment.

Prerequisite: graduate standing in KIN or permission of instructor.

- KIN 5019 - Instructional Models for Physical Education Credits: 3

KIN5090 - Foundations of Coaching

Credits: 3

Coaches must be effective teachers, trainers, fund-raisers, recruiters, motivators, administrators, and counselors. The major purpose of this course is to provide future coaches with current information about the eight domains of essential coaching skills identified in the NSSC. These domains include philosophy and ethics, safety and injury prevention, physical conditioning, growth and development, teaching and communication, sport skills and tactics, organization and administration, and evaluation.

Dual Listed KIN 4090.

Prerequisite: graduate standing in KIN or permission of instructor.

Elective Courses (Minimum 8 Credits)

Students are encouraged to complete at least one course from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Thesis Research: Maximum of 4 credit hours of Thesis Research (KIN 5960) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Investigations in Kinesiology and Health: No credit hours of Investigations in Kinesiology and Health (KIN 5080) may contribute to the Plan A (Thesis) Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097/KIN 5097) or Special Problems (HLED 5587/HLED 5587) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Practicum/Internship Coursework: Maximum of 3-credit hours of KIN 5900 - Practicum in College Teaching or KIN 5990 - Internship may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Certificate

Community and Public Health

This certificate covers foundational public health concepts, use of epidemiological data, designing evidence-based projects and community collaborations, and building public, political and financial support for public health.

Required Courses

Students must earn a B or better (an A or a B) in all four classes to earn the certificate.

HLED5021 - Creating Conditions for Community Health

Credits: 3

In this course we will analyze and discuss how local, national and international environments impact individual and community health and how to improve health through changes in policy, economic, social, cultural and physical environments. The focus is primarily in the U. S. , though students can choose to focus assignments in other contexts.

Dual Listed HLED 4021.

Prerequisite: graduate standing.

HLED5022 - Unlocking the Potential of Public Health

Credits: 3

Introduces core concepts in community and public health. Using practical exercises and problem based learning, students will investigate how social structures shape our health and how to alter them to improve community.

Prerequisite: Graduate standing or permission of the instructor.

HLED5023 - Using Epidemiology to Build Health

Credits: 3

Focusing on epidemiological questions generated by the student, this course introduces concepts essential to understanding epidemiology, the foundational science of public health. It is focused on using existing epidemiologic data to inform your work.

Prerequisite: Graduate standing or permission from the instructor.

HLED5024 - Increasing Support for PH

Credits: 3

Students learn how to effectively build support for improving the health of their communities. Support includes funding, coalition and partnership building, effective communications with the public and policy makers, and participatory project planning with community stakeholders. In addition, this course will cover how to establish project evaluation frameworks.

Prerequisite: Graduate standing or permission from instructor.

Students may either earn a 12-credit *University Graduate Certificate in Community & Public Health* or a 15-credit *University Graduate Certificate in Community & Public Health, Specializing in [Specialization Name]*.

Approved specialization courses include:

HLED5020 - Food, Health, and Justice

Credits: 3

Maps ways our dominant national and global food systems affect health and equity in health, largely though not only negatively. Students will critically assess practiced and potential strategies for creating alternative food systems that support health and equity, particularly at the U. S. community level.

Dual Listed HLED 4020.

Prerequisite: graduate standing or permission of the instructor.

HLED5026 - Rural Community Health

Credits: 3

Max Credit 3

This course invites students to apply principles of community and public health in rural and frontier United States settings. It outlines challenges and assets that a rural or frontier setting brings to improving community health. It is designed to assist students to bridge gaps that rural settings face and create a plan for improvement within their chosen community or state.

Prerequisite: Graduate standing or permission from instructor.

HLED5027 - Emergency Prep and Response

Credits: 3

Max Credit 3

This class provides an overview of emergency management. It teaches students skills that will help them prepare themselves, their families, and their community for natural and human made disasters. The class emphasis will be on active learning via role-playing assignments, communication planning, and personal preparedness plans.

Prerequisite: HLED 3020, OR Senior Standing, OR permission of the instructor

Additional specialization courses may be approved by Community & Public Health faculty.

Endorsement

Adapted Physical Education K-12 Endorsement

In addition to completing the Bachelor of Science degree in physical education teacher education from the University of Wyoming, students can qualify for K-12 endorsements in adapted physical education and/or health education by completing the following course requirements:

Course Requirements

EDEX2484 - Introduction to Special Education

Credits: 3

Designed to meet the needs of education majors for a required course in special education. Students will explore the history of, understanding of and services for individuals with low/high incidence disabilities.

Prerequisite: EDST 2450 completed with a C or better and an institutional GPA of 2.50.

KIN4055 - Adapted Physical Education

Credits: 2

Presents skills necessary to plan, implement and evaluate individualized physical education programs in the least restrictive environment. Acquaints students with current laws, characteristics, assessment instruments and nationally validated programs in physical education for the disabled child.

When Offered (Offered spring semester)

Former Course Number [PEPR 4055]

Prerequisite: KIN 3012.

KIN4065 - Resources in Adapted Physical Education

Credits: 2-3

Max Credit (Max. 3)

Offers flexible credit for students interested in pursuing intensive study of resources for adapted physical education. Required for state endorsement in Adapted Physical Education.

Former Course Number [PEPR 4065]

Prerequisite: grade of C or better in KIN 4055.

KIN4075 - Assessment in Adapted Physical Education

Credits: 3

Designed to provide an overview of the assessment process in adapted physical education. Developmentally and disability appropriate psychomotor assessments and procedures for administering them are examined.

Prerequisite: grade of C or better in KIN 4055 and KIN 4080.

Athletic Coaching Endorsement/Permit

Students who wish to qualify for an athletic coaching permit to coach in Wyoming public schools must complete four courses. Note: Endorsements are for current teachers. Permits are for those who are not a licensed educator.

Course Requirements

- CPR Certification

KIN3050 - Prevention and Care of Athletic Injuries

Credits: 2

Encompasses theory and practical work in the field of athletic training. Strongly emphasizes prevention and care of athletic injuries, including wrapping and taping techniques.

Former Course Number [PEPR 3050]

Prerequisite: junior standing; C or better in KIN 2040; minimum 2.750 GPA.

- Foundations of Coaching KIN 4090 /KIN 5090 Credits: 3
- Students completing the Physical Education Teacher Education undergraduate degree are exempt from the KIN 4090/5090 requirement.
- Coaching in... Experience (completed at a community college or complete a coaching experience in a specific sport for one season or more with a letter written by your supervising coach to submit with your PTSB endorsement application form).

School Health Education K-12 Endorsement (For non-Physical Education Teacher Education Majors)

In addition to completing a bachelor's degree in teaching at the secondary level from an approved university program, 21 credit hours are required to be endorsed to teach health education K-12 in the public schools of Wyoming.

Course Requirements

FCSC1141 - Principles of Nutrition

Credits: 3

This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

HLED1006 - Personal Health

Credits: 3

Introduces multiple concepts of personal health (e. g. , physical activity, diet, stress, social pressure, public health, human behavior, disease prevention, healthcare access, and health-oriented citizenship) in relation to improving individual health and understanding the health of a society and cultural differences in human health and health behavior.

USP 2015 Code U5H

- CPR Certification

HLED4120 - Assessment in Health

Credits: 3

Provide students with an understanding of components of a balanced assessment system in school health education.

Students review the basics of standards-based health education and explore innovations in assessment that provide teachers and students with a more complete and authentic picture of student learning.

Prerequisite: Minimum 2.500 GPA; concurrent enrollment in KIN 4099 or certified K-12 teacher.

HLED4025 - Teaching Sensitive Issues In Human Sexuality

Credits: 3

Prepares educators and other helping professionals whose work involves promoting healthy sexuality in children, young people, and adults. It also provides detailed investigation into important aspects of teaching sensitive issues related to human sexuality. Students practice, critique, develop, and evaluate sexuality education processes and resources.

Dual Listed HLED 5025.

Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

HLED4110 - Teaching Health in Schools K-12

Credits: 3
