Traces American religious history from the Civil War through WWII. Focuses on how race/ethnicity, class, gender, and national origin affected religion, and explores how Americans used religion in oppressing and liberating people; marking and erasing difference; and exporting values abroad as well as reforming society at home.

Cross Listed RELI 2252.

USP 2003-2014 Code U3CH, U3D

USP 2015 Code U5H
A&S College Core 2015 ASD

HIST2280 - Introduction to European Studies

Credits: 3

This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.

Cross Listed INST 2280.
USP 2015 Code U5C2

HIST2290 - History of North American Indians

Credits: 3

Studies American Indian history through 500 years and across the continent. Considers Indian political, social and economic continuity and change. Focuses on how Indian peoples experienced and responded to times of dramatic change.

Cross Listed NAIS 2290.
USP 2003-2014 Code U3CH, U3D
A&S College Core 2015 ASD

HIST2315 - History of Non-Western Religions

Credits: 3

Introduces students to religions outside the Judeo-Christian realm familiar in the west. Each religion analyzed in its world views, its ways of life, and in its social organization. History of each religion and its changes.

Cross Listed RELI 2315.
USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

HIST2320 - History of Islam

Credits: 3

Focuses on the origins of Islam and its early formation, its growth and spread across the world, and its intellectual, spiritual and historical character. Time will also be spent on the formation of Islam in the modern world and how that impacts the views and actions of its members.

USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG

HIST2360 - African-American History

Credits: 3

Surveys African-American history in America, particularly emphasizing issues of identity, class, and progress as well as exploring African-Americans' quest for full participation in American life.

Cross Listed AAST 2360.

USP 2003-2014 Code U3CH, U3D

USP 2015 Code U5C2

A&S College Core 2015 ASD

HIST2370 - Chicano History: Origins to 1900

Credits: 3

General survey of the history of the Mexican American Chicano people in the United States. Examines the origins and development of Mexican Americans, Chicanos through the major historical processes which have shaped their experience. Major themes include multicultural, multiethnic context, origins; changing identity, comparative relations to other social, ethnic groups, culture, social structure, politics, economy, immigration, and the influence of United States-Mexico relations.

Cross Listed LTST 2370/GEOG 2370.

USP 2003-2014 Code U3CS, U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

HIST2380 - Latin American History 1500 to 2000

Credits: 3

Provides introduction to Latin American history, from colonial contacts to the present. Explores important themes and connections across the colonial and modern periods, such as race, national identity, foreign involvement, indigenous peoples' role in nation-states, religion, social movements, economic systems, and globalization.

USP 2003-2014 Code U3G

USP 2015 Code U5H

HIST2385 - Chicano History : 1900 to Present

Credits: 3

General survey of the history of the Mexican American Chicano people in the United States. Examines the origins and development of Mexican Americans, Chicanos through the major historical processes which have shaped their experience. Major themes include multicultural, multiethnic context, origins; changing identity, comparative relations to other social, ethnic groups, culture, social structure, politics, economy, immigration, and the influence of United States-Mexico relations.

Cross Listed LTST 2385.

USP 2015 Code U5H

A&S College Core 2015 ASD

HIST2389 - History of Women in the American West

Credits: 3

Surveys the roots of society's marginal historical depiction of women in the American West from the colonial period through the twentieth century. From the perspective of race, class, ethnicity, and gender, the course focuses on the development of a multi-dimensional understanding of women's roles using an interdisciplinary approach.

Cross Listed GWST 2389.

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

HIST2390 - US West Between the World Wars

Credits: 3

Examines two pivotal decades (1918-1942) in the US West that encompasses prosperity, Depression, and reform, through the use of historical documents, art, film, literature, and music.

HIST2460 - Traditional Japan

Credits: 3

Surveys Japan's social, intellectual, political, cultural, technological and ethnohistory from earliest historical period to the 1800s. Topics include roles of China and Korea, the samurai warrior tradition, family structure, Buddhism and Shinto. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2461.

HIST2461 - Modern Japan

Credits: 3

Surveys Japan's social, intellectual, political, cultural, economic, technological and ethnohistory from the 1800s through the present. Topics include Japan's industrialization, Asian colonialism, post-WWII, and Japan as economic superpower. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2460.

A&S College Core 2015 ASG

HIST2470 - Civilization of India

Credits: 3-4

Max Credit 4

Surveys Indian civilization from earliest times, including cultural aspects.

HIST2500 - The Impact of the Union Pacific on Wyoming History

Credits: 3

Students experience and interpret the impact of the building of the Union Pacific Railroad on the history and culture of Wyoming through the lens of three disciplinary perspectives. Students explore how the railroad impacted Wyoming geography, economic development and the people of the state through personal research projects.

Cross Listed ECON 2500.

HIST2600 - Forgotten Africa: Intro to African Civilizations

Credits: 3

This survey course introduces students to African states and empires, dating from classical to modern times. The course challenges depictions of Africa as timeless and underdeveloped within contemporary narratives by highlighting the continent's vibrant cultures, sophisticated technologies, dynamic and complex political systems and participation in long-distance trade.

Cross Listed ANTH 2600.
USP 2015 Code U5H

HIST2700 - Introduction to Museology

Credits: 3

Introduces students to the various roles and responsibilities of museum professionals in the areas of leadership and management, collections, exhibits, education and engagement, and security. Practice-based assignments, readings, discussions, field trips, and meetings with museum professionals will provide students with a solid understanding of key aspects central to the working of all museums, regardless of the nature of the collection, and introduce students to available career paths in these institutions. Crosslisted between American Studies, Anthropology, Art and Art History and History.

Cross Listed ART 2700/AMST 2700/ANTH 2700.
USP 2003-2014 Code U3CH

HIST2705 - Museology II

Credits: 3

Introduces students to the history of museums, as well as major theoretical, legal and political challenges within museum studies. Students are encouraged to think beyond their specific disciplinary background to gain a greater appreciation for the lessons that can be learned from related disciplines and types of repositories, including larger ethical and cultural concerns that have been raised through the creation of modern museum standards. The combination of readings, discussion, and fieldtrips to a variety of museums/repositories will provide students a solid introduction to these themes. Cross listed between Anthropology, History, American Studies, and Art.

Cross Listed AMST 2705 / ANTH 2705 / ART 2705

HIST3000 - Plains Culture and History

Credits: 3

An ethnohistorical study of those Native peoples inhabiting the plains region of the U.S. from prehistory to the present.

Cross Listed NAIS 3000.
USP 2003-2014 Code U3D
A&S College Core 2015 ASD
Prerequisite: 6 hours of HIST or NAIS.

HIST3020 - Historical Methods

Credits: 3

An introduction to the concepts, methods, and techniques used by historians. The main emphasis will be on methods of

historical research and analysis, demonstrated through writing. Students will write a number of short papers building skills in various areas of research, analysis, and argumentation, and one longer paper reflecting individual research. Total pages for the semester: 30-45.

USP 2003-2014 Code U3L, U3WB
Former Course Number [4020]

Prerequisite: junior standing, 12 hours of HIST, and COM1.

HIST3050 - Athenian Democracy

Credits: 3

Examines democratic government in ancient Athens: its origins and development, its practical workings, how politics were conducted and power was gained and exercised, citizen participation, law courts, and evaluations of democracy in the ancient world and since.

Cross Listed CLAS 3050/POLS 3050.
Prerequisite: WB or COM2.

HIST3110 - Modern Germany

Credits: 3

A cultural, social, and political history of German-Speaking Europe from 1789 to the present.

Prerequisite: 6 hours of HIST or INST.

HIST3160 - "What Killed Socrates?"

Credits: 3

This course will reexamine Socrates' trial in 399 BCE, widely regarded as a miscarriage of justice, in its total historic context, seeking to understand the reasons for Socrates' conviction. In the process, it will impart a broad understanding of the cultural, philosophical, political, and legal life of classical Athens.

Cross Listed CLAS 3160/PHIL 3160.
Prerequisite: WB or COM2.

HIST3220 - History of the Modern Middle East

Credits: 3

Surveys the Middle East from 1700 to the present. Emphasizes the demise of the Ottoman Empire, the rise of domination by European colonial powers, transformations in political, social, religious and cultural life, the rise of nationalist movements, the influence of oil, the growth of Islamist political groups and the Israeli-Palestinian conflict.

Cross Listed RELI 3220.
USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Prerequisite: 6 hours of HIST, RELI, or INST.

HIST3230 - Early Christianity

Credits: 3

Considers the development of the Christian religion from a small Jewish sect to its place as the official religion of the Roman Empire and beyond. It examines the development of creeds, doctrines and institutions, placing them within their historical context.

Prerequisite: RELI 1000 or RELI 2225/HIST 2225.

HIST3235 - Medieval Christianity

Credits: 3

Traces the development of 'Christendom' in Europe between about 500 - 1500 CE, concentrating on the Latin West. It examines the growth of Christian institutions and practices, the Church's role as sole governing entity, along with conflicts with secular governments as they developed in later centuries.

Cross Listed RELI 3235.

Prerequisite: RELI 2225/HIST 2225, HIST 1110, or RELI 1000.

HIST3240 - Reformation and Enlightenment Christianity

Credits: 3

The years between about 1500 and 1800 saw the permanent dismantling of Christianity in the West as a unified force, as Protestantism brought new ways of viewing the relationship between God and humanity. Once the fragmentation began, it accelerated rapidly as Enlightenment thinking challenged Christianity in new and complex ways.

Cross Listed Cross listed with: RELI 3240.

Prerequisite: RELI 1000, RELI 2225/HIST 2225.

HIST3275 - World Christianities

Credits: 3

Examines the development of Christianity primarily in Africa, Asia and South America.

Cross Listed RELI 3275

USP 2003-2014 Code U3CH, U3G

A&S College Core 2015 ASG

Prerequisite: WB and CH

HIST3300 - Secret History of Science

Credits: 3

Explores developments in science from prehistory to the present. It focuses on the lesser-known men and women who contributed to science, as well as on seemingly superstitious beliefs that were nonetheless important to advances in

knowledge.

Restricted Restricted to junior standing or higher.

Prerequisite: 6 hours in HIST or 6 hours of PN coursework, or a combination of both.

HIST3400 - Mongol Empire

Credits: 3

Examines the history of the Mongol Empire from a world history perspective. Major themes: structure of a nomadic empire, how that empire interacted with the various settled states it conquered and ramifications of the Mongol conquest on trade, technology, and social and intellectual developments across Eurasia, between the years 1200 to 1450 CE.

Prerequisite: 6 hours of HIST.

HIST3500 - Colonial America

Credits: 3

This course covers the history of European colonization from roughly 1492 to 1763. Our geographic focus will be on the (future) United States, but will also learn how transatlantic forces influenced its people.

Prerequisite: 12 hours of HIST courses or permission of instructor.

HIST3670 - African Diaspora

Credits: 3

Examines process through which aspects of African culture have endured in Diaspora. Analyzes social relations between Diaspora Africans and non-African populations in N. and S. America, the Caribbean, Britain, Asia, and the Mediterranean. Discusses cultural hybridization as a product of culture contact.

Cross Listed AAST 3670.

USP 2003-2014 Code U3CS, U3G

A&S College Core 2015 ASG

Prerequisite: AAST 1000, any AAST 2000-level course, or AAST 2360/HIST 2360.

HIST3880 - Comparative History

Credits: 3

Explores comparative history from a variety of topics, such as colonialism, memory, nationalisms, frontiers, or cultural history. This course will introduce students to at least one of these themes from at least two regions, time periods, or groups of people to understand patterns and change in human societies through time.

Prerequisite: 6 hours of HIST.

HIST3900 - Historical Archaeology

Credits: 3

This course introduces students to the field of historical archaeology, the archaeological and archival study of literate societies. Students will be introduced to the history of the discipline, a survey of contemporary historical archaeological practice.

Cross Listed ANTH 3900

Former Course Number [none < > none]

Prerequisite: ANTH 1300

HIST4000 - Indians of Wyoming

Credits: 3

Examines Native American culture in Wyoming from pre-history to the 21st century. Analyzes social, political, and economic developments of Native peoples of Wyoming before, during, and after contact with Europeans. Discusses interaction between these diverse societies and explores the changing relationships between Indians and Euro-Americans through the periods after contact.

Cross Listed NAIS 4000

Dual Listed HIST 5000

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST or NAIS.

HIST4020 - The Black West

Credits: 3

This course explores the historical experiences and contributions of people of African descent to the American West from their earliest recorded presence in the 16th Century through the present.

Cross Listed AAST 4020.

USP 2003-2014 Code U3CH, U3D

Prerequisite: AAST 1000, any AAST 2000-level course, junior/senior standing, or three hours of any level of HIST course.

HIST4030 - Senior Capstone Seminar

Credits: 3

Max Credit (Max. 6)

For undergraduate departmental majors; presented in a small group, non-lecture setting. Under close instructor supervision, students write reviews and essays, present critiques and oral reports and lead discussion on materials read by class.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: advanced standing as a History major and HIST 3020.

HIST4055 - Archival Research Methods

Credits: 3

Students will master advanced research strategies with interdisciplinary applications. Focuses on primary research and the development of advanced skills in information literacy, critical analysis of sources, verification of evidence, techniques for researching underdocumented populations, and interpretation of historical evidence. Advanced writing and oral presentation skills are emphasized.

Dual Listed HIST 5055.

Prerequisite: 9 hours of HIST, including HIST 2050 or HIST 2700.

HIST4060 - Independent Study

Credits: 1-3

Max Credit 6

Credit not to exceed 6 hours maximum, to be arranged in either European or American history. Primarily for juniors and seniors who can profit from independent work with minimal supervision.

Prerequisite: 12 semester hours in history; written permission of instructor required.

HIST4077 - Book History: Topics

Credits: 3

Max Credit (Max. 6)

An in-depth, hands-on study of books within their historical contexts. The topic will vary each time and focus on a particular theme, time period, place, or culture. Taught at the Rare Books Library, American Heritage Center, using original books or facsimiles. May be repeated once for credit.

Dual Listed HIST 5077.

Prerequisite: 9 hours of HIST.

HIST4100 - Early Medieval Europe

Credits: 3

Studies development of European civilization from decline of Rome to 12th century.

Dual Listed HIST 5100.

Prerequisite: 9 hours of HIST.

HIST4110 - The High Middle Ages

Credits: 3

Studies history of European civilization between the 12th and 15th centuries.

Dual Listed HIST 5110.

Prerequisite: 9 hours of HIST.

HIST4112 - History of the Medieval City

Credits: 3

After the fall of the Western Roman Empire, cities virtually disappeared from Western Europe. Around 1000 Europe began its rise to world prominence and cities contributed to that rise. Examines development of cities in medieval Europe and explores life within those cities.

Dual Listed HIST 5112.

Prerequisite: 9 hours of HIST.

HIST4113 - Medieval Religious Dissent

Credits: 3

Religious dissent in the Middle Ages included what some would call heresy, but also encompasses such marginal groups as Jews and witches. Examines development of orthodoxy and persecution of religious diversity between eleventh and 16th centuries within the historical context of the times.

Cross Listed RELI 4113.

Dual Listed HIST 5113.

Prerequisite: 9 hours of HIST or RELI.

HIST4120 - Europe During the Renaissance

Credits: 3

Intensely studies European history in 14th and 15th centuries.

Prerequisite: 9 hours of HIST.

HIST4130 - Europe During the Reformation

Credits: 3

Intensely studies European history in the 16th century.

Prerequisite: 9 hours of HIST.

HIST4140 - Europe During the Age of the Baroque

Credits: 3

Intensely studies European history in 17th century.

Prerequisite: 9 hours of HIST.

HIST4150 - Europe During the Age of the Enlightenment

Credits: 3

Intensely studies European history in 18th century.

Prerequisite: 9 hours of HIST.

HIST4170 - Europe in the Nineteenth Century

Credits: 3

An intensive study of European history from the beginning of the nineteenth century through to the origins of the First World War in 1914.

Dual Listed HIST 5170.

Prerequisite: HIST 1120.

HIST4174 - Judaism from Ezra to Jesus

Credits: 3

This course focuses on the religious and historical development of Judaism during the centuries between the end of the Old Testament and the New Testament, studying the arrival of Greek and then Roman culture and the changes Judaism underwent during that time that endure today.

Cross Listed RELI 4174.

Prerequisite: WB or COM2, and RELI 1000 or RELI 2110.

HIST4175 - Judaism at the Dawn of Christianity

Credits: 3

Judaism is the only Mediterranean religion that was practiced in the ancient world as well as in Late Antiquity and beyond. This course helps students analyze how Judaism was able to change and adapt at key moments to provide its adherents with an active, living religion that addressed their needs.

Cross Listed RELI 4175.

Prerequisite: RELI 1000 or RELI 2110, and junior standing.

HIST4180 - Europe in the 20th Century

Credits: 3

An intensive study of European history from 1914 through 2000.

Dual Listed HIST 5180.

Prerequisite: 9 hours of HIST.

HIST4270 - France: Old Regime and Revolution

Credits: 3

The social, political and cultural history of early modern France (1598-1789), from the rise of the Absolutist state under Louis XIV to the outbreak of the Revolution. Explores the cultural and intellectual shifts from court culture at Versailles, to the Enlightenment, to the rise of revolutionary ideologies.

Dual Listed HIST 5270.

Prerequisite: 9 hours of HIST.

HIST4290 - History of the Soviet Union

Credits: 3

Depicts Russia under Communism, including particularly the development of totalitarian dictatorship in its political, economic, social and cultural manifestations.

Dual Listed HIST 5290.

Prerequisite: 9 hours of HIST.

HIST4305 - Global History

Credits: 3

Thematically focused examinations of interactions or parallel phenomena in multiple world regions. Courses may be comparative (comparing two empires, or multiple revolutions), or may examine the growth of a particular trend globally (e.g. abolition of slavery), or the interaction of many states (e.g. the Cold War).

Dual Listed HIST 5305.

USP 2003-2014 Code U3G

Prerequisite: 9 hours of HIST, INST, or POLS.

HIST4310 - World War II in Europe

Credits: 3

Covers the origins, course and consequences of one of this century's defining global developments. World War II in Europe was a transnational development which shaped the world as it is known today.

Dual Listed HIST 5310.

Prerequisite: 9 hours of HIST.

HIST4315 - History, Politics and Memory of the Holocaust in Europe

Credits: 3

Offers students the opportunity to learn about the history of the Holocaust through travel to various sites in Central Europe where the events themselves occurred, such as Berlin, Warsaw, Krakow and Auschwitz-Birkenau.

Cross Listed INST 4315.

Dual Listed HIST 5315.

Prerequisite: 9 hours of HIST or INST.

HIST4320 - Memory and National Identity in Twentieth Century Europe

Credits: 3

Europe in the twentieth century saw a century of unprecedented violence. Examines the public representation of such historical trauma through the concept of "collective memory" and focuses in particular on how memory has become a contested part of defining identity in modern-day Europe.

Dual Listed HIST 5320.

Prerequisite: 9 hours of HIST.

HIST4340 - The Social History of American Women

Credits: 3

Explores everyday life experiences of American women from the 17th century to the present. Focuses on the complex influence of gender, race and class in shaping those experiences; also, analyzes the ways in which women's dissatisfaction with their position in society formed the basis for the development of American feminism and led to the formation of an organized women's movement.

Dual Listed HIST 5340.

USP 2015 Code U5H

Former Course Number [4840]

Prerequisite: 9 hours of HIST or GWST.

HIST4380 - International History of Human Rights

Credits: 3

Examine the modern history of human rights in the global system, with particular emphasis on developments since the Second World War. Topics include the philosophy of human rights ideas; the histories of rights and rights violations in various regions; and the resulting international responses.

Cross Listed INST 4380.

Dual Listed HIST 5380.

Prerequisite: 9 hours of HIST or INST.

HIST4400 - Internship

Credits: 1-12

Max Credit (Max. 12)

The internship allows students to gain hands-on experience that will help to bridge the gap between history as an academic discipline and history as practiced in museums, public history agencies and historic sites. Specific arrangements must be made in advance to identify the academic component of the internship and the grading criteria. Such planning will be done in consultation with the department's internship director.

Prerequisite: 9 hours of HIST.

HIST4405 - American Encounters to 1850

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African and Asian people from pre-contact through the mid-19th century.

Dual Listed HIST 5405.

USP 2003-2014 Code U3D

USP 2015 Code U5H

Prerequisite: 9 hours of HIST.

HIST4406 - American Encounters from 1850

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African, and Asian people from the mid-19th century to the present.

Dual Listed HIST 5406

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST.

HIST4410 - America in an Early Modern World

Credits: 3

Explores the American colonial experience as part of a worldwide process of colonial encounters with indigenous peoples between 1400 and 1800. Compares the experiences of early modern colonization in North and South America, Asia, and the Pacific and examines the nature of the colonial societies created by these cross-cultural relationships.

Dual Listed HIST 5410.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: 9 hours of HIST.

HIST4412 - Global Environment History

Credits: 3

This course is designed to introduce undergraduate and graduate students to the new field of global environmental history. The Global Environmental History course will provide a new way of looking at humans, animals, and the lives they've built in the environment and the costs of their decisions to the environment.

Cross Listed ENR 4412.

Dual Listed HIST 5412.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or ENR.

HIST4415 - Entangled Worlds, Entangled Lives: Indigenous People and Colonizers Before 1850

Credits: 3

The experiences of indigenous people and colonizers in Africa, Eurasia, the Americas, and the Pacific as they forged new colonial societies in the first global age (1400-1850). Emphasis throughout the course will be on the often-overlooked role of indigenous people in creating colonial societies.

Dual Listed HIST 5415.

USP 2003-2014 Code U3CS, U3G

USP 2015 Code U5H

Prerequisite: 9 hours of HIST.

HIST4425 - Britain's Global Empires: 1558 to the Present

Credits: 3

Britain's four distinctive empires from Elizabeth I through the present. Emphasis throughout the course will be on the creation and operation of these distinctive but related empires with a special focus on the impact empires had on both colonized people and the people of Britain.

Dual Listed HIST 5425.

A&S College Core 2015 ASG

Prerequisite: 9 hours of HIST.

HIST4450 - The Civil War and Reconstruction

Credits: 3

Studies crisis of the Union, 1861-1877. Examines experiences of both the North and South during the Civil War and restoration of the Union after the war.

Dual Listed HIST 5450.

Prerequisite: 9 hours of HIST.

HIST4460 - Post-Civil War America: The Gilded Age

Credits: 3

Intensively covers economic, cultural and political developments which marked the U.S. in post-Civil War era, such as rise of industry, emergence of distinctive national culture and party struggles shaping America's Gilded Age.

Dual Listed HIST 5460.

Prerequisite: 9 hours of HIST.

HIST4462 - American Indian History to 1783

Credits: 3

Surveys the history of American Indians from the period before contact to the end of the American Revolution. Examines the various contacts between American Indians and Europeans and considers what the American Revolution meant to the continent's Native peoples.

Cross Listed NAIS 4462.

Dual Listed HIST 5462.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or NAIS.

HIST4463 - American Indian History 1783 to 1890

Credits: 3

Surveys the history of American Indians during the era of westward expansion. Examines the impact of American westward movement and also the manifold changes that accompanied moving west.

Cross Listed NAIS 4463.

Dual Listed HIST 5463.

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST or NAIS.

HIST4464 - American Indians in the Twentieth Century

Credits: 3

Surveys the history of American Indians during the twentieth century. Examines the development of new cultural, social and political forms that help create an American Indian identity.

Cross Listed NAIS 4464.

Dual Listed HIST 5464.

USP 2003-2014 Code U3D

Prerequisite: 9 hours of HIST or NAIS.

HIST4466 - American Indian Ethnohistory

Credits: 3

Surveys ethnohistorical methods and concepts and provides students concrete opportunities to use these methodologies in writing exercises. American Indian ethnohistory explores Native American experiences within their own cultural contexts.

Cross Listed NAIS 4466.

USP 2003-2014 Code U3D

Prerequisite: 9 hours of HIST, NAIS, or ANTH.

HIST4468 - American Indians in the North American West

Credits: 3

One of the defining features of the North American West is the presence of American Indians. Through the discussion of varied readings and primary document research, the history of American Indians in the West is examined, with particular emphasis on the Great Plains and California.

Cross Listed NAIS 4468.

USP 2003-2014 Code U3D

Prerequisite: 9 hours of HIST or NAIS.

HIST4470 - The Birth of Modern America, 1890 to 1929

Credits: 3

Studies political and diplomatic developments in the U. S. in the wake of industrialization and massive immigration. Some attention to cultural and social themes. Emphasizes shifting nature of reform between depression of the 1890s and that of the 1930s.

Dual Listed HIST 5470.

Prerequisite: 9 hours of HIST.

HIST4475 - American Environmental History

Credits: 3

Explores history of American attitudes and actions toward the land and natural resources.

Dual Listed HIST 5475.

Former Course Number [4670]

Prerequisite: 9 hours of HIST.

HIST4480 - Growth of Modern America, 1929 to 1960

Credits: 3

Studies political and diplomatic developments in the U.S. in Depression, World War II and early Cold War periods. Some attention to cultural and social themes. Emphasizes economic crisis, growth of government, reform traditions, anti-communism and civil rights.

Dual Listed HIST 5480.

Prerequisite: 9 hours of HIST.

HIST4485 - U.S. Latino Diaspora

Credits: 3

Combines classroom activities and a week-long stay abroad in examining the historical creation and contemporary spread of the Latino Diaspora from the Caribbean to the Yucatan and beyond. U.S. Latina/o history, multiculturalism, pan-Latino identity, assimilation, migration trends and natives' responses are stressed.

Cross Listed LTST 4485/INST 4485.

Prerequisite: 9 hours of LTST, HIST, and/or INST related coursework.

HIST4490 - Modern America, 1960 to Present

Credits: 3

Studies political and diplomatic aspects of the U.S. since 1960. Emphasizes impact of Cold War, social and political tensions at home, civil rights and government policies.

Dual Listed HIST 5490.

Prerequisite: 9 hours of HIST.

HIST4492 - Revolutions in Latin America

Credits: 3

Explores the meaning and impact of revolution in Latin America's modern history, focusing on political ideology, cultural expression, foreign relations, human rights, and globalization. Offers in-depth analysis of revolutions from the early nineteenth century to the present.

Cross Listed LTST 4492.

Dual Listed HIST 5492.

USP 2003-2014 Code U3CS, U3G

A&S College Core 2015 ASG

Prerequisite: 9 hours of HIST or INST.

HIST4494 - The U.S. in Latin America

Credits: 3

This course explores Latin America's experiences with the United States during the twentieth century. The class addresses U.S.-Latin American relations from a variety of angles, covering topics from military intervention and government policies, to informal imperialism and cultural exchanges through film and literature.

Dual Listed HIST 5494.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or INST.

HIST4495 - Borderlands in Latin America

Credits: 3

Examines borderlands and frontiers in Latin American history, focusing on the U.S.-Mexico border region, the Southern Cone, and the Caribbean. Key issues include cultural contact zones, colonialism, military expansion and conflict, and nation-building.

Dual Listed HIST 5495.

Former Course Number [4720]

Prerequisite: 9 hours of HIST or INST.

HIST4496 - History of Mexico

Credits: 3

Intensive course in Mexican development. Emphasizes the 20th century especially the Mexican Revolution of 1910, showing how this nation transformed itself into a modern nation-state. Includes diplomatic relations with the U.S., incorporation of Indians, church-state relations, uses of land and other natural resources, role of the military and growth of Mexican nationalism.

Cross Listed LTST 4496.

Dual Listed HIST 5496.

Former Course Number [4800]

Prerequisite: 9 hours of HIST or INST.

HIST4505 - The Old South, 1820 to 1861

Credits: 3

Studies history of the South from emergence of southern identity to the Civil War. Emphasizes southern society and culture.

Dual Listed HIST 5505.

Former Course Number [4500]

Prerequisite: 9 hours of HIST.

HIST4510 - Modern East Asia

Credits: 3

Focuses on the emergence of the modern East Asian states China, Japan, Korea, and Vietnam as individual states and members of this important region historically and in contemporary era, understanding the emergence of those states as responses to internal forces and external pressures such as imperialism, nationalism, Communism and Capitalism.

Dual Listed HIST 5510.

Former Course Number [4950]

Prerequisite: 9 hours of HIST.

HIST4515 - American Legal History

Credits: 3

An intensive course in the history of American law, the judicial system, the legal profession and legal administration from colonial times to the present.

Dual Listed HIST 5515.

Former Course Number [4710]

Prerequisite: 9 hours of HIST.

HIST4530 - 19th Century American West

Credits: 3

A study of the westward movement with emphasis on the trans-Mississippi West.

Dual Listed HIST 5530.

Former Course Number [4630]

Prerequisite: 9 hours of HIST.

HIST4535 - History of Oil

Credits: 3

Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

Dual Listed HIST 5535.

Prerequisite: 9 hours in history.

HIST4540 - 20th Century American West

Credits: 3

A study of the modern American West, with consideration of social, economic and political continuity and change.

Dual Listed HIST 5540.

Former Course Number [4640]

Prerequisite: 9 hours of HIST.

HIST4545 - The Multicultural West

Credits: 3

Explores the American West as a meeting ground of diverse peoples and their diverse cultures. Focuses on the sustained cross-cultural interchange between Native Americans, Euro-Americans, African Americans, Latin Americans, and Asian Americans from trans-Appalachia to the Pacific Coast from the eighteenth century to the present.

Prerequisite: 9 hours of HIST.

HIST4560 - American Social History in the 20th Century

Credits: 3

Explores history of social mobility and conflict in 20th century. Emphasizes impact of industrialization, rapid urbanization, massive immigration, ethnic minorities, race, religion, women and the family, painting and architecture.

Dual Listed HIST 5560.

Prerequisite: 9 hours of HIST.

HIST4582 - 20th Century U.S. Foreign Relations

Credits: 3

Studies Twentieth Century United States foreign relations with a focus on the Cold War period. Examines economic sources of policy decisions, elites and mass public opinion, as well as cultural, religious, ethnic, racial, and gender issues.

Cross Listed INST 4582.

Dual Listed HIST 5582.

Prerequisite: 9 hours of HIST or INST.

HIST4610 - Seminar Topics in the History of Wyoming I

Credits: 3

An intensive research and writing course dealing with topics in the period before statehood in 1890.

Prerequisite: 9 hours of HIST, including HIST 1251.

HIST4620 - Seminar Topics in the History of Wyoming II

Credits: 3

Allows students to do intensive research and writing dealing with topics in Wyoming history from 1890 to present.

Prerequisite: 9 hours of HIST, including HIST 1251.

HIST4965 - Senior Thesis

Credits: 3

Working closely with a faculty advisor, a history major will develop a research proposal that, after approval by the History department faculty, will lead to in-depth research and writing, producing a minimum 50-page thesis that demonstrates an excellent grasp of historical methods and a high degree of writing skill.

Prerequisite: 12 hours of HIST; senior class standing; HIST major.

HIST4990 - Topics in _____

Credits: 1-6

Max Credit (Max. 12)

Affords students opportunity to study in-depth various topics in history not offered in regular courses or independent study.

Former Course Number [4080]

Prerequisite: 9 hours of HIST.

HIST5000 - Indians of Wyoming

Credits: 3

Examines Native American culture in Wyoming from pre-history to the 21st century. Analyzes social, political, and economic developments of Native peoples of Wyoming before, during, and after contact with Europeans. Discusses interaction between these diverse societies and explores the changing relationships between Indians and Euro-Americans through the periods after contact.

Dual Listed HIST 4000.

Prerequisite: 6 hours of HIST or NAIS; graduate standing.

HIST5055 - Archival Research Methods

Credits: 3

Students master advanced research strategies with interdisciplinary applications. Focuses on primary document research and the development of advanced skills in information literacy, critical analysis of sources, verification of evidence, techniques for researching underdocumented populations, and interpretation of historical evidence. Advanced writing and oral presentation skills are emphasized.

Prerequisite: graduate standing.

HIST5077 - Book History: Topics

Credits: 3

An in-depth, hands on study of books within their historical contexts. The topic varies each time, and focuses on a particular theme, time period, place, or culture. Taught at the Rare Books Library, American Heritage Center, using original books or facsimiles. May be repeated once for credit.

Prerequisite: graduate standing.

HIST5100 - Early Medieval Europe

Credits: 3

The study of the development of European civilization from the decline of Rome to the twelfth century.

Dual Listed HIST 4100.

Prerequisite: graduate standing.

HIST5110 - The High Middle Ages

Credits: 3

Studies history of European civilization between the 12th and 15th centuries.

Dual Listed HIST 4100.

Prerequisite: graduate standing.

HIST5112 - History of the Medieval City

Credits: 3

After the fall of the Western Roman Empire, cities virtually disappeared from Western Europe. Around 1000, Europe began its rise to world prominence, and the birth of the cities contributed to that rise. This course examines the development of cities in medieval Europe and explores life within those cities.

Dual Listed HIST 4112.

Prerequisite: graduate standing.

HIST5113 - Medieval Religious Dissent

Credits: 3

Religious dissent in the Middle Ages included what we would call heresy, but also encompasses such marginal groups as Jews and witches. This course examines development of orthodoxy and the persecution of religious diversity between the 11th and 16th centuries. It also studies the historical context of the times.

Cross Listed RELI 4113.

Dual Listed HIST 4113.

Prerequisite: graduate standing.

HIST5170 - Europe in the 19th Century

Credits: 3

An intensive study of European history from the beginning of the nineteenth century through to the origins of the First World War in 1914.

Dual Listed HIST 4170

Prerequisite: graduate standing.

HIST5180 - Europe in the 20th Century

Credits: 3

An intensive study of European history from 1914 through 2000.

Dual Listed HIST 4180.

Prerequisite: graduate standing.

HIST5270 - France: Old Regime and Revolution

Credits: 3

The social, political and cultural history of early modern France (1598-1789), from the rise of the Absolutist state under Louis XIV to the outbreak of the Revolution. Explores the cultural and intellectual shifts from court culture at Versailles, to the Enlightenment, to the rise of revolutionary ideologies.

Dual Listed HIST 4270

Prerequisite: graduate standing.

HIST5290 - History of the Soviet Union

Credits: 3

Russia under Communism, including particularly the development of totalitarian dictatorship in its political, economic, social, and cultural manifestations.

Dual Listed HIST 4290.

Prerequisite: graduate standing.

HIST5305 - Global History

Credits: 3

Thematically focused examinations of interactions or parallel phenomena in multiple world regions. Courses may be comparative (comparing two empires, or multiple revolutions), or may examine the growth of a particular trend globally (e.g. abolition of slavery), or the interaction of many states (e.g. the Cold War).

Dual Listed HIST 4305.

Prerequisite: graduate standing.

HIST5310 - World War II in Europe

Credits: 3

Covers the origins, course, and consequences of one of this century's defining global developments. World War II in Europe was a transnational development which shaped the world as we know it today.

Dual Listed HIST 4310.

Prerequisite: graduate standing.

HIST5315 - History, Politics and Memory of the Holocaust in Europe

Credits: 3

Offers students the opportunity to learn about the history of the Holocaust through travel to various sites in Central Europe where the events themselves occurred, such as Berlin, Warsaw, Krakow and Auschwitz-Birkenau.

Cross Listed INST 5315.

Dual Listed HIST 4315.

Prerequisite: graduate standing.

HIST5320 - Memory and National Identity in 20th Century Europe

Credits: 3

Europe in the twentieth century saw a century of unprecedented violence. Examines the public representation of such historical trauma through the concept of "collective memory" and focuses in particular on how memory has become a contested part of defining national identity in modern-day Europe.

Dual Listed HIST 4320

Prerequisite: graduate standing.

HIST5340 - The Social History of American Women

Credits: 3

Explores the everyday life experiences of American women from the seventeenth century to the present with a focus on the complex influence of gender, race, and class in shaping those experiences. The course then turns to an analysis of the ways in which woman's dissatisfaction with the position in society formed American feminism and lead to the formation of an organized women's movement.

Dual Listed HIST 4340.

Prerequisite: graduate standing.

HIST5380 - International History of Human Rights

Credits: 3

Examine the modern history of human rights in the global system, with particular emphasis on developments since the Second World War. Topics include the philosophy of human rights ideas; the histories of rights and rights violations in various regions; and the resulting international responses.

Cross Listed INST 5380.

Dual Listed HIST 4380.

Prerequisite: 9 hours of HIST or INST.

HIST5381 - Seminar in Recent United States History

Credits: 3

Max Credit (Max. 12)

Prerequisite: graduate standing.

HIST5400 - Graduate Topics in History

Credits: 1-6

Max Credit (Max. 12)

Opportunity to study in-depth various topics in history not offered in regular graduate seminars or graduate reading

courses.

Prerequisite: graduate standing.

HIST5405 - American Encounters to 1850

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African, and Asian people from pre-contact to the mid-19th century.

Dual Listed HIST 4405

Prerequisite: graduate standing.

HIST5406 - American Encounters from 1850

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African, and Asian people from the mid-19th century to the present.

Dual Listed HIST 4406.

Prerequisite: graduate standing.

HIST5410 - America in an Early Modern World

Credits: 3

Explores the American colonial experience as part of a worldwide process of colonial encounters with indigenous peoples between 1400 and 1800. Compares the experiences of early modern colonization in North and South America, Asia, and the Pacific and examines the nature of the colonial societies created by these cross-cultural relationships.

Dual Listed HIST 4410.

Prerequisite: graduate standing.

HIST5412 - Global Environment History

Credits: 3

This course is designed to introduce undergraduate and graduate students to the new field of global environmental history. The Global Environmental History course will provide a new way of looking at humans, animals, and the lives they've built in the environment and the costs of their decisions to the environment.

Dual Listed HIST 4412

USP 2003-2014 Code [(none)<>H]

Prerequisite: graduate standing.

HIST5415 - Entangled Worlds, Entangled Lives: Indigenous People and Colonizers Before 1850

Credits: 3

The experiences of indigenous people and colonizers in Africa, Eurasia, the Americas, and the Pacific as they forged new colonial societies in the first global age (1400-1850). Emphasis throughout the course will be on the often-overlooked role of indigenous people in creating colonial societies.

Dual Listed HIST 4415.

Prerequisite: graduate standing.

HIST5425 - Britain's Global Empires: 1558 to the Present

Credits: 3

Britain's four distinctive empires from Elizabeth I through the present. Emphasis throughout the course will be on the creation and operation of these distinctive but related empires with a special focus on the impact empires had on both colonized people and the people of Britain.

Dual Listed HIST 4425.

Prerequisite: graduate standing.

HIST5450 - The Civil War and Reconstruction

Credits: 3

A study of the crisis of the Union, 1861-1877. Examination of the experiences of both the North and the South during the Civil War and restoration of the Union after the war.

Dual Listed HIST 4450.

Prerequisite: graduate standing.

HIST5460 - Post-Civil War America: The Gilded Age

Credits: 3

An intensive study in the economic, cultural, and political developments which marked the U. S. in post-Civil War era, the rise of industry, the emergence of a distinctive national culture and the party struggles that shaped America's Gilded Age.

Dual Listed HIST 4460.

Prerequisite: graduate standing.

HIST5462 - American Indian History to 1783

Credits: 3

Surveys the history of American Indians from the period before contact to the end of the American Revolution. Examines the various contacts between American Indians and Europeans and considers what the American revolution meant to the continent's Native peoples.

Cross Listed NAIS 5462.

Dual Listed HIST 4462.

Prerequisite: graduate standing.

HIST5463 - American Indian History to 1890

Credits: 3

Surveys the history of American Indians during the era of westward expansion. Examines the impact of American westward movement and also the manifold changes that accompanied Indians moving west.

Cross Listed NAIS 5463.

Dual Listed HIST 4463.

USP 2003-2014 Code U3D

USP 2015 Code U5H

Prerequisite: graduate standing.

HIST5464 - American Indians in the 20th Century

Credits: 3

Surveys the history of American Indians during the twentieth century. Examines the development of new cultural, social and political forms that help create an American Indian identity.

Cross Listed NAIS 5464.

Dual Listed HIST 4464.

Prerequisite: graduate standing.

HIST5470 - The Birth of Modern America, 1890 to 1929

Credits: 3

Studies political and diplomatic developments in the U.S. in the wake of industrialization and massive immigration. Some attention to cultural and social themes. Emphasizes shifting nature of reform between the depression of the 1890s and that of the 1930s.

Dual Listed HIST 4470.

Prerequisite: graduate standing.

HIST5475 - American Environmental History

Credits: 3

History of American attitudes and actions toward the land and natural resources.

Dual Listed HIST 4475.

Prerequisite: graduate standing.

HIST5480 - Growth of Modern America, 1929 to 1960

Credits: 3

A political and diplomatic overview of the United States in Depression, World War II and early Cold War periods. Some attention to cultural and social themes. Emphasis on economic crisis, growth of government, reform traditions, anti-communism, and civil rights.

Dual Listed HIST 4480.

Prerequisite: graduate standing.

HIST5490 - Modern America, 1960 to Present

Credits: 3

A political and diplomatic overview of the United States since 1960 with emphasis on impact of Cold War social and political tensions at home, civil rights, and government policies.

Dual Listed HIST 4490.

Prerequisite: graduate standing

HIST5492 - Revolutions in Latin America

Credits: 3

Explores the meaning and impact of revolution in Latin America's modern history, focusing on political ideology, cultural expression, foreign relations, human rights, and globalization. Offers in-depth analysis of revolutions from the early nineteenth century to the present.

Dual Listed HIST 4492.

Prerequisite: graduate standing.

HIST5494 - The U.S. in Latin America

Credits: 3

This course explores Latin America's experiences with the United States during the twentieth century. The class addresses U.S.-Latin American relations from a variety of angles, covering topics from military intervention and government policies, to informal imperialism and cultural exchanges through film and literature.

Dual Listed HIST 4494.

USP 2015 Code U5H

Prerequisite: graduate standing.

HIST5495 - Borderlands in Latin America

Credits: 3

Examines borderlands and frontiers in Latin American history, focusing on the U.S.-Mexico border region, the Southern Cone, and the Caribbean. Key issues include cultural contact zones, colonialism, military expansion and conflict, and nation-building.

Dual Listed HIST 4495.

Prerequisite: graduate standing.

HIST5496 - History of Mexico

Credits: 3

Intensive course in Mexican development. Emphasizes the 20th century especially the Mexican Revolution of 1910, showing how this nation transformed itself, into a modern nation state. Includes diplomatic relations with the U.S., incorporation of Indians, church-state relations, uses of land and other natural resources, role of the military and growth of Mexican nationalism.

Dual Listed HIST 4496.

Prerequisite: graduate standing.

HIST5500 - Readings in Women's Studies

Credits: 3

An interdisciplinary course at the graduate level focusing on feminist criticism and theory, which draws on current debates in feminist analysis from the general areas of history, literature, and social science, to inform students of reformulations of research and unresolved issues.

Dual Listed GWST 5500.

Prerequisite: graduate standing.

HIST5505 - The Old South, 1820 to 1861

Credits: 3

The history of the South from the emergence of southern identity to the Civil War, with emphasis on southern society and culture.

Dual Listed HIST 4505.

Prerequisite: graduate standing.

HIST5510 - Modern East Asia

Credits: 3

Focuses on the emergence of the modern East Asian states China, Japan, Korea, and Vietnam as individual states and members of this important region historically and in contemporary era, understanding the emergence of those states as responses to internal forces and external pressures such as imperialism, nationalism, Communism and Capitalism.

Dual Listed HIST 4510.

Prerequisite: graduate standing.

HIST5515 - American Legal History

Credits: 3

An intensive study in the history of American law, the judicial system, the legal profession, and legal administration from colonial times to the present.

Dual Listed HIST 4515.

Prerequisite: graduate standing.

HIST5530 - 19th Century American West

Credits: 3

A study of the westward movement with emphasis on the trans-Mississippi West.

Dual Listed HIST 4530.

Prerequisite: graduate standing.

HIST5535 - History of Oil

Credits: 3

An intensive study in the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history will be an important component of the course.

Dual Listed HIST 4535.

Prerequisite: graduate standing.

HIST5540 - 20th Century American West

Credits: 3

A study of the modern American West, with consideration of social, economic and political continuity and change.

Dual Listed HIST 4540.

Prerequisite: graduate standing.

HIST5555 - American Encounters

Credits: 3

Examines the centrality of cross-cultural interchange in American history by focusing on a series of critical encounters between American, European, African, and Asian people from the 16th century to the present.

Prerequisite: graduate standing.

HIST5560 - American Social History in the 20th Century

Credits: 3

History of social mobility and conflict in the 20th century. Special emphasis on impact of industrialization, rapid urbanization, massive immigration, ethnic minorities, race, religion, women and the family, painting, and architecture.

Dual Listed HIST 4560.

Prerequisite: graduate standing.

HIST5582 - 20th Century U.S. Foreign Relations

Credits: 3

Studies Twentieth Century United States foreign relations with a focus on the Cold War period. Examines economic sources of policy decisions, elites and mass public opinion, as well as cultural, religious, ethnic racial and gender issues.

Cross Listed INST 5582.

Dual Listed HIST 4582.

Prerequisite: graduate standing.

HIST5585 - Conference on U.S. History

Credits: 1-3

Max Credit (Max. 6)

A reading and writing course designed to allow advanced students to investigate shifting ideas about important topics in 20th century American history. Primary focus varies from semester to semester, but will be designated in the class schedule.

Prerequisite: graduate standing.

HIST5600 - Graduate Readings

Credits: 1-6

Max Credit (Max. 12)

Fulfills two purposes in our graduate program in history. It allows students to do independent directed reading in preparation for their graduate examination in history and provides students with a flexible alternative to their programs to meet and complete requirements.

Prerequisite: graduate standing.

HIST5605 - Conference on Wyoming and the West

Credits: 1-4

Max Credit (Max. 9)

Prerequisite: graduate standing.

HIST5620 - Conference on Middle-Period and United States History

Credits: 1-4

Max Credit (Max. 9)

Prerequisite: graduate standing.

HIST5630 - Seminar on Western American History

Credits: 3

Prerequisite: graduate standing.

HIST5645 - Seminar on American Indian History

Credits: 3

Research seminar on American Indian history. The focus of the seminar may vary, but emphasis will usually be given to American Indians of the western United States in the nineteenth and twentieth centuries.

Prerequisite: graduate standing.

HIST5660 - Conference on Early Modern Europe

Credits: 1-4

Max Credit (Max. 9)

The student, in consultation with the instructor, chooses a topic on which they read extensively. The instructor provides bibliographical guidance. Normally the student discusses the reading at length with the instructor once a week. Written analysis of the reading may also be required. The course may be offered to a group of students who need extensive reading to go with the research experience they are receiving in seminars.

Prerequisite: graduate standing.

HIST5670 - Seminar on Early American History

Credits: 3

Prerequisite: graduate standing.

HIST5675 - Seminar on Middle-Period U.S. History

Credits: 3

Prerequisite: graduate standing.

HIST5685 - Conference on European 19th and 20th Century History

Credits: 1-4

Available for a maximum of 9 hours.

Prerequisite: graduate standing.

HIST5810 - Seminar on Latin American History

Credits: 1-4

Max Credit (Max. 12)

Students will select a topic of interest within the general field of Latin America and read the published works which deal with the subject. Instructor will direct this reading through the preparation of bibliography. Students then prepare an in-depth research paper based on primary source documents. Research paper will treat an aspect of the subject under

investigation that has not been dealt with in published materials.

Prerequisite: graduate standing.

HIST5880 - History Theory

Credits: 3

Intensive reading and writing course, designed to introduce graduate students to influential recent historical works, and to the faculty of the department and their research areas. Students will explore historical theories and the historiography of particular topics.

Prerequisite: graduate standing.

HIST5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Students are expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

HIST5910 - Seminar in History Profession

Credits: 3

This seminar introduces graduate students to the profession of history through targeted readings, projects, guest speakers, and workshops. Topics covered include: archival research and source analysis, schools of thought and methodologies used by professional historians, career options in history, college teaching and course design, grant applications, and professional networking.

Prerequisite: graduate standing in history.

HIST5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

HIST5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

HIST5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

HIST5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

HIST5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Health Education

HLED1006 - Personal Health

Credits: 3
Introduces multiple concepts of personal health (e. g. , physical activity, diet, stress, social pressure, public health, human behavior, disease prevention, healthcare access, and health-oriented citizenship) in relation to improving individual health and understanding the health of a society and cultural differences in human health and health behavior.

USP 2015 Code U5H

HLED1221 - Standard First Aid and Personal Safety

Credits: 1-2
Studies accident prevention, examination procedures and first aid care for victims of accidents or sudden illness before medical assistance is available. Presents new Red Cross content and CPR. CPR is incorporated in the sections offered for 2 credit hours.

HLED2006 - Health for Elementary Educators

Credits: 1

Acquaints students to the Wyoming Health Standards and Benchmarks, techniques/instruments for assessing the Wyoming Health Standards and Benchmarks, sample health curriculum models/approaches for elementary school K-6, lesson plans in health education for elementary learners, and health integration in language arts curricula.

Prerequisite: Declared major in KHP, PHET, or Elementary Education.

HLED3020 - Community and Public Health

Credits: 3

Public health aims to create the conditions where people can be healthy. This course introduces goals and applications of community and public health work in the US, illustrated with case studies from the most urgent health issues facing our nation.

Former Course Number [4050]

Prerequisite: HLED 1006, completion of a COM2 course, and minimum 2.750 GPA.

HLED4005 - Global Health in Modern Society

Credits: 3

Evidence-based approach to understand the interconnectivity of global health in modern society. Examination of health disparities, worldwide, to understand the impact of politics, culture, and economics on population health. Rural aspects of public health both domestically and internationally included. Students will discuss challenges and approaches to improving global public health.

A&S College Core 2015 ASG

Prerequisite: sophomore standing and minimum 2.750 GPA.

HLED4015 - Internship Experience in Health

Credits: 1-12

Max Credit (Max. 12)

Variable-credit (1-12) and S/U course required of Kinesiology and Health undergraduate majors to provide experiential learning in kinesiology and health in a real world setting. Intended to integrate theory and technique with practical application to expose students to areas of professional/career interest and assist with building professional careers. Must have CPR/AED/1st Aid Certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed KIN 4015.

Prerequisite: Grade of C or better in KIN 3024; 2.750 GPA; completion of a minimum of 18 credits in KIN/HLED upper division coursework.

HLED4016 - Research Experience in Kinesiology and Health

Credits: 3-6

Max Credit (Max. 6)

Offered to students who wish to gain a research experience in Kinesiology and Health. Meant for students who are interested in pursuing an advanced degree. Students may choose to complete KIN 4016/HLED 4016 instead of KIN 4015/HLED 4015. Must have CPR/AED/1st Aid certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed KIN 4016.

Prerequisite: minimum sophomore standing; declared KHP major; permission of instructor; and minimum 2.750 GPA.

HLED4020 - Food, Health, and Justice

Credits: 3

Maps ways our dominant national and global food systems affect health and equity in health, largely though not only negatively. Students will critically assess practiced and potential strategies for creating alternative food systems that support health and equity, particularly at the U. S. community level.

Dual Listed HLED 5020.

Prerequisite: Completed COM 2 course and minimum 2.750 cumulative UW GPA.

HLED4021 - Creating Conditions for Community Health

Credits: 3

In this course we will analyze and discuss how local, national and international environments impact individual and community health and how to improve health through changes in policy, economic, social, cultural and physical environments. The focus is primarily in the U. S. , though students can choose to focus assignments in other contexts.

Dual Listed HLED 5021.

Prerequisite: COM2 and a UW GPA of 2.750 or better.

HLED4025 - Teaching Sensitive Issues In Human Sexuality

Credits: 3

Prepares educators and other helping professionals whose work involves promoting healthy sexuality in children, young people, and adults. It also provides detailed investigation into important aspects of teaching sensitive issues related to human sexuality. Students practice, critique, develop, and evaluate sexuality education processes and resources.

Dual Listed HLED 5025.

Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

HLED4030 - Teaching About Alcohol and Substance Abuse

Credits: 3

Introduces students to the issues of societal and personal attitudes towards alcohol and substance use, misuse and abuse. Prepares an educator to teach about alcohol and substance abuse in the classroom and out of the school setting.

Prerequisite: Sophomore standing; minimum 2.750 GPA; or permission of instructor.

HLED4074 - Field Studies in (TOPIC)

Credits: 1-6

Offered only through distance education. Flexible course to accommodate students completing discipline specific and/or interdisciplinary program field studies experiences, e. g. , athletic performance, health/fitness application, minor in Outdoor Leadership, National Outdoor Leadership School programs.

Cross Listed KIN 4074.

HLED4097 - Individual Problems

Credits: 1-3

Max Credit (Max 6)

Provides flexible credit for students who wish to undertake intensive study and/or experiential activities in health education.

Prerequisite: Declared major in KHP or permission of instructor.

HLED4110 - Teaching Health in Schools K-12

Credits: 3

Presented appropriate knowledge and skills to become health literate. Explore ways to teach health skills and knowledge and use assessment strategies for health education.

When Offered (Offered fall semester)

Prerequisite: Grade C or better in KIN 3015 or certified K-12 teacher.

HLED4120 - Assessment in Health

Credits: 3

Provide students with an understanding of components of a balanced assessment system in school health education. Students review the basics of standards-based health education and explore innovations in assessment that provide teachers and students with a more complete and authentic picture of student learning.

Prerequisite: Minimum 2.500 GPA; concurrent enrollment in KIN 4099 or certified K-12 teacher.

HLED4130 - Management of Coordinated School Health Programs

Credits: 3

Reviews the coordinated school health program (CSHP) model and identifies research that supports the eight components of the model. Prepares students to advocate for CSHP and to develop the school infrastructure necessary to carry out such a program. Also prepares individuals to work with school from job settings outside the school.

Dual Listed HLED 5130.

When Offered (Offered fall semester)

Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

HLED4900 - Topics in:

Credits: 1-3

Max Credit (Max. 9)

Integrates kinesiology and/or health concepts necessary for graduates in multiple professions. Provides experiential learning and training for success in allied healthcare fields. Students may develop and present projects that relate their education and training to a hypothetical work-place environment.

Prerequisite: KIN 3021.

HLED5016 - Analysis and Supervision of Teaching Physical Education

Credits: 3

Students are introduced to various evaluative and supervisory techniques which are designed to improve teaching effectiveness and student learning. Emphasis is placed on utilizing various strategies of evaluation in instructional settings.

Prerequisite: graduate standing in KIN or permission of instructor.

HLED5020 - Food, Health, and Justice

Credits: 3

Maps ways our dominant national and global food systems affect health and equity in health, largely though not only negatively. Students will critically assess practiced and potential strategies for creating alternative food systems that support health and equity, particularly at the U. S. community level.

Dual Listed HLED 4020.

Prerequisite: graduate standing or permission of the instructor.

HLED5021 - Creating Conditions for Community Health

Credits: 3

In this course we will analyze and discuss how local, national and international environments impact individual and community health and how to improve health through changes in policy, economic, social, cultural and physical environments. The focus is primarily in the U. S. , though students can choose to focus assignments in other contexts.

Dual Listed HLED 4021.

Prerequisite: graduate standing.

HLED5022 - Unlocking the Potential of Public Health

Credits: 3

Introduces core concepts in community and public health. Using practical exercises and problem based learning,

students will investigate how social structures shape our health and how to alter them to improve community.

Prerequisite: Graduate standing or permission of the instructor.

HLED5023 - Using Epidemiology to Build Health

Credits: 3

Focusing on epidemiological questions generated by the student, this course introduces concepts essential to understanding epidemiology, the foundational science of public health. It is focused on using existing epidemiologic data to inform your work.

Prerequisite: Graduate standing or permission from the instructor.

HLED5024 - Increasing Support for PH

Credits: 3

Students learn how to effectively build support for improving the health of their communities. Support includes funding, coalition and partnership building, effective communications with the public and policy makers, and participatory project planning with community stakeholders. In addition, this course will cover how to establish project evaluation frameworks.

Prerequisite: Graduate standing or permission from instructor.

HLED5025 - Teaching Sensitive Issues in Human Sexuality

Credits: 3

Prepares educators and helping professionals whose work involves promoting healthy sexuality in children, young people and adults. Also provides detailed investigation into important aspects of teaching sensitive issues related to human sexuality. Students practice, critique, develop, and evaluate sexuality education processes and resources.

Dual Listed HLED 4025.

Prerequisite: graduate standing or permission of instructor.

HLED5026 - Rural Community Health

Credits: 3

Max Credit 3

This course invites students to apply principles of community and public health in rural and frontier United States settings. It outlines challenges and assets that a rural or frontier setting brings to improving community health. It is designed to assist students to bridge gaps that rural settings face and create a plan for improvement within their chosen community or state.

Prerequisite: Graduate standing or permission from instructor.

HLED5050 - Community and Public Health Promotion

Credits: 3

Identifying, understanding, and working with unique needs and assets of communities is emphasized, including ethnic, religious, and social structures. Planning and implementation of community health programs is stressed. Open but not limited to students interested in the following areas: healthcare, health promotion, public health, the schools.

Prerequisite: graduate standing or permission of instructor.

HLED5085 - Research Methods in Health Education

Credits: 3

Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

Cross Listed KIN 5085.

Prerequisite: graduate standing in KIN or permission of instructor.

HLED5097 - Individual Problems

Credits: 1-3

Max Credit (Max. 6)

Provides flexible credit for students who wish to undertake intensive study of a special problem identified in a regular class.

Cross Listed KIN 5097.

Prerequisite: graduate standing in KIN or permission of instructor.

HLED5130 - Management of Coordinated School Health Programs

Credits: 3

Reviews the coordinated program (CSHP) model and identifies research that supports the eight components of the model. Prepares students to advocate for CSHP and to develop the school infrastructure necessary to carry out such a program. Also prepares individuals to work with school from job settings outside the school.

Dual Listed HLED 4130.

Prerequisite: graduate standing or permission of instructor.

HLED5586 - Seminar in Health Education

Credits: 1-6

Max Credit (Max. 8)

Graduate students in kinesiology and health work intensively on current issues and problems, and may pursue specific areas of emphasis. Although a total of 8 hours is permitted under this number, only 6 hours are allowed by the Division of Kinesiology and Health toward a student's graduate program.

Cross Listed KIN 5586.

Prerequisite: graduate standing in KIN or permission of instructor.

HLED5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing in KIN or permission of instructor.

HLED5959 - Enrichment Studies

Credits: 1-3

Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

HLED5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN4027 - Emergency Prep and Response

Credits: 3

Max Credit 3

This class provides an overview of emergency management. It teaches students skills that will help the prepare themselves, their families, and their community for natural and human made disasters. The class emphasis will be on active learning via role-playing assignments, communication planning, and personal preparedness plans.

Dual Listed HLED 4027/5027

Prerequisite: HLED 3020, OR Senior Standing, OR permission of the instructor

Health Sciences

HLSC1090 - SPARX: Topics in Interdisciplinary Health Care

Credits: 1
Max Credit (Max. 3)

Each semester a different topic or disease state is highlighted. Using film, lectures, and selected readings, students are introduced to interdisciplinary collaboration between health care and mental health professionals. Benefits to patient care and barriers in making interdisciplinary connections are addressed.

HLSC1101 - Aging in America

Credits: 3

The purpose of this class is to enhance understanding of the myriad issues related to aging in America while also fostering awareness of one's own views of aging. The class will utilize a variety of methods for learning, collaborating, and demonstrating your knowledge, and will include in-class activities, reading assignments, documentary films, and group work.

USP 2015 Code U5FY

HLSC4010 - Health Professions Admissions

Credits: 1
Max Credit 1

Course assists students in understanding and navigating the application and admissions processes for competitive graduate level health programs. Areas considered included requirements and expectations, processes, finances, timelines, and self-assessment. Students receive support in essay writing, interview prep and construction of realistic timelines.

Prerequisite: 2.75 GPA, 75+ credit hours completed

HLSC4100 - Global Public Health

Credits: 3

Introduces students to the global context of public health, to principles underlying global health, and to dimensions of public health particular to international settings. It examines major themes and policies in global health and analyzes health problems and varying responses to them in different parts of the world.

Cross Listed INST 4100.

Dual Listed HLSC 5100.

USP 2003-2014 Code U3G

Prerequisite: upper division student status.

HLSC4985 - Health Sciences Internship

Credits: 1-6
Max Credit (Max. 6)

Gives students an opportunity to gain practical experience in a health care field of their choice. The intense relationship with a mentor allows the student to become socialized into a health care field, gain practice skills, and relate to other health care professionals in an interdisciplinary way.

When Offered (Offered fall, spring and summer)

Prerequisite: completion of all other degree requirements.

HLSC4990 - Current Topics in the Health Sciences

Credits: 1-6

Max Credit (Max. 12)

Provides upper division/graduate students with the opportunity for critical analysis and in-depth examination of various current topics in health science fields.

Dual Listed HLSC 5990.

Prerequisite: Upper-division undergraduate status, or permission from instructor.

HLSC5990 - Topics In Health Sciences

Credits: 1-6

Max Credit (Max. 12)

Provides upper division/graduate students with the opportunity for critical analysis and in-depth examination of various current topics in health sciences fields.

Prerequisite: graduate standing,

Honors College

HP1020 - Honors Colloquium I

Credits: 3

Max Credit 3

Honors Colloquium I is the first course in a two-semester sequence introducing students to the Honors College and to interdisciplinary modes of inquiry and expression through intensive analytical reading and writing, lectures, Scholars Sessions, and experiential learning.

When Offered (Offered fall semester)

USP 2003-2014 Code U3L, U3WA

USP 2015 Code U5C1

Restricted Honors College

Prerequisite: participation in UW Honors College.

HP1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

HP1200 - People and Policy

Credits: 3

This course focuses on reading American and Wyoming political documents in an historical and interdisciplinary context, and extends the discussion into the present day, situating what we know about America as a political nation, Wyoming as a political state, and ourselves as people and citizens within both our founding political documents and the history of interpretations and extensions of those documents.

USP 2003-2014 Code U3V
USP 2015 Code U5V

Prerequisite: participation in UW Honors College.

HP2020 - Honors Colloquium II

Credits: 3
Max Credit 3

Honors Colloquium II is the second course in a two-semester sequence introducing students to the Honors College and to interdisciplinary modes of inquiry and expression through intensive analytical reading and writing, lectures, Scholars Sessions, and experiential learning.

USP 2003-2014 Code U3O, U3WB
USP 2015 Code U5C2

Prerequisite: WA. COM I

HP3151 - Modes of Understanding

Credits: 3
Max Credit (Max. 6)

Introduces study of nature and grounds of knowledge, its limits and validity. Examines epistemological basis of selected areas of academic thought. Topics vary from year to year. Required of UW Honors Program students.

Former Course Number [3150]

Prerequisite: COM1, COM2

HP3152 - Modes of Understanding

Credits: 3
Max Credit (Max. 6)

Introduces study of nature and grounds of knowledge, its limits and validity. Examines epistemological basis of selected areas of academic thought. Topics vary from year to year. Required of UW Honors Program students.

Former Course Number [3150]

Prerequisite: COM1, COM2

HP3153 - Modes of Understanding

Credits: 3

Max Credit (Max. 6)

Introduces study of nature and grounds of knowledge, its limits and validity. Examines epistemological basis of selected areas of academic thought. Topics vary from year to year. Required of UW Honors Program students.

Former Course Number [3150]

Prerequisite: COM1, COM2

HP4151 - Honors Seminar

Credits: 3

Max Credit (Max. 6)

Asks students to confront a complex social issue, examine it from several perspectives and take a stance on some aspect of the issue. Topics vary from year to year. Required of UW Honors students.

Former Course Number [4150]

Prerequisite: COM1, COM2

HP4152 - Honors Seminar

Credits: 3

Max Credit (Max. 6)

Asks students to confront a complex social issue, examine it from several perspectives and take a stance on some aspect of the issue. Topics vary from year to year. Required of UW Honors students.

Former Course Number [4150]

Prerequisite: COM1, COM2

HP4153 - Honors Seminar

Credits: 3

Max Credit (Max. 6)

Asks students to confront a complex social issue, examine it from several perspectives and take a stance on some aspect of the issue. Topics vary from year to year. Required of UW Honors students.

Former Course Number [4150]

Prerequisite: COM1, COM2

HP4154 - Honors Seminar

Credits: 3

Asks students to confront a complex social issue, examine it from several perspectives and take a stance on some aspect of the issue. Topics vary from year to year. Required of UW Honors Program students.

USP 2003-2014 Code U3C

Prerequisite: COM1, COM2

HP4975 - Independent Study

Credits: 1-3

Max Credit (Max. 6)

Supervised study and investigation in topics related to students' research.

USP 2003-2014 Code U3WC

HP4976 - Independent Study

Credits: 1-3

Max Credit (Max. 6)

Supervised study and investigation in topics related to student's research.

HP4990 - Topics: __

Credits: 1-3

Max Credit (Max. 6)

Accommodates a senior seminar series or a course offering by visiting faculty whose subject matter is not included in other course offerings.

When Offered (Offered based on sufficient demand and resources)

Hospitality

HOSP2000 - Foundations of Customer Service & Hospitality

Credits: 3

This course examines critical elements of excellent customer service in the hospitality industry.

HOSP3000 - Managing Profitability in Hospitality

Credits: 3

This course examines the complexities of profitability in the hospitality industry, driven by issues of pricing and cost management. Areas explored can include restaurants, hotels, and other hospitality ventures.

Prerequisite: ACCT 2010

HOSP4800 - Hospitality Operations Management

Credits: 3

This course provides a broad-reaching, applications-based understanding of hospitality operations and management. It provides a managerial perspective on the operations of each component of hospitality management and operations, including the financial aspect.

Prerequisite: HOSP 2000

HOSP4900 - Independent Study in Hospitality

Credits: 1-4

Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of hospitality not included in other structured Hospitality courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor.

HOSP4910 - Topics in Hospitality

Credits: 3

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

Human Medicine

HLED5027 - Emergency Prep and Response

Credits: 3
Max Credit 3

This class provides an overview of emergency management. It teaches students skills that will help them prepare themselves, their families, and their community for natural and human made disasters. The class emphasis will be on active learning via role-playing assignments, communication planning, and personal preparedness plans.

Prerequisite: HLED 3020, OR Senior Standing, OR permission of the instructor

HM6506 - Clinical Preceptorship

Credits: 1
Students spend one morning or afternoon per week for approximately 10 weeks in a clinical setting. Students observe the practice of the physician and engage in one on one feedback sessions with the physician. The goal of the experience is to become comfortable in the clinical setting, observe clinical techniques, observe the patient-doctor interactions, and observe the healthcare team. Students should have an opportunity to discuss professional and personal aspects of a particular specialty practice including the business side of the practice.

Prerequisite: enrollment in or completion of HM 6513, HM 6522, or HM 6535.

HM6510 - Microscopic Anatomy: Histology

Credits: 4
Lecture/laboratory in microscopic anatomy designed to provide principles/concepts of histology, define morphological characteristics of cells, tissues, organs of human body and relate this information to functional processes studied in concurrent and subsequent courses.

Prerequisite: admission to the WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6511 - Anatomy and Embryology

Credits: 6
Structural organization of human body at the macroscopic level to provide a foundation for physical examination and functional assessment of the human organism. Integrates embryological development with study of cadaver and examination of normal living body. Concentrates on exploration of the body cavities and viscera they contain.

Prerequisite: admission to the WWAMI program or consent of instructor and approval of WWAMI coordinator or the dean of the College of Health Sciences.

HM6512 - Mechanisms in Cell Physiology

Credits: 4
Physiology of cell membrane, ionic and electrical gradients; active transport, excitability, action potentials; biophysics of sensory receptors; neuromuscular transmission; muscle energetics/contractility; spinal reflexes and central synaptic

transmission; autonomic nervous system; energy metabolism and temperature regulation; epithelial transport; gastrointestinal motility and secretions.

Prerequisite: admission to the WWAMI program or consent of instructor and approval of WWAMI coordinator or the dean of the College of Health Sciences.

HM6513 - Introduction to Clinical Medicine

Credits: 1

Instruction in communication skills and interview techniques to form the basis for the doctor-patient relationship and for the skills of communication with patients. The patient profile is obtained. Attention to developing comfort in the physician role.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6514 - Biochemistry 1A

Credits: 3

First portion of a coordinated course covering classical molecular and cellular biochemistry, cellular physiology and molecular genetics. Metabolic interrelationships as they occur in the individual are stressed and related to disturbances in disease states.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or the dean of the College of Health Sciences.

HM6516 - Systems of Human Behavior

Credits: 3

Sensitizes students to the impact of such factors as emotional and physical development, cultural backgrounds, social roles, families, sexual identities and belief systems upon their effectiveness as physicians. Teaches skills in analyzing behavior, defining behavioral objectives and designing precise treatment strategies to attain these objectives.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or the dean of the College of Health Sciences.

HM6521 - Microbiology and Infectious Disease 1A

Credits: 4

Pathogenesis and immunity of infectious diseases, natural barriers. Microbiology, epidemiology, clinical manifestations and control of representative bacterial, fungal, parasitic and viral infectious diseases. Chemotherapeutics and principles of chemotherapy. Sterilization, principles of asepsis, nosocomial and iatrogenic infections and their prevention.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or the dean of the College of Health Sciences.

HM6522 - Introduction to Clinical Medicine

Credits: 2

Medical history is introduced and instruction in data collection is begun. Experience in conducting medical interviews with patients to obtain the medical history and patient profile. Special problems related to interviewing are addressed.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6523 - Introduction to Immunology

Credits: 2

Basic concepts such as antigens; antibodies; complement; B- and T-lymphocyte functioning, including interactions with each other and with accessory cells; immunological tolerance; major histocompatibility complex; and role of these basic concepts in immunopathology (immunodeficiencies, hypersensitivities, autoimmunity, blood transfusion, and transplantation).

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6524 - Biochemistry 1B

Credits: 2

Second portion of a coordinated course covering classical molecular and cellular biochemistry, cellular physiology and molecular genetics. Metabolic interrelationships as they occur in the individual are stressed and related to disturbances in disease states.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6531 - Anatomy of Head and Neck

Credits: 4

Gross anatomy (including skull, pharynx and larynx), audition and balance, physiology and clinical evaluation, maxillofacial disorders, diseases of nasal passages, nasopharynx and oropharynx, accessory sinuses. Physical examination.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6532 - Nervous System

Credits: 5

Integrated approach to normal structure and function of the nervous system, including the eye. Neuropathological examples, as well as clinical manifestations of neurological disease are presented.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6534 - Microbiology and Infectious Disease 1B

Credits: 2

Pathogenesis and immunity of infectious diseases, natural barriers. Microbiology, epidemiology, clinical manifestations and control of representative bacterial, fungal, parasitic and viral infectious diseases. Chemotherapeutics and principles of chemotherapy. Sterilization, principles of sepsis, nosocomial and iatrogenic infections and their prevention.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6535 - Introduction to Clinical Medicine

Credits: 3

Adult screening physical examination is taught through the use of lecture, audiovisual aids, and small group tutorial, where students in supervised setting practice the physical examination on one another. Further practice in the performance and recording of the patient profile and medical history.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6553 - Musculoskeletal System

Credits: 5

Gross, surface, applied and X-Ray anatomy of system including entire spine but excluding head and neck. Histology of bone, cartilage, tendonmyotendinal junction and joints. Musculoskeletal trauma and healing. Pathology and clinical manifestations of other degenerative, inflammatory, metabolic, nutritional and congenital disorders. Physical examinations.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or Dean of the College of Health Sciences.

HM6590 - Medical Information for Decision Making

Credits: 1

Evidence Based Medicine (EBM) is now the predominant model by which medicine is practiced. The goal is to forge critical thinking skills and to teach analysis of the medical literature as a tool.

Prerequisite: admission to WWAMI program or consent of instructor and approval of WWAMI coordinator or dean of the College of Health Sciences.

HM6602 - Introductory Primary and Continuity Care Clerkship

Credits: 2

Introduces medical students to continuity of care by working with practicing physicians. The course demonstrates how

to work with an individual to help them achieve optimal health, and includes topics in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health and pain management.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6603 - Clinical Studies

Credits: 2

Instruction in communication skills, interviewing techniques, physical examination, documentation and clinical reasoning. The course will include hospital based patient encounters and developing comfort and introduction to the physical role.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6610 - Molecular and Cellular Basis of Disease

Credits: 8

Introduces cell physiology and cell biology, function, genetics, and genetic diseases, genes. Topics include membrane physiology; sensory receptors; muscle energetics and contractibility; autonomic nervous system; tissue response to disease; pharmacodynamics and pharmacokinetics; genetic disorders; pharmacogenetics. Incorporates relevant fundamental principles in anatomy, pathology, and pharmacology.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6615 - Ecology of Health and Medicine Foundations I

Credits: 1

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

HM6620 - Invaders and Defenders

Credits: 7

Systems addressed include the immune system, microbial biology, infectious diseases, inflammation and repair, and skin and connective tissue. Topics discussed include the pathogenesis and immunity of infectious disease, immunodeficiencies, hypersensitivity, autoimmunity, the basis of immunologic diagnostics. Additionally, this course will include relevant fundamental scientific principles in anatomy, pathology, and pharmacology.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6625 - Ecology of Health and Medicine Foundations II

Credits: 1

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6630 - Circulatory System

Credits: 11

Provides an interdisciplinary approach to cardiovascular, respiratory, and renal-urinary medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Topics include cardiac electrophysiology and cardiac muscle mechanics, myocardial infarction and cardiac repair, thoracic and pulmonary anatomy, ventilatory mechanics, gas exchange, obstructive, restrictive, and pulmonary-vascular diseases, renal function, and common kidney diseases.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6635 - Ecology of Health and Medicine Foundations III

Credits: 1

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6640 - Blood and Cancer

Credits: 3

Introduces students with the basic pathophysiologic mechanisms leading to disturbances of red cell, white cell, and platelet production, as well as abnormalities of hemostasis presenting clinical problems, with an emphasis on pathophysiology. Additionally, this course will include relevant fundamental scientific principles in anatomy, pathology, and pharmacology.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6645 - Ecology of Health and Medicine Foundations IV

Credits: 1

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

Restricted Restricted to WWAMI medical students only.

HM6650 - Energetic and Homeostasis

Credits: 7

Integrates discussions of metabolism, nutrition, obesity, diabetes, gastrointestinal/liver physiology and endocrinology, including physiology and pathology of digestion and hepatic function, principles and practice of clinical nutrition,

endocrine metabolism, and clinically important endocrine pathophysiology. Relevant anatomy, pathology and pharmacology of the endocrine and gastrointestinal systems will be covered.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6660 - Musculoskeletal

Credits: 2
Max Credit 2

Comprehensive introduction and overview of musculoskeletal content for medical students, geared to gain knowledge on clinical manifestations in the musculoskeletal system and pathophysiology of trauma, aging, infection, and inflammation.

HM6700 - Research Methods

Credits: 2
The course will describe various types of medical studies along with the advantages and limitations of each. Students will explore statistical tools related to diagnostic testing, and treatment efficacy.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6710 - Fund. Medical Sci. & Research

Credits: 1
Max Credit 9

Comprehensive introduction to foundational basic science and research concepts in medicine. Topics covered include molecular and cell biology; human physiology, genetics and biochemistry; community health and disease; clinical epidemiology, research study design and data analysis. Incorporates fundamental principles of anatomy, pathology, and pharmacology, and medicine in society.

Restricted Restricted to WWAMI medical students

HM6715 - Foundations of Clinical Med 1

Credits: 1
Max Credit 1

Introduction to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to the development of the physician role. This is the first of four courses in the sequence.

Restricted Restricted to WWAMI medical students

HM6720 - Infection & Immunity

Credits: 1
Max Credit 7

Comprehensive introduction to the fundamentals of the immune system; microbiology; infectious diseases; inflammation and repair. Topics covered include the pathogenesis and immunity of infectious disease, immunodeficiencies, hypersensitivity, autoimmunity, and the basis of immunologic diagnostics. Integrates relevant principles of anatomy, pathology, and pharmacology and medicine in society.

Restricted Restricted to WWAMI medical students

HM6725 - Foundations of Clinical Med 2

Credits: 2
Max Credit 2

Introduction to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to the development of the physician role.

Restricted Restricted to WWAMI medical students

HM6730 - Cancer, Hormones & Blood1

Credits: 1
Max Credit 7

Comprehensive introduction to the fundamentals of endocrinology, hematology, and oncology. Topics covered include endocrine regulation of metabolism; normal physiology and pathophysiologic mechanisms responsible for clinically important endocrine disorders; disturbances in red cell, white cell and platelet production; abnormalities of hemostasis; and malignant neoplasia. Integrates relevant principles of anatomy, pathology and pharmacology, and medicine in society.

Restricted Restricted to WWAMI medical students

HM6735 - Foundations of Clinical Med 3

Credits: 3
Max Credit 3

Introduction to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to the development of the physician role.

Restricted Restricted to WWAMI medical students.

HM6745 - Foundations of Clinical Med 4

Credits: 3
Max Credit 3

Introduction to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to the development of the physician role.

Restricted Restricted to WWAMI medical students.

HM6750 - Cardiovascular System

Credits: 5
Max Credit 5

Provides an interdisciplinary approach to cardiovascular medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Topics include thoracic anatomy, cardiac electrophysiology, cardiac muscle mechanics, myocardial infarction, and cardiac repair.

Restricted Restricted to WWAMI medical students.

HM6755 - Medicine, Health, & Society 1

Credits: 1
Max Credit 1

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

Restricted WWAMI medical students only.

HM6760 - Respiration and Regulation

Credits: 6
Max Credit 6

Provides an interdisciplinary approach to respiratory and renal-urinary medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Topics include ventilatory mechanics, gas exchange, renal function, and common renal & pulmonary-vascular diseases.

Restricted Restricted to WWAMI medical students.

HM6770 - Head, Neck, & Gut

Credits: 5
Max Credit 5

Integrates discussions of head/neck anatomy, metabolism, and gastrointestinal/liver physiology including physiology

and pathophysiology of digestion and hepatic function. Relevant anatomy, pathology, and pharmacology of the gastrointestinal systems will be covered.

Restricted Restricted to WWAMI medical students.

HM6775 - Medicine, Health, & Society 2

Credits: 3

Max Credit 3

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

Restricted WWAMI medical students only.

HM6800 - Mind, Brain, Behavior

Credits: 9

Explains the foundational principles of the organization and function of the head, neck, and central nervous system with a focus on clinical application of this knowledge to systematically approach the differential diagnosis and management of major neurologic, psychiatric, and behavioral disorders. Covers current therapeutic approaches to disease including pharmacological, behavioral, surgical, and other therapies.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6900 - Life Cycles and Reproduction

Credits: 5

Covers normal and abnormal human development reproductive functions including formation and maturation of ova and sperm, menstruation, normal pregnancy, and labor and delivery. Provides information concerning infertility, family planning techniques, urinary disorders, and reproductive aging and demography of human population. Includes relevant fundamental scientific principles in pelvic anatomy, pathology, histology, imaging, and pharmacology.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

PHCY5249 - Clinical Research Regulation

Credits: 2

Max Credit 2

The record of atrocities in human experimentation is reviewed. Federal and state legal requirements for the conduct of human experimentation are examined, with a focus on the Belmont Report and the Common Rule. Legal case studies are utilized as the basis for regulatory compliance strategies.

Restricted Selection of leadership track in BAS program

Information Literacy

LBRY3010 - Research from a Distance

Credits: 1

Students locate, evaluate, and synthesize free and fee-based information resources used in academic and work environments, with a special focus on accessing information remotely. Course assignments are customized to student's academic major and career goals. Students discuss ethical and legal issues surrounding information use.

USP 2003-2014 Code U3L

Prerequisite: ENGL 1010 or equivalent, junior standing.

LBRY3020 - Research as Social Capital

Credits: 3

Prepares students to be critical thinkers and interdisciplinary researchers. Skills and habits of mind taught will enable students to locate, interact with, and present information in a service-learning framework and around the class theme of social capital, preparing them for university-level research and life after graduation.

USP 2003-2014 Code U3L

USP 2015 Code U5C2

Prerequisite: Successful completion of a COM1 course or equivalent.

LBRY5600 - Research Data Management

Credits: 3

A general approach to research data management for graduate students and researchers. Topics include: the case for data management, data management planning, meeting grant requirements, formatting and organizing, storing and transferring, legal and ethical issues, strategies for research teams, sharing data, and publishing, citing, and rights to research data.

Cross Listed ES 5600/GRAD 5600.

Prerequisite: graduate standing.

Information Management

IMGT2400 - Introduction to Information Management

Credits: 3

Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

IMGT4500 - Business Analytics

Credits: 3

This class prepares students to understand, manage, and visualize data. Students will learn how to apply the appropriate analytic tools, and communicate the findings and their relevance. Topics covered include data wrangling, descriptive analytics, predictive analytics, and prescriptive analytics.

Prerequisite: IMGT 1400, STAT 2050 or equivalent

IMGT4910 - Topics in Info. Management

Credits: 1-6

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

IMGT4990 - Contemporary Topics in Information Management

Credits: 1-3

Max Credit (Max. 6)

Concerned with contemporary topics in information management and serves as elective credits for a minor in information management. A variety of subjects may be considered for this course including corporate information systems, object oriented technology, management of information technology, decision support systems, and data communication and network.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: IMGT 3400 or concurrent enrollment.

International Business

INBU1040 - Introduction to International Business

Credits: 3

A broad survey of the field of international business which introduces basic concepts of international business activity and theory and reviews major foreign environmental forces--financial, economic and socioeconomic, physical, sociocultural, political, legal, labor, competitive and distributive.

Cross Listed INST 1040.

A&S College Core 2015 ASG
Former Course Number [BUSN 2000]

INBU4570 - Global Business Issues

Credits: 1-6
Max Credit (Max. 6)

Designed to give students a broad overview of current issues in international business. Includes classroom instruction and may include travel to a foreign country and visits to major foreign firms. A written assignment is required.

Dual Listed INBU 5570.
Former Course Number [BUSN 4540]

Prerequisite: consent of instructor.

INBU4900 - Independent Study in International Business

Credits: 1-4
Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of International Business operations not included in other structured International Business courses.

Former Course Number [BUSN 4900]**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

INBU4910 - Topics in International Business

Credits: 3
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Former Course Number [BUSN 4910]**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor.

INBU4920 - International Business: Study Abroad

Credits: 1-6
Max Credit (Max. 6)

Credit for course work related to international business undertaken at foreign institutions. Students are responsible for submitting course materials for evaluation for credit by College of Business faculty prior to enrolling. Students arrange

for the foreign institutions to send performance evaluations to the Peter M & Paula Green Johnson Student Success Center.

Former Course Number [BUSN 4920]

Prerequisite: consent of department head.

INBU5570 - Global Business Issues

Credits: 1-6
Max Credit (Max. 6)

Designed to give students a broad overview of current issues in international business. Includes classroom instruction and may include travel to a foreign country and visits to major foreign firms. A written assignment is required.

Dual Listed INBU 4570.
Former Course Number [BADM 4540; BUSN 5540]

Prerequisite: consent of instructor.

International Studies

INST1040 - Introduction to International Business

Credits: 3
A broad study of the field of international business activity and theory and review major foreign environmental forces

Cross Listed INBU 1040.
Former Course Number [INST 2000]

Prerequisite: ECON 1010.

INST1060 - World Regional Geography

Credits: 3
Covers the distributions, traits, and processes of the Earth's peoples and landscapes through the perspective of regional geography, which is the study of the spatial relationships of natural environments and human societies.

Cross Listed Cross listed with: GEOG 1000.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

INST1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

INST1200 - Non-Western Political Cultures

Credits: 3
Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.

Cross Listed POLS 1200.
USP 2003-2014 Code U3CS, U3G

INST1250 - Introduction to Comparative Government

Credits: 3
How do foreign states deal with the numerous challenges to their stability? Do institutions affect a state's approach to solving different problems? How do these different approaches affect policy? This course introduces students to different styles of governance and compare countries from around the world with reference to their political ideology.

Cross Listed POLS 1250.
A&S College Core 2015 ASG

INST1330 - World History since 1750

Credits: 3
A history of the world's peoples and societies from 1750 to the present, with an emphasis on the diversity and interconnectedness of human life in the past.

USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG

INST2200 - Study Abroad Preparation

Credits: 1
Prepares students for long-term study in a foreign country, by helping them to adapt to and understand the host country's culture, history, geography, political, and economic context. The course provides the practical information necessary for a foreign experience by exploring the principles of culture shock, ethnocentrism, cultural relativism, and the fundamentals of cross-cultural communication.

INST2230 - Introduction to Asian Studies

Credits: 3
Asia, the world's largest continent, is home to virtually half of humanity and a broad spectrum of peoples, languages, religions, and cultures. This course introduces the cultural, political, economic, and environmental landscapes of this diverse region.

USP 2003-2014 Code U3G

USP 2015 Code U5C2
A&S College Core 2015 ASG

INST2240 - Introduction to African Studies

Credits: 3

Confronts African stereotypes by exploring the continent's complex history and current affairs, with the help of different disciplinary perspectives, such as economics, political science, and anthropology. Equipped with the basics, students will be primed to tackle more advanced courses on Africa.

Cross Listed AAST 2240.
USP 2003-2014 Code U3WB
USP 2015 Code U5C2

INST2250 - Introduction to Latin American Studies

Credits: 3

An introduction to the culture, history and politics of Latin America, from the US/Mexico border to the Antarctic ice fields of Patagonia. We will consider historical events and encounters from pre-Conquest times to contemporary crises. Our toolkit includes geography, anthropology, history, political economy, literature and cultural studies.

USP 2015 Code U5C2

INST2260 - Foreign Locale

Credits: 3-6
Max Credit (Max. 9)

A UW course taught primarily or entirely in a foreign locale.

INST2280 - Introduction to European Studies

Credits: 3

This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.

Cross Listed HIST 2280.
USP 2015 Code U5C2

INST2310 - Introduction to International Relations

Credits: 3

Analyzes the nature of international relations, emphasizing various methods of explaining and interpreting the behavior of nation-states. In doing so, the course illustrates the contemporary problems of world politics.

Cross Listed POLS 2310.

USP 2003-2014 Code U3G
A&S College Core 2015 ASG

INST2350 - Introduction to Global Studies

Credits: 3

Taking an interdisciplinary approach to the study of globalization, the course explores the links between trade, consumption, civil society, social justice, and ecological integrity.

USP 2003-2014 Code U3CS, U3G

INST2990 - Topics in International Studies

Credits: 1-6

Max Credit (Max. 15)

Accommodates seminar series and/or course offerings including those by interdisciplinary teams and visiting faculty in international studies not covered by other courses.

INST3000 - Social Change

Credits: 3

Studies causes, processes and consequences of structural transformations in historical and comparative perspective. Reviews and assesses forces that account for sociological changes. Explores social change globally as well as in the U. S.

Cross Listed SOC 3000.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Former Course Number [2100]

Prerequisite: SOC 1000.

INST3050 - Economic Geography

Credits: 3

Economic geography is the study of the location, distribution and spatial organization of economic activities across the globe; specifically how the economic realm is intertwined with other spheres of international social life. It explores the inherent logics and mechanisms of the capitalist system, and the social and spatial inequalities that result.

Cross Listed GEOG 3050.

When Offered (Normally offered fall semester every other year)

Prerequisite: 6 hours of Social Sciences or International Studies.

INST3100 - Chinese Society

Credits: 3

Reviews origins and consequences of Chinese revolution in comparative and cultural perspectives. Discusses influence of historical traditions and social structure on individual lives and behavioral patterns.

Cross Listed SOC 3100.

USP 2003-2014 Code U3G

Prerequisite: SOC 1000.

INST3200 - Comparative Political Cultures

Credits: 3

Histories and experiences of various societies have shaped their values, norms, beliefs, expectations, and attitudes. This class explores how the beliefs, values, and lifestyles of various societies shape peoples' views of their place in the politics of the state and of the state's place in their daily lives.

Cross Listed POLS 3200.

Prerequisite: POLS 1200/INST 1200 or POLS 1250/INST 1250 or permission of instructor.

INST3250 - Global Justice

Credits: 3

Max Credit 3

An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

Cross Listed PHIL 3250

USP 2015 Code U5H

Prerequisite/Corequisite: 3 hours of philosophy or international studies

INST3400 - Politics and Society of Turkey

Credits: 3

Examines the history of Turkey with an emphasis on its relationship with the Western world. Major topics include the Ottoman Empire; Ataturk and the founding of the Republic of Turkey; Turkey's role in the Cold War, Kurdish and other minority populations; the changing Turkish political landscape, the evolution of Islamist politics; and recent relations with the United States and European Union.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Prerequisite: INST 1200/POLS 1200 or POLS 1250 and INST 2310/POLS 2310 or permission of instructor.

INST3420 - The Anthropology of Global Issues

Credits: 3

Using anthropology's long-term, holistic and comparative approaches, the course examines key global issues, e. g. ,

poverty, war, disease, environmental degradation, and terrorism from an anthropological perspective.

Cross Listed ANTH 3420.

Prerequisite: ANTH 1200.

INST3860 - World Food, Ag, & Development

Credits: 3

Explores economic approaches to improving nutrition, agriculture production, and the environment in developing regions of the world. Students gain understanding of complex conditions surrounding food security; institutions involved with food policy, aid, and production; environmental factors influencing agricultural production; inequality; and international cultural and societal food disparities.

Cross Listed AGECE 3860.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3G

USP 2015 Code U5H

Prerequisite: AGECE 1010/ECON 1010 or ECON 1020.

INST3910 - Global Sociology

Credits: 3

Global Sociology explores how humans shape and are shaped by globalization processes. Globalization creates inherent risks, such as increased inequality and violence, but also opportunities for greater democracy and a stronger global civil society. This course examines social, cultural, institutional, and economic factors and their effects on societies around the world.

Cross Listed SOC 3910.

When Offered (Offered once a year).

A&S College Core 2015 ASG

Prerequisite: SOC 1000 or ANTH 1200 or INST 2350.

INST3933 - African Philosophy

Credits: 3

Examines the work of philosophers of Africa, of African descent and others who deal with the African diaspora. Topics include the nature of African philosophy and the African American struggle, African colonialism, philosophy, political philosophy and gender, traditional African thought.

Cross Listed AAST 3933/PHIL 3933.

USP 2015 Code U5H

A&S College Core 2015 ASG

Restricted Restricted to junior or senior class standing.

Prerequisite: A prior course in AAST, INST or PHIL.

INST4013 - Political Geography

Credits: 3

Geographic space mediates political action and is generated by it, and spatial forms are produced by governmental agencies that must respond or adapt to emerging patterns of political disruption and tendencies of social change. Students in this course learn to think about the relationship between politics and space at multiple scales and in global context. They also develop an inter-disciplinary approach to the sub-discipline of political geography in social and historical context, and, in that sense, develop a capacity to think and act as political geographers.

Prerequisite: 6 hours in social science

INST4050 - Development, Africa, and Culture

Credits: 3

Focuses on the complex and checkered relationships between Western-inspired development and African cultures. Striking a balance among ethnographic case studies, theoretical lenses, and practical implications, understand what Euro-American efforts at foreign development, including contemporary globalization, look like from an African perspective. Provides an understanding of African expectations of development and developers.

Cross Listed AAST 4050.

Dual Listed INST 5050.

Prerequisite: junior standing and instructor consultation.

INST4060 - NGOs, Development, and Culture

Credits: 3

Non-governmental organizations (NGOs) have grown exponentially in number and are often viewed as the new and best vehicle for international development. By focusing on international non-governmental organizations (INGOs), in the contexts of Western aid to post-colonial societies and the role they play in the international aid system, the course explores INGOs from historical, global, and cultural perspectives.

Dual Listed INST 5060.

Prerequisite: junior standing and instructor permission.

INST4100 - Global Public Health

Credits: 3

Introduces students to the global context of public health, to principles underlying global health, and to dimensions of public health particular to international settings. It examines major themes and policies in global health and analyzes health problems and varying responses to them in different parts of the world.

Cross Listed HLSC 4100.

Dual Listed INST 5100.

USP 2003-2014 Code U3G

Prerequisite: upper division student status.

INST4175 - Gender, Women, and Health

Credits: 3

Focuses on issues of gender, women and health, including the effects of gender bias in medical research and health care

practices and policies. Health care issues of specific concern to women, both nationally and internationally will be examined.

Cross Listed GWST 4175.

When Offered (Offered every other year)

USP 2003-2014 Code U3CS, U3G

Prerequisite: upper-division standing, lower division social or psychological science course.

INST4200 - China and Globalization

Credits: 3

The economic reforms in China have been political, cultural, and above all, global processes. Understanding these processes of economic reform tells us much about the role of government, culture, and globalization in the transition from socialism to capitalism, as well as about China's future role in the world.

Prerequisite: POLS 1200/INST 1200 or POLS 1250/INST 1250 or HIST 2041 or SOC 3100.

INST4215 - European Union

Credits: 3

Examines the European Union's history, institutional structures, and policy areas and explores the positive and negative effects of European integration.

Cross Listed POLS 4215.

Dual Listed INST 5215.

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

INST4240 - Global Sex Work and Trafficking

Credits: 3

Drawing upon case studies from Africa, Asia, the Americas and Europe, this course explores the gendered intersections of power and privilege through the lens of sex work, broadly defined as the exchange of intimacy for something of value, and trafficking, defined as coerced forms of sex work.

Cross Listed GWST 4240.

Dual Listed INST 5240.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Prerequisite: 3-6 hours of WMST or INST.

INST4250 - East Asia Society and Economy

Credits: 3

Designed to explore key issues to the historical development of Asian countries from both comparative and international political economy perspectives. Distinctive political, social, and economic characteristics of these nations will be analyzed.

Dual Listed INST 5250.
USP 2003-2014 Code U3G

INST4255 - Politics of Developing Nations

Credits: 3

An analysis of the processes of political, economic and social change in the non-Western world.

Cross Listed POLS 4255.

Dual Listed INST 5255.

Prerequisite: 9 hours of political science or international studies, including POLS 1200 or POLS 1250 or POLS 2310, or permission of instructor.

INST4260 - Democratization and Regime Change

Credits: 3

Examines the theoretical/empirical research on causes of democratic transition and consolidation, including new waves of democratization and prospects for democratization in other contexts. Focus is given to a variety of theoretical/methodological perspectives such as the structural, strategic, social/cultural, institutional, and economic approaches.

Cross Listed POLS 4260.

Dual Listed INST 5260.

Prerequisite: 9 hours of political science or international studies, including POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

INST4290 - Inter-American Relations

Credits: 3

Surveys inter-American system and idea of hemispheric unity. Analyzes major issues confronting inter-American community.

Cross Listed POLS 4290.

Prerequisite: 9 hours of political science, including POLS 1200/INST 1200, or POLS 1250/INST 1250, or POLS 2310/INST 2310, or permission of instructor.

INST4315 - History, Politics and Memory of the Holocaust in Europe

Credits: 3

Offers students the opportunity to learn about the history of the Holocaust through travel to various sites in Central Europe where the events themselves occurred, such as Berlin, Warsaw, Krakow and Auschwitz-Birkenau.

Cross Listed HIST 4315.

Dual Listed INST 5315.

Prerequisite: 9 hours of HIST or INST.

INST4330 - American Foreign Relations

Credits: 3

Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

Cross Listed POLS 4330.

When Offered (Normally offered once a year)

Prerequisite: 9 hours of political science or international studies including POLS 2310.

INST4340 - International Organizations

Credits: 3

Encompasses development of world organizations, such as League of Nations, United Nations and its affiliate bodies. Also studies regional organizations and private international bodies.

Cross Listed POLS 4340.

Prerequisite: 9 hours of political science or international studies including POLS 2310.

INST4350 - Culture Change

Credits: 3

Examines representative theories of change, factors involved, dynamics of modernization and applied anthropology. Identical to ANTH 4340.

Prerequisite: ANTH 1200.

INST4360 - International Peace and Conflict

Credits: 3

Why do nations go to war, engage in atrocities such as genocide, or move toward peace following conflict? Examines underlying processes behind both conflict and peace in the international system, including sources of conflict and ways conflicts might be moved toward sustainable peace.

Cross Listed POLS 4360.

Dual Listed INST 5360.

Prerequisite: 9 hours of political science or international studies including POLS 2310.

INST4370 - Global Political Economy

Credits: 3

Examines the interaction of politics and the economy at the global level. Evaluates how political and economic decisions of one country or groups of countries affect institutions and life circumstances in others. Assesses the causes of consequences of globalization as rooted in political economy.

Cross Listed SOC 4370.

USP 2003-2014 Code U3G

Prerequisite: SOC 1000 and junior standing or SOC 2100.

INST4375 - Transitional Justice

Credits: 3

Mechanisms provide accountability for gross human rights violations and acts of mass atrocity within nations. Case studies are used to examine types of transitional justice interventions; tensions between demands of justice at local, national, and international levels; and transitional justice's role in post-conflict peace-building and reconciliation.

Cross Listed POLS 4375.

Dual Listed INST 5375.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

INST4380 - International History of Human Rights

Credits: 3

Examine the modern history of human rights in the global system, with particular emphasis on developments since the Second World War. Topics include the philosophy of human rights ideas; the histories of rights and rights violations in various regions; and the resulting international responses.

Cross Listed HIST 4380.

Dual Listed INST 5380.

Prerequisite: 9 hours of HIST or INST.

INST4385 - Environment and Resource Conflict

Credits: 3

Drawing on key theory and contemporary real-world case studies this course explores how environmental change and the competition for scarce resources (such as food, water, oil, gems, and timber) have increasingly been linked to violent interstate and intrastate conflict and how such conflicts might be addressed, managed, or resolved through international and national action.

Cross Listed POLS 4385.

Dual Listed INST 5385.

Prerequisite: 9 hours of POLS or INST, including POLS 2310/INST 2310.

INST4445 - Drug War Geopolitics in the Americas

Credits: 3

This course examines illegal drug commodity chains and international efforts to police the drug trade in the Americas. It approaches the drug war through a "critical geopolitics" framework, also covering broader themes such as international politics, livelihoods, development, environmental justice, the global economy, race-based discrimination, public health, and resistance movements.

Cross Listed POLS 4445

GEOG 4445

LTST 4445

Dual Listed INST 5445

POLS 5445

GEOG 5445

LTST 5445

Prerequisite: 9 hours of international studies or social science coursework

INST4455 - Energy Security

Credits: 3

Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed POLS 4455.

Dual Listed INST 5455.

Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

INST4475 - Politics of Natural Resources in Latin America

Credits: 3

This course examines the major trends in resource extraction, management, and conservation in Latin America, and the politics surrounding those trends, from theoretical, social, political, economic, and ecological perspectives and through a variety of grounded case studies. The theories and concepts we study are applicable to resource politics beyond Latin America.

Cross Listed POLS 4475.

GEOG 4475.

Dual Listed INST 5475.

POLS 5475.

GEOG 5475.

Prerequisite: 9 hours of international studies or social science coursework

INST4485 - USLatino Diaspora

Credits: 3

Combines classroom activities and a week-long stay abroad in examining the historical creation and contemporary spread of the Latino Diaspora from the Caribbean to the Yucatan and beyond. U. S. Latina/o history, multiculturalism, pan-Latino identity, assimilation, migration trends and natives responses are stressed.

Cross Listed HIST 4485/LTST 4485.

Prerequisite: 9 hours of LTST, HIST, and/or INST related coursework.

INST4500 - Landscapes of the Americas

Credits: 3

This course trains students to interpret patterns and processes of contemporary landscapes of the Americas (North, Central, and South America) by viewing those landscapes historically. We investigate the relationship between landscape, politics, and economy, or, more generally, the relationship between landscape as a geographical form and cultural politics in the hemisphere. Students are introduced to research techniques and methodologies in historical geography.

Cross Listed GEOG 4500, GEOG 5500, INST 5500

Restricted Sophomore standing

Prerequisite/Corequisite: 6 credits of international studies or social science coursework

INST4540 - International Marketing

Credits: 3

Approaches the topic of international marketing from a managerial perspective. Exposure to world environmental characteristics and interdependencies, as well as objectives, strategies and tactics of marketing goods and services to various countries and cultures.

Cross Listed MKT 4540.

Prerequisite: MKT 2100 and junior standing.

INST4555 - Political Ecology

Credits: 3

Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

Cross Listed INST/POLS 4555/5555 & GEOG 4555

Dual Listed INST/POLS 4555/5555 & GEOG 4555

Prerequisite: 9 hours of international studies or social science coursework.

INST4560 - Global Cities

Credits: 3

Globalization accelerates urbanization processes and creates a new type of city: the global city. This course investigates the debates over global cities, urban culture, new urban landscapes, urban planning practices, and social disparity. Using case studies from around the world, this class explores the diversity of global city formation processes.

Cross Listed GEOG 4560.

Dual Listed Dual listed with INST 5560.

USP 2015 Code U5H

Prerequisite: 9 hours of international studies or geography.

INST4570 - Cultural Geography

Overview in qualitative cultural landscape studies. Emphasizes what a cultural landscape is, how it can be examined, and what can be learned from such landscapes. Readings in cultural geography from a wide array of viewpoints with an emphasis on classic works.

Cross Listed GEOG 4570, INST 4570, INST 5570

Prerequisite: 6 hours in social science

INST4580 - Gender, Global Change, and Development

Credits: 3

Examines the global intersections of gender and public policy through its analysis of five central themes: [1] international development discourse in practice; [2] feminized labor and migration; [3] women's unequal access to resources (including land ownership and education); [4] agricultural production and sustainability; [5] health, reproduction and mothering.

Cross Listed GWST 4580.

Dual Listed INST 5580.

USP 2003-2014 Code U3CS, U3G

Prerequisite: 3-6 hours of WMST or INST courses.

INST4582 - 20th Century US Foreign Relations

Credits: 3

Studies Twentieth Century United States foreign relations with a focus on the Cold War period. Examines economic sources of policy decisions, elites and mass public opinion, as well as cultural, religious, ethnic, racial, and gender issues.

Cross Listed HIST 4582.

Dual Listed INST 5582.

Prerequisite: 9 hours of HIST or INST.

INST4590 - Sustainable Business Practices

Credits: 3

A close look at what is happening in business practice today through the 'lens' of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed MKT 4590.

Dual Listed INST 5590.

Prerequisite: advanced business standing.

INST4650 - Women, Gender & Migration

Credits: 3

From an international context and perspective, this course examines the gendered transformations immigrant women experience. Gender, theories of international migration, assimilation, race, ethnicity, and identity transformation serve as categories of analysis. From a cross-discipline comparative approach, we focus on women's lives to examine

differences and similarities to complicate notions of immigration.

Cross Listed AMST 4650/LTST 4650/GWST 4650.

Dual Listed INST 5650.

Prerequisite: Junior standing and 6 hours of AMST, LTST, INST, and/or WMST coursework or instructor approval.

INST4705 - Terrorism

Credits: 3

Examines the concept, causes, incidence, types, consequences of, and responses to terrorism. Highlights the distinction between domestic and international terrorism and expands on the latter within the framework of the global environment.

Cross Listed CRMJ 4705 and SOC 4705 and POLS 4705

Prerequisite: 9 hours in CRMJ, INST, POLS, or SOC coursework.

INST4710 - Why Economies Succeed and Fail

Credits: 3

The study of the successes and failures of alternative economic systems; origins, similarities, and differences across capitalist, socialist, and communist systems, including the UW, Chinese, European, Russian, Latin American, and African economies. What does history teach us? Are there different tools to grow economy?

Cross Listed ECON 4710.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: ECON 3010; QA.

INST4881 - International Social Welfare and Social Development

Credits: 3

Examines the basic framework of social welfare analysis and social development programming in the international arena, employing a multinational comparative analysis approach to explore the wide array of responses to social need across the globe. Students employ multinational comparative analyses to an area of social concern.

Cross Listed SOWK 4881.

Dual Listed INST 5881.

Prerequisite: POLS 1000; ECON 1010 recommended.

INST4950 - Capstone in International Studies

Credits: 3

Integrative course taught by an international studies faculty member. Students analyze a topic in depth from one of a variety of international studies approaches, organizing their research in concert with others in the class. Emphasis is on the quality of research and presentation.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: senior standing in international studies.

INST4970 - Internship in International Studies

Credits: 1-6

Max Credit (Max. 15)

Integrates practical international experience with academic knowledge. Students are expected to participate in specifically assigned tasks and observe broader activities of sponsoring organization, and reflect on experience in written assignments.

Dual Listed INST 5970.

Prerequisite: 9 hours of international studies courses and consent of instructor.

INST4975 - Readings in International Studies

Credits: 1-3

Max Credit (Max. 9)

Outlines special programs of readings in international studies to meet the needs of individual students.

Prerequisite: 9 hours of international studies courses.

INST4990 - Topics:

Credits: 1-6

Max Credit (Max. 15)

Accommodates seminar series and/or course offerings including those by interdisciplinary teams and visiting faculty in international studies not covered by other courses.

Dual Listed INST 5990.

Prerequisite: junior standing and consent of instructor.

INST5013 - Political Geography

Credits: 3

Geographic space mediates political action and is generated by it, and spatial forms are produced by governmental agencies that must respond or adapt to emerging patterns of political disruption and tendencies of social change. Students in this course learn to think about the relationship between politics and space at multiple scales and in global context. They also develop an inter-disciplinary approach to the sub-discipline of political geography in social and historical context, and, in that sense, develop a capacity to think and act as political geographers.

Cross Listed GEOG 4015, GEOG 5013, INST 4013

Restricted Sophomore standing

Prerequisite: 6 hours in social science

INST5050 - Development, Africa, and Culture

Credits: 3

Focuses on the complex and checkered relationships between Western-inspired development and African cultures. Striking a balance among ethnographic case studies, theoretical lenses, and practical implications, understand what Euro-American efforts at foreign development, including contemporary globalization, look like from an African perspective. Provides an understanding of African expectations of development and developers.

Cross Listed AAST 5050.

Dual Listed INST 4050.

Prerequisite: junior standing and instructor consultation.

INST5060 - NGOs, Development, and Culture

Credits: 3

Non-governmental organizations (NGOs) have grown exponentially in number and are often viewed as the new and best vehicle for international development. By focusing on international non-governmental organizations (INGOs), in the contexts of Western aid to post-colonial societies and the role they play in the international aid system, the course explores INGOs from historical, global, and cultural perspectives.

Cross Listed AAST 5060.

Dual Listed INST 4060.

Prerequisite: junior standing and instructor permission.

INST5100 - Global Public Health

Credits: 4

Introduces students to the global context of public health, to principles underlying global health, and to dimensions of public health particular to international settings. It examines major themes and policies in global health and analyzes health problems and varying responses to them in different parts of the world.

Cross Listed HLSC 5100.

Dual Listed INST 4100.

Prerequisite: upper division or graduate standing.

INST5200 - Graduate Proseminar in International Studies

Credits: 3-6

Max Credit (Max. 6)

Introduces students to different interdisciplinary approaches - perspectives, theories, and paradigms - within International Studies in order to explain the economic, historical, social, cultural, and political dimensions of international processes and issues. Students explore emerging trends in the global system and the most pressing challenges facing states, societies, and peoples.

Prerequisite: graduate student status.

INST5210 - Seminar in Human Security

Credits: 3-6
Max Credit (Max. 6)

A broad interdisciplinary approach to the study of human security within the field of international studies and global politics in order to explore the theories and processes that explain past and emerging patterns of behavior in the international system, as well as key aspects of local to global policymaking.

Dual Listed POLS 5210.

INST5215 - European Union

Credits: 3
Examines the European Union's history, institutional structures, and policy areas and explores the positive and negative effects of European integration.

Cross Listed POLS 5215.

Dual Listed INST 4215.

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

INST5220 - Graduate Seminar in Development

Credits: 3
This seminar will explore political challenges facing developing nations in the twenty-first century. The objective is to equip students from a broad range of backgrounds with a firm grounding in current development approaches and debates.

Prerequisite: INST graduate standing.

INST5240 - Global Sex Work and Trafficking

Credits: 3
Drawing upon case studies from Africa, Asia, the Americas and Europe, this course explores the gendered intersections of power and privilege through the lens of sex work, broadly defined as the exchange of intimacy for something of value, and trafficking, defined as coerced forms of sex work.

Cross Listed GWST 5240.

Dual Listed INST 4240.

Prerequisite: 3-6 hours of WMST or INST.

INST5250 - East Asia Society and Economy

Credits: 3

Designed to explore key issues to the historical development of Asian countries from both comparative and international political economy perspectives. Distinctive political, social, and economic characteristics of these nations will be analyzed.

Dual Listed INST 4250.

USP 2003-2014 Code U3G

INST5255 - Politics of Developing Nations

Credits: 3

An analysis of the processes of political, economic and social change in the non-Western world.

Cross Listed POLS 5255.

Dual Listed INST 4255.

Prerequisite: 9 hours of political science or international studies, including POLS 1200/INST 1200 or POLS 1250/INST 1250 or POLS 2310/INST 2310, or permission of instructor.

INST5260 - Democratization and Regime Change

Credits: 3

Examines the theoretical/empirical research on causes of democratic transition and consolidation, including new waves of democratization and prospects for democratization in other contexts. Focus is given to a variety of theoretical/methodological perspectives such as the structural, strategic, social/cultural, institutional, and economic approaches.

Cross Listed POLS 5260.

Dual Listed INST 4260.

Prerequisite: 9 hours of political science or international studies, including POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

INST5310 - Seminar in Human Rights

Credits: 3

This seminar will examine rights from interdisciplinary perspectives, with an emphasis on a social science approach.

Prerequisite: graduate standing.

INST5315 - History, Politics and Memory of the Holocaust in Europe

Credits: 3

Offers students the opportunity to learn about the history of the Holocaust through travel to various sites in Central Europe where the events themselves occurred, such as Berlin, Warsaw, Krakow and Auschwitz-Birkenau.

Cross Listed HIST 5315.

Dual Listed INST 4315.

Prerequisite: graduate standing.

INST5330 - American Foreign Relations

Credits: 3

Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors along with analysis of policy options.

Cross Listed POLS 5330.

Dual Listed INST 4330.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

INST5360 - International Peace and Conflict

Credits: 3

Why do nations go to war, engage in atrocities such as genocide, or move toward peace following conflict? Examines underlying processes behind both conflict and peace in the international system, including sources of conflict and ways conflicts might be moved toward sustainable peace.

Cross Listed POLS 5360.

Dual Listed INST 4360.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

INST5375 - Transitional Justice

Credits: 3

Mechanisms provide accountability for gross human rights violations and acts of mass atrocity within nations. Case studies are used to examine types of transitional justice interventions; tensions between demands of justice at local, national, and international levels; and transitional justice's role in post-conflict peace-building and reconciliation.

Cross Listed POLS 5375.

Dual Listed INST 4375.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

INST5380 - International History of Human Rights

Credits: 3

Examine the modern history of human rights in the global system, with particular emphasis on developments since the Second World War. Topics include the philosophy of human rights ideas; the histories of rights and rights violations in various regions; and the resulting international responses.

Cross Listed HIST 5380.

Dual Listed INST 4380.

Prerequisite: 9 hours of HIST or INST.

INST5385 - Environment and Resource Conflict

Credits: 3

Drawing on key theory and contemporary real-world case studies this course explores how environmental change and

the competition for scarce resources (such as food, water, oil, gems, and timber) have increasingly been linked to violent interstate and intrastate conflict and how such conflicts might be addressed, managed, or resolved through international and national action.

Cross Listed POLS 5385.

Dual Listed INST 4385.

Prerequisite: 9 hours of POLS or INST, including POLS 2310/INST 2310.

INST5400 - International Social Science Research Methods

Credits: 3

Introduces students to a wide variety of interdisciplinary social science methodologies that have proven especially conducive to international research.

Prerequisite: graduate standing.

INST5445 - Drug War Geopolitics in the Americas

Credits: 3

This course examines illegal drug commodity chains and international efforts to police the drug trade in the Americas. It approaches the drug war through a "critical geopolitics" framework, also covering broader themes such as international politics, livelihoods, development, environmental justice, the global economy, race-based discrimination, public health, and resistance movements.

Cross Listed POLS 5445.

Dual Listed INST 4445.

Prerequisite: graduate standing.

INST5455 - Energy Security

Credits: 3

Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed POLS 5455.

Dual Listed INST 4455.

Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

INST5475 - Politics of Natural Resources in Latin America

Credits: 3

This course examines major trends in resource extraction, management, and conservation in Latin America, and the politics surrounding those trends, from theoretical, social, political, economic, and ecological perspectives and through a variety of grounded case studies. The theories and concepts we study are applicable to resource politics beyond Latin America.

Cross Listed POLS 4475 /POLS 5475
INST 4475 /5475

GEOG 4475
Dual Listed POLS 4475/5475

INST 4475/5475

GEOG 4475
Prerequisite: graduate standing.

INST5500 - Landscapes of the Americas

Credits: 3

This course trains students to interpret patterns and processes of contemporary landscapes of the Americas (North, Central, and South America) by viewing those landscapes historically. We investigate the relationship between landscape, politics, and economy, or, more generally, the relationship between landscape as a geographical form and cultural politics in the hemisphere. Students are introduced to research techniques and methodologies in historical geography.

Cross Listed GEOG 4500, GEOG 5500, INST 4500
Restricted Sophomore standing

Prerequisite: 6 credits of international studies or social science coursework

INST5555 - Political Ecology

Credits: 3

Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

Cross Listed INST/POLS/GEOG 4555 & POLS 5555
Dual Listed INST/POLS/GEOG 4555 & POLS 5555
Prerequisite: 9 hours of international studies or social science coursework.

INST5560 - Global Cities

Credits: 3

Globalization accelerates urbanization processes and creates a new type of city: the global city. This course investigates the debates over global cities, urban culture, new urban landscapes, urban planning practices, and social disparity. Using case studies from around the world, this class explores the diversity of global city formation processes.

Cross Listed GEOG 5560.
Dual Listed INST 4560.
Prerequisite: 9 hours of international studies or geography.

INST5570 - Cultural Geography

Credits: 3

This course provides an overview of cultural-geographic approaches to cultural landscapes, places, and cultural politics, a foundation in key concepts (landscape, place, and culture), and some training in how to do research as a cultural geographer. Students learn the intellectual history of cultural-geographic concepts and methods, and develop their cultural-geographical perspective through US-based and international examples.

Restricted Sophomore standing

Prerequisite/Corequisite: 6 hours in social science

INST5580 - Gender, Global Change, and Development

Credits: 3

Examines the global intersections of gender and public policy through its analysis of five central themes: [1] international development discourse in practice; [2] feminized labor and migration; [3] women's unequal access to resources (including land ownership and education); [4] agricultural production and sustainability; [5] health, reproduction and mothering.

Cross Listed GWST 5580.

Dual Listed INST 4580.

Prerequisite: 3-6 hours of WMST or INST courses.

INST5582 - 20th Century US Foreign Relations

Credits: 3

Studies Twentieth Century United States foreign relations with a focus on the Cold War period. Examines economic sources of policy decisions, elites and mass public opinion, as well as cultural, religious, ethnic racial and gender issues.

Cross Listed HIST 4582/HIST 5582.

Dual Listed 4582

Prerequisite: graduate standing.

INST5590 - Sustainable Business Practices

Credits: 3

A close look at what is happening in business practice today through the 'lens' of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed MKT 5590.

Dual Listed INST 4590.

Prerequisite: advanced business standing.

INST5650 - Women, Gender & Migration

Credits: 3

From an international context and perspective, this course examines the gendered transformations immigrant women experience. Gender, theories of international migration, assimilation, race, ethnicity, and identity transformation serve as categories of analysis. From a cross-discipline comparative approach, we focus on women's lives to examine differences and similarities to complicate notions of immigration.

Cross Listed AMST 5650/LTST 5650/GWST 5650.

Dual Listed INST 4650.

Prerequisite: Junior standing and 6 hours of AMST, LTST, INST, and/or WMST coursework or instructor approval.

INST5881 - International Social Welfare and Social Development

Credits: 3

Examines the basic framework of social welfare analysis and social development programming in the international arena, employing a multinational comparative analysis approach to explore the wide array of responses to social need across the globe. Students employ multinational comparative analyses to an area of social concern.

Cross Listed SOWK 5881.

Dual Listed INST 4881.

Prerequisite: POLS 1000; ECON 1010 recommended.

INST5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

INST5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

INST5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrolled in a graduate degree program.

INST5970 - Internship

Credits: 1-12
Max Credit (Max. 24)

Integrates practical international experience with academic knowledge. Students are expected to participate in specifically assigned tasks and observe broader activities of sponsoring organization, and reflect on experience in written assignments.

Dual Listed INST 4970.

Prerequisite: 9 hours of INST core courses and consent of instructor.

INST5975 - Graduate Readings in International Studies

Credits: 1-3
Max Credit (Max. 12)

Outlines special programs of readings in international studies to meet the needs of individual students.

Prerequisite: graduate standing.

INST5990 - Topics:

Credits: 1-6
Max Credit (Max. 15)

Accommodates seminar series and/or course offerings including those by interdisciplinary teams and visiting faculty in international studies not covered by other courses.

Dual Listed INST 4990.

Prerequisite: junior standing and consent of instructor.

Leadership

LEAD3110 - Foundations for Leadership

Credits: 3
Max Credit 3

Students identify their leadership potential and prepare to lead in a principle-based way. Students examine leadership through a variety of theories and examples, develop their own personal code of conduct and style, and learn to ethically influence others and organizations through application of their style and leadership skills.

LEAD4110 - Leadership in Practice

Credits: 3

The culminating leadership experience of the university's leadership program. Students draw upon their prior learning to lead an experiential project, benefiting a UW stakeholder. Students continue to learn about effective leadership through the lens of practitioner-oriented literature and apply their learning in advanced casework. The instructor acts as a leadership coach who helps students refine their leadership competencies and enhance leadership potential.

Prerequisite: LEAD 3610 , MGT 2030

LEAD4900 - Ind. Study in Leadership

Credits: 1-4
Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Leadership not included in other structured Leadership courses.

Restricted Include: Juniors and Seniors, Exclude: Freshman, Sophomores

Prerequisite: Junior class standing and consent of instructor.

LEAD4910 - Topics in Leadership

Credits: 3
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors and Seniors, Exclude: Freshman, Sophomores

Prerequisite: Junior class standing and consent of instructor.

Learning, Design, and Technology

ITEC1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

ITEC2360 - Teaching with Technology

Credits: 3
Introduction to effective utilization of computers and other instructional technologies for instruction; software/hardware selection; integrated, professional and instructional applications as applied to all areas and levels of P-12 education.

USP 2003-2014 Code U3L

Prerequisite: minimum 2.500 cumulative UW GPA.

ITEC4010 - Instructional Technology

Credits: 3

An introductory survey course in instructional technology. Covers psychological principles in communication theory, message design and instructional theory with emphasis on the application of technology toward achieving communications objectives. Includes hands-on experience with current presentation tools and techniques for a variety of instructional deliveries.

Dual Listed ITEC 5010.

Former Course Number [4120]

Prerequisite: junior standing.

ITEC4030 - Introduction to Online Teaching

Credits: 3

Includes basic theory, techniques, strategies of teaching and managing the online environment. Covers foundations and domains of online teaching. Emphasizes online learning issues, topics, and practices. Builds a knowledge base in topics such as the selection and integration of distance learning technologies in teaching and providing learner support.

Dual Listed ITEC 5030.

Prerequisite: senior standing or 12 hours of education.

ITEC4220 - Materials Production I

Credits: 2

The first in a series of laboratory experiences aimed at providing teachers, administrators and production specialists with skills in the design and production of instructional materials. Focuses on the basic processes (i. e. mounting, lettering, coloring, illustration, converting and duplicating). A materials fee will be assessed. May be used toward the practical and applied arts requirement.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: ITEC 4120.

ITEC4340 - Technology Integration in Teaching

Credits: 3

This course is an intermediate practice in theory and application of integrating instructional technology into all types of classroom settings. Issues and topics include teaching and learning with technology, designing materials and activities for use with various technologies, and the role that technology plays in the delivery of instruction.

Former Course Number [4400]

Prerequisite: ITEC 2360 or equivalent.

ITEC4740 - Field Studies In (TOPIC)

Credits: 1-5

This course is offered only through extension services. It is broad and flexible and can be utilized in numerous situations to meet local needs. Credit in this course is not applicable toward advanced degrees.

A&S College Core 2015 (Please note that any course offered by the College of Education with the number 4740 is not applicable toward advanced degrees)

Prerequisite: junior standing.

ITEC5000 - Intro to the Field of Instructional Technology

Credits: 3

This course details faculty expectations and students' responsibilities in instructional technology graduate degree programs. It builds a knowledge base about program milestones, library research, APA writing guidelines, academic journals, and professional opportunities. ePortfolios are introduced and initiated to assess student progress over time.

Prerequisite: graduate standing in Instructional Technology.

ITEC5010 - Instructional Technology

Credits: 3

An introductory survey course in instructional technology. Covers psychological principles in communication theory, message design and instructional theory with emphasis on the application of technology toward achieving communications objectives. Includes hands-on experience with current presentation tools and techniques for a variety of instructional deliveries.

Dual Listed ITEC 4010.

Prerequisite: junior standing.

ITEC5020 - Technology and Distance Education

Credits: 3

A survey of the uses of telecommunication systems and other technologies in distance education. Covers instructional strategies, management concerns, and special issues associated with distance learning programs.

Prerequisite: graduate standing and consent of instructor.

ITEC5030 - Introduction to Online Teaching

Credits: 3

Includes basic theory, techniques, strategies of teaching and managing the online environment. Covers foundations and domains of online teaching. Emphasizes online learning issues, topics, and practices. Builds a knowledge base in topics such as the selection and integration of distance learning technologies in teaching and providing learner support.

Dual Listed ITEC 4030.

Prerequisite: senior standing or 12 hours of education.

ITEC5070 - Trends In Instructional Technology

Credits: 1-3
Max Credit (Max. 6)

Provides reading, discussion, research and the opportunity to critically appraise potential methods, software, and hardware in the field of educational communications and technology.

Prerequisite: 12 hours of education, graduate standing, and consent of instructor.

ITEC5090 - Masters Capstone

Credits: 3
Provides exposure to situations students will likely encounter professionally. It establishes a forum where students apply and refine theories, principles, and skills learned during their programs. Students examine and critique current scholarship and document general degree specific competencies.

Cross Listed ADED 5090.

Prerequisite: Check with advisor and complete required sequence of courses for Educational Administration (Adult and Postsecondary Education) or Instructional Technology masters degree programs prior to enrollment.

ITEC5120 - Media Workshop

Credits: 1-6
Max Credit (Max. 6)

Specialized experience in selected areas such as computer technology, multi-image, slide/tape, audio and instructional design. Emphasizes experimental use of materials and development of learning software. The workshop is provided on demand and is flexibly organized and scheduled to meet prevailing needs.

Prerequisite: ITEC 4220.

ITEC5160 - Introduction to Instructional Design

Credits: 3
An introduction to theory and practice of instructional design. Intensive study of the instructional design process and application of the process to solve an instructional problem.

Prerequisite: graduate standing.

ITEC5320 - Message Design

Credits: 3
Introduces theoretical framework and skills necessary to evaluate and create visual representations of information. Topics of application include visual literacy, learning theories, instructional design, instructional technology, and information presentation.

Prerequisite: graduate standing.

ITEC5350 - Multimedia Development

Credits: 3

An introduction to techniques, software, and applications used in the design, manipulation, and development of multimedia artifacts for instructional purposes. This course includes accelerated, hands-on activities to practice and apply message design principles in multimedia settings.

Prerequisite: graduate standing.

ITEC5470 - Instructional Video

Credits: 3

An introductory course for teachers, media specialists, administrators, and others interested in planning, producing, and using instructional video.

Prerequisite: graduate standing and consent of instructor.

ITEC5480 - Short Course

Credits: 3

Used to provide offerings in special topics in instructional technology on the basis of need.

Prerequisite: graduate standing and consent of instructor.

ITEC5510 - Communication in Distance Education

Credits: 3

An introduction to the theory and practice of using communication tools for distance education purposes. Instructional issues related to the design, development, use, and evaluation of communication tools in public school, business, and other distance delivery settings are emphasized.

Prerequisite: graduate standing.

ITEC5550 - Theory of Change

Credits: 3

Explores the literature and research base within the theories, models, and processes of change, the diffusion of innovations, and the human side of educational reform. Learners explore practical applications of theoretical and research findings to behavioral change, diffusion of innovations, and principles and practices of planned change.

Prerequisite: graduate standing.

ITEC5560 - Design and Development of Instructional Systems

Credits: 3

Advanced study in instructional systems theory and design. Study and application of instructional design models used in education and training.

Prerequisite: ITEC 5160, graduate standing, and consent of instructor. Previous course work in educational psychology/learning theory is desirable.

ITEC5660 - Interactive Learning Systems

Credits: 1-3

Max Credit (Max. 6)

Covers all of the necessary elements to design and evaluate effective and efficient interactive learning systems.

Prerequisite: ITEC 5160 or equivalent, graduate standing, and consent of instructor. Previous course work in educational psychology/learning theory is desirable.

ITEC5760 - Instructional Design Applications

Credits: 3

Students engage in the application of principles of instructional design in a real-world setting. Students will be involved in classroom and field experience.

Prerequisite: ITEC 5160 or ITEC 5560.

ITEC5870 - Seminar

Credits: 1-3

Max Credit (Max. 6)

Advanced students in education work together, intensively, on current issues and problems relevant to instructional technology, and participate in systematic, critical interpersonal evaluations.

Prerequisite: graduate standing and consent of instructor.

ITEC5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

ITEC5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

ITEC5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

ITEC5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

ITEC5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

ITEC5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for student whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate degree program.

ITEC5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

LDTE5000 - Theoretical Foundations in LDT

Credits: 3

Students investigate how human learning and cognitive organization and process relate to digital learning contexts. The content covers major learning theories and their implications for the instructional process through the educators' and learners' perspective

Restricted Graduate Student Status

LDTE5010 - Elements of Design

This course aims to help students build a knowledge base in elements of Design and Design Thinking as applied to learning, instruction, and technology. The curriculum is designed to cover major theories and concepts of Design, as well as provide practical

Restricted Graduate Student Status

LDTE5020 - Technology & The Mind

Credits: 3

This course is an exploration of technology and its relationship with cognition, learning, collaboration, productivity, and development. The curriculum is designed to help students examine technology as phenomena that facilitate and transform contexts.

Restricted Graduate Student Status

LDTE5100 - Physical Computing

Credits: 3

Students analyze paradigms establishing educational innovations that challenge traditional norms in pedagogy and assessment practices. Content integrates theories and practices of creativity, divergent thinking, disruptive technology and change in the area

Restricted Graduate Student Status

LDTE5110 - Visual Design and Media

Credits: 3

Students build theoretical frameworks and skills necessary to evaluate and create visual representations of information. Curriculum explores applications of visual literacy in various educational contexts. Students apply theoretical knowledge to plan and use visual pedagogy.

Restricted Graduate Student Status

LDTE5120 - Managing Design & Technology

Credits: 3

This course aims to help students develop their applied knowledge and skills in relation to managing existing and emerging technologies for learning, instruction, and design. The curriculum is designed to give students a practical foundation in finding, researching, assessing and selecting educational technologies for use in contexts relevant to their own professional practice.

Restricted Graduate Student Status

Prerequisite: Graduate Student Status

LDTE5200 - Play, Make, Learn

Credits: 3

Students explore how creativity, playing, and making intersect with learning goals. Content includes foundational theory and challenges students to engage in and create learning activities and physical and virtual learning environments. Students apply theory to practice in digital learning and design relevant to their educational contexts.

Restricted Graduate Student Status

LDTE5210 - Learning Experience Design

Credits: 3

This course aims to help students acquire basic and advanced knowledge and skills related to learning experience design. The curriculum is meant to ground students in the theories and practices of designing learning experiences for different types of students and educational contexts.

Restricted Graduate Student Status

Prerequisite: Graduate Student Status

LDTE5220 - Critical Digital Praxis in Ed

Credits: 3

Students explore how creativity, playing, and making intersect with learning goals. Content includes foundational theory and challenges students to engage in and create learning activities and physical and virtual learning environments. Students apply theory to practice in digital learning and design relevant to their educational contexts.

Restricted Graduate Student Status

LDTE5730 - Game Design & Development

Credits: 3

Max Credit 3

Develop a practical foundation in game design with a focus on concept development, design deconstruction, and prototyping. Using game design theory, analysis, physical prototyping, playtesting, and iteration students translate

game ideas into gameplay. Gamification and using game design as pedagogy are explored as intersections of learning and gaming.

LDTE5760 - Instructional Design Applications

Credits: 3

Max Credit 3

Students will engage in the application of instructional design to real-world, team-based projects. Students will be assigned a series of projects, which they will work on in teams to analyze, develop, implement, and evaluate instructional materials.

Restricted Graduate student status

LTED5480 - Iss in ESL and BE

Credits: 3

A doctoral course aimed at providing in-depth theoretical knowledge and analysis of major topics in English as a second language and bilingual education.

Restricted Graduate student status

Japanese

JAPN1010 - First Year Japanese I

Credits: 4

Studies fundamentals of grammar, composition, conversation and reading. Introduces Japanese culture through the language.

When Offered (Offered fall semester)

USP 2015 Code U5H

JAPN1020 - First Year Japanese II

Credits: 4

Studies fundamentals of grammar, composition, conversation and reading. Introduces Japanese culture through the language.

When Offered (Offered spring semester)

USP 2015 Code U5H

Prerequisite: JAPN 1010 or equivalent.

JAPN2030 - Second Year Japanese I

Credits: 4

Encompasses reading, speaking and writing in original Japanese syllabaries, including elementary kanji characters for daily practical application.

When Offered (Offered fall semester)

Prerequisite: JAPN 1020 or equivalent.

JAPN2040 - Second Year Japanese II

Credits: 4

Encompasses reading, speaking and writing in original Japanese syllabaries, including elementary kanji characters for daily practical application.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: JAPN 1020 and JAPN 2030 or equivalent.

JAPN2070 - Conversational Japanese Abroad

Credits: 4

Japanese language and cultural study in Japan led by UW faculty.

Prerequisite: JAPN 1020.

JAPN3050 - Third Year Japanese I

Credits: 3

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: JAPN 2040 or equivalent.

JAPN3060 - Third Year Japanese II

Credits: 3

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: JAPN 2040 and JAPN 3050 or equivalent.

JAPN3990 - Independent Study

Credits: 1-4

Projects in language or literature designed to meet specific student needs or interests, selected in consultation with faculty; independent reading and reports.

Prerequisite: JAPN 2030.

JAPN4070 - Fourth Year Japanese I

Credits: 3

Incorporates intensive grammar review and combination skill development. Also emphasizes specialized lexicons, written and oral translations, conversational fluency and additional kanji characters.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: JAPN 3060.

JAPN4990 - Advanced Independent Study

Credits: 1-3

Encompasses special projects pertaining to Japanese language or literature to meet needs of individual students designed in consultation with instructor.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: JAPN 3050 and consent of instructor.

Kinesiology

KIN1006 - Introduction to Kinesiology and Health

Credits: 1

A survey of the disciplines of kinesiology and health and exposure to foundational literature in the field.

Prerequisite: Declared Kinesiology & Health Promotion major or permission of instructor.

KIN1040 - Contemporary Topics in North American Sport

Credits: 3

An introductory course that focuses on sport as an institution in North American society. A range of topics is explored from diverse perspectives (historical, sociological, psychological, political, and gender theories), so learners can critically examine what it means to be a part of "sport" in contemporary North American society.

USP 2003-2014 Code U3CH, U3D

KIN1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

KIN2000 - Movement Core I: Striking/Fielding and Invasion Games

Credits: 2

Exposes students to skill and tactical themes comprising striking/fielding and invasion games. Course aims for students' ability to understand, demonstrate and analyze the different offensive and defensive tactics that facilitate game play success in invasion (soccer, tag rugby, basketball) and striking/fielding (softball, cricket) games.

Former Course Number [PEPR 2000]

Prerequisite: sophomore standing.

KIN2001 - Movement Core II: Net and Target Games

Credits: 2

Exposes students to skill and tactical themes comprising net and target games. Course aims for students' ability to understand, demonstrate and analyze different offensive and defensive tactics facilitating game play success in net (volleyball, tennis, badminton) and target (archery) games.

Former Course Number [KIN 1025, PEPR 1025]

Prerequisite: sophomore standing.

KIN2003 - Move Core IV: Adv. & Otdr. Ed.

Credits: 2

Max Credit 2

Movement Core IV: Adventure and Outdoor Education - To provide prospective pre-service physical education teachers (PTs) with the skills and knowledge necessary to teach adventure and outdoor education curricula to K-12 learners.

Former Course Number [KIN 1000, PEPR 1000]**Restricted** Sophomore standing

Prerequisite: sophomore standing.

KIN2004 - Move Core V: FMS & Ind. Act.

Credits: 3

Max Credit 3

Movement Core V: Fundamental Movement Skills, Gymnastics, Dance, and Swimming - To provide prospective pre-service physical education teachers (PTs) with the skills and knowledge necessary to teach fundamental motor skills, gymnastics, dance, and swimming to K-12 learners.

USP 2003-2014 Code U3CA

Former Course Number [KIN 3025, PEPR 3025]**Restricted** Sophomore standing

KIN2005 - Movement Core VI: Physical Fitness and Physical Activity

Credits: 2

Designed for prospective school-based physical and health education teachers K-12. Focuses on five primary content areas: what is fitness education and why do we need it; development of content-based fitness curriculum; teaching cognitive aspects of fitness education; teaching physical aspects of fitness education; and promoting fitness education.

Former Course Number [KIN 2025, PEPR 2025]

Prerequisite: sophomore standing.

KIN2010 - Field Experience for Prospective Elementary and Secondary Teachers

Credits: 1-4

Provides initial experience in the public school setting. Full-time assignment of one to four weeks in a public school under supervision of a certified teacher. Students serve as teacher aides.

Former Course Number [PEPR 2010]

KIN2040 - Human Anatomy

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB

Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

KIN2050 - Socio-Cultural Aspects of Physical Activity, Exercise and Sport

Credits: 3

This course examines the role of physical activity, exercise and sport in the promotion of individual and collective physical health and wellness. Students will understand the historical, individual, socio-cultural, environmental and political factors that have shaped the role of these behaviors in contemporary U. S. society.

USP 2015 Code U5H

Prerequisite: Completion of an FYS course, COM1.

KIN2900 - Topics In:

Credits: 1-3

Max Credit (Max. 3)

Course Topics could include Peer Health Education, Current Issues in Health, etc.

Prerequisite: sophomore standing.

KIN3011 - Teaching Methods in Physical Education K-12

Credits: 3

Develops knowledge, skills and understandings appropriate to successful participation in a class setting when functioning in the teaching role.

Former Course Number [PEPR 3011]

Prerequisite: grade of C or better in KIN 3012; concurrent enrollment in KIN 3015 and KIN 4080.

KIN3012 - Teaching Laboratory I

Credits: 3

Provides the opportunity to develop skills and acquire knowledge needed to teach physical education. Allows the opportunity for students to evaluate the motor status and progress of a preschool aged child, as well as plan and implement a developmentally appropriate motor program.

When Offered (Offered fall semester)

USP 2015 Code U5C2

Former Course Number [PEPR 3012]

Prerequisite: Admitted to PHET program.

KIN3015 - Teaching Laboratory II

Credits: 3

Provides pre-service physical education teacher with skills, knowledge and principles of teaching through application of peer teaching and small group elementary school teaching. Emphasizes and practices program development, lesson planning and development of a physical education teaching unit.

When Offered (Offered spring semester)
USP 2003-2014 Code U3WC
Former Course Number [PEPR 3015]

Prerequisite: grade of C or better in KIN 3012; concurrent enrollment in KIN 3011, KIN 4080.

KIN3020 - Observational Experience in Movement Science

Credits: 1-2
Max Credit (Max. 6)

Provides students with off-campus opportunity to observe professionals in the work place. Emphasis is placed on physical or occupational therapy. Conducted under supervision and arranged by coordinator of undergraduate programs.

Former Course Number [PEPR 3020]

Prerequisite: sophomore standing, declared KIN or PHET major, consent of coordinator of undergraduate programs.

KIN3021 - Physiology of Exercise

Credits: 3

Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

Former Course Number [PEPR 3021]

Prerequisite: 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

KIN3022 - Lab Exp in Exercise Physiology

Credits: 1

An in-depth examination of the measurement of physiological principles and mechanisms related to human movement. Lab exercises emphasize skills necessary for basic morphological through advanced exercise performance testing variables. Laboratory writing exercises focus on improving students' ability to read and comprehend scientific articles and produce scientific writing based on their own experiments and data.

Prerequisite: KIN 3021 or concurrent enrollment.

KIN3024 - Fundamentals of Health and Fitness Assessment

Credits: 3

Fundamental concepts of health appraisal, assessment of health-related fitness levels, individual and group exercise programming and leadership, and methods of behavioral change. Theory and practical application of fitness presented with an emphasis on adults. Has lecture and lab components. Completion of KIN 3021 highly recommended.

Former Course Number [PEPR 3010]

Prerequisite: completed or concurrent enrollment in KIN 3021; 2.750 GPA.

KIN3034 - Lifespan Motor Development

Credits: 3

Studies lifespan motor development. Emphasizes developmental periods of infancy through adolescence. Gives attention to observation and analysis of motor behavior and movement performance of individuals across lifespan.

Former Course Number [PEPR 3034]

Prerequisite: grade of C or better in PSYC 1000; junior standing; 2.750 GPA.

KIN3037 - Sport Psychology

Credits: 3

Studies psychological theories and techniques applied to sport to enhance the performance and personal growth of athletes and coaches. Emphasizes the influence of personality, anxiety, motivation, social factors, and psychological skills training.

Former Course Number [PEPR 3037]

Prerequisite: Admitted to the last two years of one of the programs in DK&H.

KIN3038 - Exercise Psychology

Credits: 3

Studies psychological theories for understanding and predicting health-oriented exercise behavior, including psychological intentions for increasing exercise participation and adherence. Emphasizes psychological and psychobiological responses to exercise.

Prerequisite: grade of C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; 2.750 GPA.

KIN3040 - Teaching Human Anatomy

Credits: 3

Students develop communication and teaching skills while expanding their knowledge in anatomy. Under faculty instruction, each student develops lecture and laboratory lessons for all human anatomy systems. Under direct faculty supervision, each student demonstrates their teaching skills through preparation of videotape segments and actual

laboratory teaching experience in the lower-division human anatomy course.

Former Course Number [PEPR 3040]

Prerequisite: 2.750 GPA and grade of B or better in KIN 2040 and consent of instructor.

KIN3042 - Biomechanics of Human Movement

Credits: 3

Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

KIN3044 - Concepts in Physical Therapy

Credits: 2

Introduce and expand student knowledge of physical therapy. Designed for students interested in applying to Physical Therapy (PT) school. Content includes history of PT, therapist role in healthcare, trends in PT education, and effective communication (written and verbal) to support and prepare for the PT application process.

Prerequisite: concurrent enrollment in or completion of KIN 3021 or permission of instructor.

KIN3050 - Prevention and Care of Athletic Injuries

Credits: 2

Encompasses theory and practical work in the field of athletic training. Strongly emphasizes prevention and care of athletic injuries, including wrapping and taping techniques.

Former Course Number [PEPR 3050]

Prerequisite: junior standing; C or better in KIN 2040; minimum 2.750 GPA.

KIN3052 - Rehabilitation of Athletic Injuries

Credits: 3

Provides a foundation of appropriate rehabilitation principles and techniques based on current research/rationale. The scope is inclusive of approaches applicable to common sports medicine problems.

Former Course Number [PEPR 3052]

Prerequisite: junior standing; C or better in KIN 2040; and minimum 2.750 GPA.

KIN3058 - Therapeutic Modalities for the Athletic Trainer

Credits: 3

Provides the prospective athletic trainer with the knowledge and skill necessary to use therapeutic modalities for the health care of the physically active.

Former Course Number [PEPR 3058]

Prerequisite: junior standing; C or better in KIN 2040; and minimum 2.750 GPA.

KIN3060 - Understanding Skill Acquisition for Teaching

Credits: 3

Addresses practical questions specific to teaching physical activity

Prerequisite: C or better in PSYC 1000; junior standing; declared major in KHP or PHET; 2.750 GPA; or permission of instructor.

KIN3068 - Athletic Training Clinical III

Credits: 2

Provides clinical and field experience for the athletic training student. Skill and knowledge learned in KIN 2057 and 2058 are applied in the clinical and field settings.

Prerequisite: KIN 2058 and 2078; concurrent enrollment in KIN 3052; minimum GPA of 2.500.

KIN4001 - Short Course in Physical Education for Undergraduates

Credits: 1-6

Former Course Number [PEPR 4001]

Prerequisite: junior status; declared major in KHP or PHET; consent of undergraduate program coordinator.

KIN4010 - Pediatric Exercise Physiology

Credits: 3

This course will examine the physiological effects of acute and chronic exercise on the pregnant woman, fetus, child, and adolescent. This course is also suitable as a supplemental course for master's students in physical education teaching.

Prerequisite: KIN 3021.

KIN4012 - Curriculum Development in Physical Education

Credits: 3

Focuses on the design of K-12 school physical education programs. It provides opportunities to study alternative curriculum models, engage in the process of curriculum design, and examine policy and theoretical issues of concern to curriculum designers.

When Offered (Offered fall semester)

Former Course Number [PEPR 4012]

Prerequisite: grade of C or better in KIN 3011, KIN 3015 and KIN 4080.

KIN4013 - School Administration for the Health Sciences

Credits: 2

Provides teaching majors with information about staff-administrator relationships in school settings. Topics include principles of leadership, school organization and culture, legal issues, financial issues, building and facilities management.

Prerequisite: grade of C or better in KIN 3011, KIN 3015, KIN 4080.

KIN4015 - Internship Experience in Kinesiology

Credits: 1-12

Variable-credit (1-12) and S/U course required of Kinesiology and Health undergraduate majors to provide experiential learning in kinesiology and health in a real world setting. Intended to integrate theory and technique with practical application to expose students to areas of professional/career interest and assist with building professional careers. Must have CPR/ AED/1st Aid Certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed HLED 4015.

Former Course Number [PEPR 4015]

Prerequisite: Grade of C or better in KIN 3024;

KIN4016 - Research Experience in Kinesiology and Health

Credits: 1-6

Max Credit (Max. 6)

Offered to students who wish to gain a research experience in Kinesiology and Health. Meant for students who are interested in pursuing an advanced degree. Students may choose to complete KIN/ HLED 4016 instead of KIN/HLED 4015. Must have CPR/AED/1st Aid certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed HLED 4016.

Prerequisite: minimum sophomore standing; declared KHP major; permission of instructor; 2.750 GPA.

KIN4017 - Teaching Laboratory III

Credits: 3

Focuses on the application of teaching skills and the effective utilization of sport-based curricular and instructional models in the secondary public school setting.

When Offered (Offered fall semester)

Former Course Number [PEPR 4017]

Prerequisite: grade of C or better in KIN 3011, KIN 3015, and KIN 4080; 2.750 minimum cumulative GPA; concurrent enrollment in KIN 4012.

KIN4020 - Motor Behavior

Credits: 3

Provides undergraduate majors in kinesiology and health the foundation of motor learning and control theories to be applied to decisions related to the enhancement of human performance.

Prerequisite: C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; and 2.750 GPA.

KIN4024 - Physical Activity Epidemiology

Credits: 3

This course will examine physical activity from a public health perspective. Topics include study design, critical appraisal of research, assessment of physical activity, relationships between physical activity and health outcomes, and current issues in physical activity epidemiology.

Dual Listed KIN 5024.

Prerequisite: completion of KIN 3021 and minimum 2.750 GPA.

KIN4025 - Functional Movement Analysis

Credits: 3

Synthesize foundational kinesiology knowledge to analyze functional movement patterns and increase theoretical and practical knowledge necessary to obtain Functional Movement Screen certification. Integration of core kinesiology and biomechanics concepts to a human movement model. Opportunities and emphasis on basic fundamental movements and applying acquired skills in practical experiences.

Prerequisite: Completion of KIN 3021 and minimum 2.750 GPA.

KIN4029 - Methods of Training and Conditioning

Credits: 3

Gives students knowledge and experience needed to develop and lead exercise training programs. Of interest to teachers, coaches and fitness leaders.

Former Course Number [PEPR 4029]

Prerequisite: Completion of KIN 3021 and minimum 2.750 GPA.

KIN4042 - Advanced Biomechanics

Credits: 3

Provides understanding of biomechanical theories and the application of biomechanical measurements to human movement in sports, training, and rehabilitation. Emphasis on using equipment to collect biomechanical data to answer research and clinical questions. Lecture and data collection topics include electromyography, force, balance, kinematics, and kinetics.

Prerequisite: C or better in KIN 3042, minimum 2.750 GPA.

KIN4043 - Drugs & Exercise Performance

Credits: 3

Max Credit 3

This class is a comprehensive overview of the drug use and abuse in sports, including physiological action, performance effects, as well as the ethical, political and administrative context. It provides deeper physiological knowledge through the description and understanding of performance enhancing drug mechanism.

Prerequisite: KIN 3021 or instructors Permission

KIN4055 - Adapted Physical Education

Credits: 2

Presents skills necessary to plan, implement and evaluate individualized physical education programs in the least restrictive environment. Acquaints students with current laws, characteristics, assessment instruments and nationally validated programs in physical education for the disabled child.

When Offered (Offered spring semester)

Former Course Number [PEPR 4055]

Prerequisite: KIN 3012.

KIN4056 - Advanced Exercise Testing and Prescription

Credits: 4

Teaches foundational electrocardiography to perform graded exercise stress tests (GXT), performance of GXT's to healthy and diseased populations based on a health appraisal assessment. Knowledge used to develop comprehensive

exercise prescriptions, make metabolic calculations. Emphasis on how physical activity, nutrition/ weight management, and behavioral factors interact with exercise programming. Student must have CPR certification prior to first day of class.

Dual Listed KIN 5056.

Former Course Number [PEPR 4056]

Prerequisite: C or better in KIN 3021 and KIN 3024; and minimum 2.750 GPA.

KIN4062 - Applied Concepts in Human Aging

Credits: 3

Designed to integrate and apply concepts acquired in core KIN and HLED courses (e. g. human physiology, exercise physiology, health promotion, etc.) to older/aging adults. Age-related pathologies will be presented and discussed.

Prerequisite: Completion of KIN 3024 and minimum 2.750 GPA.

KIN4065 - Resources in Adapted Physical Education

Credits: 2-3

Max Credit (Max. 3)

Offers flexible credit for students interested in pursuing intensive study of resources for adapted physical education. Required for state endorsement in Adapted Physical Education.

Former Course Number [PEPR 4065]

Prerequisite: grade of C or better in KIN 4055.

KIN4068 - Athletic Training Clinical V

Credits: 3

Provides clinical and field experience for the athletic training student. Skill and knowledge learned in KIN 3052 and KIN 3058 are applied in the clinical and field settings.

Prerequisite: KIN 3058 and 3078; concurrent enrollment in KIN 4052; minimum GPA of 2.500.

KIN4074 - Field Studies in (TOPIC)

Credits: 1-6

Offered only through distance education. Flexible course to accommodate students completing discipline specific and/or interdisciplinary program field studies experiences, e. g. , athletic performance, health/fitness application, minor in Outdoor Leadership, National Outdoor Leadership School programs.

Cross Listed HLED 4074.

Former Course Number [PEPR 4074]

KIN4075 - Assessment in Adapted Physical Education

Credits: 3

Designed to provide an overview of the assessment process in adapted physical education. Developmentally and disability appropriate psychomotor assessments and procedures for administering them are examined.

Prerequisite: grade of C or better in KIN 4055 and KIN 4080.

KIN4080 - Assessment in Physical Education

Credits: 3

Provides prospective teachers with a thorough knowledge of learner assessment as applied to physical education K-12.

When Offered (Offered spring semester)

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Former Course Number [PEPR 4080]

Prerequisite: grade of C or better in KIN 3012.

KIN4086 - Honors Seminar

Credits: 2

Independent study. Consists of in-depth application of experimental techniques and materials to appropriate academic areas which directly support students' majors.

Former Course Number [PEPR 4086]

Prerequisite: Junior standing; ; 3.000 cumulative GPA; declared KHP or PHET major; and participation in UW Honors Program.

KIN4090 - Foundations of Coaching

Credits: 3

Coaches must be effective teachers, trainers, fund-raisers, recruiters, motivators, administrators, and counselors. The major purpose of this course is to provide future coaches with current information about the eight domains of essential coaching skills identified in the NSSC. These domains include philosophy and ethics, safety and injury prevention, physical conditioning, growth and development, teaching and communication, sport skills and tactics, organization and administration, and evaluation.

Dual Listed KIN 5090.

Former Course Number [PEPR 4090]

Prerequisite: sophomore status and 2.500 cumulative GPA.

KIN4097 - Individual Problems

Credits: 1-3

Provides flexible credit for juniors and seniors who wish to undertake intensive study of a special problem in physical education or kinesiology & health.

Former Course Number [PEPR 4097]

Prerequisite: Declared KHP or PHET major; junior standing; and 2.750 GPA.

KIN4099 - Student Teaching in Physical Education

Credits: 1-16

Student teaching is the culminating experience required of all students in teacher education for graduation and recommendation for certification. Consists of full-time assignment of 16 weeks in an approved school station in Wyoming under supervision of an experienced, approved supervising teacher.

Former Course Number [PEPR 4099]

Prerequisite: grade of C or better in KIN 4017.

KIN4900 - Topics in:

Credits: 1-3

Max Credit (Max. 9)

The study of current topics not included in more formal course offerings in kinesiology and health.

Prerequisite: KIN 3021.

KIN5011 - Teacher Socialization in PE

Credits: 3

Max Credit 3

This course provides students with understanding of how physical educators are recruited into, professionally trained, and function in the workplace. Students will have the opportunity to analyze, critique, and evaluate empirical evidence related to socialization in physical education, as well as conduct research on given topics from the socialization literature.

Prerequisite: Graduate standing or permission from instructor

KIN5013 - Spectrum of Teaching Styles

Credits: 3

Explores the range of teaching styles and the appropriateness of their uses.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5014 - Teaching Tactics in Sport-Based Physical Education

Credits: 3

Introduces students to the instructional strategy of the Tactical Games Approach (Mitchell, Oslin, & Griffin, 2006) of teaching sport-based activities in physical education. Emphasis is on planning, implementing, assessing and evaluating the tactical approach within the K-12 physical education context.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5015 - Instructional Models for Physical Education

Credits: 3

This course will introduce students to model-based instruction for physical education (Metzler, 2011). Emphasis will be placed on analyzing, planning, and implementing various instructional models within a K-12 physical education context.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5016 - Analysis and Supervision of Teaching in Physical and Health Education

Credits: 3

Introduces various evaluative and supervisory techniques which are designed to improve teaching effectiveness and student learning. Emphasis will be placed on utilizing various strategies of evaluation in instructional settings.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5018 - Psychology of Teaching Physical Education

Credits: 3

Weaves together theory, research, and practical information related to the psychological aspects of teaching physical education. It shows how you can use psychological principles and strategies to manage behavior, motivate students, achieve program goals, and establish a positive learning environment.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5024 - Physical Activity Epidemiology

Credits: 3

This course will examine physical activity from a public health perspective. Topics include study design, critical

appraisal of research, assessment of physical activity, relationships between physical activity and health outcomes, and current issues in physical activity epidemiology.

Dual Listed KIN 4024.

Prerequisite: KIN 3021, graduate standing in KIN or permission of instructor.

KIN5033 - Understanding of Variability in Humans

Credits: 3

This course is designed to re-conceptualize the variability of human movement. Using dynamical system theory, a new theoretical interpretation to the role of variability in motor behavior will be discussed to offer insights into the nature and role of variability observed at different levels of movement analysis.

Prerequisite: graduate standing with experience of taking undergraduate courses in Motor Behavior, Cognitive Psychology, Sport Psychology, or Coaching.

KIN5034 - Lifespan Growth and Psychomotor Development

Credits: 3

Takes a scholarly approach to the subject of psychomotor development, with particular emphasis on the theoretical and scientific examination of motor behavior as it changes over time. Emphasis is placed on observing movement and analyzing changes in it.

Prerequisite: graduate standing in KIN and C or better in KIN 3034 or permission of instructor.

KIN5035 - Sociology of Sport

Credits: 3

Study of the social aspects of sport and play. Includes concepts, research studies, and theories related to such topics as politics, economics, crowd behavior, religion, sexual identity and gender, and ethical and moral values related to sport.

Prerequisite: graduate standing in KIN and a general sociology course.

KIN5038 - Advances in Research on Sport Expertise

Credits: 3

Examines the science behind the skill acquisition in sport and explores the application of science to optimal training for achieving and retaining elite performance. Different theories will be compared to reveal how "perfection" is made by "practice."

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5039 - Perception and Action in Motor Skills

Credits: 3

For graduate students who have general interest in understanding how the human perceptual system is coping with the

human action system in performing skilled motor tasks. An overview of the existing theories and studies in the field will be provided with sufficient breadth and depth.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5041 - Environmental Physiology

Credits: 3
Max Credit 3

This class is an in-depth study of environmental exercise physiology with special emphasis on how it is displayed in current research. It provides deeper physiological knowledge through the lens of how our physiology changes when confronted with environmental stressors. Students apply course content towards their own line of research.

Prerequisite: Graduate standing or undergraduate with instructor permission

KIN5042 - Professional Skills for Scient

Credits: 3
Max Credit 3

This course is designed to guide graduate students on topics related to collection, presentation, and review of scientific data. Specific focus is placed on proper data collection, the use of computer software to aid in data manipulation, and the creation of well formatted data tables, figures, and presentation slides. Further focus is on professional communication as well as personal marketing for assistance with moving forward in their career track.

Prerequisite: Graduate standing (or undergraduate with instructor permission)

KIN5046 - Applied Biomechanics and Programming

Credits: 3
Understand advanced biomechanical theories and utilize MATLAB programming to perform signal process and calculate 3-dimensional ground reaction force, center of pressure, electromyography, and 2-dimensional and 3-dimensional kinematics and kinetics. Emphasize on computational biomechanics and code writing in MATLAB.

Prerequisite: C or better in KIN 3042; graduate standing in KIN or permission of instructor.

KIN5047 - Biomechanics in Sports

Credits: 3
Understand the biomechanics of selected sports and the procedures to perform biomechanical analysis of sports techniques. Understand the characteristics of different loadings and their effects on human bodies and the biomechanical mechanisms of sports injuries.

Prerequisite: C or better in KIN 3042; graduate standing in KIN or permission of instructor.

KIN5056 - Advanced Exercise Testing and Prescription

Credits: 4

Teaches foundational electrocardiography to perform graded exercise stress tests (GXT), performance of GXT's to healthy and diseased populations based on a health appraisal assessment. Knowledge used to develop comprehensive exercise prescriptions, make metabolic calculations. Emphasis on how physical activity, nutrition/weight management, and behavioral factors interact with exercise programming. Student must have CPR/AED/1st Aid certification prior to first day of class.

Dual Listed KIN 5056.

Prerequisite: C or better in KIN 3021 and KIN 3024; graduate standing in KIN; or permission of instructor.

KIN5062 - Applied Concepts in Human Aging

Credits: 3

Designed to integrate and apply concepts acquired in core KIN and HLED courses (e. g. human physiology, health promotion, etc.) to older/aging adults. Age-related pathologies are presented and discussed.

Dual Listed KIN 4062.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5080 - Investigations in Kinesiology and Health

Credits: 1-3

Max Credit (Max. 3)

Designed to develop Master of Science level graduate students into critical consumers of research. An additional purpose is to develop research skills to the level necessary to complete a master of science Plan B paper.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5085 - Research Methods

Credits: 3

Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5086 - Qualitative Research Methods

Credits: 3

This course presents students with an introduction to qualitative research methods, designs, and analysis. This involves: creation of purpose statement and research questions, development of designs, hands-on data collection, data analysis, and writing up qualitative studies. Issues related to trustworthiness, ethics, credibility, and transferability of qualitative research will be addressed.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5090 - Foundations of Coaching

Credits: 3

Coaches must be effective teachers, trainers, fund-raisers, recruiters, motivators, administrators, and counselors. The major purpose of this course is to provide future coaches with current information about the eight domains of essential coaching skills identified in the NSSC. These domains include philosophy and ethics, safety and injury prevention, physical conditioning, growth and development, teaching and communication, sport skills and tactics, organization and administration, and evaluation.

Dual Listed KIN 4090.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5097 - Individual Problems

Credits: 1-3

Max Credit (Max. 6)

Provides flexible credit for students who wish to undertake intensive study of a special problem identified in a regular class.

Cross Listed HLED 5097.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5536 - Sport Psychology

Credits: 3

Examines theoretical, research, and professional issues in contemporary sports psychology. Basic research design, including quasi-experimental design are covered, particularly to discuss the outcome studies or proposed applications such as imagery and hypnosis. Development of applied sport psychology and proposed interventions with sport behavior are viewed in relation to the development of these approaches, related training issues and outcome research. Identical to PSYC 5536.

Prerequisite: B or better in KIN 3037; graduate standing in KIN, or permission of instructor.

KIN5537 - Exercise Psychology

Credits: 3

Focuses on key conceptual issues and research in exercise psychology and the application of research findings in a variety of physical activity settings. Specific content areas include psychological benefits of physical activity, exercise adherence, public health and exercise issues, theory, and determinants of physical activity, interventions for adoption and maintenance, and professional ethics.

Prerequisite: graduate standing in KIN and B or better in KIN 3038 or permission of instructor.

KIN5586 - Seminar

Credits: 1-6
Max Credit (Max. 8)

Graduate students in kinesiology and health work intensively on current issues and problems, and may pursue specific areas of emphasis. Although a total of 8 hours is permitted under this number, only 6 hours are allowed by the Division of Kinesiology and Health toward a student's graduate program.

Cross Listed HLED 5586.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5587 - Special Problems

Credits: 1-6
Max Credit (Max. 9)

Provides a broad perspective through selected reading material and wherever possible the student collects and uses original information in practical school situations. All work is done independently under the direction of a faculty member. As many conferences are held as necessary to assure successful completion of the project.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5588 - K&H Intellectual Seminar

Credits: 0
Max Credit 0

The Division of Kinesiology and Health Intellectual Community Seminar highly values interdisciplinary knowledge and professional development. The seminar is primarily designed to promote these values among graduate students and faculty members.

Prerequisite: Graduate Standing in the Division of Kinesiology & Health

KIN5900 - Practicum in College Teaching

Credits: 1-3
Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy in KIN.

KIN5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy in KIN.

KIN5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

KIN5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Graduate level course designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing in KIN or permission of instructor.

Land Surveying

LS2010 - Engineering Surveying Lecture

Credits: 2

Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Basic principles of surveying and map making.

Former Course Number [CE 2072]

Prerequisite: a working knowledge of algebra and trigonometry.

LS2015 - Engineering Surveying Laboratory

Credits: 1

Field surveying activities consisting of traversing, differential leveling, construction staking and gathering topographic data.

Former Course Number [CE 2073]

Prerequisite: LS 2010 or concurrent.

LS2020 - GPS for Land Surveyors

Credits: 4

From fundamental theory to practical application and advanced technologies, this class covers all aspects of GPS needed to understand and use GPS as a land surveyor including the basics of GPS technology, common hardware, surveying methods, survey design, planning and observing, real-time kinematics and DGPS.

Former Course Number [CE 2090]

Prerequisite: LS 2400.

LS2100 - Records Research for Surveyors

Credits: 3

Introduced to the public, quasi-public, and private depositories of recorded and non-recorded documents that establish land ownership boundaries, easement boundaries, and land use rights and restrictions in both the Public Land Survey System and the Colonial States. Assignments will require work to be conducted during depositories' normal business hours.

Former Course Number [CE 2076]

LS2110 - Real Property Law

Credits: 3

Covers all major areas of real property law, including the nature of real property, types of ownership, real estate contracts, title and insurance, financing, landlord and tenant, land use, environmental law and regulation. An understanding of real property law is fundamental to understanding boundary law.

Former Course Number [CE 2050]

LS2400 - Basic Geodesy for Today's Land Surveyor

Credits: 2

The history of geodesy including measurement techniques, coordinate systems, ellipsoids, and datums is reviewed. The modern geodetic and Cartesian coordinates systems, as well as the differences between grid and ground coordinates systems, and the current geodetic and Cartesian coordinate systems available today are discussed.

Former Course Number [CE 2089]

Prerequisite: CE 2070 or LS 2010.

LS2410 - GIS in Surveying

Credits: 3

Covers the basic concepts of geographic information systems, the methods and software used to implement them, and their applications to surveying and analysis of other surveying problems.

Former Course Number [CE 2083]

Prerequisite: CE 2070 or LS 2010, and ES 1060 or ES 1061.

LS2499 - Sophomore Land Surveying Topics

Credits: 1-6

Max Credit (Max. 6)

A study of current sophomore land surveying problems that are applicable to land surveying for small group classes.

Prerequisite: Approval of the Land Surveying Program director.

LS3100 - Real Property Descriptions

Credits: 2

Historical and current issues for land description writing and usage for the practicing surveyor. Relationship between written descriptions and field survey data, interpreting old descriptions and the structure principles of description.

Former Course Number [CE 2088]

Prerequisite: CE 2070 or LS 2010, and LS 2100 and LS 2110.

LS3110 - Boundary Evidence

Credits: 2

A practical and working guide to understanding survey evidence and the laws of boundary location for efficient, accurate boundary determination. This material aids in the elimination of errors in location of land boundaries. The surveyor's liability and statutes of limitations are explored in depth. Also included are discussions of the surveyor's role in court. Normally offered only through the Outreach School.

Former Course Number [CE 3750]

Prerequisite: CE 2070 or LS 2010, and LS 2110.

LS3120 - Boundary Principles

Credits: 2

This course in boundary law addresses the fundamental principles of real property as applied to land surveying and related professions. Discussion and applications center on practical situations and concepts commonly encountered while conducting boundary surveys and the determination of the extent of ownership rights. Students explore the scope of the surveyors' judiciary role in real property ownership. Primarily offered through the Outreach School.

Former Course Number [CE 3740]

Prerequisite: CE 2070 or LS 2010, and LS 3100 and LS 2110.

LS3130 - Public Land Surveys

Credits: 3

Basic fundamentals of the Public Land Survey System (PLSS), dependent and independent resurveys, survey plats, "bona fide rights", riparian boundaries, non-rectangular entities, corner evidence and the role of the modern day surveyor.

Former Course Number [CE 2085]

Prerequisite: CE 2070 or LS 2010, and LS 2110.

LS3200 - Route Surveying

Credits: 3

Laying out of super elevation and circular, parabolic, and spiral curves; the difference between highway and railway horizontal curve geometry; offsets to spiral curves as boundaries; area and volumes of earthwork.

Former Course Number [CE 3710, CE 4710]

Prerequisite: CE 2070 or LS 2010, and ES 1060 or ES 1061.

LS3210 - Advanced Surveying

Credits: 4

Advanced topics in surveying computations and procedures, including traverse error analysis, topographic surveying, mapping, astronomical observations, coordinate geometry applications, and state plane coordinates.

Former Course Number [CE 3720, CE 4720]

Prerequisite: CE 2070 or LS 2010.

LS3230 - Applied Least Squares Adjustments

Credits: 4

The use of applied statistics in land surveying, error propagation in polygon and link traverses, discussion of positional tolerances and an introduction to least squares adjustments using StarNet and VectorNT software.

Former Course Number [CE 3760]

Prerequisite: CE 3720 or LS 3210.

LS3300 - Ethics for the Professional Surveyor

Credits: 1

Introduction to the common ethical and moral issues facing professional surveyors in modern practice.

Former Course Number [CE 2074]

Prerequisite: One of LS 3110 or LS 3120 or LS 3130.

LS3400 - Remote Sensing/Photogrammetry for Surveyors

Credits: 3

Procedures and methods used for deriving metric information from photographs, analog processes for using aerial photographs in production of topographic maps, flight planning, and cost estimation in aerial mapping work.

Introduction to photocoordinate measurement devices and their calibration. Mathematics of modern photogrammetry.

Former Course Number [CE 4750]

Prerequisite: CE 2070 or LS 2010.

LS3500 - Junior Surveying Topics

Credits: 1-6
Max Credit (Max. 6)

A study of current junior landsurveying problems that are applicable to land surveying for small group classes.

Prerequisite: Approval of the Land Surveying Program director.

LS4110 - Coastal Water Boundaries

Credits: 3
The physical and legal issues involved with property rights of lands abutting tidal waters, a review of the Public Land Survey System, the Submerged Lands Act and the Swamp and Overflowed Lands Act. Includes case law research.

Former Course Number [CE 4700]

Prerequisite: LS 3110, LS 3120.

LS4120 - Inland Water Boundaries

Credits: 3
Introduces the physical and legal issues involved in locating property rights associated with lands that abut non-tidal, navigable and non-navigable rivers and lakes. The property rights which attach to, as well as the limitations placed on these riparian parcels will be examined and discussed with respect to statutory, administrative and case law.

Prerequisite: LS 4110.

LS4130 - Advanced Public Land Surveys

Credits: 4
Advanced topics in situations and problems in the Public Land Survey system, with discussion of major court cases involving everyday applications to surveyors. 1975 BLM casebook and other sources of survey reference.

Former Course Number [CE 2086, CE 4740]

Prerequisite: LS 3120 and LS 3130.

LS4500 - Senior Land Surveying Topics

Credits: 1-6
Max Credit (Max. 6)

A study of current senior land surveying problems that are applicable to land surveying for small group classes.

Prerequisite: Approval of the Land Surveying Program director.

Language

LANG1010 - First Semester in (TOPIC)

Credits: 1-4
Max Credit (Max. 12)

LANG1020 - Second Semester in (TOPIC)

Credits: 1-4
Max Credit (Max. 12)

Prerequisite: LANG 1010.

LANG1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

LANG2030 - Third Semester in (TOPIC)

Credits: 1-4
Max Credit (Max. 12)

Prerequisite: LANG 1010, LANG 1020.

LANG2040 - Fourth Semester in: (TOPIC)

Credits: 3
Max Credit (Max. 12)

Encompasses formal grammar introduction and review; periodic composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2015 Code U5C2

Prerequisite: Satisfactory completion of corresponding study in LANG 2030.

LANG2150 - Manga: History and Culture

Credits: 3
Manga is one of the most important art forms to emerge from Japan. Its importance as a medium of visual culture and storytelling cannot be denied. Through reading and examination of texts, students will understand the relevance of comics in Japanese society.

USP 2003-2014 Code U3O, U3WB

USP 2015 Code U5C2

Prerequisite: COM1.

LANG3105 - Major Themes in Chinese and Japanese Literature

Credits: 3

Explores mindsets of two rich and ancient civilizations, China and Japan. Considers distinctive characters of each civilization, while illuminating basic elements that we share with these peoples.

Prerequisite: ENGL 1010.

LANG3140 - Anime: History and Culture

Credits: 3

An introduction to the history, development, and cultural significance of Japanese animation. Through the examination of a variety of anime genres, students will gain insight into contemporary Japan as well as important historical periods. We will read analyses of particular anime, emphasizing the unique characteristics of the art and the mystery of its popularity in the US.

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Prerequisite: completion of WA.

LANG4485 - Latin Diaspora: Comparative History of US

Credits: 3

History of U. S. Latino peoples including Mexican Americans, Puerto Ricans, Cubans, Dominicans, Central Americans, South Americans and Spaniards. Historical context, origins, development of Latin American national, cultural identities, regional characteristics, immigration; nativist responses; assimilation, cultural continuity and change. Similarities, general patterns and differences, Hispanic and Pan Latino identities and probable future trends.

Prerequisite: HIST 2370 or HIST 2380 or LTST 1100.

LANG4785 - Linguistics, Language Teaching and Social Context

Credits: 3

Introduces prospective teachers of English as second language to the basic components of language and to the social aspects of human language use. Explores a variety of concepts about language: how it is used and perceived, how languages change, how diverse cultures respond to such changes.

Cross Listed ENGL 4785.

Prerequisite: WB.

LANG4800 - Advanced Instruction In: (TOPIC)

Credits: 1-3

Max Credit (Max. 12)

Advanced study and projects designed to meet special needs and interests of students, to be selected in consultation with a suitable member of the faculty.

Prerequisite: consent of instructor.

LANG4975 - Independent Study In: (TOPIC)

Credits: 1-3
Max Credit (Max. 12)

Further work in a less commonly taught language, for students who have at least four semesters of study or comparable proficiency.

Prerequisite: LANG 2040 or equivalent.

LANG5300 - Advanced Linguistics

Credits: 3
Data is offered to provide the opportunity to analyze phonological, morphological, and syntactic materials from languages throughout the world. Attention is given to the limits within which these aspects of human language appear to vary.

Prerequisite: ANTH/ENGL/ LANG 4750.

LANG5900 - Practicum in College Teaching

Credits: 1-3
Max Credit (Max. 3)

Work in classroom with a major professor. Students are expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

LANG5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

Latin

LATN1010 - First Year Latin I

Credits: 4

Studies fundamentals of grammar, composition and reading.

When Offered (Offered fall semester)

USP 2015 Code U5H

LATN1020 - First Year Latin II

Credits: 4

Studies fundamentals of grammar, composition and reading.

When Offered (Offered spring semester)

USP 2015 Code U5H

Prerequisite: LATN 1010 or equivalent.

LATN2030 - Second Year Latin

Credits: 4

Reading simple texts, short stories and dramas, as well as grammar review and conversation.

When Offered (Offered fall semester)

Prerequisite: LATN 1020 or equivalent.

LATN3110 - Vergil, The Aeneid I

Credits: 3

Reading portions of the Aeneid and consideration of its literary interpretation.

Former Course Number [2110]

Prerequisite: LATN 2030 or equivalent.

LATN3120 - Vergil, The Aeneid II

Credits: 3

Reading further portions of the Aeneid and consideration of its literary interpretation.

When Offered (Offered based on sufficient demand and resources)

Former Course Number [2120]

Prerequisite: LATN 3110.

LATN3140 - Caesar

Credits: 2

Acquaints students with war-memoir genre of Latin literature.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN3150 - Livy

Credits: 3

Reading portions of Livy's historical works, and consideration of the history he covers and how the Romans viewed their past.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN3160 - Ovid

Credits: 2

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN3990 - Independent Study

Credits: 1-4

Books or texts of special interest to the student, selected in conjunction with the instructor; independent reading and reports.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4110 - Horace

Credits: 3

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4115 - Latin Philosophers

Credits: 3

An introduction to Latin philosophical traditions. Readings will be selected either from one author, such as Lucretius (ca. 99-55 BCE) or Seneca the Younger (ca. 4 BCE-65 CE), or from different authors about a given theme.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4120 - Catullus and the Elegiac Poets

Credits: 3

Discusses Latin lyric poetry of late Republic and early Empire, excluding works of Horace and Ovid, and elegiac tradition in Latin.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

LATN4130 - Cicero

Credits: 3

Introduction to the prose of the statesman Marcus Tullius Cicero (106-43 BCE). Readings will be selected from his political speeches, correspondences, or treatises on philosophical, rhetorical, and religious topics.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

Latina/o Studies

LTST1030 - Social Justice in the 21st Century

Credits: 3

Appropriate for students interested in diversity and social justice. Topics covered through an interdisciplinary study of people and society range from identity, critical thinking, empowerment, role models, stereotyping, institutional discrimination, and tolerance. The key lynchpin is active participation in the development and maintenance of just communities.

Cross Listed GWST 1030/NAIS 1030/AAST 1030/AMST 1030.

USP 2003-2014 Code U3D, U3I

A&S College Core 2015 ASD

Former Course Number [CHST 1030]

LTST1100 - Introduction to Chicano Studies

Credits: 3

Provides a basic understanding of the historical, social, and cultural context of the Mexican American Chicano people. Examines the major theoretical and conceptual frameworks which explain the Mexican American Chicano experience. Examines the comparative relations with other groups and major social and policy issues. Provides an introduction to the conduct of research in field.

USP 2003-2014 Code U3CS, U3D

A&S College Core 2015 ASD

Former Course Number [CHST 1100]

LTST1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY
Former Course Number [CHST 1101]

LTST1300 - Introduction to Latina/o Studies

Credits: 3
The U. S. Latina/o immigrant experience is a particular focus of this course, including its role in the incorporation of Latinos into U. S. society. Through readings, presentations, class discussion, videos, and other activities, students examine historical and contemporary issues affecting Latinos including but not limited to immigration, language, identity, national origin, education, politics, employment, and economic mobility.

USP 2015 Code U5H
A&S College Core 2015 ASD
Former Course Number [CHST 1300]

LTST2060 - Special Topics in:

Credits: 3
Former Course Number [CHST 2060]

LTST2360 - Mexican American Literature

Credits: 3
Discusses literary reflections of Chicanismo. Studies literature of the Hispanic Southwest, Mexican American folklore and the Chicano and post-Chicano movement.

Cross Listed ENGL 2360.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H
A&S College Core 2015 ASD
Former Course Number [CHST 2360]

Prerequisite: WA.

LTST2370 - Chicano History : Origins to 1900

Credits: 3
General survey that traces the geographic distribution and historical processes that have shaped the life experiences, socio-economic development and cultural contributions of peoples of Mexican descent in the United States from their indigenous and Hispanic origins to the end of the 19th century. Cross list with GEOG 2370/HIST 2370.

USP 2003-2014 Code U3CS, U3D
USP 2015 Code U5H
A&S College Core 2015 ASD
Former Course Number [CHST 2370]

LTST2385 - Chicano History: 1900 to Present

Credits: 3

General survey of the history of the Mexican American Chicano people in the United States. Examines the origins and development of Mexican Americans, Chicanos through the major historical processes which have shaped their experience. Major themes include multicultural, multiethnic context, origins; changing identity, comparative relations to other social, ethnic groups, culture, social structure, politics, economy, immigration, and the influence of United States-Mexico relations.

Cross Listed HIST 2385.

USP 2015 Code U5H

A&S College Core 2015 ASD

Former Course Number [CHST 2385]

LTST3080 - Spanish Language in the USA

Credits: 3

This course studies the Spanish language in its social context as a language of the United States, through concepts such as: social and individual bilingualism, Spanglish, dialects, language contact, borrowings, code switching, language policy, or language ideology.

Cross Listed SPAN 3080.

USP 2015 Code U5H

Former Course Number [CHST 3080]

Prerequisite: SPAN 3050 or SPAN 3060 or instructor's consent.

LTST3200 - Perspectives in Chicana Studies

Credits: 3

An interdisciplinary introduction to the study of the history, culture, gender relations, and contemporary political, economic status of Chicanas/Mexican American women. Examines the origins, development of Chicana studies as a major emphasis in Chicano/Chicana studies.

Cross Listed GWST 3200.

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Former Course Number [CHST 3200]

Prerequisite: LTST 1100 or junior standing.

LTST3560 - Chicano Community Organizations

Credits: 3

Introduction to the origins, development and contemporary status of community organizations and service agencies in the Mexican American community in general and in the Wyoming and Rocky Mountain regions.

Former Course Number [CHST 3560]

Prerequisite: LTST 1100.

LTST3800 - Chicanas/os in Contemporary Society

Credits: 3

Focuses on three major movements within the Chicana/o community; labor, nationalism, and feminism. Students will assess these three movements to determine what role they have played in transforming the social conditions and political identity of the Chicana/o and Latina/o population in the US.

Cross Listed AMST 3800/GWST 3800.

USP 2003-2014 Code U3CS, U3D

A&S College Core 2015 ASD

Former Course Number [CHST 3800]

Prerequisite: LTST 1100 or GWST 1080 or AMST 2010.

LTST4100 - U.S. Latina/o Theater

Credits: 3

Designed to provide an overview of United States Latina/o Theater. Through a variety of delivery methods, students are instructed on the various categories that directly impact U. S. Latina/o Theater such as political theatre, gay/lesbian theatre, border issues, race, class, gender, and sexuality.

Cross Listed WMST 4100.

Dual Listed LTST 5100.

USP 2003-2014 Code U3CA, U3D

A&S College Core 2015 ASD

Former Course Number [CHST 4100]

Prerequisite: 6 hours of LTST or WMST.

LTST4470 - Studies in Chicano Folklore

Credits: 3

Provides a survey of the origins, development and contemporary folklore of the Mexican American Chicano people of the United States with comparative relation to Mexico and other groups in the United States.

Cross Listed ENGL 4470.

USP 2003-2014 Code U3CH, U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Former Course Number [CHST 4470]

Prerequisite: LTST 1100 and WA.

LTST4485 - USLatino Diaspora

Credits: 3

Combines classroom activities and a week-long stay abroad in examining the historical creation and contemporary spread of the Latino Diaspora from the Caribbean to the Yucatan and beyond. U. S. Latina/o history, multiculturalism, pan-Latino identity, assimilation, migration trends and natives responses are stressed.

Cross Listed HIST 4485/INST 4485.

Former Course Number [CHST 4485]

Prerequisite: 9 hours of LTST, HIST, and/ or INST related coursework.

LTST4496 - History of Mexico

Credits: 3

Intensive course in Mexican development. Emphasizes the 20th century, especially the Mexican Revolution of 1910, showing how this nation transformed itself into a modern nation-state. Includes diplomatic relations with the U. S. , incorporation of Indians, church-state relations, uses of land and other natural resources, role of the military and growth of Mexican nationalism.

Cross Listed HIST 4496.

When Offered (Normally offered fall semester)

Former Course Number [CHST 4496]

Prerequisite: 9 hours of HIST or INST.

LTST4650 - Women, Gender & Migration

Credits: 3

From an international context and perspective, this course examines the gendered transformations immigrant women experience. Gender, theories of international migration, assimilation, race, ethnicity, and identity transformation serve as categories of analysis. From a cross-discipline comparative approach, we focus on women's lives to examine differences and similarities to complicate notions of immigration.

Cross Listed AMST 4650/INST 4650/GWST 4650.

Dual Listed LTST 5650.

Former Course Number [CHST 4650]

Prerequisite: Junior standing and 6 hours of AMST, LTST, INST, and/or WMST coursework or instructor approval.

LTST4675 - U.S. Women of Color

Credits: 3

Examines in comparative perspective the social conditions that shape the experiences of Chicanas/Latinas in the U. S. Students gain an understanding of how the intersection of race, class, gender, and sexuality shape the lived experiences of U. S. women of color through ideological, economic, and political forces.

Cross Listed AAST 4675/GWST 4675.

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

Former Course Number [CHST 4675]

Prerequisite: junior standing and/ or a combination of 3-6 hours of any level of LTST, WMST, or AAST coursework.

LTST4975 - Independent Studies

Credits: 1-3

Max Credit (Max 6)

Independent study in Chicano studies research.

Former Course Number [CHST 4975]

Prerequisite: junior standing.

LTST4990 - Topics in Chicano Studies

Credits: 1-3

Max Credit (Max 6)

A special topics course through which regular and visiting faculty can explore regarding specialized or new research topics regarding Chicano studies.

Former Course Number [CHST 4990]

Prerequisite: junior standing.

LTST5100 - U.S. Latina/o Theater

Credits: 3

Designed to provide an overview of United States Latina/o Theater. Through a variety of delivery methods, students are instructed on the various categories that directly impact U. S. Latina/o Theater such as political theatre, gay/lesbian theatre, border issues, race, class, gender, and sexuality.

Cross Listed WMST 5100.

Dual Listed LTST 4100.

USP 2003-2014 Code [CA,D<>(none)]

Former Course Number [CHST 5100]

Prerequisite: 6 hours of LTST or WMST.

LTST5650 - Women, Gender & Migration

Credits: 3

From an international context and perspective, this course examines the gendered transformations immigrant women experience. Gender, theories of international migration, assimilation, race, ethnicity, and identity transformation serve as categories of analysis. From a cross-discipline comparative approach, we focus on women's lives to examine differences and similarities to complicate notions of immigration.

Cross Listed AMST 5650/INST 5650/GWST 5650.

Dual Listed LTST 4650.

Former Course Number [CHST 5650]

Prerequisite: Junior standing and 6 hours of AMST, LTST, INST, and/or WMST coursework or instructor approval.

Law

LAW6110 - Contract I

Credits: 3

Max Credit (Max. 3)

A study of the elements of simple contracts, including offer and acceptance, consideration, conditions, defenses, and damages. The impact of the Uniform Commercial Code on contracts is considered.

LAW6120 - Property I

Credits: 3

Max Credit (Max. 4)

Covers two general areas. The first area is the rights that define property ownership, in relation to neighbors, the world, and others with interests in the property. Subjects include rights to use the land and its products, estates, concurrent ownership, and landlord-tenant law. The second area is private limitations on those rights, in the form of covenants and easements.

LAW6130 - Torts I

Credits: 4

Max Credit (Max. 4)

Study of the methods and policies for allocating risks of harm; intentionally inflicted harms; negligence in its general aspects and its application to products liability, landowners, and automobile traffic; emotional harms; defamation; and fraud. Principal areas of coverage typically include wrongful death, defenses, vicarious liability, strict liability, nuisance, products liability and defamation. If time permits we will also cover privacy, misrepresentation and other topics.

LAW6140 - Criminal Law

Credits: 3

Max Credit (Max. 3)

The sources of criminal law and the purposes of criminal punishment, the constituent parts of criminal conduct, including act (or omission), culpable mental state, result, and causation. These general principles are brought to bear on homicide and sexual assault. Also considers common defenses to criminal charges, including self-defense, necessity, duress, insanity, and intoxication. Students are required to consider the constitutional limits of the criminal law and the relationship of substantive principles to practice.

LAW6150 - Judicial Remedies

Credits: 3

Max Credit (Max. 3)

LAW6160 - Legal Writing I

Credits: 3

Max Credit (Max. 3)

In this course students are introduced to the fundamentals of legal reasoning and analysis and the basics of legal writing.

LAW6165 - Legal Research

Credits: 1

Max Credit (Max. 1)

Introduction to paper and electronic resources that cover primary & secondary legal materials, including case law, statutes, agency regulations for federal and state jurisdictions, & treatises, journals, restatements, and other secondary sources. Discusses research plans and develops brief research strategies for hypothetical situations.

LAW6166 - Interview, Counseling and Negotiation

Credits: 3

Introduction to the basic lawyering skills of interviewing, fact investigation, counseling, and negotiation. Employs simulation exercises, self-critiques, and feedback from the faculty member as well as other students. In addition to the exercises, exposure to the theoretical underpinnings of the skills and examine some of the ethical issues involved in creating and maintaining professional relationships with clients and opposing parties and counsel.

LAW6210 - Contracts II

Credits: 2

Max Credit (Max. 2)

A study of the elements of simple contracts, including offer and acceptance, consideration, conditions, defenses, and damages. The impact of the Uniform Commercial Code on contracts is considered.

LAW6220 - Property II

Credits: 2
Max Credit (Max. 2)

First covers some private and public limitations on owners' property rights, primarily easements and zoning. The rest of the semester deals with acquiring ownership rights, possession and transfers, including the law relating to deeds and titles.

LAW6240 - Civil Procedure I

Credits: 3
Max Credit (Max. 3)

A study of modern practice in civil cases under Rules of Civil Procedure and other sources of procedural law. Civil Procedure I and its continuation, Civil Procedure II, cover all aspects of jurisdiction and other issues bearing on what court(s) may hear a case; choice of state or federal law; pleading; joinder of claims and parties; class actions; discovery and other pre-trial procedures; summary judgment; non-jury and jury trials; appeals; and claim and issue preclusion.

LAW6250 - Constitutional Law I

Credits: 3
Max Credit (Max. 3)

Constitutional Law I is divided into two parts. Part I focuses on governmental structures. Part II begins our coverage of individual rights and liberties. Part I's coverage includes the power of judicial review, separation of powers, federalism, and congressional powers. Part II focuses on equal protection.

LAW6260 - Legal Writing II

Credits: 2
Max Credit (Max. 2)

This course builds on the first semester Legal Writing course by introducing students to: (1) more sophisticated aspects of legal reasoning, analysis and legal research; (2) the basics of persuasive legal writing; (3) the basics of appellate procedure and an appellate brief; and (4) the basics of oral advocacy.

LAW6310 - Business Organizations

Credits: 3
Max Credit (Max. 3)

Studies the law of agency relationships and business associations including partnerships, limited liability companies and corporations. Also considers the protection afforded investors by federal securities law. Listing of the above items is not intended to be all inclusive. Students are invited to consult with the instructor regarding specific information.

LAW6320 - Income Taxation

Credits: 3
Max Credit (Max. 3)

Focuses on the federal taxation of individuals. It includes taxation of compensation, installment sales as well as taxation of gains on property transfers.

LAW6330 - Trusts and Estates

Credits: 3

Max Credit (Max. 3)

A survey course that also serves as an introduction to Estate Planning. Covers the law of wills, trusts, and intestate succession. It also includes execution and revocation of wills; creation, modification, and termination of trusts; problems of construction; restrictions on testate transfers, transfers in trust and future interests. Covers some aspects of fiduciary administration, but not taxation. A prerequisite for Estate Planning.

LAW6340 - Civil Procedure II

Credits: 2

Max Credit (Max. 2)

A study of modern practice in civil cases under Rules of Civil Procedure and other sources of procedural law. Civil Procedure I and its continuation, Civil Procedure II, cover all aspects of jurisdiction and other issues bearing on what court(s) may hear a case; choice of state or federal law; pleading; joinder of claims and parties; class actions; discovery and other pre-trial procedures; summary judgment; non-jury and jury trials; appeals; and claim and issue preclusion.

LAW6350 - Constitutional Law II

Credits: 2

Max Credit (Max. 2)

Focus on constitutionally protected individual rights and liberties. Specifically, the following topics will be covered: substantive due process, including the right of privacy; procedural due process; freedom of expression; and religious freedom.

LAW6410 - Evidence

Credits: 3

Max Credit (Max. 3)

A study of the means by which any alleged fact is established or disproved, including competency of witnesses; direct examination; cross-examination and impeachment; privileges; basic and special issues of relevancy; the hearsay rule and its exceptions; real, demonstrative, and documentary evidence; opinion and scientific evidence; judicial notice; and the responsibility of proof.

LAW6420 - Professional Responsibility

Credits: 3

Max Credit (Max. 3)

A study of the duties of attorneys to their clients and the public under the Model Rules of Professional Conduct and case law.

LAW6510 - Administrative Law

Credits: 3

Max Credit (Max. 3)

A review of administrative law practice and procedure, primarily at the federal level. The course begins with materials on the nature and function of administrative agencies. Agency rulemaking power, emphasizing federal and state Administrative Procedure Act (APA) requirements. Considers the adjudicative powers of administrative agencies, including an agency's obligation to afford persons due process of law. Finally, the course examines judicial review of administrative agency decisions.

LAW6530 - American Legal History

Credits: 3
Max Credit (Max. 3)

A study of the life of John Marshall, Chief Justice of the United States from 1801 until 1835.

LAW6540 - Antitrust

Credits: 3
Max Credit (Max. 3)

The study of the federal laws regulating monopolies and restraints of trade. The substantive provisions of the antitrust laws are relatively brief

LAW6550 - Bankruptcy

Credits: 2
Max Credit (Max. 2)

A survey of the Federal Bankruptcy Act. Includes consideration of liquidation, reorganization, family farmers, debts of individuals, and the relationship of bankruptcy law and proceedings to Article 9 of the Uniform Commercial Code and the law of mortgages.

LAW6555 - Bioethics

Credits: 3
Analyzes the relationship between law and ethics in healthcare. Covers a wide range of contemporary issues such as euthanasia, assisted reproductions, and employee wellness programs. In addition to teaching substantive law, emphasizes critical thinking and provides students an opportunity to practice researching, writing, presenting, and delivering persuasive oral arguments.

LAW6560 - Business Planning

Credits: 3
Max Credit (Max. 3)

Focus is primarily on a problem involving several persons who are organizing a business entity. Consideration will be given to the characteristics of several kinds of business organizations and to making a judgment as to which organization should be used to house the business being set up. Considers tax and non-tax aspects with respect to business organizations.

LAW6565 - Civil Pretrial Practice

Credits: 3
Max Credit (Max. 3)

Includes the civil litigation process from the filing of a complaint and decisions related to the complaint, to discovery including written discovery and depositions, to pre-trial motions such as motions to change venue, to exclude evidence, and for summary judgment, to preparation for pre-trial conferences and trial. Sample cases provide the basis for the drafting of various discovery documents and motions. There will be no exam.

LAW6570 - Payment Systems

Credits: 3
Max Credit (Max. 3)

Focus on the use of negotiable instruments (such as checks, drafts, promissory notes, and certificates of deposit) to document debts and to make payments. Provides an overview of the banking system, the check collection process, and the use of various commercial instruments. Topics include liability for stolen checks, forged signatures, alterations, payment to impostors, insufficient funds, stop payment orders, post-dated checks, and restrictive endorsements. In addition, the rights of good faith purchasers are examined and the use of third parties (such as guarantors, sureties, and accommodation parties) to secure obligations are discussed.

LAW6600 - Consumer Protection

Credits: 3
Max Credit (Max. 3)

Covers three main topics: (1) the law of advertising and marketing; (2) consumer credit regulation; and (3) consumer warranty law.

LAW6615 - Taxation of Business Entities

Credits: 3
Max Credit (Max. 3)

Surveys the federal income tax consequences of major events in the existence of business entities and their owners including formations, contributions, operations, distributions, redemptions, and liquidations. Compares taxation of Subchapter C corporations, Subchapter S corporations, and partnerships. Students spend significant time on statutory interpretation and along the way consider policy issues that affect how the taxation of businesses is structured and enforced under the Internal Revenue Code.

LAW6620 - Bankruptcy Law

Credits: 3
Max Credit (Max. 3)

After briefly surveying state collection laws, considers the impact of federal bankruptcy law on secured and unsecured creditors. The primary focus of the course is on consumer bankruptcy under Chapter 7 (liquidations) and Chapter 13 (reorganizations). Concludes with an introduction to Chapter 11 (business reorganizations).

LAW6630 - Criminal Procedure

Credits: 3
Max Credit (Max. 3)

Examines the constitutional rights of criminal suspects and defendants under the 4th, 5th and 6th Amendments of the United States Constitution. Much of the focus is on law enforcement practices and the constitutional principles that constrain the police.

LAW6635 - Domestic Violence Law

Credits: 3
Max Credit (Max. 3)

Helps prepare students to take part in the Legal Services Program, which has been expanded to include a Domestic Violence Legal Assistance Project.

LAW6640 - Family Law

Credits: 3
Max Credit (Max. 3)

From marriage to divorce, property distribution, child custody and the termination of parental rights, explores the many areas and facets of family law with an eye toward providing students with a firm doctrinal grounding, while preparing them for what they will face as they enter into practice. In the context of this exploration we look closely at many of the cultural issues noted above, and the effects those issues are having not just on the family and the law related to the family, but on society as a whole.

LAW6645 - Children and the Law

Credits: 3
Max Credit (Max. 3)

Covers a range of children's issues, including: dependency; termination of parental rights; adoption, child custody and support; parental rights; and the juvenile justice system. It is suitable for students considering a career in child advocacy, or who have any interest in the subject of juvenile law.

Prerequisite: completion of first year of law school.

LAW6660 - Environmental Law

Credits: 3
Max Credit (Max. 3)

Provides an overview of the broad field of environmental law, with an emphasis on the major federal environmental statutes such as the National Environmental Policy Act, the Endangered Species Act, the Clean Air and Clean Water Acts, and statutes regulating both hazardous wastes and toxic chemicals in commerce. In considering these various statutes, we consider both their substantive requirements and their conceptual approaches to environmental protection. Touches briefly on issues such as the role of states in implementing these national laws, various approaches to enforcement of these laws, common-law doctrines relevant to environmental protection, and economic aspects of environmental law.

LAW6665 - Education Law

Credits: 2

Study of law as it applies to public and private education in America, including federal and state regulation of education, constitutional rights of students and teachers, school financing, desegregation and affirmative action, and equal opportunity in education. Introduction to the most important legal issues relating to primary and secondary (K-12) education, and to a lesser extent issues concerning higher education.

LAW6670 - Estate Planning

Credits: 2

Max Credit (Max. 2)

Applies estate and gift tax principles in a survey of estate planning principles and techniques. Traditional estate planning tools including wills, trusts, and durable powers of attorney are discussed as well as post-mortem planning, administration issues, and planning for special situations, such as owners of closely held businesses, entrepreneurs, and the disabled.

LAW6675 - Gift and Estate Taxation

Credits: 2

Max Credit (Max. 2)

Focuses on the federal estate and gift tax consequences of wealth transfers. Students learn to analyze the federal estate and gift tax section of the Internal Revenue Code.

Prerequisite: income taxations, trusts and estates.

LAW6680 - Federal Courts

Credits: 3

Max Credit (Max. 3)

Examines the themes of separation of powers and federalism by scrutinizing the jurisdiction of the federal courts. Covers justiciability doctrines (standing, ripeness, and mootness), congressional power to control federal court jurisdiction, constitutional and statutory parameters of federal question jurisdiction, federal common law, basic contours of litigation under 42 U. S. C. 1983, state sovereign immunity and the Eleventh Amendment, and the various abstention doctrines.

LAW6685 - Health Law

Credits: 3

Introduces students to a wide variety of law governing health care. Study professional licensing and liability, institutional regulation and liability, EMTALA, ERISA, the Affordable Care Act, Medicare, Medicaid, and fraud and abuse laws. Provides a critical first step for students interested in specializing in health law and an overview for any general practitioner.

LAW6700 - Indian Law

Credits: 3
Max Credit (Max. 3)

Surveys the law that applies to Native Americans and tribal governments. Deals primarily with federal law because of the unique relationship between the federal government and tribes, which are sovereign entities, and because federal law controls most Native American activities. The main issues are jurisdictional; that is, they concern the allocation of legislative (or regulatory) and judicial (both civil and criminal) jurisdiction among federal, tribal, and state governments.

LAW6710 - Insurance Law

Credits: 2
Discussion of all types of insurance from the point of view of an attorney advising clients and of a consumer. It is relevant and important for those going into any aspect of the law as insurance is involved in most law from business to litigation to domestic to estate planning. Covers standard insurance policy language, as well as case law and practical ideas for dealing with insurance.

LAW6715 - Immigration Law

Credits: 3
Max Credit (Max. 3)

Practical approach to topics such as the standards for admission of immigrants; nonimmigrant visas for students, workers and tourists; regulation and exclusion of undocumented aliens; legal procedures for admission, exclusion and deportation; refugee law; and citizenship law. Additionally, legislative history and policy behind applicable legislation and case law is discussed.

Prerequisite: completion of the first year of law school.

LAW6720 - International Law

Credits: 3
Max Credit (Max. 3)

Covers international law in its classic sense--public international law, or "the law of nations" as it's referred to in the Constitution. Looks at topics such as the sources and evidence of international law, sovereignty, the relationship of international law to national law, the bases of national jurisdiction, the international use of force, human rights, etc. However, modern public international law also includes areas of more immediate interest to practicing lawyers, such as conflicts between nations over which one has the right to assert jurisdiction over certain activities, international extradition, and immunities from jurisdiction.

LAW6725 - Intellectual Property

Credits: 3
Max Credit (Max. 3)

Introductory overview of principles of intellectual property protection particularly trademark, copyright and patent law. USA law will be integrated into a comparative analysis of International intellectual property law.

LAW6730 - Jurisprudence

Credits: 3
Max Credit (Max. 3)

Examines American legal thought from the nation's inception through today. Discusses issues related to the nature of law, the nature of judicial decision making, the relationship between law and society, and the like.

LAW6735 - Native American Natural Resources Law

Credits: 3
Max Credit (Max. 3)

Examines federal and tribal law, (chiefly statutes, regulations, cases and treaties), governing environmental regulation and management of tribal land water minerals, fish and wildlife, and cultural resources. Explores the federal trust doctrine, aboriginal title, reserved rights, allotment, and the tribes-as-states-doctrine.

LAW6740 - Labor Law

Credits: 3
Max Credit (Max. 3)

Deals with labor law in the private sector. Surveys the establishment of a collective bargaining relationship between employers and unions, the subsequent negotiation of a collective bargaining agreement resulting from that relationship, the administration of that agreement through its grievance-arbitration provisions, and the economic weapons used by parties to various kinds of labor conflicts.

LAW6745 - Employment Law

Credits: 3
Max Credit (Max. 3)

Examines a variety of laws, regulations and legal theories governing the workplace and the employment relationship. In particular we look at the at-will doctrine and its exceptions, rules affecting the establishment of the employment relationship and rules affecting the termination of the employment relationship.

LAW6750 - Law and Economics2

Credits: 2
Max Credit (Max. 2)

The use of microeconomic theory to assess the economic efficiency and equity consequences of alternate legal structures.

LAW6755 - Legislation

Credits: 3
Max Credit (Max. 3)

Examines how statutes are made and applied. Priorities are 1) legislative process in Congress and the state legislatures (especially Wyoming), and; 2) statutory interpretation tools and techniques.

LAW6760 - Local Government Law

Credits: 3
Max Credit (Max. 3)

Examines the organization, powers, responsibilities, liabilities and financing of units of local government, including counties, cities, school districts and other special districts. Interrelationships among local governments, the states and the federal government are studied. Leading judicial decisions as well as state and federal constitutional and statutory provisions will be assigned. Particular emphasis is placed on the law of Wyoming and other western states.

LAW6765 - International Business Transactions

Credits: 3
Max Credit (Max. 3)

Overview of international business transactions involving private entities engaged in global commerce. Examines legal framework associated with planning, implementation, and enforcement of international agreements concerning sale of goods, trade of services, and transfer of technology. Impact of relevant international organizations and emerging substantive international commercial law with social obligations of multinational enterprises.

Prerequisite: completion of first year of law school.

LAW6775 - International Human Rights

Credits: 3
Max Credit (Max. 3)

An examination of norms, institutions and problems relating to international human rights law. Addresses civil and political rights questions (including the expanded use of international criminal law as a means of enforcing universal values), social and economic rights (including access to medicines) and select group rights issues.

Prerequisite: completion of the first year law school curriculum.

LAW6790 - Oil and Gas

Credits: 3
Max Credit (Max. 3)

A study of the law regarding private property interests in oil and gas. Subjects include the acquisition, transfer, lease, and assignment of oil and gas interests; rules and contracts governing the relationships among surface owners, oil and gas lessors, oil and gas lessees, and neighboring owners; and government regulation.

LAW6800 - Public Lands

Credits: 3
Max Credit (Max. 3)

Examines the law governing management of the federal public lands/national parks, national forests, wildlife refuges, BLM lands, etc. Among other laws, we study NEPA, General Mining Law of 1872, Mineral Leasing Act of 1920, National Forest Management Act of 1976, Taylor Grazing Act, Federal Land Policy and Management Act, Endangered Species Act, and Wilderness Act In addition to examining Congress' prescriptions for public land management and the

constraints it has imposed on land managers, the course also explores how the public and politics influence public land policy and decision making.

LAW6810 - Real Estate Finance

Credits: 3
Max Credit (Max. 3)

Begins with some study of the law and practice relating to real estate transactions, deeds, and titles. The rest of the semester covers the law and practice relating to mortgages, foreclosure, and other financing issues in residential and commercial real estate transactions.

LAW6830 - Secured Transactions

Credits: 3
Max Credit (Max. 3)

Financial institutions and other businesses often take an interest in a debtor's personal property (such as goods, equipment, inventory and accounts) to secure payment of a debt or performance of an obligation. Deals with the law governing security interests in personal property which is embodied primarily in Article 9 of the Uniform Commercial Code.

LAW6840 - Securities Regulation

Credits: 3
Max Credit (Max. 3)

Considers the responsibilities and liabilities of a company and various persons involved in the public offering of securities, including the filing of a registration statement, and other disclosure matters. Deals with the definition of the term "security" and possible exemptions for securities offerings. Covers securities fraud under SEC Rule 10b-5 including, inter alia, insider trading. Corporate disclosure requirements in connection with matters such as proxy rules and in other contexts are also considered. Some attention is given to disclosure requirements in connection with mergers and acquisitions, takeovers, and tender offers.

LAW6850 - Trial Practice

Credits: 3
Max Credit (Max. 3)

Trial Practice is a rigorous learn-by-doing course designed to build courtroom skills. Through a combination of exercises, lectures, demonstrations, drills and complete trials, students are prepared to advocate before judges and juries. The first half of the course focuses on basic examination and exhibit skills, including direct, cross, redirect, making and responding to objections, and the introduction and use of real and demonstrative evidence. In the sixth week, students conduct bench trials. The second half of the course builds on the basic skills and covers advanced ones, including examination of expert witnesses, opening statement, closing argument and voir dire. Jury trials are conducted in the final two weeks.

LAW6860 - Water Law and Policy

Credits: 3
Max Credit (Max. 3)

A study of the allocation and reallocation of water resources with particular emphasis on prior appropriation systems in the Western United States. Riparian systems and groundwater management are also addressed, along with interstate conflicts, federal water rights, federal-state relations, and the effect of environmental laws on water allocation and the exercise of water rights.

LAW6865 - Natural Resources Law

Credits: 3

Max Credit (Max. 3)

Comprehensive view of the general law governing natural and environmental resources. Students will learn to understand how our legal system has organized the various problems of allocation, use rights, duties and limitations, and governance, in the context of establishing rules governing human use of the earth's natural endowment.

Prerequisite: completion of first year of law school.

LAW6875 - Hazardous Waste and Water Pollution Law

Credits: 3

Max Credit (Max. 3)

Examines the Clean Water Act, Resource Conservation and Recovery Act, and the Comprehensive Environmental Response, Compensation, and Liability Act. These highly complex federal statutes, applicable nationwide either directly or via state-implemented programs, regulate pollution of water; govern industrial generation, handling, and cleanup of hazardous substances; and establish liability and enforcement standards.

LAW6880 - Criminal Adjudication

Credits: 3

Max Credit (Max. 3)

A study of the post-investigative phase of the criminal process: from charging decisions through sentencing and appeals. Topics covered include: the decision to prosecute; bail and pretrial release; grand jury and preliminary hearing practice; jury-related issues, such as pretrial publicity, Batson, and deliberative secrecy; criminal discovery; the role and responsibilities of defense counsel and of the prosecutor; defendants' rights to presence, confrontation, and to present a defense case; verdicts; sentencing and appeals.

LAW6885 - Law Office Management

Credits: 1

Max Credit (Max. 1)

This is a "how-to" course which introduces students to the law office as an operating business. This course covers various aspects of establishing and operating a law office, including: attorney timekeeping and client billing; establishing fees rates and fee agreements; revenue projections, record and file management and conflict management systems.

Prerequisite: completion of the first year law school curriculum.

LAW6890 - Land Use Law

Credits: 3
Max Credit (Max. 3)

Deals primarily with public methods of making decisions concerning the use and development of land. Land use decisions range from the issuance of building permits or variances to zoning to long-range planning. Examines tensions between private and public interests (private landowners, community residents, developers, business persons, and city/county officials) over the use of private property, the legal principles that inform the possible resolutions of these tensions and define governmental authority, and the implications of land use regulation for the exercise of other rights, such as free speech.

LAW6910 - Seminar

Credits: 1-2

LAW6915 - Topics in Law

Credits: 1-3
Specific subject matter varies each year and between each section because the course is normally taught by a visiting faculty or by a law faculty member or interdisciplinary team who wish to present a special topic not able to be offered on a regular basis. Students should check class schedules for current offerings each semester.

Prerequisite: completion of first year of law school; consent of instructor required for non-law students.

LAW6920 - Legal Skills and Problems

Credits: 1-2

LAW6925 - Advanced Persuasive Writing

Credits: 3
Max Credit (Max. 3)

Art and science of written legal persuasion. Specifically, course explores the nature of legal persuasion from the standpoints of numerous disciplines, including classical rhetoric, psychology, literary theory, and morality theory, and based on these principles, covers specific strategies lawyers can use to make their writing more persuasive.

Prerequisite: LAW 6160 and LAW 6260, and completion of first year of law school.

LAW6930 - Legal Clinic

Credits: 2-3
Max Credit (Max. 6)

Supervised clinical training in law office and court procedures. Clinical programs available are the Defender Aid Program, Legal Services Program, and the Prosecution Assistance Program.

Prerequisite: Students must have completed first year of law school.

LAW6931 - Clinic: Civil Legal Services

Credits: 3

Max Credit (Max. 12)

The Civil Legal Services Clinic has provided legal assistance to Wyoming citizens for over 20 years. Students represent low-income and marginalized individuals across the state who could not otherwise afford legal representation. The CLSC's mission is to provide legal services in a broad range of general civil legal matters.

LAW6932 - Clinic: Defender Aid

Credits: 3

Max Credit (Max. 12)

Provides representation to indigent persons in Wyoming state and federal courts. We represent clients pending trial, on direct appeal from their convictions, and handle post-conviction matters in state and federal court.

LAW6933 - Clinic: Energy, Environment and Natural Resources

Credits: 3

Max Credit (Max. 12)

Fall: Classroom component of the Clinic will provide a practitioner's view of key aspects of federal court litigation practice in cases involving natural resources issues. Spring: Clinic will provide an overview of the Wyoming Administrative Procedure Act and the Wyoming statutes that govern the regulation of energy production, environmental protection, and natural resources management in Wyoming.

LAW6934 - Clinic: Family and Child Advocacy

Credits: 3

Max Credit (Max. 12)

Handle a wide array of cases including divorce, child custody, domestic violence protection orders, stalking orders, guardian ad litem appointments in juvenile and domestic relations cases, and other family law matters. In addition, law students represent children or their parents in child abuse and neglect cases, termination of parental rights, children in need of supervision and delinquency actions.

LAW6935 - Contract Drafting

Credits: 3

Max Credit (Max. 3)

Covers fact investigation and the role of the lawyer in a transaction proposed by the client, including possible negotiations with other parties; drafting a contract in Plain English; and the ethical obligations of a transactional lawyer, through simulations and problem-solving exercises.

Prerequisite: LAW 6110.

LAW6936 - Clinic: Prosecution Assistance

Credits: 3
Max Credit (Max. 12)

The program is heavily involved with the Wyoming Attorney General's office, usually in representing the state in criminal appeals before the Wyoming Supreme Court. In handling these appeals, students are responsible for the entire preparation of appellate briefs and the presentation of oral argument to the Supreme Court.

LAW6937 - Estate Planning Practicum

Credits: 3
Max Credit (Max. 12)

Provides students the opportunity to work with low-income clients around the State of Wyoming in a transactional law setting. Prepare wills, powers of attorney, advance health care directives, deeds, affidavits of distribution and other probate documents for small estates and will learn how to plan an estate for beneficiaries who are minors or who have special needs.

LAW6940 - Independent Study

Credits: 1-2
Max Credit (Max. 4)

Research and writing in specialized or advanced areas of the law. Students are to contact a professor that has a background or interest in the students' topic area to determine if the professor will supervise the Independent Study. Students receive one credit hour for 50 hours of work or 2 credit hours for 100 hours of work.

LAW6941 - Independent Study: Clinic

Credits: 1-4
Max Credit (Max. 4)

Course is meant to allow students to receive credit for continuing work completed in conjunction with a clinic or live practicum. To qualify for credits a student must have completed at least one semester in a clinic or live practicum.

LAW6945 - Workers Compensation Law

Credits: 3
Max Credit (Max. 3)

Addresses essential aspects of workers' compensation laws including extent of coverage, the various levels and varieties of benefits provided, and how claims are established and enforced. The course will also consider the interaction of state workers' compensation laws with other laws.

LAW6950 - Law Review

Credits: 1-3
Max Credit (Max. 6)

Intensive research, writing, and editing of case note or comment and cite-checking of articles for the Wyoming Law

Review. Law Review membership is required. Credit may be received in the third year only. Maximum six hours in academic career.

LAW6960 - Legal Externships

Credits: 1-3
Max Credit (Max. 6)

The externship program provides second and third year students with an opportunity to learn through practice by working directly with attorneys or judges for academic credit. Externship placements are limited to judges, government agencies and nonprofit organizations, and must be pre-approved by the College of Law faculty.

LAW6970 - Legal Competitions

Credits: 1-3
Max Credit (Max. 3)

LAW6990 - Advanced Topics

Credits: 3
Max Credit (Max. 9)

LAW6991 - Advanced Water Law and Policy

Credits: 3
Research projects within the fields of domestic, international, or comparative water law and policy. Focuses on the elaborate body of laws governing allocation and management of water in and around the Colorado River Basin - i. e. , the "Law of the River. " Explore the Law of the River's historical evolution and current composition as well as cutting-edge policy issues currently facing it. Writing-intensive format satisfies the College of Law's Advanced Writing Requirement.

Prerequisite: C or better in LAW 6860.

LAW6992 - Advanced Oil and Gas Law

Credits: 3
Simulate the work of an oil and gas attorney. Explore oil and gas financing arrangements including the farmout, JOA, and productions sharing agreements, drilling and service agreements, downstream marketing and purchase agreements, conveyances of oil and gas real property interests, the purchase and sale of petroleum properties, oil and gas development on federal lands, and title examination.

Prerequisite: C or better in LAW 6790.

LAW6993 - Advanced Trust and Estates

Credits: 3
Focuses on topics related to the law of trusts, including fiduciary administration, modification, termination, and alienation of trusts; charitable trusts; and issues of trust interpretation and construction. Other topics may be covered as time permits.

Prerequisite: C or better in LAW 6330.

Library Sciences

LIBS2000 - Libraries and Librarianship

Credits: 2

A study of the historical development of the library and its role as a social institution. Types of libraries and services, standards, current trends, professional training, and status and responsibility of the librarian are covered. It is beneficial to all who plan to do library work or who are working toward certification in library-media.

When Offered (Offered based on sufficient demand and resources)

LIBS4360 - Reference and Bibliography

Credits: 3

An introduction to the basic materials used in reference and information services. The philosophy of reference services is presented with particular attention to the needs of schools, community colleges and public libraries.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: 20 hours of general education (liberal arts).

LIBS4380 - Cataloging and Classification

Credits: 3

Introduction to the theories and practices of cataloging and classification. Emphasis is on the Dewey Decimal system; subject cataloging from the Sears headings; descriptive cataloging of monographs, serials, and non-print materials; filing rules. Practice in cataloging and classification of materials.

Dual Listed LIBS 5380.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: 20 hours of general education (liberal arts).

LIBS4520 - Library Practice

Credits: 2-8

Max Credit (Max. 8)

Provides an overview of library organization, administration and service by capitalizing upon the utilization of practical experiences in dealing with everyday problems of the library. Application of principles learned in the various library courses will be stressed. Students must contact department the semester prior to enrollment for authorization to enroll in the course. This course serves as student teaching experience for students wishing to be endorsed in library science.

Prerequisite: LIBS 4340.

LIBS5320 - Selection of Instructional Materials

Credits: 3

A study of basic principles and practices in the selection of print and non-print materials for utilization in school and public libraries. Emphasis is given to the evaluation of materials in light of community needs and principles of intellectual freedom.

Dual Listed LIBS 4320.

Prerequisite: 20 hours of general education (liberal arts).

LIBS5380 - Cataloging and Classification

Credits: 3

Introduction to the theories and practices of cataloging and classification. Emphasis is on the Dewey Decimal system; subject cataloging from the Sears headings; descriptive cataloging of monographs, serials, and nonprint materials; filing rules. Practice in cataloging and classification of materials.

Dual Listed LIBS 4380.

Prerequisite: 20 hours of general education (liberal arts).

LIBS5440 - Information Technology

Credits: 3

Provides information to help learners efficiently access information electronically. Philosophical, ethical, and management issues as well as technical information on the various mechanisms for electronic access now and in the near future are presented. The analysis of needs combined with knowledge of electronic tools for the purpose of efficiently meeting the information needs of clientele is stressed, as well as knowledge of the appropriate use of electronic products for more specific problems/projects.

Cross Listed ADED 5440.

Prerequisite: graduate standing and/or consent of instructor.

LIBS5520 - Teaching the Use of the Library

Credits: 2

Methods for teaching students basic techniques for effective use of library media center resources. Integration of library media center instruction with the total instructional program is emphasized. Relationship between stages of cognitive and other development and appropriate learning activities.

Prerequisite: LIBS 4320/LIBS 5320 and LIBS 4380/LIBS 5380.

LIBS5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

LIBS5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

LIBS5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: Advanced degree candidacy.

LIBS5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

Prerequisite: graduate standing.

LIBS5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

LIBS5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: Graduate standing.

Life Sciences

LIFE1002 - Discovering Science

Credits: 3

Integrates Biology, Chemistry, Physics, and Earth Science and is intended for non-science majors. Fundamental concepts from each discipline are discussed through lectures and in-class activities, and students learn how to understand science and its importance in larger societal issues. There is no laboratory component of this course. Meets the S requirement in USP 2003 and the PN requirement in USP 2015.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3S

USP 2015 Code U5PN

Former Course Number [BIOL 1002]

LIFE1003 - Current Issues in Biology

Credits: 4

Emphasizes central themes of biology - cell biology, genetics, evolution, ecology - and scientific methodology by focusing on current issues in biology. Fundamental concepts are addressed through classroom and laboratory activities and discussions. This course is intended for non-science majors. Students cannot receive duplicate credit for LIFE 1010 or LIFE 1020.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1003]

LIFE1010 - General Biology

Credits: 4

Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB

USP 2015 Code U5PN

Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

LIFE1020 - Life Science

Credits: 4

An integrated lab and lecture emphasizing fundamental principles of biology including cell structure and function, genetics, ecology, evolution and organismal biology. Considers applications of these principles to societal issues such as the conservation of biodiversity, overpopulation and global environmental changes, biotechnology, and human wellness and disease. If you take LIFE 1020, you cannot get duplicate credit for LIFE 1000, 1003, or 1010.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
Former Course Number [BIOL 1020]

Prerequisite: elementary education majors only; concurrent enrollment in EDEL 1430.

LIFE1101 - Introduction to Ecological Research

Credits: 3

Learn science by doing science! This course-based undergraduate research experience (CURE) will focus on beaver pond ecosystems in Medicine Bow National Forest. Students will engage in outdoor fieldwork in addition to classroom learning. They will carry out hands-on projects and gain experience in ecological sampling, lab work, data analysis, and scientific writing. Students who complete the course are encouraged to continue research and are eligible for summer internships.

USP 2015 Code U5FY

LIFE2021 - General Microbiology

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and MOLB 2021

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020

LIFE2022 - Animal Biology

Credits: 4

An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered spring semester)

Former Course Number [BIOL 2022]

Prerequisite: LIFE 1010 with a grade of C or better.

LIFE2023 - Biology of Plants and Fungi

Credits: 4

An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).
Former Course Number [BIOL 2023]

Prerequisite: LIFE 1010 with a grade of C or better.

LIFE2100 - Intro Research and Analysis

Credits: 4

Students gather and analyze data in the context of life science research projects. provides a foundation in research design, probability and inference, and basic computational skills to support graphical and formal analyses of research data.

USP 2015 Code U5Q

Prerequisite: LIFE 1010 with a grade of C or better.

LIFE2200 - Research in Action

Credits: 3

In this course, students will collect data while learning/practicing how to write and communicate in the sciences. Upon completion of the class, students will have experienced the process of scientific inquiry, learned key concepts of experimental design, and how to write in the sciences.

LIFE2300 - Scientific Communication

Credits: 3

The course is primarily designed for undergraduate students in STEM (science, technology, engineering, and math) disciplines who are conducting, or intend to conduct, independent research projects. Sharing research findings with the public is an essential, though often overlooked, part of the job of those in STEM fields. We will hone these techniques through a variety of written assignments, practice talks, group discussions and feedback, visits from guest speakers, and a semester-long research project. The overarching goal is for you to be able to deliver an engaging research talk.

USP 2015 Code U5C2

Former Course Number [AS 2100]

Prerequisite: C or better in COM1.

LIFE3050 - Genetics

Credits: 4

Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3400 - General Ecology

Credits: 3

Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3410 - Introduction to Field Ecology

Credits: 2

Field and laboratory course. Introduces methods used in plant and animal ecology.

When Offered (Normally offered fall semester)

Former Course Number [BIOL 3410/BIOL 2410]

Prerequisite: LIFE 3400 (may be concurrently enrolled).

LIFE3500 - Evolutionary Biology

Credits: 3

Presents modern evolutionary theory. Examines evolution and evolutionary mechanisms from several viewpoints, with particular attention given to genetic mechanisms underlying processes of evolution and speciation.

When Offered (Normally offered fall semester)

Former Course Number [BIOL 3500]

Prerequisite: completion of LIFE 1010 and LIFE 3050 with a grade of C or higher in each.

LIFE3600 - Cell Biology

Credits: 4

Focuses on cell structure, cell function and the regulation of cell processes. Examines many levels of organization, ranging from single molecules and individual cells to multi-cellular systems and the whole organism. Discussion section is required.

Former Course Number [BIOL 3600/ BIOL 4600]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE4975 - Practicum in Laboratory Teaching

Credits: 1-3
Max Credit (Max. 3)

Intended to give undergraduate students experience teaching in a laboratory setting. Working closely with an instructor and a graduate teaching assistant, students will assist in the teaching of biology laboratories during the semester and participate in weekly sessions centered on teaching, learning and assessment.

Former Course Number [BIOL 4975]

Prerequisite: completion of a 1000-level LIFE course and consent of instructor.

LIFE4976 - Practicum in Laboratory Teaching II

Credits: 1-3
Max Credit (Max 3)

Intended to build on the foundations of LIFE 4975. Students work under the dual supervision of the course instructor and the graduate teaching assistant to gain further first hand experience with teaching in life sciences laboratories during this semester.

Former Course Number [BIOL 4976]

Literacy Education

LTED5000 - Theoretical Foundations in LDTE

Credits: 3
Students investigate how human learning and cognitive organization and process relate to digital learning contexts. The content covers major learning theories and their implications for the instructional process through the educators' and learners' perspectives.

Prerequisite: graduate student status

LTED5800 - Theoretical Perspectives on Literary Processes and Practices

Credits: 3
A doctoral seminar aimed at providing students with a broad introduction to theoretical perspectives on literacy processes and practices as well as the functions of theory in literacy research. Features reading and discussion of key works from cognitive, sociocultural, and critical research in literacy.

Prerequisite: graduate student status.

LTED5810 - Theoretical Perspectives on Writing

Credits: 3

A doctoral seminar aimed at providing students with a broad introduction to theoretical perspectives on writing processes and practices as well as the contributions of theory to research on writing processes and practices.

Prerequisite: graduate student status

LTED5830 - Review, Critique, and Synthesis of Literacy Research

Credits: 3

A doctoral seminar focused on a survey and analysis of historical and contemporary research in literacy.

Prerequisite: Graduate standing.

LTED5850 - Foundational Scholars in Social Science Research

Credits: 3

This doctoral course will focus specifically on important works of scholars in disciplines such as sociology, psychology, and other social science disciplines as their work pertains to language, literacy, and learning.

Prerequisite: graduate student status

LTED5860 - History of Literacies

Credits: 3

Explores the nature of history and historical inquiry, the history of literacies from several perspectives, the history of global literacies across time, and the literacy histories of a diverse range of cultural groups. Also examines the history of literacy instruction in the United States.

Prerequisite: Graduate standing.

LTED5870 - Special Topics in Literacy Education

Credits: 1-3

Max Credit (Max 12)

Advance students in literacy education work intensively on current issues and problems and participate in systematic, critical exploration of an identified issue or problem. Topics may include the following: New Literacy Studies, Adolescent, Adult, and Workplace Literacies; Disciplinary Literacy Research. May be repeated with different topics, up to 12 credit hours.

Prerequisite: Permission of instructor and graduate standing.

LTED5880 - Public Digital Scholarship

Credits: 3

A doctoral seminar designed to support students in understanding what it means to be a public digital scholar including the challenges and benefits. Students will be expected to establish and develop an online presence as a public digital scholar.

Prerequisite: graduate student status

Management

MGT2010 - Legal Environment of Business

Credits: 3

Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

MGT2030 - Principle-Based Ethics

Credits: 3

Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

MGT2100 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

MGT3410 - Human Resources Management

Credits: 3

A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

Prerequisite: MGT 2100 and advanced business standing.

MGT3420 - Organizational Behavior and Leadership

Credits: 3

An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

MGT4220 - Talent Acquisition

Credits: 3

In Human Resource Management one core function is recruiting and selecting the best talent to drive organizational success. Students will learn how to analyze jobs and develop recruitment plans to find qualified individuals, how to conduct professional and valid interviews, and how to successfully onboard employees into the organization.

Prerequisite: MGT 3410

MGT4240 - Performance and Compensation

Credits: 3

In Human Resource Management the management of employee performance and compensation are key functions that drive organizational success. This course helps students become familiar with total compensation systems, including intrinsic and extrinsic rewards, base and variable pay, and benefits, and their relationship with employee performance and satisfaction.

Prerequisite: MGT 3410

MGT4260 - Training and Development

Credits: 3

In Human Resource Management training employees in the latest technical and managerial skills and helping them gain developmental experiences helps drive organizational success. Students will learn how to recognize training and developmental needs, how to develop employee training systems, and how to implement these training systems. Additionally, students will learn about career and leader development.

Prerequisite: MGT 3410

MGT4340 - Law for Managers

Credits: 3

Provides an overview of laws and legal issues associated with managing a business, incorporating aspects of sustainable business practices. Topics include agency and employment, business organizations, including securities laws and corporate governance standards, government regulation of businesses, including environmental/sustainability

regulations, and an introduction to international law and global economy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4350 - Commercial Law

Credits: 3

A study of the basic principles of commercial law, including property, sales, negotiable instruments, secured transactions, creditors' rights and bankruptcy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4360 - Business Law for Entrepreneurs

Credits: 3

A survey of the various legal issues confronted by entrepreneurs, particularly related to new ventures.

Prerequisite: MGT 2010 and junior class standing.

MGT4370 - Employment Law

Credits: 3

Provides a comprehensive foundation for understanding the law as it relates to the employer-employee relationship. This course will provide students the legal background necessary to make better decisions both as a worker as well as a manager of other.

Prerequisite: MGT 2010 or equivalent, junior class standing.

MGT4430 - Organization Design and Change

Credits: 3

Examines organizations, what they are, how they operate and are structured and how they can be changed. Focus is on macro managerial issues in the design and change of work organizations.

Prerequisite: MGT 2100, MGT 3410, MGT 3420; advanced business standing, junior class standing.

MGT4470 - Negotiations and Conflict Resolution

Credits: 3

Max Credit 3

Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3

Prerequisite: MGT 2100, advanced business standing.

MGT4800 - Business Strategy and Policy

Credits: 3

A capstone course designed to integrate prior courses into a general manager's overall organization perspective.

Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3

Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

MGT4900 - Independent Study in Management

Credits: 1-4

Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Management not included in other structured management courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MGT4910 - Topics in Management

Credits: 3

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MGT5504 - Energy Industry Value Chain

Credits: 3

Examines the overall energy industry with detailed exploration of the major energy subsectors and supply chains.

Students will develop knowledge of the energy industry value chain including coverage of market dynamics, prevalent strategies, finance, operations, externalities and network effects, environmental and ethical considerations, and associated policy issues.

Restricted Admitted to CERT-MBAE or MBA-MBA.

Prerequisite: Admission to the MBA or Energy Business certificate program, or permission of the MBA Program Director

MGT5600 - Graduate Internship in Business

Credits: 1-4
Max Credit (Max. 6)

Provides student with practical business knowledge, policy, procedure and decision making. Student works as intern in operating organization.

Prerequisite: 12 hours of graduate preparatory courses; accepted in a graduate program and consent of instructor.

MGT5890 - Advanced Problems in Management

Credits: 1-8
Max Credit (Max. 8)

An arrangement whereby a student is permitted to develop some advanced phase of management not offered in the formally structured courses, or to investigate a management problem. A written report is required.

Prerequisite: 9 hours in management including one 5000-level course, accepted in a graduate program and consent of instructor.

Marketing

MKT1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

MKT2100 - Introduction to Marketing

Credits: 3
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

MKT4230 - Integrated Marketing Communication

Credits: 3
Introduction to integrated marketing communication, the coordination of an organization's advertising and promotional efforts. Emphasis on how marketing communication is used by organizations to further their marketing objectives. Among the tools available to the integration process are advertising, sales promotion, personal selling, sponsorship

marketing, and public relations.

Prerequisite: MKT 2100, advanced business standing.

MKT4240 - Consumer Behavior

Credits: 3

A study of the dimensions of the consumer market and decision-making processes of consumers through analyzing economic, personal, social and situational influences on the consumer market and on buying behavior.

Prerequisite: MKT 2100, junior class standing.

MKT4250 - Digital Marketing

Credits: 3

This is an investigation of the digital marketing discipline with an emphasis on e-commerce models, online advertising, digital consumer behavior, privacy considerations, website structure, search engine optimization and social media marketing.

Prerequisite: MKT 2100

MKT4430 - Marketing Management

Credits: 3

Analysis of policy-making and operating decisions of the marketing manager and the tools available to aid in solving marketing problems.

Prerequisite: MKT 2100, MGT 2100, STAT 2050 or equivalent.

MKT4440 - Services Marketing

Credits: 3

This course is designed for students who may be interested in working in service industries and will address the distinct needs and problems of service firms in the area of marketing.

Prerequisite: HOSP 2000 or MKT 2100 .

MKT4450 - Advanced Marketing Management

Credits: 3

This course is designed to integrate prior marketing classes. Primary focus is on utilizing marketing concepts and tools in a strategic marketing decision-making context.

USP 2015 Code U5C3

Prerequisite: MKT 2100 , MKT 4520, junior class standing.

MKT4520 - Marketing Research and Analysis

Credits: 3

Investigation of the systematic procedures and tools of research available to the marketing researcher, including a survey of contemporary practices.

Prerequisite: MKT 2100, junior class standing.

MKT4540 - International Marketing

Credits: 3

Approaches the topic of international marketing from a managerial perspective. Exposure to world environmental characteristics and interdependencies, as well as objectives, strategies and tactics of marketing goods and services to various countries and cultures.

Cross Listed INST 4540.

Prerequisite: MKT 2100 and junior class standing.

MKT4590 - Sustainable Business Practices

Credits: 3

A close look at what is happening in business practice today through the lens of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed INST 4590.

Dual Listed MKT 5590.

Prerequisite: advanced business standing.

MKT4900 - Independent Study in Marketing

Credits: 1-4

Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Marketing not included in other structured marketing courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MKT4910 - Topics in Marketing

Credits: 3

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MKT5250 - Behavioral Theory I

Credits: 3

Expose doctoral students to prospective outcomes on consumer behavior that draw from a variety of disciplines, including marketing, psychology, decision theory, sociology, and cultural anthropology. Students also learn about the different methods researchers employ to study consumers.

MKT5280 - Behavioral Theory II

Credits: 3

This seminar provides a sampling of consumer research rooted in psychological theories and frameworks. The historical development of consumer behavior in marketing cognitive and related contributions to marketing though development will be explored.

MKT5350 - Marketing Models

Credits: 3

Familiarizes students with quantitative modeling approaches to address a variety of marketing problems. The focus is on the nature, relevance, and properties of mathematical models and analytical methods that are employed to address various types of marketing decisions. Students must be accepted into the graduate program.

MKT5450 - Marketing Theory I

Credits: 3

The purpose of this class is to provide students with an in-depth understanding of the role and development of theory in marketing and related disciplines. Students must be accepted into the graduate program.

MKT5590 - Sustainable Business Practices

Credits: 3

A close look at what is happening in business practice today through the lens of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed INST 5590.

Dual Listed MKT 4590.

Prerequisite: advanced business standing.

MKT5890 - Advanced Problems in Marketing

Credits: 1-8

Max Credit (Max. 8)

An arrangement whereby a student is permitted to develop some advanced phase of marketing not offered in formally structured courses, or to investigate a marketing problem. A written report is required.

Prerequisite: 9 hours in marketing including one 5000-level course, written consent of instructor, accepted in a graduate program.

MKT5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 12)

MKT5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 42)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrolled in a graduate degree program.

Master of Business Administration

MBAM5101 - MBA Foundations

Credits: 1
The purpose of this course is to prepare students for the academic rigors of the MBA program.

Restricted Enrollment in MBAM or MBAF degree program.

Prerequisite: Admission to full-time MBA program.

MBAM5102 - Operations Management

Credits: 3
Production and operations management. Topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, and scheduling.

Prerequisite: Admission to the MBAM program.

MBAM5103 - Business Research Methods

Credits: 3
An overview of the scientific research process applied in the context of business. Topics include problem definition,

selection of a methodological approach, design and implementation of field work (qualitative and survey methods), analysis techniques (thematic analysis for qualitative research and statistical analysis for survey research, and communicating results.

Prerequisite: Admission to the MBAM program.

MBAM5104 - Organization Behavior and Human Resource Management

Credits: 3

Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5106 - Professional Development I

Credits: 0

First course is a sequence of courses focused on professional development. This course will provide "a real world" format where students must express their ideas in every class through verbal presentations, as well as developing written products such as handouts, PowerPoint presentations, white papers and email correspondence.

Prerequisite: Admission to the MBAM program.

MBAM5107 - Decision Making I

Credits: 1

This course develops a systematic process for making decisions in complex business situations, by integrating six dimensions of business risk: competitive, financial, organizational, legal, social, and ethical. The process combines analytical and ethical reasoning methods that compensate for the flawed decision making common in business organizations.

Prerequisite: Admission to the MBAM program.

MBAM5108 - Financial Accounting

Credits: 3

This course provides students with tools to use financial information from the accounting system. The course addresses how financial statement information is used to make business decisions and allows students to learn about how generally accepted accounting principles are applied to and account for and report on business transaction results.

Prerequisite: Admission to the MBAM program.

MBAM5202 - Data and Decision Modeling

Credits: 3

This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Prerequisite: Admission to the MBAM program.

MBAM5203 - Entrepreneurial Management

Credits: 3

This course explores and evaluates various intrapreneurial and entrepreneurial opportunities and focuses on lean startup methodologies, use of open innovation techniques, and team productivity. Dynamic business environments characterized by technological diversity and global enterprise will also be considered as students strategically analyze a business opportunity using practical theory application.

Restricted Admission to the MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5204 - Financial Management

Credits: 3

Students taking this course should expect to learn the fundamentals principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

Prerequisite: Admission to the MBAM program.

MBAM5206 - Professional Development II

Credits: 0

Second part of a sequence of courses designed to help students advance their professional skills (written, oral, and interpersonal) and achieve success in career planning, career preparation, and career development.

Prerequisite: Admission to the MBAM program.

MBAM5207 - Marketing Management

Credits: 3

Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5208 - Managerial Accounting

Credits: 3

This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions.

Prerequisite: Admission to the MBAM program.

MBAM5209 - Decision Making II

Credits: 1

An experiential learning course that builds on MBAM 5107. Students apply systematic business decision making process to real-world business situations. Student teams work directly with owners and managers of Wyoming companies to address their strategic, competitive, operational, financial, and/or administrative challenges in real time.

Prerequisite: MBAM 5107.

MBAM5301 - MBA Summer Project

Credits: 3

Serves as an externship for individual MBA students or MBA teams to work with a client on a business issue under the supervision of a qualified faculty member in the College of Business.

Prerequisite: Completion of the first-year (Fall & Spring semester) on campus MBA courses.

MBAM5303 - International Business

Credits: 3

Focus on the topics of culture, effects of the macroenvironment on business, and regional economic integration, with predominant themes of leadership and sustainability in business.

Prerequisite: Admission to the MBAM program.

MBAM5305 - Strategic Management

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

Prerequisite: Admission to the MBAM program. #304.

MBAM5309 - Managerial Economics

Credits: 3

Discuss a variety of tools and concepts intended to give you the background in economics and decision-making you will need to be an effective manager in a world where economic circumstances are uncertain and changing constantly.

Prerequisite: Admission to the MBAM program.

MBAM5311 - MBA Managerial Economics II

Credits: 1

Continue discussion of a variety of tools and concepts intended to give you the background in economics and decision-making you will need to be an effective manager in a world where economic circumstances are uncertain and changing constantly.

Prerequisite: Admission to the MBAM program, completion of MBAM 5309.

MBAM5330 - Global Business Environment

Credits: 3

Max Credit 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

Restricted Admission to the MBA, MBAE, or MBAF program.

Prerequisite: Admission to the MBA program, or permission from the MBA Program Director.

MBAM5401 - Investment Management and Analysis

Credits: 3

The theory of investment management and security values, portfolio management including the analysis of investment policies and objectives, the analysis and use of investment information, and the development and application of the tools for determining values.

Prerequisite: Admission to the MBA Program or permission of the MBA Program Director or the MBA Program Coordinator.

MBAM5402 - Corporate Finance and Governance

Credits: 3

Designed to provide a framework to analyze issues in corporate finance and governance. The firm is viewed as a nexus of contracts designed to reduce the costs of trade - and corporate finance is regarded as an investigation of the incomplete contracts that involve the providers of capital.

Prerequisite: Admission to the MBA Program or permission of the MBA Program Director or the MBA Program Coordinator.

MBAM5403 - Financial Modeling

Credits: 3

Involves the application of basic econometric methods to the analysis of financial data. Focus is on utilizing spreadsheets and other softwares to facilitate financial decision making.

Dual Listed FIN 5400.

Prerequisite: Admission to the MBA Program or permission of the MBA Program Director or the MBA Program Coordinator.

MBAM5404 - Seminar on Management Fraud

Credits: 3

An in-depth study and analysis of the causes, methods, and consequences of financial statements fraud committed by top management in the organization. The course covers psychological and criminological theories of management fraud, as well as detailed analysis of high-profile managements frauds. Seminar format.

Cross Listed ACCT 5066.

Prerequisite: Permission of the MBA Program Director of the MBA Program Coordinator.

MBAM5501 - Energy Economics and Policy

Credits: 3

Applies the tools of economic analysis to attain and understanding of energy markets and energy policy analysis. Sec. 1 Overviews the major energy and environmental policy issues facing the United States and the world. Sec 2 Determinants of energy demand. Sec. 3 Technologies and costs to produce and deliver energy. Sec. 4 Determinants of energy price.

Prerequisite: Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

MBAM5503 - Fundamentals of Accounting in the Energy Industry

Credits: 3

Introduces students to basic financial accounting and reporting issues related to energy producing activities. Specifically, the course will investigate current accounting practices of energy producing companies related to exploration, acquisition, development, and delivery of energy products. The course will also cover financial requirements of the Financial Accounting Standards Board (FASB), the International Accounting Standards Board (IASB), and the Securities and Exchange Commission (SEC).

Cross Listed ACCT 5503.

Prerequisite: Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

MBAM5506 - Energy Finance: Securities, Hedging, and Trading

Credits: 3

Overview of security analysis applied to energy firms, hedging strategies, and trading activities in energy markets. Trading activities covered include the use of forward and futures contracts, swaps, options, and related derivatives.

Prerequisite: Permission of MBA Program Director.

MBAM5507 - Energy Business Strategy (Capstone)

Credits: 3

Improving an organization's competitiveness in changing global energy environments. Includes an overview of the geopolitics of global energy, and the risks involved. Emphasizes skill-development for formulating and implementing business-level, corporate, and global strategies in dynamic environments.

Prerequisite: Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

MBAM5508 - Marketing and Sustainable Consumption

Credits: 3

Focuses on understanding household and business energy consumption. Emphasizes the environmental, economic, social and psychological influences on consumer decision making and sustainable consumption. Course deals with developing customer value propositions, and for marketing strategy development in branding, product-line offerings, pricing, retailing and distribution, and public policy.

Prerequisite: Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

MBAM5800 - MBA Topics

Credits: 1-3

A course for MBA students treating contemporary problems in business related areas. Specific area(s) to be considered in a given semester will be printed in class schedule.

Prerequisite: Admission to the MBAM program.

Mathematics

MATH1000 - Problem Solving

Credits: 3

For students not planning to enroll in MATH 1400, MATH 1450 or a calculus course. Examines modern topics chosen for their applicability and accessibility. Provides students with mathematical and logical skills needed to formulate, analyze and interpret quantitative arguments in a variety of settings. Introduces statistics and stresses the use of a calculator.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

A&S College Core 2015 Note: MATH 1000 is neither a prerequisite nor suitable preparation for MATH 1400 (College Algebra).

Prerequisite: grade of C or better in Math 0921 or Level 2 on the Math Placement Exam or Math ACT of 21 or Math SAT of 600 or concurrent enrollment in MATH 1080.

MATH1080 - Bridge Program Math

Credits: 3

This class is to assist students in refreshing their skills in Mathematics, from the fundamentals of arithmetic through college level algebra and trigonometry. If time and preparation allow, basic calculus concepts will be discussed. This class is largely self-paced, but with intrusive faculty support.

MATH1100 - Number and Operations for Elementary School Teachers

Credits: 3

For prospective elementary school teachers; purpose is to prepare students to be competent in teaching the major concepts and skills related to the real number system and four arithmetic operations. Includes asking and answering critical questions about subsets of the real number system, including natural, integer, and rational numbers.

USP 2003-2014 Code U3QA

Prerequisite: grade of C or better in MATH 0921 or Level 2 on the Math Placement Exam or Math ACT of 21 or Math SAT of 600.

MATH1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

MATH1105 - Data, Probability, and Algebra for Elementary School Teachers

Credits: 3

Continuation of MATH 1100 for prospective elementary teachers; emphasis is on asking and answering critical questions about our world through algebra, probability, and data analysis to prepare students to be competent in teaching these major concepts. Explorations focus on representing, analyzing, and generalizing patterns and the chances of future events.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1100.

MATH1123 - Math, Music and Acoustics

Credits: 3

For music majors and minors not planning to enroll in MATH 1400, MATH 1450 or a calculus course. Serves as an introduction to the mathematics and physics underlying music and develops quantitative reasoning in a musical context. Topics include the wave nature of sound, intervals, scales, temperament, acoustics and psychoacoustics.

USP 2015 Code U5Q

Restricted

-

Prerequisite: grade of C or better in MATH 0921 or Level 2 on the Math Placement Exam or Math ACT of 21 or Math SAT of 600 and grade of C or better in MUSC 1030.

MATH1400 - College Algebra

Credits: 3

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MATH1405 - Trigonometry

Credits: 3

Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

MATH1450 - Algebra and Trigonometry

Credits: 5

Emphasizes aspects of algebra, trigonometry and problem solving important in the study of calculus. Functions and their applications to real world problems. Classes of functions including polynomial, exponential, logarithmic and trigonometric functions. Intuitive introduction to the idea of limit and sequence which are developed further in the calculus sequence. For the student with considerable prior exposure to trigonometry and algebra. Graphing calculators

are used frequently in class and on assignments. See instructor for specifications.

USP 2003-2014 Code U3QA

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MATH2120 - Geometry and Measurement for Elementary School Teachers

Credits: 3

Continuation of MATH 1105 for prospective elementary teachers; emphasis is on asking and answering critical questions about spatial reasoning as evident in the real world. Includes investigations of two- and three-dimensional shapes and their properties, measurements, constructions, and transformations to prepare students to be competent in teaching these concepts.

Prerequisite: grade of C or better in MATH 1105.

MATH2200 - Calculus I

Credits: 4

Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4

Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4

Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3

Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2300 - Discrete Structures

Credits: 3

Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed COSC 2300.

Prerequisite: grade of C or better in COSC 1030 and in either MATH 2200 or MATH 2350.

MATH2310 - Applied Differential Equations I

Credits: 3

Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

MATH2350 - Business Calculus

Credits: 4

Primarily for students in the College of Business. Includes an introduction to limits; the definition of a derivative; derivatives and their applications; antiderivatives; definite integrals and their applications. The applications emphasize concepts of interest to business majors.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 26 or Math SAT of 600.

MATH2355 - Mathematical Applications for Business

Credits: 4

Primarily for students in the College of Business. Includes the mathematics of finance; systems of linear equations and matrices; linear programming; sets, counting, and probability. Students will learn to use Excel spreadsheets to solve business application problems in a computer lab that meets one day per week.

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 26 or Math SAT of 600.

MATH2800 - Mathematics Major Seminar

Credits: 2

An introduction to modern mathematical reasoning and discourse, emphasizing the distinctive ways in which logic and language are used and the motivations behind them. Develops methods of precise definition and rigorous proof. Several topics are explored, illustrating mathematics as a living, dynamic subject with its own culture and conventions.

MATH2850 - Putnam Team Seminar

Credits: 2

Max Credit (Max. 8)

Preparation for the William Lowell Putnam Mathematical Competition. Problem solving strategies and mathematical content appropriate for the Putnam Exam are emphasized with problem sets taken from previous Putnam or other international math contests.

When Offered (Offered fall semester)

Former Course Number [3800]

Prerequisite: MATH 2200, MATH 2205.

MATH3205 - Analysis I: Elementary Real Analysis

Credits: 3

An introduction to rigorous analysis in one real variable. Includes a rigorous reconsideration of the elements of calculus: the real number system, numerical sequences and series, limits, continuity, differentiability, and Riemann integrability for functions of one variable. Proof and mathematical writing are emphasized.

Prerequisite: Grade of C or better in MATH 2205 and MATH 2800.

MATH3310 - Appl Diff Equations II

Credits: 3

Continues MATH 2310. Includes partial differential equations, Fourier series, boundary value problems, series solutions of ordinary differential equations, linear algebra, linear systems of equations and numerical methods.

Prerequisite: Prerequisites: grade of C or better in MATH 2210 and 2310.

MATH3340 - Introduction to Scientific Computing

Credits: 3

Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed COSC 3340.

Prerequisite: grade of C or better in MATH 2210.

MATH3341 - Introduction to Scientific Computing Lab

Credits: 1

The objective of this lab is to expose students to the basic syntax and tools in MATLAB so that they succeed in writing correct computer code for the solution of scientific computing problems. Topics include: MATLAB syntax, variable types, code structure, function types, algorithm structure and design.

Prerequisite: Concurrent or previous enrollment in MATH 3340.

MATH3500 - Algebra I: Introduction to Rings and Proofs

Credits: 3

Begins with common features of integers, rational numbers, and polynomials, leading to study of rings in general. Topics include divisibility, factorization, and modular arithmetic for integers and polynomials, and homomorphisms and ideals for rings. Proof techniques include direct proof, proof by contrapostive, mathematical induction, and proof by contradiction.

Prerequisite: MATH 2800 and grade C or better in MATH 2250 or concurrent registration in MATH 2250.

MATH3700 - Combinatorics

Credits: 3

Provides an introduction to combinatorics and combinatorial algorithms, with applications to areas such as computer science and probability. Topics include general counting methods, recurrence relations, generating functions, inclusion-exclusion, partial orders, and graph theory.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 2250.

MATH4000 - History of Mathematics

Credits: 3

Explores the roots of mathematics and the people who made significant contributions to it. Mathematical subjects typically include algebra, calculus and number theory; both chronological and topical approaches are employed.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 2205.

MATH4100 - Mathematics in the Elementary School

Credits: 1-6

Acquaints prospective or experienced teachers of mathematics with newer developments in mathematics curriculum

and materials. Emphasizes mathematical basis for courses in an elementary mathematics curriculum; organization and design of mathematics programs for grades K-7; and design and construction of curriculum and/or materials to meet specific needs of the teacher or school district.

Prerequisite: grade of C or better in MATH 1105 and consent of instructor.

MATH4150 - Secondary School on Campus

Credits: 1-4

Provides prospective teachers opportunity to study mathematics as it relates to the secondary school. Topics may vary from semester to semester. Emphasizes current trends and concerns of secondary school mathematics education.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 2205 and concurrent with EDSE 4271.

MATH4200 - Analysis 2: Advanced Analysis

Credits: 3

A second course in analysis. Includes metric space topology, sequences and series of functions, and analysis in \mathbb{R}^n .

When Offered (Offered fall semester)

USP 2015 Code U5C3

Prerequisite: grade of C or better in MATH 2210, MATH 2250 and MATH 3205.

MATH4205 - Analysis 3: Undergraduate Topics in Analysis

Credits: 3

Special topics in analysis. Content varies. May be repeated for credit.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 4200.

MATH4230 - Introduction to Complex Analysis

Credits: 3

Develops the theory of functions of one complex variable. Topics include the algebra and geometry of complex numbers, functions of one complex variable, elementary functions, limits, continuity and differentiation. Differentiability leads to the Cauchy theorem, integral theorems, power series, residue theory and applications to integration theory and boundary value problems.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 2210.

MATH4255 - Mathematical Theory of Probability

Credits: 3

Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence and conditional probability, mathematical expectation, multivariate distributions and properties of normal probability law.

Cross Listed STAT 4255.

Former Course Number [4250]

Prerequisite: grade of C or better in MATH 2210.

MATH4265 - Introduction to the Theory of Statistics

Credits: 3

Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

Cross Listed STAT 4265.

Former Course Number [4260, 4010]

Prerequisite: MATH 4255.

MATH4300 - Introduction to Mathematical Modeling

Credits: 3

A model of a real world problem captures the essential features of the problem, while scaling it down to a manageable size. In this course, symbolic tools and mathematical techniques are used to construct, analyze and interpret various mathematical models which arise from problems in the physical, biological and social sciences.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 2250 or MATH 2310.

MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations

Credits: 3

Further develops the skills needed for computational problem solving and numerical analysis. Topics addressed include: one-step and linear multistep methods for solving initial value problems; truncation errors, stability analysis, and convergence of the numerical methods; finite difference approximation for elliptic equations and initial boundary value problems; iterative methods for sparse linear systems. Students typically complete a final project in this course.

Cross Listed COSC 4340.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 2310 and MATH 3340.

MATH4420 - Advanced Logic

Credits: 3

Studies advanced topics in mathematical logic. Takes up such topics as: uninterpreted calculi and the distinctive

contributions of syntax and semantics; metatheory, including completeness and consistency proofs; modal logic and semantics; logic as a philosophical tool.

Cross Listed COSC 4420/PHIL 4420.

Dual Listed MATH 5420.

Prerequisite: PHIL 3420 or equivalent.

MATH4440 - Introduction to Partial Differential Equations I

Credits: 3

Survey of analytic methods for solving partial differential equations. Topics include: method of characteristics for solving first-order linear and quasi-linear equations; classification of second-order equations and canonical forms; background to separation of variables with applications; transform methods and Green functions; elliptic equations; heat and wave equations in one dimension.

Prerequisite: grade of C or better in MATH 2210 and MATH 2310.

MATH4500 - Matrix Theory

Credits: 3

Continuation from MATH 2250 of the study of matrices, an important tool in statistics, physics, engineering and applied mathematics in general. Concentrates on the structure of matrices, including diagonalizability; symmetric, hermitian and unitary matrices; and canonical forms such as Jordan form.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 2250.

MATH4510 - Algebra II: Introduction to Group Theory

Credits: 3

An introduction to the fundamental properties of groups including: binary operations, groups, permutation groups, subgroups, homomorphisms, and quotient groups.

When Offered (Offered spring semester)

USP 2015 Code U5C3

Prerequisite: grade of C or better in MATH 3500.

MATH4520 - Algebra III: Topics in Abstract Algebra

Credits: 3

Further examples and structure of rings and fields. Finite fields and number fields. Special topics.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 4510.

MATH4550 - Theory of Numbers

Credits: 3

Studies topics in mathematics which are motivated by questions about integers. Topics include divisibility, congruences, diophantine equations, quadratic residues, primitive roots, primes, and representations of positive integers.

When Offered (Offered spring semester)

Prerequisite: grade of C or better in MATH 3500.

MATH4600 - Foundations of Geometry

Credits: 3

Broadens the student's understanding of the many faces of geometry and provides a context for the specific case of Euclidean geometry. Various approaches will be presented, including axiomatic, synthetic, coordinate, and transformational methods.

When Offered (Offered fall semester)

Prerequisite: grade of C or better in MATH 3205 or MATH 3500.

MATH4800 - Seminar in Mathematics

Credits: 1-3

Exposes students to problems and thinking in mathematics which would otherwise be unavailable.

Prerequisite: consent of instructor.

MATH4970 - Professional Development in Teaching

Credits: 1-6

Max Credit (Max. 6)

Undergraduate student will assist in classroom and discussion section teaching under the guidance of an instructor in Mathematics. Does not count towards Mathematics degree requirements.

Prerequisite: Consent of instructor.

MATH5090 - Topics in the Foundations of Mathematics

Credits: 1-6

Max Credit (Max. 9)

Prerequisite: MATH 3000 and consent of instructor.

MATH5140 - Numbers, Operations, and Patterns for the Middle-level Learner

Credits: 3

Provides working middle-level mathematics teachers opportunities to understand and discuss numbers, their representations, and operations on them from an abstract perspective that includes elegant proof. Also emphasized is

the role of language and purpose in composing definitions.

Cross Listed NASC 5140.

Prerequisite: admission to a university graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics Program.

MATH5150 - Seminar in Secondary School Mathematics

Credits: 1-4

Max Credit (Max. 18)

Seminar in Secondary School Mathematics.

Prerequisite: 6 hours of MATH 4150.

MATH5160 - Social and Historical Issues in Mathematics and the Middle-Level Learner

Credits: 3

Empowers teachers of middle-level mathematics to design more engaging experiences. Emphasizes the historical context for the development of mathematics, especially its symbols, tools, personalities, and classic problems.

Cross Listed NASC 5160.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics Program.

MATH5170 - Connecting Geometry with Problem- Solving for the Middle-Level Learner

Credits: 3

Showcases two aspects of 2D and 3D geometry: measurement and transformation. Emphasis reflects current state and national standards for middle-level mathematics classroom and teacher preparation, especially appropriate uses of technology, geometric tools, mathematical language, and problem-solving strategies.

Cross Listed NASC 5170.

Prerequisite: admission to a university graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics Program.

MATH5190 - Mathematics of Change and the Middle-Level Learner

Credits: 3

Students gain a solid understanding of data and functions in the service of calculus. Course is hands-on, project-driven and focuses on the essential concepts of functions and calculus and their role in middle-level mathematics. Emphasis is on writing and technology (calculators and probeware).

Cross Listed NASC 5190.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics Program.

MATH5200 - Real Variables I

Credits: 3

Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on L_p spaces. Lebesgue theory is an important application of this development.

Prerequisite: MATH 4200.

MATH5205 - Real Variables II

Credits: 3

A continuation of MATH 5200.

Prerequisite: MATH 5200.

MATH5230 - Complex Variables I

Credits: 3

Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

Prerequisite: MATH 4200.

MATH5235 - Complex Variables II

Credits: 3

A continuation of MATH 5230.

Prerequisite: MATH 5230.

MATH5255 - Mathematical Theory of Probability

Credits: 3

Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence, and conditional probability distributions, independence and conditional probability, mathematical expectation, multivariate distributions and properties of normal probability law.

Cross Listed STAT 5255.

Dual Listed MATH 4255,

Prerequisite: grade of C or better in MATH 2210 or MATH 2355.

MATH5265 - Introduction to the Theory of Statistics

Credits: 3

Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

Cross Listed STAT 5265.

Dual Listed MATH 4265,

Prerequisite: STAT 4255/5255, MATH 4255.

MATH5270 - Functional Analysis I

Credits: 3

Topics include the geometry of Hilbert spaces, linear functions and operators on Hilbert spaces, spectral theory of compact normal operators, Banach space theory, the open mapping theorem, Hahn-Banach theorem, Banach-Steinhaus theorem, duality and linear operators on Banach spaces, and different topologies on Banach spaces and their duals.

Prerequisite: MATH 5200.

MATH5275 - Functional Analysis II

Credits: 3

Topics may include discussion of topological vector spaces, locally convex spaces, F-spaces, spectral theory of non-compact operators on Hilbert spaces, semigroups or evolution operators, distribution theory, and applications to differential equations and Sobolev spaces.

Prerequisite: MATH 5270.

MATH5290 - Topics in Analysis

Credits: 1-6

Max Credit (Max. 18)

Topics in analysis.

Prerequisite: consent of the instructor.

MATH5310 - Computational Methods in Applied Sciences I

Credits: 3

First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

MATH5340 - Computational Methods II

Credits: 3

Second semester of a three-semester computational methods series with emphasis on numerical solution of differential equations. Topics include explicit and implicit methods, methods for stiff ODE problems, finite difference, finite volume, and finite element methods for time-independence PDEs semi/fully discrete methods for time-dependent PDEs.

Prerequisite: MATH 5310.

MATH5345 - Computational Methods III

Credits: 3

Third semester of a three-semester computational methods series with emphasis on numerical solution of problems displaying sharp fronts and interfaces (nonlinear conservation laws, Hamilton-Jacobi equations).

Cross Listed COSC 5345.

Prerequisite: MATH 5340.

MATH5390 - Topics in Numerical Analysis

Credits: 1-6

Max Credit (Max 18)

Topics in numerical analysis.

Prerequisite: consent of the instructor.

MATH5400 - Methods of Applied Mathematics I

Credits: 3

First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e. g. , conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

Prerequisite: MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

MATH5405 - Methods of Applied Mathematics II

Credits: 3

A continuation of MATH 5400.

Prerequisite: MATH 5400.

MATH5420 - Advanced Logic

Credits: 3

Studies advanced topics in mathematical logic. Takes up such topics as: uninterpreted calculi and the distinctive contributions of syntax and semantics; metatheory, including completeness and consistency proofs; modal logic and semantics; logic as a philosophical tool.

Cross Listed COSC 5420/PHIL 5420.

Dual Listed MATH 4420.

Prerequisite: PHIL 3420 or equivalent; graduate standing.

MATH5430 - Ordinary Differential Equations II

Credits: 3

Differential equations constitute the mathematical language for problems of continuous change. ODEs deal with evolutionary processes involving one independent variable. This course revisits solution techniques but emphasizes the theoretical framework. Topics include: existence and uniqueness, linear and nonlinear differential systems, asymptotics and perturbations, and stability.

Prerequisite: MATH 4200, 4430.

MATH5440 - Partial Differential Equations II

Credits: 3

The theory of PDEs is important for abstract mathematics, applied science, and mathematical modeling. This course covers solution techniques but emphasizes the theoretical framework. Topics include: first order systems; characteristics; hyperbolic, elliptic and parabolic equations; separations of variables; series and transforms; integral relations; Green's functions, maximum principles; variational methods.

Prerequisite: MATH 4200 and MATH 4440.

MATH5490 - Topics in Applied Mathematics

Credits: 1-6

Max Credit (Max. 18)

Prerequisite: consent of instructor.

MATH5500 - Advanced Linear Algebra

Credits: 3

An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

Prerequisite: MATH 3500 and MATH 4500.

MATH5510 - Combinatorial Theory

Credits: 3

An introduction to combinatorics covering both classical and contemporary topics. Includes some of the following: generating functions, recursion formulas, partially ordered sets, inclusion-exclusion, partitions, graph theory, Ramsey theory, combinatorial optimization, Latin squares, finite geometries, and design theory.

Prerequisite: consent of the instructor.

MATH5530 - The Theory of Groups

Credits: 3

An in-depth study of various aspects of group theory, building on MATH 5550. Topics include some of the following: classical theory of finite groups (both Abelian and non-Abelian), infinite Abelian groups, free groups, permutation groups, group representations, endomorphism, extensions, and cohomology.

Prerequisite: MATH 5550.

MATH5550 - Abstract Algebra I

Credits: 3

Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

Prerequisite: MATH 3500 or MATH 5500.

MATH5555 - Abstract Algebra II

Credits: 3

A continuation of MATH 5550, examining in depth selected topics from the theory of rings, fields, and algebras, including Galois theory.

Prerequisite: MATH 5550.

MATH5570 - Matrix Theory and Combinatorics

Credits: 3

An overview of matrix theory and its applications to combinatorics. Topics include Smith normal form, the Perron-Frobenius theory of non-negative matrices, location and perturbation of eigenvalues, and interlacing of eigenvalues. Applications include structure theorems for $(0,1)$ -matrices, network flows, spectra of graphs, and the permanent.

Prerequisite: MATH 5500.

MATH5590 - Topics in Algebra

Credits: 1-6
Max Credit (Max. 18)

Topics in algebra.

Prerequisite: consent of the instructor.

MATH5600 - Point-Set Topology

Credits: 3
Topics considered are metric spaces, open spheres, open sets, closed sets, continuous functions, limit points, topological spaces, homeomorphisms, compactness, connectedness, and separability. The familiar notion of distance on the real number line is generalized to the notion of a metric for an arbitrary set, which is in turn generalized to the concept of a set topology for a set. Certain applications to analysis and geometry are indicated.

Prerequisite: MATH 3205.

MATH5605 - Algebraic Topology

Credits: 3
Topics in algebraic topology, including simplicial homology groups and their topological invariance, the Eilenberg-Steenrod axioms, singular homology theory, and cohomology.

Prerequisite: MATH 3500.

MATH5640 - Differential Geometry

Credits: 3
Curve theory, theory of surfaces, and geometrics on a surface.

Prerequisite: MATH 4200.

MATH5690 - Topics in Topology

Credits: 1-6
Max Credit (Max. 9)

Prerequisite: consent of instructor.

MATH5700 - Topics in Combinatorics

Credits: 1-6
Max Credit (Max. 18)

Selected topics in combinatorial analysis.

MATH5800 - Seminar in Mathematics

Credits: 1-3
Max Credit (Max. 8)

Prerequisite: consent of instructor.

MATH5900 - Practicum in College Teaching

Credits: 1-3
Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

MATH5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

MATH5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

MATH5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate Program of Study for degree purposes.

MATH5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Graduate level course designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

MATH5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

Graduate level course designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

MATH5990 - Internship

Credits: 1-12

Max Credit (Max. 24)

Prerequisite: graduate standing.

Mathematics Education

EMAT5100 - Theory and Research for Mathematical Learning

Credits: 3

Max Credit (Max. 6)

Advanced study of theory and research related to learning of mathematics, with attention to significant human mental development factors. Critically examines the scholarly basis for mathematical learning, including reviews of epistemological foundations, research-based factors, core issues, and advocacies for educational practices.

Prerequisite: enrollment in Mathematics Education Ph. D. specialization or permission of the instructor.

EMAT5150 - Elem & Midd Sch Math Adv Persp

Credits: 3

In this class, fundamental mathematical ideas typically taught in elementary and middle school levels are examined from an advanced perspective. Students learn about effective mathematical tasks fostering K-8 students' creativity in mathematics. Students also examine number sense, fractions, measurement, geometry, and data analysis in depth through cognitively demanding and creativity-directed tasks. Problem solving and inquiry-based instructional strategies are emphasized throughout.

EMAT5160 - HS Math from Advanced Perspect

Credits: 3

Max Credit 3

In this class, fundamental mathematical ideas typically taught in high school are examined from an advanced

perspective. Students learn about visualization and its importance in geometry and explore proof and its place in the high school curriculum. Students also examine algebra and algebraic reasoning in depth and explore some fundamental topics found in trigonometry and calculus. Problem solving and inquiry-based instructional strategies are emphasized throughout.

Restricted Graduate students or permission of instructor

EMAT5200 - Advanced Study of Mathematics Curriculum, Assessment, and Evaluation

Credits: 3

Max Credit (Max. 6)

Advanced study of theory, research and practices related to curriculum, assessment and evaluation in mathematics education. Critically examines the historical and contemporary influences on these, including mathematical, philosophical, psychological, pedagogical, social and political forces and factors.

Prerequisite: enrollment in Mathematics Education Ph. D. program or permission of the instructor.

EMAT5300 - Theory and Practice for Mathematics Teaching and Teacher Education

Credits: 3

Advanced study of theory and research of mathematics teaching teacher education. Examines the scholarly basis for current rationales and practices, including a critical review of evidential effectiveness, core issues, and advocacies for reform. A major emphasis will include analysis and critique of significant theoretical and research literature.

Prerequisite: enrollment in Mathematics Education Ph. D. program or permission of the instructor.

EMAT5400 - Analysis and Critique of Research in Mathematics Education

Credits: 3

Both theoretical and empirical research and scholarship in the field of mathematics education are critically analyzed. Students develop a deep understanding of pivotal historical and contemporary literature that helped shape the field of mathematics education and begin a formative development of their research interests.

Prerequisite: at least two from EMAT 5100, EMAT 5200, or EMAT 5300.

EMAT5500 - Colloquium in Mathematics Education

Credits: 1-3

Max Credit (Max. 12)

Provides for a broad perspective on mathematics education through selected reading materials. Students present and discuss ideas and summaries of the assigned reading and, wherever possible, the student collects and uses original information from practical situations. Students participate with the selected materials (journal articles, research, manuscripts, conference presentations) for class discussion.

Prerequisite: Graduate student status.

EMAT5600 - Quantitative Reasoning & Modeling in Mathematics and Science Education

Credits: 3

Advanced study of theories, issues, research and practices for teaching and learning mathematics and science focused on quantitative reasoning and mathematical modeling (QRaMM). Analysis of fundamental constructs relevant to QRaMM in education. Activities engage the scholarship of critical analysis, and interdisciplinary applications aimed at student knowledge and expertise in QRaMM.

Prerequisite: Graduate student status.

EMAT5700 - Principles and Methods for Integrated Teaching & Learning Mathematics & Science

Credits: 3

Advanced study of theory, research, and practice for teaching and learning mathematics and science using integrated approaches in curriculum, pedagogy, learning, and assessment. The course will be production oriented, with activities and developments aimed at stimulating and supporting manuscripts to be published in STEM-appropriate venues.

Prerequisite: Graduate student status.

EMAT5980 - Dissertation Research

Credits: 1-12

Max Credit (Max 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrolled in a graduate level degree program.

Mechanical Engineering

ME3005 - Engineering Experimentation

Credits: 3

A combined lecture/laboratory course introducing students to experimental methods in the context of dynamics. Written technical communication, intermediate structured programming, experimental design, fundamental statistics, and uncertainty methods (numerical and analytical) are emphasized. Collaborative writing and teamwork is introduced.

Cross Listed ESE 3005

Former Course Number [2010; 2020]

Prerequisite: Completion of the ME Success Curriculum, ES 1060, ES 2120.

ME3010 - Intermediate Mechanics of Materials

Credits: 3

Expansion of the principles of solid mechanics: stress, strain, principal stresses, elastic and plastic behavior, failure theories and the use of energy methods. Analysis and design of thick-walled pressure vessels, noncircular cross sections under torsion, nonsymmetric beams under bending and curved beams.

Prerequisite: Completion of the ME Success Curriculum, ES 2410.

ME3020 - System Dynamics

Credits: 3

Theoretical and experimental study of the dynamics of linear and non-linear lumped parameter models of mechanical, electrical, electronic, fluid, thermal and mixed systems.

Cross Listed ESE 3020

Prerequisite: Completion of the ME Success Curriculum, ES 2210 and MATH 2310.

ME3040 - Thermodynamics II

Credits: 3

Consideration of advanced thermodynamic topics including Maxwell's relations, compressible flow, and combustion. Applications to design of refrigeration cycles, humidification systems, and Rankine cycles.

Cross Listed ESE 3040

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME3060 - Numerical Methods for Engineers

Credits: 3

Numerical solutions of problems commonly encountered in mechanical engineering including differentiation, integration, differential equations, system of linear and nonlinear equations, and optimization. The structured programming approach will be emphasized and applications from solid mechanics, thermal fluid sciences, materials science, and dynamic systems will be covered.

Cross Listed ESE 3060

Prerequisite: Completion of the ME Success Curriculum, ES 1060, and MATH 2310 or concurrent enrollment.

ME3160 - Thermal/Fluid Science Lab

Credits: 3

A laboratory course to introduce students to experimental methods for temperature measure and pressure/flow characteristics of fluids. Continuation of experience with communication (written, oral, and digital), intermediate programming, experimental design, data analysis, and teamwork skills is emphasized.

Cross Listed ESE 3160

Former Course Number [2140; 2160]

Prerequisite: Completion of the ME Success Curriculum, ES 2330; ME 3005/ESE 3005.

ME3170 - Machine Design

Credits: 3

Application of engineering mechanics and materials science to the analysis and design of mechanical components such as bolted connections, springs, gears, bearings and shafts. Design for dynamic loading conditions. Principles of hydrodynamic lubrication. Introduction to computer-aided design. Case studies with appropriate topics.

Prerequisite: Completion of the ME Success Curriculum, ES 2410.

ME3360 - Fundamentals of Transport Phenomena

Credits: 3

Basic concepts of heat and mass transfer and their applications to problems involving engineering analysis and design. Topics include steady-state and transient conduction, free and forced convection (heat and mass), radiation and heat exchangers.

Cross Listed ARE 3360/ESE 3360

Prerequisite: Completion of the ME Success Curriculum, MATH 2310, ES 2310, and ES 2330.

ME3400 - Heating, Ventilating and Air Conditioning of Buildings

Credits: 3

Qualitative and quantitative study in concepts of basic air-conditioning with focus on buildings including building envelope, moist air thermodynamics, human comfort, thermal load calculations, thermal behavior of buildings, HVAC systems/ equipment, and design of space air-conditioning and its relationship to architectural design.

Cross Listed ARE 3400

Prerequisite: ES 2310, ARE 2410 or ME 3360, ES 2330 or concurrent enrollment.

ME3450 - Properties of Materials

Credits: 3

Mechanical, electrical, thermal and chemical properties of materials. Theoretical treatment of structure of solids and design for specified properties.

When Offered (Normally offered spring semester)

Former Course Number [ES 3450]

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME3975 - Internship

Credits: 3

Students may apply for credit for extended work experience (>10 weeks; full-time) engaging in mechanical engineering work and supervised by an engineer in mechanical engineering (or closely related field). Students should apply through their adviser prior to the work experience.

Restricted Enrollment is by departmental approval only.

Prerequisite: consent of the department head.

ME4010 - Mechanical Vibrations

Credits: 3

The theory of single and multi-degree-of-freedom systems with an introduction to continuous systems. Determination of equations of motion, including natural frequency for free vibration and amplitude of forced vibration. Design of discrete and continuous systems for transient and harmonic excitations.

When Offered (Normally offered fall semester)

Prerequisite: Completion of the ME Success Curriculum, ES 2120, ES 2410, and MATH 2310.

ME4020 - Design of Mechanical/Electronic Systems

Credits: 3

Theoretical and experimental study of sensors and actuators, interfacing sensors and actuators to a microcomputer, discrete and continuous controller design, analog and digital electronics, and real-time programming for control.

Prerequisite: Completion of the ME Success Curriculum, ME 3020.

ME4040 - Introduction to Finite Elements

Credits: 3

An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. The course includes development of the underlying matrix equations, the treatment of element generation and properties, and implementation of boundary conditions.

Dual Listed ME 5040.

Prerequisite: Completion of the ME Success Curriculum, MATH 2310 and (CE 4200/ARE 4200 or MATH 2250 or ME 3010 or ME 3060).

ME4060 - Systems Design I

Credits: 3

First of a two-course design sequence constituting a capstone design experience. Student multidisciplinary teams prepare a project proposal or SOQ, generate a morphological study of their project and prepare project plans and specifications. Project management methods are also presented.

USP 2015 Code U5C3

Former Course Number [3070]

Prerequisite: Completion of the ME Success Curriculum, ME 3010 (or concurrent enrollment), ME 3170, and ME 3360/ESE 3360/ARE 3360.

ME4070 - Systems Design II

Credits: 3

Continuation of a two-course design sequence. The design teams refine their designs, fabricate the project, test the project for compliance with the design specifications, write a comprehensive engineering design report including socioeconomic factors, and prepare and deliver a presentation of the project in a public forum.

USP 2003-2014 Code U3WC

Prerequisite: Completion of the ME Success Curriculum, ME 4060/ESE 4060 and WB.

ME4100 - Manufacturing Processes

Credits: 3

Details of manufacturing processes used in production of metal, plastic and ceramic components with an emphasis on science and mechanics of processes.

Prerequisite: Completion of the ME Success Curriculum, ME 3010 and ME 3450.

ME4150 - Mechanical Behavior of Materials

Credits: 3

Commonly encountered phenomenological and mechanistic behaviors that lead to mechanical failure are examined. Understanding the origin of mechanical failure of components allows for robust design of mechanical systems. Metallic, polymeric, and ceramic materials are covered.

Prerequisite: Completion of the ME Success Curriculum, ME 3450.

ME4200 - Thermo/Kinetics of Materials

Credits: 3

Introduction to the foundations of thermodynamics and kinetics of materials, including Gibbs free energy, ideal solutions, alloy ordering, phase diagrams, atomistic mechanisms of diffusion, interfaces and microstructure, grain growth, solidification, and diffusional and diffusionless transformation in solids.

Dual Listed ME 5200.

Prerequisite: ME 3450

ME4210 - Introduction to Composite Materials

Credits: 3

Applications, mechanical properties and fabrication of fiber reinforced composite materials; stress analysis of laminated, anisotropic composite structures; study of special problems unique to composites.

Prerequisite: Completion of the ME Success Curriculum, ME 3010.

ME4215 - Composite Materials Design and Manufacturing

Credits: 3

Introduction to composite material manufacturing processes. Aspects of constituent material production, as well as design, fabrication, and testing of composite materials. Laboratory exercises, such as laminating, filament winding, pultrusion and compression molding.

Prerequisite: Completion of the ME Success Curriculum, ME 4210.

ME4240 - Gas Dynamics I

Credits: 3

Thermodynamics of a compressible fluid; one-dimensional isentropic flow, normal and oblique shocks, expansion wave, flows with friction and heat transfer.

Prerequisite: Completion of the ME Success Curriculum, ES 2310 and ES 2330.

ME4330 - Internal Combustion Engines

Credits: 3

Thermodynamic analysis and design of Otto and Diesel cycles for vehicle applications and stationary power generation. A substantial laboratory component will examine design and manufacturing issues, as well as engine performance in a variety of scenarios.

Cross Listed ESE 4330

Prerequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

ME4340 - Gas Turbine Engines

Credits: 3

Thermodynamic analysis and design of ground-based and aero-propulsion gas turbine engines.

Prerequisite: Completion of the ME Success Curriculum, ES 2310 and ES 2330.

ME4350 - Airplane Aerodynamics and Flight

Credits: 3

Introduces students to the fundamentals of airfoil and wing design, airplane aerodynamics, and airplane stability. Links these fundamental ideas to the design and performance of real aircraft.

Prerequisite: Completion of the ME Success Curriculum, ES 2330.

ME4430 - HVAC Systems Analysis and Design

Credits: 3

Engineering design and performance analysis procedures for commercial building mechanical systems including energy conservation techniques. Relationship to aesthetic, architectural and structural elements are considered.

Cross Listed ARE 4430

Prerequisite: ARE 3400/ME 3400 and ARE 3360/ME 3360 or concurrent.

ME4450 - Principles of Materials Selection

Credits: 3

A review of the economic and engineering aspects of materials selection. A detailed study of the properties, applications and limitations of engineering materials systems. Emphasis is on metal alloy systems, but non-metallics are included. Forming and joining processes are outlined.

Former Course Number [3110]

Prerequisite: Completion of the ME Success Curriculum, ME 3450

ME4455 - Combustion Engineering

Credits: 3

The basic physics and chemistry of combustion engineering and its applications are covered, including thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems.

Dual Listed ESE 4455

Prerequisite/Corequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

ME4460 - Solar and Geothermal Engineering

Credits: 3

An introduction to the engineering of solarpowered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ESE 4460

Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ME4461 - Computational Fluid Dynamics I

Credits: 3
Max Credit 3

An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed Cross-list with ME 4461

Dual Listed dual list with ME 5461

Prerequisite: ME Success Curriculum; ME/ESE 3060 - Numerical Methods; ME/ESE 3360 - Transport Phenomena

ME4470 - Wind and Ocean Energy Engineering

Credits: 3

Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented..

Cross Listed ESE 4470

Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

ME4474 - Topics in Mechanical Engineering I

Credits: 1-3

Max Credit (Max. 6)

Directed research in mechanical engineering.

Prerequisite: Completion of the ME Success Curriculum, junior standing in engineering.

ME4480 - Building Air and Hydronic Systems

Credits: 3

Design and analysis of building air and hydronic systems with focus on the application, design and analysis of thermal energy distribution systems (air and hydronic systems) for building space air conditioning. Requires enrollment in associated laboratory session.

Prerequisite: Completion of the ME Success Curriculum, ARE 4430/ME 4430 with a grade of C or above.

ME4490 - Modeling and Optimization of Energy Systems

Credits: 3

Application of principles of thermodynamics, fluids, and heat and mass transfer in the component and system-level design of energy/thermal systems, including modeling, simulation and optimization techniques. Examples are drawn from building environmental control, energy conversion and thermal industrial processes. Students work on projects for integration of these components in the design of energy/thermal systems. Requires enrollment in associated laboratory session.

Cross Listed ARE 4490

Prerequisite: Completion of the ME Success Curriculum, ARE 3360/ME 3360 and ARE 3400/ME 3400.

ME4740 - Mechanical System Design

Credits: 3

Max Credit 3

Final course in the building mechanical systems sequence incorporating elements of previous design courses by executing design of a hypothetical building with a concentration on a detailed design of the project's mechanical systems.

Prerequisite: ARE/ME 3400 HVAC of Buildings

Prerequisite/Corequisite: ARE/ME 4740

ME5040 - Introduction to Finite Element Analysis

Credits: 3

An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. Includes development of the underlying matrix equations, the treatment of element generation and properties, and implementation of boundary conditions.

Dual Listed ME 4040

Prerequisite: MATH 2310 and (CE 4200 or ARE 4200 or ME 3010)

ME5045 - Advanced Finite Element Analysis

Credits: 3

Advanced topics in finite element analysis with emphasis on mathematical foundations of the method, numerical algorithms for software implementation, and analysis of problems with material and geometric nonlinear behavior.

Cross Listed CE 5045

Prerequisite: ME 4040 or ME 5040 or CE 5040.

ME5200 - Thermo/Kinetics of Materials

Credits: 3

Introduction to the foundations of thermodynamics and kinetics of materials, including Gibbs free energy, ideal solutions, alloy ordering, phase diagrams, atomistic mechanisms of diffusion, interfaces and microstructure, grain growth, solidification, and diffusional and diffusionless transformation in solids.

Dual Listed ME 4200

Prerequisite: ME 3450

ME5422 - Advanced Vibrations

Credits: 3

Advanced principles of dynamics: Hamilton's principle, Lagrange's equations, modal analysis of discrete systems. Analysis of continuous systems; natural modes, approximate methods, forced vibration. Introduction to random vibration.

Prerequisite: ME 4010

ME5431 - Analysis of Composite Materials

Credits: 3

An introduction to the methods of analysis applied to heterogeneous material systems. Emphasis of this course is on stress based formulations and failure analysis of fiber reinforced materials including laminates.

Prerequisite: graduate standing.

ME5432 - Advanced Materials Science

Credits: 3

An analysis of the relationships between the structures of materials and their mechanical and physical properties, leading to the application of these relationships to the design of materials for advanced engineering systems. Topics include crystallography, lattice defects, transport phenomena, phase transformations, fracture, environmental effects, and control of microstructure by processing.

Prerequisite: ME 3450

ME5434 - Computational Materials Science

Credits: 3

Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

Prerequisite: graduate standing.

ME5435 - Failure of Engineering Materials

Credits: 3

Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

Prerequisite: ME 3450 or equivalent.

ME5438 - Plasticity and Viscoelasticity

Credits: 3

Analysis of stress and deformation of idealized plastic and viscoelastic solids. Limit theorems in plasticity. Time-dependent behavior of viscoelastic materials.

Prerequisite: ME 5472 or equivalent.

ME5440 - Fluid Mechanics

Credits: 3

Lagrangian and Eulerian descriptions, conservation laws, stress and rate-of-stress tensors, Navier-Stokes equations, energy equations, vorticity and circulation inviscid and potential flows, laminar flows, turbulent flows, boundary-layer theory.

Cross Listed CHE 5440.

ME5442 - Advanced Fluid Mechanics

Credits: 3

Introduction to inviscid and viscous hydrodynamic stability; closure in turbulent flows; vorticity and vortex dynamics, theoretical aerodynamics, numerical simulations of viscous flows, experimental methods in fluid flows.

Prerequisite: ME 5440.

ME5444 - Optical Diagnostics in the Thermal and Fluid Sciences

Credits: 3

An introduction to optical measurement schemes used in gas and liquid flows. Topics include a review of relevant optical principles and lasers, and in-depth coverage of laser velocimetry, droplet and particle sizing, and temperature measurement.

Prerequisite: graduate standing.

ME5446 - Turbulence

Credits: 3

Basic notions, properties and scales in turbulent flows. Transport equations; Reynold's stresses, mixing and phenomenological theories. Turbulence dynamics; mean and fluctuating kinetic energy balances, vorticity and temperature fluctuations. Statistical description of turbulence; correlations and spectra, transport, isotropy and homogeneity. Shear flows; plane jets, wakes and boundary layers (including planetary). Turbulent diffusion.

Cross Listed CHE 5446.

Prerequisite: ME 5440.

ME5448 - Experimental Fluid Dynamics.

Credits: 3

Provides an introduction to the design of fluid dynamics experiments. Specific instrumentation will be discussed and methods of analyzing and assessing data will be presented.

Prerequisite: graduate standing.

ME5452 - Convection Heat Transfer

Credits: 3

Convection, including heat and momentum transfer. Boundary layer theory. Laminar and turbulent flows, steady and unsteady formulations including differential and integral descriptions. High velocity, compressible systems.

Cross Listed CHE 5452.

Prerequisite: ES 3360 or consent of instructor.

ME5455 - Combustion Engineering

Credits: 3

The basic physics and chemistry of combustion engineering and its applications are covered, including thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems.

Dual Listed ME 4455 ESE 4455

Prerequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

ME5461 - Computational Fluid Dynamics I

Credits: 3

An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed Dual list with ME 4461 and ESE 4461

Prerequisite: graduate standing

ME5462 - Computational Fluid Dynamics II

Credits: 3

A study of advanced techniques in modern-day scientific computing as applied to Computational Fluid Dynamics. These include unstructured mesh generation using Delaunay triangulation, searching and sorting techniques, and efficient data structures. Other topics cover efficient hardware implementation including cache-effects and parallel computing and sensitivity analysis for design optimization.

Prerequisite: ME 5461

ME5472 - Continuum Mechanics

Credits: 3

The basic laws of the physical behavior of continuous media. Stress and deformation at a point; fundamental equations

of balance of mass, momentum, and energy; second law of thermodynamics; curvilinear coordinate analysis. Applications to linear elasticity and fluid mechanics.

Prerequisite: graduate standing.

ME5474 - Energy Methods

Credits: 3

Introduction to variational calculus with applications in solid mechanics. The basic theorems of virtual work, minimum potential energy, and complementary energy are developed. Direct methods such as Castigliano's theorem as well as the approximate methods of Ritz and Galerkin are developed and used to obtain solutions for a variety of problems in solid mechanics.

Prerequisite: ME 3010

ME5475 - Topics in Mechanical Engineering II

Credits: 1-6

Max Credit (Max. 6)

Directed research in mechanical engineering.

Prerequisite: senior or graduate standing in engineering.

ME5478 - Seminar in Mechanical Engineer

Credits: 2

Prerequisite: graduate standing in engineering.

ME5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

ME5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

advanced degree candidacy.

ME5959 - Enrichment Studies

Credits: 1-3

Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 credit in this course may not be included in a graduate program of study for degree purposes.

ME5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

ME5961 - Graduate Projects

Credits: 1-4
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly activities in support of their Plan B project. Prerequisites: enrollment in Plan B program and have departmental approval.

ME5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Medical Laboratory Science

MLSK4840 - Laboratory Education Methodology

Credits: 1
This course provides an overview of education methodology and issues related to roles as educators in the clinical laboratory profession. Course topics and assignments include pedagogy, curriculum design, assessment and accreditation. Major educational responsibilities for clinical laboratory professionals relating to continuing education, competency assurance, certification and licensure will be addressed.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4850 - Clinical Research Design

Credits: 2

A course in research design methods commonly used in clinical research. Emphasis is on research design, process, measurement, regulatory issues, and ethics, as used by investigators. The focus is to equip students with knowledge and skills necessary to critically examine professional literature, methodology and ethical considerations that influence research design.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4860 - Laboratory Management

Credits: 3

This course introduces students to laboratory management systems, testing, reimbursement, accrediting/regulatory issues, finances, information systems, QA/QC improvement and supervisory roles in the clinical laboratory. Emphasis is on management and communication skills needed to work successfully as entry-level professionals in a health care setting.

USP 2015 Code U5C3

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4870 - Advanced Clinical Chemistry

Credits: 4

This course is designed to introduce students to advanced topics in clinical chemistry in relation to instrumentation, diagnostic testing and its correlation to disease states, and method correlation and validation. Students will demonstrate the ability to describe principles and applications required for the entry level laboratory scientist.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an AS degree in MLT within the past 5 years.

MLSK4880 - Advanced Hematology: Erythrocytes

Credits: 2

Advanced hematology principles and techniques prepare students for practice in the clinical laboratory. This course will focus on advanced topics of hematology, focusing on normal and abnormal erythrocytes in relation to assessment, and disease correlation.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an AS degree in MLT within the past 5 years.

MLSK4890 - Professional Career Paths and Review

Credits: 2

This Medical Laboratory Sciences program prepares students for a variety of graduate degrees and careers in laboratory medicine. This course is designed to help students investigate career and education opportunities after becoming a certified Medical Laboratory Scientist and also provides students with a cumulative review to ensure mastery of content.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an AS degree in MLT within the past 5 years.

MLSK4981 - Advanced Clinical Practicum-Hematology

Credits: 3

Advanced hematology principles and techniques prepare students for practice in the clinical laboratory. Topics include leukopoiesis, leukemias, lymphomas, hemostasis, coagulopathies, urinalysis and body fluids. Laboratory will focus on abnormal smears, normal and leukemic bone marrow evaluations, and coagulation mixing studies, factor assays and body fluids related to clinical disease states.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4982 - Advanced Clinical Practicum-Molecular

Credits: 3

Principles of molecular technology used in clinical laboratories. Laboratory experiences include cytogenetics, nucleic acid extraction, hybridization, detection, amplification, sequencing, microarrays, and in-situ hybridization. Emphasis is on the areas of the clinical laboratory that use molecular techniques related to genetics, oncology, infectious disease, and identity testing for forensic and transplant purposes.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4983 - Advanced Clinical Practicum-Immunohematology

Credits: 3

Principles of immunology theory, blood group systems, genetics, and immunohematology techniques. Procedures including evaluation of blood samples, pretransfusion compatibility testing, and transfusion reactions are studied. Serologic testing and problem-solving in antibody identification and complex procedures are stressed. Laboratory emphasizes modern practices, resolution of compatibility problems and advanced antibody identification methods.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4984 - Advanced Clinical Practicum- Microbiology

Credits: 3

Focus is on underlying mechanisms of microbial pathogenesis, host responses to infectious disease and clinical diagnosis procedures. Emphasis is on detailed mechanisms of infection, pathogenesis, and major discoveries and technologies in medical microbiology. Current issues in public and global health, epidemiology, bioterrorism, biotechnology and vaccination programs will be studied.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

Microbiology

MICR2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.

Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

MICR2220 - Pathogenic Microbiology

Credits: 3

This course serves as an introduction to bacterial pathogenesis and disease using taxonomy and categorical approaches. Material presented in the course includes maintenance, transmission, molecular mechanisms of virulence factors, pathogen-host interactions, disease process, and treatment and prevention of disease of pathogenic bacteria and fungus.

Cross Listed PATB 2220.

Prerequisite: MOLB 2021 or MICR 2021.

MICR2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors, introduces students to microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance; also covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MOLB 2240.

Prerequisite: LIFE 1010.

MICR3021 - Eukaryotic Microbes

Credits: 3

Max Credit 3

This course will address the biology and ecology of lower eukaryotic life-forms. Topics include: marine phyto- and zooplankton, terrestrial and fresh water aquatic micro-algae, protists, the evolution of multicellularity, and a phylogenetic survey of microscopic multi-cellular life.

Cross Listed PATB 3021

Prerequisite: MOLB/MICR-2021, General Microbiology

MICR4001 - Epidemiology (Diseases in Population)

Credits: 3

Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed PATB 4001.

Dual Listed MICR 5001.

Prerequisite: STAT 2050.

MICR4090 - Food Microbiology

Credits: 3

Discusses micro-organisms and theory of their growth and survival in relation to spoilage and preservation of foods and health hazards in foods.

Cross Listed FDSC 4090.

Prerequisite: MOLB 2021 or MICR 2021.

MICR4100 - Food Microbiology Lab

Credits: 1

Lab techniques used in food microbiology.

Cross Listed FDSC 4100.

Prerequisite: FDSC 4090 or FDSC 5090, taken concurrently.

MICR4130 - Mammalian Pathobiology

Credits: 3

Anatomical basis of disease in mammals. Emphasis on concepts of pathogenesis of disease, and the gross, microscopic and clinicopathological changes associated with lesions: cell injury and death; cellular degeneration; disturbances of growth and circulation; neoplasia; inflammation; and recognition of gross and microscopic tissue changes. Background in immunology will be beneficial.

Cross Listed PATB 4130.

Dual Listed MICR 5130.

USP 2015 Code U5C3

Prerequisite: C or better in LIFE 2022.

MICR4140 - Soil Microbiology

Credits: 4

Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture and forestry.

Cross Listed SOIL 4140.
Dual Listed MICR 5140.
Prerequisite: SOIL 2010.

MICR4200 - Diagnostic Bacteriology

Credits: 1

Practical training with emphasis on diagnostic procedures used in a clinical microbiology laboratory. Students identify bacterial pathogens of animals and humans. Taught in a clinical setting utilizing selected clinical material. Techniques employed in the processing and identification of clinically significant bacteria are used and discussed. Safe laboratory practices for working with biohazards are presented.

Cross Listed PATB 4200.

Prerequisite: junior standing and a MICR course which included a laboratory.

MICR4220 - Molecular Mechanisms of Bacterial Pathogenesis

Credits: 3

Intended as a survey of the molecular mechanisms that have evolved in pathogenic bacterial species which result in disease. The broad-scoped objective is to assist students in gaining an understanding of principles and concepts as they apply to common themes of bacterial virulence acting on higher order host organisms. In-class review/discussion of scholarly manuscripts, historical to present day, is paramount in allowing students to gain a better appreciation and comprehension of biological principles and concepts through knowledge of experimental approaches.

Cross Listed PATB 4220

Dual Listed MICR 5220.

Prerequisite: PATB 2220 or MICR 2220, and statistics (or epidemiology).

MICR4321 - Microbiology Capstone

Credits: 4

Using a problem-based student learning model, students conceptualize, propose, perform and present a microbiology research study to address a real community problem. Students maintain a lab notebook, write an NSF-style research proposal, formulate hypotheses, engage in hands-on laboratory hypothesis testing and design and present a scientific poster.

USP 2015 Code U5C3

Prerequisite: MICR majors with junior or senior standing.

MICR4360 - Medical Entomology and Parasitology

Credits: 4

Emphasis on medically important arthropods, protozoa, and worms; clinical effects of infection epidemiology avoidance/control and identification/diagnosis.

Prerequisite: 8 hours of biological science

MICR4440 - Microbial Genetics

Credits: 3

Discusses microbial genetic approaches to study cell function and provides a molecular foundation for understanding how genes work to elicit phenotypes.

Cross Listed MOLB 4440.

Dual Listed MOLB 5440

When Offered Spring

Prerequisite: MOLB 2021 or MICR 2021 or MICR 2240, and LIFE 3050

MICR4460 - Microbial Physiology

Credits: 3

Studies life processes of microbes as mediated by their structures acting in consort, in response to changing environments.

Cross Listed MOLB 4460.

Dual Listed MOLB 5460

When Offered Fall

Prerequisite: Minimum grade of C in MOLB 2021 or MICR 2021 or MOLB 2240, and minimum grade of C in MOLB 3610 or CHEM 4400 or MOLB 4600

MICR4500 - Veterinary Entomology and Parasitology

Credits: 3

Biology, importance and control of arthropod, helminth and protozoan parasites of food and companion animals. Diagnosis and identification of live and preserved specimens.

Cross Listed PATB 4500.

Prerequisite: 8 hours of biological science.

MICR4540 - Microbial Diversity and Ecology

Credits: 4

Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design. Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MOLB 4540 and SOIL 4540.

Dual Listed MOLB 5540 and SOIL 5540 and ECOL 5540.

Prerequisite: MOLB 2021 or MICR 2021.

MICR4710 - Medical Virology

Credits: 3

Human and animal viruses as biological entities. Methods of study, classification, replication strategies, diagnostic approaches, epidemiology and significance as disease agents.

Cross Listed PATB 4710.

Prerequisite: MICR 2220 or PATB 2220 or MOLB 2240 or MICR 2240.

MICR5001 - Epidemiology (Diseases in Population)

Credits: 3

Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed PATB 5001.

Dual Listed MICR 4001.

Prerequisite: STAT 2050.

MICR5130 - Mammalian Pathobiology

Credits: 3

Anatomical basis of disease in mammals. Emphasis on concepts of pathogenesis of disease, and the gross, microscopic and clinicopathological changes associated with lesions: cell injury and death; cellular degeneration; disturbances of growth and circulation; neoplasia; inflammation; and recognition of gross and microscopic tissue changes. Background in immunology will be beneficial.

Cross Listed PATB 5130.

Dual Listed MICR 4130.

Prerequisite: C or better in LIFE 2022.

MICR5140 - Soil Microbiology

Credits: 4

Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture and forestry.

Cross Listed SOIL 5140.

Dual Listed MICR 4140.

Prerequisite: SOIL 2010.

MICR5220 - Molecular Mechanisms of Bacterial Pathogenesis

Credits: 3

Intended as a survey of the molecular mechanisms that have evolved in pathogenic bacterial species which result in disease. The broad-scoped objective is to assist students in gaining an understanding of principles and concepts as they apply to common themes of bacterial virulence acting on higher order host organisms. In-class review/discussion of scholarly manuscripts, historical to present day, is paramount in allowing students to gain a better appreciation and comprehension of biological principles and concepts through knowledge of experimental approaches.

Cross Listed PATB 5220.

Dual Listed MICR 4220 and PATB 4220

Prerequisite: PATB 2220 or MICR 2220 and statistics (or epidemiology).

Molecular Biology

MOLB1101 - First-Year Seminar: Genetic Engineering and Synthetic Biology

Credits: 3

Fundamental concepts in molecular biology are applied towards critical evaluation of scientific evidence, claims, and varying viewpoints on current issues in genetic engineering and synthetic biology. Exciting but controversial recent advancements include reconstructing ancient genomes, redesigning genetic circuits, engineering novel genetic codes, and creating synthetic life.

When Offered Fall

USP 2015 Code U5FY

MOLB2021 - General Microbiology

Credits: 4

Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021

When Offered Fall and Spring

Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

MOLB2240 - Medical Microbiology

Credits: 4

Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.

When Offered Spring

Prerequisite: LIFE 1010.

MOLB3000 - Introduction to Molecular Biology

Credits: 3

An introduction to molecular biological processes governing cellular events is presented in the context of the structure

of genomes, genes and chromosomes, DNA replication, gene expression, signal transduction pathways and the regulation of cellular processes in disease and development. Experimental methods and technologies will also be discussed.

Prerequisite: LIFE 1010 and CHEM 1030; MOLB 2021 or MICR 2021 recommended.

MOLB3320 - Molecular Biological Methods

Credits: 4

Integrated discussion and hands-on experience with modern bioinformatic and wet lab-based molecular, genetic and biochemical methods. Completion of the course should provide students with enhanced theoretical understanding and practical knowledge of many crucial modern computational and molecular biological techniques.

When Offered Spring

Prerequisite: Minimum grade of C in MOLB 2021 or MICR 2021

MOLB3610 - Principles of Biochemistry

Credits: 4

One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

MOLB4010 - Laboratory Research in Molecular Biology

Credits: 1-3

Max Credit 12

Undergraduate student will conduct a laboratory or computational research project under the guidance of a Molecular Biology Department faculty member, who will serve as the student's research adviser.

Prerequisite: LIFE 1010 or concurrent enrollment, and consent of instructor.

MOLB4050 - Student Seminar: Topics in ____

Credits: 1

Max Credit 4

Exposes students to current topics in molecular biosciences and examines primary journal literature with oral presentations and class discussions.

Prerequisite: MOLB 3000 or MOLB 3610 or CHEM 4400

MOLB4051 - Departmental Seminar

Credits: 1
Max Credit 15

Attend a series of weekly seminars on a diverse set of research topics presented by visiting faculty or research scientists and will participate in a discussion following the seminar.

Dual Listed MOLB 5051.
Former Course Number [4050]

Prerequisite: MOLB 3000 or MOLB 3610 or MOLB 4600.

MOLB4052 - Summer Seminar

Credits: 1
Max Credit 5

Consists of one week of lectures, presented by a renowned scientist from either academics or industry. The material presented is taken from the research program of the speaker.

Dual Listed MOLB 5052.
Former Course Number [4050]

MOLB4053 - Communications in Molecular Biology

Credits: 3
Students will explore current topics in molecular biosciences and their applications in biotechnology and medicine. The course will develop student's abilities to read and discuss scientific literatures and present the topics in different oral/written for public, research proposals and research-based business plans.

When Offered Spring
USP 2015 Code U5C3
Prerequisite: MOLB 4600 and LIFE 3050 or MOLB 3000

MOLB4100 - Clinical Biochemistry

Credits: 4
Integrated discussion of biochemical, molecular, and physiological principles underlying human medical disorders and biochemical and molecular genetics tests used in prevention, diagnosis and treatment. Weekly discussion sessions review basic concepts studied by students independently and class sessions include problem solving in an active learning format, lectures and other applied activities.

When Offered Spring
Former Course Number [3980]

Prerequisite: Minimum grade of C in MOLB 3610 or MOLB 4600; course in physiology recommended (e.g. ZOO 3115).

MOLB4260 - Quantitative Microscopy

Credits: 1

Acquaints students with principles of light microscopy, use of fluorescent probes and image processing software. Students use phase contrast, fluorescent, and confocal microscopes learning to measure and compare size and intensity of images.

Dual Listed MOLB 5260.

When Offered Fall

Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600, and PHYS 1120.

MOLB4400 - Immunology

Credits: 4

Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed PATB 4400.

Dual Listed MOLB 5400.

When Offered Fall

Prerequisite: MOLB 2021 or MICR 2021 or MOLB 2240 or PATB 2220, and a minimum grade of C in MOLB 3000 or MOLB 3610.

MOLB4440 - Microbial Genetics

Credits: 3

Max Credit 3

Discusses molecular approaches to understand the fundamental basis of genetics and gene function. Additionally, the course builds on a molecular biology foundation of how cellular processes work and are experimentally investigated with a focus on bacteria.

Cross Listed MOLB 5440

When Offered (Offered spring semester)

Prerequisite: MOLB/MICR 2021 or MOLB/MICR 2240, and LIFE 3050, and MOLB 3610 or CHEM 4400 or MOLB 3000

MOLB4450 - Cell and Developmental Genetics

Credits: 3

Integrates the genetic control of cell regulation and animal development in both vertebrate and invertebrate model systems such as *Drosophila*, *C. elegans* and the mouse. Includes studies of eukaryotic signal transduction, gene control, and current transgenic technologies.

Dual Listed MOLB 5450

When Offered Spring

Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600, and LIFE 3050

MOLB4460 - Microbial Physiology and Metabolism

Credits: 3

Studies life processes of microbes as mediated by their structures acting in consort, in response to changing environments.

Cross Listed MICR 4460.

Dual Listed MOLB 5460.

When Offered Fall

Prerequisite: Minimum grade of C in MOLB 2021 or MICR 2021 or MOLB 2240, and minimum grade of C in MOLB 3610 or CHEM 4400 or MOLB 4600

MOLB4540 - Microbial Diversity and Ecology

Credits: 4

Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design.

Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MICR 4540 or SOIL 4540.

Dual Listed MOLB 5540 or SOIL 5540 or ECOL 5540.

When Offered Fall

Prerequisite: MOLB 2021 or MICR 2021

MOLB4600 - Advanced Biochemistry

Credits: 3

Emphasis will be placed on identifying essential chemical features of select biomolecules, understanding molecular mechanisms of representative biochemical and bioenergetic processes, and detailing experimental approaches for addressing important research questions in biochemistry.

Dual Listed MOLB 5600

When Offered Fall

Prerequisite: Minimum grade of C in MOLB 3610 or CHEM 4400

MOLB4610 - Biochemistry 2: Molecular Mechanisms

Credits: 3

Biochemical and molecular mechanisms underlying cell function, including gene expression and epigenetic regulation, RNA and protein modification and function, assembly of macromolecular complexes, signaling and regulation of the cell cycle, are discussed.

Dual Listed MOLB 5610

Prerequisite: Minimum grade of C in MOLB 3610 or MOLB 4600

MOLB4670 - Advanced Molecular Cell Biology

Credits: 3

Key concepts in eukaryotic cell biology will be presented with a focus on cellular processes that form the basis for human diseases. Cellular organization, dynamics, and signaling will be emphasized. Students will also explore principles of research design by critical reading and discussion of scientific literature.

Dual Listed MOLB 5670

When Offered Fall

Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600

MOLB4680 - Signaling in Host-microbe Interaction

Credits: 3

Interactions of bacterial and fungal pathogens with animal and plant hosts will be discussed, including current research exploring molecular signaling mechanisms affecting innate immune receptors, the communication between organelles in host cells, and the tight communication between hosts and pathogens in relationships such as symbiosis.

Dual Listed MOLB 5680

When Offered Spring

Prerequisite: MOLB 2021 or MICR 2021, and MOLB 3610 or MOLB 3000

MOLB4850 - Undergraduate Teaching Internship

Credits: 1

Max Credit 4

Undergraduate student will assist in classroom or laboratory teaching under the guidance of an instructor in Molecular Biology.

Lab/Lecture Hours Offered Satisfactory/Unsatisfactory only.

Prerequisite: Junior standing and consent of instructor.

MOLB4990 - Topics In: ____

Credits: 1-3

Max Credit 6

Lectures, literature reviews and discussion of selected current topics in different areas of molecular biology. Please check class schedule for current offerings each semester.

Prerequisite: MOLB 3000 or MOLB 3610 or MOLB 4600.

MOLB5010 - Advanced Laboratory Research in Molecular Biology

Credits: 1-3

Max Credit 18

Students in PhD, MS and MA programs in Molecular Biology, and doctoral students in the Molecular and Cellular Life Sciences (MCLS) graduate program, work in laboratory or computational research projects under the guidance of a

Molecular Biology faculty member.

Prerequisite: graduate standing and consent of instructor.

MOLB5050 - Advanced Student Seminar

Credits: 2
Max Credit 8

Introduction of reading, analyzing, and discussing primary sources in scientific literature. Read primary research papers, give presentations with full participation in critical discussions of data and interpretations of all journal articles analyzed. Papers chosen for review are typically related to research of Molecular Biology Departmental Seminar Series speakers.

Prerequisite: MOLB 4600 or concurrent enrollment

MOLB5051 - Department Seminar

Credits: 1
Max Credit 15

Required attendance at a series of weekly seminars presented by visiting faculty on a diverse set of research topics. Undergraduates are able to use one credit hour to partially fulfill the seminar requirement.

Dual Listed MOLB 4051

Prerequisite: MOLB 3000 or MOLB 3610 or MOLB 4600.

MOLB5052 - Summer Seminar

Credits: 1
Max Credit (Max. 5)

Consists of one week of lectures, presented by a renowned scientist from either academics or industry. The material presented is taken from the research program of the speaker.

Dual Listed MOLB 4052

MOLB5055 - Molecular Monday

Credits: 1
Max Credit 12

Students will present and hear formal presentations of research being conducted at the University of Wyoming in the molecular biosciences. Participation in question and answer periods following presentations is required, as is the completion of an evaluation form for each presentation.

Prerequisite: Graduate standing

MOLB5056 - Current Topics in Cell Biology

Credits: 2
Max Credit 18

Students present their ongoing laboratory research and receive feedback from lab group members. Principles of research design will be explored by critical reading and discussion of current topical literature.

Prerequisite: Graduate standing

MOLB5057 - Microbial and Synthetic Biology

Credits: 2
Max Credit 18

Students will present current research in the fields of Molecular Microbiology and Synthetic Biology, which will be followed by a critical discussion moderated by the course instructors. Students will explore the principles of research design by critical reading and discussion of scientific literature.

Prerequisite: Graduate standing

MOLB5058 - Experimental Molecular Genetics

Credits: 2
Max Credit 18

Students will formally present their research on molecular biology projects and will actively participate in discussion of other student's presentations. Students will also select current topical research articles and present critical evaluations of those articles to the class.

Prerequisite: Graduate standing

MOLB5260 - Quantitative Microscopy

Credits: 1
Acquaints students with principles of light microscopy, use of fluorescent probes and image processing software. Students use phase contrast, fluorescent, and confocal microscopes learning to measure and compare size and intensity of images.

Dual Listed MOLB 4260

Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600, and PHYS 1120

MOLB5400 - Immunology

Credits: 4
Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed PATB 4400

Dual Listed MOLB 4400

When Offered Fall

Prerequisite: MOLB 2021 or MICR 2021 or MOLB 2240 or PATB 2220, and a minimum grade of C in MOLB 3000 or MOLB 3610

MOLB5440 - Microbial Genetics

Credits: 3

Discusses microbial genetic approaches to study cell function and provides a molecular foundation for understanding how genes work to elicit phenotypes.

Dual Listed MOLB 4440

When Offered Spring

Prerequisite: MOLB 2021 or MICR 2021 or MICR 2240, and LIFE 3050

MOLB5450 - Cell and Developmental Genetics

Credits: 3

Integrates the genetic control of cell regulation and animal development in both vertebrate and invertebrate model systems such as *Drosophila*, *C. elegans* and the mouse. Includes studies of eukaryotic signal transduction, gene control, and current transgenic technologies.

Dual Listed MOLB 4450

When Offered Spring

Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600, and LIFE 3050.

MOLB5460 - Microbial Physiology and Metabolism I

Credits: 3

Studies life processes of microbes as mediated by their structures acting in consort, in response to changing environments.

Dual Listed MOLB 4460.

When Offered Fall

Prerequisite: Minimum grade of C in MOLB 2021/MICR 2021 or MOLB 2240, and MOLB 3610 or MOLB 4600 or CHEM 4400.

MOLB5520 - Molecular and Cellular Life Sciences Laboratory Rotations

Credits: 3

Max Credit 6

Laboratory research rotations for first year Molecular and Cellular Life Sciences (MCLS) students in the doctoral program.

Prerequisite: Enrollment in the Molecular and Cellular Life Sciences (MCLS) program.

MOLB5521 - Molecular and Cellular Life Sciences Cornerstone

Credits: 1

Introduction for students in the Molecular and Cellular Life Sciences program to graduate school and research. Exposes students to diverse faculty research programs and elements fundamental to successful graduate and scientific careers, including scientific publishing, grants, careers, intellectual property, and ethical expectations.

When Offered Fall

Prerequisite: Enrollment in the Molecular and Cellular Life Sciences doctoral program.

MOLB5540 - Microbial Diversity and Ecology

Credits: 4

Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design. Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MOLB 4540 or MICR 4540 or SOIL 4540

Dual Listed SOIL 5540 or ECOL 5540

When Offered Fall

Prerequisite: MOLB 2021 or MICR 2021

MOLB5600 - Advanced Biochemistry

Credits: 3

Emphasis will be placed on identifying essential chemical features of select biomolecules, understanding molecular mechanisms of representative biochemical and bioenergetic processes, and detailing experimental approaches for addressing important research questions in biochemistry.

Dual Listed MOLB 4600

When Offered Fall

Prerequisite: Consent of instructor.

MOLB5610 - Biochemistry 2: Molecular Mechanisms

Credits: 3

Biochemical and molecular mechanisms underlying cell function, including gene expression and epigenetic regulation, RNA and protein modification and function, assembly of macromolecular complexes, signaling and regulation of the cell cycle, are discussed.

Dual Listed MOLB 4610

Prerequisite: Consent of instructor.

MOLB5630 - Advanced Topics in Molecular Biology

Credits: 1-3
Max Credit 6

Lectures, literature reviews and discussion of selected current topics in molecular biology. Check class schedule for current offerings each semester.

Prerequisite: MOLB 3000 or MOLB 3610 or MOLB 4600

MOLB5670 - Advanced Molecular Cell Biology

Credits: 3

Key concepts in eukaryotic cell biology will be presented with a focus on cellular processes that form the basis for human diseases. Cellular organization, dynamics, and signaling will be emphasized. Students will also explore principles of research design by critical reading and discussion of scientific literature.

Dual Listed MOLB 4670

Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600

MOLB5680 - Signaling in Host-microbe Interaction

Credits: 3

Interactions of bacterial and fungal pathogens with animal and plant hosts will be discussed, including current research exploring molecular signaling mechanism affecting innate immune receptors, the communication between organelles in host cells, and the tight communication between hosts and pathogens in relationships such as symbiosis.

Dual Listed MOLB 4680

When Offered Spring

Prerequisite: MOLB 2021 and MOLB 3000 or MOLB 4600

MOLB5700 - Principles of Biomedical Research

Credits: 3

This series of complementary workshops will provide opportunities to develop knowledge and skills in scientific methodology, data analysis, statistical interpretation and representation, scientific communication, research codes and ethics, entrepreneurship, and interpersonal conduct. Students will also learn about career options and develop individual goals and trajectories based on strengths and interests.

When Offered Spring

Prerequisite: Graduate student status (biomedical fields preferred).

MOLB5900 - Practicum in College Teaching

Credits: 1-3
Max Credit 3

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: Graduate standing and consent of instructor.

MOLB5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit 16

Prerequisite: Advanced degree candidacy.

MOLB5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit 16

Prerequisite: Advanced degree candidacy.

MOLB5959 - Enrichment Studies

Credits: 1-3
Max Credit 99

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

MOLB5960 - Thesis Research

Credits: 1-12
Max Credit 24

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: Enrollment in a graduate degree program.

MOLB5980 - Dissertation Research

Credits: 1-12
Max Credit 48

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: Enrollment in a graduate degree program.

MOLB5990 - Internship

Credits: 1-12
Max Credit 24

Prerequisite: Graduate standing.

Music

MUSCA4370 - Live Sound Reinforcement

Credits: 1-3

Topics include history of live sound reinforcement, analog audio, digital consoles, system checks, troubleshooting, and client relations. Students will build upon MUSC 4360 with focus on live sound reinforcement.

MUSC0200 - Music Convocation

Credits: 0

Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.

MUSC1000 - Introduction to Music

Credits: 3

Introduces music appreciation to students who have little or no musical training. Requires attendance at a specified number of public concerts.

USP 2003-2014 Code U3CA
USP 2015 Code U5H

MUSC1003 - Historical Perspectives in Music I

Credits: 3

The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3I, U3L

Prerequisite: Music majors and minors, or by permission of the instructor.

MUSC1007 - Hip-Hop/Pop Music Appreciation

Credits: 3

From Kool Herc, Notorious B. I. G, Van Halen, and Queen, all the way up to today's artists, students will learn to understand, discern, and truly appreciate hip-hop and popular music.

MUSC1009 - The Roots of Country Music

Credits: 3

This online class examines the diverse musical practices that contributed to Country Music in the United States. Early styles and genres from the Anglo American and African American music traditions will be studied. Students will develop their musical vocabulary and hone basic listening and analytical skills.

MUSC1010 - Music Fundamentals

Credits: 3

To establish/ review the foundation of the materials and structures of music theory fundamentals.

MUSC1025 - Introduction to Music Education

Credits: 2

Introduces music teacher education. Includes overview of vocal and instrumental music education and teaching processes in grade levels K-12. Requires on-site visits and observations of music programs.

When Offered (Offered spring semester)

Former Course Number [1020]

Prerequisite: music majors only.

MUSC1030 - Written Theory I

Credits: 3

First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.

MUSC1035 - Aural Theory I

Credits: 1

First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3

Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II

Credits: 1

Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

MUSC1080 - Baritone Horn I

Credits: 1-2
Max Credit (Max. 8)

Applied Lessons

MUSC1090 - Bassoon I

Credits: 1-2
Max Credit (Max. 8)

MUSC1100 - Cello I

Credits: 1-2
Max Credit (Max. 8)

MUSC1110 - Clarinet I

Credits: 1-2
Max Credit (Max. 8)

MUSC1120 - Double Bass I

Credits: 1-2
Max Credit (Max. 8)

MUSC1130 - Flute I

Credits: 1-2
Max Credit (Max. 8)

MUSC1140 - French Horn I

Credits: 1-2
Max Credit (Max. 8)

MUSC1150 - Guitar I

Credits: 1-2
Max Credit (Max. 8)

MUSC1160 - Harp I

Credits: 1-2
Max Credit (Max. 8)

MUSC1170 - Oboe I

Credits: 1-2
Max Credit (Max. 8)

MUSC1180 - Organ I

Credits: 1-2
Max Credit (Max. 8)

MUSC1190 - Percussion I

Credits: 1-2
Max Credit (Max. 8)

MUSC1200 - Piano I

Credits: 1-2
Max Credit (Max. 8)

MUSC1210 - Saxophone I

Credits: 1-2
Max Credit (Max. 8)

MUSC1220 - Trombone I

Credits: 1-2
Max Credit (Max. 8)

MUSC1230 - Trumpet I

Credits: 1-2
Max Credit (Max. 8)

MUSC1240 - Tuba I

Credits: 1-2
Max Credit (Max. 8)

MUSC1250 - Violin I

Credits: 1-2
Max Credit (Max. 8)

MUSC1260 - Viola I

Credits: 1-2
Max Credit (Max. 8)

MUSC1270 - Voice I

Credits: 1-2
Max Credit (Max. 8)

MUSC1280 - Collaborative Piano I

Credits: 1-2
Max Credit (Max. 8)

Encompasses supervised practice in the art of collaborative piano playing. Discusses traditional usages as applicable to various schools and periods of vocal and instrumental duo literature.

Prerequisite: audition required.

MUSC1290 - Class Piano I

Credits: 1
Encompasses group instruction for the beginner at the keyboard. First semester of four-semester sequence. Enrollment limited to music or music education majors whose principal performance area is not piano.

When Offered (Offered fall semester)

MUSC1295 - Class Piano II

Credits: 1
Continues skills begun in MUSC 1290 including all major scales, beginning minor scales, prescribed chord progressions, harmonization, transposition, sight reading and repertoire.

When Offered (Offered spring semester)

Prerequisite: MUSC 1290 or successful completion of final exam requirements for MUSC 1290.

MUSC1312 - Public School Tech: Brass

Credits: 2
This course is designed to teach the fundamentals of brass pedagogy and performance for music education majors. The course consists of two components applied study on brass instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1322 - Public School Tech: Percussion

Credits: 2
This course is designed to teach the fundamentals of percussion pedagogy and performance for music education majors. The course consists of two components applied study on percussion instruments and study/discussion of current

pedagogy and methods.

Restricted Restricted to Music Education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1332 - Public School Tech: Strings

Credits: 2

This course is designed to teach the fundamentals of string pedagogy and performance for music education majors. The course consists of two components applied study on string instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1340 - Public School Methods: Voice I

Credits: 1

Max Credit (Max. 2)

Encompasses group instruction in vocal methods for music education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1352 - Public School Tech: Woodwinds

Credits: 2

This course is designed to teach the fundamentals of woodwind pedagogy and performance for music education majors. The course consists of two components applied study on woodwind instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1360 - Public School Methods: Guitar

Credits: 1

Max Credit (Max. 2)

Prerequisite: MUSC 1040, MUSC 1045.

MUSC1370 - Marching Band

Credits: 1

Max Credit (Max. 8)

Fall semester: marching band. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

MUSC1375 - Symphonic Band

Credits: 1

Max Credit (Max. 8)

Ensembles. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

Prerequisite: players are selected by audition. Auditions will take place the first week of classes.

MUSC1380 - Wind Ensemble

Credits: 1

Max Credit (Max. 8)

(MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

USP 2003-2014 Code U3CA

Prerequisite: players are selected by audition from the university band.

MUSC1390 - Jazz Ensemble

Credits: 1

Max Credit (Max. 8)

Preparation and performance in a select jazz ensemble of the finest in standard jazz ensemble repertory and contemporary compositions by living jazz artists.

USP 2015 Code U5H

Restricted Restricted to freshmen and sophomores.

Prerequisite: audition required. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420,

MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

MUSC1400 - Collegiate Chorale I

Credits: 1
Max Credit (Max. 12)

Will provide the committed singer with outstanding performing experiences ranging from major choral masterworks to masterpieces of the a cappella tradition, both sacred and secular. The choir is a professional training ensemble, and each student will explore a variety of vocal techniques for development. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

USP 2003-2014 Code U3CA
USP 2015 Code U5H
Prerequisite: Audition required.

MUSC1405 - The UW Singing Statesmen I

Credits: 1
Max Credit (Max. 12)

Will provide all levels of singer with the rich tradition of male ensemble singing. Students will solidify basic musicianship skills and vocal technique while experiencing camaraderie and service to the region. This ensemble is open to both music majors and non-music majors without audition.

USP 2015 Code U5H

MUSC1407 - Happy Jacks I

Credits: 1
Max Credit (Max. 12)

Student-led male a cappella ensemble that sings contemporary, jazz, and traditional repertoire. The ensemble travels regularly to promote male singing through concerts and school workshops.

Prerequisite: Audition required.
Corequisite: enrollment in The UW Singing Statesmen.

MUSC1411 - Vocal Jazz I

Credits: 1
Max Credit (Max. 12)

Sings standard repertory from various jazz traditions, often with rhythm section. Focus on building musical skill and literacy in the jazz idiom.

Prerequisite: Audition required.

MUSC1415 - Bel Canto Women's Chorus

Credits: 1
Max Credit (Max. 12)

Builds community through score study and the development of fundamental musicianship skills, including sight singing, ear training, and vocal technique. This ensemble is open to both music majors and non-music majors without audition.

USP 2015 Code U5H

MUSC1417 - Laramie Civic Chorus I

Credits: 1
Max Credit (Max. 12)

Welcomes students, faculty, and community members. Repertoire includes musical works from a multiplicity of style periods and genres in both Western and non-Western traditions and includes regular collaboration with the UW Symphony Orchestra for major choral works.

USP 2015 Code U5H

Prerequisite: Audition required.

MUSC1420 - Opera Theatre

Credits: 1
Max Credit (Max. 8)

(MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

MUSC1430 - Symphony Orchestra I

Credits: 1
Max Credit (Max. 8)

The premier orchestral ensemble in the Department of Music. Participation in this ensemble prepares students to perform some of the great symphonic literature from a wide variety of musical periods. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

USP 2003-2014 Code U3CA

USP 2015 Code U5H

Prerequisite: audition only, freshmen and sophomores.

MUSC1440 - Chamber Orchestra I

Credits: 1

Max Credit (Max. 8)

Devoted to the rehearsal and performance of masterpieces from the chamber orchestra repertoire. Students in the 1440 level of Chamber Orchestra will be expected to have a competent level of proficiency on their parts. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

MUSC1450 - Percussion Ensemble

Credits: 1

Max Credit (Max. 8)

Present concerts that represent the literature and techniques of this growing genre in music. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

MUSC1460 - Brass Ensemble

Credits: 1

Max Credit (Max. 8)

The University of Wyoming Brass Ensemble is a course devoted to the rehearsal and performance of masterpieces from the brass chamber repertoire. Students in the 1460 level of Brass Ensemble will be expected to have a competent level of proficiency on their parts. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

MUSC1470 - Woodwind Ensemble

Credits: 1

Max Credit (Max. 8)

Preparation and performance in a select woodwind chamber ensemble of the finest standard and contemporary wind ensemble literature. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in

residence.)

Restricted Enrollment is restricted freshmen and sophomores.

Prerequisite: audition required.

MUSC1480 - Chamber Music I

Credits: 1

Max Credit (Max. 8)

Designed to provide students with training in the ideal medium of chamber music (small ensembles, such as trio, string quartet, etc.), where they can apply and integrate all elements of their musical knowledge. These include but are not limited to rhythm, intonation, tone-production, blend, musical interpretation, concept of style, etc. (MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

Prerequisite: audition required.

MUSC1490 - Ensemble

Credits: 1

(MUSC 1370, MUSC 1375, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 1420, MUSC 1430, MUSC 1440, MUSC 1450, MUSC 1460, MUSC 1470, MUSC 1480, MUSC 1490. Ensembles. Maximum of 14 semester hours may be used toward the bachelor's degree from any combination of these courses. Music majors must play in one ensemble each semester in residence. Scholarship recipients must play in two ensembles each semester in residence.)

MUSC2030 - Written Theory III

Credits: 3

First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1

First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3

Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC2045 - Aural Theory IV

Credits: 1

Second semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 2035.

MUSC2050 - Historical Perspectives in Music II

Credits: 3

Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA

Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III

Credits: 3

Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

MUSC2080 - Baritone Horn II

Credits: 1-2

Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2090 - Bassoon II

Credits: 1-2

Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2100 - Cello II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2110 - Clarinet II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2120 - Double Bass II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2130 - Flute II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2140 - French Horn II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2150 - Guitar II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2160 - Harp II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2170 - Oboe II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2180 - Organ II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2190 - Percussion II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2200 - Piano II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2210 - Saxophone II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2220 - Trombone II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2230 - Trumpet II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2240 - Tuba II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2250 - Violin II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2260 - Viola II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2270 - Voice II

Credits: 1-2
Applied Lessons

Prerequisite: previous training proven with an audition or 2-4 semester hours of MUSC 1080 through MUSC 1270 on the same instrument.

MUSC2290 - Class Piano III

Credits: 1
Third semester of four-semester sequence developing further piano skills for non-pianists. Involves prescribed scales, arpeggios, harmonizations, chord progressions, transpositions, sight-reading and repertoire.

When Offered (Normally offered fall semester)

Prerequisite: MUSC 1295 or successful completion of final exam for MUSC 1295.

MUSC2295 - Class Piano IV

Credits: 1
Final semester of four-semester sequence of piano skills for non-pianists in which the final exam is the departmental piano proficiency exam.

When Offered (Normally offered spring semester)

Prerequisite: MUSC 2290 or successful completion of the final exams for preceding courses.

MUSC2320 - Diction for Singers I

Credits: 2
Studies phonetic sounds of English and Italian.

When Offered (Offered fall semester)

MUSC2325 - Diction for Singers II

Credits: 2
Studies phonetic sounds of French and German. (Usually offered spring semester)

MUSC2390 - Piano Literacy Exam

Credits: 0
The Piano Literacy test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2390 a maximum of two times. Consult the Music Department Handbook for specific requirements.

Restricted MUSIC, BA and BM Instrumental Performance only

MUSC2395 - Piano Proficiency

Credits: 0

Piano proficiency test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2395 a maximum of 2 times. Consult the Music Department Handbook for specific requirements.

MUSC3015 - Introduction to the Music of the World's Peoples

Credits: 3

Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Cross Listed ANTH 3015.

USP 2003-2014 Code U3G, U3WB

A&S College Core 2015 ASG

Former Course Number [2015]

Prerequisite: MUSC 1000 or permission of instructor and WA.

MUSC3025 - Fundamentals of Jazz Improvisation

Credits: 2

Continuation of Jazz Aural Theory IV, MUSC 1045. More advanced topics will be covered and more challenging repertoire will be explored. A strong emphasis will be placed on common practice techniques in mainstream jazz.

Prerequisite: MUSC 2045.

MUSC3080 - Baritone Horn III

Credits: 1-2

Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3090 - Bassoon III

Credits: 1-2

Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3100 - Cello III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3110 - Clarinet III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3120 - Double Bass III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3130 - Flute III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3140 - French Horn III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3150 - Guitar III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3160 - Harp III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3170 - Oboe III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3180 - Organ III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3190 - Percussion III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3200 - Piano III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3210 - Saxophone III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3220 - Trombone III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3230 - Trumpet III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3240 - Tuba III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3250 - Violin III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3255 - Sophomore Qualifying Performance Jury

Credits: 0

An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

Prerequisite: 4 semesters of private instruction, consent of instructor.

MUSC3260 - Viola III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3265 - Music Education Proficiency Review

Credits: 0

This course is required for entrance into upper-division Music Education coursework. The review will assess competency in oral and written communication skills, preliminary teacher performance, sight singing, and error

detection. Completion is in the sophomore year or in the first semester for transfer students.

Prerequisite: sophomore standing.

MUSC3270 - Voice III

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC3280 - Collaborative Piano II

Credits: 1-2
Max Credit (Max. 8)

Encompasses supervised practice in the art of collaborative piano playing. Discusses traditional usages as applicable to various schools and periods of vocal and instrumental duo literature.

Prerequisite: audition required.

MUSC3380 - Wind Ensemble II

Credits: 1
Max Credit (Max. 8)

Preparation and performance in a select concert band of the finest in contemporary and classic wind and percussion repertory.

Prerequisite: audition required, MUSC 1380 or equivalent and junior standing.

MUSC3385 - World Music Ensemble

Credits: 1
Max Credit (Max. 6)

Participate fully in music making in Sikuris de Wyoming, the Wyoming Gamelan Candra Wyoga, or the Laramie Irish tune session. These group music-making opportunities are distinctly different from other leader-focused ensembles offered in the Department of Music.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC3390 - Jazz Ensemble II

Credits: 1
Max Credit (Max. 8)

Preparation and performance in a select jazz ensemble of the finest in jazz repertory.

USP 2015 Code U5H

Prerequisite: audition required, MUSC 1390 or equivalent and junior standing.

MUSC3400 - Collegiate Chorale II

Credits: 1

Max Credit (Max. 12)

Provide the advanced and committed singer with outstanding performing experiences ranging from major choral masterworks to masterpieces of the a cappella tradition, both sacred and secular. The choir is a professional training ensemble and students may be asked to take on leadership roles. Commitment of time to advance the excellence and public awareness of the ensemble will be required.

USP 2015 Code U5H

Prerequisite: audition required, and junior standing or above.

MUSC3405 - UW Singing Statesmen II

Credits: 1

Max Credit (Max. 12)

Provides all levels of singer with the rich tradition of male ensemble singing. Solidify basic musicianship skills and vocal technique while experiencing camaraderie and service to the region. May be asked to take on leadership roles to advance public awareness. Open to music majors and non-music majors without audition.

USP 2015 Code U5H

Prerequisite: Junior standing or above.

MUSC3407 - Happy Jacks II

Credits: 1

Max Credit (Max. 12)

Student-led male a cappella ensemble that sings contemporary, jazz, and traditional repertoire. Upperclass students may be asked to take on leadership roles. Ensemble travels regularly to promote male singing through concerts and school workshops.

Prerequisite: Audition only.

Corequisite: enrollment in The UW Singing Statesmen.

MUSC3411 - Vocal Jazz II

Credits: 1

Max Credit (Max. 12)

Sings standard repertory from various jazz traditions, often with rhythm section. Focus on building musical skill and literacy in the jazz idiom. Students may be asked to take on leadership roles.

Prerequisite: Audition required. Junior standing or above.

MUSC3415 - Bel Canto Women's Chorus II

Credits: 1

Max Credit (Max. 12)

Builds community through score study and the development of fundamental musicianship skills, including sight singing, ear training, and vocal technique. May be asked to take on leadership roles. This ensemble is open to music majors and non-music majors without audition.

USP 2015 Code U5H

Prerequisite: Junior standing or above.

MUSC3417 - Laramie Civic Chorus II

Credits: 1

Max Credit (Max. 12)

Welcomes students, faculty, and community members. Repertoire includes musical works from a multiplicity of style periods and genres in both Western and non-Western traditions and includes regular collaboration with the UW Symphony Orchestra for major choral works. Students may be asked to take on leadership roles.

USP 2015 Code U5H

Prerequisite: Junior standing or above; audition required.

MUSC3430 - Symphony Orchestra II

Credits: 1

Max Credit (Max. 8)

Preparation and performance in a select symphony orchestra of the finest in orchestral repertory.

USP 2015 Code U5H

Prerequisite: audition required, MUSC 1430 or equivalent and junior standing.

MUSC3440 - Chamber Orchestra II

Credits: 1

Max Credit (Max. 8)

Devoted to the rehearsal and performance of masterpieces from the chamber orchestra repertoire. Students in the 3440 level of Chamber Orchestra will be expected to have a competent level of proficiency on their parts.

MUSC3450 - Percussion Ensemble II

Credits: 1
Max Credit (Max. 8)

A chamber music ensemble, performing repertoire which encompasses classical percussion literature, ethnic drumming styles, and steel drum ensemble. Designed for the advanced undergraduate who has normally attained a higher level of technical ability in percussion by their junior/senior year.

Prerequisite: four semesters of MUSC 1450 or equivalent and junior standing.

MUSC3460 - Brass Ensemble II

Credits: 1
The University of Wyoming Brass Ensemble is a course devoted to the rehearsal and performance of masterpieces from the brass chamber repertoire. Students in the 3460 level of Brass Ensemble will be expected to have a competent level of proficiency on their parts and assume leadership roles in the ensemble.

MUSC3470 - Woodwind Ensemble II

Credits: 1
Max Credit (Max. 8)

Preparation and performance in a select woodwind chamber ensemble of the finest standard and contemporary wind ensemble literature.

Restricted Enrollment is restricted to juniors and seniors.

Prerequisite: audition required; MUSC 1470, and junior standing.

MUSC3480 - Chamber Music II

Credits: 1
Designed to provide students with training in the ideal medium of chamber music (small ensembles, such as trio, string quartet, etc.), where they can apply and integrate all elements of their musical knowledge. These include but not limited to rhythm, intonation, tone-production, blend, musical interpretation, concept of style, etc.

USP 2003-2014 Code U3CA

Prerequisite: consent of instructor; MUSC 1480 and junior standing.

MUSC3490 - Piano Ensemble II

Credits: 1
Max Credit (Max. 8)

Training in the medium of piano duo and piano duet repertoire, apply and integrate all elements of musical knowledge. These include but are not limited to rhythm, tone-production, musical interpretation, concept of style, etc.

Prerequisite: consent of instructor; Audition required. Juniors or Seniors.

MUSC3500 - Junior Recital

Credits: 0

Students will perform a 30 minute (minimum) recital of appropriate repertoire. Consult your studio teacher for individual studio requirements.

Prerequisite: 4 semesters of private instruction, consent of instructor.

MUSC4000 - Careers in Music

Credits: 2

Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4001 - Music Entrepreneurship Seminar

Credits: 2

Further crystalizes successful business enterprise development introduced in ENTR 2700. Student will hone entrepreneurial skills in idea creation, business incubation, development, research, and commercialization.

MUSC4005 - Internship in Music Business

Credits: 1

Offers an evaluated and professional work experience in public or private organizations on assignments relating to student's career goals, allowing students to explore the relationship between theory and practice in their major.

MUSC4020 - Advanced Jazz Improvisation

Credits: 2

Continuation of Fundamentals of Jazz and Improvisation , MUSC 3025. Students will learn the harmonic and melodic language of bebop and hard bop through performance and composition of tunes in these idioms.

Prerequisite: MUSC 3025.

MUSC4025 - Jazz Composition and Arranging

Credits: 2

Continuation of Advanced Jazz Improvisation , MUSC 4020. Students explore developments in jazz improvisation and composition since 1960. Advanced theoretical concepts are covered in lectures and workshop sessions.

Prerequisite: MUSC 4020.

MUSC4040 - Composition

Credits: 2

Max Credit (Max. 12)

Prerequisite: MUSC 4010.

MUSC4050 - Advanced Studies in World Music

Credits: 3

Focuses on music-making and cultures of three musical traditions from around the world.

Prerequisite: MUSC 3015.

MUSC4060 - Applied Composition Lessons

Credits: 1-2

Max Credit (Max. 12)

Students meet on a weekly basis with the instructor and work on individual composition projects and exercises. Students will be required to take a juried portfolio examination at the end of the semester to determine, in part, the final grade.

Prerequisite: Previous training proven with a portfolio/ audition or MUSC 4040.

MUSC4070 - Conducting

Credits: 3

Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

Prerequisite: MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

MUSC4080 - Baritone Horn IV

Credits: 1-2

Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4090 - Bassoon IV

Credits: 1-2

Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4100 - Cello IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4110 - Clarinet IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4120 - Double Bass IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4130 - Flute IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4140 - French Horn IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4150 - Guitar IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4155 - Senior Music Education Recital

Credits: 0

Music Education students perform a recital which may be a part of a Convocation or a separate performance. Consult your studio teacher for individual studio requirements.

Prerequisite: senior standing and studio teacher consent.

MUSC4160 - Harp IV

Credits: 1-2

Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4170 - Oboe IV

Credits: 1-2

Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4180 - Organ IV

Credits: 1-2

Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4190 - Percussion IV

Credits: 1-2

Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4200 - Piano IV

Credits: 1-2

Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4210 - Saxophone IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4220 - Trombone IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4230 - Trumpet IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4240 - Tuba IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4250 - Violin IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4255 - Elementary and Secondary Methods: Practicum

Credits: 2

Part of Phase IIIa of the music teacher education program. Practicum experience is integral to MUSC 4265 and must be taken concurrently.

When Offered (Offered fall semester)

Prerequisite: 2.750 cumulative GPA, successful completion of all music and professional education courses and concurrent enrollment in MUSC 4265.

MUSC4260 - Viola IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4265 - Elementary and Secondary Music Teaching Methods

Credits: 8
Comprised of content and pedagogy in Music. Must be taken in the same semester as the 2 semester hour course, MUSC 4255.

When Offered (Offered fall semester).

USP 2003-2014 Code U3D, U3WC

USP 2015 Code U5C3

Prerequisite: 2.750 minimum cumulative GPA, 2.750 GPA in major, successful completion of all music and professional education courses and concurrent enrollment in MUSC 4255.

MUSC4270 - Voice IV

Credits: 1-2
Applied Lessons

Prerequisite: 2-4 semester hours of MUSC 2080 through MUSC 2270 on the same instrument.

MUSC4310 - Choral Arranging

Credits: 2
Teaches working techniques of arranging for the voice in varied combinations of choral ensembles. For graduate credit, students must present extra paper or project determined by instructor.

Prerequisite: MUSC 2030 and MUSC 2035.

MUSC4315 - America's Ethnic Music

Credits: 3
Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D

A&S College Core 2015 ASD

Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3

An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3

Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4345 - Contemporary Period

Credits: 3

Surveys styles and composers of contemporary period. For graduate credit, students must present extra paper or project determined by instructor.

USP 2003-2014 Code U3CA

Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4350 - History and Literature of Jazz

Credits: 3

Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H

Prerequisite: consent of instructor.

MUSC4360 - Fundamentals of Audio for Music Production

Credits: 3

Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.

MUSC4365 - Recording Art and Technology

Credits: 3

Topics include history of music production, multi-track recording, digital audio workstations, digital editing, session management and production, mixing, mastering, and distribution.

MUSC4370 - Live Sound Reinforcement

Credits: 1

Max Credit 3

Topics include history of live sound reinforcement, analog audio, digital consoles, system checks, troubleshooting, and client relations. Students will build upon MUSC 4360 with focus on live sound reinforcement.

MUSC4380 - Jazz Techniques

Credits: 2
Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)
Prerequisite: MUSC 2035.

MUSC4400 - Vocal Literature

Credits: 0.5-2
Max Credit (Max. 6)

Studies solo materials from Renaissance to present, emphasizing style and interpretation.

Prerequisite: 4 semester hours of voice.

MUSC4455 - Elem General Music Methods

Credits: 3
This course is designed to prepare students for a career in K-6 music teaching while emphasizing the need for music teachers to recognize diverse student needs, including those unique qualities brought into the classroom by marginalized populations.

A&S College Core 2015 ASD
Restricted Restricted to Music Education majors.

Prerequisite: Completion of MUSC 2040, MUSC 2045 and MUSC 2055. Concurrent enrollment in MUSC 4705.

MUSC4460 - Choral Music Methods

Credits: 3
This course is designed to help pre-professional music educators gain tools for teaching secondary choral music. Topics to be explored include choral literature, methodology involving strengthening musicianship, rehearsal techniques, and issues pertaining to the development of a choral ensemble program.

Restricted Restricted to Music Education majors.

Prerequisite: Completion of MUSC 2040, MUSC 2045 and MUSC 2055. Concurrent Enrollment in MUSC 4715 for choral emphasis students.

MUSC4465 - Instrumental Music Methods

Credits: 3
Based on a comprehensive instrumental music education model, this course acquaints students with curriculum

development, instructional planning, and materials and techniques designed for teaching musical concepts and skills in instrumental ensemble and class lesson settings.

USP 2015 Code U5C3

Restricted Restricted to Music Education majors.

Prerequisite: Completion of MUSC 2040, MUSC 2045 and MUSC 2055. Concurrent enrollment in MUSC 4715 for instrumental emphasis students.

MUSC4490 - History of Rock and Roll

Credits: 3

This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

MUSC4500 - Directed Independent Study-Undergraduate

Credits: 1-2

Max Credit (Max. 4)

Prerequisite: consent of department head.

MUSC4510 - Applied Music Methods and Materials: Brass Instruments

Credits: 1

Max Credit (Max. 2)

Courses taken in the form of private lessons and subject to similar fees.

A&S College Core 2015 (\$85 Fee)

Prerequisite: at least 16 semester hours in one performance field and/or consent of instructor.

MUSC4520 - Applied Music Methods and Materials: Organ

Credits: 1

Max Credit (Max. 2)

Courses taken in the form of private lessons and subject to similar fees.

A&S College Core 2015 (\$85 Fee)

Prerequisite: at least 16 semester hours in one performance field and/or consent of instructor.

MUSC4530 - Applied Music Methods and Materials: Piano

Credits: 1
Max Credit (Max. 2)

Courses taken in the form of private lessons and subject to similar fees.

A&S College Core 2015 (\$85 Fee)

Prerequisite: at least 16 semester hours in one performance field and/or consent of instructor.

MUSC4560 - Applied Music Methods and Materials: Voice

Credits: 1
Max Credit (Max. 2)

Courses taken in the form of private lessons and subject to similar fees.

A&S College Core 2015 (\$100 Fee)

Prerequisite: at least 16 semester hours in one performance field and/or consent of instructor.

MUSC4590 - Senior Recital

Credits: 2
Max Credit (Max. 4)

Prerequisite: at least 14 semester hours in one performance field and senior standing.

MUSC4615 - Instrumental Pedagogy

Credits: 2
Surveys teaching materials in solo and chamber literature, techniques, practices, and methods for applicable instrument.

Prerequisite: 8 credit hours of individual study in a specific instrument.

MUSC4620 - Practicum in Music Education

Credits: 1
Provides opportunity to gain experience in music classroom in area public schools. Includes work on meeting educational standards of Wyoming necessary to begin student teaching and continued work on developing a teaching portfolio.

Prerequisite: MUSC 1050 and junior status.

MUSC4625 - Piano Pedagogy

Credits: 2
Max Credit (Max. 2)

This specialized course addresses the teaching of piano to children with special emphasis on the development of correct

technique, studio teaching techniques, student learning styles, repertoire assignment, and all aspects of establishing a private studio. The last quarter of the class includes an in-class, supervised teaching unit.

Dual Listed MUSC 5625.

Former Course Number [4600]

Prerequisite: 8 credit hours of piano study.

MUSC4635 - Vocal Pedagogy

Credits: 2

This specialized course addresses anatomy and physiology of the vocal instrument and the scientific principles surrounding it, studio teaching techniques, student learning styles, repertoire assignment, and all aspects of establishing a private voice studio. The last quarter of the class includes an in-class, supervised teaching unit. Students enrolled in the graduate level (5635) will undertake an extensive research paper/project and additional teaching.

Dual Listed MUSC 5635.

When Offered (Offered alternate spring semesters)

Former Course Number [4610]

Prerequisite: 8 credits of voice or permission of instructor.

MUSC4650 - Keyboard Literature

Credits: 3

An overview of solo ensemble keyboard literature from the 1600s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

Restricted BM MMM MME PC; MUSC 5655 Graduate Standing

Prerequisite: MUSC 4655, MUSC 2050, MUSC 2055

MUSC4651 - String Solo Literature

Credits: 3

Provide a survey of the masterpieces of string solo literature (violin, viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4700 - Elementary Student Teaching in Music

Credits: 8

The final professional academic semester of the teacher education program. A full-time residency with an elementary

mentor teacher.

Prerequisite: 2.750 cumulative GPA, 3.000 GPA in major content courses, completion of all content courses, successful completion of Phase IIIa specific pedagogy and practicum, complete review of the prospective teacher's record.

MUSC4705 - Elementary Music Ed Practicum

Credits: 1

Practicum experience is integral to development as a music teacher. As part of the Music Teaching Methods Sequence, pre-service music teachers will be immersed into authentic elementary and secondary music settings.

Restricted Restricted to Music Education majors.

Prerequisite: Concurrent enrollment with MUSC 4455 for instrumental emphasis students.

MUSC4710 - Secondary Student Teaching in Music

Credits: 8

The final professional academic semester of the teacher education program. A full-time residency with a secondary mentor teacher.

Prerequisite: 2.750 cumulative GPA, 3.000 GPA in major content courses, completion of all content courses, successful completion of Phase IIIa specific pedagogy and practicum, complete review of the prospective teacher's record.

MUSC4715 - Secondary Music Ed Practicum

Credits: 1

Practicum experience is integral to development as a music teacher. As part of the Music Teaching Methods Sequence, pre-service music teachers will be immersed into authentic elementary and secondary music settings.

Restricted Restricted to Music Education majors.

Prerequisite: Concurrent enrollment with MUSC 4460 or MUSC 4465.

MUSC4750 - Marching Band Techniques

Credits: 1

Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation,

phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

MUSC4790 - Choral Conducting and Repertory

Credits: 2

Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.

MUSC4990 - Topics in:

Credits: 1-12

Max Credit (Max. 12)

Encompasses various topics in music. Specific subjects vary from year to year as course is often taught by distinguished visiting artists and lecturers or music faculty. Presents topics of special interest to music majors, graduate students and music educators. Please check class schedule for course titles each semester.

Prerequisite: consent of instructor.

MUSC5010 - Mentoring the Pre-Service Music Educator

Credits: 1

Max Credit (Max. 4)

Designed for K-12 supervisors of pre-service music teachers, the goal of the course is to provide guidance and theoretical grounding through readings, discussion, journaling, and research projects. Participants will participate in two on-site workshops, weekly tele-conferences and complete a written research project.

Prerequisite: consent of instructor.

MUSC5035 - Advanced Theory

Credits: 3

To further understanding of chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combining historical and theoretical elements in viewing the work as a whole.

Dual Listed MUSC 4035

Prerequisite: MUSC 2030 and MUSC 2035, music majors only; (MUSC 5035): graduate standing.

MUSC5035 - Advanced Theory I

Credits: 3
Max Credit 3

To further understanding in chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combining historical and theoretical elements in viewing the work as a whole.

Prerequisite: Prerequisites: Undergraduates - MUSC 2030 and 2035, music majors only. Graduates: Graduate standing.

MUSC5080 - Baritone Horn V

Credits: 1-2
Max Credit (Max. 8)

Prerequisite: 2-4 semester hours of MUSC 4080 on the same instrument or graduate standing.

MUSC5090 - Bassoon V

Credits: 1-2
Max Credit (Max. 8)

MUSC5100 - Cello V

Credits: 1-2
Max Credit (Max. 8)

MUSC5110 - Clarinet V

Credits: 1-2
Max Credit (Max. 8)

MUSC5120 - Double Bass V

Credits: 1-2
Max Credit (Max. 8)

MUSC5130 - Flute V

Credits: 1-2
Max Credit (Max. 8)

MUSC5140 - French Horn V

Credits: 1-2
Max Credit (Max. 8)

MUSC5150 - Guitar V

Credits: 1-2
Max Credit (Max. 8)

MUSC5160 - Harp V

Credits: 1-2
Max Credit (Max. 8)

MUSC5170 - Oboe V

Credits: 1-2
Max Credit (Max. 8)

MUSC5180 - Organ V

Credits: 1-2
Max Credit (Max. 8)

MUSC5190 - Percussion V

Credits: 1-2
Max Credit (Max. 8)

MUSC5200 - Piano V

Credits: 1-2
Max Credit (Max. 8)

MUSC5210 - Saxophone V

Credits: 1-2
Max Credit (Max. 8)

MUSC5220 - Trombone V

Credits: 1-2
Max Credit (Max. 8)

MUSC5230 - Trumpet V

Credits: 1-2
Max Credit (Max. 8)

MUSC5240 - Tuba V

Credits: 1-2
Max Credit (Max. 8)

MUSC5250 - Violin V

Credits: 1-2
Max Credit (Max. 8)

MUSC5260 - Viola V

Credits: 1-2
Max Credit (Max. 8)

MUSC5270 - Voice V

Credits: 1-2
Max Credit (Max. 8)

MUSC5310 - Music Research Methods

Credits: 2

Prepares students to be knowledgeable consumers of music and interdisciplinary information. Topics include the musicology research process, information ethics, and critical analyses and integration of information sources into writing. Information literacy principles and research techniques equip students for both graduate-level music research and the post-graduate, professional world.

Prerequisite: graduate standing in music.

MUSC5320 - Advanced Seminar

Credits: 2-6
Max Credit (Max. 6)

Such topics as The Music of J. S. Bach, The Chamber Music of Mozart, and Contemporary Music will be pursued and will terminate in oral reports and a research paper.

Prerequisite: MUSC 5310.

MUSC5340 - Advanced Composition

Credits: 1-4
Max Credit (Max. 6)

A project course to be conducted by individual appointment with the instructor. The result should be the production of a major work suitable for performance by one of the campus organizations. Evaluation is made by a faculty committee on completion and performance of the composition.

Prerequisite: 4 hours of MUSC 4040.

MUSC5350 - Advanced Analysis

Credits: 3
Consideration of the analytical techniques of Harder, Piston, and Schillinger for traditional music, of Hanson and

Hindemith for modern tonal music, and of Schoenberg and Reti for serial music.

Prerequisite: graduate standing in music.

MUSC5360 - Pedagogy of Theory

Credits: 2

Consideration of the subject matter of all undergraduate theory courses, procedures for presenting the material, and analysis and evaluation of texts and methods.

Prerequisite: graduate standing in music.

MUSC5370 - Advanced Choral Conducting

Credits: 1-2

Max Credit (Max. 3)

The interpretation of well-known oratorios and cantatas; experience in the direction of campus choral groups.

Prerequisite: MUSC 4070, MUSC 4790.

MUSC5380 - Advanced Instrumental Conducting

Credits: 1-2

Max Credit (Max. 3)

Interpretive analysis of instrumental works in large form; experience in the direction of campus performing groups.

Prerequisite: MUSC 4070, MUSC 4780.

MUSC5390 - Performance Practice and Interpretation

Credits: 2

A study of the inherited traditions of correct interpretation and performance as related to the various style periods in music.

Prerequisite: graduate standing in music.

MUSC5400 - Independent Study and Research

Credits: 1-2

Max Credit (Max. 6)

Prerequisite: graduate standing and consent of instructor.

MUSC5410 - History of Musical Instruments

Credits: 2

An investigation of the mechanical evaluation of musical instruments as related to the music written for these instruments.

Prerequisite: graduate standing in music.

MUSC5480 - Baritone Horn VI

Credits: 1-2

Max Credit (Max. 8)

MUSC5490 - Bassoon VI

Credits: 1-2

Max Credit (Max. 8)

MUSC5500 - Cello VI

Credits: 1-2

Max Credit (Max. 8)

MUSC5510 - Clarinet VI

Credits: 1-2

Max Credit (Max. 8)

MUSC5520 - Double Bass VI

Credits: 1-2

Max Credit (Max. 8)

Covers appropriate technical and repertory materials in graduate-level double bass. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5530 - Flute VI

Credits: 1-2

Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level flute. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5540 - Guitar VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level guitar. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5550 - Harp VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level harp. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5560 - French Horn VI

Credits: 1-2
Max Credit (Max. 8)

Prerequisite: 4 semester hours of MUSC 4560 or graduate standing.

MUSC5570 - Oboe VI

Credits: 1-2
Max Credit (Max. 8)

Prerequisite: 4 semester hours of MUSC 4570 or graduate standing.

MUSC5580 - Organ VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level organ. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5590 - Percussion VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level percussion. A faculty jury will review

each semester's work.

Prerequisite: graduate standing in music.

MUSC5600 - Piano VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level piano. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5610 - Saxophone VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level sax. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5615 - Capstone

Credits: 3

Designed to provide a forum to present research in music that fulfills requirements of the Plan B process. Instruction is individualized, but involves cooperative learning opportunities with other students. The student presents the finished product to the class members.

Restricted Course is restricted to students doing Plan B paper only.

Prerequisite: Plan B proposal approved by the music department graduate committee.

MUSC5620 - Trombone VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level trombone. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5625 - Piano Pedagogy

Credits: 2

Max Credit (Max. 2)

This specialized course addresses the teaching of piano to children with special emphasis on the development of correct technique, studio teaching techniques, student learning styles, repertoire assignment, and all aspects of establishing a private studio. The last quarter of the class includes an in-class, supervised teaching unit.

Dual Listed MUSC 4625.

Prerequisite: 8 credit hours of piano study.

MUSC5630 - Trumpet VI

Credits: 1-2

Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level trumpet. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5635 - Vocal Pedagogy

Credits: 2

This specialized course addresses anatomy and physiology of the vocal instrument and the scientific principles surrounding it, studio teaching techniques, student learning styles, repertoire assignment, and all aspects of establishing a private voice studio. The last quarter of the class includes an in-class, supervised teaching unit. Students enrolled in the graduate level (5635) will undertake an extensive research paper/project and additional teaching.

Dual Listed MUSC 4635.

When Offered (Offered alternate spring semesters)

Prerequisite: 8 credits of voice or permission of instructor.

MUSC5640 - Tuba VI

Credits: 1-2

Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level tuba. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5650 - Violin VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level violin. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5660 - Viola VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level viola. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5670 - Voice VI

Credits: 1-2
Max Credit (Max. 8)

Designed to cover appropriate technical and repertory materials in graduate-level voice. A faculty jury will review each semester's work.

Prerequisite: graduate standing in music.

MUSC5680 - Graduate Recital

Credits: 2

A recital, vocal or instrumental and consisting of selections of advanced difficulty in matters of technique and interpretation, is presented under the direction of a staff member. Quality and content of recital must be approved by a faculty committee one month before the recital date, and the faculty committee will determine the final grade.

Prerequisite: graduate standing in music and consent of instructor.

MUSC5690 - Advanced Teaching Methods

Credits: 1

Designed to present new and improved methods of teaching the various band and orchestral instruments in the public schools.

MUSC5700 - Advanced Teaching Methods

Credits: 1

Designed to present new and improved methods of teaching the various band and orchestral instruments in the public schools.

MUSC5710 - Advanced Teaching Methods

Credits: 1

Designed to present new and improved methods of teaching the various band and orchestral instruments in the public schools.

MUSC5720 - Musical Supervision: Choral

Credits: 2

Examination of the administrative responsibilities of the music teacher, the music department chairman, and the district music supervisor in the public schools, as well as the responsibilities of a music festival chairman and officers of the state music educators association.

Prerequisite: graduate standing in music.

MUSC5730 - Musical Supervision: Instruments

Credits: 2

Examination of the administrative responsibilities of the music teacher, the music department chairman, and the district music supervisor in the public schools, as well as the responsibilities of a music festival chairman and officers of the state music educators association.

Prerequisite: graduate standing in music.

MUSC5760 - Music Education Seminar

Credits: 2

A study and discussion of trends, objectives, and curricula of the various phases of music education.

MUSC5770 - Marching Band

Credits: 0.5

Max Credit (Max. 2)

MUSC5780 - Wind Ensemble III

Credits: 0.5

Max Credit (Max. 2)

One of the elite ensembles in the Department of Music, Wind Ensemble offers participants the opportunity to prepare and perform some of the finest, most technically challenging, contemporary and classic wind and percussion repertory.

Prerequisite: graduate or Performer's Certificate students, audition required.

MUSC5790 - Jazz Ensemble III

Credits: 0.5
Max Credit (Max. 2)

Preparation and performance in a select jazz ensemble of the finest in standard jazz ensemble repertory and contemporary compositions by living jazz artists.

Restricted Enrollment is restricted to graduate and Performer's Certificate students only.

Prerequisite: audition required.

MUSC5800 - Collegiate Chorale III

Credits: 0.5
Max Credit (Max. 12)

Provide the advanced and committed singer with outstanding performing experiences ranging from major choral masterworks to masterpieces of the a cappella tradition, both sacred and secular. The choir is a professional training ensemble and students may be asked to take on active musical leadership roles. Commitment of time to advance the excellence and public awareness of the ensemble will be required.

Prerequisite: audition required, and graduate standing.

MUSC5805 - The UW Singing Statesmen III

Credits: 0.5
Max Credit (Max. 12)

The UW Singing Statesmen provides all levels of singers with the rich tradition of male ensemble singing. Students will solidify basic musicianship skills and vocal technique while experiencing camaraderie and service to the region. Students may be asked to take on music leadership roles and advance the excellence and public awareness of the ensemble. Open to music majors and non-music majors without audition.

Prerequisite: Graduate standing.

MUSC5807 - Happy Jacks III

Credits: 0.5
Max Credit (Max. 12)

Student-led male a cappella ensemble that sings contemporary, jazz, and traditional repertoire. The ensemble travels regularly to promote male singing through concerts and school workshops. Students may act as musical director. Audition only.

Prerequisite: Audition required. Graduate standing.

Corequisite: enrollment in The UW Singing Statesmen.

MUSC5811 - Vocal Jazz III

Credits: 0.5
Max Credit (Max. 12)

Sings standard repertory from various jazz traditions, often with rhythm section. Focus on building musical skill and literacy in the jazz idiom. Students may be asked to take on leadership roles. Audition only.

Prerequisite: Audition required. Graduate standing.

MUSC5815 - Bel Canto Women's Chorus III

Credits: 0.5
Max Credit (Max. 12)

Builds community through score study and the development of fundamental musicianship skills, including sight singing, ear training, and vocal technique. Students may be asked to take on leadership roles. This ensemble is open to both music majors and non-music majors without audition.

Prerequisite: Graduate standing.

MUSC5817 - Laramie Civic Chorus III

Credits: 0.5
Max Credit (Max. 12)

Welcomes students, faculty, and community members. Repertoire includes musical works from a multiplicity of style periods and genres in both Western and non-Western traditions and includes regular collaboration with the UW Symphony Orchestra for major choral works. Students may be asked to take on leadership roles.

Prerequisite: Graduate standing; audition required.

MUSC5820 - Opera Theatre

Credits: 0.5
Max Credit (Max. 2)

MUSC5830 - Symphony Orchestra III

Credits: 0.5
Max Credit (Max. 2)

The premier orchestral ensemble in the Department of Music. Participation in this ensemble prepares students to perform some of the great symphonic literature from a wide variety of musical periods.

Prerequisite: graduate or Performer's Certificate students; audition required.

MUSC5840 - Chamber Orchestra

Credits: 0.5-1
Max Credit (Max. 2)

Devoted to the rehearsal and performance of masterpieces from the chamber orchestra repertoire. Students in the 5840 level of Chamber Orchestra will be expected to assume leadership roles within the ensemble, help with bowings, lead sectionals and be highly proficient on their individual parts.

MUSC5850 - Percussion Ensemble

Credits: 0.5
Max Credit (Max. 2)

MUSC5860 - Brass Ensemble III

Credits: 0.5
Max Credit (Max. 2)

The University of Wyoming Brass Ensemble is a course devoted to the rehearsal and performance of masterpieces from the brass chamber repertoire. Students in the 5860 level of Brass Ensemble will be expected to have a high level of proficiency on their parts and assume leadership roles within the ensemble.

MUSC5870 - Woodwind Ensemble III

Credits: 0.5
Max Credit (Max. 2)

Preparation and performance in a select woodwind chamber ensemble of the finest standard and contemporary wind ensemble literature.

Prerequisite: graduate or Performer's Certificate students; audition required.

MUSC5880 - Chamber Music III

Credits: 0.5
Max Credit (Max. 2)

Designed to provide students with training in the ideal medium of chamber music (small ensembles, such as trio, string quartet, etc.), where they can apply and integrate all elements of their musical knowledge. These include but are not limited to rhythm, intonation, tone-production, blend, musical interpretation, concept of style, etc.

Prerequisite: graduate or Performer's Certificate students; audition required.

MUSC5885 - Collaborative Piano III

Credits: 1-2
Max Credit (Max. 8)

Encompasses supervised practice in the art of collaborative piano playing. Discusses traditional usages as applicable to various schools and periods of vocal and instrumental duo literature.

Prerequisite: Audition required; MUSC 3280 or equivalent and graduate standing.

MUSC5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

MUSC5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

MUSC5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

MUSC5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

MUSC5961 - Plan B Paper/Plan B Lecture- Recital

Credits: 0
Plan B Paper/Plan B Lecture- Recital. Required capstone for the MM degree. Required capstone for the MM degree. Satisfactory/Unsatisfactory only.

MUSC5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Native American and Indigenous Studies

NAIS1001 - Foundations in American Indian Studies

Credits: 3

Explains the development of American Indian studies and will show how a variety of disciplines continue to inform this field and interact to facilitate the exploration of its major topics of concern, including Native histories, cultures, and contemporary lives.

USP 2003-2014 Code U3CS, U3D
A&S College Core 2015 ASD

NAIS1010 - Beginning Indigenous Language

Credits: 4

Fundamentals of grammar, conversation, composition, and reading.

NAIS1030 - Social Justice in the 21st Century

Credits: 3

Appropriate for students interested in diversity and social justice. Topics covered through an interdisciplinary study of people and society range from identity, critical thinking, empowerment, role models, stereotyping, institutional discrimination, and tolerance. The key lynchpin is active participation in the development and maintenance of just communities.

Cross Listed AAST 1030/AMST 1030/GWST 1030/LTST 1030.
USP 2003-2014 Code U3I, U3L
A&S College Core 2015 ASD

NAIS1350 - American Indians in Contemporary Society

Credits: 3

Examines social and cultural issues and concerns of American Indians both on and off the reservations. Additionally, the status of American Indian people within the dominant society and culture will be explored.

Cross Listed SOC 1350.
USP 2003-2014 Code U3CS, U3D
A&S College Core 2015 ASD

NAIS2010 - Intermediate Indigenous Language

Credits: 4

Second level fundamentals of grammar, conversation, composition, and reading.

Prerequisite: NAIS 1010.

NAIS2060 - Topics

Credits: 1-4

Max Credit (Max. 6)

Popular and current topics in American Indian studies.

NAIS2210 - North American Indians

Credits: 3

Comparative consideration of North American Indian culture areas at European contact period.

Cross Listed ANTH 2210.

USP 2003-2014 Code U3CS, U3D

A&S College Core 2015 ASD

NAIS2290 - History of North American Indians

Credits: 3

Studies American Indian history through 500 years and across the continent. Considers Indian political, social, and economic continuity and change. Focuses on how Indian peoples experienced and responded to times of dramatic change.

Cross Listed HIST 2290.

USP 2003-2014 Code U3CH, U3D

A&S College Core 2015 ASD

NAIS2340 - Native American Culture and Literature

Credits: 3

Broad cultural study of Native Americans, past and present. Emphasizes folklore and literature.

Cross Listed ENGL 2340.

USP 2003-2014 Code U3CH, U3D

A&S College Core 2015 ASD

Prerequisite: WA course.

NAIS2345 - American Indians in Hollywood Film

Credits: 3

Examines the ways Hollywood films have constructed various forms of racial identity for American Indians.

Cross Listed ENGL 2345.
USP 2003-2014 Code U3CH, U3D
A&S College Core 2015 ASD
Prerequisite: WA.

NAIS3000 - Plains Culture and History

Credits: 3

An ethnohistorical study of those Native peoples inhabiting the Plains region of the U. S. from prehistory to the present.

Cross Listed HIST 3000.
USP 2003-2014 Code U3D
A&S College Core 2015 ASD
Prerequisite: 6 hours of HIST or NAIS.

NAIS3010 - Proficient Indigenous Language

Credits: 4

Emphasizes the development of listening, speaking, reading, and writing so as to help students function effectively in the tribal cultural context of which the language is a part.

Prerequisite: NAIS 2010.

NAIS3100 - Tribal Literatures of the Great Plains

Credits: 3

Familiarizes students with American Indian literatures of the Great Plains. The Great Plains region is the locus of much historical and contemporary significance in regard to American Indian cultures. The literature of Great Plains Indians allows students to confront and reexamine the national narratives surrounding American Indians.

Cross Listed ENGL 3100.
USP 2003-2014 Code U3D, U3WC
A&S College Core 2015 ASD
Prerequisite: 6 hours of NAIS or ENGL.

NAIS3200 - Indigenous Peoples and the Environment

Credits: 3

Understand the historical, political, and socio-economic forces that have shaped the relationships of Indigenous peoples to their environments, and be able to discern the similarities and dissimilarities of Indigenous issues across international borders. The course may include a study abroad component.

Prerequisite: 6 hours NAIS credit.

NAIS3300 - Federal Indian Law

Credits: 3

Survey of law that applies to individual Indians and tribal governments. In particular, explores the legal relationships among, and relative jurisdictions of federal, tribal, and state governments. Specific topics include civil and criminal jurisdiction, taxation, family law, hunting and fishing, and gaming regulations.

Prerequisite: NAIS 1001 or NAIS 1350.

NAIS3400 - Traditional Ecological Knowledge

Credits: 3

Description of the interaction between economy, religion, language and the ecosystem for select Indigenous peoples and discussion of the pedagogical methods for preserving their ecological knowledge. An examination of the conflict between contemporary society's demands and preserving traditional society's heritage.

Cross Listed GEOG 3400.

USP 2003-2014 Code U3CS, U3D

Prerequisite: one course in American Indian culture.

NAIS4000 - Indians of Wyoming

Credits: 3

Examines Native American culture in Wyoming from pre-history to the 21st century. Analyzes social, political, and economic developments of Native peoples of Wyoming before, during, and after contact with Europeans. Discusses interaction between these diverse societies and explores the changing relationships between Indians and Euro-Americans through the periods after contact.

Cross Listed HIST 4000.

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST or NAIS.

NAIS4010 - Advanced Indigenous Language

Credits: 4

Stresses the usage of language through composition, conversation, oral presentation, and grammar review.

Prerequisite: NAIS 3010.

NAIS4020 - Internship

Credits: 1-12

Max Credit (Max. 12)

Requires active participation and service to an Indigenous community or organization in US or elsewhere. A written agreement among the student, the NAIS director or NAIS faculty mentor, and an on-site supervisor is required. NAIS Majors must take at least four credit hours.

Prerequisite: 9 hours of NAIS courses.

NAIS4100 - Tribal Government

Credits: 3

Examines traditional systems of tribal governance; the establishment of contemporary tribal governments; stakeholders and their goals; factors influencing tribal government operations, including the federal trust relationship, plenary power, tribal federal and tribal-state relations; powers of tribal governments; and the future of tribal governments.

Prerequisite: 6 hours of NAIS courses, including NAIS 1001, and/or NAIS 1350.

NAIS4110 - Educational Foundations in American Indian Education

Credits: 3

Examines cultural, geographical, linguistic, spiritual, political, and societal factors before, during, and after colonization of the Americas. Definitions and day-to-day realities of terms like ethnocentrism, cultural relativism, assimilation, acculturation, and institutional racism. Development of insights into positive teacher-pupil-community relationships that honor culture and language differences and enhance achievement.

Cross Listed EDCI 4110.

Dual Listed NAIS 5110.

USP 2003-2014 Code U3D

A&S College Core 2015 ASD

Prerequisite: NAIS 1001 and 15 credit hours of NAIS or EDST.

NAIS4200 - Indigenous Communities Abroad: International Travel

Credits: 4

Devoted to study/ travel related to Indigenous peoples abroad. The specific topic will be determined each time the class is offered. Two weeks of international travel will follow sixteen hours of on-campus instruction.

Prerequisite: 6 credits in NAIS.

NAIS4340 - Natural Resource Management on Western Reservations

Credits: 3

Examines natural resource management techniques on western reservations. Focus is on the management and planning of water, grazing, extractive industries, and forestry. Fieldwork on the Wind River Indian Reservation is included.

Cross Listed GEOG 4340.

Prerequisite: 6 hours of 2000-level NAIS courses.

NAIS4360 - American Indian Women

Credits: 3

Explores the lives of American Indian women in a variety of contexts through time. Complexity and diversity of Indian

women's experiences throughout history are emphasized. Concerns Indian women's lives within the reality of European American colonization and its consequences for Indian peoples.

Cross Listed GWST 4360/SOC 4360.

Dual Listed NAIS 5360.

Prerequisite: 6 hours of 2000-level NAIS courses.

NAIS4460 - American Indian Literature

Credits: 3

Advanced critical study of the history of American Indian literature, emphasizing the authors' views of social change.

Cross Listed ENGL 4460.

USP 2003-2014 Code U3WC

A&S College Core 2015 ASD

Prerequisite: 6 hours of 2000-level literature courses.

NAIS4462 - American Indian History to 1783

Credits: 3

Surveys the history of American Indians from the period before contact to the end of the American Revolution.

Examines the various contacts between American Indians and Europeans and considers what the American Revolution meant to the continent's Native peoples.

Cross Listed HIST 4462.

Dual Listed NAIS 5462.

USP 2015 Code U5H

Prerequisite: 9 hours of HIST or NAIS.

NAIS4463 - American Indian History 1783- 1890

Credits: 3

Surveys the history of American Indians during the era of westward expansion. Examines the impact of American westward movement and also the manifold changes that accompanied Indians moving west.

Cross Listed HIST 4463.

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: 9 hours of HIST or NAIS.

NAIS4464 - American Indians in the Twentieth Century

Credits: 3

Surveys the history of American Indians during the 20th century. Examines the development of new cultural, social, and political forms that help create an American Indian identity.

Cross Listed HIST 4464.
Dual Listed NAIS 5464.
USP 2003-2014 Code U3D
Prerequisite: 9 hours of HIST or NAIS.

NAIS4466 - American Indian Ethnohistory

Credits: 3

Surveys ethnohistorical methods and concepts and provides students concrete opportunities to use these methodologies in writing exercises. American Indian ethnohistory explores Native American experiences within their own cultural contexts.

Cross Listed HIST 4466.
Dual Listed NAIS 5466.
Prerequisite: 9 hours of HIST, NAIS, or ANTH.

NAIS4468 - American Indians in the North American West

Credits: 3

One of the defining features of the North American West is the presence of American Indians. Through the discussion of varied readings and primary document research, the history of American Indians in the West is examined, with particular emphasis on the Great Plains and California.

Cross Listed HIST 4468.
A&S College Core 2015 ASD
Prerequisite: 9 hours of HIST or NAIS.

NAIS4740 - Native American Languages and Cultures

Credits: 3

Demonstrates the interrelationship of language and culture in several Native American communities. Examines anthropological and linguistic theories regarding language spread and the peopling of North America, narrative performance, translation, and the connection between linguistic structures and cultural features.

Cross Listed ANTH 4740.
Prerequisite: ANTH 2000 or consent of instructor.

NAIS4975 - Independent Study

Credits: 1-4
Max Credit (Max. 8)

Directed, independent study in American Indian issues with American Indian Studies affiliated faculty. Students must initiate a project with an appropriate faculty member and have it approved by the program director.

Prerequisite: consent of instructor and 6 hours of NAIS.

NAIS4990 - Special Topics

Credits: 1-4
Max Credit (Max. 9)

Current research topics presented by regular and visiting faculty.

Prerequisite: 3 hours of NAIS courses.

NAIS5000 - Independent Study

Credits: 1-4
Max Credit (Max. 4)

Conference course to permit students opportunity for directed and independent study in American Indian issues.

Prerequisite: graduate standing and consent of instructor.

NAIS5110 - Foundations of American Indian Education

Credits: 3

Examines cultural, geographical, linguistic, spiritual, political, and societal factors before, during, and after colonization of the Americas. Definitions and day-to-day realities of terms like ethnocentrism, cultural relativism, assimilation, acculturation, and institutional racism. Development of insights into positive teacher-pupil-community relationships that honor culture and language differences and enhance achievement.

Cross Listed EDCI 5110.

Dual Listed NAIS 4110.

Prerequisite: NAIS 1001 and 15 credit hours of NAIS or EDST.

NAIS5121 - History and Philosophy of American Indian Education

Credits: 3

Addresses the history of Indian education in the U. S. and Canada and examines missionary initiatives, government programs, and tribal efforts. Review of documentary accounts of Native education, review autobiographical accounts of Native teachers and children. Develop insight necessary for development of appropriate teaching methods and materials.

Cross Listed EDCI 5121.

Prerequisite: post-Baccalaureate status.

NAIS5130 - Cultural Foundations of American Indian Education

Credits: 3

In-depth study and analysis of the educational experiences of American Indians, focusing on contemporary educational issues and experiences, examining the impacts of cultural orientations, stereotypes, bias, and other issues on the educational attainment of American Indian students. Critique instructional practices and programs developed

addressing the needs of American Indian students.

Cross Listed EDCI 5130.

Prerequisite: post-Baccalaureate status.

NAIS5141 - Instructional Methods of American Indian Education

Credits: 3

Addresses culturally responsive methodologies for teaching American Indian students, reviews documentary accounts of Native education and autobiographical accounts of Native teachers and children, develops appreciation of the complexity and difficulties of Native education. Insight necessary for development of appropriate teaching methods and materials.

Cross Listed EDCI 5141.

Prerequisite: post-Baccalaureate status.

NAIS5360 - American Indian Women

Credits: 3

Explores the lives of American Indian women in a variety of contexts through time. The complexity and diversity of Indian women's experiences throughout history are emphasized. Concerns Indian women's lives within the reality of European American colonization and its consequences for Indian peoples.

Cross Listed GWST 5360/SOC 5360.

Dual Listed NAIS 4360.

Prerequisite: 6 hours of 2000-level NAIS courses.

NAIS5462 - American Indian History to 1783

Credits: 3

Surveys the history of American Indians from the period before contact to the end of the American Revolution. Examines the various contacts between American Indians and Europeans and considers what the American Revolution meant to the continent's Native peoples.

Cross Listed HIST 5462.

Dual Listed NAIS 4462.

Prerequisite: graduate standing.

NAIS5464 - American Indian History in the 20th Century

Credits: 3

Surveys the history of American Indians during the 20th century. Examines the development of new cultural, social, and political forms that help create an American Indian identity.

Cross Listed HIST 5464.

Dual Listed NAIS 4464.

Prerequisite: graduate standing.

NAIS5466 - American Indian Ethnohistory

Credits: 3

Surveys ethnohistorical methods and concepts and provides students concrete opportunities to use these methodologies in writing exercises. American Indian ethnohistory explores Native American experiences within their own cultural contexts.

Dual Listed NAIS 4466.

Prerequisite: graduate standing.

Natural Science

NASC4790 - Topics in Natural Science

Credits: 1-6

Presents selected science topics to acquaint teachers or prospective teachers with new concepts, materials or techniques, as introduced in various new school curricula. Topics may include earth science for the middle school, computer learning and/or elementary school environmental science. Includes laboratory.

Prerequisite: junior standing.

NASC4800 - Field Studies in Natural Science

Credits: 1-6

Explores topics best studied in the field, on location, or otherwise outside the traditional classroom. Topics may include grassland ecosystem, geology field trips for elementary children and/or schoolyard study areas. Includes laboratory.

Prerequisite: junior standing.

NASC5110 - Physical Science in Global Context, MSC

Credits: 3

One in a series of three courses investigating earth as a system. Examines the global dynamics of energy, hydrocarbon combustion, and the physics and chemistry of water. Investigates relationships between energy transformations and pollutants. Considers environmental limitations of fresh water availability and the buffering effect of sea and fresh water.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in Elementary, middle school or general science education.

NASC5120 - Earth Science in Global Context, MSC

Credits: 3

One in a series of three courses investigating earth as a system. Emphasizes the lithosphere and atmosphere and their interactions with the hydrosphere and biosphere. Examines the interplay between tectonic processes, earth's radiation balance, ocean processes, ozone depletion and the greenhouse effect. Includes evaluation of methods of measuring and

monitoring these phenomena.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teach certification in elementary, middle school or general science education.

NASC5130 - Life Science in Global Context, MSC

Credits: 3

One in a series of three courses investigating earth as a system. Investigates ecosystem composition and processes, and biological responses to changes in ecosystem parameters. Examines terrestrial and aquatic communities, photosynthesis, energy flow, biogeochemical cycles, global climate change, climate warning, deforestation, population ecology, DNA/ RNA structure, function, genetic engineering and forensic applications.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science education.

NASC5140 - Numbers, Operations, and Patterns for the Middle-Level Learner, MMA

Credits: 3

Provides working middle-level mathematics teachers opportunities to understand and discuss numbers, their representations, and operations on them, from an abstract perspective that includes elegant proof. Also emphasized is the role of language and purpose in composing definitions.

Cross Listed MATH 5140.

Prerequisite: admission to a UW graduate program, either degree or non-degree seeking status, and acceptance into the Middle-level mathematics program.

NASC5160 - Social and Historical Issues in Mathematics and the Middle-Level Learner, MMA

Credits: 3

Empowers teachers of middle-level mathematics to design engaging experiences. Emphasizes the historical context for the development of mathematics, especially its symbols, tools, personalities, and classic problems.

Cross Listed MATH 5160.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5170 - Connecting Geometry with Problem- Solving for the Middle-Level Learner, MMA

Credits: 3

Showcases two aspects of 2D and 3D geometry: measurement and transformation. Emphasis reflects current State and National standards for middle-level mathematics classroom and teacher preparation, especially appropriate uses of technology, geometric tools, mathematical language, and problem-solving strategies.

Cross Listed MATH 5170.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, acceptance into the Middle-level mathematics program.

NASC5185 - Analysis of Data in the Media for the Middle-Level Learner, MMA

Credits: 3

Focuses on data collection, analysis, interpretation, and communication, using contexts relevant to everyday situations. Topics chosen integrate well with the concerns of middle-level teachers and connect with such curriculum areas as health, science, and social studies. This is not a research methods course.

Cross Listed STAT 5185

Prerequisite: Admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5190 - Mathematics of Change and the Middle-Level Learner, MMA

Credits: 3

Students gain a solid understanding of data and functions in the service of calculus. Hands-on, project-driven, and focuses on the essential concepts of functions and calculus and their role in middle-level mathematics. Emphasis is on writing and technology (calculators and probeware).

Cross Listed MATH 5190.

Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5205 - Methods of Teaching Middle-Level Mathematics, MMA

Credits: 3

Research-based pedagogy and pedagogical content knowledge for teaching middle-level mathematics. Designed for practicing teachers of middle-grades mathematics.

Cross Listed EDCI 5205.

Prerequisite: admission to the SMTC Program.

NASC5215 - Using Technology for Middle-Level Mathematics

Credits: 3

Covers the use of technology appropriate to middle-level mathematics teaching, such as microworlds, geographic information systems, spreadsheets, and other content appropriate technologies. Cross Listed with EDCI 5215.

Prerequisite: admission to the SMTC Program.

Cross Listed EDCI 5215

Prerequisite: Admission to the SMTC Program.

NASC5225 - Assessment for Middle-Level Mathematics, MMA

Credits: 3

Middle-level Mathematics Initiative teacher participants examine, analyze, and implement a variety of assessments that are aligned with standards and instruction appropriate to the middle level math learner.

Cross Listed EDCI 5225.

Prerequisite: admission to the SMTC Program.

NASC5300 - Classroom Assessment in Middle-level Science, MSC

Credits: 2

Deals with the design, construction, and testing of curriculum materials to bring the spirit of scientific inquiry to elementary school pupils. Research to be conducted in the Science and Mathematics Teaching Center.

NASC5400 - Spatial Data Instructional Technology

Credits: 1

Teaching strategies appropriate for elementary/middle school students' conceptual level of development. Positive attitudes toward teaching children about the Earth, its physical environment and human/environment relationships will be promoted. The course content will be supported by the use of geospatial technologies, such as GPS and GIS.

Prerequisite: graduate standing.

NASC5510 - Integrated Instructional Strategies, MSC

Credits: 2

Appropriate instructional strategies are discussed and modeled for aligning standards, expectations, and experiences in an integrated science environment. Attention is given to unique characteristics of each strategy, including a review of research on the effectiveness of each strategy on student achievement and attitudes.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

NASC5600 - Mathematics and Statistics in Science Teaching, MSC

Credits: 2

Provides science teachers with the knowledge and experience necessary to help students use statistics in the scientific process. Activities emphasize a hands-on inductive approach closely related to the school science curriculum. Important statistical ideas and methods are studied as they arise naturally in the biological, physical, and earth sciences.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

NASC5610 - Field Studies in Environmental Education, NED

Credits: 4

Expands student's knowledge of ecological and physiological animal and plant adaptations to environmental conditions, the use of teaching methods and tools of naturalists, the range of resources available for designing and evaluating curriculum, and promotes an appreciation and understanding of the diversity of environments. Contains 4 modules.

Prerequisite: graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

NASC5620 - Advanced Elements of Field Ecology Course Design, NED

Credits: 5

Max Credit (Max. 6)

Addresses designing field ecology courses that include research, outdoor leadership, and natural history components. Opportunities are provided to gain deeper understanding of key natural history and ecology concepts of the bioregion; practical strategies for teaching these concepts in field programs; and to formally present student work.

Prerequisite: graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

NASC5625 - Place-Based Education-Teton Science School

Credits: 3

Introduces graduate students at Teton Science Schools to the theory and practice of place-based education. The design of the course exposes students to the historical, political, and eco-social underpinnings of place-based education while supporting students in developing thoughtful place-based pedagogies.

Prerequisite: graduate student status.

NASC5630 - Teaching Practicum-Teton Science School

Credits: 2-4

Max Credit (Max. 6)

To improve teaching methods and techniques and expand professional skills. Integrates the foundation of Teton Science Schools, applies coursework content understanding and develops leadership. The course is intended to challenge previously held instructional beliefs and nurture an evolving set of skills and instructional identity. Not equivalent to EDSE 4500 or EDCI 5990 or EDEL 4500.

Prerequisite: current enrollment at Teton Science School.

NASC5640 - Introduction to Field Science Teaching

Credits: 3

Designed to introduce graduate students at Teton Science Schools' to the field of environmental education and instructional concepts for teaching environmental science in the outdoors. Learn field science content, principals of connecting to place, teaching techniques, and learning theories related to environmental education and field science

teaching.

Prerequisite: current enrollment at Teton Science School.

NASC5650 - Place-Based Learning

Credits: 3

Place-based learning is explored and related to cognitive development, assessment, and education for a democracy. The focus is on science and mathematics and how to use "place" to provide meaningful learning experiences for students while making contributions to the community. Students develop a local place-based project.

NASC5660 - Standards, Pedagogy and Research

Credits: 2

This course is designed to provide Master of Science in Natural Science students with background in three areas: current science standards, pedagogical practices, and the understanding of various types of educational research as well as some of the practices related to conducting their own research projects.

Prerequisite: Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

NASC5670 - Research Methodology

Credits: 4

This course provides foundational information on asking appropriate questions, researching (including IRB), writing, formatting, and defending a Plan B project. At the end of the semester students will have a committee, a preliminary draft, and present their research. Spring semester will be used to complete projects with committee members.

Prerequisite: Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

NASC5700 - Seminar in Science for Secondary School Teachers

Credits: 1-6

Max Credit (Max. 6)

A course to give graduate students in education, or in-service teachers, an in-depth view of the new materials for teaching science in secondary schools.

Prerequisite: consent of instructor.

NASC5770 - Investigation in Natural Science for Secondary Teachers

Credits: 1-5

Max Credit (Max. 10)

Deals with the design, construction, and testing of curricula materials to bring the spirit of scientific inquiry to

secondary school students. Research to be conducted in the Science and Mathematics Teaching Center.

Prerequisite: consent of instructor.

NASC5810 - ML Science & Math Practicum

Credits: 3

Practica for graduate students in the MS-Natural Science MSC and MMA programs in Middle and Junior High schools. Mathematics and science classrooms will serve as sites for assignments. Students complete assignments for the content area of certification as well as appropriate discussions.

Prerequisite: Graduate students in department who have passed at least four departmental courses or consent of the instructor.

NASC5890 - Directed Professional Study

Credits: 1-6

Max Credit (Max. 6)

Primarily for upper-division students who can benefit from independent study with minimal supervision. Given to allow interested students to pursue specific aspects of curriculum and instruction.

Prerequisite: consent of instructor and graduate standing.

NASC5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

NASC5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NASC5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NASC5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

Prerequisite: graduate standing.

NASC5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

NASC5961 - Plan B Project

Credits: 1-4
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly activities in support of their Plan B project.

Prerequisite: must be enrolled in Plan B program and have program approval.

NASC5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Neuroscience

NEUR4295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (*Xenopus* tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and *Drosophila*).

Cross Listed ZOO 4295.
Dual Listed NEUR 5295.
Prerequisite: ZOO 4280.

NEUR4720 - Neuroscience Speaker Seminar

Credits: 2
Max Credit (Max. 6)

The purpose of this course is to use the Neuroscience/sensory biology visiting speaker series to build student knowledge in neuroscience, as well as skills in critical evaluation of the research literature, and oral/ written communication. This will maximize student learning from the speaker series. The course may be taken up to three times.

Dual Listed NEUR 5720.

Prerequisite: Graduate level standing in neuroscience, biomedical sciences, zoology/physiology, or other life science programs. Undergraduates: concurrent or prior ZOO 4280.

NEUR5100 - Structure and Function of the Nervous System

Credits: 4

Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed ZOO 5100.

Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

NEUR5280 - Introduction to Neuroscience

Credits: 3

Examines the basic properties of neurons and from there identifies determinants of brain development and how neuronal circuits are formed. How neuronal circuits underlie processing sensory information, coordinated movement, complex functions (e. g. sleep, learning) and homeostasis are discussed.

Cross Listed ZOO 5280.

Prerequisite: ZOO 3115 or equivalent.

NEUR5295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

Cross Listed ZOO 5295.

Dual Listed NEUR 4295.

NEUR5685 - Neurophysiology

Credits: 3

Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms will be covered in addition to the basic neurophysiology of nerve cells.

Cross Listed ZOO 5685.

Prerequisite: one course in physiology, chemistry, physics.

NEUR5715 - Seminar in Neuroscience

Credits: 1-2

Max Credit (Max. 20)

A continuing seminar. All students in the graduate neuroscience program are expected to register for this seminar each semester. The interdisciplinary approach to the nervous system is used employing work from physiology, neuroanatomy and neurochemistry, psychology, pharmacology and biochemistry.

Cross Listed ZOO 5715.

Prerequisite: admission to the graduate neuroscience program or graduate standing.

NEUR5720 - Neuroscience Speaker Seminar

Credits: 2

Max Credit (Max. 6)

The purpose of this course is to use the Neuroscience/sensory biology visiting speaker series to build student knowledge in neuroscience, as well as skills in critical evaluation of the research literature, and oral/ written communication. This will maximize student learning from the speaker series. The course maybe taken up to three times.

Dual Listed NEUR 4720.

Prerequisite: Graduate level standing in neuroscience, biomedical sciences, zoology/physiology, or other life science programs. Undergraduates: concurrent or prior ZOO 4280.

NEUR5800 - Research in Neuroscience

Credits: 1-16

Max Credit (Max. 16)

The research must be conducted under the supervision of one of the neuroscience program faculty. Laboratory opportunities for research include neuroendocrinology, behavioral neuroscience, sensory neurophysiology, neuroanatomy, neuropharmacology, neurotoxicology, neural cell biology, and neurochemistry.

Prerequisite: admission to the graduate neuroscience program or graduate standing.

NEUR5887 - Molecular Neuropharmacology

Credits: 3

Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

Prerequisite: PharmD current standing and instructor's permission or NEUR 5280.

NEUR5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NEUR5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NEUR5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Prerequisite: advanced degree candidacy.

NEUR5980 - Dissertation Research

Credits: 1-12

Max Credit (Max. 48)

First-Year Seminar.

Prerequisite: advanced degree candidacy.

Nursing

NURS1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

NURS2340 - Developmental Influences on Health

Credits: 3

Explores interaction between development and health. Discusses human development of physiological, psychological, cognitive, sociocultural, and spiritual systems across the lifespan. Identifies selected theories associated with development over the lifespan and implications for healthcare.

Prerequisite: Completion or concurrent enrollment in NURS 3445 or NURS 3745, NURS 3665 or NURS 3730 and NURS 3790, and PHCY 3450.

NURS3005 - ReNEW Distance Foundations

Credits: 1

Prepares learners for ReNEW BSN Completion in a distance delivery format. The course includes concept-based delivery in the UW learning system, APA formatting, writing scholarly papers, and library resources and skills.

Prerequisite: Enrolled in or graduate of Wyoming ReNEW Nursing Program.

NURS3425 - Bridging Nursing Paradigms

Credits: 3

This course prepares incoming ADN- or Diploma-educated Registered Nurses for completion of the Fay W. Whitney School of Nursing (FWWSON) BSN degree. Nursing knowledge, skills, and abilities in selected content areas will be evaluated and augmented in preparation for BSN Completion coursework.

Prerequisite: Current RN license.

NURS3445 - Fundamentals and Health Assessment in Professional Nursing Practice

Credits: 4

This course introduces the concepts of nursing care, safety, and assessment. Students learn to assess and document normal variations and potential alterations of physiological, psychological, sociocultural, spiritual, and developmental dimensions of individuals across the lifespan.

Prerequisite: Completion or concurrent enrollment in NURS 2340, NURS 3665, and PHCY 3450.

NURS3490 - Health Promotion in Professional Nursing Practice

Credits: 4

Students will learn and apply concepts of health promotion across the lifespan. Emphasis is on cultural diversity, health risks, behavior change and healthy practices for individuals, families, and populations. Students will incorporate evidence in designing interventions to promote health and prevent illness for self and clients.

A&S College Core 2015 **Course changes effective Fall 2022** - Credits: 3 credits; Prerequisite: NURS 3445, PHCY

4470, and completion or concurrent enrollment in NURS 3690, NURS 3695, and NURS 4125.

Prerequisite: Progression or admission to the clinical component of the program and completion or concurrent enrollment with NURS 2340, NURS 3435, and PHCY 3450 or PHCY 4450.

NURS3635 - Health Assessment and Clinical Judgement

Credits: 3

Students learn to assess the physiological, psychological, sociocultural, spiritual, and developmental dimensions of individuals across the lifespan. Normal variations and potential alterations of health are identified. Clinical judgment and documentation skills are developed.

A&S College Core 2015 **Course changes effective Spring 2022 - Discontinuing course.**

Prerequisite: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3665, NURS 3690, and NURS 3695.

NURS3665 - Foundations of Professional Nursing Roles

Credits: 3

This course introduces the student to professionalism, leadership, safety, and patient-centeredness. The concepts emphasized provide the foundation for professional nursing practice.

Prerequisite: Fall 2021: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3635, NURS 3690, and NURS 3695. **Effective Spring 2022:** Completion or concurrent enrollment in NURS 2340, NURS 3445, and PHCY 3450.

NURS3690 - Professional Nursing Acute/Chronic Illness

Credits: 3

Students will examine concepts of nursing practice in the care of adults with acute and chronic illness. Emphasis is on utilizing the nursing process to develop clinical judgement.

A&S College Core 2015 **Course changes effective Fall 2022 - Prerequisite:** *NURS 3445, PHCY 4470, and completion or concurrent enrollment in NURS 3490, NURS 3695, and NURS 4125.*

Prerequisite: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3635, NURS 3665, and NURS 3695.

NURS3695 - Professional Nursing Acute/Chronic Illness Practicum

Credits: 4

Students provide nursing care using the nursing process in a clinical setting with adult clients experiencing acute and chronic illness. Emphasis is on demonstration of clinical judgement.

A&S College Core 2015 **Course changes effective Fall 2022 - Prerequisite:** *NURS 3445, PHCY 4470, and completion or concurrent enrollment in NURS 3490, NURS 3690, and NURS 4125.*

Prerequisite: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3635, NURS 3665, and NURS 3690.

NURS3730 - Introduction to Professional Nursing

Credits: 2

Introduces students to the core concepts of professional nursing practice. Nursing process, domains of nursing practice, health policy, evidence-based practice, legal and professional standards will be introduced.

Prerequisite: Completion or concurrent enrollment in NURS 2340, NURS 3745, NURS 3790, and PHCY 3450.

NURS3745 - Nursing Fundamentals and Health Assessment

Credits: 4

Includes concepts of basic care/comfort, technical skills, medical equipment, asepsis, medication administration, nurse/client safety, and client rights. Students learn to assess and document normal variations and potential alterations of physiological, sociocultural, spiritual, and developmental dimensions of individuals across the lifespan.

Prerequisite: Completion or concurrent enrollment in NURS 2340, NURS 3730, NURS 3790, and PHCY 3450.

NURS3770 - Nursing Care in Acute and Chronic Illness

Credits: 8

Discern critical elements of professional nursing medical-surgical concepts for adults experiencing acute/chronic health alterations progressing to complex health alterations. Focuses on patient safety principles; quality initiatives; evidence-based nursing; information technology; interprofessional collaboration, communication; health promotion strategies; and critical thinking in the planning of client centered nursing care for the adult.

Prerequisite: NURS 3745 and completion or concurrent in NURS 3771, NURS 3780, and NURS 4765

NURS3771 - Nursing Care in Acute and Chronic Illness Practicum

Credits: 6

Application of critical elements of professional nursing practice with adults experiencing acute and chronic health alterations. Focus is on incorporation of patient safety principles; quality initiatives; evidence-based nursing practice; information technology; interprofessional collaboration and communication; health promotion strategies; and critical thinking and clinical reasoning in the provision of nursing care.

A&S College Core 2015 **Course changes effective Fall 2022 - Name: *Nursing Care in Acute, Chronic, and Complex Illness Practicum*; Credits: 4 credits; Prerequisite: *NURS 3745 and completion or concurrent enrollment in NURS 3770, NURS 3780, and NURS 4765.***

Prerequisite: NURS 3710, NURS 3750, NURS 3730, NURS 3780.

NURS3780 - Evidence-Based Practice in Nursing

Credits: 4

Prepares nursing students to engage in evidence-based practice in nursing, specifically how to search the literature and databases, ask meaningful clinical questions, find relevant evidence, critically appraise evidence, integrate best evidence with clinical expertise and patient/community values.

A&S College Core 2015 **Course changes effective Fall 2022** - Credits: 3 credits; Prerequisite: STAT 2050 or STAT 2070 or equivalent; *NURS 3745 and completion or concurrent enrollment in NURS 3770, NURS 3771, and NURS 4765.*

Prerequisite: admission to the BRAND program, concurrent enrollment in NURS 3770.

NURS3790 - Health Promotion of Individuals, Families, and Populations

Credits: 3

Components of the nursing process and evidence-based nursing practice are used to protect the health of clients through health promotion, risk reduction, and disease prevention.

Prerequisite: Completion or concurrent enrollment in NURS 2340, NURS 3730, NURS 3745, and PHCY 3450.

NURS3890 - Professional Nursing Care in Complex Illness

Credits: 3

Students will examine concepts of nursing practice in the care of adults with complex illness. Emphasis is on utilizing the nursing process to develop clinical judgment.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: NURS 3695 and completion or concurrent enrollment in NURS 3891, NURS 3892, and NURS 3895.

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3891, 3892, 3895, 4125.

NURS3891 - Professional Nursing Care of Older Adults

Credits: 3

Students will examine concepts of nursing practice in the care of older adults. Emphasis is on utilizing the nursing process to develop clinical judgment.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: NURS 3695 and completion or concurrent enrollment in NURS 3890, NURS 3892, and NURS 3895.

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3890, NURS 3892, NURS 3895, NURS 4125.

NURS3892 - Professional Nursing Care in Mental Health and Illness

Credits: 3

This course explores mental health and illness concepts. Emphasis is on the role of the professional nurse in caring for clients with alterations in mental health.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: NURS 3695 and completion or concurrent enrollment in NURS 3890, NURS 3891, and NURS 3895.

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3890, NURS 3891, NURS 3895, NURS 4125.

NURS3895 - Professional Nursing Care in Complex Illness Practicum

Credits: 4

Students provide patient-centered care using the nursing process in clinical setting with adult and older adult clients experiencing complex illness and alterations in mental health. Emphasis is on demonstration of clinical judgment.

A&S College Core 2015 **Course changes effective Spring 2023 - Prerequisite:** *NURS 3695 and completion or concurrent enrollment in NURS 3890, NURS 3891, and NURS 3892.*

Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3890, NURS 3892, NURS 3891, NURS 3892, NURS 4125.

NURS3970 - Nursing Externship

Credits: 1-6

Max Credit 6

Allows students to obtain college credit for nursing experience gained in an approved setting. Increases application of nursing theory, knowledge of a health care agency, interpersonal working relationships, technical skills and organization of time in providing nursing care.

When Offered (Offered once a year in summer)

Prerequisite: Junior standing in nursing and consent of instructor

NURS4055 - Application of Evidence in Nursing Practice

Credits: 3

Prepares RN students to engage in evidence-based nursing, specifically how to ask meaningful clinical questions, find relevant evidence, critically appraise evidence, and integrate best evidence with clinical expertise and patient/community values.

USP 2003-2014 Code U3L

USP 2015 Code U5C3

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; STAT 2050 or STAT 2070 or equivalent; COM1 and COM2.

NURS4125 - Evidence-Based Nursing

Credits: 3

Prepares students to engage in evidence-based nursing, specifically how to ask meaningful clinical questions, find relevant evidence, critically appraise evidence, and integrate best evidence with clinical expertise and patient/community values.

USP 2003-2014 Code U3L, U3WC

USP 2015 Code U5C3

Prerequisite: WA and WB or COM1 and COM2; STAT 2050 or STAT 2070 or equivalent; admission into the nursing major component of the program.

NURS4630 - Public/Community Health

Credits: 2

Learners examine public/community health nursing roles and apply the nursing process to community as client. Focuses on improving community health, levels of prevention, and addresses multiple determinants of health. Core functions, essential services, community assessment and planning, emergency preparedness, and analysis of the public healthcare system will be studied.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4635 - Community as Client

Credits: 2

Learners will understand relationships among health, disease, and the environment, with emphasis on the role of community health agencies and programs for communities in need of health care support, regionally, nationally, and globally. In this course, an assessment and planning framework guides students in assessing the health of a community.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4640 - Health Equity

Credits: 2

Learners will examine population-focused concepts to assess vulnerable and oppressed populations. The magnitude of health disparities both in the United States and globally will be discussed. Focuses on a multi-level and multi-cultural view of population health challenges, alleviating health disparities, and a commitment to health equity.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4645 - Population Health

Credits: 2

Focuses on analysis of local, regional, national, and international data that are indicators of population health. Disease outbreaks are analyzed. Learners study development of innovative, collaborative, multi-disciplinary interventions and policies to improve public health. This course provides opportunities for learners to improve population health through application of theory and evidence.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4660 - Healthcare Informatics

Credits: 3

Students will develop knowledge and skills to utilize and evaluate information technologies to improve patient outcomes across diverse populations. Includes the use of Clinical Information Systems to plan and document the nursing process. Ethical and legal considerations of data management and interdisciplinary use of healthcare informatics are presented.

Prerequisite: ReNEW Progression or Current RN license.

NURS4665 - Healthcare Informatics in Professional Nursing Practice

Credits: 3

Utilizing a conceptual framework, students will examine nursing informatics within healthcare systems. Emphasis is placed on examining the role of clinical information systems in improving patient outcomes across practice, education, administrative, research, and interdisciplinary applications. Ethical and legal considerations of data management are examined.

A&S College Core 2015 **Course changes effective Fall 2023** - Prerequisite: *NURS 3895 and completion or concurrent enrollment in NURS 4690, NURS 4691, and NURS 4695.*

Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4690, 4691, 4695.

NURS4690 - Professional Nursing Care of Populations

Credits: 4

Introduces the student to population-focused nursing and applies the nursing process to the community as client. Addresses core functions and essential services of public health. Focuses on vulnerable populations; epidemiology; community assessment, planning, and implementation; analysis of the healthcare system; emergency preparedness; and ethical/legal aspects of public health.

A&S College Core 2015 **Course changes effective Fall 2023** - Description: *Introduces the student to population-focused nursing and applies the nursing process to the community as client. Addresses core functions and essential services of public health. Focuses on vulnerable populations; epidemiology; community assessment, and analysis of the healthcare system. Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4665, NURS 4691, and NURS 4695.*

Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4665, NURS 4691, NURS 4695.

NURS4691 - Professional Nursing Care of Children and Families

Credits: 3

This course encompasses the care of women, children, and their families across physiological, psychological, spiritual, developmental, and socio-cultural dimensions. The focus of this class is on women's health, obstetrical, and pediatric nursing care including health promotion and wellness specific to maternal and pediatric health.

A&S College Core 2015 **Course changes effective Fall 2022** - Credits: *4 credits; Course changes effective Fall 2023* - Description: *This course encompasses the care of women, children, and their families across physiological, psychological, spiritual, developmental, and sociocultural dimensions. The focus is on women's health, obstetrical, and pediatric nursing care including health promotion and wellness specific to maternal and pediatric health. Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4665, NURS 4690, and NURS 4695.*

Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4665, NURS 4690, NURS 4695.

NURS4695 - Professional Nursing Care of Populations Practicum

Credits: 4

Students will apply the nursing process to childbearing families, children, and communities. The focus is on physiological, psychological, spiritual, developmental, and socio-cultural dimensions of individuals, families, and populations. Students will incorporate professional nursing roles into population-based care.

A&S College Core 2015 **Course changes effective Fall 2023** - Description: *The focus is on the application of professional nursing roles to the physiological, psychological, spiritual, developmental, and sociocultural dimensions of individuals, families, communities, and populations.* Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4665, NURS 4690, and NURS 4691.

Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4665, NURS 4690, NURS 4691.

NURS4710 - Population Health

Credits: 4

Introduces the student to population-focused nursing and applied the nursing process to the community as client. Addresses core functions and essential services of public health. Focuses on vulnerable populations; epidemiology; community assessment, planning and implementation; analysis of the health care system; emergency preparedness; and legal aspects of public health.

A&S College Core 2015 **Course changes effective Spring 2023** - Name: *Nursing Care for Population Health;* Description: *Introduces the student to population-focused and public health nursing through the application of the nursing process with the community as client. Focuses on vulnerable populations; epidemiology; community assessment, and analysis of the healthcare system.* Prerequisite: NURS 3771 and completion or concurrent enrollment in NURS 4735, NURS 4740, and NURS 4771.

Prerequisite: NURS 3770, NURS 3771; concurrent enrollment in NURS 4740, NURS 4741, NURS 4735, NURS 4736.

NURS4735 - Vulnerable Populations and Mental Health

Credits: 3

This course introduces students to nursing principles and concepts of mental health psychopathology, physiology, psychology, and spirituality, along with developmental and socio-cultural considerations while incorporating treatment modalities related to the nursing of the middle-aged and aging adult.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: NURS 3771 and completion or concurrent enrollment in NURS 4710, NURS 4740, and NURS 4771.

Prerequisite: NURS 3770 and NURS 3780; concurrent enrollment in NURS 4736.

NURS4740 - Nursing Care of the Young Family

Credits: 6

Utilizes nursing process to assess, promote, and protect the health of young families as client. Focus is human sexuality and reproduction, family planning, pregnancy stages, neonatal, pediatrics. Growth and development, health promotion, disease prevention, family dynamics are included. Evidence-based nursing guides practice to promote a healthy family and family system.

A&S College Core 2015 **Course changes effective Spring 2023** - Description: *Utilizes nursing process to assess, promote, and protect the health of young families as client. Focus is human sexuality and reproduction, family planning, pregnancy stages, and pediatrics to promote a healthy family and family system.* Credits: 4 credits; Prerequisite: NURS 3771 and completion or concurrent enrollment in NURS 4710, NURS 4735, and NURS 4771.

Prerequisite: NURS 3770; NURS 3771, and concurrent enrollment in NURS 4741.

NURS4750 - Independent Study in Nursing

Credits: 1-4

Provides students with opportunity to investigate a problem in nursing care not considered in required nursing courses or to explore in more depth an area considered in one of required nursing courses. Area of study and requirements for earning credit are determined in consultation with nursing faculty member.

When Offered (Normally offered fall, spring and summer)

Prerequisite: senior standing in nursing or consent of instructor.

NURS4765 - Healthcare Informatics in Nursing

Credits: 3

Students will describe information and technology utilized to communicate, manage knowledge, support clinical decision-making, and effectively optimize patient outcomes while adhering to ethical and legal considerations of data management.

Prerequisite: NURS 3745 and completion or concurrent enrollment in NURS 3770, NURS 3771, and NURS 3780.

NURS4771 - Nursing Care of Young Families and Vulnerable Populations Practicum

Credits: 4

Applies and synthesizes clinical judgment related to nursing care of clients with a focus on the young family and vulnerable populations across the lifespan. Concepts address human sexuality, reproduction, mental health, and core functions of public health.

Prerequisite: NURS 3771 and completion or concurrent enrollment in NURS 4710, NURS 4735, and NURS 4740.

NURS4775 - Nursing Senior Capstone

Credits: 10

Provides opportunities to utilize and synthesize core concepts of professional nursing. Intensive clinical experience allowing students to become socialized into health care delivery system; gain in autonomy/confidence in performing skills; practice critical thinking and clinical reasoning in making ethical clinical decisions; develop leadership in providing and coordinating evidence-based nursing care.

A&S College Core 2015 **Course changes effective Summer 2023** - Description: *Provides opportunities to synthesize core concepts of professional nursing through intensive clinical experiences. Focuses on students' socialization into the healthcare system through application of clinical judgment in making safe and ethical decisions while coordinating evidence-based nursing care.* Prerequisite: NURS 4771 and completion or concurrent enrollment in NURS 4785.

Prerequisite: NURS 4710; NURS 4735; NURS 4736; and concurrent enrollment in NURS 4785.

NURS4785 - Nursing Integration

Credits: 2

Focuses on the continuing integration of previously learned concepts. The student further develops the role of consumer of research and incorporates leadership and management skills as a member of the profession.

A&S College Core 2015 **Course changes effective Summer 2023** - Name: *Integration of Leadership in Nursing*; Description: *Focuses on the continuing integration of previously learned concepts of leadership, management, and professional development. The student further develops their role as a consumer of research and as a leader of an interprofessional healthcare team.* Prerequisite: NURS 4771 and completion or concurrent enrollment in NURS 4775.

Prerequisite: NURS 4735; NURS 4736; NURS 4710; and concurrent enrollment in NURS 4775.

NURS4790 - Special Topics in Nursing

Credits: 1-3

Max Credit (Max. 8)

Provides offerings in selected nursing topics on concepts, theories or practices as related to specified areas in nursing.

Prerequisite: junior standing in nursing and consent of instructor.

NURS4792 - Cultural and International Health Care Immersion

Credits: 3

An in-depth examination of cultural influences on health care systems, which will include both classroom and in-field immersion experiences.

Prerequisite: senior or graduate standing in student's major and instructor permission.

NURS4830 - Leadership in Healthcare Today

Credits: 2

Focuses on the role of nurse leader and manager through integration of leadership, management, and organizational concepts, models, and theories. Emphasis in on leadership, followership, management, advocacy, professional development and activism, and managing resources.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4835 - Leading Nursing Practice

Credits: 2

Focuses on nurse leaders making a difference using evidence-based nursing practice. Learners utilize and synthesize basic concepts of professional nursing practice. This course creates the opportunity for learners to lead nursing practice in a variety of settings.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4840 - Healthcare Systems and Policy

Credits: 2

Learners examine healthcare quality and the regulation of professional nursing practice in various settings. The focus is on ethical and legal issues and policy development for healthcare delivery.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4845 - Innovation in Nursing Practice

Credits: 2

Focus in on use and synthesis of concepts in professional nursing practice. This course provides an opportunity to employ critical thinking, to apply ethical decision-making, to use evidence, and to demonstrate the ability to lead planned change.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4855 - Contemporary Nursing Practice

Credits: 2

Focus in on practice as critically effective members and leaders of the healthcare team. Learners analyze a variety of societal, economic, political, and professional issues that influence contemporary nursing. This course provides an opportunity to be creative in examining trends in nursing and healthcare.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4865 - Professional Nursing Leadership

Credits: 3

The role of the nurse leader in nursing practice is developed through integration of leadership, management, and organizational theories. Emphasis is on interprofessional care management, planned change, advocacy, activism, and professional development.

A&S College Core 2015 **Course changes effective Spring 2024** - Description: *The role of the nurse leader is developed through integration of leadership, management, and organizational theories. Emphasis is on interprofessional care, planned change, advocacy, activism, and*

professional development. Prerequisite: *NURS 4695 and completion or concurrent enrollment in NURS 4895.*
Prerequisite: NURS 4695 and completion or concurrent enrollment with NURS 4895.

NURS4895 - Professional Nursing Capstone Practicum

Credits: 9-12

Students utilize and synthesize basic concepts of professional nursing practice. The course socializes students into a healthcare system. Learning experiences allow students to gain confidence in managing patient care, practicing critical thinking, developing leadership and advocacy skills, and exploring ethical decision-making in clinical situations.

A&S College Core 2015 **Course changes effective Spring 2024** - Description: *Students synthesize concepts of professional nursing practice. The course socializes students into a healthcare system. Learning experiences allow students to manage patient care, apply critical judgment, develop leadership and explore ethical decision-making in healthcare settings.* Prerequisite: *NURS 4695 and completion or concurrent enrollment in NURS 4865 .*

Prerequisite: NURS 4695 and completion or concurrent enrollment with NURS 4865.

NURS5140 - Pharmacotherapy for Primary Care

Credits: 4

Prepares primary care practitioners in drug therapy management for a variety of client populations with an emphasis on rural practice.

Prerequisite: NURS 5601, NURS 5602, NURS 5603, NURS 5604, NURS 5605, and NURS 5830.

NURS5165 - DNP: Adv Pathophysiology

Credits: 2

A system-based approach is used to explore selected pathophysiological states encountered across the lifespan in primary care. The developmental physiology, etiology, pathogenesis, clinical manifestations, and physiological responses to illness and treatment regimens are examined, providing a basis for the foundation of clinical decisions.

Prerequisite: NURS 5603 , NURS 5604 , NURS 5605 , and NURS 5830

NURS5420 - Leadership Within Health Care Systems

Credits: 3

Emphasis on strategic use of systems and outcomes as a foundation for professional leadership development.

Prerequisite: Admission to UW's MS Nursing Program; NURS 5606, NURS 5472.

NURS5425 - Health Policy for Rural and Global Population Health

Credits: 3

Emphasis on health policy as it influences rural and global population health.

Prerequisite: NURS 5415; NURS 5420; NURS 5430.

NURS5430 - Population Health

Credits: 3

Emphasis on epidemiology and population health.

Prerequisite: NURS 5415; NURS 5420; NURS 5425.

NURS5452 - Curriculum Development

Credits: 3

Emphasis on the process of developing curricula in nursing educational or healthcare setting to include evaluation of program outcomes.

Prerequisite: Admission to UW's MS Nursing Program; NURS 5605 , NURS 5472 ; Co-requisite of NURS 5462.

NURS5461 - Business of Healthcare

Credits: 3

Emphasis on leading and managing entrepreneurial healthcare opportunities.

Prerequisite: Admission to UW's MS Nursing Program; NURS 5605 , NURS 5472

NURS5462 - Teaching Methodologies and Evaluation

Credits: 3

Emphasis on evidence-based teaching methodologies, development of course materials, and evaluation of students learning outcomes.

Prerequisite: Admission to MS; NURS 5405; NURS 5410.

NURS5472 - Integrated Advanced Pathophysiology, Pharmacology, and Assessment

Credits: 3

Emphasis on the integration of advanced pathophysiology, pharmacology, and assessment in relation to chronic conditions.

Prerequisite: Admission to UW's MS Nursing Program; NURS 5602 , NURS 5604 ; Co-requisite NURS 5605

NURS5473 - Advancing Healthcare Transform

Credits: 2
Max Credit 2

Emphasis on academic/practice partnerships as avenues for addressing population health and related workforce development.

Prerequisite: Admission to the NURS MS program, NURS 5405, NURS 5410

NURS5483 - Practicum: Rural Healthcare Leadership

Credits: 3
Emphasis on the integration of learning through a practicum experience in educational or healthcare leadership.

Prerequisite: Completion of all required MS courses, corequisite NURS 5473.

NURS5601 - Theoretical Foundations Advanced Practice Nursing

Credits: 3
An introduction to the discipline of nursing for graduate nursing students

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5602 - Advanced Nursing Leadership

Credits: 3
Focus on developing advanced nursing leadership skills and attributes for interprofessional collaboration to create viability of the profession and health-related practice environments

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5603 - Evidence-Based Practice for Advanced Nursing

Credits: 3
Focuses on the use of EBP to solve clinical, educational, and administrative problems in advanced nursing practice.

Prerequisite: Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5604 - Population and Health Policies

Credits: 3
Emphasis on population health, epidemiology, and health policy related to rural and global health issues.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.

NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice

Credits: 3

Emphasis on theoretical and scientific foundations for quality improvement, safety, and informatics in health care.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.

NURS5750 - Independent Advanced Study

Credits: 1-4

Max Credit (Max. 8)

Provides students the opportunity to analyze a problem in nursing; apply theory to clients in a clinical setting; or pursue an area of interest under the guidance of a faculty member. Requirements and evaluation are mutually established between the student and faculty member.

NURS5790 - Advanced Issues in Health

Credits: 1-3

Max Credit (Max. 12)

Designed to provide graduate students the opportunity of pursuing advanced issues in health.

Prerequisite: graduate status.

NURS5820 - Health Behavior Change I: Primary Prevention and Wellness

Credits: 3

This course will cover the application of theories and techniques of health behavior change and principles of epidemiology to health issues from the individual to the community level.

Prerequisite: Admission to the DNP program.

NURS5824 - Advanced Health Assessment and Clinical Decision-Making for Nurse Practitioners

Credits: 2

Builds upon basic nursing assessment skills; includes a human cadaver lab experience to enhance learners' understanding of anatomy, physiology, and pathophysiology, progressing to didactic, hands-on practice, and check-offs of student ability to perform client interviewing and advanced physical assessment techniques. Prepares learners for the clinical decision-making required of nurse practitioners.

A&S College Core 2015 **Course changes effective Fall 2022** - **Credits:** 3 credits; **Description:** *Advanced health assessment and diagnostic decision-making for nurse practitioners. Builds on previous nursing assessment skills. Emphasizes person-centered communication skills and a systematic diagnostic-reasoning approach that leads to accurate clinical decision-making. Clinical correlation amongst anatomy, physiology, pathophysiology, and physical examination.* **Prerequisite:** NURS 5140 and NURS 5165.

Prerequisite: NURS 5165, NURS 5800, NURS 5805, NURS 5810, and NURS 5865

NURS5825 - Advanced Health Assessment and Clinical Decision-Making for Family Nurse Practitioners

Credits: 4

Advanced health assessment and diagnostic decision-making for family nurse practitioners. Builds on previous assessment skills and covers specialty exams used in primary care. Emphasizes a systematic diagnostic reasoning approach that leads to accurate clinical decision-making. Additionally, course focuses on sociocultural influences, growth and development, and gender concepts.

A&S College Core 2015 **Course changes effective Fall 2022** - Name: *Advanced Health Assessment for Family NPs*; Credits: 2 credits; Description: *Advanced primary care assessment skills for family nurse practitioners. Focusing on specialty examination techniques for all body system.* Prerequisite: NURS 5140 and NURS 5165.

Prerequisite: NURS 5166, NURS 5815, NURS 5820, and NURS 5824.

NURS5826 - Advanced Health Assessment for Psych NPs

Credits: 2

Advanced assessment skills for psychiatric mental health nurse practitioners. Focusing on specialty examination techniques in the mental health setting.

Prerequisite: NURS 5165 and NURS 5140.

NURS5827 - Skills for Family NP

Credits: 3

Developing skills for advanced practice nursing and practice management for the family nurse practitioner.

Prerequisite: NURS 5824, NURS 5825, NURS 5871, and NURS 5875.

NURS5828 - Skills for Psych NP

Credits: 2

Developing skills for advanced practice nursing and practice management for the psychiatric mental health nurse practitioner.

Prerequisite: NURS 5824, NURS 5826, NURS 5880, and NURS 5881.

NURS5830 - Health Behavior Change II: Behavioral Skills for Secondary and Tertiary Prevention

Credits: 3

This course will cover the application of health behavior change skills in advanced nursing practice, including theories/models and techniques, with a focus on chronic illness.

Prerequisite: NURS 5820 and NURS 5865.

NURS5862 - Practicum: Diagnosis and Management of the Psychiatric Client for the PMHNP I

Credits: 5

Clinical practicum that allows students to continue to practice and refine competencies in the PMHNP role with multiple and complex psychiatric populations.

A&S College Core 2015 **Course changes effective Summer 2023** - Prerequisite: *NURS 5828, NURS 5882, and NURS 5883.*

Prerequisite: NURS 5850.

NURS5863 - Practicum: Diagnosis and Management of the Psychiatric Client for the PMHNP II

Credits: 5

Clinical practicum that allows students to continue to practice and refine competencies in the PMHNP role with multiple and complex psychiatric populations.

A&S College Core 2015 **Course changes effective Fall 2023** - Prerequisite: *NURS 5862 and NURS 5891.*

Prerequisite: NURS 5862, NURS 5883 and NURS 5891.

NURS5864 - Final PSH Practicum

Credits: 6

This final clinical experience provides learners with the opportunity to integrate previous learning from the PMHNP program in the provision of evidence-based health care.

Prerequisite: NURS 5863, NURS 5866, NURS 5892, and NURS 5893.

NURS5865 - DNP Seminar

Credits: 1

Max Credit (Max. 6)

Instructor and student-led discussions designed to facilitate role transition of the doctorally-prepared nurse practitioner. Seminars include topics related to integration and application of nursing and other health-related theories and models in rural nurse practitioner-delivered care.

Prerequisite: Admission to the DNP program.

NURS5866 - DNP Seminar II

Credits: 1

Instructor and students lead discussions designed to facilitate role transition of the doctorally prepared nurse practitioner. Seminars include topics related to transitioning from nurse practitioner students into practicing nurse practitioners.

A&S College Core 2015 **Course changes effective Fall 2023** - Prerequisite: NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891.

Prerequisite: NURS 5891, NURS 5862 and NURS 5883 OR NURS 5891, NURS 5875 and NURS 5876.

NURS5871 - Wellness for Adults in Primary Care

Credits: 3

Provision of wellness primary care for adults across the lifespan, including primary and secondary prevention.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: NURS 5165 and NURS 5140.

Prerequisite: NURS 5140 and NURS 5825.

NURS5872 - Practicum for Wellness in Primary Care

Credits: 3

Clinical practicum for NURS 5871, Wellness for Adults in Primary Care.

A&S College Core 2015 **Course changes effective Summer 2023** - Name: *Practicum: Diagnosis and Management of the Primary Care Client for the FNP I*; Credits: 5 credits; Description: *Clinical practicum focused on beginning level diagnostic and clinical management competencies for the FNP.* Prerequisite: NURS 5873, NURS 5877, and NURS 5827.

Prerequisite: NURS 5140 and NURS 5825.

NURS5873 - Primary Care for Children, Adolescents, and Families

Credits: 3

Provision of primary care for children, adolescents, and families across the lifespan, including primary and secondary prevention.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: NURS 5871, NURS 5875, NURS 5824, and NURS 5825.

Prerequisite: NURS 5440, NURS 5830, NURS 5871 and NURS 5872.

NURS5874 - Practicum for Primary Care for Children, Adolescents, and Families

Credits: 3

Clinical practicum for NURS 5873, Primary Care for Children, Adolescents, and Families.

A&S College Core 2015 **Course changes effective Fall 2023** - Name: *Diagnosis and Management of the Primary Care Client for the FNP II*; Credits: 5 credits; Description: *Clinical practicum that allows students to continue to practice and refine competencies in the FNP role.* Prerequisite: NURS 5872 and NURS 5891.

Prerequisite: NURS 5440, NURS 5830, NURS 5871 and NURS 5872.

NURS5875 - Primary Care for Acute & Chronically Ill Adults

Credits: 3

Diagnosis and management of select acute and chronic illnesses experienced by adults across the lifespan. Primary focus is on those physical and behavioral illnesses with high prevalence in rural primary care.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: NURS 5165 and NURS 5140.

Prerequisite: NURS 5850.

NURS5876 - Practicum for Primary Care for Acute & Chronically Ill Adults

Credits: 3

Clinical practicum for NURS 5875, Primary Care for Acute & Chronically Ill Adults I.

A&S College Core 2015 **Course changes effective Fall 2023** - Name: Final FNP Practicum; Credits: 6 credits;

Description: This final clinical experience provides learners with the opportunity to integrate previous learning from the FNP program in the provision of evidence-based health care. Prerequisite: NURS 5866, NURS 5874, NURS 5892, and NURS 5893.

Prerequisite: NURS 5850.

NURS5877 - Primary Care for Acute & Chronically Ill Adults II

Credits: 3

Continuation of NURS 5875. Diagnosis and management of select acute and chronic illnesses experienced by adults across the lifespan. Primary focus is on those physical and behavioral illnesses with high prevalence in rural primary care.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: NURS 5871, NURS 5875, NURS 5824, and NURS 5825.

Prerequisite: NURS 5875, NURS 5876 and NURS 5891.

NURS5878 - Practicum for Primary Care for Acute & Chronically Ill Adults II

Credits: 3

Clinical practicum for NURS 5877, Primary Care for Acute & Chronically Ill Adults II.

Prerequisite: NURS 5875, NURS 5876 and NURS 5891.

NURS5880 - Neurobiology & Psychopharm

Credits: 3

The advanced study of neurobiology and psychopharmacology in the treatment of psychiatric disorders across the lifespan. In depth exploration of how the advanced practice psychiatric nurse can utilize pharmacodynamics and pharmacogenetics to inform the clinical decision making in the treatment complex mental illnesses and addiction.

A&S College Core 2015 **Course changes effective Fall 2022** - Name: Neurobiology and Psychopharmacology; Credits: 4 credits; Prerequisite: NURS 5140 and NURS 5165.

Prerequisite: NURS 5140.

NURS5881 - Psychotherapy Models and Theories for Advanced Practice Mental Health Nursing

Credits: 3

Utilization of psychotherapy frameworks in the care of individuals, families, and groups. Emphasizing the counseling role and skill development of the advanced practice mental health nurse in the assessment, intervention and evaluation of diverse populations across the lifespan. Issues of ethics, rural practice, and diversity are addressed throughout the course.

A&S College Core 2015 **Course changes effective Fall 2022** - Prerequisite: *NURS 5140 and NURS 5165.*

Prerequisite: NURS 5140.

NURS5882 - Advanced Psychiatric Mental Health Nursing Diagnosis and Management for the Adult, Older Adult, and Vulnerable Populations

Credits: 4

Advanced knowledge of evidence based assessment, diagnosis, treatment, management, and health promotion of adults and aging adults with mental illness. Explore culturally sensitive care among vulnerable populations. Examine the professional, ethical, policy, and practice issues influencing the role of the advanced practice psychiatric nurse.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: *NURS 5824, NURS 5826, NURS 5880, and NURS 5881.*

Prerequisite: NURS 5440, NURS 5830, NURS 5880 and NURS 5881.

NURS5883 - Advanced Psychiatric Mental Health Nursing Diagnosis and Management for the Child and Adolescent

Credits: 4

Evidenced based assessment, diagnosis, treatment and management of mental health disorders in children and adolescence at the individual, family and community level. Theories of family development including behavioral patterns will be assessed using a culturally sensitive lens. Review of psychotherapy, psychopharmacology, psychoeducation, and health promotion as is developmentally appropriate.

A&S College Core 2015 **Course changes effective Spring 2023** - Prerequisite: *NURS 5824, NURS 5826, NURS 5880, and NURS 5881.*

Prerequisite: NURS 5850.

NURS5891 - DNP Project I

Credits: 3

In collaboration with a facility, learners will examine clinically relevant data to target a practice and/or patient outcome for improvement. Learners will collect and critically appraise related evidence and develop an intervention, including an outcome evaluation plan.

A&S College Core 2015 **Course changes effective Summer 2023** - Credits: *1 credit;* Description: *In collaboration with a health-related organization, learners will identify a problem, concern, or question that can be addressed through a rapid cycle quality improvement project for a Doctor of Nursing Practice project.* Prerequisite: *NURS 5873,*

NURS 5877 and NURS 5827 or NURS 5882, NURS 5883 and NURS 5828.

Prerequisite: NURS 5850.

NURS5892 - DNP Project II

Credits: 3

Continuation of NURS 5891, DNP Project I. In collaboration with facility, learners will implement the proposed clinical intervention, evaluate the outcome, and professionally disseminate the results.

A&S College Core 2015 **Course changes effective Fall 2023 - Description:** *Continuation of NURS 5891, DNP Project I. In collaboration with a health-related organization, learners will plan and begin to implement a quality improvement project. Prerequisite: NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891.*

Prerequisite: NURS 5891 AND NURS 5875, NURS 5876 OR NURS 5862, NURS 5883.

NURS5893 - DNP Project III

Credits: 1

Continuation of NURS 5892, DNP Project II. In collaboration with a health-related organization, learners will continue to implement their scholarly quality improvement project.

Prerequisite: NURS 5874, NURS 5892 and NURS 5866 or NURS 5863, NURS 5892, NURS 5866.

NURS5894 - DNP Project IV

Credits: 2

Continuation of NURS 5893, DNP Project III. In collaboration with a health-related organization, learners will finalize their scholarly quality improvement project and disseminate the findings.

Prerequisite: NURS 5893.

NURS5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

NURS5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NURS5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Graduate level course designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrolled in a graduate degree program.

Online Master of Business Administration

MBAX5103 - Business Research Methods

Credits: 3

An overview of the scientific research process applied in the context of business. Topics include problem definition, selection of a methodological approach, design and implementation of field work (qualitative and survey methods), analysis techniques (thematic analysis for qualitative research and statistical analysis for survey research, and communicating results.

Prerequisite: Admission to the MBA online program, or permission from the MBA Program Director.

MBAX5104 - Organizational Behavior and Human Resource Management

Credits: 3

Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5108 - Financial Accounting

Credits: 3

This course provides students with tools to use financial information from the accounting system. This course addresses how financial statement information is used to make business decisions and allows students to learn about how generally accepted accounting principles are applied to and account for and report on business transaction results. #304.

Prerequisite: Admission to the MBA online program, or permission from the MBA Program Director.

MBAX5202 - Data and Decision Modeling

Credits: 3

This course will prepare students to use computer-based models for solving problems in the areas of operation, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analysis including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5203 - New Ventures

Credits: 3

This course explores and evaluates various intrapreneurial and entrepreneurial opportunities and focuses on lean startup methodologies, use of open innovation techniques, and team productivity. Dynamic business environments characterized by technological diversity and global enterprise will also be considered as student strategically analyze a business opportunity using practical theory application.

Restricted Admitted to MBAX program.

Prerequisite: Admission to the MBA online program, or permission from the MBA Program Director.

MBAX5204 - Financial Management

Credits: 3

Students taking this course should expect to learn the fundamental principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval

MBAX5207 - Marketing Management

Credits: 3

Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5208 - Managerial Accounting

Credits: 3

This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of

business decisions. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval

MBAX5305 - Strategic Management

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5330 - The Global Business Environment

Credits: 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5502 - Energy Finance: Project Evaluation

Credits: 3

Introduction to traditional engineering cost methods to evaluate investments in energy and mineral projects, and to modern techniques to make these decisions under uncertainty given the technical and economic risks facing minerals industries.

Prerequisite: Admission to the MBA program, or permission of the MBA Program Director or the MBA Program Coordinator. #304.

MBAX5503 - Fundamentals of Accounting in the Energy Industry

Credits: 3

Introduction to basic financial accounting and reporting issues related to energy producing activities. Investigate current accounting practices of energy producing companies related to exploration, acquisition, development, and

delivery of energy products. Cover financial requirements of the Financial Accounting Standards Board (FASB), the International Accounting Standards Board (IASB), and the Securities and Exchange Commission (SEC).

Prerequisite: Admission to the MBA program, or permission of the MBA Program Director or the MBA Program Coordinator. #304.

MBAX5504 - Supply Chain Management in the Energy Industry

Credits: 3

Examines the field of supply chain management in an energy context. Study procurement and distribution strategies, concepts, tools and techniques that support energy operations. Course activities and case studies will address effective execution of these strategies and the appropriate supporting activities.

Prerequisite: Admission to the MBA program, or permission of the MBA Program Director or the MBA Program Coordinator. #304.

Outdoor Recreation and Tourism Management

ORTM1000 - Foundations of Recreation and Tourism

Credits: 3

Introduces the conceptual foundations, array of services, and management with recreation and tourism. Primary focal points for this course include historical and psychological underpinnings, market trends, types of resources and services, cultural, economic, political, and legal considerations, and career opportunities. Emphasizes the relationship to resource stewardship.

ORTM1050 - Natural and Cultural Resources of the West

Credits: 3

The American West is an attraction for visitors, largely due to its unique sense of place, blend of people and culture, history and natural resources. Within the context of outdoor recreation and cultural/historical tourist attractions, students will examine diverse natural and cultural resources.

ORTM2000 - Foundations of Customer Service and Hospitality

Credits: 3

Customer service and hospitality are fundamental to providing high-quality services. This course examines critical elements of excellent customer service in the tourism industry, including transportation, accommodation, food and beverage, and attractions. Students will develop communication skills relating to customer service, self-presentation, and interpersonal interactions, including international and cultural communications.

Cross Listed HOSP 2000

ORTM2050 - Program Planning, Design and Delivery

Credits: 3

Design, delivery, and marketing of programs to diverse and inclusive audiences. Students will utilize tools, analytics,

and techniques in both the direct supply and facilitation of a planned experience. Students will design and implement a program to a non-peer group.

USP 2015 Code U5C2

Prerequisite: ORTM 1000.

ORTM2800 - Outdoor Leadership

Credits: 3

Designed to increase knowledge and competencies related to leading others in the outdoors. There is a significant focus on self-awareness, judgment, and decision-making. The specific skills and theories students learn in the class provide a foundation for other leadership endeavors.

Cross Listed ENR 2800

Prerequisite: COM 1

ORTM3000 - Tourism Theory and Practice

Credits: 3

Tourism is a dynamic system of global interconnection that impacts human and natural environments in myriad ways. This course examines the behavioral, social, economic, political, and environmental issues implicated in and affected by tourism and its industries. Students will develop a critical understanding of the implications on the practice of tourism today.

Prerequisite: junior standing.

ORTM3050 - Operations, Management and Environmental Stewardship

Credits: 3

Operations and management are critical aspects of the successful delivery of quality recreation and tourism experiences. Students will evaluate environmental stewardship challenges and potential solutions with the integration of operations and management. Students will develop an understanding of functions that are critical to operational leadership, such as revenue management (budgeting, cost controls, profit centers), and human capital management.

Prerequisite: ORTM and junior standing.

ORTM4050 - Global Tourism

Credits: 3

This course focuses on global destinations and the people who inhabit and visit them. Students will examine tourism from different human angles including that of the tourist, the tourism service providers, the government agencies that promote and regulate it, researchers, and the local populations whose lives are impacted.

A&S College Core 2015 ASG

Prerequisite: COM2 and ORTM 1000; junior or senior standing.

ORTM4900 - Outdoor Recreation and Tourism Management Business Strategies

Credits: 3

Application of the successful delivery of hospitality, tourism, and outdoor recreation enterprises. Business activities covered include tourism- specific marketing, market-based research and analytics, regional challenges and opportunities, business plan components, financial risk analysis, and law and policy.

Restricted Restricted to ORTM majors only.

Prerequisite: Senior standing, ORTM 3050.

ORTM4901 - Human Dimensions of Outdoor Recreation and Tourism Management

Credits: 3

This course synthesizes social, environmental, and economic aspects of outdoor recreation and tourism by examining social science methods and research conducted within these spheres. This course will be an applied experience in learning how to answer the question "Why do recreationists and tourists do what they do?"

Restricted Restricted to ORTM majors only.

Prerequisite: Senior standing, ORTM 3050.

ORTM4902 - Recreation Venue Operations

Credits: 3

Applied best practices of resource and facility management in conjunction with recreation use and infrastructure development and maintenance. Students will examine the importance and challenges of matching user expectations with quality amenities of both private business and resource management agencies. Students will evaluate real-world problems and opportunities.

Restricted Restricted to ORTM majors only.

Prerequisite: Senior standing, ORTM 3050.

ORTM4903 - Capstone

Credits: 3

Integrates theory and practice to create solutions for real-world problems and opportunities in outdoor recreation and tourism. Industry or government sponsors will mentor projects; students will research and execute a project and share a product with direct value to the sponsor and community.

USP 2015 Code U5C3

Restricted Restricted to ORTM majors only.

Prerequisite: Senior standing, ORTM 3050.

ORTM4970 - Internship

Credits: 1-6
Max Credit (Max. 6)

Provides students the potential to succeed as professional at management or higher levels in park, recreation, tourism, or related organizations. Internships are required to be at least 400 clock hours, and no fewer than 10 weeks. Please discuss the criteria and requirements of employers/sponsors and students with your advisor.

Restricted Restricted to ORTM majors only.

Prerequisite: Any ORTM class and junior standing.

ORTM4975 - Independent Study

Credits: 1-6
Max Credit (Max. 6)

Supervised study and investigation in topics related to students' research.

Prerequisite: junior standing.

Pathobiology

PATB1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

PATB2220 - Pathogenic Microbiology

Credits: 3
This course serves as an introduction to bacterial pathogenesis and disease using taxonomy and categorical approaches. Material presented in the course includes maintenance, transmission, molecular mechanisms of virulence factors, pathogen-host interactions, disease process, and treatment and prevention of disease of pathogenic bacteria and fungus.

Cross Listed MICR 2220
When Offered (Offered spring semester)
Prerequisite: MICR 2210

PATB2400 - Host Defenses Against Infection

Credits: 3

Course content will address history of immunology in the context of infectious diseases, different pathogens and their interaction with higher-order life forms and an introduction of the immune system relevant to protect against invasive microorganisms.

A&S College Core 2015 Course is appropriate for students majoring in Veterinary Sciences, Microbiology, or other Life Sciences fields.

Prerequisite: MOLB/MICR 2021 and PATB/MICR 2220

PATB3021 - Eukaryotic Microbes

This course will address the biology and ecology of lower eukaryotic life-forms. Topics include: marine phyto- and zooplankton, terrestrial and fresh water aquatic micro-algae, protists, the evolution of multicellularity, and a phylogenetic survey of microscopic multi-cellular life.

Cross Listed PATB/MICR 3021

Prerequisite: MOLB/MICR-2021, General Microbiology

PATB3400 - Host Defenses Against Infect.

Credits: 3

Max Credit 3

Topics will include the history of immunology in the context of infectious diseases, different infectious pathogens and their interactions with higher order life forms, and introduction to the immune system relevant to protection against invasive microorganisms.

Prerequisite: MOLB/MICR 2021 and PATB/MICR 2220

PATB4001 - Epidemiology (Diseases in Population)

Credits: 3

Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed MICR 4001

Dual Listed PATB 5001

Prerequisite: STAT 2050 or STAT 2070

PATB4050 - Problems in Animal Disease

Credits: 1-4

Max Credit (Max. 6)

Offers opportunity for supervised investigation of animal disease problems involving techniques of bacteriology, mycology, virology, gross pathology, histopathology and/ or toxicology.

Prerequisite: 12 semester hours of biological science and consent of instructor; MOLB 2021 is recommended for most students.

PATB4110 - Diseases of Food Animals

Credits: 3

Acquaints students with diseases of cattle, sheep, swine and poultry. The focus is on principles of disease prevention and control.

Dual Listed PATB 5110

When Offered (Offered fall semester)

Prerequisite: LIFE 2022

PATB4111 - Equine Health and Disease

Credits: 3

To familiarize students with identification, prevention and treatment of diseases in horses through proper health management techniques.

Cross Listed ANSC 4111

Dual Listed PATB 5111

Prerequisite: ANSC 1030

PATB4130 - Mammalian Pathobiology

Credits: 3

Anatomical basis of disease in mammals. Emphasis on concepts of pathogenesis of disease, and the gross, microscopic and clinicopathological changes associated with lesions: cell injury and death; cellular degeneration; disturbances of growth and circulation; neoplasia; inflammation; and recognition of gross and microscopic tissue changes. Background in immunology will be beneficial.

Cross Listed MICR 4130

Dual Listed PATB 5130

When Offered (Normally offered spring semester)

USP 2015 Code U5C3

Prerequisite: C or better in LIFE 2022.

PATB4140 - Principles of Toxicology

Credits: 3

Toxicology is the study of poisons, their mechanisms of action and their effects on various organisms including man and domestic animals. Designed to provide students in the life and environmental sciences with an understanding of the principles of toxicology as they apply to animal and human health, food safety and environmental studies.

Dual Listed PATB 5140

When Offered (Normally offered fall semester of even-numbered years)

Prerequisite: 9 hours of biological science (e.g., physiology), 4 hours chemistry, 3 hours biochemistry.

PATB4150 - Seminar

Credits: 1
Max Credit (Max. 4)

Preparation and oral presentation of papers on veterinary sciences topics.

Prerequisite: 8 hours of biology and consent of instructor.

PATB4170 - Diseases of Wildlife

Credits: 3

Introduction to wildlife diseases of the Rocky Mountain region and North America. Emphasis on infectious, parasitic, traumatic, toxic, and other disease agents with coverage of mechanisms of disease, epidemiology, and disease impacts on wildlife populations and species. Significant discussion of zoonotic diseases and diseases at the wildlife/domestic animal interface.

Dual Listed PATB 5170

When Offered (Offered spring semester of even numbered years)

A&S College Core 2015 12 hours of biological or zoological sciences.

Former Course Number [4120]

PATB4220 - Molecular Mechanisms of Bacterial Pathogenesis

Credits: 3

Intended as a survey of the molecular mechanisms that have evolved in pathogenic bacterial species which result in disease. The broad-scope objective is to assist students in gaining an understanding of principals and concepts as they apply to common themes of bacterial virulence acting on higher order host organisms. In-class review/ discussion of scholarly manuscripts, historical to present day, is paramount in allowing students to gain a better appreciation and comprehension of biological principals and concepts through knowledge of experimental approaches.

Cross Listed MICR 4220

Dual Listed PATB 5220

Prerequisite: PATB 2220/MICR 2220 and statistics (or epidemiology).

PATB4240 - Disease Ecology

Credits: 3

Introduction to 1) how interactions among species, ecosystems, human systems, and abiotic components of the environment affect patterns and processes of disease, and 2) considerations for coevolution of hosts and pathogens, conservation biology, models used to understand disease dynamics, and approaches to manage and control disease in animals, plants, and humans.

Cross Listed ENR 4240

Dual Listed PATB 5240

Prerequisite: LIFE 2022 or LIFE 2023 and STAT 2050 or STAT 2070

PATB4300 - Microscopic Anatomy

Credits: 3
Max Credit 3

Covers mammalian tissue anatomy and function at a microscopic level. Emphasizes the relationship of tissue structure and function to health and the development of disease. Intended for students pursuing careers or continuing education in medical/veterinary medical, research, and related fields.

Dual Listed PATB 5300
Prerequisite: BIOL 2000

PATB4320 - Problems in Parasitology

Credits: 1-3
Max Credit (Max. 5)

Individual laboratory, library or field study of parasites and their host relations.

Prerequisite: 8 semester hours of biological sciences or 3 semester hours of parasitology and consent of instructor.

PATB4400 - Immunology

Credits: 4
Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed MOLB 4400
Dual Listed PATB 5400
When Offered (Normally offered spring semester)
Prerequisite: MOLB 2021/MICR 2021 or MOLB 2240/MICR 2240 or PATB 2220, and a minimum grade of C- in MOLB 3000 or MOLB 3610.

PATB4500 - Veterinary Parasitology

Credits: 4
Biology, importance, diagnosis and control of helminth and protozoan parasites of wild and domestic animals. Arthropod vectors and/or intermediate hosts of helminth & protozoan parasites are included. Diagnostic procedures and identification familiarity with agents are emphasized in lab.

When Offered (Offered fall semester of even-numbered years)
Prerequisite: 8 hours of biological science.

PATB4710 - Medical Virology

Credits: 3
Human and animal viruses as biological entities. Methods of study, classification, replication strategies, diagnostic approaches, epidemiology and significance as disease agents.

Cross Listed MICR 4710
Dual Listed PATB 5710
When Offered (Normally offered fall semester)
Prerequisite: MOLB 2240

PATB5001 - Epidemiology (Diseases in Population)

Credits: 3

Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed MICR 5001
Dual Listed PATB 4001
Prerequisite: STAT 2050

PATB5110 - Diseases of Food Animals

Credits: 3

Acquaints students with diseases of cattle, sheep, swine and poultry. The focus is on principles of disease prevention and control.

Dual Listed PATB 4110
When Offered (Offered fall semester)
Prerequisite: LIFE 2022

PATB5111 - Equine Health and Disease

Credits: 3

To familiarize students with identification, prevention and treatment of diseases in horses through proper health management techniques.

Cross Listed ANSC 5111
Dual Listed PATB 4111
Prerequisite: ANSC 1030

PATB5120 - Topics in Pathobiology

Credits: 1-4
Max Credit (Max. 8)

This course will have a focus on conservation genomics. Lectures in current pathobiology topics derived from the expertise of the lecturer.

Prerequisite: 12 hours of biological sciences and consent of instructor.

PATB5130 - Mammalian Pathobiology

Credits: 3

Anatomical basis of disease in mammals. Emphasis on concepts of pathogenesis of disease, and the gross, microscopic and clinicopathological changes associated with lesions: cell injury and death; cellular degeneration; disturbances of growth and circulation; neoplasia; inflammation; and recognition of gross and microscopic tissue changes. Background in immunology will be beneficial.

Dual Listed PATB 4130

Prerequisite: C or better in LIFE 2022

PATB5140 - Principles of Toxicology

Credits: 3

Toxicology is the study of poisons, their mechanisms of action, and their effects on various organisms including man and domestic animals. Designed to provide students in the life and environmental sciences with an understanding of the principles of toxicology as they apply to animal and human health, food safety and environmental studies.

Dual Listed PATB 4140

Prerequisite: 9 hrs. biological science (eg. physiology), 4 hrs. chemistry, 3 hrs. biochemistry.

PATB5170 - Diseases of Wildlife

Credits: 3

Introduction to wildlife diseases of the Rocky Mountain region and North America. Emphasis on infectious, parasitic, traumatic, toxic, and other disease agents with coverage of mechanisms of disease, epidemiology, and disease impacts on wildlife populations and species. Significant discussion of zoonotic diseases and diseases at the wildlife/domestic animal interface.

Dual Listed PATB 4170

Prerequisite: 12 hours of biological or zoological sciences.

PATB5220 - Molecular Mechanisms of Bacterial Pathogenesis

Credits: 3

Intended as a survey of the molecular mechanisms that have evolved in pathogenic bacterial species which result in disease. The broad-scope objective is to assist students in gaining an understanding of principles and concepts as they apply to common themes of bacterial virulence acting on higher order host organisms. In-class review/ discussion of scholarly manuscripts, historical to present day, is paramount in allowing students to gain a better appreciation and comprehension of biological principles and concepts through knowledge of experimental approaches.

Cross Listed MICR 5220

Dual Listed PATB 4220

Prerequisite: PATB 2220/MICR 2220 and statistics (or epidemiology).

PATB5240 - Disease Ecology

Credits: 3

Introduction to 1) how interactions among species, ecosystems, human systems, and abiotic components of the environment affect patterns and processes of disease, and 2) considerations for coevolution of hosts and pathogens,

conservation biology, models used to understand disease dynamics, and approaches to manage and control disease in animals, plants, and humans.

Cross Listed ENR 5240

Dual Listed PATB 4240

PATB5300 - Microscopic Anatomy

Covers mammalian tissue anatomy and function at a microscopic level. Emphasizes the relationship of tissue structure and function to health and the development of disease. Intended for students pursuing careers or continuing education in medical/veterinary medical, research, and related fields.

Prerequisite: BIOL 2000

PATB5400 - Immunology

Credits: 4

Biology of the immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques. Students are required to complete a term paper and make a presentation.

Cross Listed MOLB 5400

Dual Listed PATB 4400

Prerequisite: MOLB 2021/MICR 2021 or MOLB 2240/MICR 2240 or PATB 2220, and a minimum grade of C- in MOLB 3000 or MOLB 3610.

PATB5500 - Veterinary Parasitology

Credits: 4

Biology, importance, diagnosis and control of helminth and protozoan parasites of wild and domestic animals. Arthropod vectors and/or intermediate hosts of helminth & protozoan parasites are included. Diagnostic procedures and identificational familiarity with agents are emphasized in lab.

Prerequisite: 8 hours of Biological Science.

PATB5505 - Investigations in Pathobiology

Credits: 1-4

Max Credit (Max. 8)

Research involvement in pathobiology to learn laboratory methods, scientific literature, research design and data analysis and presentation.

Prerequisite: graduate standing and/or consent of instructor and 16 hours of biological sciences.

PATB5510 - Introductory Virology

Credits: 3

Prokaryotic and eukaryotic viruses as infectious agents and models for modern molecular biology. Examines concepts and principles of pathogenesis, host response and the regulation of virus-host interactions. Genome organization, structure and replication will be examined within the context of the co-evolution of virus and host.

Cross Listed MOLB 5510

Prerequisite: MOLB 3610 or MOLB 4600 plus MOLB 4610.

PATB5515 - Advanced Seminar in Pathobiology

Credits: 1

Max Credit (Max. 4)

Preparation and presentation of research topics in pathobiology with participation in discussions.

Prerequisite: graduate standing and/or consent of instructor and 16 hours of biological sciences.

PATB5710 - Medical Virology

Credits: 3

Human and animal viruses as biological entities. Methods of study, classification, replication strategies, diagnostic approaches, epidemiology and significance as disease agents.

Dual Listed PATB 4710

PATB5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

PATB5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

PATB5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

PATB5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 credit in this course may not be included in a graduate program of study for degree purposes.

PATB5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

PATB5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Petroleum Engineering

PETE1060 - Introduction to Petroleum Engineering Problem Solving

Credits: 1
Covers elements of Petroleum Engineering calculations associated with typical computations in Drilling, Production, and Reservoir Engineering, Rock and Fluids properties, to simultaneously train the student on basic computing skills as well as basic language of Petroleum Engineering. The preferred computing tool is Matlab, which will be introduced through simple calculations on the computer. Notions of the petroleum engineering curriculum will also be provided through examples of the different subjects.

Prerequisite: Math placement 5 or concurrent enrollment in MATH 2200.

PETE2050 - Fundamentals of Petroleum Engineering

Credits: 3
General introduction to petroleum engineering, including petroleum geology, exploration, reservoir rocks, and fluid flow through porous media, drilling fundamentals, completion technology, well logging and testing, methods of

production, stimulation methods, enhanced oil recovery, reserves and economics.

Prerequisite: grade of C or better in both MATH 2205 and PETE 1060.

PETE2060 - Introduction to Petroleum Engineering Computing

Credits: 3

Introduces Petroleum Engineering problems and principles, develops computational skills needed to solve them, and reinforces a computational tool that will be useful for other Petroleum Engineering classes.

Prerequisite: C or better in PETE 1060, and either a D or better in MATH 2310 or concurrent enrollment in MATH 2310.

PETE3015 - Multicomponent Thermodynamics

Credits: 3

Introduces mixture properties, such as chemical potentials, excess properties, partial molar properties, heats of mixing, fugacities, and practical tools for estimating them from solution theories and equations of state. These tools and concepts are applied to phase and chemical equilibria.

Prerequisite: C or better in ES 2310 and concurrent enrollment in PETE 2060. Student must be a Petroleum Engineering major.

PETE3025 - Heat and Mass Transfer

Credits: 3

Introduces energy and mass transfer concepts and the development of mathematical models of physical phenomena, including convection, conduction, radiation, and mass diffusion and convection.

Prerequisite: C or better in ES 2330 and MATH 2310. Student must be a Petroleum Engineering major.

PETE3100 - Rock and Fluids Lab

Credits: 2

Provides understanding of principles of rock and fluid properties and their measurement as part of conventional and special core analysis, as well as PVT characteristics of reservoir fluids. Students are expected to understand how to measure important rock and fluid properties using laboratory equipment, as part of reservoir characterization routines, formation damage evaluations and well log calibration protocols. Students are also expected to learn how to write succinct and organized reports.

Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE3200 - Reservoir Engineering

Credits: 3

Covers rock and fluid properties, reserve estimation using volumetric and material balance methods, discussion of

different reservoir drive mechanisms, aquifer models, Darcy's law and single-phase flow through porous media, introduction to well testing, solution of radial diffusivity equation, immiscible displacement, decline rate analysis, and reservoir simulation.

Prerequisite: PETE 3025, C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE3255 - Basic Drilling Engineering

Credits: 3

Principles and practices of oil and gas well rotary drilling, including rock mechanics, drilling hydraulics, drilling fluids, and hold deviation. Drilling equipment analysis, casing design, and drilling fluid properties. Application of modern computer-based analysis and design methods.

Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE3265 - Drilling Fluids Laboratory

Credits: 3

Measurement of physical and chemical properties of drilling fluids, including experiments on mud density control, viscosity control, rheological properties, mud hydraulics, filtration properties, mud contaminants and their treatments. Includes design of experiments, data processing, interpretation and writing technical reports.

Prerequisite: PETE 3255, C or better in both ES 2310 and ES 2330. Student must be a Petroleum Engineering major.

PETE3715 - Production Engineering

Credits: 3

Provides elements for calculating the production rate of oil or gas wells, including reservoir inflow performance, which is determined by the reservoir rock and fluids properties and calculated based on Darcy's law, and tubing performance, which is determined by tubing parameters and calculated based on Newtonian dynamics. Basic design of artificial lift systems, reservoir stimulations and optimization of production systems are also included.

Prerequisite: C or better in ES 2310, ES 2330 and PETE 2050. Student must be a Petroleum Engineering major.

PETE3725 - Well Completions

Credits: 3

Covers many facets of completion and intervention in oil and gas wells, including design and procedures to meet deliverability, safety, and integrity, starting with completion, stimulation, workover, and intervention, ending with plug and abandonment requirements.

Prerequisite: C or better in both PETE 2050 and ES 2410. Student must be a Petroleum Engineering major.

PETE3890 - Engineering Honors Program Research Methods

Credits: 3

A general approach to scientific research and graduate school preparation. Topics will include: finding a research mentor, literature search skills, using the scientific method for approaching a research problem and developing a research methodology, writing a research funding proposal, delivering a research presentation and selecting and applying for graduate school.

Cross Listed ARE 3890/ATSC 3890/CE 3890/ CHE 3890/COSC 3890/EE 3890/ES 3890.

Restricted Restricted to College of Engineering Honors Program students.

Prerequisite: sophomore standing.

PETE3900 - Undergraduate Research in Petroleum Engineering

Credits: 1-6

Max Credit (Max. 6)

Students carry out research appropriate to undergraduates, under faculty supervision. May be taken more than once. Requires a written research proposal to be approved by instructor prior to course start.

Prerequisite: junior standing as a petroleum engineering major and consent of instructor.

PETE4000 - Environment, Technology and Society

Credits: 3

Explores relationships among technology, the environment and society. Studies social and humanistic aspects of using current and future technology to understand and solve environmental problems.

Cross Listed CHE 4000.

Prerequisite: junior standing and completion of two lab sciences.

PETE4030 - Rock and Fluid Properties

Credits: 3

Reservoir rocks

Former Course Number [3010]

Prerequisite: PETE 2050.

PETE4050 - Life Cycle Analysis

Credits: 3

Max Credit 3

Focus on learning to use/apply Life Cycle Assessment (LCA) skills; compare other risk assessment tools; practice assessing environmental impact over whole product life cycle; learning to set fundamentals for comparative risks on

humans & ecosystems; to relate risk & impacts on human health to consumption/production.

Cross Listed PETE 5050

Prerequisite: Junior status or above.

PETE4060 - Flow through Porous Media

Credits: 3

Review of properties of porous media. Relationships of permeability to porosity. Formulation of Fundamental Flow Equation. Constant Rate Solutions. Constant Pressure Solutions. The Principles of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, isochronal test analysis.

Dual Listed PETE 5060.

Prerequisite: PETE 3200.

PETE4200 - Natural Gas Engineering

Credits: 3

Studies development of natural gas reservoirs for normal production and as storage fields. Includes back pressure tests, hydrates, pipeline problems, cycling and use of the material balance equation. Also processing of natural gas, including compression, expansion, refrigeration, separation, sour gas treating, sulfur recovery, LNG production and carbon dioxide separation.

Prerequisite: PETE 2050.

PETE4215 - Rock Mechanics

Credits: 3

Covers rock mechanical properties, stress and strain in rock and rock masses, rock failure mechanisms, thermal-hydraulic-mechanical-chemical (THMC) coupling, and their applications to ground surface subsidence/uplift, borehole instability, and hydraulic fracturing.

Dual Listed PETE 5215.

Prerequisite: ES 2330 and 2410.

PETE4220 - Geostatistics and Subsurface Characterization

Credits: 3

An advanced skills course about subsurface modeling using diverse data (e. g. well data, seismic info, etc.), including model development, techniques, and practical applications. Students must have basic knowledge of mathematical and statistical modeling.

Dual Listed PETE 5220.

Prerequisite: Junior standing and PETE 3200 or consent of instructor.

PETE4225 - Well Test Analysis

Credits: 3

Covers knowledge of well test interpretation techniques. Theory for well testing include drawdown and buildup tests, single-rate and multi-rate testing, derivative analysis, wellbore storage, type curve matching, fall off and injectivity, fractured wells, fractured reservoirs, interference and pulse testing, and horizontal well analysis.

Prerequisite: PETE 3200. Student must be a Petroleum Engineering major.

PETE4300 - Reservoir Simulation

Credits: 3

Simulation of petroleum reservoirs, formulation of equations, finite difference methods of solution, data preparation and input, history matching case studies.

Dual Listed PETE 5300.

Prerequisite: PETE 3200, MATH 2210, MATH 4440.

PETE4310 - Fundamentals of EOR

Credits: 3

The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

Dual Listed PETE 5310.

Prerequisite: PETE 3200.

PETE4320 - Well Log Interpretation

Credits: 3

Studies use of various types of open hole logs for quantitative evaluation of formations.

Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE4330 - Geostatistics and Subsurface Characterization

Credits: 3

Max Credit 3

An advanced skills course about subsurface modeling using diverse data (e.g. well data, seismic info, etc.), including model development, techniques, and practical applications. Students must have basic knowledge of mathematical and statistical modeling.

Restricted Junior standing

Prerequisite: PETE 3200 or consent of instructor

PETE4340 - Petroleum Economics

Credits: 3

Applies principles of economics to petroleum properties. Studies taxation, present worth, rate of return, payout and decisions under uncertainty.

Prerequisite: PETE 3200. Student must be a Petroleum Engineering major.

PETE4400 - Tight Gas Sand/Coalbed Methane

Credits: 3

This course provides information needed to understand geoscience and engineering considerations concerning the development of Fractured, Tight Gas Sands and Coalbed Methane reservoirs. Subjects include the origin and accumulation of hydrocarbons within these reservoirs, and the tools, methods and workflows used for locating, characterizing, and developing these reservoir types.

Dual Listed PETE 5400.

Prerequisite: PETE 3200; Student must be a Petroleum Engineering major.

PETE4450 - Unconventional Reservoirs

Credits: 3

Provides fundamental knowledge of unconventional reservoirs, including types, experimental characterization, and petrophysical properties of unconventional oil reservoirs; modeling flow in unconventional rocks; and recovery enhancement in shale oil reservoirs.

Dual Listed Dual list with PETE 5450

Prerequisite: PETE 2050 & 3200.

PETE4580 - Honors Undergraduate Research

Credits: 3

An independent research experience for undergraduate students enrolled in the Engineering Honors Program. Before registering for this class, students are responsible for discussing their interests with faculty, identifying a willing research mentor, obtaining approval by said mentor, and communicating the student/ faculty partnership to the appropriate staff in their home department. Must be in the Engineering Honors Program.

Cross Listed ATSC 4580/BE 4580/CE 4580/CHE 4580/COSC 4580/ES 4580/ESE 4580.

Prerequisite: junior or senior standing.

PETE4736 - Petroleum Engineering Design

Credits: 4

Design and development of petroleum reservoirs using principles and skills learned in the Petroleum Engineering

program. Application of software for design and analysis of the drilling, reservoir and production of petroleum.

USP 2015 Code U5C3

Prerequisite: PETE 3200, PETE 3255, PETE 3715, PETE 3725, and C or better in COM2. Student must be a Petroleum Engineering major.

PETE4800 - Shale Reservoir Development

Credits: 3

Provides an overview of the geoscience and engineering aspects involved in the exploration and development of shale reservoirs. Topics covered include organic geochemistry, geomechanics, petrophysics, geophysics, reservoir and completion engineering, and drilling. The primary phases involved in obtaining hydrocarbon production from shale reservoirs are detailed.

Dual Listed PETE 5800.

Former Course Number [4850]

Prerequisite: C or better in both PETE 2050 and PETE 3200.

PETE4810 - Unconventional Gas Production

Credits: 3

Study of resource base, drilling, completion and production technology, and reservoir characteristics for tight gas sands. Devonian shales, coalbed methane, geopressed aquifers, and hydrates. Case histories and economics are presented in each of these.

Dual Listed PETE 5810.

Prerequisite: consent of instructor.

PETE4820 - Blockchain in Energy

Credits: 3

Max Credit 3

This course provides an overview of the global energy transition. It introduces Blockchain technology and provides hands-on experience in developing Smart Contracts, digital tokens, and Decentralized Applications. The application of Blockchain in energy, sustainability, and the carbon economy will also be explored.

Prerequisite: Junior status or higher

PETE4830 - Thermal Recovery

Credits: 3

Objective of this course is to examine and explore in depth the theoretical and applied aspects of thermal recovery process of producing hydrocarbons including state-of-the-art review.

Dual Listed PETE 5830.

Prerequisite: Senior standing in petroleum or chemical engineering.

PETE4860 - Energy, Environment, and Materials

Credits: 3

Understanding the connection between materials, energy and environment, including the history of climate and different types of energy in use for a greener planet. Provides broad knowledge in the areas of energy, material science, chemical, petroleum, and environmental engineering.

Dual Listed PETE 5860.

Prerequisite: Junior standing and PETE 2050 or consent of instructor.

PETE4970 - Internship in Petroleum Engineering

Credits: 1-6

Max Credit (Max. 6)

Enables credit for students in appropriate engineering activities while serving as interns in an industrial, government, or other setting. Requires a written project proposal to be approved by instructor prior to course start.

Prerequisite: Must be involved in a petroleum engineering co-op/internship experience; consent of instructor.

PETE4990 - Topics in Petroleum Engineering

Credits: 1-6

Max Credit 6

Features topics not included in regularly offered classes.

Prerequisite: Junior status or higher

PETE5010 - Transport Phenomena

Credits: 3

Examines the modeling of momentum, heat and mass transport.

Cross Listed CHE 5010.

Prerequisite: graduate standing.

PETE5020 - Thermodynamics

Credits: 3

Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed CHE 5020.

Prerequisite: graduate standing.

PETE5050 - Life Cycle Analysis

Credits: 3

Max Credit 3

Focus on learning to use/apply Life Cycle Assessment (LCA) skills; compare other risk assessment tools; practice assessing environmental impact over whole product life cycle; learning to set fundamentals for comparative risks on humans & ecosystems; to relate risk & impacts on human health to consumption/production.

Dual Listed PETE 4050

Prerequisite: Graduate standing.

PETE5055 - Drilling Engineering

Credits: 3

Max Credit 3

Principles and practices of oil and gas well rotary drilling, including rock mechanics, drilling hydraulics, drilling fluids, and hole deviation. Drilling equipment analysis, casing design, and drilling fluid properties. Application of modern computer-based analysis and design methods.

Prerequisite: Graduate Standing

PETE5060 - Flow through Porous Media

Credits: 3

Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

Cross Listed CHE 5060

Dual Listed PETE 4060.

Prerequisite: graduate standing.

PETE5070 - Multiphase Flow

Credits: 3

A thorough background in the methods of analysis and current developments in gas-liquid, gas-solid, liquid-solid, and gas-liquid-solid flows. Introduction to multiphase flow instrumentation.

Prerequisite: graduate standing or consent of instructor.

PETE5080 - Interfacial Phenomena

Credits: 3

Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

Prerequisite: graduate standing.

PETE5090 - Graduate Research Methods

Credits: 3

A general approach to scientific research and graduate school. Topics include: purpose of graduate school, career options with graduate degrees, communication basics, literature search skills, presentations, research instrumentation, the scientific method, developing hypotheses, grant proposals, paper writing, research ethics, copyrights, patents, research notebooks, and classroom teaching techniques.

Prerequisite: graduate standing.

PETE5100 - Independent Study

Credits: 1-3

Max Credit (Max. 12)

Selected topics in petroleum engineering.

Prerequisite: graduate standing and consent of instructor.

PETE5150 - Topics in Petroleum Engineering

Credits: 1-3

Max Credit (Max. 12)

Selected topics in petroleum engineering.

Prerequisite: consent of instructor.

PETE5200 - Problems in Petroleum Engineering

Credits: 1-3

Max Credit (Max. 6)

Selected topics in petroleum engineering.

Prerequisite: doctoral student and consent of instructor.

PETE5215 - Electronics I Laboratory

Credits: 3

Covers rock mechanical properties, stress and strain in rock and rock masses, rock failure mechanisms, thermal-hydraulic-mechanical-chemical (THMC) coupling, and their applications to ground surface subsidence/uplift, borehole instability, and hydraulic fracturing.

Dual Listed PETE 4215.

Prerequisite: graduate standing.

PETE5220 - Geostatistical/Subsurface Characterization

Credits: 3

Providing practical way for building realistic subsurface models. Students must have basic knowledge of mathematical and statistical modeling. Both fundamental and practical aspects are covered. Students will be able to take real data derived from subsurface modeling and build geostatistical models, which will be performed deterministically and stochastically.

Dual Listed PETE 4220

Prerequisite: graduate standing.

PETE5255 - Advanced Drilling Engineering

Credits: 3

Principles and practices of advanced topics in oil and gas drilling engineering including advances in directional and horizontal drilling, drilling fluid hydraulics and cuttings transport. Non-Newtonian Fluid Flow Analysis, pore pressures and fracture resistance estimation methods. Application of modern computer-based analysis and design methods.

Prerequisite: graduate standing.

PETE5300 - Reservoir Simulation

Credits: 3

Simulation of petroleum reservoirs, formulation of equations, finite difference methods of solution, data preparation and input, history matching case studies.

Dual Listed PETE 4300.

Prerequisite: graduate standing.

PETE5310 - Fundamentals of EOR

Credits: 3

The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

Dual Listed PETE 4310.

Prerequisite: graduate standing.

PETE5340 - Reservoir Engineering.

Credits: 3

Covers rock and fluid properties, reserve estimation using volumetric and material balance methods, discussion of different reservoir drive mechanisms, aquifer models, Darcy's law and single-phase flow through porous media, introduction to well testing, solution of radial diffusivity equation, immiscible displacement, decline rate analysis, and reservoir simulation.

Prerequisite: Graduate standing.

PETE5350 - Advanced Reservoir Engineering

Credits: 3

Covers high-level understanding of modern reservoir engineering. Provides knowledge of scientific principles to formulate fluid flow, heat and mass transport in permeable media. Use analytical and computational tools to resolve research-oriented problems. Develop competence in interpreting results of modeling.

Prerequisite: graduate standing.

PETE5355 - Mathematical Methods

Credits: 3

Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization techniques, and linear solution techniques: direct and iterative methods.

Cross Listed CHE 5355.

Prerequisite: graduate standing.

PETE5400 - Tight Gas Sand/Coalbed Methane

Credits: 3

This course provides information needed to understand geoscience and engineering considerations concerning the development of Fractured, Tight Gas Sands and Coalbed Methane reservoirs. Subjects include the origin and accumulation of hydrocarbons within these reservoirs, and the tools, methods and workflows used for locating, characterizing, and developing these reservoir types.

Dual Listed PETE 4400.

Prerequisite: graduate standing.

PETE5450 - Unconventional Reservoirs

Credits: 3

Provides fundamental knowledge of unconventional reservoirs, including types, experimental characterization, and petrophysical properties of unconventional oil reservoirs; modeling flow in unconventional rocks; and recovery enhancement in shale oil reservoirs.

Prerequisite: Graduate standing

PETE5715 - Production Engineering

Credits: 3

Provides elements for calculating production rate of oil/ gas wells, including reservoir inflow performance, determined by reservoir rock and fluids properties using Darcy's law, and tubing performance, determined by tubing parameters and using Newtonian dynamics. Basic design of artificial life systems, reservoir stimulations and optimization of production systems are included.

Prerequisite: graduate standing.

PETE5800 - Shale Reservoir Development

Credits: 3

Provides an overview of the geoscience and engineering aspects involved in the exploration and development of shale reservoirs. Topics covered include organic geochemistry, geomechanics, petrophysics, geophysics, reservoir and completion engineering, and drilling. The primary phases involved in obtaining hydrocarbon production from shale reservoirs are detailed.

Dual Listed PETE 4850.

Prerequisite: graduate standing.

PETE5810 - Unconventional Gas Production

Credits: 3

Study of resource base, drilling, completion and production technology, and reservoir characteristics for tight gas sands. Devonian shales, coalbed methane, geopressured aquifers, and hydrates. Case histories and economics are presented in each of these.

Dual Listed PETE 4810.

Prerequisite: graduate standing or consent of instructor.

PETE5830 - Thermal Recovery

Credits: 3

Objective of this course is to examine and explore in depth the theoretical and applied aspects of thermal recovery process of producing hydrocarbons including state-of-the-art review.

Dual Listed PETE 4830.

Prerequisite: graduate standing or consent of instructor.

PETE5840 - Miscible Processes

Credits: 3

Objective is to examine and explore in depth the theoretical and applied aspects of miscible processes of producing hydrocarbons including state-of the-art review.

Prerequisite: PETE 5310 and graduate standing or consent of instructor.

PETE5850 - Chemical Enhanced Oil Recovery Processes

Credits: 3

Objective is to examine and explore in depth the theoretical and applied aspects of the classification of enhanced oil recovery processes called chemical processes.

Prerequisite: graduate standing.

PETE5860 - Energy, Environment, and Materials

Credits: 3

Understanding the connection between materials, energy and environment, including the history of climate and different types of energy in use for a greener planet. Provides broad knowledge in the areas of energy, material science, chemical, petroleum, and environmental engineering.

Dual Listed PETE 4860.

Prerequisite: graduate standing.

PETE5890 - Petroleum Engineering Graduate Seminar

Credits: 1

Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.

Prerequisite: graduate standing.

PETE5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

PETE5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

PETE5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

PETE5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

PETE5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

PETE5970 - MS Plan B Research Project

Credits: 1-2
Max Credit 2

Students complete a non-thesis capstone project on a topic of choice within the petroleum or energy field, under the guidance of their graduate committee. Students must produce at least one final paper and present their results in a public forum (Final Examination). Must complete a minimum of two credit hours for the M.S. degree.

Prerequisite: Graduate Standing.

PETE5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

PETE5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Pharmacy

PHCY1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

PHCY3450 - Foundational Pathophysiology

Credits: 4

Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)
Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY4050 - Evolution of American Health

Credits: 2

PHCY4141 - Health Economics and Outcomes

Credits: 3
This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.

PHCY4160 - Problems in Pharmacy

Credits: 1-4
Original investigation on a library or laboratory problem concerned with a definite phase of work in pharmacy.

Prerequisite: consent of instructor.

PHCY4170 - Pharmacy Seminar

Credits: 1-4

Students present oral reports on selected topics of pharmaceutical interest for discussion by the group.

Prerequisite: consent of instructor.

PHCY4210 - Regulating Dangerous Drug Use

Credits: 2

Regulatory theory and practice is used to study the authority/responsibilities of three federal agencies that are entrusted to ensure the safe, effective, and efficient medication use in the United States. The practices and procedures of the FDA, DEA, and CMS are reviewed, describing why healthcare providers should comply with regulatory principles.

Dual Listed PHCY 5210.

Prerequisite: Upper division undergraduate status or department permission.

PHCY4240 - Pharmaceutical Homicide

Credits: 2

Legal pharmaceutical products are sometimes used by healthcare professional criminals to kill people. This course focuses on identifying the zone of risk for people who could be harmed by pharmaceuticals, and the development of best practices to protect patients and other from the harm.

Dual Listed PHCY 5240.

Prerequisite: Upper division undergraduate status or department permission.

PHCY4241 - Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

PHCY4341 - Intro to Healthcare Quality

Credits: 3

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

PHCY4441 - Intro Health Institution Leadership

Credits: 3

Max Credit 3

This course provides undergraduates information through analysis of theory and application. The course will use discussion boards to highlight examples of leadership roles and discuss differences in types of leadership roles. Organizational, team, and individual dimensions of leadership are examined.

Restricted Selection of leadership track in BAS program

PHCY4470 - Fundamentals of Pharmacology

Credits: 4

Studies pharmaceutical agents used for treatment, diagnosis or prevention of disease with particular emphasis on mechanisms of action, therapeutic and adverse effects.

When Offered (Normally offered fall semester)

Former Course Number [3510]

Prerequisite: PHCY 3450.

PHCY4670 - Medication Malpractice

Credits: 2

Using a case-study approach, potential legal liability issues are studied, within a health care context that primarily focuses on legal liability related to the use of medications. Strategies for reduction of legal liability are explored. The implementation and oversight of legal risk management programs is addressed.

Dual Listed Dual listed with: PHCY 5670.

Prerequisite: Upper division undergraduate status or department permission.

PHCY5040 - The Evolution of American Health

Credits: 2

This course explores the evolution of the healthcare system in response to various needs and crises over the years. The professionalization of health care; the development of the modern hospital; the implications of computerized health information; and the empowerment of patients will be covered.

Prerequisite: Admission into the Health Services Administration MS program.

PHCY5041 - Health Services Administration Research Methods

Credits: 2

This course will cover the basic research designs used in health services research. Focus will be given on framing the research questions, selecting the appropriate study design and threats to the internal validity of the study designs.

Prerequisite: Must be enrolled in the HSA program.

PHCY5042 - Statistics for Health Services

Credits: 3

This course will introduce students to correlation analysis, regression, analysis of variance and selected non-parametric

tests, focusing on appropriate use of each and how to interpret the output of a statistical test to answer a research question.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5042 - Statistics for Health Services

Credits: 3

This course will introduce students to correlations analysis, regression, analysis of variance and selected non-parametric tests, focusing on appropriate use of each and how to interpret the output of a statistical test to answer a research question. Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5043 - Empirical Analysis for Health Services Administration

Credits: 3

This course will equip students with an understanding of research and policy debates related to economic, political, and administrative aspects of health services by providing an overview of how research can be used by health service researchers to draw conclusions about health services and their administration.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5044 - Preventing Fraud/Waste/Abuse

Credits: 2

Describes potential violations of legal requirements for health institutions and health professionals that can be considered fraud, waste and abuse. Compliance strategies to avoid legal consequences will be discussed.

Prerequisite: enrollment in graduate or professional program or department permission.

PHCY5045 - Health Services Administration Applied Research

Credits: 1-4

This course provides the opportunity for students to apply knowledge and skills obtained in the HSA program while gaining practical experience with real-world projects.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5046 - Health Services Administration Seminar1

Credits: 1

Max Credit (Max. 2)

An in-depth investigation of a timely issue in health services, including the regulatory, economic, patient-safety, marketing, leadership, and ethical aspects of that issue. Students will participate in separate group analysis of a presented problem, and in their presentations of their group's assessment of the problem.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5047 - Pandemic Preparedness Policy

Credits: 2

Analysis of regulatory measures undertaken to protect the public from adverse effects of a global pandemic. Evaluation of alternative means of preparing for a pandemic and for management of pandemic response. Considers balancing of individual interests and community interests.

PHCY5141 - Principles of Health Econ and Outcomes

Credits: 3

This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5142 - Health Economic Decision Analysis

Credits: 2

This class is designed to provide the student with the methods of comparative effectiveness research with special focus on how various decision makers use comparative effectiveness data to assist in decision-making.

Prerequisite: PHCY 5141.

PHCY5143 - Comparative Effectiveness Research

Credits: 2

This class is designed to provide the student with the methods of comparative effectiveness research with special focus on how various decision makers use comparative effectiveness data to assist in decision-making.

Prerequisite: PHCY 5141.

PHCY5144 - Patient Reported Outcomes

Credits: 2

This course is designed to provide an overview of methods pertaining to the development and evaluation of patient-reported outcome measures (PROs) and the role they play in regulatory, reimbursement, and market access decisions.

Prerequisite: Admission in the MS in Health Services Administration program.

PHCY5145 - PBM Decisions

Credits: 2

An overview of managed care pharmacy, with a focus on the relationship between cost controls and the access to pharmaceutical products and quality clinical services, and the relationships between, and relative responsibilities of,

health plan sponsors, PBMs and providers.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5146 - HEOR Data Analytics

Credits: 3

An introduction to analyzing medical and pharmacy data using SAS and SQL exploring the complexities of health data, focusing on phases of the data life cycle in health economics and outcomes research, including data validation and manipulation, merging data and creating data sets.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5147 - HEOR Data Analytics

Credits: 3

This is an introduction to intermediate and advanced methods of analyzing healthcare data focusing on clinical risk adjustment models in SAS. This course will further explore the features and complexities of health data and build upon the Introduction to HEOR Data Analytics Using SAS I.

Prerequisite: PHCY 5146 and must be enrolled in the HSA program, or by permission.

PHCY5148 - Health Economics and Policy

Credits: 2

This course explores the financing and structure of the U. S. healthcare system with the purpose of understanding how these systems impact patient care, health policy, and economics. Topics include organization of healthcare systems, insurance programs, legislation, healthcare labor markets and drug costs.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5160 - Graduate Problems Course

Credits: 1-6

Max Credit (Max. 12)

This course allows in-depth exploration of topics in pharmaceutical sciences, at the graduate level, that are mutually agreed upon by the student and faculty.

Prerequisite: consent of instructor.

PHCY5210 - Regulating Dangerous Drug Use

Credits: 2

Regulatory theory and practice is used to study the authority/responsibilities of three federal agencies that are entrusted to ensure the safe, effective, and efficient medication use in the United States. The practices and procedures of the

FDA, DEA, and CMS are reviewed, describing why healthcare providers should comply with regulatory principles.

Dual Listed PHCY 4210.

Prerequisite: Enrollment in graduate or professional program or department permission.

PHCY5240 - Pharmaceutical Homicide

Credits: 2

Legal pharmaceutical products are sometimes used by healthcare professional criminals to kill people. This course focuses on identifying the zone of risk for people who could be harmed by pharmaceuticals, and the development of best practices to protect patients and other from the harm.

Dual Listed PHCY 4240.

Prerequisite: Enrollment in graduate or professional program or department permission.

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5242 - The Food and Drug Administration

Credits: 2

This course examines the regulatory climate for FDA-regulated drug and biological products. Regulatory standards are reviewed (including discovery of new therapeutic modalities, their approval, manufacturing, promotion, and distribution), and the enforcement authority of the FDA is examined (focusing on methods that promote safe and effective drug use).

Prerequisite: PHCY 5241.

PHCY5243 - The Drug Enforcement Administration

Credits: 2

This course examines the balance of health professionals and institutions working with regulators to develop programs that reflect both the best interests of individual patients and of society. Focusing on challenges of treating chronic pain, prescription drug abuse, and actions that have led to conflict between regulators and health practitioners.

Prerequisite: PHCY 5241.

PHCY5244 - State Regulations of Health Professions

Credits: 2

This course examines how state regulatory agencies assure the initial competence of practitioners, as well as their continuing competence in the years following the completion of academic training. The course also examines the factors that are applied to the regulation of health care settings, using the structure-process-outcomes typology of Donabedian.

Prerequisite: PHCY 5241.

PHCY5245 - Medicare and Medicaid

Credits: 2

This course examines the structure, coverage, and operation of federal health programs, with a focus on health policy as reflected in the programs funded by federal resources. The primary focus of the course is on Medicare and Medicaid, and also reviewing other federal programs.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5246 - Prescription Drug Costs

Credits: 2

Max Credit 2

Overview of prescription drug prices and the consequences for patients and society of the high cost of pharmaceutical products. Causes of escalating pharmaceutical prices are reviewed. Legal and economic factors that contribute to high drug prices are considered. Potential solutions are identified.

Restricted Professional and Graduate students only.

PHCY5247 - HIPAA Compliance

Credits: 2

Max Credit 2

An overview of the basic principles of patient confidentiality. Emphasis is placed on the federal HIPAA legislation and its regulatory requirements. Challenges to the preservation of confidentiality in patient care are discussed, within the context of busy and public healthcare settings and the need for security of electronic healthcare records.

Restricted Professional and Graduate Students.

PHCY5248 - Professional and Graduate Students.

Credits: 2

Max Credit 2

The responsibility for safe and effective treatment of chronic pain is reviewed. The corollary responsibility for the prevention of opioid abuse is discussed. Regulatory compliance systems are developed to provide a patient-centered and evidence-based approach to deterring opioid use.

Restricted Professional and Graduate Students.

PHCY5269 - Healthcare Entrepreneur/Innov

Credits: 1

This interdisciplinary course will focus on real world examples of entrepreneurship and innovation in the healthcare field. It will utilize those innovators around Wyoming and the country to discuss what shortfalls they discovered and how they plan to get around them.

Restricted PharmD, MS HAS

PHCY5341 - Principles of Healthcare Quality

Credits: 3

Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5342 - Healthcare Risk and Quality

Credits: 3

This course surveys the importance and processes of quality and risk in health care institutions. Students will be assigned to lead topics. Current events/topics will be utilized to inform the class.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5343 - Advanced Topics in Healthcare Quality

Credits: 4

Max Credit (Max. 4)

This is an advanced-level course on patient safety and quality improvement strategies in healthcare. The course will utilize many learning resources of the Institute for Healthcare Improvement (IHI) Open School so that students may earn an IHI Certificate.

Prerequisite: PHCY 5341.

PHCY5441 - Introduction to Health Leadership

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5442 - Healthcare Financial Planning

Credits: 2

This course explores financial principles incorporating the unique environment of the health institution. The mix of services (inpatient, outpatient, nursing facilities, urgent/emergency care and components) will be studied through extensive use of case studies and models to develop the health institution leader's financial skills.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5443 - Healthcare Human Capital Plan

Credits: 2

This course will provide skills for developing and managing human capital by the health institution leader through exploration of best practices for human capital selection and development to optimize the performance of the workforce while complying with legal, regulatory, and contractual requirements through extensive use of case studies and models.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5444 - Healthcare Strategic Innovation

Credits: 2

This course develops strategic skills by the health institution leader through exploration of principles incorporating the unique environment of the health institution. The strategic skills will be applied to the concept of innovation through extensive use of case studies and models.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5541 - Introduction to Biopharmaceutical Marketing and Production

Credits: 3

This course will review empirical evidence in various topic areas within the fields of biopharmaceutical marketing, sales promotion, communication, and selling effectiveness focusing on the history and structure of the biopharmaceutical product representative function and theoretical domains associated with the associated activities.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5550 - Advanced Cardiovascular Physiology and Pharmacology

Credits: 3

An advanced study in the integration of modern cardiovascular physiology, pharmacology, biochemistry and cell biology concepts.

Dual Listed PHCY 6550.

Prerequisite: PHCY 6230 (or equivalent).

PHCY5660 - Health Care Law

Credits: 3

A survey of health care law for students in health care programs, law students, and other matriculated students. Subject matter includes, but is not limited to, the following: malpractice, licensing, informed consent, reform, reproduction and advanced directives.

Dual Listed PHCY 4660.

Prerequisite: consent of instructor.

PHCY5670 - Medication Malpractice

Credits: 2

Using a case-study approach, potential legal liability issues are studied, within a health care context that primarily focuses on legal liability related to the use of medications. Strategies for reduction of legal liability are explored. The implementation and oversight of legal risk management programs is addressed.

Dual Listed Dual listed with: PHCY 4670.

Prerequisite: Enrollment in graduate or professional program or department permission.

PHCY5887 - Molecular Neuropharmacology

Credits: 3

Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

Prerequisite: PharmD current standing and instructor's permission or NEUR 5280.

PHCY5920 - Agents for Diagnostic Imaging

Credits: 2

Diagnostic Agents is currently designed as a one semester elective course with 2 credit hours. It is an introduction and survey of all diagnostic drugs used in the diagnosis and imaging of disease as approved by the US FDA for use in the United States.

Prerequisite: PHCY 6211, PHCY 6210, PHCY 6110, CHEM 2440, MOLB 3610.

PHCY6040 - Post-Graduate Career Planning

Credits: 1

This course helps student pharmacists make informed career choices. It is designed to allow students to prepare a CV and enhance a job search, interview and develop cover letter writing skills. Specific discussion topics will be largely focused on students' interest areas.

Prerequisite: PHCY 6480 or PHCY 6482, enrollment in professional PharmD program.

PHCY6051 - Topics in Illicit Drugs

Credits: 1

The course will address the basic pharmacology, physical signs of addiction, population demographics, abuse patterns and history of common illicit drugs. The course is designed to raise student awareness of illicit drug addiction.

Prerequisite: PHCY 6251, enrollment in professional Pharm D program.

PHCY6052 - Geriatric Pharmacotherapy

Credits: 1

Designed to develop the student's knowledge and understanding of geriatric pharmacotherapy through discussion of medical literature, case discussion, and providing patient care under supervision of the faculty member. Emphasis of the course is on class discussion and case-based learning.

Prerequisite: enrollment in professional PharmD program, P3 status.

PHCY6053 - Biotechnology

Credits: 2

Designed to introduce the student to the most rapidly growing area of biological drug pharmacotherapy which involves recombinant DNA technology and isolation from natural sources. A combined lecture, discussion of current literature and seminar topics approach is used.

PHCY6054 - Infectious Diseases

Let's talk bugs & drugs! This course discusses infectious disease pathogens and incorporates microbiology, pharmacology, & pharmacodynamics/ pharmacokinetics to optimize cost-effective & safe antimicrobials for patient care. This course is interactive & uses a variety of cases, discussions, and other active learning methods to achieve learning objectives.

Restricted Students in the Doctor of Pharmacy Program

PHCY6055 - Drug Information Resources

Credits: 1

Max Credit 1

Pharmacy and medicine are constantly evolving as new medications and therapies are developed. Pharmacists need to be able to locate reliable information rapidly. Students in PHCY 6054: Drug Information Resources (DIR) will explore many of the pharmacy-related databases to enhance their ability to efficiently and appropriately use the resources.

Restricted Pharmacy students

PHCY6100 - Dose Form Design

Credits: 4

Extensively introduces various types of dosage forms, discusses advantages and disadvantages of each. Pharmaceutical calculations are a major component of the course, as well as physicochemical principles involved in dose form stability.

Prerequisite: CHEM 2420 and CHEM 2440.

PHCY6102 - Biopharmaceutics and Pharmacokinetics

Credits: 4

Discusses biopharmaceutic and pharmacokinetic aspects of dosage form design. Basic pharmacokinetics and biopharmaceutics are interrelated to clinical applications. Also covers classical kinetics and dissolution.

USP 2015 Code U5C3

Prerequisite: MATH 2200 and PHCY 6100.

PHCY6106 - Pharmaceutical Calculations

Credits: 2

Application of basic mathematics and quantitative reasoning to pharmaceutical calculations, emphasizing calculations of doses, dosage requirements, compounding of formulations and parenterals.

Former Course Number [6105]

Prerequisite: MATH 1000 or MATH 1400.

PHCY6110 - Medicinal and Natural Products Chemistry I

Credits: 3

Three-semester series that studies the physicochemical, biochemical and pharmacological properties of substances of natural and synthetic origin that are used as medicinal agents.

Prerequisite: CHEM 2440 and MOLB 3610.

PHCY6111 - Medicinal and Natural Products Chemistry II

Credits: 3

Continuation of Medicinal and Natural Products Chemistry I.

Former Course Number [6210]

Prerequisite: Ph1 status in PharmD program or consent of instructor.

PHCY6120 - Advanced Pathophysiology

Credits: 3

Advanced course covering the molecular, cellular, genetic and clinical principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for Doctor of Pharmacy students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 3450 for interprofessional education revolving around student-led case study presentations.

Former Course Number [6220]

Prerequisite: LIFE 1010, LIFE 1020, CHEM 1020, CHEM 1030, CHEM 2420, CHEM 2440, MOLB 2240, MOLB 3610, ZOO 3115, ZOO 4125.

PHCY6140 - Introduction to Social Administrative Pharmacy

Credits: 2

Provides an introduction to socio-cultural, behavioral and administrative principles of pharmacy with a focus on pharmacist roles and their historical evolution, health disparities, health behavior theory and practice philosophy, and a survey of the U. S. health care system.

Prerequisite: Enrollment in the professional program or consent of instructor.

PHCY6151 - Pharmacy Practice

Credits: 2

Provides didactic content that enables students to accurately prepare and dispense prescription medications.

Former Course Number [6354]

Prerequisite: enrollment in the doctor of pharmacy professional program.

PHCY6152 - Therapeutics I

Credits: 3

Emphasizes the role of the pharmacist in pharmaceutical self care, appropriate triage and referral involving prescription, non-prescription pharmaceuticals, complimentary, alternative therapies and devices in community dwelling patients with both acute and chronic self-care conditions.

Former Course Number [6352]

Prerequisite: enrollment in the doctor of pharmacy professional program.

PHCY6160 - Pharmacist Skills I

Credits: 1

Preparation and evaluation of dosage forms is main thrust of course. Laboratory emphasizes manipulative and mathematical skills, prescription formats, packaging and storage as they apply to pharmaceuticals.

Former Course Number [6101]

Prerequisite: concurrent enrollment in PHCY 6100; MATH 2100.

PHCY6161 - Pharmacist Skills II

Credits: 1

Provides laboratory and other related experiences that enable students to accurately prepare and dispense prescription medications.

Prerequisite: P1 status in PharmD program or consent of instructor.

PHCY6170 - Introductory Pharmacy Practice Experience-IPPE1

Credits: 1

Provides an early curricular exposure to the roles and functions of pharmacists in their work environment through a shadow experience.

Prerequisite: satisfactory completion of PHCY 6185.

PHCY6215 - Medicinal and Natural Products Chemistry III

Credits: 3

Continuation of Medicinal and Natural Products Chemistry II.

Former Course Number [6211]

Prerequisite: PHCY 6111.

PHCY6230 - Pharmacology I

Credits: 4

First semester of a one-year series. Studies action of chemical agents on living systems to include pharmacodynamics, toxicology, and clinical therapeutics. Concepts are emphasized through case presentations and discussion.

Prerequisite: PHCY 4450.

PHCY6231 - Pharmacology II

Credits: 4

Second semester of a one-year series. Continuation of PHCY 6230. Lecture with separately scheduled discussion section.

Prerequisite: PHCY 6230.

PHCY6240 - Research and Evaluation Methods in Pharmacy

Credits: 3

The course focuses on research design and statistical analyses, as well as pharmaco-economic, pharmaco-epidemiology and public health concepts and methods for evidence-based practice applications and health care policy development.

Prerequisite: MATH 2200 and PharmD program P2 status.

PHCY6241 - Organizational and Societal Issues Within the Health Care System

Credits: 3

Surveys U. S. health care system. Discusses organization, insurance programs, legislation and health care professionals. Also discusses sociological issues pertinent to the patient and illness, the role of the pharmacist, and drugs and drug use.

USP 2015 Code U5C3

Prerequisite: enrollment in the professional program, School of Pharmacy or consent of instructor.

PHCY6245 - Patient/Professional Interactions

Credits: 3

Focuses on psychosocial and communication concepts pertaining to human interactions, with application to professional practice environments and clinical counseling situations.

USP 2015 Code U5C3

Prerequisite: enrollment in the doctor of pharmacy professional program.

PHCY6246 - Pharmacy Management, Marketing and Finance

Credits: 3

Examines management functions and leadership in various types of contemporary pharmacy practice including pharmacy services, drug distribution, technology, human resources, marketing, finance and accounting.

Prerequisite: P2 status.

PHCY6250 - Drug Literature Evaluation

Credits: 3

Provides a knowledge base, techniques and skills for information retrieval, evaluation of medical and pharmaceutical practice literature, and application to specific patient problems.

USP 2003-2014 Code U3L, U3WC

USP 2015 Code U5C3

Prerequisite: STAT 2050 or equivalent; WB designated course.

PHCY6251 - Therapeutics II

Credits: 3

Introduces pharmacotherapeutic principles employed in the patient care process for managing select disease states and specific patient populations. The course emphasizes the role of evidence-based medicine in developing pharmaceutical care plans (e. g. recommending therapy, evaluating and monitoring the efficacy and safety of medications).

Prerequisite: PHCY 6120, PHCY 6230.

PHCY6260 - Pharmacist Skills III

Credits: 1

This course is the third in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in the different subdisciplines represented in the SOP curriculum.

Prerequisite: P2 status in PharmD program or consent of instructor.

PHCY6261 - Pharmacist Skills IV

Credits: 2

This course is the fourth in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in different subdisciplines represented in the SOP curriculum.

Prerequisite: P2 status in PharmD program or consent of instructor.

PHCY6270 - Intermediate Pharmacy Practice Experience-IPPE2

Credits: 1

An advanced exposure to the practice of pharmacy in health care environments.

USP 2015 Code U5C3

Prerequisite: satisfactory completion of PHCY 6170.

PHCY6280 - Seminar: Pharmacy Ethics

Credits: 1

Focuses on ethical issues confronting pharmacists in practice, pharmacy as a profession, the health care delivery system and society.

Former Course Number [6385]

Prerequisite: enrollment in the doctor of pharmacy professional program.

PHCY6281 - Pharmacy Research Ethics

Credits: 1

Understanding of the ethical issues that may arise while conducting health science research and potential strategies for properly addressing these ethical issues.

Prerequisite: concurrent or previous enrollment in PHCY 6280.

PHCY6300 - Sterile Products

Credits: 2

An introduction to the preparation and clinical application of sterile dosage forms in accordance with USP 797 and other related standards. Emphasizes basic principles related to preparation, dispensing and administration of parenteral medications in health care settings.

Former Course Number [6103]

Prerequisite: PHCY 6100, PHCY 6160, PHCY 6106, and concurrent enrollment in PHCY 6301.

PHCY6301 - Sterile Products Laboratory

Credits: 1

A hands-on training in techniques used to prepare, dispense and administer parenteral admixtures, parenteral nutrition, chemotherapy and ophthalmics forms in accordance with USP 797 and other related standards.

Former Course Number [6104]

Prerequisite: PHCY 6100, PHCY 6160, PHCY 6106 and concurrent enrollment in PHCY 6300.

PHCY6312 - Clinical Toxicology

Credits: 3

Focuses on biological and pharmacological effects of environmental, chemicals, OTC and prescription drug poisoning cases. Emphasis will be placed on the use of historical, laboratory and clinical data to diagnose and develop clinical management approaches for both acute and chronic poisoning cases.

Prerequisite: PHCY 6230, MOLB 3610.

PHCY6340 - Health Care Policy and Advocacy

Credits: 2

Prepares the future pharmacist leader to analyze and engage in professional advocacy and the healthcare policy process at the local, state and national level. Content will include details of the U. S. healthcare system, health policy, the policy-making process, key stakeholders' roles, sociocultural influences and current issues.

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6341 - Pharmacy Practice Law

Credits: 3

Coverage of state, federal and local laws and regulations which relate directly to the practice of pharmacy. The Wyoming Pharmacy Act serves as a model for analogous laws in other states. Case law at the federal and state levels affecting pharmacy practice is analyzed and discussed.

Prerequisite: PH3 or consent of instructor.

PHCY6342 - Pharmacy Administration

Credits: 3

Examines management of pharmaceutical services, analysis of drug distribution systems in the U. S. , contemporary pharmacy practice and problems common or peculiar to all types of pharmacy services.

Prerequisite: PH3 status.

PHCY6343 - Methods for Population Health

Credits: 2

Students will be introduced to Pharmacoeconomic, Pharmacoepidemiology and Public Health concepts and methods for the purpose of applying the knowledge to provision of pharmacist-provided patient care as well as to development of health policy.

Prerequisite: MATH 2200; PHCY 6250.

PHCY6344 - Pharmacy Ethics

Credits: 1

Focuses on ethical issues confronting pharmacists in practice, pharmacy as a profession, the health care delivery system and society.

Former Course Number [6280, 6385]

Prerequisite: enrollment in the doctor of pharmacy professional program.

PHCY6350 - Therapeutics III

Credits: 4

Provides an overview of the treatment of selected disease states. Students will develop skills in providing patient-centered care as a medication expert, interpreting evidence, and formulating, monitoring, and adjusting care plans. Course will build upon skills learned in PHCY 6251.

Prerequisite: grade of C or higher in PHCY 6251.

PHCY6351 - Therapeutics IV

Credits: 4

Provides the student with an overview of the treatment of complex disease states. Students will build on their patient-centered skills from PHCY 6350 by interpreting evidence, prioritizing patient needs, and formulating and monitoring evidence-based care plans. These skills will be essential as students begin advanced pharmacy practice experiences.

Prerequisite: grade of C or higher in PHCY 6350.

PHCY6353 - Drug Literature Application

Credits: 2

This course is designed to provide students with the fundamental knowledge and skills to practice evidence-based pharmacotherapy. Topics include: evaluation of drug information requests, informatics, understanding drug information resources, development and execution of search strategies, primary literature and research design analysis, and writing and presentation skills.

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6356 - Physical Assessment in the Evaluation of Drug Therapy

Credits: 1

Physical examination techniques and the interpretation of physical examination data. Emphasis is on a systemic approach to the physical examination, evaluation of patient data, maintaining patient charts, monitoring of patient outcomes and development of treatment plans.

Prerequisite: P3 status or consent of instructor.

PHCY6357 - Clinical Pharmacokinetics

Credits: 2

Course will provide the student with an overview of the clinical application of pharmacokinetic concepts as used in providing quality patient care. Principles of pharmacokinetics may be applied to the therapeutic use of all medications, including those inherently discussed during this course.

Prerequisite: PHCY 6102.

PHCY6360 - Pharmacist Skills V

Credits: 1

This course is the fifth in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in different subdisciplines represented in the SOP curriculum.

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6361 - Pharmacist Skills VI

Credits: 2

This course is the sixth and final course in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in different subdisciplines represented in the SOP curriculum.

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6370 - Advanced Pharmacy Practice Experience-IPPE3

Credits: 2

Designed to prepare the student for 4th year advanced pharmacy practice experience (APPE) activities by discussion of logistics, professionalism, regulatory issues, portfolio requirements and assessment tools. In addition, students will continue building their clinical skills through a patient care practice experience.

USP 2015 Code U5C3

Prerequisite: P3 status in PharmD program or consent of instructor.

PHCY6465 - Elective Rotation In:

Credits: 4

Max Credit (Max. 16)

Elective advanced pharmacy practice experience that is available in a variety of practice environments (e. g. direct patient care settings, management, research, and other pharmacy-related locations). Rotation requires active participation and application of knowledge, skills, values, and attitudes.

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6470 - Internal Medicine I

Credits: 4

An advanced practice experience to develop skills as a medication expert within an inpatient internal medicine or family medicine experiential setting. Students will coordinate, collaborate, and communicate among themselves, their preceptor, and other members of the interprofessional healthcare team to provide patient-centered care.

USP 2003-2014 Code [COM3]

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6471 - Internal Medicine II

Credits: 4

Course is a continuation of PHCY 6470 in which students take on increasing responsibility and/or more complex patient cases to develop skills as a medication expert in the acute care setting. Students will continue providing patient-centered care by collaborating with their preceptor and other members of the interprofessional healthcare team.

USP 2015 Code U5C3

Prerequisite: PHCY 6470.

PHCY6473 - Ambulatory Pharmaceutical Care

Credits: 4

An experiential course focusing on the pharmacist as the drug expert in a multidisciplinary health care team. Students will provide direct patient care to patients in an outpatient setting.

USP 2015 Code U5C3

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6474 - Ambulatory Pharmacy Care II

Credits: 4

Course is a continuation of PHCY 6473 in which students will take on increasing responsibilities, develop an expanded understanding for systems management, and further advance their clinical skills as medication experts in the outpatient setting.

USP 2003-2014 Code [COM3]

Prerequisite: PHCY 6473.

PHCY6480 - Introduction to Community Pharmacy Practice

Credits: 4

Four-week rotation in community pharmacy practice completed under the guidance of a licensed pharmacist. Patient care activities will include, but not be limited to, basic patient and drug therapy assessment, performing medication histories and prospective drug utilization reviews, basic patient counseling and active participation in the medication distribution process.

Prerequisite: grade of C or higher in PHCY 6352 and 6354 and satisfactory completion of all courses within the P1 curriculum (i. e. P2 standing).

PHCY6481 - Advanced Community Pharmacy

Credits: 4

An advanced practice experience in community pharmacy designed to build upon introductory experiences and promote active participation in caring for patients in this practice setting. Students will spend 25-30 of their time in non-dispensing activities (e. g. screenings, in-depth counseling, MTM, immunizations, self-care treatment, community presentations, etc.).

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6482 - Introduction to Hospital Pharmacy Practice

Credits: 4

Four-week rotation in hospital pharmacy practice completed under the guidance of a licensed pharmacist. Patient-care activities will include basic drug therapy and patient assessment, prospective drug utilization reviews, participating in the hospital's medication distribution process, performing calculations, compounding preparations and understanding pharmacy's role within the health-system through interdisciplinary interactions.

Prerequisite: grade of C or higher in PHCY 6352 and 6354 and satisfactory completion of all courses within the P1 curriculum (i. e. P2 standing).

PHCY6483 - Advanced Institutional Pharmacy

Credits: 4

An advanced practice experience in institutional/hospital pharmacy designed to build upon introductory experiences and promote active participation within the health-system through interdisciplinary interactions, projects, presentations, and patient care activities. Students will devote at least 50 of their time to nondispensing activities (e. g. monitoring meds, consults, discharge counseling, medication reconciliation, inservices).

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6485 - Reflective Learning in Pharmacy

Credits: 1

Max Credit (Max. 4)

Designed to help prepare P4 pharmacy students to be knowledgeable and well-rounded practitioners. Provides an opportunity to reflect on rotation experiences, give professional level presentations, and exposure to content not covered elsewhere in curriculum. Course includes guest speakers, Pharm. D. seminars, assessment activities, job/residency fairs, P4 portfolio, and reflective writing.

USP 2003-2014 Code [COM3]

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6550 - Advanced Cardiovascular Physiology and Pharmacology

Credits: 3

An advanced study in the integration of modern cardiovascular physiology, pharmacology, biochemistry and cell biology concepts.

Dual Listed PHCY 5550.

Prerequisite: PHCY 6230 (or equivalent).

Philosophy

PHIL1000 - Introduction to Philosophy

Credits: 3

Introduces critical thinking through a study of elementary logic, scientific method and philosophical problems of ethics, religion, epistemology and metaphysics.

USP 2003-2014 Code U3CH

USP 2015 Code U5H

PHIL1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

PHIL2100 - The Greek Mind

Credits: 3

Part one of the history of philosophy sequence. The first great age of philosophy was in ancient Greece. Students read from ancient Greek poets, historians and medical writers, as well as philosophers. The course attempts to understand the Greek mind: what Greeks thought of persons, society and the universe.

USP 2003-2014 Code U3CH

PHIL2300 - Ethics in Practice

Credits: 1-3

Alerts preprofessional students and other interested individuals to various ethical issues they will encounter and relevant professional work on those issues. Emphasis of the course concentrates one time on biomedical ethics, another on technology and engineering ethics, another on ethics in the professions.

USP 2003-2014 Code U3CH

USP 2015 Code U5H

PHIL2310 - Philosophy of Religion

Credits: 3

Systematically examines philosophical questions, arguments and theories arising from study of religion. Topics may include: reason and religion; the existence and nature of God.

USP 2003-2014 Code U3CH

PHIL2330 - Environmental Ethics

Credits: 3

Introduction to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed ENR 2330.

USP 2003-2014 Code U3CH

PHIL2345 - Natural Resource Ethics

Credits: 3

Introduction to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.

Cross Listed ENR 2345/RNEW 2345.

USP 2003-2014 Code U3CH, U3D

USP 2015 Code U5H

PHIL2420 - Critical Thinking

Credits: 3

Shows that argument is a skill of fundamental importance to any field of endeavor. Explains methods used in evaluating an argument. Introduces such topics as: patterns of reasoning, counterexamples, fallacies; inductive and deductive logic.

USP 2003-2014 Code U3CH

Former Course Number [1100]

PHIL3000 - Special Topics

Credits: 3

Max Credit (Max. 9)

Provides undergraduates with the opportunity for in-depth discussion of seminal works in the history of philosophy or a problem in contemporary philosophy not offered in regular courses or independent study. Open to interested undergraduates from all majors.

Prerequisite: 3 hours of philosophy.

PHIL3100 - History of Modern Philosophy: The Rationalists

Credits: 3

The second great age of philosophy absorbed the influence of the new science during the 17th and 18th centuries. People to be studied include: Descartes, Spinoza and Leibniz.

Prerequisite: 3 hours of philosophy.

PHIL3110 - History of Modern Philosophy: The Empiricists

Credits: 3

People to be studied include: Locke, Berkeley, Hume and Kant. These philosophers are included in the second great age of philosophy.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3120 - Ancient Greek Philosophy

Credits: 3

Surveying some of ancient Greek philosophy. Begins with the works of the earliest extant philosophical thinkers, the pre-Socratics. Remainder of focus on Plato and Aristotle.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3140 - Philosophy of Science

Credits: 3

Systematically examines philosophical problems about the nature of science, its methods of explanation, and the status of its laws.

Prerequisite: 3 hours of philosophy or 3 hours of science or consent of instructor.

PHIL3160 - "What Killed Socrates?"

Credits: 3

This course will reexamine Socrates' trial in 399 BCE, widely regarded as a miscarriage of justice, in its total historic context, seeking to understand the reasons for Socrates' conviction. In the process, it will impart a broad understanding of the cultural, philosophical, political, and legal life of classical Athens.

Cross Listed CLAS 3160/HIST 3160.

Prerequisite: WB or COM2.

PHIL3220 - Existentialism and Phenomenology

Credits: 3

Examines fundamental perspectives of existentialist thought, beginning with its roots in Kierkegaard and Nietzsche. Looks at a large variety of existentialist perspectives presented by Sartre, Heidegger, Buber, Jaspers and Camus. Considers the relation of Husserl's phenomenological method to existentialism.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy.

PHIL3250 - Global Justice

Credits: 3

An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

USP 2003-2014 Code U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: 3 hours of philosophy or international studies.

PHIL3260 - Seeking Justice and Equality

Credits: 3

Max Credit 3

A philosophical examination of justice and equality, as virtues of many different practical contexts in a society (individuals and relationships, laws, public policies), emphasizing both theory and practice. Topics include equality, distributive justice, retributive justice.

Cross Listed POLS 3260

USP 2015 Code H

Prerequisite: One course in Philosophy or Political Science

PHIL3300 - Ethical Theory

Credits: 3

A philosophical investigation of such concepts as morality, obligation, goodness, freedom and responsibility, and of recurring types of ethical theory.

Prerequisite: 3 hours of philosophy.

PHIL3320 - Eastern Thought

Credits: 3

Surveys some of the major concepts in Zen, Hinduism, Buddhism, Taoism and Confucianism.

Cross Listed RELI 3320.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3340 - Philosophy in Literature

Credits: 3

Max Credit (Max. 6)

Examines central themes in literary works with philosophical significance; studies related general issues. Issues include questions of interpretation, criticism, and translation, as well as the possibility of direct philosophical influence on authors.

Cross Listed ENGL

USP 2015 Code U5H

Former Course Number [2340]

Prerequisite: one course in philosophy or one course in literature or consent of instructor.

PHIL3350 - History of Moral Philosophy

Credits: 3

A historical and philosophical overview of ethical theory ranging from ancient Greek ethics to the present.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy.

PHIL3420 - Symbolic Logic

Credits: 3

Studies both propositional and quantificational logic, concentrating on methods of proof. Takes up such topics as identity, singular terms, intuitive set theory, and translating English sentences into symbolic notation.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3440 - Philosophy of Mind

Credits: 3

Considers topics in philosophy of mind, including the mind-body problem, emotions, attitudes, perception and psychological explanation.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3500 - History of Science

Credits: 3

Historic and philosophic survey of the development of science from the ancient Greeks to the 20th century.

Prerequisite: 3 hours of philosophy or 3 hours of science or consent of instructor.

PHIL3510 - Introduction to Epistemology

Credits: 3

Systematic introduction to epistemology, the philosophical study of knowledge and justified belief. Aims to answer questions such as: What are the necessary and sufficient conditions of knowledge? What are its sources? What is its structure, and what are its limits? How we are to understand the concept of justification?

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3560 - Introduction to Metaphysics

Credits: 3

A systematic introduction to metaphysics, the branch of philosophy concerned with providing a comprehensive account of the most general features of reality as a whole. Of central importance is the study of ontology, which seeks to address the question of what general sorts of things exist: particulars, universals, propositions, numbers, minds.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3933 - African Philosophy

Credits: 3

Examines the work of philosophers of Africa, of African descent and others who deal with African diaspora.

Cross Listed AAST 3933/INST 3933.

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: 6 hours of philosophy.

PHIL4000 - Philosophical Issues

Credits: 1-3

Dual Listed PHIL 5000.

Prerequisite: consent of instructor.

PHIL4020 - Plato

Credits: 3

Detailed examination of selected dialogues of Plato.

Dual Listed PHIL 5020.

Prerequisite: PHIL 3120.

PHIL4030 - Aristotle

Credits: 3

Detailed examination of selected works of Aristotle.

Dual Listed PHIL 5030.
Prerequisite: PHIL 3120.

PHIL4040 - Kant

Credits: 3

An examination of one or more aspects of the work of Immanuel Kant, conducted either from the perspective of the history of philosophy.

Prerequisite: 6 hours of philosophy.

PHIL4110 - Figures in Contemporary Philosophy

Credits: 3-6

Max Credit (Max. 6)

An advanced study of the work of one, or several related, contemporary philosophers.

Prerequisite: 12 hours of philosophy including PHIL 3100 or PHIL 3110.

PHIL4120 - Philosophy and the 20th Century

Credits: 3

Part three of the history of philosophy sequence. Covers the third great age of philosophy. Studies the main ways in which philosophy has been done since 1900. Topics normally include logic and philosophy, Wittgenstein, logical positivism and current trends.

Dual Listed PHIL 5120.
Former Course Number [4100]

Prerequisite: 6 hours of philosophy.

PHIL4130 - Figures in Modern and 19th Century Philosophy

Credits: 3

A detailed examination of one or more of the figures in modern or 19th century philosophy.

Dual Listed PHIL 5130.
Prerequisite: 6 hours of philosophy.

PHIL4140 - Topics in Philosophy of Science

Credits: 3

Max Credit (Max. 6)

Encompasses selected topics in philosophy of science.

Dual Listed PHIL 5140.

Prerequisite: 6 hours of philosophy.

PHIL4190 - Philosophy of Language

Credits: 3-6

Max Credit (Max. 6)

An advanced study of the work of one, or several related, contemporary philosophers.

Dual Listed PHIL 5190.

Prerequisite: 6 hours of philosophy.

PHIL4300 - Topics in Ethics

Credits: 3-6

Max Credit (Max. 6)

An advanced investigation of selected topics in ethics. Examples include derivative and basic principles of obligation; justice; morality and utility; generalization of norms; and the relation of morality and law.

Dual Listed PHIL 5300.

Prerequisite: 6 hours of philosophy.

PHIL4340 - Issues in Environmental Ethics

Credits: 3

Encompasses selected topics in environmental and natural resource ethics.

Dual Listed PHIL 5340.

Prerequisite: PHIL 2330, PHIL 2345, PHIL 3250, PHIL 3300 or PHIL 3350.

PHIL4420 - Advanced Logic

Credits: 3

Studies advanced topics in mathematical logic. Takes up such topics as: uninterpreted calculi and the distinctive contributions of syntax and semantics; metatheory, including completeness and consistency proofs; modal logic and semantics; logic as a philosophical tool.

Cross Listed COSC 4420/MATH 4420.

Dual Listed PHIL 5420.

Prerequisite: PHIL 3420 or equivalent.

PHIL4440 - Topics in Philosophy of the Mind

Credits: 3-6
Max Credit (Max. 6)

An advanced study of problems in the philosophy of mind such as the concept of human action; intention, choice, reasons and causes in the explanation of human action, mental states and brain states, and artificial intelligence.

Dual Listed PHIL 5440.
Prerequisite: 6 hours of philosophy.

PHIL4510 - Theory of Knowledge

Credits: 3
Studies such problems as knowledge and belief, skepticism, perception and knowledge, memory, truth.

Dual Listed PHIL 5510.
Prerequisite: 6 hours of philosophy.

PHIL4560 - Metaphysics

Credits: 3
Examines approaches to metaphysics. Discusses problems such as causality, individuation.

Dual Listed PHIL 5560.
Prerequisite: 6 hours of philosophy.

PHIL4975 - Independent Study

Credits: 1
Max Credit 6

Primarily for juniors and seniors who can benefit from independent study of topics in philosophy not covered in course offerings. Guidance provided by faculty member in the appropriate field.

Restricted undergraduate standing

Prerequisite: 9 hours of philosophy and consent of instructor

PHIL5000 - Philosophical Issues

Credits: 1-3
Max Credit (Max. 6)

Dual Listed PHIL 4000.
Prerequisite: graduate status and consent of instructor.

PHIL5020 - Plato

Credits: 3

Detailed examination of selected dialogues of Plato.

Dual Listed PHIL 4020.

Prerequisite: graduate standing.

PHIL5030 - Aristotle

Credits: 3

Detailed examination of selected works of Aristotle.

Dual Listed PHIL 4030.

Prerequisite: graduate standing.

PHIL5040 - Kant

Credits: 3

An examination of one or more aspects of the work of Immanuel Kant, conducted either from the perspective of the history of philosophy, or predominantly as a critical study.

Dual Listed PHIL 4040.

Prerequisite: graduate standing.

PHIL5120 - Philosophy and the Twentieth Century

Credits: 3

Part three of the history of philosophy sequence. Covers the third great age of philosophy. Studies the main ways in which philosophy has been done since 1900. Topics normally include logic and philosophy, Wittgenstein, logical positivism and current trends.

Dual Listed PHIL 4120.

Prerequisite: graduate standing.

PHIL5130 - Figures in Modern and 19th Century Philosophy

Credits: 3

A detailed examination of one or more of the figures in modern or 19th century philosophy.

Dual Listed PHIL 4130.

Former Course Number [5100]

Prerequisite: graduate standing or consent of instructor.

PHIL5140 - Topics in Philosophy of Science

Credits: 3-6
Max Credit (Max. 6)

Encompasses selected topics in philosophy of science.

Dual Listed PHIL 4140.

Prerequisite: graduate standing.

PHIL5190 - Philosophy of Language

Credits: 3-6
Max Credit (Max. 6)

An advanced study of the work of one, or several related, contemporary philosophers.

Dual Listed PHIL 4190.

Prerequisite: graduate standing.

PHIL5300 - Topics in Ethics

Credits: 3-6
Max Credit (Max. 6)

An advanced investigation of selected topics in ethics. Examples include derivative and basic principles of obligation; justice; morality and utility; generalization of norms; and the relation of morality and law.

Dual Listed PHIL 4300.

Prerequisite: graduate standing.

PHIL5340 - Issues in Environmental Ethics

Credits: 3
Encompasses selected topics in environmental and natural resource ethics.

Dual Listed PHIL 4340.

Prerequisite: graduate standing.

PHIL5420 - Advanced Logic

Credits: 3
Studies advanced topics in mathematical logic. Takes up such topics as: uninterpreted calculi and the distinctive contributions of syntax and semantics; metatheory, including completeness and consistency proofs; modal logic and semantics; logic as a philosophical tool.

Cross Listed COSC 5420/MATH 5420.

Dual Listed PHIL 4420.

Prerequisite: graduate standing.

PHIL5440 - Topics in the Philosophy Of Mind

Credits: 3-6
Max Credit (Max. 6)

An advanced study of problems in the philosophy of mind such as the concept of human action; intention; choice; reasons and causes in the explanation of human action; mental states and brain states; and artificial intelligence.

Dual Listed PHIL 4440.

Prerequisite: graduate standing.

PHIL5510 - Theory of Knowledge

Credits: 3
Studies such problems as knowledge and belief, skepticism, perception and knowledge, memory, truth and justification of induction.

Dual Listed PHIL 4510.

Prerequisite: graduate standing.

PHIL5550 - Independent Study

Credits: 1-6
Max Credit (Max. 6)

A study of a topic selected in consultation with the instructor.

Prerequisite: graduate standing.

PHIL5560 - Metaphysics

Credits: 3
Examines approaches to metaphysics. Discusses problems such as causality, individuation and distinction between particulars and universals.

Dual Listed PHIL 4560.

Prerequisite: graduate standing.

PHIL5900 - Practicum in College Teaching

Credits: 1-3
Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

PHIL5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

PHIL5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

Prerequisite: advanced degree candidacy.

PHIL5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

PHIL5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

PHIL5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Physical Education Activity

PEAC1001 - Physical Activity and Your Health

Credits: 1

Designed to help students gain an understanding of the impact physical activity or inactivity has on their health. Students gain the knowledge, skills, and experience that enable them to make informed decisions about their own health as it relates to their quality of life and longevity.

USP 2003-2014 Code U3P

A&S College Core 2015 NOTE: All students must enroll in a PEAC 1001 activity as part of the PEAC 1001 experience.

PEAC2000 - Wellness: Physical, Nutrition, and Lifestyle Concepts

Credits: 1-3

Max Credit (Max. 9)

Designed to present information on topics including (but not limited to): nutrition, mobility and injury prevention, sleep and stress management, sport psychology, ethics in sport and human performance, and methods of fitness. Also includes a physical activity component.

Physics

PHYS1050 - Concepts of Physics

Credits: 4

Introduces the physical world. For students whose background in math and science is minimal; recommended for students in paramedical sciences and medical technology. Three lecture hours per week are supplemented by two hours per week of laboratory work.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.

PHYS1090 - The Fundamentals of the Physical Universe

Credits: 4

Applies fundamental principles of chemistry and physics to real life situations. Primarily for elementary education majors.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.

PHYS1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

PHYS1110 - General Physics I

Credits: 4

First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, pre dental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied. Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: MATH 1450, 1405 or equivalent.

PHYS1120 - General Physics II

Credits: 4

Follows PHYS 1110 and completes introduction to physics without calculus. Includes electricity, magnetism, optics and modern physics. Laboratory sessions illustrate principles studied. Students receiving credit in PHYS 1120 cannot receive credit in PHYS 1050, PHYS 1220 or PHYS 1320.

When Offered (Normally offered spring and summer semester)

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: PHYS 1110.

PHYS1210 - Engineering Physics I

Credits: 4

First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4

Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP

USP 2015 Code U5PN

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PHYS1310 - College Physics I

Credits: 4

First course of two semester sequence. Provides thorough introduction to physics with calculus. Primarily for majors in physics, astronomy, and other areas in science, mathematics and technology requiring the highest levels of sophistication. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1310 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1210.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1320 - College Physics II

Credits: 4

Follows PHYS 1310 and continues introduction to physics with calculus. Includes electricity, magnetism and thermodynamics. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1320 cannot receive credit for PHYS 1050, PHYS 1120 or PHYS 1220.

USP 2003-2014 Code U3SP

Prerequisite: MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PHYS2250 - Thermodynamic Systems in Energy Science

Credits: 4

Introduces the principles of thermodynamics and their application to energy science. Intended for students majoring in Energy Resource Science.

USP 2003-2014 Code U3SP

Prerequisite: PHYS 1210, grade of C or higher in MATH 2205.

PHYS2310 - Physics III: Waves and Optics

Credits: 4

Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS2320 - Physics IV: Modern Physics

Credits: 3

Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS2870 - Special Topics in:

Credits: 1-4
Max Credit (Max. 4)

Presents various subjects not available in regularly scheduled courses.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: consent of instructor.

PHYS3000 - Methods of Physics

Credits: 4

Provides introduction to mathematical methods and modern scientific computational tools used in physics/ astronomy. Topics include introduction to Python or linux operating system and use LabView software to run laboratory apparatus. Course examples will draw upon material in PHYS 1210/PHYS 1220 to help build fluency in the first year physics material.

Prerequisite: PHYS 1220.

PHYS3640 - Modern Electronics and Experimental Techniques

Credits: 4

Introduced to analog and digital circuits/devices and computer interfacing with laboratory equipment and experiments. Includes computer programming, the analysis of experimental data, and report writing. Apply the skills developed in this class to interface with and control representative instrumentation used in experimental physics laboratories.

Prerequisite: PHYS 2320.

PHYS3650 - Advanced Lab in Modern Physics and Electronics

Credits: 4

Presents fundamentals of modern optics, modern and quantum physics, E&M/electronics, and thermodynamics in a project oriented interactive undergraduate laboratory with a focus on professional grade lab report writing that qualifies as WB USP. Students learn professional data handling, error theory, and data analysis.

USP 2015 Code U5C3

Prerequisite: WA and PHYS 2310 or PHYS 2320.

PHYS4000 - Applied Laser Science

Credits: 3

Covers basic operational principles of lasers and their many applications in science and industry.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: PHYS 2310 or equivalent; PHYS 4310.

PHYS4210 - Classical Mechanics I

Credits: 3

First semester of a two-course sequence. Presents classical mechanics at intermediate level. Begins with elementary Newtonian mechanics and builds step by step into analytic mechanics. Includes simple harmonic motion of particles in one, two or three dimensions, gravitation; introduction to rigid-body motion; and introduction to Lagrangian and Hamiltonian Mechanics.

When Offered (Normally offered spring semester)

Prerequisite: PHYS 2310 or equivalent, MATH 2210 or equivalent.

PHYS4220 - Classical Mechanics II

Credits: 4

Follows PHYS 4210. Presents classical mechanics at an intermediate to advanced level. Includes detailed treatment of Lagrangian and Hamiltonian Mechanics, rigid-body motion, small oscillations and introduction to relativity.

Dual Listed PHYS 5220.

Prerequisite: PHYS 4210.

PHYS4310 - Quantum Mechanics

Credits: 3

Studies fundamental concepts of quantum theory.

When Offered (Normally offered fall semester)

Prerequisite: PHYS 4210.

PHYS4340 - Semiconductor Materials and Devices

Credits: 3

Physical properties of semiconductor materials and devices, including crystal lattices and energy bands, carrier generation, transport, and recombination. PN, metal-semiconductor, and heterojunction operation. Field Effect Transistors, including Metal Oxide Semiconductor (MOSFET), Junction (JFET), Metal Semiconductor (MESFET), and High Electron Mobility (HEMT) transistors. Bipolar Junction (BJT) and Heterojunction (HBT) Transistor operation.

Cross Listed EE 4340.

Prerequisite: PHYS 1220 or PHYS 1320.

PHYS4350 - Advanced Quantum Mechanics

Credits: 3

Covers advanced topics in quantum mechanics, including angular momentum, quantum states in three dimension, hydrogen atomic structure, electron spin, Pauli matrices, time-dependent and independent perturbation methods, Born approximation, formal scattering theory, etc. .

When Offered (Normally offered spring semester)

Prerequisite: PHYS 4210, PHYS 4310, PHYS 4420 and MATH 4440.

PHYS4410 - Electricity and Magnetism I

Credits: 3

First semester of a two-course sequence. Presents electricity and magnetism on intermediate level, emphasizing fields. Begins with review of vector algebra and calculus and proceeds to discussion of electrostatics, potential theory and steady currents.

When Offered (Normally offered fall semester)

Prerequisite: PHYS 2310 or equivalent and MATH 2210.

PHYS4420 - Electricity and Magnetism II

Credits: 3

Follows PHYS 4410 and continues intermediate discussion of electricity and magnetism. Covers magnetostatics, magnetoquasistatics, alternating currents, electromagnetic waves, transmission lines and antennae.

When Offered (Normally offered spring semester)

Prerequisite: PHYS 4410.

PHYS4510 - Thermodynamics and Statistical Mechanics

Credits: 3

Presents fundamental principles of thermodynamics, emphasizing mathematical development.

Prerequisite: PHYS 4310 or equivalent and MATH 2210.

PHYS4710 - Solid-State Physics

Credits: 3

Surveys theory and application of solid state physics using quantum theory. Emphasizes relation between theory and experiment. Discusses areas of present research activity.

Prerequisite: PHYS 4310 and PHYS 4510.

PHYS4720 - Solid State Electronic Devices

Credits: 3

This course aims to develop basic semiconductor physics concepts, so students can better understand current and future solid state electronic devices and technology.

Prerequisite: PHYS 4210, PHYS 4310, and PHYS 4420.

PHYS4830 - Mathematical and Computational Physics I

Credits: 3

First semester of a two-semester sequence. Provides a comprehensive overview of mathematical physics and numerous analytical mathematical techniques applied to physics problems. Topics include: numerical computations and visualizations, differential and integral vector analysis, linear algebra, infinite series, complex variables, partial differential equations, ordinary differential equations, integral transforms and equations, and calculus of variations.

Prerequisite: PHYS 2310 or PHYS 2320 and MATH 2210, MATH 2250, MATH 2310.

PHYS4840 - Mathematical and Computational Physics II

Credits: 4

Second semester of a two-semester course. Provides a comprehensive overview of computational physics and provides numerous numerical techniques applied to physics problems. Topics include: numerical computations and visualizations, numerical solutions of ordinary differential equations, linear systems, curve fitting, discrete Fourier transforms, partial differential equations, integration, and Monte Carlo simulations of general stochastic systems. A weekly lab session will be held.

Prerequisite: MATH 2210, PHYS 2320 and PHYS 3000.

PHYS4860 - Independent Study in:

Credits: 1-6

Encompasses independent study to advanced problems which may involve either library and/or laboratory research.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: PHYS 2310.

PHYS4870 - Special Topics in:

Credits: 1-6

Presents various subjects not available in regularly scheduled courses.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: PHYS 2310 and consent of instructor.

PHYS4970 - Senior Research/Internship

Credits: 1-3

Max Credit (Max. 4)

Requires a practical research experience or internship from the student up to 4 credits under the advisement of a faculty member. This requirement for graduation should lead to a professional publication or document written by the student. The credit requirements may be spread over several semesters.

PHYS5110 - Methods of Theoretical Physics I

Credits: 4

First semester of a two-semester sequence which introduces mathematical techniques used in graduate physics courses. The content may be adjusted to meet the needs of the students. This course is required for M. S. and Ph. D. students.

Prerequisite: PHYS 4310, PHYS 4410, MATH 4440 or equivalent.

PHYS5120 - Methods of Theoretical Physics II

Credits: 4

Designed to follow PHYS 5110 and will introduce further mathematical techniques used in graduate physics courses. Required for M. S. and Ph. D. students.

Prerequisite: PHYS 5110.

PHYS5130 - Ultrafast Science and Spectroscopy

Credits: 4

This graduate course introduces major themes, topics, and techniques in modern ultrafast science.

Prerequisite: PHYS 4350 (or equivalent) and PHYS 4420 (or equivalent).

PHYS5210 - Classical Mechanics

Credits: 4

Advanced classical dynamics beginning with classical Lagrangian and Hamiltonian formalism, covering relativistic Lagrangian formulation, canonical transformations, Hamilton-Jacobi theory, and small oscillations. A required course for Ph. D. students.

Prerequisite: PHYS 4220, MATH 4440 or equivalent, and concurrent registration in PHYS 5110.

PHYS5220 - Classical Mechanics II

Credits: 4

Presents classical mechanics at an intermediate to advanced level and is designed to follow PHYS 4210. Includes a detailed treatment of Lagrangian and Hamiltonian mechanics. Rigid-body motion, small oscillations, and an introduction to relativity.

Dual Listed PHYS 4220.

Prerequisite: PHYS 4210.

PHYS5230 - Advanced Classical Mechanics

Credits: 4

The developments of the 1970s and 1980s, including a major expansion in our understanding of chaotic motion in many areas of science, will be brought together in a coherent framework. A strong computational component will be associated with many of the problems studied.

Prerequisite: PHYS 4210 and PHYS 5220 or equivalent.

PHYS5310 - Quantum Theory I

Credits: 4

First semester of a two-semester sequence which presents quantum mechanics on a professional level. Includes topics such as infinite dimensional vector spaces, postulates of quantum mechanics, exactly soluble bound systems, and angular momentum. Required for M. S. and Ph. D. students.

Prerequisite: PHYS 4220, PHYS 4310, MATH 4440 or equivalent, concurrent registration in PHYS 5110.

PHYS5320 - Quantum Theory II

Credits: 4

Designed to follow PHYS 5310 and will present topics such as scattering by a potential, addition of angular momentum, stationary and time dependent perturbation, identical particles. It is required for M. S. and Ph. D. students.

Prerequisite: PHYS 5310 and concurrent registration in PHYS 5120.

PHYS5410 - Electromagnetic Theory I

Credits: 4

The first semester of a two-semester sequence which presents electromagnetic theory on a professional level. The classical analytic solutions of the equations of motion are discussed and expressed as quadratures over the Green functions with attention to effect of boundary conditions. It presents topics such as algebra and calculus of vectors in configuration space, electrostatics, potential theory, and steady currents. Required for M. S. and Ph. D. students.

Prerequisite: PHYS 4420, PHYS 5110, MATH 4440 or equivalent.

PHYS5420 - Electromagnetic Theory II

Credits: 4

Designed to follow PHYS 5410 and will present topics such as magnetostatics, magnetoquasistatics, time dependent electromagnetic theory, physical optics with a vector field, and radiation from antennae. Required for Ph. D. students.

Prerequisite: PHYS 5410.

PHYS5510 - Statistical Mechanics

Credits: 4

An introduction to statistical mechanics and the many-body problem, including quantum statistics. Required for Ph. D. students.

Prerequisite: PHYS 5210, PHYS 5320, PHYS 5410.

PHYS5610 - Atomic and Molecular Spectroscopy

Credits: 3

A quantum mechanical treatment of atomic and molecular structure, transition probabilities, selection rules, and the Zeeman and Stark effects.

Prerequisite: PHYS 5320.

PHYS5620 - Atomic Physics

Credits: 4

This course will cover atomic phenomena with a focus on atomic transitions and an introduction to particle physics.

Prerequisite: PHYS 4310 or equivalent, PHYS 5410 or equivalent.

PHYS5720 - Advanced Solid State Physics

Credits: 3

A course in modern topics and theoretical technique relevant to condensed matter.

Prerequisite: PHYS 4710 or equivalent, PHYS 5510.

PHYS5730 - Condensed Matter Magnetism

Credits: 4

Designed to give graduate students instruction in the fundamental principles of magnetism, the important properties of magnetic materials and their applications. Required for the physics track of the PhD program.

Prerequisite: PHYS 4310, PHYS 4410, PHYS 4510 or equivalent.

PHYS5740 - Transport Properties of Solids

Credits: 4

Instruction in the basic quantum theories of electron and phonon transport, interactions among the carriers and with impurities, and important transport phenomena in various systems. Required for the physics track students in the PhD program.

Prerequisite: PHYS 4310, PHYS 4410, PHYS 4510 or equivalent.

PHYS5750 - Optical Properties of Solids

Credits: 4

Covers advanced topics of optical properties of solids, including free carrier contribution to their optical properties, interband transitions, absorption of light in solids, luminescence and photoconductivity, electron spectroscopy and surface science, light emitting diodes, etc.

Prerequisite: PHYS 4310, PHYS 4410, PHYS 4510 or equivalent.

PHYS5770 - Nanotechnology: Nanophysics and Nanosystems

Credits: 4

Introduction to nanoscale fabrication techniques including lithography, pattern transfer, thin film deposition etc. Electronic transport in mesoscopic systems. Electrical properties of nanoscale devices including self-assembled monolayers, carbon nanotubes, and semiconductor nanowires. Noise properties of nanostructures.

Prerequisite: PHYS 4310 or equivalent.

PHYS5810 - Nuclear and Elementary Particle Physics

Credits: 3

An advanced course in nuclear and elementary particle interactions, with emphasis on current development.

Prerequisite: PHYS 5350.

PHYS5820 - Plasma Physics

Credits: 4

Introduction to plasma physics is exhibited through the analysis of numerous ionized environments (fusion systems, stellar surfaces, and the ionosphere). Fluid approximations (MHD), as well as a kinetic theory formulation (including the Vlasov equation) of plasma physics will be employed. Damping, instabilities, and nonlinear plasmas will be explored.

Prerequisite: PHYS 4210 and PHYS 4420.

PHYS5830 - Physics of Solar Cells

Credits: 4

Covers problems of energy economy, photon physics, physics of semiconductors, conversion of chemical energy into electrical energy, basic structure of solar cells, quantum-dot-semiconductor solar cells, limitations of energy conversions in solar cells, and strategies for higher efficiency.

Prerequisite: PHYS 5720.

PHYS5840 - Experimental Methods and Low Temperature

Credits: 4

Introduction to experimental methods in condensed matter physics and phenomena at low temperatures. The fields of solid properties at low temperatures, the generation and measurement of low temperatures, the generation of high magnetic fields in laboratory magnets, and basic vacuum technology are covered.

Prerequisite: graduate standing.

PHYS5860 - Independent Study

Credits: 1-4
Max Credit (Max. 24)

Designed to provide opportunities for self-study and special projects under supervision of individual professors.

Restricted Restricted to graduate students.

Prerequisite: PHYS 4860 or equivalent.

PHYS5870 - Special Topics In Physics

Credits: 1-4
Max Credit (Max. 20)

Intended to accommodate various subjects not offered as regular courses.

Prerequisite: graduate standing.

PHYS5900 - Practicum in College Teaching

Credits: 1-3
Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

PHYS5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

PHYS5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

PHYS5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

PHYS5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

PHYS5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

PHYS5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Plant Sciences

PLNT1000 - Agroecology

Credits: 4

Introduces ecological interactions that affect food producing (agricultural) systems. Lectures and laboratory exercises study the various biological components and the science of sustainable agricultural production. Features differences between developed and developing countries. Explores crises and challenges facing agriculture and global society.

USP 2003-2014 Code U3G, U3SB

USP 2015 Code U5PN

Former Course Number [CROP/BOT 2000]

PLNT1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

PLNT1150 - Pesticide Safety and Application

Credits: 1

Introduces various types and safe methods of pesticides application. Subsequent to completion, students may take the certification test administered by the Wyoming Department of Agriculture.

Cross Listed ENTO 1150.
Former Course Number [CROP 1150]

PLNT2025 - Horticultural Science

Credits: 3

Propagation, growth, development and utilization of horticultural plants. Students gain an understanding of plant classification, anatomy, interactions with the environment, production and utilization.

When Offered (Normally offered fall semester)
USP 2003-2014 Code U3SB
USP 2015 Code U5PN
Prerequisite: PLNT 1000 or LIFE 1010

PLNT2026 - Horticultural Sciences Laboratory

Credits: 1

Offers hands-on experience in many areas of horticulture. Students learn basic horticultural plant structures and functions, propagation methods, growing media and fertilizers, landscaping, pruning, etc.

When Offered (Normally offered fall semester)
USP 2003-2014 Code U3SB
Prerequisite: PLNT 1000 or LIFE 1010.

PLNT2200 - Field Crop Production

Credits: 3

Provides students with a fundamental understanding of production cropping systems. Students will gain basic knowledge of major food crops, tillage systems, crop rotations, fertilization, irrigation, crop development, pest management, and other topics related to field crops.

When Offered (Normally offered spring semester of even-numbered years)
Prerequisite: PLNT 1000 or concurrent enrollment

PLNT3000 - Irrigated Agriculture

Credits: 3

Study of the complexity of plant/soil water relationships and its importance on irrigation. Soil and water relations,

reference/crops evapotranspiration and management of the water balance. Principles of chemigation, computer modeling/ monitoring included. Methods for irrigation scheduling and the importance of water use efficiency as a strategy for water conservation.

Cross Listed SOIL 3000.

Prerequisite: MATH 1400, SOIL 2010.

PLNT3030 - Ecological Web: Ecology of Plant Protection

Credits: 3

Introduces students to concurrent evolution of crop cultivation and organisms, both plant and animal, that attack them. Provides basic skills necessary to understand ecology and management of economic crop pests.

When Offered (Normally offered fall semester)

Former Course Number [2030]

Prerequisite: LIFE 1010 and PLNT 1000

PLNT3036 - Grape Production

Credits: 3

Introduces students to the science of viticulture. Topics include grapevine origin and distribution, taxonomy, morphology and physiology, soil and climatic requirements, vineyard establishment, grapevine nutrition, cultural practices, harvesting and post-harvest management. Successful completion will enhance students' knowledge and understanding on grape production and management.

Former Course Number [AECL 3036]

Prerequisite: PLNT 2025

PLNT3220 - Plant Pathology

Credits: 3

Study of plant diseases, their causes, nature and control, as well as pathogen biology. Study of diseases caused by fungi, bacteria, viruses, nematodes, mycoplasma-like organisms, higher plants and abiotic factors on field and vegetable crops, as well as on landscape plants. Gives students insight into the impact plant diseases have on humans.

Former Course Number [PLPA 3220]

Prerequisite: PLNT 1000 or LIFE 1010

PLNT3300 - Horticultural Plant Propagation

Credits: 3

Emphasis on sexual and asexual propagation of various plants including herbaceous and woody crops. Seed

propagation discussions include anatomy, physiology, dormancy, and enhancing seed viability and germination. Asexual propagation discussions center on anatomy and physiology of cuttings, adventitious root formation, budding, grafting, and tissue culture.

When Offered (Normally offered spring semester of even-numbered years)

Prerequisite: PLNT 2025

PLNT4000 - Plant Disease Control

Credits: 3

Advanced study of plant diseases. Important diseases of field, forage and horticultural crops will be studied. Includes history and current distribution and uses of crops. Emphasis will be placed on pathogen biology and development of integrated disease management. Current and classic research papers on plant disease control will be discussed.

Dual Listed PLNT 5000

When Offered (Normally offered fall semester of even-numbered years)

Former Course Number [PLPA 4000]

Prerequisite: PLNT 3220

PLNT4020 - Sustainable Agriculture

Credits: 3

Focuses on the sustainability of agroecosystems and the human communities that maintain them in the context of regional, national and global food and fiber requirements. Topics include: the scale of agriculture, low-input systems, current energy and transportation challenges, markets, and integrated crop and livestock production.

Dual Listed PLNT 5020

Prerequisite: 8 hours of Life Sciences

PLNT4050 - Plant Biotechnology

Credits: 3

Introduces students to the science and applications of plant cell, tissue and organ culture, and regeneration. Topics include in vitro techniques used for developing new genotypes. Successful completion will enhance knowledge and understanding of plant tissue culture techniques and their applications in crop improvement.

Dual Listed PLNT 5050

Prerequisite: LIFE 2023 or equivalent

PLNT4070 - Weed Science and Technology

Credits: 4

Management and physiological principles involved in control of economically important farm and range weeds.

Dual Listed PLNT 5070

When Offered (Normally offered fall semester)

Former Course Number [CROP 4070]

Prerequisite: PLNT 1000, LIFE 1010

PLNT4120 - Organic Food Production

Credits: 3

A complete review of the federal organic production guidelines, methods and applications for organic production facilities, alternative marketing principles, concepts of organic fertilizer use, organic pest control and concepts for using environmentally friendly methods to reduce chemical, petroleum and synthetic inputs for more sustainable crop and livestock agricultural systems.

Dual Listed PLNT 5120

Prerequisite: 8 hours of LIFE and/or CHEM

PLNT4130 - Applied Remote Sensing for Agricultural Management

Credits: 3

Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed RNEW 4130/GIST 4130

Prerequisite: Q course and 9 credit hours in student's major field and junior/senior standing

PLNT4180 - Greenhouse Crop Production

Credits: 4

Production methods for a wide range of herbaceous plants including bedding plants, perennials, vegetables, flowering potted plants, and foliage plants. Emphasis is placed on current production techniques in controlled environments and in the field.

Dual Listed PLNT 5180

When Offered (Normally offered spring semester of odd-numbered years)

Prerequisite: PLNT 3300

PLNT4190 - Herbs, Spices and Medicinal Plants

Credits: 3

Includes the history and importance of herbs, spices, and medicinals; collection of these plants in the wild; botany; chemistry; greenhouse and field production; organic production; harvesting; drying; postharvest operations; legal aspects; and products.

Dual Listed PLNT 5190

Prerequisite: 8 hours LIFE and/or CHEM

PLNT4200 - Greenhouse Design and Management

Credits: 3

Emphasis on greenhouse structural and functional design concepts of economy, efficiency and energy conservation. Primary emphasis is on the limitations and advantages of greenhouses in the Rocky Mountain region, including alternative energy concepts. The management and operational concerns associated with private, commercial, educational and public greenhouses will be included.

Dual Listed PLNT 5200

Prerequisite: PLNT 2025 and a USP Q course

PLNT4220 - Crop Yield Physiology

Credits: 3

Physiological processes underlying crop growth and development. The effect of crop management practices on physiology and yield will also be discussed.

When Offered (Normally offered spring semester of odd-numbered years)

Prerequisite: PLNT 1000, CHEM 1000

PLNT4400 - Invasive Plant Ecology

Credits: 3

Ecological impacts of invasive, non-indigenous plant species, the ecological, genetic and evolutionary hypotheses for invasiveness, as well as management strategies for invasive plant species.

Cross Listed RNEW 4400, RNEW 5400, PLNT 5400

Prerequisite: LIFE 3400

PLNT4470 - Seed Science and Technology

Credits: 3

Presents aspects of seed biology and processing including development, physiology, ecology, germination, viability, dormancy, production, conditioning, storage, certification and marketing.

Dual Listed PLNT 5470

Former Course Number [CROP 4470]

Prerequisite: 8 hours of plant biology

PLNT4520 - Plant Breeding

Credits: 3

Principles and methods for genetic improvement of all kinds of plants including agronomic, horticultural, forest and range species. Emphasizes fundamental concepts of quantitative genetics and integration of classical plant breeding with emergent biotechnology.

Former Course Number [CROP 4520]

Prerequisite: MATH 1000 or statistics course; LIFE 4000

PLNT4700 - Forage Crop Science

Credits: 3

The course focuses on major aspects of forage crop production and biology. Cultural practices, adaptation, sustainable agriculture and alternative use, seed production, harvest, livestock utilization and storage of forages. This course will have in-depth emphasis on characteristics of important grasses and legumes and utilization of forages for livestock production.

Dual Listed PLNT 5700

Former Course Number [CROP 2200, 3200; PLNT 3200]

PLNT4790 - Topics:

Credits: 1-4

Max Credit (Max. 10)

Independent study.

Dual Listed PLNT 5790

Former Course Number [CROP 4700, 4790]

Prerequisite: Senior standing

PLNT4820 - Plant Sciences Seminar

Credits: 1

Max Credit 1

Discussion in production, physiology, breeding and weed science. Undergraduates in PLNT 4820 will attend graduate seminar PLNT 5820 and participate in discussions of the current topics.

Dual Listed PLNT 5820

Prerequisite: Senior standing, PLNT 1000.

PLNT4900 - Undergraduate Teaching Practicum

Credits: 1-2

Max Credit (Max. 4)

Supervised participation of undergraduates in the teaching of laboratory sections offered by the Department of Plant Sciences. Provides opportunity for students to gain teaching experience in agroecology, horticulture, or life science.

Prerequisite: PLNT 1000 and junior or senior standing

PLNT4920 - Research Apprenticeship

Credits: 1-2
Max Credit (Max. 4)

Laboratory and/or field research apprenticeship. Emphasizes individual student-faculty interactions on current topics in plant sciences.

Former Course Number [CROP 4600]

Prerequisite: Junior standing and PLNT 1000, STAT 2050.

PLNT4930 - Internship in Plant Sciences

Credits: 1-3
Max Credit (Max. 6)

Provides students with realistic views of crop science, entomology or soil science through practical, as well as work-related, experiences. Provides positive educational experience to supplement formal academic course work.

Former Course Number [CROP/ENTO/SOIL 4903]

Prerequisite: Sophomore standing or higher; 2.50 GPA

PLNT4960 - Plant Sciences Field Studies

Credits: 2
Various facets of the agroecosystem are covered by visits to agricultural research stations, agri-businesses, private farms, national monuments, historical sites and Federal Parks. Students are exposed to ongoing sustainable research projects and innovative sustainable farming operations where a variety of cropping systems are utilized. Students are usually exposed to archaeological remains of ancient American Indian farming systems. An 8-day trip.

When Offered (Offered as needed)
Former Course Number [PLPA 4000]

Prerequisite: PLNT 1000

PLNT4975 - Problems in Plant Sciences

Credits: 1-2
Max Credit (Max. 2)

Provides an opportunity for students to conduct supervised research on specific topics of interest and importance in crop breeding, genetics, physiology, pathology, ecology and pest management.

Prerequisite: Junior/Senior standing with at least 10 hours of Plant Production and Protection core requirements.

PLNT4990 - Plant Sciences Capstone

Credits: 3

Capstone course for final integration of courses required for the Plant Production and Protection degree. Provides overall synthesis of plant sciences academic subjects following completion of a prescribed senior experience course, PLNT 4920 or PLNT 4930.

When Offered (Offered spring semester)

USP 2003-2014 Code U3WC

USP 2015 Code UC3

PLNT5000 - Plant Disease Control

Credits: 3

Advanced study of plant diseases. Important diseases of field, forage and horticultural crops will be studied. Includes history and current distribution and uses of crops. Emphasis will be placed on pathogen biology and development of integrated disease management. Current and classic research papers on plant disease control will be discussed.

Dual Listed PLNT 4000

When Offered (Normally offered fall semester of even-numbered years)

Prerequisite: PLNT 3220

PLNT5020 - Sustainable Agriculture

Credits: 3

Focuses on the sustainability of agroecosystems and the human communities that maintain them in the context of regional, national and global food and fiber requirements. Topics include: the scale of agriculture, low-input systems, current energy and transportation challenges, markets, and integrated crop and livestock production.

Dual Listed PLNT 4020

Prerequisite: 8 hours of Life Sciences

PLNT5050 - Plant Biotechnology

Credits: 3

Introduces students to the science and applications of plant cell, tissue and organ culture, and regeneration. Topics include in vitro techniques used for developing new genotypes. Successful completion will enhance knowledge and understanding of plant tissue culture techniques and their applications in crop improvement.

Dual Listed PLNT 4050

Prerequisite: LIFE 2023 or equivalent

PLNT5070 - Weed Science and Technology

Credits: 4

Management and physiological principles involved in control of economically important farm and range weeds.

Dual Listed PLNT 4070

Prerequisite: PLNT 1000, LIFE 1010

PLNT5120 - Organic Food Production

Credits: 3

A complete review of the federal organic production guidelines, methods and applications for organic production facilities, alternative marketing principles, concepts of organic fertilizer use, organic pest control and concepts for using environmentally friendly methods to reduce chemical, petroleum and synthetic inputs for more sustainable crop and livestock agricultural systems.

Dual Listed PLNT 4120

Prerequisite: 8 hours of LIFE and/or CHEM

PLNT5180 - Greenhouse Crop Production

Credits: 4

Production methods for a wide range of herbaceous plants including bedding plants, perennials, vegetables, flowering potted plants, and foliage plants. Emphasis is placed on current production techniques in controlled environments and in the field.

Dual Listed PLNT 4180

When Offered (Normally offered spring semester of odd-numbered years)

Prerequisite: PLNT 3300

PLNT5190 - Herbs, Spices and Medicinal Plants

Credits: 3

Includes the history and importance of herbs, spices, and medicinals; collection of these plants in the wild; botany; chemistry; greenhouse and field production; organic production; harvesting; drying; postharvest operations; legal aspects; and products.

Dual Listed PLNT 4190

Prerequisite: 8 hours LIFE and/or CHEM

PLNT5200 - Greenhouse Design and Management

Credits: 3

Emphasis on greenhouse structural and functional design concepts of economy, efficiency and energy conservation. Primary emphasis is on the limitations and advantages of greenhouses in the Rocky Mountain region, including alternative energy concepts. The management and operational concerns associated with private, commercial, educational and public greenhouses will be included.

Dual Listed PLNT 4200

Prerequisite: PLNT 2025 and a USP Q course

PLNT5400 - Invasive Plant Ecology

Credits: 3

Ecological impacts of invasive, non-indigenous plant species, the ecological, genetic and evolutionary hypotheses for invasiveness, as well as management strategies for invasive plant species.

Cross Listed RNEW 5400

Dual Listed PLNT 4400

Prerequisite: LIFE 3400

PLNT5410 - Advanced Crop Physiology and Management

Credits: 3

Review and interpretation of current crop management and physiology literature.

Prerequisite: 6 hours of biochemistry or plant physiology

PLNT5470 - Seed Science and Technology

Credits: 3

Presents aspects of seed biology and processing including development, physiology, ecology, germination, viability, dormancy, production, conditioning, storage, certification and marketing.

Dual Listed PLNT 4470

Prerequisite: 8 hours of plant biology

PLNT5500 - Clinical Plant Pathology

Credits: 2

Designed to give students practical experience in disease diagnosis. Students are exposed to a variety of current techniques used in the diagnosis and control of plant problems caused by abiotic and biotic factors. Primary emphasis is on the identification of biotic agents, including fungi, bacteria, nematodes and viruses. Students will gain experience and insight in the practical aspects of plant pathology.

Prerequisite: PLNT 4000

PLNT5600 - Research in Crops

Credits: 1-4

Max Credit (Max. 10)

Investigation of research problems to include a written and oral presentation of results.

Prerequisite: Basic training in the field of research selected

PLNT5700 - Forage Crop Science

Credits: 3

The course focuses on major aspects of forage crop production and biology. Cultural practices, adaptation, sustainable agriculture and alternative use, seed production, harvest, livestock utilization and storage of forages. This course will have in-depth emphasis on characteristics of important grasses and legumes and utilization of forages for livestock production.

Dual Listed PLNT 4700

PLNT5720 - Plant Disease Problems

Credits: 1-3

Max Credit (Max. 10)

Biology, epidemiology, and control of specific crop, field and forage diseases.

Prerequisite: PLNT 3220

PLNT5790 - Topics:

Credits: 1-4

Max Credit (Max. 10)

Independent study

Dual Listed PLNT 4790

Prerequisite: graduate standing.

PLNT5820 - Graduate Seminar

Credits: 1

Max Credit (Max. 6)

Discussion in production, physiology, breeding and weed science.

Prerequisite: Basic training in plant sciences

PLNT5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: Graduate standing

PLNT5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: Advanced degree candidacy

PLNT5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: Advanced degree candidacy

PLNT5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: Enrollment in a graduate degree program

PLNT5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: Enrollment in a graduate degree program

Political Science

POLS1000 - American and Wyoming Government

Credits: 3
Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

When Offered (Offered each semester)

USP 2003-2014 Code U3V

USP 2015 Code U5V

POLS1100 - Wyoming Government

Credits: 1

Introduction to the Constitution and governmental process of Wyoming. Intended for students who have earned credit for American Government at an out-of-state college or by Advance Placement but have not fulfilled the Wyoming Constitution requirement of University Studies. Cannot be taken if the student has already taken POLS 1000.

USP 2003-2014 Code [(none)<>V]

POLS1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

POLS1111 - Issues in Political Science

Credits: 1-3

Max Credit (Max. 3)

Introduces students to Political Science through a study of a contemporary issue or problem from the perspectives of the various subfields.

USP 2003-2014 Code U3I, U3L

POLS1200 - Non-Western Political Cultures

Credits: 3

Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.

Cross Listed INST 1200.

USP 2003-2014 Code U3CS, U3G

A&S College Core 2015 ASG

POLS1250 - Introduction to Comparative Government

Credits: 3

How do foreign states deal with the numerous challenges to their stability? Do institutions affect a state's approach to solving different problems? How do these different approaches affect policy? This course introduces students to different styles of governance and compare countries from around the world with reference to their political ideology.

Cross Listed INST 1250.

A&S College Core 2015 ASG

POLS2000 - Current Issues in American Government

Credits: 3

Examines current political topics in the U. S. Focuses on key public policy problems, policy-making process and the final policy choice. Students must keep abreast of political events on daily basis and apply basic concepts in American government to current affairs.

USP 2003-2014 Code U3CS

Prerequisite: POLS 1000.

POLS2070 - Politics of State and Local Government

Credits: 3

Studies politics, organizations, structures and processes of American state and local governments.

Prerequisite: POLS 1000.

POLS2200 - Politics of Europe and the European Union

Credits: 3

Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2

Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

POLS2290 - Governments and Politics of Latin America

Credits: 3

Studies chief cultural and historical factors influencing Latin American political process. Surveys major institutions and political patterns of the region.

Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

POLS2310 - Introduction to International Relations

Credits: 3

Analyzes the nature of international relations, emphasizing various methods of explaining and interpreting the behavior of nation-states. In doing so, the course illustrates the contemporary problems of world politics.

Cross Listed INST 2310.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

POLS2330 - Environmental Ethics

Credits: 3

Introduces students to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed PHIL 2330.

POLS2410 - Introduction to Public Administration

Credits: 3

Deals with executive branches of governments in the U. S. : national, state and local. Considers organizational, political and policy-making aspects of each. Discusses administration in other forms of government, such as interstate compacts and regional agreements.

Prerequisite: POLS 1000.

POLS2420 - Women and Politics

Credits: 3

Describes and compares status and political activity of women in America with those of women and men in other societies in order to explore causes, methods and results of political involvement by women.

Cross Listed GWST 2420.

Prerequisite: POLS 1000.

POLS2430 - Parties, Interest Groups and Elections

Credits: 3

Studies nature and functions of political organizations in American democracy. Discusses origins and evolution of American parties, causes of interest group development, political socialization, political participation and voting behavior, as well as activities of interest groups within American society and political system. Emphasizes current trends regarding role of parties versus interest groups.

USP 2003-2014 Code U3CS

Prerequisite: POLS 1000.

POLS2450 - Politics and Media

Credits: 3

Examines the media's coverage of current events, governmental institutions and electoral campaigns. Discusses effect of media on individuals' opinions and behavior.

Prerequisite: POLS 1000.

POLS2460 - Introduction to Political Philosophy

Credits: 3

Surveys history of Western political thought including study of concepts and approaches to political philosophy.

When Offered (Offered once a year)

POLS2490 - Topics In:

Credits: 1-3

Max Credit (Max. 6)

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000.

POLS3050 - Athenian Democracy

Credits: 3

Examines democratic government in ancient Athens: its origins and development, its practical workings, how politics were conducted and power was gained and exercised, citizen participation, law courts, and evaluations of democracy in the ancient world and since.

Cross Listed CLAS 3050/HIST 3050.

Prerequisite: WB or COM2.

POLS3100 - Politics and the Judicial Process

Credits: 3

Analyzes courts and their personnel in the American political system, including examination of functions of courts, characteristics of judicial process, approaches to the study of judicial behavior, and role of courts as policy makers.

Former Course Number [2100]

Prerequisite: POLS 1000.

POLS3200 - Comparative Political Cultures

Credits: 3

Histories and experiences of various societies have shaped their values, norms, beliefs, expectations, and attitudes. This class explores how the beliefs, values, and lifestyles of various societies shape peoples' views of their place in the politics of the state and of the state's place in their daily lives.

Cross Listed POLS 3200.

Prerequisite: POLS 1200/INST 1200 or POLS 1250/ INST 1250 or permission of instructor.

POLS3220 - Government and Politics of Russia and FSU

Credits: 3

Examines the political, economic and identity transitions of Russia and other states of the former Soviet Union during the post-communist era. Explores how current challenges relate to past Soviet practices.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS3270 - Governments and Politics of the Middle East

Credits: 3

Acquaints students with basic political, social and economic institutions of Middle Eastern countries. Emphasizes post-World War I developments, contemporary issues and problems. Special attention is given to politics of major nations in the Middle East such as Turkey, Iran, Israel, Egypt, Saudi Arabia, Iraq and Syria.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS3300 - Model United Nations

Credits: 1-3

Max Credit (Max. 6)

Focuses on the United Nations (UN) system and multilateral diplomacy to prepare students to participate in a Model UN simulation. Students learn to evaluate the UN system, learn strategies to address international problems, and develop skills to effectively represent a country in a role-playing exercise.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS3520 - Voting and Participation in America

Credits: 3

Examines the ways citizens participate in government, including campaigning, donating money, and voting. Topics include mobilization by parties and campaigns, social and demographic differences in participation, explanations of voting behavior, civic responsibility, and the role of participation in a democracy.

Prerequisite: POLS 1000.

POLS3550 - Political Communication

Credits: 3

Examines the intersection of politics and communication. For example, may cover politics and media, interpersonal political discussion, organizational and governmental political communication, political campaigns, politics and technology, etc. Moreover, it may cover the effects of political communication on individuals' opinions and behavior.

Cross Listed COJO 3550.

Prerequisite: COMM 1000, COMM 1040, or POLS 1000.

POLS3600 - American Political Thought

Credits: 3

Examines key primary sources and traditions from the founding to present.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: POLS 1000 or permission of instructor.

POLS3610 - Classics in Environmental Thought

Credits: 3

Surveys classic texts in environmental thought from the nineteenth century through the present.

Prerequisite: POLS 1000.

POLS3620 - Environmental Justice

Credits: 3

Examines core philosophical understandings of justice and applies them to the environment through a variety of case studies, analytical essays and monographs.

Cross Listed ENR 3620.

Prerequisite: POLS 1000, POLS 2460, or POLS 3600, or permission of instructor.

POLS3680 - Introduction to Empirical Political Analysis

Credits: 3

Introduces students to concepts, approaches and methodologies for empirical analysis of political problems. Students gain practical experience in communicating and presenting statistical analysis of political data generated through surveys and other research techniques.

USP 2015 Code U5C2

Former Course Number [2020]

Prerequisite: POLS 1000 and STAT 2050 or STAT 2070, or permission of instructor.

POLS4013 - Political Geography

Credits: 3

Geographic space is subdivided into political units to aid human interaction and to facilitate political processes. Examines the spatial organization of political space and its effects upon political processes at varying geographic scales ranging from the local to international.

Cross Listed GEOG 4013.

Dual Listed POLS 5013.

Prerequisite: Completion of USP H requirement.

POLS4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.

Dual Listed POLS 5051.

USP 2003-2014 Code U3WC

Former Course Number [4050]

Prerequisite: POLS 1000.

POLS4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ ENR 4052/GEOG 4052/REWM 4052.

Prerequisite: POLS 1000.

POLS4090 - Anglo-American Jurisprudence

Credits: 3

Considers topics, such as functions of law in a democratic society; historical origins and growth of the common law as contrasted to the civil (code) law systems; and principal theories of nature and functions of law which have influenced development of English and American legal institutions.

Dual Listed POLS 5090.

Prerequisite: 9 hours of political science or philosophy, including POLS 1000.

POLS4100 - Constitutional Law: Institutional Powers

Credits: 3

Encompasses case-study analysis of judicial decisions and policies affecting constitutional interrelationships among the three branches of federal government, federal-state relations, as well as powers of the states and federal government in the area of social and economic regulatory laws.

Dual Listed POLS 5100.

Prerequisite: POLS 1000.

POLS4110 - Constitutional Law: Civil Liberties and Rights

Credits: 3

Encompasses case-study analysis of judicial decisions and policies of the constitutional interpretation of the 1st Amendment (freedom of speech, press, association and religion), privacy rights, the rights of the criminally accused, and civil rights (racial and gender equality).

Cross Listed CRMJ 4110.

Dual Listed POLS 5110.

Prerequisite: POLS 1000, POLS 3100 recommended.

POLS4160 - Legal Philosophy

Credits: 3

This course examines the philosophies that undergird the law, considering both ancient and modern legal thought. Throughout the course, both historical and contemporary examples will be used to illustrate the salient differences between philosophical approaches, to better articulate our understanding of the law.

Dual Listed POLS 5160.

Prerequisite: POLS 1000.

POLS4215 - European Union

Credits: 3

Examines the European Union's history, institutional structures, and policy areas and explores the positive and negative effects of European integration.

Cross Listed INST 4215.

Dual Listed POLS 5215.

Former Course Number [4220]

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

POLS4230 - Governments and Politics of Asia

Credits: 3

Studies political systems of East Asia. Analyzes impact of social and economic factors upon political institutions.

Dual Listed POLS 5230.

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

POLS4255 - Politics of Developing Nations

Credits: 3

An analysis of the processes of political, economic and social change in the non-Western world.

Cross Listed INST 4255.

Dual Listed POLS 5255.

Prerequisite: 9 hours of political science or international studies, including POLS 1200/INST 1200 or POLS 1250/INST 1250 or POLS 2310/INST 2310, or permission of instructor.

POLS4260 - Democratization and Regime Change

Credits: 3

Examines the theoretical/empirical research on causes of democratic transition and consolidation, including new waves of democratization and prospects for democratization in other contexts. Focus is given to a variety of theoretical/methodological perspectives such as the structural, strategic, social/cultural, institutional, and economic approaches.

Cross Listed INST 4260.

Dual Listed POLS 5260.

Prerequisite: 9 hours of political science or international studies, including POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

POLS4290 - Inter-American Relations

Credits: 3

Surveys inter-American system and idea of hemispheric unity. Analyzes major issues confronting inter-American community.

Cross Listed INST 4290.

Dual Listed POLS 5290.

Prerequisite: 9 hours of political science, including POLS 1200/ INST 1200, or POLS 1250/INST 1250, or POLS 2310/ INST 2310, or permission of instructor.

POLS4330 - American Foreign Relations

Credits: 3

Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

Cross Listed INST 4330.

Dual Listed POLS 5330.

Prerequisite: 9 hours of political science or international studies including POLS 2310.

POLS4340 - International Organizations

Credits: 3

Encompasses development of world organizations, such as League of Nations, United Nations and its affiliate bodies. Also studies regional organizations and private international bodies.

Cross Listed INST 4340.

Dual Listed POLS 5340.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4350 - Sustainable Development and Global Policy

Credits: 3

Considers in-depth meaning of "sustainable development" and trade-offs necessary to achieve it. Considers this issue from global perspective through application of theories in economics, political science, international relations, technology studies and ethics.

Dual Listed POLS 5350.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4360 - International Peace and Conflict

Credits: 3

Why do nations go to war, engage in atrocities such as genocide, or move toward peace following conflict? Examines underlying processes behind both conflict and peace in the international system, including sources of conflict and ways conflicts might be moved toward sustainable peace.

Cross Listed INST 4360.

Dual Listed POLS 5360.

Prerequisite: 9 hours of political science or international studies including POLS 2310.

POLS4375 - Transitional Justice

Credits: 3

Mechanisms provide accountability for gross human rights violations and acts of mass atrocity within nations. Case studies are used to examine types of transitional justice interventions; tensions between demands of justice at local, national, and international levels; and transitional justice's role in post-conflict peace-building and reconciliation.

Cross Listed INST 4375.

Dual Listed POLS 5375.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4385 - Environment and Resource Conflict

Credits: 3

Drawing on key theory and contemporary real-world case studies this course explores how environmental change and the competition for scarce resources (such as food, water, oil, gems, and timber) have increasingly been linked to violent interstate and intrastate conflict and how such conflicts might be addressed, managed, or resolved through international and national action.

Cross Listed INST 4385.

Dual Listed POLS 5385.

Prerequisite: 9 hours of POLS or INST, including POLS 2310/INST 2310.

POLS4420 - Seminar in Public Administration

Credits: 3
Max Credit (Max. 6)

Includes reading and research in selected public administration topics.

Dual Listed POLS 5420.

Prerequisite: POLS 1000 and consent of instructor.

POLS4430 - United States Presidency

Credits: 3

Analyzes office of president, its roles, development, relationships with other governmental agencies and problems in the contemporary world.

Dual Listed POLS 5430.

Prerequisite: POLS 1000.

POLS4435 - Presidential Elections

Credits: 3

Examines the process of electing the U. S. president. Topics include the roles of presidential primaries, caucuses, and conventions; campaign strategies; media coverage; citizen participation; the electoral college; and reforms.

Dual Listed POLS 5435.

Prerequisite: POLS 1000.

POLS4445 - Drug War Geopolitics in the Americas

Credits: 3

This course examines illegal drug commodity chains and international efforts to police the drug trade in the Americas. It approaches the drug war through a "critical geopolitics" framework, also covering broader themes such as international politics, livelihoods, development, environmental justice, the global economy, race-based discrimination, public health, and resistance movements.

Cross Listed INST 4445.

Dual Listed POLS 5445.

Prerequisite: 9 hours of international studies or social science coursework and junior standing.

POLS4455 - Energy Security

Credits: 3

Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed INST 4455.

Dual Listed POLS 5455.

Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

POLS4465 - Survey of the Nonprofit Sector

Credits: 3

This foundational course is designed to give students of diverse backgrounds a common framework for understanding the nonprofit sector in the United States and globally. Students in this course will identify and interpret key theories, issues, and challenges in the nonprofit world and will consider the implications for practice.

Dual Listed POLS 5465.

Prerequisite: COM2.

POLS4475 - Politics of Natural Resources in Latin America

Credits: 3

This course examines major trends in resource extraction, management, and conservation in Latin America, and the politics surrounding those trends, from theoretical, social, political, economic, and ecological perspectives and through a variety of grounded case studies. The theories and concepts we study are applicable to resource politics beyond Latin America.

Cross Listed INST 4475.

Dual Listed POLS 5475.

Prerequisite: 9 hours of international studies or social science coursework and junior standing.

POLS4520 - Public Opinion

Credits: 3

Deals with natures of a public in democracy and means of forming and manipulating public opinion. Emphasizes role of public opinion as essential ingredient of the policy-making process in popular government.

Dual Listed POLS 5520.

Prerequisite: POLS 1000.

POLS4530 - U.S. Congress

Credits: 3

Analyzes aspects of the U. S. Congress, including election of congressmen, legislative process, congressional-presidential relations, and the influence of political parties, interest groups, and constituents on the legislative process.

Dual Listed POLS 5530.

Prerequisite: POLS 1000.

POLS4550 - Internship in Government

Credits: 1-6

Integrates practical political experience with academic knowledge. Students are expected to participate in specifically

assigned duties and observe broader activities of the sponsoring organization; then, reflect upon this participation and observation in the form of written assignments. Internship credit can be earned for work in political campaigns, Wyoming Legislature or government services.

Prerequisite: 9 hours of political science.

POLS4555 - Political Ecology

Credits: 3

Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

Cross Listed INST/GEOG 4555 & POLS 5555

Dual Listed INST/GEOG 4555 & POLS 5555

Prerequisite: 9 hours of international studies or social science coursework.

POLS4560 - Washington Semester Program

Credits: 15

Provides students with paid internships in Washington, D. C. , in either congressional offices or federal agencies. Selection into the program is very competitive and is made the semester prior to service.

Prerequisite: POLS 1000 and 6 additional hours of political science courses.

POLS4600 - Political Violence

Credits: 3

Examines causes and consequences of violence both among individuals and among nations.

Cross Listed CRMJ 4600.

Dual Listed POLS 5600.

When Offered (Normally offered every other year)

Prerequisite: POLS 1000, or SOC 1000, or POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

POLS4630 - Gender & Politics

Credits: 3

Max Credit 3

Using theoretical perspectives of pluralism, elitism, and intersectionality, this course examines how sex and gender operate in U.S. political processes, including elections, parties, interest groups, and social movements. Specific focus will be on women in politics and analyses of power dynamics in shaping marginalized identities: sex/gender, race and ethnicity, sexual orientation, class, and ability.

Cross Listed POLS 4630

Prerequisite: GWST/ENGL 1080 , GWST 2000 , or POLS 1000 ; at least 9 combined credit hours in POLS or GWST; and junior standing.

POLS4640 - Political Philosophy: Ancient and Medieval

Credits: 3

Surveys political philosophy from Classical Greek period to Machiavelli.

Dual Listed POLS 5640.

Prerequisite: POLS 2460, or POLS 3600, or consent of the instructor.

POLS4650 - Political Philosophy: Modern

Credits: 3

Surveys political philosophy from Machiavelli through the 19th century.

Dual Listed POLS 5650.

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

POLS4660 - Political Philosophy: Contemporary

Credits: 3

Examines central developments in political philosophy that guide action in today's world.

Dual Listed POLS 5660.

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

POLS4685 - Program Evaluation and Policy Analysis

Credits: 3

Explores techniques for analyzing and evaluating public policy choices and impacts.

Dual Listed POLS 5685.

Prerequisite: STAT 2050, STAT 2070 or equivalent and an introductory research methods course in a social science or related discipline.

POLS4700 - Readings in Political Science

Credits: 1-3

Outlines special programs of readings in government and politics to meet needs of individual students.

Prerequisite: 9 hours of political science.

POLS4705 - Terrorism

Credits: 3

Examines the concept, causes, incidence, types, consequences of, and responses to terrorism. Highlights the distinction between domestic and international terrorism and expands on the latter within the framework of the global environment.

Cross Listed CRMJ 4705, INST 4705, and SOC 4705.

Prerequisite: 9 hours in CRMJ, INST, POLS, or SOC coursework.

POLS4710 - Topics in

Credits: 1-3

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000 and 3 additional hours of political science.

POLS4720 - Workshop in Practical Politics

Credits: 1-3

Familiarizes or strengthens participants in techniques of political effectiveness. Includes political organization, campaigning and persuasion. Guest speakers include public officials and experts in the field of practical politics.

Prerequisite: 9 hours of political science.

POLS4810 - Seminar in Political Philosophy

Credits: 3

Max Credit (Max. 6)

Seminar in Political Philosophy; Encompasses reading and research on selected problems in political philosophy.

Dual Listed POLS 5810.

USP 2015 Code U5C3

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

POLS4840 - Seminar in Public Law

Credits: 3

Max Credit (Max. 6)

Includes reading and research on selected problems in public law.

Dual Listed POLS 5840.

USP 2015 Code U5C3

Prerequisite: 9 hours of political science or related fields including POLS 1000 and consent of instructor.

POLS4850 - Seminar in American Politics and Institutions

Credits: 3
Max Credit (Max. 6)

Includes reading and research on selected U. S. government and politics problems.

Dual Listed POLS 5850.
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: 9 hours of political science including POLS 1000 and consent of instructor.

POLS4870 - Seminar in International Relations

Credits: 3
Max Credit (Max. 6)

Encompasses reading and research in international law and politics.

Dual Listed POLS 5870.
USP 2015 Code U5C3
Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4890 - Seminar in Comparative Government and Politics

Credits: 3
Max Credit (Max. 6)

Researches selected topics in comparative government and politics.

Dual Listed POLS 5890.
USP 2003-2014 Code U3G, U3WC
USP 2015 Code U5C3
Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS5000 - Survey of Public Administration

Credits: 3
Designed to introduce the beginning graduate student to the study and practice of public administration at all levels of government. Attention is also directed to specific functions and processes such as intergovernmental relations, budgeting, personnel, and regulation.

Prerequisite: graduate status and consent of instructor.

POLS5013 - Political Geography

Credits: 3
Geographic space is subdivided into political units to aid human interaction and to facilitate political processes. Examines the spatial organization of political space and its effects upon political processes at varying geographic scales ranging from the local to international.

Cross Listed GEOG 5013.

Dual Listed Dual list with POLS 4013.

Prerequisite: graduate standing

POLS5051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051/ ENR 4051/GEOG 4051/REWM 4051.

Dual Listed POLS 4051.

Prerequisite: POLS 1000.

POLS5060 - American Intergovernmental Relations

Credits: 3

Theory and practice of American federalism.

Prerequisite: POLS 5000.

POLS5080 - Organizational Development

Credits: 3

Exposed to psychological concepts as they apply to organizations. Topics include organizational culture, motivations affecting a person's behavior in the workplace, personal interactions within organizations, and resolution of personal conflicts within the workplace.

Prerequisite: POLS 5000.

POLS5090 - Anglo-American Jurisprudence

Credits: 3

Considers topics, such as functions of law in a democratic society; historical origins and growth of the common law as contrasted to the civil (code) law systems; and principal theories of nature and functions of law which have influenced development of English and American legal institutions.

Dual Listed POLS 4090.

Prerequisite: POLS 1000.

POLS5100 - Constitutional Law: Institutional Powers

Credits: 3

Encompasses case-study analysis of judicial decisions and policies affecting constitutional interrelationships among the three branches of federal government, federal-state relations, as well as powers of the states and federal government in the area of social and economic regulatory laws.

Dual Listed POLS 4100.

Prerequisite: POLS 1000.

POLS5110 - Constitutional Law: Civil Liberties and Civil Rights

Credits: 3

Encompasses case-study analysis of judicial decisions and policies of the constitutional interpretation of the 1st Amendment (freedom of speech, press, association and religion), privacy rights, the rights of the criminally accused, and civil rights (racial and gender equality).

Dual Listed POLS 4110.

Prerequisite: POLS 1000, POLS 3100 recommended.

POLS5160 - Legal Philosophy

Credits: 3

This course examines the philosophies that undergird the law, considering both ancient and modern legal thought. Throughout the course, both historical and contemporary examples will be used to illustrate the salient differences between philosophical approaches, to better articulate our understanding of the law.

Dual Listed POLS 4160.

Prerequisite: graduate standing.

POLS5210 - Seminar in Human Security

Credits: 3-6

Max Credit (Max. 6)

A broad interdisciplinary approach to the study of human security within the field of international studies and global politics in order to explore the theories and processes that explain past and emerging patterns of behavior in the international system, as well as key aspects of local to global policymaking.

Dual Listed INST 5210.

POLS5215 - European Union

Credits: 3

Examines the European Union's history, institutional structures, and policy areas and explores the positive and negative effects of European integration.

Cross Listed INST 5215.

Dual Listed POLS 4215.

Former Course Number [5220]

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS5230 - Governments and Politics Of Asia

Credits: 3

Studies political systems of East Asia. Analyzes impact of social and economic factors upon political institutions.

Dual Listed POLS 4230.

Prerequisite: POLS 1000. POLS 3100 recommended.

POLS5255 - Politics of Developing Nations

Credits: 3

An analysis of the processes of political, economic and social change in the non-Western world.

Cross Listed INST 5255.

Dual Listed POLS 4255.

Prerequisite: 9 hours of political science or international studies, including POLS 1200/INST 1200 or POLS 1250/INST 1250 or POLS 2310/INST 2310, or permission of instructor.

POLS5260 - Democratization and Regime Change

Credits: 3

Examines the theoretical/empirical research on causes of democratic transition and consolidation, including new waves of democratization and prospects for democratization in other contexts. Focus is given to a variety of theoretical/methodological perspectives such as the structural, strategic, social/cultural, institutional, and economic approaches.

Cross Listed INST 5260.

Dual Listed POLS 4260.

Prerequisite: 9 hours of political science or international studies, including POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

POLS5290 - Inter-American Relations

Credits: 3

Surveys inter-American system and idea of hemispheric unity. Analyzes major issues confronting inter-American community.

Dual Listed POLS 4290.

Prerequisite: 9 hours of political science, including POLS 1200 /INST 1200, or POLS 1250/INST 1250, or POLS 2310/INST 2310, or permission of instructor.

POLS5330 - American Foreign Relations

Credits: 3

Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors along with analysis of policy options.

Cross Listed INST 5330.

Dual Listed POLS 4330.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS5340 - International Organizations

Credits: 3

Encompasses development of world organizations such as League of Nations, United Nations and its affiliate bodies. Also studies regional organizations and private international bodies.

Dual Listed POLS 4340.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS5350 - Sustainable Development and Global Policy

Credits: 3

Considers in-depth meaning of "sustainable development" and trade-offs necessary to achieve it. Considers this issue from global perspective through application of theories in economics, political science, international relations, technology studies and ethics.

Dual Listed POLS 4350.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS5360 - International Peace and Conflict

Credits: 3

Why do nations go to war, engage in atrocities such as genocide, or move toward peace following conflict? Examines underlying processes behind both conflict and peace in the international system, including sources of conflict and ways conflicts might be moved toward sustainable peace.

Cross Listed INST 5360.

Dual Listed POLS 4360.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS5375 - Transitional Justice

Credits: 3

Mechanisms provide accountability for gross human rights violations and acts of mass atrocity within nations. Case studies are used to examine types of transitional justice interventions; tensions between demands of justice at local, national, and international levels; and transitional justice's role in post-conflict peace-building and reconciliation.

Cross Listed INST 5375.

Dual Listed POLS 4375.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS5385 - Environment and Resource Conflict

Credits: 3

Drawing on key theory and contemporary real-world case studies this course explores how environmental change and the competition for scarce resources (such as food, water, oil, gems, and timber) have increasingly been linked to violent interstate and intrastate conflict and how such conflicts might be addressed, managed, or resolved through international and national action.

Cross Listed INST 5385.

Dual Listed POLS 4385.

Prerequisite: 9 hours of POLS or INST, including POLS 2310/INST 2310.

POLS5400 - Public Personnel Management

Credits: 3

Designed to integrate information about the political environment of personnel administration with problem solving exercises in such specific areas as job analysis, affirmative action, and flextime. A number of topics including the evolution of the civil service, the rights and responsibilities of governmental employees, the functions of public personnel management, and collective bargaining processes are also covered.

Prerequisite: POLS 5000.

POLS5410 - Administrative Behavior and Theory of Organization

Credits: 3

An advanced course in the theory of organization and the workings of public agencies.

Prerequisite: POLS 5000.

POLS5420 - Seminar In Public Administration

Credits: 3

Max Credit (Max. 6)

A reading and research course in selected topics in public administration.

Dual Listed POLS 4420.

Prerequisite: POLS 1000 and consent of instructor.

POLS5430 - United States Presidency

Credits: 3

Analyzes the office of the president, its roles, development, relationships with other governmental agencies, and problems in the contemporary world.

Dual Listed POLS 4430.

Prerequisite: POLS 1000.

POLS5435 - Presidential Elections

Credits: 3

Examines the process of electing the U. S. president. Topics include the roles of presidential primaries, caucuses, and conventions; campaign strategies; media coverage; citizen participation; the electoral college; and reforms.

Dual Listed POLS 4435.

Prerequisite: POLS 1000.

POLS5440 - Principles and Processes of Government Budgeting

Credits: 3

Analyzes the principles, processes and politics of the budgetary process in the U. S. It examines the various theories of budgetary decision-making, the politics of budgeting and budgetary reforms.

Prerequisite: POLS 5000 and graduate standing.

POLS5445 - Drug War Geopolitics in the Americas

Credits: 3

This course examines illegal drug commodity chains and international efforts to police the drug trade in the Americas. It approaches the drug war through a "critical geopolitics" framework, also covering broader themes such as international politics, livelihoods, development, environmental justice, the global economy, race-based discrimination, public health, and resistance movements.

Cross Listed INST 5445.

Dual Listed POLS 4445.

Prerequisite: 9 hours of international studies or social science coursework

POLS5450 - Administrative Regulation

Credits: 3

Significant points of contact between government and business are stressed. Government activities designed to regulate and aid such economic interests as business, labor, agriculture, and consumers are dealt with at length.

Prerequisite: POLS 5000.

POLS5455 - Energy Security

Credits: 3

Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism,

climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed INST 5455.

Dual Listed POLS 4455.

Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

POLS5460 - Public Administration and Law

Credits: 3

Focuses on various facets of the relationship between American public administration and law. Emphasis is placed on the emerging body of administrative law as a context for jurisprudential reasoning in administrative decision making.

Prerequisite: POLS 5000.

POLS5465 - Survey of the Nonprofit Sector

Credits: 3

This foundational course is designed to give students of diverse backgrounds a common framework for understanding the nonprofit sector in the United States and globally. Students in this course will identify and interpret key theories, issues, and challenges in the nonprofit world and will consider the implications for practice.

Dual Listed POLS 4465.

Prerequisite: graduate standing.

POLS5475 - Politics of Natural Resources in Latin America

Credits: 3

This course examines major trends in resource extraction, management, and conservation in Latin America, and the politics surrounding those trends, from theoretical, social, political, economic, and ecological perspectives and through a variety of grounded case studies. The theories and concepts we study are applicable to resource politics beyond Latin America.

Cross Listed INST 5475.

Dual Listed POLS 4475.

Prerequisite: graduate standing.

POLS5480 - Ethics In Government

Credits: 3

The student is introduced to the ethical nature and dilemmas of public administration in American constitutional government. Such topics are addressed as source of ethical obligation, role of loyalty, application of moral philosophy, constitutional theory and ethical obligation, relation of theory and practice, and methods of ethical reflection.

Prerequisite: POLS 5000.

POLS5500 - Internship in Public Administration

Credits: 1-6
Max Credit (Max. 6)

Educationally-oriented assignments for work in selected public agencies, with tutorial types of supervision.

Prerequisite: consent of instructor.

POLS5510 - Public Policy and Program Management

Credits: 3
An overview of governmental policy making processes in the U. S and the uses of applied policy analysis.

Prerequisite: POLS 5000.

POLS5520 - Public Opinion

Credits: 3
Deals with natures of a public in a democracy and means of forming and manipulating public opinion. Emphasizes the role of public opinion as an essential ingredient of the policy-making process in popular government.

Dual Listed POLS 4520.
Prerequisite: POLS 1000.

POLS5530 - USCongress

Credits: 3
Analyze aspects of the U. S. Congress, including election of congressmen, legislative process, congressional-presidential relations, and the influence of political parties, interest groups, and constituents on the legislative process.

Dual Listed POLS 4430
Prerequisite: POLS 1000.

POLS5540 - Public Policy Perspectives

Credits: 3
Acquaints students with the underlying structure and dynamics of public policy formulation, implementation, and evaluation at the state, local, and federal levels. Drawing on a number of analytic approaches, the course seeks to understand this complex political phenomenon in the context of the institutions that drive it.

Prerequisite: graduate standing.

POLS5555 - Political Ecology

Credits: 3
Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help

us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

Cross Listed INST 5555 & INST/POLS/GEOG 4555

Prerequisite: 9 hours of international studies or social science coursework.

POLS5560 - Public Administration in Literature and Film

Credits: 3

Examines the ways novelists and directors have viewed public administration, the accuracy of portrayals, how views have changed, how novelists and directors have helped create and disparage the rise of the administrative state, and types of administrative arrangements favored.

Prerequisite: POLS 5000.

POLS5570 - Graduate Readings

Credits: 1-3

Max Credit (Max. 9)

Special programs of readings of government and politics will be outlined to meet needs of individual students.

Prerequisite: graduate standing or consent of instructor.

POLS5600 - Political Violence

Credits: 3

Examines causes and consequences of violence both among individuals and among nations.

Dual Listed POLS 4600.

Prerequisite: POLS 1000, or SOC 1000, or POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

POLS5640 - Political Philosophy: Ancient and Medieval

Credits: 3

Surveys political philosophy from Classical Greek period to Machiavelli.

Dual Listed POLS 4640.

Prerequisite: POLS 2460, or POLS 3600, or consent of the instructor.

POLS5650 - Political Philosophy: Modern

Credits: 3

Surveys political philosophy from Machiavelli through the 19th century.

Dual Listed POLS 4650.

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

POLS5660 - Political Philosophy: Contemporary

Credits: 3

Examines central developments in political philosophy that guide action in today's world.

Dual Listed POLS 4660.

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

POLS5680 - Research Methods for Political Science

Credits: 3

Introduction to methodology of empirical analysis appropriate for political science and public policy, including introduction to the philosophy of science, research designs, hypothesis formation, measurement, and data collection.

Prerequisite: STAT 2050, STAT 2070, STAT 5070 or equivalent.

POLS5681 - Methods of Political Analysis

Credits: 3

Introduction to methods of analysis focusing on understanding the strengths and weaknesses of each method and practical issues arising during the analysis stage of research. Covers quantitative analysis through multiple regression, case study analysis, and archival/ historical analysis.

Prerequisite: STAT 2050, STAT 2070, STAT 5070 or equivalent.

POLS5684 - Empirical Analysis for Public Administration

Credits: 3

Designed for students in public administration to train them to make decisions based on empirical evidence in policy and management. Course draws concepts from system analysis, management science, operations research, and social science methodology to provide an understanding of various policy analysis and program management techniques across many applications.

Prerequisite: POLS 5000.

POLS5685 - Program Evaluation and Policy Analysis

Credits: 3

Explores techniques for analyzing and evaluating public policy choices and impacts.

Dual Listed POLS 4685.

Prerequisite: STAT 5070 or equivalent and an introductory research methods course in social science or related discipline.

POLS5690 - Capstone in Public Management

Credits: 3

Integrates theories and concepts introduced in core and option-core courses, and emphasizes students' application of them to various administrative settings.

Prerequisite: completion of all other core and option core requirements in the MPA Program.

POLS5710 - Topics In Political Science

Credits: 1-3

Max Credit (Max. 9)

Intended to accommodate various specialized subjects not offered as regular courses.

Prerequisite: graduate standing.

POLS5810 - Seminar in Political Philosophy

Credits: 3

Encompasses reading and research on selected problems in political philosophy.

Dual Listed POLS 4810.

USP 2015 Code U5C3

Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

POLS5840 - Seminar in Public Law

Credits: 3

Max Credit (Max. 6)

Includes reading and research on selected problems in public law.

Dual Listed POLS 4840.

POLS5850 - Seminar in American Politics and Institutions

Credits: 3

Includes reading and research on selected U. S. government and politics problems.

Dual Listed POLS 4850.

Prerequisite: 9 hours of political science including POLS 1000 and consent of instructor.

POLS5870 - Seminar in International Relations

Credits: 3

Encompasses reading and research in international law and politics.

Dual Listed POLS 4870.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS5890 - Seminar in Comparative Government and Politics

Credits: 3

Researches selected topics in comparative government and politics.

Dual Listed POLS 4890.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Students are expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

POLS5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

POLS5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

POLS5959 - Enrichment Studies

Credits: 1-3

Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

POLS5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Graduate level course designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

POLS5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Professional Sales

SELL3310 - Professional and Technical Selling

Credits: 3

This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused opportunities within their field.

USP 2015 Code U5C2

Prerequisite: COM1 and sophomore class standing.

SELL4310 - Advanced Selling

Credits: 3

This course provides students in-depth study of advanced sales concepts including relationship management, problem solving, negotiation, and proposal writing. It also explores the use of data-based decision making and the use of selling technologies. Students will learn how to use data to sell to both resellers and manufacturers.

Prerequisite: SELL 3310 and junior class standing.

SELL4320 - Sales Force Strategies

Credits: 3

This class will examine the linkages among management of the sales function, personal selling activities, and the marketing area. Students will gain an understanding of the role of the sales force in achieving of the firm's marketing, customer relationship, and revenue objectives.

Prerequisite: SELL 3310 and junior class standing.

SELL4330 - Sales Seminar

Credits: 3

This course provides students in-depth study of advanced, and cutting edge sales and sales management concepts presenting by top talent in industry. While topic can vary, this seminar teams students with industry experts to explore state-of-the-art thinking in technical sales, sales management, sales training, compensation, and team selling.

Prerequisite: SELL 3310 and junior class standing.

SELL4900 - Independent Study in Professional Selling

Credits: 1-4

Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Professional Selling not included in other structured Professional Selling courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

SELL4910 - Topics in Professional Selling

Credits: 3

Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

Professional Studies

PRST5070 - Introduction to College Teaching

Credits: 3

This course is designed to provide students with an understanding of instructional theory and experiences in applying teaching and assessment methods relevant to the role of an educator in higher education. Linking theories, perspectives, and principles of effective teaching and learning to practice in higher education is a priority of the course. Practicing and experiencing "hands-on" activities will be prime formats of the class.

Prerequisite: graduate standing.

PRST5610 - Introduction to Doctoral Studies

Credits: 3

Introduce incoming doctoral students to the fundamentals of doctoral study for the Ph. D. degree. Includes developing

an understanding of higher education, the organization and purposes of doctoral programs, and the exploration of the roles of teaching, research, and service at the university.

Prerequisite: Admission to the program.

PRST5880 - Special Problems

Credits: 1-9

Provides a broad perspective through selected reading material. Wherever possible the student collects and used original information from a practical work situation. All work is done independently under the direction of a faculty member. A minimum of three conferences are held as necessary to assure successful completion of the project.

Prerequisite: consent of instructor and school director, and graduate standing.

PRST5890 - Directed Professional Study

Credits: 1-9

Similar to PRST 5880. Provides additional opportunity for students to pursue advanced graduate work through independent research. Projects are done under the direction of a graduate faculty member.

Prerequisite: graduate standing.

PRST5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 9)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

PRST5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 99)

Prerequisite: advanced degree candidacy.

PRST5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 99)

Prerequisite: advanced degree candidacy

PRST5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 99)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrolled in a graduate degree program.

PRST5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 99)

Graduate level course designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrolled in a graduate level degree program.

PRST5990 - Internship

Credits: 1-12
Max Credit (Max. 99)

Prerequisite: graduate standing.

Psychology

PSYC1000 - General Psychology

Credits: 3

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

PSYC1101 - First-Year Seminar

Credits: 3

Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

USP 2015 Code U5FY

Prerequisite: 9 hours of international studies or social science coursework.

PSYC2000 - Research Psychological Methods

Credits: 4

Introduces some of the methods of investigating psychological questions. Exposure to various research strategies ranging from observational to experimental, using representative laboratory exercises, lectures, readings, films and demonstrations. Requires written and oral reports. May be used to satisfy department's written and oral communication requirement for majors. Laboratory two hours per week.

USP 2003-2014 Code U3WB

Prerequisite: A grade of C or better in PSYC 1000, WA or COM1, STAT 2050 or STAT 2070.

PSYC2080 - Biological Psychology

Credits: 3

Introduces biological bases of behavior. Includes ethology and comparative behavior, psychobiological development, physiological and sensory mechanisms of behavior, and evolution and behavioral genetics. Presents basic structural and functional properties of the nervous system.

When Offered (Normally offered fall semester)

Prerequisite: A grade of C or better in PSYC 1000 and general biology.

PSYC2210 - Drugs and Behavior

Credits: 3

Surveys drugs which affect behavior, emphasizing both psychotherapeutic agents and drugs with abuse potential. Includes brief introduction to the chemistry of the brain and how drugs may have their effects. Behavioral, social, historical and medical aspects of each major class of psychoactive drugs are discussed.

Prerequisite: A grade of C or better in PSYC 1000.

PSYC2300 - Developmental Psychology

Credits: 3

Introduces psychological development, including age-related changes in thinking, emotion, and behavior. Major theories, methodologies, and empirical discoveries are surveyed in an exploration of developments beginning with conception, with emphasis on social, affective, and cognitive developments in childhood and infancy and their implications for policy and practice.

When Offered (Normally offered spring semester)

Prerequisite: A grade of C or better in PSYC 1000.

PSYC2340 - Abnormal Psychology

Credits: 3

Provides a general overview of abnormal behavior, emphasizing types, etiology and treatment methods.

When Offered (Normally offered spring semester)
Former Course Number [4340]

Prerequisite: A grade of C or better in PSYC 1000.

PSYC2380 - Social Psychology

Credits: 3

Examines how peoples' thoughts, feelings, and behaviors are influenced by the presence of others. Course will cover a broad range of theories and research in social psychology.

When Offered (Normally offered fall semester)
Former Course Number [4755]

Prerequisite: A grade of C or better in PSYC 1000.

PSYC3120 - Cognitive Psychology

Credits: 3

Deals with higher mental processes that are primarily unique to human beings from theoretical and research orientations. Emphasizes interrelationships between various cognitive processes and continuity of those processes with perceptual and non-cognitive activities. Discusses how information is processed and remembered.

When Offered (Normally offered spring semester)
Former Course Number [4120]

Prerequisite: A grade of C or better in 6 hours of psychology including PSYC 1000.

PSYC3150 - Moral Development

Credits: 3

Students explore the vast psychological literature on moral development in affect, cognition and behavior from infancy to adulthood. Topics covered include major developmental theories, research methodologies, current scientific knowledge and its relationship to issues of cultural diversity, social policy and education.

Prerequisite: A grade of C or better in PSYC 1000, junior/ senior standing or consent of the instructor.

PSYC3250 - Health Psychology

Credits: 3

Provides overview of growing partnership between psychology and health care, including history of psychology in health care; theoretical foundations of health and illness; intervention and research techniques; stress and high risk behaviors (e. g. , substance abuse, eating behaviors, AIDS); psychology's contribution to improving outcomes and quality of life in chronic and life-threatening behaviors.

Cross Listed NURS 3250.

Prerequisite: A grade of C or better in PSYC 1000.

PSYC3300 - Psychology of Gender

Credits: 3

In this course, we will examine a variety of psychological theories and research on the experiences and behaviors of men and women. We will study attitudes about gender, theories of gender development, and research about similarities and differences between men and women.

Cross Listed GWST 3300.

Prerequisite: A grade of C or better in PSYC 1000.

PSYC3400 - Community Resources for Older Adults

Credits: 3

The purpose of this course is to raise student awareness of the needs of older adults in the community and to evaluate the continuum of long-term care resources available, service gaps, program models, and funding mechanisms. Community-based learning is required.

Prerequisite: FCSC 2110 or PSYC 1000

PSYC4040 - Cognitive Neuroscience

Credits: 4

Examines the underlying neural bases of higher cognitive functions in humans, including attentions, language, motor control, navigation, emotions, and memory, as well as neuroanatomy fundamentals and neuroscience methods such as fMRI and ERP. Lecture and lab components.

Prerequisite: A grade of C or better in PSYC 2080 or PSYC 3120 or ZOO 4280.

PSYC4070 - Motivation

Credits: 3

Covers classic and contemporary theories and research concerning motivation and the pursuit of goals. Discusses the study of motivation from a variety of perspectives, including biological, environmental, and psychological. Considers the role of emotion in motivational processes.

Prerequisite: C or better in 6 hours in psychology.

PSYC4080 - Physiological Psychology

Credits: 4

Examines physiological mechanisms of behavior, strongly emphasizing neural and hormonal processes. Includes fundamentals of neuroanatomy and evolution of the nervous system, basic neurophysiology, sensory and motor processes, as well as the physiology of emotion, motivation, learning and memory. Lecture three hours per week. Laboratory two hours per week.

USP 2003-2014 Code U3SB

Prerequisite: A grade of C or better in 6 hours of psychology and LIFE 1000, LIFE 1003, or LIFE 1010 or an introductory zoology course.

PSYC4150 - Cognitive Development

Credits: 3

Examines cognitive development from infancy through adolescence. Explores, through lecture, discussion and projects, major theories and current empirical research on cognitive development, as well as implications for social and educational policies concerning children.

Prerequisite: A grade of C or better in 9 hours of psychology, including child psychology course.

PSYC4200 - Sensation and Perception

Credits: 3

Examines behavioral and physiological processes involved in sensation and perception. Discusses each of the sensory systems, emphasizing their physiology and role in perceptual processing.

Prerequisite: C or better in 6 hours in psychology.

PSYC4250 - Psychological Aspects of Chronic Illness

Credits: 3

Investigates the impact of chronic physical illnesses on diagnosed children and adults, their families, and society. Emphasizes effects of illnesses on psychological adaptation and quality of life. Should be of particular interest to helping professionals and health care workers.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 3250.

PSYC4300 - Adolescent Development

Credits: 3

Examines the developmental changes that occur during adolescence. Considers physical and physiological growth; intellectual, cognitive, academic and vocational development, changes in attitudes, interests and activities; and development of interpersonal relationships.

Prerequisite: A grade of C or better in PSYC 1000.

PSYC4310 - Developmental Psychopathology

Credits: 3

Provides basic understanding of developmental psychopathology. Examines characteristics, etiology, assessment and treatment of psychological disorders in children including autism, mental retardation, anxiety, depression, attention, learning, and conduct problems.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or FCSC 2121 or EDST 2450.

PSYC4320 - Intellectual Disability

Credits: 3

Acquaints students with all aspects of intellectual disability including assessment, diagnosis and classification, etiology, and associated health and mental health difficulties. Prevention, educational and psychological intervention, family adaptation, and community involvement are also addressed.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 4300 or FCSC 2121 or EDST 2450.

PSYC4350 - Psychology of Adulthood

Credits: 3

Examines theories and research on psychological development from early adulthood to the end of life, with special emphasis on positive development, successful aging, and methodological issues in the study of adult development.

Prerequisite: A grade of C or better in PSYC 1000.

PSYC4370 - Criminal Psychopathology

Credits: 3

Provides an overview of current theories and empirical evidence concerning relationship between psychological disorder and criminal behavior. Examines various clinical syndromes and their role in biological, social and psychological genesis of crime, as well as the concept of criminal responsibility.

Cross Listed CRMJ 4370.

Prerequisite: C or better in 6 hours in psychology.

PSYC4380 - Death and Dying

Credits: 3

Designed to provide a comprehensive overview of the field of thanatology. Death is considered from both an individual and sociocultural perspective. Aims to provide solid ground in research, methods, and theory of end-of-life issues and to encourage contemplation of personal and professional applications of death studies.

Prerequisite: A grade of C or better in PSYC 1000 and junior/ senior standing.

PSYC4390 - Personality Science

Credits: 3

Examines the contemporary science in personality psychology, with a focus on the genetic, biological, social, cognitive, and affective variables which interact to influence individual differences and personality coherence.

Former Course Number [3390]

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 2340 or PSYC 2380.

PSYC4400 - Principles of Psychological Testing

Credits: 3

Encompasses basic concepts, principles and procedures of psychological testing, with a lecture, discussion, laboratory project approach. Emphasizes nature and uses of test reliability, validity, norms and transformations, selecting and evaluating tests, test interpretation models and professional ethics in test use. Lecture three hours per week.

Prerequisite: A grade of C or better in 6 hours of psychology and STAT 2050 or STAT 2070.

PSYC4500 - Introduction to Clinical Psychology

Credits: 3

Provides students with general introduction to clinical psychology as a subarea of psychology. Deals with the search for, and applications of, psychological principles and methods aimed at assessing and explaining unique or special problems of the individual, group or family, assisting client(s) to function more meaningfully and effectively, and helping to prevent future problems.

Prerequisite: A grade of C or better in PSYC 2340.

PSYC4730 - Psychology and Law

Credits: 3

Exposes students to the application of psychological principles to problems in law. Emphasizes the American trial system, correction systems and civil commitment.

Cross Listed CRMJ 4730.

Prerequisite: A grade of C or better in 6 hours in psychology.

PSYC4740 - Advanced Social Psychology

Credits: 3

Concentrates on critical assessment of interpersonal behavior. Students are expected to become familiar with data gathering, analysis and reporting procedures commonly used in contemporary social psychology.

USP 2003-2014 Code U3WC

Prerequisite: A grade of C or better in PSYC 2000 and PSYC 2380.

PSYC4760 - Child Maltreatment

Credits: 3

Lecture and seminar. Examines the phenomenon of child abuse and neglect. Includes an overview of attitudes towards and legal definitions of child maltreatment. Explores parental factors, contextual influences and developmental

consequences of maltreatment. Relies heavily on current research in child abuse and neglect. Emphasizes policy implications.

Cross Listed CRMJ 4760.

Prerequisite: C or better in 6 hours in psychology.

PSYC4820 - Psychology of Human Sexuality

Credits: 3

A clinical-personality orientation to psychological factors in the development and expression of human sexuality. Focuses on the individual: interactions of physiological factors with developmental influences and personality patterns that produce feelings, thoughts and behaviors associated with human sexuality.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or FCSC 2121 or EDST 2450.

PSYC4830 - Senior Thesis

Credits: 3

Senior research project under faculty guidance and supervision. Faculty sponsorship must be obtained prior to registration.

USP 2003-2014 Code U3WC

Prerequisite: senior standing, majors only, 24 hours in psychology, and consent of instructor.

PSYC4850 - Field Work in Psychology

Credits: 1-3

Provides opportunities to experience applied aspects of psychology in external settings through volunteering, teaching, and related activities. Type and location of experience and requirements for earning credit and for grading are determined with a sponsoring faculty person in the psychology department. An acceptable paper based on work completed may also be required. No credit is available for field work prior to registration for this course.

Prerequisite: consent of instructor required in advance.

PSYC4855 - Undergraduate Research in Psychology

Credits: 1-3

Max Credit (Max. 6)

Provides new opportunities to assist in aspects of conducting basic and applied psychological research with a sponsoring faculty person in the psychology department. Specific research activities and requirements for earning credit and for grading are determined with a sponsoring psychology faculty person. An acceptable paper based on work completed may also be required. No credit is available for research conducted prior to registration for this course.

Prerequisite: consent of instructor required in advance.

PSYC4860 - Seminar

Credits: 1-6

Course consists of extended and in-depth discussions of particular topics in psychology. Topics vary semester to semester. Class format may include lecture, group discussion, and group activities. Reading assignments will draw heavily from scientific literature and may include journal articles, textbooks, or book chapter.

Prerequisite: 9 hours in psychology.

PSYC4960 - Service-Learning in Psychology

Credits: 3

Experience applied aspects of psychology in real world settings through volunteering. Recent research and other materials preparing students for their service will be discussed in class. After the volunteering experience, the students will prepare an academic paper integrating their practical experience with research and theory learned in class.

Prerequisite: PSYC 1000 and consent of instructor required in advance.

PSYC4970 - Aging Minor Internship

Credits: 1-6

This course provides students in the Aging Studies Minor the opportunity to experience applied aspects of aging studies in a community setting. Prior to registration the student must work with the minor advisor and instructor to identify the internship setting and complete all required paperwork.

Prerequisite: Completion of all other degree requirements

PSYC5060 - Statistical Methods In Psychology

Credits: 3

General statistical analyses and their application to psychology. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 2020, STAT 3050, STAT 5050, 5060, STAT 5070, STAT 5080.

Prerequisite: 1 course in statistics (all introductory courses except 2000).

PSYC5095 - Statistical Computation In Psychology

Credits: 1-3

Max Credit (Max. 12)

Supervised problem-solving practice in statistical analysis is provided with regard to topics corresponding to those covered in a concurrent statistical analysis course. Statistical analysis topics vary.

Prerequisite: graduate standing and instructor consent.

PSYC5120 - Neuropsychology of Human Behavior

Credits: 3

Brain mechanisms involved in the expression and control of human behavior will be studied. Findings from classical neuropsychological studies and more recent clinical research investigations will be used in deriving explanations for the structural and physiological basis of normal and abnormal psychological processes.

Prerequisite: 9 hours in psychology.

PSYC5140 - Personality Science

Credits: 3

Examines contemporary scientific research and theory in personality. Surveys the biological, cognitive, affective, social, and interpersonal determinants of personality function with individual differences. A theoretical framework highlights the dynamic transactions between individuals and the sociocultural environment over the life course.

Prerequisite: graduate standing in clinical or experimental psychology.

PSYC5180 - Advanced Developmental Psychology

Credits: 3

Provides a graduate-level overview of development psychology, including current theories, issues, and research in both cognitive development and social development.

Prerequisite: graduate standing.

PSYC5210 - Advanced Physiological Psychology

Credits: 3

Examines the physiological bases of behavior beginning with a treatment of basic neuroanatomy, neurophysiology, and pharmacology. Discussion then proceeds to the physiological correlates of various behavioral states including sleep arousal, sensory processes, motor control, motivational systems, emotions, learning and memory.

Prerequisite: 30 hours in psychology including PSYC 4080.

PSYC5230 - Advanced Cognitive Psychology

Credits: 3

Provides the graduate student with an understanding of theoretical and experimental approaches to the study of human cognitive processing. There is an emphasis on critical evaluation of current research in the area.

Prerequisite: 30 hours in psychology including PSYC 3120.

PSYC5240 - Cognitive Psychology Seminar

Credits: 3

Max Credit (Max. 12)

Graduate level seminar in cognitive psychology, the topic of which will vary from semester to semester. Emphasis is on providing students with an in-depth analysis of some specific areas of cognitive psychology.

Prerequisite: graduate standing.

PSYC5270 - Behaviorism

Credits: 3

Acquaints the graduate student with behaviorist philosophy, the experimental analysis of behavior, and the application of behavioral technology to experimental, educational, and clinical problems.

Prerequisite: 30 hours in psychology.

PSYC5300 - Applied Multivariate Analysis

Credits: 3

The application of multivariate statistical methods in behavioral science research. Topics include multivariate regression, canonical correlation, discriminate analysis, factor analysis and multidimension scaling. A wide range of computer assistance is incorporated.

Cross Listed STAT 5300.

Prerequisite: STAT 5050.

PSYC5340 - Introduction To Clinical Supervision

Credits: 1-4

Max Credit (Max. 4)

Provides an introduction to the supervision of psychotherapy for advanced doctoral students by having them observe a therapy case in the Psychology Clinic with assigned first year doctoral students and then give instruction as to therapeutic techniques used by the therapist and to client dynamics.

Prerequisite: admission to the doctoral program in clinical psychology and consent of instructor.

PSYC5370 - Graduate Seminar in Forensic Psychology

Credits: 3

To provide graduate level training in forensic psychology for students pursuing careers in psychology, counseling and criminal justice.

Prerequisite: 16 hours in psychology or consent of instructor.

PSYC5375 - Psychology/Law Proseminar

Credits: 1-10
Max Credit (Max. 10)

The Psychology Law Proseminar exposes students to various areas of psycholegal research. Topics will vary each semester and students will be expected to be actively engaged in the proseminar activities. Students will be exposed to theoretical and applied research that has relevance to legal settings.

Prerequisite: graduate standing in Psychology and permission of instructor.

PSYC5380 - Theories and Techniques of Psychotherapy

Credits: 3
A course for entering clinical doctoral students. Major current psychotherapies are reviewed in terms of theoretical assumptions and related techniques. Required of first-year students in the program.

Prerequisite: admission to doctoral program in clinical psychology.

PSYC5400 - Cog-Achievement

Credits: 3
Max Credit 3

First semester of a three semester practicum course in psychological assessment at the doctoral level. During the semesters, extensive examination is made regarding the standardization, relevant application, and significant limitations of assessment techniques. A thorough grounding in interpretation, and communication of the results of psychological evaluation both in writing and in consultation with referral sources. Normally taken during the first year of the doctoral program.

Restricted restricted to doctoral students in clinical psychology

Prerequisite: restricted to doctoral students in clinical psychology.

PSYC5410 - Assessment: Theory & Personality

Credits: 3
Second semester of a full-year practicum course in psychological assessment at the doctoral level.

Restricted restricted to doctoral students in clinical psychology

Prerequisite: PSYC 5400.

PSYC5425 - Diagnostic Interviewing

Credits: 1

Students review research on diagnostic interviews, practice basic interviewing skills and learn to administer the Structured Clinical Interview for DSM-IV (SCID-I) using training tapes, class discussion and role-play exercises. As time permits, other interviews used to assess personality disorders and specific diagnostic categories will be reviewed.

Prerequisite: admission to the doctoral program in clinical psychology.

PSYC5430 - Clinical Neuropsychological Assessment

Credits: 3

Present the clinical psychologist in training with an introduction to the clinical application of neuropsychological principles and various tools. Includes the administration and interpretation of neuropsychological instruments and batteries, as well as the integration of more traditional assessment techniques with neuropsychological testing.

Prerequisite: admission to the clinical doctoral psychology program, PSYC 5400, PSYC 5410, and PSYC 5120.

PSYC5450 - Clinical Practicum

Credits: 1-4

Max Credit (Max. 8)

Beginning clinical practicum course providing doctoral students in clinical psychology with supervised experience in individual psychotherapy. Psychodynamic, client-centered, and behavioral techniques are employed. Cases and theoretical issues discussed in weekly seminar. Individual supervision of students by clinical faculty.

Prerequisite: admission to doctoral program in clinical psychology and consent of instructor.

PSYC5460 - Advanced Clinical Practicum

Credits: 1-12

Max Credit (Max. 12)

Advanced clinical practicum course for students beyond their second year in the doctoral program in clinical psychology. Provides additional supervised experience in individual, family, child, and group therapy, as well as in psychological assessment. Experiences include case conceptualization, case management, and provision of direct services.

Prerequisite: admission to doctoral program in clinical psychology, PSYC 5450, and consent of instructor.

PSYC5470 - Evidence-based Treatments

Credits: 3

Max Credit 3

Students become familiar with the efficacy and effectiveness of important state-of-the-art treatments with a focus on treatments of mood and anxiety disorders. Course goals include gaining a critical understanding of the issues involved in identifying psychological treatments that work.

Restricted restricted to doctoral students in clinical psychology

Prerequisite: PSYC 5380; PSYC 5510.

PSYC5500 - Developmental Psychopathology

Credits: 3

Max Credit 3

Students will obtain research-based knowledge in developmental psychopathology via lectures, discussions, and student presentations. This course will cover disorders that usually begin in childhood and how these disorders manifest across the lifespan. The course will also cover disorders that begin later and how these disorders manifest in children and adolescents.

Restricted restricted to doctoral students in clinical psychology

PSYC5510 - Adult Psychopathology

Credits: 3

Students will obtain research-based knowledge of both descriptive and explanatory adult psychopathology. In addition to learning how adult mental disorders present, students will acquire a framework for understanding the multiple variables that interact over the lifespan to influence adult psychopathology.

PSYC5520 - Advanced Research Methods

Credits: 3

Introduction to problems and issues in research methodology. Ongoing research directed by various faculty are used as paradigms for conceptualization of research problems. Students critically evaluate projects presented and begin planning for research leading to theses and dissertations.

Prerequisite: graduate status in psychology.

PSYC5530 - Professional Issues and Ethics

Credits: 3

Max Credit (Max. 6)

This course primarily emphasizes ethical considerations and principles guiding the practice of psychology. Additionally, career development issues such as internship, postdoctoral fellowships, licensure and grant writing are addressed. This course also promotes and explores the foundational importance of informing clinical practice with empirical evidence.

Prerequisite: graduate standing in psychology.

PSYC5550 - Clinical Seminar

Credits: 1-3
Max Credit (Max. 18)

Graduate level seminar in clinical psychology, the topic of which will vary from semester to semester. Emphasis is on providing students with an in-depth analysis of some specific area of clinical psychology.

Prerequisite: admission to the doctoral program in clinical psychology.

PSYC5580 - Advanced Social Cognition

Credits: 3
Provides an overview of the cognitive processes involved in social behaviour, including perception, judgment, memory, and evaluation.

Prerequisite: graduate standing or permission of instructor.

PSYC5630 - Clinical Supervised Practicum I

Credits: 2
The first semester of a one year practicum in clinical supervision for doctoral students in clinical psychology. Students supervise at least one 2nd or 3rd year clinical doctoral student, attend supervision team meetings, and may conduct group supervision and/or see clients as determined by team leader.

Prerequisite: enrollment in doctoral program in clinical psychology.

PSYC5640 - Practicum in Clinical Supervision II

Credits: 2
The second semester of a one year practicum in clinical supervision for doctoral students in clinical psychology. Students supervise at least one 2nd or 3rd year clinical doctoral student, attend supervision team meetings, and may conduct group supervision and/or see clients as determined by team leader.

Prerequisite: enrollment in doctoral program in clinical psychology.

PSYC5650 - Social and Affective Psychology

Credits: 3
Designed to give the student a thorough understanding of the theories and methodologies of contemporary Social and Affective Psychology

Prerequisite: None

PSYC5720 - Advanced Social Development

Credits: 3
Provides a graduate-level introduction to theory and empirical research on social development. Topics include

emotional development, attachment, socialization, moral development, aggression, and social context.

Prerequisite: graduate standing.

PSYC5740 - Internship in Clinical Psychology

Credits: 1

Max Credit (Max. 3)

Full-year, 40 hours per week assignment to a mental health or related agency having an established internship program. This placement must be approved by the Department of Psychology and include: (a) adequate supervision of the intern and (b) didactic and other educational experiences that supplement practicum work. Registration for fall, spring, and summer terms is required.

Prerequisite: Completion of preliminary examination and dissertation proposal, department approval.

PSYC5760 - Graduate Seminar

Credits: 1-10

Max Credit (Max. 18)

Topic varies from semester to semester. Emphasis is upon the preparation of reports on special topics in psychology and the presentation and discussion of these reports in the seminar situation.

Prerequisite: 6 hours in psychology and consent of instructor.

PSYC5765 - Teaching of Psychology

Credits: 1-3

Max Credit (Max. 3)

Course is designed to prepare future faculty in psychology for a career in teaching. Topics covered include developing lectures and assignments, assessing students and providing feedback, using technology, and fostering skill development in students. Course emphasizes evidence-based teaching.

Prerequisite: restricted to graduate students in psychology.

PSYC5775 - Developmental Psychology Seminar

Credits: 1-3

Max Credit (Max. 18)

Graduate level seminar in developmental psychology, the topic of which will vary from semester to semester. Emphasis is on providing student with an in-depth analysis of some specific area of developmental psychology.

Prerequisite: consent of instructor.

PSYC5780 - Advanced Cognitive Development

Credits: 3

Provides a comprehensive account of current views of cognitive development. Emphasis is given to alternative theoretical explanations for findings from empirical research.

Prerequisite: graduate standing.

PSYC5785 - Social Psychology Seminar

Credits: 1-3

Max Credit (Max. 18)

Graduate level seminar in social psychology, the topic of which will vary from semester to semester. Emphasis is on providing students with an in-depth analysis of some specific area of social psychology.

Prerequisite: permission of instructor.

PSYC5786 - Indep. Study Advanced Quant.

Credits: 1-3

Max Credit 3

This course is designed for graduate students in psychology whose educational goals include advanced study in specific quantitative methods that go beyond those covered in required or other regularly available coursework.

Prerequisite: Completion of PSYC 5060 with B or better

PSYC5787 - Indep. Study Special Psych Top

Credits: 1-3

Max Credit 3

This course is designed for graduate students in psychology whose educational goals include advanced study in specific psychological topics that cannot be accommodated by other available scheduled courses.

Restricted Graduate student status in psychology

PSYC5790 - Clerkship in Clinical Psychology

Credits: 1-3

Max Credit (Max. 9)

Provides practical clinical and administrative experience in institutional and community settings. Experience includes psychological assessment, group and individual therapy activities, participation in clinical and administrative staff conferences, consultation to various departments and agencies within the institutional setting and in the community, training of professionals in psychological concepts and techniques, and participation in research. Experiences are

located in various community, county, and state agencies primarily in the Rocky Mountain region. Successful completion of three clerkships is a required part of the doctoral program in clinical psychology.

Prerequisite: enrollment in doctoral program in clinical psychology and assignment by department.

PSYC5800 - Research in General Psychology

Credits: 1-8
Max Credit (Max 24)

Prerequisite: consent of the instructor and graduate standing in the department.

PSYC5810 - Research in Psychology and Law

Credits: 1-8
Max Credit (Max. 24)

Prerequisite: consent of the instructor and graduate standing in the department.

PSYC5820 - Research in Social Psychology

Credits: 1-8
Max Credit (Max. 24)

Prerequisite: consent of instructor and graduate standing in the department.

PSYC5830 - Research in Clinical Psychology

Credits: 1-8
Max Credit (Max. 24)

Prerequisite: consent of the instructor and graduate standing in the department.

PSYC5840 - Research in Developmental Psychology

Credits: 1-8
Max Credit (Max. 24)

Prerequisite: consent of the instructor and graduate standing in the department.

PSYC5850 - Research Cognitive Psychology

Credits: 1-8
Max Credit (Max. 24)

Prerequisite: consent of the instructor and graduate standing in the department.

PSYC5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

PSYC5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

PSYC5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

PSYC5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Graduate level course designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

PSYC5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

PSYC5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Rangeland Ecology and Watershed Management

REWM2000 - Principles of Rangeland Management

Credits: 3

Basic principles of range management as they apply to various regions and vegetative types. Relationship of range management practices to livestock production, wildlife management, forestry, hydrology and other land uses. Introductory course for majors and non-majors.

Prerequisite: LIFE 1101 or LIFE 1010.

REWM2400 - Range Ecosystems and Plants

Credits: 4

Ecology of range ecosystems of western North America and identification of 200 most common plants species, including taxonomic keying.

Former Course Number [2500]

Prerequisite: REWM 2000 with a grade of C or better.

REWM3000 - Plant Ecophysiology/Plant Form and Function

Credits: 4

Integration of basic vascular plant anatomy, morphology, physiology within the contexts of modern evolutionary and ecological theory. Students receive in depth exposure to fluid flow, energetics, development, growth, general metabolism, and structure, and functions for plant cells, tissue and organs.

Prerequisite: LIFE 2022 or LIFE 2023.

REWM3100 - Principles of Wildland Water Quality

Credits: 3

Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

Cross Listed ENR 3100.

When Offered (Normally offered fall semester)

Prerequisite: CHEM 1000.

REWM3390 - Range Judging

Credits: 2

Judging rangelands based on soil, plant and animal resources and applying science-based information to make management decisions. Participation in a field trip and UW SRM judging teams is required including Plant Team and URME. This course is intended for members of the SRM competitive Teams.

When Offered (Normally offered spring semester)

Prerequisite: C or better in REWM 2000, REWM 2400 and REWM 3020, as well as the Team Coach permission.

REWM3500 - Rangeland Plant Ecophysiology

Credits: 3

Examines plant physiological processes that have application to ecological and land management issues. Topics include carbon assimilation, water relations, mineral nutrition as applied to plant distributions, plant and system responses to grazing, as well as plant tolerance of extreme conditions including drought, excessive temperatures and changes in climate.

When Offered (Normally offered fall semester)

Prerequisite: LIFE 2022 or LIFE 2023.

REWM4000 - Poisonous Plants and Plant Toxins

Credits: 3

Plants poisonous to livestock in Wyoming and the Mountain West; identification, ecology, toxic principles, physiologic responses of animals, situations leading to poisoning, control and management to prevent losses.

When Offered (Normally offered spring semester)

Prerequisite: 12 hours of biological and chemical sciences.

REWM4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and POLS 4051.

USP 2003-2014 Code U3WC

Prerequisite: POLS 1000.

REWM4052 - Federal Land Politics

Credits: 3

Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/GEOG 4052/AMST 4052.

Prerequisite: POLS 1000.

REWM4100 - Nutritional Ecological Management of Range Herbivores

Credits: 3

Examines ecological processes and management of nutritional resources by domestic and wild rangeland herbivores. Topics include nutrient availability, nutritional demand, foraging behavior, diet composition, grazing systems, stocking rates, livestock/wildlife competition, predation, parasitism, plant toxicity, and influences on ecological condition. Students evaluate case studies and analyze nutritional data using current technologies.

Dual Listed REWM 5100.

Prerequisite: LIFE 1010 or LIFE 1020.

REWM4103 - Range and Ranch Recreation

Credits: 3

Understanding of public demands for leisure use of public and private rangelands; potential impacts on rangeland resources, ranch practices and families and other rangeland users. Students prepare public range or private ranch recreation operations plan. Graduate students assist in preparation and presentation of lecture.

Dual Listed REWM 5103.

When Offered (Normally offered spring semester)

Former Course Number [3103]

Prerequisite: C or better in REWM 2000 and CS course.

REWM4150 - Behavior Modification for Production of Grazing Herbivores

Credits: 3

Strategies for manipulation of behavior and management of the grazing herbivore will be developed from scientific and practical information. Designed to equip the student to manage for animal and natural resource production.

Dual Listed REWM 5150.

When Offered (Normally offered spring semester)

Former Course Number [3150]

Prerequisite: C or better in REWM 2000 and REWM 3020 or ANSC 3100.

REWM4200 - Reclamation of Drastically Disturbed Lands

Credits: 3

Overviews reclamation of drastically disturbed lands in the west, emphasizing surface mined lands. Includes principles of ecology, agronomy, soils and other relevant disciplines as applied to mitigate adverse environmental impacts of land disturbance.

When Offered (Normally offered fall semester)

Prerequisite: LIFE 3400, AECL 2100.

REWM4285 - Wildland Hydrology

Credits: 3

Teaches essential and unique characteristics of hydrologic cycle as occurred on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed ENR 4285.

Dual Listed REWM 5285.

When Offered (Normally offered fall semester)

Prerequisite: QA

REWM4300 - Grass Taxonomy

Credits: 3

Identification of grasses and their place in range management and world agriculture.

Dual Listed REWM 5300.

When Offered (Normally offered spring semester)

Former Course Number [3320]

Prerequisite: REWM 2500 or LIFE 2023.

REWM4330 - Rangeland Ecosystem Assessment and Monitoring

Credits: 4

Assessment, monitoring, and analysis of rangeland ecosystems and processes. Students integrate sampling design, measurements of vegetation attributes, indicators of rangeland health, ecological site information, riparian and wildlife habitat values, utilization, and statistical applications to evaluate rangeland resource integrity and sustainable use. Students collect, analyze, and report data using current technologies. REWM students will be given enrollment preference.

When Offered (Normally offered fall semester)

Prerequisite: REWM 2400 and STAT 2050 or STAT 2070. Concurrent enrollment in REWM 2400 and STAT 2050 or STAT 2070 is allowed with permission.

REWM4340 - Reclamation Techniques Field Trip

Credits: 2

Provides increased comprehension of current land reclamation problems and solutions by means of a field trip to sites in region where land reclamation is occurring.

When Offered (Normally offered fall semester)

Prerequisite: REWM 4200.

REWM4440 - Applied Fire Ecology

Credits: 3

Course examines drivers and patterns of wildfire in rangeland and forested ecosystems, fire behavior, fuel characteristics, fire effects, suppression tactics and mitigation strategies, prescribed burning precautions and applications, applications/uses of fire to meet resource objectives, policies and regulations, and modeling software. Required field trips out of class time.

Dual Listed REWM 5440.

Restricted Junior standing or greater class standing required.

Prerequisite: General biology and MATH 1400 or above.

REWM4500 - Rainfall-Runoff Modeling

Credits: 3

Introduction to hydrologic modeling that teaches the foundations of model development, calibration, and interpretation. Examines the different components of the water cycle and how they are being integrated into watershed models. Equips the students with the necessary skills to parameterize hydrologic models, understand the underlying principles, and interpret model outputs.

Dual Listed REWM 5500.

Prerequisite: REWM 4285.

REWM4530 - Seminar

Credits: 1

Max Credit (Max. 2)

Discusses pertinent range management problems.

Prerequisite: REWM 2000 (earn at least a C) or ENR 4000.

REWM4540 - Problems

Credits: 1-4

Max Credit (Max. 6)

Experimental work or intensive reading and discussion on range management problems. Includes problems offered in the following areas of range management: natural resources ecology, livestock habitat, business, improvements, watershed, reclamation, extension, and international development.

Prerequisite: basic training in field of problem selected and consent of instructor.

REWM4550 - Internship in:

Credits: 1

Max Credit (Max. 4)

Supervised field experience in range management or disturbed land reclamation. No more than 4 credits.

Prerequisite: basic course work in subject selected and consent of instructor.

REWM4580 - Rangeland Restoration Ecology

Credits: 3

Detailed analysis of various disturbed ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic influences on degradation and strategies for vegetative rehabilitation. Strong focus on current research to formulate restoration strategies.

Dual Listed REWM 5580.

Prerequisite: REWM 4200 or LIFE 3400.

REWM4600 - Drone-Based Remote Sensing

Credits: 3

This class teaches the basics of remote sensing applications in environmental sciences with a focus on unmanned aerial vehicles (UAVs, aka "drones"). Students will receive training in drone operation, data collection and analysis, and will be prepared to take the FAA Remote Pilot Certification.

Prerequisite: MATH 1400 or higher

REWM4700 - Wildland Watershed Management

Credits: 3

Studies hydrological cycle with specific emphasis on the role of vegetation in hydrologic processes such as interception, surface detention storage, infiltration, percolation, run-off, and water quality. Utilization of watersheds and vegetation manipulation practices to modify these hydrologic processes.

When Offered (Normally offered spring semester)

Prerequisite: LIFE 1101 or LIFE 1010.

REWM4710 - Watershed Water Quality Management

Credits: 3

Studies watershed processes controlling water quality. Examines impacts of land use activities such as agriculture production, livestock grazing, and mineral and natural gas extraction on surface water and ground water quality. Emphasis will be placed on water quality modeling and management.

Dual Listed REWM 5710.

When Offered (Normally offered spring semester)

Former Course Number [4180]

Prerequisite: CHEM 1000.

REWM4750 - Wildlife Habitat Restoration Ecology

Credits: 3

Emphasis on fundamental and applied aspects of restoration ecology for terrestrial wildlife habitats following anthropogenic and natural disturbances. Although the course overviews theoretical concepts applicable to many systems, there is a focus on applications for wildlife habitats in western North America.

Dual Listed REWM 5750.

Prerequisite: Minimum of 6 hours of Biology or Life Sciences courses.

REWM4810 - Experiments in Restoration

Credits: 2

Emphasis on the experimental design using examples from restoration science. Focus on experiments to test concepts in ecosystem science, food webs, population genetics, metapopulation biology, biodiversity and invasion, and climate change. Address topics in experimental, ecological restoration.

Dual Listed REWM 5810.

Prerequisite: STAT 2050 or equivalent.

REWM4830 - Ecological Applications for Wildland Management

Credits: 3

Emphasis on applying understanding of interactions among components of rangelands to facilitate sustainable provision of ecosystem services. The influences of stochasticity and disturbances on ecosystem structure and function will be the focus of discussion and technical writing exercises.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3WB

Prerequisite: WA, REWM 2000 (earn at least a C), LIFE 3400 (latter may be concurrent).

REWM4850 - Rangeland Vegetation Management Techniques

Credits: 3

Uses applied ecological principles in restoration of degraded rangeland ecosystems to introduce methods for manipulating rangeland vegetation that satisfy land management objectives. Provides ecologically-sound practices to maintain optimal and sustained yield of rangeland products.

When Offered (Normally offered spring semester)

Prerequisite: C or better in REWM 2000 and SB.

REWM4900 - Rangeland Management Planning

Credits: 3

Applies planning processes that integrate soil, vegetation, water, livestock, wildlife, and environmental regulatory considerations within the context of satisfying ecologically sustainable rangeland management objectives.

When Offered (Normally offered spring semester)

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: REWM 4830, ECON 1010 or AGECE 1010 or AGECE 1020, SOIL 4120 or SOIL 4150 (may be concurrent), REWM 3020 (may be concurrent), REWM 4330 (may be concurrent).

REWM4990 - Undergraduate Teaching Practicum

Credits: 1

Max Credit (Max. 2)

Teaching experience in classroom or laboratory assisting faculty instructor.

When Offered (Offered based on sufficient demand and resources)

REWM5000 - Range Resource Management

Credits: 3

Basic concepts and theories of rangeland resource management, trends in rangeland classification, grazing management and improvement practices.

Prerequisite: graduate classification in agriculture or related natural resource subject matter areas.

REWM5100 - Nutritional Ecological Management of Range Herbivores

Credits: 3

Examines ecological processes and management of nutritional resources by domestic and wild rangeland herbivores. Topics include nutrient availability, nutritional demand, foraging behavior, diet composition, grazing systems, stocking rates, livestock/wildlife competition, predation, parasitism, plant toxicity, and influences on ecological condition. Students evaluate case studies and analyze nutritional data using current technologies.

Dual Listed REWM 4100.

REWM5103 - Range and Ranch Recreation

Credits: 3

Understanding of public demands for leisure use of and private rangelands; potential impacts on rangeland resources, ranch practices and families and other rangeland users. Preparation of public range or private ranch recreation operations plan. Graduate students assist in preparation and presentation of lecture.

Dual Listed REWM 4103.

Prerequisite: REWM 2000 and CS course.

REWM5150 - Behavior Modification for Production of Grazing Herbivores

Credits: 3

Strategies for manipulation of behavior and management of the grazing herbivore are developed from scientific and practical information. Designed to equip the student to manage for animal and natural resource production.

Dual Listed REWM 4150.

Prerequisite: REWM 2000 and ANSC/REWM 3020 or ANSC 3100.

REWM5250 - Water Resources Seminar

Credits: 1

Objective is to develop interaction among students from the various water resource disciplines to enhance their perspectives on how water problems are addressed within an interdisciplinary environment.

Prerequisite: graduate status.

REWM5285 - Wildland Hydrology

Credits: 3

Teaches essential and unique characteristics of hydrologic cycle as occurs on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed ENR 5285.

Dual Listed REWM 4285.

Prerequisite: graduate standing and University Studies QA.

REWM5300 - Grass Taxonomy

Credits: 3

Identification of grasses and their place in range management and world agriculture.

Dual Listed REWM 4300.

Prerequisite: REWM 2500 or LIFE 2023.

REWM5400 - Community Ecology

Credits: 3

Community ecology is the study of interactions within and among groups of species. This course focuses on (1) the major classical concepts and theories in community ecology, (2) the ways in which population dynamics can impact communities and how community dynamics can impact ecosystem processes and functioning, and (3) implementation of quantitative methods for conducting research that includes community ecology.

Cross Listed ECOL 5400.

Prerequisite: LIFE 3410 or equivalent.

REWM5440 - Applied Fire Ecology

Credits: 3

Course examines drivers and patterns of wildfire in rangeland and forested ecosystems, fire behavior, fuel characteristics, fire effects, suppression tactics and mitigation strategies, prescribed burning precautions and applications, applications/uses of fire to meet resource objectives, policies and regulations, and modeling software. Required field trips out of class time.

Dual Listed REWM 4440.

Prerequisite: graduate standing.

REWM5500 - Rainfall-Runoff Modeling

Credits: 3

Introduction to hydrologic modeling that teaches the foundations of model development, calibration, and interpretation. Examines the different components of the water cycle and how they are being integrated into watershed models. Equips the students with the necessary skills to parameterize hydrologic models, understand the underlying principles, and interpret model outputs.

Dual Listed REWM 4500.

Prerequisite: REWM 5285.

REWM5520 - Ecology and Management of Grasslands

Credits: 3

Ecological nature, management strategies, and management problems of North American and world grassland ecosystems.

Prerequisite: REWM 4300, REWM 5300 and BOT 4700.

REWM5580 - Rangeland Restoration Ecology

Credits: 3

Detailed analysis of various ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic factors. Application of ecological principles to rehabilitate vegetation and restore ecosystem function. Strong emphasis on current research to formulate restoration strategies.

Cross Listed ECOL 5580.

Dual Listed REWM 4580.

REWM5610 - Quantitative Modeling in Landscape Ecology

Credits: 3

Emphasis on quantitative, spatial analysis of landscapes and application of these quantitative tools to making sound management decisions. Work with real data, acquire high-level quantitative skills, develop problem-solving skills, and discuss management application of model results. Analysis will encompass abiotic, biotic (plant and animal), and human use of ecological systems in a spatial context.

Cross Listed ECOL 5610.

Prerequisite: upper division stats course (e. g. , STAT 4015 or STAT 4025) and graduate standing.

REWM5640 - Investigation

Credits: 1-4

Max Credit (Max. 10)

Research on specialized problems in range management. Investigations offered in the following areas of range management, habitat management, business management, range improvements and monitoring, watershed management, extension and international development.

Prerequisite: graduate standing.

REWM5680 - Landscape Genetics

Credits: 3-4

Provides a unique opportunity for interdisciplinary training and international collaboration uniting some of the most active landscape genetics groups in North America and Europe. A key objective of landscape genetics is to study how landscape modification and habitat fragmentation affect organism dispersal and gene flow across the landscape. Meeting this and other landscape genetic objectives requires highly interdisciplinary specialized skills making intensive use of technical population genetic skills and spatial analysis tools (spatial statistics, GIS tools and remote sensing). To bring these diverse topics and skills together effectively, we are using a distributed model of teaching. Population genetics, spatial analysis/ statistics, and previous experience in Rare all extremely useful but not required.

Cross Listed ECOL 5680.

REWM5710 - Watershed Water Quality Management

Credits: 3

Studies watershed processes controlling water quality. Examines impacts of land use activities such as agriculture production, livestock grazing and mineral and natural gas extraction on surface water and ground water quality. Emphasis is placed on water quality modeling and management.

Dual Listed REWM 4710.

Prerequisite: CHEM 1000.

REWM5750 - Wildlife Habitat Restoration Ecology

Credits: 3

Emphasis on fundamental and applied aspects of restoration for terrestrial wildlife habitats following anthropogenic and natural disturbances. Although the course overviews theoretical concepts applicable to many systems, there is a focus on applications for wildlife habitats in western North America.

Dual Listed REWM 4750.

Prerequisite: Minimum of 6 hours of Biology or Life Sciences courses.

REWM5810 - Experiments in Restoration

Credits: 2

Emphasis on the experimental design using examples from restoration science. Focus on experiments to test concepts in ecosystem science, food webs, population genetics, metapopulation biology, biodiversity and invasion, and climate change. Address topics in experimental, ecological restoration.

Dual Listed REWM 4810.

Former Course Number [5800]

Prerequisite: graduate standing.

REWM5830 - Wildlife Habitat Ecology

Credits: 2

For students in wildlife and rangeland ecology emphasizing the relationships between wildlife populations and their habitats. Concepts forming the basis of wildlife habitat ecology including habitat and niche, habitat metrics, resource selection, habitat-relationships modeling, and habitat restoration and management.

Prerequisite: Graduate-level course in statistics and graduate standing or instructor consent.

REWM5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

REWM5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

REWM5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

REWM5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

REWM5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Religious Studies

RELI1000 - Introduction to Religion

Credits: 3

Introduces world religions and shared characteristics. Draws on various academic approaches to religion study, emphasizing similarities and differences among wide variety of religions.

USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

RELI1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

RELI2030 - Violence and Resistance

Study Indigenous and contemporary theories of violence and resistance through the lens of religious violence. Revisit key landmarks of resistance leading up to current Indigenous and environmental activism. Develop multi-media presentation.

USP 2015 Code U5C2
Prerequisite: COM1

RELI2040 - Religions of the Middle East: Judaism, Christianity and Islam

Credits: 3

Analyzes origins and early years of three major religions that arose in the Middle East: Judaism, Christianity and Islam. Looks at historical development, political and cultural context, and structure of each religion.

USP 2003-2014 Code U3CH, U3G
A&S College Core 2015 ASG

RELI2050 - Religions of Asia

Credits: 3

Introduces students to the religions of Asia. Primary focus on Hinduism and Buddhism, but also addresses several smaller religions. Emphasis on beliefs, sacred texts and tales, practices, ethics and worship, as well as historical development and contemporary issues.

USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

RELI2070 - Gender and Religion

Credits: 3

Aims at understanding how religion constructs and reinforces gender roles in religion and society. Looks at traditional gender roles in Christianity and the transformation they have undergone in the past century or so.

Cross Listed GWST 2070.

RELI2080 - Holocaust

Credits: 3

Surveys the destruction of European Jewry, 1933-1945.

Cross Listed HIST 2080.
USP 2003-2014 Code U3CH

RELI2110 - Introduction to the Old Testament

Credits: 3

Introduces students to the books of the Old Testament and people whose way of life they describe. Pays particular attention to religion of the Israelites, their history and culture. Focuses on different historical circumstances in which the books were written.

USP 2003-2014 Code U3CH
USP 2015 Code U5H
A&S College Core 2015 ASG
Former Course Number [1010]

RELI2150 - New Testament Survey

Credits: 3

Introduces the academic study of the New Testament. Concentrates on the analysis of Jesus, Paul and other New Testament figures by studying the textual evidence within its historical, religious and cultural contexts. Key foci also include the composition of the New Testament's books and the theological development of early Christianity.

USP 2015 Code U5H

A&S College Core 2015 ASG

RELI2175 - The Life and Teaching of Jesus

Credits: 3

Explores life and teachings of Jesus within religious, cultural and political context of first-century Palestine. Studies Jewish, Greek and Roman influences on Palestine; then, examines effect of those influences on the gospels (both canonical and non-canonical).

RELI2200 - Contemporary American Religion

Credits: 3

The U. S. is home to more world religions and to more versions of those religions than any other nation on the planet. This course examines how the U. S. has shaped these religions and the impact these religions have had in turn on U. S. society and culture.

USP 2003-2014 Code U3CH, U3D

USP 2015 Code U5C2

A&S College Core 2015 ASD

RELI2225 - History of Christianity

Credits: 3

Traces Christianity from its beginnings to late 20th century.

Cross Listed HIST 2225.

USP 2015 Code U5H

RELI2250 - American Religious History I (To 1865)

Credits: 3

Traces the history of religion in America through the Civil War. We will pay particular attention to the intertwining of religion and colonialism; the tension between emerging Protestant hegemony and religious pluralism; and the roles religion has played in justifying oppression and pursuing liberty in American history.

Cross Listed HIST 2250.

USP 2003-2014 Code U3CH, U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

RELI2252 - American Religious History II (1865- 1945)

Credits: 3

Traces American religious history from the Civil War through WWII. Focuses on how race/ethnicity, class, gender, and national origin affected religion, and explores how Americans used religion in oppressing and liberating people; marking and erasing difference; and exporting values abroad as well as reforming society at home.

Cross Listed HIST 2252.

USP 2003-2014 Code U3CH, U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

RELI2315 - History of Non-Western Religions

Credits: 3

Max Credit 9

Introduces students to religions outside the Judeo-Christian realm familiar in the west. Each religion analyzed in its world views, its ways of life, and in its social organization. History of each religion and its changes.

Cross Listed HIST 2315.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

RELI2320 - History of Islam

Credits: 3

Focuses on the origins of Islam and its early formation, its growth and spread across the world, and its intellectual, spiritual and historical character. Time will also be spent on the formation of Islam in the modern world and how that impacts the views and actions of its members.

Cross Listed HIST 2320.

USP 2003-2014 Code U3CH, U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

RELI2330 - Islam in the Modern World

Credits: 3

How does Islam interact with Modernity? This course extends beyond the news to study contemporary trends and movements among the world's Muslims. Includes a general introduction to the history and religion of Islam, and discusses contemporary Islamic topics, reflecting current issues, instructor research and student choices.

USP 2015 Code U5H

A&S College Core 2015 ASG

RELI2410 - Varieties of Non-Belief in the Western World

Credits: 3

A broad, chronological survey of different types of non-belief, primarily from the Renaissance onwards. It examines critiques by philosophers, politicians, poets, and novelists aiming to understand their objections to religion and analyzing how these objections shaped the modern religious landscape and the way we understand religion itself.

USP 2003-2014 Code U3CH

USP 2015 Code U5H

RELI2450 - Traditional African Religion

Credits: 3

Surveys traditional African religions, both ancient and contemporary.

Cross Listed AAST 2450.

USP 2003-2014 Code U3CH,U3G

USP 2015 Code U5C2

A&S College Core 2015 ASG

RELI2500 - Special Topics in Religion

Credits: 1-3

Max Credit (Max. 6)

Permits occasional investigation of different subjects in academic study of religion.

RELI3090 - Middle East and Israel in Film

Credits: 3

Focus on film representations of Israel, the Arab world, Turkey and Iran. Studies religion and society, common human aspirations, modalities of social and other conflicts through screening of feature and short films and discusses issues raised by historical, political, social, cultural and religious tensions and considerations in this region.

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: WA or COM1.

RELI3110 - Bible and Archaeology

Credits: 3

An archaeological survey illuminating the historical, theological, and cultural landscape of ancient Near East and the Mediterranean world. Examines how archaeology contributes to the understanding of the peoples, texts and religious movements of the Old Testament/Hebrew Bible and the New Testament.

Prerequisite: RELI 1000 or RELI 2110 or RELI 2150 or ANTH 1300 or ANTH 1450.

RELI3200 - Religion and American Culture

Credits: 3

Explores the role of religion in the history of American culture. It considers how developments in American religious history have reflected larger trends in American society, and how those developments have in turn helped shape American society and culture.

USP 2003-2014 Code U3G

USP 2015 Code U5H

A&S College Core 2015 ASD,ASG

Prerequisite: one lower-level course in religious studies, American history, or American studies.

RELI3220 - History of the Modern Middle East

Credits: 3

Surveys the Middle East from 1700 to the present. Emphasizes the demise of the Ottoman Empire, the rise of domination by European colonial powers, transformations in political, social, religious and cultural life, the rise of nationalist movements, the influence of oil, the growth of Islamist political groups and the Israeli-Palestinian conflict.

Cross Listed HIST 3220.

USP 2003-2014 Code [G< >(none)]

Prerequisite: 6 hours or HIST, RELI, or INST.

RELI3225 - Apocalypse: The History of the End

Credits: 3

The apocalyptic End of Time has become the subject of much speculation, especially since the beginning of the new millennium. Analyzes such speculation as a religious phenomenon in both ancient and modern religions, and attempts to understand its social, cultural and personal impacts.

Prerequisite: junior standing.

RELI3230 - Early Christianity

Credits: 3

Considers the development of the Christian religion from a small Jewish sect to its place as the official religion of the Roman Empire and beyond. It examines the development of creeds, doctrines and institutions, placing them within their historical context.

Prerequisite: RELI 1000, RELI 2225/HIST 2225, or HIST 2113.

RELI3235 - Medieval Christianity

Credits: 3

Traces the development of 'Christendom' in Europe between about 500

Cross Listed HIST 3235.

Prerequisite: RELI 2225/HIST 2225, HIST 1110, or RELI 1000.

RELI3240 - Reformation and Enlightenment Christianity

Credits: 3

The years between about 1500 and 1800 saw the permanent dismantling of Christianity in the West as a unified force, as Protestantism brought new ways of viewing the relationship between God and humanity. Once the fragmentation began, it accelerated rapidly as Enlightenment thinking challenged Christianity in new and complex ways.

Cross Listed Cross listed with: HIST 3240.

Prerequisite: RELI 1000, RELI 2225/HIST 2225.

RELI3245 - Christianity Since Darwin

Credits: 3

Christianity has faced many challenges since the mid-nineteenth century, including the thought of Darwin, Marx and Freud, to name a few. Christianity has faced those challenges in various ways and its practitioners continue to re-examine its understandings of a vastly changed and continually changing world.

USP 2015 Code U5C2

Prerequisite: COM1, and RELI 1000 or RELI 2225/HIST 2225 or HIST 1120 or consent of instructor.

RELI3260 - African Spirits in the New World

Credits: 3

Begins with Yoruba roots in Africa and travels with the African Diaspora focusing on spirit possession in Haitian Vodou, Cuban Santeria, Jamaican Revival Zion, Jamaican Rastafarianism, Brazilian Candomblé, and "Black Church" in the United States using ethnography and postcolonial theory of religious studies.

Cross Listed AAST 3260.

USP 2003-2014 Code U3CH,U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

Prerequisite: AAST 1000 or any AAST 2000 level course or RELI 1000.

RELI3320 - Eastern Thought

Credits: 3

Surveys some of the major concepts in Zen, Hinduism, Buddhism, Taoism and Confucianism.

Cross Listed PHIL 3320.

USP 2015 Code U5H

Prerequisite: 3 hours of philosophy.

RELI3340 - Mysticism, Yoga, and Enlightenment in the East

Credits: 3

Explores Hindu and Buddhist concepts of enlightenment and the means for reaching them through mysticism and yoga. Study the texts and beliefs and their translation into practice.

Prerequisite: WB and CH.

RELI3350 - Religion and Globalization in India

Credits: 3

Learn about religious pluralism in India. In particular, how globalization has impacted the ways people from many different religions, caste, class, and educational backgrounds, ethnicities, and regions experience and practice their religions in 21st century India.

Prerequisite: RELI 1000 or RELI 2050.

RELI3400 - Religion in the American West

Credits: 3

Considers the religious history of the American West from Pre-Columbian times to the present, paying special attention to the ways the West affects religious belief and practice. Themes of contact and conflict will be particularly important in our study, as will the changing perceptions of the West.

USP 2003-2014 Code U3CH,U3D

A&S College Core 2015 ASD

Prerequisite: USP WB course.

RELI4000 - Theories of Religion

Credits: 3

Investigates different theories proposed to explain religion and methods used to investigate them. Pays primary attention to influential thinkers and theorists of the past century.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: RELI 1000, and 12 additional hours in Religious Studies, at least 6 of which must be at the 3000-level or above, junior standing.

RELI4090 - Film and Religion

Credits: 3

Movies use religion to convey messages; they debate religious issues and use religion to debate non-religious issues. This course analyzes how film makers use religion and religious themes to transform religions into advocates for social issues and to shape religion's role in society. Popular films drawn from many genres.

Cross Listed ENGL 4090.

Prerequisite: 6 hours of 2000-level or higher literature courses or religion courses.

RELI4100 - African American Religious Culture

Credits: 3

This mid-level writing-intensive seminar is a comparative study of African American religious celebration, primarily in the context of Afro-Christianity, but touching on Islam, Candomblé, "Voodoo," Santeria, and Rastafarianism.

Cross Listed AAST 4100.

USP 2003-2014 Code U3D,U3WC

USP 2015 Code U5C3

A&S College Core 2015 ASD

Prerequisite: WB and one of the following: AAST 1000 or any AAST 2000-level course or RELI 1000.

RELI4113 - Medieval Religious Dissent

Credits: 3

Religious dissent in the Middle Ages included what might be called heresy, but also encompasses such marginal groups as Jews and witches. Examines development of orthodoxy and persecution of religious diversity between eleventh and 16th centuries within the historical context of the times.

Cross Listed HIST 4113.

Prerequisite: 9 hours of HIST or RELI.

RELI4160 - Moses, Jesus, and Muhammad

Credits: 3

Examines the biographies of Moses, Jesus and Muhammad found in works of history, in sacred literature, in hagiography, ritual and popular culture. Demonstrates strategies used to recover their historical personalities and how they are portrayed in multiple religious traditions, offering insights into how each have shaped our world.

USP 2003-2014 Code U3CH

Prerequisite: RELI 1000 or junior standing.

RELI4174 - Judaism from Ezra to Jesus

Credits: 3

This course focuses on the religious and historical development of Judaism during the centuries between the end of the Old Testament and the New Testament, studying the arrival of Greek and then Roman culture and the changes Judaism underwent during that time that endure today.

Cross Listed HIST 4174.

Prerequisite: WB or COM2, and RELI 1000 or RELI 2110.

RELI4175 - Judaism at the Dawn of Christianity

Credits: 3

Judaism is the only Mediterranean religion that was practiced in the ancient world as well as in Late Antiquity and beyond. This course helps students analyze how Judaism was able to change and adapt at key moments to provide its adherents with an active, living religion that addressed their needs.

Cross Listed HIST 4175.

Prerequisite: RELI 1000 or RELI 2110, and junior standing.

RELI4190 - Women and the Bible

Credits: 3

Explores depictions, roles and statuses of women found in the Bible, both Old and New Testaments. Introduces ways biblical portraits of women have been used in recent centuries to develop theologies of, by and for women.

Prerequisite: junior standing or permission of instructor.

RELI4260 - Judaism in the Modern World

Credits: 3

Studies Jews and Judaism from pre-modern period to present. Traces migration of Jews from Europe to the USA and Israel, while examining radical changes that transform the religion.

Prerequisite: junior standing.

RELI4310 - Seminar in Asian Religions

Credits: 3

Max Credit (Max. 9)

Students will be introduced to a number of indigenous and analytical frameworks and interdisciplinary theories and methods in the examination of a specialized topic in the study of Asian religions. Specific focus of the course varies by semester.

Prerequisite: RELI 2050 or junior standing.

RELI4335 - Women and Islam

Credits: 3

Examines women's lives in Islamic societies from the seventh century to the present in the Middle East and throughout the world. Themes include women's position in Islamic law, society and culture, Western images of Muslim women, veiling and Islamist movements, theoretical readings on power, gender and agency.

Cross Listed HIST 4335 and GWST 4335.

Prerequisite: 9 hours of HIST, WMST, INST, or RELI.

RELI4500 - Special Topics in Religious Studies

Credits: 1-3

Max Credit (Max. 12)

Presents from semester to semester a variety of important topics in the academic study of religion.

Prerequisite: RELI 1000.

RELI4635 - Religious Studies Departmental Honors

Credits: 0

Satisfactory completion of this course indicates that Religious Studies Departmental Honors have been conferred on the student.

Prerequisite: Consent of Religious Studies thesis chairperson; demonstration of competency in a foreign language equivalent to a fourth-semester college level or concurrent enrollment in a fourth-semester foreign language course.

RELI4900 - Independent Study in Religion

Credits: 1-3

Max Credit (Max. 6)

Primarily for juniors and seniors who can benefit from independent study of topics in religious studies not covered in course offerings. Guidance provided by faculty member in the appropriate field.

Prerequisite: 9 hours in religious studies and consent of instructor.

RELI4930 - Thesis

Credits: 0-6

Max Credit (Max. 9)

Directed research and writing supervision of Religious Studies thesis chairperson. Results in production of Religious Studies thesis.

Prerequisite: Successful completion of or concurrent enrollment in RELI 4000, advanced undergraduate status in good academic standing, consent of Religious Studies thesis chairperson and department chair.

RELI4960 - International Field Course

Credits: 1-6

Max Credit (Max. 12)

This course takes students away from campus to locations outside the United States to study religion on site in its geographic and cultural context. Destination and specific content varies, but the course always requires attention to the connections between world events and local experiences.

A&S College Core 2015 ASG

Prerequisite: Junior standing; WA or COM1; other prerequisites as determined by the instructor.

RELI4961 - Domestic Field Course

Credits: 1-6
Max Credit (Max. 12)

This course takes students away from campus to other locations in the United States to study religion on site in its geographic and cultural context. Destination and specific content varies, but the course always requires attention to the religious, racial, ethnic, and cultural diversity of religion in the United States.

A&S College Core 2015 ASD
Prerequisite: Junior standing, WA or COM1.

Renewable Resources

RNEW1000 - Wyoming Wildlands: Science and Stewardship

Credits: 3
Introduces students to the breadth of Wyoming natural resources and ecosystems. In this class we investigate the science and management of the Wyoming landscape. Students are introduced to the rangelands, wildlife, forests, watersheds, and disturbed lands of Wyoming with an emphasis on understanding the ecology and natural history of the region. Throughout the course, students are exposed to how the extensive ecosystems of the West are managed by public and private groups and how human decisions change the landscape.

USP 2015 Code U5PN

RNEW2100 - Forest Management

Credits: 3
Principles of forest management. Topics include the laws affecting forest management, methods of harvesting wood from forests, fire and insect management, the effects of disturbances on stream flow and nutrient cycling, and the challenges of developing management plans for forests.

Cross Listed ENR 2100.
Prerequisite: LIFE 1101 or LIFE 1010.

RNEW3000 - Tropical Ecology

Credits: 3
Examines the characteristics of tropical ecosystems, how they evolved, their value to humans, their present status, and current issues relating to biodiversity, deforestation, extinction, and conservation.

Prerequisite: LIFE 1101 or LIFE 1010.

RNEW4130 - Applied Remote Sensing for Agricultural Management

Credits: 3
Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed PLNT 4130/GIST 4130.

Prerequisite: QA course and 9 credit hours in student's major field and junior/senior standing or permission of instructor.

RNEW4400 - Invasive Plant Ecology

Credits: 3

Ecological impacts of invasive, non-indigenous plant species, the ecological, genetic and evolutionary hypotheses for invasiveness, as well as management strategies for invasive plant species.

Cross Listed RNEW 4400, PLNT 4400, RNEW 5400, PLNT 5400

Dual Listed RNEW 5400.

Prerequisite: LIFE 3400.

RNEW4775 - Forest Ecology

Credits: 4

Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed BOT 4775.

Prerequisite: LIFE 3400.

RNEW4800 - Undergraduate Research

Credits: 1-3

Max Credit (Max. 18)

Undergraduate student research can be an important component in the intellectual and professional development of future scientists and land managers. Undergraduate students working with a faculty member in a research capacity can register for up to 3 credit hours per semester. The student and faculty member will identify an academic outcome that is associated with their research effort, such as a research paper, oral presentation, or poster session at an appropriate venue. Instructor's permission required.

RNEW4990 - Topics in:

Credits: 1-4

Max Credit (Max. 8)

Special topics pertaining to renewable natural resource management. Intended to accommodate instruction in various specialized subjects not offered on a regular basis. Students may enroll in more than one section of this course provided topics are different.

Dual Listed RNEW 5990.

Prerequisite: consent of the instructor to pursue study of the topic.

RNEW5200 - Spatial Analysis of Watersheds and Ecosystems

Credits: 3

Covers topics related to analysis of spatial and temporal processes at watershed and ecosystem scales using Geographic Information Systems (GIS). Topics include land classification and suitability analysis interpolation techniques, terrain analysis, model integration, and visualization. Sources of potential error and ramifications are examined.

Prerequisite: GEOG 4210 or equivalent.

RNEW5400 - Invasive Plant Ecology

Credits: 3

Ecological impacts of invasive, non-indigenous plant species, the ecological, genetic and evolutionary hypotheses for invasiveness as well as management strategies for invasive plant species.

Cross Listed PLNT 5400.

Dual Listed RNEW 4400.

Prerequisite: LIFE 3400.

RNEW5500 - Stable Isotope Ecology

Credits: 3

Application of stable isotope measurements to organismal and systems ecology. Lectures address the theory underlying the use of stable isotopes at natural abundance levels as tracers and integrators of important physiological and ecological processes. Laboratory exercises provide hands on experience with stable isotope ratio measurements.

Prerequisite: graduate classification in a natural science or agriculture discipline.

RNEW5540 - Shrubland Ecology

Credits: 3

Ecology of shrub-dominated lands and shrub species in grasslands. Location, importance and environmental constraints of shrub distributions. Topics include herbivory, woody plant invasions, competitive interactions, monitoring and population dynamics. Emphasizes familiarity with scientific literature.

Prerequisite: RNEW 3000, BOT 4700.

RNEW5545 - Shrub Ecology Trip

Credits: 2

Field study in North American shrublands of western US ecosystems. Participants learn from researchers, managers, field activities, required readings and written assignments. Participants will be camping and a fee is required.

Prerequisite: RNEW 5540.

RNEW5990 - Topics In Renewable Resources

Credits: 1-4
Max Credit (Max. 8)

Special topics pertaining to renewable natural resource management. Intended to accommodate instruction in various specialized subjects not offered on a regular basis. Students may enroll in more than one section of this course provided topics are different.

Dual Listed RNEW 4990.

Secondary Education

EDSE1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

EDSE3010 - Contemporary Philosophies in Technical Education

Credits: 1-3
Max Credit (Max. 3)

Provides industrial education students with a sound contemporary philosophy for curriculum development and instructional planning. Emphasis is placed on current programs, philosophies, history, youth group development and advisery committee activities.

When Offered (Offered through UW/CC)
Former Course Number [EDIE 3010]

Prerequisite: 8 credit hours of education course work.

EDSE3020 - Facilities and Advisery Management

Credits: 2-4
Max Credit (Max. 4)

Students engage in identifying RFP applications and applies for grants that are geared toward the Career Technical classroom as well as the process of assembling and managing an advisory committee, a required component of all CTE programs. Prepares Career Technical Teachers for the non-teaching requirements associated within CTE programs

Prerequisite: Junior standing in Career Technical Education and completion of Com 1 level writing course.

EDSE3030 - Construction Technology

Credits: 3

Introduces students to the principles and practices of the construction industry, through a combination of classroom and laboratory experiences. In addition, this course outlines the construction content area as taught in the technical education classroom and emphasizes development of curricula materials.

When Offered (Offered through UW/CC)

Prerequisite: 12 hours of technical content courses from an approved list.

EDSE3040 - Energy and Power Technology

Credits: 3

A conceptual analysis and synthesis of energy requirements and sources, with emphasis on alternate energy systems. Analysis of energy conversion and the application of mechanical, fluid, thermal and electrical power systems.

When Offered (Offered through UW/CC)

Former Course Number [EDIE 3040]

Prerequisite: PHYS 1050 or PHYS 1110.

EDSE3050 - Communications Technology

Credits: 3

Designed to give students knowledge and experience in the major concepts of graphic communications, including: communication, design, image generation and production practices of modern industry. Also covers curricular and pedagogical concerns related to teaching communications technology at the secondary school level.

When Offered (Offered through UW/CC)

Former Course Number [EDIE 3050]

Prerequisite: 12 credit hours of technical content courses from an approved list.

EDSE3270 - Subject Matter Specific Methods I: Secondary English Education

Credits: 3-6

Max Credit (Max. 6)

Introduction of content and pedagogy in English Education.

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; concurrent enrollment in EDSE 4270.

EDSE3271 - Subject Matter Specific Methods I: Secondary Mathematics Education

Credits: 3-6

Max Credit (Max. 6)

Introduction of content and pedagogy in Mathematics Education.

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; concurrent enrollment in EDSE 4271.

EDSE3272 - Subject Matter Specific Methods I: Art Education K-12

Credits: 3-6
Max Credit (Max. 6)

Introduction of content and pedagogy in Art Education K-12.

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; concurrent enrollment in EDSE 4272.

EDSE3273 - Subject Matter Specific Methods I: Secondary Social Studies Education

Credits: 3-6
Max Credit (Max. 6)

Introduction of content and pedagogy in Secondary Social Studies Education.

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; concurrent enrollment in EDSE 4273.

EDSE3275 - Subject Matter Specific Methods I: Secondary Science Education

Credits: 3-6
Max Credit (Max. 6)

Introduction of content and pedagogy in Science Education.

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; concurrent enrollment in EDSE 4275.

EDSE3276 - Subject Matter Specific Methods I: Secondary Modern Language Education

Credits: 3-6
Max Credit (Max. 6)

Introduction of content and pedagogy in Modern Language Education.

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; concurrent enrollment in EDSE 4276.

EDSE3277 - Tech Ed Methods I: Intro

Credits: 3-6
Max Credit (Max. 6)

Subject Matter Specific Methods I: Secondary Career and Technical Education. 3 Cr Introduction of content and pedagogy in Career Technical Education.

Prerequisite: grade of C or better in EDST 3100; Background check on file; 2.750 overall UW cumulative GPA; concurrent enrollment in EDSE 4277.

EDSE3278 - Subject Matter Specific Methods I: Secondary Agriculture Education

Credits: 3-6
Max Credit (Max. 6)

Introduction of content and pedagogy in Agriculture Education.

USP 2003-2014 Code U3WC

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; concurrent enrollment in EDSE 4278.

EDSE3540 - Teaching Reading and Study Strategies in the Content Areas

Credits: 2-4

Provides students majoring in secondary education programs with a knowledge of reading factors as they relate to various disciplines. Content includes estimating students' reading ability, techniques for vocabulary development, questioning strategies, and developing reading related study skills.

Former Course Number [EDCI 3540]

Prerequisite: junior standing and minimum 12 hours in discipline area.

EDSE4070 - Educational Trends in (TOPIC)

Credits: 1-3
Max Credit (Max. 6)

Provides reading, discussion, research and appraisal of new methods, materials, equipment and experimental programs concerned with improvement of education as it pertains to areas of secondary education: agricultural, art, English, mathematics, middle school, modern language, science, and social studies education. The maximum allowable credit applies to the total offerings under this number.

Former Course Number [EDAS 4070, EDVE 4070]

Prerequisite: 6 hours of education.

EDSE4270 - Subject Matter Specific Methods II: Secondary English Education

Credits: 3-6
Max Credit (Max. 6)

Advanced content and pedagogy in English Education.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; 2.500 in content GPA (grade of C or better in specific content courses required in major); concurrent enrollment in EDSE 3270/EDCI 5250.

EDSE4271 - Subject Matter Specific Methods II: Secondary Mathematics Education

Credits: 3-6
Max Credit (Max. 6)

Advanced content and pedagogy in Mathematics Education.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; 2.500 in content GPA (grade of C or better in specific content courses required in major); concurrent enrollment in EDSE 3271/EDCI 5250.

EDSE4272 - Subject Matter Specific Methods II: Art Education K-12

Credits: 3-6
Max Credit (Max. 6)

Advanced content and pedagogy in Art Education.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; 2.500 in content GPA (grade of C or better in specific content courses required in major); concurrent enrollment in EDSE 3272/EDCI 5250.

EDSE4273 - Subject Matter Specific Methods II: Secondary Social Studies Education

Credits: 3-6
Max Credit (Max. 6)

Advanced content and pedagogy in Social Studies Education.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative

GPA; 2.500 in content GPA (grade of C or better in specific content courses required in major); concurrent enrollment in EDSE 3273/EDCI 5250.

EDSE4274 - Subject Matter Specific Methods II: Music Education K-12

Credits: 3-6
Max Credit (Max. 6)

Advanced content and pedagogy in Music Education.

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; 2.500 in content GPA (grade of C or better in specific content courses required in major); concurrent enrollment in EDSE 3274/EDCI 5250.

EDSE4275 - Subject Matter Specific Methods II: Secondary Science Education

Credits: 3-6
Max Credit (Max. 6)

Advanced content and pedagogy in Science Education.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; 2.500 in content GPA (grade of C or better in specific content courses required in major); concurrent enrollment in EDSE 3275/EDCI 5250.

EDSE4276 - Subject Matter Specific Methods II: Secondary Modern Language Education

Credits: 3-6
Max Credit (Max. 6)

Advanced content and pedagogy in Modern Language Education.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; 2.500 in content GPA (grade of C or better in specific content courses required in major); concurrent enrollment in EDSE 3276/EDCI 5250.

EDSE4277 - Subject Matter Specific Methods II: Secondary Technology Education

Credits: 3-6
Max Credit (Max. 6)

Advanced content and pedagogy in Industrial Technology Education.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; 2.500 in content GPA (grade of C or better in specific content courses required in major); concurrent enrollment in EDSE 3277/EDCI 5250.

EDSE4278 - Subject Matter Specific Methods II: Secondary Agriculture Education

Credits: 3-6

Max Credit (Max. 6)

Advanced content and pedagogy in Agriculture Education.

USP 2015 Code U5C3

Prerequisite: grade of C or better in EDST 3100/EDCI 5550; Background check on file; 2.750 overall UW cumulative GPA; 2.500 in content GPA (grade of C or better in specific content courses required in major); concurrent enrollment in EDSE 3278/EDCI 5250.

EDSE4279 - Subject Matter Specific Methods II: Biological Science Methods for Agricultural Education Majors

Credits: 3

Provide meaningful learning in preparation for a professional career in a secondary school setting, teaching life science courses in addition to agriculture classes. Students will be engaged as active participants in discussions and hands-on science activities. The course is designed to offer experiences to enhance pedagogical content knowledge as well as skills to successfully make science education accessible for all students. Special attention will be given to creating a learning environment that fosters the development of inquiry skills and safety both in the classroom and field settings.

Prerequisite: Grade of C or better in EDST 3100, 2.750 minimum GPA in major content courses, grade C or better in specific content courses required in the Secondary Biology Endorsement.

EDSE4280 - Subject Matter Specific Methods: Computer Science

Credits: 2

Introduction of content and pedagogy in Computer Science Education. Includes pedagogy, pedagogical content knowledge, and contact curriculums for teaching computer science at secondary school levels. A variety of instructional procedures will be employed including group work, modeling, lab work, micro-teaching, and lecture/demonstration.

Prerequisite: COSC 3100 or concurrent enrollment and COSC 3020.

EDSE4500 - Residency in Teaching

Credits: 1-16

Max Credit (1-16; Max. 24 based on Transfer Student transcript evaluation)

Comprises the final professional academic semester of the teacher education program. A full-time residency, including a period of being intensively mentored and coached, a period of independent teaching and a period of team teaching.

Cross Listed EDEL 4500.

Former Course Number [EDUC 4500]

Prerequisite: 2.750 cumulative GPA, 2.500 GPA in major content courses, completion of all content courses, successful completion of Phase IIIa specific pedagogy and practicum, complete review of the prospective teacher's record.

EDSE4550 - Residency Applications and Synthesis

Credits: 3

The purpose of this course is for the student to demonstrate professional competency in planning for, implementing, assessing the success of, and reflecting upon a series of cohesive lessons for the secondary classroom through the assignments provided.

Prerequisite: Requires an active Student Teaching placement. And

A grade of "C" or better in EDSE 42XX (secondary content-appropriate methods course)

Corequisite: EDSE 4500

EDSE4900 - Best Practices Active Learning

Credits: 1

This course is a seminar aimed at discussing active learning in large-scale classrooms and best practices for engaging students. The target audience for this course are post-baccs, education majors, and undergraduates serving as learning assistants in large classrooms. Having some in-class teaching experience is advantageous but not necessary.

Dual Listed EDSE 5900.

Restricted Restricted to LAMP Scholar Learning Assistants and Supplemental Instructors (LeaRN Program).

EDSE4975 - Independent Study

Credits: 1-3

Max Credit (Max. 6)

Primarily for upper-division students who can benefit from independent study with minimal supervision. Given to allow interested students to pursue specific aspects of curriculum and instruction. EDEL 4975.

Cross Listed EDEL 4975.

Former Course Number [EDCI 4975]

Prerequisite: 12 hours of education courses and consent of instructor.

EDSE5900 - Best Practices Active Learning

Credits: 1

This course is a seminar aimed at discussing active learning in large-scale classrooms and best practices for engaging students. The target audience for this course are post-baccs, education majors, and undergraduates serving as learning

assistants in large classrooms. Having some in-class teaching experience is advantageous but not necessary.

Dual Listed EDSE 4900.

Restricted Restricted to LAMP Scholar Learning Assistants and Supplemental Instructors (LeaRN Program).

Science Education

ESCI5100 - Science Education Research Colloquium

Credits: 1

The overarching goal of this graduate course is for Ph. D. students to be exposed to the most recent research methods, results, and implications of research on science education.

Prerequisite: Graduate standing.

ESCI5200 - Contemporary Science Education Research

Credits: 3

Develop a deep understanding of, and become conversant in, the current trends in research methodology and contemporary scholarly literature in science education research.

Prerequisite: Graduate standing.

ESCI5250 - Cognition and Learning in Science and Math Education

Credits: 3

Develop a deep understanding of, and become conversant in, the current learning sciences literature of cognition and learning focusing on how students learn science and mathematics.

Prerequisite: Graduate standing.

ESCI5300 - Research in Science Education I

Credits: 3

Students develop a deep understanding of, and become conversant in, contemporary research methods in science education. This course focuses on identifying research questions based on gaps in the literature, designing strategies to collect quantitative and/or qualitative evidence, and conducting the first phases of data collections and analysis.

Prerequisite: Graduate standing.

ESCI5350 - Research in Science Education II

Credits: 3

Part two of the Research in Science Education sequence. Building on the research started in ESCI 5300, students finalize analysis, develop findings, conclusions and implications, and create a viable journal article manuscript.

Prerequisite: Graduate standing and ESCI 5300.

ESCI5600 - History and Philosophy of Science and Mathematics Education

Credits: 3

Focuses on key individuals, theories and events of the past century which have contributed to the formation of current views, ideas, theories, and practices in mathematics and science education.

Prerequisite: Graduate student status.

ESCI5610 - Informal Science Learning Environment

Credits: 3

This course examines the literature, issues and opportunities related to informal science education environments, such as museums, planetariums, and extracurricular K-12 organizations.

Prerequisite: Graduate standing.

ESCI5630 - Science Teacher Ed & K12 Professional Development

Credits: 3

Addresses philosophies, research, theories and current issues related to pre-service science teacher education and in-service science teacher professional development. This course fulfills core requirements in the Science Education PhD program option.

Prerequisite: Graduate student status.

Social Work

SOWK1900 - Women and Leadership

Credits: 3

Students examine theoretical, historical, and cultural aspects of leadership, grassroots women's leadership, values in leadership, gender differences in leadership styles, and practical applications of leadership skills through oral communication and information literacy. Individual and collaborative work is expected.

Cross Listed GWST 1900.

USP 2003-2014 Code U3L,U3O

Prerequisite: one course in women's studies.

SOWK2000 - Introduction to Social Work

Credits: 3

Introduces social work and social welfare through an overview of the history, philosophy, ethics, values, methods, and

fields of practice to generalist social work.

Former Course Number [3000]

Prerequisite: Sophomore standing or higher and completion of USP-C2 with a grade of C or higher.

SOWK3530 - Human Behavior and the Social Environment I

Credits: 3

Covers theories and knowledge of human bio-psycho-social-spiritual development and social interactions within a systems framework. Introduces theories of individuals and families and their development. Paradigms of culture, marginalization and oppression are examined.

USP 2003-2014 Code U3CS

Prerequisite: admitted social work major status.

SOWK3540 - Human Behavior and Social Environment II

Credits: 3

Covers theories and knowledge of human bio-psycho-social-spiritual development and social interactions within a systems framework, with a focus on groups, communities, organizations and institutions.

USP 2003-2014 Code U3CS

Prerequisite: SOWK 3530 with a C or better and admitted social work major status.

SOWK3630 - Generalist Social Work Practice I, Individual and Families

Credits: 3

Introduces generalist social work practice at all systems' levels, with focus on individuals and families. It covers the nature of social work practice, theoretical perspectives, ethics and values, engagement, assessment, intervention and evaluation processes and skills.

Prerequisite: admitted social work major status.

SOWK3640 - Generalist Social Work Practice II, Groups

Credits: 3

Focuses on group work within the generalist social work perspective, covering theoretical perspectives, ethics and values, and problem-solving skills applied to task and treatment groups.

Prerequisite: SOWK 3630 and SOWK 3530 with a C or better and admitted major status.

SOWK3645 - Ethical Social Work Practice

Credits: 3

Focuses on the ethical principles that undergird the practice of social work, addresses how to practice ethically, and explores the process of ethical decision-making. Social work practice with various client systems will be considered, as well as practice in varied settings.

SOWK3650 - Generalist Social Work Practice III; Communities and Organizations

Credits: 3

Teaches engagement, assessment, intervention and evaluation with organizations, communities and institutions within the generalist social work perspective.

Prerequisite: SOWK 3630 with a C or better; SOWK 3540 pre or concurrent; admitted social work major status.

SOWK4020 - Disability Studies Theory and Practice

Credits: 3

Explores the interdisciplinary nature of disability studies theory and scholarship, including investigation of embodied knowledge, cultural meanings, and socio-political practices related to disability. Students will develop in-depth critical disability research papers and deliver accessible, professional presentations.

Cross Listed WIND 4020.

Dual Listed SOWK 5020

USP 2003-2014 Code U3CS

USP 2015 Code U5C3

Prerequisite: WIND 2100 or WB/COM2.

SOWK4060 - Diversity and Difference in Social Work Practice

Credits: 3

Practice class examines social works' roles and issues related to human diversity. Social work values and ethics and social and economic justice are explored throughout.

USP 2003-2014 Code U3D

Prerequisite: admitted social work major status.

SOWK4083 - Social Work and Health Care

Credits: 3

Max Credit 3

Identifies and addresses social work issues related to health, such as medical social work, public health, and health promotion.

Prerequisite: Any admitted BSW/MSW student; OR permission of instructor, junior standing, and completion of a USP-COM2 course. Priority given to admitted social work students.

SOWK4084 - Professional Social Work Practice: Alcohol and Other Drugs

Credits: 3

Examines alcohol and substance abuse and social work's role in varied practice settings. Issues explored include medical considerations in alcohol abuse, social and familial challenges, as well as social work values and ethics, and concern for populations-at-risk.

Dual Listed SOWK 5084.

Prerequisite: SOWK 3630 and Admitted Major status; a WB or COM2 course and junior standing for non-social work majors.

SOWK4480 - Introduction to Aging Services

Credits: 3

Surveys issues in aging and social work's role, status and function in the field of gerontology.

Prerequisite: SOWK 2000 or consent of instructor.

SOWK4550 - Child Welfare Services

Credits: 3

Examines issues of child and family welfare in the context of national, state, and local policy and practice. Social and economic justice are examined as they relate to interventions with children and families.

Dual Listed SOWK 5550.

Former Course Number [3550]

Prerequisite: SOWK 2000; SOWK 3530.

SOWK4560 - Social Work Research

Credits: 3

Max Credit 3

Introduces social work research and practice evaluation. Prepares students to use research in practice.

Restricted Include: SOWK students (= admitted majors), Exclude: Freshman & Sophomore class standing

Prerequisite: Admitted social work major status.

SOWK4570 - Research-Informed Practice

Credits: 3

Learn about and engage in methods of research applicable to their social work practice. Competence in methods such as single system design and program evaluation will be assessed in this course.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: SOWK 4560 with a C or better and admitted social work major status.

SOWK4780 - Seminar: _____

Credits: 1-9

Max Credit (Max. 15)

Consideration of special topics of current interest in social work. May be repeated for a maximum of 15 hours credit when the seminar topic is different. Registration priority will be given to admitted social work students. Dual listed with SOWK 5800

Dual Listed SOWK 5800

Prerequisite: Any admitted BSW student; OR consent of instructor and junior standing with completion of a USP-COM 2 course.

SOWK4850 - Human Rights, Social Justice and Social Policy

Credits: 3

Examines human rights, social welfare policy, and social, political and economic justice, as well as systems that oppress and create injustice, both in the US and internationally. A focus of the course will be the analysis of social welfare policy as it affects social justice issues.

Restricted Include: BSW-SOWK major, Exclude: Freshman & Sophomore class standings

Prerequisite: SOWK 4060 and admitted social work major status

SOWK4881 - International Social Welfare and Social Development

Credits: 3

Examines the basic framework of social welfare analysis and social development programming in the international arena, employing a multinational comparative analysis approach to explore the wide array of responses to social need across the globe. Students employ multinational comparative analyses to an area of social concern.

Cross Listed INST 4881.

Dual Listed SOWK 5881

USP 2003-2014 Code U3G

Prerequisite: POLS 1000; ECON 1010 recommended.

SOWK4980 - Independent Study

Credits: 1-3

Max Credit (Max. 6)

Consideration of topics of current social work interest in consultation with a member of the faculty.

Prerequisite: advanced major status and consent of instructor.

SOWK4990 - Social Work Practicum

Credits: 5-10

Max Credit (Max. 10)

Represents the culmination of preparation for entry level generalist social work practice. Supervised practice in the knowledge, values and skills learned in the classroom.

Prerequisite: SOWK 3640, SOWK 3650 and application to the field program.

SOWK4991 - BSW Field Seminar I

Credits: 2

Develops and supports student integration of classroom and field practicum experiences in a final demonstration of competencies for the beginning practitioner. This course is taken in Fall, concurrent with SOWK 4990, Field Practicum.

Prerequisite: concurrent enrollment in SOWK 4990.

SOWK4992 - BSW Field Seminar II

Credits: 2

Develops and supports student integration of classroom and field practicum experiences in a final demonstration of competencies for the beginning practitioner.

Prerequisite: taken concurrently with SOWK 4990, Field Practicum.

SOWK5020 - Disability Studies Theory and Practice

Credits: 3

Explores the interdisciplinary nature of disability studies theory and scholarship, including investigation of embodied knowledge, cultural meanings, and socio-political practices related to disability. Students will develop in-depth critical disability research papers and deliver accessible, professional presentations.

Cross Listed WIND 5020.

Dual Listed SOWK 4020

USP 2015 Code U5C3

SOWK5081 - Assessment and the DSM

Credits: 3

Through a psychiatric social work lens students will become familiar with the process of conducting a diagnostic interview, writing psychiatric assessment including a mental status exam and formulating a diagnosis using the Diagnostic and Statistical Manual of Mental Disorders. This course assumes some knowledge of mental health and mental illness.

Prerequisite: graduate standing.

SOWK5084 - Professional Social Work Practice: Alcohol and Other Drugs

Credits: 3

Examines alcohol and substance abuse and social work's role in varied practice settings. Issues explored include medical considerations in alcohol abuse, social and familial challenges, as well as social work values and ethics, and concern for populations-at-risk.

Dual Listed SOWK 4084.

Prerequisite: SOWK 3630 and Admitted Major status; a WB or COM2 course and junior standing for non-social work majors.

SOWK5100 - Principles and Philosophy of Social Work

Credits: 3

Explores the history, traditions, ethics, purpose, philosophy, and knowledge base of the social work profession. Introduces the 10 core competencies of the MSW curriculum and the generalist social work perspective in rural settings using the problem-solving approach.

Prerequisite: admission into the MSW program.

SOWK5115 - Social Welfare Policy: Human Rights and Social Justice

Credits: 3

Examines human rights and social and economic justice from a social work perspective, as well as systems that oppress and create injustice in the US and internationally.

Prerequisite: admission to the MSW program.

SOWK5120 - MSW Foundation Field Seminar I

Credits: 1

Develops and supports student integration of classroom and field practicum experiences in a seminar-style discussion of core competencies for the foundation year MSW student.

Prerequisite: taken concurrently with SOWK 5450.

SOWK5121 - MSW Foundation Field Seminar II

Credits: 1

Develops and supports student integration of classroom and field practicum experiences in the 2nd seminar-style discussion course of core competence for the foundation year MSW student.

Prerequisite: taken concurrently with SOWK 5460.

SOWK5200 - Human Beh & Soc Environmt I

Credits: 3

Max Credit 3

A theoretical examination of human behavior and the social environment, focusing on individuals, families and small groups in the context of human life cycle development. Emphasizes issues of human diversity and social and economic justice in the context of the environment.

Prerequisite: SOWK 5100 and admission into the MSW program.

SOWK5210 - Human Behavior and the Social Environment II

Credits: 3

A theoretical examination of human behavior in the social environment, focusing on groups, communities, organizations and institutions. Emphasizes issues of human diversity and social economic justice.

Prerequisite: SOWK 5200.

SOWK5300 - SW Generalist Practice I

Credits: 3

Immerses beginning students into critical social work theory and social justice practice from a strengths-based perspective, emphasizing diversity/ethics/values/knowledge relative to clients and human service setting in a frontier state, emphasizing a system's framework. Requires beginning mastery of engagement, assessment, intervention, and evaluation.

Prerequisite: Admission into the MSW program.

SOWK5310 - Generalist Social Work Practice II

Credits: 3

Applies social work skills, values and knowledge to the engagement, assessment, intervention and evaluation processes with groups, organizations and communities. Emphasis on ethics and diversity in practice.

Prerequisite: admission into the MSW program; must have completed SOWK 5300.

SOWK5400 - Social Work Generalist Research Methods

Credits: 3

Covers design, implementation and interpretation of research in social work practice settings. Presents methods of program evaluation and practice research at all system levels using both quantitative and qualitative research methodologies.

Prerequisite: admission into the MSW program.

SOWK5450 - Field Practicum I

Credits: 3

Provides the opportunity for students to learn through experience the skills of entry-level generalist social work practice. The course consists of supervised practice, in a community service agency, of social work knowledge, values and skills learned in the classroom.

Prerequisite: Students must have completed, or be concurrently enrolled in, SOWK 5100, SOWK 5200, SOWK 5300, and SOWK 5400.

SOWK5495 - Social Work Research and Analysis

Credits: 3

Designed for MSW advanced standing students to address research methods and analysis in the context of the generalist problemsolving approach.

Prerequisite: admission to the MSW advanced standing program; concurrent enrollment in SOWK 5499.

SOWK5499 - Advanced Generalist Social Justice Practice

Credits: 3

Initiates professional development from BSW practitioner to MSW intergrated advanced generalist practitioner. Course covers theory and practice from a strengths-based perspective, ethics, and values, social justice practice with emphasis on engagement, assessment, intervention, and evaluation. Focus on theory-informed, evidence-based practice models.

Prerequisite: Admission to the MSW advanced standing program.

SOWK5500 - Advanced Policy: Advocacy and Social Action

Credits: 3

Advanced generalist course builds on foundation and advanced year courses to prepare students to conduct comparative and advanced policy analysis and develop practice/ advocacy components. Emphasis is given to policy practice issues that address economic and social justice, diversity, populations at risk, and ethics and values.

Prerequisite: SOWK 5310 and SOWK 5115 or advanced standing.

SOWK5550 - Child Welfare Services

Credits: 3

Examines issues of child and family welfare in the context of national, state, and local policy and practice. Social and economic justice are examined as they relate to interventions with children and families.

Dual Listed SOWK 4550.

Prerequisite: admission to advanced standing or SOWK 5100 and SOWK 5200.

SOWK5600 - Advanced Generalist Practice

Credits: 3

Advanced applications of generalist problem-solving theories and skills in working with individuals and groups in the context of their environment. Issues of ethics, rural practice, diversity, and evaluations of practice addressed throughout the course.

Prerequisite: SOWK 5300 and SOWK 5310 or advanced standing.

SOWK5700 - Advanced Theories and Practice with Children and Families

Credits: 3

Advanced applications of generalist problem-solving theories and skills in working with children and families in the context of their environment. Issues of ethics, rural practice, diversity, and evaluations of practice addressed throughout the course.

Prerequisite: SOWK 5300 and SOWK 5310 or advanced standing.

SOWK5705 - Generalist Practice III: Group

Credits: 3

This course builds on students' generalist practice knowledge by enhancing their conceptual base and practice skills of social group work, encompassing the continuum from treatment to task oriented groups. The course content highlights the strengths oriented values of social group work and its potential for mutual aid and empowerment.

Prerequisite: SOWK 5300 and SOWK 5310 or advanced standing.

SOWK5720 - Leadership Prac in Comm & Orgs

Credits: 3

This course emphasizes advanced understanding and application of models of rural community practice, for promotion of just practice among diverse client systems. Methods and principles of leadership, supervision, and administration in human service organizations are addressed. Special attention is given to adapting models based on ethical considerations and cultural relevance.

Prerequisite: SOWK 5300 , SOWK 5310

SOWK5750 - Applied Research: Practice Evaluation

Credits: 3

This research-informed practice course focuses on the theory and use of small system design and program evaluation to evaluate one's social work practice.

Prerequisite: SOWK 5400.

SOWK5755 - Practice Evaluation

Credits: 1-12
Max Credit (Max. 12)

Complete a non-thesis Plan B practice evaluation paper of quality, working with a committee structure. Must complete a minimum of two credit hours of 5755.

Prerequisite: SOWK 5750; or advanced standing status and SOWK 5495.

SOWK5795 - Rural Health Care Seminar

Credits: 3
Examines social work and rural health and medical care for individuals, families and larger systems through policy, practice, and research. Includes a focus on the health and health care of older adults.

Prerequisite: consent of instructor, graduate standing, participation in WYO HealthCARE Inter-disciplinary rural training grant.

SOWK5800 - Advanced Seminar in Social Work

Credits: 1-3
Max Credit (Max. 15)

Consideration of special topics of current interest in social work. May be repeated for a maximum of 15 hours credit when the seminar topic is different. Registration priority will be given to admitted social work students. Dual listed with SOWK 4780

Dual Listed SOWK 4780
Restricted Include: SOWK-MSW majors, Exclude: undergraduate students

Prerequisite: Any admitted MSW student; OR consent of instructor and graduate standing

SOWK5810 - Working with Children and Families in the Schools

Credits: 3
Enhances knowledge, skills, and values of the generalist social worker serving children of diverse backgrounds and their families in the school and its environment, preparing the social worker for a leadership role in a rural school setting.

Prerequisite: graduate standing.

SOWK5820 - School Social Work

Credits: 1
Builds on the skills developed in SOWK 5810, advancing the knowledge, values and skills necessary for school social

work. Students integrate observations of school social work settings with theory and practice, and personal evaluation, within this seminar. Public school law and policy are highlighted.

Prerequisite: successful completion of SOWK 5810.

SOWK5850 - Advanced Field Practicum

Credits: 2-10

Max Credit (Max. 10)

Provides advanced generalist social work practice experience in a community human service organization. Emphasizes core competencies and advanced generalist practice behaviors in social work ethics, values, theory, skills, practice and research in relation to social work with individuals, groups, families, organizations, and communities.

Prerequisite:

SOWK5855 - MSW Advanced Field Seminar I

Credits: 1

Supports the advanced year MSW student's experience in the field practicum. This course is taken concurrently with SOWK 5850.

Prerequisite: taken concurrently with SOWK 5850.

SOWK5856 - MSW Advanced Field Seminar II

Credits: 1-8

Max Credit (Max. 8)

Supports the advanced year MSW student's experience in the field practicum. To be taken concurrently with SOWK 5850, spring semester.

Prerequisite: SOWK 5855; concurrent with SOWK 5850.

SOWK5881 - International Social Welfare and Social Development

Credits: 3

Examines the basic framework of social welfare analysis and social development programming in the international arena, employing a multinational comparative analysis approach to explore the wide array of responses to social need across the globe. Students employ multinational comparative analyses to an area of social concern.

Cross Listed INST 5881.

Dual Listed SOWK 4881

Prerequisite: POLS 1000; ECON 1010 recommended.

SOWK5887 - American Indian Health

Credits: 3

Studies the impact of federal policy on development of American Indian Health programs and the current status of American Indian health.

Prerequisite: admission into graduate program.

SOWK5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

SOWK5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

SOWK5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Scholarly research that contributes to the social work profession and applied social science fields. Student designs and carries out original research under the supervision of a social work faculty member. Thesis research is done as an individual research project.

Prerequisite: enrollment in a graduate degree program.

SOWK5975 - Independent Study

Credits: 1-3

Max Credit (Max. 3)

In-depth exploration of a social work topic in consultation with a social work faculty member.

Prerequisite: consent of instructor.

Sociology

SOC1000 - Sociological Principles

Credits: 3

Provides a survey of the discipline and foundation for other sociology courses. Explores major areas of interest - ranging from small groups and families to bureaucracies and social movements. Introduces significant concepts and

theories, along with tools of social research. Gives attention to contemporary American society, as well as comparative and historical material.

USP 2003-2014 Code U3CS

USP 2015 Code U5H

SOC1100 - Social Problems and Issues

Credits: 3

Explores various approaches to defining and identifying social problems and applies basic sociological concepts and methods to analysis of selected social problems and issues.

USP 2003-2014 Code U3I,U3L

SOC1350 - American Indians in Contemporary Society

Credits: 3

Survey lecture course. Examines social and cultural issues and concerns of American Indians both on and off the reservations. Additionally, the status of American Indian people within the dominant society and culture are explored.

Cross Listed NAIS 1350.

USP 2003-2014 Code U3CS,U3D

A&S College Core 2015 ASD

SOC2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, STAT 2070, STAT 4220, STAT 5520.

Cross Listed STAT 2070.

USP 2003-2014 Code U3QB

USP 2015 Code U5Q

Former Course Number [2000]

Prerequisite: MATH 1000, MATH 1400 or equivalent.

SOC2350 - Race and Ethnic Relations

Credits: 3

Examines social relations among majority and minority groups by devoting particular attention to race and ethnic relations in the U. S. Encompasses sociological approach to this topic, which emphasizes power structures, economic relationships and cultural traditions historically and today. Devotes attention to social psychological issues, such as prejudice, and social structural issues, such as class inequality.

USP 2003-2014 Code U3D
A&S College Core 2015 ASD
Prerequisite: SOC 1000.

SOC2400 - Criminology

Credits: 3

Generally introduces the nature of crime, statistics on crime, types of criminal behavior and explanations of crime.

Cross Listed CRMJ 2400.

Former Course Number [3300]

Prerequisite: SOC 1000.

SOC2682 - Research Methods in SOC

Credits: 3

Max Credit 3

Introduces students to fundamental issues associated with the application of scientific methods to social science problems. Students examine research designs involving ethnographic, archival, historical, and quantitative methods and how they relate to social science issues.

Cross Listed CRMJ 2685

Restricted Criminal Justice or Sociology majors and minors

Prerequisite: CRMJ 1001 OR SOC 1000

SOC2685 - Research Methods

Credits: 3

Max Credit 3

Introduces students to fundamental issues associated with the application of scientific methods to social science problems. Students examine research designs involving ethnographic, archival, historical, and quantitative methods and how they relate to social science issues.

Cross Listed CRMJ 2685

Restricted Criminal Justice or Sociology majors and minors

Prerequisite: CRMJ 1001 OR SOC 1000

SOC3000 - Social Change

Credits: 3

Studies causes, processes and consequences of structural transformations in historical and comparative perspective. Reviews and assesses forces that account for sociological changes. Explores social change globally as well as in the U. S.

Cross Listed INST 3000.
USP 2003-2014 Code U3G
A&S College Core 2015 ASG
Former Course Number [2100]

Prerequisite: SOC 1000 and junior standing.

SOC3100 - Chinese Society

Credits: 3

Reviews origins and consequences of Chinese revolution in comparative and cultural perspectives. Discusses influence of historical traditions and social structure on individual lives and behavioral patterns.

Cross Listed INST 3100.
USP 2003-2014 Code U3G
Prerequisite: SOC 1000.

SOC3110 - Self and Society

Credits: 3

Considers social behavior at the micro level, emphasizing the influence of society on the individual's thoughts, emotions and behaviors. Topics such as the development of the self over the life course, the self in social interaction, and the role of attitudes and emotions in social interaction are discussed.

Former Course Number [2110]

Prerequisite: SOC 1000 or PSYC 1000.

SOC3140 - Sociology of the Family

Credits: 3

Two major themes of the course are change experienced by the family institution and the centrality of the family in America today. Subjects that are covered include: A brief history of the family in the U. S. , kinship, family structure, mate-selection, marriage, divorce and socialization.

Former Course Number [4100, 4140]

Prerequisite: SOC 1000.

SOC3150 - Collective Behavior and Social Movements

Credits: 3

Analyzes and explains fads, fashions, rumors, riots and mass behavior in light of theoretical frameworks. Studies social movements including blacks, women, labor, religions and students.

Prerequisite: SOC 1000.

SOC3200 - Sociology of Religion

Credits: 3

Introduces various ways sociologists interpret religion. Explores the nature of relationships between religion and society.

Prerequisite: SOC 1000.

SOC3250 - Juvenile Delinquency

Credits: 3

Considers the nature of delinquency, including an analysis of treatment methods and the juvenile justice system.

Cross Listed CRMJ 3250.

Prerequisite: CRMJ 2400/SOC 2400.

SOC3400 - Deviant Behavior

Credits: 3

Examines theory and research relevant to understanding deviant behavior in general and specific types of individual and subcultural deviancy.

Cross Listed CRMJ 3400.

Former Course Number [4200]

Prerequisite: SOC 1000.

SOC3500 - Sociology of Gender

Credits: 3

Explores gender through a cultural and structural approach. The cultural approach emphasizes the variability in social expectations for men and women across time and place; the structural approach analyzes the effect of social institutions such as family, government, education, and the economy of gender.

A&S College Core 2015 ASD

Prerequisite: SOC 1000.

SOC3550 - Medical Sociology

Credits: 3

Considers sociological contributions to diagnosis and treatment of illness. Studies social organization of health professions and agencies.

Prerequisite: SOC 1000.

SOC3605 - Sociology of Education

Credits: 3

An introductory overview of the principal areas of inquiry in the field. Students learn relevant theories and concepts, principal methodological approaches as well as important current issues in education. Comparative analysis may focus on historical comparisons, national/ global comparisons, U. S. regional, and/or variant educational systems at the local level.

Prerequisite: SOC 1000.

SOC3640 - Social Inequality

Credits: 3

Focuses on the structure and consequences of unequal access to political, economic and social benefits in U. S. society and the world. This course critically examines institutional arrangements that perpetuate and are supported by inequality and stratification, as well as patterns of social mobility.

A&S College Core 2015 ASD

Former Course Number [4000, 4050]

Prerequisite: SOC 1000.

SOC3880 - Political Sociology

Credits: 3

Study of political theory, political organization, political mobilization, the state, nation-building, national identity, post-nationalism, the relationship between the state and markets, historic formation of the nation-state, and the changing role of the state in a global context.

Prerequisite: SOC 1000.

SOC3910 - Global Sociology

Credits: 3

Global Sociology explores how humans shape and are shaped by globalization processes. Globalization creates inherent risks, such as increased inequality and violence, but also opportunities for greater democracy and a stronger global civil society. This course examines social, cultural, institutional, and economic factors and their effects on societies around the world.

Cross Listed INST 3910.

A&S College Core 2015 ASG
Former Course Number 4110

Prerequisite: SOC 1000 or ANTH 1200 or INST 2350.

SOC3950 - Environmental Sociology

Credits: 3

Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed ENR 3950.

Prerequisite: SOC 1000.

SOC4020 - Sociology of Work

Credits: 3

Examines social organization of work-especially in response to change in technology, demands for equal opportunity, size and goals of firms and desires for meaningful work. Historically and comparatively analyzes work-life experiences shaping of labor markets and role of collective action. Explores impact of the labor process on distribution of society's material and symbolic rewards.

Dual Listed SOC 5020.

Former Course Number [4560]

Prerequisite: SOC 1000, MGT 2100 or ECON 1010.

SOC4160 - Sociology of Aging

Credits: 3

The process of aging from the individual to the societal level is the focus of the course. Consequences of this process such as the increase in the number of elderly, retirement and health are examined from the major social institutions, the relationships between these institutions and American society as a whole.

Dual Listed SOC 5160.

Former Course Number [4150]

Prerequisite: 6 hours of sociology (including SOC 1000) and at least junior standing.

SOC4350 - Sociology of Law

Credits: 3

A consideration of sociological concepts such as inequality, stratification, social control and social change in an

analysis of the law and legal institutions. Topics include: the role of the police, lawyers, judges, and juries; race, sex, age, and sexuality discrimination and civil rights; free speech, and toxic torts.

Cross Listed CRMJ 4350.

Dual Listed SOC 5350.

Prerequisite: 6 hours of sociology/criminal justice, including SOC 1000, and at least junior standing.

SOC4370 - Global Political Economy

Credits: 3

Examines the interaction of politics and the economy at the global level. Evaluates how political and economic decisions of one country or groups of countries affect institutions and life circumstances in others. Assesses the causes of consequences of globalization as rooted in political economy.

Cross Listed INST 4370.

USP 2003-2014 Code U3G

Prerequisite: SOC 1000 and junior standing or SOC 3000.

SOC4440 - Deviance and Social Control

Credits: 3

In-depth examination of theory and research on the social construction and social control of deviance.

Dual Listed SOC 5440.

Prerequisite: 9 hours of SOC courses and upper division standing.

SOC4500 - Sociology of Organizations

Credits: 3

Complex organizations have been described as the dominant feature of modern societies. Organized on the basis of bureaucratic modes of administration, they dominate contemporary societal institutions, such as the economy, the polity, education, religion, and the military. This course investigates basic structures and processes of all types of complex organizations.

Prerequisite: 6 hours of SOC including SOC 1000 and junior/senior or graduate student standing.

SOC4650 - Urban Sociology

Credits: 3

Considers growth of metropolis and its impact upon modern life.

Dual Listed SOC 5650.

When Offered (Offered based on sufficient demand and resources)

USP 2003-2014 Code U3WC

Prerequisite: SOC 1000 and junior standing.

SOC4705 - Terrorism

Credits: 3

Examines the concept, causes, incidence, types, consequences of, and responses to terrorism. Highlights the distinction between domestic and international terrorism and expands on the latter within the framework of the global environment.

Cross Listed CRMJ 4705, INST 4705, and POLS 4705.

Prerequisite: 9 hours in CRMJ, INST, POLS, or SOC coursework.

SOC4715 - Sociological Theory

Credits: 3

Examines the emergence and development of sociological theory in the writings of thinkers such as Marx, Durkheim, and Weber. Explores continuities and discontinuities between the classical period of sociological theory and contemporary schools such as functionalism, conflict theory, neo-Marxian theories, symbolic interactionism, phenomenology, and rational choice/exchange theory.

Dual Listed SOC 5715.

Former Course Number [3700, 3900]

Prerequisite: 9 credit hours of sociology, including SOC 1000.

SOC4750 - Sociology Internship

Credits: 1-12

Integrates practical experience with academic knowledge. Students participate in specifically assigned duties and observe broader activities of the sponsoring organization, and reflect upon these experiences through written assignments.

Former Course Number 4970 **Restricted** Junior Standing

Prerequisite: 2.5 cumulative GPA, completion of at least 6 upper division hours in SOC courses and consent of instructor. Registration for more than 6 hours requires permission of the Department Head.

SOC4805 - Global Population Issues

Credits: 3

Considers population structure and demographic transition, with applications to topics such as global population growth, population aging, health, family, migration, urbanization, environment.

Dual Listed SOC 5805.

A&S College Core 2015 ASG

Prerequisite: SOC 1000 and SOC/STAT 2070 or equivalent.

SOC4850 - Conference

Credits: 1-6

Considers topics of current sociological interest in consultation with a faculty member.

Prerequisite: senior standing and 15 hours of sociology.

SOC4890 - Special Topics in

Credits: 1-3

Accommodates seminar series and/or course offering by visiting faculty whose subject matter is not included in other courses.

Prerequisite: junior standing and consent of department.

SOC4900 - Seminar

Credits: 3-6

Considers special topics of current sociological interest. May be repeated for maximum of 6 hours credit when topic of seminar is different.

Prerequisite: consent of instructor.

SOC5000 - Advanced Sociological Theory

Credits: 3

A consideration of the nature of theory and the major theoretical perspectives in sociology.

Prerequisite: SOC 3900 or equivalent.

SOC5020 - Sociology of Work

Credits: 3

Examines social organization of work-especially in response to change in technology, demands for equal opportunity, size and goals of firms and desires for meaningful work. Historically and comparatively analyzes work-life experiences shaping of labor markets and role of collective action. Explores impact of the labor process on distribution of society's material and symbolic rewards.

Dual Listed SOC 4020.

Prerequisite: SOC 1000, MGT 2100 or ECON 1010.

SOC5050 - Social Inequality

Credits: 3

Focuses on the structure and consequences of unequal access to political, economic and social benefits in the U. S. and the world. Critically examines institutional arrangements that perpetuate and are supported by inequality and stratification, as well as patterns of social mobility.

Former Course Number [4000]

SOC5070 - Statistical Methods for the Social Sciences

Credits: 3

General statistical analyses and their application to the social sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs are utilized. Credit cannot be earned in more than one of the following courses: STAT 2110, STAT 3050, STAT 5050, 5060, STAT 5070, STAT 5080.

Cross Listed STAT 5070.

Prerequisite: one course in statistics (all introductory courses except STAT 2000).

SOC5100 - Advanced Social Research Methods

Credits: 3

In-depth survey of research concepts and methods with emphasis on application that culminates in the designing and execution of a research project by the student.

Prerequisite: SOC 5070 or equivalent.

SOC5140 - The Family

Credits: 3

Two major themes of the course are change experienced by the family institution and the centrality of the family in America today. Subjects that are covered include: A brief history of the family in the United States, kinship, family structure, mate-selection, marriage, divorce, and socialization.

Dual Listed SOC 4140.

Prerequisite: 6 hours in sociology including SOC 1000 and at least junior standing.

SOC5160 - Sociology of Aging

Credits: 3

The process of aging from the individual to the societal level is the focus of the course. Consequences of this process such as the increase in the number of elderly, retirement and health are examined for the major social institutions, the relationships between these institutions and American society as a whole.

Dual Listed SOC 4160.

Prerequisite: 6 hours of sociology including SOC 1000 and at least junior standing.

SOC5200 - Conference

Credits: 1-8

Max Credit (Max. 8)

Consideration of topics of current sociological interest in consultation with a member of the faculty.

Prerequisite: consent of instructor.

SOC5250 - Seminar

Credits: 3

Max Credit (Max. 12)

Consideration of topics of sociological interest in the content of a graduate seminar. Cannot be dual-listed with any course below the 5000 level. May be repeated for credit when the topic of the seminar is different.

Prerequisite: consent of instructor.

SOC5350 - Sociology of Law

Credits: 3

A consideration of sociological concepts such as inequality, stratification, social control and social change in an analysis of the law and legal institutions. Topics include: the role of the police, lawyers, judges, and juries; race, sex, age, and sexuality discrimination and civil rights; free speech, and toxic torts.

Cross Listed CRMJ 4350.

Dual Listed SOC 4350.

SOC5440 - Deviance and Social Control

Credits: 3

In-depth examination of theory and research on the social construction and social control of deviance.

Dual Listed SOC 4440.

Prerequisite: graduate standing.

SOC5540 - Stratification and Inequality

Credits: 3

In-depth survey of sociological theory and research on substantive issues such as social class structure, racial/ethnic relations, and gender stratification.

Prerequisite: graduate standing.

SOC5650 - Urban Sociology

Credits: 3

Considers growth of metropolis and its impact on modern life.

Dual Listed SOC 4650.

Prerequisite: SOC 1000 or equivalent.

SOC5715 - Sociological Theory

Credits: 3

Examines the emergence and development of sociological theory in the writings of thinkers such as Marx, Durkheim, and Weber. Explores continuities and discontinuities between the classical period of sociological theory and contemporary schools such as functionalism, conflict theory, neo-Marxian theories, symbolic interactionism, phenomenology, and rational choice/exchange theory.

Dual Listed SOC 4715.

Former Course Number [3700]

Prerequisite: 9 credit hours of sociology, including SOC 1000.

SOC5805 - Global Population Issues

Credits: 3

Considers population structure and demographic transition, with applications to topics such as global population growth, population aging, health, family, migration, urbanization, environment.

Dual Listed SOC 4805.

Prerequisite: SOC 1000 and SOC 2070/STAT 2070 or equivalent.

SOC5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

SOC5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 12)

Prerequisite: advanced degree candidacy.

SOC5959 - Enrichment Studies

Credits: 1-3

Max Credit (Max. 99)

The course is designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: Credit in this course may not be included in a graduate program of study for degree purposes.

Prerequisite: graduate standing.

SOC5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Graduate level course designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

SOC5990 - Internship

Credits: 1-12

Max Credit (Max. 24)

Prerequisite: graduate standing.

Soil Science

SOIL2010 - Introduction to Soil Science

Credits: 4

Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE

Prerequisite: CHEM 1000 or CHEM 1020.

SOIL3000 - Irrigated Agriculture

Credits: 3

Study of the complexity of plant/soil water relationships and its importance on irrigation. Soil and water relations, reference/crops evapotranspiration, and management of the water balance. Principles of chemigation, computer modeling/ monitoring included. Methods for irrigation scheduling and the importance of water use efficiency as a strategy for water conservation.

Cross Listed PLNT 3000.

Prerequisite: MATH 1400, SOIL 2010.

SOIL3130 - Environmental Quality

Credits: 3

Introduction to environmental quality issues and events. Course emphasizes impacts to soil, water, atmospheric, and vegetative ecosystems due to different nutrients and contaminants, including nitrogen, phosphorus, sulfur, trace elements, and organic chemicals. Current information pertaining to environmental quality is discussed and a field trip to the Union Pacific Tie Plant.

Cross Listed ENR 3130.

When Offered (Offered fall semester)

Prerequisite: complete at least 1 University Studies Science course SB, SP or SE.

SOIL4100 - Soil Physics

Credits: 3

Examines forms and interrelations of matter and energy in the soil environment. Primarily addresses fluxes and transformations of soil water and solutes, as well as physical properties that influence soil productivity.

Dual Listed SOIL 5100.

When Offered (Offered spring semester)

Prerequisite: SOIL 2010 or equivalent introductory soils course.

SOIL4105 - Soil Physics Laboratory

Credits: 2

Teaches students the methodology and use of equipment to measure soil physical properties in the laboratory and field. Experiments include particle size analysis, soil surface area, soil-water measurement with neutron probe and TDR, field infiltration rate, soil-water retention curve, soil pore size distribution saturated and unsaturated conductivities, soil water potential and solute breakthrough curve.

Dual Listed SOIL 5105.

Prerequisite: SOIL 2010.

SOIL4120 - Genesis, Morphology and Classification of Soils

Credits: 4

Processes of soil development and methods of description, survey and classification. Includes field trips which examine soils in the Laramie Basin and surrounding mountains.

Dual Listed SOIL 5120.

When Offered (Offered fall semester)

Prerequisite: SOIL 2010.

SOIL4130 - Chemistry of the Soil Environment

Credits: 3

Introduction to the chemical properties and reactions that occur in the soil environment. Fundamental principles of soil mineralogy, organic matter and equilibrium chemistry as they relate to soil chemical reactions, plant nutrient availability and pedogenetic processes will be emphasized.

Dual Listed SOIL 5130.

When Offered (Offered spring semester)

Prerequisite: SOIL 2010, CHEM 1030 or CHEM 1060.

SOIL4140 - Soil Microbiology

Credits: 4

Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture and forestry.

Cross Listed MICR 4140.

Dual Listed SOIL 5140.

Prerequisite: SOIL 2010.

SOIL4150 - Forest and Range Soils

Credits: 3

Characteristics and management of forest and range soils primarily in arid environments. Examines pedagogical units representative of forests and ranges and soil properties, such as nutrient availability and water relations that influence plant growth.

Dual Listed SOIL 5150.

When Offered (Normally offered fall semester)

Prerequisite: SOIL 2010.

SOIL4160 - Soil Health and Nutrient Cycling

Credits: 3

Physical, chemical, and biological aspects of soils that impact fertilizer fate, uptake, and plant growth.

Dual Listed SOIL 5160.

When Offered (Normally offered fall semester of odd-numbered years)

Prerequisite: SOIL 2010.

SOIL4540 - Microbial Diversity and Ecology

Credits: 4

Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design. Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MOLB 4540/MICR 4540.

Dual Listed MOLB 5540/SOIL 5540/ECOL 5540.

Prerequisite: MOLB 2210.

SOIL4550 - Child Welfare Services

Credits: 3

Examines issues of child and family welfare in the context of national, state, and local policy and practice. Social and economic justice are examined as they relate to interventions with children and families.

Dual Listed SOWK 5550.

Former Course Number [3550]

Prerequisite: SOWK 2000; SOWK 3530.

SOIL4565 - Research: Soil Science

Credits: 1-4

Max Credit (Max. 6)

Library, laboratory, and/or green-house investigations on select research topics. Graduate students will be required to give a presentation to the soil science group on their final product/ report.

Dual Listed SOIL 5565.

Prerequisite: basic training in soil science research.

SOIL4780 - Seminar:

Credits: 1-9

Consideration of special topics of current interest in social work. May be repeated for a maximum of 15 hours credit when the seminar topic is different.

Prerequisite: advanced major status; or consent of instructor and junior standing for non-social work majors.

SOIL4980 - Independent Study

Credits: 1-3

Consideration of topics of current social work interest in consultation with a member of the faculty.

Prerequisite: advanced major status and consent of instructor.

SOIL5105 - Soil Physics Laboratory

Credits: 2

Students learn methodology and use of equipment to measure soil physical properties in the laboratory and field. Experiments include particle size analysis, soil surface area, soil-water measurement with neutron probe and TDR, field infiltration rate, soil-water retention curve, soil pore size distribution, saturated and unsaturated conductivity, soil water potential, and solute breakthrough curve.

Dual Listed SOIL 4105.
Prerequisite: SOIL 2010.

SOIL5110 - Modeling Water and Chemical Transport in Vaso Zone and Groundwater Systems

Credits: 4

Mathematical models will be formulated and applied to simulate water flow and chemical transport in soil and groundwater systems. Soil spatial variability and heterogeneity will be considered in the modeling processes. Using and comparing models, students will obtain the capability to transfer a physical problem to a mathematical model, to use numerical methods, such as the finite element method, to solve the mathematical problem, and to correctly interpret the numerical outputs. Students will develop and program numerical solutions for select problems and will utilize existing codes for modeling a variety of comprehensive problems.

SOIL5130 - Chemistry of the Soil Environment

Credits: 3

Evaluation of the chemical and physical properties and reactions that occur in the soil environment. Fundamental principles of soil mineralogy, organic matter, and equilibrium chemistry as they relate to soil chemical reactions, plant nutrient availability, and pedogenetic processes will be emphasized.

Dual Listed SOIL 4130.
Prerequisite: MATH 1400, CHEM 1030 or CHEM 1060 and SOIL 2010.

SOIL5140 - Soil Microbiology

Credits: 4

Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture, and forestry.

Cross Listed MICR 5140.
Dual Listed SOIL 4140.
Prerequisite: SOIL 2010

SOIL5150 - Forest and Range Soils

Credits: 3

Characteristics and management of forest and range soils primarily in arid environments. Examines pedagogical units representative of forest and ranges and soil properties, such as nutrient availability and water relations, which influence plant growth.

Dual Listed SOIL 4150.
Prerequisite: SOIL 2010 and LIFE 2020.

SOIL5160 - Soil Health and Nutrient Cycling

Credits: 3

Physical, chemical and biological aspects of soils which impact fertilizer fate, uptake and plant growth.

Dual Listed SOIL 4160.
Prerequisite: SOIL 2010.

SOIL5540 - Microbial Diversity and Ecology

Credits: 4

Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design. Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MOLB 4540/MICR 4540/SOIL 4540.

Dual Listed MOLB 5540/ECOL 5540.

Prerequisite: MOLB 2210.

SOIL5565 - Research in Soil Science

Credits: 1-4

Max Credit (Max. 6)

Library, laboratory, and/or greenhouse investigations on select research topics. Graduate students will be required to give a presentation to the soil science group on their final product/ report.

Dual Listed SOIL 4465.

Prerequisite: Basic training in soil science research. SOIL 5565 reserved for graduate students.

SOIL5590 - Special Topics in Soil Science

Credits: 1-3

Max Credit (Max. 6)

Special topics in soil science. Offered as an individual or small group basis as appropriate. Intended to accommodate various specialized subjects not offered on a regular basis. Students may enroll in more than one section of this course.

Dual Listed SOIL 4590.

Prerequisite: consent of instructor.

SOIL5755 - Practice Evaluation

Credits: 1-12

Max Credit (Max. 12)

Complete a non-thesis Plan B practice evaluation paper of quality, working with a committee structure. Must complete a minimum of two credit hours of 5755.

Prerequisite: SOWK 5750; or advanced standing status and SOWK 5495.

SOIL5795 - Rural Health Care Seminar

Credits: 3

Examines social work and rural health and medical care for individuals, families and larger systems through policy, practice, and research. Includes a focus on the health and health care of older adults.

Prerequisite: consent of instructor, graduate standing, participation in WYO HealthCARE Inter-disciplinary rural training grant.

SOIL5900 - Practicum in College Teaching

Credits: 1-3

Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

SOIL5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

SOIL5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

SOIL5959 - Enrichment Studies

Credits: 1-3

Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

SOIL5960 - Thesis Research

Credits: 1-12

Max Credit (Max. 24)

Scholarly research that contributes to the social work profession and applied social science fields. Student designs and

carries out original research under the supervision of a social work faculty member. Thesis research is done as an individual research project.

Prerequisite: enrollment in a graduate degree program.

SOIL5975 - Independent Study

Credits: 1-3
Max Credit (Max. 3)

In-depth exploration of a social work topic in consultation with a social work faculty member.

Prerequisite: consent of instructor.

SOIL5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Graduate level course designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Spanish

SPAN1010 - First Year Spanish I

Credits: 4
Studies fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H

SPAN1020 - First Year Spanish II

Credits: 4
Studies fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H

Prerequisite: SPAN 1010 or two years of high school Spanish.

SPAN1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

SPAN2030 - Second Year Spanish I

Credits: 4

Encompasses reading, grammar review, compositions and conversation.

USP 2015 Code U5H

Prerequisite: SPAN 1020 or three years of high school Spanish.

SPAN2040 - Second Year Spanish II

Credits: 4

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2015 Code U5H

Prerequisite: SPAN 2030 or three years of high school Spanish.

SPAN2140 - Introduction to Reading

Credits: 3

This course introduces a varied selection of readings and other cultural media in an immersive, intensive language class. Through the study of short stories, media articles, films, etc. , students learn cultural aspects of the Spanish-speaking world and are able to practice and improve their communicative abilities.

USP 2003-2014 Code U3CH,U3G

A&S College Core 2015 ASG

Prerequisite: SPAN 2030 or equivalent.

SPAN3030 - Spanish for Heritage Speakers

Credits: 3

Stresses academic use of the Spanish language by native or near-native speakers, through composition, cultural readings, oral presentations, and digital interactions. This class will prepare native and near-native speakers for Spanish upper division classes. It will review spelling rules, grammatical terminology, dialectal and register differences, and academic vocabulary.

USP 2015 Code U5C2

Prerequisite: SPAN 2040 and consent of instructor.

SPAN3040 - Spanish Conversation

Credits: 3

Emphasizes speaking and listening comprehension through structured and monitored individual, pair, small group and class work, while providing socio-cultural competence, vocabulary acquisition and grammar review. Provides enhanced language skills in a manner that otherwise could only be attained through an extended stay in a Hispanic country.

Prerequisite: SPAN 2040; limited to Spanish majors/minors with no previous experience abroad.

SPAN3050 - Third Year Spanish I

Credits: 3

Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2003-2014 Code U3WB

USP 2015 Code U5C2

Prerequisite: SPAN 2040.

SPAN3060 - Third Year Spanish II

Credits: 3

Intensively reviews grammar and composition-skill development. Also emphasizes specialized lexicons, written and oral translation, as well as conversational fluency.

A&S College Core 2015 ASD

Prerequisite: SPAN 3050.

SPAN3070 - Intensive Spanish Abroad

Credits: 3

Max Credit (Max. 9)

Spanish language and cultural study in Spanish-speaking countries led by UW faculty.

Prerequisite: SPAN 2030 or consent of instructor.

SPAN3080 - Spanish Language in the USA

Credits: 3

This course studies the Spanish language in its social context as a language of the United States, through concepts such as: social and individual bilingualism, Spanglish, dialects, language contact, borrowings, code switching, language policy, or language ideology.

Cross Listed LTST 3080.

USP 2015 Code U5H

Prerequisite: SPAN 3050 or SPAN 3060 or instructor's consent.

SPAN3100 - Survey of Spanish Literature

Credits: 3

Studies Spanish literature from the Middle Ages to the end of the 17th century.

Prerequisite: SPAN 2140 or equivalent. SPAN 3140 strongly recommended.

SPAN3110 - Survey of Contemporary Spanish Literature

Credits: 3

Studies Spanish literature from the 18th to the 21st century. SPAN 3110 is a continuation of SPAN 3100, which studies Spanish literature from the Middle Ages to the end of the 17th century. In order to take 3110, students do not need to take SPAN 3100. SPAN 3140 strongly recommended.

Prerequisite: SPAN 2140 or equivalent.

SPAN3120 - Survey of Spanish American Literature

Credits: 3

Surveys Spanish American literature from colonial period to the present.

USP 2003-2014 Code U3G

A&S College Core 2015 ASG

Prerequisite: SPAN 2140 or equivalent.

SPAN3140 - Introduction to Literature

Credits: 3

This course introduces literary analysis by focusing on different genres from the Hispanic tradition. The course is focused on developing interpretation strategies and it introduces key elements of literary criticism. Students are required to produce complex ideas about the texts, give oral presentations, and write essays on the texts read.

USP 2003-2014 Code U3CH,U3G

A&S College Core 2015 ASG

Prerequisite: SPAN 2140 or SPAN 3030 or SPAN 3050.

SPAN3200 - Spanish Culture and Civilization

Credits: 3

Studies the evolution of Spanish culture through its main artistic, sociological and intellectual expressions.

Prerequisite: SPAN 2040, SPAN 2140.

SPAN3220 - Spanish-American Cultures in Context

Credits: 3

Introduction to the Spanish-speaking cultures of Latin America and the United States through a historical overview and a focus on contemporary politics and culture.

Prerequisite: SPAN 2040 or SPAN 2140 or consent of instructor.

SPAN3300 - Introduction to Hispanic Linguistics

Credits: 3

Max Credit (Max. 9)

Overview of basic concepts and approaches to linguistics with examples from and emphasis on Spanish description. Basic concepts in semiotics, formal and non-formal linguistics, core areas in linguistics (phonetics & phonology, morphosyntax, semantics & pragmatics), as well as an overview of subfields of linguistics (psycholinguistics, sociolinguistics, computational linguistics, etc.).

Former Course Number [4310]

Prerequisite: SPAN 3030 or SPAN 3050 or equivalent proficiency

SPAN3990 - Independent Study

Credits: 1-4

Encompasses books or periodicals of special interest to the student, selected in consultation with a staff member. Includes independent reading and reports.

Prerequisite: SPAN 2030.

SPAN4070 - Spanish Variation and Change

Credits: 3

Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among other, as they are seen in the Spanish language.

Dual Listed SPAN 5070.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4080 - Spanish Advanced Grammar

Credits: 3

Max Credit (Max. 9)

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 5080.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4090 - Spanish Phonetics and Phonology

Credits: 3

Provides a description of Spanish sound system and general survey of the language's major dialectical variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

Dual Listed SPAN 5090.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4095 - Advanced Translation

Credits: 3

Max Credit (Max. 6)

A practical approach to translating techniques and elements of oral interpretation.

Prerequisite: SPAN 3060.

SPAN4125 - Spanish-Language Literatures of the Americas

Credits: 3

Max Credit (Max. 9)

Examines Spanish American literature from a wide variety of perspectives: geographical regions (e. g. Caribbean, Andean, greater Mexico), theme (e. g. revolution, borders), period (e. g. Colonial, 19th century), or genre (e. g. poetry, theatre, film, non-fiction).

Prerequisite: SPAN 3050 or equivalent. SPAN 3120 highly recommended.

SPAN4130 - Masterpieces of Spanish Renaissance Literature

Credits: 3

Studies Spanish Renaissance, taking into consideration social, political, economic, religious, philosophical and aesthetic aspects of the culture as a context for and as reflected in the literature.

Dual Listed SPAN 5130.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN4140 - Masterpieces of Spanish Baroque Literature

Credits: 3

Studies Spanish Baroque, taking into consideration social, political, economic, religious, philosophical and aesthetic aspects of the culture as a context for and as reflected in the literature. Also covers relationship between Spanish Renaissance and Baroque.

Dual Listed SPAN 5140.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN4150 - Spanish Romanticism

Credits: 3

Comprehensively studies romantic movement in Spain. Includes close reading and commentary of texts by authors such as Espronceda, Rivas, Zorrilla, Becquer and de Castro.

Dual Listed SPAN 5150.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN4170 - Contemporary Spanish Prose

Credits: 3

Examines contemporary prose fiction of Spain. Studies authors who gained recognition before and after the 1936 Spanish Civil War.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN4180 - Advanced Cultural Studies in Hispanic Lit/Media

Credits: 3

Advanced analysis of Hispanic cultural phenomena. Focus on the Spanish-speaking cultures of Spain or the Spanish-speaking Americas or both. The Texts consulted vary according to instructor and may include the visual arts, such as film, paintings, and performance, academic theory, websites, and other fiction and non-fiction readings.

Dual Listed SPAN 5180.

Prerequisite: SPAN 2140 or equivalent and one 4000-level course.

SPAN4190 - 20th and 21st Century Spanish- American Texts

Credits: 3

Provides students the opportunity to study representative literary texts that reflect the tendencies and trends in 20th and 21st Century Spanish-language works of the Americas.

Dual Listed SPAN 5190.

Prerequisite: 6 hours of Spanish literature at 4000-level.

SPAN4200 - Introduction to Research

Credits: 3

Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

SPAN4260 - The Realist Novel in Spain

Credits: 3

Studies major novelists of 19th century Spain from 1850 until Generation of '98.

Dual Listed SPAN 5260.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN4310 - Intro Hisp Ling

Credits: 3

Overview of basic concepts and approaches to linguistics with examples from and emphasis on Spanish description. Basic concepts in semiotics, formal and non-formal linguistics, core areas in linguistics (phonetics & phonology, morphosyntax, semantics & pragmatics), as well as an overview of subfields of linguistics (psycholinguistics, sociolinguistics, computational linguistics, etc.)

Corequisite: Prerequisites: SPAN 3050 or equivalent proficiency.

SPAN4600 - Special Topics in Spanish

Credits: 1-6

Max Credit (Max. 12)

Presents a variety of significant literature, language, or cultural topics in Latin American, Peninsular, and other Spanish-speaking communities.

Prerequisite: SPAN 3030 or SPAN 3050.

SPAN4990 - Advanced Independent Study

Credits: 1-3

Encompasses special projects to meet needs of individual students, designed in consultation with instructor.

Prerequisite: SPAN 3030 or SPAN 3050.

SPAN5070 - Spanish Variation and Change

Credits: 3

Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among other, as they are seen in the Spanish language.

Dual Listed SPAN 4070.

Prerequisite: graduate standing.

SPAN5080 - Spanish Advanced Grammar

Credits: 3

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 4080.

Prerequisite: graduate standing.

SPAN5090 - Spanish Phonetics and Phonology

Credits: 3

Provides a description of Spanish sound system and general survey of the language's major dialectal variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

Dual Listed SPAN 4090.

Prerequisite: graduate standing.

SPAN5100 - Hispanic Thought

Credits: 3

intensive study of a topic, author, or philosophical movement. Designed for upper level and graduate students.

Prerequisite: 12 hours of Spanish literature at 4000-5000 level.

SPAN5110 - Peninsular Spanish Literature

Credits: 1-3

Max Credit (Max. 9)

An intensive study of a topic or an author. Designed for upper level and graduate students.

Prerequisite: 12 hours of Spanish literature at 4000-5000 level.

SPAN5120 - Spanish American Literature

Credits: 1-3

Max Credit (Max. 9)

An intensive study of a topic or an author. Designed for upper level and graduate students.

Prerequisite: 12 hours of Spanish literature.

SPAN5130 - Masterpieces of Spanish Renaissance Literature

Credits: 3

A study of the Spanish Renaissance, taking into consideration social, political, economic, religious philosophical, and aesthetic aspects of the culture as a context for and as reflected in the literature.

Dual Listed SPAN 4130.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN5140 - Masterpieces of Spanish Baroque Literature

Credits: 3

Studies of the Spanish Baroque, taking into consideration social, political, economic, religious, philosophical, and aesthetic aspects of the culture as a context for and as reflected in the literature. Also covers the relationship between the Spanish Renaissance and the Baroque.

Dual Listed SPAN 4140.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN5150 - Spanish Romanticism

Credits: 3

A comprehensive study of the romantic movement in Spain. Close reading and commentary of texts by representative authors including Espronceda, Rivas, Zorilla, Becquer and de Castro.

Dual Listed SPAN 4150.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN5160 - Graduate Readings

Credits: 1-5

Max Credit (Max. 6)

Prerequisite: graduate standing.

SPAN5170 - Special Problems

Credits: 1-2

Max Credit (Max. 6)

Prerequisite: graduate standing.

SPAN5180 - Advanced Cultural Studies in Hispanic Lit/Media

Credits: 3

Advanced analysis of Hispanic cultural phenomena. Focus on the Spanish-speaking cultures of Spain or the Spanish-speaking Americas or both. The Texts consulted vary according to instructor and may include the visual arts, such as film, paintings, and performance, academic theory, websites, and other fiction and non-fiction readings.

Dual Listed SPAN 4180.

Prerequisite: SPAN 2140 or equivalent and one 4000-level course.

SPAN5190 - 20th and 21st Century Spanish- American Texts

Credits: 3

Provides students the opportunity to study representative literary texts that reflect the tendencies and trends in 20th and 21st Century Spanish-language works of the Americas.

Dual Listed SPAN 4190.

Prerequisite: 6 hours of SPAN at the 4000-level.

SPAN5260 - The Realist Novel in Spain

Credits: 3

Studies of the major novelists of nineteenth century Spain from 1850 until the Generation of '98.

Dual Listed SPAN 4260.

Prerequisite: SPAN 3030 or SPAN 3050, and SPAN 3140.

SPAN5900 - Practicum in College Teaching

Credits: 3

Max Credit 3

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

SPAN5920 - Continuing Registration: On Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

SPAN5940 - Continuing Registration: Off Campus

Credits: 1-2

Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

SPAN5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

SPAN5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Special Education

EDEX2000 - Collaboration and Professional Relationships

Credits: 3

This course is designed to help students explore a range of collaboration and consultation strategies in the field of Special Education to enable them to successfully collaborate with a range of professionals, students, and families in a school setting. Course content will prepare prospective special education teachers with conflict resolution skills, the ability to effectively facilitate meetings, and increase their inter and intra-personal skills.

EDEX2484 - Introduction to Special Education

Credits: 3

Designed to meet the needs of education majors for a required course in special education. Students will explore the history of, understanding of and services for individuals with low/high incidence disabilities.

Prerequisite: EDST 2450 completed with a C or better and an institutional GPA of 2.50.

EDEX3071 - Understand st. w/High Inc Dis

Credits: 3

This course is designed to explore the causes, characteristics, and eligibility of high incidence disabilities in K-12 setting. Additionally, it examines the theoretical, research, and practical aspects of high incidence disabilities as they relate to the student, teacher, classroom, parents, paraprofessionals, and other school personnel and community agencies.

Restricted Elementary and Special Education Dual Majors

Prerequisite: 2.75 UW GPA minimum

EDEX3072 - Teaching st. w/High Inc Dis

Credits: 3

This course is designed to explore evidence-based practices, high leverage practices, research-based strategies and transition planning utilized to best serve students with high incidence disabilities in a variety of K-12 settings. Additionally, it explores inclusive strategies and the roles of stakeholders in supporting students with high incidence disabilities in the general education classroom.

Restricted Elementary and Special Education Dual Majors

Prerequisite: 2.75 UW GPA minimum Successful completion of EDEX 3071 (C or better)

EDEX3080 - Understand st. w/Low Inc Dis

Credits: 3

This course is designed to explore the causes, characteristics, and eligibility of low incidence disabilities in K-12 setting. Additionally, it examines the theoretical, research, and practical aspects of low incidence disabilities as they relate to the student, teacher, classroom, parents, paraprofessionals, and other school personnel and community agencies. Finally, this course explores assistive technology utilized to effectively support students with disabilities to access the whole school environment.

Restricted Elementary and Special Education Dual Majors

Prerequisite: 2.75 UW GPA minimum

EDEX3081 - Teaching St. w/Low Inc. Dis.

Credits: 3

This course is designed to explore evidence-based practices, high leverage practices, research-based strategies and transition planning utilized to best serve students with low incidence disabilities in a variety of K-12 settings. Additionally, it explores assistive technology, inclusive strategies and the roles of stakeholders in supporting students with low incidence disabilities in the general education classroom.

EDEX3110 - Behavioral Supports & Interv.

Credits: 3

Relates the theoretical, research, and practical strategies of behavior change models to students, teachers, parents, and paraprofessionals, in order to understand and remediate student behavior presenting challenges. This will include understandings of systematic Behavior Management plans, Functional Behavior Assessments, Behavior Intervention Plans, and school wide behavioral supports and interventions.

Restricted Elem. & Special Education Dual Major only

Prerequisite: 2.75 UW GPA and successful completion of EDEX 2484. Student must have earned a C or higher in this course.

EDEX4120 - Data Analysis/IEP Development

Credits: 3

This course is designed to convey the necessity of the Individualized Education Program (IEP), in regard to providing quality, compliant, and effective services to individuals with disabilities. Course participants will analyze assessment data to understand the academic and behavioral aspects of individual students with disabilities and to develop a comprehensive IEP to meet their unique needs. In addition, students will learn how to develop IEP's in collaboration with service providers, families, and other stakeholders.

Restricted Elem. & Special Education Dual Major only

Prerequisite: 2.75 UW GPA and successful completion of EDEX 2484. Student must have earned a C or higher in this course.

EDEX4355 - Assessment & St. W/Dis

Credits: 3

This course is designed to explore the use of various types of assessments and assessment tools to evaluate students for special education eligibility and to design individualized programming. Students will learn how to interpret assessment data to identify areas of strength and needs and to make data-based instructional decisions.

Restricted Elementary and Special Education Dual Majors only.

EDEX4500 - Residency Teaching Special Ed

Credits: 6

Max Credit 6

This course provides intensive field experiences and mentoring relationships to support student teachers as they transition to independent teaching in special education.

Prerequisite: Successful completion of the methods semester (4000 level classes) with grades of "C" or higher in all methods courses.

EDEX4720 - Law and Students with Disabilities

Credits: 3

Provides prospective special education teachers with an overview of important case and statutory law in special education. Supports prospective special education teachers in analyzing disability laws and the ways in which these impact practice.

EDEX5000 - Collaboration and Professional Interdisciplinary Relationships

Credits: 3

Represents an opportunity for students to examine and explore a range of consultant concepts in the field of Special Education.

Prerequisite: Admission to the program or consent of instructor.

EDEX5071 - Teaching Students with Mild and Moderate Disabilities

Credits: 3

Relates the theoretical, research, and practical aspects of mild-moderate disabilities to the student, teacher, classroom, parents, paraprofessionals, and other school personnel and community agencies, all in an effort to help understand and remediate student instructional and behavioral presenting problems.

Prerequisite: Admission to program or consent of instructor.

EDEX5080 - Teaching Students with Severe and Low Incidence Disabilities

Credits: 3

Designed to provide teachers with the repertoire of instructional, curricular, and behavior analytic skills needed to effectively serve students with severe and low-incidence disabilities. An emphasis on inclusive education and promoting access to the general curriculum will be stressed.

Prerequisite: Admission to program or consent of instructor.

EDEX5100 - Special Education Practicum I

Credits: 3

Designed to allow the student to practice skills and competencies reflected in the Council for Exceptional Children standards. The activities are designed to follow the Wyoming Teaching Standards for Special Education Certification.

Prerequisite: Admission to program or consent of the Instructor.

EDEX5110 - Positive Behavior Support and Management

Credits: 3

Relates the theoretical, research, and practical strategies of behavior change models to students, teachers, parents, and paraprofessionals, in order to understand and remediate student behavior presenting problems, to include the application of systematic Behavior Management plans, BIPs, FBAs, BSPs, and school wide PBIS.

Prerequisite: Admission to program or consent of instructor; EDEX 5071.

EDEX5120 - Academic Instruction in General Education for Students with Disabilities

Credits: 3

Offers teachers appropriate practices and procedures for accommodating children with disabilities in their general education classroom. The focus is on moving from academic and nonacademic assessments to appropriate teaching and learning in the general education classroom environment.

Prerequisite: Admission to program or consent of instructor.

EDEX5150 - Research Applications in the Classroom

Credits: 3

Methodology for conducting applied research projects in classroom settings will be discussed. A variety of "classroom-friendly" experimental designs will be examined. In particular, the value of single-subject research in evaluating educational programs and serving as a rigorous, experimentally sound methodology are discussed.

Prerequisite: Admission to program or consent of instructor.

EDEX5200 - Special Education Practicum II

Credits: 3

Designed to allow the student to practice skills and competencies reflected in the Council for Exceptional Children standards. The activities are designed to follow the Wyoming Teaching Standards for Special Education Certification.

Prerequisite: Admission to program or consent of instructor; EDEX 5100.

EDEX5250 - Assistive Technology and Transition

Credits: 2

Addresses assistive technology considerations for students with disabilities. Assessment, planning, selection, use, and evaluation of options will be emphasized.

Prerequisite: Admission to program or consent of instructor.

EDEX5260 - Transition Planning

Credits: 2

Examines the transition and post-high school options available for students with disabilities and in accordance with the requirements of the Individuals with Disabilities Education Act. Emphasis will be placed on assessment, planning, and evaluation of the transition components.

Prerequisite: Admission to program or consent of instructor.

EDEX5355 - Assessment

Credits: 3

Involves the history, ethics, data collection procedures, psychometric understanding, and interpretation of selected formal and informal psycho-educational tests; the relationship to a comprehensive evaluation and IDEA eligibility requirements; and the application of assessment results to the practical remediation of student instructional and behavioral presenting problems.

Prerequisite: Admission to program or consent of instructor.

EDEX5680 - Prescriptive Teaching Practicum

Credits: 1-8
Max Credit (Max. 8)

Graduate practicum/internship, the content of which involves supervised education experience in a special education classroom.

Prerequisite: graduate status and consent of instructor.

EDEX5720 - Special Education Law

Credits: 3
Provides prospective special education teachers and support personnel with overview of important case and statutory law in special education.

Prerequisite: Admission to program or consent of instructor.

EDEX5730 - Severe and Profound Handicaps

Credits: 3
Relates current research and practice to the systematic assessment, education and management of individuals who are severely and/or profoundly disabled.

Prerequisite: 3 semester hours of graduate course work in special education,

EDEX5870 - Seminar

Credits: 1-6
Max Credit (Max. 6)

Represents an opportunity for students to examine and explore advanced concepts of prescriptive teaching.

Prerequisite: consent of instructor and graduate standing.

EDEX5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 credit in this course may not be included in a graduate program of study for degree purposes.

Speech-Language Pathology

SPPA1010 - Introduction to Communication Disorders

Credits: 3

Introduces information regarding basics of speech and hearing. Discusses disorders of speech and hearing by defining the problem, etiology or theories of cause, classifications and controversies, evaluation techniques and therapies to correct the disorder.

USP 2003-2014 Code U3I,U3L

SPPA1101 - First-Year Seminar

Credits: 3

USP 2003-2014 Code U5FY

SPPA2110 - American Sign Language I

Credits: 4

Basic comprehension and expression of American Sign Language (ASL), the language used by the Deaf community in the United States. ASL vocabulary, grammar, and pragmatics are taught through lecture, conversation, and storytelling. The direct experience method (using ASL with no voice) is utilized to enhance the learning process.

USP 2015 Code U5H

Former Course Number [4100]

SPPA2120 - American Sign Language II

Credits: 4

Second level of ASL comprehension and expression. ASL vocabulary, grammar, and pragmatics, along with increased fluency, are taught through lecture, conversation, and storytelling. Translation from English to ASL is addressed.

USP 2015 Code U5H

Former Course Number [4120]

Prerequisite: SPPA 2110.

SPPA2210 - Phonetics

Credits: 3

Articulatory and acoustic description of speech sound production. Introduction to the International Phonetic Alphabet and phonetic transcription.

Former Course Number [3210]

Prerequisite: SPPA 1010 or consent of instructor.

SPPA3160 - Speech and Language Development

Credits: 4

Deals with the development of speech sound production, phonology, semantics, syntax, morphology, discourse, and pragmatics for typically-developing children from infancy to adolescence. Includes prelinguistic and paralinguistic communication, the cognitive correlates of communication, and written language. Considers the effects of sociocultural context and multiple language acquisition. Application component provides weekly experience in language sample analysis.

Former Course Number [4160]

Prerequisite: SPPA 2210 or instructor permission.

SPPA3265 - Anatomy and Physiology of Speech, Swallowing and Hearing

Credits: 4

Introduces the student to the anatomy of the normal speech and hearing systems as well as the physiologic underpinnings of the speech (respiration, phonation, articulation), swallowing, and hearing (external, middle, and inner ear) systems. Theories of speech production and speech perception are presented.

Former Course Number [3400]

Prerequisite: KIN 2040 or consent of instructor.

SPPA4000 - Workshop in Speech Pathology/Audiology

Credits: 1-8

Varies with interests of student requests. Incorporates material relative to any area of speech and hearing.

When Offered (Offered based on sufficient demand and resources)

Prerequisite: consent of instructor.

SPPA4070 - Deaf Studies

Credits: 3

Studies deaf culture and deaf history in the United States. Culture topics will include deaf community dynamics, humor, behavior, emotional and social interaction, besides issues involving deaf children as a linguistic minority. History will be discussed from the 1700s to the present in the U. S.

USP 2003-2014 Code U3CS,U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

Prerequisite: SPPA 2110.

SPPA4130 - Advanced ASL

Credits: 4

Third level of ASL comprehension and expression. Addresses increased fluency in ASL; register variation for different conversational participants; and specialized vocabulary, including sexuality and religion. Translation from English to ASL is addressed.

Prerequisite: SPPA 2120.

SPPA4140 - Undergraduate Teaching Assistant

Credits: 1

Max Credit (Max. 2)

Students assist instructor in major courses that they have successfully completed, including assisting with lab or practice sessions, providing individual student assistance, and participating in other student outreach activities on behalf of the Division. One semester credit hour requires 4 hours of work per week.

Prerequisite: consent of instructor/department and junior standing.

SPPA4150 - Aural Rehabilitation

Credits: 3

Examines basis for and characteristics of communication problems created by hearing loss and management procedures to facilitate communication and adjustment to hearing loss. Includes acoustic and visual properties of speech, amplification devices and hearing loss in school children.

Prerequisite: SPPA 4340 or consent of instructor.

SPPA4200 - Audiology Internship

Credits: 1-2

Max Credit (Max. 4)

Audiology internship in the UW Speech and Hearing Clinic to further the student's experience in an audiology clinic prior to their applying to an audiology graduate program.

Prerequisite: SPPA 4340 and consent of instructor.

SPPA4240 - Speech and Language Disorders Across the Lifespan

Credits: 3

The nature and causes of developmental and acquired speech and language disorders across the lifespan are examined. Principles of assessment and intervention are introduced.

Prerequisite: SPPA 3160 or consent of instructor.

SPPA4250 - Clinical Methods

Credits: 4

Introduction to clinical procedures, such as: collecting data, clinical writing and documentation, reviewing practice regulations, interviewing, and counseling. Students will obtain initial clinical experience (i. e. observation, simulation and/ or clinical assignment). Requirements (e. g. , background check, TB screen) must be met for involvement in the Speech & Hearing Clinic.

Prerequisite: SPPA 3265

SPPA4340 - Basic Audiology

Credits: 3

An introduction to audiology as a profession, with primary focus on screening and diagnostic methods for the clinical evaluation of hearing loss in children and adults.

When Offered (Normally offered spring semester)

Prerequisite: SPPA 3265 or concurrent enrollment.

SPPA4380 - Neurological Basis of Communication

Credits: 3

Studies details of human nervous system, including central and peripheral nervous systems, major motor and sensory pathways and special senses. Emphasizes neurology of various communication disorders.

Prerequisite: SPPA 3265 or consent of instructor.

SPPA4890 - Independent Study

Credits: 1-3

Max Credit (Max. 4)

An independent study will be developed by the instructor and undergraduate student. It will consist of activities such as: conducting a small research project, assisting in a research project, composing a systematic research review, participating in a clinical experience, or helping to develop a professional development or public awareness program.

Prerequisite: Consent of instructor.

SPPA5000 - Seminar in Communication Disorders

Credits: 1-8

Max Credit (Max. 8)

The participation in and discussion of special problems and/or research related to speech-language, pathology and audiology.

Prerequisite: B. S. degree and consent of instructor.

SPPA5020 - Phonological Assessment and Intervention

Credits: 3

Emphasis on normal phonetic and phonologic development, diagnosis and clinical management of articulatory and phonological disorders.

Prerequisite: SPPA 3210.

SPPA5030 - Clinical Practicum

Credits: 1-4

Max Credit (Max. 12)

Supervised clinical experience with speech, language, and hearing disordered children and adults under supervision of University of Wyoming Speech and Hearing Clinic faculty.

Prerequisite: matriculating graduate students only.

SPPA5100 - Motor Speech Disorders

Credits: 2

Evaluation and treatment of motor speech disorders. Topics will include characteristics of disordered speech associated with neurological impairments/diseases; methods for evaluating communication disorders associated with dysarthria, apraxia of speech, and other neurological and acquired conditions, and treatment approaches.

Prerequisite: SPPA 4380 or a course covering neuroanatomy/physiology of normal and disordered communication.

SPPA5110 - Craniofacial Disorders

Credits: 2

Studies communication disorders related to cleft lip and palate disorders and associated craniofacial sequences and syndromes. Assessment and treatment of these communication disorders is presented in the context of interdisciplinary management. Surgical and nonsurgical treatment procedures employed to manage speech problems associated with velopharyngeal insufficiency are included.

Prerequisite: SPPA 3265, SPPA 2210.

SPPA5120 - Stuttering

Credits: 2

Theories of etiology, symptoms of the problem, diagnosis and treatment of childhood non-fluency and various approaches to therapy for the adult stutterer.

Prerequisite: graduate level standing.

SPPA5130 - Adult Neurogenic Disorders

Credits: 4

This course will cover acquired neurogenic communication disorders. Topics include language disorders (focusing on Aphasia) as well as cognitive-communication disorders (i. e. , traumatic brain injury, Right Hemisphere Dysfunction, and Neurocognitive disorder). This graduate course provides 1) a basic understanding of the neuroanatomical/physiological basis and 2) instruction regarding evaluation and treatment methods.

Prerequisite: SPPA 4380.

SPPA5140 - EBP and Evaluation Procedures in Communication Disorders

Credits: 4

Focuses on research and evaluation procedures in speech-language pathology. Topics include evidence-based practice, evaluating research, an overview of models of disability across applied settings, assessment and evaluation processes including interviewing, understanding tool psychometrics, and using norm-based referenced tools, criterion-based measurements, and dynamic assessment.

Prerequisite: Acceptance to the University of Wyoming's graduate SLP program.

SPPA5210 - Augmentative and Alternative Communication

Credits: 2

Selection, design, and application of augmentive and alternative communication (AAC) systems to enhance communication, education, and quality of life for individuals with development and acquired disorders.

SPPA5220 - Voice Disorders

Credits: 3

Study of the etiology, assessment, and remediation of voice disorders. Includes a discussion of preventing disorders, maintaining a healthy voice, and normal changes in voice. Presentation of rehabilitation options for laryngectomized speaker.

Prerequisite: SPPA 3265.

SPPA5230 - Dysphagia

Credits: 3

Provides information regarding the anatomy and physiology of the adult and pediatric swallowing mechanisms, the diagnosis of dysphagia and feeding disorders using clinical and instrumental approaches, the medical diagnoses for which dysphagia is a common symptom, and methods that are commonly used to treat dysphagia and feeding disorders.

Prerequisite: SPPA 3265.

SPPA5270 - Educational Practicum

Credits: 1-12

Max Credit (Max. 12)

Under supervision, the student is given increased responsibility for performing speech and language assessments, hearing screenings, and treatment of children in an educational setting. Students will relate to other educational personnel and counsel teachers and families about communication disorders.

Prerequisite: completion of at least two semesters (including summer) of approved graduate coursework and clinical practicum (SPPA 5030); and approval of faculty.

SPPA5280 - Early Language Intervention

Credits: 3

Principles and techniques of language assessment and intervention for preschoolers, infants, and low-functioning individuals.

Prerequisite: SPPA 3160.

SPPA5290 - Medical Practicum

Credits: 1-12

Max Credit (Max. 12)

Under supervision, the student is given increased responsibility for performing speech and language assessments, hearing screenings and treatment of children and adults in a medical setting. Students relate to other medical and clinical personnel and counsel professionals and families about communication disorders.

Prerequisite: Completion of at least two semesters (including summer) of approved graduate coursework and clinical practicum; and approval of faculty.

SPPA5330 - School-Age Language Intervention

Credits: 3

Principles and techniques of language assessment and intervention for school-age children and adolescents with particular attention to service delivery issues in schools.

Prerequisite: SPPA 3160.

SPPA5380 - Professional Practice

Credits: 3

Max Credit (Max. 9)

Emphasizes issues related to professional practice of speech-language pathology, such as professional ethics, scope of practice, professional standards, and techniques of counseling clients. This course applies to speech-language pathologists working in either the medical or school setting. This course prepares the speech-language pathologist to collaborate with other professional in the workplace through discussion and activities of inter-professional practice and education (IPP and IPE).

Prerequisite: graduate standing in Communication Disorders and consent of instructor.

SPPA5500 - Topics in Communication Disorders

Credits: 1-8
Max Credit (Max. 9)

Provides a critical review of recent theories and developments in area of communication disorders. This is a continuing seminar course dealing with various advanced topics in communication disorders.

Prerequisite: graduate standing.

SPPA5750 - Research Methods in Speech Pathology and Audiology

Credits: 3
Emphasizes the application of scientific methodologies to areas of Speech-Language Pathology and Audiology. Topics to be covered include: introduction to writing research papers; reviewing and critiquing the literature; experimental designs; techniques in data analyses.

Prerequisite: STAT 2070 or equivalent; B. S. degree in speech pathology audiology; and acceptance into the graduate program.

SPPA5890 - Independent Study

Credits: 1-3
Max Credit (Max. 4)

Graduate-level independent study will be developed by the instructor and student. It will consist of activities such as: conducting a research project of a smaller scale than a thesis, assisting in a research project, composing a systematic research review, or developing a professional education or public awareness program.

Prerequisite: graduate standing.

SPPA5900 - Practicum in College Teaching

Credits: 1-3
Max Credit (Max. 3)

Work in classroom with a major professor. Students are expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

SPPA5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

SPPA5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

SPPA5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

SPPA5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Graduate level course designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

SPPA5961 - Graduate Projects

Credits: 1-4
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly activities in support of their Plan B project.

Prerequisite: must be enrolled in Plan B program and have departmental approval.

SPPA5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

Statistics

STAT1101 - First-Year Seminar

Credits: 3
USP 2015 Code U5FY

STAT2000 - Statistics and the World

Credits: 3

Discusses statistical reasoning and methods as related to today's society. Emphasizes ideas rather than specific techniques. Focuses on real examples of the use (and misuse) of statistics. Includes sampling, experimentation, descriptive statistics, elementary probability and statistical inference.

USP 2003-2014 Code U3QB,U3Q

Prerequisite: grade of C or better in MATH 0921 or level 2 on the Math Placement Exam or Math ACT of 21 or Math SAT of 600 or concurrent enrollment in MATH 1080.

STAT2050 - Fundamentals of Statistics

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB

USP 2015 Code U5Q

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

STAT2110 - Statistical Methods for Business and Management Science

Credits: 3

Provides majors in various departments of the College of Business with training in use of statistical analysis techniques as they apply to business problems. Credit cannot be earned in more than one of the following: STAT 2110, STAT 3050 and STAT 5050, STAT 5060, STAT 5070, STAT 5080.

Prerequisite: STAT 2010.

STAT3050 - Statistical Methods

Credits: 3

Provides undergraduate majors in the Colleges of Arts and Sciences, Agriculture and Education with training in statistical methodology for multiple variable situations. Integrates computer analysis packages such as R MINITAB, SAS and SPSSX into statistical topics. Credit cannot be earned in more than one of the following courses: STAT 2110, 3050 and STAT 5050, 5060, STAT 5070, STAT 5080.

Prerequisite: STAT 2050, STAT 2070 or equivalent.

STAT4015 - Regression Analysis

Credits: 3

Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.

Former Course Number [4010, 4410]

Prerequisite: STAT 2050 or equivalent

STAT4025 - Design and Analysis of Experiments I

Credits: 3

Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete blocks as time permits.

Dual Listed STAT 5025.

Former Course Number [4020, 4310]

Prerequisite: STAT 2050 or equivalent

STAT4045 - Categorical Data Analysis

Credits: 3

Applied methods for analyzing associations when some or all variables are measured in discrete categories, not continuous scales. Topics include the binomial, multinomial, and Poisson probability models, parameter estimation and hypothesis-testing about proportions, measures of association and tests for contingency tables, logistic regression, and log-linear models.

Dual Listed STAT 5045.

Former Course Number [4040]

Prerequisite: STAT 2050 or equivalent

STAT4070 - Causal Models

Credits: 3

Applications of least-squares and iterative maximum-likelihood methods for drawing cause and effect conclusions from nonexperimental data. Topics include regression-based path analysis, reciprocal causation, confirmatory factor analysis, measurement error, and structural equation models with unmeasured (latent) variables.

Cross Listed SOC 4070.

Prerequisite: one of STAT 3050, STAT 4015, STAT 5050, 5060, STAT 5070, STAT 5080 or equivalent (regression methods).

STAT4115 - Time Series Analysis and Forecasting

Credits: 3

An applied introduction to time series and forecasting. Brief coverage of time series regression, decomposition methods, and smoothing will lead into a more detailed coverage of Box-Jenkins (ARIMA) modeling. Computer analyses using MINITAB and SAS will be an important part of the course.

Cross Listed ECON 5115

Dual Listed STAT 5115.

Former Course Number [4110]

Prerequisite: STAT 4015 /5015

STAT4155 - Fundamentals of Sampling

Credits: 3

Develops methodology of simple random sampling, stratified sampling, and multistage sampling. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

Dual Listed STAT 5155.

Former Course Number [4150]

Prerequisite: choice of STAT 2010, STAT 2050, STAT 2070 or equivalent.

STAT4220 - Basic Engineering Statistics

Credits: 3

Introduces probability models, properties of distributions, statistical inference and development of statistical models for physical and engineering sciences. Credit cannot be earned in more than one of the following courses: STAT 2010, STAT 2050, STAT 2070, 4220 and 5000.

Former Course Number [4020]

Prerequisite: MATH 2205, MATH 2355 or equivalent.

STAT4240 - Data Mining

Credits: 3

An introduction to statistical learning and data mining using techniques that have proven useful in recognizing patterns and making predictions. These techniques include both parametric and nonparametric models. Tools for computing and evaluating these techniques will also be studied.

Dual Listed STAT 5240.

Prerequisite: STAT 4015.

STAT4255 - Mathematical Theory of Probability

Credits: 3

Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence and conditional probability, mathematical expectation, multivariate distributions and properties of normal probability law.

Cross Listed MATH 4255.

Dual Listed STAT 5255.

When Offered (Offered fall semester)

Former Course Number [4250]

Prerequisite: grade of C or better in MATH 2210.

STAT4265 - Introduction to the Theory of Statistics

Credits: 3

Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

Cross Listed MATH 4265.

Dual Listed STAT 5265.

Former Course Number [4260, 4010]

Prerequisite: STAT 4255/MATH 4255.

STAT4270 - Applied Bayesian Statistics

Credits: 3

This course introduces Bayesian data analysis in an applied context. We will learn about Bayesian statistics primarily in a regression model context, taken broadly. A conceptual understanding of popular Markov Chain Monte Carlo algorithms will be provided.

Dual Listed STAT 5270.

Prerequisite: STAT 4015 /5015

STAT4280 - Models for Hierarchical Data

Credits: 3

Provides an introduction to the modeling and analysis of correlated/hierarchical data from exponential family member distributions (i. e. presence/absence, count data, Gaussian data). Emphasis is on applications. Aimed to build off of a first course in regression analysis.

Dual Listed STAT 5280.

Prerequisite: STAT 4015.

STAT4300 - Applied Multivariate Analysis

Credits: 3

The application of multivariate statistical methods in behavioral science research. Topics include: multivariate regression, canonical correlation, discriminate analysis, factor analysis and multidimensional scaling. A wide range of computer assistance is incorporated.

Dual Listed STAT 5300.

Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4350 - Survey Construction and Analysis

Credits: 3

Examines the issues surrounding the construction (item wording, test theory, and numerical scales), assessment (sampling and psychometrics), and analysis (item analysis, qualitative data analysis, and factor analysis) of survey instruments. Roughly a third of the course is devoted to each of these areas.

Dual Listed STAT 5350.

Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4360 - Spatial Statistics

Credits: 3

Emphasis is on a generalized linear model approach to the modeling of continuous data, placing model building and the various kriging methods into a single conceptual framework.

Dual Listed STAT 5360.

Prerequisite: STAT 4015.

STAT4370 - Survival Analysis

Credits: 3

Introduction to the modeling of time to event data as it arises in epidemiological and medical research. Topics include parametric and non-parametric estimation for censored data without covariates, and for data with covariates, the

proportional hazards regression model, additive hazards regression model and parametric regression models.

Dual Listed STAT 5370.

Prerequisite: STAT 4015 and STAT 4025.

STAT4460 - Statistical Software

Credits: 1

Max Credit 1

An introduction to the various statistical software programs currently in use at the University of Wyoming. Topics will include the structure of each language, I/O, programming the basic statistical applications, and a comparison of the other languages.

Former Course Number [5480]

Prerequisite: STAT 2050

STAT4870 - Senior Thesis

Credits: 3

Encompasses senior thesis research project under faculty member guidance and supervision. Faculty sponsorship must be obtained prior to registration.

Prerequisite: 18 hours in statistics and senior standing.

STAT4880 - Problems in Statistics

Credits: 1-4

Encourages individual initiative on part of students who work on extending their knowledge through library research.

Former Course Number [4790]

Prerequisite: senior standing, 8 hours in statistics and consent of instructor.

STAT5015 - Regression Analysis

Credits: 3

Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 4015.

STAT5025 - Design and Analysis of Experiments I

Credits: 3

Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete block as time permits.

Dual Listed STAT 4025.

STAT5045 - Categorical Data Analysis

Credits: 3

Applied methods for analyzing associations when some or all variable are measured in discrete categories, not continuous scales. Topics include the binomial, multinomial, and Poisson probability models, parameter estimation and hypothesis-testing about proportions, measures of association and tests for contingency tables, logistic regression, and log-linear models.

Dual Listed STAT 4045.

STAT5050 - Statistical Methods for the Biological Science

Credits: 3

General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 3050, 5050, 5060, STAT 5070.

Cross Listed ZOO 5050.

Prerequisite: one course in statistics (all introductory courses except 2000).

STAT5055 - Statistical Methods for the Biological Sciences II

Credits: 3

The statistical toolkit (regression and ANOVA-driven) of methods applicable to the biological and behavioral sciences will be extended to include multiple logistic regression, power and sample size considerations, and computer-intensive methods such as bootstrapping and randomization tests, which will considerably expand the repertoire of methods that a person could use.

Prerequisite: STAT 5050 or equivalent.

STAT5070 - Statistical Methods for the Social Sciences

Credits: 3

General statistical analyses and their application to the social sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 2110, STAT 3050, STAT 5050, 5060, 5070.

Cross Listed SOC 5070.

Prerequisite: one course in statistics (all introductory courses except STAT 2000).

STAT5080 - Statistical Methods for the Agricultural and Natural Resource Sciences

Credits: 3

Brief review of statistical principles. Use of SAS programming. Numerous analysis of variance techniques along with commonly-used experimental designs. Multiple mean comparison, linear contrasts, power of F test, simple linear regression, polynomial regression, analysis of covariance, and some categorical data techniques for students in the agriculture and natural resources sciences. Credit cannot be earned in more than one of the following courses: STAT 2110, STAT 3050, STAT 5050, 5060, STAT 5070, 5080.

Cross Listed ENTO 5080.

Prerequisite: STAT 2050 or equivalent.

STAT5115 - Time Series Analysis and Forecasting

Credits: 3

An applied introduction to time series and forecasting. Brief coverage of time series regression, decomposition methods, and smoothing will lead into a more detailed coverage of Box-Jenkins (ARIMA) modeling. Computer analysis using MINITAB and SAS will be an important part of the course.

Cross Listed ECON 4115

Dual Listed STAT 4115.

Prerequisite: STAT 4015 /5015

STAT5155 - Fundamentals of Sampling

Credits: 3

Develops methodology of simple random sampling, stratified sampling, and multistage samples. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

Dual Listed STAT 4155.

Prerequisite: STAT 2070 or equivalent.

STAT5185 - Analysis of Data

Credits: 3

Focuses on data collection, analysis, interpretation, and communication, using contexts relevant to everyday situations. Topics chosen integrate well with the concerns of middle-level teachers and connect with such curriculum areas as health, science, and social studies. This course is not a research methods course.

Cross Listed NASC 5180.

Prerequisite: graduate standing in either degree or non-degree seeking status, and acceptance into the Middle-level mathematics program.

STAT5210 - Advanced Regression

Credits: 3

Advanced methodologies, with particular focus on concepts and methods related to regression. Topics include generalized linear models, nonlinear regression, elementary linear model theory, and Data Science topics such as resampling inference, ridge regression and the lasso, and k-fold cross-validation.

Prerequisite: MATH 4265/STAT 4265/STAT 5265 and STAT 4015/STAT 5015. STAT 4025/STAT 5025 and STAT 4045/STAT 5045 are recommended.

STAT5220 - Advanced Design

Credits: 3

Advanced study of experimental designs, observational designs, and mixed models. Topics include fixed and random effects, factorial, split-plot and repeated measures designs, and hierarchical models. Linear model methodology and Data Science concepts will also be emphasized.

Prerequisite: MATH 5265/STAT 4265/STAT 5265, and at least one of STAT 4015/STAT 5015, STAT 4025/STAT 5025, or STAT 5210.

STAT5230 - Statistic Methods III

Credits: 4

Continuation of topics in Statistical Methods from STAT 5220; aimed at preparing students for advanced topics courses in Statistics.

Prerequisite: STAT 5220 and STAT 5520.

STAT5240 - Data Mining

Credits: 3

An introduction to statistical learning and data mining using techniques that have proven useful in recognizing patterns and making predictions. These techniques include both parametric and nonparametric models. Tools for computing and evaluating these techniques will also be studied.

Dual Listed STAT 4240.

Prerequisite: STAT 5015.

STAT5255 - Mathematical Theory of Probability

Credits: 3

Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence and conditional probability distributions, independence and conditional probability, mathematical expectation, multivariate distributions and properties of normal probability law.

Cross Listed MATH 5255.

Dual Listed STAT 4255.

Prerequisite: grade of C or better in MATH 2210 or MATH 2355.

STAT5265 - Introduction to the Theory of Statistics

Credits: 3

Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

Cross Listed MATH 5265.

Dual Listed STAT 4265.

Prerequisite: STAT 4255/STAT 5255.

STAT5270 - Applied Bayesian Statistics

Credits: 3

This course introduces Bayesian data analysis in an applied context. We will learn about Bayesian statistics primarily in a regression model context, taken broadly. A conceptual understanding of popular Markov Chain Monte Carlo algorithms will be provided.

Dual Listed STAT 4270.

Prerequisite: STAT 4015 /5015

STAT5280 - Models for Hierarchical Data

Credits: 3

Provides an introduction to the modeling and analysis of correlated/hierarchical data from exponential family member distributions (i. e. presence/absence, count data, Gaussian data). Emphasis is on applications. Aimed to build off of a first course in regression analysis.

Dual Listed STAT 4280.

Prerequisite: STAT 5015.

STAT5300 - Applied Multivariate Analysis

Credits: 3

The application of multivariate statistical methods in behavioral science research. Topics include: multivariate regression, canonical correlation, discriminate analysis, factor analysis and multivariate regression, canonical correlation, discriminate analysis, factor analysis and multidimensional scaling. A wide range of computer assistance is incorporated.

Dual Listed STAT 4300.

Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT5350 - Survey Construction and Analysis

Credits: 3

Examines the issues surrounding the construction (item wording, test theory, and numerical scales), assessment

(sampling and psychometrics), and analysis (item analysis, qualitative data analysis, and factor analysis) of survey instruments. Roughly a third of the course is devoted to each of these areas.

Dual Listed STAT 4350.

Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT5360 - Spatial Statistics

Credits: 3

Emphasis is on a generalized linear model approach to the modeling of continuous data, placing model building and the various kriging methods into a single conceptual framework.

Dual Listed STAT 4360.

Prerequisite: STAT 4015.

STAT5370 - Survival Analysis

Credits: 3

Introduction to the modeling of time to event data as it arises in epidemiological and medical research. Topics include parametric and non-parametric estimation for censored data without covariates, and for data with covariates, the proportional hazards regression model, additive hazards regression model and parametric regression models.

Dual Listed STAT 4370.

Prerequisite: STAT 4015, STAT 4025 and STAT 4265.

STAT5380 - Bayesian Data Analysis

Credits: 3

Bayesian statistical methods for analyzing various kinds of data. Topics include basic Bayesian ideas and model formulation (priors, posteriors, likelihoods), single- and multiple-parameter models, hierarchical models, generalized linear models, multivariate models, survival models and an introduction to computation methods.

Prerequisite: STAT 5255

STAT5470 - Data Analysis

Credits: 3

This course is designed to develop the skill of analyzing data sets using methods of classic statistical analysis, such as analysis of variance, regression, discrete models, descriptive analysis, non-parametrics, and multivariate methods. The focus will be on understanding the various models and methods, computer assisted data analysis, and communication of results (oral and written).

Prerequisite: 12 graduate level hours in statistics (excluding STAT 5000).

STAT5490 - Statistical Consulting

Credits: 1

An introduction to the art and practice of statistical consulting. Topics include active listening, ascertaining client knowledge level and ability, determining appropriate methods of analysis given limitations, and organizing and managing a consulting session.

Prerequisite: graduate standing in statistics, 15 hours in statistics.

STAT5510 - Distribution Theory

Credits: 4

Topics covered include probability theory, conditional probability, random variables, special distribution functions, functions of random variables, expectation, random samples, and limiting distributions.

Prerequisite: MATH 2210, 3000 or MATH/STAT 4265.

STAT5520 - Inference I

Credits: 4

Topics covered include Properties of a random sample, Sufficiency principle, Likelihood principle, point estimation (mle, mom, Bayes estimators, etc. and methods for evaluating estimators), some interval estimation.

Prerequisite: STAT 5510.

STAT5530 - Inference II

Credits: 3

Topics covered include methods used in Bayesian, Likelihood, Frequentist inference; some methods for robust inference and some large sample theory as needed.

Prerequisite: STAT 5520.

STAT5540 - Large Sample Theory

Credits: 3

Treats various limiting techniques which can be used to predict the behavior of statistics computed from large data sets. The characteristic function is used in deriving the law of large numbers and various forms of the central limit theorem, including the multivariate normal case. The central and noncentral chi-square distributions are derived as the probability law for certain statistics in the limit. Other topics discussed include modes of probabilistic convergence, speed of convergence, and large sample approximation procedures.

Prerequisite: STAT 5510.

STAT5615 - Time Series Analysis II

Credits: 3

A treatment of theory and application of ARIMA modeling of times series. Frequency domain analysis is also

introduced. Additional topics will be selected from intervention analysis, transfer function (ARMAX) models, outlier analysis, vector ARIMA models, ARCH, GARCH, and state-space models, according to the interests and abilities of the class.

Prerequisite: STAT 4015/STAT 5015, STAT 4115 and STAT 4265/STAT 5265.

STAT5620 - Theory of Linear Models

Credits: 3

A theoretical approach to estimation and testing in the general linear model. Topics include: special linear algebra results for statistics, parameterizations, estimability, least squares, best linear unbiased estimation, and testing linear hypotheses.

Prerequisite: STAT 5520, STAT 5630, MATH 4500.

STAT5630 - Multivariate Analysis

Credits: 3

The subject matter includes derivation of multi-variate normal distributions, the Wishart, and related sampling distributions, multivariate estimation, confidence regions, and hypothesis testing are covered including topics as Hotelling's T squared, profile analysis, discriminant analysis, factor analysis, and cluster analysis.

Prerequisite: STAT 4265, MATH 2250.

STAT5650 - Theory of Sampling

Credits: 3

Consists of the theory of simple random sampling, stratified sampling, multistage sampling, and regression and ratio estimation. Recent developments in sampling are presented.

Prerequisite: STAT 4265, STAT 4155/STAT 5155.

STAT5660 - Computationally Intensive Methods in Statistics

Credits: 3

Advanced statistical inference often relies on methods which are computationally intensive. The basic methods include Newton-Raphson; the EM algorithm; bootstrap and other resampling procedures; kernel density estimators; Laplace's method, importance sampling and MCMC, and saddlepoint and Edgeworth approximations.

Prerequisite: STAT 5520.

STAT5670 - Mixed Models

Credits: 3

An advanced treatment of models with fixed and random effects. Topics include: model definitions, least-squares, analysis of variance techniques, likelihood procedures, and computational applications.

Prerequisite: STAT 5620.

STAT5680 - Advanced Bayesian Statistics

Credits: 3

Philosophical principles underlying Bayesian and non-Bayesian statistics. Decision theoretic foundations of Bayesian statistics including loss functions, minimaxity, and admissibility. Construction of conjugate prior distributions and non-informative prior distributions. Bayesian point estimation, hypothesis tests and credible sets. Computational tools for Bayesian problems including Markov chain Monte Carlo (MCMC) and other methods for approximating posterior distributions with some emphasis on implementation via a programming language or statistical computing software. As time and interest permit: the normal linear model, non-normal models, hierarchical models, Bayesian model averaging, other topics.

Prerequisite: STAT 5380; 5420 and STAT 5520.

STAT5810 - Seminar

Credits: 1-2

Max Credit (Max. 4)

Research results are presented by statistics majors. (Faculty also present papers).

Prerequisite: graduate status in statistics.

STAT5820 - Teaching of Statistics1

Credits: 2

Max Credit (Max 2)

The following topics are presented and discussed: traditional and innovative teaching methods, assessment methods, the purpose of lectures and laboratories, in-class activities, projects, mathematics versus statistics, computer assistance, math anxiety, and group and one-on-one interaction guidelines.

Prerequisite: consent of instructor.

STAT5880 - Advanced Problems

Credits: 1-8

Max Credit (Max. 8)

Intended to develop the graduate student's ability to expand his theoretical knowledge by using library materials and working under close supervision of a faculty member who is an expert in the area of study.

Prerequisite: 12 hours in statistics and consent of instructor.

STAT5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

STAT5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

STAT5959 - Enrichment Studies

Credits: 1-3
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.

STAT5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Graduate level course designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

STAT5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Graduate level course designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

STAT5990 - Internship

Credits: 1-12
Max Credit (Max 24)

Prerequisite: graduate standing.

STEP

STEP1060 - College Athletics and Society

Credits: 3

This course will examine the unique relationship between intercollegiate athletics and higher education, as well as intersections that occur with gender, politics, and race.

STEP1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

STEP1102 - Step Into College

Credits: 1

Helps students interact with UW campus resources, staff, and faculty; learn about resources for academic support and wellness; and explore academic and co-curricular opportunities for students' professional and personal interests.

Restricted Restricted to new full-time, first-year freshmen.

Prerequisite: Freshman or sophomore class standing.

STEP1105 - Academic Success Skills

Credits: 1-2

Designed to provide students the necessary skill set to succeed at the University and beyond. Skills covered include time management, learning styles, note taking, self-motivation and more.

STEP3000 - Student Leadership in Supplemental Instruction

Credits: 2

Focuses on theoretical perspectives of group tutoring and peer leadership, best practices in supplemental instruction, and student reflection. Will strengthen leadership knowledge and skills and introduce effective methods for group facilitation and SI curriculum.

Prerequisite: closed to general enrollment.

Theatre and Dance

THEA1000 - Introduction to Theatre, TV & Film

Credits: 3

A broad examination of theatre, television and film through the ages including history, production, dramatic literature, creativity, art, entertainment and censorship.

USP 2003-2014 Code U3CA

USP 2015 Code U5H

THEA1021 - Academic and Professional Issues in Dance

Credits: 1

Introduces freshman to the discipline of dance and academic study at the University of Wyoming. Key intellectual and literacy concepts will be introduced, including, but not limited to: critical thinking and analysis, knowledge of the discipline, career options, diversity of the discipline, university and region.

USP 2003-2014 Code U3I,U3L

THEA1040 - Production Crew I

Credits: 0.5

Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA1050 - Beginning Drawing and Painting

Credits: 3

An introductory drawing and painting technique course for students to achieve a working knowledge of a variety of mediums that cross the disciplines of scenic, costume, and lighting design. Form, perspective, texture and basic color theories will be explored.

THEA1100 - Acting I

Credits: 3

Acting I introduces students to the study of the actor's process with an emphasis on analyzing, rehearsing and performing scenes in front of an audience. The student will be introduced to exercises which promote creative expression. Scene work and scoring will focus on contemporary realism.

USP 2003-2014 Code U3CA

USP 2015 Code U5H

Restricted Theater majors or permission of instructor

THEA1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

THEA1200 - Introduction to Design

Credits: 3

Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

THEA1300 - Musical Theatre Workshop: Voice and Acting

Credits: 2

Max Credit (Max. 8)

Musical Theatre Workshop: Voice & Acting will focus on developing and strengthening the speaking and singing voice for stage, wherein students will construct performances through integration of breath and voice work.

THEA1360 - Fundamentals of Music for Theatre Majors

Credits: 3

Basics of music theory to include music notation, rhythm, pitch, scales, key signatures, triads, and basic ear training and keyboard skills, specific to the needs of Musical Theatre. Assumes little or no music theory background.

THEA1405 - Introduction to Pilates Training

Credits: 1

Max Credit (Max. 2)

An introduction to Pilates based training, including mat work and exercises on the Reformer.

Prerequisite: consent of instructor.

THEA1410 - Beginning Ballet I

Credits: 1

Introduces principles and practices of classical ballet technique.

USP 2015 Code U5H

Prerequisite: THEA 1410 or instructor permission.

THEA1420 - Beginning Ballet II

Credits: 1

Continues studies in classical ballet technique. Instructor permission required.

USP 2015 Code U5H

Prerequisite: THEA 1410.

THEA1430 - Beginning Modern I

Credits: 1

Introduces principles and techniques of modern dance.

USP 2015 Code U5H

THEA1440 - Beginning Modern II

Credits: 1

Continues studies in modern dance techniques.

USP 2015 Code U5H

Prerequisite: Prerequisite THEA 1430 or instructor permission.

THEA1450 - Beginning Tap Dance I

Credits: 1

Explores basic tap techniques and related principles of tap dance composition.

THEA1470 - Men's Technique

Credits: 1

Max Credit (Max. 2)

Introduces and develops the principles and techniques of movement and dance specific to men.

THEA1480 - Beginning Jazz Dance I

Credits: 1

Explores basic jazz dance techniques and related principles of jazz dance composition.

USP 2003-2014 Code H

THEA2005 - Creative Drama in the Classroom

Credits: 3

Focuses on K-12 Theatre teaching methods. Students discover teaching methods for integrating improvisation, storytelling, movement/dance, and puppetry into the school curriculum. Students design and implement theatre lessons using these creative drama techniques. To engage real life practice teaching, students are given opportunities to teach creative drama lessons to the class.

THEA2010 - Theatrical Backgrounds Drama I

Credits: 3

First semester of a two-course series. Introduces dramatic literature through the ages.

THEA2020 - Theatrical Backgrounds Drama II

Credits: 3

Second semester of a one-year course. Continues THEA 2010.

Prerequisite: THEA 2010.

THEA2030 - Beginning Playwriting

Credits: 3

Introduces writers to the creative process of playwriting (writing for the stage) or screenwriting (writing for the movies). Strongly emphasizes character and story development, as well as practical side of the industry. Students write a play or screenplay.

Former Course Number [3500]

Prerequisite: WA and THEA 1000, THEA 1100.

THEA2040 - Production Crew II

Credits: 0.5

Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2050 - Theatre Practice

Credits: 1-2

Encompasses individually supervised practical training in performance and production.

Prerequisite: consent of instructor.

THEA2060 - Introduction to Performance Studies

Credits: 3

Introduces students to the theories and practices of Performance Studies as an interdisciplinary field. Students will apply these concepts as a way of exploring issues of culture and identity, particularly in an international context.

USP 2015 Code U5C2

A&S College Core 2015 ASG

THEA2100 - Acting II

Credits: 3

Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1100 OR equivalent

THEA2145 - Costume Construction

Credits: 3

Teaches the basic skills and terminology that are used in costume construction. Teaches hand and machine sewing focusing on techniques used to stitch historical and modern costumes as well as basic knowledge of fabric.

THEA2150 - Drafting for Design

Credits: 3

Introduces Design and Technical students to the basics of hand drafting and numerous drafting techniques and conventions. After completing this course, students will be well prepared for scenic and lighting design courses.

THEA2160 - Stage Makeup

Credits: 2

Introduction to theatrical makeup with the stage performer in mind. Focus on principles, materials, and techniques; concentrating on problems of designing and executing specific makeup designs and applications for a wide range of ages, types, and styles.

THEA2170 - Speech for the Actor

Credits: 3

Studies speech techniques, including the International Phonetic Alphabet and Standard American Speech for the Stage. Builds upon the FitzmauriceVoicework technique as well as other voice methodologies.

Prerequisite: THEA 1100 and THEA 1700.

THEA2180 - Costume Crafts

Credits: 3

Focuses on the area of costume crafts which may include but not limited to dyeing, millinery, masks, fabric painting and distressing, working with a variety of materials.

Prerequisite: THEA 2145.

THEA2200 - Backgrounds of Dance

Credits: 3

Surveys ethnic and theatrical dance forms from primal society to 20th century. Examines the place of the arts as a reflection of the culture.

USP 2003-2014 Code U3CA,U3G

USP 2015 Code U5H

A&S College Core 2015 ASG

THEA2220 - Stagecraft

Credits: 3

Introduces students to basic stage production practices and techniques, including safe rigging practices, set construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

THEA2250 - Computer Aided Design I

Credits: 3

Building on skills and techniques learned in THEA 2150 Drafting for Design, the course introduces and provides students with training on commonly used software, that may include CAD, 3D-modeling, and photo editing software. Skills acquired will be built upon in later courses.

Prerequisite: THEA 2150 or by permission of instructor.

THEA2300 - MT Workshop: Scene Study

Credits: 1

Max Credit 1

Study and analysis of written aspects of Musical Theatre (Book, Lyrics, Music) with an emphasis on translating analysis into tangible aspects of musical theatre performance. Study and practice outside of class, as well as rehearsals with assigned scene partner(s) is required.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1300

THEA2340 - Musical Theatre Voice Lesson

Credits: 1

Max Credit (Max. 8)

Solo instruction in singing techniques and performance styles associated with Musical Theatre. Includes demonstration, brief lecture, discussion, and active participation through singing, analyzing, movement, and performance.

THEA2400 - Vertical Dance I

Credits: 1

An introduction to vertical dance including safety issues, beginning rigging and performance.

Prerequisite: consent of instructors.

THEA2410 - Intermediate Ballet I

Credits: 1.5

Max Credit (Max. 3)

A first year, first semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary, and principles of classical ballet.

USP 2015 Code U5H

Prerequisite: Admission by permission only.

THEA2415 - Pointe I

Credits: 1

Max Credit (Max. 4)

A beginning level point class based on the principles of classical ballet.

Prerequisite: Completion of or concurrent enrollment in THEA 2410, or permission of the instructor. Limited to dance majors and minors.

THEA2420 - Intermediate Ballet II

Credits: 1.5

Max Credit (Max. 3)

A first year, second semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary and principles of classical ballet.

USP 2015 Code U5H

Prerequisite: Admission by permission only.

THEA2425 - Pointe II

Credits: 1

Max Credit (Max. 4)

An intermediate level pointe class based on the principles of classical ballet.

Prerequisite: THEA 2415 or permission of the instructor. Limited to dance majors and minors.

THEA2430 - Intermediate Modern I

Credits: 1.5

Max Credit (Max. 3)

A first year, first semester, modern dance technique class for dance majors and minors. Knowledge of basic vocabulary and principles will be augmented with an understanding of historical techniques and their application to contemporary dance. Class meets three times per week.

USP 2015 Code U5H

Prerequisite: Limited to dance majors and minors; admission by permission only.

THEA2435 - Repertory

Credits: 1

Max Credit (Max. 4)

A beginning level repertory class based on the principles of modern dance.

Prerequisite: Status in the dance department, or permission of the instructor is required before enrolling.

THEA2440 - Intermediate Modern II

Credits: 1.5

Max Credit (Max. 3)

A first year, second semester modern dance technique class for dance majors and minors. Mastering vocabulary and principles will be augmented with a deeper understanding of historical techniques and their application to contemporary dance.

USP 2015 Code U5H

Prerequisite: THEA 2430. Limited to dance majors and minors; admission by permission only.

THEA2445 - Repertory II

Credits: 1

Max Credit (Max. 4)

A beginning level partnering class based on the principles of ballet or modern dance.

Prerequisite: Status in the dance department, or permission of the instructor is required before enrollment.

THEA2450 - Intermediate Tap I

Credits: 1

Continued studies in techniques and principles of tap dance and tap dance composition.

Prerequisite: THEA 1450.

THEA2480 - Intermediate Jazz I

Credits: 1

Continued studies in techniques and principles of jazz dance and jazz dance composition.

USP 2015 Code U5H

Prerequisite: THEA 1480. Instructor permission required.

THEA2720 - Movement for Actors I

Credits: 2

This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the actor in all performance efforts.

Prerequisite: THEA 1100.

THEA2790 - Stage Management

Credits: 3

Study of the essential elements of supervising theatrical productions. Stresses the art of organizing auditions, casts, crews, rehearsals, and performances while developing a unique professional relationship with directors, designers and actors. Students will work on a live production.

Prerequisite: THEA 1100, THEA 1200, THEA 2220.

THEA2800 - Stage Lighting I

Credits: 3

Examines the elemental aspects of stage lighting including equipment, facilities, color, and fundamental electricity. Requires studio work on departmental productions. Intended for majors in the program.

Former Course Number [3800]

Prerequisite: THEA 2150 and THEA 2220.

THEA2810 - Scenic Painting for the Theatre

Credits: 3

Introduces the art of scenic painting by the hands-on use and instruction of a variety of scenic paints, application on select construction materials, the use of unique tools and techniques commonly used to paint scenery for the stage. Safe use and proper handling of such material are addressed.

Prerequisite: THEA 2220.

THEA2900 - Sound Design for Theatre and Dance

Credits: 3

Examines the basic aspects of sound design for the theatre, dance, entertainment and film worlds. Topics covered include recording, sampling, live mixing, playback, and non-linear editing through several software packages.

Prerequisite: THEA 2220.

THEA2990 - Period Style for Theatre I

Credits: 3

First semester of a one-year survey. Studies antiquity to the Renaissance with an overview of the architecture, décor, clothing, arts and culture as related in their use and understanding of Western drama. The social, economic, and political histories of each period will be discussed as well. THEA 2990 and THEA 2995 should be taken in sequence.

THEA2995 - Period Style for Theatre II

Credits: 3

Second semester of a one-year survey. Studies Renaissance to Contemporary with an overview of the architecture, decor, clothing, arts and culture as related in their use and understanding of Western drama. The social, economic, and political histories of each period will be discussed as well. THEA 2990 and 2995 should be taken in sequence.

Prerequisite: THEA 2990 or permission of instructor.

THEA3000 - Special Topics in Theatre

Credits: 3

Max Credit (Max. 9)

Provides undergraduates with the opportunity for in-depth study in areas of Theatre not offered in regular courses or independent study. Course includes discussions on specific topics as well as studio work.

Prerequisite: 6 credit hours in Theater/Dance.

THEA3021 - Foundations of Dance Pedagogy

Credits: 1

Introduces students to basic theories and practices of dance pedagogy. Lecture and discussion will be balanced with peer teaching and coaching, observation of lessons and integration within a dance classroom situation with some teaching responsibilities and development of a portfolio with lessons and resources for teaching.

Prerequisite: sophomore standing in the department of Theatre and Dance; successful completion of THEA 3420 or THEA 3440.

THEA3100 - Kinesiology for Dance

Credits: 3

Encompasses seminar in current kinesiology research for dancers. Includes practicum based projects, lectures and supplementary materials.

Prerequisite: ZOO 2040.

THEA3160 - Advanced Stage Makeup

Credits: 2

Extension of Stage Makeup, focusing primarily on the development of a life mask and ultimately prosthetics using a variety of mediums.

Prerequisite: THEA 2160.

THEA3300 - MT Workshop: Production

Credits: 1-2

Max Credit 2

Focusing on solos, duets and/or large and small ensemble pieces, instruction will include music preparation, choreography, blocking, acting, character study and performance. Additional scene study, rehearsals outside of class times, mock auditions, and study of materials will be required. The course will be repeated twice for credit.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1300

THEA3400 - Vertical Dance II

Credits: 1

A continuing course in vertical dance emphasizing the math and physics of the rigging; safety and design, choreography and research in the field.

Prerequisite: completion of THEA 2400 and consent of instructors.

THEA3410 - Adv/Intermediate Ballet I

Credits: 1.5

Max Credit (Max. 3)

A second year, first semester ballet technique class for dance majors and minors. Emphasis is placed on improving technical skills and learning more advanced steps. Includes research into one discipline of ballet.

Prerequisite: successful completion of THEA 2440 and admission by permission only. Limited to dance majors and minors.

THEA3420 - Adv/Intermediate Ballet II

Credits: 1.5
Max Credit (Max. 3).

Second semester, second year ballet technique class for dance majors and minors. Emphasizes broadening the dancer's movement vocabulary while refining acquired technical skills. Dancers begin work in study of Baroque dance terms.

Prerequisite: successful completion of THEA 3410 or equivalent required. Limited to dance majors and minors; admission by permission only.

THEA3430 - Adv/Intermediate Modern I

Credits: 1.5
Max Credit (Max. 3)

A second year, first semester, intermediate level modern dance technique class for dance majors and minors. Continued training in classical modern dance and continued historical survey of modern dance will be augmented by rhythmic analysis and compositional forms.

Prerequisite: successful completion of THEA 2440 or its equivalent. Limited to dance majors and minors; admission by permission only.

THEA3440 - Adv/Intermediate Modern II

Credits: 1

A second year, second semester, modern dance technique class with continuing studies of sequential modern dance technique at the intermediate level, introduction of Laban effort/shape theory, compositional forms, improvisation and additional rhythmic analysis.

Prerequisite: THEA 3430 or its equivalent. Limited to dance majors and minors; admission by permission only.

THEA3480 - Adv/Intermediate Jazz I

Credits: 1
Max Credit (Max. 2)

An intermediate jazz technique class. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation and incorporate them into class compositions.

Prerequisite: THEA 2480.

THEA3490 - Advanced Jazz I

Credits: 1
Max Credit (Max. 2)

An advanced class in jazz technique and performance. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation as well as incorporate them into class compositions.

Prerequisite: THEA 3480.

THEA3501 - Screen Writing and Television Writing

Credits: 3

This class introduces students to the craft of writing for movies and television. Strong emphasis is placed on character and story development as well as how the Hollywood entertainment industry works.

Prerequisite: COM1 or consent of instructor.

THEA3600 - Teaching Theatre in Elementary or Secondary School

Credits: 3

Focuses on aspects of age appropriate teaching methods, strategies, and curriculum planning for either elementary or secondary education. Additional emphasis include planning a production season, arts management and budgeting, using national and state content and performance standards, assessing student growth, and developing community advocacy plans.

Prerequisite: THEA 1100.

THEA3650 - Theatre for Young Audiences: Plays and Production

Credits: 3

Highlights aspects of performance and directing for child audiences. Students will explore the work of outstanding contemporary playwrights who are writing for young audiences, and develop techniques in writing, acting, and directing for and with young people.

Prerequisite: THEA 1100.

THEA3710 - Acting III

Credits: 3

Building on concepts explored in Acting II, this course seeks to further develop the student's ability to interpret, create and sustain a well-developed, believable character. Acting III develops the actor's voice and body for characterization and character interaction through performances of scenes as well as the study of character and scene.

Restricted Theatre majors or permission of instructor

Prerequisite: THEA 2100

THEA3740 - Acting Styles

Credits: 3

Focuses on textual analysis of plays from different periods and styles of dramatic literature. Emphasizes vocal and physical interpretation of character as represented in non-realistic styles of drama.

Prerequisite: THEA 1100 and THEA 3710.

THEA3750 - Acting for the Camera

Credits: 3

Addresses performance skills required in acting for the camera. Covers various techniques, styles, and skills necessary to be successful in the professional world of film and television as an actor. Students perform scenes for 3-camera and single camera set-ups, and become familiar with rudimentary technical skills as crewmembers for shoots. Lecture and test material cover career opportunities, union affiliations, and current trends in the film and television industry.

Prerequisite: THEA 1100 and THEA 3710. THEA 3805. Stage Lighting II.

THEA3805 - Stage Lighting 2

Credits: 3

Max Credit 3

Analyze proposed productions in terms of period, style, theatre limitations and instrument inventories. Determine appropriate design solutions in written descriptive analyses that result in 2-D drawings of the design. Produce all supporting paperwork including drafting a plan view, section view, instrument schedules, magic sheets and proposed cue lists. Instructor permission required.

Prerequisite: THEA 2800

THEA3810 - Scene Design I

Credits: 3

An in-depth study of idea development from script analysis through design conception using different types of theaters and source material. The design process will cover research, drawing, drafting, model making, and rendering.

Prerequisite: THEA 2150 and THEA 2220 or by permission of instructor.

THEA3820 - Stage Costuming I

Credits: 3

A study of basic drawing and rendering skills, and a selective study of historical silhouettes. Objectives include the ability to trust instinct, application of the basic elements of design, applying historical reference and research to a specific character, developing a concept and finally the application of these principles to a final project.

Former Course Number [4840]

Prerequisite: THEA 1100.

THEA3830 - Video Design for Live Theatre

Credits: 3

The purpose of this course is to explore the methodology, skills, and resources commonly used to create digital media (video) elements for a live production. In this course students will explore the practice of being a video designer for a live production and approaches to providing the media needed for this field of design.

Prerequisite: THEA 1200 , THEA 2250 , THEA 2220

THEA3840 - Historical Costumes from the Skin Out

Credits: 3

Learning how to replicate period gowns and undergarments prior to the 1920s by draping and flat-patterning techniques. Includes the research and construction of one complete set of period undergarments and gown either as an individual or in a team to be determined by the complexity of the garment and the skill level of the students.

Prerequisite: FCSC 3174 (4170) or FCSC 3175.

THEA3850 - Design and Technology Seminar

Credits: 2

Introduces designer/technician to process of preparing successful interview material, including a professionally developed portfolio. Exposes designer/technician to business aspects of the theatre world, including resumes, letters of inquiry and application, contracts, unions and professional organizations, internships, apprenticeships, URTAs and professional design/technical training programs. Culminates in junior End-of-the-Year Evaluations.

Prerequisite: junior standing in the BFA Program with Design/Technical emphasis.

THEA3890 - Lighting CADD

Credits: 3

Designed for the advanced lighting student, provides further exploration of the computer technology that has become so critical for modern lighting design. Introduces students to software programs such as VectorWorks, Lightwright, and Photoshop, as well as networking and advanced programming for modern light boards.

Prerequisite: THEA 2250 and THEA 2800.

THEA3910 - 20th Century Theatre Diversity

Credits: 3

Studies plays and production techniques, within the context of historical and sociological events, as developed in the 20th Century that has led to the cultural diversity seen in modern theatre.

A&S College Core 2015 ASD
Former Course Number [591]

Prerequisite: junior standing.

THEA3950 - Dialects for the Actor

Credits: 3

Introduces the actor to five major dialects for the stage. Examines sensibility, vowel and consonant changes, pitch placement and charting.

Prerequisite: THEA 1100, THEA 1700, and THEA 2170.

THEA4001 - Historical Dance

Credits: 2

Max Credit (Max. 2)

Historical dance forms in the "Noble Style" dating from the 15th through 18th Centuries. Class work covers the relationship of musical forms to the specific step vocabulary and dances of each period, deportment, period costume as it relates to movement, social environment, period style with an emphasis on reconstruction of 17th and 18th Century dances from Feuillet notation.

Prerequisite: THEA 3440.

THEA4010 - Advanced Ballet

Credits: 1-3

Max Credit (Max. 8)

A continuing course in the principles and techniques of classical ballet. Emphasis is placed on continuing to broaden the dancer's movement vocabulary while refining acquired technical skills.

Prerequisite: THEA 3420. Limited to dance majors and minors; admission by permission only.

THEA4030 - Advanced Modern Dance

Credits: 1-3

Max Credit (Max. 8)

This class will develop a professional dancer capable of working within diverse modern dance styles and techniques through the interweaving of classical and contemporary movement modalities along with an experiential anatomy approach.

Prerequisite: THEA 3440. Limited to dance majors and minors; admission by permission only.

THEA4060 - English/Theatre Studies in

Credits: 3
Identical to ENGL 4060.

THEA4200 - 20th Century Dance

Credits: 3
Intensely studies dance in 20th Century, emphasizing contemporary movement in modern, ballet, jazz and musical theatre dance. Examines social, political and aesthetic trends influencing dance theory and performance.

USP 2003-2014 Code U3CA,U3WC
USP 2015 Code U5C3

Prerequisite: THEA 2200.

THEA4230 - Greek Tragedy

Credits: 3
Reading and discussion of major plays by Aeschylus, Sophocles, and Euripides, together with examination of the performance and social context of Greek drama, its use of traditional myths, and selected issues in contemporary scholarship on the tragedies.

Cross Listed CLAS 4230/ENGL 4230.

Prerequisite: WB or COM2.

THEA4250 - Beginning Dance Composition

Credits: 2
Presents and criticizes movement studies based on various approaches to composition. Explores experimentation in choreography.

Prerequisite: THEA 2420, THEA 2440.

THEA4260 - Intermediate Dance Composition

Credits: 2-3
Prerequisite: THEA 4250 and consent of instructor.

THEA4330 - History of American Musical Theatre

Credits: 3
History of the American Musical from its inception to today. Emphasis on developments and literature.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: THEA 2010, THEA 2020, 6 hours in theatre at the 3000-level.

THEA4500 - Advanced Playwriting

Credits: 3

An intensive continuation of THEA 3500. Focuses on the creation, analysis and rewriting of play script(s), culminating in a public reading or performance of the script(s).

Prerequisite: THEA 2030.

THEA4600 - Teaching Theatre Artists: Service Learning in the Community

Credits: 3

Focus on Service Learning in the Community. Students will have the opportunity to observe various settings in the community of development of theatre program. Some areas of observation and practicum include drama/theatre-in-education, community-issue-focused-theatre, and theatre with special populations, crisis prevention, drama therapy, Preventive Medical Agencies, etc.

Prerequisite: THEA 1100.

THEA4700 - Auditioning and Careers in Dance

Credits: 1

Designed for dance majors as a culminating course in preparation for final semester auditions and applications for companies and graduate schools. Through this course, students will set career goals, create an audition portfolio, and gain exposure to the many challenges and opportunities in dance.

Prerequisite: senior standing, THEA 1021, and one semester of THEA 4010 or THEA 4030.

THEA4710 - Acting IV

Credits: 3

Max Credit 3

Involves intensive work at an advanced level dealing with individual actor's problems through the medium of scene study.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 3710

THEA4720 - Auditioning and Professional Issues

Credits: 3

Introduces actors to process of finding, preparing and executing successful audition material, including monologues, songs and dance combinations. Exposes actors to business aspects of the theatre world, including resumes, photos, contracts, unions, internships, apprenticeships, Equity Membership Candidacy programs, URTA's and professional actor training graduate programs. Culminates preparation for final semester auditions for the company/school of choice.

Prerequisite: THEA 1100, THEA 3710 and THEA 3740.

THEA4730 - Movement for Actors II

Credits: 2

This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the actor in all performance efforts.

Prerequisite: THEA 1100 and THEA 2720 .

THEA4770 - Summer Theatre

Credits: 1-3

Offers credit for participation in the Wyoming Summer Theatre program in all phases of production.

When Offered (Offered summer session)

Prerequisite: 12 hours in theatre and consent of instructor.

THEA4800 - Stage Lighting-Production

Credits: 3

Explores design and execution of lighting for theatrical production. Includes practical laboratory work with Theatre & Dance productions.

Prerequisite: THEA 2800, THEA 2900, and 3805.

THEA4810 - Scene Design II

Credits: 3

Building on previous coursework, this course will focus on further development of the individual creative and design processes, honing research and presentation skills, and refinement of artistry and craftsmanship. Strong emphasis will be on the presentation of ideas and the advancement of the portfolio.

Prerequisite: THEA 2250 and THEA 3810.

THEA4820 - Directing I

Credits: 3

Tools course. Focuses on basic pictorial and blocking skills of the director. Includes in-class exercises that cover structural and character analysis of play scripts, blocking annotation and prompt scripts, developing ground plans, creating compositions with emphasis, focus and balance, and employing movement as a dynamic tool. Requires two outside directing projects with verbal evaluations of all project work.

Prerequisite: THEA 2010, THEA 2020, THEA 3710, and THEA 3810 or instructor permission.

THEA4830 - Directing II

Credits: 3

Focuses on creative process of developing directorial concepts, establishing the world and style of the play, working with the actor, and functioning as a designer. Includes exercises that analyze different directorial approaches, as well as the audition and casting process. Culminates one-act mounted production performed before invited audience.

Prerequisite: THEA 4820 and written permission of instructor.

THEA4845 - Costume Fit and Alteration

Credits: 3

Focuses on fitting modern clothing and historical costumes to individuals. Students learn how to identify fit issues in a fitting, make the proper corrections and fit the garment again. Students use a combination of previously constructed garments and also pattern garments to fit.

Prerequisite: FCSC 3174 (4170) or FCSC 3175.

THEA4850 - Stage Costuming II

Credits: 3

Explores costume design, emphasizing various rendering techniques. Emphasis is placed on the portfolio.

Prerequisite: THEA 3820.

THEA4880 - Advanced Theatre Practice

Credits: 1-2

Prerequisite: 12 hours in theatre and consent of instructor.

THEA4930 - Theatre History I

Credits: 3

First semester of a one-year series. Surveys theatrical and dramatic practices from origins of Western European theatre to the theatre of the avant-garde. Specifically focuses on the climate of ideas and theoreticians, theatrical practitioners and audiences. Offered fall semester.

USP 2003-2014 Code U3WC

USP 2015 Code U5C3

Prerequisite: THEA 2010, THEA 2020, 6 hours in theatre at 3000-level.

THEA4940 - Theatre History II

Credits: 3

Second semester of a one-year series. Continues THEA 4930.

Prerequisite: THEA 4930.

THEA4950 - Senior Thesis

Credits: 3

Encompasses senior research project under faculty member guidance and supervision.

Prerequisite: senior standing.

THEA4960 - Senior Project

Credits: 1-3

Max Credit (Max. 3)

Exercise in the practical application of production, centered on a UW production, either main stage or studio. It may deal with design in scenery, costumes, properties, sound, makeup, playwriting, technical direction, directing, dance pedagogy, or choreography. The project is intended to be a "real" exercise in theatrical production.

THEA4975 - Theatre/Dance Internship

Credits: 1-12

Max Credit (Max. 12)

The intent of this course is designed to provide professional experiences to students outside of the academic curriculum of Theatre and Dance Department. It is designed to advance the students potential career opportunities and help advance their knowledge in the field.

Restricted Restricted to sophomores, juniors, and seniors.

Prerequisite: Must have completed 6 hours in the department of Theatre and Dance.

THEA4990 - Research in Theatre

Credits: 1-3

Prerequisite: 6 hours in area of research and consent of instructor.

University of Wyoming

COM1 - Communication 1

Credits: 3

College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

D- - Diversity

Credits: 3
A&S Course: Diversity in the United States

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

G- - Global Awareness

Credits: 3
A&S Core: Global Awareness Course

GRAD5150 - Special Topics in ____ :

Credits: 1-6
Max Credit 6

Courses of broad general appeal and an interdepartmental flavor will be offered from time to time under this title. Permits utilization of unusual faculty expertise and provides highly-specialized and particularly pertinent, timely subject matter.

Restricted Graduate students only

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

UWYO1000 - IC for Undeclared Students

Credits: 2

An introduction to the intellectual community of the University of Wyoming, information literacy, and higher education in general, and is specifically intended for students who have not yet made a decision about their college major. Students will begin to develop the critical thinking skills that are necessary in higher education and to explore the primary intellectual activities of various disciplines.

Cross Listed A&S 1000.
USP 2003-2014 Code U3I,U3L

UWYO1019 - UWYO Saddle Up

Credits: 1

This mandatory course provides a five-day intensive academic program emulating the rigors of a midterm week during a normal college semester.

USP 2015 Code U5FY

UWYO1050 - Student-Athlete Academic Success

Credits: 1

Introduces first-year student athletes to U. W. Includes an introduction to campus resources, time management and study skill techniques, exploration of learning styles, diversity topics, and strategic goal setting to be a successful student and athlete.

UWYO1060 - College Athletics and Society

Credits: 3

UWYO1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

UWYO1205 - Student Success Services First Year Seminar

Credits: 1

First year students enrolled in the Student Success Services project will learn how to utilize campus resources and understand, her/his interests and values and develop the ability to establish and work toward short-term and long-term career goals, apply personalized study strategies and interpret university, college, and departmental rules and regulations.

USP 2003-2014 Code U3I,U3L

Prerequisite: Freshman only (exclusively for students who are part of the SSS project).

UWYO1450 - Critical Reflection in Intellectual Communities

Credits: 3

Intellectual Community course for the Synergy learning community. Supports WA reading, research, and writing activities. Provides opportunities for students to read critically, conduct primary and secondary research, investigate diversity issues, develop computer literacy, and learn about the intellectual expectations of college life. Unaffiliated with a major department.

USP 2003-2014 Code U3I,U3L

UWYO1600 - Veterans Transition Course

Credits: 1

Provides returning veterans skills for successful transition to college and civilian life. Reviews tools for academic success, resources available to the veteran, information on veteran related challenges, and career planning resources. Students will develop skills in written, oral, and digital communication.

When Offered (Normally offered fall semester)

USP 2003-2014 Code U3I,U3L

USP 2015 Code U5C2

Prerequisite: Students must be a U. S. military veteran or an active duty military member.

UWYO3000 - Student Leadership in Supplemental Instruction

Credits: 2

Focuses on theoretical perspectives of group tutoring and peer leadership, best practices in supplemental instruction, and student reflection. Will strengthen leadership knowledge and skills and introduce effective methods for group facilitation and SI curriculum.

Prerequisite: closed to general enrollment.

UWYO3010 - Student-Athlete Leadership Skills

Credits: 1

Designed for students to gain and apply leadership skills among other topics such as healthy relationships, nutrition, budgeting, and preparing for internships. This course builds on UWYO 1050 Student-Athlete Academic Success, and prepares the student for UWYO 3050 Student-Athlete Career Preparation.

Prerequisite: COM1.

UWYO3050 - Student-Athlete Career Prep

Credits: 1

Works with junior and senior student-athletes as they prepare to leave college and embark on their career search. Includes topics such as: resume writing, cover letter writing, practice interviews, professional attire, interview etiquette, and mental health after college athletics.

Prerequisite: COM2.

UWYO3600 - Veterans: Campus-To-Career

Credits: 3

Provides veterans with skills for successful transition from campus to the global workforce. Reviews tools for career success, resources available to veterans, information on veteran related challenges, and career planning resources. Students will develop skills in written, oral, and digital communication. Students will explore web based job search platforms and attend job fairs. Course intended for U. S. military veterans or an active duty military member.

USP 2015 Code U5C3

Prerequisite: COM2.

UWYO4000 - Study Abroad

Credits: 1

Max Credit 15

This is a placeholder course and has no description

UWYO4101 - BGS Capstone Design

Credits: 3

The capstone course has two major focuses: encouraging you to reflect on and integrate the learning you've done on your way to this degree and offering you the chance to apply that learning towards an interesting, important problem that makes good use of your growing expertise. The course also provides you the chance to refine your career-advancement materials and to develop a stronger understanding of the norms and values of fields that interest you.

USP 2015 Code U5C3

Prerequisite: COM2.

UWYO4600 - Veteran Issues in Higher Ed

Credits: 3

Max Credit 3

This upper division course is designed to be a capstone veterans course that will explore the student veterans and service members (SVSMs) experience in higher education and how they experience those parts of the curriculum that influence their experience but are either not accounted for, or invisible. The course will investigate SVSMs experiences through Reflective Dialogue (RD).

Prerequisite: FYS & COM2

UWYO4965 - Directed Studies/Research Problems

Credits: 1-3

Max Credit (Max. 12)

Interdisciplinary international undergraduate research or short-term study abroad project under the supervision of a visiting faculty member. Topics and themes will vary based on the international research and study abroad opportunities available.

Prerequisite: Completion of COM1 and consent of instructor. Undergraduate status in good academic standing. Additional prerequisites will be determined by instructor of record.

V- - U.S. & WY Constitution

Credits: 3

Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Wyoming Institute for Disabilities

WIND2100 - Introduction to Disability Studies

Credits: 3

Provides students with an overview of the disability studies field. Students gain introductory knowledge about the

disability studies perspective by examining the work of scholars from many academic backgrounds, which will facilitate students' understanding of the interdisciplinary nature of disability studies.

USP 2003-2014 Code U3CH,U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

WIND2500 - Special Topics

Credits: 1-3

Max Credit (Max. 6)

Provides undergraduate students with the opportunity to gain introductory knowledge of critical topics and new areas of inquiry in the field of disability studies.

WIND2700 - Gender and Disability

Credits: 3

Disability studies draws upon critical theory to investigate disability as a discursive construction. Investigates how intersecting conceptions of disability and gender have shaped cultural meanings and the social positioning of specific groups, especially women with disabilities. Topics include non-normative embodiment, issues of representation and subjectivity, and the politics of health, sexuality, and care.

Cross Listed GWST 2700.

USP 2003-2014 Code U3D

USP 2015 Code U5H

A&S College Core 2015 ASD

WIND3150 - Literature and Medicine

Credits: 3

This course explores how literature and memoirs have grappled with illness, disease, and disability, paying particular attention to the perspectives of doctors, nurses, patients, families, and communities in shaping meanings of diagnoses, health, and access to care.

Prerequisite: Completion of COM1.

WIND4020 - Disability Studies Theory and Practice

Credits: 3

Explores the interdisciplinary nature of disability studies theory and scholarship, including investigation of embodied knowledge, cultural meanings, and socio-political practices related to disability. Students will develop in-depth critical disability research papers and deliver accessible, professional presentations.

Cross Listed SOWK 4020.

Dual Listed WIND 5020.

USP 2003-2014 Code U3CS

USP 2015 Code U5C3

Prerequisite: WIND 2100 or WB or COM2.

WIND4050 - Independent Study

Credits: 1-3

Max Credit (Max. 6)

Offers the advanced student the opportunity to pursue a topic of interest with the direction of an instructor in disability studies.

Dual Listed WIND 5050.

Prerequisite: WB and consent of instructor.

WIND4100 - Global Disability Studies

Credits: 3

The course investigates global approaches to disability, including the UN Convention on the Rights of Persons with Disabilities (CRPD), and crucial disability issues such as education, employment, poverty and social integration. Students will carry out research projects and present on their work.

USP 2003-2014 Code [none] >COM3]

Prerequisite: COM2

WIND4200 - Diverse Minds

Credits: 3

Through investigations of novels, memoirs, films, and media representations of intellectual disability, autism/neurodiversity, and psychiatric disability, students critically analyze figurations of "unstable," "unruly," or what we will conceptualize as "diverse" minds.

Dual Listed WIND 5200.

USP 2003-2014 Code [none] >COM3]

Prerequisite: COM2

WIND4500 - Practicum

Credits: 3

Provides students practical experience in the field of Disability. Typically taken during a student's final semester in the Disability Studies Minor.

Prerequisite: completion of WIND 2100, and WIND elective, WIND 4020 (or concurrent enrollment).

WIND4600 - Special Topics

Credits: 3

Provides upper division undergraduate students with the opportunity for in-depth examination of critical topics and new

areas of inquiry in the field of disability studies.

Prerequisite: WIND 2100 , Junior standing and consent of instructor.

WIND4990 - Topics in

Credits: 1-3
Max Credit (Max. 12)

Provides upper division/graduate students with the opportunity for critical analysis and in-depth examination of various topics in the field of Disability Studies.

Prerequisite: consent of instructor.

WIND5020 - Disability Studies Theory and Practice

Credits: 3
Explores the interdisciplinary nature of disability studies theory and scholarship, including investigation of embodied knowledge, cultural meanings, and socio-political practices related to disability. Students will develop in-depth critical disability research papers and deliver accessible, professional presentations.

Cross Listed SOWK 5020

Dual Listed WIND 4020.

Prerequisite: WIND 2100 or WB or COM2.

WIND5050 - Independent Study

Credits: 1-3
Max Credit (Max. 6)

Offers the advanced student the opportunity to pursue a topic of interest with the direction of an instructor in disability studies.

Dual Listed WIND 4050.

Prerequisite: WB and consent of instructor.

WIND5100 - Topics In:

Credits: 1-3
Max Credit (Max. 12)

Provides graduate students with the opportunity for critical analysis and in-depth examination of various topics in the field of Disability Studies.

Prerequisite: upper division/ graduate standing.

WIND5200 - Diverse Minds

Credits: 3

Through investigations of novels, memoirs, films, and media representations of intellectual disability, autism/neurodiversity, and psychiatric disability, students critically analyze figurations of "unstable," "unruly," or what we will conceptualize as "diverse" minds.

Dual Listed WIND 4200.

Prerequisite: consent of instructor.

Zoology and Physiology

ZOO1101 - First-Year Seminar

Credits: 3

USP 2015 Code U5FY

ZOO2450 - Fish and Wildlife Management in the Anthropocene

Credits: 4

Course examines fundamental principles in management of natural resources, especially fish and wildlife populations. Students explore historical to contemporary context of management, population biology, management tools and their application, career opportunities, with specific emphasis on human dimensions, law, and policy. Students will develop oral and written communication skills.

Cross Listed Crosslisted with ENR 2450.

USP 2015 Code U5C2

Prerequisite: LIFE 1010, LIFE 2022, and COM1.

ZOO3010 - Vertebrate Anatomy, Embryology, and Histology

Credits: 4

Provides a comprehensive overview of vertebrate anatomy. The structural organization, embryological derivation, and histological organization of the major organ systems will be emphasized. The evolution and functional organization of anatomical structure will also be emphasized. Includes laboratory sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: LIFE 2022 or equivalent, and a semester of chemistry.

ZOO3115 - Human Systems Physiology

Credits: 4

Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

ZOO3600 - Principles of Animal Behavior

Credits: 3

Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)

Prerequisite: introductory course in zoology, biology or psychology.

ZOO4100 - Scientific Communication

Credits: 2

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4100.

USP 2003-2014 Code U3L,U3WC

USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

ZOO4101 - Scientific Communication Lab

Credits: 1

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4101.

USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

ZOO4110 - HIV/AIDS: The Disease and the Dilemma

Credits: 3

Explores the basic biology of the HIV virus, and its effects upon the human body, the magnitude of the global HIV/AIDS pandemic, treatment and prevention of AIDS, and the social, political, economic, and legal issues of HIV/AIDS.

Prerequisite: LIFE 1003 or LIFE 1010.

ZOO4125 - Integrative Physiology

Credits: 5

Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish

and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

Prerequisite: grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

ZOO4190 - Comparative Environmental Physiology

Credits: 4

Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.

When Offered (Offered spring semester)

Former Course Number [4230]

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

ZOO4235 - Marine Biology

Credits: 3

This course explore major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed BOT 4235.

Dual Listed ZOO 5235.

Prerequisite: LIFE 3400 with a grade of C or better.

ZOO4280 - Introduction to Neuroscience

Credits: 3

Examines the basic electrical properties of neurons and from there identifies determinants of brain development, how neuronal "circuits" are formed and how these neuronal systems enable the processing of sensory information, coordinated movement, adaptation to the environment, and other complex functions (e. g. , sleep, sex).

Dual Listed ZOO 5280.

Prerequisite: ZOO 3115 or equivalent.

ZOO4295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

Cross Listed NEUR 4295.

Dual Listed ZOO 5295.

Prerequisite: ZOO 4280.

ZOO4300 - Wildlife Ecology and Management

Credits: 5

Integrates concepts of vertebrate ecology with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e. g. , viability analysis, monitoring, habitat assessment), and ecosystem management approaches. Laboratory included.

Dual Listed ZOO 5300.

When Offered (Offered fall semester)

Former Course Number [4720]

Prerequisite: LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.

ZOO4310 - Fisheries Management

Credits: 3

Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and production, rates of mortality and recruitment and use of yield models in fisheries biology. Includes laboratory and field exercises.

Dual Listed ZOO 5310.

When Offered (Normally offered fall semester)

Former Course Number [4730]

Prerequisite: ZOO 4330.

ZOO4330 - Ichthyology

Credits: 3

Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.

When Offered (Normally offered spring semester)

Former Course Number [4750]

Prerequisite: LIFE 2022.

ZOO4340 - Developmental Biology and Embryology

Credits: 4

Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

Dual Listed ZOO 5340.

When Offered (Normally offered spring semester)

Prerequisite: one year of life sciences, one year of chemistry.

ZOO4350 - Ornithology

Credits: 3

Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.

When Offered (Offered spring semester)

Former Course Number [4780]

Prerequisite: LIFE 2022.

ZOO4370 - Mammalogy

Credits: 3

Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 5370.

When Offered (Offered fall semester)

Former Course Number [4790]

Prerequisite: LIFE 2022.

ZOO4380 - Herpetology

Credits: 3

Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.

Prerequisite: LIFE 2022.

ZOO4400 - Population Ecology

Credits: 3

Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological

problems in their careers.

Dual Listed ZOO 5400.

When Offered (Offered spring semester)

Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

ZOO4415 - Behavioral Ecology

Credits: 3

Applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently puzzling behaviors?).

Dual Listed ZOO 5415.

When Offered (Offered fall semester)

Prerequisite: ZOO 3600 or LIFE 3400 or permission of the instructor.

ZOO4420 - Conservation Biology

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ENR 4420.

Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ZOO4430 - Limnology Laboratory

Credits: 2

Utilizes basic field techniques in limnology. Emphasizes analysis and interpretation of data obtained from field and laboratory exercises.

When Offered (Offered fall semester)

Prerequisite: concurrent enrollment in ZOO 4440.

ZOO4440 - Limnology

Credits: 3

Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)

Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

ZOO4540 - Invertebrate Zoology

Credits: 4

Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.

When Offered (Offered fall semester)

Prerequisite: LIFE 2022.

ZOO4650 - Tropical Field Ecology Ecuador

Credits: 4

Course comprises 10 days in Ecuador in January (before spring semester), followed by one lecture per week during spring semester. Focus will be ecology, biodiversity and conservation of tropical forests and behavioral ecology of birds and mammals. Field site is at 1100m on west slope of the Andes.

Dual Listed ZOO 5650.

Prerequisite: LIFE 2022.

ZOO4735 - Advanced Topics in Physiology

Credits: 1-4

Max Credit (Max. 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e. g. circadian rhythms, thermal stress) may also be included.

Dual Listed ZOO 5735.

Former Course Number [5730]

Prerequisite: ZOO 3115 or equivalent as approved by the instructor.

ZOO4740 - Fish Culture and Nutrition

Credits: 3

Studies methods in artificial propagation of fishes. Includes spawning, hatchery methods, water quality requirements and nutritional requirements. Includes laboratory.

When Offered (Offered fall semester)

Prerequisite: LIFE 2022, CHEM 1020.

ZOO4900 - Problems

Credits: 1-8

For advanced students. Studies some particular problem or phase of zoology, or presents reviews and discussions of current advancement in zoological investigations. Content is arranged to suit individual needs of students.

Prerequisite: courses necessary to pursue the problem selected; prior written consent of the instructor.

ZOO4970 - Internship in Wildlife Management

Credits: 1
Max Credit (Max. 1)

Provides practical field experience in resource management for undergraduate credit.

Prerequisite: consent of instructor.

ZOO4971 - Internship in Zoology and Physiology

Credits: 1-3
Max Credit (Max. 6)

Provides practical experience in selected biological fields by working with a professional to help bridge the gap between academic and the world of work.

Prerequisite: consent of instructor.

ZOO4975 - Practicum in Laboratory Instruction

Credits: 1-3
Max Credit (Max. 6)

For advanced students. Students will assist GAs and professors in laboratory preparation and demonstration in undergraduate teaching labs.

Prerequisite: consent of instructor.

ZOO5050 - Statistical Methods for the Biological Science

Credits: 3
General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 2020, STAT 3050, STAT 5050, 5060, STAT 5070.

Cross Listed STAT 5050.

Prerequisite: one course in statistics (all introductory courses except 2000).

ZOO5060 - Fundamental Concepts in Evolution

Credits: 3

Explores fundamental concepts in evolutionary biology including evolutionary ecology, population genetics, and speciation with an emphasis on both theoretical frameworks and practical applications. Discussion included.

Cross Listed ECOL 5060/BOT 5060.

Prerequisite: graduate student in good standing.

ZOO5100 - Structure and Function of the Nervous System

Credits: 4

Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed NEUR 5100.

Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

ZOO5190 - Comparative Environmental Physiology

Credits: 4

Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces the discipline which has risen between the traditional fields of physiology and ecology and provides an understanding of animal distribution and survival.

Dual Listed ZOO 4190.

When Offered (Offered spring semester)

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

ZOO5235 - Marine Biology

Credits: 3

This course explore major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed BOT 5235.

Dual Listed ZOO 4235.

Prerequisite: graduate standing.

ZOO5270 - Writing and Reviewing Science

Credits: 4

This course will help students prepare a scientific manuscript for submission to a peer-reviewed journal; in so doing, students will become more effective, efficient, and confident writers. Students will learn principles of effective writing, how to prepare a manuscript for publication, navigate the peer-review process, and write a constructive review.

Cross Listed ENR 5270.

Prerequisite: Students must have graduate standing and an analyzed dataset on which the manuscript will be based. Students must have approval from their advisors and key collaborators before embarking on this journey. Students are also encouraged to maintain this approval throughout the semester.

ZOO5280 - Introduction to Neuroscience

Credits: 3

Examines the basic properties of neurons and from there identifies determinants of brain development and how neuronal circuits are formed. How neuronal circuits underlie processing sensory information, coordinated movement, complex functions (e. g. sleep, learning) and homeostasis are discussed.

Cross Listed NEUR 5280.

Dual Listed ZOO 4280.

Prerequisite: ZOO 3115 or equivalent.

ZOO5295 - Neurodevelopment

Credits: 3

Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

Cross Listed NEUR 5295.

Dual Listed ZOO 4295.

ZOO5300 - Wildlife Ecology and Management

Credits: 5

Concepts of vertebrate ecology integrated with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e. g. viability analysis, monitoring, habitat assessment), and ecosystem management approaches are discussed. Lab included.

Dual Listed ZOO 4300.

Prerequisite: LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.

ZOO5310 - Fisheries Management

Credits: 3

Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and recruitment, and the use of yield models in fisheries biology. Laboratory and field exercises included.

Dual Listed ZOO 4310.

Prerequisite: ZOO 4330.

ZOO5330 - Ichthyology

Credits: 3

Studies anatomy, physiology, and classification of fishes, emphasizing classification and identification of Wyoming fish. Includes laboratory.

Dual Listed ZOO 4330.

Prerequisite: LIFE 2022 or LIFE 2023.

ZOO5340 - Developmental Biology and Embryology

Credits: 4

Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration, and asexual reproduction. Emphasizes mechanisms that create form and cellular differentiation.

Dual Listed ZOO 4340.

Prerequisite: one year of life science or one year of chemistry.

ZOO5350 - Ornithology

Credits: 3

Acquaints students with classification, identification, morphology, distribution, natural history, and ecology of the birds of North America. Laboratory included.

Dual Listed ZOO 4350.

Prerequisite: LIFE 2022.

ZOO5370 - Mammalogy

Credits: 3

Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology, and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 4370.

Prerequisite: LIFE 2022 or LIFE 2023.

ZOO5380 - Herpetology

Credits: 3

Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 4380.

Prerequisite: LIFE 2022.

ZOO5400 - Population Ecology

Credits: 3

Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.

Dual Listed ZOO 4400.

Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050.

ZOO5405 - Winter Ecology of the Yellowstone Ecosystem

Credits: 2

Winter Ecology emphasizes the effects of winter abiotic conditions on organisms and organismal adaptations. Energy flux, snowpack physics, organismal adaptations, avalanche awareness, and the influence of winter on wildlife management are emphasized through lectures and field laboratories. Students will develop an independent research project and present their results.

Prerequisite: graduate standing.

ZOO5415 - Behavioral Ecology

Credits: 3

Behavioral ecology applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently puzzling behaviors?).

Dual Listed ZOO 4415.

Prerequisite: ZOO 3600 or LIFE 3400.

ZOO5420 - Ecological Inquiry

Credits: 3

Addresses basic ecological concepts and natural resource management issues in the Greater Yellowstone Ecosystem (GYE). Emphasis will be placed on developing critical thinking skills and exploring the effects of resource management policy and actions. Course direction will involve moving from a known facts way of thinking in to realm of evaluating effects of human management of the GYE.

Prerequisite: LIFE 2022, LIFE 3400, and graduate standing.

ZOO5430 - Ecology of the Greater Yellowstone Ecosystem

Credits: 3

Covers plant and animal community ecology from both a qualitative and quantitative perspective. Topics include: community interaction of plants and animals; community dynamics, succession, and disturbance; basic data collection and statistical analysis of habitat association data; and the effect of abiotic factors on community structure.

Prerequisite: LIFE 2022, LIFE 3400, and graduate standing.

ZOO5500 - Quantitative Analyses of Field Data

Credits: 4

A practical guide to the analysis of messy field data, including data exploration, generalized linear and additive models, mixed models, autocorrelation, and model selection using Program R. Students will spend one intensive week learning methods and the rest of the semester analyzing their own data and writing a manuscript.

Cross Listed ECOL 5500.

Prerequisite: graduate standing.

ZOO5520 - Habitat Selection

Credits: 2

In this course we will cover theory and behavioral/evolutionary concepts related to the process of habitat selection, the contexts under which habitat choices are adaptive or maladaptive, and different types of anthropogenic habitat change and the consequences for animals in the wild.

Cross Listed ECOL 5520.

Prerequisite: graduate students in good standing.

ZOO5530 - R Intro for Wildlife Ecology

Credits: 1-4

Max Credit (Max 4)

An intensive introduction to program R for graduate students in the fields of wildlife and fisheries ecology. Students will gain a general knowledge of R code and an ability to identify and solve problems for their particular data management and analysis needs.

ZOO5540 - Invertebrate Zoology

Credits: 4

Studies invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 4540.

Prerequisite: LIFE 2022.

ZOO5600 - Research in Physiology

Credits: 1-16

Max Credit (Max 16)

Opportunities are available for research in physiology and in animal behavior. Maximum credit not to exceed 8 hours for master's candidates and 16 hours for PhD candidates.

ZOO5650 - Tropical Field Ecology Ecuador

Credits: 4

Course comprises 10 days in Ecuador in January (before spring semester), followed by one lecture per week during spring semester. Focus will be ecology, biodiversity and conservation of tropical forests and behavioral ecology of birds and mammals. Field site is at 1100m on west slope of the Andes.

Cross Listed ECOL 5650.

Dual Listed ZOO 4650.

Prerequisite: graduate standing.

ZOO5685 - Neurophysiology

Credits: 3

Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms are covered in addition to the basic neurophysiology of nerve cells. The laboratory complements the lecture sequence.

Cross Listed NEUR 5685.

Prerequisite: one course in physiology, chemistry, physics.

ZOO5690 - Advanced Animal Behavior

Credits: 3

An advanced consideration of research in, and theory of, animal behavior.

Prerequisite: senior or graduate standing in zoology or psychology.

ZOO5715 - Seminar in Neuroscience

Credits: 2

Max Credit (Max 20)

A continuing seminar. All students in the graduate neuroscience program are expected to register for this seminar each semester. The interdisciplinary approach to the nervous system is used employing work from physiology, neuroanatomy and neurochemistry, psychology, pharmacology, and biochemistry.

Cross Listed NEUR 5715.

Prerequisite: admission to the graduate neuroscience program or graduate standing.

ZOO5725 - Transmission Electron Microscopy

Credits: 3

With the emphasis on modern techniques, course prepares students via theory and technical experience to use transmission electron microscopy in biological and material science research. An individual research project is required.

Prerequisite: consent of instructor.

ZOO5735 - Advanced Topics in Physiology

Credits: 1-4
Max Credit (Max 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e. g. circadian rhythms, thermal stress) may also be included.

Dual Listed ZOO 4735.

Prerequisite: ZOO 3115 or equivalent as approved by the instructor.

ZOO5740 - Biological Confocal Microscopy

Credits: 2

With the advances of technology, confocal microscopy is an increasingly important tool for biological research. Teaches students the basic principles of confocal microscopy and its biological applications. This is a hands-on course and students have the chance to practice on a state-of-the-art confocal microscope.

ZOO5750 - Research: Ecology

Credits: 1-16
Max Credit (Max 16)

A wide variety of biotic communities, both terrestrial and aquatic, occur in Wyoming which afford excellent opportunities for ecological studies with responses of animals to the physical, chemical, and biotic factors of their environment. The research must be conducted under the supervision of a faculty member.

ZOO5820 - Research in Vertebrate Fauna

Credits: 1-16
Max Credit (Max 16)

Wyoming affords unusual opportunities for the study of a wide variety of vertebrate animals. The taxonomy, distribution, and certain aspects of the life histories of these animals are still inadequately known and afford excellent opportunities for research. Numerous problems concerning the management of our game animals remain to be investigated. The research must be conducted under the supervision of a zoology faculty member.

ZOO5840 - Advanced Fisheries Management

Credits: 3
Familiarizes students in wildlife management and ecology with the advanced methods and techniques in fisheries management.

Prerequisite: ZOO 4310/ZOO 5310 and consent of instructor.

ZOO5890 - Graduate Seminar

Credits: 1-4
Max Credit (Max 10)

Provides an opportunity for graduate students to critically evaluate publications on zoological research.

Prerequisite: 20 hours of biological sciences.

ZOO5900 - Practicum in College Teaching

Credits: 1-3
Max Credit (Max 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate standing.

ZOO5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max 16)

Prerequisite: advanced degree candidacy.

ZOO5930 - Network Analysis

Credits: 2

Addresses problems in ecology, neurobiology, sociology, geography and behavioral ecology. Networks consists of entities (nodes) such as neurons, individuals or locations, linked by interactions (e. g. , flow of information, pollen or behavior). Students will analyze topics of interest using R scripts. 2 hour lecture each week in spring semester.

Cross Listed ECOL 5930.

Prerequisite: graduate standing.

ZOO5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max 16)

Prerequisite: advanced degree candidacy.

ZOO5960 - Thesis Research

Credits: 1-12
Max Credit (Max 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

ZOO5980 - Dissertation Research

Credits: 1-12
Max Credit (Max 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

ZOO5990 - Internship

Credits: 1-12
Max Credit (Max 12)

Prerequisite: graduate standing.

Credit Available to Undergraduate Students

- I. University of Wyoming Credit
- II. Transfer Credit
- III. Military Service Courses

The University of Wyoming offers credit towards an undergraduate degree through:

I. University of Wyoming Credit

Instructed Classes

Courses are offered on campus and at distance settings around the state, including recognized academic courses under faculty general supervision such as internships, clerkships, clinical experience, co-op programs, etc.

Distance courses

Unlike some institutions, UW delivers courses at a distance through its mainstream academic departments, not through a separate academic unit. Academic department heads have the authority to assign instructors to distance-delivered courses, including online courses. They also have a responsibility to ensure that those courses are comparable in rigor and effectiveness to courses delivered face to face.

For this reason, when a department offers a UW course both face to face and at a distance, any UW student may satisfy any relevant university-, college-, and department-level requirements or elective credit by taking the course in either format.

Exceptions may arise when it is necessary to reserve space in a distance-delivered course for off-campus students, who can't take the face-to-face version. In these cases, departments may reserve spaces for off-campus students. But to the extent that spaces remain available after all interested off-campus students have enrolled, these spaces must be available to interested on-campus students.

Credit by Examination

An examination of an appropriate type and content for the credit sought may be conducted to determine if the applicant's proficiency is equivalent to that which could be expected upon completion of a college-level course in the subject. An applicant found to have this level of proficiency will be awarded credit for that course and allowed to proceed either with more advanced courses or with courses in other areas.

The use of credit by examination, or credit for prior learning, in graduate programs is not allowed.

Information concerning credit by examination can be obtained by contacting the Office of the Registrar.

Departmental Exams

While there is no maximum placed on the amount of credit earned by examination, credit so earned does not count in fulfilling the residency requirement of 30 hours of upper division University of Wyoming credit.

A student may not be allowed credit by examination in a course in which the student is currently or was previously enrolled either for credit or as a visitor or auditor, except that credit by examination may be used as a means to obtain credit for courses previously taken at institutions from which credit is nontransferable. A student may not challenge equivalent courses.

A student may not earn credit by examination in a course if the student has completed a course in the subject matter area above the level of the course for which the examination is sought. However, at the discretion of the departments involved, during the add/drop period a student may challenge a lower-level course while enrolled in a higher-level course in the same subject matter area, if the course challenged is a prerequisite for the course in which the student is currently enrolled.

If an examination exists, eligible students who pay the testing fee of \$80.00 may not be denied an examination in the introductory undergraduate course in any department. "Introductory course" is interpreted as that course which is prerequisite for successive courses in the department. Additional fees for examinations offered by testing agencies other than the University of Wyoming are determined by the agency concerned.

Grades of S or U (satisfactory/unsatisfactory) are given in all examinations. Credit by examination is not included in the student's grade point average; it is, however, included in the hours earned toward graduation. The grade of S is the equivalent of a C or better. See below for specific subject requirements. Entry on the student's academic record for credit by examination is made only if a grade of S is obtained and is noted as a grade obtained by examination.

To qualify for undergraduate credit, the student must be currently registered at the University of Wyoming as a degree candidate. The student must also be able to demonstrate to the satisfaction of the chair of the department involved that background experience has prepared him or her to attempt a challenge examination if such an examination is sought. The department chair's decision will be based upon existing departmental constraints such as accreditation, graduation requirements, and program requirements.

Other Options Include:

- Subject CLEP tests

- AP tests
- International Baccalaureate (IB)
- DSST

Students showing proficiency by passing examinations such as the College Board Advanced Placement Program (AP), for example, or examinations developed by University of Wyoming departments may earn college credit through the level of demonstrated proficiency. Credit may be allowed on the basis of any testing procedure acceptable to any department, which may include tests of the AP program and both the general and subject (specific) examinations of the College Level Examinations Program (CLEP).

Advanced Placement (AP) Information

Subject	Acceptable Score	UW Course Number(s)/Title(s), Semester Credit Hours

Portfolio Evaluations

In recognition of factors in our society that produce great individual differences in backgrounds and preparation of students entering the university, the university has developed various options to assess extracurricular college-level learning. To qualify for undergraduate credit, the student must be currently registered at the University of Wyoming as a degree candidate.

Credit based on faculty evaluation of the kinds and extent of collegelevel learning which an applicant has acquired in prior extra-institutional settings, evidenced in a portfolio of documentation, may count toward university undergraduate graduation requirements. In such event, the student's degree program can be enriched by freeing time needed to take additional courses, or accelerated to earn the baccalaureate degree earlier and commence postgraduate studies sooner.

The number of credit hours able to be earned by means of a portfolio evaluation is normally limited to 12. Such credit, when awarded, shall be for specific University of Wyoming content-oriented courses (rather than given as X number of hours of credit in a general discipline area), following the college course model of assessment as defined by the Council for Adult and Experiential Learning. Portfolio assessment, when used, will be conducted by a committee of appropriate tenured faculty including at least one member with the academic rank of professor. *All credit assigned for experiential learning based upon portfolio evaluations is excluded from the minimum credit hour requirements as set forth in the university requirements.*

II. Transfer Credit

Transfer credit includes college courses accepted from other regionally-accredited colleges or universities. Such course work must be considered equivalent or comparable to course work required by the University of Wyoming. The university accepts only academic courses in the study of religion similar to those offered by the Religious Studies Program in the College of Arts and Sciences.

Students transferring to UW must have the registrar or records office of the previous school(s) send an official transcript to the University of Wyoming Admissions Office. Once all final transcripts have been received by the Admissions Office, the degree analysts in the Office of the Registrar will create an electronic record of all courses that transfer to UW.

Evaluations are not accomplished for students working toward a Second Bachelor's Degree or those admitted as non-degree seeking. Second Bachelor's students should consult with their adviser concerning the applicability of transfer work to their UW degree program.

The recording of credit does not automatically imply acceptance toward a degree since degree requirements vary from major to major. Questions concerning the transferability of course work from other institutions should be directed to the Office of the Registrar.

Nontraditional credits awarded by another institution will not normally be accepted by the University of Wyoming. They may be validated by departmental exam within the faculty regulations allowing for such examinations.

a. UW Policy (Academic Affairs Policy Letter, October 9, 2012)

UW maintains a system for accepting transfer credits from other institutions and prides itself on forward-looking approaches to distance education. The following clarifies policies for:

- Accepting transfer credit from Wyoming's public community colleges
 - Accepting transfer credit for students transferring to UW from other institutions
 - Accepting transfer credit for students enrolled at UW
1. **Transfer credit from Wyoming's public community colleges**

UW generally accepts credit earned at any Wyoming public community college in accordance with the Wyoming Transfer Catalog. This policy applies to students transferring to UW and to students enrolled at UW who take courses at one of these community colleges while they pursue degrees at UW. It does not apply to FYS credit earned by students who earned concurrent enrollment FYS credit or students transferring with less than 30 semester hours.

UW maintains an active regimen of institution-wide and discipline-specific articulation with Wyoming community colleges. These discussions, together with department-driven decisions about which courses to list in the statewide common course-numbering system, provide mechanisms that can ensure appropriate levels of course equivalency.

2. **Transfer credit for students transferring from other institutions**

The UW Office of the Registrar (OTR) maintains a list of course equivalencies and courses accepted for general credit from other institutions of higher learning. In maintaining this list, the OTR, in consultation with academic departments as necessary, determines which outside courses:

- are equivalent to specific UW courses
- count for general university-level credit
- are not transferable for university-level credit

For courses beyond the 1000-2000 level and in cases where questions arise, the OTR relies on academic departments to assist in the assessment.

For any student transferring to UW from another institution of higher learning, UW will adhere to the OTR's equivalencies on the date that the transcript is evaluated. If a course in question has not previously been articulated, the

OTR will follow the normal protocol to make a determination. If an academic department determines that an outside course has been improperly articulated, the OTR will correct the equivalency. The corrected equivalency will apply to subsequent transfer students but not retroactively.

3. Transfer credit for students enrolled at UW

The university's faculty and administration expect UW students to earn credits by taking courses at UW. Exceptions may be appropriate in some instances. For example, the university encourages students to pursue opportunities to study abroad, whether through UW course offerings or through other approved programs. As another example, a student who spends a summer in another university town may also have a compelling case for taking a non-UW course and applying the credits to the UW transcript. There are many other possibilities.

For any student enrolled at UW, the university will guarantee transfer credits only for courses for which the student has received prior, course-specific approval from the Office of the Registrar. A Transfer Evaluation Form should be submitted prior to enrolling for a transfer course.

The only exceptions are transferable credits from Wyoming community colleges, as discussed above. In considering requests of this type, academic department heads may take into account the student's circumstances, department, and university-level learning outcomes such as global awareness, and the department faculty's assessment of the course's content, level, and academic rigor.

This policy has no effect on such programs as WICHE's Internet Course Exchange and other inter-institutional arrangements through which courses taught elsewhere count as credit-bearing UW courses.

b. Process

Transfer credit includes college courses accepted from other accredited colleges or universities. Such course work must be considered equivalent to course work required by the University of Wyoming. Students transferring to UW must have the registrar or records office of previous school(s) send an official transcript to the University of Wyoming Admissions Office. Once all final transcripts have been received by the Admissions Office, the degree analysts in the OTR will create an electronic record of credit transferred.

The recording of credit does not automatically imply acceptance toward a degree since degree requirements vary from major to major. Questions concerning the transferability of course work from other institutions should be directed to the Office of the Registrar.

c. Articulation: Earned Associate Degrees

1. Wyoming Community Colleges

Students entering UW beginning Fall 2001 who have completed an AA, AS, ADN, or AB degree from a Wyoming Community (spring 2001 or later) College receive credit toward completion of the lower division general education requirements included in the University Studies Program with the exception of the US/WY Government and Constitutions requirement. Students with an eligible associate's degree who have not completed both components of the US/WY Government and Constitutions requirement must complete it with coursework or challenge exam.

This policy applies to graduates receiving an Associate of Arts, and Associate of Sciences, Associate Degree Nursing, or an Associates of Business degree from any of the seven Wyoming Community Colleges. All graduates with an AA, AS, ADN, or AB degree complete a minimum of 64 college-level credits with a minimum of 2.000 GPA.

2. Community College Articulation: effective spring 2012

Graduates of regionally-accredited Colorado community colleges earning an AA/AS Spring 2012 or later are awarded the lower-division general education core in the same manner as graduates of Wyoming community

colleges, with the exception of the US/WY Government and Constitutions requirement. Students must complete the Wyoming component through coursework or challenge exam. Spring 2008 (and later) graduates of Pikes Peak Community College are included due to a pre-existing articulation agreement. Spring 2012 and later AA/AS graduates of Western Nebraska, Mid- Plains (Nebraska), and Colby (Kansas) Community Colleges will be extended the lower-division general education core in the same manner as Colorado schools above.

3. **Community College Articulation: effective spring 2015**

Graduates of regionally-accredited institutions earning an AA/ AS/AB Spring 2015 or later are awarded the lower-division general education core in the same manner as graduates of Wyoming community colleges, with the exception of the US/WY Government and Constitutions requirement. Students must complete the Wyoming component through coursework or challenge exam.

Transfer Credit from Regionally-Accredited U.S.Colleges and Universities

The Wyoming Transfer Catalog is a searchable online database of courses which the University of Wyoming has previously articulated from regionally-accredited U.S. institutions. Coursework may transfer in as equivalent, elective or NA. Elective coursework may be a general elective, academic department specific elective and/or elective with University Studies (USP) credit. Transfer courses which return values of "NA" in the UW Subject field are considered to be not transferable to UW.

UW operates on semester credit; credit is awarded credit hour for credit hour. Quarter hours are recognized as two-thirds (2/3) of a semester hour.

Academic advisors may submit an elective course to fulfill a major or curricular requirement. Elective courses may also be considered for University Studies requirements via the University Studies Petition process.

Students intending to transfer to UW are encouraged to meet with advisors and review both the Wyoming Transfer Catalog and the UW Catalog when planning their program of study to ensure courses taken elsewhere will transfer to UW as intended for their desired major. Final determination of transfer credit acceptance is made by the University Registrar and faculty. Students must submit official transcripts of all completed coursework before a final determination can be made on credit transfer.

These equivalencies are subject to change without notice.

d. Transfer Credit for Study Abroad

Study abroad coursework is evaluated based off the documentation provided by the student and what is available to the Office of the Registrar. It is the students' responsibility to review the transfer work and to provide any course documentation (syllabi, descriptions, sample course work) to the Office of the Registrar. Once the transcripts received from the study abroad experience have been evaluated, students will have one year from that date to make any appeals or changes to what was initially awarded. Requests for changes to transfer credit awarded through study abroad following one year of the initial review will not be processed.

III. Credit Evaluation Policy for VA Funded Students

The degree analysts in the Office of the Registrar determine whether the course work is transferable to UW. Evaluations for the granting of credit for military-based training are based on recommendations in the American

Council of Education (ACE) guidelines. Individual colleges will determine whether such course work is applicable to their degree programs.

Advising Career Exploratory Studies (ACES)

Advising Career Exploratory Studies

222 Knight Hall

Richard Miller, Interim Director

Phone: (307) 766-2398 FAX: (307)766-2089

Web site: www.uwyo.edu/aces/index.html

ACES1101 - FYS: New Geography of Jobs

Credits: 3

This course will provide students with a view of the evolving world of work in the United States, with specific attention to Innovation, Manufacturing, Natural Resource Extraction, and Agriculture. The course will survey the history of jobs in the U.S. with specific attention to changes through time, location and events. We will also look ahead to the age of automation. Students will participate in a significant research project, through which they will create a case study of a specific economic ecosystem.

USP 2003-2014 Code U5FY

ACES1105 - Academic Success Skills

Credits: 2

Designed to provide students the necessary skills to succeed at the University and beyond. Skills covered include time management, learning styles, note taking, self-motivation, and more.

When Offered (Offered each semester)

ACES1150 - Major & Career Exploration

Credits: 1

This course is for freshmen who have no idea what to major in, or who are open to investigating possibilities. Students will gain information about themselves, opportunities in higher education, and the world of work, which they can use to make an informed decision about a major.

ACES3000 - Peer Advising

Credits: 3

This course is designed to help you develop the skills, understanding, competencies, and dispositions needed to be an effective peer advisor at UW. Course content will cover student development theory, interpersonal skills, Ethics of working with college students, UW policies/procedures, UW academic requirements, and advising approaches.

When Offered (Offered Spring Semester Only)

Prerequisite: Sophomore standing and completion of USP15-C2

ACES3100 - Peer Advising Internship

Credits: 1-6

Max Credit (Max. 6)

Designed to help you apply the skills, competencies, and dispositions that were developed in ACES 3000. The course will allow you to apply and reflect upon student development theory, interpersonal skills, UW policies/procedures, UW academic requirements, and advising approaches. Each internship credit will require a minimum of 3 hours of work per week in the ACES office. Students and the peer advising supervisor will consult in establishing individual student hours.

Prerequisite: ACES 3000 and application to ACES Internship.

Registration and Enrollment in Courses

- Registration Procedures
- Academic Adviser
- Change of Registration
- Choice of College and Major
- Change of College, Major, or Adviser
- Definitions for Student Classifications
- Credit Hour Load
- Auditing a Course
- Graduate Credit for Seniors
- Class Attendance
- Academic Dishonesty

Registration Procedures

Eligible students can register, drop, add, and get a schedule of their courses through WyoRecords. To insure that students have seen an adviser, access numbers for each semester's registration are distributed through the academic advisers. Directions for registration are contained in the appropriate *Class Schedule*. *Class Schedules* are available online no later than one week prior to advising week. Students are responsible for following directions and deadlines contained in the *Class Schedules*.

The following categories of continuing students in good standing or on academic probation are eligible to register for the semesters indicated:

1. *For the fall semester:*
All students who were enrolled the previous fall, spring, or summer semester.
2. *For the spring semester:*
All students who were enrolled the previous spring, summer, or fall semester.
3. *For the summer session:*
Students who were enrolled the previous summer, fall, or spring semester.

All other applicants and students should complete admission requirements by the admission deadline. (Refer to the sections on undergraduate and graduate admissions in this catalog for deadlines.)

All information requested during admission and registration is important to the student and to the university and should be kept accurate and complete. If a student's address, telephone, major, adviser, or other vital information changes after enrollment, the Office of the Registrar should be informed without delay.

Academic Adviser

Academic advising is a decision-making process involving a partnership between the academic adviser and the student (advisee). In this partnership, issues and questions regarding personal, professional, and educational goals are examined and evaluated. This includes, but is not limited to, planning an appropriate course of study and the scheduling of classes.

The purpose of academic advising is to promote rational, informed, and independent choices by the student. To that end, the academic adviser is a significant link for the student to other resources in the university community. Students are expected to take the initiative in developing the adviser-advisee relationship and to assume an ever-increasing role in developing their own academic, career, and personal goals.

Change of Registration

Modification of a course schedule during the drop/add time period is accomplished through WyoRecords. After the end of the drop/add period, individual class withdrawals can be done by the students on WyoRecords. Changes to a student's registration or withdrawals are not official until the process is completed as prescribed.

The period of time allowed for modifying a student's schedule or withdrawing during the summer session or other special terms is established in regulations or by the registrar, subject to the approval of the vice president for academic affairs.

During the fall and/or spring semester(s):

1. *Dropping a class or changing sections:* A student may drop classes during the first eight class days of the semester (four class days for blocked courses).
2. *Adding a course or changing grading option:* A student may add classes, change sections, or change grading options or hours in variable-credit courses during the first four class days of the semester (two class days for blocked courses).
3. *Withdrawal from a course:* After the designated drop/add period, students may officially withdraw from individual regular term courses until fifteen class days after mid-semester (five days after the middle of the course for blocked courses). Withdrawing means that a non-punitive grade of "W" is assigned as the final grade for the class. Students considering withdrawing should contact the Student Financial Aid Office prior to withdrawing to fully understand how withdrawing will affect their aid and scholarships. Students may withdraw from an individual course through their WyoRecords account. If a student has a hold on their account preventing them from withdrawing through WyoRecords, they may submit an online Class Withdrawal form available on the Office of the Registrar website. The online form is required for students who wish to withdraw from First Year Seminar classes. Refunds for course withdrawal (when applicable) are based on the date the withdrawal is processed, not on submission of the online petition. When a class has a status of "Indiv Course Withdrawal" on the "Add or Drop Classes" page in WyoRecords, the student has officially withdrawn. Students may also confirm that a final grade of "W" is noted on the

transcript, which may be viewed through WyoRecords.

Unauthorized discontinuance of enrollment or unofficial abandonment of classes will result in a failing grade.

4. *All-School-Withdrawal (termination of enrollment)*: Withdrawal from the university is the official termination of student status prior to the end of a fall or spring semester, but students may otherwise register for classes for the subsequent semester if they choose to do so. Students wishing to withdraw from all on-campus classes should initiate the procedure with the Dean of Students Office. Withdrawal from the university is not permitted during the last 15 days of a term. After clearing with the Dean of Students Office, the withdrawal form must be presented to the university cashier for initial processing. The Office of the Registrar will report withdrawals to instructors concerned. Students withdrawing from distance classes should send an email to the Office of the Registrar to initiate the process.

Choice of College and Major

The academic adviser is an excellent source of information about the adviser's professional field for students who have selected a major. Students who are undecided about the selection of a college and/or major and who seek specialized assistance in choosing educational and vocational objectives should contact the Advising, Career, and Exploratory Studies center. These units have programs designed to help the undeclared student acquire the tools to make an intelligent decision regarding an appropriate major discipline.

Change of College, Major, or Adviser

Students who wish to change their college, major, or adviser should obtain the appropriate form from either the Office of the Registrar or the office of the dean of the college of their current enrollment. Students wishing to transfer from one college to another must secure the signatures of both their present and future deans. Graduate students need the approval of the college dean and the head of the department to which the student is transferring. After all appropriate signatures have been obtained, the student should take the form to the Office of the Registrar.

Students who have completed their undergraduate work at the university and who wish to embark upon a graduate program, even through continuing their graduate work in the same field they pursued as undergraduates, will need to apply for graduate admission. (Refer to the section on graduate admission in this catalog for deadlines.)

Definitions for Student Classifications

Code	Class	Definition by earned semester hours
FR	Freshman	Under 30
SO	Sophomore	30 but less than 60
JR	Junior	60 but less than 90
SR	Senior	90 or more
GR	Graduate Student	
LW1	Law student (professional level) first year	
LW2	Law student (professional level) second year	

LW3	Law student (professional level) third year
MD1	Medical student (professional level) first year
PH1	Pharm.D. (professional level) first year (0-33 semester hours)
PH2	Pharm.D. (professional level) second year (34-69 semester hours)
PH3	Pharm.D. (professional level) third year (70-104 semester hours)
PH4	Pharm.D. (professional level) fourth year (105+ semester hours)

Credit Hour Load

Undergraduates: An average of 15 hours of coursework each semester is considered a normal load. Maximum credit loads are 20 hours in all colleges. Normally, not more than 12 hours of undergraduate credit may be taken during the summer session. An approved Overload Petition form must be filed to exceed these maximums. Overload Petition forms are available online or from the Office of the Registrar.

Graduate students: 14 hours of credit is the average and 16 hours the maximum amount of credit allowed per semester for full-time graduate students. A student who has been assigned an assistantship for the academic year is usually restricted to a load of 13 semester hours. Normally, not more than 8 hours of credit may be earned in course work during an eight-week summer session. An approved Overload Petition form must be filed to exceed these maximums. Overload Petition forms are available online or from the Office of the Registrar.

Auditing a Course

The privilege of non-credit enrollment in a class is available to any university student. The auditing privilege is subject to the same fee schedule as credit courses. Auditors are expected to attend class regularly and complete such graded work as required by the instructor. It is the responsibility of the student to determine and fulfill the requirements for a satisfactory audit. Though this auditing privilege carries full rights of class participation, it definitely offers no academic credit, does not count toward full- or part-time status, and will result in a mark of satisfactory (SA/S) or unsatisfactory (UA/U). Subsequent credit for the course by special examination is not available.

Graduate Credit for Seniors

Undergraduate students taking graduate-level courses which are not in any way a part of their undergraduate degree have the option of later using such courses for purposes beyond the bachelor's degree requirements. If the student intends to pursue a graduate degree or needs the courses noted on the academic transcript as reserved for graduate credit for job classification (e.g. advancement on teacher salary schedules) the student should file a petition. The Request to Reserve Coursework for Graduate Credit should be filed by midterm of the semester which is requested. The petition form is available on the Graduate Student Forms page on the Office of the Registrar website. Courses may not be retroactively reserved once a semester has ended.

Class Attendance

Each student shall attend the lectures, recitations, and laboratories, and participate in field work deemed necessary to adequately fulfill the academic requirements of each course. Each instructor, at the beginning of every semester, shall stipulate the attendance policy necessary for satisfactory completion of the course.

The Dean of Students Office may issue authorized absences for participation in university-sponsored activities and for other unusual circumstances. If students have been hospitalized, or if they have been directed by the Student Health Service or their private physician to stay at their place of residence because of illness, the Student Health Service or their private physician may issue a statement giving the dates of the student's confinement which the student may show to the instructor without verification from the Dean of Students Office. The Student Health Service has a policy not to provide medical excuses for missed classes. Please review the policy at <http://www.uwyo.edu/shser/medical-excuses.html>.

All instructors shall permit students who have official authorized absences to make up missed course work without penalty. An authorized absence, however, merely gives the individual who missed the class an opportunity to make up the work and in no way excuses him or her from the work required.

When a class has a status of "Indiv Course Withdrawal" on the "Register for Classes" page in WyoRecords, the student has officially withdrawn. Students may also confirm that a final grade of "W" is noted on the transcript, which may be viewed through WyoRecords.

Unauthorized discontinuance of enrollment or unofficial abandonment of classes will result in a failing grade.

Academic Dishonesty

Whatever form academic dishonesty may take, the university community regards it as a serious offense. An act is academically dishonest when, and only when, it is an act attempted or performed in order to misrepresent one's involvement in an academic task in any way. Such conduct will result in imposition of sanctions pursuant to University Regulations.

It is the responsibility of both the student and person in charge of an academic task, respectively, to make reasonable efforts to learn of, or make known, the expectations and standards of conduct required in the performance of an academic task. Failure on the part of the student to observe and maintain required standards of academic honesty will require corrective action by officials.

Tami Benham-Deal, Senior Vice Provost

Enrollment Management

Admissions Office

Shelley Dodd, Director of Admissions
150 Knight Hall, (307) 766-5160
Web site: www.uwyo.edu/admissions

A new undergraduate student's first official contact with the University of Wyoming is often through the Admissions Office. This unit is responsible for recruiting/admitting undergraduate students to the university. Responsibilities include the development of effective school relations, programs with high schools and community colleges, recruitment of prospective freshmen and undergraduate transfer students, and events for students and families to learn more about opportunities at UW. This office also facilitates the admission process for graduate students. A detailed description of admission to the university and procedures can be found in the admission policies section of this publication.

Office of the Registrar

Kwanna King, Registrar
167 Knight Hall, (307) 766-5272
Web site: www.uwyo.edu/registrar

The Office of the Registrar is responsible for overseeing course registration, transcripts, verification of enrollment, adding/dropping/ withdrawing from courses, administering the residency policy for tuition classification purposes, and for maintaining student academic records. This involves responsibility for web registration, as well as preparation and electronic publication of the *Class Schedules* and *University Catalog*. The office is also responsible for the electronic degree audit program, graduate record processing, and for determining whether or not students have successfully met all degree requirements. Additionally, this office evaluates all transfer credit for undergraduate students to determine transferability as well as UW equivalents.

Transfer Success Center

Amanda Reeder, Director
Marian H. Rochelle Gateway Center, Tomé Student Admissions, Room 116
E-mail: transfer@uwyo.edu
Web site: www.uwyo.edu/transfer/

The Transfer Success Center provides assistance, referrals and advocacy to enhance transfer students opportunities for strong academic performance and smooth transition to the University of Wyoming. The office works closely with Undergraduate Admissions, the Office of the Registrar, Wyoming Community Colleges and out of state institutions to implement effective policies to streamline the transfer process. The office facilitates articulation efforts including programmatic articulation agreements and transfer planning guides. Additionally, the office provides student support services through peer mentors, the Reverse Transfer Program and Transfer Advance.

Global Engagement Office

(307) 307-766-3151
Web site: uwyo.edu/global

The Global Engagement Office (WyoGlobal) is the home of internationalization at the University of Wyoming. It includes the Vice Provost for Global Engagement, the Center for Global Studies, International Students & Scholars, Education Abroad, and the English Language Center. Whether recruiting and supporting international students, providing exchange and study abroad opportunities, facilitating global partnership development, coordinating immigration for new international hires, or assisting with visiting dignitaries, we support the entire UW campus community in achieving their internationalization goals. Stop by and visit us in the Cheney International Center to learn more about the programs and services we offer to the UW campus community to promote global citizenship, inform visitors, and communicate with our partner institutions abroad.

Education Abroad

(307) 766-3677

E-mail: uwoabd@uwyo.edu

Web site: www.uwyo.edu/uwoabroad

The Education Abroad Office connects students from all majors and programs with international study, exchange, service and internship opportunities on six of the seven continents at hundreds of locations around the globe. Students earn UW credit towards major, minor or general education requirements on academic year, semester, summer and faculty-directed short-term programs. The Education Abroad Office is located on the first floor of the Cheney International Center. UW students with a minimum 2.750 GPA are eligible to apply to participate on a wide variety of credit-bearing programs outside of the U.S. The Education Abroad Office staff advises students individually to tailor the program to students' specific needs. Considerations are made for cost, financial aid opportunities, transfer of credit, health and safety, degree completion, country or region desired, and foreign language requirements.

UW students with a minimum 2.750 GPA are eligible to apply to participate on a wide variety of credit-bearing programs outside of the U.S. The Education Abroad Office staff advises students individually to tailor the program to students' specific needs. Considerations are made for cost, financial aid opportunities, transfer of credit, health and safety, degree completion, country or region desired, and foreign language requirements.

In addition to learning about other cultures in depth and perfecting language skills, studying abroad can be a life changing experience. Students return home with altered perspectives by developing flexibility and critical thinking skills. Students gain a greater sense of where they are from, what it is to be a citizen of the world, and what it is to be an individual. Studying abroad can help students clarify life and professional goals which leads to the development of greater direction, focus, and motivation for the remaining years of their university life and beyond.

English Language Center

Frederica Suess, Director

(307) 766-3630

Web site: www.uwyo.edu/study-iep-esl

Petra Heinz, Graduate ESL Coordinator

(307) 766-3606

Web site: www.uwyo.edu/study-iep-esl

The English Language Center serves second language English speakers across campus in credit bearing ESL courses, a full-time pre-college Intensive English Program, Visiting Scholar and International Graduate student support, and cultural training for International Teaching Assistants at UW. Through special programs with our partner schools, the

ELC also provides short-term English language training courses and Wyoming study tours for international groups in the summer months.\

The English Language Center provides campus-based services and language support for all non-native speakers of English in the UW community. Our program offerings include: ESL credit courses for undergraduates continuing to improve their Academic English skills. A fulltime pre-college Intensive ESL Program to meet college admissions requirements. Orientations and TA training for international graduate students, and conversation hours and cultural support for Visiting Scholars. Custom short-programs and study tours are also available for academic departments and international partners.

International Students and Scholars

Jill Johnson, Associate Director of Admissions
Cheney International Center, Suite 5, (307) 766-5193
Web site: www.uwyo.edu/ISS

International students, numbering over 825 from nearly 90 countries, are a vital part of international education at the University of Wyoming. As such, International Students and Scholars (ISS) works to promote an interchange of ideas and understanding from among all of the countries represented on campus. ISS is responsible for recruitment of international students and provides advising and counseling to all international students/scholars for their academic, social, personal, and immigration concerns. The office also promotes and implements social and cultural activities for international awareness and educational exchange through International Education Week, Friendship Families, American Conversation Club, international coffee hours, and other special programs. Many of these activities are coordinated through the ISS-sponsored International Resource Center in the Cheney International Center, Room 1.

International students and visitors are required to contact International Students and Scholars to confirm their arrival at the University of Wyoming and to consider the office their primary contact for further information and assistance. Students must be enrolled as full-time students each semester as required by the U.S. Citizenship and Immigration Services. The ISS e-mail address is uwglobal@uwyo.edu.

National Student Exchange: The University of Wyoming is a member of the National Student Exchange (NSE) consortium. Through NSE, students are provided an opportunity to attend one of more than 175 U.S. institutions in the NSE consortium. NSE offers a student the chance to live in another part of the United States and to travel and experience college life in different settings for an academic semester or a year under his or her normal UW tuition and fees. Financial aid is often available and academic credit is guaranteed to transfer back to UW.

For more information about the National Student Exchange, please contact International Students and Scholars, Cheney International Center, Suite 5 or call (307) 766-5193. The e-mail address is uwglobal@uwyo.edu.

Undergraduate Education

Steven Barrett, Associate Vice Provost
312 Old Main, (307) 766-2666
Web site: www.uwyo.edu/acadaffairs

Advising, Career, Exploratory Studies Center

Richard Miller, Acting Director
222 Knight Hall, (307) 766-2398
Web site: www.uwyo.edu/aces

The Advising, Career, Exploratory Studies Center (ACES) provides a variety of services to UW students, including advising Exploratory Studies and Bridge students; providing academic support to various populations of probationary, conditionally admitted, and reinstated students; assisting students campus-wide with their career exploration, planning, and job search needs; assisting in coordinating discussions, information dissemination, and event planning between the various professional advisors and advising offices on campus; and coordinating national tests and exams through the University Testing Center in Knight Hall, Room 4.

ACES is committed to providing a comprehensive and integrated service that moves a student along a continuum of receiving academic advising, exploring academic and career options, selecting a college major, and finally, implementing his/her degree in the world of work.

Exploratory Studies and students admitted with support, placed on probation, or reinstated to the university are highly encouraged to meet with a ACES career counselor. The purpose of this meeting is to analyze the student's past academic progress and future career goals to develop a strategic plan to maximize his/her academic success and future employment opportunities. ACES also works closely with other campus offices and departments to engage students in available study skill and tutorial resources.

Students interested in engaging in career exploration activities may make an appointment to meet with a career counselor to discuss their career goals and/or confirm their choice of major. Various assessment tools that provide feedback on the match between a student's interests or personality type and the world of work, are available. ACES career specialists provide information pertaining to a broad range of career fields, internship opportunities, specific employer information, general job search strategies, and federal government application processes.

Students are advised on how to use the HANDSHAKE platform on the ACES homepage to find out about and apply for summer, internship, and permanent job opportunities. Each year numerous employer representatives from business, industry, health care, education, and government visit ACES to interview students for these types of opportunities. All information pertaining to these visits is contained in the HANDSHAKE link on the ACES homepage.

The campus wide experiential learning program SOAR is coordinated in the ACES office. Students are advised how to contribute to and utilize their own personal profile to help better prepare them for career or graduate school.

ACES hosts numerous general and specialized job fairs each year for students and alumni. Upcoming job fair dates can be found on the ACES homepage.

The University Testing Center: The University Testing Center coordinates national tests and exams and is housed in the Knight Hall basement, Room 4. Students may register to take national tests and professional school entrance exams. Information is available on the University Testing Center web site www.uwyo.edu/UTC or by calling (307) 766-2188.

Learning Resource Network (LeaRN)

April Heaney, Director
105 Coe Library, (307)766-3448
Web site: www.uwyo.edu/learn

The Learning Resource Network (leaRN) offers first-year program, academic learning communities, and an umbrella of academic support initiatives for UW's entering and undergraduate students. The program's mission is to provide high-impact academic programs to increase the success and persistence of UW's undergraduates. LeaRN programs support access, academic achievement, and impactful teaching and mentoring within all programs.

First-Year Courses & Learning Communities

Summer and Fall Bridge: Bridge offers two first-year options that help entering and admitted with support students complete general education courses in a learning community structure. Bridge courses feature small class sizes, consistent support from ACES advisors,

talented instructors, and connections with peer mentors. First-Year Interest Groups: Freshmen Interest Groups (FIGs) are living and learning communities through which students take 3-4 courses together in the Fall semester and live on the same residence

hall floor. Faculty and FIG resident assistants work together to create enrichment opportunities, study and course review sessions, and campus/community engagement through the FIG experience.

First-Year Seminar: As a key piece of UW's general education program, First-Year Seminar courses integrate critical and creative thinking, democratic discussion, exploration of important contemporary issues, and research skills in a freshmen-level course.

First-Year Experience course: The FYE course (STEP 1102) is an optional one-credit course designed to help freshmen interact with UW campus resources, staff, and faculty; to learn about tools for academic support and wellness; to explore academic and co-curricular opportunities; and to delve into major and career selection.

Academic Success and Recovery courses: Academic Success courses (STEP 1105) support first-year students with academic probation following Fall semester. The two-credit courses help students learn key skills for college success and evaluate their major, career, and life goals.

Academic Support Initiatives

The STEP Center offers in-person and online tutoring and supplemental instruction for 60+ courses at the 1000 and 2000 level. STEP also offers NetTutor, an online tutoring platform accessible all year to distance and campus students.

Early Alert: Early Alert is program that allows faculty to provide academic feedback on student performance during the 4th week of classes, before mid-term grades are assigned. Early Alert provides a glimpse of students' early-semester progress and multiple avenues for support in challenging courses.

First Gen Scholars: First Gen Scholars provides multiple resources and engagement opportunities for students whose parents have not earned a four-year degree. Participating students have access to peer and faculty mentoring, workshops and community building activities, scholarship opportunities, honors society membership-and many more support avenues.

PIE Award: The Promoting Intellectual Engagement (PIE) Award honors instructors who inspire excitement, inquiry, and autonomy in first-year courses. The award is co-sponsored by LeaRN, Ellbogen CTL, Residence Life & Dining, and Advising, Career, and Exploratory Studies.

LeaRN Faculty:

IRENE ENLOW, B.A., The University of Iowa 2019; M.A., The University of Wyoming 2021; Assistant Lecturer 2021.

ALLISON GERNANT, B.A. Grinnell College 1996; M.A. University of Wyoming 2005; Assistant Lecturer 2016; Fall Bridge First Year Seminar Coordinator & First Year Seminar Coordinator 2019.

SHELBY HUTSON, B.A. Colorado State University Pueblo 2016; M.A. University of Wyoming 2018; Assistant Lecturer 2018.

CATHERINE JOHNSON, B.A. Whittier College 2005; M.A. American University 2009; M.F.A. Portland State University 2017; Assistant Lecturer 2019.

ALYSSA KONESKO, B.A. Saginaw Valley State University 2008; M.Ed. Bowling Green State University 2011; Assistant Lecturer 2015.

SETH SWANNER, B.A. Birmingham-Southern College 2007; M.A. University of Alabama 2011; Ph.D. 2017 Northwestern University; Assistant Lecturer 2019.

Student Educational Opportunity (SEO)

Pilar Flores, Director
330 Knight Hall, (307) 766-6189
Web site: www.uwyo.edu/SEO

Student Educational Opportunity is composed of both on-campus and outreach projects with offices throughout Wyoming. These projects serve students who are first generation; income-eligible; students with cognitive, psychological or physical disabilities; ethnic minority students; and non-traditional students. SEO assists eligible students to plan and prepare for entry into higher education, succeed in the higher education environment, and graduate from college by providing academic success services, and instruction in basic skills, career, and personal development. All projects within SEO seek to increase the public awareness of the needs of ethnic minority, first generation, income-eligible students, and students with disabilities in an educational environment.

On-Campus Projects

McNair Scholars Program: The McNair Scholars Program prepares students to pursue doctoral level study. Services include intensive academic support including tutoring and academic counseling; activities related to successful application to graduate school and pursuit of financial aid opportunities; preparation for the GRE; and faculty mentoring. The capstone of the program is a paid summer research internship program which prepares students for admission to graduate level education. Students who are juniors and seniors, income-eligible and first generation college students, or who are from ethnic minority groups underrepresented in graduate education qualify for program services. The McNair Scholars Project is a federally funded TRIO project. Note: this is a graduate school preparation program; it is not a scholarship program.

Student Success Services: The Student Success Services (SSS) project offers academic support to students who are first generation college students, income-eligible, and/or individuals with disabilities. Student Success Services provides assistance with academics, personal/social choices, financial issues and pursuit of financial aid opportunities, and choice of college major and related career opportunities. The SSS project also provides its students with individual and group tutoring. All services are free to eligible participants and services are intended to help students be successful in college and to stay in college through graduation. SSS is a federally funded TRIO project.

Outreach Projects

Educational Opportunity Center: The Educational Opportunity Center (EOC) assists first generation and income-eligible adults throughout Wyoming to continue their education. Services include assistance with college and financial aid applications, career and college exploration, and GED preparation. Outreach offices are located in Casper, Cheyenne, Ethete, Rock Springs, Powell, Riverton, Gillette, Torrington, and Laramie. EOC is a federally funded TRIO project.

GEAR-UP Wyoming: The Wyoming Statewide GEAR-UP project provides services to 2,000 income-eligible pre-college students throughout the state each year. Student services include career exploration, advising and supporting students in taking a college preparation curriculum, college preparation, ACT preparation, college exploration, application, and planning, and assistance with financial aid processes and procedures. Student services are provided through GEAR-UP coordinators located at each of Wyoming's seven community colleges. The GEAR-UP grant also works with the Wyoming Department of Education in providing teacher training and school improvement initiatives. All GEAR-UP services are aimed at increasing student academic preparation and performance levels suited for post-secondary education, rates of high school graduation, rates of post-secondary education participation and graduation, and GEAR-UP student and family knowledge of post-secondary education options, high school preparation needs, and means of financing.

Upward Bound Math/Science: The Upward Bound Math/Science Program (UBMS) provides services to income-eligible and first generation 9th through 12th grade high school students throughout Wyoming. UBMS is designed to generate the skills and motivation necessary to be successful in high school and to complete a college degree program in a math or science area. Assistance with high school coursework and tasks related to college enrollment are provided throughout the academic year. The UBMS program includes a six-week, residential, summer academic session on the

UW campus with an intensified math and science curriculum that includes performing active research under the guidance of university staff and graduate students. UBMS is a federally funded TRIO project.

Upward Bound: The Upward Bound program works with income-eligible, first generation high school students (grades 9-12) and their families to help them gain the skills and motivation necessary to successfully complete high school and to pursue a college degree. The program includes a six-week, residential, summer academic component on the UW campus designed to help students develop academically and socially in a university setting. Tutorial and enrichment services are provided throughout the academic year and participants and their families receive individualized assistance in completing tasks related to successful college enrollment. Outreach offices are located in Albany, Fremont, Laramie, and Natrona counties. Upward Bound is a federally funded TRIO project.

Graduate Education

James C. Ahern, Vice Provost

(307) 766-4286

Web site: www.uwyo.edu/uwgrad

The Office of Graduate Education oversees and supports graduate and professional education at the university. In collaboration with Graduate Council, the Office of Graduate Education develops, reviews and implements policies and procedures regarding graduate and professional education and helps develop and review major changes to graduate and professional programs. The office also provides funding to programs and students including special initiatives, graduate assistantships, graduate fellowships and student travel. Furthermore, the Office of Graduate Education is the administrative home for interdisciplinary and transdisciplinary graduate programs.

Division of Student Affairs

- Campus Recreation
- Dean of Students Office
- Student Health Service
- University Counseling Center
- Residence Life & Dining Services
- Center for Student Involvement and Leadership (CSIL)

Kimberly Chestnut, Vice President

Ryan O'Neil, Dean of Students & Associate Vice President

Nycole Courtney, Dean of Student Success & Associate Vice President

Vice President For Student Affairs Office:

408 Old Main, (307) 766-5123, Fax: (307) 766-2696

The Division of Student Affairs is the administrative unit of the university that is responsible for providing leadership and coordination of programs and services designed to support student learning and development in and outside the classroom.

In partnership with UW faculty, staff, and students, the Division of Student Affairs develops and delivers services, programs, and facilities that promote the intellectual, personal, cultural, and civic development of students; coordinates efforts to create a caring community in which individuals are respected, encouraged to pursue excellence, and achieve their potential; and fosters honoring the diversity of individuals and cultures.

The Division of Student Affairs is comprised of the Associated Students of the University of Wyoming, Campus Recreation, Cowboy Parents Council, the Dean of Students Office, the Center for Student Involvement and Leadership, Student Health Service, Student Success and Graduation Hub, the University Counseling Center, Residence Life, the UW Alumni Association. The different areas within the Division work together to provide safe and comfortable housing; to provide wellness services for the health of students; to educate students and encourage personal accountability; to engage students in leadership opportunities; to provide educational and entertaining programs and events; and to foster opportunities for student feedback which is essential for a successful institution.

Campus Recreation

Pat Moran, Director

Half Acre Recreation and Wellness Center

Phone: (307) 766-5586

Web site: www.uwyo.edu/Rec

Our mission is to provide recreational and wellness opportunities to a diverse campus community that enhance the learning and workplace environment and promote mental and physical health via quality facilities, equipment, and programs. Our programs, which include the Wellness Center, Open Recreation, Intramural Sports, Club Sports, and the Outdoor Program, offer a broad range of coordinated activities for individuals and groups that promote health awareness, a sense of community and a lifelong appreciation for wellness and recreational activities. Supporting the value of student development, our programs strive to offer opportunities to students that develop leadership skills and promote responsibility while maintaining a balance between personal, professional, and academic pursuits.

Wellness Center

Half Acre Recreation and Wellness Center, First Floor

Phone: (307) 766-9355

An exciting new addition to the Campus Recreation Department, the UW Wellness Center is a network of people, programs, services, and policies that work together to create and support a culture of health and wellness at UW. The UW Wellness Center works collaboratively with various campus departments to provide education, services, and programs that address health needs such as stress relief, nutrition, fitness, mental health, sexual health, safety, and alcohol and tobacco use. Some of the Wellness Center offerings include: athletic training, massage therapy, personal training, sleep assessments, blood pressure checks, and weekly educational workshops. The Wellness Center is located in the southwest portion of Half Acre, in the "free zone," which does not require gym membership to access. The Wellness Center is open to students as well as members of the University community. Most offerings are free, however there are a few services that charge a competitive rate. Visit the Wellness Center to learn more about these programs and services aimed at improving your overall wellness.

Open Recreation

Half Acre Recreation and Wellness Center, First Floor

Phone: (307) 766-5586

The Open Recreation Program is housed primarily in the newly renovated Half Acre Recreation and Wellness Center with additional recreational opportunities in the Corbett building on the east campus. UW's Open Recreation Program, available to the entire student population, faculty, staff and spouses, provides quality equipment for individuals to participate in non-organized, informal activities such as basketball, volleyball, racquetball, or badminton. Patrons can also take advantage of swimming, weight training, aerobic training, personal training services, and group fitness and instructional classes. For more information on the Open Recreation Program, stop by the front desk in the lobby of Half Acre, pick up a Campus Recreation brochure, or visit the Campus Recreation website.

Intramural Sports

Half Acre Recreation and Wellness Center, Second Floor

Phone: (307) 766-4175

UW's Intramural Sports Program offers organized individual and team competitive sport events in men's, women's, and co-recreational leagues. Students and employees can participate in organized recreation level sport competition in approximately 30 activities per semester such as flag football, soccer, inner-tube water polo, wrestling, badminton, basketball, volleyball, or table tennis. Information is available from the Rec Sports Office or on the Campus Recreation website. Every member of the university community is encouraged to become familiar with the many aspects of intramural sports, which are designed to encourage participation and socialization regardless of previous experiences, sport skills, or group affiliation. Come alone or with a group to sign up for a fun time.

Club Sports

Half Acre Recreation and Wellness Center, Second Floor

Phone: (307) 766-4175

The Club Sports Program offers a higher level of athletic sport competition than Open Recreation and Intramural Sports to UW students. Some of the current UW Club Sport teams for men and women include badminton, baseball, volleyball, soccer, ice hockey, rugby, cycling, Nordic ski racing, lacrosse, softball, racquetball, fencing, cricket, water polo, tennis, triathlon and equestrian. UW faculty or staff with an interest in coaching or officiating a Club Sport should contact the Rec Sports office. Visit our website for more information on Club Sport teams and activities.

Outdoor Program

Half Acre Recreation and Wellness Center, First Floor

Phone: (307) 766-2402

UW's Outdoor Program (OP) offers a variety of outdoor experiences as well as training to use the brand new indoor climbing and bouldering wall. Participants have opportunities to develop lifetime recreational skills, gain an appreciation and concern for our natural environment, and meet new people. The OP sponsors a variety of seasonal programs and outings throughout the year. These activities range from day and weekend trips to nearby destinations to extended trips at unique destinations. The OP also runs clinics and sponsors guest speakers, presentations, and other educational programs. Activities are offered for all skill levels through such venues as back country ski outings, trail running, snowshoe outings, back country hiking and camping trips, or rock climbing. The OP provides an extensive line of rental equipment to the campus community. The Outdoor Program staff is ready to expose the university community to a whole new realm of experiences not available anywhere else on campus. Visit the office or our website for more information on OP activities and services.

Dean of Students Office

Ryan O'Neil, Dean of Students
128 Knight Hall, (307) 766-3296
Web site: www.uwyo.edu/DOS

The Dean of Students Office (DOS) provides a variety of UW student support services. The staff in DOS work to enhance the quality of life for all UW students. Assistance with situational needs and student life concerns of individual students and groups of students regarding their personal, academic, and/or social welfare are coordinated by the DOS staff.

Several offices and programs comprise the Dean of Students Office. These include the Dean of Students, STOP Violence Program, welfare check, and Student Judicial Affairs, all located in Knight Hall. The Center for Student Involvement and Leadership (CSIL) is also under the Dean of Students and is primarily located in the Wyoming Union.

Services available through the Dean of Students Office include individual advisement and consultation regarding situational student life concerns; referral coordination with other university and community services; conflict resolution and consultation regarding student conduct, rights, and responsibilities; advisement in grievance procedures, due process, and student appeals of disputed decisions; official university withdrawals; and authorized absences and emergency contacts.

The professional staff provide direct assistance to students and groups at any time in the student's career at the university. Information, individual advisement and consultation, and assistance with administrative procedures are facilitated in the Knight Hall offices.

STOP Violence Program: The mission of the STOP Violence Program is to prevent domestic/relationship violence, sexual assault, and stalking on the campus of the University of Wyoming. Awareness and prevention efforts are provided by this office through outreach and educational activities. The coordinator works closely with the University Counseling Center (UCC), Campus Police (UWPD), Residence Life, and other offices to provide programs.

Another focus of the STOP Violence Program is to provide support and resources to students affected by violence. One resource is an on-campus advocate who can help a student access services through university departments and/or community agencies. Support is also offered by providing information to these students, their friends, and families, about the effects of domestic/relationship violence, stalking, or sexual assault. Walk-in hours are 10 a.m. to 4 p.m. weekdays, (307) 766-3296. For after hours emergencies, please call (307) 745-3556 (the Albany County Safe Project).

Student Conduct, Rights and Responsibilities: The Trustees, as a governing body of the university, are charged with the statutory duty and authority to make all rules and regulations including the administrative responsibility to regulate and control whatever conduct and behavior of the members of the university community impedes, obstructs, or threatens the achievement of the educational goals and mission of the university. The university community, in order to function in an orderly and creative manner, ascribes to a code of conduct to which the student must adhere. This information, entitled Student Code of Conduct, is distributed to each student who is granted admission to the university. This information and other university regulations are published in order to inform students of their rights and responsibilities and the minimum ethical standard of conduct expected of them as members of the university community. Additional copies of this information may be obtained at the Dean of Students Office or on the web.

Student Legal Services: Student Legal Services provides free, confidential legal assistance to the University of Wyoming student community through a full-time attorney. This office provides full legal service for any student need with the exception of in-court representation. The attorney can assist all fee-paying University of Wyoming students who seek advice in connection with personal legal issues. Information is readily available on a variety of subjects. This service is provided through student fees to ASUW, and there is no additional charge for the attorney's time. Student Legal Services also facilitates the effective and prompt handling of legal referrals, (307) 766-6347.

Disability Support Services: Disability Support Services (DSS) provides a variety of services for students with physical, sensory, cognitive, or psychological disabilities including printed materials in alternative format, note-taking assistance, classroom relocation, testing accommodations, access to adaptive computers, parking assistance, advocacy, sign language interpreters, real-time transcribing, mobility orientation for the blind, as well as other academic support services. UDSS assists UW to meet its legal and ethical obligations under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. Services are coordinated with the efforts of the Division of Vocational Rehabilitation and Wyoming Services for the Visually Impaired, when appropriate. Students with disabilities who anticipate needing accommodations to fully participate in classes and programs at the University of Wyoming are strongly encouraged to register with UDSS and provide documentation of their disability.

Student Health Service

Mary Beth Bender, FNP-C, Interim Director
Student Health Building, (307) 766-2130
Web site: www.uwyo.edu/ShSer

The Student Health Service (SHS) provides personalized health care to eligible students by maintaining a high quality medical outpatient clinic. The clinic provides primary health care, health education, and preventive services to enable students to complete their course of study. The professional staff consists of two physicians, three nurse practitioners, a psychiatric nurse practitioner, one physician assistant, and registered nurses, in addition to other professional and administrative personnel.

Undergraduate and professional full-time students taking 12 or more credit hours and graduate students taking 9 or more hours are eligible for services at the SHS. Undergraduate and graduate part-time students who have purchased the Optional Student Fee Package are also eligible. Enrollment in, or waiver from, the University of Wyoming Student Medical Insurance program has no effect on eligibility to use the Student Health Service. Students enrolled during the summer pay a summer fee for use of the SHS. Students not enrolled for summer but who were enrolled spring semester and are pre-registered for fall semester may pay the same summer fee to use the SHS. Payment of the semester fee provides visits with clinicians and nurses at no cost. Affordable laboratory diagnostic procedures, medications, and office procedures are available. There are also nominal charges for supplies such as ace bandages, splints, crutches, and other medical devices.

The hours of the Student Health Service can be found on our web site. All students are urged to have adequate health insurance coverage for illnesses or emergency visits to the local hospital, urgent care clinic, or a physician's office when the Student Health Service is closed. Insurance coverage is also recommended for medical care that is not available at the Student Health Service, including treatment of major injuries, surgery, and hospitalization. The student is responsible for all charges for services provided by persons or institutions outside of the Student Health Service.

Student Success and Graduation Hub

Nycole Courtney, Dean of Student Success

Phone: (307) 766-4858
Web site: www.uwyo.edu/student-success/

Our mission is to provide We've created a robust support system in which students and families can become actively engaged to find solutions to navigate academic and personal struggles from adjusting to college. This self-guided hub helps you quickly find resources and guidance.

The hub exists to maximize student support and programming, personalized to their needs. All UW students have access to a support system that includes academic advising, therapeutic counseling, engagement, leadership development, mentoring, tutoring, developmental workshops and most of all - a sense of belonging.

We offer a one-stop-shop for meeting your needs and ensuring a successful college career. That's why we've grouped all of UW's student support opportunities together so you can easily identify where you need the most assistance at any given time during your college career.

University Counseling Center

Toi Geil, Ph.D., Director
341 Knight Hall, (307) 766-2187
Web site: www.uwyo.edu/UCC

The University Counseling Center (UCC) provides comprehensive, time-effective mental health services to the university students and consultation on issues with parents, staff, and faculty. The UCC is a resource center for students to enhance personal success skills in dealing with the challenging and sometimes stressful university environment. The professional UCC staff work together with students to help them find effective ways to approach concerns and problems. Students are supported in learning to make healthy lifestyle choices that promote their personal, social, and academic goals. Group and individual counseling services, in a professional and confidential atmosphere, are provided to students with personal and interpersonal concerns. Other services include crisis intervention, walk-in consultation, and education to the UW community. Individual counseling appointments are made in person during regular office hours, 8 a.m. - 5 p.m. (summer hours: 7:30 a.m. - 4:30 p.m.) Monday through Friday. The UCC offers walk-in services, various hours a day, when students may simply walk in to be seen for a brief appointment, to determine future services they might need. Counseling services are free to UW students. For after-hour emergencies, students can talk to an on-call counselor by calling 766-8989.

Campus Consultation and Outreach: UCC staff consults with academic and student services personnel, student leaders, and university administration regarding counseling and mental health issues and ways to better the UW living/learning environment. Outreach programs can be initiated by student or staff request or by UCC staff bringing issues of concern to various campus populations. Some current issues include destigmatizing mental health, suicide prevention, respect for diversity, sexual orientation issues, and stress management. Generally, UCC asks for a minimum of two weeks notice for an outreach presentation; however, in urgent situations triggered by trauma, outreach programs will be offered on a shorter notice. The Center hosts the Lifesavers Coalition - a group of campus and community partners who have an interest in training others in the skills of suicide prevention, and also have a focus on how to be proactive with wellness.

UCC collaborates closely with the STOP Violence Program in the Dean of Students Office by providing counseling support to students who are victims of sexual violence as well as collaborative programming regarding prevention of sexual violence and membership with Campus Coalition for the Prevention of Sexual and Relationship Violence.

AWARE (Alcohol Wellness Alternatives, Research and Education): The AWARE Program is committed to a healthy campus community and a drug-free learning environment. AWARE Program staff utilize best practices in providing drug and alcohol education and prevention programming for the University of Wyoming campus and community. The AWARE Program promotes a standard of wellness in regard to healthy choices surrounding alcohol use and the prevention of illicit drug use by college students. To achieve these goals, the AWARE Program offers a broad range of services ranging from individual interventions to consultative and educational services for campus groups and the community at large. AWARE also coordinates the Cowboy UP Peer Education group. Additionally, the AWARE Program coordinates the A-Team, a campus-community coalition dedicated to reducing underage and excessive alcohol use. For more information, please visit the web site at www.uwyo.edu/aware or feel free to contact via telephone at (307) 766-2187, email (aware@uwyo.edu), or in person by visiting 341 Knight Hall.

Residence Life Services

Katie Buell, Assistant Director, Residence Life
Taryn Wright Assistant Director
Washakie Center, Lower Level, (307) 766-3175
Web site: Residence Life & Dining Services (uwyo.edu)

Residence Life & Education is committed to providing social and collaborative opportunities that occur while living - on campus, with the belief that these elements are an essential component of a student's education, personal growth, and college experience. The social and collaborative opportunities that occur while living on-campus are unparalleled elsewhere. You will meet new people, develop relationships, and integrate living and learning. We are committed to providing an environment that supports your personal and academic success and looks forward to having you become a part of our campus community!

The university operates six furnished residence halls, a variety of furnished and unfurnished apartments, as well as Washakie Center, ten on-campus dining establishments and UW Catering and Events.

Residence Halls: The residence halls provide convenient living, studying, educational programming, social activities and dining accommodations for the university community. Various living environments are available. Full-time, live-in professional staff and graduate assistants live in the community, along with student resident assistants. The staff is available to all students to help make residence hall living an enjoyable and productive part of campus life. We have five residence halls for students:

- Downey Hall
- Honors House
- McIntryre Hall
- Orr Hall
- White Hall

The residence halls also provide several additional services to our students:

- Laundry facilities on-site in each hall
- On-site computer labs and study rooms
- Mail service
- Free tutoring in the Student Learning Center
- 24-hour emergency custodial & maintenance services
- Upgraded cable TV that includes channels like ESPN U, HBO, The Sundance Channel, and your own HBO GO account

Room assignments are made according to the date the completed contract form is received. The housing deposit is included in the enrollment confirmation deposit paid by new UW students. Students returning to UW who wish to live in the residence halls must pay the housing deposit when they complete their housing contract. Hall, roommate, and other preferences may be indicated on the contract and will be considered. Students wishing to room together should submit contracts together prior to the posted deadline of May 1.

New Student Live-in Policy: The UW Trustees have established a policy requiring all new students to live in the UW residence halls during their first academic year on campus and to take a minimum of the 12-accesses-per-week dining plan. The policy is based on extensive student development research indicating that a student's chance of academic success and satisfaction with the college experience greatly improves through the residential living experience.

For a student to be considered for an exemption to the policy, a request with appropriate documentation must be submitted. Students will be considered exempt from the policy if they can provide documentation for one of the following:

- 21 years of age or older
- Married
- Single parent with custody of child(ren)

- Reside with parent(s) or legal guardian(s) within a 60-mile radius of Laramie or in a property purchased by parent(s) or legal guardian(s)
- Completion of two semesters as a full-time student or the equivalent credit hours at UW, or another university or college
- Have documented medical or health conditions prohibiting residence hall living

Students must apply for exemption prior to 5 p.m. the day before the halls open for the semester (August 25, 2016 for the fall 2016 semester). Housing accommodations at the University Apartments may be available for students who have children or minors living with them or students of sophomore status or above.

For additional information about the residence halls, dining plans, or university apartments visit www.uwyo.edu/reslife-dining; call toll free (866) 653-0212; or if in Laramie, (307) 766-3175 (residence halls) or 766-3176 (university apartments); FAX (307) 766-3613 or email reslife-dining@uwyo.edu. Information may also be obtained by writing to Residence Life & Dining Services, Dept. 3394, 1000 E. University Ave., Laramie, WY 82071.

Center for Student Involvement and Leadership (CSIL)

Jeremy Davis, Director
326 Wyoming Union, (307) 766-4008
Web site: www.uwyo.edu/CSIL

The Center for Student Involvement and Leadership (CSIL), located in the Wyoming Union, seeks to provide opportunities for on campus engagement through inclusive student-centered programs, communities, services, and experiential learning opportunities to complement the academic experience. Through CSIL, students can join or create a Registered Student Organization; volunteer for local, national, or international service projects; obtain on-campus employment; serve as a student government leader; participate in fun activities; and find community among those who are similar and different.

Associated Students of the University of Wyoming (ASUW)

020 Wyoming Union, (307) 766-5204
Web site: www.uwyo.edu/ASUW

The Associated Students of the University of Wyoming (ASUW) is comprised of three branches: the Executive, Legislative, and Judicial. All full-time, fee-paying students are members of ASUW. Officers and 32 senators are elected annually by the students, and each senator represents one of the colleges or schools. They meet weekly to consider areas of concern to students.

The ASUW student government represents student opinion to the administration, faculty, staff, and State of Wyoming legislature. ASUW participation across the university ensures that university policies are made with the concerns of students in mind. In addition, the ASUW president serves as an ex-officio (non-voting) member of the University of Wyoming Board of Trustees and conveys student opinion to the institution's highest governing body. ASUW also provides their own programs and services for students. Included in these programs are ASTEC (technical services), located in the Wyoming Union; Student Legal Services in Knight Hall; and several councils: First-Year Senate, Non-Traditional Student Council, and the United Multicultural Council.

Campus Activities Center

Erik Kahl, Associate Director
Center for Student Involvement and Leadership

The Campus Activities Center (CAC) serves as the hub of student activities on campus. Professional staff in the office offer guidance and assistance for programming committees, late-night programming efforts, more than 250 recognized student organizations (RSOs), and student leadership development. Recognized student organizations at UW are established to promote a learning and social experience for individuals who share common interests. Students are encouraged to join and are free to organize associations that will provide opportunities to participate in educational, academic, cultural, and social activities. CAC staff are available to help students develop organizations, sponsor activities, and coordinate efforts with other entities on campus. A complete listing and descriptive classification of all current recognized student organizations is available from the CAC and online at www.uwyo.edu/rso. The CAC is also home to 7220 Entertainment, a student-run organization that plans and implements social, recreational, cultural, and educational programs for the campus community. 7220 Entertainment is composed of five committees.

Fraternity and Sorority Life

Erik Kahl, Associate Director
Center for Student Involvement and Leadership

The fraternities and sororities at UW provide a living/learning environment designed to support the development and experience of their members. Through intentional programs, members build connections among fellow brothers/sisters and alumni, grow and develop as students and leaders, give back through services, and lead with integrity. Countless leadership opportunities can be found within each chapter, governing council, and broader FSL community.

Multicultural Affairs

Center for Student Involvement & Leadership (CSIL)
103 Wyoming Union, uwma@uwyo.edu

Multicultural Affairs serves to enhance the personal and academic growth of students through programs, services, policies, and procedures. Our focus is to advocate with and for marginalized students to develop a positive sense of self, create strong community connections, and thrive in all aspects of student life.

A variety of events, workshops, support groups, and trainings are offered throughout the academic year to support students. Multicultural Affairs also offers the Multicultural Resource Center and Rainbow Resource Center in the Wyoming Union.

The Multicultural Resource Center, located in room 103, is a place for students from marginalized and underrepresented backgrounds to find community and support. Programs and additional resources are offered throughout the year, as well as computers, printers and workstations. The Rainbow Resource Room, located in room 106, is a supportive space for our LGBTQIA students to find community and a network of support. Computers, printers, and workstations are also available in this center as well as programmatic offerings throughout the year. More information can be found at: <http://www.uwyo.edu/oma/>.

Student Media

Center for Student Involvement & Leadership (CSIL)
001 Wyoming Union, (307)766-6190

The Student Media Office is partially funded by student fees. It meets the informative, educational, and cultural needs of the university community through such publications as The Branding Iron (the daily student newspaper published

Tuesday-Friday and weekly during the summer session), the literary magazine Owen Wister Review (published spring semester), and the feature magazine Frontiers (published fall and spring semesters) which are published under the auspices of the Board for Student Media.

The board is composed of students, faculty, staff, and selected members of the Wyoming Press Association. These publications provide an excellent opportunity for students to gain valuable experience in newspaper, magazine, advertising, sales, and production. More information can be found at: <http://www.uwyo.edu/studentmedia/index.html>.

Union Events

Center for Student Involvement & Leadership (CSIL)
210 Wyoming Union, (307)766-3161

The Wyoming Union is the community center for campus life, enhancing and complementing out-of-class educational experiences. Open daily, the Union provides facilities, services, and various activities to all of the campus community. Through the Union Events office, reservations can be made for spaces in the building including meeting rooms, ballrooms, or tables in the breezeway. The Information Desk offers campus and community information and ticket sales. For reservations and information on these services, contact the Union Events Office or make a reservation online: <https://www.uwyo.edu/union/reservations/>.

Veterans Services Center

Marty Martinez
Center for Student Involvement & Leadership (CSIL)
300 Wyoming Union, (307)766-6908

Located on the 3rd floor of the Wyoming Union, the Veterans Services Center has resources, computers, and a lounge area where veterans and their dependents, spouses, and friends can meet and support each other. Special events, programs, and student groups are coordinated out of the center. The staff works to improve access to and success in college for students who are veterans. For more information, call (307) 766-6908 or visit the web site at <http://www.uwyo.edu/vetservices/>.

Service, Leadership, and Community Engagement Office (SLCE)

Center for Student Involvement & Leadership (CSIL)
033 Wyoming Union, (307)766-3117

The Service, Leadership, and Community Engagement Office (SLCE) is located on the lower level of the Wyoming Union. SLCE is predicated on the notion that universities have a responsibility to prepare all students for active citizenship. A healthy American democracy demands ethical, engaged leadership, and SLCE seeks to cultivate these ideals among our UW students. A complete listing of all the programs and events the SLCE Office offers can be found at www.uwyo.edu/slce/. Students are invited and encouraged to visit the office in Room 033 in the Wyoming Union to explore the many opportunities available, including:

- First Year Institute
- Alternative Breaks
- Local and national days of service
- Good Mule Project

- The Big Event
- Leadership development programs
- Community engagement programs

FERPA

- General Statement
- Access
- Release of Information
- Public or Directory Information
- Letters of Appraisal/Recommendation
- Challenges to the Record
- Exception to the Policy
- Release of Personally Identifiable Information in a Deceased Student's Education Record
- Rights of Students

Family Educational Rights and Privacy Act (PL-380)

General Statement

The University of Wyoming has the responsibility for effectively supervising any access to and/or release of official data/information related to the education records of its students. Certain items of information about individual students are fundamental to the educational process and must be recorded. This recorded information concerning students must be used only for clearly-defined purposes, must be safeguarded and controlled to avoid violations of personal privacy, and must be appropriately disposed of when the justification for its collection and retention no longer exists.

In this regard, the university is committed to protecting, to the maximum extent possible, the right of privacy of all individuals about whom it holds information, records, and files. Access to, and release of, such records is restricted to the student concerned, to parents of dependent students, to others with the student's written consent, to officials within the university, to a court of competent jurisdiction, and otherwise pursuant to law.

Access

All official information collected and maintained in the university identifiable with an individual student will be made available for inspection and review at the written request of that student subject to certain exceptions.

For purposes of access to records at the University of Wyoming, students enrolled (or formerly enrolled) for academic credit or audit at the university shall have access to official records concerning themselves.

A request for general access to all official records, files, and data maintained by the university must be made in writing to the registrar or to other person(s) as designated by the university officer in charge of the unit maintaining records. A request for access to official data maintained in a particular office may be made to the administrative head of the office.

When students (or former students) appear at a given office and request access to the university record about themselves:

1. The student must provide proper identification verifying that he or she is the person whose record is being accessed.

2. The designated staff person(s) must supervise the review of the contents of the record with the student.
3. Inspection and review shall be permitted within a period not to exceed 45 days from the date of the student's request.
4. Students will be free to make notes concerning the contents, but no material will be removed from the record at the time.

Recordkeeping personnel and members of the faculty and staff with administrative assignment may have access to records and files for internal educational purposes as well as for routine necessary clerical, administrative, and statistical purposes as required by the duties of their jobs. The name and position of the official responsible for the maintenance of each type of education record may be obtained from the registrar of the university.

Any other access allowed by law must be recorded showing the legitimate educational or other purpose and the signature of the person gaining access. The student concerned shall be entitled to review this information.

Release of Information

No personally identifiable information shall be disclosed to any individual (including parents, spouse, or other students) or organization except as follows:

1. Disclosure is authorized in writing by the student.
2. Disclosure is to university officers or employees who need to know so as to accomplish legitimate university purposes related to their functions.
3. Disclosure is to a governmental agency, educational organization, parent of a dependent student, or other entity as described by federal regulations or otherwise required by state or federal law. Custodians of records should obtain interpretations whenever third parties request personally identifiable information.
4. To authorized educational authorities at the local, state, and federal level.
5. When disclosure of any personally identifiable data/information from university records about a student is demanded pursuant to court order or lawfully issued subpoena, the staff member receiving such order shall, if possible, immediately notify the student concerned in writing prior to compliance with such order or subpoena. (NOTE: In fulfillment of its responsibilities to monitor certain state benefit and entitlement programs, the Wyoming state auditor may issue to the university from time to time an administrative subpoena for a listing of currently enrolled full-time students, the students' social security numbers, and information relating to the nature and amount of any educational financial aid being received by such students. Upon being served with such a subpoena, the university will provide the information requested without further notice.)
6. Data/information from university records about students will be released for approved research purposes only if the identity of the student involved is fully protected, or if the research is related to official university business and not publicly disseminated.
7. Information from university records may be released to appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons.

The university officer responsible for the records from which information is released shall maintain with the student's record a listing of disclosures of personally identifiable information, except disclosures in accordance with items 1 and 2 above for which no record need be kept. The listing shall identify the parties who requested or obtained information and the legitimate interests these parties had in making the request.

Public or Directory Information

The following items are considered public data/information and may be disclosed by the university in response to inquiries concerning individual students, whether the inquiries are in person, in writing, or over the telephone:

1. Name;
2. Affirmation of whether currently enrolled;

3. Campus location.

Unless students have officially filed a written request with the university registrar within ten working days after the first day of classes for a semester that disclosure not be made without their written permission, the following items, in addition to those above, are considered public/ directory information; may be included in appropriate university/campus directories and publications; and may be disclosed by designated staff members in response to inquiries concerning individual students, whether the inquiries are in person, in writing, or over the telephone:

1. School, college, department, major, or division;
2. Dates of enrollment;
3. Degrees received;
4. Honors received;
5. Local address and phone number;
6. Home address (permanent);
7. Email address;
8. Participation in officially recognized activities and sports;
9. Weight and height of members of athletic teams;
10. Full-time or part-time enrollment.

Letters of Appraisal/Recommendation

Candid appraisals and evaluations of performance and potential are an essential part of the educational process. Clearly, the providing of such information to prospective employers, to other educational institutions, or to other legitimately concerned outside individuals and agencies is necessary and in the interest of the particular student.

Data/information which was part of university records prior to January 1, 1975 and which was collected and maintained as confidential information will not be disclosed to students. Should a student desire access to a confidential letter of appraisal received prior to January 1, 1975, the student shall be advised to have the writer of that appraisal notify, in writing, the concerned records custodian of the decision as to whether or not the writer is willing to have the appraisal made available for the student's review. Unless a written response is received approving a change of status in the letter, the treatment of the letter as a confidential document shall continue.

Documents of appraisal relating to students and collected by the university or any department or office of the university on or after January 1, 1975, will be maintained confidentially only if a waiver of the right of access has been executed by the student. In the absence of such a waiver, all such documents will be available for the student's inspection and review.

If a student files a written waiver with the department or office concerned, letters of appraisal received pursuant to that waiver will be maintained confidentially. Forms will be available for this purpose.

Challenges to the Record

All students shall have the opportunity to challenge any item in their file which they consider to be inaccurate, misleading, or otherwise inappropriate. A student shall initiate a challenge by submitting a request in writing for the deletion or correction of the particular item. The request shall be made to the custodian of the particular record in question.

If the custodian and the student involved are unable to resolve the matter to the satisfaction of both parties, the written request for deletion or correction shall be submitted by the student to such person as designated by the president of the university who shall serve as the hearing officer. The student shall be given the opportunity for a hearing at which the student may present oral or written justification for the request for deletion or correction. The hearing officer may obtain such other information as he or she deems appropriate for use in the hearing and shall give the student a written decision on the matter within 30 days from the conclusion of the hearing. If the decision of the hearing officer is to

deny the deletion or correction of an item in the student's file, the student shall be entitled to submit a written statement presenting the student's position with regard to the item to the hearing officer. Both the written decision of the hearing officer and the statement submitted by the student shall be inserted in the student's file. The decision of the hearing officer shall be final.

Grades may be challenged under this procedure only on the basis of the accuracy of their transcription or posting.

Exception to the Policy

It is the position of the university that certain data/information maintained in various offices of the university is not subject to the provisions of this policy with regard to inspection, review, challenge, correction, or deletion. Exceptions to "education records" include: alumni records, employment records, law enforcement records, medical records, sole possession records, and university disciplinary records.

1. Statements submitted by parent(s)/guardian or spouse in support of financial aid or residency determinations are considered to be confidential between those persons and the university and are not subject to the provisions of this policy except with the written consent of the persons involved. Such documents are not regarded as part of the student's official record.
2. University employment records of students are not included in this policy, except as provided under the Wyoming Public Records Act.
3. With regard to general health data, only that data/information which is used by the university in making a decision regarding the student's status is subject to review by the student under this policy. Written psychiatric or psychological case notes which form the basis for diagnoses, recommendations, or treatment plans remain privileged information not accessible to the student. Such case notes are not considered to be part of official university records. To ensure the availability of correct and helpful interpretations of any psychological test scores, notes, or other evaluative or medical materials, the contents of these files for an individual student may be reviewed by that student only in consultation with a professional staff member of the specific department involved. Records that are subject to FERPA are not subject to the HIPAA Privacy Rule.
4. Records relating to a continuing or active criminal investigation by the University of Wyoming Police Department, or records of said office not relating to the student's status with the university, are not subject to this policy.
5. No student is entitled to see information or records that pertain to another student, to parents, or to other third parties. A student is entitled to review only that portion of an official record or file that pertains to him or her.
6. The personal files, or sole possession records, of members of the faculty and staff which concern students, including private correspondence, and notes which refer to students, are not regarded as official records of the university. This includes notes intended for the personal use of the faculty and never intended to be official records of the university. In order to be sole possession records, they cannot be shared with anyone else.

Release of Personally Identifiable Information in a Deceased Student's Education Record

The Family Educational Rights and Privacy Act (FERPA)'s protection of personally identifiable information in a student's education record ends at the time of a student's death. The University of Wyoming's policy on the release of a deceased student's records is as follows:

Within the first year following the death of a student, the University will release the educational records of the decedent to the following individuals:

- If the student submitted a signed Authorization to Release Educational Records form which designated the person(s) eligible to request and/or receive educational records, the information will be released to the individual on that form.
- The decedent's next of kin. The request must be accompanied by official documentation.
- The individual designated as the personal representative of the decedent's estate. The request must be accompanied by official documentation.
- Members of the family or other persons with the written approval from the decedent's next of kin or the personal representative of the decedent's estate. Absent written approval from the family or representative of the estate, only directory information will be disclosed.
- In response to a subpoena or court order.
- To any other individual, if determined by the University to be in the best interest of the decedent or the University.

After one year has elapsed following the death of an individual student, the University may release the educational records of the decedent at the University's discretion.

Rights of Students

Students are hereby notified that controlling provisions of federal law are contained in Sec. 438, Pub. L.90-247, Title IV, as amended, 88 Stat. 571-574 (U.S.C. 1232g) and regulations set forth in the code of Federal Regulations, 34 C.F.R. sections 99.1 to 99.67 (1981). Complaints of institutional noncompliance may be made to the Department of Education as provided in the regulations.

Grading System

- Grade Points
- Semester (or Term) Grade Point Average
- Cumulative Grade Point Average
- Repeating a Course
- Incompletes (I)
- General Information on S/U Grading
- End of Semester Grade Reports
- Grade Appeal
- Academic Transcripts
- Honor Roll
- Academic Probation and Suspension

Students are evaluated according to the following grading system:

Grade	Pts.	Definition
A	4.000	Exceptional
B	3.000	Very good
C	2.000	Fair
D	1.000	Poor

F	0.000	Failure (may be assigned as a grade for failure to attend or to indicate failure to formally withdraw)
I		Incomplete (temporary mark pending coursework completion as agreed in a signed document). See section on incompletes below for details.
W		Withdrawal (from the individual course or all courses), only if the student follows the official withdrawal procedure. If a student enrolls in a course and then abandons it (stops attending) without following the official withdrawal procedure, a grade of F will be assigned.
S		Satisfactory (equivalent to a C or better [B or better in courses numbered 5000 or above]; see general information on S/U grading below)
U		Unsatisfactory (see general information on S/U grading below)
UK		Unable to compute grades (for midterm grades only)

Grade Points

Each letter-graded course carries a grade point value computed as: the total credit hours earned in the course multiplied by the point value of the letter grade earned. For example: a student earning an A (point value of 4) in a 3 credit-hour course would earn 12 grade points for the course.

Semester (or Term) Grade Point Average

The semester grade point average (GPA) is the sum of all grade points earned in a semester or term divided by all credit hours attempted for letter grade. Credit hours in courses in which marks of I, W, S, or U were assigned, as well as developmental courses, are excluded.

Cumulative Grade Point Average

The average of all grade points earned by a student below is termed the cumulative grade point average. It is used for determining activity eligibility, honors, probation, suspension, graduation, and for all comparisons or purposes requiring measurement of academic standing.

The cumulative grade point average is defined as the sum of all grade points earned in University of Wyoming residence, correspondence, or Distance Education, divided by all credit hours attempted for letter grade, with the following exceptions:

1. The credit hours shall not be counted in courses in which marks of W, S, or U were assigned, or in which marks of I (for incomplete) are still in effect.
2. For repeated courses:
 - a. First repeat: only the second credit and grade is used to determine earned hours and to calculate the cumulative grade point average.

- b. If repeated more than once, only the last credit and grade earned is used to determine earned hours and to calculate the cumulative grade point average.
 - c. A student is limited to a maximum of three (3) attempts, including withdrawals, in any course at the University of Wyoming.
 - d. If a mark of W, S, or U is assigned in a repeated course, the previous grade assigned will stand except when an S or U is earned repeating a previous S or U.
 - e. Courses applied towards one completed degree may be repeated as part of a second degree; however, the grade and grade point average in the original degree will not be changed.
3. Transfer grades are not counted in the UW grade point average. If a course taken at UW is repeated at another institution, the credits and grade earned at UW will be deleted from computation of the UW cumulative grade point average if credit for the repeated course is transferred to UW.
4. For graduate students, courses numbered below 4000 are not added in to the semester and cumulative totals, nor computed into the GPA.

Repeating a Course

Students may repeat course work; however, credit earned in any given course (or equivalent course) is applicable toward a degree requirement only once. All grade entries remain on the student's record, but only the last grade earned will be calculated in the UW cumulative grade point average. Refer to the Cumulative Grade Point Average section of this catalog for further information. Variable-credit courses are not considered as repeats unless the department head provides written certification that the course content was, in fact, repeated. Courses repeated will remain as entries on the academic transcript. Courses applied towards one completed degree may be repeated as part of a second degree; however, the grade and grade point average in the original degree will not be changed. A student is limited to a maximum of three (3) attempts in any course at the University of Wyoming. An "attempt" includes any instance in which the student earns a grade for the course or withdraws from the course. The three-attempt limit does not apply to courses identified in the University Catalog as being appropriate for students to take multiple times. A student can petition for exceptions to this limitation through established university procedures (UW Regulation 2-204). See the University Regulations online for the most up-to-date version.

Incompletes (I)

A grade of "I" (incomplete) is a temporary grade assigned to students who, due to unforeseen circumstances, were unable to complete all work required for a course. Information regarding authorization and processing of incomplete grades may be obtained from the Office of the Registrar. An incomplete should not be assigned in lieu of a failing grade (e.g. if student never attended). Incomplete grades are not a student privilege. They can be issued only at the discretion of the assigned instructor. (UW Regulation 6-720) See the University Regulations online for the most up-to-date version.

Time allowed for completing course requirements will normally not exceed 120 calendar days beyond the end of the semester in which the I was given. The dean of a college may designate certain research courses where the 120-day limit may be extended by the instructor; however, the completion date even in these courses should not be later than the time of graduation for the student unless the student is reserving the particular course for graduate credit.

If the final grade for the course is not received in the Office of the Registrar by the date indicated on the authorization, the I will revert to an F. Should graduation occur in the interim, the I will stand permanently. The student's GPA at graduation with all associated honors will stand as computed. (UW Regulation 6-720) See the University Regulations online for the most up-to-date version.

General Information on S/U Grading

The grade of S (satisfactory) is interpreted to include grades A through C and the grade of U (unsatisfactory) to include grades C-through F on the conventional grade scale for courses numbered less than 5000 (for courses 5000 or above, the grade of S is interpreted to include grades A and B). Credit hours of S/U courses are counted as hours attempted toward graduation. However, neither the S nor U grade carries grade points and neither will be included in the calculation of the cumulative grade point average.

Students may not take a course for S/U credit to satisfy University Studies Program requirements, unless the course is offered for S/U only; (e.g., POLS 1000, or the equivalent history or economics courses, may not be taken for S/U).

If a mark of S or U is assigned in a repeated course, the previous grade assigned will stand except when an S or U is earned repeating a previous S or U.

Students must signify at the time of registration or schedule modification whether they are taking any course for S/U grades.

The faculties of the various colleges and interdisciplinary programs shall determine the number of credit hours of S that may be used to satisfy degree requirements in their programs. They may also place restrictions upon the use of S credits to satisfy college or major requirements. In addition, they may designate particular courses in their colleges as courses to be offered for S/U only.

A student who changes majors within a college or who transfers to a different college may petition for the acceptance of S credits previously earned if such credits are in conflict with faculty-established regulations for the new major or college.

Mid-Term Grades

Mid-term grades for all courses numbered below 5000 are to be submitted by instructors through WyoRecords the week following midsemester. Grades which can be assigned by faculty are:

Grade	Definition
D	Poor
F	Failure (may also be assigned as a grade for failure to attend or to indicate failure to formally withdraw)
S	Satisfactory (equivalent to a C or better) in cases where the class is offered for S/U or the student has elected the S/U option
U	Unsatisfactory (equivalent to a D or F) in cases where the class is offered for S/U or the student had elected the S/U option
UK	Unknown; unable to compute grade

The UK grade may be assigned if, due to lack of performance assessments such as exams, papers, homework, etc., a faculty member is unable to make a determination of a midterm grade.

Please note that the midsemester grade received in any particular class reflects the assessment of student performance during the first portion of the semester only.

Mid-term grades are available through WyoRecords.

End of Semester Grade Reports

Final grades are available through WyoRecords as soon as possible (usually five working days) after the close of the semester or term.

At the end of the semester, final grades are available to students through WyoRecords within one day after being submitted by faculty. Final grades are due from faculty by noon (12:00 p.m.) of the fourth business day after the end of finals week (or after the last day of the summer semester).

Definitions

1. Cumulative semester hours attempted shall be the total of all credit hours attempted through the University of Wyoming, except for credit hours attempted in repeating a course, those in which marks of W were assigned, and those accepted in transfer from other institutions.
2. The cumulative grade point average is defined as the sum of all grade points earned through the University of Wyoming divided by the sum of all credit hours attempted through the university, except for credit hours in which marks of W, S, U, or I are assigned or those of an initial course which has been repeated. When a course has been repeated, only the last grade points and credit hours assigned for repeats of the course shall be entered in the computation of the cumulative grade point average.

Grade Appeal

A recorded grade may be changed through established appeal processes within individual colleges. Contact your department for further information about appealing a grade.

Academic Transcripts

Official transcripts of individual academic records at UW are sent from the Office of the Registrar upon written authorization signed by the individual. Individuals may also authorize the release of their academic transcripts through WyoRecords. All financial obligations to the university must be cleared before a transcript may be released or viewed on WyoRecords.

Transcripts are produced on a first-come, first-served basis and one to two business days must be allowed. Usually, 10-15 days are needed at the close of a semester to record semester grades. Same-day transcript service is available for a \$10 fee (limit of 2 transcripts).

Partial transcripts are not issued. Each transcript includes the complete academic record at the University of Wyoming and the number of credits from other institutions accepted by UW.

Official transcripts of credit earned at other institutions which have been presented for admission or evaluation of credit become the property of the University of Wyoming and are not reissued or copied for distribution. This includes high school records and any other type of supporting documents. Transcripts of work completed at other institutions should be obtained directly from the issuing institution.

Applicability of transfer credit toward any degree is dependent on the curriculum pursued by the student.

In preparing transcripts for graduate students or second bachelor's degree candidates whose undergraduate work was taken elsewhere, the University of Wyoming includes on its transcripts no detailed reference to that undergraduate work, mention being limited to designation of the degree and date received and the name of the institution granting the degree.

Honor Roll

Undergraduate and law students who achieve high scholastic grades are honored by being placed on the President's Honor Roll, the academic Dean's Honor Roll, or the Provost's Honor Roll.

The requirements to be met to attain these honors are:

For President's or Dean's Honor Roll:

1. Undergraduate students must complete a minimum of 12 UW semester hours on a basis of A-F. Exception: if a student is student teaching, the student must be enrolled in a minimum of 12 UW semester hours, at least 7 of which must be graded on the basis of A-F with no semester grade of I. Courses taken for audit do not count for honor roll purposes.
2. A GPA of 4.000 for the President's Honor Roll.
3. A GPA of 3.250 or better for the academic Dean's Freshman Honor Roll.
4. A GPA of 3.400 or better for the academic Dean's Honor Roll for undergraduates above freshman standing.
5. In the College of Law, students are eligible for the academic Dean's Honor Roll when enrolled in a minimum of 13 UW semester hours of law courses. In the College of Law, a grade point average of 3.250 or better is required for first year students and a GPA of 3.400 or better is required for second and third-year students for the academic Dean's Honor Roll.
6. Students having consortium agreements with other institutions are not considered to be full-time for honor roll purposes.

For the Provost's List:

1. Undergraduate students must complete a minimum of 6 UW semester hours, but fewer than 12 UW semester hours, of which at least 6 UW semester hours must be graded on the basis of A-F with no semester grade of I. Courses taken for audit do not count for honor roll purposes.
2. A GPA of 3.500 or better.

Graduate Students

Graduate Students are not eligible for the President's Honor Roll, the academic Dean's Honor Roll, or the Provost's List.

Academic Probation and Suspension

Undergraduate Students

Academic Status

- In order to graduate, every student is expected to maintain satisfactory academic progress, which is based on scholastic performance. Current academic status will be indicated on internal documents and grade reports as:
- good standing
- academic probation
- academic suspension: normally not eligible to petition for reinstatement until one full semester, exclusive of summer term, has elapsed. The dean of the college in which a suspended person wishes to continue may waive the four-month delay if the dean is assured that the person has made suitable progress toward resolving the academic deficiencies.

Undergraduate Academic Probation

1. Academic probation shall constitute notice that a student is not progressing satisfactorily toward the bachelor's degree or Pharm.D.
2. A student enrolled at the University shall be placed on academic probation at the end of the semester or summer term when his/ her cumulative GPA at UW falls below a 2.000.
3. A student placed on academic probation will be so notified by email. This information is also available on WyoRecords.
4. A student shall be removed from academic probation at the end of the semester or summer term in which his/her cumulative GPA is 2.000 or above.
5. Students who fail to remove themselves from probation or earn a semester grade point average below 2.000 in the next semester or summer term attempted at the University of Wyoming will be placed on academic suspension for not maintaining the criteria for satisfactory academic progress. For probation purposes, completing a semester or summer term shall mean that the student has earned a grade in at least one course.

Undergraduate Academic Suspension

1. Academic suspension is the dismissal of a student from the University due to the student not making satisfactory academic progress toward the bachelor's degree.
2. A student who is suspended for unsatisfactory academic performance should not be permitted to petition for reinstatement until one full semester, exclusive of summer term, has elapsed. Students may petition once per semester for reinstatement, and, if denied by any college or the Center for Advising and Career Services, cannot petition for reinstatement until the next fall or spring semester, unless there are documented extenuating circumstances justifying immediate reinstatement.
3. A suspended student may not enroll for any University of Wyoming credit classes (including on-campus, online, and distance).
4. Credit earned at another accredited college or university while a student is suspended from the University may be accepted under the usual regulations governing the transfer of credit after the student has been reinstated.
5. A student placed on academic suspension will be so notified by letter.

Undergraduate Academic Reinstatement

1. A college may have an academic reinstatement policy that is more restrictive than the general university policy.
2. Academic reinstatement is the readmission of a suspended student to the University. The student is eligible to be considered for readmission. The reinstated student will be on academic probation during his/her first semester or summer term of reinstatement after which he/she may be removed from this probation.
3. A petition for reinstatement must be submitted no later than 15 days before the beginning of the semester or summer term in which the student wishes to register. A petition received after this deadline may not be processed until after the regular registration period.
4. The decision on a petition for reinstatement will be made by the dean (or designee) of the college in which the student wishes to enroll. Undeclared students should contact the Director of the Center for Advising and Career Services. A student who has been reinstated must remain in the college in which he/she has been reinstated for that semester.
5. Students placed on academic suspension are eligible for a maximum of three reinstatements. Any student placed on academic suspension for the fourth time is not eligible for reinstatement for a minimum of five years from the end of the last term of attendance.
6. Students who are suspended as a result of spring semester grades will have the suspension invoked at the beginning of the summer term.

Exceptions

Upon the request of a person placed on academic suspension or denied reinstatement, the vice president for academic affairs may review the circumstances and reverse the decision of the dean if the vice president for academic affairs deems it necessary to prevent a gross injustice.

Academic Renewal

An undergraduate student who returns to the University and who has not completed or withdrawn from a college course at UW during the previous five years will have the option of continuing his or her earlier UW cumulative GPA or commencing a new cumulative GPA under the Academic Renewal policy. The student must submit the Academic Renewal Application Form (which may be obtained from the Office of the Registrar) to the registrar no later than ten class days before the last day of classes of the semester in which the student returns to UW.

The entire UW transcript will remain intact. A note indicating the policy will precede the new part of the UW transcript if the student opts for academic renewal. At the discretion of the academic department in which the student is enrolled, credit hours for which the student earned the grade of C or better may be applied toward the completion of the degree requirements. The list of any departmentally-approved courses must be indicated on the Academic Renewal Application Form when initially submitted to the registrar. No further changes may be requested.

A student's GPA and completed courses that were applied to a baccalaureate degree are not eligible for academic renewal.

Graduate students are not eligible for academic renewal.

Graduate Students

A graduate student enrolled at the university will be placed on academic probation at the end of a semester or summer session when his or her graduate cumulative UW grade point average in 4000-level or higher courses is below 3.000. Students who fail to bring their graduate GPA to 3.000 and remove themselves from probation after one semester or summer session will be suspended from the university. A suspended student may petition his/her academic program for reinstatement to the same degree program. A reinstated student will be on probation and may be subject to other performance criteria as specified by the dean of the affected department.

The above GPA requirement is considered to be a minimum requirement. Individual departments or programs may require higher standards than these minimum performance standards and establish department- or program-specific criteria for satisfactory academic progress. A graduate student may be dismissed from a degree program for lack of satisfactory academic progress, as determined by the department or program offering the degree.

The above regulations governing academic probation, suspension, and reinstatement do not apply to students enrolled in the College of Law.

Graduate Student Regulations and Policies

- Admission Regulations
- Coursework Applied to Graduate Degree
- Guidelines for Satisfactory Academic Progress
- Steps Required for Degree Completion
- Examinations
- Final Steps in Completion of Degree Requirements
- Overview of Graduate Degrees Awarded
- Miscellaneous Regulations

- Armed Services
- International Students

All regulations are subject to change without notice by action of various administrative officers, the University of Wyoming Board of Trustees, and the appropriate departments and divisions. Published regulations are the minimum requirements for any advanced degree.

School of Graduate Education

James Ahern, Vice Provost and Dean

Kam Ng, Chair, Graduate Council

Saman Aryana, Chair-Elect, Graduate Council

Michele Peck, Executive Business Manager

Phone: (307) 766-6478

Website: <https://www.uwyo.edu/uwgrad/>

Location: Knight Hall room 250

Founded in 2022, the School of Graduate Education elevates the visibility of the University of Wyoming's advanced degree education mission and supports its broad portfolio of graduate programs and the university's research mission. The School of Graduate Education continues the essential functions performed by the previous Office of Graduate Education (2018-2022), including strategic leadership for and oversight of all UW graduate programs, allocation of graduate teaching assistantship funding, implementation and enforcement of graduate education policies and procedures, graduate student marketing and recruitment, and advocacy and support for graduate students. The school builds upon these by raising the visibility and presence of graduate education to both internal and external stakeholders and serves as the conduit through which significant improvements to UW's graduate education functioning will be made, including the re-establishment of the Graduate Faculty, the creation of a Graduate Student Council, and a clarification and elevation of the role of UW's Graduate Council. Given the broad impact of the School of Graduate Education, the school's Dean also serves as a Vice Provost in the Division of Academic Affairs.

Admission Regulations

Please see Graduate Admissions section Admission to the University

Coursework Applied to Graduate Degree

Rule of 12

The Rule of 12 regulates the number of credits a student may use as non-degree and transfer credits. With committee and college approval, a student may submit up to a total of 12 pre-admission hours that may be an accumulation of non-degree, reserved, and/or transfer hours. The maximum number of hours allowed from each category is as follows: 12 non-degree graduate, 6 reserved and 9 transfer hours. A student may elect to use a combination of the three different

areas to total the 12 credits allowed (e.g. 6 non-degree hours, 3 reserved hours, and 3 transfer hours). Please review the individual sections of the catalog that cover the specific policies for non-degree hours, reserving coursework for graduate credit, and transfer credit.

Transfer Credit Available to Graduate Students

To transfer graduate hours earned at another institution to a graduate program at UW, the student must provide an official transcript from the institution where the credits were earned. This official transcript must be part of the student's permanent file. The student must also provide evidence that the course was approved for graduate credit at the institution where the course was taken.

No more than 9 semester hours that have been transferred from another accredited institution may be used for meeting the credit hour requirements of a master's student's program. Transferred hours must carry a B (3.000) or better (A=4.000) grade and will not reduce the residence requirements. Transfer hours taken for satisfactory/unsatisfactory (or pass/ fail) grades are not acceptable on a program of study.

Coursework hours approved for transfer from another college or university are considered as part of the 12-credit-hour pre-admission course limitation for master's students.

Hours transferred from other institutions for a doctoral program must carry a letter grade of B (3.000) or better (A=4.000). Ed.D. and Ph.D. candidates may transfer up to 48 credit hours of such coursework, only four of which can be thesis or dissertation research. Transfer hours for doctoral students are not considered as part of the 12-hour pre-admission course limitation.

Non-Degree Hours

A student may request that up to 12 hours of graduate-level coursework, taken during the student's graduate, non-degree status, be used toward a program of study should the student choose to pursue a graduate degree at the University of Wyoming. This would be subject to the approval of the student's graduate committee and the college dean. These hours can be affected by other pre-admission (reserved and transfer) hours.

Once a student obtains 12 non-degree hours, they must gain admission to a graduate degree program to ensure that subsequent coursework beyond the 12 non-degree hours can apply to a graduate degree.

No student can remain in graduate status beyond 18 hours of graduate course work without admission to a degree program. Students who wish to take more than 18 hours of coursework but do not wish to pursue a graduate degree should consider declaring a second baccalaureate degree. If a non-degree graduate student anticipates attaining a graduate degree at any time in the future, they should declare and be accepted into a graduate program. Not more than 12 non-degree hours will be accepted toward a graduate degree. It is not in the interest of the student to take more than 12 hours as a non-degree student. Declaring a graduate program provides the student with the advising and support needed to make reasonable progress toward a degree.

Reserving Coursework for Graduate Credit

Approved graduate level courses taken prior to completing the baccalaureate degree, but not part of that degree's requirements, may be applied to the master's or doctoral program with the approval of the student's committee. Approval for reserving the coursework is rendered jointly by the adviser and college dean, and applies only to courses previously reserved for graduate credit.

If a course is dual listed at the 4000/5000 level, the course must be taken at the 5000 level to receive graduate credit. Each 4000-level or 5000-level course must be reserved for graduate credit by completing the Request to Reserve

Coursework for Graduate Credit form. The form must be completed and submitted to the Office of the Registrar by midterm of the semester in which the coursework is taken.

These courses will appear on the undergraduate transcript with a notation that they have been reserved for graduate credit.

Students will only be allowed to transfer six hours of coursework that has been reserved for graduate credit into their degree program.

Correspondence Courses and Credit by Examination

Correspondence courses and credit by examination courses are not acceptable on graduate programs of study.

Second Baccalaureate Degrees

A student working toward a second baccalaureate degree is subject to all regulations concerning undergraduates and is not considered a graduate student. Students requesting to reserve coursework for graduate credit must be able to complete their undergraduate degree within 12 months of the request. Only six hours of undergraduate coursework reserved for graduate credit will be allowed for consideration in a graduate degree program.

Second Graduate Degrees

All requirements for a second degree are considered separate from the first degree. Hours from the first master's degree may not be used for completing the hours toward the second master's. Hours from the first doctoral degree may not be used for completing the hours toward the second doctorate. Hours from an earned doctorate may not be used in a subsequent master's degree. (Some credits may be shared between approved joint degree programs.)

Grade Point Average

A UW cumulative grade point average of at least 3.000 is required for graduation and good standing. Hours for which a C was earned may be balanced by a corresponding number of hours for which an A was earned. Departments and divisions have the option of indicating subject areas in which they will not accept grades of C for credit regardless of accumulated grade point average. No credit will be allowed toward an advanced degree for coursework in which a grade lower than C is earned.

A graduate student enrolled at the university shall be placed on academic probation at the end of a semester or summer session when his or her graduate cumulative UW grade point average in 4000-level or higher courses is below 3.000 **or** if they have earned Unsatisfactory (U) grades or a grade in six or more graduate credit hours. Students will be suspended if they earn less than a cumulative 2.00 average at any time, or if they are on probation and earn less than a 3.00 in the next enrollment period and are full-time students, or if they earn less than a 3.00 in the next 12 attempted credits and are part-time, or if they have earned Unsatisfactory (U) grades or grade in six or more credit hours while on probation. No student in their semester of probation will be employed as a graduate assistant on the UW campus.

The 3.000 cumulative GPA requirement is considered to be a minimum requirement. Individual departments or programs may establish criteria higher than these minimum performance standards and establish department- or program-specific criteria for satisfactory academic progress. A graduate student may be dismissed from a degree program for lack of satisfactory academic progress, as determined by the department or program offering the degree. Students dismissed for lack of progress can appeal, but will necessarily direct their appeal to the department within which the degree resides. Dismissals of graduate students from degree programs are at the discretion of the department.

Please see the Guidelines for Satisfactory Academic Progress section, below.

All courses taken at the graduate level included in the GPA as listed on the academic record if the courses are numbered 4000 or above, and are used in determining probation/suspension.

Satisfactory/Unsatisfactory Grades

All courses taken to fulfill the requirements for the degree program must be taken for letter grade (A through F) except those courses given for S/U only.

The grade of S (satisfactory) is interpreted to include grades A through C and the grade of U (unsatisfactory) to include grades C- through F on the conventional grade scale for courses numbered less than 5000 (for courses 5000 or above, the grade of S is interpreted to include grades A and B). Credit hours of S/U courses are counted as hours attempted toward graduation. However, neither the S nor U grade carries grade points nor will be included in the calculation of the cumulative grade point average.

The faculties of the various colleges shall determine the number of credit hours of S that may be used to satisfy degree requirements in their programs. They may also place restrictions upon the use of S credits to satisfy college or major requirements. In addition, they may designate particular courses in their colleges as courses to be offered for S/U only.

The grade of S in thesis and dissertation research is a judgment that the student is adequately engaged in the required research objective. It in no way implies that the final thesis or the thesis defense will be judged of sufficient quality for the award of the appropriate degree.

Incomplete Grades

The incomplete grade (I) is a temporary grade used under circumstances where awarding a grade would be unjust or not reflective of the student's actual performance in a course. The assignment of an I is intended for use in unexpected circumstances; the Incomplete cannot be assigned simply to allow additional time to complete a course in the absence of unusual or unanticipated events. Graduate students who are unable to complete a course in normal class time period, and are not dealing with unusual or unexpected circumstances, should not receive an Incomplete grade. In the event of unusual circumstances, when an Incomplete grade is a reasonable alternative, the time allowed for completing course requirements will normally not exceed 120 calendar days beyond the end of the semester in which the I was given. The dean of a college may designate certain research courses where the 120-day limit may be extended by the instructor.

The I will revert to an F if the final grade for the course is not received in the Office of the Registrar by the date indicated on the authorization. Students receiving an incomplete in any course(s) listed in their program of study must have the incomplete removed by the end of the semester in which they turn in their intent to graduate. If the incomplete is not removed, the student will not graduate that semester.

Academic Dishonesty

Academic dishonesty and scholarly misconduct will not be tolerated. Academic dishonesty is an act attempted or performed that misrepresents one's involvement in an academic task in any way, or permits another student to misrepresent the latter's involvement in an academic task by assisting in the misrepresentation (www.uwyo.edu/regs-policies/index.html).

If academic dishonesty has been established, the offending student shall receive a failing grade for the course in question. If two such acts have been recorded at different times or in different courses, the student shall be suspended from the university in accordance with UW Regulations. These actions shall not preclude the imposition of other

sanctions by university officers including the loss of benefits from programs, scholarships, and other opportunities normally afforded students.

Degree Revocation

The University of Wyoming is a state higher education institution whose Trustees are legislatively empowered to confer degrees on students who have earned them, upon the recommendation of the faculty. The Board of Trustees recognizes that there may be instances where a degree is awarded to an individual who, upon review, has not properly completed all requirements for the degree. In such instances, the Board of Trustees may revoke the degree. UW Regulation 2-120 establishes the process for such revocation.

Grounds for revoking a degree include convincing evidence that the degree recipient failed to complete the requirements for the degree that were in effect at the time of the degree conferral. Included in this category is evidence that the candidate engaged in academic misconduct serious enough to negate bona fide completion of one or more substantive degree requirements. Additional information can be found at (www.uwo.edu/regs-policies/index.html).

Course Numbering for Graduate Credit

Courses offered for graduate credit are distinguished by number as follows:

4000-4999 are primarily for junior and senior students, but also may be used as part of some graduate programs of study. Not more than 12 hours of 4000-level coursework will be permitted on the graduate program of study.

5000-5999 are primarily for graduate students

Courses numbered 5000 or above may be taken by undergraduate students having the necessary prerequisites. If a course is filled, graduate students will have preference and undergraduates may be asked to relinquish their place in the course. Graduate students may enroll in courses numbered 1000-3999 to remove undergraduate deficiencies, but only those numbered 4000 and above will be computed into the graduate GPA and are allowed for graduate credit.

Dual Listed Courses

If a course is dual listed at the 4000/5000 level, the course must be taken at the 5000 level to receive graduate credit regardless of whether the course is in the student's primary program area.

The syllabus for a dual listed course must specifically differentiate expectations, outcomes and assessment between the 4000 and 5000-level components, clearly describing the additional effort needed for graduate level credit. Students enrolled in the 5000-level course will be expected to demonstrate greater sophistication in content expertise, inquiry, creativity, communication, problem solving, analytic reasoning and/or collaborative learning compared with those enrolled in the 4000 course. Examples include (but are not limited to) intellectual skills, discipline-specific competencies and challenging learning outcomes. Students enrolled in the 5000-level course may be required to lead discussion sessions, submit a portfolio, write a paper or may be involved in a service learning component, internship or collaborative assignment designed to provide experience in applying course information in different contexts.

Courses Not Applicable Toward Advanced Degrees

Only courses at the 4000 or 5000 level may be counted for graduate credit. However, some 4000- and 5000-level courses may not be applicable toward undergraduate or graduate degrees. These courses are listed below:

**** 5959. Enrichment Studies in _____. (Any course numbered 5959 is not applicable toward UW degrees.)
EDUC 4740. Field Studies in _____. (Any course in the College of Education numbered 4740 is not applicable toward UW degrees.)
KIN/HLED 4074. Field Studies in _____.
**** 5920 Continuous Registration: On Campus
**** 5940 Continuous Registration: Off Campus

Distance Education Courses

Distance Education to carry graduate credit, must satisfy achievement criteria acceptable to Academic Affairs and must be taken under the auspices of UW. Distance Education delivery of existing graduate on-campus graduate courses (hybrid courses) are acceptable examples.

In-Residence Coursework (Residency)

In-residence coursework includes courses and/or research work on the UW Laramie or Casper campuses (including distance/online), at an approved UW off-campus course site, and/or research work done for credit in the field under the direction of a UW faculty member.

The minimum number of semester credit hours that must be earned on a UW campus or at an approved UW setting for a particular degree program shall be determined by the individual colleges. In no case shall these minimum numbers of credit hours be less than 21 hours beyond the bachelor's degree for the master's degree, 21 hours beyond the master's degree for the doctoral degree, or 24 hours beyond the bachelor's degree for the doctoral degree.

In computing the in-residence requirements for the Plan A thesis and doctoral degrees, credit earned working on the thesis or dissertation shall apply.

Repetition of Courses

No more than two courses (total of six credit hours) available for graduate credit may be repeated by students at the graduate level. This regulation does not apply to those courses carrying variable credit (e.g., research or independent study). Variable credit courses are considered repeated only when so certified in writing by the instructor and the registrar.

Continuous Enrollment

Once admitted, all degree seeking graduate students must maintain continuous enrollment. Unless a formal leave of absence is approved, all students must maintain at least one hour of continuous enrollment, including in the semester or session they expect to receive the degree. Students should maintain enrollment for two of the three academic semesters. Readmission will be required if the student has not enrolled in classes within the previous 12 months. Readmitted students should contact their department to learn more about their status. The department will contact the Office of the Registrar to initiate reactivation. Students who have been inactive for a long span of time should also investigate the status of their committees, programs of study, and time to degree status. International students' enrollment status is monitored by the Office of International Students and Scholars and the office should be contacted for more information. Only students not supported on a Graduate Assistantship are eligible to enroll in Continuous Registration.

Time Allowance and Limitations

Master's students have six calendar years to complete their degrees from the beginning of the first course taken and listed on the program of study, including any transfer courses. Doctoral candidates have four calendar years after the successful completion of their preliminary examination to complete their degree and they must complete their degree within eight years of the first course taken and listed on their program of study, including any transfer courses.

Guidelines for Satisfactory Academic Progress

Graduate students should undergo annual reviews within their academic unit to document and verify their progress and faculty expectations for them in attaining their degree. Students that do not meet the following guidelines for Satisfactory Academic Progress may be subject to dismissal by the academic degree-granting unit, contingent upon a joint review by the Department Head and Committee Chair. Dismissal of a student for lack of satisfactory academic progress requires that the student's deficiencies are clearly documented and the potential dismissal documentation must be provided to the student for response. Once presented with the potential dismissal, the student must be allowed one academic semester to rectify inadequate progress. At the conclusion of that semester, the Committee Chair and Department Head must jointly concur that the student progress is either satisfactory for retention or that the student should be dismissed from the degree program. For the purposes of determining satisfactory progress, the student must demonstrate successful performance of their duties and completion rates under a specific timeline (specified in the proposed dismissal document). If the student cannot meet the maximum timeframe and completion rates below, they may receive a maximum of one 1-year extension of time to completion (specified in a document of retention), and only if the student holds academic standing to continue enrollment. Final decisions for dismissal or retention require agreement of both the Committee Chair and Department Head. Retention in the program requires that the Chair and Department Head document for the student all requirements for retention that clearly defines the path to successful degree completion within a specific time period. Retention requires that the student cannot drop or withdraw from any subsequent courses or enroll in coursework that is not identified in their Program of Study.

Maximum Credits

Students must graduate before attempting more than 150% of the hours required for their degree program (e.g. 45 hours for a 30-hour Master's degree program or 108 hours for a 72-hour Doctoral program.) Repeated courses (up to 6 hours) will accrue hours only once for the purposes of this calculation. Courses dropped in the drop/add period will not be included in attempted hours or the maximum credit calculations. Hours accumulated in one graduate program will count toward the maximum timeframe should the student initiate a new graduate degree program without completing their initial graduate degree.

Degree Status

Students must have an academic standing that allows for continued enrollment (i.e. 3.000 GPA in their graduate coursework and any other specific requirements of the degree program).

Research or project outcomes

Students must demonstrate delivery of research or creative products in disciplines for which they are required to attain the graduate degree. Research activity in itself should not be confused with products and outcomes. For example, an approved research proposal, a thesis, a dissertation, peer-reviewed publications, external project reports, performances or professional presentations are outcomes whereas writing, conducting a literature review, attending meetings etc., although important, are research activity but are not outcomes.

Petitions and Appeals

The University of Wyoming, as a fully-accredited public institution of higher education, must comply with general laws, regulations, and principles of fairness, uniformity, and accountability. Exceptions to uniform application of general regulations are justified only in extraordinary circumstances. Exceptions to regulations may be petitioned by submitting the appropriate form to the Vice Provost of Graduation Education. Regardless of the signer's recommendations, the Registrar may deny the exception. If the petition is denied by the Registrar, the student may elect to pursue the petition with the Provost.

The Graduate Student Appeals Board (GSAB) was established to provide an appellate body to review appeals of graduate students concerning retention in graduate programs, employment as graduate assistants, and charges of academic dishonesty or scientific misconduct. The GSAB members are faculty and graduate students from the Graduate Council and represent campus-wide disciplines. The GSAB will not hear appeals of course grades or charges of academic dishonesty associated with a course (these appeals will be handled by the procedures of the college in which the course is offered). Appeals emanating from Plan B, thesis, or dissertation research will be heard by the GSAB. The GSAB will hear appeals of course grades or charges of academic dishonesty associated with a research course (i.e. thesis, non-thesis, or dissertation research). Policies and procedures for graduate student appeals may be found on the U.W. Graduate Education website ([http:// www.uwo.edu/uwgrad/](http://www.uwo.edu/uwgrad/)).

Steps Required for Degree Completion

Once a student enters a graduate program, it is critical to initiate a committee to guide course selection and the graduate program. Clear guidance from the department and the graduate committee, especially the committee chair, facilitate steady progress toward a graduate degree. A student's graduate committee requires approval by the Department Head/Interdisciplinary Program Director, the College Dean (or VP for Graduate Education in the case of interdisciplinary programs), and the Vice Provost for Graduate Education. The committee functions to guide the student in coursework selection, the degree project construction, and in fulfilling the requirements to complete the degree.

It is the responsibility of the graduate student, in consultation with their major advisor (usually the Committee Chair) to form a viable committee within the first two semesters of their graduate program. The graduate committee must be on file with the Registrar before a Program of Study will be approved.

The committee will serve in an advisory capacity for development of the student's coursework and research programs and must approve the official program of study form filed with the Office of the Registrar. The committee will also determine pass or fail on the preliminary examination, approve or disapprove the project, thesis, or dissertation documents, and will conduct the final examination.

Changes in committee membership or faculty assignments can be requested at any time by the student, in consultation with the Committee members and the department/division head. Committee changes require the written acknowledgement of faculty who are either added or removed from the committee, accomplished with the Change of Committee form.

Committee Formation

Every committee must be designed to best support the student project or research, facilitate a timely and effective graduate program, and to document fulfillment of all requirements of the graduate degree sought; committees should be formed by the end of the student's second semester. Committees are formed to guide the student and the research or project to ensure a rigorous and fair process. Students must weigh the expertise of the committee membership against the number of members they select, to insure good mentorship and to facilitate meeting function and effectiveness. More detailed information on committee formation is available on the Office of Graduate Education Policies page (www.uwo.edu/uwgrad/policies/).

The graduate committee consists of at least three members for master's and Ed.D. and five members for doctoral degrees: the chair of the committee (the major professor) from the degree-granting department or division, an outside faculty member of a department or division other than the one awarding the degree, and additional required members. Committees that include a co-chair may indicate the co-chair as the third member.

Membership Roles on Graduate Committees-Required members:

All committees must include a majority of members from UW faculty. All members of a committee hold equivalent voting rights except when a tie vote occurs. In the case of tied votes the Chair, with the concurrence with the outside member will determine the outcome.

Chair- All committees will have at least one member from the degree-awarding department/division as chairperson. The chair should closely direct the student's project or research and guide the student to form their graduate committee. In most cases, annually appointed academic faculty (temporary, visiting research professor and clinical professor) should not generally be chairs of graduate committees. The Chair guides timely progression of the student throughout their program and assessment of that progress.

Outside member- A critical committee member usually is a tenured faculty from outside the major department/division who serves as the Outside member. The outside member is defined as a tenured or tenure-track UW faculty member holding an appointment in a division or college other than the one from which the candidate will receive the degree. It is the role of the Outside member to assist the student, in consultation with the Chair to work to resolve any issues that may arise during the student's graduate program. Their role lies in protection of fairness. The outside member also reviews the student and their graduate program to ensure academic rigor. The Outside member provides assessment of the graduate student's learning and of the program rigor and fairness. Untenured tenure-track faculty members may serve as the Outside member if they have demonstrated experience mentoring graduate students and if the Committee Chair has no role in evaluation of the untenured faculty member.

Additional Required Members- a third faculty committee member (Masters and Ed.D.) and third and fourth required members (Ph.D.) can be selected from the student's home department, program, or division, although discipline requirements differ. If there is a committee co-chair, they may be considered the third member on a master's committee. The fifth member of doctoral committees may be an external member.

Added members- (members in addition to the required members on any committee). Additional members may be placed on a committee either from within or outside the department or program. Members of the UW faculty who are extended term with appropriate academic roles can serve. Additional faculty including annually appointed academic faculty, can be added to any committee for their expertise as desired. Students should be conservative in the total number of members on their committee.

Optional committee members:

Co-Chair- in some cases, two faculty may be closely directing the project and graduate student. In such cases, one may serve as a co-chair. A co-chair can be considered the third member on master's committees.

External member- An individual with an off-campus affiliation may serve as an external member. The external member of the committee is a faculty member at a peer institution or an individual holding professional expertise that will contribute to the committee. Such an appointment assumes that the external member participates fully in the essential components of the degree-granting process and holds full voting privileges. Often, external Adjunct faculty serve as external members. The external member cannot replace the outside member.

Other members- Faculty members leaving UW more than a semester prior to the students intended date of completion must be replaced with a UW faculty member on the graduate committee to ensure effective mentoring. The departing faculty may remain on the committee as an external member

Program of Study

Following formation of the committee, each student must submit a program of study to the Office of the Registrar for approval. The Program of Study form details the minimum coursework and credits that will apply in fulfillment of the graduate degree. The program of study form is available online at, http://www.uwo.edu/registrar/graduate_students/Graduate_Student_Forms.html.

The completed form should be returned with all required attachments to the Office of the Registrar. Degree Analysts will transcribe the program into a degree evaluation, which constitutes an agreement between the student, the student's committee, and the university wherein the minimum coursework requirements for that student's degree are listed. The program should be filed no later than the beginning of the student's third semester (or second Summer Session if enrolling only in summers). No master's student will be a candidate for a degree until his/her program is approved by the appropriate Department Head/Interdisciplinary Program Director and College Dean/Vice Provost. Master's degree candidacy coincides with the approval of the program of study.

The program of study must include the minimum number of appropriate semester hours of graduate credit required by the degree granting unit. Some degree programs require more than the minimum hours of credit required by the university. Students must consult with their advisers and all departmental guidance documents including this catalog. It is the responsibility of the student to insure that their program of study complies with degree fulfillment requirements. Changes to an approved program must be submitted to the Registrar, using the Request for Change in Graduate Program form.

Language or Other Tool Requirements for Doctoral Candidates

The prospective Ph.D. student should refer to the specific department in which he/she desires to major to ascertain what languages or research tools are required. Certification of a language or tool, if required, will be made by the appropriate agency or department of the university to the Office of the Registrar when proficiency requirements have been met to fulfill the tool requirements. Students may demonstrate proficiency on a standardized language examination prepared by the Educational Testing Service, or by receiving at least a grade of B in a course (or courses) specified by a department on this campus or on a reading test administered by the department. It will be each student's responsibility to see that certification of proficiency for tool requirements is made. Coursework certification may be made from transcripts filed by the student with the Office of the Registrar.

Examinations

Examinations may be required of any graduate student or advanced-degree candidate at such time or of such nature as the department or the student's graduate committee may require. It is standard procedure for doctoral students (Ph.D. and Ed.D. students) to be given a preliminary examination, and for final examinations to be conducted for both masters and doctoral students. It is common for the nature of these exams to differ from one academic unit to another.

Preliminary Examination

Candidacy in the doctorate occurs upon certification of successful completion of the preliminary examination. The preliminary examination will be held at least 15 weeks prior to the final examination. The preliminary examination may not be given before: (a) the research tool requirements, if any, have been met and certification approved; (b) at least 30 hours of coursework have been completed; and (c) the doctoral program of study has been approved. The format and conduct of this examination shall be the responsibility of the student's committee, in accordance with any departmental policies (see specific departmental guidelines).

Following the completion of the departmental preliminary examination, the Report on Preliminary Examination must be submitted to the Office of the Registrar, regardless of whether the student passed or failed. The favorable vote of the majority of the student's graduate committee members, including the Chair and Outside member, will be accepted as

passing. In case of failure, the student may repeat the examination once only, after 120 days have passed but not more than four semesters have elapsed. When the preliminary examination has been successfully completed, and the report of the committee is filed in the Office of the Registrar, the doctoral student is admitted to candidacy for the degree. At this time, the doctoral candidate has four years from the semester of the preliminary exam to complete the degree process.

Admission to Candidacy

Time spent in graduate study or accumulation of credit hours will not necessarily allow a student to become a candidate for an advanced degree. Admission to candidacy is an expression of the judgment of those who have observed the work and reviewed the credentials of the student, and deem the student worthy of the opportunity to complete the work for an advanced degree. Admission to candidacy for an advanced degree requires a specified procedure for specific degrees.

Final Examination

The final examination may not be held until after the beginning of the semester or session in which coursework is completed. The date, time, and place of the examination must be announced to the public a minimum of two weeks before the final examination is held. The committee may require the candidate to take a written examination as well as an oral examination. The thesis or dissertation document must be submitted to the candidate's committee at least three weeks prior to the final exam. The thesis or dissertation must be available for inspection by any other member of the faculty who may wish to examine it.

The oral and/or written examination should be held by the student's graduate committee at least 10 calendar days before the end of the term of graduation (last day of finals). A student failing his/her final examination may retake the examination once only in the following minimum of one and not more than three semesters to allow the student to address any deficiencies identified by the committee during the initial testing.

Following the student's defense, the student will submit a signed Report on Final Examination form to the Office of the Registrar. The written vote of each member of a candidate's committee must be on record in the Office of the Registrar on the Report of Final Examination form. Committee signatures must indicate that the majority of the committee approve recommendation of the student to receive the advanced degree. Any majority of committee member signatures on this form that includes both the Chair and the Outside member will be received by the Registrar as indication that the degree should be awarded. The form also provides documentation from the student's committee that the student has passed the Final Examination/Defense and that the committee has approved the final version of the thesis or dissertation that will be publicly available. The Registrar requires the student to make the document publicly available via ProQuest. All students whose programs require a Thesis/Dissertation must submit the document to ProQuest before the last day of classes in the semester they plan to graduate. Once the final examination is passed and reported, a Degree Analyst will review the degree evaluation to verify that any discrepancies have been corrected, confirm that final grades on any remaining coursework have been posted, and that all required forms and documents have been submitted. Once all requirements have been met, the degree will be awarded.

Declaring a Graduation Date

An Anticipated Graduation Date form must be submitted for the semester in which graduation is planned. This form puts the student on the list for graduation. If graduation does not occur during the projected semester, the student must contact the Office of the Registrar to change their anticipated graduation date. Students who are entering their semester of graduation should:

1. Log into WyoRecords to declare their Anticipated Graduation Date. Instructions are available on the Office of the Registrar's page (http://www.uwyo.edu/registrar/graduate_students/Graduate_Student_Forms.html).
2. Pay their associated graduation fee, which will appear as a charge on their account within a few days following submission in WyoRecords.

If discrepancies are found during the degree check, the Degree Analyst in the Office of the Registrar will contact the student/chair with instructions for resolution.

Final Steps in Completion of Degree Requirements

Thesis or Dissertation Documents

The candidate shall submit an electronic thesis or dissertation demonstrating the candidate's ability to communicate the outcomes of their graduate program.

The master's thesis and doctoral dissertation are integral components of graduate education. For many disciplines, publication of student research in peer-reviewed journals is a hallmark of successful graduate education that validates the scholarly results. The university encourages the use of published papers in the final document, subject to some guidelines.

Publications included within a thesis or dissertation must have been submitted for publication in scholarly peer-reviewed journals. The citation for any published papers must appear within the introductory chapter. The publications must be written by the student. Editorial oversight by the mentor and committee is desirable; however, the mentor and committee have the responsibility to ensure that the student is the main author of the thesis or dissertation. For multi-authored journal articles included in the thesis or dissertation, the contribution of each author must be clearly stated in the preface or introduction to the thesis or dissertation and in a footnote on the first page of the article. If more than one publication is included, the articles must be joined into a coherent whole, having a clear focus of inquiry. In addition to the journal papers, a thesis or dissertation must include comprehensive introduction and discussion chapters that unite the document and provide context for the journal papers. A thesis or dissertation is not evaluated relative to accumulated credit hours. The thesis or dissertation document and all appendices must be provided in an electronic format for upload into ProQuest following the format of standards established by the University Libraries, ProQuest Information and Learning.

Digitizing and ProQuest Upload Requirement

All graduate students accept as a condition of enrollment that completed theses and dissertations will be published through ProQuest Information and Learning. This involves a special fee. The appropriate form for submitting the thesis/dissertation is available when submitting the project electronically through ProQuest Information and Learning.

Survey of Earned Doctorates

The university requires the Survey of Earned Doctorates and the Report on Final Examination form be submitted on or before the last day of classes in the semester the student plans to graduate. The survey is available on the Office of the Registrar's Graduate Student Forms page (http://www.uwyo.edu/registrar/graduate_students/Graduate_Student_Forms.html). All Ph.D. students must complete this survey.

Patenting or Copyright by UW

In some cases, where significant university funds or resources have been used in dissertation research, the university may claim an interest in patenting or copyrighting the results. When this seems likely, the student (or the student's major professor) should consult with the college dean or the vice president for research.

Classified or Proprietary Research

The process of research in graduate education is one of free and open inquiry involving the student and faculty. Final examinations for graduate degrees are open to all faculty, and theses and dissertations are accessible to the public upon acceptance by the university unless embargoed as approved in advance.

For the purposes of this policy, classified research is defined as research that has a security classification established by a federal agency. Classified research projects also require approval of the trustees before being initiated. Classified research cannot be used for a thesis or dissertation.

Proprietary research is defined as research for which the sponsor requires a delay in publication. Given these clarifications, the following policies are used for theses and dissertations. Proprietary research may be used for theses and dissertations. However, any delay caused by the proprietary nature of the research must be alleviated before the thesis or dissertation is submitted to the Office of the Registrar. Such delays cannot exceed six months without the approval of the college dean. Delays greater than 12 months in length will be approved only in unusual circumstances unless embargoed as approved in advance by the college dean. Sponsors of proprietary research should be aware that theses and dissertations are accessible to the public upon acceptance.

Embargo

An embargo on a thesis/dissertation is an intentional delay in the publication of its results. Because the university places high value on the open dissemination of knowledge and the professional advancement of its graduates, such embargos are strongly discouraged. Any embargo request must include compelling written justification and a proposed embargo period not to exceed one year. All embargo requests are subject to approval by U.W. Graduate Education. In cases where justification involves intellectual property or prior contractual agreement, embargo requests also require approval by the Office of Research and Economic Development.

Overview of Graduate Degrees Awarded

In all cases, graduate students should confirm the departmental guidelines for the degree they seek. The information presented here is intended to provide only a general overview of the graduate degrees. Individual colleges and departments may apply more rigorous requirements for their graduate degrees than the minimal requirements described here.

Master's Candidates

The standard master's degrees are the Master of Arts (M.A.) and the Master of Science (M.S.). Generally, Master of Arts degrees are more common in the arts, humanities and social sciences, while Master of Science degrees are more common in the health, natural and physical sciences, business and engineering. The program of study includes a declaration that the student will pursue a particular project plan: either a Plan A thesis or a Plan B non-thesis. Once the program of study has been approved for a master's student, the student advances to candidacy. The master's program of study, whether a declared thesis or non-thesis project plan, must include a minimum of 30 hours of graduate credit.

A culminating defense is required for the Plan A and the Plan B master's programs. The final defense is an essential component of all graduate degree programs.

The defense structure and format is flexible but it should allow opportunity for the student to demonstrate content comprehension and application, critical and quantitative analysis, creative thinking, problem solving, synthesis, and evaluation.

Following the defense, regardless of the outcome, the student will submit a Report of Final Examination form to the Office of the Registrar. This form is available at http://www.uwyo.edu/registrar/students/graduate_student_forms.html.

Plan A Master's

This program type must reflect a minimum of 26 hours of acceptable graduate coursework and four hours of Thesis Research credit (course number 5960; course number 5980 may also count). The Plan A thesis option accommodates original research, although the degree of originality and the definition thereof is sometimes program-specific. The planning, development, and production of the thesis is guided by the committee chair and the graduate committee.

The thesis is the final, written product of the project. General required guidelines for preparing a thesis are available in the "Thesis and Dissertation Format Guide." The thesis must be submitted to the student's committee at least three weeks before the intended date of final examination.

The electronic copy must meet the standards established by the faculty and those of the University Libraries. Each student normally submits at least three copies of his/her thesis: one for the thesis director, one for the department, and one to retain for personal use.

Plan B Master's

The Plan B non-thesis program differs from the thesis program in that it includes additional hours of coursework instead of thesis hours. It permits a wider distribution of courses and permits a wider array of possible final products than the Plan A thesis program. The non-thesis project may take the form of a business plan or a professional portfolio. Each academic unit that engages in Plan B non-thesis activities often has its own set of principles that guide students in degree requirements. It is the responsibility of the student to consult with their committee chair to clarify specific guidelines for the Plan B Master's degree in their discipline.

Most, but by no means all, of the academic units that have students pursuing master's degrees in the Plan B non-thesis category have the students prepare a paper, or sometimes two papers, as their final project. In the selection of a subject and preparation of the paper(s), the student shall be guided by the committee, or adviser or, in some academic units, by the instructor(s) in charge of the course(s) connected to the paper(s). The paper(s) should present the results of study at a level of scholastic quality commensurate with a Plan A thesis project. The student and his or her adviser often, but not always, decide if a project will be Plan A or Plan B. Academic units have principles that guide students in this selection. Many units have rules that precisely dictate the type of program and project a student can conduct.

The format for the Plan B non-thesis paper should follow that of the Plan A thesis. However, Plan B non-thesis paper titles do not appear on the student's transcript, whereas, Plan A thesis titles do. Plan B non-thesis papers are not filed in the University Libraries and they are not submitted to ProQuest. They are filed with the major academic unit.

Master of Arts in Teaching (M.A.T.) and Master of Science in Teaching (M.S.T.)

Candidates for the M.A.T. or the M.S.T. should have completed the requirements for teacher certification prior to application for admission to graduate study. The M.A.T./M.S.T. program is completely separate from State certification requirements. Hours used to meet certification requirements cannot be applied toward the M.A.T./M.S.T. degrees.

The M.A.T./M.S.T. degrees are only modifications of the Plan B non-thesis option and are subject to the requirements of the admitting department and the general requirements of the faculty.

At least 24 of the 30 semester hours required must be in a particular teaching area (e.g., chemistry, history), with at least 12 hours in one department. A student working jointly in two departments must take at least 12 hours from each department.

The M.S.T. is designed for one teaching area and must include 18 hours in, or the total required by, that area. A program designed for two teaching areas must include 12 hours in, or required by, each of the specified two areas. Courses offered by the Science and Mathematics Teaching Center do not constitute a separate area in themselves but may be applied to an appropriate area. A program designed for two teaching areas must be approved by the heads of both departments, and the graduate committee for this program must include one member from each department. The M.S.T. is intended for individuals teaching at the secondary level. The program should represent the student's needs.

Master of Business Administration (M.B.A.)

The Master of Business Administration degree is offered to qualified students who wish to pursue a professional and highly applied degree program. Offerings include full-time, on-campus programs of study and part-time, online programs of study.

The U.W. M.B.A. program delivers professional management education that connects principles, concepts, and intense case analysis with real-world experience as tools for making business decisions. Students will develop leadership and managerial skills and will possess the education and training needed to compete in today's rapidly changing global business environment. The total program experience, inside and outside the classroom, is designed to provide experiential learning along with access to powerful networks. Satisfactory completion of at least 47 semester hours and participation in all MBA activities are required. Please see the Master of Business Administration section for specific requirements (<http://www.uwyo.edu/mba/>).

Master of Music in Performance (M.M.)

The Master of Music in Performance (M.M.) is intended for the student who wishes to pursue a career as a performer, to prepare for doctoral study, or to improve his or her performance ability. Students must pass an entrance audition for admission to the program. The entrance audition should be performed the semester prior to admission. Graduate Placement Examinations in history and theory will be administered the week prior to the commencement of classes and will determine if a student may advance to graduate level coursework. Failure of one or more sections will require a refresher course in the fall (Graduate Fundamentals). Major area studies consist of courses appropriate to the student's area of concentration. A minimum of 50% of courses taken must be deemed "graduate level only" (5000-level). Satisfactory completion of at least 30 semester hours and a Plan B paper or lecture-recital are required. Please see the Department of Music section for specific requirements (http://www.uwyo.edu/music/graduate_students/index.html).

Master of Music Education (M.M.E.)

The Master of Music Education is intended for those students who wish to improve their teaching abilities for the public school environment or to enable them to teach at the college and/or university level. Graduate Placement Examinations in history and theory will be administered the week prior to the commencement of classes and will determine if a student may advance to graduate level coursework. Satisfactory completion of at least 30 semester hours is required. Either Plan A (thesis) or Plan B (non-thesis) options are available. Please see the Department of Music section for specific requirements (http://www.uwyo.edu/music/graduate_students/index.html).

Master of Public Administration (M.P.A.)

The M.P.A. degree is designed for both pre-career and mid-career students who seek leadership positions in public service. The program is designed to meet the needs of place-based working professionals through distance education technology, while full-time traditional graduate students can pursue their coursework in-person, on campus. At least three years of successful professional experience is required to be classified as "mid-career." For traditional graduate applicants, an internship is required at some phase of their studies on campus. Satisfactory completion of at least 39 semester hours is required. Please see the Political Science section for specific requirements (<http://www.uwyo.edu/mpa/index.html>).

Master of Social Work (M.S.W.)

The Master of Social Work is designed to prepare graduate students for advanced level social work practice and leadership positions in human service organizations with an emphasis on social justice and anti-oppressive perspectives. The M.S.W. program is focused on an advanced generalist curriculum and rural social work that relies on the problem-solving method and is based on the values, knowledge, and skills of the profession. The M.S.W. is a full time, campus-based program that utilizes different course delivery methods to accommodate its widespread student population. Satisfactory completion of at least 69 credit hours for the standard two-year program and 38 credit hours for the advanced standing M.S.W. program is required. Either Plan A (thesis) or Plan B (non-thesis) options are available. Please see the Division of Social Work section for specific requirements (<http://www.uwyo.edu/socialwork/prospective-students/msw-admissions/>).

Doctor of Nursing Practice (D.N.P.)

The Doctor of Nursing Practice degree is the terminal academic preparation for nursing practice. UW's DNP program prepares family nurse practitioners (FNPs) and psychiatric mental health nurse practitioners (PMHNPs) to engage in evidence-based practice to optimize health outcomes and engage in leadership activities to promote excellence in rural health care. Both the FNP and PMHNP programs of study require 3 years of full-time study, which includes 84 credit hours and a minimum of 1140 clock hours of clinical practica experiences. During their final year in the program, students conduct a capstone quality improvement project in conjunction with a clinical agency. Please see the School of Nursing section for specific requirements (<http://www.uwyo.edu/nursing/programs/DNP/index.html>).

Doctor of Pharmacy (Pharm.D.)

The University of Wyoming School of Pharmacy offers a four-year program of study leading to the Doctor of Pharmacy (Pharm.D.) degree as the only entry-level professional degree in pharmacy. Students are admitted to the professional program following a preprofessional program of not less than two years in length with a total of at least 67 semester credit hours. The Doctor of Pharmacy degree requires satisfactory completion of 146 hours of coursework taken over a four-year period. Please see the School of Pharmacy section for specific requirements (<http://www.uwyo.edu/pharmacy/doctor-of-pharmacy-program/index.html>).

Doctor of Education (Ed.D.)

The degree of doctor of education (Ed.D.) is offered to competent students who wish to pursue a program of study and to participate in appropriate activities in preparation for professional service in teaching, administrative, and supervisory positions in education. The program is designed to meet the needs of those for whom intensive research is not a practical prerequisite to vocational goals. Doctoral students are expected to participate not only in organized coursework but also in informal types of activities that will insure breadth of outlook and technical competence.

Each student admitted into the Ed.D. program must furnish satisfactory evidence of having had three years of successful professional experience. This experience may be in teaching or administration or both. The student's graduate committee will determine what experience shall be required and when this requirement has been satisfied.

At least 36 semester hours must be earned in the major field. The degree requires a minimum of 72 graduate hours (beyond the bachelor's degree) to complete all requirements. In addition to the program of studies in organized coursework, the doctoral student will be required to complete and publicly defend an approved applied project report or dissertation within the major field of professional specialization. The project or dissertation can be a collaborative work conducted among multiple (typically two or three) graduate students in the same program area.

A student who has taken a major part of his/her undergraduate and graduate training at UW may be required by his/her graduate committee to do a specified portion of graduate work at some other institution. Please see the College of Education entry for specific requirements (<http://www.uwyo.edu/education/current-students/graduate-education/index.html>).

Doctor of Philosophy (Ph.D.)

The doctor of philosophy degree does not represent a specified amount of work over a definite period of time but rather the attainment of independent and comprehensive scholarship in a particular field. Such scholarship will be manifest in a thorough acquaintance with present knowledge and a demonstrated capacity for research. The fulfilling of the following requirements suggests, therefore, only the minimum task one must undertake to earn the doctor of philosophy degree. No amount of time spent in graduate study or accumulation of credit hours entitles the student to become a candidate for this degree.

The program of study must include a minimum of 72 semester hours of credit at the 4000 level or above from UW or equivalent levels from another approved university. This 72-hour requirement may include graduate credits earned while working toward the master's degree in the same area, but at least 42 hours (of the 72) must be earned in formal coursework. Additional credits toward the 72-hour requirement may include additional formal course credits, Dissertation Research credits (5980 course number; course number 5960 credits may also be applied), or Internship credits (5990 course numbers). The program of study must be on file in the Office of the Registrar before the preliminary examination can be scheduled.

Miscellaneous Regulations

QuickStart Programs

QuickStart programs allow a qualified student to complete bachelor's and master's degrees in as little as five years. In addition to applying up to six hours of reserved graduate credit, approved QuickStart programs allow students to double-count up to six hours of 4000/5000-level coursework toward the bachelor's and master's degrees. QuickStart students only become classified as graduate students once they have completed all requirements of the bachelor's degree, usually in year five.

Readmission

When a student is not registered at UW for one or more years, without an approved leave of absence, the student is automatically reclassified as inactive and must reapply for admission.

Students wishing to pursue direct entry into a doctoral program following their bachelor's degree

The requirements for entry into a doctoral program are determined by the departmental faculty. In some cases, students may enter a doctoral program without having attained a master's degree. These decisions are made on an individual basis. Such students must fulfill all the requirements of a doctoral degree but may be limited in the number of graduate hours they hold in application to the 72 hour minimum. Careful planning with the graduate program and committee is needed to assure that the student makes clear progress to the degree. One consideration of the student is whether they will obtain a master's degree on the way to the doctorate. If so, the student should be considered a master's degree student until that degree is accomplished, or until the preliminary exam is passed. Once the preliminary exam is passed, the student may be considered a candidate for the doctoral degree, just as other students would. Students who do not hold a master's degree cannot be considered a candidate for the doctoral degree until they have passed their preliminary exam.

New Parent Accommodation Policy

The University of Wyoming is dedicated to ensuring optimal success for all graduate students. However, new parents are frequently forced to interrupt their education cycle, sometimes in a transient manner but often permanently.

The New Parent Accommodation policy is designed to allow new parents to maintain full-time, registered student status and facilitate their return to full participation in graduate activities in a seamless manner without penalty. The policy applies to full-time students enrolled in a graduate program. If both members of the new parent partnership are UW graduate students, one but not both will be eligible for the full accommodation. However, the university encourages accommodation of schedules for exams, assignments and programs of study for the graduate student partner. This accommodation does not apply to part-time students.

A student anticipating becoming a new parent is eligible for accommodation consideration for a period of up to one semester. The exact accommodation period will begin on the date specified on the New Parent Accommodation petition approved by the college dean. This petition must be filed and approved prior to the actual date of childbirth or adoption. Additional information can be found at <http://www.uwyo.edu/uwgrad/policies/>.

Armed Services

Time spent in the armed services is not computed in the total time allowed to complete the requirements for an advanced degree; however, students who are eligible and wish to use this time exclusion must file the leave of absence petition.

International Students

Upon arriving at the University of Wyoming, international students are required to visit the International Students and Scholars (ISS) office. This office:

- Provides support and counsel for UW's international students and scholars population regarding aspects of immigration regulations and procedures;
- orients this population to the policies and expectations of the university, the educational system, and the U.S. culture;

- hosts a mandatory orientation program for all new international students before the beginning of each semester.

Please see the ISS website for detailed information (<https://www.uwyo.edu/iss/>).

International graduate assistants with teaching responsibilities must demonstrate sufficient English Oral Proficiency (https://www.uwyo.edu/study-iep-esl/grad-ta-support/more_opi_information.html/).

- Graduation with Honors

Graduation Requirements

Students are personally responsible for knowing degree requirements and enrolling in courses that fulfill their degree program. Students, with the help of their advisers, design their program to satisfy their needs and aims. Students will be required to complete assessment activities as determined by the university prior to the awarding of degrees. Students are likewise held responsible for knowing regulations governing the standard of work required for continuance in the university involving academic probation and suspension.

Although this catalog is intended to set forth the various provisions for study and requirements for the awarding of degrees, periodic revisions of the provisions for study and degree requirements are appropriate (because of advances in knowledge, changes in occupational requirements, academic preparation of students, and in faculty and facilities at the university). In order for the catalog to be available in spring of each year, publication must begin the previous October. This is almost a year before the requirements specified therein become effective the following fall and almost five years before a student entering at that time could graduate. Accordingly, the university cannot guarantee the awarding of a degree based on the unchanged requirements as set forth in a particular catalog.

Adjustment to Changing Requirements

Students are expected to inform themselves of changes in degree requirements by reviewing the catalogs that are published annually and their Degree Evaluation reports; then, when necessary, adjust their degree plans accordingly.

If university or college requirements are changed, students are encouraged to adopt the new requirements; however, students will have the option of graduating under the requirements in effect when they entered the university or one of Wyoming's community colleges, provided the courses are still available. The student must accept either the new requirements or the requirements in effect when they entered the university or one of Wyoming's community colleges in their entirety, not a combination from each. Students changing colleges within the university or reentering the university after one or more years away are expected to adopt the requirements in effect at the time of the reentry. Any substitution to the above must be approved in writing by the student's adviser and the college dean and added to the student's advising folder in the department or college.

If departmental requirements are changed, students will ordinarily be permitted to continue under the requirements in effect when they entered that major department provided there has not been an interruption in their education for a year or more; however, students are encouraged to adopt the new requirements. Notice of changes will be available from departmental offices and advisers. It is the responsibility of students to keep in touch with their major departments, to learn of changes in requirements, and to plan ahead so that necessary courses can be taken by the expected time of completing a degree. Many courses are not given every semester and some not every year.

If required prerequisites for a course are changed, notice may be obtained from the department offices. The university cannot continue two courses, one with and one without a newly-adopted prerequisite. The student must therefore meet the new prerequisite or obtain permission from the instructor to enroll in the course. In the event of any doubt as to the adequacy of preparation for a course, the student should consult with the instructor or an adviser in the department as far in advance as possible. Independent study, if approved, may be accepted in lieu of a specific course prerequisite.

Scholarship Standards

A UW cumulative grade point average (GPA) of at least 2.000 is required for undergraduate degrees and 3.000 for graduate degrees. The cumulative grade point average is defined as the sum of all grade points earned in residence, via Distance Education at the University of Wyoming, with the following exceptions:

1. The credit hours shall not be counted in courses in which marks of W, S, or U were assigned, or in which marks of I (for incomplete) are still in effect.
2. For repeated courses:
 - a. First repeat: only the second credit and grade is used to calculate the cumulative GPA.
 - b. If repeated more than once, only the last grade is used to calculate the cumulative GPA.
 - c. If a mark of W, S, or U is assigned in a repeated course, the previous grade assigned will stand except when an S or U is earned repeating a previous S or U.
 - d. Courses applied towards one completed undergraduate degree may be repeated as part of a second degree; however, the grade and GPA in the original degree will not be changed.
3. Transfer grades are not counted in the UW GPA. If a course taken at UW is repeated for the first time at another institution, the credits and grade earned at UW will be deleted from the UW cumulative GPA if credit for the repeated course is transferred to UW.
4. For graduate students, courses numbered below 4000 are not added into the semester and cumulative totals, nor computed into the GPA.

Semester Hour Requirements

Completion of the total minimum credit hours for undergraduate degrees from the various colleges is indicated below:

College of Agriculture and Natural Resources	120-128 hours
College of Arts and Sciences	120-128 hours

College of Business	120 hours
College of Education	120-128 hours
College of Engineering and Applied Science	120-132 hours
College of Health Sciences	120-123 hours
School of Energy Resources	120 hours

These minimum hour requirements are in line with the Higher Learning Commission's criteria for accreditation.

The total minimum credit hours for graduate degrees depends on the degree earned. Masters degrees require 30 credit hours and Doctoral degrees require 72 credit hours. See the Graduate Student Regulations and Policies for more details.

University Baccalaureate Requirements

1. A cumulative GPA of 2.000 or better from the University of Wyoming;
2. Satisfactory completion of the prescribed curriculum in which the degree is sought, including fulfillment of the entrance requirements in the college concerned;
3. Satisfactory completion of the University Studies Program: Students who entered the University of Wyoming, one of Wyoming's community colleges, or an out-of-state academic institution fall 2015 or later, are required to complete the University Studies Program 2015, a university-wide program in general education. The detailed requirements for the University Studies Program are provided in this catalog on page 53.
4. Students must complete a minimum of 42 upper division (junior/ senior) or graduate-level semester credit hours, 30 of which must be earned from the University of Wyoming. Credit by examination does not count towards the required 30 hours of residency credit;
5. Not more than 24 semester hours of correspondence study courses may be used toward fulfilling requirements for a bachelor's degree;
6. Not more than 4 semester hours of credit in physical activity courses can count toward the minimum credit hour requirement for a bachelor's degree;
7. The last credit applicable to degree requirements must be earned from the University of Wyoming with the following exception: students of senior standing may complete degree requirements elsewhere by obtaining special permission of the department head, adviser, and college dean, and declaring an anticipated graduation date with the Office of the Registrar;
8. Native language credit: students are not allowed university credit for language courses below the 4000-level in their native language.

Assessment Requirement

Students may be required to complete assessment activities as determined by the university prior to the awarding of degrees.

Second Bachelor's Degree

Students seeking a second bachelor's degree must meet all of the university and college requirements as prescribed for a first bachelor's degree. Students whose first degree was received from an institution where English is not the predominant language must complete the University Studies Communication I (COM1) and Communication II

(COM2) requirements. The second bachelor's degree may have the same title as the first degree and may be in the same college as the first degree; but if in the same college it must be in a different major. Grades earned in all undergraduate course work (including courses applied towards a previous UW bachelor's degree) are included in the calculation of the cumulative GPA.

The minimum study requirement for a second bachelor's degree is 30 additional semester hours earned from the University of Wyoming, 12 of which must be in upper division (junior/senior-level) or graduate-level courses. However, a student must also fulfill all of the college and major requirements for the second degree. Credit by examination does not count toward UW residency. The 30 hours is in addition to the study requirement for the first degree for those students earning the first degree from the University of Wyoming. The 30 additional hours would be added to the degree requiring the least number of hours. Both degrees may be awarded at the same commencement.

Courses applied towards one completed degree may be repeated as part of a second degree; however, the grade and GPA in the original degree will not be changed.

Students with a bachelor's degree from an accredited U.S. institution will be considered to have met the UW University Studies (USP) program requirements, with the exception of the US and Wyoming Constitution requirement, unless previously completed.

Second Bachelor's Degree Transfer Policy

Typically, undergraduate coursework from other collegiate institutions will not be loaded individually into the University of Wyoming student database after a bachelor's degree has been earned for the student. In situations in which a student who has previously earned one bachelor's degree from the University of Wyoming is subsequently required to take coursework from another collegiate institution to fulfill major and overall hour requirements for a second degree from the university, the student's department can ask the Office of the Registrar to load selected courses into the student's record. As with all students who wish to earn two bachelor's degrees from the university, the student will be required to successfully complete the following requirements:

- Major requirements for the major of the second degree
- College requirements for the college which will award the second degree
- A minimum of 30 additional semester hours over the minimum required for the student's first degree
- At least 60 earned semester hours from the University of Wyoming (30 required hours for first degree, 30 additional hours required for second degree)
- At least 54 earned semester hours of upper division (3000+- or junior/senior- level) credit (42 required upper division hours for first degree, 12 additional upper division hours required for second degree)
- At least 42 earned semester hours of upper division (3000+- or junior/senior- level) credit from the University of Wyoming (30 required upper division hours from UW for first degree, 12 additional upper division hours from UW required for second degree)

Concurrent Majors

Students may pursue a concurrent major in one or more colleges. Only one degree (BA, BS, etc.) will be awarded from the college of the primary major. All university curricular requirements, including the University Studies Program requirements, must be met only once. Requirements for secondary major(s) will be established by the academic departments and may include college requirements, in addition to all major requirements. An academic adviser in each major is required and each adviser must review requirements. The degree will be granted on one date only and only one diploma will be awarded. Both majors will be indicated on the academic transcript and diploma.

Dual Degrees

It is possible to pursue degrees in one or more colleges. The university requirements and University Studies Program requirements must be met only once. Students must meet the all college and major requirements of both majors. Students must complete an additional 30 semester hours from the University of Wyoming, 12 of which must be in upper-division (junior/senior-level) or graduate-level courses beyond the credit hour requirement for the degree with the minimum number of credit hours required. An academic adviser in each major is required and each adviser must review requirements. Multiple degrees and multiple diplomas will be awarded; however, the completion date must be the same. Both colleges, degrees, and majors will be indicated on the academic transcript.

Graduate Student Requirements

Graduate students must have a Committee Assignment (if required), a Program of Study, and Preliminary Examination Results forms (doctoral students only) on file before they may submit an Anticipated Graduation Date form. Upon receipt of the form, the Degree Analyst in the Office of the Registrar will verify that all course requirements have been met. If discrepancies are found, the Degree Analyst will contact the student with instructions on how to resolve them. The Degree Analyst will also verify that the student has registered for a minimum of one semester hour for the current semester. If there are questions, the student should contact the appropriate Degree Analyst.

Before the Defense

A formal public announcement of thesis and dissertation defenses is required. Students should contact their department for specific procedures.

Prior to the defense, the student should complete the Report of Final Examination form and take it to the defense.

After the Defense

Following the defense and when all committee signatures have been secured, the student should submit the Report of Final Examination Results form to the Office of the Registrar (note: committee chairs may delay signature until all necessary changes to the thesis/dissertation/ non-thesis paperwork have been made and approved).

After submission of the Report of Final Examination Results form which indicates all changes/revisions have been made and the thesis/ dissertation is approved for final submission, the student will submit the document for format review and final electronic publication to ProQuest. The student will be advised if additional corrections are required.

Ph.D. students will need to complete the NORC Survey of Earned Doctorates through the procedure noted on the Graduate Student Graduation page of the Office of the Registrar website.

Degree Evaluation/Declaring a Graduation Date

All students have an electronic degree evaluation available through WyoWeb that shows requirements of the degree program and the progress that the student is making toward meeting those requirements. Any discrepancies should be reported to a degree analyst in the Office of the Registrar as soon as possible.

Students are responsible for notifying their degree analyst of their anticipated date of graduation with an Anticipated Graduation Date form. Students are encouraged to submit the Anticipated Graduation Date form as early as possible in the expected term of graduation. Delaying this action could affect graduation, as requirements indicated on the degree evaluation must be met prior to a student being cleared for graduation.

Graduation Fee

Payment of the graduation fee of \$30.00 for each degree or certificate to be earned is due by the last day of classes from all students planning to graduate.

Grades

Final grades covering completion of course work in Distance Education, transfer, special examinations, and incomplete work from previous attendance must be submitted to the Office of the Registrar no later than the deadline for submission of final UW grades for the term in which the degree is to be conferred.

Final Approval

Final recommendation of the faculty and approval of the University Trustees for conferral of degrees is required. The trustees may, for good cause, decline to confer a degree upon any candidate.

Participation in Commencement Exercises

Commencement is not the same thing as graduation. All academic colleges hold commencement exercises on the May graduation date. Several of the colleges also have commencement exercises in December. Check the appropriate college dean's office for specific information. Students in their final year of study who have declared graduation dates are considered candidates for graduation. Students in certificate programs do not participate in commencement.

Participation in the exercise does not automatically confer degrees. Confirmation of graduation will occur after a review of final course work.

The official graduation dates for the 2023-2024 academic year are December 9, 2023 and May 11, 2024. Please note that commencement ceremonies might be held on days other than the official date. To be eligible for a graduation date, all work must be completed prior to that date.

Commencement exercises are a historical academic custom involving participation by all segments of the university and attendance by members of the graduate's families and friends as well as the general public. Those students who participate in commencement exercises are expected to wear appropriate traditional academic regalia.

Graduation with Honors

Designations of summa cum laude, magna cum laude, and cum laude will be added to the baccalaureate academic transcripts and diplomas of graduating undergraduate students earning at least 48 credit hours from the University of Wyoming (of which 45 hours must be for A-F grades) based on the following percentages:

Top 1%	summa cum laude
Next 4%	magna cum laude
Next 5%	cum laude

as computed from the GPAs of graduating undergraduate students in each college. Honors graduates will be identified by comparison to a 5-year rolling grade point distribution computed for each college, to be recomputed annually each spring semester.

These designations are effective with the fall 2000 semester and are not retroactive.

Honor graduation will be granted for students in the College of Law upon successful completion of 56 hours in the college with a cumulative GPA of 3.400 or better based on University of Wyoming College of Law courses.

A Doctor of Pharmacy is awarded with honor by the university to a student who graduates with scholarship in pharmacy of unusual excellence as defined by the School of Pharmacy.

All Academic Disciplines

Phi Beta Kappa has been one of the most respected societies in the world for more than 200 years. Phi Beta Kappa was founded in 1776 at the College of William and Mary, Virginia. Within a decade, chapters arose at Yale, Harvard, and Dartmouth. The Wyoming chapter received its charter in 1940, and today fewer than 270 colleges and universities in the United States meet the strict qualifications for housing a chapter. UW faculty and administrators annually elect to membership fewer than one-tenth of the leading scholars of the senior class, candidates for the degrees of Bachelor of Arts and Bachelor of Science. In exceptional cases a junior may be elected. In addition to having a distinguished academic record, a student eligible for Phi Beta Kappa must pursue a balanced and broad course of study, which includes a foreign language as well as courses in math, the sciences, and the humanities. At least 90 hours of the student's course work must be in the liberal arts and sciences. Students are reviewed for eligibility and are notified by mail the spring of their election. Phi Beta Kappa promotes the ideal of a community of scholarship, and every year the Chapter sponsors an eminent visiting lecturer for the entire university.

The national honor society of Phi Kappa Phi, founded in 1897, recognizes and encourages superior scholarship in all curricula of the colleges and divisions of the university. No other honor society has higher academic standards for admission. Good character is also an essential supporting attribute for those scholars elected to membership. The University of Wyoming chapter of Phi Kappa Phi sets minimum cumulative grade point requirements at 3.500 for seniors, 3.800 for juniors and 3.900 for graduate students. In addition, there are minimum requirements in terms of hours completed at UW. Since the chapter may initiate no more than ten percent of the number of seniors in each college, the actual grade point cutoff is often higher than these minimums. In the spring of each year, students' records are reviewed and letters of invitation are sent to those eligible for election to the society. Supplementing the work of its chapter, the national society awards fellowships for graduate study. The UW Phi Kappa Phi chapter is administered by the Honors College.

College of Agriculture and Natural Resources

Agriculture majors - *Alpha Zeta* is a national honorary for students in agriculture who demonstrate academic excellence, character and leadership. Applications for membership are sent to eligible students. *Gamma Sigma Delta* is a national honor society open to students in agriculture. Potential members are invited to membership based upon academic excellence. *Phi Upsilon Omicron* is a national honor society in family and consumer sciences. Potential members are invited to membership based on academic excellence and leadership. *Pi Alpha Xi* is a national honorary horticulture society, open to UW students with a minor in horticulture. Students are invited to join based upon academic excellence and leadership.

College of Arts and Sciences

Art - A *Bachelor of Fine Arts* in art is considered honorary.

Biology and Botany - This Honors Program is for students majoring in biology or botany with strong interests in independent research with a focus in ecology, evolution, systematics, bioinformatics, biostatistics or data science. Application to the biology or botany honors program may be made after completion of the sophomore year with a cumulative grade point average of 3.300.

Chemistry - *American Chemical Society* - The Department of Chemistry is closely associated with the Local Wyoming Chapter of the American Chemical Society. The American Chemical Society (ACS) is one of the largest scientific societies in the world - its purpose is to promote chemistry and educate the public on the impacts of the chemical profession on the economy, technology, and education. The ACS organizes both national and regional scientific meetings; our local section supports student travel to these meetings. The chemistry department also sponsors a Student Affiliates section of the ACS, which is mentored by a UW chemistry faculty member and serves the needs of our chemistry majors.

Communication - *Lambda Pi Eta* recognizes, fosters, and rewards outstanding scholastic achievement while stimulating interest in the communication discipline.

Criminal Justice - *Alpha Phi Sigma - Epsilon Omega Chapter*, criminal justice honorary. A national honorary society for Criminal Justice that recognizes the academic excellence of Criminal Justice students. Alpha Phi Sigma is a collaboration with the Academy of Criminal Justice Sciences.

English - *English Honors Program* enables junior and senior English majors who carry a grade point average of 3.500 or better in their English courses to intensify and enhance their studies by working closely with a supervising faculty member to develop a senior honors project, a piece of writing on a topic in English studies. *Sigma Tau Delta - Alpha Mu Omicron Chapter*, international English honor society.

Gender and Women's Studies - *National Women's Studies Association*; one of its primary objectives promoting and supporting the production and dissemination of knowledge about women and gender through teaching, learning, research and service in academic and other settings.

Geography - *Gamma Theta Upsilon - Eta Eta Chapter* candidates must have completed three semesters of college coursework and three courses in Geography, with a grade point average of 3.000 or higher for these courses. Contact department Department of Geology and Geophysics/ Geography Program for more information.

Geology - Eligible students are Bachelor of Science degree holders with honors, majoring in geology or geophysics. They must meet an overall grade point average of 3.200, a grade point average of 3.200 in the major, and successful completion of an independent research project. Contact department Department of Geology and Geophysics/ Geography Program for more information.

History - *Phi Alpha Theta* is a professional society whose mission is to promote the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians. It seeks to bring students and teachers together for intellectual and social exchanges, which promote and assist historical research and publication by our members in a variety of ways. The society currently has over 400,000 members, with some 9,000 new members joining each year through 970 chapters nationwide.

International Studies - *Sigma Iota Rho*: The purpose of Sigma Iota Rho is to promote and reward scholarship and service among students and practitioners of international studies, international affairs, and global studies and to foster integrity and creative performances in the conduct of world affairs. Membership provides public recognition of the best and the brightest students in the International Studies major and highlights the importance of contributing to the global community.

Journalism - *Society of Professional Journalists, Sigma Delta Chi*

Languages - The Department of Modern and Classical Languages sponsors chapters of two nationally recognized Honor Societies in Spanish.

Alpha of Wyoming Chapter of Sigma Delta Pi - To honor those who attain excellence in the study of the Spanish language and in the study of the literature and culture of the Spanish-speaking peoples; to honor those who have made the Hispanic contributions to modern culture better known in the English-speaking world; to encourage college and university students to acquire a greater interest in and a deeper understanding of Hispanic culture; to foster friendly relations and mutual respect between the nations of Hispanic speech and those of English speech; to serve its membership in ways which will contribute to the attainment of the goals and ideals of the society.

Sigma Delta Pi National Spanish Honorary Society celebrates its 100th anniversary in 2019. Our very active UW chapter was recognized in 2011 as a national honor chapter. Each semester we initiate new members who meet high academic standards and are dedicated to the study and teaching of Spanish. Chapter awards and student scholarships include study abroad opportunities and recognition of outstanding scholarly research and writing.

Music - *Presser Award* is conferred by vote of the department faculty for outstanding senior in music. *Pi Kappa Lambda*, selected by faculty on the basis of outstanding scholarship and musical accomplishments.

Physics and Astronomy - *Sigma Pi Sigma*: Sigma Pi Sigma (sigmapisigma.org) exists to honor outstanding scholarship in physics, to encourage interest in physics among students at all levels, to promote an attitude of service, and to provide a fellowship of persons who have excelled in physics.

American Physical Society (APS): The American Physical Society (www.aps.org) is a non-profit membership organization working to advance and diffuse the knowledge of physics through its outstanding research journals, scientific meetings, and education, outreach, advocacy and international activities. APS represents over 50,000 members, including physicists in academia, national laboratories and industry in the United States and throughout the world. Society offices are located in College Park, MD (Headquarters), Ridge, NY, and Washington, DC.

American Astronomical Society (AAS): The American Astronomical Society (aas.org) is the major organization of professional astronomers in North America. The mission of the American Astronomical Society is to enhance and share humanity's scientific understanding of the universe.

Political Science - *Pi Sigma Alpha, Epsilon Beta Chapter* seeks "to stimulate scholarship and intelligent interest in political science." The society sponsors programs and events of value to the profession and teaching of political science. Membership provides public recognition of the best and brightest students in the Political Science major. Each chapter is encouraged to provide a framework for enriching the exposure of its members and the wider university community to the study of government and issues of public concern.

Pi Alpha Alpha, national public administration honorary. The purpose of Pi Alpha Alpha is to encourage and recognize outstanding scholarship and accomplishment in public affairs and administration. Its objectives, such as fostering integrity, professionalism, and effective performance, promote the advancement of quality in the education and practice

of the art and science of public affairs and administration. PAA membership identifies those with the highest performance levels in educational programs preparing them for public service careers.

Psychology - Psi Chi - The Psychology Department supports a chapter of Psi Chi, the International Honor Society in Psychology. This local Psi Chi group functions within a larger Psychology Club that serves undergraduates interested in Psychology. The chapter and club are jointly involved in many activities, including community service projects, peer advising and graduation festivities.

Sociology - Alpha Kappa Delta, the international honorary society for sociology. In addition, sociology majors with a 3.2 overall GPA, a 3.500 GPA in sociology courses and two 5000-level sociology classes graduate with honors in sociology.

College of Business

Accounting - Beta Alpha Psi, Delta Alpha Chapter, is the UW chapter of the national accounting honorary. Membership in this very active student honorary is awarded only to the very best accounting students.

Business Administration - Beta Gamma Sigma is the national scholastic honor society. It is the arm of the accrediting group, AACSB International. Membership is very selective and based on class rank and grade point average.

College of Education

Kappa Delta Pi - Alpha Mu Chapter is the university chapter of the international honor society in education. The purpose of the society is to promote excellence in and recognize outstanding contributions to education. Invitation for membership is extended to those persons who exhibit commendable professional qualities, worthy educational ideals and sound scholarship.

Mu Nu Tau Chapter of Chi Sigma Iota is a Counseling Academic and Professional Honor Society International for counselors-in-training, counselor educators, and professional counselors. The mission of Chi Sigma Iota is to promote scholarship, research, professionalism, leadership, and excellence in counseling, and to recognize high attainment in the pursuit of academic and clinical excellence in the field of counseling. The CSI International homepage can be found at www.csi-net.org/index.cfm. The local chapter, Mu Nu Tau, encourages the furtherance of high standards of scholarship and professional practice through study groups, speaker programs, workshops, colloquia awards, social activities, and networking opportunities.

College of Engineering and Applied Science

Engineering majors - Tau Beta Pi is a national honor society for all engineering majors. The purposes of the society are to honor outstanding student scholarship and to provide a spirit of liberal culture in the College of Engineering and Applied Science. Membership is offered to outstanding junior, senior and graduate engineering students of high scholastic ability and exemplary character.

College of Health Sciences

Kinesiology - Phi Epsilon Kappa is a national professional fraternity dedicated to enhancing education, promotion of student research, community outreach, and professional development for persons pursuing careers in health, physical education, recreation, and other related fields.

Nursing - Sigma Theta Tau - academic leadership honorary. The mission of the Honor Society of Nursing, Sigma Theta Tau International is advancing world health and celebrating nursing excellence in scholarship, leadership, and service.

Pharmacy - Rho Chi Society, Academic Honorary. The Rho Chi Society encourages and recognizes excellence in intellectual achievement and advocates critical inquiry in all aspects of pharmacy. The Society further encourages high standards of conduct and character and fosters fellowship among its members; Phi Lambda Sigma, Pharmacy Leadership Society - to support pharmacy leadership commitment by recognizing leaders and fostering leadership development.

Social Work - Phi Alpha. The purpose of the Epsilon Delta Chapter of the Phi Alpha Social Work National Honor Society at the University of Wyoming Division of Social Work is to provide a closer bond among students of social work and promote humanitarian goals and ideals. Phi Alpha fosters high standards of education for social workers and invites into membership those who have attained excellence in scholarship and achievement in social work. The goals of Phi Alpha include the provision of service to the campus, local, and state communities in Wyoming; the promotion of social, economic and environmental justice on campus and in the community; and the development of student leadership skills.

University Honors College

The UW Honors College provides recognition and awards for select students, faculty and administrators via *The National Collegiate Honors Council* and *The Western Regional Honors Council* in the areas of academic achievement, civic responsibility, and personal development. The Honors College also administers the University of Wyoming chapter of *Phi Kappa Phi*. In the spring of each year, students' records are reviewed and letters of invitation are sent to those eligible for election to the honor society. Supplementing the work of its chapter, the national honor society awards fellowships for graduate study.

College of Law

Law majors - *Order of the Coif* is an honorary society which recognizes legal scholastic excellence. Each year, the chapter may initiate into membership those students who graduate in the highest ten percent of their class.

Other University Services

- Distance Credit Programs

University Store

Misty Eaton, Manager

Wyoming Union, 1-800-370-2676, (307) 766-3264,

TTY: (307) 766-3267

Web site: www.uwystore.com; www.facebook.com/uwystore

The University Store is a self-supporting university department founded in 1921. It provides students, faculty, staff, and campus visitors with a variety of products and services. In order to fulfill its primary mission, the store stocks new and used textbooks, textbook rentals, e-textbooks, general books, school supplies, office products, educationally priced computer software, fine art supplies and electronics. The University Store is an authorized Lenovo distributor and an Apple Authorized campus store offering a full line of Apple products and accessories. As a convenience, the store also stocks additional items such as gifts, insignia gifts and clothing, greeting cards, candy and sundries. Services the store provides include prepaid textbook reservations, bookbinding, special order book service, cap and gown rental, used book buyback, and postage stamps, as well as UPS, FAX and Federal Express.

The University Store is located on the main level of the Wyoming Union. Hours of operation during the academic year are: 7:30 a.m. to 5:00 p.m., Monday through Friday; TBA Saturday.

Music

J.Scott Turpen, Department Head
2049 Buchanan Center for the Performing Arts, (307) 766-5242
Web site: www.uwyo.edu/music

The Department of Music offers many opportunities for students to participate in musical activities, as well as, to hear concerts by faculty artists, student ensembles and visiting artists. All qualified students within the university, no matter their major, are invited to participate for credit in any of the following: Marching Band, Symphonic Band, Wind Ensemble, Symphony Orchestra, Chamber Orchestra, Collegiate Chorale, Jazz Ensemble, Bel Canto, Singing Statesmen, Civic Chorus, and the many smaller ensembles such as string ensembles, brass ensembles, percussion ensemble, and various chamber groups. Note: some ensembles are by audition only. Private lessons on any instrument and voice are available at a fee to all interested students.

Summer offerings may include lessons, workshops, seminars, and regular courses. A summer music camp for students in grades 7 through 12 is also offered which includes band, choral, orchestral and keyboard experiences culminating in gala concerts. For further information, please write to the Department of Music, Dept. 3037, 1000 E. University Ave., Laramie, WY 82071 or musicdpt@uwyo.edu.

Theatre and Dance

Leigh Selting, Department Head
2099 Buchanan Center for the Performing Arts, (307) 766-5100

Theatre and Dance at the University of Wyoming offers students an excellent opportunity to participate in all aspects of theatre and dance arts. Auditions for productions are open to all qualified students within the university regardless of major or college. The production program provides opportunities for students to participate in technical theatre stage crews, set construction, costuming, lighting and sound. There are also opportunities to perform dance, drama, musicals and operas. Playwriting, screen writing, directing and choreography are available through upper-division courses. The BCPA contains a proscenium theatre, an experimental theatre, a thrust theatre, an acting for the camera studio and two dance studios, plus full support facilities for scene and costume construction. Full-time university students may purchase tickets through the Fine Arts Ticket Office at a greatly reduced price.

University Police Department

Mike Samp, Chief of Police
1426 E.Flint, (307) 766-5179
Web site: www.uwyo.edu/UWPD

The University Police Department is responsible for crime prevention, public safety, and law enforcement in the UW community. The department is staffed by 15 certified peace officers, five security guards, and eight full-time staff members. All officers are fully trained and have arrest authority. The department operates 24 hours per day, 365 days a year. To keep members of the UW community aware of police activity on campus, the department maintains a chronological log of all incidents reported to the department. This log is open for public inspection through the UWPD web site. University crime reports are also included annually in the United States Department of Justice publication, Crime in the United States. Crime statistics, as well as other public safety information, are included in the Annual Security/Clery Report, which is available online. Department personnel present public safety programs upon request to any group or organization. Further information is available through the UWPD World Wide Web site.

Bicycle Regulations The University of Wyoming Bicycle Program was developed to promote an environment in which bicycles, pedestrians, and motor vehicles can safely co-exist. Persons riding bicycles are asked to familiarize themselves with the regulations and bike paths described in the pamphlet *Safe Cycling at UW*, which is available on the University Police Department web site. All bicycles must be registered.

University of Wyoming Alumni Association

Keener Fry, Executive Director
222 South 22nd Street, (307) 766-4166
Web site: www.uwyo.edu/alumni

The University of Wyoming Alumni Association has served the university and alumni since the association was first organized in 1895. Our purpose is to provide the pathways to share the legacy, spirit and pride of UW worldwide. The primary role of the UWAA is to connect and reconnect alumni to the institution and each other through effective communication and meaningful engagement. The Alumni Association creates partnerships that advance UW and enrich the lives of students and alumni worldwide.

The Alumni Association currently serves over 131,000 former students of the University of Wyoming. Daily operations include high performing programs which include the admitted student writing project, employer engagement through full time job opportunities and internships, Cowboy 2 Cowboy Informational interviews, chapter and network gatherings, campus partnerships and donor cultivation and stewardship. The scholarship program services Wyoming and out-of-state high school seniors, undergraduate and graduate students, non-traditional students, Wyoming community college transfer students, US Veterans, and multicultural and Native American students with a commitment of over \$187,000 annually.

The UWAA sponsors the UW Homecoming Parade and senior send-off.

The Alumni Association is located in the Alumni Center at the Marian H. Rochelle Gateway Center.

Cowboy Parents

Division of Student Affairs
408 Old Main, (307) 766-5123
Web Site: www.uwyo.edu/cowboyparents

Cowboy Parents is an organization that provides parents and families with their own University of Wyoming connection serving as a conduit for information and assistance. Cowboy Parents offers opportunities for families to get involved with the goal of promoting student success while also providing the institution with a unique perspective from parents and families. Cowboy Parents provides email updates, frequent and timely publications, volunteer opportunities, and much more.

University of Wyoming Extension

Kelly K.Crane, Associate Dean, Director
103 Agriculture Building, (307) 766-5124

The 1914 Smith-Lever Act created the University of Wyoming Extension, stating that its purpose was to "provide instruction and practical demonstrations in agriculture, home economics and related subjects." The University of Wyoming Extension is part of a national educational network which establishes partnerships with the United States Department of Agriculture, the state of Wyoming, the University of Wyoming, and county and tribal governments. UW Extension maintains offices in 27 Wyoming communities.

The mission of the University of Wyoming Extension is to provide lifelong learning opportunities for the people of Wyoming and empower them to make choices that enhance their quality of life. To accomplish its mission, the UW Extension continually updates its programs to meet the changing priorities, organizational structures and external relationships of Wyoming and its citizens. It is a dynamic organization pledged to providing educational programs which enable Wyoming citizens to improve their lives and communities through partnerships that put experience and research knowledge to work. The UW Extension delivers university research-based knowledge to Wyoming consumers through the broad program areas of Ag and Hort, 4-H Youth Development, Nutrition and Food Safety, Rangeland, and Community Development Education. Programs include a wide range of topic areas, including food and nutrition, water quality, wildlife, crop production, resource management, and energy related issues.

UW Extension can be accessed on campus through its administrative offices in the College of Agriculture and Natural Resources. In the state, UW Extension offices are found in each county and serve as resources to the county, while also representing a major connection between the university and the people of Wyoming.

Office of Distance Education

Web site: www.uwyo.edu/distance

For over a century UW has embraced the land grant mission by sending its faculty across the state to meet with citizens, students, teachers, business owners, ranchers, and farmers to help them learn. Currently and in partnership with the university's colleges and departments, UW extends the university learning experience to students across the state, region and nation by offering over 40 academic programs at the certificate, endorsement, bachelor, master, and doctorate award level. Career credentials are also available, mostly concentrated for K-12 educators. The programs feature two different delivery methods both requiring high speed Internet connectivity. Web conferencing courses are "real time" interactive courses that meet regularly throughout the semester. Courses can be delivered to your mobile devices or computers if you have a webcam and a microphone. Fully online courses are available anywhere and at any time. These courses are delivered via WyoCourses and may also use additional online communication and collaborative tools.

Special Programs and Facilities for Research and Study

- The Libraries
- Library Faculty:

The Libraries

Ivan Gaetz, Dean

William Robertson Coe Library, (307) 766-3279

The University Libraries include the William Robertson Coe Library, the Emmett Chisum Special Collection; the Library Annex, located in the basement of the Biological Science Building, housing government publications and older journals; the Brinkerhoff Earth Resources Information Center, located in the S.H. Knight Geology Building; the Learning Resource Center, located in the Education Building; the Rocky Mountain Herbarium Research Collection, located in the Aven Nelson Building; and the National Park Service Research Center collection in Jackson, Wyoming. UW-Casper is served by the Casper College Goodstein Foundation Library.

The libraries' cataloged collections total over 1.6 million volumes, with over 33,000 volumes added annually. 14,000 active periodical and serial titles are supplemented with access to over 90,000 unique electronic journals and over 800,000 ebooks. In addition, the libraries provide extensive microforms collections and a library of over 175,000 maps, and serve as a depository for United States government publications.

Through participation in the Wyoming Libraries Database (WYLD), Colorado Alliance of Research Libraries ("Alliance"), the Greater Western Library Alliance (GWLA), Hathi Trust, OCLC, the Network of National Libraries of Medicine, on-line information retrieval systems, and the interlibrary loan network, access is provided to other library resources from throughout the nation and the world.

The College of Law maintains a separate Law Library.

SUSAN C. WYNNE B.A. Clemson University 1995; M.L.I.S. University of South Carolina 2004; Assistant Librarian, University Libraries 2020.

Centennial Complex

Designed by internationally prominent architect Antoine Predock to represent both an "archival mountain" and a town at the foot of the mountain, this dramatic building contains the collections of the American Heritage Center and the UW Art Museum. It is located at 2111 Willett Drive, just north of the Arena Auditorium and War Memorial Stadium.

American Heritage Center

Paul Flesher, Director

(307) 766-4114

Web site: <http://ahc.uwyo.edu>

The American Heritage Center (AHC) is the university's repository of manuscripts collections, its rare books library, and its official archives. The Center is one of the largest and most consulted non-governmental repositories in the United States. In 2010 it was recognized as one of the most distinguished archives in the nation when it received the Society of American Archivists' Distinguished Service Award.

The Center places service to UW undergraduates, graduate students, and faculty as its highest priority. However, because the AHC's collections are known worldwide, UW undergraduates using the Center's holdings might be working alongside scholars from Japan or Nigeria or the producers of PBS's *American Experience*.

The AHC's collections are of interest to far more than history majors. Each year Center archivists work with students in more than two dozen disciplines at UW: Art, African-American Studies, Agricultural Education, American Indian Studies, American Studies, Anthropology, Botany, Business Administration, Civil Engineering, Creative Writing, Energy Law, Geography and Recreation, History, International Studies, Lab School, English, Music, Nursing, Pharmacy, Political Science, Religious Studies, Secondary Education, Sociology, University Studies, Women's Studies, Zoology. The AHC also works with a dozen public school classes annually.

- Like most major university repositories, the AHC collects both regionally and nationally in select areas. Major subject concentrations of the 75,000 cubic foot manuscript collections include Wyoming and the American West, the mining and petroleum industries, Western politics and leadership, conservation, journalism, transportation, and 20th century entertainment such as popular music, radio, television, and film.
- The Toppan Library is the University's rare book center. More than 50,000 items range from medieval illuminated manuscripts to the 21st century. Subject strengths include the American West, British and American literature, early exploration of North America, religion, hunting and fishing, natural history, women authors, and the book arts. Unlike most rare book libraries, it is an active teaching site and welcomes both undergraduates and the public.

The AHC website has earned several national awards. Our digital collections contain 100,000+ photos and historical documents: <http://digitalcollections.uwyo.edu>.

The faculty archivists of the AHC are state, regional, national, and international leaders in their fields, speaking and publishing on historical, archival, and library topics. Several teach national workshops. The Center's reference archivists are leaders in their profession in undergraduate outreach and instruction. Students and faculty are encouraged to visit and make use of the collections - no appointments are necessary. The American Heritage Center hours are: Reading Room (M, 10am-7pm; Tu-F, 8am-5pm) / Toppan Library (M-F, 8:30am-5pm) / Building (M-F, 8am-5pm).

American Heritage Center Faculty:

SARA C. DAVIS, B.A. University of Wyoming 2005; 2012; M.S.L.S. Simmons College 2016; Associate Archivist 2018.

RACHEL GATTERMEYER, B.A. The Ohio State University 2013; M.L.I.S. University of Illinois Urbana-Champaign 2015; Assistant Archivist 2018.

GINNY KILANDER, B.A. Indiana University 1992; M.A. University of Wyoming 1998; Archivist 2017, 1999.

MOLLY MARCUSSE, B.A. University of Michigan 2010; M.L.S. University of Maryland 2013; Assistant Archivist 2015.

LESLIE C. WAGGENER, B.A. University of Texas, Austin 1995; M.L.I.S. 2000; Archivist 2018, 2000.

D. CLAUDIA THOMPSON, B.A. Metropolitan State College, Denver 1977; M.A. University of Denver 1978; Archivist 2016, 1995.

JOHN WAGGENER, B.A. University of Wyoming 1994; M.A. 2001; Archivist 2018, 2000.

Art Museum

Marianne Eileen Wardle, Director

(307) 766-6622

Web site: <http://www.uwyo.edu/artmuseum>

Located on the eastside of campus in the award-winning Centennial Complex, the Art Museum was established to "bring the world of art to Wyoming." As an academic museum and a leader in the arts, the Art Museum collects, preserves, exhibits and interprets art to inspire creativity and nurture lifelong learning for the people of Wyoming.

The Art Museum's permanent collection comprises over 8,000 objects, including European and American paintings, prints, sculpture and drawings, special collections of 18th and 19th century Japanese Ukiyo-e prints, 15th through 19th century Persian and Indian miniature paintings, 20th century Haitian art, 20th century Japanese netsuke, 20th century and contemporary photography, and Rapa Nui, Papua New Guinea, African, and Native American artifacts. Exhibitions are curated from the permanent collection, contemporary art by regional, national and international artists, and art from the American West to support the academic mission of the University of Wyoming, provide original resource material for students of all ages, and enhance the cultural life of Wyoming's citizens and visitors. The Art Museum provides extensive education programs for all ages, including preschool through 12th grade, university community and life-long learners. Museum experiences can be scheduled for all ages and are based on the model of observe, question, explore, create, and reflect. These experiences are active learning and often involved time in the galleries and studios planned and facilitated by a trained educator or curator. Each visit is tailored to group needs and can be tied to curriculum goals or group outcomes as needed.

The museum's statewide outreach programs include the Ann Simpson Artmobile and the Regional Touring Exhibition Service, which provide art-filled and creative opportunities to Wyoming people in even the most remote communities and underserved situations. The Artmobile brings original art and programming delivered by a professionally trained museum educator to schools, community centers, libraries, art spaces and adult-living centers. For a small one-way shipping fee, the Regional Touring Exhibition Service circulates exhibitions of original art from the permanent collection to venues across the state. Curriculum guides and interpretive materials are included.

The Art Museum is free to all and is open Tuesday through Saturday, 10:00 a.m.-5:00 p.m. Hours are extended to include Thursdays until 7 pm during the academic year. Additional information on the Art Museum is available on its webpage, www.uwyo.edu/artmuseum; Facebook (University of Wyoming Art Museum), Instagram (#uwartmuseum) and YouTube (uwartmuseum).

Art Museum Faculty

KATIE CHRISTENSEN, B.F.A. University of Wyoming 2003; M.F.A. Bowling Green State University 2011; Curator of Education and Statewide Engagement/Assistant Lecturer 2015.

RAEHEL COOK, B.A. University of Northern Colorado 2010; M.F.A. Kansas State University 2014; Curator of Academic Engagement/Assistant Lecturer 2018.

NICOLE CRAWFORD, B.A. University of Nebraska 1997; M.A. 2005; Chief Curator/Associate Lecturer 2017, 2009.

SARITA TALUSANI KELLER, B.F.A. University of Houston 1997; M.Ed. 2002; Ph.D. University of North Texas 2014; Artmobile Educator/Assistant Lecturer 2018.

MARIANNE EILEEN WARDLE, B.A. Utah State University 1992; M.A. Brigham Young University 1997; Ph.D. Duke University 2010; Director 2018.

Anthropology Museum

The museum offers exhibits related to the four subfields of anthropology: archaeology, biological, linguistic, and cultural. The main gallery follows the "Human Odyssey," from the evolution of humans in Africa several million years ago to the spread of our species throughout the world, and on to the Late Pleistocene entry into the Americas. The Colby Mammoth Site, the Vore buffalo jump and other Wyoming archaeology sites are featured, with much of the

museum devoted to a celebration of the rich Native American heritage of the Plains and Rocky Mountains. Other displays featuring archaeological research and world cultural diversity can be found in hallway displays throughout the building.

The Anthropology Museum is open 8 a.m. to 5 p.m. Monday through Friday during the academic year. During the summer, hours are from 7:30 a.m. to 4:30 p.m. Monday through Friday.

Division of Information Technology

Robert Aylward, Vice President for Information Technology

IT Center, Room 372, (307) 766-4860

Web site: www.uwyo.edu/InfoTech

The Division of Information Technology provides students, faculty and staff with technology infrastructure and support services- -computing systems, networking, technical support for systems and applications, computer support, academic and classroom technology support, training, telecommunications services, and research computing support including high performance computing. Use of these University computing and data facilities is governed by UW Regulation 3-690, Ethical Use of Computers and Data Communications Facilities.

The office of the Vice President of the Division of Information Technology is located in room 372 of the Information Technology Center and is open during normal business hours. Those in need of assistance are encouraged to call the Client Support Help Desk at 766-4357, option 1.

IT Service Center: provides technology support during normal business hours. The fastest way to contact the UWIT Service Center is to browse our Service Catalog and Knowledge Base at uwit.uwyo.edu. Our Knowledge Base contains self-help documents and videos, as well as information on IT services we provide to our campus community. Other options to contact the help desk are to email userhelp@uwyo.edu or call 307-766-HELP (4357), option 1. You can also chat with the Service Center at support.uwyo.edu. IT Service Center hours are posted at www.uwyo.edu/InfoTech/services/helpdesk/.

IT Walk-In Service Center and Resnet: provides help to students, faculty, and staff with personal computers and mobile devices. The Walk-In Service Center is located in the ITC building room 160 and is typically open Monday - Friday, 9am - 4pm with reduced hours during breaks and the summer months. The Walk-In Service Center is closed during all University holidays.

One of the primary goals of the Service Center while helping with personal computing devices is to teach customers. Therefore, Information Technology does not allow devices to be dropped off to be repaired. IT requests its customers to take an active role and remain with their device while any repair work is underway. The IT Walk-In Service Center also provides one-on-one consulting if help is needed in purchasing a new personal computer or mobile device. More information on the Walk-In Service Center can be found at www.uwyo.edu/resnet.

Telecom Services: provides a range of telecommunications services including phone and data connections, long distance and voice mail. Contact Information Technology's Telecom Help Desk by calling 766-HELP (4357), option 2, or email teledesk@uwyo.edu to request these services.

Internet and Network Access: an extensive campus-wide data network provides connectivity to the Internet in all occupied campus buildings, computer labs across campus, and university housing. Wireless Ethernet (Wi-Fi) is available in most campus locations. Students, faculty, and staff should connect to the UWyo wireless network, since it is a faster, more secure connection than UWguest. More information can be found at www.uwyo.edu/askit or call the IT Help Desk at 766-HELP (4357), option 1.

Computer Labs: are located throughout campus for students, faculty, and staff use. The computer labs contain computers with a wide variety of software and computing equipment. Some labs are staffed by student lab assistants who are able to answer questions. Computer labs in Coe Library and the Information Technology Center are open and

staffed 24 hours during the normal academic year. The UWStudent Remote Lab System is a collection of lab machines that are designed to be accessed from off campus networks. The remote lab is configured similar to the UWStudent labs found on campus.

More information, including a link to the UW Student Remote Lab System, a complete listing of labs, lab schedules, and software policies, is available online at microlab.uwyo.edu. For questions and assistance, please e-mail userhelp@uwyo.edu or call the Help Desk at 766-HELP (4357), option 1.

Classroom Technology Support (CTS): provides support and maintenance for audio visual and other technology used in classrooms and technology spaces across campus. For immediate assistance when teaching in a general pool classroom, pick up the phone; the phone will automatically connect to the UW IT Help Desk at the top of the queue. If the issue cannot be resolved over the phone, someone will arrive promptly to provide assistance. If you are in a room other than a general pool classroom, call the help desk at 766-4357 or press the help icon on the lectern touch panel. Please let them know if you require immediate help or if you do not want your class interrupted. Workshops for classroom technologies are available by request. Call 766-2872 for more information. Please go to www.uwyo.edu/centralscheduling/classroom-building/training.html for further details. Lecture capture technology (Wyocast) is available in several classrooms on campus. For more information on this popular technology please visit <http://www.uwyo.edu/infotech/services/multimedia/wyocast/>.

Data Center Operations (DC Ops): manages and operates the 6,000 ft² University Data Center, located in the Information Technology Center. The Data Center provides a state of the art, highly redundant infrastructure space for university IT equipment. University departments may apply for co-location space in the Data Center to house production computing equipment. For more information on co-location, contact Data Center Operations at operate-it@uwyo.edu.

Computer Maintenance: provides repair and general hardware support for PCs, laser printers, and other equipment as well as manufacturer warranty repair support for most Apple, HP, Dell, and Lenovo products. Computer repair requests may be submitted by filling out the web form at uwyo.teamdynamix.com/TDClient/Requests/ServiceCatalog?CategoryID=3285 or by contacting the Help Desk at 766-HELP (4357), option 1.

Software Sales: provides Adobe, Microsoft and statistical software to eligible faculty, staff, and students. For more information on available software and licensing information, please visit uwyo.teamdynamix.com/TDClient/Requests/ServiceCatalog?CategoryID=3091.

Geological Museum

Hours: Mon.-Sat. (10:00am-4:00pm), closed holidays

(307) 766-2646

E-mail: geolmus@uwyo.edu

Web site: www.uwyo.edu/geomuseum

The Geological Museum, in the east wing of the S.H. Knight Geology Building, exhibits the story of ancient Wyoming. Highlight exhibits include: a fully mounted skeleton of the well-known dinosaur *Apatosaurus (Brontosaurus)*; a mounted skeletal cast of the world-renowned "Big Al" the *Allosaurus*; a 50-million-year-old garfish from Wyoming's Green River Formation (one of the largest complete freshwater fossil fish on display in the world); casts of skulls of Wyoming's state dinosaur, *Triceratops*; and its contemporary, *Tyrannosaurus rex*; mounted skeletons of Miocene rhinos and camels; an interactive augmented reality sandbox, our fossil prep-lab, and a fluorescent mineral room, featuring specimens from Wyoming and the world. The museum maintains important display collections (particularly vertebrate and invertebrate fossils) that are available for study by students, as well as scientists from other institutions. The museum provides unique opportunities for undergraduate and graduate students to pursue research and display projects in Wyoming paleontology, and for students minoring in museum studies to gain valuable experience with natural history museums and collections.

William D. Ruckelshaus Institute of Environment and Natural Resources

Position currently vacant, Director

Bim Kendall House

804 E. Fremont St.

Laramie, Wyoming 82072

Phone: (307) 766-5080, Fax: (307) 766-5099

Email: ruckelshaus@uwyo.edu

Web site: www.uwyo.edu/haub/ruckelshaus-institute

The William D. Ruckelshaus Institute supports effective environment and natural resource decision making through compelling communication, applied research, and collaborative decision-making approaches. The Ruckelshaus Institute is housed within the Haub School of Environment and Natural Resources at the University of Wyoming, whose mission is to advance understanding and resolution of complex environmental and natural resource challenges.

Science Communication and Outreach: The Ruckelshaus Institute makes research available to stakeholders through accessible publications and by convening conferences on critical natural resource issues. The institute's annual magazine, *Western Confluence*, communicates university research on natural resource questions to a range of environmental and natural resource stakeholders. The institute also shares stories of new research findings relevant to environment and natural resource decision-making through a range of media formats including reports, press releases, films, social media, and more to engage the public on complex natural resource issues.

Applied Research: The Ruckelshaus Institute conducts surveys, spatial data analysis, information synthesis, and other methods to address questions related to such topic areas as private land conservation, wildlife management, energy development, and others.

Collaborative Solutions: The Ruckelshaus Institute supports sound, inclusive approaches to environmental conflict resolution by facilitating and convening collaborative processes, offering trainings in collaborative decision making for natural resource professionals, and teaching courses in negotiation theory and practice for UW students. The Collaboration Program in Natural Resources is a yearlong professional development series to train natural resource professionals in negotiation, facilitation, and collaborative processes.

Wyoming Geographic Information Science Center

Jeff Hamerlinck, Director

Agriculture C, Room 337 (307) 766-2532

E-mail: wygisc@uwyo.edu

Web site: www.uwyo.edu/wygisc

The Wyoming Geographic Information Science Center (WyGISC) has a mission to advance the understanding and application of geographic information science through basic and applied research, education and training, information and technology transfer, and by promoting utilization of geospatial technologies for science, management, and decision making within the University and throughout the state and region. Examples of geospatial technologies include geographic information systems, geographic cartography and visualization, Global Positioning System-based mapping, and image processing of remotely-sensed Earth resource data derived from aircraft or satellites. Broad applications areas exist in both environmental and social sciences, as well as agriculture, engineering and business.

Established in 2001, WyGISC operates under the Office of Academic Affairs and in close coordination with the Office of Research and Economic Development, providing assistance to all units on campus and to numerous private, local,

state, and federal entities in Wyoming and the Rocky Mountain region. Services include research collaboration, technical expertise, geospatial technology short course training, and geospatial data dissemination.

GIST Curriculum:

Beginning in fall 2019, WyGISC began offering undergraduate and graduate courses and credentials in geospatial information science and technology under the GIST prefix. Credentials include undergraduate certificates in GIS and Remote Sensing, a Professional Master's Degree (online with no thesis), a Research Master's Degree (with thesis), and graduate certificates in GIS, Remote Sensing, and Unmanned Aerial Systems (UAS). These courses and credentials provide fundamental education in geographic information systems and remote sensing to students from across disciplines at UW.

WyGISC encourages undergraduate and graduate student participation in its research projects and has sponsored students from the McNair Scholars Program and other student research apprentice programs, as well as graduate students affiliated with participating departments and research centers. Part-time employment and internship opportunities are often available. Inquiries may be directed to the center using the contact information provided above.

Statistical Consulting Center

Ken Gerow, Director

337 Ross Hall, (307) 766-6600

The Statistical Consulting Center, a unit of the Department of Statistics, exists to coordinate the statistical knowledge and skills available within the department with the subject-matter expertise of other scientists throughout the university, and to bring that combination to bear on applied research problems in diverse areas. The center can provide assistance in research design, sampling, data collection, and/or data analysis for the full range of research needs. The initial consultation is free. Thereafter, a variety of mechanisms are available to acknowledge the contributions of statistical consulting to a given research project, including co-authorship on a scholarly publication, membership on a thesis or dissertation committee, direct compensation to the consultant at private consulting rates, subcontracting with the center on a grant project, etc. On occasion, the center can also offer paid employment and internships to graduate students who have appropriate training and skills to assist other researchers. For further information about any of the services available through the Statistical Consulting Center, please contact the center via the contact information above.

Wyoming Survey & Analysis Center

Tiffany Comer Cook, Interim Executive Director

UW Office Annex, Second Floor

Dept. 3925; 1000 E. University Ave.

Laramie, Wyoming 82071

Phone: (307) 766-2189, Fax: (307)766-2759

Email: wysac@uwoyo.edu

Web site: www.uwoyo.edu/wysac

The Wyoming Survey & Analysis Center at the University of Wyoming seeks to provide clear, accurate, and useful information to decision-makers through applied social science research, scientific polling, information technology services, and rigorous program evaluation. Without bias and with the highest standards of validity, WYSAC collects, manages, analyzes, and reports data for public and private sectors in Wyoming and throughout the nation.

WYSAC has four research areas. By Executive Order, WYSAC serves as Wyoming's statistical analysis center for criminal justice research. The Center for Criminal Justice Research (CJR) at WYSAC collects and analyzes criminal

justice data to enable effective planning, practice, and policy development for the State of Wyoming. The CJR is also active nationally as a member of the Justice Research and Statistics Association.

The Center for Information Technology Services specializes in web-based applications, database management, and website development. We create case management programs, desktop applications for data management, prevention and evaluation data entry systems, and interactive online data visualizations.

The Center for Research and Evaluation conducts studies to inform programming, funding, and policy decisions, especially in the areas of public health, substance abuse prevention, and education. We collect qualitative and quantitative data, compile administrative records, conduct statistical analyses, interpret findings, write reports and fact sheets, conduct needs assessments, create evaluation plans and logic models, and write grant applications.

The Survey Research Center (SRC) specializes in survey design, administration, sampling, and data analysis. The SRC conducts phone, mail, internet, and mixed-mode surveys using current technologies and WYSAC's in-house call center. The SRC has expertise in weighting survey data, conducting statistical analysis of the collected data, and creating technical reports and PowerPoint presentations of the results.

WYSAC offers paid employment for students who are looking for experience in social science research. Contact us for additional information, or search for current job openings on UW's website.

UW National Park Service Research Center

(307) 766-4227

Web site: www.uwyo.edu/uwnps

The research center operates in a field station at the historic AMK Ranch in Grand Teton National Park, located 65 km north of Jackson, Wyoming. The field station provides scientists abundant research opportunities in the diverse terrestrial and aquatic environments of Grand Teton and Yellowstone National Parks as well as the surrounding National Forests and Wilderness areas that make up the entire Greater Yellowstone area (GYA). The station has housing for up to 60 researchers and provides terrestrial and aquatic laboratories, boats, field equipment, conference rooms, internet service and a library, all on site. A small grants program provides funding yearly for individual proposals up to \$5,000 as well as scholarship and intern funding for projects conducted in the GYA. Field courses and conference are accommodated in the spring and fall seasons. A weekly seminar series with a barbecue dinner is presented throughout the summer.

Inquiries concerning the UW-NPS Research Center program should be addressed to: Director, University of Wyoming-National Park Service Research Center, Dept. 3166, 1000 E. University Ave., Laramie, WY 82071 or emailed to uwnps@uwyo.edu.

Red Buttes Environmental Biology Laboratory

Within a few miles of Laramie, the Department of Zoology and Physiology operates the Red Buttes Environmental Biology Laboratory, a 9,600-square-foot facility equipped to handle both aquatic and terrestrial vertebrates. An aquatic ecology and toxicology laboratory, uniquely designed to accommodate a wide range of test conditions of water flow, temperature and composition, is available within the facility. Animal holding and surgical rooms are specifically constructed to accommodate experimentation on small (e.g. mice, squirrels), medium (e.g. coyote, badger) and large (e.g. elk, bighorn sheep) mammals. Outdoor corrals and fish runs are also available on the 400-acre site.

Inquiries concerning the Red Buttes Environmental Biology Laboratory should be addressed to the Department Head, Department of Zoology and Physiology, Dept. 3166, 1000 E. University Ave., Laramie, WY 82071, or (307) 766-3333.

Rocky Mountain Herbarium

Located in the Aven Nelson Building, the Rocky Mountain Herbarium and the associated U.S. Forest Service National Herbarium contain more than 1,250,000 plant specimens. The primary functions of the herbarium are to (1) serve as a source of information on the flora of the Rocky Mountain region in general and Wyoming in particular; (2) aid in the identification of plants submitted by ranchers, farmers, county agents, and state and federal agencies throughout the region; and (3) serve as a source of research and teaching material in systematic and ecological botany. Thousands of specimens are loaned each year to recognized institutions throughout the United States where research requires a knowledge of western plants. The web site (www.rmh.uwyo.edu) contains data on more than 700,000 specimens as well as thousands of specimen images and interactive distribution maps.

Open to university students and other qualified researchers, the herbarium invites queries regarding the identification of plants. Those persons wishing assistance in the identification of a plant should send two specimens to the herbarium. Inquiries should be addressed to The Curator, Rocky Mountain Herbarium, Department of Botany, Dept. 3165, 1000 E. University Ave., Laramie, WY 82071.

University of Wyoming Museum of Vertebrates

(307) 766-6227 & (307) 766-6169

Email: ewommack@uwyo.edu & mcarling@uwyo.edu

Web site: www.uwymv.org

The mission of the University of Wyoming Museum of Vertebrates (UWYMV) is to document and understand regional and global biodiversity through acquisition and investigation of collections to advance academic knowledge and public appreciation of the natural world. While its holdings primarily contain vertebrates found in the Rocky Mountain Region, the museum also houses specimens from all across the world. Although the UWYMV has no formal exhibits and is not regularly open to the public, its collections are widely used by researchers, educators, and for outreach activities.

To learn more about the UWYMV, including how to access our collections or schedule a tour, please visit www.uwymv.org.

Collections Location: The UWYMV collections can be found on the ground floor of the Berry Biodiversity Conservation Center, rooms 133 and 119.

Wilhelm G. Solheim Mycological Herbarium

The Wilhelm G. Solheim Mycological Herbarium, housed on the third floor of the Aven Nelson Building, facilitates the study of symbiotic and biotrophic fungi. The herbarium contains approximately 50,000 specimens of fungi from around the world and the largest collection of fungi in the Rocky Mountain Region. These collections are available for study by qualified students and researchers. Specimens may be borrowed by institutions without charge for a one-year period. Inquiries should be addressed to The Curator, Solheim Mycological Herbarium, Department of Botany, Dept. 3165, 1000 E. University Ave., Laramie, WY 82071.

Louis O. and Terua P. Williams Conservatory

Hours: Monday-Friday 10:00am-2:00pm, closed holidays

(307) 766-4336

Web site: www.uwyo.edu/conservatory

Email: conservatory@uwyo.edu

The Williams Conservatory is a year-round multipurpose facility that has promoted botanical research, education, and outreach since 1994. Located in the Aven Nelson building at the University of Wyoming, our greenhouse is home to over 600 tropical, neotropical, temperate, and arid species from around the world. Conservatory facilities are used by researchers, educators, students in both K-12 and post-secondary levels, artists, horticulture enthusiasts, and the general public. Walk-ins are welcome, or contact us in advance to schedule a guided tour.

Wyoming Cooperative Fish & Wildlife Research Unit

(307) 766-5415

Web site: www.coopunits.org/Wyoming

Email: wyo-coop@uwyo.edu

The Wyoming Cooperative Fish and Wildlife Research Unit is supported by the University of Wyoming, the Wyoming Game and Fish Department, the U.S. Geological Survey and the Wildlife Management Institute. The three permanent unit leaders serve as full faculty in the Department of Zoology and Physiology.

The Unit conducts research on many types of fish and wildlife issues. A primary emphasis is on evaluating the ecology and management of fish and wildlife in the northern Rocky Mountain region. Much of the Wyoming Game and Fish Department's field research is conducted through the Unit. Both students hired as technicians as well as graduate assistants are involved in Unit research. Additional details of the Unit's research program can be found at www.wyocoopunit.org.

For further information contact the Wyoming Cooperative Research Unit, Dept. 3166, 1000 E. University Ave., Laramie, WY 82071, or wyo-coop@uwyo.edu.

Wyoming State Veterinary Laboratory

1174 Snowy Range Road, (307) 766-9925

E-mail: vetrec@uwyo.edu

Web site: wyovet.uwyo.edu

Located west of campus and operated by the Department of Veterinary Sciences, the Wyoming State Veterinary Laboratory (WSVL) is responsible for diagnosis and reporting of animal diseases. Areas of expertise include morphological and clinical pathology, bacteriology, virology, toxicology, parasitology, electron microscopy, molecular diagnostics, and serology.

Cooperative diagnostic and research activities are conducted with various state and federal agencies. The WSVL building also houses a UW classroom, laboratories for the Wyoming Game and Fish Department, and Wyoming Department of Agriculture Analytical Services Laboratory. Students are encouraged to conduct domestic and wildlife disease research in an interdisciplinary setting.

For further information contact WSVL, 1174 Snowy Range Road, Laramie, WY 82070.

Scholarships and Financial Aid

- Eligibility Requirements
- Enrollment Requirements
- Satisfactory Academic Progress (SAP)
- Financial Aid Federal Return of Funds Policy
- Funds Distribution
- Veterans Educational Benefits
- National Guard Benefit

The Office of Scholarships and Financial Aid (OSFA) coordinates all student financial assistance available at UW. Available aid includes scholarships, grants (Hathaway Scholarships, Federal Pell, Federal SEOG, TEACH, Iraq and Afghanistan Service Grant), loans (Federal Direct, Federal PLUS and private) and employment (Federal Work-Study).

OSFA will help all qualified applicants to secure aid, but resources are limited. Aid is offered first to those applicants whose materials are completed and received by February 1 prior to the academic year for which aid is sought. Federal Pell Grants and Federal Direct Loans are available to qualified applicants throughout the year.

Unless another deadline is specified, prospective students seeking scholarships should send an application for admission, the nonrefundable application fee and a copy of their current high school or college transcript to the UW Admissions Office by March 1. Students who have attended another college must have that college submit an academic transcript to the UW Admissions Office.

Students seeking federal aid or assistance based on their financial need must file a Free Application for Federal Student Aid (FAFSA). Applicants may do so at studentaid.gov. Allow one week for processing. UW recommends using IRS Data Retrieval when completing the FAFSA. Final responsibility for ensuring that all required documents are received in a timely manner rests with the applicant. The FAFSA will be available October 1 for completion.

Eligibility Requirements

To receive federal financial aid (such as Federal Pell, Federal SEOG and Federal TEACH, Iraq and Afghanistan Service grants, Federal Work Study, Federal Direct [subsidized or unsubsidized], and Federal Direct PLUS loans) you must meet the following conditions and provide supporting documentation when requested to do so: have a high school diploma or its equivalent, be enrolled or accepted for admission as a regular student at UW, not be concurrently enrolled in an elementary or a secondary school, be enrolled in a degree program, be a U.S. citizen or eligible non-citizen, have a demonstrated financial need if required, be prepared to prove attendance, maintain satisfactory academic progress (SAP), not be in default on a federal student loan or owe an overpayment of a federal grant at any institution (or, if so, have made satisfactory arrangements to repay or otherwise resolve the overpayment or default), not have borrowed in excess of the annual or aggregate loan limits of a federal loan program (loan borrowers only), agree to use funds received only for educational costs.

Enrollment Requirements

Students must attend classes to be eligible for federal financial aid or be prepared to pay all the money back. Most scholarships require the recipient to be enrolled full time. Hathaway Scholarships, Federal Pell Grants, and veteran's benefits may be pro-rated for part-time enrollment and Federal Direct Loans may only be borrowed by students enrolled for at least half time (a minimum of 6 hours for undergraduate and pharmacy students; a minimum of 4.5 hours for graduate and law students). Federal Pell Grants and Federal SEOG Grants are available to undergraduate students who have not completed the requirements for their first undergraduate degree. Classes for audit are not acceptable for any kind of financial aid. Generally, Federal aid is not available for continuous registration hours, or for audit hours. For details, contact the Office of Scholarships and Financial Aid.

Satisfactory Academic Progress (SAP)

The University of Wyoming Office of Scholarships & Financial Aid is responsible for ensuring that all students receiving federal financial aid meet minimum standards.

If you are looking to appeal your "**Not Eligible**" SAP status, please read and understand the below policy. Once you have read and understood the policy, please complete the SAP Appeal and Academic Plan form. Please refer to our Frequently Asked SAP Questions page for more information regarding the appeal process.

Satisfactory Academic Progress is reviewed at the end of each semester (fall, spring, and summer) and the following three areas are measured:

1. **Institutional Cumulative Grade Point Average**

- Undergraduate & Professional programs - 2.0
- Graduate programs - 3.0

2. **Completion Percentage (Pace)**

A student's earned hours must equal or exceed 67% of all cumulative attempted hours since beginning classes.

- Courses that are Failed, Withdrawn, Unsatisfactory or Incomplete are considered attempted but not earned hours.
- Audit, Correspondence, Credit by exam, Remedial and Enrichment courses do not count as attempted or earned.
- Successfully completed courses (grades of A, B, C, D, S), transfer hours accepted toward completion of student's program, academic renewal hours earned through previous enrollment, advanced placement credit, credits earned through Study Abroad and Consortium agreements, credits earned while student is not receiving federal aid and experiential learning credits are all counted as attempted and earned.
- Overall Earned Credits / Overall Attempted Credits = Pace

3. **Maximum Timeframe**

A student is eligible for financial aid until they have attempted 150% of the minimum credit hours required to earn a specific degree. The University of Wyoming sets the following maximum timeframe for student degrees:

- Undergraduate - 180 hours (150% of 120 hours)
- Master's Program - 45 hours (150% of 30 hours)
- Doctorate Program - 108 hours (150% of 72 hours)
- Law - 135 hours (150% of 90 hours)
- Pharmacy - 213 hours (150% of 142 hours)

Transfer hours are included in the calculation of the Maximum Timeframe. When pursuing multiple degrees or changing majors the maximum timeframe may be adjusted based on a student generated appeal that includes a degree audit. All attempted credit hours are considered when calculating the maximum timeframe regardless of whether or not the student received financial aid for those hours. Any student with hours over the maximum timeframe are "Not Eligible" for further federal financial aid until a SAP appeal is received and approved by the committee. There will be no warning semester. Submitting an appeal does not guarantee approval. Students awaiting a decision on their SAP appeal are responsible for paying their tuition and fees by the payment deadline.

Financial Aid Eligibility Statuses

1. **Financial Aid Warning**

Students who have not met the minimum standard requirements for the previous semester will be placed on a 'Warning' status. Students on 'Warning' status are eligible for financial aid for one additional semester. Students who do not meet minimum standard requirements at the end of their 'Warning' semester will be 'Not Eligible' for the next semester.

2. **Financial Aid Probation**

Students who have successfully appealed a status of "Not Eligible" are placed on probation and are eligible to receive federal aid for one more semester. After Probation, the student must be making SAP or successfully following their Academic Plan. Students are reviewed at the end of each semester for compliance with their Academic Plan and SAP Standards.

3. **Not Eligible**

A student who does not meet SAP requirements at the end of the warning semester, whose SAP appeal has been denied, who has not fulfilled the requirements of their academic plan or who has met their maximum timeframe will be categorized as "Not Eligible."

Reinstatement

If a student loses federal financial aid eligibility due to not meeting SAP standards or their appeal was denied, they can regain eligibility in one of the following ways:

1. Completing courses using their own resources that will satisfy the deficient SAP area.
2. Successfully appealing by submitting a SAP Appeal Form with supporting documentation.
3. Taking a minimum of 2 classes, 6 hours, no fails, no withdrawals and grades of "C" or better on their own. If successful, student can appeal for the next term.

SAP Appeal Process

A student that is "Not Eligible" for federal financial aid has the option to appeal. The student must submit a complete appeal form to the Office of Scholarships and Financial Aid by the end of the drop/add period of the term in which they are appealing. The complete appeal form including the academic plan and all supporting documentation will be presented to the SAP Appeal Committee. The SAP Appeal Form must include the following:

- an explanation of any extenuating circumstances that prevented the student from maintaining Satisfactory Academic Progress,
- an explanation of what has changed that will allow the student to succeed academically, and
- an Academic Plan signed by their academic advisor that will enable student success

All appeals are reviewed by a SAP committee. The review time for appeals may take 7-10 business days. Students will be notified of the results by email. If the appeal is granted, the notification will explain the terms of the approval. If the appeal is denied, students may request an additional review by the Director of Scholarships & Financial Aid if they have something that was not included in the original appeal to be considered. The Director's decision is final.

Items to consider:

- Being declared 'Not Eligible' for federal financial aid does not mean a student has been academically dismissed from the University of Wyoming.
- Many scholarship recipients are required to maintain a higher credit hour level or grade point average than outlined in this policy. Guidelines on the minimum acceptable credits/grade point average for scholarship recipients are outlined by donors or in acceptance notices signed by the recipient.
- Students must submit complete appeal form with academic plan and supporting documentation by the end of add/drop period. Advisor signature and certification are required on the academic plan.
- Repeated courses:
 - A student can repeat a course one time and still receive federal aid for that course. On the third attempt, federal aid will not pay for that course.
 - All repeated courses will be calculated again in attempted hours and could pull down completion percentage (pace).

Financial Aid Federal Return of Funds Policy

A student who receives federal financial aid (other than Federal Work Study pay checks) and chooses to complete less than 60% of an academic term is considered not to have earned all the federal aid he or she has been awarded.

- If aid already disbursed is equal to earned aid, no further action is required.
- If aid already disbursed is less than earned aid, additional aid may be offered to the student after he or she withdraws.
- If aid already disbursed is greater than earned aid, UW and/or the student must return some federal funds.

To determine whether federal funds have been earned or must be returned, UW follows this procedure:

1. Determine the percentage of the term the student completed. This is calculated by dividing the number of calendar days (including weekends) in a term into the number of calendar days that the student was in attendance for that term.
2. Apply the percentage of time attended to the total amount of federal aid the student was eligible to receive for the term. This is the student's "earned aid."
3. Subtract the amount of earned aid from the amount of aid actually disbursed to the student. A positive remainder is the student's "unearned aid." A negative remainder is the student's "earned aid" that may still be offered to the student.
4. Determine the amount of unearned aid remaining that must be repaid by the student. Subtract the amount of unearned aid repaid by the institution from the total amount of unearned aid.

All unearned aid will be returned to the federal student loan lender or federal aid accounts in the following order: (1) Unsubsidized Federal Direct Loan; (2) Subsidized Federal Direct Loan; (3) Federal PLUS (Parent) Loan; (4) Federal Pell Grant; (5) Federal SEOG Grant. Any amount owed by the student on a grant will be reduced by 50%.

The date of a student's withdrawal from UW will be the date of the student's notification to the Dean of Students Office of an intent to withdraw if the student has no federal aid. For students who have received federal aid, the withdrawal date will be the last date of an academically related activity as reported by their instructors. When a student fails to officially withdraw from UW and has all F's at the end of the semester, the withdrawal date will be the latest date of an academically related activity as reported by their instructors.

UW will repay the lesser of (1) the total amount of unearned aid or (2) an amount equal to the student's institutional charges multiplied by the percentage of unearned aid. "Institutional charges" is defined as charges for tuition and fees, plus room and board charges for students living in UW residence halls and apartments. It does not include such charges as bookstore charges, student health insurance premiums, parking citations, or library fines.

The amount of unearned aid owed by the student on a loan may be repaid under the normal repayment terms of the loan. The amount of unearned aid owed by the student on a grant must be repaid immediately.

Any amount of earned aid not yet disbursed to the student will be offered to the student. Such offers will cover any undisbursed grants first, followed by the undisbursed loans.

Examples of how the amount of unearned federal aid a student must return is calculated are available from a professional adviser in the OSFA. A chart detailing the percentage of earned and unearned aid, by calendar day of the semester, is provided in the term's class schedule. In brief, to determine the percentage of earned federal aid, the calculation will use the total number of calendar days in the term divided by the total number of calendar days the student attended.

Funds Distribution

Each student who registers has his or her own student account with the university. Once a qualified student has registered for classes and accepted their awards on WyoRecords, the OSFA will authorize the electronic transfer of funds from UW financial aid accounts to the student's individual account at the university.

First-time borrowers of federal student loans must participate in entrance loan counseling (view a web presentation). All student loan borrowers must participate in an exit loan interview (on the web) prior to leaving UW.

Federal Work-Study funds are paid as payroll checks or direct deposit on a bi-monthly schedule. Payroll checks may be direct deposited or mailed to the student.

The university will automatically charge a student's account for tuition and fees based on the student's enrollment. Likewise, if the student is living in a university residence hall, room and board charges will be placed on the student's account.

Any financial aid credited to a student's account will automatically pay tuition and fees first and then charges for room and board in UW residence halls. Unless directed otherwise in writing by the student, any remainder will be applied to other university charges. If a negative balance results, a credit balance will be prepared by the university and will be refunded to the student through the University's electronic refunding process, unless a student elects for the Title IV credit balance to be held until and applied to a future semester in that aid year. All outstanding refunds will be refunded at the end of each aid year's spring semester and therefore cannot be held for a summer semester.

Scholarships awarded for the academic year will be split into two equal payments to the recipient's student account with one to be paid at the beginning of each semester. Most non-UW scholarships are paid in the fall semester unless the donor or selection committee specifically directs that it be paid differently.

Students enrolled in a domestic or international exchange program or a study abroad program approved by UW for academic credit are eligible to apply for federal student financial assistance. Likewise, students concurrently enrolled in classes at two or more eligible institutions of post-secondary education may apply for federal aid. A special consortium agreement between institutions must be completed prior to each semester a concurrently enrolled student seeks aid. Those granted a Federal Work-Study allocation have opportunities to perform community services to earn their allocation.

Information describing available aid, award criteria, rights and responsibilities of aid recipients, costs of attendance or refund and repayment policies and schedules is available by writing to Office of Scholarships and Financial Aid, Dept. 3335, 1000 E. University Ave., Laramie, WY 82071, or viewing the financial aid web site at www.uwyo.edu/SFA/.

Important: Students are assumed to be full-time when their initial financial aid is determined. If you plan to attend less than full-time in any semester, your financial aid will be adjusted to reflect your true tuition costs. It is always best to make the OSFA aware of your intended enrollment prior to the start of a semester so that accurate amounts of financial aid may be applied to your account.

Financial aid policies are subject to change without notice to reflect modifications in federal, state and institutional laws and regulations.

Veterans Educational Benefits

Students who have served in the armed forces may be allowed credit for courses taken in some military schools. Students who desire to apply for credit on the basis of the military schools should submit a copy of the DD-214 Form or its equivalent to the Office of the Registrar. Individual colleges will determine whether such courses will be applicable to degree programs.

All veterans seeking educational benefits must register with the veterans' certification specialist in the Office of Scholarships and Financial Aid, 174 Knight Hall, (307) 766-2525. This includes completing a veteran's registration card each semester. Those veterans not completing a veteran's registration card by the last day of the late registration period will be dropped from VA educational assistance at the university. Class load requirements for veterans are as follows:

Undergraduate and Pharm.D. Veterans:

Full-time	12 or more credit hours
3/4 time	at least 9, but fewer than 12 hours
1/2 time	at least 6, but fewer than 9 hours
Less than 1/2	registration credit hour fee reimbursement only

Graduate and Law Veterans:

Full-time	9 or more graduate credit hours or certification by the Office of the Registrar*
3/4 time	at least 7 but fewer than 9 graduate credit hours or certification by the Office of the Registrar*
1/2 time	at least 4.5, but fewer than 7 graduate credit hours
Less than 1/2	registration credit hour fee reimbursement only

*The final responsibility for seeing that the veterans' certification specialist has a certification from the Office of the Registrar rests with the student. It must be received by the last day of scheduled registration.

If any portion of a veteran's schedule is composed of courses which are less than the full semester in length (i.e., short courses, workshops, "blocked" courses, etc.), the rate of benefit payment may be affected. If you have any questions or concerns, contact the veteran's certifying official in the OSFA, 174 Knight Hall, (307) 766-2525.

Withdrawal from a class or classes could reduce a veteran's benefits for that term. For details, contact the veteran's certifying official in the OSFA.

National Guard Benefit

Active Wyoming National Guard members in good standing and considered to be satisfactory participants may apply to participate in the Guard's Education Assistance Plan. The Plan provides 100 percent tuition and mandatory fee payment for all courses (except repeated courses) leading to one degree at UW, as long as the recipient continues to meet academic and service commitment requirements. Recipients must agree to serve in the Guard for at least two years after earning their degrees. This benefit may be used concurrently with Veterans Educational GI Bill ® Benefits. For information and application packets, please contact the Wyoming National Guard at 800-832-1959, ext. 5262.

Tuition and Fees

- Semester Tuition and Fee Schedule 2022-23 (subject to change)
- Student Benefit Package and Insurance
- Tuition and Fee Payment
- Special Course Registration Fees
- Tuition Waivers
- Financial Holds

- Billing Statements and Student Accounts
- Summer Session
- Refunds/Cancellations
- Interaction of Federal Return of Funds Policy and Institutional Refund Policy
- Student WyoOne ID Cards

Semester Tuition and Fee Schedule 2022-23 (Subject to Change)

The University of Wyoming semester tuition and fee schedules for the 2022-23 academic year, which begins with fall semester 2022, will be available in the Fee Book at <http://www.uwyo.edu/administration/financial-affairs/feebook/> or from Student Financial Services, room 172, Knight Hall. Fall charges will post to accounts in WyoRecords by the end of July, spring charges will post by the end of November, and summer charges will post to accounts by the end of April.

Full-time undergraduate refers to undergraduate students enrolled for 12 or more hours, and part-time undergraduate refers to undergraduate students enrolled for less than 12 hours. At the graduate level, nine or more hours is considered full-time and less than nine hours is classified as part-time.

Student Benefit Package and Insurance

At the beginning of each semester, the student benefits package will be added to student accounts of all part-time students who have elected to purchase UW health insurance and have not been charged the mandatory student services fee. The benefits package allows part-time students the use of Student Health Service and Half Acre Gym as well as access to athletic events.

Graduate students taking less than 4.5 credit hours should contact their academic department and also refer to the "Graduate Student Optional Fee Package Petition" document, which may be found on the Office of the Registrar's website.

Students not assessed insurance who would like to purchase the benefits package, not for full-time status purposes, can fill out a form in Student Financial Services, 172 Knight Hall, and then pay for the package at the Cashier's Office, 170 Knight Hall, or online via the student financial portal. Main campus students enrolled in less than six hours or students in online-only programs are not automatically assessed the fee but are eligible to purchase the package.

Student medical insurance is mandatory for international students. International students are automatically enrolled in the medical insurance every fall and spring semester that they enroll in classes. Students may potentially waive this requirement if they meet university regulations and provide the necessary documentation by the add/drop deadline.

Each domestic enrolling student will be required, as part of the registration process, to make a student medical insurance selection. If the eligible student selects "YES" to the question, the premium will be assessed on the student's account. If the student selects "NO," they will not be assessed for the premium. Part-time students who select yes for the health insurance will also be assessed for the Student Benefit Package.

Domestic students are eligible for insurance if they are enrolled in at least 6 hours for undergraduate or 4.5 hours for graduate students. Students are not eligible for student health insurance if online or remote only.

For questions regarding the Student Medical Insurance program, contact the Student Medical Insurance Advocate (641 Hill Hall Hall) at (307) 766-3025.

Tuition and Fee Payment

All university charges are due by September 1 (fall), February 1 (spring), and June 1 (summer).

An institutional payment plan is available for students who need extra time to pay.

A non-refundable \$50.00 payment plan extension fee is charged per semester to all students that are not paid in full by the payment dates above. The payment plan adds three monthly installments for fall and spring and two installments for summer in addition to the first due date above. These are due on the 1st of the subsequent months. Registration holds and interest of 1.5% per month may be charged on all past due amounts.

Special Course Registration Fees

Additional charges (special course, college, advising, and program fees) must be paid by students enrolling in those courses and colleges with approved special fees. Fees for these courses and colleges will be indicated in the Fee Book. Program fees, assessed to all courses under 5000 level, are by the college in which the course is held and may be different than a student's primary program.

Tuition Waivers

If an employee, spouse of an employee or cooperating agency waiver is used for payment of tuition and/or fees, the properly completed and signed waiver must be received by the Student Financial Services office by the first day of the term. All waivers will be applied to accounts after the drop deadline. To be eligible for the waiver, the student must be a benefited employee by the first day of class. Please refer to Regulation 7-11 Tuition, Fees, Scholarships and Financial Aid for details of the benefit.

Financial Holds

A student failing to pay fees, charges, fines, penalties, deposits, or short term loans as prescribed by the Trustees of the University of Wyoming shall be denied registration at the university and copies of academic transcripts until such fees, charges, fines, penalties, deposits or short term loans are paid in full. A ten-day wait is required before a student loan hold can be removed if the debt is paid with a personal check. Contact Student Financial Services via email (sfs@uwyo.edu) or in person at Knight Hall 172 for information regarding financial holds.

If payment is made on a student account and the payment is returned to the University as a result of insufficient funds or otherwise, the student will have a hold on their account until the return payment fee in addition to the original amount is paid. Registered classes secured by a returned payment are subject to cancellation.

Billing Statements and Student Accounts

Students and authorized users are billed electronically each month and it is the responsibility of the student to review the statement information via the Student Financial portal and pay within the payment deadlines. Billing notifications are sent to the student's UW email address monthly, but current account activity can be viewed at any time via the Student Financial portal or the Authorized user portal.

Summer Session

Please refer to the Summer Course Schedule and Calendar for applicable deadlines. Shorter classes will have shorter refund periods.

Refunds/Cancellations

Tuition and course fees will be canceled or refunded to a student who officially drops a class or classes, withdraws from the university through the Dean of Students Office, or changes enrollment status (i.e. non-resident to resident; full-time to part-time) in accordance with the institutional refund policy outlined below.

No tuition penalty will be assessed for dropping and adding during the drop period identified in the term's class schedule. Students who withdraw from individual courses after the end of the drop/add period will have their charges canceled in accordance with the institutional refund policy outlined below.

Mandatory fees, program fees, advising fees, course fees, or service fees are not refundable after the drop period.

The portion of tuition refund/cancellation is computed from the first day of the term, not the class meeting pattern. If a student's initial registration includes blocked classes or short courses that begin at a later date, the refund/cancellation will still be computed from the first day of the block/session. If a student's initial registration occurs during an approved late registration period, the date for computing a refund/cancellation will be the first day of the term.

Institutional Refund Schedule for Full Semester Length Classes

Before the first day of the semester	100%
Semester Class Day 1-8	100%
Semester Class Day 9-15	75%
Semester Class Day 16-20	50%
Semester Class Day 21-25	25%
Semester Class Day 26 on	0%

Examples of these calculations are available in Student Financial Services.

Interaction of Federal Return of Funds Policy and Institutional Refund Policy

When a student who receives federal financial aid withdraws from the university, they may owe a repayment of federal funds, be due a refund from UW, or owe an additional amount to UW. For details on the application of these policies to a specific situation, please consult with Scholarships & Financial Aid, 174 Knight Hall, (307) 766-2116, as well as Student Financial Services, 172 Knight Hall, (307) 766-6232.

Student WyoOne ID Cards

167 Information Technology Center, (307) 766-5268

ID cards are issued to all students during their first semester of enrollment. These cards are used throughout the student's entire career at the university.

The ID card also referred to as the WyoOne card, is needed to pick up transcripts, financial aid, cash checks, access student health services, attend athletic events, enter recreation facilities, check out library books and materials, food service access, enter residence halls, and other necessities. Visit the online card office at www.uwyo.edu/idooffice/ to make deposits, view transaction history, and access other card management features.

The WyoOne card may also be used as a debit card to make purchases at some locations on campus after the deposit account is established. Spouses, domestic partners, and dependents of students are eligible for an ID card.

University Accreditation/Membership

- University Accreditation/Membership

University Accreditation/Membership

The University of Wyoming, and all UW academic programs are accredited by The Higher Learning Commission, a commission of the North Central Association of Colleges and Schools Commission on Institutions of Higher Education, 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604 or (800) 621-7440.

In addition, many individual academic programs are either approved, accredited or hold membership as indicated below.

Recognized or accredited by:

- ABET (formerly known as Accreditation Board for Engineering and Technology)
- Accreditation Association for Ambulatory Health Care, Inc.
- Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics
- Accreditation Council for Graduate Medical Education
- Accreditation Council for Pharmacy Education
- American Alliance of Museums
- American Association of Professional Landman
- American Association of Vet Lab Diagnosticians
- American Bar Association
- American Chemical Society
- American Dental Association
- American Psychological Association
- Association of American Law Schools
- Association to Advance Collegiate Schools of Business (AACSB)
- Council for Accreditation of Educator Preparation
- Commission on Collegiate Nursing Education
- Computer Science Accreditation Commission (a participating body of ABET)
- Council for Accreditation of Counseling and Related Educational Programs
- Council on Academic Accreditation in Audiology and Speech Language Pathology
- Council on Social Work Education
- International Association of Management Education
- National Association of Schools of Music

- National Association for Sport & Physical Education - Accreditation
- National Council for Accreditation of Teacher Education
- National Council on Family Relations
- Society for Range Management
- Specialized Professional Association-Licensure K12 Physical Education
- Wyoming Professional Teaching Standards Board

Holds membership in:

- American Association of Colleges of Teacher Education
- American Association of University Women
- American Council on Education
- American Society for Engineering Education
- Association for the Advancement of International Education
- Association of Academic Survey Research Organizations
- Association of American Colleges and Universities
- Council for the Advancement and Support of Education
- Council of Academic Deans from Research Education Institutions
- Council of Colleges of Arts and Sciences
- Council of Graduate Schools
- Justice Research and Statistics Association
- Greater Western Library Alliance
- Associate of Public and Land Grant Universities
- National Network for Educational Renewal
- University Professional and Continuing Education Association
- Western Association of Graduate Schools
- Western Cooperative for Educational Technology
- Western Interstate Commission for Higher Education

Assessment of Student Learning at the University of Wyoming

The University of Wyoming is committed to providing students with high quality academic programs and services. As a result, UW is actively engaged in several processes to assess student learning with the ultimate goal of continuous improvement. A university wide assessment plan and individual department plans are in various stages of implementation. The purpose of these plans is to identify and articulate student learning outcomes - the skills, abilities, and knowledge that students are expected to acquire by the completion of their programs - and the means by which these outcomes would be measured. Learning is assessed at the university, college and departmental levels. Current assessment activities include, but are not limited to, surveys, interviews, portfolios, exams and senior capstone projects. In order for UW's assessment efforts to be successful, students must become engaged in the process. As such, students are expected and/or required to complete various assessments as determined by the university or department prior to the awarding of degrees.

For more information regarding the student learning outcomes for a particular program of study, see the section on College and Division Programs. For further information about the University of Wyoming's assessment of student learning efforts, see the Assessment of Student Learning webpage at www.uwyo.edu/assessment.

The University Studies Program 2015

- Knowledge of Human Culture, the Physical & Natural World, and the U.S. & Wyoming Constitutions
- Intellectual and Practical Skills
- Personal & Social Responsibility

Students who enter the University of Wyoming or a Wyoming community college beginning in fall 2015 will be required to meet the USP 2015 requirements for graduation. Requirements of the USP are divided into categories based on the student learning outcomes. All courses are mutually exclusive of each other; no single course may count in more than one category. USP designated courses are open to all UW students (with a few exceptions for the Fall Bridge and Honors College).

Knowledge of Human Culture, the Physical & Natural World, and the U.S. & Wyoming Constitutions

Human Culture (H) Credits 6

Students will understand human behaviors, activities, ideas, and values in different situations and contexts. Complete six approved credit hours of coursework. **Approved coursework does not include courses taken within the student's major department.**

Physical and Natural World (PN) Credits 6

Students will understand the fundamental concepts of scientific and quantitative inquiry and develop the ability to understand the relevance of scientific, technological, and quantitative skills to contemporary society. Complete six approved credit hours of course work. **Approved coursework does not include courses taken from the student's major department.**

U.S. & Wyoming Constitutions (V) Credits 3

Students will demonstrate an understanding of the U.S. and Wyoming constitutions in order to develop the combination of knowledge, values, and motivation to participate in and improve the life of our local and global communities. Approved V courses fulfill both the U.S. and Wyoming Constitution requirements.

Intellectual and Practical Skills

Communication 1 (C1) Credits 3

Students will develop skills in written, oral, and digital communication as appropriate to specific disciplines and courses at the introductory, intermediate, and advanced level. Through repeated instruction, practice, and feedback, the communication sequence will emphasize and progressively develop transferable skills for students' academic work and future professions. The introductory course (C1) will emphasize foundational skills for academic writing. **Communication 1 must be completed with a C or better.**

Communication 2 (C2) Credits 3

Intermediate courses (C2) will emphasize foundational oral and digital communication skills and continue to build on writing skills. Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. **Communication 2 must be completed with a C or better.**

Communication 3 (C3) Credits 3

Advanced courses (C3) will emphasize using the discourse of a discipline or interdisciplinary field to communicate to academic or professional audiences through written, oral, and digital communication. Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the students' major department.

First-Year Seminar (FY) Credits 3

Students will critically examine and evaluate evidence, claims, beliefs, or points of view about meaningful, relevant issues. Students will be introduced to active learning, inquiry of pressing issues, and individual and collaborative processing of ideas through the First-Year Seminar curriculum. These skills will be reinforced throughout the baccalaureate experience. The First-Year Seminar will provide the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular FY class for a major. **First-Year Seminar must be completed with a C or better.**

Quantitative Reasoning (Q) Credits 3

Students will reason and solve quantitative problems from a wide array of authentic contexts and everyday life situations. All students must fulfill the Q requirement, either through successfully completing the Q course or with SAT Math 600+, ACT Math 26+, or a *proctored MPE* Level 4.

Personal & Social Responsibility

No mandatory USP courses. Students will have varied experiences depending on coursework and co-curricular activities chosen by them.

Wyoming Community colleges have defined a Common General Education Core Curriculum as a component of an associate's degree. Per transfer policy, an AA or AS or AB degree from a Wyoming community college will satisfy the lower-division requirements of the University Studies Program. Students transferring to UW from any Wyoming community college without an associate's degree will have their transcript reviewed on a course-by-course basis.

Students who enrolled at the University of Wyoming or a Wyoming community college prior to the fall of 2015 and who maintained continuous enrollment have the option of satisfying USP 2003 or USP 2015 requirements.

The following courses were approved for the University Studies Program 2015 at the time this catalog went to press. The process of course approval is ongoing. For a complete and updated list of approved courses, see the USP web site at <http://www.uwyo.edu/usp/>.

College of Agriculture, Life Science and Natural Resources

151 Agriculture Building

Barbara Rasco, Dean

Phone: (307)766-4135 Fax: (307)766-4030

Web site: www.uwyo.edu/uwag

The College of Agriculture and Natural Resources offers a wide variety of course work in agriculture, natural resources, molecular biology, and family and consumer sciences. The curriculum provides a sound background in basic sciences and the choice of a number of fields in which to specialize. Students are trained in principles which apply throughout the world, with special emphasis on agriculture and natural resources found in the Rocky Mountain region.

Laboratory work and other experiential learning opportunities are stressed in all programs. Students receive excellent training from case studies and practical experience provided at research and extension centers. Other facilities include modern laboratories and classrooms, an abattoir, meat processing rooms, livestock and crop farms and greenhouses.

In addition to the academic departments, the college includes the Agricultural Experiment Station and the UW Extension. Materials and techniques resulting from this effective triple combination benefit students in the never-ending search for problem-solving information. The close relationship between teachers, researchers, and extension educators creates a learning atmosphere that encourages the development of the finest students.

The following certificates and/or degrees in the College of Agriculture and Natural Resources are available through Distance Education:

Certificate: Early Childhood Program Director

Online bachelor's degrees: Family and Consumer Sciences (Professional Child Development Option)

For more information, contact the College of Agriculture and Natural Resources Office of Academic and Student Programs. Phone: (307)-766-4135

The College of Agriculture and Natural Resources also offers a graduate certificate in reclamation and restoration ecology. For more information, contact the Department of Ecosystem Science and Management.

Basic Education Core

All undergraduates in the College of Agriculture and Natural Resources curriculums are required to follow the basic education core as noted below.

Core Components (USP 2015).....Hrs.

First-Year Seminar (FYS).....	3
Quantitative Reasoning (Q)	3
Communication 1 (COM1).....	3
Communication 2 (COM2).....	3
Communication 3 (COM3).....	3
Human Culture (H)	6
Physical & Natural World (PN).....	6
U.S. and Wyoming Constitutions (V).....	3
Subtotal (min. core requirements)	30
Hours for major, support areas and electives as determined by division... 90-98	
Total Hours	120-128

Core Components (USP 2003)

Core Components (USP 2003) Hrs.

Intellectual Community (I)	1-3
Writing 1 (WA)	3
Oral Communication (O).....	3
Quantitative Reasoning 1 (QA)*.....	3
Quantitative Reasoning 2 (QB).....	3
Science (S, SB, SP, SE).....	4-8
Cultural Context (C, CH, CS, CA).....	9
U.S. and Wyoming Constitutions (V).....	3
Physical Activity and Health (P).....	1
Subtotal (min. core requirements)	30-36 Hours for major, support areas and electives as determined by division....79-91
Total Hours	120-128

*Core Components are mutually exclusive of each other; hence, two core components may not be fulfilled by the same course. Except for the QA, core courses may have topics from the embeddable components list included in their curriculum, where appropriate.

Courses taken for S/U

A maximum of 20 elective hours with a grade of S (satisfactory) may be included as part of the total credit requirements for graduation; but no S/U hours may be used to satisfy university, major requirements or required electives, unless the course is offered for S/U grading only.

Minors in Agriculture and Natural Resources

Minors provide a formalized recognition of concentrated study in a specific subject area. A minor offers recognition for academic achievement outside of the students' major course curriculum and gives students a focus of work in the chosen minor area. A minors program can enable students to enhance and expand career opportunities. A minor will also improve the possibility of admission to graduate programs in any chosen major, minor, or related field of study.

Minors Available in the College of Agriculture and Natural Resources Include:

Agricultural business
Animal and veterinary science
Apparel design

Agroecology

Agronomy
Equine
Farm and ranch management
Forest resources
General agricultural economics
Horticulture
Human development and family sciences
Human nutrition
Insect biology
Interior design
International agricultural economics
Molecular biology
Natural resource economics
Plant Protection
Rangeland ecology and watershed management
Reclamation and restoration ecology
Soil science

Agricultural Communications Major

A wide variety of courses in agriculture, communications, and journalism provides students with basic preparation for positions as broadcasters, editors or writers for farm and home organizations, state and federal agencies, magazines, newspapers, radio and television stations, and commercial businesses. Communication skills are also distinct assets in agricultural sales, research, service and teaching. Students enrolled in agricultural courses acquire up-to-date and

knowledgeable backgrounds of the subject matter. Courses in communication and journalism develop proficiencies demanded by employers of communication professionals.

Minimum Requirements for Agricultural Communications Majors (B.S.)

Hrs.

University Studies Program requirements..... 30

Communications/journalism core..... 24

COJO 1000, 1040, 2010, 2100 and minimum of 12 hours of communication/journalism elective. (Minimum grade of C required)

Agriculture core requirements..... 42

At least 18 hours must be lower division (Ag 1000-2000) elective courses, and at least 24 hours must be upper division (Ag 3000-4000) elective courses and include AGRI 4975.

Supporting course requirement4

STAT 2050 or 2070

Additional hours for major and electives 20

Total Hrs: 120

Students wishing to pursue an agricultural communications degree are encouraged to also select a minor. The college currently offers a variety of minors, and any of these can help to better prepare students for employment or graduate work. Agricultural communications majors may also complete an internship in their field. A variety of opportunities are available and students can work with their advisor to determine an appropriate internship for their area of emphasis.

Bachelor of Applied Science

160 Agriculture Building

Awarded by the College of Agriculture and Natural Resources

Phone: (307)766-4034 Fax: (307)766-4030; Web site: www.uwyo.edu/basa/

Organizations need leaders at all levels who can effectively understand the environment and society in which they operate; analyze situations and solve problems; supervise and manage, interact and communicate appropriately within and outside the organization; anticipate changes; and plan for the future. The Bachelor of Applied Science degree (B.A.S.) is designed for individuals with a completed Associate of Applied Science, Associate of Science, Associate of Business or an Associate of Arts degree at a Wyoming Community College (or an equivalent degree at another accredited institution) and who need or desire the additional breadth in skills, knowledge and professional expertise to enhance their capabilities in their own careers and in the organizations in which they work.

The fundamental philosophy of the B.A.S. degree is that the student must complete the general education (University Studies Program - USP) requirements expected of all UW bachelor's degrees and must engage in upperdivision coursework sufficient to provide focus and depth of learning. Following this philosophy, the B.A.S. has four basic components. These components are university studies, career specialty, professional concentration, and electives. The

fundamental elements of the baccalaureate degree are provided by the general education core (USP) and the upper division professional concentration. At the end of the program, students are expected to meet the following Student Learning Outcomes:

1. to develop proficiency in accessing, evaluating and utilizing information, ideas, and data;
2. to develop proficiency in communicating information and ideas effectively and responsibly;
3. to gain an appreciation for leadership development as a tool for individual, organization and community problem solving;
4. to demonstrate an understanding of organizational design, behavior, ethical practices, and effective managerial and supervisory practices;
5. to gain an understanding of social, cultural, economic and environmental contexts essential for effective leadership and the management of change.

The University Studies Program (USP 2015) consists of a minimum of 27 credit hours as adopted by the UW faculty, and the Articulation Agreement between UW and the Wyoming Community Colleges. Students with an Associate of Applied Science degree from a Wyoming community college will normally matriculate with 15-20 hours of credit that count toward this component. The remainder may be required as part of a UW student's coursework, including the Professional Concentration or Electives coursework.

The Career Specialty Component is fulfilled with the Associate of Applied Science, the Associate of Science, or Associate of Arts degrees. This component will consist of a minimum of 40 credit hours in the major.

The Professional Concentration Component is the advanced component of the program and the courses are selected by the student and the advisor. All students are required to take a range of courses from the prescribed set of areas of concentration within this component in order to provide them with the breadth and depth of learning necessary for a baccalaureate degree. This component will consist of 36-40 upper division or articulated equivalent credit hours. Note: Within the Professional Concentration, students have a choice between two Organizational Leadership areas. Option A focuses on Community Leadership; Option B focuses on Business Leadership.

The Elective Component will consist of the number of credit hours needed (after completing the other three components) to complete the degree components. A minimum of 120 hours is required for the B.A.S.

All University of Wyoming Students must earn a total of 42 upper division hours (at least 30 hours taken from UW), to earn their degree. Students in the B.A.S. program must earn a "C" in all courses on the B.A.S. checklist. Failure to do so will require repeating the course. Per university regulations, students may only attempt a course three times; an "F" or "W" count as attempts.

Application Process

All students must apply to the Bachelor of Applied Science program, including those who would like to change their major to the B.A.S. in Organizational Leadership. Students cannot just fill out a change of major form and have Admissions change their status. These are the steps for application:

1. Apply to the University of Wyoming through Admissions, declaring the Bachelor of Applied Science in Organizational Leadership.
2. Have official transcripts from all institutions attended sent to Admissions.
3. Email BAS@uwyo.edu when you have received your acceptance to UW. Include your W# in the message. We can then track your files to evaluate them for the BAS program.
4. Students will receive a letter telling the application decision. If a student is denied admission to the BAS, an explanation for the denial will be provided. If accepted, the student will be given information for how to work with the program advisor, Rosalind Grenfell (rgrenfel@uwyo.edu), to enroll in classes.

The Department of Agricultural and Applied Economics offers three concentrations within the agricultural business bachelor of science degree program. They are agribusiness management, farm and ranch management, and livestock business management. All three concentrations focus on the development of critical thinking, research, and communication skills for students interested in

1. agricultural operations,
2. small rural businesses,
3. community economics,
4. financial institutions,
5. agricultural and natural resources development, and
6. other pursuits where applied economic tools will be useful.

A brief description of minimum course requirements for each of the three concentrations in agricultural business is given below. In addition, professional advisers will work with students to tailor a curriculum to individual interests and goals.

Agribusiness Management Concentration

This curriculum is for students preparing for careers in the agribusiness field. Applied agricultural economics courses are supplemented with marketing, management, finance and other courses from the College of Business and production-oriented courses from other departments in the College of Agriculture and Natural Resources.

Minimum Course Requirements for Agricultural Business (B.S.) Majors within the Agribusiness Management Concentration¹

ACCT 2010 and 2020; and 9 hours of 3000-4000 level business courses

Electives 25

Total Hours 120

¹ A minimum of 42 credits must be at the 3000 and 4000 level for graduation. At least 30 of the 42 credits must be earned from UW.

²Recommend or equivalent COM1 course.

³ Credits earned in USP approved science courses offered within the College of Agriculture and Natural Resources shall also serve as Supporting Agriculture credits.

H requirement cannot be fulfilled with AGECE or ECON courses; USP-approved H language courses are recommended.

24 credit hours in Ag Econ beyond those earned to satisfy University Studies requirements. 18 of these 24 credit hours must be at the 3000-4000 level.

COSC 1200 recommended, or IMGT 2400.

Farm and Ranch Management Concentration

This curriculum is for students intending to become operators or professional managers of farms, ranches or feedlots. It is also well suited for students interested in the field of agricultural finance, or a minor in biological fields such as agroecology or range management. In this concentration, courses in farm and ranch management, finance, and marketing are supplemented by courses in crops, range management, veterinary sciences and animal science, with electives in other areas.

COSC 1200 recommended, or IMGT 2400.

Livestock Business Management Concentration

This curriculum is for students intending to work in any sector of the livestock and meat industry, ranging from input suppliers, to ranches, feedlots, meat packing companies, marketing and sales agents, futures/commodities exchange groups, policy makers, and international trade organizations. In this option, courses in farm and ranch management, agricultural finance, marketing, and trade are supplemented with courses in animal science, biology, range management, food science, data analysis, and other disciplines. Students may pursue a minor in Animal Science as part of this option, but can choose the non-minor version instead. Students will gain a broad understanding of both the business and science of the livestock industry.

Minimum Course Requirements for Agricultural Business (B.S.) Majors within the Livestock Business Management Concentration¹

Total Hrs. 120

¹A minimum of 42 credits must be at the 3000 and 4000 level for graduation. At least 30 of the 42 credits must be earned from UW. ² Must earn a "C" or better. ³PN and H may not be fulfilled by AGEC or ECON courses. 31 credits in Ag Econ beyond those earned to satisfy University Studies requirements; 21 of these 31 credit hours must be earned at the 3000-4000 level. AGEC 4840 may not be double-counted towards both Agricultural Economics and Quantitative Skills. Suggest COSC 1200 for most, or IMGT 2400 (for advanced users). Must earn a "C" or better in all courses required in the minor to earn the minor.

Environment and Natural Resources

Students interested in natural resource or environmental issues or careers may complete any of the four options within agricultural business offered by the department with an environment and natural resource emphasis. Inquiries about environment and natural resource concentrations in agricultural business should be directed to the Department of Agricultural and Applied Economics.

Minor Programs

The department also offers five minor programs. These five minors are to give students majoring in other undergraduate curricula in the university a concentration of work in any of the specialized undergraduate curricula offered by the department or in general agricultural economics. Each minor requires 27 hours in prescribed course work including 6 hours in supporting agriculture. Students need to plan their course work to meet course prerequisites.

Agricultural Business Minor. AGEC 1010, 1020, 4050 or MKT 3210, and 4060; ACCT 2010; 6 additional hours in upper-level agricultural economics courses; 6 hours in supporting agriculture courses.

Farm and Ranch Management Minor. AGEC 1010, 1020, 2020 and 4640; 9 additional hours in upper-level agricultural economics courses; 6 hours in supporting agriculture courses.

International Agriculture Minor. AGEC 1010, 1020, 3860 and 4880; 6 additional hours in upper-level agricultural economics courses; 3 hours in foreign culture or language; 6 hours in supporting agriculture courses.

Natural Resource Economics Minor. AGEC 1020, 3750, 4700, 4720; choose 9 additional hours from: AGEC 4450, 4600, 4710, ECON 2400, 4400, 4410, 4520 (note: College of Business prerequisites), ENR 4500.

General Agricultural Economics Minor. AGEC 1010, 1020 and 15 additional hours in agricultural economics courses with 12 hours at the upper-level; 6 hours in supporting agriculture courses.

Graduate Study

The Department of Agricultural and Applied Economics offers graduate work leading to the Master of Science degree. Students may choose among major options in the areas of agricultural and applied economics and agricultural business. The Plan A agricultural economics major emphasizes research with any of the following focus areas:

production economics and management, marketing and market analysis, resource and environmental economics, international agriculture, and economic and rural development.

The Plan B agricultural business option offers advanced skills to students who desire professional careers in the business sector. Students in the agricultural business option may concentrate their coursework and writing in management, marketing, or finance. Dual majors in water resources, and environment and natural resources are also offered.

Finally, the Department offers a graduate minor in applied economics. This program is for currently enrolled graduate students in other disciplines seeking a foundation in economics as well as their major discipline.

Program Specific Admission Requirements

Undergraduate major in agricultural economics or economics is not required.

Students may be required to complete program prerequisite courses, without graduate credit, that were not completed in their undergraduate education.

Specifically, students who have not completed at least one course in calculus, statistics, and intermediate microeconomic theory may be required to complete these courses without graduate credit during their first semester in residence.

Program Specific Degree Requirements

Master of Science in Agricultural Economics

The following courses constitute the M.S. in Agricultural Economics core requirements and are required of all Plan A candidates (22 hours).

Economic Theory

AGEC 5310 Theory of Producer Behavior...3

AGEC 5630 Advanced Natural Resource Economics3

AGEC 5710 Advanced Agricultural Market Theory3

AGEC 5740 Theory of Consumer Behavior3

Quantitative Methods

AGEC 5230 Intermediate Econometric Theory3

AGEC 5320 Quantitative Methods in Agricultural Economics.....3

Research

AGEC 5650 Communicating Research.....3

AGEC 5880 Advanced Seminar.....1

Plan A (thesis):

Minimum of 30 credit hours including AGEC M.S. core requirements, thesis hours and electives. No more than three hours of AGEC coursework numbered below 5000-level count toward the 30 hour requirement. Achieve a cumulative 3.000 GPA in the AGEC M.S. core requirements. The student's graduate committee, nominated by the major professor, the student, and the department head determine the final program of study and thesis research topic. Presentation of research results at a formal public seminar. Completion of an oral examination covering the student's thesis research administered by the student's graduate committee.

Plan B (non-thesis):

Minimum of 32 hours of coursework; Non-thesis business analysis paper accepted by the student's graduate committee. Minimum of 13 credit hours of agricultural economics coursework numbered at the 5000-level are required, including:

- AGEC 5310
- AGEC 5740
- AGEC 5880
- AGEC 5630 or 5710
- AGEC 5320 or 5230

In addition, students are required to complete 3 credit hours from each of the following three areas:

Management:

- AGEC 4060, 4640 or 5460; or MGT 4410, 4420, 4440, 4470, or 4520

Marketing:

- AGEC 4050, 4830, 4840, 4880, or 5710; or MKT 4240, 4430, 4520, or 4540

Finance:

- AGEC 4500; or FIN 4510, 4520, 4610, 4810; or ECON 4740

Remaining credit hours will be filled with electives. The student's graduate committee, nominated by the major professor, the student and the department head determine the final program of study and business analysis topic. Presentation of the business analysis paper at a formal public seminar. An internship experience is strongly encouraged as part of the agricultural business option (AGEC 5990).

Master of Science in Agricultural Economics/ Water Resources; Plan A (thesis):

Students must complete the 20 credit hour agricultural and applied economics M.S. core requirements plus 4 thesis hours and 10 credit hours in water resources approved courses. Please refer to Water Resources Degree program in this Catalog for updated degree requirements. Achieve a cumulative 3.000 GPA in the AGEC M.S. core requirements. The student's graduate committee, nominated by the major professor, the student and the department head determine the final program of study and business analysis topic, which must be in the water resources area. Presentation of research results at a formal public seminar. Completion of an oral examination covering the student's thesis research administered by the student's graduate committee.

Master of Science in Agricultural Economics/Environment and Natural Resources (ENR); Plan A (thesis):

Students must complete the 20 credit hour agricultural and applied economics M.S. core requirements plus 4 thesis hours and 15 credit hours in environment and natural resources, as approved by the student's committee and the ENR academic adviser. Achieve a cumulative 3.000 GPA in the AGEC M.S. core requirements. The student's graduate committee, nominated by the major professor, the student and the department head determine the final program of study and business analysis topic, which must be in the area of environment and natural resources. Presentation of research results at a formal public seminar. Completion of an oral examination covering the student's thesis research administered by the student's graduate committee.

Graduate Minor in Applied Economics:

Graduate standing. AGEC 4640, AGEC 5310 or 5740, AGEC 5320 or 5230, and 6 additional credits of approved courses. Committee selection for the student's major thesis or dissertation committee should include at least one faculty member from AGEC.

Department Head: Bledar Bisha

Professors:

BRENDA M. ALEXANDER, B.S. University of Wyoming 1986; M.S. 1988; Ph.D. 1999; Professor of Animal Science 2019, 2006.

SCOTT L. LAKE, B.S. University of Nevada 1998; M.S. 2001; Ph.D. University of Wyoming 2005; Professor of Animal Science 2021, 2014, 2008. Extension Livestock Specialist. Director of Laramie R&E Center.

JAMES K. PRU, B.S. 1991 and M.S. 1993 Zoology and Physiology, University of Wyoming; Ph.D. Molecular Reproductive Biology University of Wyoming 2000; Professor and Rochelle Chair of Animal Science 2021.

Associate Professors:

BLENDAR BISHA, D.V.M. Agricultural University of Tirana-Albania 1999; M.S. Iowa State University 2004; Ph.D. 2009; Associate Professor of Animal Science 2019, 2013.

PAUL A. LUDDEN, B.S. University of Nebraska-Lincoln 1991; M.S. Purdue University 1994; Ph.D. University of Missouri-Columbia 1997; Associate Professor of Animal Science 2004, 1998.

WARRIE J. MEANS, B.S. Colorado State University 1979; M.S. 1982; Ph.D. 1985; Associate Professor of Animal Science 2002, 1992.

STEVEN I. PAISLEY, B.S. University of Wyoming 1993; M.S. 1995; Ph.D. Oklahoma State University 1998; Extension Beef Cattle Specialist; Associate Professor of Animal Science 2007, 2001. Director of SAREC R&E Center.

Assistant Professors:

JEREMY BLOCK, B.S. University of Missouri 1998; M.S. University of Florida 2003; Ph.D. 2007; Assistant Professor of Animal Science 2020.

HANNAH C. CUNNINGHAM-HOLLINGER, B.A. St. Olaf College 2012; M.S. University of Wyoming 2014; Ph.D. 2018; Assistant Professor of Animal Science 2019.

CODY GIFFORD, B.S. 2013, M.S. 2016; Ph.D. Colorado State University 2019; Assistant Professor of Animal Science 2019.

SHELBY ROSASCO, B.S. California State University 2012; M.S. New Mexico State University 2016; Ph.D. New Mexico State University 2020; Assistant Professor of Animal Science 2020.

WHIT STEWART, B.S. Brigham Young University-Idaho 2008; M.S. Oregon State University 2010; Ph.D. New Mexico State University 2015; Assistant Professor of Animal Science 2017.

Academic Professional Lecturers:

JENNIFER A. INGWERSON-NIEMANN, B.S. University of Nebraska-Lincoln 2005; M.S. Iowa State University 2014; Academic Professional Lecturer in Animal Science 2014.

McKENSIE K. PHILLIPS, B.S. University of Wyoming 2015; M.S. Texas A&M University 2017; Assistant Lecturer in Animal Science 2018.

Adjunct Professors:

Kristi Cammack, Jeff Chandler, Thomas Hansen, John Johnston, Tom McDonald, Peter Nathanielsz, Mark Nijland, Heywood Sawyer, Donal Skinner, D. Paul Thomas, Meijun Zhu

Professors Emeriti:

Ray Field, Bret Hess, Frank Hinds, Doug Hixon, Steven W. Horn, Conrad Kercher, Richard J. McCormick, Gary Moss, William Murdoch, Johannes Nel, Bibek Ray

The Department of Animal Science offers a variety of courses in animal and food science. The department uses modern laboratories and excellent animal facilities including a livestock teaching arena and a meat processing facility.

The Department of Animal Science and the Department of Veterinary Science have a combined curriculum, under Animal and Veterinary Science (ANVS). The curriculum has options in production, range livestock, business, communication, animal biology, preveterinary medicine, meat science and food technology, and equine science. The curriculum leads to a wide variety of career opportunities for animal and veterinary science graduates.

B.S. in Animal and Veterinary Science

The Department of Animal Science and the Department of Veterinary Sciences have combined their efforts to offer several degree options leading to the bachelor of science degree in animal and veterinary science. Courses in animal science, food science, and pathobiology are the core offerings in the various options. Agriculture, in its broadest definition, is the nation's largest industry. Livestock production is Wyoming's largest agricultural enterprise. Animal agriculture and its associated industries offer many opportunities for the interested student. Whether a student is interested in production livestock, allied fields such as meat science, business or animal health, or wants to apply to a college of veterinary medicine, the degree tracks offered will form the basis for a challenging career in animal agriculture/biology. The various options provide maximum flexibility to meet the changing needs of students and their employers. For students interested in pursuing advanced research, M.S. and Ph.D. degrees are offered. Several degree options allow for specialization and graduate or professional school preparation. A brief description of each option and the educational opportunities they provide is given with the course requirements. A grade of C or better must be earned in the following courses when the courses are required in the individual option for completion of the degree: ANSC 3010, 3100, 4120, 4540, 4630; FDSC 3060, PATB 4110, PATB 4111, LIFE 1010, 2022. Students are encouraged to participate in activities related to their degree option. The university has livestock, horse and meats judging teams. Each team travels and participates in at least one major exposition a year. Each year, the Academic Quadrathlon competition is held, combining practical and classroom skills for students. Field trips, as practical teaching aids in many classes, are scheduled throughout the year. Internships are available to gain practical experience. Student organizations such as the Block and Bridle Club, Food Science Club, Microbiology Club, Range Club, the Pre-vet Club, Wyoming Collegiate Cattlemens Association, and the Ranch Horse Team provide additional educational and recreational opportunities.

Production Option

This option provides a strong background in livestock production and management. Students interested in livestock production should enroll in this option.

University Studies Program.....

Courses with 2015 University Studies Program designations of FYS, COM1, COM2, COM3, Q, PN (2 courses), H (2 courses), and V are required. Note that some USP requirements may be satisfied upon completion of required courses as denoted below.

Animal and Veterinary Science.....

Required courses: ANSC 1010, 2020, 3010*, 3100*, 4120*, 4540*, 4630* (COM3) and two courses selected from ANSC 3150, 4220, 4230, or 4250; FDSC 2040, 3060*; PATB 4110*

Agricultural Sciences.....

Required courses: AGECE 1020 (H), 2020; REWM 2000

Other math/science courses.....

Required courses: LIFE 1010* (PN), 2022* (PN), 3050; CHEM 1000 (PN), ANSC 2010 or CHEM 2300, MATH 1400 (Q); STAT 2050 (Q) or 2070 (Q)

Required credits 128**

*A grade of C or better must be earned in these courses for successful completion of degree. **Required credits: 128 total credit hours, 42 credit hours or more at the 3000-level or above.

Range Livestock Option

This option emphasizes range livestock management. Students interested in the management of livestock and range resources should enroll in this option.

University Studies Program.....

Courses with 2015 University Studies Program designations of FYS, COM1, COM2, COM3, Q, PN (2 courses), H (2 courses), and V are required. Note that some USP requirements may be satisfied upon completion of required courses as denoted below.

Animal and Veterinary Science.....

Required courses: ANSC 1010, 2020, 3010*, 3100*, 4120*, 4150, 4220, and one course selected from ANSC 3150, 4230, or 4250; 4540*, 4630* (COM3); FDSC 2040, 3060*; PATB 4110*

Rangeland Ecology and Watershed Management.....

Required courses: REWM 2000, 2400, 4000, 4330; LIFE 3400

Agricultural Sciences.....

Required courses: AGECE 1020 (H), 2020

Other math/science courses.....

Required courses: LIFE 1010* (PN), 2022* (PN), 3050; CHEM 1000 (PN), ANSC 2010 or CHEM 2300, MATH 1400 (Q); STAT 2050 (Q) or 2070 (Q)

Required credits 128**

*A grade of C or better must be earned in these courses for successful completion of degree. **Required credits: 128 total credit hours, 42 credit hours or more at the 3000-level or above.

Business Option

Students desiring a strong background in business in addition to the basic courses in animal and veterinary science should enroll in this option. Graduates will be qualified for careers in the livestock agribusiness industry.

University Studies Program.....

Courses with 2015 University Studies Program designations of FYS, COM1, COM2, COM3, Q, PN (2 courses), H (2 courses), and V are required. Note that some USP requirements may be satisfied upon completion of required courses as denoted below.

Animal and Veterinary Science.....

Required courses: ANSC 1010, 2020, 3010*, 3100*, 4120*, 4540*, 4630* (COM3) and two courses selected from ANSC 3150, 4220, 4230, or 4250; FDSC 3060*; PATB 4110*

Agricultural Economics and Business.....

Required courses: AGECE 1010 (H), 1020 (H), 3860 or 4880; AGECE 4060 or MGT 3210; AGECE 4050 or MKT 3210; ACCT 2010

Other math/science courses.....

Required courses: LIFE 1010* (PN), 2022* (PN), 3050; CHEM 1000 (PN), ANSC 2010 or CHEM 2300, MATH 1400 (Q); STAT 2050 (Q) or 2070 (Q)

Required credits 128**

*A grade of C or better must be earned in these courses for successful completion of degree. **Required credits: 128 total credit hours, 42 credit hours or more at the 3000-level or above.

Communication Option

Students in this option obtain a basic education in animal and veterinary science and also acquire in-depth communication skills. Students interested in careers in agriculture communications with emphasis on the livestock industry should enroll in this option.

University Studies Program.....

Courses with 2015 University Studies Program designations of FYS, COM1, COM2, COM3, Q, PN (2 courses), H (2 courses), and V are required. Note that some USP requirements may be satisfied upon completion of required courses as denoted below.

Animal and Veterinary Science.....

Required courses:

ANSC 1010, 2020, 3010*, 3100*, 4120*, 4540*, 4630* (COM3) and two courses selected from ANSC 3150, 4220, 4230, 4240, or 4250; FDSC 3060*; PATB 4110*

Communication.....

Required courses: COMM 2010* (COM2), plus 14 additional credit hours in COJO/COMM

Other math/science courses.....

Required courses: LIFE 1010* (PN), 2022* (PN), 3050; CHEM 1000 (PN), ANSC 2010 or CHEM 2300, MATH 1400 (Q); STAT 2050 (Q) or 2070 (Q)

Required credits 128**

*A grade of C or better must be earned in these courses for successful completion of degree. **Required credits: 128 total credit hours, 42 credit hours or more at the 3000-level or above.

Animal Biology Option

This option within the major requires more complete and stringent basic sciences. Students may complete premedical requirements or other pre-professional allied health requirements while completing a B.S. degree that prepares them for alternate career choices. Selected courses provide opportunity for more complete exposure in both biological sciences and pathobiology. Possible alternatives to professional schools include graduate school admission or employment by

government or industry in research, promotion or sales. Because of the variation in pre-professional requirements for different professional programs, students are encouraged to determine the specific requirements of the programs in which they are interested.

University Studies Program.....

Courses with 2015 University Studies Program designations of FYS, COM1, COM2, COM3, Q, PN (2 courses), H (2 courses), and V are required. Note that some USP requirements may be satisfied upon completion of required courses as denoted below.

Animal and Veterinary Science.....

Required courses: ANSC 1010, 3010*, 3100*, 4120*, 4630* (COM3); FDSC 3060*

Agricultural Sciences.....

Required courses: MICR/ MOLB 2021 or 2240; MOLB 3610; MOLB 4100 or MOLB 4600 and 4610

Other math/science courses.....

Required courses: LIFE 1010* (PN), 2022* (PN), 3050; CHEM 1020 (PN), 1030 (PN), 2300 or CHEM 2420 and 2440; PHYS 1050 or PHYS 1110 and PHYS 1120; ZOO/PSYC 3600; MATH 1400 (Q) and 1405 (Q) or MATH 1450 (Q); STAT 2050 (Q) or 2070 (Q)

Required credits 128**

*A grade of C or better must be earned in these courses for successful completion of degree. **Required credits: 128 total credit hours, 42 credit hours or more at the 3000-level or above.

Meat Science and Food Technology Option

Students taking this option will have an excellent background for entering the meat industry. The food industry is the largest employer in this country and offers a wide variety of career opportunities.

University Studies Program.....

Courses with 2015 University Studies Program designations of FYS, COM1, COM2, COM3, Q, PN (2 courses), H (2 courses), and V are required. Note that some USP requirements may be satisfied upon completion of required courses as denoted below.

Animal and Veterinary Science.....

Required courses: ANSC 1010, 3010*, 3100*, 4050, 4630* (COM3); PATB 4110*

Food Science.....

Required courses: FDSC 1410, 2040, 3060*, 3062, 3063, 3720, 4090, 4100, 4900

Agricultural Sciences.....

Required courses: AGECE 1020 (H), AGECE 3860, MICR/MOLB 2021

Other math/science courses.....

Required courses: LIFE 1010* (PN), 2022* (PN); CHEM 1000 (PN), ANSC 2010 or CHEM 2300, MATH 1400 (Q); Stat 2050 (Q) or 2070 (Q)

Suggested courses.....

FDSC 3061

Required credits 128**

*A grade of C or better must be earned in these courses for successful completion of degree. **Required credits: 128 total credit hours, 42 credit hours or more at the 3000-level or above.

Pre-Veterinary Medicine Option

This option is especially designed to prepare students for application to colleges of veterinary medicine. There is a strong emphasis on the biological, biomedical and physical sciences. This curriculum is also appropriate for students wishing to pursue graduate school opportunities, other professional school applications, or careers in many areas of agribusiness. A minimum of three years of formal course work is required before one can apply to a college of veterinary medicine. Students accepted before completion of their B.S. degree can transfer credits back to UW to complete their degree requirements. Wyoming does not have a college of veterinary medicine. Faculty advisers insure that students meet the variable preveterinary requirements for application to colleges of veterinary medicine in their home state or region.

University Studies Program.....

Courses with 2015 University Studies Program designations of FYS, COM1, COM2, COM3, Q, PN (2 courses), H (2 courses), and V are required. Note that some USP requirements may be satisfied upon completion of required courses as denoted below.

Animal and Veterinary Science.....

Required courses: ANSC 3010*, 3100*, 4120*; one course selected from ANSC 3150, 4220, 4230, or 4250; ANSC 4630* (COM3) or PATB 4130* (COM3); PATB 4110*, 4500, 4710, PATB/MOLB 4400

Agricultural Sciences.....

Required courses: MICR/MOLB 2021, MICR/PATB 2220; MOLB 3610

Other math/science courses.....

Required courses: LIFE 1010* (PN), 2022* (PN), 3050; CHEM 1020 (PN), 1030 (PN), 2420, 2440; PHYS 1110, 1120; MATH 1400 (Q) and 1405 (Q) or MATH 1450 (Q); STAT 2050 (Q) or 2070 (Q)

Suggested courses.....

ANSC 4050, 4132, 4150, 4260, 4540; FDSC 3060; PATB 4001, 4130, 4170, 4360; ANSC/PATB 4111

Required credits 128**

*A grade of C or better must be earned in these courses for successful completion of degree. **Required credits: 128 total credit hours, 42 credit hours or more at the 3000-level or above.

Equine Science Option

This option provides a strong background in equine production and management. Students interested in equine should enroll in this option.

University Studies Program.....

Courses with 2015 University Studies Program designations of FYS, COM1, COM2, COM3, Q, PN (2 courses), H (2 courses), and V are required. Note that some USP requirements may be satisfied upon completion of required courses as denoted below.

Animal and Veterinary Science.....

Required courses: ANSC 1010, 1030, 3010*, 3100*, 3150*, 3250, 4120, 4132, 4250*, 4540*, 4630* (COM3); ANSC/ PATB 4111*; FDSC 3060*

Agricultural Sciences.....

Required courses: AGECE 2020; REWM 2000

Other math/science courses.....

Required courses: LIFE 1010* (PN), 2022* (PN), 3050; CHEM 1000 (PN), ANSC 2010 or CHEM 2300, MATH 1400 (Q); STAT 2050 (Q) or 2070 (Q)

Required credits 128**

*A grade of C or better must be earned in these courses for successful completion of degree. **Required credits: 128 total credit hours, 42 credit hours or more at the 3000-level or above.

Agriculture Education with Concentration in Animal and Veterinary Science

This program consists of 128 total hours. Minimum 2.750 cumulative GPA and minimum 2.500 content GPA required. This major will be advised in the College of Education with a secondary adviser in Animal Science. Refer to the College of Education for specific curriculum requirements.

Undergraduate Minors

The Departments of Animal Science and Veterinary Sciences offers two minors: a minor in animal and veterinary science for non-majors and a minor in Equine Science.

Animal and Veterinary Science Minor

The courses required for this minor must be taken for a letter grade and the student must receive a grade of C or better in each course. Courses required are: ANSC 3010, 3100, 4120, 4540; FDSC 3060; PATB 4110 and at least one of the following: ANSC 3150, 4220 or 4230. The Department of Animal Science may be contacted by students needing assistance or having questions.

Equine Science Minor

The courses required for this minor must be taken for a letter grade and the student must receive a grade of C or better in each course. Courses required are: ANSC 1030, 3150, 3250, ANSC/PATB 4111 (12 credit hours), and a minimum of 3 courses (minimum of 8 credits) chosen from ANSC 2020, 3555, 3560 (max 3 credits allowed), 4132, 4250. The Department of Animal Science may be contacted by students needing assistance or having questions.

Graduate Study

The Departments of Animal Science and Veterinary Science offer programs leading to the M.S. (Plan A and Plan B) and Ph.D. degrees in animal and veterinary science. A M.S. degree in food science and human nutrition is offered in cooperation with the Department of Family and Consumer Sciences. The Department of Animal Science also participates in the interdisciplinary M.S./Ph.D. The Department of Animal Science also participates in the interdisciplinary M.S./Ph.D. Biomedical Science. Program.

Program Specific Degree Requirements

Master's Program - Plan A (thesis)

The student, major professor, and graduate committee determine the program of study and research project, which meets the needs of the individual student. The candidate's graduate committee should be established and functioning by the time the student has completed 12 semester hours of formal coursework. The master of science program should be approved and filed by the end of the student's second semester of graduate study in animal science. This committee shall also determine if the student is making satisfactory progress to be advanced to a candidate for a master's degree or continued in a doctoral program by the end of the student's third semester following matriculation. The student can specialize in breeding, food science and human nutrition, nutrition, physiology, meat science, reproduction or wool for coursework and thesis/dissertation project. In addition, supporting coursework is available in agricultural economics, biochemistry, microbiology, range management, genetics, statistics, and other areas of interest to the individual. In certain cases it is possible to develop a joint research project between animal science and another department. Students may use the research facilities and herds of beef cattle, sheep, and swine at the university livestock center near the university or at one of the university research and extension centers in the state. Research laboratories are located on campus and include a modern meat processing facility. The Thesis program is a 30 hour program, 26 hours of coursework and 4 hours of thesis research.

Master's Program - Plan B (non-thesis)

The Non-thesis program requires a coursework-intensive, non-thesis master of science program for those students whose career paths may not require a thesis research program. The program requires 32 hours of coursework in addition to an acceptable non-thesis research paper as defined by the student's graduate committee.

Doctoral Program

The program requires 72 hours. Students must follow minimum graduate requirements.

Food Science

Food science is the application of basic sciences to the processing, quality control, storage, distribution and consumer use of food products. The microbiological, chemical and physical characteristics of foods as related to food processing and product quality are studied. Major emphasis is placed in the area of animal food products.

SCOTT N. MILLER, B.S. Brown University 1991; M.S. University of Arizona 1995; Ph.D. 2002; Professor of Rangeland Ecology and Watershed Management 2017, 2002.

VIRGINIA B. PAIGE, B.A. Colorado College 1984; M.S. University of Massachusetts 1992; Ph.D. University of Arizona 2000; Professor Rangeland Ecology and Watershed Management 2019, 2004.

SCOTT R. SHAW, B.S. Michigan State University 1977; M.S. University of Maryland 1981; Ph.D. 1984; Professor of Entomology 1998, 1989.

PETER D. STAHL, B.S. Oklahoma State University 1978; M.S. University of Wyoming 1982; Ph.D. 1989; Professor of Restoration Ecology 2009, 2000; Director, Wyoming Reclamation and Restoration Center.

TIMOTHY R. COLLIER, B.S. University of California-Riverside 1987; Ph.D. University of California-Santa Barbara 1994; Associate Professor of Entomology 2008, 2002.

KRISTINA HUFFORD, B.A. University of California-Berkeley 1993; Ph.D. University of Georgia 2001; Associate Professor of Rangeland Ecology and Watershed Management 2017, 2010.

MELANIE MURPHY, B.S. University of Idaho 1998; M.S. 2001; Ph.D. Washington State University 2008; Associate Professor of Rangeland Ecology and Watershed Management 2017, 2010.

MENGQIANG ZHU, B.E. North China Electric Power University 2002; M.S. Chinese Academy of Sciences 2005; Ph.D. University of Delaware 2010; Associate Professor of Soil and Environmental Biogeochemistry 2019, 2013.

Associate Professors:

DAVID CHRISTIANSON, B.S. Montana State University 2003; Ph.D. 2008; Assistant Professor of Rangeland Ecology and Watershed Management 2019.

TIMOTHY R. COLLIER, B.S. University of California-Riverside 1987; Ph.D. University of California-Santa Barbara 1994; Associate Professor of Entomology 2008, 2002.

KRISTINA HUFFORD, B.A. University of California-Berkeley 1993; Ph.D. University of Georgia 2001; Associate Professor of Rangeland Ecology and Watershed Management 2017, 2010.

MELANIE MURPHY, B.S. University of Idaho 1998; M.S. 2001; Ph.D. Washington State University 2008; Associate Professor of Rangeland Ecology and Watershed Management 2017, 2010.

J. DEREK SCASTA, B.S. Texas A&M University 2004; M.S. 2008; Ph.D. Oklahoma State University 2014; Assistant Professor of Rangeland Ecology and Watershed Management 2014.

LINDA VAN DIEPEN, B.S. Hogeschool IJsselland, Deventer 1999; M.S. Wageningen University 2002; Ph.D. Michigan Technological University 2008; Assistant Professor of Soil Microbiology 2015.

KAREN L. VAUGHAN, B.S. University of Delaware-Newark 2001; M.S. University of Maryland-College Park 2004; Ph.D. University of Idaho-Moscow 2008; Assistant Professor of Pedology 2015.

MENGQIANG ZHU, B.E. North China Electric Power University 2002; M.S. Chinese Academy of Sciences 2005; Ph.D. University of Delaware 2010; Associate Professor of Soil and Environmental Biogeochemistry 2019, 2013.

Assistant Professors:

FABIAN NIPPGEN, M.S. Albert-Ludwigs University 2007; Ph.D. Montana State University 2014; Assistant Professor of Rangeland Ecology and Watershed Management 2017.

KEVIN WILCOX, B.S. Central Washington University 2008; Ph.D. Colorado State University 2015; Assistant Professor of Rangeland Ecology and Watershed Management 2018.

Academic Professionals:

SCOTT SCHELL, B.S. University of Wyoming 1991; M.S. 1994; Senior Extension Entomologist 2005, Associate Research Scientist 2009.

Adjunct Professors:

Justin Derner, Jack Morgan, Brenda Schladweiler, Gerald Schuman, Nancy Shaw, Ramesh Sivanpillai

Professors Emeriti:

Ann Hild, Alexandre Latchininsky, David Legg, Larry Munn, Richard Olson, Katta Reddy, J. Daniel Rodgers, Quentin Skinner, Michael Smith, Peter Stahl, John A. Tanaka, George Vance, James Waggoner, James Wangberg, Thomas Wesche, Stephen Williams

Degrees Offered

Major

- Rangeland Ecology and Watershed Management, B.S.

Minor

- Forest Resources Minor
- Insect Biology Minor
- Rangeland Ecology and Watershed Management Minor
- Reclamation and Restoration Ecology Minor
- Soil Science Minor

Graduate

- Ecosystem Science and Management/Applied Economics, Ph.D.
- Entomology, M.S.
- Entomology, Ph.D.
- Insect Biology/Entomology Graduate Study Minor
- Rangeland Ecology and Watershed Management, M.S.
- Rangeland Ecology and Watershed Management, Ph.D.
- Soil Science, M.S.
- Soil Science, Ph.D.

Certificate

- Reclamation/Restoration Ecology Graduate Certificate

Undergraduate Study

The Department of Ecosystem Science and Management offers a Bachelor of Science degree in Rangeland Ecology and Watershed Management. This degree can also be obtained as an affiliate degree in conjunction with the School of Environment and Natural Resources. Five minor degree programs are offered through the department: Insect Biology, Rangeland Ecology and Watershed Management, Soil Science, Forest Resources, and Reclamation and Restoration Ecology. Obtaining a minor to complement a B.S. major degree program provides credentials and knowledge that can expand career opportunities.

The degree programs reflect the department's diverse expertise in natural resource and agriculture sciences. Students completing degrees offered through the department are well prepared for careers in natural resource management and sustainable agriculture (e.g., range management, watershed management, restoration ecology/reclamation of degraded land, wildlife habitat management, biocontrol/ integrated pest management, soil science and various types of environmental consulting) or other science careers.

Student Learning Outcomes

The goal of the Department of Ecosystem Science and Management is to provide students with comprehensive knowledge in several different areas in addition to their specific area of study. These expectations ensure that students may take these learned skills and successfully apply them in their post-graduate endeavors. Assessments in all areas are based on knowledge, skills, and attitude.

These areas include:

Oral communication encompasses all the abilities necessary for effective expression and sharing of information, ideas, and feelings in a format including verbal and nonverbal symbols.

Proficiency in written communication will ensure that students will be able to write for different audiences, from expressive writing to technical writing, using a range of sophistication in language.

Professional behavior involves attaining high standards of behavior and appropriate attitudes, not only through acquiring knowledge and experience but a lifelong commitment to learning and achievement.

Competency in critical thinking and problem-solving will enable students to engage in reasonable, reflective thinking focused on deciding what to believe or do.

Computer and information literacy ensures that students will be viewed as trainable and adaptable in a computerized work environment. Proficiency in this area also enables students to effectively access online information, and skillfully make use of it.

The results in these different areas will aid the department in:

- Planning instructional strategies to address student strengths and weaknesses;
- Evaluating and describing overall student achievement;
- Counseling students for academic and career options; and
- Evaluating the effectiveness of instructional programs.

Graduate Study

The Department of Ecosystem Science and Management is an interdisciplinary department made up of five disciplinary areas: entomology, rangeland ecology, soil sciences, agroecology, and watershed management. The department offers master of science and doctor of philosophy degrees in entomology, rangeland ecology and watershed management, and soil science. A water resources dual major may be obtained in conjunction with each of these master's degrees. For the rangeland ecology and watershed management degrees, thesis and dissertation problems may be developed in aspects of range ecology, wildlife habitat, reclamation of disturbed lands, watershed management, utilization and improvement of rangelands, and many other facets of range and forest ecology management. For the entomology degrees, thesis and dissertation problems may be developed in many areas of basic and applied aspects of insect ecology. For soil degrees, thesis and dissertation problems may be developed in many basic and applied aspects of soil science. The degree programs reflect the department's diverse expertise in natural resource and agriculture sciences. Students completing degrees offered through the department are well prepared for careers in natural resource management and sustainable agriculture (e.g., range management, watershed management, restoration ecology/reclamation of degraded land, wildlife habitat management, biocontrol/integrated pest management, soil science, and various types of environmental consulting) or other science careers. A graduate certificate in reclamation and restoration ecology may be obtained after completion of a B.S. degree or in conjunction with an M.S. or Ph.D. degree.

Program Specific Admission Requirements

Admission is contingent upon a faculty member being willing to assume responsibility for working with the student as an adviser.

Applicants are encouraged to initiate correspondence with faculty who share similar research interests as part of the process of securing faculty advising commitment.

In special circumstances, and with the faculty adviser's support, a student may be admitted in a provisional status with continued enrollment dependent upon meeting performance requirements specified at the time of admission.

Program Specific Graduate Assistantship Information

Current graduate assistantship availability, subject of study, and remuneration can be determined by checking: www.uwyo.edu/esm. Prospective students are also encouraged to directly correspond about future opportunities for graduate assistantships with faculty that share similar research interests.

Courses of instruction in the department are offered in entomology, rangeland ecology and watershed management, renewable resources, and soil science.

Environment and Natural Resources Affiliate Degrees

The Bachelor of Science degree in Rangeland Ecology and Watershed Management offered through the Ecosystem Science and Management Department may also be obtained as an affiliate degree with the School of Environment and Natural Resources (i.e., the degree titles would be Environment and Natural Resources/Rangeland Ecology and Watershed Management). The additional coursework requirements necessary for obtaining an affiliate degree are described in the School of Environment and Natural Resources section of this publication.

Interdisciplinary Programs

Water Resources (WARE)

College of Agriculture and Natural Resources

Department of Ecosystem Science and Management

2013 Agriculture Building

Phone: (307) 766-4274

E-mail: snmiller@uwyo.edu

Web Address: www.uwyo.edu/ware/

Program Director: Scott N. Miller

M.A. or M.S. in (Program Name)/Water Resources

Academic departments across the university cooperate to provide master of arts or master of science degree programs that contain multidisciplinary training in water resources. The master's degree offered through these affiliations is awarded as a major with each of the sponsoring department's graduate programs. The water resources interdisciplinary major will be acknowledged on the graduate transcript and thereby certify to potential employers that the candidate has completed an in-depth multidisciplinary course program in the broad area of water resources.

The educational underpinnings of this program include the following: The purpose of the program is to provide multidisciplinary education and to impart a multidisciplinary perspective to candidates. Training is to be consistent with the rigor of professional water resources demands. The interdisciplinary major program is flexible so as to meet the candidates' individual professional objectives.

Primary responsibility for student guidance and graduate program formulation resides with the sponsoring department and sponsoring major professor. Please refer to latest updated information on the website listed above. Upon acceptance to the program, the sponsoring department must assign a member of the Water Resources Curriculum Committee to the candidate's graduate committee. The Water Resources Curriculum Committee's representatives on the candidate's graduate committee shall aid in formulating deficiency requirements, course program design, academic performance criteria, and research objectives throughout the candidate's tenure in the program.

Program Specific Admission Requirements

University application and fee; Application fee is valid for three years; Official documentation indicating bachelor's degree earned (not necessary if UW is the most recent institution attended); Potential candidates are encouraged to apply for admission to this program by contacting the participating department and by specifying at the initiation that they desire admission to the water resources interdisciplinary major. Their credentials will be evaluated by the sponsoring department and the department recommends admission of the individual into the program to the UW Admissions office.

Program Specific Degree Requirements

The academic program of study undertaken by the candidate must be designed to enhance the student's background and expertise through formal graduate-level coursework in the areas of: (1) technical hydrology, (2) natural resources economics and/or law, and (3) water quality. To ensure a minimum multidisciplinary character, the course program must contain nine hours of coursework with at least 3 hours from each of the aforementioned areas and at least 6 of those credit hours must be from outside the student's sponsoring department, along with a 1 credit hour seminar on water resources organized through the Department of Ecosystem Science and Management. Only Plan A master's degree programs, which require the writing of a thesis in the water resources area, are acceptable for the water resources degree option.

Each student in the water resources interdisciplinary major program will be required to complete this course once during their graduate program. As part of the requirements for the seminar: (a) students will be required to present a seminar on a current water resource issue in Wyoming and to develop an executive summary of their issue to distribute to class participants. Each student is also required to participate in a discussion group following each seminar which stresses the interdisciplinary nature of the issue; (b) during the course of a student's graduate program, he/she will be required to present one seminar for the seminar series (preferably on some aspect of their thesis research). This presentation does not have to occur during the semester that the student is officially signed up for seminar credit.

WARE Degree Programs

Majors

- Agricultural Economics/Water Resources, M.S. (Department of Agricultural and Applied Economics)
- Civil Engineering/Water Resources, M.S. (Department of Civil and Architectural Engineering)
- Entomology/Water Resources, M.S. (Department of Ecosystem Science & Management)
- Geology/Water Resources, M.S. (Department of Geology and Geophysics)
- Geophysics/Water Resources, M.S. (Department of Geology and Geophysics)
- Rangeland Ecology and Watershed Management/Water Resources, M.S. (Department of Ecosystem Science & Management)
- Soil Science/Water Resources, M.S. (Department of Ecosystem Science & Management)
- Water Resources, M.A.
- Water Resources, M.S.

Additional Interdisciplinary Degree Programs

- Ecology, Ph.D. (Program in Ecology, PiE)
- Hydrologic Sciences, Ph.D. (WRESE)

Department of Family and Consumer Sciences

Donna Brown, Bruce Cameron, Saul Feinman, Michael Liebman, Judith A. Powell, Rhoda Schantz, Virginia Vincenti, Mary Kay Wardlaw, Randolph R. Weigel, Karen Williams

Department Information

Our mission is to enhance the physical, social, and economic well-being of individuals, families, and communities, emphasizing healthy and sustainable living across the lifespan. We fulfill our mission through instructional, research, and outreach/extension efforts that challenge, motivate, and inspire.

Family and Consumer Sciences integrates the fundamental components of human life—food, shelter, clothing, human relationships, and family—with larger societal systems. Through programs in textiles, apparel and design; food and

nutrition; and human development and family sciences, our department prepares learners to meet the opportunities and challenges of today's complex world.

All students pursuing the Bachelor of Science degree in Family and Consumer Sciences are required to complete a minimum of 120 credit hours that include a) University Studies requirements (USP); b) departmental core curriculum; and c) courses in one of the following concentrations: dietetics (application only), human nutrition and food, human development and family sciences, professional child development (online only), or one of the three career tracks in design, merchandising and textiles. Minors in apparel design, human development and family sciences, human nutrition, and interior design are also available.

Grade Requirements

Majors are required to pass all courses within the Department of Family and Consumer Sciences with a letter grade of C or above. Students enrolled in family and consumer sciences minors are required to complete each course for the minor with a letter grade of C or above.

Security Screening

All students applying for admission to the Professional Child Development concentration are required to complete a security screening before program entry. Students in the Human Development and Family Sciences concentration must complete their security screening upon declaration of their major. Failure to satisfactorily complete this requirement will result in the student being dropped from or denied entry to the program.

Family and Consumer Sciences Core Requirements

A core curriculum is required of all family and consumer sciences majors. This requirement is based on a common body of knowledge in family and consumer sciences which contains concepts relevant to all concentrations.

(Please click on link to review core requirements for [all](#) undergraduate majors).

Family and Consumer Sciences Core Requirements

Family and Consumer Sciences Student Learning Outcomes

Students graduating from the Department of Family and Consumer Sciences will be proficient in their concentration content as well as be able to effectively communicate (both written and orally), possess intellectual skills (such as critical and creative thinking and problem solving), and demonstrate appropriate levels of professionalism.

Family and Consumer Sciences Concentrations

Undergraduate majors must declare a concentration and follow its specific degree plan. Standards established by several professional organizations require completion of specific courses in addition to the family and consumer sciences core and USP requirements. All students are assigned to a professional advisor and a faculty mentor. Students should work closely with their advisor to be sure all degree requirements are met. All concentrations are listed below.

Family and Consumer Sciences Minors

Required courses in all Family and Consumer Sciences minors must be taken for a letter grade and completed with a grade of C or above. All minors are listed below.

Graduate Study

The Department of Family and Consumer Sciences offers a program of graduate study leading to a Master of Science in Family and Consumer Sciences with an emphasis in human development and family sciences; human nutrition and food; or design, merchandising and textiles. The department also participates in an interdisciplinary degree in Food Science and Human Nutrition.

Department of Molecular Biology

Department of Molecular Biology

203 Animal Science/Molecular Biology Bldg.

(307) 766-3300

Web site: www.uwyo.edu/MolecBio/

Department Chair: Jesse "Jay" Gatlin

Modern biology is based on a fundamental understanding of molecular processes essential in living organisms. Recent advances in molecular biology have led to an explosion of knowledge about gene expression and the role gene products play in cell function. Undergraduate programs in molecular biology offer learning opportunities at the forefront of modern biology.

The molecular biology degree programs are designed to prepare students for the future by combining a foundation in basic sciences and humanities with a broad selection of courses in molecular biology, biochemistry, genetics and microbiology. Advanced undergraduates attend an outside speaker's program that includes some of the world's best-known scientists. Modern, well-equipped teaching and research laboratories contribute significantly to the educational experience of a student. All junior- and senior-level undergraduates are encouraged to participate in research projects with individual faculty members. Involvement in an active research program provides the student with an additional dimension of learning beyond what is assimilated in courses. A student learns to plan experiments, solve technical problems and experience scientific advances first hand. An undergraduate research project also promotes close interaction between the undergraduate and graduate students, postdoctoral researchers, staff and faculty.

Many molecular biology majors continue their education beyond the bachelor's level by going to graduate school or to medical, dental or veterinary school. Some students choose to use their education to gain employment in biotechnology, clinical or basic research laboratories. Other career choices include teaching, medical technology, law and business. In addition, the Department of Molecular Biology offers the Ph.D., M.S. and M.A. degrees for students who wish to do graduate work in molecular biology, in preparation for careers in academia, the biotechnology and biopharmaceutical industry, medicine, or other professions.

Professors

WILLIAM STUMP, B.S. Purdue University 1981; M.S. Colorado State University 1984; B.F.A. 1991; Ph.D. 1997; Associate Professor of Plant Pathology 2020, 2014.

Assistant Professors:

KELSEY BROCK, B.S. University of Alberta 2010; M.S. 2014; Ph.D. University of Hawai'i - Mānoa 2021; Assistant Professor, Extension Weed Specialist (Invasive Plants) 2022.

DONNA HARRIS, B.S. University of Georgia 1998; M.S. 2001; Ph.D. 2014; Assistant Professor of Plant Breeding and Genetics 2020.

Academic Professionals:

CHRIS HILGERT, B.S. Oregon State University 2001; M.S. 2003; Extension Horticulture Specialist, Master Gardener Coordinator 2011.

JENNA MEEKS, B.S. Colorado State University 2010; M.S. University of Wyoming 2016; Assistant Research Scientist 2021.

ELIZABETH MOORE, B.S. West Texas A&M University 2001; M.S. 2004; Assistant Lecturer of Horticulture and Plant Production 2021.

KAREN PANTER, B.S. Colorado State University 1979; M.S. University of Nebraska 1981; Ph.D. Colorado State University 1985; Extension Horticulture Specialist 1998; Senior Extension Educator 2012.

Emeritus/Retired Faculty:

Rollin H. Abernethy, James Cook, Ron Delaney, Mark Ferrell, Alan Gray, Robin W. Goose, Bernie Kolp, James M. Krall, Stephen D. Miller, Thomas D. Whitson, David Wilson

Plant Production and Protection Major (B.S.)

The Department of Plant Sciences offers a Bachelor of Science degree in Plant Production and Protection (Plant Production and Protection, B.S.), with four optional concentrations and four minors. Optional concentrations for Plant Production and Protection majors are:

- Agronomy
- Horticulture
- Integrated Pest Management
- Agroecology and Evolution

Minors available for students pursuing other majors at UW are: Agronomy, Agroecology, Horticulture, and Plant Protection. These minors allow students within many bachelors programs to obtain an added emphasis in areas that enjoy strong employment opportunities.

A B.S. degree in Plant Production and Protection prepares students for careers in agriculture, natural resources, environmental and life sciences and for advanced graduate studies in specific subdisciplines within these areas. It is a broad, interdisciplinary, undergraduate curriculum that combines and integrates courses in the crop, horticulture, disease, weeds, soil, and insect sciences and is supported by a science-based curriculum and general education. Flexibility is built into the curriculum to readily accommodate students seeking to pursue an emphasis or obtain a minor in a specific discipline. To that end the breadth of the curriculum is balanced with greater depth in biology, chemistry, crop science, entomology, environmental studies, natural resource management, soil science, plant pathology, weed science, horticulture, turf management, pre-veterinary medicine, rangeland ecology and watershed management, animal science, microbiology, and molecular biology. A liberal number of electives permits design of a

program that best meets individual career and educational objectives. The Plant Production and Protection program is well suited for students who possess a strong interest in, and an aptitude for, science, agriculture, the environment, life sciences, or natural resources.

The core curriculum is comprised of freshman- through senior-level courses that illustrate dynamic and complex interactions of plants, soils, and plant pests (diseases, insects, weeds) with the environment. Academic training is enhanced with experiential learning through research apprenticeships, internships, field studies, and a special Plant Sciences Capstone course. Special emphasis is given to development of critical thinking and communication skills, problem solving, and application of science. It is an interdisciplinary and highly practical degree program designed to prepare students for "real world" situations.

Plant Production and Protection B.S. degree recipients are prepared for careers with private and public institutions and agencies in such areas as: agricultural consulting, production or sales, research, product development, education, extension education, international programs, and scientific and technological support. These careers include but are not limited to: soil scientist, conservationist, entomologist, consultant, plant scientist, integrated pest management specialist, ecologist, research associate or technician, agronomist, biotechnician, and agroecologist. Degree recipients are also prepared for graduate education in biological and environmental sciences.

The combined Plant Sciences, B.S./M.S. QuickStart program enables highly-qualified students to be admitted to the M.S. program during the junior year of their B.S. program, and to work thereafter toward both the B.S. and M.S. degrees. Accepted students would earn a B.S. degree in Plant Production and Protection and the M.S. degree in Plant Sciences. Please see additional information under the QuickStart Program section below or online at <https://www.uwyo.edu/plantsciences/graduate-studies/quickstart-program.html>.

Agronomy Minor (Agronomy Minor)

Minimum Requirements: 19 Hours

Agroecology Minor (Agroecology Minor)

Minimum Requirements: 20 Hours

Horticulture Minor (Horticulture Minor)

Minimum Requirements: 20 Hours

Plant Protection Minor (Plant Protection Minor)

Minimum Requirements: 19 Hours

Plant Production and Protection/Environment and Natural Resources Program, B.S.

(ENR and Plant Sciences)

Students interested in the environment and natural resources may choose to pursue the B.S. in Plant Production and Protection/ENR. This degree is offered in conjunction with the Haub School of Environment and Natural Resources. See the ENR Information and Advising Guide for details.

Graduate Study (M.S. and Ph.D.)

The Department of Plant Sciences offers curricula leading to the master of science and doctor of philosophy degrees in Plant Sciences. Courses within the department are offered in crop science, horticulture, plant pathology, weed science, and agronomy. Interdisciplinary coursework and research projects are common for Plant Sciences graduate students.

Program Specific Admission Requirements

In addition to university minimum requirements, a majority of the department faculty and department head must approve the admission. To be considered for admission, candidates must establish a faculty member willing to serve as advisor.

In order to apply, please submit the following via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>): a statement of purpose that describes your professional objectives and scientific interests, a current Curriculum Vitae, current academic transcripts, proof of English proficiency (if English is not your primary language) - TOEFL, IELTS, or Duolingo tests are currently accepted, and three letters of recommendation (to be submitted directly by references through the online application). Our regular deadline for fall semester admission is February 15, although we will accept applications any time during the year (including for spring semester admission as well).

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information, or visit UW's Graduate Education website at <http://www.uwyo.edu/uwgrad/>.

Program Specific Graduate Assistantship Information

M.S. assistantships include a stipend, plus tuition and fee waiver, and health insurance. Ph.D. assistantships include a stipend, plus tuition and fee waiver, and health insurance. These assistantships are for the 9-month academic year, but summer support is typically available.

Program Specific Degree Requirements

Master of Science in Plant Sciences

Plan A (thesis)

Requirements for the master of science degree include 26 hours of coursework beyond the bachelor's degree numbered 4000 or above, 4 hours of thesis research, a research proposal, original research, and oral defense of the thesis.

The M.S. degree is typically completed in two years. The student's coursework is selected to fit the student's individual needs by mutual consultation among the student, his/her major professor, and graduate committee.

Doctoral Program

The requirements for the doctor of philosophy degree include 60 hours of coursework beyond the bachelor's degree numbered 4000 or above, 12 hours of dissertation research, a research proposal, original research, written and oral preliminary exams to be taken when most or all coursework is completed, and an oral defense of the dissertation.

Dissertations may be in a modified journal article format but must meet university formatting requirements.

The student's coursework is selected to fit the student's individual needs by mutual consultation among the student, his/her major professor, and graduate committee.

The student is expected to participate in the usual activities of scientific research such as attending and presenting at research seminars and professional meetings and publishing his/her research.

QuickStart Program (Plant Sciences B.S/M.S.)

The combined Plant Sciences, B.S./M.S. QuickStart program enables highly-qualified students to be admitted to the M.S. program during the junior year of their B.S. program, and to work thereafter toward both the B.S. and M.S. degrees. Accepted students would earn a B.S. degree in Plant Production and Protection and the M.S. degree in Plant Sciences. This program allows for early planning of the M.S. portion of the student's education, along with beginning a thesis research project before the completion of the B.S. degree. It offers increased flexibility in the order in which courses are taken, and more efficient use of what would otherwise be a final semester with a light credit hour load. Up to six credit hours may be counted toward both the B.S. and M.S. degree programs.

Department of Veterinary Sciences

Wyoming State Veterinary Laboratory

Department Head: Jonathan Fox

Professors:

HOLLY ERNEST, B.Sc. Cornell University 1980; M.S. Ohio State University 1982; D.V.M. 1986; Ph.D. University of California, Davis 2001; Professor of Veterinary Sciences, Wyoming Excellence Chair in Disease Ecology 2014.

JONATHAN H. FOX, B.Sc., B.VSc. University of Liverpool, UK 1993; Ph.D. Virginia Tech 2002; Associate Professor of Veterinary Sciences 2008; Professor of Veterinary Sciences 2016.

WILLIAM W. LAEGREID, B.S. Washington State University 1980; M.S. Washington State University 1984; D.V.M. Washington State University 1985; Ph.D. Washington State University 1988; Professor, Director of the Wyoming State Veterinary Laboratory 2012.

Associate Professors:

GERARD P. ANDREWS, B.S. Pennsylvania State University 1980; M.S. University of New Hampshire 1983; Ph.D. Uniformed Services University of Health Sciences 1993; Associate Professor of Veterinary Sciences 2011, 2004.

TODD E. CORNISH, B.S. University of California-Davis 1990; D.V.M. 1994; Ph.D. University of Georgia 1999; Associate Professor of Veterinary Sciences 2005, 1999.

MYRNA M. MILLER, B.S. Colorado State University 1980; D.V.M. 1984; Ph.D. Cornell University 2005; Associate Professor of Veterinary Sciences 2016, 2010.

KERRY SONDGEROTH, B.A. University of New Hampshire 1997; D.V.M. Colorado State University 2006; Ph.D. Washington State University 2013; Assistant Professor of Veterinary Sciences 2014. Associate Professor of Veterinary Sciences 2020.

BRETT T. WEBB, B.S. University of Southern Colorado 2002; D.V.M. Colorado State University 2007; Ph.D. Colorado State University 2012; Associate Professor of Veterinary Sciences 2022.

Assistant Professors:

BERIT BANGOURA, D.V.M. Leipzig University 2003; Ph.D. 2008; Ph.D. 2015; Diplomate EVPC 2014; Assistant Professor of Veterinary Sciences 2017.

JENNIFER L. MALMBERG, B.S. Doane University 2004; M.A. Chadron State University 2013; Ph.D. Colorado State University 2018; Assistant Professor of Veterinary Sciences 2019.

ELIZABETH CASE, B.S. Oklahoma State University 2002; Ph.D. University of California-Irvine 2010; Assistant Professor of Veterinary Sciences 2020.

Clinical Assistant Professor:

JACQUELINE P. KURZ, B.S. Cornell University 2006; B.V.M.&S. Royal (Dick) School of Veterinary Studies, University of Edinburgh, UK 2010; Ph.D. Utah State University 2018; Clinical Assistant Professor of Veterinary Sciences 2020.

Adjunct Professor:

GEOFFREY J. LETCHWORTH, B.S. Trinity College 1965; D.V.M. New York State College of Veterinary Medicine 1972; Ph.D. Cornell University 1980; Adjunct Professor of Veterinary Sciences 2001.

SAMANTHA ALLEN, BSc and MSc University of Guelph 2007 and 2010; DVM Ontario Veterinary College 2014; PhD University of Guelph 2021; Adjunct Professor of Veterinary Sciences 2021.

Professors Emeritus

E. Lee Belden, Francis D. Galey, Bill Jolley, Merl Raisbeck, Lynn Woodard

The Department of Veterinary Sciences and the Department of Animal Science have combined their efforts to offer B.S., M.S., and Ph.D. degrees in animal and veterinary science (see listing under this title). Several options within the major are available including preveterinary medicine and animal biology. Undergraduate course offerings of the Department of Veterinary Sciences are listed under the title of pathobiology. They were designed to familiarize students with the principles of animal disease and the basic biological and biomedical sciences.

The department operates the Wyoming State Veterinary Laboratory, an animal disease diagnostic laboratory (wyovet.uwyo.edu). This laboratory provides valuable hands-on experience for students interested in laboratory animal care, laboratory procedures, and research. Excellent faculty mentors are available for students interested in preveterinary medicine, microbiology, and animal biology.

Animal and Veterinary Sciences

The Department of Animal Science and the Department of Veterinary Sciences have combined their efforts to offer several degree options leading to the bachelor of science degree in animal and veterinary science. Courses in animal science, food science, and pathobiology are the core offerings in the various options. Agriculture, in its broadest definition, is the nation's largest industry. Livestock production is Wyoming's largest agricultural enterprise. Animal agriculture and its associated industries offer many opportunities for the interested student. Whether a student is interested in production livestock, allied fields such as meat science, business or animal health, or wants to apply to a college of veterinary medicine, the degree tracks offered will form the basis for a challenging career in animal agriculture/biology. The various options provide maximum flexibility to meet the changing needs of students and their employers. For students interested in pursuing advanced research, M.S. and Ph.D. degrees are offered.

Several degree options allow for specialization and graduate or professional school preparation. A brief description of each option and the educational opportunities they provide is given with the course requirements. A grade of C or better must be earned in the following courses when the courses are required in the individual option for completion of the degree: ANSC 3010, 3100, 4120, 4540, 4630; FDSC 3060, PATB 4110, PATB 4111, LIFE 1010, 2022.

Students are encouraged to participate in activities related to their degree option. The university has livestock, horse and meats judging teams. Each team travels and participates in at least one major exposition a year. Each year, the Academic Quadrathlon competition is held, combining practical and classroom skills for students. Field trips, as practical teaching aids in many classes, are scheduled throughout the year. Internships are available to gain practical experience. Student organizations such as the Block and Bridle Club, Food Science Club, Microbiology Club, Range Club, the Pre-vet Club, Wyoming Collegiate Cattlemen's Association, and the Ranch Horse Team provide additional educational and recreational opportunities.

Graduate Study

The Department of Veterinary Sciences offers advanced study leading to the master of science and doctor of philosophy in animal and veterinary science. Areas of emphasis include: pathology, molecular diagnostics, bacteriology, virology, parasitology, epidemiology, immunology, and toxicology of wild and domestic animals.

Program Specific Admission Requirements

Open to students with a bachelor of science degree who meet the requirements set forth in this Catalog.

Recommended prerequisites include: chemistry, biochemistry, animal anatomy and physiology, biology, microbiology, and introductory statistics.

Preferred Requirements

Competitive applicants for either degree program will have a GPA 3.250 or higher and high GRE scores (153 verbal, 149 quantitative, 302 total using best composite scores).

Microbiology Program: Interdepartmental major

Microbiology Program

5004 Agriculture Building, (307) 766-3139

FAX: (307) 766-3875

E-mail: gandrews@uwyo.edu

Program Director: Dr. Gerard Andrews

Microbiology is the study of life forms too small to be observed without the aid of magnification; major groups of microbes include the bacteria, fungi (yeasts and molds), protozoa, and algae, as well as the viruses. In addition, related disciplines such as immunology and molecular biology are included because of their historical origins within microbiology.

As such, the science of microbiology is divided into numerous subspecialty areas that reflect not only the individual groups of microbes (e.g., bacteriology, virology, mycology, etc.), but also their significance in applied areas (e.g., medical microbiology/infectious diseases, microbial ecology, food microbiology, industrial microbiology, biotechnology, etc.) or in areas of basic science (e.g., molecular genetics). Throughout its history, microbiology has played a key role in the development of our understanding of basic biochemical and genetic processes, control of infectious diseases, production of increased and improved food supplies, and the production of numerous commercial products. With the development of molecular techniques to construct genetically engineered microbes, microbiologists will continue to make expanding contributions in these and other areas.

Because microbiology is a diverse science, individuals trained as microbiologists find exciting career opportunities in many areas of the basic and applied sciences. Typically, microbiologists are employed in five major sectors: private industry; clinical laboratories; government agencies; universities; and various other settings such as water treatment, food production/inspection facilities, and other public health-related areas. Recent manpower assessment studies at both the national and regional levels have provided evidence for a continuing and expanding need for microbiologists such that successful undergraduate students completing this program may look forward to exciting careers. In addition, undergraduates trained in the microbiological sciences are well prepared for competitive application to graduate school programs and professional programs in human or veterinary medicine, optometry or dentistry.

The bachelor of science degree program in microbiology is organized as an interdepartmental major involving the collaborative teaching, advising, and research expertise of more than 20 microbiology faculty from the Colleges of Agriculture and Natural Resources, Arts and Sciences, and Health Sciences. The program is administered by a Program Director and the Interdepartmental Microbiology Steering Committee, representing each of the participating colleges. Students obtain their degree in the College of Agriculture and Natural Resources. Additional information about the microbiology program may be obtained at the following website address and by contacting the Program Director or one of the members of the Interdepartmental Microbiology Steering Committee listed below.

Aims and Objectives

The College of Arts and Sciences (A&S) is committed to providing a balanced education that matches cultural breadth with disciplinary depth. Students in the College of Arts and Sciences learn to address complex contemporary problems and to place them in their wider social, historical and ethical contexts. To achieve these goals, degree programs require students to develop expertise in a particular field, gain critical understanding of major areas of human knowledge and select from required courses and free electives to prepare for the challenges of the new century.

A successful student in any of the departments and programs in the College of Arts and Sciences will have an excellent foundation for professional success, graduate study, and a passion for lifelong learning.

Through hands-on research and creative projects (either on faculty projects or independently with faculty guidance and mentoring), fieldwork, internships, and study abroad, students integrate and bring coherence to their classroom learning.

Student Responsibilities

To graduate from the College of Arts and Sciences, students must satisfy all university, college, and major requirements for a given degree. These requirements apply whether the work is taken within the college or transferred from anywhere else within or outside the university (please refer to section below "Acceptance of Transfer Credit").

The college holds students responsible for knowing degree and major requirements and for completing the necessary courses. Students are also expected to know the regulations that govern the academic standards needed to continue study at the university. Students should be aware that changing majors and/or colleges may result in delays in meeting degree requirements and that requirements themselves sometimes change (see "Graduation Requirements and Procedures" section of this *Catalog*).

Academic Advising

To help plan a program of study, students are assigned an academic adviser by the department/ program of their major. Students undecided about a major are advised in the UW Advising, Career, and Exploratory Studies office (222 Knight Hall).

Students should consult regularly with their academic adviser not only for course scheduling, but also to discuss educational and career goals. Faculty and professional advisers can connect students to the many college and university resources to assist undergraduate study. Instructors are also willing to discuss concerns students may have regarding specific courses.

Changing/Declaring a Major or Minor

When ready to declare or change a major, minor, or dual/concurrent major in a department or program in the college, the appropriate form is available from the Office of the Registrar (167 Knight Hall) or the Registrar's Web page. Approval is required from the appropriate department heads/program directors. Departments/programs will assign advisors at the time of signing their approval on the form.

Programs of Study

Undergraduate Degrees

A variety of specialized concentrations are offered within many of the following degree programs. Take a look at the department sections in this *Catalog* that follow this section or the departments' Web sites. Additionally, there are several inter-college or interdisciplinary degrees/majors such as Earth System Science and the affiliated major in Environment and Natural Resources that draw courses from several disciplines. See more detailed descriptions in this *Catalog* or the University of Wyoming home page at www.uwyo.edu, click on the A-Z Directory.

Minors in Arts and Sciences

The College of Arts and Sciences offers all university students systematic studies leading to recognized academic minors. Minors are available in all academic programs in the college and in a number of interdisciplinary areas.

A&S minors have two aims: to encourage students to create a focus for their course work outside their major by coordinating their elective studies; and to enhance chances of employment or graduate admission with a formally recognized field of study.

Minors consist of course requirements ranging from 18-24 credit hours of study, typically including significant work at the junior and senior level. A&S departments and programs offering minors and interdisciplinary degrees may have further conditions and restrictions regarding requirements in the minor. To be counted toward a minor, courses must be completed with a grade of C or better.

Students desiring a minor must notify the department in which the minor is offered. Forms for declaring a minor are available in the Office of the Registrar (167 Knight Hall) or on the Registrar's Web page. The department of the minor will assign an adviser.

For a description of the minors in A&S, see department offices or Web sites.

College Degree Requirements- The 2015 A&S Core

Bachelor of Arts or Science Programs

Beginning fall 2015, new university and college general education curricula, the 2015 University Studies Program (USP) and the 2015 A&S Core, were implemented. Refer to the USP section of this *Catalog* for details regarding University Studies requirements.

Students who matriculate for the first time at UW or a Wyoming community college in fall 2015 or after are required to follow both the new USP and A&S Core. Students transferring from a Wyoming community college with an associate's degree and the Wyoming Core completed between May 2013 and fall 2015, may continue to complete the 2003 USP and 2003 A&S Core requirements (if there has been no interruption in their enrollment for a year or more). Students who matriculated at UW or a Wyoming community college prior to fall 2015 and choose the 2015 USP must also complete the 2015 A&S Core requirements. For additional information please refer to the sections in this *Catalog* that describe the university graduation requirements, the 2015 University Studies Program, and the policies for reenrolling at UW after an absence of a year or more.

I. College credit hour requirements

- A. **Minimum total semester hours 120**
- B. **Upper-division credit requirements (42).** Thirty of the 42 hours must be earned from UW. Courses must be taken for a letter grade unless offered for S/U only. This is an all-university requirement for all degree programs and may come from the courses that fulfill the USP, the A&S Core, the major, the minor, and electives.
- C. **Major field of study (30-60).** Credit hours in excess of 60 in the major subject may not be used to satisfy the requirement of 120 hours for graduation. Credits in AS internship, independent study or special topics courses (AS 2400, AS 2490, AS 4400, AS 4500, AS 4510, AS 4900, and AS 4975) may not be used to fulfill these outside the major requirements. At least 30 hours of C grade or better must be earned in the major subject (the major may require more). Courses in the major must be taken for a letter grade unless offered for S/U only.
- D. **A&S Core requirements (6).** Courses must be taken for a letter grade unless offered for S/U only.

All other university and college regulations apply. See "Graduation Requirements and Procedures" section of this *Catalog* for more information. Graduate level "Enrichment" courses do not count toward the requirements for a bachelor's degree.

II. 2015 A&S Core Curriculum

Graduates of the College of Arts and Sciences are expected to be liberally educated, to have the knowledge and skills to deal with the unexpected, and to see opportunities from multiple perspectives. To develop these abilities, the college faculty implemented the A&S Core.

The approved courses for the following requirements are searchable within WyoRecords under the Browse Classes feature.

- 1. **U.S. Diversity (ASD).** This requirement allows students to explore the complexity of cultural identities in the U.S. and interdependence of the cultures. Students will gain an understanding of the influences of categories such as race, class, ethnicity, gender, disability, sexual orientation, religion, and age on American behaviors, institutions, values, and beliefs.
- 2. **Global Awareness (ASG).** Because citizens ever more frequently encounter behaviors and practices based on beliefs, conditions, and assumptions different from their own, they need to understand the nature and function of culture. Our students should have an awareness of the multiple links that affect the living

conditions and range of action of peoples of the world, including international systems of commerce, art, science, technology, politics, communication, belief, and justice, among other.

College Degree Requirements Prior to Fall 2015 for Continuing and Reenrolling Students

A&S Core requirements for a student continuing a degree program in effect at the time of matriculation at UW are found in the relevant previous *Catalog*. Contact the A&S Advising Center, Ross 6, 766-4013, asadvice@uwyo.edu.

Students who re-enter the university after an absence of a year or more should refer to other sections of this Catalog for university policies and procedures. Unless approved otherwise, reenrolling students, after a year's absence, are required to follow the University Studies and A&S Core requirements in effect the semester of their re-enrollment. However, all majors in A&S who have yet to complete the A&S Core, regardless of their initial enrollment, must refer to the current list of approved courses.

Checksheets and lists of courses that satisfy A&S college core requirements are available on the Web at www.uwyo.edu/as or in the A&S Advising Center, Ross 6, 766-4013, asadvising@uwyo.edu.

Departments and programs in the College of Arts and Sciences may require reenrolling students to complete requirements in the major that meet the current expectations of the discipline.

Transfer Students and Acceptance of Transfer Credit

The College of Arts and Sciences and its departments reserve the right to grant transfer credit toward the bachelor's degree only for those courses where a grade of C or better was earned. Students transferring credits from a university or college outside Wyoming with questions about how courses taken elsewhere fulfill the A&S Core may contact the A&S Advising Center, Ross 6, 766-4013, asadvice@uwyo.edu.

Courses Taken for S/U Credit

Students may include up to 20 semester credit hours in free electives with a grade of S as part of the total hours required by the College of Arts and Sciences for graduation. However, no S/U hours may be used to satisfy university and college core general education requirements or major requirements, including the required 42 upper-division credit hours unless the course is offered for S/U grading only.

Students registering in courses for S/U grades are subject to all general regulations.

Concurrent Majors

Students may pursue two or more majors simultaneously. With careful planning, A&S students may be able to use all or most of the free elective hours for requirements in the other majors. Refer also to the section, "Graduation Requirements and Procedures" in this *Catalog*.

The A&S Core must be met only once by students whose primary major is in the College of Arts and Sciences. Students whose degree programs are in other UW colleges are welcome to earn a concurrent major in A&S. These students do not have to meet the A&S Core requirements. The student earns one degree with one diploma.

Students pursuing a concurrent major must contact both departments involved for assignments to advisers.

Dual Degrees

Students may simultaneously pursue degrees in the same or more than one UW college. In addition to requirements described in the section "Graduation Requirements and Procedures" in this *Catalog*, students in another UW college who wish to earn a degree from A&S must also complete the A&S Core. A&S students working on dual degrees in the A&S College need to meet the A&S Core just once. A diploma is awarded for each degree.

Each additional degree requires 30 more credit hours added to the 120 credits to the primary degree. Of these 30 credits, 12 have to be at the 3XXX-4XXX levels.

Second Bachelor's Degrees

For students seeking a second bachelor's degree in the College of Arts and Sciences whose **first degree is from another university**, the minimum requirements include:

- 30 semester hours earned from the University of Wyoming, 12 of which must be upper division (3XXX-4XXX level) or graduate level (credit by examination does not count as UW hours).
- Completion of the U.S. and Wyoming Constitutions requirement (V courses in the University Studies Program course list in this *Catalog*).
- If the first degree is from an institution where English is not the predominant language, the COM1 and COM2 requirements of the University Studies Program must be completed successfully.
- Students must also meet the 2015 A&S Core requirements.

For students whose **first degree is from UW**:

- The additional required 30 hours (12 of these at the 3XXX-4XXX) are added to the degree requiring the least number of hours. For example, for a first degree A&S requires 120 hours. So the total credits a UW student would have to complete for the second bachelor's degree is a minimum of 150 credits. Since the University requires a total of 42 upper division hours for a degree, for the second degree from A&S, a UW student would need to earn a total of 54 hours at the 3XXX-4XXX level. For more information, please see the Second Bachelor's Degree entry in the section, "Graduation Requirements and Procedures" in this *Catalog*.
- Students whose **first degree is from another UW college** must meet the 2015 A&S Core requirements.
- In situations in which a student is subsequently required to take coursework from another collegiate institution to fulfill major and overall hour requirements for a second degree from the university, the student's department can ask the Office of the Registrar to load selected courses into the student's record.

Concurrent Major in Environment and Natural Resources

A student majoring in any A&S department/program may earn a double major by completing the courses required for the Environment and Natural Resource (ENR) program in addition to the requirements in their A&S major and the College A&S Core. The School of ENR Web site, <http://www.uwyo.edu/enr> has detailed information, or contact the School at (307) 766-5080.

Preprofessional Studies

The College of Arts and Sciences prepares students to enter professional schools through preprofessional programs of study described below.

Prelaw Study. Students usually need a bachelor's degree prior to beginning the study of law. There is no prescribed course of undergraduate study and no restrictions as to the field in which the degree is earned. However, to prepare for this competitive profession, prelaw students are advised to select courses that help to develop those talents and skills essential to the study and practice of law. Logical and critical thinking, conflict evaluation/resolution and effective verbal/nonverbal communication skills are essential. Additionally, students should understand the political, economic, social and cultural institutions and values that characterize human society. Rigorous courses in any discipline increase abilities in these areas. Regardless of the prelaw major, courses in the broad liberal arts--the sciences, social sciences, fine arts and humanities--increase understanding of the public's diverse interests and backgrounds.

Prelaw students do not have to declare a major at the time of first enrollment if they wish to explore options. Students who are undeclared in the College of Arts & Sciences are assigned advisers in the Advising, Career, and Exploratory Studies office until they decide upon a degree program. Please note that a prelaw minor is available.

In addition to an adviser in the major, prelaw students may contact the designated UW prelaw adviser for assistance in developing a program of study, for career counseling and for guidance in applying to law schools. Contact the A&S Advising Center, Ross 6, 766-4013, asadvice@uwyo.edu for information.

Detailed information about applying to law schools, the Law School Admissions Test (LSAT) and preparation materials, and links to other web sites are at www.LSAC.org.

Library Preprofessional Study. Librarians are information professionals who research, organize, and classify materials so the public can access information. Not only do they work with printed materials, but all the technological advances in digital media such as electronic databases and eBooks. Some librarians focus on teaching the public, scholars, and students how to access and use these materials, while others concentrate on collecting and maintaining these diverse resources. Librarianship offers many career opportunities to people of different academic backgrounds, interests, and talents. Most public, academic, and special libraries require a Master's degree in library science (MLS).

The degree programs and minors in the College of Arts and Sciences offer the variety of academic preparation expected by accredited library schools in the country. Most of the graduate schools in library science require a bachelor's degree, a good undergraduate record, and a reading knowledge of a foreign language for admission. The best undergraduate preparation includes a wide range of courses in the sciences, social sciences, and humanities along with a strong concentration in one subject area. The choice of a major will be determined by the student's academic interest and professional objective. The general education that the University Studies and the A&S Core require provide the well-rounded background graduate schools expect of their MLS candidates.

Additional information about library schools, their requirements, and programs as well as career opportunities may be obtained from the reference desk at Coe Library and the Center for Advising and Career Services. The U.S. Bureau of Labor Statistics "Occupational Outlook Handbook" at www.bls.gov/ooh/ has detailed descriptions of the varied work of librarians, working conditions, employment outlook, and sources for additional information.

Pre-Health Study. Students in several A&S majors may be working toward the following careers: athletic training, chiropractic, dentistry, medicine, occupational therapy, optometry, physical therapy, physician assistant, or public health. These professional schools are favorably impressed by a broad educational background, including a substantial number of non-science and science courses; therefore, students are well advised to look beyond the minimum requirements.

Students may select any major in which they are interested to discuss preparation for such careers. In addition to completing all university, college and departmental requirements, students must include in their curriculum the basic professional school requirements, including courses in biology, chemistry, math, and physics. Professional schools have other specific requirements and students should learn about any additional recommendations from those professional schools in which they are interested. We strongly suggest contacting the Pre-Health Advising office [College of Health Sciences, 110 Health Sciences, (307) 766-3878, or hsadvise@uwyo.edu] website: www.uwyo.edu/preprof/.

Common majors in the College of A & S for these preprofessional programs include Chemistry, Biology, Botany, Psychology, and Physiology. However, there are pre-health students in programs as diverse as theatre and dance and

anthropology. Students need not declare a major immediately upon first enrollment. Advisers in individual departments can discuss options or if students wish to remain undeclared, they are advised in either the UW Advising, Career, and Exploratory Studies office or the Health Sciences Advising office.

The pre-health advisers in the College of Health Sciences have current information regarding professional school admission requirements, entrance examinations, programs in Western Interstate Commission on Higher Education (WICHE), the Wyoming Medical Contract Program WWAMI (affiliated with the University of Washington School of Medicine) and financial assistance for professional education. The website, <http://www.uwyo.edu/preprof/> includes additional information.

Internships

Many departments in the College of Arts and Sciences offer internships for academic credit, and some provide monetary compensation. Academic internships provide practical, hands-on experience in a professional job setting as a complement to classroom instruction. An internship can provide students with both insight and preparation for future jobs. All internships require a strong background in writing, organizational ability and analytic skills. Junior or senior standing is recommended.

The School of Culture, Gender, and Social Justice

African American and Diaspora Studies

108 Ross Hall, (307) 766-2481

Director: Dr. Ulrich Adelt

Web site: www.uwyo.edu/aads

Professors:

JACQUELYN BRIDGEMAN, B.A. Stanford University 1996; J.D. University of Chicago 1999; Professor of Law 2008, 2002.

DARRELL D. JACKSON, B.A. College of William and Mary 1987; J.D. George Mason University School of Law 1990; Ph.D. University of Colorado School of Education 2011; Professor of Law 2018, 2013.

TRACEY OWENS PATTON, B.A. Colorado State University 1993; M.A. 1996; Ph.D. University of Utah 2000; Professor of Communication and Journalism 2012, 2003.

Associate Professor:

ULRICH ADELDT, M.A. University of Hamburg, Germany 2000; Ph.D. University of Iowa 2007; Associate Professor of American Studies 2015, 2009.

Assistant Professor:

FREDRICK D. DIXON, B.A. Purdue University 1993; M.A. Northeastern Illinois University 2003; Ph.D. University of Illinois Urbana-Champaign 2018; Assistant Professor of African American and Diaspora Studies 2019.

Associate Academic Professional Lecturer:

MARY L. KELLER, B.A. Williams College 1987; M.A. Syracuse University 1992; Ph.D. 2002.

Lecturers:

JASCHA HERDT, B.A. University of Wyoming; M.A. 2011.

ERIC D. JOHNSON, B.A. University of Alabama 2003; MA, University of Iowa 2009; Ph.D. 2021.

CHAD D. ROBINSON, B.S. Northwestern University 1992; MA, City University of New York 2006; M.S. Mercy College 2008.

The African American and Diaspora Studies Program, through an interdisciplinary course of study, examines the experiences of African Americans in the United States, in the context of Africa and its Diaspora in Europe and the Americas.

Undergraduate Studies

The population of Black America has nearly doubled in Wyoming since the year 2000. As the population becomes more diverse it is important to provide students with a background in multicultural relations so that they are prepared for the global workforce. We intend to provide students with the necessary knowledge to prepare them to participate in an increasingly interconnected world. Therefore, African American and Diaspora Studies offers a bachelor of arts (B.A.) and an undergraduate minor in African American and Diaspora Studies.

Students may access a copy of the undergraduate major and minor check sheets at www.uwyo.edu/aads/major-minor/index.html.

At present, no program for graduate degrees in African American and Diaspora Studies is offered; however, some courses may be counted at the graduate level.

American Studies Program

American Studies explores American cultural experience past and present, through a wide range of approaches to American lives, places, arts, knowledges, communities, institutions, histories, and ideas. American Studies is an integrative field that comes from and adds to the context of our cultural lives in the U.S. and the U.S. in the world. American Studies frames present concerns with engagement with the past; expects us to engage people's experiences in the context of a diversity of experiences; and invites us to understand our own commitments and interests as valuable contributors to American cultural understanding. American Studies as a field depends on and adds to insights of scholars, artists, and scientists from virtually any field of expertise.

The American Studies program offers undergraduate B.A. and graduate M.A. degrees in American Studies, as well as courses of general interest to students in any degree.

Our program places special emphasis on studying American cultures through field experiences and internships: students apply academic knowledge and develop professional skills in community and non-profit organizations, historic preservation efforts and organizations, historic sites, museums and collections, among many possibilities. Every internship is developed in close consultation between the students and our Internship Coordinator, and frequently stems from a student's general idea about where or with whom they'd like to work, in Laramie or Wyoming, in other parts of the U.S., or sometimes abroad. Our program also highlights international perspectives, as well as the transnational context of American impacts and experiences, in course work and exchanges available to American Studies students.

American Studies puts people and their plans together building career goals in K-12 education, law, or business, work in community organizations and public institutions, or further graduate-level study.

Native American and Indigenous Studies

**Main Office: 117 Native American Education, Research and Culture Center,
(307) 766-6520**

**Director's Office: Native American Center,

Assistant Lecturer:

ROBYN LOPEZ, A.A. Central Wyoming College 2004; B.A. University of Wyoming 2007; M.A. University of Hawai'i at Mānoa; Assistant Lecturer of Native American and Indigenous Studies 2019.

Adjunct Faculty:

(See Catalog section following name for academic credentials.)

Pamela Innes, Anthropology

Jeffrey Means, History

Affiliated Faculty:

The Native American and Indigenous Studies offers an academic major at the undergraduate level and a minor at both the undergraduate and graduate level. This interdepartmental course of study examines Native North American cultural and social life, as well as Indigenous cultural and social life globally, including economic, political, and educational systems. Historical and contemporary perspectives of American Indian and global Indigenous experiences are included in this program.

Students may choose a NAIS studies minor to complement a major field of study. Related disciplines include American studies, anthropology, art, ethnic studies, geography, history, law, music, philosophy, political science, and sociology. A minor in Native American and Indigenous Studies provides excellent preparation for teachers, researchers, social workers, healthcare providers, resource managers, economic developers, and legal practitioners.

Arielle Zibrak, English

The Gender and Women's Studies Program offers an interdisciplinary course of study that examines the relevance of sex, gender and sexuality in history, societies, and cultures. Students may earn a major, minor, or graduate minor in Gender and Women's Studies, or a minor or graduate minor in Queer Studies.

Program Learning Objectives

Students graduating with a degree in Gender and Women's Studies will have skills to apply in a variety of settings indicated by their ability to:

- Engage in intersectional, interdisciplinary feminist analysis.
- Analyze socio-historical and contemporary power dynamics underpinning group relations, social institutions, and systems of representation.
- Situate their analyses within various place-based contexts, including the rural, local, community, transnational, and global.
- Understand and articulate the history, strategies, and goals of interconnected movements for social justice.
- Demonstrate mastery of critical thinking skills necessary to succeed in diverse, 21st century work forces and communities.

NOTE: Gender & Women's Studies recently changed all course prefixes to GWST (from WMST). All former WMST courses will count toward Gender & Women's Studies degree programs.

Latina/o Studies

108 Ross Hall, (307) 766-4127

The Latina/o Studies program, through an interdisciplinary and comparative approach examines the history, cultures, language and contemporary experiences of Mexicans, Mexican-Americans and other Latinos/ as in Wyoming, and the United States.

Learning Outcomes

Latina/o Studies courses emphasize perspectives that are historical and contemporary, theoretical and practical, as well as critical and aesthetic. These perspectives help to develop an understanding of oppression and resistance, at the individual, institutional, and ideological levels.

Upon completion of the University of Wyoming Latina/o Studies minor curriculum, students will have an awareness and appreciation for the Latina/o experience. Particularly as the Latina/o experience is expressed in the following concepts and principles of organic insight, relational awareness, historical perspective, power for social change, intersectionality, and aesthetics.

1. *Organic Insight* - The development of a contextual framework for understanding one's own and others' experiences in relation to the Latina/o experience.
2. *Relational Awareness* - The development of a theoretical framework for understanding how institutional social structures impact individuals, families, and communities, and in turn, how individuals, families, and communities impact social structures through resistance, social agency, and change.
3. *Historical Perspective* - The development of a critical historical viewpoint for understanding how struggles around social, economic, and political forces have shaped the traditional and contemporary Latina/o Diaspora.
4. *Power for Social Change* - The development of a critical consciousness, which is necessary for a social praxis that combats oppressive racist ideologies and social structures that perpetuate individual and institutional inequalities.
5. *Intersectionality* - Gaining an awareness of the intersection of race, ethnicity, class, gender, and sexual orientation as it plays out organically, relationally, historically, and politically.
6. *Latina/o Aesthetics* - The development of an appreciation and awareness of the aesthetics evident in Latina/o art, music, theatre, literature, and other artistic expressive forms and styles.

Latina/o Studies Minor

Latina/o Studies offers an undergraduate minor. The minor in Latina/o Studies requires 18 credit hours. Two of those courses (6 hours) must include the required foundation courses, and the remaining courses (12 hours) can be selected from the other areas of studies listed below.

Department of Anthropology

Rick Weathermon

Professors Emeriti:

George W. Gill, Mary Lou Larson, Lin A. Poyer, Charles A. Reher, Audrey C. Shalinsky

The department of Anthropology promotes the understanding of humankind from an integrated, holistic approach which examines past, present and future trends in cultural, biological and linguistic diversity and uniformity. Though the department serves undergraduate and graduate majors who will become professional anthropologists or will pursue other related careers, it also provides information to a large number of non-majors and to the larger community regarding cross-cultural issues. Furthermore, because of its commitment to the four field approach including biological anthropology, archaeology, cultural anthropology and linguistic anthropology, the department fosters among its students an awareness of the interrelatedness of scientific concepts, methods and theories, and the humanistic foundation of scientific inquiry. The Department of Anthropology prepares its students both to understand the cultural resources of Wyoming and to participate as informed citizens in an increasingly complex global community.

Undergraduate Major

The Anthropology B.A. program has the following learning outcomes:

1. students demonstrate knowledge about the four fields of anthropology and their interrelationship,
2. students participate in a research experience and understand its process, and
3. students demonstrate ability to analyze and synthesize in relation to anthropological issues or theories.

In addition to university and college requirements listed in this Catalog, anthropology majors must complete two semesters of foreign language. ANTH 1100 and ANTH 1300 cannot be used to fulfill the USP PN requirement. Specific requirements for a B.A. in anthropology are ANTH 1100, 1200, 1300, and 2000. Students must complete ANTH 3300 or ANTH 3310. ANTH 3300 and ANTH 3310 require an additional 1 hour of ANTH 4975. Also required are an additional 21 credits of upper division anthropology for a total of 25 upper division (3000+) credits within the major, including at least one course from three different subfields (cultural anthropology, linguistic anthropology, biological anthropology, and archaeology). Courses that can be used to fulfill upper division cultural anthropology are ANTH 4023, 4300, 4310, 4320, 4325, 4330, 4340, 4350, 4380, 4020 (with instructor's consent). Courses that can be used to fulfill upper division linguistic anthropology are ANTH 4024, 4740, 4765, 4775, 4785, 4795, 4020 (with instructor's consent). Courses that can be used to fulfill upper division biological anthropology are ANTH 4022, 4210, 4215, 4220, 4230, 4255, 4260, 4020 (with instructor's consent). Courses that can be used to fulfill upper division archaeology are ANTH 3900, 4021, 4110, 4115, 4120, 4125, 4130, 4145, 4150, 4160, 4170, 4175, 4020 (with instructor's consent), or six credits of archaeological field school (ANTH 4140 or 5180). It is recommended that

anthropology majors take ANTH 1101 to fulfill the First-Year Seminar requirement, but it is not required that students take this particular First-Year course. It is also recommended but not required that students complete a course in statistics (STAT 2050 or 2070) and a third semester of foreign language. Courses required by the department for the major and minor must be completed with a grade of C- or better.

At the completion of the Bachelor of Arts degree in Anthropology, students will be able to demonstrate knowledge about the four subfields of anthropology and their interrelationships; they will have participated in a research experience and understand its process; and, they will demonstrate ability to analyze and synthesize in relation to anthropological issues or theories.

Undergraduate Minors

The Anthropology undergraduate minor has the following learning outcomes:

1. students learn sufficient subfield information to complement a variety of disciplines,
2. students learn basic methods of the discipline, and
3. students learn basic theories/ types of subfield explanation.

The minor for non-anthropology majors requires two of the introductory courses: ANTH 1100, 1200, 1300, 2000, and 11- 12 hours of electives from 2000, 3000, or 4000-level anthropology courses with no more than 3 hours at the 2000-level. See the anthropology web site for more details.

Teacher Education

Anthropology courses may be used to complete part of the requirements for teacher certification in social studies.

Graduate Study

The department offers programs of study leading to Master of Arts and Doctor of Philosophy degrees in Anthropology. Check Anthropology department web pages for any updates.

Program Specific Admission Requirements

Master's Program

The Anthropology M.A. program has the following learning outcomes:

1. students will be able to explain the content of the "four fields" of anthropology and their interrelationship in written and oral formats,
2. students will have experience in original research, and
3. students will develop skills which foster professionalism as related to their chosen field.

Deadline for application is February 15 for the following fall. See graduate admission requirements. Submit letter of intent, resume, transcripts, and an optional writing sample as digital documents to the UW online application system. A

minimum of three letters of recommendation are required; a standardized recommendation form is provided through the application system.

In the letter of intent, students should describe their research interests, career goals, and how Wyoming's program will help them achieve these goals.

The Department of Anthropology requires that at least two of the recommendation letters be from academic supervisors or instructors.

Students must present evidence of a satisfactory background in anthropology, which should include coursework in all four subfields of Anthropology (socio/cultural, bio/physical, archaeology, and linguistics). Deficiencies in anthropology may require remediation. Students must have two semesters of a single foreign language or equivalent, and one semester of statistics. In those instances in which the undergraduate background of the student is deficient, the department reserves the right to prescribe course work that would correct such deficiencies.

The M.A. program is designed to be completed in two full years of graduate study. Appropriate allowance will be made for parttime students.

Students who graduate with a Master of Arts degree will be able to explain the content of the four fields of Anthropology and their interrelationship in written and oral formats; they will have an experience in original research; and, they will develop skills which foster professionalism in their chosen fields.

Doctoral Program

The Anthropology Ph.D. program has the following learning outcomes:

1. students will have professional and specialized training so they can move into careers in academic or non-academic tracks,
2. students will have a dissertation research experience that results in professional publication(s), thereby contributing to the expansion of knowledge, and
3. students will have practical experience that will promote their movement into professional careers in a reasonable amount of time.

Deadline for application is December 1 for the following fall. *See graduate admission requirements.*

Submit letter of intent, resume, transcripts, and an optional writing sample as digital documents to the UW online application system. A minimum of three letters of recommendation are required; a standardized recommendation form is provided through the application system.

In the letter of intent, students should identify whom they would like as their faculty adviser and describe their research interests, career goals, and how Wyoming's program will help them achieve these goals.

Students with a master's degree may apply directly to the Ph.D. program.

Students with a bachelor's degree may apply to the Ph.D. program. If admitted, students are expected to complete the master's degree requirements following the Plan A or Plan B option before formal admission to the Ph.D. program. At the thesis defense or hearing for the Plan B paper, the student will receive a no pass, pass-terminate at the master's degree, or a pass-admit to the Ph.D. program.

Students admitted to the department's M.A. program are not guaranteed admission to the Ph.D. program.

For admission to the Ph.D. program with the Bachelor's degree, students must have course work in the four subfields of anthropology, two semesters of a single foreign language, and statistical competency at either the B.A. or M.A. level. If

these are not satisfied, the student's faculty adviser in coordination with the student's graduate committee assigns remedial work as appropriate.

Students who graduate with a Ph.D. in Anthropology will have specialized and professional training so they can move into academic or non-academic tracks; they will have a dissertation experience that results in professional publications; and they will have professional experiences that facilitate their move into careers in a reasonable amount of time.

Program Specific Graduate Assistantships

Doctoral students generally receive two years of assistantships. First semester, first year M.A. students are generally not awarded assistantships; however, the department occasionally does make exceptions. M.A. students are eligible to apply for assistantships beginning in the second semester.

Assistantships are awarded through a departmental application process. An application form, cover letter, and resume are required. Information and deadlines may be obtained in the department office.

Failure to complete steps in the M.A. program by established deadline (e.g., advisor selection, proposal presentation, etc.) means the student is not eligible for an assistantship. Failure of the Ph.D. preliminary exam means the student is not eligible for an assistantship.

Program Specific Degree Requirements

Master's Program Plan A (thesis)

See university minimum requirements.

Completion, with a grade of "B" or better of a four core-course sequence. This sequence will consist of ANTH 5010, 20th Century Anthropological Theory; ANTH 5015, Archaeological Theory and Method; ANTH 5020, Biological Anthropology; and ANTH 5030, Linguistic Anthropology.

First semester (fall): Students will submit form to the graduate advisor and department head identifying their thesis advisor BEFORE the graduate assistant allocation meeting (mid-late November).

Second semester (spring): Students will work with their advisor to select their committee, which must be formed and on-file in the department office by the end of the semester. During the core classes' final exam periods, students give a presentation to departmental faculty which outlines the general ideas for their proposed thesis.

Third semester (fall): Working closely with their advisor and committee, students complete a detailed prospectus and gain approval from thesis committee for MA thesis topic.

Fourth semester (spring): Thesis is completed and is approved by thesis committee.

Any M.A. student receiving a grade of C or less in two core classes will be expelled from the program.

Second semester research presentations are assessed by all department faculty in attendance at the presentation and evaluations will be given to the student's advisors. It is expected that students will work closely with their advisors to rectify any problems before they complete their thesis prospectus in the third semester.

If not completed prior to admission; two semesters of a single foreign language and one statistics course must be completed.

Plan B (non-thesis)

See university minimum requirements.

All requirements for a Plan A except thesis, if not completed prior to admission; two semesters of a single foreign language and one statistics course must be completed.

Doctoral Program

See university minimum requirements.

After completion of an M.A. program in anthropology.

A minimum of six content courses (18 hours) chosen by the student in conjunction with the student's committee. These courses are normally completed in the first two years of the Ph.D. program. In addition to anthropology courses, the other 4000/5000-level courses outside of the department may be required by the committee or chosen by the student in consultation with their committee. If not completed prior to admission, two semesters of a single foreign language must be completed.

Two additional courses in their first or second year: ANTH 5880, Professionalism in Anthropology and the two-semester sequence of ANTH 5890, Teaching Anthropology (3 hours total).

Teaching experience, including standalone courses, after completion of the first semester of Teaching and Learning (ANTH 5890), as well as teaching assistance to UW faculty members.

Participation in an approved internship experience (6-24 credit hours). Students pursue internships in state and federal agencies, museums, contract archaeology organizations, and other organizations that offer potential career experience.

Committee meeting and successful completion of a dissertation proposal.

Preliminary exams take place after the completion of 18 hours of content courses. ANTH 5880, and Teaching and Learning in Anthropology (ANTH 5890, or other as designated), normally before the end of the second year. If a student does not receive a passing grade on the preliminary exam, it can be repeated once. Failure to pass the preliminary examination the second time results in termination from the anthropology program.

International experience is highly recommended but not required, e.g. pre-dissertation summer fieldwork.

Student maintains a portfolio which documents teaching, internship, and research experience.

Students are encouraged to present papers at professional conferences and submit articles for publication throughout their tenure as a student. After admission to candidacy, the student is expected to research, write, and defend a dissertation based on original research (up to 48 credit hours). Students may either submit a single dissertation or a series of integrated publishable articles (30-40 pages each). The student's committee must approve this choice and decide on the number, length and content of the articles at the same time, usually at the committee hearing prior to the preliminary exams. For the final submission of the dissertation, the student must also complete an introduction and conclusion to contextualize and synthesize the integrated articles.

BAILEY RUSSEL, B.A. Princeton University 2001; M.A. New York University 2004.

Senior Academic Professional Research Scientist:

DAVID L. JONES Jr., B.F.A. University of Georgia 2000; M.F.A. University of Tennessee 2004.

Assistant Academic Professional Lecturer:

RANI ROBISON, B.A. University of Utah 1999; M.F.A. University of Oregon 2008.

Professors Emeriti:

Deaderick, Edwards, Evans, Flach, Forrest, Reif, Russin (Distinguished Professor of Art), Schaefer, Haydon

Art and Art History

The Art and Art History Program within the Department of Visual and Literary Arts supports the creative, aesthetic and cultural development of students within the university community and serves the cultural and educational needs of the state. The department is dedicated to preparing its graduates to assume leadership positions in their professional lives while maintaining an inner commitment to the aesthetic standards of their chosen discipline.

The program fosters a unique combination of innovation, tradition, aestheticism and practicality, by providing a professional visual arts education built on a strong University Studies Program (USP) foundation.

Department Policy

A class within the Art and Art History Program within the Department of Visual and Literary Arts may require additional meeting times, so that students may fully participate in the Visiting Artist Program and the UWAM lecture series.

As a matter of policy, the Department of Visual and Literary Arts reserves the right to retain any works created by students it deems worthy for the purposes of exhibition until the end of the academic year.

The Department of Visual and Literary Arts studios are the primary instructional classrooms. As a matter of policy, access to the studios and use of the equipment is reserved for students who are formally registered for scheduled courses and are following a prescribed curriculum.

Scholarships

The department has several scholarships for qualified students at all stages in the program. See the Department of Visual and Literary Arts website for a full list of scholarships.

Academic and Career Advisement

Faculty advisers work closely with department students to guide and direct their progress through their declared degree program and course of study. Through the visiting Artist Program, the UW Art Museum and internship placements, the department provides numerous opportunities and role models for a professional life in the visual arts. Through consultation and discussion with faculty advisers, art students consider their interests and abilities in relation to the many and varied careers in the arts and art related fields. Many graduates go directly into industry, on to pursue graduate studies or take the next step in their career plan. On a competitive basis upon graduation, majors may participate in the Post Undergraduate Assistantship Program where they may prepare a portfolio for graduate school and/or gain additional experience in the studio and the classroom setting.

Undergraduate Majors

The University of Wyoming Department of Visual and Literary Arts offers five degrees within the Art and Art History Program:

- Bachelor of Arts in Art History
- Bachelor of Arts in Studio Art
- Bachelor of Arts in Art Education
- Bachelor of Fine Arts in Studio Art
- Bachelor of Fine Arts in Visual Communication Design

Transfer Residency

A minimum of 26 hours of upper-division course work in the major is required to establish residency in the department for all transfer students. This applies to students in all five of the B.F.A., B.A., and Art Education degree programs who transfer in 12 or more hours of art courses for the major. Students in all art programs must meet the university requirement of at least 42 hours of course work at the upper-division level (3000- and above).

Studio Art and Art Education Majors - General Requirements

ART 1005, 1110, 1120 and 1130 are considered an important preparation and prerequisite for drawing, painting, printmaking, ceramics, sculpture and graphic design courses and are required freshman courses for the major. Studio Art and Art Education Majors must complete the Foundation Core Hours before electing upper division courses in any studio area. ART 2010, 2020, and 2305 are required sophomore courses.

Once sophomore Art Studio and Art Education majors complete course prerequisites, they select a minimum of four courses from the studio core hours. Most of the university and college requirements should be completed as early as possible before the senior year. The department will enforce published prerequisites for courses.

Studio Art, Visual Communication Design, and Art Education majors must submit a portfolio for evaluation before proceeding to intermediate and advanced studios beyond the required studio core. Any student whose portfolio is assessed as deficient must address the deficiencies before receiving permission to advance in the major.

Please note: Studio Art and Art Education students who do not pass the portfolio review will be able to resubmit the following semester. However, if students fail more than once, they will be unable to progress in the Department of Visual and Literary Arts and may be asked to transfer to another department or UW college or complete an art minor. Portfolio evaluation will occur once in each of the fall, spring, and summer semesters.

Undergraduate Minors

Minors are offered in the following areas:

- Art History
- Ceramics
- Digital Media
- Drawing
- Metalsmithing

- Museum Studies
- Painting
- Photography
- Printmaking
- Sculpture

Further information may be found on the department's website.

Please note: B.A. in Studio Art, B.F.A. in Studio Art, B.F.A. in Visual Communication Design and B.A. in Art Education degree students cannot have a minor in a specific studio discipline. B.A. in Art History students may have a minor in studio disciplines, and B.A. in Studio Art, B.F.A. in Studio Art, B.F.A. in Visual Communication Design, and B.A. in Art Education degree students may have a minor in Art History and/or Museum Studies.

Creative Writing Program

201 Hoyt Hall, (307) 766-6453

FAX: (307) 766-3189

Web site: www.uwyo.edu/creativewriting/

Program Director: Val Pexton

Professors:

ALYSON HAGY, B.A. Williams College 1982; M.F.A. University of Michigan 1985; Professor of Creative Writing 2008, 1996.

HARVEY HIX, B.A. Belmont College 1982; M.A. University of Texas, Austin 1985; Ph.D. 1987; Professor of Philosophy and Creative Writing 2015.

FRIEDA E. KNOBLOCH, B.A. Cornell University 1985; Ph.D. University of Minnesota 1994; Professor of American Studies and Creative Writing 2014, 1997.

JEFFREY A. LOCKWOOD, B.S. New Mexico Institute of Mining and Technology 1982; Ph.D. Louisiana State University 1985; Professor of Philosophy and Creative Writing 2006.

Associate Professors:

KATE NORTHROP, B.A. University of Pennsylvania 1991; M.F.A. University of Iowa 1995; Associate Professor of Creative Writing 2008.

Senior Lecturers:

APRIL HEANEY, B.A. University of Wyoming 1998; M.A. 2000. Senior Lecturer in English and Creative Writing 2015, 2005.

VAL PEXTON, B.A. Humboldt State University 1986; B.A. University of Wyoming 1998; M.A. 2001; M.F.A. 2008; Senior Lecturer in English and Creative Writing 2018, 2009.

PAUL BERGSTRAESSER, B.A. Oberlin College 1989; M.A. Northern Michigan University 2000; Ph.D. University of Illinois, Chicago 2007; Senior Lecturer in English and Creative Writing 2018, 2007.

Creative Writing

We are writers. Our principles follow from what claims us as writers as we guide our students in the creation of their own work. We offer a commitment to art and to the development of community through art. We offer an immersion in making, a chance to discover, to create serious work without pretense, to collaborate, to shake off assumptions and anxieties.

To be first and foremost concerned with making does not mean we take refuge from the world. It means we begin by supporting the deepest, most intelligent engagement with what matters to us as writers. A critical distance from the literary and academic marketplaces allows us to engage with them in a more thoughtful manner once we have found our authentic calling—that which we are truly compelled to explore. Our values will never map perfectly onto the concerns of institutions, and that is good. We strive to create the finest conditions for the making of art when we remain in an eccentric orbit of our own, one that overlaps with the other orbits, yet remains, as much as possible, guided by our own principles which include:

Making: we require the serious, committed, ongoing process of writing and revision.

Range: we cultivate a diversity of taste, form, genre, experience, and background, as well as an open understanding of what might constitute professional accomplishment.

Flexibility: we invite our writers to pursue their own creative and intellectual goals, to tailor the program in individual ways.

Curiosity: we urge creative and intellectual roaming: cross-genre work, interdisciplinary study, the movement across what are usually understood as boundaries; we encourage students to imagine possibilities beyond what is already imagined for them by the program and the university.

Community: we foster an environment that sustains listening, investment in the work of others, collaboration, rigorous expectation, generosity and, at the same time, respect for solitude.

Integrity: we challenge students to engage in deep investigation, to find their intent as a writer and to commit to it fully.

Graduate Study

The Creative Writing Master of Fine Arts offers two areas of concentration: fiction and creative non-fiction.

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this Catalog, the Creative Writing M.F.A. Program requires that students demonstrate by means of an official transcript that they have a solid undergraduate record. The M.F.A. program welcomes degrees in any discipline from four-year colleges or universities. Candidates submit three letters of recommendation, a writing sample consisting of no more than 25 pages of prose, a 500-word statement of purpose and a vita. Students should consult the M.F.A. web site or contact the department for specific admission information and deadlines.

Program Specific Graduate Assistantships

We are a fully-funded program, meaning that we accept only as many students as we can support with graduate assistantships. Full assistantships carry an annual stipend and tuition waiver, and require the teaching of one section per semester, or equivalent work assignment. M.F.A. students are expected to teach freshman English.

Each fall, the English department conducts a week-long orientation for new teaching assistants and a subsequent series of colloquia. Each graduate assistant is assigned to an experienced teacher in the English department as a mentor, to be available throughout the semester for consultation on teaching and grading techniques.

Department of Botany

Botany

Professors Emeriti:

Dennis H. Knight, Stephen T. Jackson, William A. Reiners

Associate Professors Emeriti:

Daniel B. Tinker

Botany

Botany is the study of plants and their relationship to human affairs. The science is fundamental to food, fiber and pharmaceutical production; to the management of landscapes for beauty, recreation, forest products and forage; and to the protection of landscapes against pollution and other abuses. The botanist is concerned with the diversity and classification of plants and fungi, their structure at both the macroscopic and microscopic levels, and their physiology, ecology and genetics and evolutionary relationships.

Courses in botany have been developed to meet the needs of the following groups of students: those who desire a general knowledge of the subject for its cultural value; those specializing in areas which require a background in plant biology; and those selecting botany or biology as a major.

Undergraduate Degrees:

Students can choose from two undergraduate degree majors: the Botany B.S. and Biology B.S. programs. The Biology B.S. program includes an optional Concentration in Ecology and Evolution. The Biology B.S. degree program also maintains a concurrent major offered through the College of Education whereby students fulfill all the major requirements for Biology on top of their requirements for the B.S. degree in Secondary Science Education with a major in Biological Sciences Education.

Undergraduate minors:

Minors in Biology and Botany are offered.

Graduate Study:

The Department of Botany offers graduate programs leading to the master of science and the doctor of philosophy degrees in botany and the master of science degree in botany/water resources.

Program Specific Admission Requirements (Graduate Study)

A minimum GPA of 3.000 on previous coursework is required.

Program Specific Degree Requirements (Graduate Study)

Regardless of field of specialization, all candidates will be held responsible for basic information in the following areas: genetics, physiology, morphology, and evolutionary and environmental botany. A knowledge of chemistry (including organic and elementary biochemistry), physics, calculus, and statistics may be required.

A minimum GPA of 3.000 must be maintained. Any course in which a C (or below) or U is obtained cannot be counted toward the degree requirement.

Participation in seminars will be required of all candidates during their residence at the University of Wyoming.

Department of Chemistry

204 Physical Sciences Building,

(307) 766-4363

FAX: (307) 766-2807

Vernon Archer, Keith T. Carron, Robert Corcoran, Clyde Edmiston, Anthony Guzzo, Suzanne Harris, Robert Hurtubise, David Jaeger, E.G. Meyer, Dean M. Roddick, Edward Clennan.

Senior Lecturer Emeritus:

Patricia A. Goodson

Chemistry is one of the fundamental physical sciences dealing with the structure and properties of matter, along with changes that matter undergoes. Chemistry's scope encompasses all substances, living and non-living. Its study and practice include (1) the theoretical and experimental aspects of chemical bonding and structure using computational, spectroscopic, and diffraction techniques; (2) the laboratory synthesis from simple starting materials of desirable compounds in the inorganic, organic and biological classes; and (3) the total analysis of complex mixtures using modern spectroscopic and electrochemical methods. Since we live in a material world, applications of chemical knowledge influence most areas of human endeavor: scientific, economic, political and social. Many of the advances in the areas of new materials, medicines, biotechnology, food production, new energy sources and semiconductor

technology associated with the "computer revolution" are based on chemistry and chemical principles. Some understanding of these chemical principles should be part of every educated person's knowledge.

Because of the broad scope of this discipline, the Department of Chemistry offers a variety of courses and programs. These programs meet the needs of students planning professional careers in chemistry and those wishing to major in chemistry for other objectives. In particular, chemistry is a traditional pre-professional major for students interested in medicine and dentistry. Specific courses are offered to serve other major areas and as part of University Studies and A&S core requirements.

Students who have taken an AP examination and have received a score of 4 or 5 may receive credit for CHEM 1020 and CHEM 1030.

Undergraduate Minor

A minor is offered in the Department of Chemistry. Further information may be found at the web site www.uwyo.edu/chemistry.

Graduate Study

The Department of Chemistry offers programs leading to the degrees of master of science and doctor of philosophy chemistry. The master's degree is offered mainly under Plan A with Plan B reserved for special circumstances.

The department also participates in the preparation of students for the degrees of master of science in natural science and master of science in teaching (M.S.T.), which are designed to improve the competence of those engaged in science teaching.

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this *Catalog*, the Department of Chemistry requires that a student have taken the following undergraduate courses: one year of general chemistry; one semester/quarter of quantitative analysis; one year of organic chemistry plus laboratory; one year of physical chemistry plus laboratory; one year of physics; and mathematics through multivariable calculus. As appropriate, one or more of these course requirements may be waived at the discretion of the department.

Department of Communication and Journalism

223 Ross Hall, (307) 766-3122

FAX: (307) 766-5293

Department Chair: Cindy Price Schultz

Professor:

CHIA FANG (SANDY) HSU, B.A. Chinese Culture University 1995; M.A. Washington State University 1997; Ph.D. Washington State University 2002; Associate Professor of Communication and Journalism 2009, 2003.

Associate Professors:

KRISTEN D. LANDREVILLE, B.S. University of Florida 2004; M.A. 2006; Ph.D. Ohio State University 2010; Associate Professor of Communication and Journalism 2017, 2010.

LI LI, B.A. Hebei Normal University 2001; M.A. China University of Mining and Technology 2004; M.A. Ohio University 2009; Ph.D. 2012; Associate Professor of Communication and Journalism 2019, 2012.

CINDY J. PRICE SCHULTZ, B.A. University of Sioux Falls 1989; M.S. South Dakota State University 1992; Ph.D. Southern Illinois University 2000; Associate Professor of Communication and Journalism 2005, 1999.

Assistant Professor:

KATHRYN (KAATIE) COOPER, B.S. Trinity University 2008; M.A. Ohio State University 2013; Ph.D. 2018; Assistant Professor of Communication and Journalism 2019.

Instructor:

SHANE EPPING, B.A. University of Chicago; M.A. Washington University, St.Louis; M.A. University of Missouri

Senior Lecturers:

BEAU BINGHAM, B.S. Idaho State University 2000; M.A. New Mexico State University 2002; Senior Lecturer of Communication and Journalism 2007, 2003.

JUSTIN STEWART, B.A. University of Wyoming 2003; M.A. 2005; Senior Lecturer of Communication and Journalism 2017, 2005.

Assistant Lecturers:

MATTHEW LIU, B.A. University of Mary Washington 2009; M.A. Wake Forest University 2014; Assistant Lecturer of Communication and Journalism 2019.

MITZI STEWART, B.A. University of Wyoming 2007; M.A. 2015; Assistant Lecturer of Communication and Journalism 2019.

Emeriti:

Michael R. Brown, B. Wayne Callaway, William C. Donaghy, George A. Gladney, John W. Ravage, Kenneth L. Smith

The Department of Communication and Journalism provides a broad range of professional and research courses, offering a sound interdisciplinary academic program for students who plan careers in communication or media. Courses are comprised of writing, speaking and analyzing messages; forms of interpersonal communication; media effects and audiences' interpretations of media messages and images. Degrees are granted in communication and journalism with academic specialties in each of the degree areas. Students are given academic preparation in communication skills (media writing and public speaking), coupled with opportunities for professional experience in their majors. The department also offers minors in public relations, communication, journalism, and marketing communication.

Facilities and Research Activities

The department encourages majors to work actively in professional opportunities. The department offers unique experience for students with the student newspaper, *The Branding Iron*.

Oral Communication Center, Ross Hall 442. A resource for the entire university community. The lab is open for anyone required to present material orally. Lab instructors offer assistance at any stage in the process—from topic selection, purpose statements and gathering materials—to organizing, outlining and rehearsal. They can help alleviate speech anxiety that may prevent or inhibit some individuals from achieving their overall academic or career goals. Clients can have their presentations recorded for critical input and evaluation as well as for portfolio or interview applications.

Debate. The department conducts a nationally recognized program of Cross Examination Debate Association (CEDA) and has a British Parliament team. Teams and individuals representing the university attend national intercollegiate tournaments each year. Participation in the forensics program is open to all University of Wyoming students on a credit (COJO 2099) or non-credit basis.

Laboratories. The department has computer laboratories that support the professional, academic and research programs. These include a computer lab and digital production equipment.

Research. The department encourages undergraduate and graduate research. Faculty and students participate in research projects in social, cultural and political aspects related to media, interpersonal and organizational processes.

Internships. Journalism majors are required to complete internships in their field. Communication majors are encouraged to complete internships in their field. In addition to working with the *Branding Iron*, students can complete internships with newspapers; advertising and public relations agencies; non-profit organizations; businesses, professional and university sports organizations; governmental agencies; and many others. *Note:* a maximum of 6 hours in COJO 3480 and COJO 4990 count as fulfillment of the requirements for a major. Up to 12 hours will count toward graduation as upper-division hours.

Student Organizations

Professional Organizations. The department has a chapter of Lambda Pi Eta, communication honorary.

Student Activity. Within the department, student representatives participate on faculty committees where they assist in forming policies of the department.

The Branding Iron. The daily campus newspaper is independently managed by students at UW. It provides professional experiences for reporting, editorial, photojournalism, publication design and advertising.

The Owen Wister Review. The literary and arts magazine is independently managed and produced by university students, it features poetry, short stories, essays, photography and artwork.

Frontiers Magazine. The magazine is independently managed by UW students. Containing general interest content, the publication offers students opportunities to improve their professional skills in feature writing, in-depth reporting, photography, layout, design, advertising and marketing. Like the *Branding Iron* and *Owen Wister Review*, *Frontiers* is published under the auspices of UW Student Publications.

Scholarships and Awards

The department has several scholarships available to qualified students. Most are managed by Student Financial Aid.

Undergraduate Programs

The department offers courses leading to baccalaureate degrees in communication and journalism, as well as being an instrumental part of the Agricultural Communications degree. If a student wishes to double major in any of these degrees, only six credits will double count for each major.

Students majoring in the department must earn a grade of C or better in departmental required courses. Students may not take a course for S/U credit to satisfy requirements of the major.

Minors

The department offers minors in communication, journalism, marketing communication, and public relations. All minors must have a 2.00 minimum in minor classes. If a student is a communication, journalism or Agricultural Communications major, only six credits can double count for the major and the minor.

Graduate Study

The Department of Communication and Journalism offers graduate work leading to the master of arts degree in communication (either thesis or non-thesis) with emphasis on human communication or media communication.

The program offers coursework and study in rhetorical, critical/cultural, and social scientific perspectives and methodologies. The program is designed to be flexible such that students can examine questions that relate to their specific interests in human communication and/or mediated communication. Areas of interest include but are not limited to 1) communication processes in media (e.g., journalism, social media, advertising, public relations) about various issues such as politics, race and ethnicity, science, health, law and ethics, and international relations; 2) communication processes in human relationships (e.g., in interpersonal, small group, and organizational settings) about various issues such as culture, diversity, education, technology, science, and politics; and 3) communication as an agent of stability and change in diverse social systems.

Program Specific Admission Requirements

A cumulative minimum grade point average of 3.000 (A=4.000) on previous coursework is required for full admission.

The GRE is not required for admission to the graduate program. However, anyone who wants to be considered for a graduate assistantship in the department must take the GRE.

For international graduate students, the minimum acceptable TOEFL score is 540 (76 iBT). The minimum acceptable IELTS score is 6.5. International students must also provide proof of financial support (see UW Admissions for more details).

All graduate student applications, both domestic and international, must provide a writing sample of their work, whether that is a research paper, media publication, or another example of scholarly work. Please contact the director of graduate studies with any questions about the writing sample.

Department of Criminal Justice and Sociology

Contact Information

**208 Arts and Sciences Building,
(307) 766-2988**

Criminal Justice website: www.uwyo.edu/cj **Sociology website:** www.uwyo.edu/Sociology
Department Head: Eric Wodahl

Mission Statement

The Department of Criminal Justice & Sociology is committed to providing its students with a comprehensive liberal arts education and advancing research of value to Wyoming and our respective fields. We strive to provide a high-quality education to students that will inspire them to become critical thinkers, effective communicators, and lifelong consumers of knowledge. Students will be exposed to diverse perspectives, research, and learning opportunities to prepare them for a variety of professions in the public, private, non-profit, research, service, and academic settings.

Faculty

Professors:

ADRIENNE FRENG, B.A. Black Hills State University 1995; M.A. University of Nebraska 1997; Ph.D. 2001; Professor of Criminal Justice 2007, 2001.

ERIC J. WODAHL, A.A. Eastern Wyoming College 1992; B.A. Chadron State College 1994; M.P.A. University of Wyoming 2003; Ph.D. University of Nebraska at Omaha 2007; Professor of Criminal Justice 2021, 2007.

Associate Professors:

LAUREN McLANE, B.S. Radford University 2002; J.D. Seattle University School of Law 2008; Associate Professor of Law 2021, 2018.

JAMIE SNYDER, B.S. Northern Kentucky University 2005; M.S. University of Cincinnati 2007; Ph.D. 2011; Associate Professor of Criminal Justice 2021, 2018.

JENNIFER TABLER, B.A. University of California Los Angeles 2010; M.S. University of Utah 2013; Ph.D. 2016; Associate Professor of Sociology 2022, 2018.

Assistant Professors:

DANIEL AUERBACH, B.S. St. Lawrence University 2008; M.S. North Carolina State University 2012; Ph.D. University of Utah 2020; Assistant Professor of Sociology 2020.

KATELYN GOLLADAY, B.B.A. Pacific Lutheran University 2012; M.S. Arizona State University 2014; Ph.D. 2018; Assistant Professor of Criminal Justice 2018.

CLAIR WHITE, B.A. Colorado State University 2009; Ph.D. Arizona State University 2015; Assistant Professor of Criminal Justice 2018.

Lecturers:

DANIEL FETSCO, B.A. University of Wyoming 1995; J.D. University of Denver 1998; M.A. Arizona State University 2013; Assistant Lecturer of Criminal Justice 2017.

KAITLYN ROOT, B.A. Western Washington University 2012; M.A. University of Akron 2017; Ph.D. 2020;
Assistant Professional Lecturer 2020.

Adjunct Professor:

(See Catalog section following name for academic credentials.)

Robert A. Schuhmann, political science

Professors Emeriti:

David Ashley, Audie Blevins, Gary Hampe, Malcolm Holmes, Quee-Young Kim, Richard Machalek

Degree Programs

Criminal Justice Program

Criminal Justice is a social science that major examines the causes and impacts of crime in society. Graduates go on to careers in fields such as law enforcement, homeland security, probation and parole, and victim services. The Criminal Justice Program offers both undergraduate and graduate degrees, concentrations, and minors (see below for details). Criminal Justice students will be involved in a critical examination of the sources of criminal behavior and the social and political institutions and processes designed to control criminal behavior. We expect that our graduating students will have achieved the following learning outcomes:

1. Accurate knowledge relating to crime in modern society to include the elements of major crime, the extent of crime, and its distribution in society
2. A broad historical and contemporary understanding of the institutions that make up our criminal justice system, the interconnectedness of these institutions, and the related issues of diversity and discrimination
3. An understanding of the major legal principles that serve as the foundation for criminal law and the processing of individuals through the justice system, as well as the difficult situations and ethical dilemmas they will face in the criminal justice field
4. An understanding of and ability to apply basic concepts and theoretical perspectives in criminology and criminal justice
5. Possess the ability to access, comprehend, and critically examine research and policy relevant to the field of criminal justice and criminology, including understanding basic research methodology.

Sociology Program

Sociology is the scientific study of group life and the investigation of the social causes and consequences of human behavior. This discipline occupies a central position in the social sciences and covers the full scope of social behaviors from intimate interactions between individuals to relationships among entire societies. Most importantly, sociology invites students to analyze those features of social existence that we are most likely to take for granted. As such, sociological training imparts critical and analytical skills of great value in virtually all aspects of modern life.

Much of the applied knowledge employed in diverse fields such as communications, social work, business management, family life, health care, urban planning, government, education, religion and the administration of justice derives from basic sociological research. Consequently, sociological training provides an excellent background for occupations connected with these fields. In addition, an undergraduate degree in sociology prepares many students for

advanced study in law, education, business, public administration, social work, pastoral work, health care and other professions.

The department provides a comprehensive sociology education both for students who elect to terminate their formal education with the B.A. and for those who plan to pursue advanced degrees in sociology or a related social science. Fundamentally, however, the department aspires to prepare students for informed participation in an increasingly complex world.

Sociology majors with a 3.200 overall GPA, a 3.500 GPA in sociology courses and one 5000-level sociology course graduate with honors in sociology. The department also nominates students for membership in Alpha Kappa Delta, the international honorary society for sociology. Selection is based on academic excellence.

Department of English

126 Hoyt Hall, (307) 766-6452

FAX: (307) 766-3189

Web site: www.uwyo.edu/english

Department Chair: Kelly Kinney

Professors:

SUSAN ARONSTEIN, B.A. Seattle Pacific University 1980; M.Sc. Edinburgh University 1984; Ph.D. Stanford University 1987; Professor of English 2006, 1987.

KENT G. DRUMMOND, B.A. Stanford University 1980; M.B.A. Northwestern University 1982; Ph.D. University of Texas, Austin 1990; Associate Professor of English 2019, 1990.

SUSAN C. FRYE, B.S. Smith College 1974; M.A. University of New Mexico 1981; Ph.D. Stanford University 1986; Professor of English 2001, 1986.

CAROLINE McCracken-Flesher, M.A. University of Edinburgh 1980; M.A. Brown University 1986; Ph.D. 1989; Professor of English 2004, 1989.

Associate Professors:

CAROLYN ANDERSON, B.A. Auckland University 1981; M.A. 1984; Ph.D. Stanford University 1992; Associate Professor of English 2001, 1993.

MICHAEL EDSON, B.A. Virginia Tech University 2003; M.A. University of Delaware 2005; Ph.D. 2011; Associate Professor of English 2020, 2014.

SCOTT HENKEL, B.A. Western Michigan University 1997; M.A. Ohio University 2000; Ph.D. Michigan State University 2007; Associate Professor of English 2018, 2015.

KELLY KINNEY, B.A. Purdue University 1992; M.A. University of Nebraska-Omaha 1996; Ph.D. Ohio University 2005; Associate Professor of English 2015.

MICHAEL KNIEVEL, B.A. Creighton University 1995; M.A. 1997; Ph.D. Texas Tech University 2002; Associate Professor of English 2009, 2002.

CLIFFORD J. MARKS, A.B. University of Michigan 1983; M.A. State University of New York, Buffalo 1988; Ph.D. 1992; Associate Professor of English 2000, 1993.

JULIA OBERT, B.A. University of Western Ontario 2004; M.A. University of British Columbia 2006; Ph.D. University of California, Irvine 2011; Associate Professor of English 2016, 2011.

PETER PAROLIN, B.A. University of British Columbia 1988; M.A. University of Pennsylvania 1991; Ph.D. 1997; Associate Professor of English 2003, 1997.

JASON THOMPSON, B.A. Pacific Lutheran University 1996; MFA University of Arizona 2000; Ph.D. 2008; Associate Professor of English 2015, 2008.

ARIELLE ZIBRAK, B.A. University of Rochester 2003; M.A. Boston University 2007; Ph.D. 2013; Assistant Professor of English 2020, 2014.

NANCY SMALL, B.A. Texas A&M University 1992; M.A. 1994; Ph.D. Texas Tech University 2014; Assistant Professor of English and Director of Writing Programs 2017.

Assistant Professors:

JAMES CREEL, B.A. University of Wyoming 2007; M.A. 2011; Ph.D. Texas Christian University 2018; Assistant Lecturer Professor of English 2021.

Senior Lecturers:

PAUL BERGSTRAESSER, B.A. Oberlin College 1989; M.A. Northern Michigan University 2000; Ph.D. University of Illinois, Chicago 2007; Senior Lecturer in English and Creative Writing 2018, 2007.

RICK FISHER, B.A. University of Wyoming 2002; M.A. 2006; Ph.D. 2018; Senior Lecturer in English 2020, 2015, 2011.

APRIL HEANEY, B.A. University of Wyoming 1998; M.A. 2000. Senior Lecturer in English and Creative Writing 2015, 2005.

VAL PEXTON, B.A. Humboldt State University 1986; B.A. University of Wyoming 1998; M.A. 2001; M.F.A. 2008; Senior Lecturer in English and Creative Writing 2018, 2009.

JOYCE STEWART, B.A. Felician College 1994; M.A. Creighton University 1998; Senior Lecturer in English 2018, 2008.

Assistant Lecturers:

ASHLEY M. BURCHETT, B.A. The College at Southeastern 2016; M.A. North Carolina State University 2018; Assistant Lecturer in English 2019.

Study in the English department today emphasizes composition, literature, and rhetoric, creative and expository writing, and the nature and workings of language. Students in the department's programs can learn to read with pleasure and understanding, to write with grace, clarity and force, and to think with greater depth and breadth. With these accomplishments, students are prepared for lives and work in which their power to understand, read, write and communicate will serve themselves and others, some specifically in careers in writing or teaching, some in professions of law, medicine, administration or almost any other field.

Composition, Literature, and Rhetoric are traditions that reach back through the centuries, but these intellectual traditions are continually growing and changing. New theories of language help us reshape understandings of ancient traditions and enhance our lives as critical readers and writers and creative human beings.

Assessment of English Undergraduate Learning

Through an active and ongoing assessment of our program, we have identified the following outcomes that are expected of each student graduating with a Bachelor of Arts in English. We will continue to assess our curriculum to ensure these outcomes are being met:

UW students graduating with a Bachelor of Arts in English will have demonstrated an ability to:

1. Read, interpret, and write about a diverse range of texts in English, for example literature, film, digital media, and popular culture;
2. Understand those texts analytically and critically;
3. Understand those texts on the basis of careful close reading;
4. Understand those texts through past and current literary and rhetorical theory;
5. Understand that those texts are culturally constructed in time, place, and tradition;
6. Understand how those texts inform culture;
7. Participate in the critical and cultural discourses of English;
8. Participate clearly and appropriately through multiple spoken and written forms.

English Honors Program

Requires a 3.500 GPA and a senior honors paper and defense. See the English department web site for information.

Teacher Certification

Students seeking the B.A. in English may also be certified for public school teaching by completing additional requirements set forth by the College of Education, via a concurrent major in English and English Education.

Graduate Study

The M.A. graduate program in English offers three concentrations leading to the master of arts degree: Literary Studies, Composition and Rhetoric, and Public Humanities.

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this *Catalog*, the Department of English requires that students demonstrate by means of an official transcript that they have a solid undergraduate record with course work in English. That said, the department welcomes degrees in English or other disciplines from four-year colleges or universities.

Depending on their undergraduate preparation, some successful applicants may be required to take additional or specific courses toward the English master's degree.

Candidates must submit GRE general test scores, a writing sample, a 500-word statement of purpose, a CV/resume, and three letters of recommendation.

English offers both a campus-based M.A. degree and a low-residency/online M.A. degree. Students should consult the M.A. web site or contact the department for specific admission information and deadlines for both M.A. programs.

Program Specific Graduate Assistantships

Teaching assistantships are available to qualified applicants in the campus-based M.A. degree. Full assistantships carry an annual stipend and a remission of full-time tuition and fees, and require the teaching of one course per term.

Each fall the department conducts a week-long orientation for new teaching assistants and a subsequent series of colloquia for all graduate assistants. Each assistant is assigned an experienced teacher in the department as a mentor, to be available throughout the semester for consultation on teaching and grading techniques.

Department of Geology and Geophysics

Geography Program

122 Geology Building, (307) 766-3386

Professors

R. MCGREGGOR CAWLEY, B.A. Kearney State College 1971; M.A. Colorado State University 1974; Ph.D. 1981; Professor of Political Science 1997, 1987.

THOMAS A. MINCKLEY, B.S. Northern Arizona University 1987; University of Arizona 1996; M.A. University of Oregon 1999; Ph.D. 2003; Professor of Geography 2019, 2012.

JACQUELINE J. SHINKER, B.S. University of Arizona 1996; M.A. University of Oregon 1999; Ph.D. 2003; Professor of Geography 2019, 2005.

BRYAN N. SHUMAN, B.A. Colorado College 1994; M.S. Brown University 1997; Ph.D. 2001; Professor of Geology 2015, 2007.

Associate Professors

YI-LING CHEN, B.S. National Taiwan University 1989; M.S. 1992; Ph.D. Rutgers University 2000; Associate Professor of International Studies and Geography 2015, 2010.

BRANDON McELROY, B.S. University of Michigan 2000; M.S. 2003; Ph.D. University of Texas 2009; Associate Professor of Geology 2019, 2011.

Assistant Professors

NICHOLAS CRANE, B.A. The Ohio State University 2006; M.A. 2008; Ph.D. 2014; Associate Professor of Geography and International Studies 2021, 2016.

ZOE PEARSON, B.A. University of California Los Angeles 2005; M.A. Ohio State University 2010; Ph.D. 2016; Associate Professor of Geography and International Studies 2021, 2016.

The Geography Program is comprised of faculty from across the University of Wyoming campus with interests and expertise in geography and resource management. The program is transdisciplinary with a focus upon the following:

1. The origin and nature of the physical and cultural environment, how the physical environment and its natural resources form, and how the environment and natural resources affect the quality of life.
2. The ways in which people and institutions affect natural resources and the environment.
3. The ways in which human institutions (e.g. political, economic, social) interact to produce diverse human landscapes.

Learning

The Geography Program has identified four fundamental goals of geography to emphasize in its undergraduate curriculum. These four goals are at the intersection of topically important areas in the discipline of geography. We continue to evaluate student learning in our program to insure our curriculum addresses these fundamental goals as effectively as possible.

Goal 1 - Human-Environment Interaction

Students will be able to identify and explain how humans modify the environment and affect Earth's biophysical systems through their human activities.

Goal 2 - Biophysical Systems

Students will be able to identify and explain an array of patterns, processes, and interactions in Earth's biophysical systems occurring at different spatial scales.

Goal 3 - Human-Cultural Systems

Students will be able to identify and explain an array of patterns, processes, and interactions across Earth's human landscapes at different spatial scales.

Goal 4 - Geographic Thought, Methods and Analysis

Students will understand basic geographic concepts and ideas, and will be capable of using them to inform their work. Students will also demonstrate the ability to select and use appropriate tools and techniques for addressing geographic problems and conducting geographic analysis. They will also be able to use multiple methods to examine, represent, and visualize Earth and its geographic characteristics.

Undergraduate Major

In addition to course work required by the university and the college, majors must complete 40 hours of program requirements, all of which must be completed with a grade of C or above, of which at least 15 credits will be 3000-4000 level courses within the selected competencies. All Geography degree students will complete a topical language requirement. Students completing a B.S. degree will need to complete two semesters of a computational or science language (computer programming language, mathematical language or science courses are acceptable) and one additional mathematical, statistical, or science class above the USP Q or PN requirement. Required courses (11 credit hours) include GEOG 1000 or 1020, 1010 or GEOL 1070, and GIST 1100 or GIST 2150. In addition, students are required to complete at least two courses each in Societal and Scientific Competencies and one additional Spatial Competency course. Beyond these requirements students are able to select from any Societal, Scientific, Spatial or Transdisciplinary course listed to complete a total of 40 hours for the B.S. Degree. Courses used to meet program requirements should be discussed with a faculty advisor.

* USP Human Culture: A single language must be taken for two semesters to fulfill the eight hour foreign language requirement for the program. Students taking American Sign Language to fulfill the language requirement of the major will have to take other courses to fulfill the USP H requirements.¹Can substitute computer programming but it does not fulfill the USP H requirement; consult with an academic advisor.

Undergraduate Minor

The program offers a minor in geography. Credit requirements range from 18-20 hours of required and elective courses, all of which must be completed with a grade of C or above. Information on the minor program is available on the Geography Program website.

Environment and Natural Resources

The program offers a concentration in the university's interdisciplinary program, Environment and Natural Resources. A description of the concentration requirements is available online at the ENR website.

BRYAN N SHUMAN, B.A. Colorado College 1994; M.S. Brown University 1997; Ph.D. 2001; Professor of Geology 2015, 2007.

KENNETH W. W. SIMS, B.A. Colorado College 1986; M.S. University of New Mexico 1989; Ph.D. University of California - Berkeley 1995; Professor of Geology 2014, 2009.

YE ZHANG, B.S. Nanjing University (PR China) 1998; M.S. University of Minnesota 2004; Ph.D. Indiana University 2005; Professor of Geology 2018, 2007.

Associate Professors:

PO CHEN, B.S. Beijing University 2000; Ph.D. University of Southern California 2005; Associate Professor of Geology and Geophysics and the School of Energy Resources 2014, 2008.

ELLEN D. CURRANO, B.S. University of Chicago 2003; Ph.D. Pennsylvania State University 2008; Associate Professor of Geology and Geophysics 2017, 2014.

KENNETH G. DUEKER, B.A. Whitman College 1984; Ph.D. University of Oregon 1994; Associate Professor of Geophysics 2006, 2000.

ANDREW PARSEKIAN, B.S. Dickinson College 2005; Ph.D. Rutgers University 2011; Associate Professor of Geology and Geophysics 2020, 2013.

Assistant Professors:

JAMIE MCFARLIN, B.A. Lawrence University, 2009; M.S. Northwestern University, 2016; Ph.D. Northwestern University, 2019; Assistant Professor of Geology and Geophysics 2022.

Research Scientists:

BRADLEY CARR, B.S. University of Wisconsin-Madison 1987; Ph.D. University of Wyoming 1995; Associate Research Scientist Senior 2017, 2013.

KEVIN R. CHAMBERLAIN, B.A. Colgate University 1979; Ph.D. Washington University 1990; Research Professor 2004, 1990.

JANET C. DEWEY, B.S. Mississippi State University 1990; M.S. Auburn University 1993; Associate Research Scientist 2017, 2011.

LAURA VIETTI, B.S. University of Wyoming 2006; Ph.D. University of Minnesota 2014; Assistant Research Scientist 2015.

Adjunct Professors:

Sarah Aciego, Vladimir Alvarado, Erin Campbell, Barbara Carrapa, Carrick Eggleston, Eric Erslev, Peter H. Hennings, W. Steven Holbrook, Ranie Lynds, Simone Runyon, Jay Chapman

Professors Emeriti:

James I. Drever, William E. Frerichs, B. Ronald Frost, Carol D. Frost, Robert R. Howell, Jason A. Lillegraven, Ronald W. Marrs, Randi Martinsen, James E. McClurg, Scott B. Smithson, Arthur W. Snoke, Ronald C. Surdam, Susan M. Swapp

Geology is the study of the origin, history and structure of the earth. Our undergraduate offerings encompass virtually every aspect of the science, with emphasis on current theory, methods, and applications. The philosophy of the department is to provide sound training in both theory and field observation, and to couple this background with a thorough education in modern laboratory, quantitative, and field techniques required for an understanding of geologic processes.

The setting of the university in the Rocky Mountains is ideal because some of North America's most outstanding geologic features are within a short drive of campus. The semiarid climate in Wyoming has resulted in excellent exposures of diverse rock types ranging in age from Precambrian to Recent. Deformation of the rocks in the region has been extensive, affording the student a field laboratory that exhibits a wide diversity of styles of faulting and folding. Mineral deposits, petroleum resources, and coal abound in the region.

Undergraduate Majors

The Bachelor of Science in geology is designed for those students who intend to become professional geologists and/or those who plan to attend graduate school in geosciences. The program includes courses normally expected of graduate school applicants, including a summer field camp and courses in related sciences and mathematics. This degree program prepares students for the examination for the professional geologist license.

The Bachelor of Arts in geology and Earth sciences is specifically designed for undergraduates who wish to study Earth sciences as a foundation for careers in a variety of areas, such as environmental law, natural resource business, land use planning, Earth science education, science journalism, and many governmental positions. The B.A. program includes a broad spectrum of courses, and focuses both on information about the Earth and on how society makes decisions that affect the Earth system.

The Bachelor of Science in Environmental Geology and Geohydrology is designed for those students who intend to become professionals in environmental fields such as consulting, site assessment, hazard assessment, and remediation. The degree will prepare students for graduate school in environmental disciplines and for entry-level jobs.

Majors in any of the degree programs above may also choose to declare an affiliated degree with the School of Environment and Natural Resources by completing degree requirements for both degrees. Students should consult the section on the School of Environment and Natural Resources.

The Department of Geology and Geophysics also participates in the Earth System Science interdisciplinary program by offering a concentration in geology for the B.S. degree in ESS. Students interested in this major should consult the section on Earth System Science for curriculum requirements.

Geology Program Objectives: Bachelor of Science

The primary mission of our B.S. geology program is to provide a quality educational experience that prepares men and women to enter careers in geology and related fields. We expect that our graduates should:

- Have the basic knowledge and skills demanded for entry-level competence in typical careers in earth science.
- Be able to apply basic scientific and technical knowledge to specific tasks and problems.

- Cultivate the specific scientific and technical skills that will allow them effectively to serve their employers and to enhance their own career development.
- Develop increased capacity in the skills of independent learning, critical thinking, problem definition, and problem solving.
- Develop enhanced numerical skills and computer literacy as part of an undergraduate program designed to deliver a current and relevant knowledge of their discipline.
- Communicate effectively and professionally through oral, written, and graphical means and to participate effectively in their workplace and in individual and team-related activities.
- Have the broad general education needed to appreciate the role of Earth Sciences in the societal context and appreciate the importance of ethics in the practice of the profession.

Geology Program Goals: Bachelor of Science

The department of Geology and Geophysics has the following specific goals for its B.S. program:

- Students in the B.S. program will receive a quality preparatory education in the discipline that is current, relevant, practical, and personal.
- B.S. students who graduate with appropriate grades will be able to compete successfully for positions at graduate schools nationwide.
- B.S. students who graduate with appropriate grades will be well prepared for entry-level positions as professionals within their and other related disciplines.

Geology Program Objectives: Bachelor of Arts

The primary mission of our B.A. geology program is to provide a broad educational experience that prepares men and women for careers in earth science-related fields. We expect that our graduate should:

- Have the basic knowledge and skills demanded for entry-level competence in typical careers in earth science-related fields.
- Be able to apply their knowledge to specific situations or problems.
- Cultivate the skills and ethics that will allow them effectively to serve their employers and to enhance their own career development.
- Develop increased capacity for independent learning, critical thinking, and problem-solving.
- Develop basic numerical skills and computer literacy as part of an undergraduate program designed to deliver a current and relevant knowledge of their discipline.
- Communicate effectively and professionally through oral, written, and graphical means and to participate effectively in the work environment, both in individual and team-related activities.
- Have the broad general education needed to appreciate the role of Earth Sciences in the societal context and appreciate the importance of ethics in the practice of the profession.

Geology Program Goals: Bachelor of Arts

The department of Geology and Geophysics has the following specific goals for its B.A. program:

- Students in the B.A. program will receive a broad preparatory education in earth science and related fields that is current, relevant, practical, and personal.
- B.A. students who graduate with appropriate grades will be able to compete successfully for positions at graduate schools nationwide.
- B.A. students who graduate with appropriate grades will be well prepared for entry-level positions in the geosciences and other related disciplines.

Required Academic Performance

In order to graduate with a Bachelor of Science or Bachelor of Arts degree in geology, the student must earn a letter grade of C (S where appropriate) or better in each course listed herein as part of the required course programs. This grade requirement applies to course work taken outside the department, as well as to transfer courses credited in lieu of resident requirements.

Undergraduate Minor

A minor in geology requires 18 hours of coursework in the Department of Geology and Geophysics. Students are required to take one GEOL 1000-level course; one GEOL 2000-level course; and fulfill remaining hours with GEOL 2000-level or higher courses in consultation with their adviser. A grade of C or better is required in each of these courses.

Graduate Study

The department offers instruction and research programs leading to master of science and doctor of philosophy degrees in both geology and geophysics and to the master of science in geology/water resources.

Program Specific Admission Requirements

All applicants must complete an online departmental application form with statement of intent. Forms are available from the Department of Geology and Geophysics Web site at www.uwyo.edu/geolgeophys.

Application deadline is January 15 of each year.

All applicants should have completed undergraduate coursework including mathematics through calculus, one year of chemistry, basic training in geology, and for most areas, one year of calculus-based physics.

Applicants to the geophysics graduate program should have an undergraduate degree in geophysics, geology, mathematics, physics, or engineering.

Applicants to the Ph.D. program, without a M.S. degree, must have attained an exceptional undergraduate record.

Formal approval of application by the departmental admissions committee.

Formal acceptance by an adviser.

Formal notice of admission by the university.

Program Specific Graduate Assistantships

All applicants to the geology and geophysics graduate program are considered for assistantships. Applicants are NOT required to complete the graduate assistant application form.

Program Specific Degree Requirements

Master of Science in Geology

Plan A (thesis) (26 hours of coursework and 4 hours of thesis)

Preliminary and initial advising shall take place upon acceptance to the graduate program to identify background deficiencies and develop a list of required deficiency coursework to be taken. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

GEOL 5020 Fundamentals of Research is required of ALL graduate students during the first semester of residence.

All graduate students in geology must complete two semesters of GEOL 5200 Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

All M.S. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure of this exam may result in dismissal from the graduate program.

The candidate's committee shall evaluate the thesis and conduct the final examination. The final exam is an oral presentation of the thesis, oral defense of thesis, and oral responses to questions relating to ancillary topics. Failure of this exam can result in dismissal. Retaking of the exam is subject to the discretion of the candidate's graduate committee.

Master of Science in Geophysics

Plan A (thesis) (26 hours of coursework and 4 hours of thesis)

Preliminary and initial advising shall take place upon acceptance to the graduate program to identify background deficiencies and develop a list of required deficiency coursework to be taken. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

GEOL 5020 Fundamentals of Research is required of ALL graduate students during the first semester of residence.

All graduate students in geophysics must complete two semesters of GEOL 5210 Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

All M.S. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure of this exam may result in dismissal from the graduate program.

The candidate's committee shall evaluate the thesis and conduct the final examination. The final exam is an oral presentation of the thesis, oral defense of thesis, and oral responses to questions relating to ancillary topics. Failure of this exam can result in dismissal. Retaking of the exam is subject to the discretion of the candidate's graduate committee.

M.S. candidates in geophysics must complete 6 hours of mathematics and three hours of physics or engineering courses at the graduate level.

M.S. candidates must take at least 12 hours of 4000- and 5000-level courses in geophysics. Recommended graduate level mathematics courses include differential equations, numerical analysis, and real and complex variables; in physics and engineering they include classical mechanics, continuum mechanics, elasticity, electricity and magnetism. Substitutions for graduate-level geophysics courses may be made with the permission of the candidate's adviser. Remaining graduate-level course requirements may be made up from courses in physics, engineering, mathematics, and geology.

Doctor of Philosophy in Geology (42 hours of coursework and 30 hours of dissertation research)

Preliminary and initial advising will identify background deficiencies and develop a list of required deficiency coursework. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

Completion of GEOL 5020 Fundamentals of Research is required during the first semester of residence.

All graduate students in Geology must complete two semesters of GEOL 5200 Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

All Ph.D. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure to complete the exam by the end of the second semester in residence without an approved extension will result in suspension of the student's financial support, irrespective of the source of funding. Ph.D. students who fail the exam will be asked to withdraw from the graduate program or to enroll in the M.S. program.

The preliminary examination is administered following completion of 30 hours of 4000-level or higher coursework, not including independent study or research credits. Failure of this exam may, at the discretion of the thesis committee, lead to a re-examination during the following semester in residence, remedial work, or expulsion from the program.

The Ph.D. dissertation and its defense are described in the regulations section of this Catalog. Specific department examination requirements are available from the department office. The candidate's committee is responsible for monitoring progress of the research, refereeing the written work, and administering the final examination.

Doctor of Philosophy in Geophysics (42 hours of coursework and 30 hours of dissertation research)

Preliminary and initial advising will identify background deficiencies and develop a list of required deficiency coursework. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

All graduate students in geophysics must complete two semesters of GEOL 5210 Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

Completion of GEOL 5020 Fundamentals of Research is required during the first semester of residence.

Ph.D. candidates in geophysics must complete at least 6 additional hours of graduate level coursework: 3 in mathematics and 3 in physics or engineering. Recommended graduate-level mathematics courses include differential equations, numerical analysis, and real and complex variables; in physics and engineering, they include classical mechanics, continuum mechanics, elasticity, electricity and magnetism. Ph.D. candidates are required to take at least 12 hours of 5000-level geophysics courses exclusive of GEOL 5854. Substitutions for graduate-level geophysics courses may be made with the permission of the candidate's adviser. Remaining graduate-level course requirements may be made up from courses in physics, engineering, mathematics, and geology.

All Ph.D. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure to complete the exam by the end of the second semester in residence without an approved extension will result in suspension of the student's financial support, irrespective of the source of funding. Ph.D. students who fail the exam will be asked to withdraw from the graduate program or to enroll in the M.S. program.

The preliminary examination is administered following completion of 30 hours of 4000-level or higher coursework, not including independent study or research credits. Failure of this exam may, at the discretion of the thesis committee, lead to a re-examination during the following semester in residence, remedial work, or expulsion from the program.

The Ph.D. dissertation and its defense are described in the regulations section of this Catalog. Specific department examination requirements are available from the department office. The candidate's committee is responsible for monitoring progress of the research, refereeing the written work, and administering the final examination.

Master of Science in Geology/Water Resources and Master of Science in Geophysics/Water Resources

Please refer to the Water Resources section of the *Catalog* for degree requirements.

Adjunct Faculty:

MICHAEL J. DEVINE, B.A. Loras College 1967; M.A. Ohio State University 1968; Ph.D. 1974; Adjunct Professor of History, 2014, 1991.

Professors Emeriti:

Eric D. Kohler, William H. Moore, Phil Roberts

History Program

History is a foundational discipline that blends the methodologies and perspective of the humanities and social sciences in order to engage with the history of human culture on a global scale. UW's History degree program emphasizes interdisciplinary teaching and research and provides course work, research experiences, and internships on both American and international topics. The History program offers a Bachelor of Arts degree major, minor, Public History Concentration, and a Master of Arts degree.

The study of History at the University of Wyoming provides students with the tools to comprehend the present in order to prepare for the future. Challenging courses are designed to facilitate critical thinking and the development of analytical skills. Each of our courses features the discussion of complex issues, the development of writing and reading skills, and is generally oriented toward promoting individual enrichment. The professional skills that the History program instills transcend our field and allow students to work toward a variety of career choices such as business, law, government service, public history, archives and museum work, education, management, writing, and graduate studies. The ability to develop perspective, render informed judgments, and function as productive citizens of the global community stand as hallmarks of our program.

Learning Outcomes

It is the goal of the History department that our graduates have the following skills and knowledge:

- Students shall be able to demonstrate thinking skills by analyzing, synthesizing, and evaluating historical information from multiple sources.
- Students will develop the ability to distinguish between fact and fiction while understanding that there is no one historical truth.
- Students will produce well-researched written work that engages with both primary sources and the secondary literature.
- Students will develop an informed familiarity with multiple cultures.
- Students will employ a full range of techniques and methods used to gain historical knowledge.
- Students will develop an ability to convey verbally their historical knowledge.
- Students will demonstrate their understanding of cause and effect along with their knowledge of the general chronology of human experience.

CHELSEA ESCALANTE, B.A. Stanford University 2005; M.A. University of Arizona 2009; Ph.D. University of California, Davis 2018; Assistant Professor of Spanish 2018.

SONIA RODRIGUEZ HICKS, Ph.D. University of New Mexico 2017. Assistant Professor of Spanish 2020.

Senior Academic Professional Lecturers:

LAURA DE LOZIER, B.A. Beloit College 1990; M.A. University of Wisconsin 1992; Ph.D. 2002; Senior Academic Professional Lecturer in Classics, Greek, and Latin 2014, 2003.

MARK W. PERSON, B.A. University of Wyoming 1983; M.A. 1986; Senior Academic Professional Lecturer in German 2017, 2008.

BÉNÉDICTE SOHIER, B.A. Stephen F. Austin State University 2006; M.A. Indiana University Bloomington 2008; Associate Academic Professional Lecturer in French 2015, 2009.

YAN ZHANG, B.A. Harbin Institute of Technology 2000; M.A. Heilongjiang Provincial Academy of Social Sciences 2002; Senior Academic Professional Lecturer in Chinese 2016, 2006.

Associate Academic Professionals Temporary Lecturers:

Noah Miles, Adriana Noya-Salgueiro

Professors Emeriti:

M. Ian Adams, Lewis Bagby, Lowell A. Bangerter, Klaus D. Hanson, Francis S. Heck, Philip G. Holt, Joseph Krafczik, Hannelore Mundt, Jean-Louis G. Picherit, Duane Rhoades, Pavel Sigalov

The Modern and Classical Languages department offers work leading to the B.A. degree with majors and minors in French, German, and Spanish. A minor is offered in Classical Civilizations, Chinese, Latin and Japanese. The M.A. is available in Spanish. Courses are also offered in literature, linguistics and translation.

Foreign Language Requirements

All candidates for the B.A. and B.S. degree in the College of Arts and Sciences who matriculated before Fall 2015 are required to complete the equivalent of 8 semester hours of work in a single modern or classical language. Students with prior exposure to the language may be granted college credit after taking an online examination administered by the department; students must take this examination before completing registration for a language course (for regulations governing credit by examination, refer to Credit Available to Undergraduate Students in this *Catalog*). An advanced placement, AP, examination in the language with a score of 4 or higher satisfies the language requirement in most languages, as do CLEP and IB scores (see section on Credit by Examination on the department website).

Students who have had a foreign language in high school should take the online examination to determine the course in which they should enroll and to avail themselves of the opportunity to receive credit by examination. Students who have completed their language requirement can enroll for additional language courses of their choice, something strongly advised for those who wish to reach adequate levels of proficiency in the language or wish to study abroad. Check the Catalog or website for special sections targeted for students with varied experiences in the language.

Undergraduate Major

A language major usually requires 30-31 semester hours of work in a single language beyond 2030. To include a language option in the humanities/fine arts interdisciplinary program, students must complete at least 12 hours above the 2030 level.

Students completing an undergraduate major in our department will meet the following learning goals:

1. attain proficiency in another language in all four of the basic skills (speaking, listening, reading, and writing);
2. gain understanding of other cultures; and
3. develop skills in research critical thinking, analysis, and writing on subjects appropriate to the field of study.

Students will meet the following learning outcomes to:

1. demonstrate proficiency in conversation;
2. demonstrate reading comprehension of texts written in the language;
3. produce grammatical, idiomatic compositions in the target language;
4. gain essential knowledge about the history, traditions, customs, and ways of thinking of at least one other culture;
5. demonstrate understanding of works of literature read in the original language; and
6. produce well-reasoned and clearly articulate research papers on subjects appropriate to their field.

Minor

In general, students desiring to complete a minor in a foreign language will be required to complete a program of 18 semester hours above 2030.

Teaching Certification

For those wishing to pursue teaching certification, contact the Department of Secondary Education.

Native Language Credit

Students are not allowed university credit for language courses in their native language below the 4000 level, but may receive credit for literature courses below that level.

Study Abroad

There are many opportunities for students to study abroad and students are encouraged to do so.

Graduate Study

The Department of Modern and Classical Languages offers programs leading to the master of arts degree in Spanish. Contact the department for further details or check the department website.

Program Specific Admission Requirements

Admission to the graduate program in a specific language is open to students who have completed an undergraduate major, or the equivalent, in the same subject and who meet the minimum requirements set forth in this *Catalog*.

Students entering the graduate program from other institutions may be required to make up deficiencies in areas covered by required courses in this department's undergraduate programs.

Life Sciences Program

Life Sciences Program

107 Aven Nelson Building, 766-4158 Web site: www.uwyo.edu/lifescience

Program Director: Jonathan Prather

The Life Sciences Program consists of all LIFE prefix courses. These courses support a wide range of life science majors and several non-life science majors across campus. The number of LIFE courses taken by students in each major is determined by the departments that offer the majors. The curriculum intends to provide science majors with both breadth and depth in the basic life sciences, and nonscience majors with exposure to key concepts in biology and an understanding of the connections between science and society. The program courses also expose students to the fields of cell and molecular biology, genetics, ecology, and evolution, and they familiarize students with the diversity of life on the planet. Courses within the curriculum address four fundamental goals at a level appropriate for each course: 1. Acquisition, Application and Synthesis of Knowledge 2. Communication Skills 3. Critical Thinking and Problem Solving 4. Research Skills The Life Sciences courses listed below were previously offered under the BIOL prefix. All courses listed below are now offered through the LIFE prefix.

Professor:

JONATHAN F. PRATHER, B.S. University of Virginia 1995; Ph.D. Emory University 2001; Professor of Zoology and Physiology 2021, 2009.

CHI-CHEN WU, B.F.A. National Taiwan Normal University 1998; M.M. 2202; D.M.A. New England Conservatory 2006; Assistant Professor of Music 2012. Piano and Collaborative Piano.

Assistant Professors:

JOSEPH CARVER, B.M.E. 2007 Ohio University; M.M. 2014 Ohio University; Ph.D. 2019 The Ohio State University. Associate Director of Bands.

BEN MARKLEY, B.M. Fort Hays State University 2005; M.A. New York University 2007; D.M.A. University of Colorado-Boulder 2010; Assistant Professor of Music 2016. Jazz Studies.

BRIAN MURRAY, B.M. University of North Texas 2010; MME, Florida State University 2015; DMA, University of North Texas 2020. Assistant Professor of Music 2020. Choral Music Education.

TIGER ROBISON, B.M.E. University of Hartford 2005; M.S. Central Connecticut State University 2012; Ph.D. University of Hartford 2016; Assistant Professor of Music 2017. Music Education.

DAVID WHARTON, B.M. Oberlin Conservatory 2009, M.M. Yale School of Music 2011, D.M.A. University of Connecticut 2019. Assistant Professor of Music 2020. Trumpet.

ANDREW WHEELOCK, B.M.E. Central Michigan University 2013; M.M. University of Illinois 2015; D.M.A. 2018; Assistant Professor of Music 2018. Percussion.

Academic Professional Lecturers:

SHERRY SINIFT, B.M. Western Michigan University 1979; M.M. Indiana University 1981; Academic Professional Lecturer 2010. Violin, UW String Project.

JENNIFER TURPEN, B.M.E. SUNY-Potsdam 1996; M.M. University of Georgia 2000; D.M.A. 2000; Academic Professional Lecturer, Senior 2017, 2003. Theory, Saxophone.

Lecturers:

Kato, Riner

Part-time Lecturers:

Erlandson, Flagg, Fourt, Harvey, Hoffman, Latchininsky, Smith, Strampe, Stucki, Teppa, Uno-Jack, Watt

Professors Emeriti:

Steve Barnhart, David Brinkman, Gordon Childs, Julia Combs, Rodney Garnett, Frederick Gersten, Brian Hanly, Larry Hensel, Edgar Lewis, Kathleen McKeage, William Stacy, Carlyle Weiss

The Department of Music offers undergraduate and graduate degree programs which combine scholarship with performance, theory with practice and the academic with the creative. It also provides an opportunity for the study and performance of music by university students who are not majors in music. By giving concerts, workshops and lectures throughout the state of Wyoming through the Fine Arts Outreach Program, the music department serves as a musical resource for the entire state. The music department is fully accredited by the National Association of Schools of Music.

Procedures and requirements are listed in the music department *Student Handbook* which is available online at www.uwyo.edu/music/forms/index.html. The music department *Student Handbook* and the *University Catalog* are binding documents for the degree programs listed below. Students must receive a "C" or better in all courses designated MUSC to satisfy department requirements. The foreign language requirement for the Bachelor of Music in Performance Vocal Emphasis degree may be satisfied with a "C" or better in all courses. A student's transfer courses must meet all of these requirements to be accepted for credit.

An audition is required to become a Music major or minor. The 3 Steps to Becoming a Music Major are:

1. Apply for admission to the University of Wyoming (www.uwyo.edu/admissions/).
2. Audition for admittance as a Music major and for Music scholarships. Audition and scholarship information may be found at www.uwyo.edu/music. All Music majors and minors MUST audition to be admitted to the Music program.
3. Perform at an acceptable level, and you are in!

Degrees

Bachelor of Arts (with major in music): A program designed for the student who desires a broadly-based liberal arts program.

Bachelor of Music Performance: A fouryear course of study designed for students who wish to prepare for a professional career as performer and applied teacher.

Bachelor of Music Education: A fouryear course of study for the student who wishes to prepare for a career as a teacher of music in elementary or secondary schools in the instrumental, vocal, and general music fields.

Certificates

Music Entrepreneurship Certificate: The certificate provides a basic understanding of music marketing principles and practical hands-on experience that allows one to enter the workforce with a marketable skill set in the areas of arts promotion and management. A certificate may be pursued on its own or in conjunction with any university degree program. https://www.uwyo.edu/music/certificates/music_entrep_index.html

Audio Technology Certificate: The certificate provides a basic understanding of audio principles and practical hands-on experience that allows one to enter the commercial music workforce with a marketable skill set. Students will learn how to record and manipulate recorded sounds as well as provide live sound reinforcement for live concerts or events. Certificate may be pursued on its own or in conjunction with any university degree program.

Performer's (post-baccalaureate) Certificate

A non-degree course of study for the student seeking to improve professional performance skills. The program consists of a total of 30 credit hours from applied lessons, ensembles and electives to be selected in consultation with the major adviser. Prerequisites are demonstrated evidence of advanced performance proficiency through a live or recorded audition, undergraduate degree in music, and admission to the university.

Music for Other Students

Music as an elective subject. Students from other departments of the university may, with consent of their adviser and applied instructor, elect private or class lessons in applied music (with or without previous training) and may enroll in any theory, music literature or activity course for which they are qualified. See the music department Student Handbook for requirements for a minor in music.

Organizations. Performance organizations include the Happy Jacks, Marching Band, Symphonic Band, Wind Ensemble, Collegiate Chorale, Symphony Orchestra, Chamber Orchestra, Singing Statesmen, Bel Canto, Women's Choir, and Opera Theatre. Other groups are brass, woodwind, string, percussion and piano ensembles, Vocal Jazz, Civic Chorus and Jazz Ensemble. Membership is open to qualified students in all colleges and departments of the university. Each year, in addition to frequent appearances on the campus, several of these organizations and groups tour the region.

Music Fees

For Individual Instruction:

One 1/2-hour lesson weekly, per semester \$150.00

One 1-hour lesson weekly, per semester \$300.00

For Music 4510, 4520, 4530, 4540, 4550 and 4560 (courses taken in the form of private lessons) a fee of \$85.00 is assessed each semester.

Practice Rooms:

per semester \$35.00

Music instrumental fee, per semester \$25.00

Music locker fee, per student per semester \$15.00

Public School Methods fee, per class \$5.00

Undergraduate Study

Learning Outcomes

Bachelor of Arts in Music

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirement students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Arts degree in Music, students will be able to: (1) demonstrate a level of competence as solo and ensemble performers appropriate for a musician educated in the liberal arts, (2) demonstrate specific knowledge in music theory, music history, and general studies appropriate for their professional goals, and (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music.

University and College Requirements

In addition to the major requirements listed above, students must complete all university and College of Arts and Sciences requirements listed elsewhere in this *Catalog*. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Bachelor of Music in Performance

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirements students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. All string and vocal emphases must pass the piano proficiency test during their sophomore year. Class Piano 1-4 is highly recommended for those with little piano background. All wind and percussion emphases must pass Class Piano 1-2 with a B or better or may substitute the Piano Literacy exam in their place. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Music degree in Performance, students will be able to: (1) demonstrate excellence as solo and ensemble performers to provide a basis for a professional career as a musician, (2) demonstrate specific knowledge in music theory, music history, and instrumental pedagogy to provide a basis for a professional career as a performing musician, and (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music.

University and College Requirements

In addition to the major requirements listed above, students must complete all university and College of Arts and Sciences requirements listed elsewhere in this Catalog. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Upper Division Music Electives

Bachelor of Music Education

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirement students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. All music majors must pass the piano proficiency test during their sophomore year. Class Piano 1-4 is highly recommended for majors with little piano background. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Music Education degree, students will be able to: (1) demonstrate skill as solo and ensemble performers who can work as professional educators, (2) demonstrate specific knowledge in music theory, music history, and instrumental and vocal pedagogy to provide a basis for a professional career as a music educator, (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music, and (4) demonstrate the pedagogical background and teaching experience to function as effective K-12 music educators.

University and College Requirements

In addition to the major requirements listed below, students must complete all university requirements listed elsewhere in this Catalog. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Graduate Study

The Department of Music offers programs leading to the Master of Music in Performance and to the Master of Music Education.

The following prerequisites and credit hours will pertain to individual lessons for all the instruments and voice listed below. All students enrolled in MUSC 5080 through MUSC 5670 levels will be required to take a jury examination at the end of the semester to determine, in part, the final grade. (See current fee schedule for listing of fees in Individual Lessons.)

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this *Catalog*, the Department of Music requires that applicants for graduate programs submit supplementary documentation of their preparation for advanced study in music.

Those interested in graduate study in music are encouraged to contact the Graduate Studies Coordinator for the Department of Music, Dr. Beth Vanderborgh (bvander@uwyo.edu), or the Area Coordinator for each instrument or voice cited on the Department of Music website (www.uwyo.edu/music/).

In order to apply, please submit the following via the University of Wyoming's online application system (www.uwyo.edu/admissions/apply.html):

- three letters of recommendation
- the Graduate Teaching Assistantship application
- academic transcripts

A minimum undergraduate cumulative GPA of 3.000 is required. The GRE is not required for admission consideration.

All accepted graduate students in the Mast of Music (MM) or Master of Music Education (MME) programs will take the Graduate Entrance Examinations in music history and music theory prior to matriculation. If a student does not pass one or more sections, they must take an online refresher course prior to undertaking advanced coursework.

International applicants who are not native English speakers must submit TOEFL or IELTS scores (TOEFL minimum = 76, IELTS minimum = 6.5). If an international applicant wishes to be considered for a Graduate Teaching Assistantship, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center if you have questions regarding the OPI (www.uwyo.edu/elc/international-teaching-assistants/graduate_admissions/index.html).

Applicants for the MM program should also request an audition and apply for music scholarship consideration via the Audition and Scholarships link found on the Graduate page of the Department of Music website (www.uwyo.edu/music/graduate_students/index.html). Applicants for the MME program should send their supporting documents (video of teaching/rehearsing, statement of music education philosophy, writing sample) directly to Dr. Crystal Sieger, Music Education Coordinator (csieger@uwyo.edu).

Master of Music Education

An earned, documented Bachelor of Music Education degree from an accredited institution of higher learning.

One year of teaching experience plus: An active background in music education, A DVD of classroom teaching and/or rehearsing,

A one- to three-page statement of music education philosophy,

Three letters of recommendation, one from an immediate supervisor, of teaching effectiveness.

A writing sample from an extensive undergraduate research paper.

Learning Outcomes

1. Students will demonstrate the advanced musical and pedagogical knowledge and research/writing skills necessary to enhance their teaching abilities in a P-16 vocal and/or instrumental teaching position.
2. Students will demonstrate the advanced musical and pedagogical knowledge and research/writing/and communication skills necessary to solve contemporary music problems.

Master of Music in Performance

An earned, documented bachelor of music performance or bachelor of arts from an accredited institution of higher learning.

Live audition (preferred), live remote video audition, or Inks to an online video demonstrating:

A strong sense of musicality, Technical proficiency, Stylistically correct performance practices in at least three historical periods, where applicable,

A working knowledge of the standard repertoire,

Also, a portfolio of work showing concentrated activity on the major instrument or voice area.

Learning Outcomes

1. Graduate students will be excellent performers on voice or instrument.
2. Graduate students will demonstrate the advanced musical and pedagogical knowledge and research writing skills necessary to begin their professional performing career and/or demonstrate their readiness to teach at the college and/or university level and/or pursue
doctoral degrees.

Program Specific Graduate Assistantships

Graduate assistantships are awarded on a competitive basis to defray some of the costs of graduate study and to provide practical experience working under the guidance of faculty members.

Criteria that are taken into account in awarding assistantships include: academic preparation, performing ability, and special skills that would prove valuable in carrying out the duties of the assistantship, as well as, needs of the department.

To be considered for a graduate assistantship, the candidate must be fully admitted through the university. The application for an assistantship is accessed via the UW Graduate Admissions application. After considering the merits of the application, the department then nominates candidates to the university. Applications for assistantships are due by February 15.

Program Specific Degree Requirements

Master's Programs

Each of the degree programs consists of 30 semester hours of work composed of the following elements:

Basic music core (11 hours)

MUSC 5310. Bibliographical Research, 2 hours

Upper-division music history, 3 to 6 hours

Upper-division music theory, 3 to 6 hours

Major area courses (12-16 hours)

Thesis requirement (Plan A, four hours); (Plan B, zero hours)

The thesis requirement may be fulfilled under the Plan B paper/lecture-recital as appropriate to the specific degree program. A proposal for a thesis or Plan B paper must be submitted to and approved by the student's graduate committee chair.

Electives (0 to 7 hours)

Master of Music Education Plan A or Plan B

To earn a Master of Music Education, students must complete the following requirements:

Basic music core, (11 hours)

Major area courses (12 - 15 hours)

EDRE 5530. Introduction to Research, 3 hours

MUSC 5760. Music Education Seminar, 2 hours

MUSC 5720. Music Supervision, 2 hours

Music education electives, 5-8 hours

Thesis requirement (0 to 4 hours) Plan A:

MUSC 5960. Thesis Research, four hours (the thesis must be on a music education topic), or

Plan B: Plan B paper, plus extra courses, 0 hours Electives (4 to 7 hours)

Master of Music in Performance Plan B

To earn a Master of Music in Performance, students must complete the following requirements:

Basic music core (11 hours minimum)

Major area courses (16 hours minimum)

MUSC 5480-5670. Private Lessons in major instrument or voice. A minimum of 8 hours.

MUSC 5770-5890. Ensembles, 2 hours

MUSC 5680. Graduate Recital, 2 hours.

A faculty jury must approve a recital given for credit one month prior to the performance. The faculty jury will determine the grade after the performance.

MUSC 5390. Performance Practice and Interpretation, 2 hours

MUSC 5320. Advanced Seminar, 3 hours MUSC 4***. Pedagogy (instrument specific), 2 hours

Requirement in lieu of thesis:

Plan B paper, or 1-hour lecture-recital

Foreign language requirement (voice majors only). Singers must demonstrate acceptable proficiency in singing in Italian, German, French, and English.

Electives (0 to 3 hours)

Both degrees require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

Music (MUSC)

Individual Lessons: All students enrolled in MUSC 2080 through MUSC 5670 levels will be required to take a jury examination at the end of the semester to determine, in part, the final grade. (See current fee schedule for listing of fees in individual lessons.)

Students must receive a "C" or better in all courses designated MUSC to satisfy department degree requirements. A student's transfer courses in music must also reflect a "C" or better to be accepted for credit.

USP Codes are listed in brackets by the 2003 USP code followed by the 2015 USP code (e.g. [QB♦Q]).

Department of Philosophy and Religious Studies

Philosophy

122 Ross Hall, (307) 766-3204

Web site: <https://www.uwyo.edu/philrelig/about-us/philosophy/index.html>

E-mail: philosophy@uwyo.edu

Department Head: Susanna L. Goodin

Professors:

HARVEY HIX, B.A. Belmont College 1982; M.A. University of Texas, Austin 1985; Ph.D. 1987; Professor of Philosophy and Creative Writing 2013.

JEFFREY A. LOCKWOOD, B.S. New Mexico Institute of Mining and Technology 1982; Ph.D. Louisiana State University 1985; Professor of Philosophy and Creative Writing 2006.

Associate Professors:

SUSANNA L. GOODIN, B.A. Texas Technical University 1981; M.A. Rice University 1985; Ph.D. 1990; Associate Professor of Philosophy 1998, 1992.

FRANZ-PETER GRIESMAIER, University of Vienna 1986; M.A. University of Colorado 1988; Ph.D. University of Arizona 1997; Associate Professor of Philosophy 2006, 2000.

EDWARD D. SHERLINE, B.A. Princeton University 1982; M.A. University of Chicago 1983; Ph.D. University of Illinois-Chicago 1990; Associate Professor of Philosophy 1996, 1989.

Assistant Professor:

BRADLEY RETTLER, B.S. Crown College 2004; M.A. Biola University 2008; Ph.D. University of Notre Dame 2014; Assistant Professor of Philosophy 2018.

Senior Academic Professional Lecturer:

ROBERT S. COLTER, B.A. The University of Puget Sound 1992; M.A. University of Colorado 1995; Ph.D. Northwestern University 2001; Academic Professional Lecturer 2013, 2007.

Professors Emeriti:

James Forrester, Richard L. Howey, James A. Martin

About the Program

Philosophy starts with those hard questions we all ask at some time or another. Some important questions of meaning and justification can't be answered by making observations or doing experiments. Philosophy is the effort to deal with these problems through sustained, hard, and critical thinking. Philosophy is good preparation for careers that call for you to use your mind, without prejudice but with rigor.

The Philosophy Department offers an undergraduate major, three undergraduate minors, and a graduate MA.

For details on each of these programs, see the department's web site.

Graduate Study

The Department of Philosophy offers the master of arts degree under the Plan A or Plan B.

Program Specific Admission Requirements

A writing sample of no more than 3,000 words on any subject in philosophy.

A statement describing specific philosophical interests.

Program Specific Graduate Assistantships

The department offers two to three graduate assistantships yearly on a competitive basis. These assistantships carry a tuition and fee waiver, plus a stipend. For more information, please contact the department.

Religious Studies

122 Ross Hall, (307) 766-3204

PAUL V. M. FLESHER, B.A. University of Rochester 1979; M.Phil. Oxford University 1982; Ph.D. Brown University 1988; Professor of Religious Studies 2012, 1993.

Assistant Professors

CATHERINE HARTMANN, B.A. University of Virginia in 2011, M.A. University of Chicago 2013, Ph.D. Harvard University 2020; Assistant Professor of Religious Studies 2020

TAMMY HEISE, B.A. Hendrix College 1998; M.A. Vanderbilt University 2006; Ph.D. Florida State University 2016; Visiting Assistant Professor of Religious Studies 2015, Assistant Professor of Religious Studies 2020.

Senior Academic Professional Lecturer

TYLER S. FALL, B.A. Mary Washington College 1999; M.A. University of Oregon 2004; M.F.A. University of Wyoming 2009; Associate Academic Professional Lecturer of Religious Studies 2017, 2012.

MARY L. KELLER, B.A. Williams College 1987; M.A. Syracuse University 1992; Ph.D. 1999; Associate Academic Professional of Religious Studies 2017, 2012.

SETH WARD, B.A. Yale University 1974; M.A. 1978; M.Phil. 1979; Ph.D. 1984; Senior Academic Professional of Religious Studies 2017, 2003.

About the Program

Throughout history, religion has played an important role in shaping cultures and societies. Religious beliefs have inspired armies in their wars and leaders in their decisions. Religions have provided the foundation for ethical behavior and in many societies have been the primary source of education. In today's world, religions remain important, influencing our responses to 9/11, the Arab Spring, the Philosophy and Religious Studies, Middle East crisis, and other events in regions around the world. Even in our own secular United States, religions and their beliefs play a major role in our debates over public policy.

The Religious Studies department offers a range of courses in the academic study of religions. These courses seek to acquaint students with religious beliefs and behavior, helping them to understand the ability of religions to define the world in which their adherents live and the power religions have to influence the behavior of their followers. Religious Studies courses cover a broad range of religions, both modern and historical. Some courses focus on understanding a single religion in a limited time period, while others compare aspects of different religions. Yet further courses focus on religious expression, studying how religious beliefs are depicted in literature, film, art and music. Many of these courses are offered by the Religious Studies department, while others can be found in various departments, including anthropology, art, English, history and sociology.

Graduate Study

At present, no program for a graduate degree in religious studies is offered; however, some courses may be counted at the graduate level.

Department of Physics and Astronomy

204 Physical Sciences Building,

(307) 766-6150

FAX: (307) 766-2652

Web site: www.uwyo.edu/physics

Department Head: Jinke Tang

Professors:

MICHAEL S. BROTHERTON, B.S. Rice University 1990; M.A. University of Texas at Austin 1992; Ph.D. 1996; Professor of Physics and Astronomy 2014, 2002.

YURI DAHNOVSKY, Ph.D. Institute of Chemical Physics, Moscow 1983; Professor of Physics 2007, 2000.

DANIEL A. DALE, B.S. University of Minnesota 1993; M.S. Cornell University 1996; Ph.D. 1998; Professor of Physics and Astronomy 2009, 2001.

HENRY A. KOBULNICKY, B.S. University of Iowa 1991; M.S. University of Minnesota 1993; Ph.D. 1997; Professor of Physics and Astronomy 2014, 2002.

ADAM D. MYERS, M.S. Durham University, United Kingdom 2000; Ph.D. 2004; Associate Professor of Physics and Astronomy 2017, 2011; Professor of Physics and Astronomy Fall 2022

H. EDWARD SEIDEL, B.S. College of William and Mary 1981; M.S. University of Pennsylvania 1983; Ph.D. Yale University 1988; Professor of Physics and Astronomy 2020.

JINKE TANG, B.S. Jilin University 1982; M.S. Iowa State University 1990; Ph.D. 1989; Professor of Physics 2007.

Associate Professors:

TEYU CHIEN, B.S. National Taiwan Normal University 2001; Ph.D. University of Tennessee-Knoxville 2009; Associate Professor of Physics 2019, 2013.

MICHAEL J. PIERCE, B.S. University of Oklahoma 1980; M.A. University of Hawaii 1983; Ph.D. 1988; Associate Professor of Physics and Astronomy 2005, 2001.

WENYONG WANG, B.S. Nankai University 1993; M.S. Yale University 1999; Ph.D. 2004; Associate Professor of Physics 2014, 2008.

Assistant Professors:

JIFA TIAN, B.S. Beijing Normal University 2003; Ph.D. University of Chinese Academy of Sciences/Institute of Physics, CAS 2009; Assistant Professor of Physics 2018.

Academic Professional Lecturers:

RÜDIGER MICHALAK, Dipl. Phys FZ Julich 1989; Ph.D. 1993; Academic Professional Lecturer in Physics and Astronomy 2007, 2004.

Assistant Lecturer:

AYSEUR BICER, B.S. Ege University 2006; M.S. 2009; Ph.D. Texas A&M University 2018; Assistant Lecturer in Physics 2019.

JESSE FEDDERSEN, B.S. Indiana University 2013; M.S. Yale University 2015; Ph.D. Yale University 2019; Assistant Lecturer in Physics and Astronomy 2020.

Adjunct Professors:

Gabrielle Allen, Pu Du, Paul Marquard, William Rice, Zhaohui Shang, Tim Slater, Hannah Jang-Condell, Edmund Synakowski.

Professors Emeriti:

Ronald W. Canterna, Paul E. Johnson, A. Raymond Kunselman, Terry P. Roark, James M. Rosen, Jimmie Verley, David R. Thayer.

Physics originated in antiquity as the study of natural philosophy. As such, it attempts to describe the universe within the context of both physical laws and the fundamental particles of nature. The broad scope of physics runs from the microscopic nuclear structure and that of the elementary particles themselves to the macroscopic, the galaxy and evolution of the universe as a whole. Today the subject is generally divided into broad areas such as condensed matter, nuclear, elementary particles, astrophysics, etc. The department maintains competence in most major branches of physics and offers instruction in these areas at both the undergraduate and graduate levels. In addition, it has a strong interest and involvement in science education.

Learning Outcomes

The B.S. and B.A. in Physics, the B.S. in Astronomy, and the B.A. in Physics and Physics Education all have the broad objectives enumerated below. These objectives are designed to promote the success of our majors in their chosen career path, whether that takes them into academia, secondary teaching, industry or further education:

1. Provide students with problem-solving and data-manipulation skills appropriate to the growing range of scientific and technological careers in academia or industry.
2. Develop students' oral, written, interpersonal and communication skills.
3. Provide students with skills in experimental design, data collection, and data analysis through research experiences in a laboratory/computational/telescope setting.
4. Educate students in the application of mathematical tools that will be useful for them to achieve success in a postcollege career.
5. Provide a conceptual and analytical understanding of the core areas of physics and their specialty area.
6. Provide students with an understanding of scientific reasoning, i.e., the roles of theory, hypothesis, and experiment in the scientific method.

The B.S. in Physics and the B.S. in Astronomy are primarily designed for students who wish to pursue post-graduate education or to have a more in-depth physics background. The Physics B.A. is primarily designed for students interested in pursuing a double major, or a professional career. The B.A. in Physics and Physics Education is structured for those interested in pursuing a secondary science teaching career.

Undergraduate Curriculum

The four-year physics programs are the Bachelor of Arts in physics and the Bachelor of Science in physics. The Bachelor of Science programs are intended for students who will pursue a career or a graduate degree in the field, whereas the Bachelor of Arts program is primarily geared toward those who are interested in pursuing physics as a second major. The department also offers a Bachelor of Science degree in Astronomy and Astrophysics.

Graduate Study

The Department of Physics and Astronomy offers the degrees of master of science in physics, master of science in teaching, and doctor of philosophy. Advanced degrees in physics may be based on experimental or theoretical research in physics or astrophysics.

Please refer to the departmental homepage at <http://www.uwyo.edu/physics/> for the programmatic updates, or contact the department directly.

Program Specific Admission Requirements

We will begin to review applications in late January. Both the GRE general and physics subject exams are optional, and we will review all applications on their total merits. Students of all backgrounds, ethnicities, genders and countries of origin are encouraged to apply at <http://www.uwyo.edu/admissions/apply-online.html>

Applications should include:

- Resume or CV
- Undergraduate transcript
- A Personal Statement that says why you want to pursue a PhD, why Wyoming is a good fit for you, and what experiences you've previously had completing long-term projects
- Three letters of recommendation (this will be done through the application website)
- GRE scores Both the GRE general and physics subject exams are optional.
- TOEFL for non-native English speakers
- Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Program Specific Graduate Assistantships

The Physics and Astronomy Department commits to providing first- and second-year students with teaching assistantships for the nine-month academic year. More advanced students are generally supported on federal grants or fellowships. Both teaching and research assistantships carry a full tuition waiver and insurance. Summer assistantships are often available to students making satisfactory progress. Refer to <http://www.uwyo.edu/physics/> for current amounts.

ZOE PEARSON, B.A. University of California Los Angeles 2005; M.A. Ohio State University 2010; Ph.D. 2016; Assistant Professor of Geography and International Studies 2016.

JUSTIN T. PICCORELLI, B.A. Loyola Marymount University 2004; M.P.A. Cleveland State University 2009; Ph.D. 2014; Assistant Professor of Public Administration 2015.

THOMAS R. SEITZ, B.S. University of the State of New York 1988; M.A. University of Kent at Canterbury 1989; Ph.D. University of Cambridge 1997; Associate Professor of International Studies 2015, 2009.

Assistant Professors:

JASON B. MCCONNELL, B.S. University of Wyoming 1998, MA 2003, J.D. 2005; Ph.D. Washington State University 2017; Assistant Professor of Political Science 2018.

GABEL C. TAGGART, B.S. Brigham Young University 2010; M.P.P. 2013; Ph.D. Arizona State University 2017; Assistant Professor of Public Administration 2018.

Senior Academic Lecturer:

ANNE ALEXANDER, B.B.A. New Mexico State University, 1991; M.S. 1993; Ph.D. University of Wyoming, 2001; Senior Academic Lecturer, 2019, 2013; Interim Provost and Vice President for Academic Affairs 2020.

Associate Lecturer:

RUTH BJÖRKENWALL, B.A. University of California at Berkeley, 1989; M.A. 2004; Associate Lecturer 2018, 2013.

Professors Emeriti:

Winberg Chai, Larry Hubbell, Garth Massey, Margaret M. Murdock, Stephen C. Ropp, Oliver Walter

Associate Professor Emeritus:

Alan E. Schenker

Adjunct Faculty:

(see department section following name for academic credentials)

Tanja Börzel, political science, Freie Universitaet Berlin
Roger Coupal, agriculture and applied economics
Michael Harkin, anthropology
Mark Peterson, management and marketing
Thomas Risse, political science, Freie Universitaet Berlin
Amy Roberts, elementary and early childhood education
Chris Rothfuss, international studies
Mona Schatz, social work
Ed Sherline, philosophy
J.J. Shinker, geography
Lilia Soto, American studies and latina/o studies
Jim Thurman, international studies, political science - Central Wyoming College

International Studies

Undergraduate Learning Outcomes

Goal 1. Students graduating with a BA in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

Goal 2. Students graduating with a BA in international studies will have the capability to critically read, write about, discuss, and engage in scholarly inquiry related to international processes and issues.

Goal 3. Students graduating with a BA in international studies will have a minimal level of fluency in a second language and are expected to experience a foreign locale in which to use the second language skills.

Goal 4. Students will be made aware of career and post-graduate opportunities suitable for an international studies major.

Graduate Learning Outcomes

All students who graduate with a Master's degree in international studies will be able to:

- Engage in independent empirical inquiry that makes an original contribution to the field of study;
- Think critically and reason logically about a problem and the ways it can be answered;
- Employ the best recognized methods appropriate to their research;
- Effectively develop alternative explanations, use theories and concepts to guide the research project, and conduct the work in such a way that disproof is possible; and
- Present their work intelligently, with both written and oral capability at a level of professional expectations.

They will have a broad understanding of:

- International affairs;
- The diversity of national cultures and social structures;
- Political and economic systems;
- Major global trends and problems

International Studies Major

Students graduating with a degree in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective. uwyo.edu/sppais.

Core Courses

Students take 9 hours of core coursework. INST 2350 (Introduction to Global Studies) and INST 2310 (Introduction to International Relations) provide the theoretical framework for the global and regional tracks. INST 4950 (Capstone) provides the culminating experience for

students completing the B.A. degree in international studies and fulfills the COM3 writing requirement for the University Studies Program.

Area of Focus

Students will complete a minimum of 18 hours of coursework in two specific areas of focus, choosing a global and regional track. Students must complete a minimum of 9 hours in each track.

Global Tracks - Governance and Conflict Resolution; Economic Systems; Culture and Social Issues; Sustainable Development and the Environment

Regional Tracks - Africa and the Middle East; Asia, Europe and the Former Soviet Union; Latin America

Global and regional tracks have suggested Gateway courses. Most Gateway courses fulfill University Studies requirements. All INST students are required to take the Regional Gateway course in their chosen region, either: INST 2230 (Introduction to Asian Studies),

INST 2240 (Introduction to African Studies), INST 2250 (Introduction to Latin American Studies), or INST 2280 (Introduction to European Studies)/POLS 2200 (Politics of Europe and the EU). These courses fulfill the COM2 requirement for University Studies Program and counts towards the 9 hours required for the Regional Track.

Foreign Language

Students must complete a four semester sequence in a single foreign language or show an equivalent level of proficiency. Language courses must be conversational language courses. American Sign Language is not considered a foreign language.

Electives

Students must take 9 hours of elective courses from the international studies curriculum, 6 of which must be upper division. The following Gateway courses can count for the elective requirement: ANTH 1200, ECON 1000, INST 1060 or GEOG 1000, INST/ POLS 1200,

INST 1330.

All required courses for the major must be passed with a grade of C or better. There are numerous special topics courses offered during the academic year and these courses can fulfill the international studies requirements with approval from your adviser. Students are

encouraged to satisfy the USP Q (quantitative reasoning) requirement by taking STAT 2070, Introductory Statistics for Social Sciences.

International Study Abroad and Internship Opportunities

All International Studies majors are strongly encouraged to consider taking part in a semester long study abroad program or a shorter-term faculty-led international fieldwork or study abroad courses taught by UW faculty (typically offered during the Summer and Winter

breaks) as a way to earn course credit towards their International Studies degree. In addition, International Studies majors are also encouraged to consider participating in paid or unpaid international internship opportunities as a way of earning additional academic credit

towards their International Studies degree. For more information on international study abroad exchanges, faculty-led fieldwork courses and internship opportunities, please visit the UW Abroad Office at: uwoyo.edu/geo/eda/index.

Global Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Sustainable Development and the Environment

Suggested Gateway Courses: ENR 1100, ECON 1010, ECON 1020, GEOG 1000, GEOL 1600, SOC 1000

AGEC 4460 - Agriculture and Economic Development

AGEC 4660 - Community Economic Development

ANTH 4310 - Environmental Anthropology

ECON 4700 - Economic Development

ENR 2000 - Environment and Society

GEOG 3030 - Geography and Development

GEOG 3550 - Natural Hazards and Society

GEOG 4420 - Tourism and Recreation

GEOL 3500 - Global Change: A Geological Perspective

GEOL 3600 - Earth and Mineral Resources

GEOL 3650 - Energy: A Geological Perspective

INST/AGEC 3860 - Econ of World Food/Ag

INST 4060 - NGOs, Development, and Culture

INST/SOC 4110 - Sociology of Development

INST/POLS 4255 - Politics of Developing Nations

INST 4475 - Sustainable Development & Environment

INST 4580 - Gender, Global Change and Development

MKT 4590 - Sustainable Business Practices

POLS 4350 - Sustainable Development and Global Policy

Economic Systems

Suggested Gateway Courses: ECON 1000, ECON 1010, ECON 1020. NOTE: Some courses from this curriculum require ECON 3020.

AGEC 4460 - Agriculture and Economic Development

AGEC 4660 - Community Economic Development

AGEC 4880 - International Agricultural Trade, Markets and Policy

BUSN 4540 - Global Business Issues
ECON 4700 - Economic Development
ECON 4720 - International Trade
ECON 4740 - International Finance
FIN 4460 - Multinational Finance
INST/BUSN 2000 - Intro to International Business
INST/GEOG 3050 - Economic Geography
INST/AGEC 3860 - Economics of World Food and Development
INST/SOC 4370 - Global Political Economy
INST/MKT 4540 - International Marketing
INST/ECON 4710 - Comparative Systems
MKT 4590 - Sustainable Business Practices

Culture and Social Issues

Suggested Gateway Courses: ANTH 1200, SOC 1000
ANTH 4300 - Anthropology of Religion
ANTH 4350 - Medical Anthropology
ANTH 4380 - Visual Anthropology
ART 4650 - International Study in Art
COJO 3190 - Cross-Cultural Communication
GEOG 4570 - Cultural Geography
HIST 4405 - American Encounters to 1850
HIST 4406 - American Encounters from 1850
INST/SOC 3000 - Social Change
INST/ANTH 3420 - Anthropology of Global Issues
INST/HLSC 4100 - Global Public Health
INST/WMST 4155 - Women, War and Health
INST/WMST 4175 - Gender, Women and Health
INST/WMST 4240 - Global Sex Work and Trafficking
INST/ANTH 4350 - Culture Change

INST 4590 - Women of India

INST 4650 - Women, Gender and Migration

INST/SOWK 4881 - Intl Social Welfare/Social Dev.

ANTH/MUSC 3015 - Introduction to Music of the World's People

MUSC 4050 - Advanced Studies in World Music

RELI 2225 - History of Christianity

RELI 2255 - Introduction to Judaism

WMST 3500 - Gender and Society

ZOO 4110 - HIV/AIDS

Governance and Conflict Resolution

Suggested Gateway Courses: GEOG 1000, POLS 1200, SOC 1000

ANTH 4320 - Political Anthropology

CRMJ 4280 - Comparative Criminal Justice

GEOG 4590 - Geography of Conflicts

INST 3200 - Comparative Political Cultures

INST/WMST 4155 - Women, War, and Health

INST/SOC 4300 - The World System

INST/POLS 4330 - American Foreign Relations

INST/POLS 4340 - International Organizations

INST 4360 - International Peace & Conflict

INST 4375 - Transitional Justice

INST/HIST 4380 - History of Human Rights

INST 4455 - Drug War Geopolitics in the Americas

INST/GEOG 4560 - Global Cities

INST/HIST 4582 - 20th Century Foreign Relations

PHIL 3250 - Global Justice

POLS 3300 - Model United Nations

POLS/GEOG 4013 - Political Geography

POLS 4710 - Emerging Democracies

POLS 4870 - Seminar: International Relations

POLS 4875 - Seminar: Comparative Foreign Policy Analysis

POLS 4890 - Seminar: Comparative Government and Politics

Regional Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Africa and the Middle East

Gateway Course for this Concentration: INST 2240, Introduction to African Studies

AAST/INST 2240 - Introduction to African Studies

AAST/ANTH/ART 2730 - African Creativity and Ritual

AAST/HIST 3120 - Africa Since 1800

AAST 3130 - Global Impact of African Cultures

POLS 4890 - Populism and Liberal Democracy

General Requirements for the International Studies Major

A student must complete 36 hours of course work and 16 hours of foreign language.

Concurrent Major

A concurrent major is a second major pursued alongside the primary major. The majors can be in one or more colleges. One degree is awarded from the college of the primary major. University Studies requirements need only be satisfied once.

Dual Degree

A dual degree is a second degree pursued either in the same college as the first degree or in another college. University Studies requirements need only be satisfied once. Students must meet all the college and major requirements for both majors. Students must complete at least 30 credit hours (minimum 12 upper-division hours) beyond the credit hours required for the degree with the smallest number of credit hours required. An academic advisor for each degree is required.

Second Bachelor's Degree

Students pursuing a second bachelor's degree must earn a minimum of 30 additional credit hours from UW, 12 of which must be upper-division. A student must also fulfill all of the college and major requirements, however, University Studies requirements only need to be met once if the first degree is from UW.

Undergraduate Minors

Students can minor in 3 areas by fulfilling one of the following sets of requirements:

International Studies Minor

A minor in international studies requires 12 hours of a single foreign language and 15 hours of international studies curriculum, with a minimum of 9 hours at the 3000-level or above.

Asian Studies Minor

The Asian Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of an Asian region or a single country. The program emphasizes a social science approach to the study of Asian history, politics, society, and culture with options to

include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Asia is defined first and foremost as a geographic entity to include Western, Northern, Central, South and East Asian areas. Thus, for example,

countries such as modern Turkey and areas such as the 'Middle East' can rightly be included in 'Asia' alongside areas more traditionally understood as part of Asia such as China and India.

Asian Studies Minor Course Requirements (18 credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 Credit Hours)

All Asian Studies Minor students must complete one of two required Gateway courses, either INST 2230 - Introduction to Asian Studies (G/COM2) or POLS 3270 - Government and Politics of the Middle East, depending on their primary area of interest within Asia.

Asian Studies Area Courses (15 Credit Hours)

Asian Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved Asian Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the

approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Asian Studies Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to

review the International Studies Newsletter each semester to see what Asian Studies Area courses are currently being offered.

Approved Asian Studies Area Courses

ART 2720 - Introduction to the Art and Culture of Islam

RELI 2050 - Religious Landscapes of Asia

RELI 2315 - History of NonWestern Religions

RELI/PHIL 3320 - Eastern Thought

RELI 3340 - Mysticism, Yoga, and Enlightenment

RELI 3344 - Gods, Avatars, Heroes, and Mystics

SOC 3050 - Japanese Society

Optional Asian Study Abroad Component

Asian Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Asia to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of

the Asian Studies Area Course requirement on the approval of the student's designated minor advisor. Optional Asian Foreign Language Component Asian Studies Minor students are also strongly encouraged to learn an Asian foreign language as part of their progression

towards completion of the Minor. Accordingly, up to eight (8) lower-division (1000-2000) credit hours of an Asian foreign language may be counted towards fulfillment of the Asian Studies Area Course requirement. 'Asian' languages at UW include Japanese, Chinese and

Arabic. However, Asian Studies Minor, students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other Asian language

instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad programs.

European Studies Minor

The European Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of a European region or a single country. The program emphasizes a social science approach to the study of modern European history, politics, society, and

culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Europe is defined first and foremost as a geographic entity running from the Atlantic to the Urals and from Scandinavia to the

Mediterranean and the Caucasus Mountains. Courses that transcend these boundaries should include the study of Europe in a prominent way to count toward the minor.

European Studies Minor Course Requirements (18 credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 credit hours)

All European Studies Minor students must complete one of two required Gateway courses, either INST 2280 - Introduction to European Studies (COM2) or POLS 2200 - Politics of Europe and the European Union (COM2).

European Studies Area Courses (15 credit hours)

European Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved European Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition

to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the

International Studies Newsletter each semester to see what European Studies Area courses are currently being offered.

Approved European Studies Area Courses

POLS 3220 - Government and Politics of Russia and the FSU

POLS 4215 - European Union

RELI 4150 - Christianity, Jews and Muslims in Iberia

Optional European Study Abroad Component

European Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Europe to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards

fulfillment of the European Studies Area Course requirement on the approval of the student's designated minor advisor.

Optional European Foreign Language Component

European Studies Minor students are also strongly encouraged to learn an European foreign language (other than English) as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower division (1000-2000) credit hours of an European

foreign language may be counted towards fulfillment of the European Studies Area Course requirement. 'European' languages at UW include French, German, and Spanish. However, European Studies Minor students need not necessarily be limited to the three languages

currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other European language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad

programs. All required courses for the major must be passed with a grade of C or better. A course cannot simultaneously fulfill more than one major requirement.

Graduate Study

Students take the Plan A (thesis). Students must have a minimum of 26 hours of graded non-thesis coursework and 4 hours of thesis.

Program Specific Admission Requirements

Admission is open to all students holding a bachelor's degree in any major. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

Program Specific Degree Requirements

Students must meet three requirements: 1) Each student must take INST 5400. 2) Each student must take INST 5200. 3) Each student must demonstrate proficiency in a foreign language, accomplished in the course of the program or from previous experience or

coursework. Foreign language hours do not count toward the M.A. degree. The program also offers a joint International Studies/Environment and Natural Resources degree. See www.uwyo.edu/sppais for specific degree requirements.

Plan A (thesis)

Students are encouraged to construct, with the adviser's approval, a program that focuses their own intellectual interests and career plans. To promote that end, students should be prepared to file a plan of study with the graduate adviser during the second semester of

coursework. No later than the second semester in residence, each student shall select a graduate committee to oversee his or her academic work. The committee will be chaired by the student's major professor and must have at least one member from outside of The

School of Politics, Public Affairs, and International Studies. Students also will prepare a thesis proposal and give a presentation of their preliminary project before the International Studies faculty and complete a thesis prospectus defense with their graduate committee by

the end of their second semester. Students must pass an oral examination at the completion of their program. Normally, examination will center on the thesis, but may also encompass coursework of the candidate.

Required Coursework

Advanced Theory Course

INST 5200 Graduate Proseminar in International Studies

Research Methods Course

INST 5400 International Social Science Research Methods

Graduate Minor in International Studies

A graduate minor in international studies provides students in graduate programs other than international studies with the opportunity to acquire a basic graduate-level familiarity with international relations, global processes and cultural diversity around the world. Students

acquire a foundation in intergovernmental relations and research methodology. Beyond this, students work closely with a graduate director to fashion a program of study appropriate for their interests and post-graduate plans. The minor complements several other graduate

degree programs.

Prerequisites for Admission

Declaration of an international studies minor is contingent on admission to a master's or doctoral degree program. Application is in the form of a letter of interest to the director of the program, including the background, anticipated course of study, and reason for seeking

the minor. An interview with the director is also required. All prerequisites for entering the graduate program in international studies as a major apply to the minor with the exception of proficiency in a second language. Students must be prepared for coursework in

international studies at the graduate level and be willing to take prerequisite courses if necessary.

Course and Committee Requirements

Graduate students minoring in international studies must satisfy the requirements of their graduate major and take twelve credits of guided graduate coursework in international studies. With the approval of the department of the graduate major, these twelve hours may also

count toward the major. Students are required to take at least one advanced theory course (INST 5200) and one advanced research methods course. All courses will be determined in consultation with the program director.

Political Science

Political Science is the study of how societies govern themselves and interact with one another. Courses of instruction in the Political Science major are offered in the following subfields: American politics, comparative government, international relations, political philosophy, public law, and public administration. Areas of focus include analysis of government structures and processes, citizens' influence on government, policy content, philosophical concepts and traditions, political systems of other states, and resolution of conflicts between nations. By developing critical thinking and analytical skills, the major prepares students for effective participation in the political process, successful careers in the public and private sectors, and further study in law, political science, and public administration.

In 1925, the state legislature passed a law requiring the study of the U.S. and Wyoming constitutions by all University of Wyoming students. Political Science 1000 satisfies this requirement, but the requirement can also be satisfied by special examination given periodically by the School of Politics, Public Affairs, and International Studies.

Learning Outcomes

We continuously and actively assess the Political Science undergraduate curriculum to ensure that the following learning outcomes are being met for each of our graduates:

1. Acquisition of a knowledge and understanding of the values, beliefs, and institutions that constitute governing processes;
2. Acquisition of an understanding of the distinctions among the major subfields of the discipline including: American politics and law; international relations; comparative politics; and political theory;
3. Development of a knowledge and understanding of citizens' roles within governing processes;
4. Acquisition of a knowledge of the theories and analytic skills necessary to evaluate conflicting arguments, assemble and present appropriate evidence, and make reasoned conclusions from the evidence available;
5. The ability to communicate effectively, both orally and in written form.

Undergraduate Major

In addition to the university and college requirements listed elsewhere in this bulletin, a major in political science requires 33 department hours. Students are required to complete the following four introductory courses: POLS 1000; POLS 1200 or POLS 1250; POLS 2310; and POLS 2460 or POLS 3600. Students are also required to take at least one seminar in political science (and its prerequisites); 8 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages; STAT 2050 or STAT 2070; and a minimum of 9 hours of upper division credit in political science. A maximum of 6 hours of internship credit may be

applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies:

www.uwyo.edu/sppais.

5 Year B.A./M.A. Program in Political Science

The Political Science 5 Year B.A./M.A. Program offers highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor's degree (whether B.A. or B.S.) and thereby earn a graduate degree more efficiently. Political science majors with a cumulative major GPA of 3.5 or higher may be invited to apply at the outset of the second semester of the junior year. Interested students will submit an application and 2 letters of recommendation, at least one from a political science faculty to be reviewed, along with unofficial, current UW transcripts, by the M.A. Director and Committee. Upon provisional acceptance into the program in the junior year, students will be required to take the GRE. GRE scores will be considered for full and final acceptance to the M.A. program, which will be made once the student has completed the bachelor's degree.

Provisional acceptance to the 5 Year B.A./M.A. program in Political Science will allow students to apply up to six credit hours of 5000-level courses toward both the B.A./B.S. and M.A. degree programs. To earn graduatelevel credit, students must achieve at least a 3.000 in the course. By successfully completing up to six credit hours of graduate coursework during their senior year, these students will have demonstrated their ability to do graduate level coursework as undergraduates, easing their transition into the Master's Program in Political Science. Interested students may reserve up to six additional credits for graduate study that do not apply to the undergraduate degree by securing appropriate approvals as explained in the Registrar's "Request to Reserve Coursework for Graduate Credit" prior to taking the coursework. Students will be granted the BA/BS upon completion of the credit hours required for the undergraduate degree in political science. Students must complete the BA/BS before formally entering the MA program. To remain in good standing in the program, students must maintain a cumulative and departmental GPA of 3.200 and earn at least a 3.000 in all 5000-level courses. Failure to meet the GPA requirements places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be suspended from the program. Students in the program are encouraged to take the Plan B option. Please see the Graduate Study section to find the degree requirements of the M.A. in Political Science.

Undergraduate Minors

The school offers optional undergraduate minors in American politics, international relations and comparative government, public law, and political theory. Eighteen hours are required in each minor, including 9 hours of upper-division courses and one seminar. A maximum of 3 hours of internship credit may be applied towards the 18 hours required for the political science minor. At least 12 credit hours in a minor must be from courses not counted toward the student's major. Information relating to specific courses fulfilling minor requirements may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

American Politics Minor

A minor in American Politics requires POLS 1000 - American and Wyoming Government, either POLS 4850 - Seminar in American Political Institutions or POLS 4840 - Seminar in Public Law, and 12 hours from an approved list of courses, with a minimum of 9 hours at the 3000-level or above.

Approved American Politics Minor courses:

POLS 2000 - Current Issues in American Government
POLS 2070 - Politics of State & Local Government
POLS 2410 - Introduction to Public Administration
POLS 2430 - Parties, Interest Groups, & Elections
POLS 2450 - Politics & Media

POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
POLS 3100 - Politics and the Judicial Process
POLS 3520 - Voting & Participation in America
POLS 3550 - Political Communication
POLS 3600 - American Political Thought
POLS 4051 - Environmental Politics
POLS 4052 - Federal Land Politics
POLS 4100 - Constitutional Law: Institutional Powers
POLS 4110 - Constitutional Law: Civil Liberties & Civil Rights
POLS 4330 - American Foreign Relations
POLS 4420 - Seminar in Public Administration (Max. 6)
POLS 4430 - U.S. Presidency
POLS 4435 - Presidential Elections
POLS 4520 - Public Opinion
POLS 4530 - U.S. Congress
POLS 4550 - Internship in Government (dept. approval required)(1-6)
POLS 4560 - Washington Semester Program (Max. 6)
POLS 4710 - Topics in _____ (dept. approval required)(Max. 9)
POLS 4720 - Workshop in Practical Politics (Max. 6)
POLS 4840 - Seminar in Public Law (Max. 6)
POLS 4850 - Seminar in American Politics and Institutions (Max. 6)

International Relations and Comparative Politics Minor

A minor in International Relations and Comparative Politics requires POLS 2310 - Introduction to International Relations, either POLS 1200 - Non-Western Political Cultures or POLS 1250 - Introduction to Comparative Politics, either POLS 4870 - Seminar in International Relations or POLS 4890 - Introduction to Comparative Government and Politics, and 9 hours from an approved list of courses, with a minimum of 6 hours at the 3000-level or above.

Approved International Relations and Comparative Politics Minor courses

POLS 2200 - Politics of Europe and the European Union
POLS 2290 - Government & Politics of Latin America
POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
POLS 3200 - Comparative Political Cultures
POLS 3220 - Government & Politics of Russia and FSU
POLS 3270 - Government & Politics of the Middle East
POLS 3300 - Model United Nations (Max. 6)
POLS 4013 - Political Geography
POLS 4215 - European Union
POLS 4230 - Government & Politics of Asia

POLS 4255 - Politics of Developing Nations
POLS 4260 - Democratization & Regime Change
POLS 4290 - Inter-American Relations
POLS 4330 - American Foreign Relations
POLS 4340 - International Organizations
POLS 4350 - Sustainable Development & Global Policy
POLS 4360 - International Peace & Conflict
POLS 4375 - Transitional Justice
POLS 4445 - Drug War Geopolitics in the Americas
POLS 4475 - Politics of Natural Resources in Latin America
POLS 4600 - Political Violence
POLS 4710 - Topics in _____ (dept. approval required)(Max. 6)
POLS 4870 - Seminar in International Relations (Max. 6)
POLS 4890 - Seminar in Comparative Government and Politics (Max. 6)

Political Theory Minor

A minor in Political Theory offers an opportunity for interdisciplinary study. Required are POLS 2460 - Introduction to Political Theory, POLS 3600 - American Political Thought, POLS 4810 - Seminar in Political Theory, and 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 6 hours at the 3000-level or above.

Approved Political Theory Minor courses

POLS 2330 - Environmental Ethics
POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
POLS 3050 - Athenian Democracy
POLS 3610 - Classics in Environmental Thought
POLS 3620 - Environmental Justice
POLS 4090 - Anglo-American Jurisprudence
POLS 4160 - Legal Philosophy
POLS 4640 - Political Philosophy: Ancient & Medieval
POLS 4650 - Political Philosophy: Modern
POLS 4660 - Political Philosophy: Contemporary
POLS 4710 - Topics in _____ (dept. approval required) (Max. 6)
PHIL 2200 - Social & Political Philosophy (Max. 6)
SOC 3900 - Social Theory

Public Law Minor

A minor in Public Law offers an opportunity for interdisciplinary study. Required are POLS 4100 - Constitutional Law: Institutional Powers, POLS 4110 - Constitutional Law: Civil Liberties & Rights, POLS 4840 - Seminar in Public Law, and 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 3 hours at the 3000-level or above.

Approved Public Law Minor courses

POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
POLS 3100 - Politics and the Judicial Process

POLS 4090 - Anglo-American Jurisprudence
POLS 4160 - Legal Philosophy
POLS 4710 - Topics in _____ (dept. approval required) (Max. 6)
AGEC 3400 - Agricultural Law
COJO 4500 - Mass Communication Law
CRMJ 2210 - Criminal Law
CRMJ 3110 - Criminal Courts & Processes
CRMJ 4140 - Criminal Legal Procedure
CRMJ 4350 / SOC 4350 - Sociology of Law
CRMJ 4540 / WMST 4540 - Women, Crime, and Law
CRMJ 4730 / PSYC 4730 - Psychology and Law
HIST 4515 - American Legal History
MGT 1040 - Legal Environment of Business

Teacher Education

The teacher certification program in Secondary Social Studies Education, with a concurrent major in Political Science is available through the College of Education. A minimum 2.500 UW grade point average and a 2.500 grade point average in Political Science and Social Studies content are required to change majors. Further information may be found under the College of Education section in this Catalog.

Major or Minor in Environment and Natural Resources

The Haub School of Environment and Natural Resources (ENR) offers a second major or minor for students interested in interdisciplinary training in the policy, legal, economic, scientific, ethical, and other perspectives associated with ENR challenges. The Haub School uses problem-based learning and interdisciplinary team teaching. Students of all disciplines are welcome to take classes in ENR or add ENR to their degree program. Contact the Haub School at (307) 766-5080, haub.school@uwo.edu, or www.uwo.edu/haub.

Graduate Study

The master of arts and the master of public administration are offered by the School of Politics, Public Affairs, and International Studies. The school's mission is to give graduate students an understanding of the theories and methods necessary for success in (1) research or in post-baccalaureate study in any of the subfields in political science, (2) high school teaching in social science, or (3) careers in policy analysis or public administration in local, state, or federal government, or international governmental, non-profit, or non-governmental organizations. Our graduate students have progressed to senior positions in government, the U.S. Foreign Service, and international organizations; they have pursued rewarding careers in education and the private sector; and they have advanced to Ph.D. programs in political science and related fields.

Program Specific Admission Requirements

Master of Arts in Political Science

Admission is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.0 GPA. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

Master of Public Administration (M.P.A.)

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI). Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

Program Specific Degree Requirements

Master's Programs

Master of Arts in Political Science, Plan A (thesis)

At least 30 hours of graduate credit, to include:

POLS 5510. Public Policy and Program Management.

POLS 5680. Research Methods for Political Science.

POLS 5684. Empirical Analysis for Public Administration.

POLS 5810. Seminar in Political Philosophy.

At least 6 additional hours of coursework in political science.

A maximum of 9 hours of coursework in disciplines other than political science.

A minimum of 4 hours thesis research.

A master's thesis demonstrating independent research, written under the supervision of the major professor.

An oral examination conducted by the graduate committee covering all coursework and the thesis.

No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.

Students must maintain a graduate GPA of 3.000.

Master of Arts in Political Science, Plan B (non-thesis)

At least 30 hours of graduate credit, to include:

POLS 5510. Public Policy and Program Management.

POLS 5680. Research Methods for Political Science.

POLS 5684. Empirical Analysis for Public Administration.

POLS 5810. Seminar in Political Philosophy.

At least 6 additional hours of coursework in political science.

A maximum of 12 hours of coursework in disciplines other than political science.

Plan B paper that reflects the quality but not scope of a master's thesis, written under the supervision of the major professor.

An oral examination conducted by the graduate committee covering all coursework and the Plan B paper.

No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.

Students must maintain a graduate GPA of 3.000.

Master of Public Administration Plan B (non-thesis)

Thirty-nine hours of graduate credit, to include:

21 hours of core credit,
6 hours of option-core credit,
12 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits. Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion. Students must maintain a graduate GPA of 3.000.

Master of Public Administration/Juris Doctor

See the M.P.A. Director and/or the College of Law for information. Students must be accepted to both programs.

Department of Psychology

135 Biological Sciences Building,
(307) 766-6303
FAX: (307) 766-2926
Web site: www.uwyo.edu/psychology
Department Chair: Sean McCrea

Professors:

KAREN BARTSCH ESTES, B.S. Colorado State University 1981; M.A. Oxford University 1983; Ph.D. University of Michigan 1988; Professor of Psychology 2007, 1992.

MATTHEW J. GRAY, B.A. Creighton University 1993; M.S. Drake University 1995; Ph.D. University of Mississippi 2000; Professor of Psychology 2014, 2002.

CYNTHIA M. HARTUNG, B.S. University of Wisconsin-Madison 1990; M.A. University of Kentucky 1993; Ph.D. 1998; Professor of Psychology 2019, 2007.

SEAN M. McCREA, B.A. Bucknell University 1996; Ph.D. Indiana University 2002; Professor of Psychology 2019, 2009.

CHRISTINE L. McKIBBIN, B.S. Michigan State University 1991; M.S. University of North Texas 1994; Ph.D. 1997; Professor of Psychology 2019, 2007.

NARINA NUÑEZ, B.A. State University of New York at Cortland 1980; M.S. 1984; Ph.D. Cornell University 1987; Professor of Psychology 2000, 1987.

CAROLYN M. PEPPER, B.S. Western Michigan University 1989; M.A. State University of New York at Stony Brook 1992; Ph.D. 1995; Professor of Psychology 2011, 2002.

BENJAMIN M. WILKOWSKI, B.A. Ohio University 2002; M.S. North Dakota State University 2005; Ph.D. 2008; Professor of Psychology 2020, 2008.

Associate Professors:

JOSHUA D. CLAPP, B.A. University of Wyoming 2003; M.A. State University of New York at Buffalo 2008; Ph.D. 2012; Associate Professor of Psychology 2018, 2012.

KYLE P. De YOUNG, B.S. University of Iowa 2004; M.A. State University of New York at Albany 2008; Ph.D. 2011; Associate Professor of Psychology 2020, 2016.

ALISON R. LOOBY, B.A. University of California-San Diego 2002; M.A. State University of New York at Albany 2007; Ph.D. 2011; Associate Professor of Psychology 2020, 2016.

MEREDITH E. MINEAR, B.S. University of Illinois at Urbana-Champaign 1994; Ph.D. University of Michigan 2004; Associate Professor of Psychology 2019, 2013.

Assistant Professor:

KAYLA A. BURD, B.A. Hofstra University 2010; M.A. Cornell University 2016; Ph.D. 2018; Assistant Professor of Psychology 2020.

CHRISTINA MCDONNELL, B.A. University of Notre Dame 2018; M.A. University of Notre Dame 2014; Ph.D. University of Notre Dame 2018; Assistant Professor of Psychology 2021.

KASEY STANTON, B.S. Montana State University 2012; M.A. University of Notre Dame 2014; Ph.D. University of Notre Dame 2018; Assistant Professor of Psychology 2021.

ANNE STEVENS, B.A. Davidson College 2007, M.A. Appalachian State University 2014; Ph.D. University of Wyoming 2020; Clinical Assistant Professor of Psychology 2021.

Academic Professional Lecturer:

CATHERINE P. CARRICO, B.A. Austin College; Ph.D. University of Northern Colorado; Clinical Associate Professor 2020.

TARA K. CLAPP, B.A. State University of New York at Buffalo 2005; M.S. Niagara University 2010; Associate Academic Professional Lecturer in Psychology 2018, 2012.

SCOTT FRENG, B.S. Black Hills State University 1995; M.A. University of South Dakota 1998; Ph.D. University of Nebraska - Lincoln 2001; Senior Lecturer in Psychology 2013, 2003.

MARIA I. KUZNETSOVA, B.A. Syktyvkar State University-Russia 2000; M.S. University of South Carolina-Aiken 2005; Ph.D. Virginia Commonwealth University 2011; Associate Academic Professional Lecturer in Psychology 2017, 2011.

Professor Emeritus

George Blau, David Estes, Charles J. Ksir, Karen B. Nicholas

The Department of Psychology offers coursework at several levels:

1. Introductory courses for students in other programs who wish an elementary knowledge of psychology.

2. Courses supportive of work in other majors.
3. An undergraduate major that is sufficiently flexible to allow students to prepare for graduate programs in psychology, professional schools (e.g. law, medicine) or for employment after graduation.
4. Graduate course work leading to the Ph.D. in clinical psychology, social psychology, cognition/cognitive development, or psychology and law.

Facilities are available for course work and laboratory experiences in areas of psychology such as cognition, personality, social, biological psychology, cognitive development, and psychology and law.

Students who wish to increase chances of employment related to their undergraduate majors should consult an adviser concerning areas of specialization within psychology.

Students planning graduate work in psychology should consult with their faculty adviser concerning career choices and development.

Learning Outcomes

We expect that our Psychology graduating students will have:

1. a basic knowledge of psychology and related fields.
2. the ability to evaluate the assumptions, purposes, methods, and results of psychological research and scholarship.
3. skills in teamwork, leadership, writing, speaking and listening, especially concerning psychology-related topics.

Credit by Examination

Credit by examination will be allowed only for PSYC 1000. The examination accepted is the College Level Examination Program (CLEP); the passing score is 50.

Advanced Placement

The psychology department will accept a score of 4 on the AP exam for credit in PSYC 1000, effective Fall 2015.

Undergraduate Major

A major requires a minimum of 33 semester hours and may not exceed 60 hours in psychology. Of these, 18 hours must be at the 3000 level or above. These upper-division courses must also be taken from at least two different members of the psychology department faculty listed in this *Catalog*.

Students must complete the following courses:

PSYC 1000 General Psychology

PSYC 2000 Research Psychological Methods

Four of five cores:

Biological,

PSYC 2210 Drugs and Behavior **or** PSYC 2080 Biological Psychology

Developmental,

PSYC 2300 Developmental Psychology

Clinical,

PSYC 2340 Abnormal Psychology

Social,

PSYC 2380 Social Psychology

Cognitive,

PSYC 3120 Cognitive Psychology

Additionally **one** of the following restricted enrollment (seminar or writing intensive) courses is required: PSYC 4040, 4150, 4250, 4320, 4350, 4380, 4390, 4400, 4740, 4860.

Also required are 6 hours of anthropology, communication/journalism, criminal justice, economics, political science, or sociology; LIFE 1003 or 1010; and STAT 2050 or 2070.

One approved 3-4 credit hour STEM course: CHEM 1000, CHEM 1020, COSC 1010, COSC 1100, KIN/ZOO 2040, KIN/ ZOO 2041, LIFE 2002, LIFE 2022, LIFE 2023, LIFE 2050, MATH 1050, MATH 1405, MATH 2200, MICR/MOLB 2021, PHYS 1050, PHYS 1110, STAT 2000, STAT 3050, or ZOO 3600.

Students who have an established UW GPA and who wish to change their major to Psychology, or to add Psychology as a major, will be required to have a UW GPA of at least 2.500.

For graduation, students must receive a C or better grade in all courses taken to satisfy department requirements.

Psychology courses taken 15 or more years ago will not be used to satisfy degree requirements.

Undergraduate Minors

The Department of Psychology offer two undergraduate minors: psychology and aging studies.

Psychology

A minor in psychology requires 18 semester hours in psychology. These must include PSYC 1000 or equivalent and 9 hours at the 3000- level or above. A grade of C or better is required in all minor courses.

Students seeking a minor must have 12 hours exclusive to the minor and not used in the major.

Aging Studies

A minor in aging studies requires 18 credit hours. These must include the following:

Core Courses

NURS 2240, FCSC 2110, HLSC 4985

Elective Courses - 9 credits

6 credits must be outside student major

Academic Standards

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

Background Check

Students seeking the minor in Aging Studies will be required to obtain a background check as specified by College of Health Sciences policy. Please contact us for specific information.

Program Plan

Complete the Program Plan of Study with both your major academic advisor and your minor advisor.

Graduate Study

The Department of Psychology offers the doctor of philosophy in psychology with programs in clinical (APA accredited) psychology, social psychology, cognition/ cognitive development, and psychology and law.

Program Specific Admission Requirements

The deadline for receipt of all application materials is December 1.

We only admit students one time per year. Our graduate students begin their programs of study in the fall semester.

Although our graduate programs technically consist of separate master's and doctoral degree components, only students who are applying for, and who expect to complete, the doctoral program are considered for admission. That is, we do not offer a terminal master's degree.

Application materials include the application, one to two page statement of purpose, undergraduate and graduate (if applicable) transcripts, curriculum vitae, and three letters of recommendation. An application fee of \$50 is required.

Applications are evaluated based on the applicants' academic qualifications (e.g., undergraduate GPA, graduate GPA if applicable, course specific grades) and stated research and (if applicable) clinical interests. Particular attention is paid to the goodness of fit between the applicant's expressed research/clinical interests and the particular strengths and offerings of our program.

Our program does not employ a set of formal "cut-offs" with regard to any of the quantitative application elements (e.g., undergraduate/graduate GPA). Often a strong record in one area may make up for a weakness in another area. Applicants interested in information on the qualifications of admitted students should consult the student summary data (www.uwyo.edu/psychology).

Program Specific Graduate Assistantships

Applicants are considered for graduate assistantships at the time of admission. Graduate students typically receive some departmental financial support for the first four years.

Program Specific Degree Requirements

Master's Programs Plan A (thesis)

In addition to the general requirements specified in this Catalog, the following are required: (1) successful completion and oral defense of a thesis; (2) PSYC 5060. Statistical Methods in Psychology - 3 hours or STAT 5050. Statistical Methods in Biological Science - 3 hours; PSYC 5300. Applied Multivariate Analysis - 3 hours or STAT 5055. Statistical Methods for Biologists II - 3 hours; PSYC 5520. Research Design in Psychology - 3 hours; (3) at least 9 hours in 5000-level courses exclusive of those listed above and exclusive of research and thesis research credit.

A minimum of 30 semester hours is required (26 coursework hours and 4 thesis hours).

Doctoral Programs

Clinical Psychology

Students complete a four-year, on-campus sequence of required courses covering core areas of psychology and clinical competency. In addition, the following are required: successful completion of a thesis, a preliminary comprehensive examination, a dissertation, two summer clerkships, and a full year APA accredited internship.

Social Psychology, Cognition/Cognitive Development, or Psychology and Law

Students complete course requirements in topics designated as core areas of psychology, a preliminary comprehensive examination, and a research-based dissertation.

Department of Theatre and Dance

2099 Buchanan Center for the
Performing Arts, (307) 766-2199

Web site: uwyo.edu/thd/

Department Head: **Margaret Wilson**

Professors:

CECILIA ARAGÓN, B.S. McMurry University 1991; M.A. University of New Mexico 1996; Ph.D. Arizona State University 2003; Professor of Theatre and Dance 2017, 2005.

MARGARET WILSON, B.A. University of Wyoming 1981; M.S. 1987; Ph.D. Texas Woman's University 2007; Professor of Theatre and Dance 2016, 2005.

Associate Professor:

PATRICK KONESKO, B.A. Saginaw Valley University 2008; M.A. Bowling Green State University 2009; Ph.D. 2013; Assistant Professor of Theatre and Dance 2015, 2021.

Assistant Professors:

CATHERINE FOLDENAUER, B.S. University of California, Davis 2006; M.F.A. California Institute of the Arts 2021; Assistant Professor of Theatre and Dance 2020.

SCOTT TEDMON-JONES, B.F.A. University of Wyoming 2001; M.F.A. Carnegie Mellon University 2010; Assistant Professor of Theatre and Dance 2018.

Assistant Lecturers:

JASON BANKS, B.F.A. University of Florida 2004; M.F.A. The Ohio State University 2007; Assistant Lecturer FTRC 2020.

ANDREW LIA, B.A. Augustana College 2009; M.F.A. California Institute of the Arts 2013; Assistant Lecturer FTRC 2020.

Adjunct Professor:

Neil F. Humphrey

Emeritus Professors:

Rebecca Hilliker, Patricia Tate, Ron Steger, Larry Hazlett, Leroy Hodgson

Degrees Offered

The Department of Theatre and Dance offers curricula leading to the B.A. degree and the Bachelor of Fine Arts and courses which fulfill a part of University Studies and various colleges' requirements, including the College of Arts and Sciences.

Curricula

Students may not take a course for S/U credit to satisfy course requirements in the major. This does not apply to courses offered for S/U only. Requirements for students majoring in the areas of the department are indicated below.

Theatre

The study of theatre provides students with a broad understanding of the art of theatre in a liberal arts college. The study of theatre is considered to provide a basis for more specialized theatre study in a graduate or professional school. The liberal arts education in theatre together with extensive experience in the production program also provides the foundation for a professional career in theatre, motion pictures, or television drama for those individuals with special desires and abilities. Secondary teaching certification in theatre can be obtained through this program of study.

Dance

The dance concentration within the Department of Theatre and Dance is designed to provide students with a broad foundation in the humanities and specific emphasis in performance and production aspects of dance. Students pursuing this course of study will have opportunities to attain technical competency in ballet and/or modern dance, to perform in yearly dance productions, to obtain practical experience in the fundamentals of teaching dance and to gain experience in technical theatre as an aid to dance production. The program seeks to provide a comprehensive view of dance as an artistically expressive medium, as well as a creative and recreational tool to human expression.

Students completing this program will qualify for more advanced private instruction as well as advanced academic instruction.

All dance students are matriculated into the BA degree. Students wishing to apply for the BFA in Dance Performance or BFA in Dance Science do so the second semester of their freshman year.

Students must receive a C or better in all courses designated THEA to satisfy department degree requirements. A student's transfer courses in Theatre and Dance must also reflect a C or better to be accepted for credit. A grade of C- does not meet the requirement.

Outcomes:

Our goal is to nurture artists and scholars within aesthetic, social, critical, historical and contemporary performance and dance idioms, who appreciate cultural literacy and respect diversity, who think critically, who master discipline-specific performance and production skills, and who foster knowledge and make compelling artistic choice on stage.

The Theatre and Dance Department expects that upon graduation all students will be able to:

- Demonstrate or detail the basic production process and make an informed assessment of quality in all areas of theatre and dance,
- Honor and represent historical, contemporary, and cultural diversity in academic and performance settings,
- Articulate the intersection of their personal, aesthetic, and social/political ideas in relation to a particular play, performance work or production,
- Develop collaborative skills, communicate effectively and function in a variety of contexts with self-knowledge, resilience, and resourcefulness, both in performance and in creation,
- Understand the demands and expectations of the profession,
- Synthesize and utilize knowledge from courses in the breadth of the discipline,
- Recognize and be familiar with postgraduate training opportunities in professional theatre, dance and academia.

Scholarships

A number of scholarships are available to interested majors in theatre or within the dance option. The University Theatre also maintains a summer company. Applications should be sent to the Department of Theatre and Dance, Dept. 3951, 1000 E. University Ave., Laramie, WY 82071.

Departmental Activities/ Organizations

The department sponsors one of the largest all-student activities on campus. Nearly 150 students take part in its productions each season. All students are eligible to participate in its productions through auditions.

Productions are mounted in the Buchanan Center for the Performing Arts which includes a flexible proscenium theatre, thrust theatre and experimental-studio theatre complete with scenic and costume support facilities.

Auditions, open to all university students, are publicly announced for each production. Qualified students may receive credit in performance and production areas (THEA 2050).

The Wyoming Summer Theatre presents a season of plays of varying types during the summer session. Theatre majors and minors are urged to spend at least one summer working with this group.

Graduate Study

At present, no program for graduate degrees in theatre and dance is offered.

Department of Zoology and Physiology

114 Aven Nelson

(307) 766-4207

Web site: www.uwyo.edu/Zoology

Department Head: Robert S. Seville

Professors:

MERAV BEN-DAVID, B.S. Tel Aviv University 1984; M.S. 1988; Ph.D. University of Alaska 1996; Professor of Zoology and Physiology 2010, 2000.

CRAIG W. BENKMAN, B.A. University of California at Berkeley 1978; M.S. Northern Arizona State University 1981; Ph.D. State University of New York at Albany 1985; Robert Berry Professor of Ecology, Professor of Zoology and Physiology 2004.

MICHAEL E. DILLON, B.S. University of Texas, Austin 1998; Ph.D. University of Washington 2005; Professor of Zoology and Physiology 2021, 2009.

JACOB R. GOHEEN, B.S. Kansas State University 1998; M.S. Purdue University 2002; Ph.D. University of New Mexico 2006; Professor of Zoology and Physiology 2020, 2010.

MATTHEW J. KAUFFMAN, B.A. University of Oregon 1992; Ph.D. University of California, Santa Cruz 2003; Professor of Zoology and Physiology 2021, 2006.

JONATHAN F. PRATHER, B.S. University of Virginia 1995; Ph.D. Emory University 2001; Associate Professor of Zoology and Physiology 2021, 2009.

FRANK J. RAHEL, B.A. Kenyon College 1974; M.S. University of Wisconsin 1977; Ph.D. 1982; Professor of Zoology and Physiology 1998, 1985.

ROBERT S. SEVILLE, B.S. San Diego State University 1981; M.S. University of Wyoming 1987; Ph.D. 1992; Professor of Zoology and Physiology 2011, 1995.

QIAN-QUAN SUN, B.Sc. Shandong Normal University 1990; M.S. 1993; Ph.D. St. Andrews University 1998; Professor of Zoology and Physiology 2016, 2004.

Associate Professors:

MATTHEW D. CARLING, B.S. University of Michigan 1997; M.S. University of Idaho 2002; Ph.D. Louisiana State University 2008; Associate Professor of Zoology and Physiology 2017, 2011.

ANNA D. CHALFOUN, B.A. Smith College 1995; M.S. University of Missouri-Columbia 2000; Ph.D. University of Montana-Missoula 2006; Associate Professor of Zoology and Physiology 2016, 2011.

BRIAN D. CHERRINGTON, B.A. Washington University 1996; M.S. Colorado State University 2001; Ph.D. 2005; Associate Professor of Zoology and Physiology 2017, 2011.

AMY C. KRIST, B.A. State University of New York at Potsdam 1991; Ph.D. Indiana University 1998; Associate Professor of Zoology and Physiology 2017, 2004.

AMY M. NAVRATIL, B.S. Colorado State University 1999; Ph.D. 2005; Associate Professor of Zoology and Physiology 2019, 2011.

KARA PRATT, B.A.S. University of Delaware 1989; Ph.D. Brandeis University 2004; Associate Professor of Zoology and Physiology 2017, 2011.

ANNIKA W. WALTERS, B.A. Princeton University 2002; M.S. Yale University 2006; Ph.D. 2009; Associate Professor of Zoology and Physiology 2019, 2011.

Assistant Professors:

NICOLE L. BEDFORD, B.S. University of British Columbia 2010; Ph.D. Harvard University 2019; Assistant Professor of Zoology and Physiology 2021.

RILEY FEHR BERNARD, B.Sc. Linfield College 2007; M.Sc. University of Hawaii Hilo 2011; Ph.D. University of Tennessee 2015; Assistant Professor of Zoology and Physiology, 2020.

SARAH M. COLLINS, B.A. Lewis & Clark College 2007; Ph.D. Cornell University 2015; Assistant Professor of Zoology and Physiology 2018.

FETZER, WILLIAM WARREN, B.S. University of Wisconsin-Madison 2005; M.S. Cornell University 2009; Ph.D. 2013. Assistant Professor of Zoology and Physiology 2020.

YUN LI, B.S. University of Science and Technology of China 1996; M.S. 1998; Ph.D. University of Texas Health Center at San Antonio 2003; Assistant Professor of Zoology and Physiology 2018.

JEROD A. MERKLE, B.S. University of Arizona 2006; M.S. University of Montana 2011; Ph.D. Université Laval 2014; Assistant Professor of Zoology and Physiology 2018.

ADAM C. NELSON, B.S. University of Montana 2001; Ph.D. University of Utah 2011; Assistant Professor of Zoology and Physiology 2021.

COREY E. TARWATER, B.S. University of California, Davis 1999; M.S. University of Illinois, Urbana-Champaign 2006; Ph.D. 2010; Assistant Professor of Zoology and Physiology 2015.

W.D. (TREY) TODD, B.S. Baylor University 2005; M.A. University of Iowa 2009; Ph.D. 2012; Assistant Professor of Zoology and Physiology 2019.

Assistant Professor of Practice:

BETHANN G. MERKLE, B.A. University of Montana 2007; M.F.A. University of Wyoming 2017; Assistant Professor of Practice 2021.

Senior Academic Professional Research Scientist:

ZHAOJIE ZHANG, B.S. Shandong University 1985; M.S. 1988; Ph.D. University of Oklahoma 1999; Director, Microscopy Core Facility, University of Wyoming 2001; Senior Research Scientist in Zoology and Physiology 2012.

Assistant Academic Professional Research Scientist:

JONATHAN PATRICK KELLEY, A.B. Harvard 2001; Ph.D. University of California, Davis 2012; Assistant Research Scientist in Zoology and Physiology 2018.

Professors Emeritus:

Harold L. Bergman, Steven W. Buskirk, Francis W. Flynn, Zoltan M. Fuzessery, Robert P. George, William A. Gern, Robert O. Hall, Henry J. Harlow, Wayne A. Hubert, Robert M. Kitchin, J.A. Lillegraven, Frederick G. Lindzey, James R. Lovvorn, Carlos Martinez del Rio, David B. McDonald, Graham Mitchell, James D. Rose, Joan Smith-Sonneborn

Academic Professional Lecturer Emeritus:

Jane Beiswenger

Wyoming Cooperative Fish and Wildlife Research Unit Unit:

Wyoming Cooperative Fish and Wildlife Research Unit Unit Leader: Matthew W. Kauffman

Assistant Unit Leader for Fisheries: Annika W. Walters

Assistant Unit Leader for Wildlife: Anna D. Chalfoun

Department of Zoology and Physiology

The Department of Zoology and Physiology offers a variety of courses in the biological sciences that encompass many aspects of animal form, function, and biology. Whether you are interested in the intricacies of cell biology or the complexities of ecosystem functioning and whether you want to become a wildlife biologist or a physician, we offer a major that will suit your needs.

Undergraduate Degrees:

Students can choose from three undergraduate degrees: physiology, wildlife and fisheries biology and management, or zoology.

Learning Outcomes for Undergraduates

The learning outcomes that direct the teaching of the department's degrees and which we expect our graduates to have acquired are:

- Competence in basic sciences;
- Competence in the content of the specific courses that constitute the principal knowledge of the degree;
- Ability to comprehend, analyze, and interpret biological data where appropriate; and
- Ability to synthesize information from the biological literature, and communicate it effectively in writing or orally.

Undergraduate Minors:

Minors in human and animal physiology, wildlife fisheries biology management, neuroscience, and zoology are offered.

Graduate Study

The Department of Zoology and Physiology offers programs leading to the master of science and the doctor of philosophy in zoology and physiology. We also participate in graduate programs through the Neuroscience Program and the Program in Ecology.

Program Specific Admission Requirements

Admission is open to all students who meet the minimum requirements set forth in the admissions section of this *Catalog*.

Research and teaching assistantships are available for graduate students working toward the M.S. or Ph.D. degrees. Applicants can apply for this financial assistance at the time they apply for admission to graduate standing. Applications must be completed by February 15 in order to be considered for the following academic year.

Information on how to apply to the graduate program in the Department of Zoology and Physiology is detailed on our web site. Begin by identifying a faculty member in our department whose research interests are similar to yours. We will only consider an application if a faculty member has indicated a willingness to serve as the student's adviser. After finding a potential adviser, e-mail a completed departmental application form, a copy of your curriculum vitae, copies of college transcripts, and recommendation letters to him or her. Our graduate admissions committee will review all applications and make decisions on admission based on the availability of funding and a commitment from a faculty member to serve as the adviser. Students recommended for admission will then be asked to fill out an application to the University of Wyoming and pay a non-refundable application fee.

Consult the website, www.uwyo.edu/zoology, to find out about faculty research.

Learning Outcomes for M.S. Students

1. Comprehend and synthesize advanced knowledge in a specific area of biology.
2. Collect and analyze data to address a research question.
3. Summarize research findings and communicate them effectively in writing and orally.

Learning Outcomes for Doctoral Students

1. Comprehend and synthesize advanced knowledge in a specific area of biology.
2. Develop a research project which constitutes a substantial and original contribution to the field of study.
3. Summarize research findings and communicate them effectively in writing and orally.

College of Business

310 Business Building

Website: <http://business.uwyo.edu>

Rob Godby, Interim Dean

Phone: (307)766-4194 FAX: (307)766-4028

Peter M. and Paula Green Johnson Student Success Center (307) 766-8249

The College of Business prepares students for careers by providing quality education in business disciplines, creating and disseminating knowledge, and assisting in Wyoming's economic development. The College of Business expects the highest level of integrity from our administration, faculty, staff, students, and alumni.

The College of Business grew from roots established in 1899 when the UW School of Commerce was founded. While the programs offered have changed over the years, the college remains firmly committed to academic excellence and positive student experiences.

The college has three academic departments: accounting and finance; economics; and management and marketing. The college also houses the College of Business Peter M. and Paula Green Johnson Student Success Center which is instrumental in maintaining the college's link with the business world.

These units are committed to preparing all College of Business students to enter our rapidly-changing world. Successful graduates are fully prepared to compete in their chosen professions or in graduate school. More importantly, they are well-educated individuals prepared to live fulfilling lives, and to meet the challenges presented by the complex ethical, moral and cultural contexts of our times.

College of Business Learning Outcomes

The College of Business expects that its graduates:

1. Will be competent in their field of study
2. Will be effective problem solvers
3. Will be ethical
4. Will be professional
5. Will be effective communicators

AACSB Accreditation

The business degree programs offered by the College of Business are accredited by AACSB-International. AACSB standards ensure that College of Business students are provided comprehensive, high-quality, well-rounded degree programs. The "Common Body of Knowledge" and the "Advanced Business Standing" (ABS) as described on the following pages have been developed to meet the AACSB accreditation standards.

A minimum of 50% of COB courses required for the major must be taken from the degree-awarding institution.

Programs of Study

Undergraduate Degrees

BSB - Bachelors of Science in Business

BSE - Bachelors of Science in Economics

The Majors are as follows:

- Accounting, B.S. (BSB-ACCT)
- Business Economics, B.S. (BSB - CBEC)
- Entrepreneurship, B.S. (BSB - ENTR)
- Finance, B.S. (BSB - FIN)
- Management, B.S. (BSB - MGT)
- Marketing, B.S. (BSB - MKT)
- Professional Sales, B.S. (BSB - SELL)
- Economics, B.S. (BSE - ECON)

The Minors are as follows:

- Banking and Financial Services Minor
- Blockchain Minor
- Data Analytics Minor
- Economics Minor
- Entrepreneurship Minor (for nonbusiness students only)
- Hospitality Business Management Minor
- Leadership Minor
- Professional and Technical Selling Minor
- Real Estate Minor

Graduate Degrees

Master of Science

Accounting, M.S.

Economics, M.S.

Finance, M.S.

Business Administration, M.B.A.

Business Administration, Online, M.B.A.

Doctor of Philosophy

Economics, Ph.D.

Marketing, Ph.D.

Certificate Programs

Certified Financial Planning Certificate (Graduate)

Energy Business Certificate (Graduate)

Student Services

Academic Advising

All College of Business undergraduate students are advised by professional academic advisers in the College of Business Peter M. and Paula Green Johnson Student Success Center. Advising can be reached by e-mail (success@uwoyo.edu) or by phone (307-766-8249).

Career Services

The Career Services unit connects students and employers in ways that lead to meaningful experiences and job opportunities. Business students are encouraged to explore career options and grow their career readiness by completing the Pokes Professionalism Badge and engaging in multiple internships. Students also have the option to apply for local, national, and international internships starting their first year and may be able to receive credit for their work. Networking with employers is highly encouraged and offered through a series of fairs, events, and in-class projects. One-on-one assistance and workshops are also available to students for things such as: internship or job searching; resume creation, review, or targeting; and career coaching or counseling. Individual appointments may be scheduled by email (success@uwoyo.edu) or by phone, (307) 766-8249.

Student Responsibilities

College of Business students are responsible for knowing and meeting requirements for graduation. In addition to degree requirements, all College of Business students must complete the advanced business standing requirements prior to enrollment in most upper-division (3000/4000-level) College of Business courses (see Advanced Business Standing (ABS) Prerequisites section).

All students must have already completed any prerequisites listed (in addition to ABS for COB students), including having the appropriate class standing. Students not meeting the prerequisites are identified and administratively dropped from those courses each semester.

Requirements for the Bachelor of Science Degree

Candidates for the Bachelor of Science degree in the College of Business must meet university, college, and departmental requirements. Degree candidates for the B.S. degree in the College of Business also must have a minimum 2.500 cumulative University of Wyoming (UW) grade point average and a 2.500 grade point average in College of Business courses at the time of graduation. In addition, economics majors also must hold a minimum 2.500 grade point average for all economics courses. College of Business degree candidates must earn a minimum of 120 semester hours depending on major including:

I. University Studies Requirements:

All first year students who enter the University of Wyoming (UW) and students who enter a Wyoming Community College (CC) are required to meet the USP 2015 requirements for graduation. Wyoming CC students transferring to UW with an Associate of Arts or Associate of Science degree will have course work evaluated per the General Education Articulation Agreement between the University of Wyoming and Wyoming Community Colleges. Non-resident transfer students and Wyoming CC transfer students without an associate's degree will have course work evaluated on a course-by-course basis, based on all approved USP courses. Academic advisers will help students select the appropriate courses to satisfy university studies requirements. Some College of Business requirements also meet university studies requirements.

A. Basic skills (USP 2015) Hrs.

1. First-year seminar (FYS) Choose from list of approved courses, Credits: 3

2. Writing

- a. USP Communication 1 course, Credits: 3
 - b. USP Communication 2 course- Mid-level communication or 2000-4000-level communication intensive course- Choose from list of approved courses, Credits: 3
 - c. USP Communication 3 course- Upper-level communication or 3000-4000-level communication intensive course, Credits: 3
3. Physical and Natural World (PN) (Two courses required-choose from list of approved courses), Credits: 6
 4. Human Culture (H) (Two courses required-choose from list of approved courses), Credits: 6
 5. U.S. and Wyoming Constitutions (V), Credits: 3
 6. Quantitative Reasoning (Q), Credits: 3

II. Electives

The number of hours of elective credit and upper-division (3000-/4000-level) credit varies by department. Economics majors will take 48-51 hours of free electives. A maximum of 6 credit hours each at the freshman/sophomore and junior/senior-level military science courses may be applied to degrees in the College of Business.

A. Non-Business electives Hrs

1. Non-Business electives. May include MATH 1400, Credits: 3-9

B. Free electives Hrs.

1. Free electives from any college. May require upper-division (3000/4000-level) courses, with the total number of credits needed dependent on major.

Students **may not** take courses for S/U (satisfactory/unsatisfactory) credit to satisfy university studies or college requirements, course requirements in the major, or courses outside the college required by the major department curriculum.

III. Advanced Business Standing: (excludes Economics majors)

College of Business majors must satisfy the following advanced business prerequisites prior to enrolling in most upper-division (3000- /4000- level) College of Business courses:

1. Achieve junior standing by completing a minimum of 60 earned semester hours;
2. Complete 10 specific courses with a grade of C (not C-) or better in each. These ten courses are: ECON 1010 and 1020, USP Communication 1 and 2 courses, ACCT 2010 and 2020, IMGT 2400, MATH 2200 and 2205 or MATH 2350 and 2355 and STAT 2050 or 2070.
3. Achieve a cumulative UW institution grade point average or transfer grade point average of at least 2.500. Note: Transfer grades are not counted in the UW GPA (see UW Catalog http://www.uwyo.edu/registrar/university_catalog/grade.html for additional information). Transfer students who have not attended the University of Wyoming, and therefore do not have an established UW institutional/cumulative GPA, and who have completed the required ten (10)

courses with a C or better, have 60 earned credit hours, and have a 2.500 cumulative TRANSFER GPA will be awarded ABS.

IV. Common Body of Knowledge: (excludes Economics majors)

College of Business majors take a common set of courses that expose them to the basic concepts, processes and technical skills necessary to complete a well-rounded high quality business education. The common body of knowledge includes ACCT 2010, ACCT 2020, DSCI 2100, ECON 1010, ECON 1020, FIN 2100, IMGT 2400, MGT 2010, MGT 2100, MKT 2100, and MGT 4800. Grades of C (not C-) or above required.

V. Minimum requirements:

Achieve a cumulative College of Business and UW institution grade point average of at least 2.500. Complete 50% of the business credit hours from UW. Earn grades of C or above in common body of knowledge and major specific core courses. Earn a passing score on the Senior Exit Exam required for all College of Business majors.

Requirements for Non-College of Business Majors

Students in non-College of Business majors who wish to enroll in College of Business upper-division courses need not meet the advanced business standing prerequisites. However, they are required to meet individual course prerequisites listed in the University Catalog, including class standing.

Acceptance of Transfer Credit

The College of Business complies with UW policies regarding transfer credit discussed in the front section of this bulletin. The college has special course transfer arrangements with Wyoming community colleges that allow some courses taken at community colleges at the lower-division (freshman-sophomore) level to transfer for upper-division (junior) credit. Wyoming community college transfer students should contact the GJSSC for details.

Students transferring from other AACSB accredited colleges and universities will have their courses reviewed for transfer on a course-by-course basis.

The College of Business does not accept transfer credits for COB courses with equivalents at UW when the grade earned was less than a C.

Where appropriate, College of Business course equivalency will be granted for transfer courses at the 3000 and 4000 level if such coursework was completed at an AACSB or EQUIS institution only. Any coursework completed at an institution that does not meet that qualification will not be considered for upper division equivalency.

The UW College of Business is AACSB accredited and therefore follows AACSB's current guidelines* to maintain accreditation.

The primary goal of this transfer policy is to ensure coursework accepted from other institutions is comparable to coursework required by our college's degree programs and ensure that the majority of learning is completed at the institution awarding the degree while simultaneously allowing measured flexibility in acceptance of transfer credits as allowed by AACSB accreditation in support of student progress and degree completion.** For example, at the time of this policy's creation, the number of business credit hours for the College of Business's undergraduate majors is fifty-four (54) credit hours (this includes the business common body of knowledge courses). Therefore, to align with AACSB standards, a minimum of twenty-seven (27) credit hours of business coursework in the major must be earned in residence at the University of Wyoming.

In addition to the transfer policies defined in the University of Wyoming catalog, the College of Business has established the following policies in support of AACSB Standards governing the transfer of credit for equivalent business courses. Courses will be considered for transfer according to the additional criteria below. Students may transfer up to a total of twenty-seven (27) hours of business credits, either solely lower division courses or a mix of lower division and upper division courses, as follows:

- Students may transfer up to twenty-seven (27) lower division (1000/2000 level) business credits to the Common Body of Knowledge.
 - Lower division courses from regionally accredited institutions will be evaluated for equivalency and approved by the UW Office of the Registrar on an annual basis.
- Students may transfer up to nine (9) upper division (3000/4000 level) business credits according to the following guidelines:
 - Transferring upper division business credits to be included in the twenty-seven (27) credits reduces the number of lower division credits a student is able to transfer.
 - Courses from AACSB/EQUIS accredited institutions will be evaluated for equivalency and approved by the College of Business.
 - Courses from regionally accredited, non-AACSB/EQUIS institutions will be accepted as upper division elective credit in accordance with the transfer policies defined in the University of Wyoming catalog.
 - The College of Business has collaborative provisions (detailed in separate articulation agreements) that allow students from Wyoming's community colleges to transfer up to nine (9) credit hours of 2000 level coursework to satisfy up to nine (9) credit hours of 3000 level coursework that has been evaluated by the College of Business. These courses will be evaluated annually for equivalency***.

* A requirement of the accreditation process (as reflected in Standard 6 of the 2020 Business Standards) is for accredited colleges to have clear policies regarding transfer coursework.

** As noted by AACSB: "transfer credit related to business disciplines is normally limited to no more than half of the program requirements" (2020 AACSB Standards, p. 13).

*** Per college-specific articulation agreements, students may be able to transfer coursework satisfying completion of the following courses: ACCT 3070, ACCT 3230, ACCT 3240 or ACCT 3430.

Accounting, Management, and Marketing Online Programs

The College of Business offers the opportunity to pursue online degree programs in the areas of accounting, management, and/ or marketing accredited by AACSB and delivered through distance education. These online delivery programs are designed to help students maximize their flexibility in the business world.

The online accounting, management, and marketing degrees are offered almost in their entirety through the University of Wyoming, with the exception that students must have taken MATH 2350/2200 and MATH 2355/2205 through another institution as they are not offered online consistently through UW. The University of Wyoming College of Business works closely with our Wyoming community college partners to assist students in taking and transferring these math courses and other courses that align with our curriculum. Students are able to take a variety of transferable 1000 and 2000 level courses from Wyoming Community Colleges, in consultation with academic advisors, and then complete their upper division coursework from the University of Wyoming.

Students will be required to apply to UW and meet UW admissions criteria prior to enrolling in any College of Business program. Students must also attain a 2.500 GPA for graduation for both College of Business and UW courses, complete and submit an anticipated graduation date form, and must pass the Senior Exit Exam (BUSN 4990) to graduate.

To ensure you the availability of required courses in this program, enrollment into courses is managed and approved by the College of Business Peter M. and Paula Green Johnson Student Success Center.

College of Business Minors

Minors are available to on-campus students through the College of Business in the areas of banking and financial services, blockchain, data analytics, economics, entrepreneurship (not available to College of Business majors), hospitality business management, leadership, professional and technical selling, and real estate. Minors requirements may often be met by simply focusing the elective credits available in a student's major.

The minors program consists of course requirements of 15 hours of study. A minimum grade of C must be earned in each course. Certification of a successful minor program completion occurs as part of the DegreeWorks progress report, and the Office of the Registrar notes the completion of the minor on student transcripts. Minors must be approved by the Peter M. and Paula Green Johnson Student Success Center.

Students must have a minimum 2.500 cumulative UW GPA. Students must maintain a cumulative 2.500 GPA in the required College of Business courses for the minor to be awarded. Non-College of Business students must meet the individual course prerequisites listed in the catalog, although they need not meet the advanced business standing requirements. A minimum of 50% of COB courses must be taken from the degree-awarding institution.

Cooperative Undergraduate Programs

The Concentration in Environment and Natural Resources

College of Business majors may earn a cross major in Environment and Natural Resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness of environmental consequences of decisions have become major issues for business. Exposure to ideas, skills and sensibilities in these areas is critical to future business people. Students majoring in economics may elect an environment and natural resources concentration in which an economics approach to problem solving is stressed. For more information call the ENR office at (307) 766-5089.

Graduate Study

The College of Business is comprised of three academic departments: accounting and finance, economics, and management and marketing. The faculty of these departments cooperate in the presentation of graduate work leading to the following degrees:

Master of Business Administration

Master of Science in Accounting

Master of Science in Economics

Master of Science in Finance

Doctor of Philosophy in Economics

Doctor of Philosophy in Marketing

The College of Business faculty is firmly committed to the excellence of its graduate programs. The graduate programs in the College of Business are accredited by AACSB International. The three academic departments coordinate course offerings to support all of the graduate degree programs; the M.B.A. program in particular is a college-wide effort.

Cooperative Graduate Programs

The Concentration in Environment and Natural Resources

College of Business graduate students may earn an interdisciplinary minor in environment and natural resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness of environmental consequences of decisions have become major issues for all areas of business and economics. The School of Environment and Natural Resources is designed to move beyond the strictly disciplinary design and management of their long-term solutions. The school seeks to attract outstanding graduate students from a variety of disciplines, who are eager to pursue careers that engage other professionals, policymakers, and the public in finding innovative ways to resolve complex environmental and natural resource issues. To pursue a minor in ENR, students must first be admitted to another master's or doctoral degree program offered at the University of Wyoming. For more information call the ENR office at (307) 766-5080.

Accounting Major

The basic objectives of the accounting program are twofold: to provide students who do not intend to major in accounting with the basis for understanding the role accounting plays in business today and to provide those students who desire to major in accounting with the educational background necessary for lifelong learning and a rewarding career in the accounting profession. The curriculum offered by the department attempts to blend the conceptual with the practical. Exposure to the underlying conceptual framework of accounting provides a basis for dealing with emerging accounting issues, while examination of technical pronouncements enables students to gain insight into practical issues encountered in an accounting environment.

Accounting majors may enter the professional world of accounting from a variety of directions. Choices available in the form of elective courses enable students to chart a course that leads them toward public accounting, private accounting, governmental or not-for-profit accounting, as well as other specialties that rely on a strong accounting background. Those students seeking professional certification, such as the CPA, CMA or CIA, are able to satisfy requirements to sit for these professional examinations by completing the undergraduate accounting degree.

All accounting majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All accounting courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the College of Business Peter M. and Paula Green Johnson Student Success Center in the College of Business Building.

Please Note:

Students who anticipate taking the CPA examination should be aware of the Wyoming statute governing eligibility to sit for the exam. Please see the state board's web site for information: cpaboard.state.wy.us. The current combined curricula (B.S. and M.S.) enable students to satisfy the educational requirements to sit for the CPA exam in Wyoming and other jurisdictions.

Graduate Study

Accounting is an integral part of the College of Business degree programs. The department offers courses in support of college graduate degree programs, as well as a master of science in accounting (MS in Accounting) degree. The MS in Accounting degree was developed in response to emerging needs of the accounting profession. Those students who wish to become professional accountants, whether that be in a corporate setting, a not-for-profit setting, or public accounting, will find the MS in Accounting degree to be one that enables them to develop both the personal and professional skills needed to enjoy a productive career.

The MS in Accounting program satisfies the Wyoming requirements for individuals to take the Certified Public Accountant (CPA) exam and it further develops students' professional skills. The MS in Accounting program focuses on the two main areas of development: 1) advanced accounting and business education, and 2) professional skills development-including written, oral, interpersonal communication, computer applications, critical thinking, and adaptability.

The MS in Accounting degree is designed for students who have completed an undergraduate degree in accounting in the United States. However, it is possible to be admitted to the program once deficiency courses are successfully completed. Those holding a bachelor's degree from within the U.S., but not in accounting, and international applicants can still apply for admission once the deficiency courses are successfully completed. We do not provisionally or conditionally admit students to our program.

Program Specific Admission Requirements

Admission to the Master of Science in Accounting program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U. S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.

- GRE or GMAT optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Office of Admissions at 1000 E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the department Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

•Interview.

You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

•Interview.

You will be contacted by our program office to participate in a virtual interview that can be

completed at your convenience. • Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

NOTE: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming MS in Accounting program does not personally or conditionally admit students.

*Please refer to the AICPA Site (www.aicpa.org) to check on the requirements you will need to fulfill in your state if you plan to sit for the CPA Exam.

Additional requirements for International Applicants:

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 540 on the paper-based test (TOEFL PBT) or a score of 76 on the internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 6.5. An applicant whose native language is English and is a citizen of one of the following countries or who has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency. Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia, Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.

- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions). (not applicable for distance education students).

- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

Additionally, to be admitted to the Master of Science in Accounting program, a student demonstrate competency in the following subject matters/courses:

- ACCT 3230 Intermediate I & ACCT 3430 Intermediate II (External Financial Reporting)
- ACCT 3240 Cost I (Advanced Managerial Accounting)
- ACCT 3070 Tax I (Tax Accounting, must cover US income taxation for individuals)
- ACCT 4060 Audit I (must cover US Generally Accepted Auditing Standards and/or International Standards on Auditing)

*These courses may be completed through any regionally accredited university or college. A minimum grade of B (a 3.0 on a 4.0 scale) is considered evidence of proficiency.

*Evidence of proficiency in these areas can also be demonstrated by relevant professional experience on a case-by-case basis. Please contact the program office for additional information.

Each candidate who applies to the University of Wyoming Master of Science in Accounting or Finance program is evaluated individually by our faculty and program directors. We consider each part of the application in a holistic assessment, including the candidate's reasons for pursuing the degree, interview responses, prior academic performance, work experience, and letters of recommendation.

Students are admitted on a rolling basis with applications evaluated as soon as they are completed. It typically takes no more than two weeks to receive an admission decision.

Application Deadlines

Fall Admission

- Block 1 Final Deadline: June 30

- Block 2 Final Deadline: October 1
- Priority Deadline: May 1

Spring Admission

- Block 1 Final Deadline: December 1
- Block 2 Final Deadline: February 1
- Priority Deadline: October 1

Summer Admission

- Final Deadline: April 1
- Priority Deadline: February 1

International applicants: Please be advised that there are additional university requirements that may take additional processing time - you are encouraged to apply prior to the application deadline if possible to ensure that if admitted, all required documentation can be provided prior to the term of entry.

Program Specific Degree Requirements

Master of Science in Accounting

The objectives of the master of science in accounting degree program are:

- To provide students with an advanced understanding of the field of accounting,
- To provide students with specific advanced knowledge of the sub-topics within accounting,
- To provide students with professional skills that will enable them to enjoy productive and rewarding careers in accounting and other accounting-related areas.

The program consists of a minimum of 30 semester hours of graduate coursework. Students must complete coursework in accounting and elective business and/or non-business areas. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level non-accounting courses (approximately six hours). Non-accounting courses should be selected in consultation with the student's graduate adviser. Non-accounting courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director, prior to the first day of such classes.

Students must take these 5 core accounting courses (minimum 15 credit hours):

ACCT 5030. Advanced Financial Accounting

ACCT 5040. Seminar in Managerial Accounting

ACCT 5060. Auditing II

ACCT 5070 Tax II Accounting Elective

ACCT 5065 Fraud Examination or ACCT 5066 Seminar on Mangement Fraud

A maximum of six hours may come from 4000- level courses offered in the College of Business or in other colleges at the University of Wyoming.

NOTE: ACCT 4010, 4020, 4050, 4060, 4100, 4600, 4900, and 5000 are not applicable for M.S. accounting students' programs of study.

The student must complete the required coursework (both graduate and prerequisite) with a minimum GPA of 3.000 (on a 4.000 scale).

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid dismissal.

Students must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Finance Major

Modern business is characterized by its emphasis upon finance. The application of sound financial management principles often will be the difference between success and failure in business.

Courses prescribed for those who wish to major in finance are designed to provide a background for financial management of business concerns and, if students desire, to specialize in bank management, corporation finances and investment management. Since financial policies of business enterprises are subject to economic principles which make all businesses financially interdependent and sensitive to disturbances in the economic structure, students in this field should study the economic, as well as the technical, administrative aspects of finance and accounting. Prescribed work in this area attempts to emphasize all three phases of the subject.

All finance majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All finance courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the Academic Advising unit of the GJSSC of the College of Business Building.

Graduate Study

The Master of Finance program will allow students to obtain advanced training built on the foundations of principles and practices of modern finance. The MS in Finance is a rigorous, yet practical program that encompasses the fundamentals as well as cutting-edge topics in investment analysis, portfolio management, financial modeling, risk management, and fixed income securities. The MS in Finance program aims to make you well prepared to evaluate and react to change with confidence and to develop effective solutions to meet the needs of markets and industries.

The objectives of the master of science in finance are:

To provide students with an advanced understanding of the field of finance.

To provide students with specific advanced knowledge of the subtopics within finance.

To provide students with professional skills that will enable them to enjoy productive and rewarding careers in finance and other finance-related areas.

Program Specific Admission Requirements

Admission to the Master of Science in Finance program generally requires:

- Completed University of Wyoming Graduate Admissions Application and nonrefundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.000 scale.

- GRE/GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Office of Admissions Office of Admissions Office at 1000 E.University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming MS in Finance program does not provisionally or conditionally admit students.

Additional Requirements for International Applicants:

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 540 on the paper-based test (TOEFL PBT) or a score of 76 on the internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 6.5. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions). (not applicable for distance education students)
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

Prerequisites

No prerequisite courses will be required if you have completed a business or STEM bachelors or masters degree from a regionally accredited college or university with the minimum preferred 3.0 GPA (based on a 4.0 scale).

Applicants without a business or STEM related undergraduate or graduate degree with a minimum 3.0 GPA must provide evidence of proficiency in the following areas:

Business Math and Statistics

Financial Management

Application Deadlines

Each candidate who applies to the University of Wyoming Master of Science in Accounting or Finance program is evaluated individually by our faculty and program directors. We consider each part of the application in a holistic assessment, including the candidate's reasons for pursuing the degree, interview responses, prior academic performance, work experience, and letters of recommendation.

Students are admitted on a rolling basis with applications evaluated as soon as they are completed. It typically takes no more than two weeks to receive an admission decision.

Non-finance courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director, prior to the first day of such class.

General Finance Track

- FIN 5310: Investment Management (3)
- FIN 5400: Financial Modeling (3)
- 15 credit hours Finance electives + 9 credit hours other business electives (maximum 6 credit hours can be 4000 level).

MS in Finance (CFP Track) Core - Required Courses

- FIN 5310: Investment Management (3)
- FIN 5070: Tax Planning for Financial Planners (3)
- FIN 5720: Retirement/ Insurance Planning (3)
- FIN 5750: Fundamentals of Financial Planning (3)
- FIN 5780: Estate Planning (3)
- FIN 5800: CFP Capstone (3)
- FIN 5400: Financial Modeling (3)
- Finance Electives (9ch) (maximum 6 credit hours can be 4000 level).

The student must complete the required coursework with a minimum GPA of 3.000 (on a 4.000 scale).

Student must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student will be immediately dismissed from the program.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid dismissal.

Department of Economics

260W Business Building, (307) 766-2175

Web site: www.uwyo.edu/economics

Department Chairman: David Aadland

Wyoming Excellence Chair in Conservation Economics:

H. JO ALBERS, B.S. Duke University 1985; M.E.S. Yale University 1987; Ph.D. University of California at Berkeley 1993; Professor of Economics 2014.

Wyoming Excellence Chair in Economics and McMurry Fellow:

DAVID C. FINNOFF, B.S. University of Wyoming 1994; Ph.D. 2001; Professor of Economics 2018, 2004.

H.A. (Dave) True, Jr. Chair in Petroleum and Natural Gas Economics:

CHARLES F. MASON, A.B. University of California 1977; Ph.D. 1983; Professor of Economics 1994, 1982.

Stroock Chair of Natural Resource and Environmental Economics:

JASON F. SHOGREN, B.A. University of Minnesota-Duluth 1980; Ph.D. University of Wyoming 1986; Professor of Economics 1995.

John S. Bugas Chair in Economics:

TODD CHERRY, B.S.B.A. Appalachian State University 1992; M.A. University of North Carolina Greensboro 1995; Ph.D. University of Wyoming, 1999. Professor of Economics, Graduate Director.

Professors:

TIMOTHY J. CONSIDINE, B.A. Loyola University 1975; M.S. Purdue University 1977; Ph.D. Cornell University 1981; Professor of Economics 2008.

Associate Professors:

DAVID M. AADLAND, B.A. Augustana College 1991; M.S. University of Oregon 1996; Ph.D. 1997; Department Chairman, 2018; Associate Professor of Economics 2005, 2003.

ROBERT GODBY, B.S. Trent University 1990; M.A. University of Guelph 1992; Ph.D. McMaster University 1997; Center for Energy Economics and Public Policy Director, and Associate Professor of Economics 2003, 1997.

THORSTEN M. JANUS, B.A. University of Copenhagen 2000; M.A. University of California at Santa Cruz 2003; Ph.D. 2006; Associate Professor of Economics 2012.

STEPHEN NEWBOLD, B.S. University of California, Davis 1995; M.S. 2002; Ph.D. 2002; Associate Professor of Economics 2018.

ALEXANDRE SKIBA, Specialist Diploma Rivne State Technical University 1999; M.S. Purdue University 2001; Ph.D. 2003; Associate Professor of Economics 2019, 2012.

LINDA THUNSTROM, M.S. Umea University, Sweden 1999; Ph.D. Umea University Sweden 2008; Associate Professor of Economics 2013.

KLAAS T. VAN 'T VELD, B.Sc. University of London 1992; M.S. University of California Berkeley 1993; Ph.D. 1997; Associate Professor of Economics 2010, 2004.

Assistant Professors:

BENJAMIN COOK, B.S. University of Wyoming 2003; Ph.D. 2011; Visiting Assistant Professor/Enhanced Oil Recovery Institute 2012.

FELIX NASCHOLD, B.S. University of London 1994; M.S. 1995; Ph.D. Cornell University 2008; Assistant Professor of Economics 2014.

Academic Professionals:

TYLER KJORSTAD, B.A. College of St. Scholastica 2009; M.S. University of Minnesota Duluth 2012; M.S. University of Wyoming 2014, Director of Undergraduate Studies in Economics.

Professors Emeriti:

Thomas D. Crocker, Owen R. Phillips, Sherrill Shaffer

Business Economics Major

The science of efficient allocation, economics has much to offer students in the way of general and specialized preparation for positions in business, as well as government and the academic profession.

All Business Economics majors must comply with requirements of the advanced business standing prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

A complete curriculum guide is available from the Peter M. & Paula Green Johnson Student Success Center in the College of Business.

Economics and Business Economics majors must hold a 2.500 cumulative grade point average in all economics courses at graduation, as well as a minimum 2.500 cumulative UW grade point average and a minimum 2.500 grade point average in all College of Business courses.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of 4000-level economics courses.

Students who intend to continue on to graduate work are urged to give special attention to courses in economics theory, statistics and mathematics. Those planning a career in econometrics or mathematical economics should consult the department head as to mathematics and statistics requirements in these fields of study.

Economics Undergraduate Major

This program is designed to meet the requirements of AACSB International (the Association to Advance Collegiate Schools of Business), the University of Wyoming, and the College of Business.

Minimum requirements include:

Minimum of 42 semester hours of 3000+ level courses. 30 of the 42 hours must be earned from UW.

2.50 grade point average in all College of Business courses, Economics courses, and all institution (UW) courses.

50% of the business credit hours must be from the University of Wyoming.

Grade of C or above required for University Studies Program: FY, CI, C2, and C3.

Grade of C or above required for common body of knowledge and major specific core courses.

A maximum of 6 hours at the 1/2000 level and 3/4000 level military science may be applied to degrees in the College of Business.

A complete curriculum guide is available from the Peter M. & Paula Green Johnson Student Success Center in the College of Business.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of the 4000-level economics electives.

This program allows considerable flexibility for the student to specialize in interdisciplinary study. For example, the student can be advised on selecting upper level division courses for pre-law study, political economy, environmental and natural resources, women's studies, and international studies.

Students who intend to continue in graduate work should give special attention to courses in economic theory, statistics and mathematics. Those planning a career in mathematical economics or econometrics should consult the department head regarding the mathematics and statistics requirements in these fields of study.

Graduate Study

The Department of Economics offers programs leading to a master of science degree in economics and the doctor of philosophy degree in economics.

Program Specific Admission Requirements

Economics Program

Admission to the economics graduate programs is granted to students who show high promise of success. Candidates of high promise generally have a cumulative grade point average of 3.000 or better (A=4.000) and score above 300 (for MS) and 310 (for PhD) combined on the verbal and quantitative sections of the GRE, with particular emphasis on strong quantitative and analytical scores. Such scores and grades do not guarantee admission.

The TOEFL is required for international students in accordance with University rules.

The Department of Economics requires that students have completed courses in intermediate micro and macro theory (ECON 3010, ECON 3020 or equivalent), statistics, and 6 hours of introductory calculus (MATH 2200, MATH 2205 or equivalent) for the MS program. A course in linear algebra (MATH 2050) is required for the PhD program.

Program Specific Degree Requirements

Master of Science in Economics

A minimum of 18 hours in economics is required; at least 15 of these must be at the 5000 level. A basic core sequence of ECON 5010 (macro), 5390 (math micro), 5530 (computational), 5230 (econometrics), and 5300 (game theory) is required, which completes 15 hours of 5000-level courses, which is required.

The student must complete 26 hours of coursework and 4 hours of ECON 5960 Thesis Research for the Plan A option. The student must complete 30 hours of coursework and a project for the Plan B option.

Students may take 4000-level courses for graduate credit up to 6 hours.

A maximum of 6 semester hours of graduate coursework not used toward any other degree from another institution may be applied to the M.S. economics program subject to regulations regarding transfer of credit listed in this bulletin and with the approval of the director of graduate studies.

At the beginning of the third semester, the student selects a major professor who directs the Plan A thesis or Plan B project. A graduate committee, nominated by the major professor, the student, and the department chair, conducts an oral examination of the student on the project or thesis and area he/she has studied in the program. A favorable report by the committee and approval by the Office of the Registrar complete the degree requirements.

The majority of students complete the M.S. degree within two years.

QuickStart Master of Science in Economics

UW undergraduates can complete the M.S. degree in just one year after completing their B.S. degree if they apply to the QuickStart M.S. program in their junior year. To be eligible, students must have (and maintain) a cumulative GPA of 3.200 or better as well as an Economics GPA of 3.200 or better. They are also required to take the GRE by the fall of their senior year and score above 300 combined on the verbal and quantitative sections combined. The GRE requirement can be waived by the Graduate Director or Director of Undergraduate Studies. Two letters of recommendation from UW economics faculty members are also required. Admission to the QuickStart program allows students to double-count 6 credits of courses taken as an undergraduate towards both the B.S. and M.S. degrees, and reserve an additional 6 credits of courses taken as an undergraduate towards the M.S. degree alone. This then leaves only 18 credits to be taken after completion of the B.S. degree, which is feasible in just one year.

Doctoral Program

Doctor of Philosophy in Economics

The doctor of philosophy degree in the field of economics at the University of Wyoming requires a minimum of 42 hours of coursework. All coursework must be at the graduate (5000) level.

The program is designed to give the student a strong foundation in economic theory and the basic quantitative tools necessary for professional research. If students receive a grade lower than an **A** during their first year, they must take a comprehensive exam in that field (microeconomics and/or econometrics) during the summer to continue to the second year of the PhD program. The program's qualifying exam takes the form of a research paper written during the second summer and defended to, and approved by, a faculty committee by early in the third year, with revisions and resubmission required by December. Students who pass the qualifying paper requirement receive an MS degree and move on in the PhD program, while students who fail this requirement receive the MS degree and fail out of the PhD program.

During the third year, or no later than the first few weeks of the fourth year, a graduate committee nominated by the student's major professor and the director of graduate studies conducts an oral examination of the student. The purpose of the oral examination is to determine whether the student has formulated a workable dissertation project and has the necessary skills to complete it.

Following successful completion of the dissertation, and completion of a departmental requirement of 30 hours of dissertation research, the student presents an oral defense to the graduate committee. The doctor of philosophy degree is granted on recommendation of the committee and approval by the Office of the Registrar, providing all other requirements have been satisfactorily fulfilled.

The Department of Management and Marketing offers programs of study leading to the Bachelor of Science in Business degrees in (1) Management, (2) Marketing, (3) Entrepreneurship, and (4) Professional Sales. The departmental requirements for each of these degree programs are listed below.

All majors in the Department of Management and Marketing must meet requirements of the advanced business standing, complete the common body of knowledge, major courses, and MGT 4800 with a minimum grade of C (not C-).

Non-business majors may take business courses, and are not held to advanced business standing.

College of Business 3000- and 4000- level courses are reserved for those with junior or senior level standing whether majors or non-majors unless otherwise noted.

Decision Sciences

The decision sciences courses are a supplement for students with a variety of majors. The curriculum provides analytic skills based in both numerical data and behavioral evidence to facilitate problem solving, planning/project management, and decision making within organizations and across supply chains.

Entrepreneurship

The Entrepreneurship major is designed to assist students who wish to start their own businesses by providing them with exposure to the development and testing of business concepts. Analyzing the potential success of their concepts using a variety of tools and techniques, being flexible in developing new businesses and innovative ideas, and formulating and implementing business plans that will assist in the establishment and growth of these new ventures. The major provides students with exposure to issues involving family firms such as governance, succession and interpersonal relationships as well as innovation and change in existing organizations. Thus, the major focuses on entrepreneurship in both new ventures and established firms and prepares students to 1) start new businesses, 2) innovate in their own family firms, and/or 3) be entrepreneurial in an existing business.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Management

The Management major focuses on using resources to achieve goals in organizations. It studies the activities and operations that bring together human, financial, material, and information resources. Management majors should graduate with an understanding of the business world and a set of tools to manage successfully parts or all of an organization's operations. The Management degree allows students the ability to customize their degree within one of two tracks:

1) Human Resources Track - An experiential-learning focused program designed to prepare students to develop and manage the human capital of an organization. Students will be prepared to develop and implement policies and practices for recruitment, socialization, training, development, compensation, performance management, career planning, and employee relations. As more organizations move away from viewing employees as a commodity, toward an understanding that employees are a resource that can be developed into a distinct competitive advantage to ensure organizational success, sustainability, and reputation in the human resource function in the workplace will become increasingly important. This track will help employees understand the core functions of the area of human resource management are to a) recognize the potential of individuals for and within an organization and b) structure a positive, supportive, constructive work environment that will enable employees to work at their optimal capacity and achieve organizational goals.

2) General Management Track - A multi-faceted program designed to prepare students to manage multiple business functions across a variety of organizational types. A particular emphasis is to help develop interpersonal and problem-solving skills so they are capable of resolving a broad spectrum of problems for large or small organizations, or consult with organizations about these issues. This track is designed to provide students with a large degree of flexibility when considering different career paths, because students will be prepared to systematically think through the processes that organizations use to create and maintain sustainable competitive advantage. The track prepares students to work in for-profit businesses, non-profit organizations, entrepreneurial ventures, or in government organizations

The Management major, including both tracks, is available to students as an online degree completion program.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Marketing

Marketing is a societal process and a set of organizational functions for creating, communicating, and delivering value to customers and for managing relationships in ways to benefit local and global stakeholders. Marketing majors are employed in a wide variety of industries and governmental agencies where understanding and managing customer relationships are critical. Students find jobs in market research, advertising, public relations, professional selling, non-profit marketing, product management, retailing, digital marketing and brand management.

The Marketing Major is available to students as an online degree completion program.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Professional Sales

The Professional Sales major prepares students to manage business clients of for-profit and nonprofit organizations. Specifically, this major provides business students with coursework and opportunities to equip themselves with essential knowledge and skills required to begin professional careers in sales. Careers in sales offer independence,

ample financial reward, personal growth and opportunities for rapid advancement within organizations. Students that pursue a degree in professional sales will be challenged with industry engagement opportunities such as internships, and sales competitions. Students experience rigorous classroom experiences designed to develop the knowledge and practical skills needed to succeed during the first years of their sales careers including: oral and written communication skills, selling techniques and networking, the use of sales technology and customer information, and sales pipeline management.

All professional sales majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All professional selling courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Graduate Study

The Department of Management and Marketing offers a Ph.D. in Marketing. Some 4000- and 5000-level classes may be counted as graduate classes in other programs.

Doctoral Program

Doctor of Philosophy in Marketing

The Department of Management and Marketing offers a program leading to a Doctor of Philosophy in Marketing. The program of study draws from extant marketing theory, primarily in consumer behavior, combined with studies in the basic sciences (e.g., anthropology, psychology, sociology) and other applied sciences (e.g., environmental sciences) to create a base of knowledge acceptable for marketing scholarship in higher education, and a depth of knowledge conducive to a stream of publishable research in a specific topic area. Theoretical development is supplemented with course work in the gathering and analysis of qualitative and quantitative data, which prepares the student for rigorous exploration of marketing phenomena. Students are required to complete 72 semester hours and a scholarly dissertation that contributes to the knowledge foundations in marketing and contributes to the basic sciences that informed the inquiry. Semester hours will include core marketing classes, outside elective courses in statistics, basic social sciences, and/or interdisciplinary studies in environmental and natural resources, and dissertation work. First and second year research projects are also required, aimed at the student having published articles in respected marketing and social science journals before program completion. Comprehensive exam is completed at the end of the second semester.

All doctoral students are expected to teach while enrolled in the program. The program is designed to give students a strong research background and intensive teaching experience.

Application Deadlines

We begin accepting applications in October for the following fall semester. All completed applications must be submitted by February 1st.

Admission Requirements

- A bachelor's degree and working toward or completion of a master's degree from an accredited institution, preferably in business or a core social science discipline
- Completed application (i.e., all required materials submitted) on the UW Graduate Programs Applications system

- \$50 application fee paid to University Admissions
- Copies of **all** undergraduate and graduate program transcripts scanned and uploaded to the UW system, and official transcripts from each post-secondary institution attended submitted to the UW admissions office
- A valid GRE or GMAT score. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be requested from the testing organization and sent to UW
- Three strong letters of recommendation, including one or more from an academic. The letters must be uploaded by the recommenders to the UW system in MS Word or .pdf format
- A personal statement summarizing your interest in pursuing doctoral studies and speaking to questions or issues you wish to research. This document must be uploaded to the UW system as an MS Word or .pdf document
- For international students, Test of Foreign Language (TOEFL) scores are required. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be submitted to UW from the testing organization. A minimum TOEFL score of 76 (online) or 540 (paper) is required for admission.

MBA - General

Program Overview

The UW MBA Program delivers professional management education that connects principles, concepts, and intense case analysis with real world experience as tools for making business decisions. Students will develop leadership and managerial skills. UW MBAs will possess the education and training to compete in today's rapidly changing global business world.

Class sizes are small and diverse. Courses are taught by a select group of business faculty members. The total program experience (both inside and outside the classroom) is designed to provide experiential learning along with access to powerful networks.

Admission Requirements

A Faculty Admissions Committee, chaired by the Director of the MBA Program, will review all applicants. Application to the program is open to students who have a baccalaureate degree from an accredited university or college. Students with a baccalaureate degree in a business discipline or business administration are eligible for the program, but will not be allowed to waive any of the core course requirements. Please view the full list of admission requirements below.

Students whose native language is not English must submit TOEFL results (or another approved English proficiency exam). There are no exceptions for students from other UW colleges and schools seeking dual degrees. If an international applicant wishes to be considered for GA funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI) or an approved alternative to the OPI. Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please be advised that our program includes significant class discussion, substantial daily reading, many written assignments, and presentations.

Dual Degree Programs

The following dual degree programs are available:

- MS in Engineering / MBA
- Pharm. D. / MBA
- J.D. / MBA

Students will need to meet all MBA admission requirements and respective dual college/department requirements and be admitted to both degree programs in order to be considered for the dual degree program. The MBA core requirements are required of all students. After successful completion of all requirements, students in the dual degree program will graduate with two graduate level degrees.

Admission to the Master of Business Administration program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- A GMAT or GRE score may be required as part of the application process as determined by the program director after reviewing the required application materials. Please reach out for additional information to cobgradprograms@uwyo.edu or 307-766-2482.
- Professional resume.
- Official transcripts of **all** undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding.

Prerequisites: No specific prerequisite courses are required. However, evidence of technical proficiency and/or prior business experience from your work history and transcripts are considered in the admissions process. If admitted to the program, all MBA students are required to take our MBA Foundations course, which establishes a baseline level of knowledge in Accounting, Finance, Economics, and Statistics.

Additional International Student Admission Requirements:

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries *may be* exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia, Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university *may be* exempt from providing proof of English proficiency.

Degree Requirements

- Thirty-six (MBA-MBA) credit hours of graduate coursework, including participation in all MBA Program activities (orientation, Jackson Leadership Summit, MBA Executive Speaker Series, Professional Development, Experiential Leadership Program, etc.). Please note that students enrolled in any dual degree MBA program are required to complete all MBA participation activities and the core coursework.
- This is a cohort based program and while the course sequence is highly structured, there may be the opportunity to extend the duration of the one-year program. Course sequence is subject to change at the discretion of the MBA Director.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Course of Study

Pre-Term: All admitted MBA students will complete a Foundations course prior to orientation, the experiential leadership program, and the Jackson Leadership Summit. Students may also receive pre-term assignments and/or pre-term prep course material.

MBA Core Requirements (27 credit hours) - Required of all MBA students as well as all Dual Degree MBA students.

- MBAM 5101 MBA Foundations. 1.
- MBAM 5202 Data and Decision Modeling. 3.
- MBAM 5104 Organizational Behavior and HRM. 3.
- MBAM 5208 Accounting for Managers. 3. OR MBAM 5208 Managerial Accounting. 3.
- MBAM 5204 Financial Management. 3.
- MBAM 5207 Marketing Management. 3.
- MBAM 5102 Operations Management. 3.
- MBAM 5330 Global Business Environment. 3.
- MBAM 5107 Decision Making I. 1.
- MBAM 5209 Decision Making II. 1.
- MBAM 5305 Strategic Management. 3. (includes international or domestic travel)

MBA Elective Requirements

- MBA-MBA students, including dual degree students, must take an additional 9 credit hours of 4000 or 5000 level College of Business courses. Dual degree students (JD/PharmD/MS) may take three (3) credit hours

outside the College of Business following dual degree agreement guidelines. Please contact your advisor for additional information.

**Note: A maximum of 12 credit hours may be taken at the 4000 level for graduate credit.*

Application Deadlines

- **Fall Admission Only**
 - Final Deadline: June 1
 - Priority Deadline: November 1
 - Scholarship Deadline: March 1

**International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are highly encouraged to apply prior to the application deadline to ensure that if admitted, all required documentation can be provided prior to the beginning of the term of entry.*

Additional Information

Tuition & Fees

Tuition and fee charges will not include the cost of textbooks. Please refer to University of Wyoming cost of attendance for additional information.

MBA Executive Speaker Series

Students participate in weekly meetings (primarily on Fridays) with business leaders from a wide variety of industries (business, government, and non-profit entities). The program takes place mostly on campus, but does include some travel. This program supplements the class work, provides discussion and learnings of business challenges, opens the students' horizons on career opportunities, and provides long-term networking opportunities.

Experiential Leadership Program

Students focus on improving leadership competence and focus on teamwork outside of the typical business element. This experience has been tailored to represent an experiential case study on effective leaders and effective teams. Substitute experiences can be discussed on a case-by-case basis.

Jackson Leadership Summit

Exclusive leadership development event for MBA students to network with an astute panel of individuals with proven business success. Topics usually focus on the global economy and strategic planning.

Campus to Online MBA Program

Students enrolled in the campus MBA program may, on a case-by-case basis apply credits from the Online MBA program (courses with an MBAX prefix) to their degree, and vice versa. Must be approved by the Program Director.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 in the MBA Program to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program and suspension from the University of Wyoming. Other requirements involving program dismissal include:

- A student who earns a grade of "D" or lower in any one course may have the opportunity to retake the course (MBAX or MBAM).

MBA-MBAX - General

Program Overview

The University of Wyoming offers a flexible Online MBA (EMBA). The Online MBA Program is specifically designed for experienced business professionals interested in an AACSB accredited, 100% online program that fits their busy schedules. This program is typically completed in two years and is tailored for professionals interested in enhancing their understanding of business disciplines and applying them to decision-making. With starts each Fall, Spring, and Summer, the cohort-based program consists of a minimum 30 credit hours of required coursework.

Program Admission Requirements

A Faculty Admissions Committee, chaired by the Director of the MBA Program, will review all applicants. Application to the program is open to students who have a baccalaureate degree from an accredited university or college. Students with a baccalaureate degree in a business discipline or business administration are eligible for the program, but will not be allowed to waive any of the core course requirements. Please see full list of admission requirements below.

Students whose native language is not English must submit TOEFL results, or results of another approved English proficiency exam. There are no exceptions for students from other UW colleges and schools seeking dual degrees. If an international applicant wishes to be considered for GA funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI) or an approved alternative. Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please be advised that our program includes significant class discussion, substantial daily reading, many written assignments, and presentations.

Admission to the Online Master of Business Administration program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GRE or GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Professional resume. A minimum 2 years' professional work experience is preferred.
- Official transcripts of **all** undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000 E. University Ave., Laramie,

WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.

- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding.

Prerequisites: Prerequisite courses may be required as determined by the MBA Director. Please reach out to our office at cobgradprograms@uwyo.edu or 307-766-2482 for additional information.

Additional International Student Admissions Requirements

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries *may be* exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university *may be* exempt from providing proof of English proficiency.

Degree Requirements

- Thirty (30) credit hours of graduate credit as outlined in the Course of Study section.
- This is a cohort based program and while the course sequence is structured, there is a lot of opportunity for flexibility. This program can be completed in one or two years most commonly, but longer completion timelines can be discussed. Course sequence is subject to change at the discretion of the MBA Director.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F.

Course of Study

MBA Core Requirements (21 credit hours) - Required of all MBAX students.

- MBAX 5204 Financial Management. 3.
- MBAX 5207 Marketing Management. 3. or MBAX 5235 Marketing Analysis & Strategy. 3.
- MBAX 5202 Data and Decision Modeling. 3.
- MBAX 5104 Organizational Behavior & HRM. 3.
- MBAX 5330 The Global Business Environment. 3.
- MBAX 5208 Accounting for Managers. 3. or MBAX 5208 Managerial Accounting. 3.
- MBAX 5305 Strategic Management. 3.

MBA Elective/Concentration Requirements

- MBA-MBAX students must take an additional 9 credit hours of 5000 level College of Business courses.
- Energy Concentration students will complete the additional 9 credit hours of coursework as follows:
 - ACCT 5503 Fundamentals of Accounting in the Energy Industry. 3.
 - MGT 5504 Energy Industry Value Chain. 3.
 - FIN 5502 Energy Finance: Project Evaluation. 3.

Application Deadlines

- **Fall Admission**
 - Block 1 Final Deadline: June 30
 - Block 2 Final Deadline: October 1
 - Priority Deadline: May 1
- **Spring Admission**
 - Block 1 Final Deadline: December 1
 - Block 2 Final Deadline: February 1
 - Priority Deadline: October 1
- **Summer Admission**
 - Final Deadline: April 1
 - Priority Deadline: February 1

**International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are highly encouraged to apply prior to the application deadline to ensure that if admitted, all required documentation can be provided prior to the beginning of the term of entry.*

CERT-MBAE - Energy Business

CERT-CFP - Certified Financial Planning

Program Overview, Energy Business Certificate

The Certificate in Energy Business is composed of 9-credits of masters-level graduate coursework in the College of Business, with the primary goal of achieving mastery and professional skills common to functional business roles within the energy industry. Specifically:

- Develop a working understanding of the concepts and practices of Supply Chain Management to make strategic support decisions within the energy industry.
- Acquire the foundation necessary to work in the energy industry as a financial statement analyst, manager, auditor, or accountant.
- Utilize core capital budgeting, techno-economic cashflow modeling and other finance concepts to evaluate energy industry project investments.
- Demonstrate effective problem solving, written, and oral communication skills in the context of the energy industry.

Program Overview, CFP Certificate

The Certificate in Certified Financial Planning is composed of 18-credits of masters-level graduate coursework in the College of Business, with the primary goal of providing students with the education, training, and skills necessary to be able to sit for the Certified Financial Planner (CFP) examination. The curriculum is aligned with the CFP® Board's Principal Knowledge Topics and covers principles and practices of essential areas of financial planning, including:

- Wealth Management
- Investment Management
- Tax Planning
- Estate Planning
- Insurance and Retirement Planning

Program Admission Requirements

Admission to the graduate certificate programs generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred (based on a 4.0 scale). If you do not meet the preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.

- GRE or GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.), but is not required.
- Professional resume. A minimum 2 years of professional work experience is preferred.
- Official transcripts of **all** undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience (no need to schedule a meeting).

Note: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming College of Business Graduate Certificate programs do not admit students provisionally or conditionally.

CERT-MBAE Prerequisites: Applicants must provide evidence of proficiency in the following areas:

Managerial Accounting

Finance

CERT-CFP Prerequisites: Applicants must provide evidence of proficiency in the following areas:

Business Math and Statistics

Financial Management

*Evidence of proficiency in these areas is considered on a case-by-case basis but is commonly pursued through supplemental courses and/or relevant professional experience. Please contact the program office for additional information.

Additional International Student Admissions Requirements

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries *may be* exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university *may be* exempt from providing proof of English proficiency.

Degree Requirements, Energy Business Certificate

- 9 total credit hours of coursework to include:
 - FIN 5502 - Energy Finance: Project Evaluation. 3.

- ACCT 5503 - Fundamentals of Accounting in the Energy Industry. 3.
- MGT 5504 - Energy Industry Value Chain. 3.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Degree Requirements, CFP Certificate

- 18 total credit hours of coursework to include:
 - FIN 5070 Tax Planning for Financial Planners. 3.
 - FIN 5310 Investment Management. 3.
 - FIN 5720 Insurance and Retirement Planning. 3.
 - FIN 5750 Fundamentals of Financial Planning. 3.
 - FIN 5780 Estate Planning. 3.
 - FIN 5800 CFP Capstone. 3.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program and suspension from the University of Wyoming. Other requirements involving program dismissal include:

- A student who earns a grade lower than a "C" in any course must retake the course, or withdraw from the program.

College of Education

The College of Education prepares teachers, counselors, administrators and other service personnel for positions in public education in Wyoming, throughout the nation, and the world. The teacher education program incorporates content area courses from the various colleges on campus with experiences in educational methodology. Programs are designed to provide students with a maximum amount of experience in the classroom.

Graduates of the College of Education are prepared to deal with youth growing up in a rapidly changing world. Programs are experiential, collaborative, outcomes based, and technologically supported. Emphasis is placed on professional ethics, a commitment to lifelong learning, and respect for all individuals in our culturally diverse society.

Organization of the College

The College of Education includes undergraduate teacher education and graduate studies in education. Schools offering undergraduate and graduate programs in the college include:

- **School of Teacher Education**

- **School of Counseling, Leadership, Advocacy, and Design**

Undergraduate and graduate education are supported by several units. The Teacher Preparation and Advising Office, McWhinnie Hall room 100, coordinates activities dealing with academic advising, field experiences, and teacher licensure.

The Wellspring Counseling Clinic provides counseling services to students, staff, faculty of the university, as well as the community at-large.

The College of Education, College of Arts and Sciences, Wyoming community colleges, many Wyoming districts, the Wyoming Professional Teaching Standards Board, and the Wyoming Department of Education are part of the Wyoming School-University Partnership, which grounds collaborative efforts across the state related to K-12 preservice and inservice education.

The Laboratory School, an Albany County School District entity, serves the college, the university, the school district, and the state as an educational center for research, development, instructional advancement, and inservice education. The school enrolls students in pre-school through eighth grade.

Computer laboratories in the college feature a wide range of capabilities including Internet access. The laboratory equipment is frequently updated to serve the needs of students, faculty and staff.

The Learning Resource Center is a branch of the university library system. Educational materials are available to serve the needs of K-12 students, university students, university faculty and public school faculty in Wyoming

Associate Professors:

TAO HAN, B.A. Sungshin Women's University, Korea 1984; M.A. University of Arizona 1993; M.A. University of Nevada-Reno 2002; Ph.D. 2006; Associate Professor of Elementary and Early Childhood Education 2016, 2010.

ANA HOUSEAL, B.A. University of Iowa 1985; M.A. University of Northern Iowa 1998; Ph.D. University of Illinois 2010; Associate Professor of Elementary and Early Childhood Education 2017, 2011.

LINDA HUTCHISON, B.A. Humboldt State University 1978; M.A. Stanford University 1986; Ph.D. University of Washington 1992; Associate Professor of Secondary Education 2000, 1993.

TRICIA JOHNSON, B.S. Lehigh University 1991; M.Ed. 1993; Ed.S. George Washington University 1997; Ed.D. Columbia University 2004; Associate Professor of Elementary and Early Childhood Education 2012.

PATRICK MANYAK, B.A. Pepperdine University 1988; M.S. 1990; Ph.D. University of Southern California-Los Angeles 2001; Associate Professor of Elementary and Early Childhood Education 2007, 2001.

AMY ROBERTS, B.S. Indiana University 1986; M.A. Portland State University 1991; Ph.D. Indiana University 1996; Associate Professor of Elementary and Early Childhood Education 2004, 1998.

KATHERINE MUIR WELSH, B.A. University of California-Berkeley 1986; Single Subject Teaching Credential (Life Sciences) University of California-Santa Barbara 1990; Ph.D. University of California-Los Angeles 2002; Associate Professor of Elementary and Early Childhood Education 2008, 2002.

Assistant Professors:

ALI BICER, B.S. Celal Bayar University 2006; M.S. Texas A&M University 2012; Ph.D. 2016; Assistant Professor of Elementary and Early Childhood Education 2019.

TODD REYNOLDS, B.A. University of Northern Colorado 1998; M.A. 2004; Ed.S. 2008; Ph.D. University of Wyoming 2015; Assistant Professor of Secondary Education 2019.

ALISON MERCIER, B.S. North Carolina State University 2000; M.S. University of North Carolina 2020; Assistant Professor of Secondary Education 2020.

Senior Lecturers:

NIKKI BALDWIN, B.A. University of Wyoming 1994; M.A. 2005; Senior Lecturer of Elementary and Early Childhood Education 2020, 2009.

KIMBERLY GUSTAFSON, B.A. University of Wyoming 1998; M.A. 2003; Ed.D. 2010; Senior Lecturer of Elementary and Early Childhood Education 2019, 2007.

AMY SPIKER, B.A. University of Wyoming 1989; M.A. 2004; Senior Lecturer of Elementary and Early Childhood Education 2016, 2007.

Associate Lecturers:

JASON KATZMANN, B.S. Texas Women's University 1994; M.A. Colorado College 2000; Ph.D. University of Northern Colorado 2007; Assistant Professor of Educational Studies 2016, 2007.

ROD THOMPSON, B.A. University of Nebraska at Kearney 1991; M.A. University of Northern Iowa 1998; Associate Lecturer of Educational Studies 2019.

Assistant Lecturers:

LINDSEY FREEMAN, B.S. University of Wyoming 2011; M.A. 2018; Assistant Lecturer of Educational Studies 2019.

JENNIFER GERINGER, B.A. University of Texas - San Antonio 1991; M.S. University of Wyoming 1997; Ph.D. 2001; Assistant Lecturer of Elementary and Early Childhood Education 2015.

JANET LEAR, B.S. University of Wisconsin-Madison 1990; M.A. University of California, Berkeley 1998; Ph.D. University of Denver 2017; Assistant Lecturer of Educational Studies 2019.

ROCHELLE MCCOY, B.A. Western Governors University 2006; M.A. 2012; Assistant Lecturer of Elementary and Early Childhood Education 2019.

JOSEPH SCHROER, B.A. University of Cincinnati 2002; B.S. 2005; M.A. 2001; Ph.D. 2007; Assistant Lecturer of Educational Studies 2019.

Professors Emeritus:

Michelle Buchanan, Barbara A. Chatton, Margaret Cooney, Lydia Dambekalns, Judith Z. Ellsworth, Patricia McClurg, R. Timothy Rush

Accreditation

The College of Education, a member of the American Association of Colleges of Teacher Education, is currently accredited by the National Council for the Accreditation of Educator Preparation (CAEP) and is moving toward the Association for Advancing Quality in Educator Preparation (AAQEP) in 2023-2024. The Wyoming Professional Teaching Standards Board (PTSB) and the North Central Association of Colleges and Schools approve the college as an accredited teacher-preparing institution. The Counseling programs are fully accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP).

Academic Advising

Students are assigned an academic adviser who will assist in planning a program combining University Studies requirements, core content requirements, and professional education courses. Students are expected to consult with their adviser regularly. The Teacher Preparation and Advising Office coordinates advising and provides students and faculty with assistance in areas related to academic advising.

Further information on each program is available in:

Teacher Preparation and Advising Office

School Director: Alan Buss

School of Teacher Education offers a wide variety of undergraduate teacher education degrees and minors, graduate degrees in curriculum and instruction, as well as several endorsement and certificate programs to prepare our students to be successful educators. Explore our diverse programs, career opportunities, and research possibilities with our dynamic faculty members.

Admission to the B.A. and B.S. Programs in the College of Education

New first-time students who meet the University of Wyoming's standards for admission may declare their major in Elementary Education, Secondary Education in a specific content area, or Education Undecided (EDUD), provided that they have a minimum ACT Composite score of 21 and an ACT Math score of 21 or a minimum new SAT combined score of 1060 with a minimum SAT Math score of 530. A lower ACT/SAT Math score can be replaced by a Math Placement Examination (MPE) score of 2 or higher. Education Undecided majors should decide on a specific content area no later than the first semester of their sophomore year.

All incoming students pursuing teacher certification and/or teacher endorsement programs must undergo an initial criminal background check prior to full admission to the College of Education. A second background check is included as part of the state application process for the Wyoming Substitute Teaching Permit, which is required for admission to Phase II of the B.A. and B.S. programs.

For those students who do not meet the above admissions requirements, it is suggested that they major in exploratory studies (EXPL) so that they will receive more appropriate advising and access to support services through Advising, Career and Exploratory Studies until they have attained a minimum 2.750 UW grade point average (with at least 15 UW credits), and successfully complete an approved background check.

Current UW students who wish to change their major to Education but do not yet have a UW grade point average must wait until they meet the requirement of a minimum 2.750 UW grade point average, with at least 15 UW credits posted to their transcript. It is recommended that they complete a Program Change form and contact the Teacher Preparation and Advising Office in McWhinnie Hall, room 100 to initiate the background check process. Students' progression through the Education curriculum could be delayed until all requirements are fulfilled and their major officially changed to Education.

Transfer students from out of state institutions, as well as from Wyoming community colleges wishing to declare a major in Education must have completed a minimum of 15 transferable credits, including the USP 2015 "Q" requirement (as determined by the UW Registrar), with a final grade higher than a C- to do so. Transfer students must have a minimum Transfer GPA of at least 2.750 and successfully complete an approved background check.

For transfer students not meeting these requirements, it is suggested that they major in exploratory studies (EXPL) so that they will receive more appropriate advising and access to support services through Advising, Career and Exploratory Studies until they meet requirement of a minimum 2.750 UW grade point average (with at least 15 UW credits), and successfully complete an approved background check.

Re-admitted students who return to UW after two or more semesters away, and wish to (re-)declare a major in Education, must have a minimum 2.750 UW GPA (with at least 15 UW credits) to do so and successfully complete an approved background check.

Degree Program Curricula

The following curricula summarize the programs offered by the College of Education. Students complete content courses in their major as well as professional education courses, some of which can also be counted toward their University Studies Program requirements. The University Studies Program requirements include:

- First-Year Seminar (FYS) Credits: 3
- Communication I (COM1) Credits: 3
- Communication II (COM2) Credits: 3
- Communication III (COM3) Credits: 3

- Quantitative Reasoning (Q) Credits: 3
- Physical and Natural World (PN) Credits: 6
- Human Culture (H) Credits: 6
- U.S. & Wyoming Constitutions (V) Credits: 3

The minimum total credit hours required to complete a degree in Education is 120. Of the minimum credit hours required to complete a program, 42 credit hours must be completed at the upper division level (3000-level or higher), with 30 of those credits being completed at UW. Additional College of Education requirements are:

1. 2.750 UW Total Institution grade point average
2. 2.500 grade point average in the content courses required for each specific major
3. A valid Wyoming substitute teaching certificate

Academic Advising

Students are assigned an academic adviser who will assist in planning a program combining University Studies requirements, core content requirements, and professional education courses. Students are expected to consult with their adviser regularly. The Teacher Preparation and Advising Office coordinates advising and provides students and faculty with assistance in areas related to academic advising.

Further information on each program is available in:

Teacher Preparation and Advising Office
 McWhinnie Hall room 100
 Dept. 3374, 1000 E. University Ave.
 Laramie, WY 82071
 (307) 766-2230

Acceptability of Coursework

Courses taken to satisfy professional education requirements and major content requirements must be taken for a conventional grade (A-F) unless offered for S/U grading only.

Professional education courses taken at another institution must come from an accredited Educator Preparation Program (e.g., NCATE, CAEP, AAQEP) to be accepted for a degree and/or teacher certification program. Courses remain subject to review for applicability to UW requirements by the Registrar's Office and by the School of Teacher Education. Syllabi of completed courses may be requested.

The College of Education does not accept transfer credits for professional education or content area courses with equivalents at UW for courses with final grades of a C- or less.

The College of Education encourages students to take teaching methodology and student teaching coursework or credits from the University of Wyoming whenever possible.

Student Responsibility

College of Education students are responsible for knowing and meeting graduation requirements. Students are expected to maintain a 2.750 UW Total Institution grade point average to enter Phases II and III and continue in the professional education sequence and to graduate. Prior to enrolling in professional education courses, students are expected to have met the specific program and course prerequisites as listed in this publication. Students are expected to make reasonable academic progress toward completion of a degree.

Undergraduate Programs

Bachelor of Science

Agricultural education

- Secondary Agricultural Education, B.S.

Bachelor of Applied Science

Career and Technical education

- Secondary Career & Technical Education, B.A.S.

Bachelor of Arts

Elementary education

- Elementary Education, B.A.

Elementary/Special education

- Elementary Education/Special Education, B.A.

Secondary education

- Secondary English Education with Concurrent Major in English, B.A.
- Secondary Mathematics Education with Concurrent Major in Mathematics, B.A.
- Secondary Modern Languages Education, B.A.
- Secondary Science Education, B.A.
- Secondary Social Studies Education, B.A.

Teaching Endorsements

A teaching endorsement is not a standalone teacher certification program. Endorsements are issued by the Wyoming Professional Teaching Standards Board (PTSB) to state-licensed Elementary (K-6) and Secondary (6-12) teachers qualified to teach in specific subject areas, in addition to their initial certification(s). By state statute, the University of Wyoming's College of Education is allowed to provide institutional recommendations for add-on endorsements in Biology, Chemistry, Earth Science, and Physics to those who have completed programs leading to licensure in secondary-level Science content areas.

Graduate Programs

Master's Programs

There are three master's programs in the College of Education and two of the three have additional specialization areas. They are designed to provide advanced study for educational professionals. Consult School of Teacher Education for program requirements and expectations in the Master of Arts in Curriculum and Instruction.

Doctoral Programs

Doctor of Education (Ed.D)

The College of Education Ed.D. program prepares students for scholarly inquiry and professional leadership in education. The program consists of (1) applied research, (2) courses and professional experiences in education and related fields designed to develop a comprehensive academic basis for leadership roles in education, and (3) applied professional experiences tailored to individual needs and career goals. Each student works closely with an adviser and a supervisory faculty committee to select courses, topics of research, and professional opportunities.

Preparation in the above areas combine to:

Convey deep scholarly knowledge of education and foster its application in practice;
Promote a broad understanding of various methods of inquiry in education and foster its application in practice settings;
Advocate practices that demonstrate a commitment to diversity in education;
Foster ethical and professional research and practice in education;
Promote excellence in applied professional practice.

The degree of Doctor of Education (Ed.D.) is offered to competent students who wish to pursue a program of study and to participate in appropriate activities in preparation for professional service and leadership in education. The program is designed to meet the needs of those for whom intensive research is not a practical prerequisite to professional goals. Doctoral students are expected to participate not only in organized coursework but also in other activities that will ensure breadth of outlook and technical competence.

Concentration in the Doctor of Education are:

Education, Ed.D., Concentration in Curriculum and Instruction

Education, Ed.D., Concentration in Mathematics Education

All Doctor of Education students will use research methods to explore practical leadership problems. Applied projects are problem-based and may be collaborative. Projects may involve evaluating curriculum, designing and implementing professional development or training, developing applications to be used in local settings (e.g., early childhood-12 education, corporate and government centers), as well as other projects designed to advance knowledge in a specific field or setting.

The following requirements apply to all projects:

- Research-based (literature review)
- Scholarly, academic writing using APA style
- Primary or secondary data
- Authored by individual or small groups of students
- Uploaded to **ProQuest** for dissertations of practice or other projects in a dissertation format, and uploaded to the **Mountain Scholar Digital Collections** for projects in a non-dissertation format

Suggested project formats and brief descriptions are:

Dissertation of Practice

- A dissertation of practice is original practice-based empirical research with data collection expected from primary sources.

Local Case Study

- A case study is a descriptive, exploratory, or explanatory analysis of a person, group, or event. Thomas (2011, p. 354) offered the following definition of case study: "Case studies are analysis of persons, events, decisions, periods, projects, policies, institutions, or others systems that are studied holistically by one of more methods."

Faculty Directed Individual or Team-based Inquiry

- This type of inquiry involves individual or a small group of students working together on a single project under the guidance of a faculty member. Data can be obtained from primary or secondary sources.

Documentary on an Educational Issue

- A documentary is an in-depth and extensive study with an analysis presented in video form accompanied by a written summary of the purpose and outcome.

Submitted Manuscript

- A full-length research manuscript must be submitted to a refereed mid- or top-tier national or international scholarly journal.

Program Evaluation

- A program evaluation report typically uses both qualitative and quantitative research methods to examine and collect data on a current program that is in place in a school or another organization.

Additional project formats may be proposed and approved by the student's committee as long as they meet the requirements listed above.

Final Project Processes

As in the traditional dissertation process, all students are expected to meet with their committees to gain project approval (at the pre-prospectus and/or prospectus stage). The Report of Final Examination will indicate whether or not the final project is acceptable to the committee. *The deadline for submitting projects to **Mountain Scholar Digital Collections** or dissertations of practice or other projects in a dissertation format to **ProQuest** is the same as the Report of Final Examination, the last day of classes for the semester during which a student intends to graduate.* All projects will be evaluated by committee members and also by the student.

Please note: After submitting the required steps for the Mountain Scholar Digital Collections you will receive a confirmation email. Please forward this email to your chair, Clayleen Rivord in the College of Education Dean's Office, and Robert Ratterree in the Office of the Registrar.

Doctor of Philosophy in Curriculum and Instruction (Ph.D.)

The College of Education Ph.D. program prepares students for careers of scholarly inquiry and teaching in higher education. The program consists of (1) continuous research or inquiry, (2) courses and professional experiences in education and related fields designed to develop a comprehensive academic basis for future work in research and teaching, and (3) teaching and other related experiences tailored to individual needs and career goals. Each student works closely with an adviser and a supervisory faculty committee to select courses, topics of research and inquiry, and teaching experiences.

All coursework in the Ph.D. in Curriculum and Instruction program addresses the following goals:

- To convey deep scholarly knowledge of education and related fields
- To promote a broad understanding of various methods of inquiry in education and develop competency in several of those methods
- To advocate practices that demonstrate a commitment to diversity in education
- To foster ethical and professional research and practice in education
- To promote excellence as a college teacher

Effective preparation for the Ph.D. stems from collaborative research and inquiry into topics of mutual interest by students and faculty scholars/researchers. A major portion of the program consists of the individual student and selected faculty members(s) jointly engaged in research and inquiry. Successful Ph.D. applicants tend to have high aptitude for research and inquiry and express interest in general topics which the faculty of the college are actively inquiring and researching.

Concentrations in the Ph.D. in Curriculum and Instruction are:

Curriculum Studies

Literacy Education

Mathematics Education

Science Education

Program Specific Graduate Assistantships

Applicants interested in a Graduate Assistantship must submit a graduate assistantship application at the time of admission application process or communicate with the advisor and school director thereinafternon.

The two schools of the College of Education provide support for master's and doctoral degree programs.. Faculty and staff work to deliver these programs by providing campus-based courses, courses taught on-site at different locations in Wyoming, courses taught online, and courses taught in hybrid formats.

School of Counseling, Leadership, Advocacy, and Design

**332 Education Building, (307) 766-2366
and**

316 Education Building, (307) 766-5649

Web site: www.uwyo.edu/clad

School Director: Peter Moran

The School of Graduate Studies in Education includes the following program areas: Counseling, Educational Leadership, Higher Education Administration, Learning, Design and Technology, Research, and Special Education.

Program Areas

Counseling

Counselor education curricula experiences concentrate on the integration of helping skills, theory and practice. The programs utilize a personalized, developmentally oriented focus and prepare professional counselors for entry into school and mental health settings.

The undergraduate counseling courses are designed to achieve the following objectives:

- enhance self-awareness
- facilitate effective relationship skills
- increase leadership knowledge and skills
- assist learners in maximizing their potential

Graduate Study

Counselor education offers a two-year (61- 65 semester hours) master's degree program for practice in schools, colleges, universities, and community agencies, as well as private practice. The Council for Accreditation of Counseling and Related Educational Programs (CACREP), the national accrediting body recognized by the Council for Higher Education Accreditation, has conferred accreditation to the following M.S. specializations in counseling: school counseling and mental health counseling. The Ph.D. program in Counselor Education and Supervision is also CACREP accredited. Some courses are offered for undergraduates interested in school counseling, group work, leadership, and student affairs work. Undergraduates interested in preparing for entry into graduate work in counseling are invited to consult with program faculty prior to graduation. Program information is available on the Web site.

Degrees Offered

M.S. in Counseling, Option: Mental Health Counseling
M.S. in Counseling, Option: School Counseling
Counselor Education and Supervision, Ph.D.

Program Specific Admission Requirements

For master's applicants:

- Summary of academic background
- Personal statement
- Three letters of recommendation
- Current professional resume
- Transcripts
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years)

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For doctoral applicants:

- Transcripts
- GRE scores within the last five years; minimum scores are 151 Verbal and 153 Quantitative Reasoning
- Three letters of recommendation
- Personal self-statement
- Current academic resume
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years)

In order to be considered for admission, applicants must meet the following minimum requirements:

- Master's degree in Counseling
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale.

Program Specific Graduate Assistantships

Assistantships are usually available for doctoral students. Master's students sometimes qualify for assistantships. Please contact the program at (307) 766-2366 for assistantship opportunities, and see school web site.

Program Specific Degree Requirements

Professional Master's Program

Minimum requirements:

- same for all options
- 61 hours of graduate credit to include 40 hours of core courses and 21 hours of graduate coursework specific to chosen option
- Culminating internship activity guided by faculty advisor
- Students complete the CAPP program in lieu of a program of study

Doctor of Philosophy in Counselor Education and Supervision

Doctoral students are required to have completed a minimum of a 48-hour Master's degree from a program of study equivalent to a CACREP accredited Masters program in Counselor Education. These requirements are based upon the 2015 CACREP Standards.

Educational Leadership

The curriculum in educational leadership is designed to prepare superintendents, principals, supervisors for public schools and leaders for organizations to perform duties of a specialized nature and to function effectively in a leadership capacity. The program provides sufficient breadth to give candidates for advanced degrees ample opportunity to develop essential competencies.

Degrees and Certificates Offered

Students who major in education with an option in educational leadership may choose one of the following certificate or degree programs: Principal Certificate program for eligibility of a K-12 Principal Certificate endorsement, School District Superintendent Certificate, Master of Arts in Education, Doctor of Education and Doctor of Philosophy.

Program Specific Admission Requirements

For certificate applicants:

- Transcripts
- Copy of current teaching certificate
- Principal program application
- Superintendent approval form
- Letter of intent
- Three letters of recommendation
- Current resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least

- two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
 - Two years of K-12 teaching experience
 - Master's degree in an education-related field

For master's applicants:

- Letter of intent
- Current resume
- Copy of current teaching certificate
- Principal program application
- Superintendent approval form
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 teaching experience

For EdD applicants:

- Application letter
- Current CV or academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 educational administrative experience

For PhD applicants:

- Application letter
- Current CV or academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 educational administrative experience

Educational Research

The educational research faculty offer ten courses on a regular basis in educational research. These courses are open to graduate students throughout the college and the university. In addition, we offer two minors in educational research, one is qualitative research methods and one in quantitative research methods. Students currently enrolled in any UW master's or doctoral program are eligible for these minors. Both minors require students to complete 16 credit hours, a trial research project, and a co-teaching experience in educational research.

Learner Outcomes

The goals of the educational research courses in the College of Education include developing the necessary skills, concepts, and understanding of research methodology to evaluate, use, and conduct research in a student's specific discipline. This goal requires the ability to do the following:

1. In a research study, critique the following the research problem and hypothesis; general design to insure that correct conclusions are possible from the statistical analysis; statistical analysis procedures to establish their valid use in the study; reliability and validity of instruments used to collect data; and conclusions and interpretations to insure appropriateness of each.
2. Develop a problem appropriate for research. Examine a cross section of the current literature on the topic, placing the research problem within the context of the field.
3. Demonstrate knowledge of the reference sources available in a research library; know how and when to use available resources.
4. Compare and contrast research designs and methods and be able to identify examples, advantages, and disadvantages of each.
5. Be able to use statistics to describe a sample and make inferences.
6. Understand, design, and analyze results of various types of quantitative, qualitative, and mixed method research studies.
7. Understand the principles of measurement as they apply to specific studies.

Doctoral Students in the Counselor Education and Supervision will demonstrate the following learner outcomes.

1. **Academic and Professional Goals:** Students will demonstrate a clear vision of their professional and academic goals and academic preparation by developing and completing an approved program of study that meets the standards set forth by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).
2. **Professional Licensure:** Students will obtain professional licensure as a Licensed Professional Counselor (LPC) in the state of Wyoming and/or develop a plan to obtain licensure for the state in which they intend to relocate upon graduation.
3. **Democratic Perspectives:** Students will demonstrate development as a culturally competent, creative, skilled & ethical counselor, supervisor and educator including the areas of advocacy, leadership, social justice, and promotion of caring communities.
4. **Research and Scholarship:** Students will develop a professional identity as an academic researcher by demonstrating a clear and active research agenda that includes a plan of action for professional presentations and manuscripts.
5. **Professional Development:** Students will develop a clear and diligent plan to becoming a skilled, ethically competent counselor educator.

Master's Degree in Counseling

At the completion of the Master's degree in Counseling students will demonstrate the following learner outcomes:

1. Professional Competence & Academic Preparation for Licensed Professional Counselor (LPC): Students will demonstrate academic preparation by developing and completing an approved program of study that meets the standards set forth by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).
2. Democratic Perspectives: Students will demonstrate development as a culturally competent, creative, skilled & ethical counselor.
3. Professional Identity: Students will develop a professional identity as a professional counselor including the areas of advocacy, leadership, social justice, and promoting caring communities.
4. Academic & Professional Goals: Students will demonstrate a clear vision of their professional and academic goals.

Ph.D. in Counselor Education & Supervision

Doctoral students in Counselor Education & Supervision will demonstrate the following learner outcomes.

1. Academic & Professional Goals: Students will demonstrate a clear vision of their professional and academic goals and academic preparation by developing and completing an approved program of study that meets the standards set forth by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).
2. Professional Licensure: Students will obtain professional licensure as a Licensed Professional Counselor (LPC) in the state of Wyoming and/or develop a plan to obtain licensure for the state in which they intend to relocate upon graduation.
3. Democratic Perspectives: Students will demonstrate development as a culturally competent, creative, skilled & ethical counselor, supervisor and educator including the areas of advocacy, leadership, social justice, and promoting caring communities.
4. Research & Scholarship: Students will develop a professional identity as an academic researcher by demonstrating a clear and active research agenda that includes a plan of action for professional presentations and manuscripts.
5. Professional Development: Students will develop a clear and diligent plan to becoming a skilled, ethically competent counselor educator.

Learning, Design, and Technology

The curriculum in learning, design, and technology is designed to assist professionals in effectively developing, implementing, and evaluating systems, tools, strategies, and environments that enhance learning. Graduates from the program secure employment in PK-12 classrooms; school media and technology centers, and school district administrative offices; public, corporate, and government centers and training agencies; college and university faculty and administrative positions; design and development labs; product support teams; and consulting firms.

Degrees and Certificates Offered

Students who major in education with an option in learning, design, and technology may choose one of the following certificate or degree programs: Master of Science in Education (M.S.), Doctor of Education (Ed.D.) or Doctor of Philosophy (Ph.D.), Online instruction Certificate program (does not lead to a master's degree). The program Web site (<http://www.uwyo.edu/clad/>) provides additional information.

Program Specific Admission Requirements

For certificate applicants:

- Application letter
- Transcripts

- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years)

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years)

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For EdD applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For PhD applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale.

Special Education

The special education programs are designed to prepare teachers to work with students with varied learning and behavior needs. Students may choose from one of two programs: a master of arts in education with an option in special education or a special education endorsement program leading to eligibility for K-12 special education generalist endorsement through the Wyoming Professional Teaching Standards Board. Additionally a Special Education Director Endorsement Program is available as well. Students who complete the coursework will receive a certificate in Special Education.

Program Specific Admission Requirements

For certificate applicants:

- Special Education application form
- Transcripts
- Three letters of recommendation
- Professional Writing Sample
- Current resume
- Copy of current Wyoming teaching certificate
- Signed Memo of Understanding
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Special Education application form
- Transcripts
- Three letters of recommendation
- Professional Writing Sample
- Current resume
- Copy of current teaching certificate
- Signed Memo of Understanding
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

Program Specific Degree Requirements

Students may choose to complete the program on a part-time or full-time basis. All Special Education courses are offered either online or through video-conferencing sites within Wyoming only. See descriptions under Special Education (EDEX).

Program Specific Admission Requirements

For certificate applicants:

- Letter of interest
- Current academic resume
- Three letters of recommendation
- Transcripts
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Personal statement
- Current academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For EdD applicants:

- Personal statement
- Current academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For Ph.D. applicants:

- Personal statement
- Current academic resume
- Three letters of recommendation
- Transcripts

- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

Program Specific Graduate Assistantships

Applicants interested in a Graduate Assistantship must submit a graduate assistantship application to the College of Education no later than February 1 for fall term admission (see above).

Learner Outcomes

1. Academic Knowledge: Students will demonstrate a deep understanding of knowledge related to the nature, function and scope of adult and continuing education; historical, philosophical and sociological foundations; adult learning and development; program processes including planning, delivery, and assessment/evaluation.
2. Practical Competence: Students will demonstrate the ability to translate academic knowledge into expert practice related to their professional roles and specialized areas of interest.
3. Reflective Inquiry: Students will demonstrate a reflective stance toward their professional practice and competence with diverse, critical and global perspectives and key tools of inquiry related to this field of study.
4. Democratic Commitment: Students will demonstrate an understanding of the relationship between adult and continuing education and the complex process of democracy and a commitment to pursue this process with a focus on equal learning opportunities.
5. Professional Engagement: Students will demonstrate intellectual engagement with adult and continuing education practices through creative and scholarly pursuits, participation in professional associations, and related activities.

Educational Leadership

The curriculum in educational leadership is designed to prepare superintendents, principals, supervisors for public schools and leaders for organizations to perform duties of a specialized nature and to function effectively in a leadership capacity. The program provides sufficient breadth to give candidates for advanced degrees ample opportunity to develop essential competencies.

Degrees and Certificates Offered

Students who major in education with an option in educational leadership may choose one of the following certificate or degree programs: Principal Certificate program for eligibility of a K-12 Principal Certificate endorsement, School District Superintendent Certificate, Master of Arts in Education, Doctor of Education and Doctor of Philosophy.

Program Specific Admission Requirements

For certificate applicants:

- Transcripts
- Copy of current teaching certificate
- Principal program application
- Superintendent approval form
- Letter of intent
- Three letters of recommendation
- Current resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 teaching experience
- Master's degree in an education-related field

For master's applicants:

- Letter of intent
- Current resume
- Copy of current teaching certificate
- Principal program application
- Superintendent approval form
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 teaching experience

For EdD applicants:

- Application letter
- Current CV or academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 educational administrative experience

For PhD applicants:

- Application letter
- Current CV or academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 educational administrative experience

Learner Outcomes

2018 NELP District Standards

1. NELP Standard 1: Mission, Vision, and Improvement: Collaboratively lead, design, and implement a district mission, vision, and process for continuous improvement that reflects a core set of values and priorities that include data use, technology, values, equity, diversity, digital citizenship, and community.
2. NELP District Standard 2: Ethics and Professional Norms: Advocate for ethical decisions and cultivate professional norms and culture
3. NELP District Standard 3: Equity, Inclusiveness, and Cultural Responsiveness: Develop and maintain a supportive, equitable, culturally responsive, and inclusive district culture.
4. NELP District Standard 4: Learning and Instruction: Evaluate, design, cultivate, and implement coherent systems of curriculum, instruction, supports, assessment, and instructional leadership.
5. NELP District Standard 5: Community and External Leadership: Understand and engage families, communities, and other constituents in the work of schools and the district and to advocate for district, student, and community needs.
6. NELP District Standard 6: Operations and Management: Develop, monitor, evaluate, and manage district systems for operations, resources, technology, and human capital management.
7. NELP District Standard 7: Policy Governance and Advocacy: Cultivate relationships, lead collaborative decision making and governance, and represent and advocate for district needs in broader policy conversations.
8. NELP District Standard 8: Internship: Successfully complete an internship under the supervision of knowledgeable, expert practitioners that engages candidates in multiple and diverse district settings and provides candidates with coherent, authentic, and sustained opportunities to synthesize and apply the knowledge and skills identified in NELP Standards 1-7 in ways that approximate the full range of responsibilities required of district-level leaders and enable them to promote the current and future success and well-being of each student and adult in their district.

2018 NELP Building Standards

1. NELP Building-Level Standard 1: Mission, Vision, and Improvement: Collaboratively lead, design, and implement a school mission, vision, and process for continuous improvement that reflects a core set of values and priorities that include data, technology, equity, diversity, digital citizenship, and community.
2. NELP Building-Level Standard 2: Ethics and Professional Norms: Understand and demonstrate the capacity to advocate for ethical decisions and cultivate and enact professional norms.
3. NELP Building-Level Standard 3: Equity, Inclusiveness, and Cultural Responsiveness: Develop and maintain a supportive, equitable, culturally responsive, and inclusive school culture.

4. NELP Building-Level Standard 4: Learning and Instruction: Evaluate, develop, and implement coherent systems of curriculum, instruction, data systems, supports, and assessment.
5. NELP Building-Level Standard 5: Community and External Leadership: Engage families, community, and school personnel in order to strengthen student learning, support school improvement, and advocate for the needs of their school and community.
6. NELP Building-Level Standard 6: Operations and Management: Improve management, communication, technology, school-level governance, and operation systems; to develop and improve data-informed and equitable school resource plans; and to apply laws, policies, and regulations.
7. NELP Building-Level Standard 7: Building Professional Capacity: Build the school's professional capacity, engage staff in the development of a collaborative professional culture, and improve systems of staff supervision, evaluation, support, and professional learning.
8. NELP Building-Level Standard 8: Internship: Successfully complete an internship under the supervision of knowledgeable, expert practitioners that engages candidates in multiple and diverse school settings and provides candidates with coherent, authentic, and sustained opportunities to synthesize and apply the knowledge and skills identified in NELP standards 1-7 in ways that approximate the full range of responsibilities required of building-level leaders and enable them to promote the current and future success and well-being of each student and adult in their school.

Educational Research

The educational research faculty offer ten courses on a regular basis in educational research. These courses are open to graduate students throughout the college and the university. In addition, we offer two minors in educational research, one is qualitative research methods and one in quantitative research methods. Students currently enrolled in any UW master's or doctoral program are eligible for these minors. Both minors require students to complete 16 credit hours, a research project, and a co-teaching experience in educational research.

Learner Outcomes

The goals of the educational research courses in the College of Education include developing the necessary skills, concepts, and understanding of research methodology to evaluate, use, and conduct research in a student's specific discipline. This goal requires the ability to do the following:

1. In a research study, critique the following the research problem and hypothesis; general design to insure that correct conclusions are possible from the statistical analysis; statistical analysis procedures to establish their valid use in the study; reliability and validity of instruments used to collect data; and conclusions and interpretations to insure appropriateness of each.
2. Develop a problem appropriate for research. Examine a cross section of the current literature on the topic, placing the research problem within the context of the field.
3. Demonstrate knowledge of the reference sources available in a research library; know how and when to use available resources.
4. Compare and contrast research designs and methods and be able to identify examples, advantages, and disadvantages of each.
5. Be able to use statistics to describe a sample and make inferences.
6. Understand, design, and analyze results of various types of quantitative, qualitative, and mixed method research studies.
7. Understand the principles of measurement as they apply to specific studies.

Learning, Design, and Technology

The curriculum in learning, design, and technology is designed to assist professionals in effectively developing, implementing, and evaluating systems, tools, strategies, and environments that enhance learning. Graduates from the program secure employment in PK-12 classrooms; school media and technology centers, and school district administrative offices; public, corporate, and government centers and training agencies; college and university faculty and administrative positions; design and development labs; product support teams; and consulting firms.

Degrees and Certificates Offered

Students who major in education with an option in learning, design, and technology may choose one of the following certificate or degree programs: Master of Science in Education (M.S.), Doctor of Education (Ed.D.) or Doctor of Philosophy (Ph.D.), Online instruction Certificate program (does not lead to a master's degree). The program Web site (<http://www.uwyo.edu/clad/>) provides additional information.

Program Specific Admission Requirements

For certificate applicants:

- Application letter
- Transcripts
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For EdD applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least

two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency. In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For PhD applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale.

Learner Outcomes

1. Academic Knowledge: Students will demonstrate a deep understanding of knowledge related to the nature, function and scope of instructional technology; historical, philosophical and sociological foundations; research; and program processes including planning, development, delivery, and assessment/evaluation.
2. Design: Students will demonstrate how to determine organization and learner needs, specify conditions for learning, and conduct task analyses, instructional sequencing, delivery, and project and resource management. Students will also demonstrate how visual elements, information literacy, and delivery media affect message design in traditional and online environments.
3. Development: Students will demonstrate how to convert design plans into physical and computer-based resources aligned to professional learning goals, standards, and objectives. They will also demonstrate how to deliver these resources via physical and electronic media.
4. Evaluation: Students will demonstrate skills required to conduct both formative and summative assessments of instructional episodes and resources. These include problem analysis, expert review, usability testing, and instrument development and validation.
5. Practical Competence: Students will demonstrate the ability to translate academic knowledge into expert practice related to their professional roles and specialized areas of interest.
6. Professional Engagement: Students will demonstrate intellectual engagement and a reflective stance with instructional technology practices through creative and scholarly pursuits, advisor research, participation and presentations in professional associations, and related activities.

Special Education

The special education programs are designed to prepare teachers to work with students with varied learning and behavior needs. Students may choose from one of two programs: a master of arts in education with an option in special education or a special education endorsement program leading to eligibility for K-12 special education generalist endorsement through the Wyoming Professional Teaching Standards Board. Additionally a Special Education Director Endorsement Program is available as well. Students who complete the coursework will receive a certificate in Special Education.

Program Specific Admission Requirements

For certificate applicants:

- Special Education application form
- Transcripts
- Three letters of recommendation
- Professional Writing Sample
- Current resume
- Copy of current Wyoming teaching certificate
- Signed Memo of Understanding
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Special Education application form
- Transcripts
- Three letters of recommendation
- Professional Writing Sample
- Current resume
- Copy of current teaching certificate
- Signed Memo of Understanding
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

Special Education Director Endorsement Program

Learner Outcomes

Upon completion of the Master of Arts or the K-12 Certificate program in Special Education, the candidates will demonstrate their knowledge and skills in:

1. **Learner Development/Individual Learning Differences.** Special education professionals understand how disabilities may interact with development and learning and use this knowledge to provide meaningful and challenging learning experiences for students with disabilities.
2. **Learning Environments.** Special education professionals create safe, inclusive, and culturally responsive learning environments so that students with disabilities become active and effective learners and develop emotional wellbeing, positive social interactions, and self-determination.

3. **Curricular Content Knowledge.** Special education professionals use knowledge of general and specialized curricula to individualize learning for students with disabilities.
4. **Assessment.** Special education professionals use multiple methods of assessment and data sources in making educational decisions.
5. **Instructional Planning and Strategies.** Special education professionals select, adapt, and use a repertoire of evidence-based instructional strategies to advance learning of students with disabilities.
6. **Professional Learning and Ethical Practice.** Special education professionals use foundational knowledge of the field and their professional ethical principles and practice standards to inform special education practice, to engage in lifelong learning, and to advance the profession.
7. **Collaboration.** Special education professionals collaborate with families, other educators, related service providers, students with disabilities, and personnel from community agencies in culturally responsive ways to address the needs of students with disabilities across a range of learning experiences.

College of Engineering and Physical Sciences

2085 Engineering Building

Cameron Wright, Acting Dean

Phone: (307)766-4253 FAX: (307)766-4444

Web site: ceas.uwyo.edu

Engineering is a profession that truly makes a difference. Engineers constantly discover how to improve lives by creating new solutions to real world problems and needs. From small villages to large cities, engineers are involved in innovative improvements to all aspects of life from health care, to energy production, to protecting and rehabilitating the environment, to developing the newest technological device. The broad background of communication, mathematical, scientific, and problem solving skills provided at the University of Wyoming will prepare engineering graduates to pursue careers in engineering, construction, environmental policy, even medicine or law. The possibilities are endless! The creativity and innovative thinking developed in engineering enables students to lead rewarding lives, work with inspiring people, and give back to their communities. Computer science is a profession that is closely affiliated with engineering. At the University of Wyoming, degrees in computer science are awarded through the College of Engineering and Applied Science. The technology trends in this industry are also advancing at a tremendous rate. This requires that computer science education be at the forefront of new computing technologies, software languages, and networking.

Mission

The University of Wyoming's College of Engineering and Applied Science will provide excellent education, research, and service in chosen fields of engineering and applied science. The College emphasizes connectivity with society, life-long learning, and the essential problem-solving and collaborative skills needed to address the frontier challenges facing Wyoming, the nation and the world.

Design Experiences

In direct support of the goals of the individual departments within the College of Engineering and Applied Science, the design process is consistently developed and integrated throughout the curriculum from the freshman year through the senior year. Within the engineering science program, design elements such as basic analysis skills, communication skills, experimental skills, computational skills, problem solving skills, and design methodology are taught. At the

departmental level, these skills are developed further and the concepts of design methodology are reinforced. The design process culminates in a comprehensive design experience within the student's major.

Accreditation

The following undergraduate programs are accredited by the Engineering Accreditation Commission of ABET: architectural engineering, chemical engineering, civil engineering, computer engineering, electrical engineering, energy systems engineering, mechanical engineering, and petroleum engineering.

Various options within different engineering programs are accredited as part of the primary major. That is, the electrical engineering/ bioengineering option is accredited as an electrical engineering degree, and the chemical engineering/petroleum option is accredited as a chemical engineering degree.

The Bachelor of Science in Computer Science is accredited by the Computer Accreditation Commission of ABET.

Programs of Study

Undergraduate Degrees

- Bachelor of Science in Architectural Engineering
- Bachelor of Science in Chemical Engineering
- Bachelor of Science in Civil Engineering
- Bachelor of Science in Computer Engineering
- Bachelor of Science in Computer Science
- Bachelor of Science in Computer Science (Computers and Business Option)
- Bachelor of Science in Computer Science (Big Data Option)
- Bachelor of Science in Construction Management
- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Electrical Engineering (Francis M. Long bioengineering option)
- Bachelor of Science in Energy Systems Engineering
- Bachelor of Science in Mechanical Engineering
- Bachelor of Science in Petroleum Engineering

Graduate Degrees

Master of Science

- Architectural engineering
- Atmospheric science
- Chemical engineering
- Civil engineering
- Civil engineering/water resources
- Computer science
- Computer science professional
- Electrical engineering
- Environmental engineering
- Mechanical engineering
- Petroleum engineering

Doctor of Philosophy

Atmospheric science
Chemical engineering
Civil engineering
Computer science
Electrical engineering
Mechanical engineering
Petroleum engineering

Candidates for the various master's degrees in engineering are required to do a full year's work in residence either under Plan A or Plan B.

Students should understand that a strong background in mathematics is necessary to actively pursue an engineering curriculum. Credit toward an engineering degree is not allowed for algebra and trigonometry.

Coursework in all four-year curricula stresses the mastery of subjects fundamental to all fields of engineering. The balance of the program is divided between cultural context and courses applying to the particular field selected. The aim is to provide the student with such groundwork that the general principles acquired may be used successfully in any one of the several specialized fields he or she may follow after graduation.

Depending on the major, a minimum of 120 to 132 semester hours of credit is required for the bachelor's degree from the College of Engineering and Applied Science. All course work must be selected with prior approval. Detailed outlines of curricula are presented later under headings of the various departments of the college. Since most engineering programs are similar during the first year, students may change an engineering major during this time with little or no loss in credit.

Degree candidates must meet the academic requirements of the university and must have a grade point average of 2.000 (C) or above in all engineering courses attempted at this university.

Students may not take a course for S/U credit to satisfy any requirement for a degree from the College of Engineering and Applied Science, unless the course is offered for S/U credit only.

The College of Engineering and Applied Science adheres to prerequisite coursework being completed before moving forward to advanced coursework. If a student is found to be enrolled in a course without meeting the prerequisites, the student will be administratively dropped from the course.

All undergraduate engineering programs within the College of Engineering and Applied Science use the Fundamentals of Engineering Exam as one of their methods of outcomes assessment. As a graduation requirement, students must complete the exam, with a good faith effort, within one year prior to their expected graduation.

Preparation for the profession of engineering requires diligent work in the various curricula. The required credit hours can be completed in a four-year program, but because of the rigorous nature of some of the courses involved, some students may require additional time to complete degree requirements.

All engineering curricula are subject to minor program changes. The published curricula are general guides. Prospective students should consult the individual departments for current information.

International Engineering Minor

Students in the College of Engineering and Applied Science may earn a Minor in International Engineering. The Minor requires:

- a) a study abroad experience;
- b) 9 credits of lower-division coursework; and
- c) 9 credits of upper-division coursework.

More detailed requirements are available at: <http://www.uwyo.edu/ceas/academics/intleng.html>

Graduate Study

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following master's degrees: master of science in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, environmental engineering, mechanical engineering, and petroleum engineering. Candidates for the various master's degrees in engineering are required to do a full year's study in residence either under Plan A or Plan B.

Only graduates with satisfactory GPAs in programs accredited by ABET are granted full admission to graduate study. In addition, graduates with satisfactory GPAs in undergraduate disciplines of meteorology, physics, mathematics, or related fields can be granted full admission to graduate studies in atmospheric science. Other engineering graduates can be admitted on a provisional basis.

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following doctoral degrees: doctorate in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, mechanical engineering, and petroleum engineering. Interdisciplinary programs of study and research leading to one of the above disciplinary degrees can be developed.

Engineering Science

Program Director: David Mukai, Ph.D.
2076 Engineering Building,
(307) 766-6181
FAX: (307) 766-4444

Engineering Science offerings present the fundamental engineering concepts upon which most engineering analysis and design work is based. Faculty are drawn from all of the academic departments in the college. These core courses represent the majority of engineering offerings at the freshman and sophomore level.

Courses in engineering science have their roots in mathematics and physical science, extending knowledge toward creative application. Thus, students must take their courses in calculus, chemistry, physics, and engineering science in a timely manner. Details are given in the published curriculum for each program. **A grade of C or better must be earned in all courses that are prerequisite to any required engineering science course.**

Department of Atmospheric Science

6034 Engineering Building, (307) 766-3245
FAX: (307)766-2635
Web site: www.atmos.uwyo.edu
Department Head: Jeffrey French

Professors:

BART GEERTS, Licenciaat Physical Geography Katholieke University, Belgium 1984; Engineer in Irrigation Sciences 1986; Ph.D. University of Washington 1992; Professor of Atmospheric Science 2011, 1999.

Associate Professor:

JEFFREY R. FRENCH, B.S. South Dakota School of Mines 1992; M.S. 1994; Ph.D. University of Wyoming 1998; Associate Professor of Atmospheric Science 2021, 2015.

ZACHARY J. LEBO, B.S. Pennsylvania State University 2007; M.S. 2009; Ph.D. California Institute of Technology 2012; Associate Professor of Atmospheric Science 2021, 2015.

SHANE MURPHY, B.S. University of Colorado 2000; Ph.D. California Institute of Technology 2009; Associate Professor of Atmospheric Science 2019, 2011.

Assistant Professors:

DANA CAULTON, B.S. Indiana University 2010; Ph.D. Purdue University 2014; Assistant Professor of Atmospheric Science 2018.

DANIEL T. MCCOY, B.S., New Mexico Institute of Mining and Technology, 2010; PhD., Atmospheric Science, University of Washington, 2016. Assistant Professor of Atmospheric Science 2020.

Adjunct Professors:

Xiaohong Liu
Zhien Wang

Professors Emeritus:

Terry L. Deshler, Robert D. Kelly, John D. Marwitz, Derek C. Montague, Thomas R. Parish, Alfred R. Rodi, Jefferson R. Snider, Gabor Vali

Atmospheric Science is a rapidly evolving discipline aimed at better understanding the earth's atmosphere and sits at the nexus between meteorology, physics, chemistry, biology, engineering, mathematics and computer science. The entire development of atmospheric science demonstrates how progress can result from the application of knowledge developed in the basic sciences to a complex environmental system. Concurrently, atmospheric scientists develop many observational and analytical techniques unique to the study of the atmosphere. Over the past decades, atmospheric science developed vigorously, stimulated by the availability of the latest satellite, ground-based and aircraft observations, as well as the availability of large computers for numerical simulations of atmospheric processes. At the same time, the importance of the atmosphere as a crucial resource in the welfare and survival of humankind is being recognized, as knowledge about how the atmosphere behaves is obtained.

The Department of Atmospheric Science offers graduate programs leading to the M.S. and Ph.D. degrees.

In these graduate programs, great emphasis is placed on the active research involvement of students both during the academic year and during the summer months. The low student to faculty ratio in the department ensures an atmosphere of cooperation among students, faculty and staff. Student theses and dissertations form integral parts of the department's research productivity and usually lead to articles published in the refereed literature.

Research interests in the department center around cloud and precipitation physics, cloud and mesoscale atmospheric dynamics, boundary layer processes, tropospheric aerosols and atmospheric chemistry, climate change, instrumentation and air quality. These interests are reflected in the department's academic program, which has the breadth and depth necessary to give students a background for entering into many different types of employment upon graduation.

A number of unique research tools are available in the department. Prominent among these is the King Air research aircraft which carries extensive instrumentation and computer-directed data acquisition systems. A mobile lab for sampling near surface atmospheric gases and aerosols can be deployed across the United States. Excellent laboratory facilities are available in the department's spacious quarters. These laboratories focus on cloud physics, remote sensing, aerosol, and atmospheric chemistry. Well-equipped electronic and mechanical construction and design facilities are conducive for work in instrument development. A wide range of computer facilities are available, including access to the NCAR/Wyoming Supercomputer Center(NWSC). The Department of Atmospheric Science is the lead user of the Wyoming allocation of the NWSC.

A prerequisite for admission to the graduate program is a bachelor's degree in meteorology, engineering, physics, chemistry, mathematics or a similar relevant discipline. Graduate assistantships are available by application to the department and are awarded on the basis of past record and promise for achievement.

For material containing further details on curriculum and research programs, write to the graduate admissions coordinator or visit the web site at www.uwyo.edu/atsc/.

Graduate Study

The Department of Atmospheric Science offers degree programs leading to the master of science and doctor of philosophy degrees. The department has strong research programs in the following areas: cloud physics and dynamics; tropospheric aerosols and clouds; greenhouse gases; air pollution and wildfires; boundary layer processes; remote sensing; and airborne instrumentation. The department's observational facilities are: 1) the King Air research aircraft (UWKA); 2) the Air Quality Mobile Lab and the Wyoming Air Quality Monitoring Lab; 3) the Wyoming Cloud Radar (WCR) and Wyoming Cloud Lidar (WCL) for the study of cloud structure and composition; and 4) the Keck Aerosol Laboratory. The UWKA, WCR, and WCL are designated Lower Atmospheric Observing Facilities by the National Science Foundation (NSF). Please refer to the departmental homepage at www.atmos.uwyo.edu for programmatic updates, or contact the department directly.

Program Specific Admission Requirements

Admission based on the university minimum requirements. Admissions are competitive.

Program Specific Graduate Assistantships

Assistantships are offered for both the M.S. and Ph.D. tracks.

Program Specific Degree Requirements

Master's Program

Approval of research plan by the graduate committee Colloquium and oral defense of M.S. thesis Approval of M.S. thesis by the graduate committee Requires a minimum of 26 hours of acceptable graduate coursework and four hours of thesis research and a thesis (final written project). 21 in-residence coursework hours

Doctoral Program
